Behavioral Health Services Opioid Settlement Funds

Presentation to the Family and Human
Services Committee of the Board of
Supervisors

**Suzanne Tavano, PhD Behavioral
Health Director**

**Fatima Matal Sol, AOD Program Chief
Elissa Kim, MPH Opioid Response Coordinator**

May 14, 2025

THE LAWSUITS AGAINST THE PHARMACEUTICAL COMPANIES

During the course of the opioid overdose epidemic, state, local, and tribal governments have brought lawsuits against pharmaceutical and drug distribution companies to recover costs associated with the epidemic and ensure that future crises are prevented.

Though often referred to in tandem, the Janssen & Distributors (J&D) Settlements come from two separate agreements – one through a nationwide lawsuit against Janssen Pharmaceuticals and the other through a nationwide lawsuit against McKesson, AmerisourceBergen, and Cardinal Health (“the Distributors”).

Opioid Settlement Funds Background

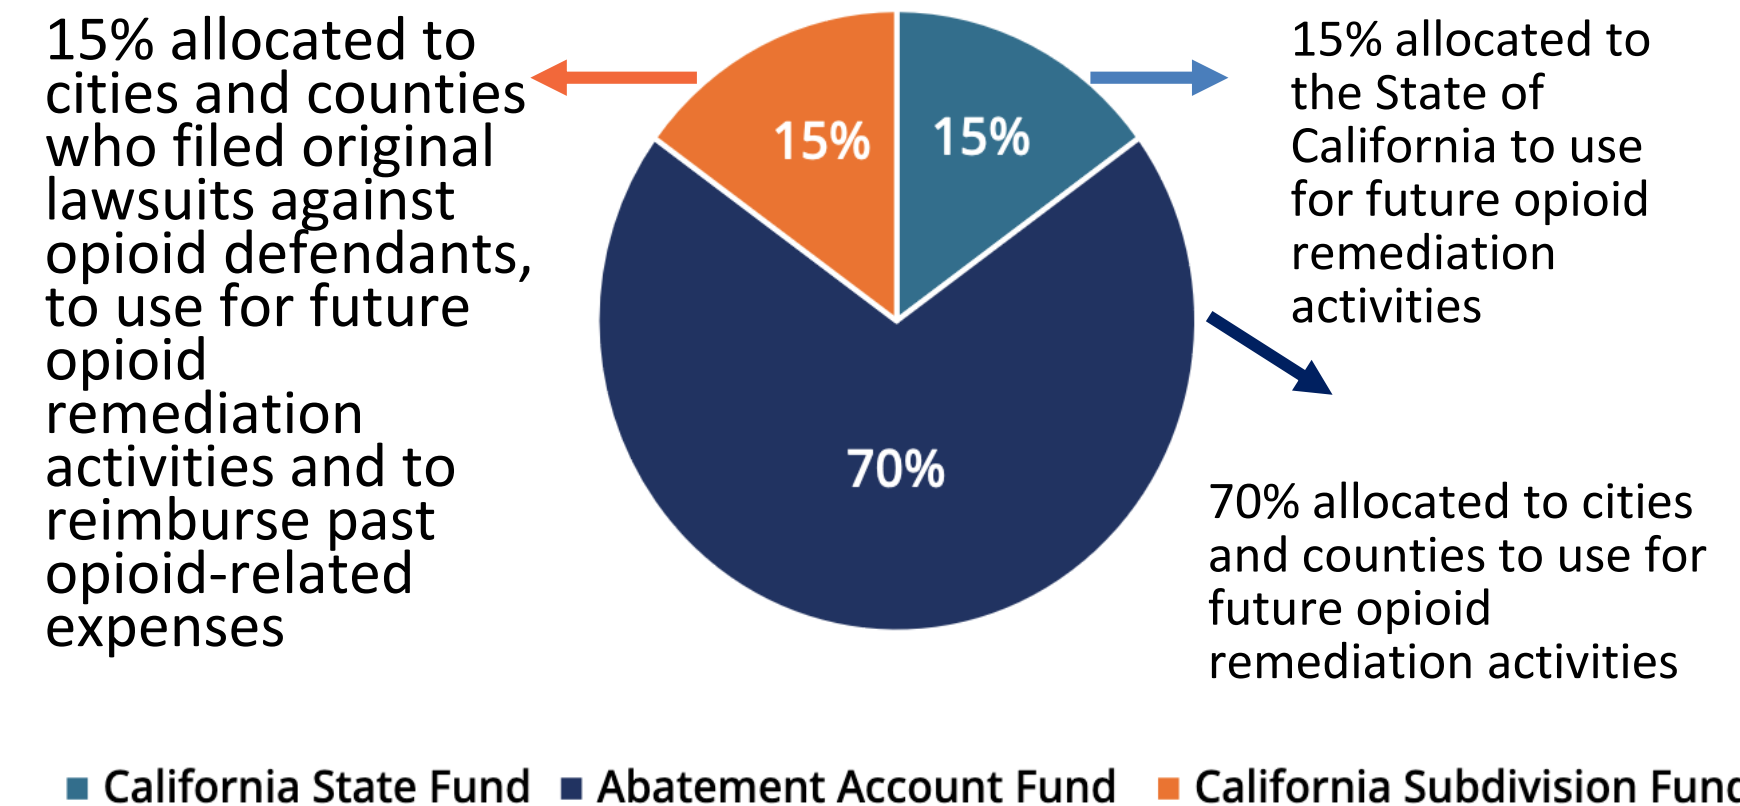

Overview

- Participating companies include: Janssen (J&J), McKesson, Cardinal Health, AmerisourceBergen, Teva, Walgreens, CVS and Walmart
- California is expected to receive approximately \$2.05 billion from the J&D Settlement Agreements, which will be paid through 2038. The majority of funds will be provided to Participating Subdivisions to be used for opioid abatement activities
- Contra Costa County receives funding through participation in California's national opioid settlement agreements finalized in 2022–2023.¹

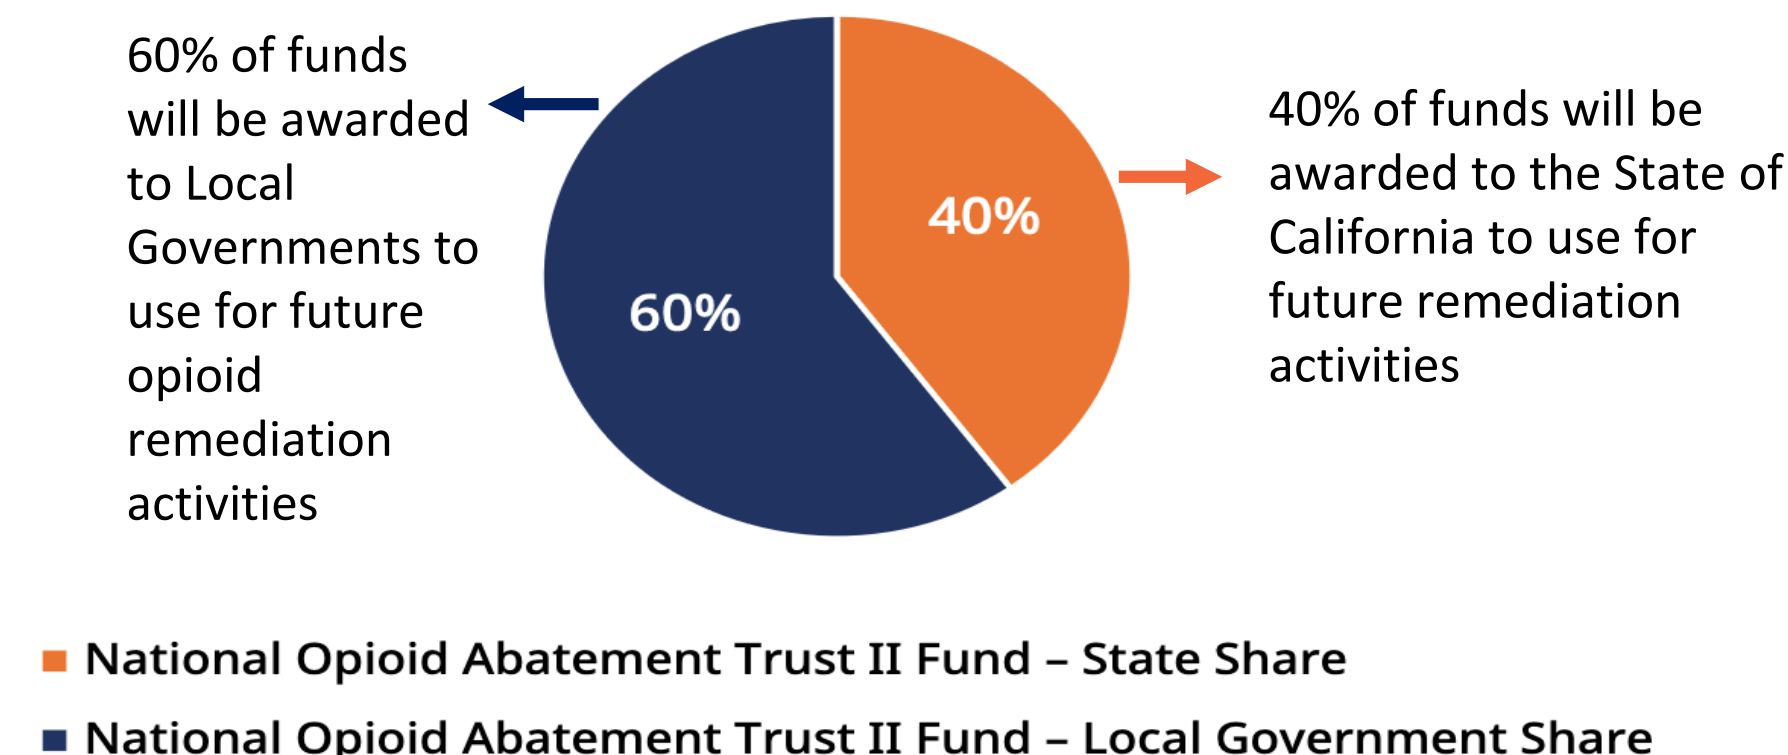

Administration and Oversight

- Funds are overseen by the California Department of Health Care Services (DHCS).² Payments are distributed and tracked by the national settlement administrator BrownGreer PLC.
- Funds would be disbursed annually for up to 18 years
- Administrative cost are capped at no >5% of jurisdiction's total funding allocation

Distribution of California's Opioid Settlements

Distribution of California's Bankruptcy Settlements

Abatement Activities and Allowable Expenditures

No less than 50% - High Impact Abatement Activities (HIAA)

No.	Activity
1	Provision of matching funds or operating costs for substance use disorder facilities with an approved project within the Behavioral Health Continuum Infrastructure Program (BHCIP)
2	Creating new or expanded substance use disorder (SUD) treatment infrastructure
3	Addressing the needs of communities of color and vulnerable populations (including sheltered and unsheltered homeless populations) that are disproportionately impacted by SUD
4	Diversion of people with SUD from the justice system into treatment, including by providing training and resources to first and early responders (sworn and non-sworn) and implementing best practices for outreach, diversion and deflection, employability, restorative justice, and harm reduction
5	Interventions to prevent drug addiction in vulnerable youth

Priority Core Abatement Strategies & Exhibit E

Schedule A: Core Strategies

- » Naloxone or Other FDA-Approved Drug to Reverse Opioid Overdoses
- » Medication-Assisted Treatment (MAT) Distribution and Other Opioid-Related Treatment
- » Pregnant and Postpartum Women (screening, referral, treatment, etc.)
- » Expanding Treatment for Neonatal Abstinence Syndrome (NAS)
- » Expansion Of Warm Hand-Off Programs and Recovery Services
- » Treatment for Incarcerated Population
- » Prevention Programs
- » Expanding Syringe Service Programs
- » Evidence-Based Data Collection and Research Analyzing the Effectiveness of the Abatement Strategies Within the State

FUNDS RECEIVED TO DATE

SETTLEMENT SOURCE	AMOUNT RECEIVED TO DATE
ABATEMENT FUNDS	17,397,375.95
SUBDIVISION FUNDS	3,877,714.43
CA MALLINGCKRODT ALLOCATION (NOAT II)	464,041.82
ENDO PUBLIC OPIOID TRUST	419,145.65
MCKINSEY SUBDIVISION SETTLEMENT	441,906.26
Amount Received to Date	\$22,600.184.11
AMOUNT SPENT TO DATE	1,014,996.37
FY23/24	175,426.65
FY24/25	839,569.72

ROLLING OVER/ENCUMBERING FUNDS

- Participating Subdivisions may roll over funds from the previous year and/or encumber funds for future eligible purchases.
- Funds must be expended or encumbered within five (5) years of receipt, or seven (7) years for capital outlays projects
- For example, funds received during 2022 must be spend or encumbered by 2027 (five (5) years) for non-capital outlay projects or 2029 (seven (7) years) for capital outlay projects. Funds not expended or encumbered within these timeframes must be returned to the state.

We are currently receiving allocations from the following three settlements:

Distributors Settlement

- National Opioid Settlement Allocation Notice (NOAT II) PY1

2.Janssen Settlement

- more cities opted out of direct payments for this settlement than did for the distributors

3.Mallincrodt Bankruptcy proceeds

- NOAT II – Planned Allocation Letter

REALLOCATED AMOUNTS BY CITY

UNALLOWABLE ACTIVITIES

Participating Subdivisions suspected of spending funds allocated from the Janssen & Distributors (J&D) Settlements on unallowable activities, whether through review of reports or information from any other sources, will be required to meet and confer with DHCS to resolve the concern. If unable to reach a resolution, DHCS may conduct an audit of the Subdivision's use of the funds and pursue legal action

CITIES/SUBDIVISIONS	SUM OF REALLOCATED AMOUNTS
Brentwood	198,940.49
Antioch	23,943.13
Clayton	16,684.63
Danville	75,991.55
El Cerrito	174,630.01
Hercules	14,600.09
Lafayette	42,525.16
Martinez	71,732.84
Oakley	75,424.28
Orinda	35,251.44
Pinole	20,687.77
Pleasant Hill	98,213.43
Richmond	224,103.59
San Ramon	163,021.18
Walnut Creek	195,977.59
Grand Total	\$1,431,727.18

About The Opioid Epidemic

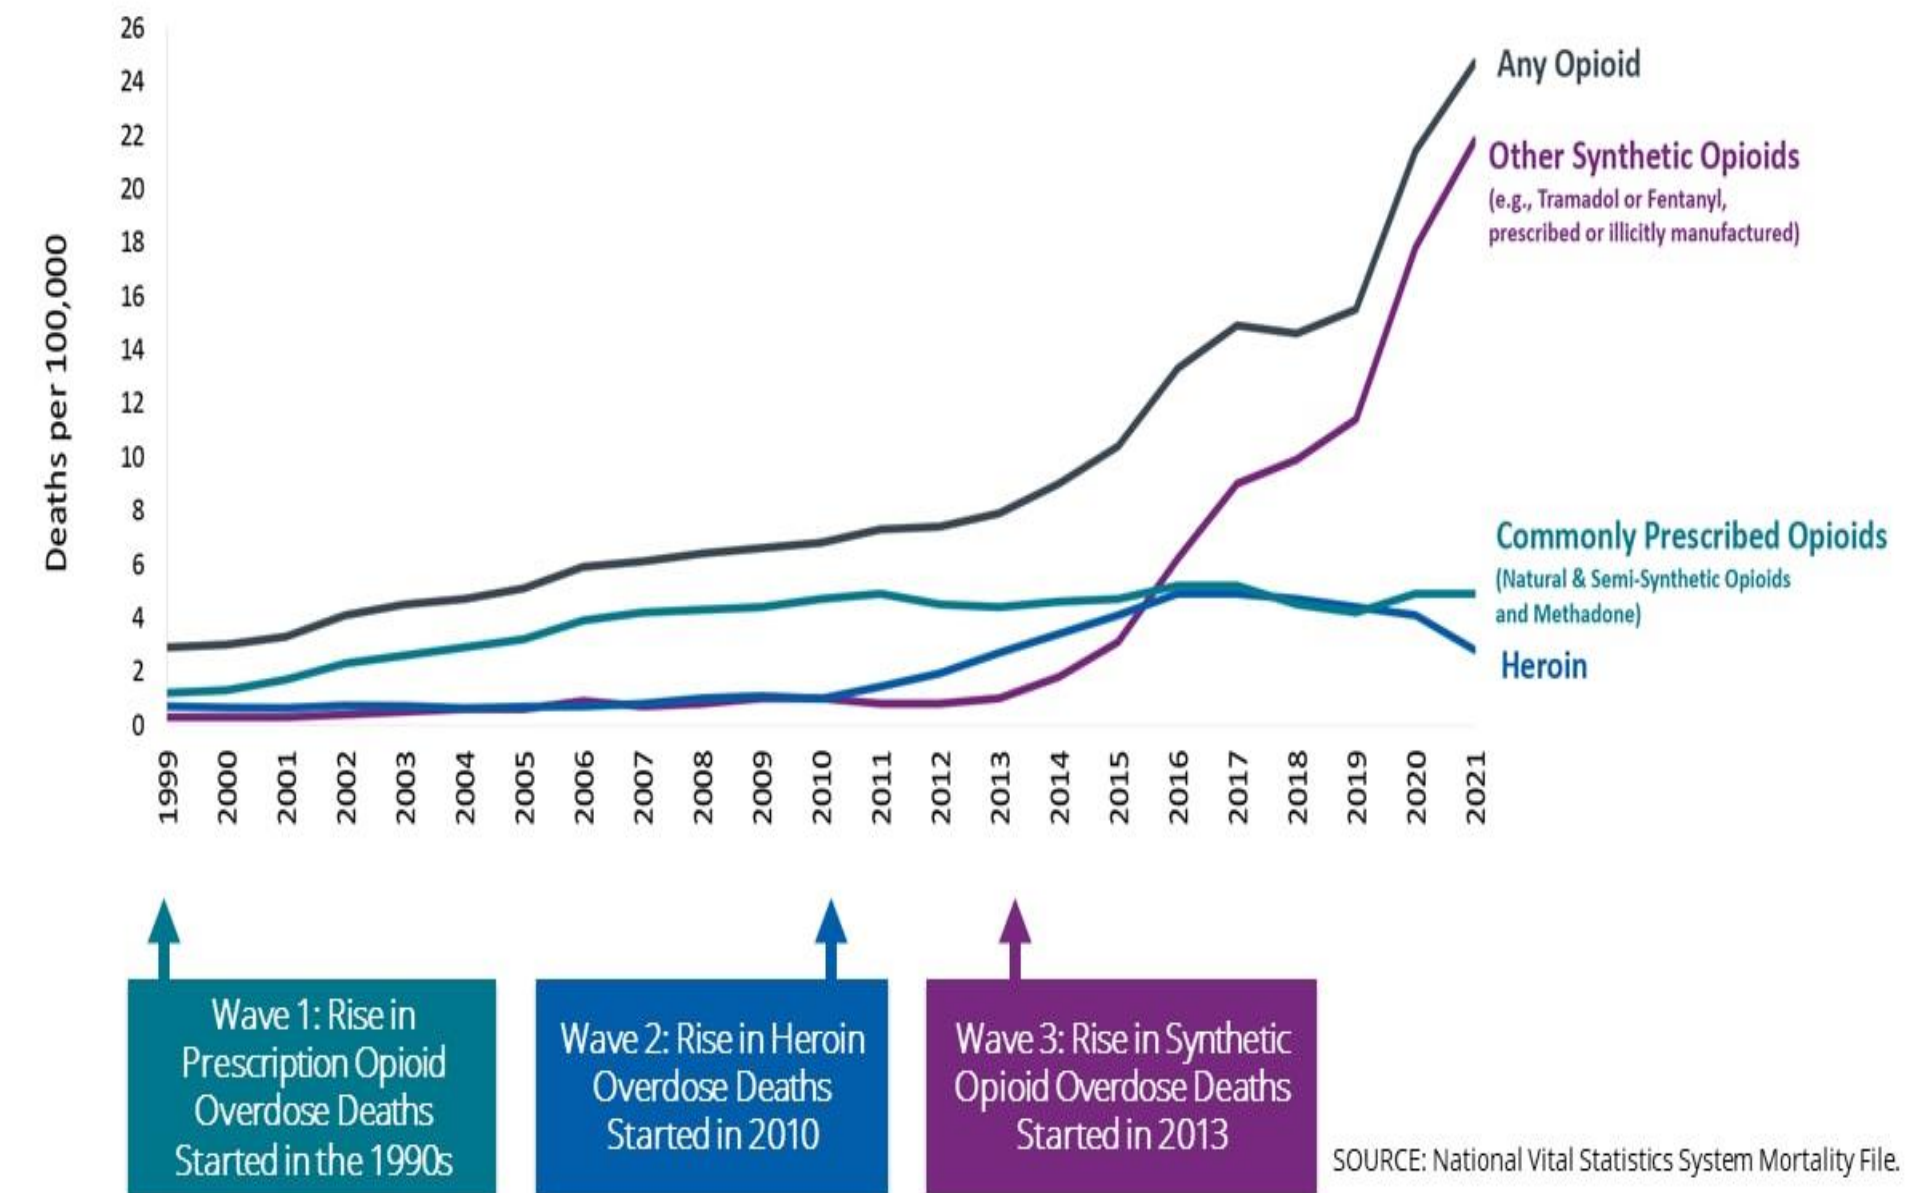

The Centers for Disease Control (CDC) has highlighted that the opioid epidemic has evolved through waves.

- Wave 1** Rise of prescription opioid misuse in 1990s
- Wave 2** Rise in heroin use in 2010s
- Wave 3** A sharp increase in synthetic opioids (e.g., Fentanyl) in 2013

Opioid Impact Timeline

- 1999-2021** Nearly **645,000** people died in the U.S. from overdoses involving prescription and illicit opioids
- 2017** Opioid epidemic was declared a national public health emergency in the U.S. with **47,600** opioid-related overdose deaths reported that year
- 2017-2022** **70,237** people died due to opioid-related overdoses with fentanyl accounting for a significant portion of these deaths in the U.S.

Three Waves of Opioid Overdose Deaths

https://www.cdc.gov/overdose-prevention/media/images/sharable-graphics/overdoseprevention-3-waves-opioid-overdose-deaths-1999-2021.png?CDC_AAref_Val=https://www.cdc.gov/opioids/basics/epidemic.html

The Fourth Wave

Polysubstance Trends: The Fourth Wave

Between 2015 and 2021, most overdose deaths in the United States involved synthetic opioids like fentanyl with stimulants and/or methamphetamine marking the transition to a “fourth wave” of the opioid crisis.

California has also experienced a significant increase in poly-substance overdose deaths, particularly those involving a combination of fentanyl and psychostimulants, primarily methamphetamine

LOCAL NEWS

Man Found Dead Inside Bathroom At Concord BART Station

June 28, 2023 - 10:01 AM • 68 comments

A man was found dead inside the bathroom at the Concord BART station on Tuesday, according to officials.

Just after 3 p.m., Officers located an adult male who appeared to be suffering from an apparent overdose in the bathroom.

The officers administered two doses of NARCAN and summoned for medical assistance.

LOCAL NEWS

Man Dies Of Apparent Drug Overdose On BART Train In Dublin – Authorities Administer NARCAN To Another Drug User At Pleasant Hill BART

July 3, 2023 - 3:00 PM • 0 comment

A person died of an apparent drug overdose on a BART train at the West Dublin Station on July 1, and another person was administered a dose of NARCAN to help reverse another drug overdose, according to BART Police.

Here are the details from BART Police:

NARCAN Deployment – Pleasant Hill Station

7/1/2023 1648 hours An officer administered one (1) dose of NARCAN to an unresponsive male subject who appeared to be suffering from an apparent drug overdose. The subject was transported to an area hospital for further medical treatment.

OAKLEY POLICE RESPOND TO FENTANYL OVERDOSE CALL

By Art Ray

written by CC News | November 19, 2024

Photo by Art Ray

The Department responded to two people found unconscious at the Antioch fishing pier parking lot.

Contra Costa County Fire responded to the end of Bridgehead Road. Upon arrival, one victim was cold to the touch while the second male was saved by Oakley Police Department officers who had administered a counteracting

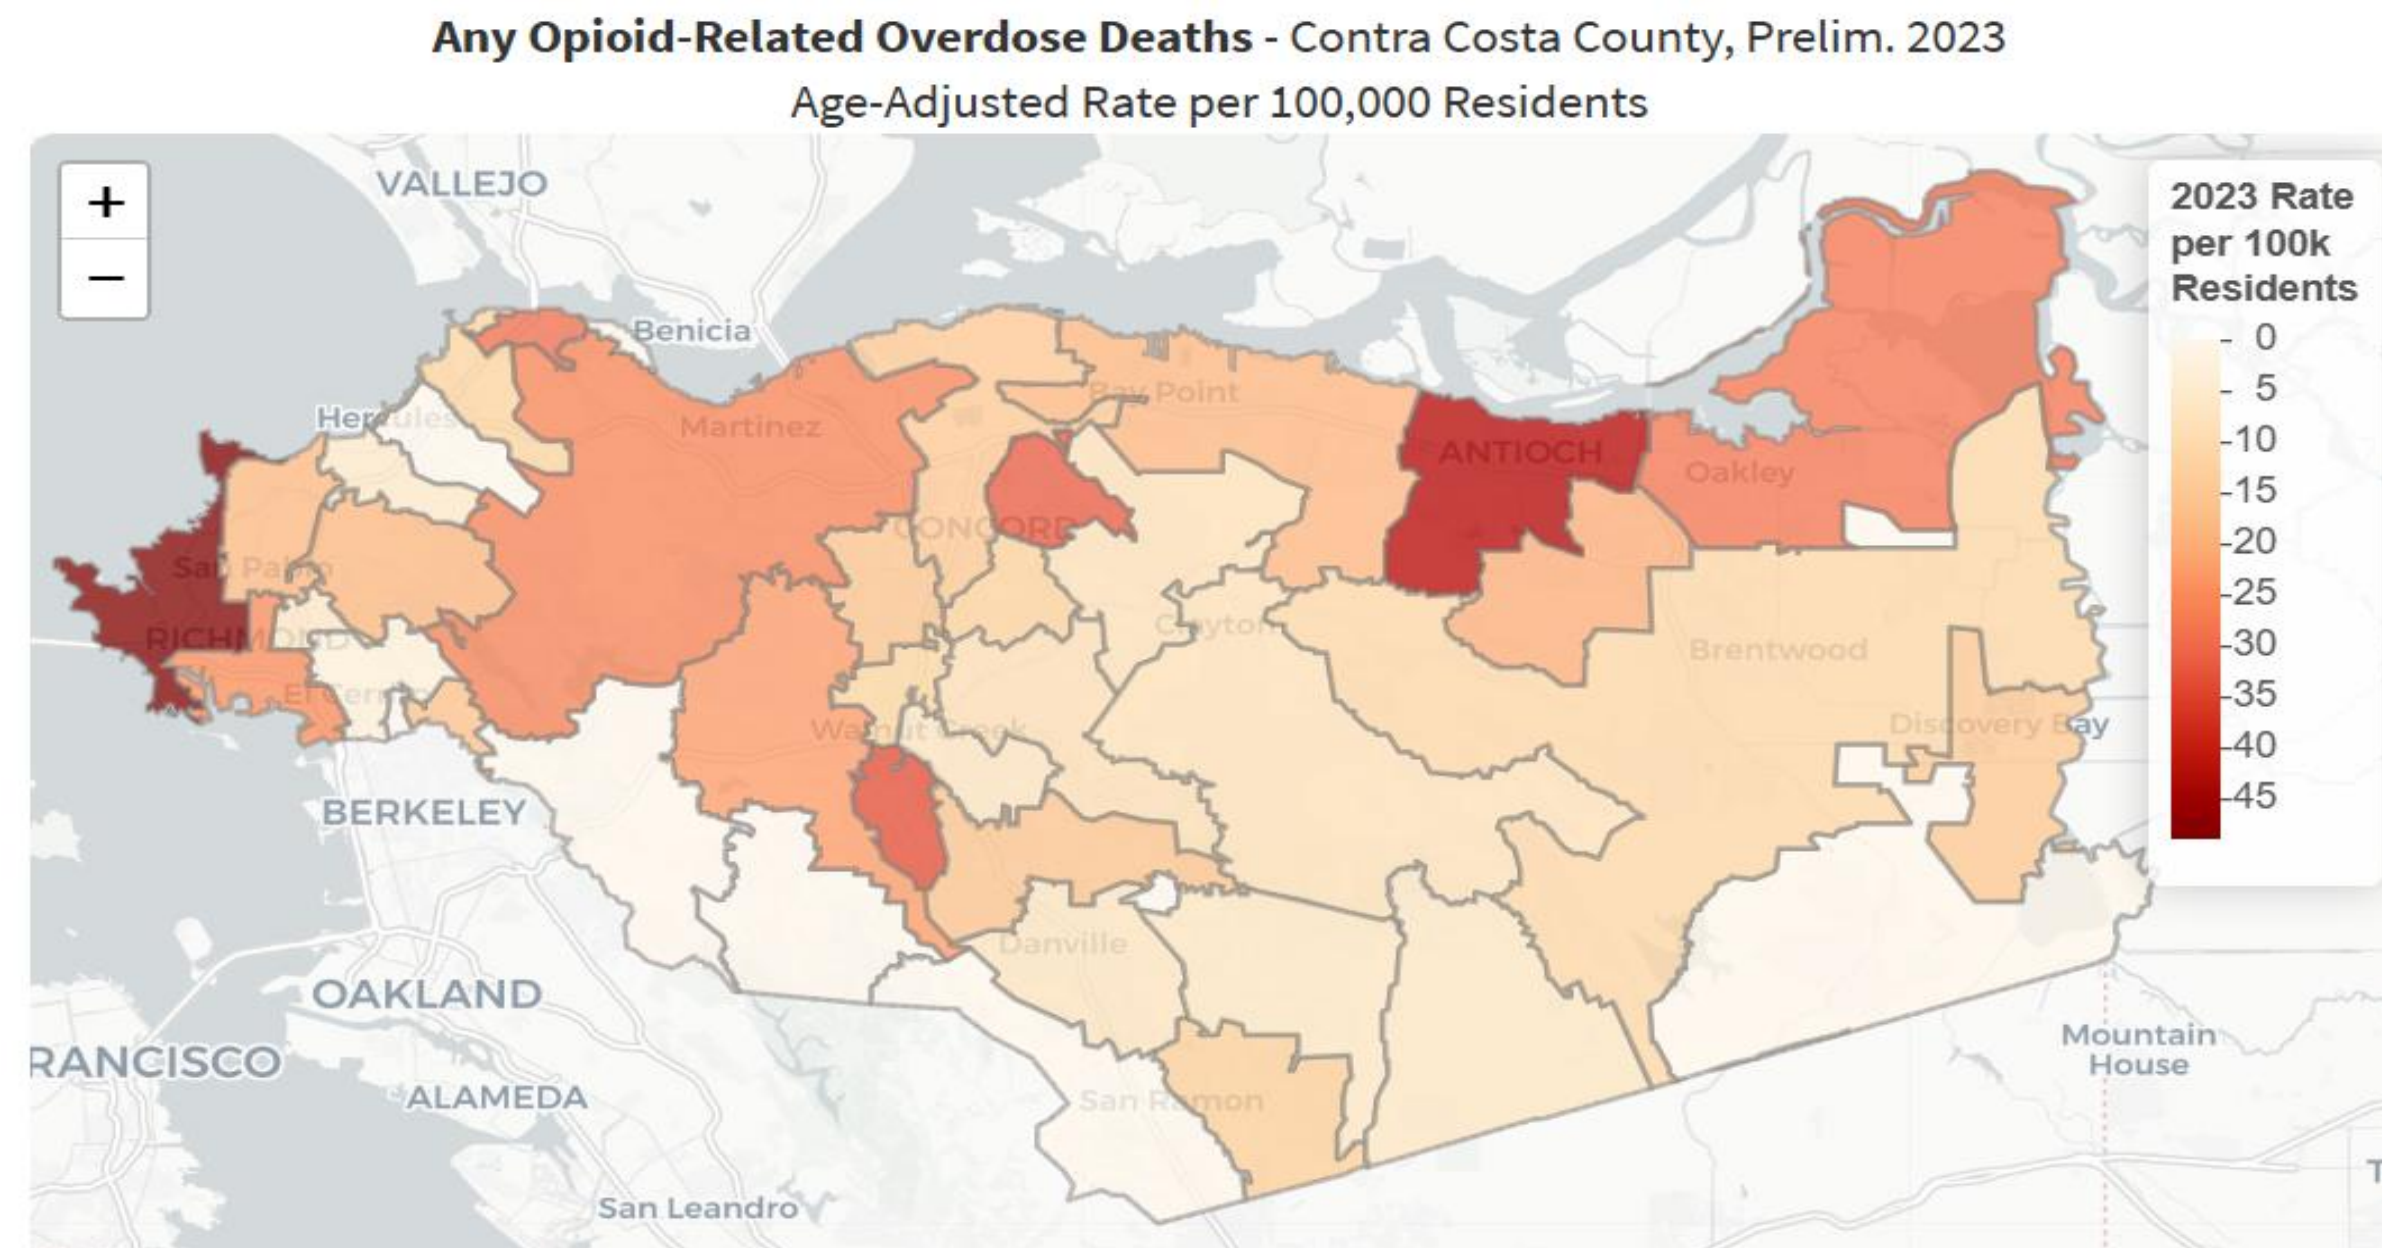

California Opioid Overdose Surveillance Dashboard 2023 Data

Opioid Overdose Risk Across County

- Age-adjusted death rates shown by ZIP code for 2023
- Age adjustment accounts for population differences across regions
- Enables accurate comparison of overdose risks across communities

Key Findings

- Richmond (rate: 48.6, per 100,000) and Antioch (rate: 42.3 per 100,000) report highest overdose death rates
- Elevated rates also observed in Pittsburg, Oakley, Bay Point, and parts of Concord and South County
- There were **178** overdoses in 2023

178 (16.6/100k)

Deaths Related to Any Opioid Overdose in Contra Costa County, 2023

Opioid Related Emergency Department Visits

Any Opioid-Related Overdose ED Visits - Contra Costa County by Race/Ethnicity, 2023
Age-Adjusted Rate per 100,000 Residents

- Black/African American residents: highest ED visit rate (116.3 per 100,000)
- Native American/Alaska Native residents: 58.8 per 100,000 (interpret cautiously)
- Hispanic/Latino residents: 25.5 per 100,000
- White residents: 52.5 per 100,000
- Asian/Pacific Islander residents: lowest ED visit rate (3.6 per 100,000; interpret cautiously)

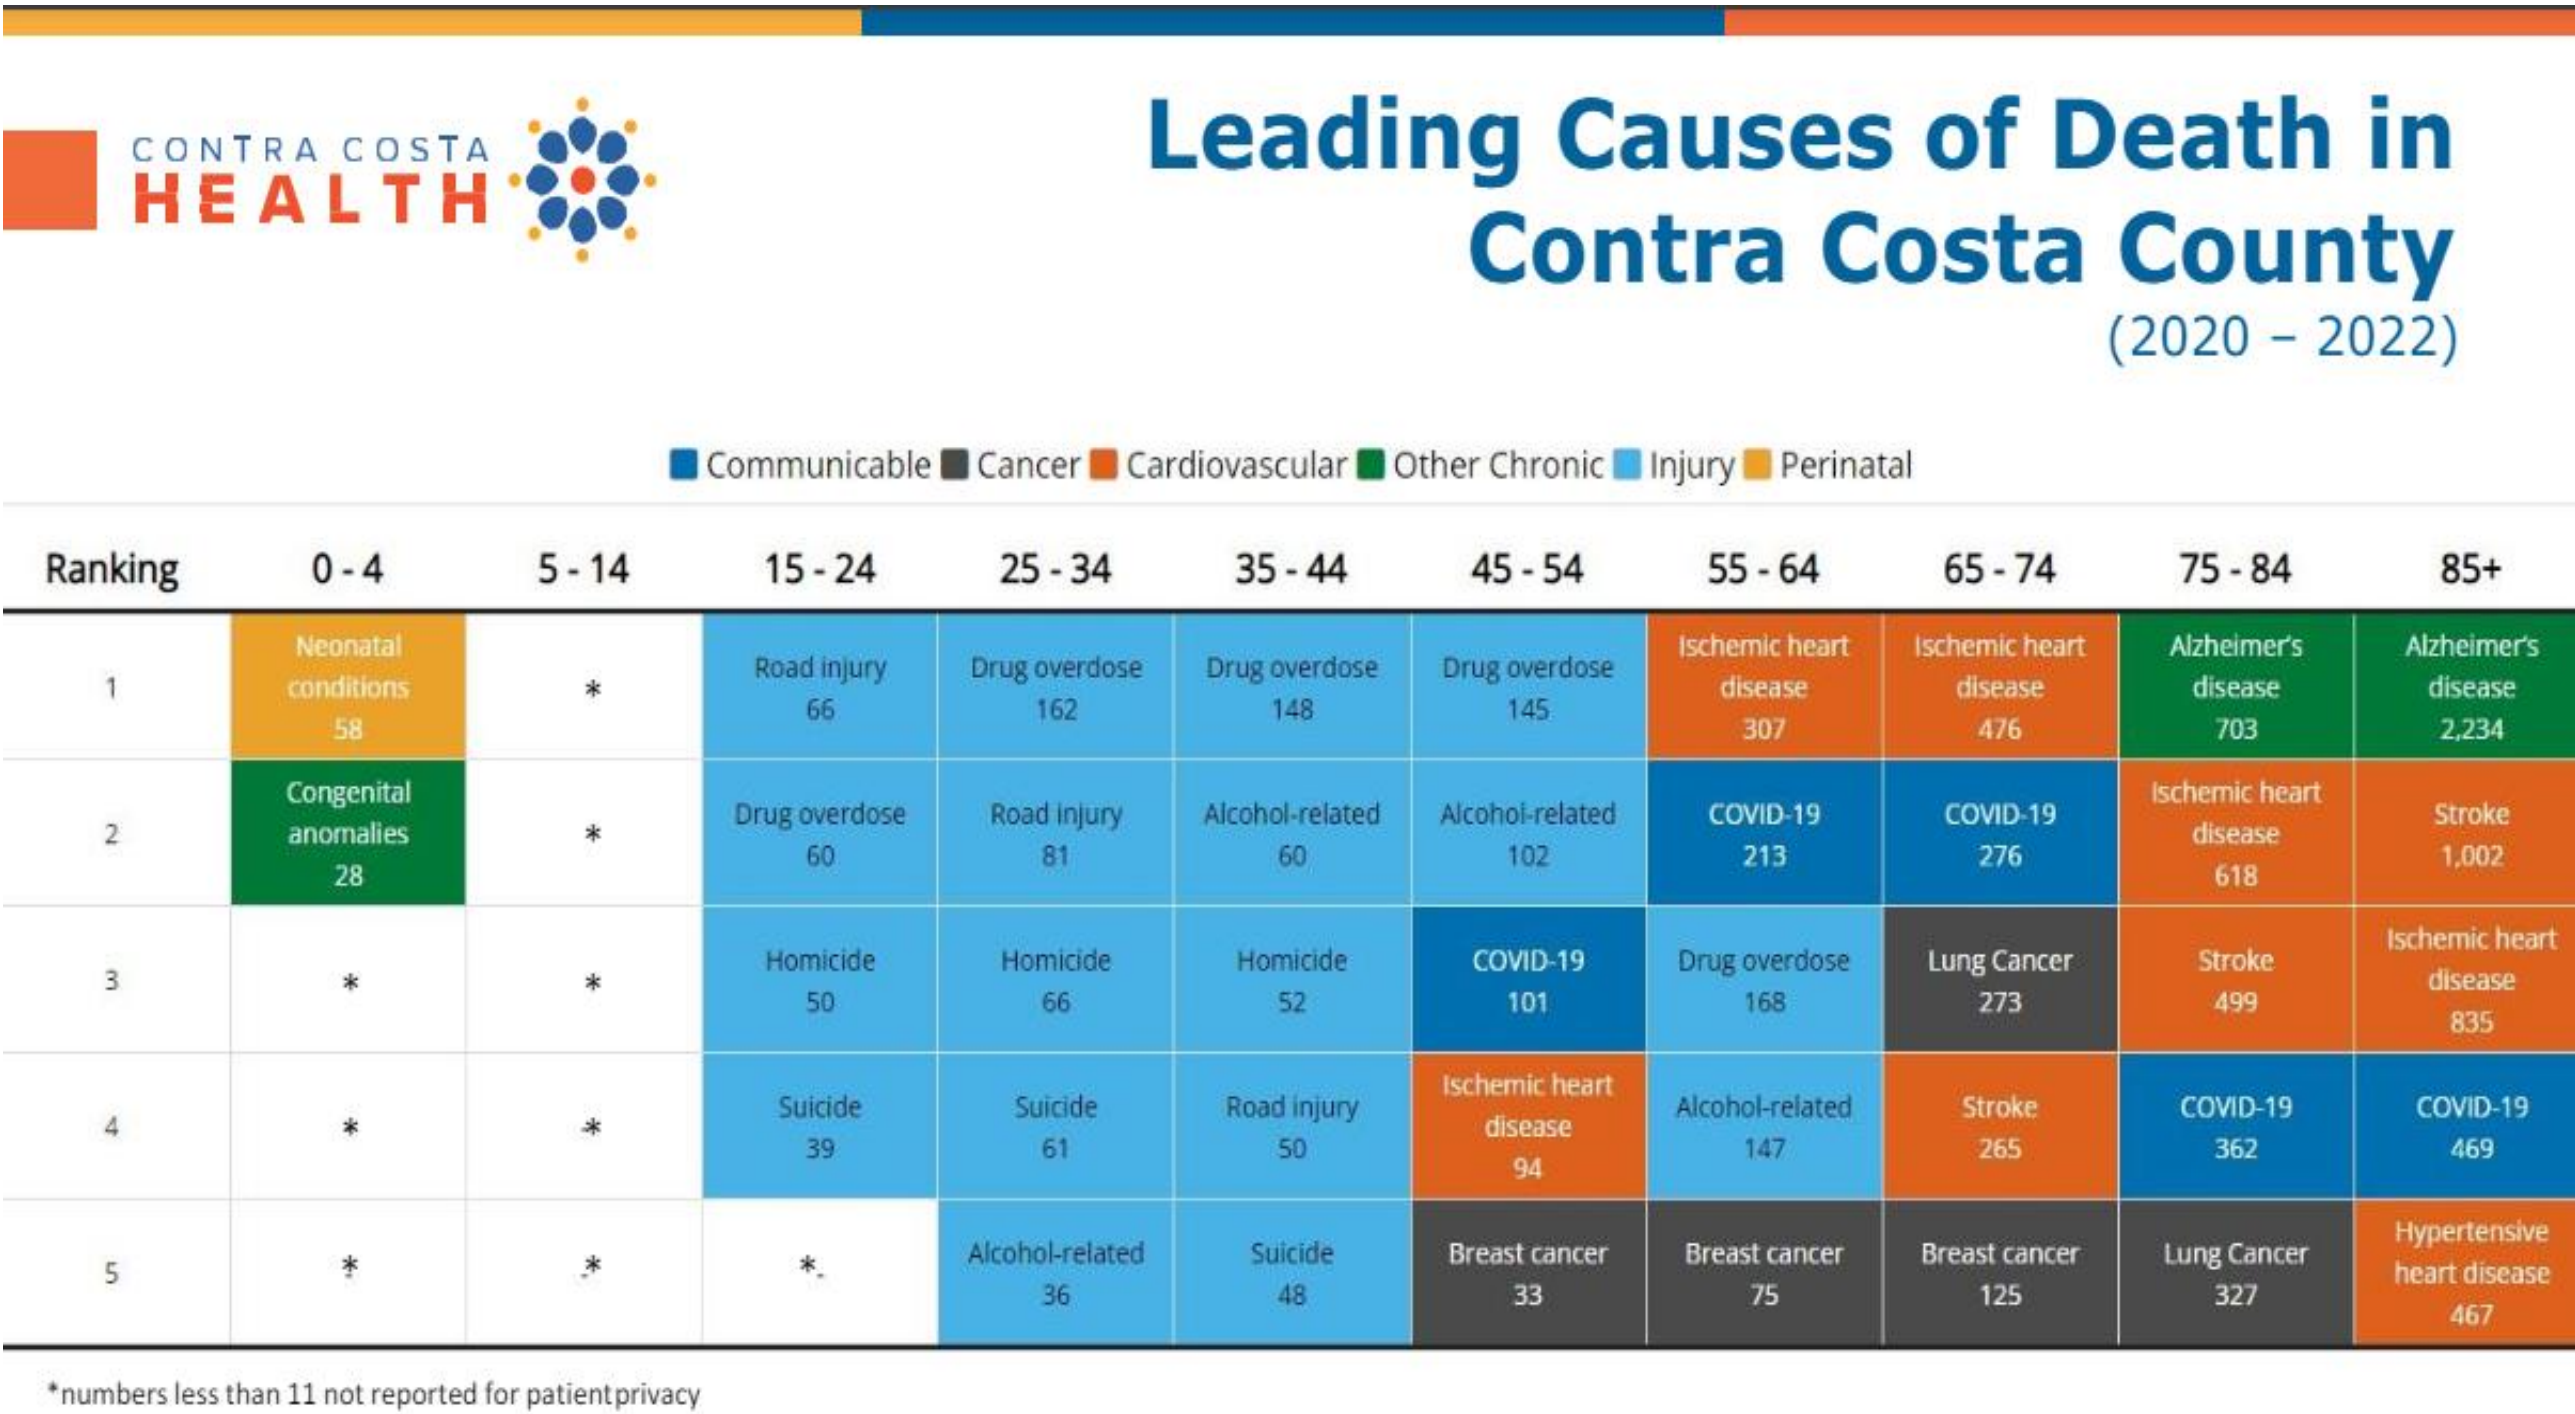

407 (39/100k)

ED Visits Related to Any Opioid Overdose in Contra Costa County, 2023

127 (10.8/100k)

Hospitalizations Related to Any Opioid Overdose in Contra Costa County, 2023

Opioid-Related Mortality Trends

On August 13, 2024, Contra Costa County’s Interim Health Services Dr. Ori Tzvieli, presented mortality data from the County’s ATLAS dashboard, covering 2020 to 2022.

- Drug overdose emerged as the leading cause of death among residents aged 25 to 54.
- Residents aged 15 to 24, ranked as second leading cause of death.

These patterns highlight the need for interventions to address opioid misuse and prevent overdose fatalities across all age groups.

Drug Medi-Cal (DMC) Claim Data Trends

Drug Medi-Cal Organized Delivery System (DMC-ODS) Penetration Rates

CCBHS administers DMC-ODS as a Prepaid Inpatient Health Plan (PIHP). The system provides full continuum of care: prevention, treatment, and MAT services. Health Services also operates Choosing Change a MAT program at Federally Qualified Health Centers (FQHCs) and public health clinics

Measuring Access to Service

- Penetration Rate (PR) = % of Medi-Cal eligible individuals who received SUD services
- Higher PR indicates stronger access to care
- Lower PR signals service delivery gaps or barriers to treatment

Areas for Improvement

- Ongoing efforts to improve PR among:
- Latino/Hispanic populations
 - Asian/Pacific Islander populations
 - Justice-involved individuals
 - Focus on reducing barriers and enhancing culturally/linguistically competent care

Contra Costa County's DMC-ODS Medi-Cal eligible population, the number of members served, and corresponding penetration rates by age group for Calendar Year 2022.

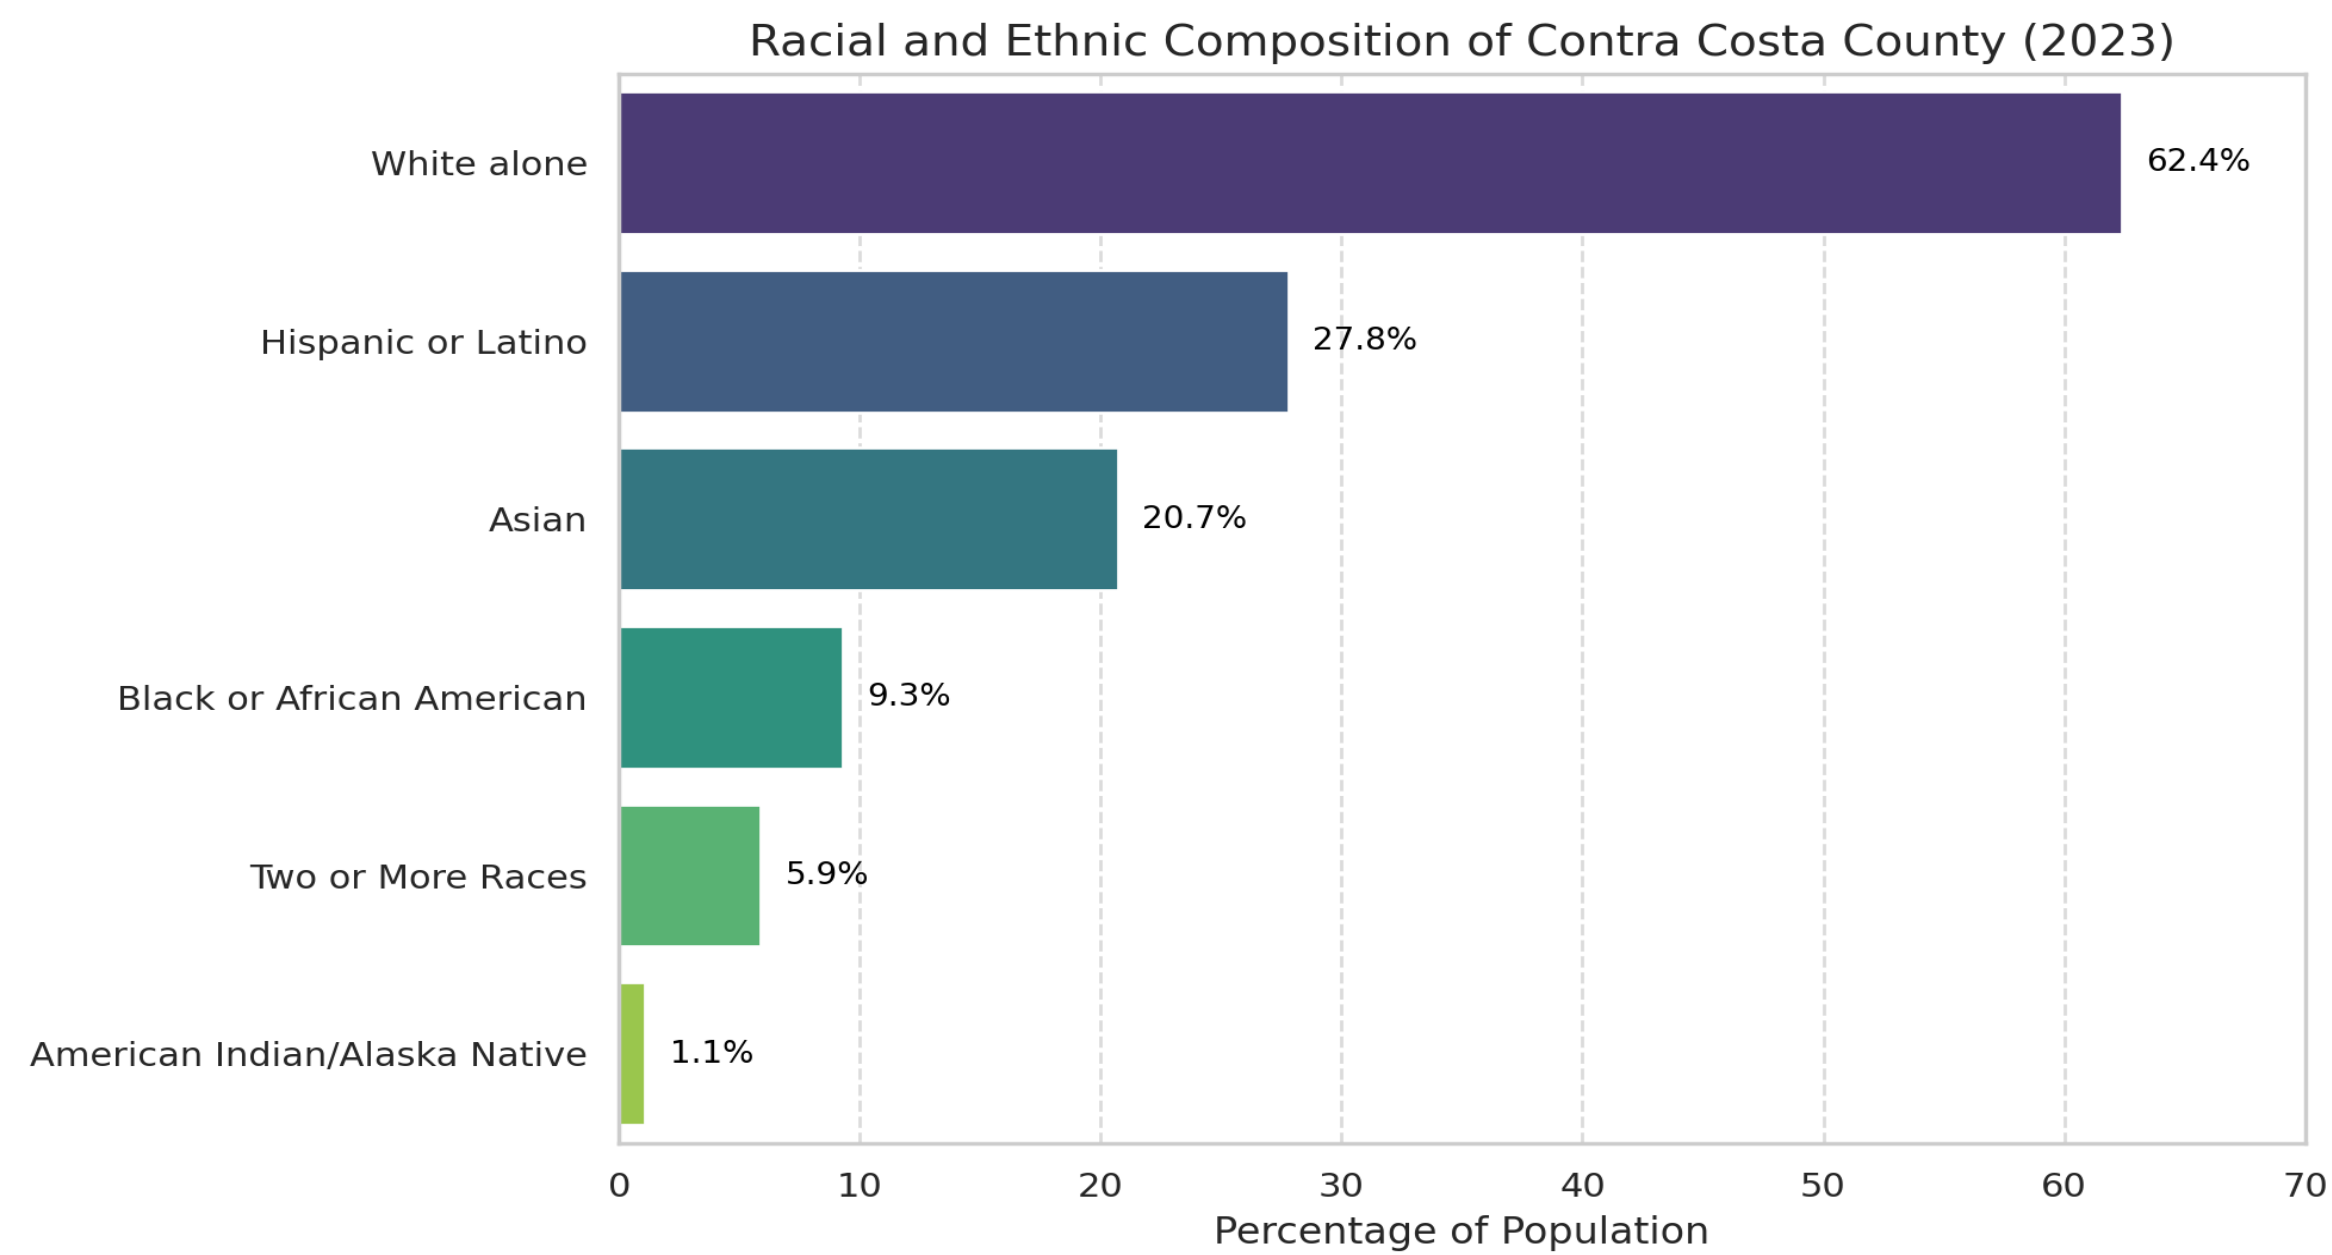

Age Groups	# Members Eligible	# Members Served	County PR	County Size Group PR	Statewide PR
Ages 12-17	35,236	122	0.35%	0.29%	0.25%
Ages 18-64	177,604	2,315	1.30%	1.29%	1.19%
Ages 65+	34,052	214	0.63%	0.56%	0.49%
Total	246,892	2,651	1.07%	1.04%	0.95%

DMC-ODS Medi-Cal eligible population, members served, and penetration rates by race and ethnicity for Calendar Year 2022.

Racial/Ethnic Groups	# Members Eligible	# Members Served	County PR	Same Size Counties PR	Statewide PR
African American	31,665	457	1.44%	1.29%	1.19%
Asian/Pacific Islander	28,883	60	0.21%	0.15%	0.15%
Hispanic/Latino	76,183	396	0.52%	0.74%	0.69%
Native American	628	16	2.55%	2.34%	2.01%
Other	68,336	872	1.28%	1.34%	1.26%
White	41,200	850	2.06%	1.89%	1.67%

County Population Data

According to the 2023 American Community Survey (ACS)¹ racial and ethnic composition of Contra Costa County is characterized by diversity:

Note: Categories are not mutually exclusive. Individuals may identify with more than one group.

The County’s diverse racial and ethnic composition underscores the importance of culturally responsive, equity-focused opioid prevention and treatment strategies.

[1. U.S. Census Bureau QuickFacts: Contra Costa County, California](#)

Preliminary Approval

In November 2021, Contra Costa Health presented a Preliminary Plan for the use of Opioid Settlement Funds (OSF), contingent on local jurisdictions electing to defer their individual allocations to the County. Because of the urgency to respond to the local impact, in 2023 the CAO and local Cities approved the preliminary plan for the use of OSF until community input could be gathered.

Phase 1

- Medi-Cal match towards operating cost for existing SUD providers to bolster services and capacity.
- Focus on Justice Involved Populations: SUD treatment in the jails. Addition of counselors, medication
- Add 1FTE Addiction Medicine Psychiatrist to assist with establishment of MAT expansion to include medical treatment for Alcohol disorders.
- Develop Adolescent/Youth SUD Treatment Infrastructure (Residential and Outpatient)
- Leadership and Coordination (1 FTE Coordinator) to support implementation of County's Opioid Prevention and Response Program ensure inclusiveness and diversity of community stakeholders, address needs of communities of color and disproportionately impacted

Phase 2

- Continue to fund MEDS Coalition and add staff as needed.
- Fund Harm Reduction strategies including working with Needle Exchange Sites
- Increase SUD street outreach capacity in Recovery Residences, homeless shelters, libraries, encampments, BART stations, etc.
- Provide comprehensive care management services to pregnant and postpartum individuals with OUD
- Social Media Campaign to increase public awareness. (Billboard, bus banners, web page design/operation)

Opioid Settlement Funds Requirements

Guiding Principles for Allocating Opioid Settlement Funds¹

- Have a transparent process for determining where to expend the funds. Include people with lived experience and individuals working in prevention, treatment, harm reduction and recovery when planning.
- Seek input from a wide variety of groups during planning, including experts in SUD treatment, organizations working directly with youth and people who use drugs, opioid focused coalitions, law enforcement personnel, recovery community organizations, and social service organizations.
- Solicit and use input from the public to help raise the profile of the plans and give those community members with unique perspectives the opportunity to provide feedback.

OPIOID COMMUNITY LISTENING

We want to hear from you about the services needed in Contra Costa County to address the opiate epidemic in our communities.

Please let your voice be heard!

EAST COUNTY LISTENING SESSION MAY 8TH, 4:30- 6:30 340 MARINA BLVD IN PITTSBURG	CENTRAL COUNTY LISTENING SESSION MAY 9TH, 9:30- 11:30 2380 BISSO LANE IN CONCORD
SOUTH COUNTY LISTENING SESSION MAY 15TH, 5:30- 7:00 HTTPS://US02WEB.ZOOM.US/J/86471048719? PWD=BF0IETRJTU9QOWU9ST084YJN4MMZVQT09	WEST COUNTY LISTENING SESSION MAY 16TH, 11:30- 1:30 2200 MACDONALD AVE IN RICHMOND

You can also share your feedback online at:
<https://survey.alchemer.com/s3/7820053/CCBHS-Opioid-Settlement-Funds-Community-Feedback>

If you would like to request interpretation or other accommodations, please email Jessica.Recinos@cchealth.org

*Overdose prevention supplies will also be available at these events.

Opioid Community Listening Sessions

Informing Opioid Settlement Fund Priorities

Behavioral Health staff and the Indigo Project conducted 4 regional Community Listening Sessions across East, Central, West and South County (in-person and virtual). KGO coverage.

- ✓ 397 surveys completed (81% English, 19% Spanish)
- ✓ Participants included parents, youth, justice-involved individuals, homeless and BH providers, faith-based organizations
- ✓ In person sessions with Spanish speaking parents and clients in SUD treatment and in jail
- ✓ Youth on probation and participating in SUD prevention services

Why Listening Session

- ✓ Community engagement is important to equitable opioid response
- ✓ Ensure the settlement funds reflect real community needs

Emerging Themes

- Expand youth residential treatment and MAT-friendly sober living environments
- Support justice-involved and unhoused individuals with navigation services and care management
- Increase culturally responsive care
- Provide overdose education and increase Naloxone access
- Launch stigma-reduction public education campaigns to reduce stigma and increase awareness of treatment options
- Expand SUD treatment including detox services in East County, focus on co-occurring services

Opioid Crisis

A CONTRA COSTA RESPONSE

A Call to Action

BEHAVIORAL HEALTH DIVISION

Opioid Settlement Funds

MARCH 2025

Contra Costa's A Call to Action uplifts the voices of people in recovery and in treatment. It includes unhoused and incarcerated clients.

Incorporates the expert advice of individuals working in prevention, harm reduction, treatment and recovery

In March 2025, BHS published "A Call to Action" and posted it in our landing page

To address the ever changing and complex patterns and trends in substance use, Behavioral Health works in partnership with others to address the following objectives:

- **Improve** county, cities and agency coordination
- **Monitor** state and local surveillance
- **Promote** protective factors and reduce risk factors to support individual and community safety and reduce overdoses
- **Increase** public awareness and education about the impact of Opioids and reduce overdoses through prevention
- **Expand** naloxone access, saturation, and education. Ensure Naloxone is available at high-risk locations
- **Expand** SUD treatment, MAT and reduce stigma
- **Support** harm reduction and drug checking services
- **Establish** low-barrier treatment and Naloxone distribution
- **Prioritize** communities of color, justice involved, unhoused, youth

Visualization of the funding core strategies

Opioid Response Efforts

Behavioral Health's opioid response strategy prioritize populations most disproportionately impacted by the overdose crisis. Guided by local and State data and community input, the County has identified the following priority groups for targeted investments and tailored interventions:

Racial and Ethnic Communities

- African American, Native American and Asian communities experience disproportionately high rates of opioid-related outcomes alongside low service utilization

People Experiencing Homelessness/Unhoused Individuals

- Persistent housing instability is a significant barrier to treatment engagement, recovery, and ongoing care
- Integrated housing and treatment support services are critical

Youth and children

- Drug overdose is the second leading cause of death among residents aged 15–24 in Contra Costa County

Pregnant and Postpartum Individuals

- Require specialized, coordinated care addressing maternal health, child safety, and recovery simultaneously.
- Focus on perinatal opioid use disorder (OUD) programs and wraparound supports.

Justice-Involved Individuals

- Individuals reentering the community after incarceration face heightened risk of overdose, particularly within the first week post-release
- Emphasis on reentry programs, treatment linkages, and continuity of care

County Response: Opioid Response Team

What is Opioid Response Team?

Opioid Response Team (ORT) is comprised of substance use counselors dedicated to outreach and engagement with individuals in need of care and support. The team collaborates with community-based organizations, treatment and service providers and public health agencies to support people impacted by opioid use.

Core Services

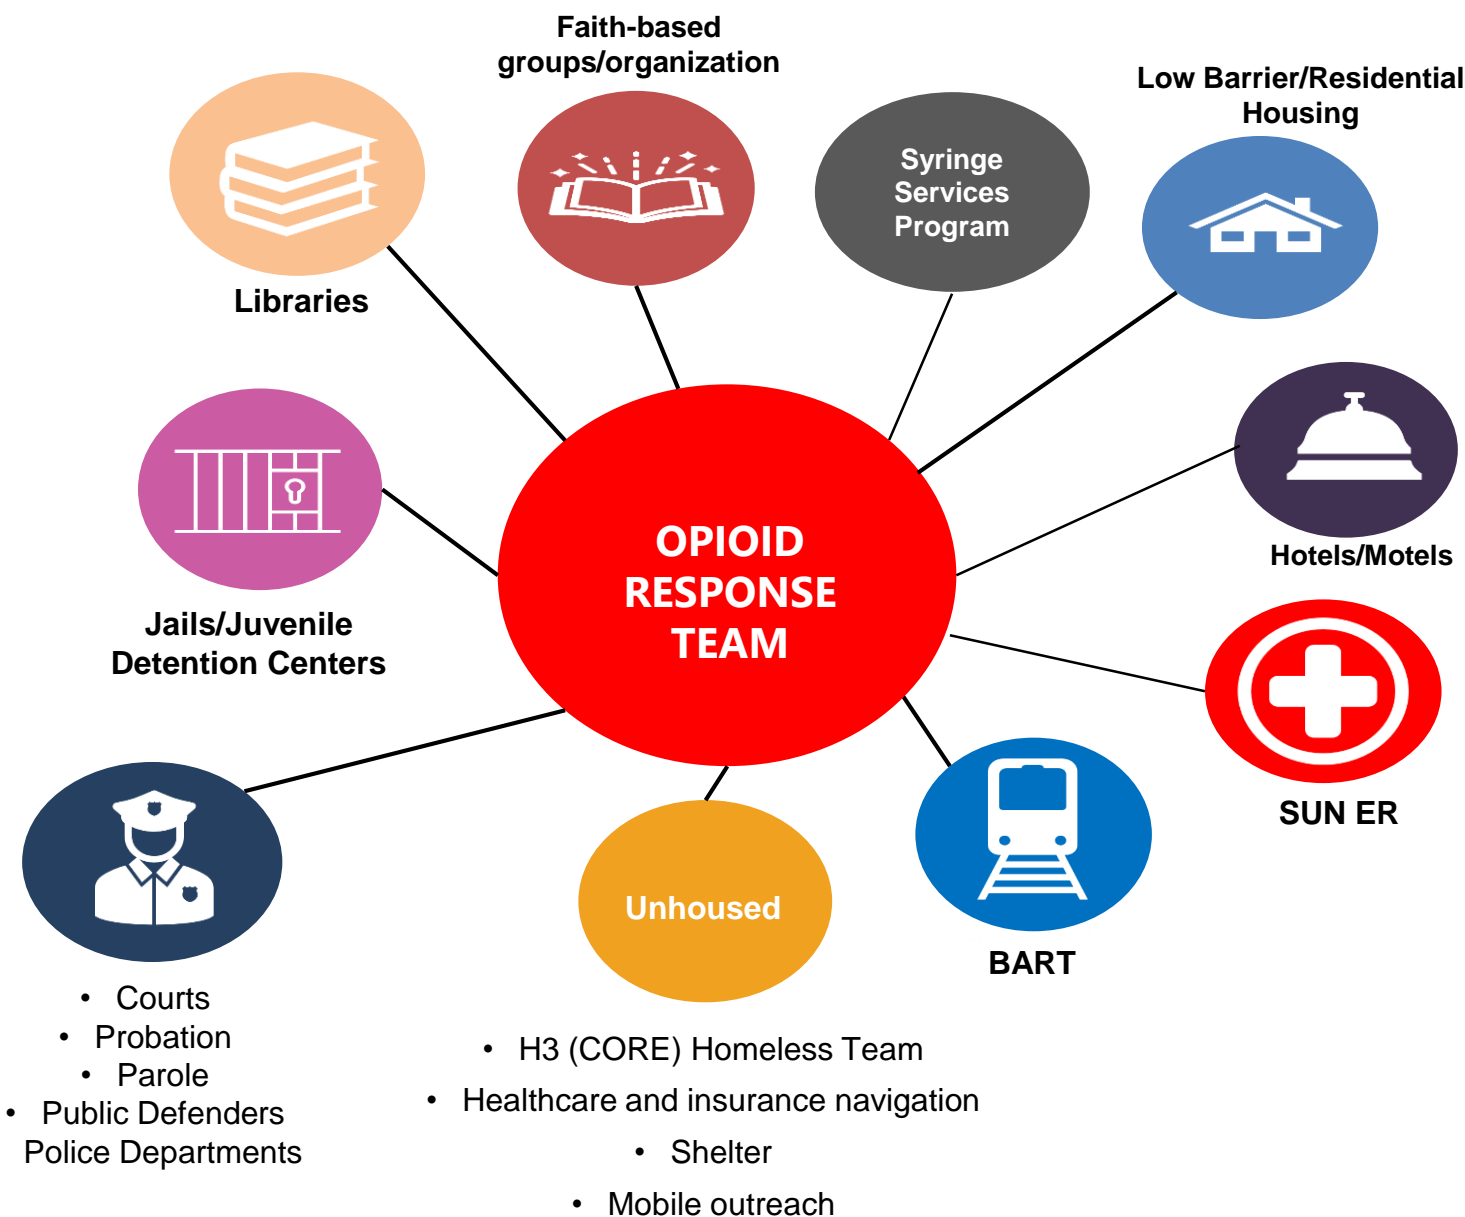

1. Distributing naloxone and fentanyl test strips
2. Connecting clients to treatment and recovery services
3. Implementing prevention and harm reduction strategies
4. Housing navigation and case management for unhoused clients.
5. Follow-up support after treatment completion to sustain recovery.

ORT provides immediate response and connections to services at key **touchpoints** or key locations where individuals impacted by OUD or SUD can be reached. These include community events, shelters, syringe service programs, and other field locations.

ORT's Approach

ORT prioritizes a compassionate, nonjudgmental, and client-centered approach focused on:

- Harm reduction – meeting clients where they are
- Client-driven engagement – Respecting individual needs and choices
- Treatment on demand – offering immediate connection to care
- Compassion, Respect and Hope – Core values in every interaction

Why Touchpoints? They create opportunities to meet people where they are:

- Connect with individuals at high risk of overdose or disengagement
- Provide immediate assistance and support
- Facilitate access to care, treatment, and recovery services

Expanding Access to Naloxone

Services and Activities

- Process *Opioid Prevention Supply and Training Request Forms* for community partners and organization
- Distribution of life-saving harm reduction tools: Naloxone and fentanyl test strips.
- Training, presentation and education at schools, partner agencies, shelters, churches and community-based organizations.
- Direct communication through email via AODOpioidResponse@cchealth.org OR phone 925-335-3330

English (United States) ▼

HEALTH

Opioid Prevention Supply and Training Request Form

The form is to be used for the request of Naloxone (Narcan) and/or Fentanyl Test Strips (FTS), and opioid presentations and Naloxone training in Contra Costa County.

* Required

Information

1. **Date Request Submitted**

*
Please input date (M/d/yyyy)

2. **Department or Organization (if applicable). Please put "n/a" if not requesting on behalf of a department nor organization.**

*
Enter your answer

3. **Are you an eligible agency with a standing order**

*
☐ Yes
☐ No
☐ I do not know.

Drug overdoses are the leading cause of death for adults aged 25-54 in Contra Costa.

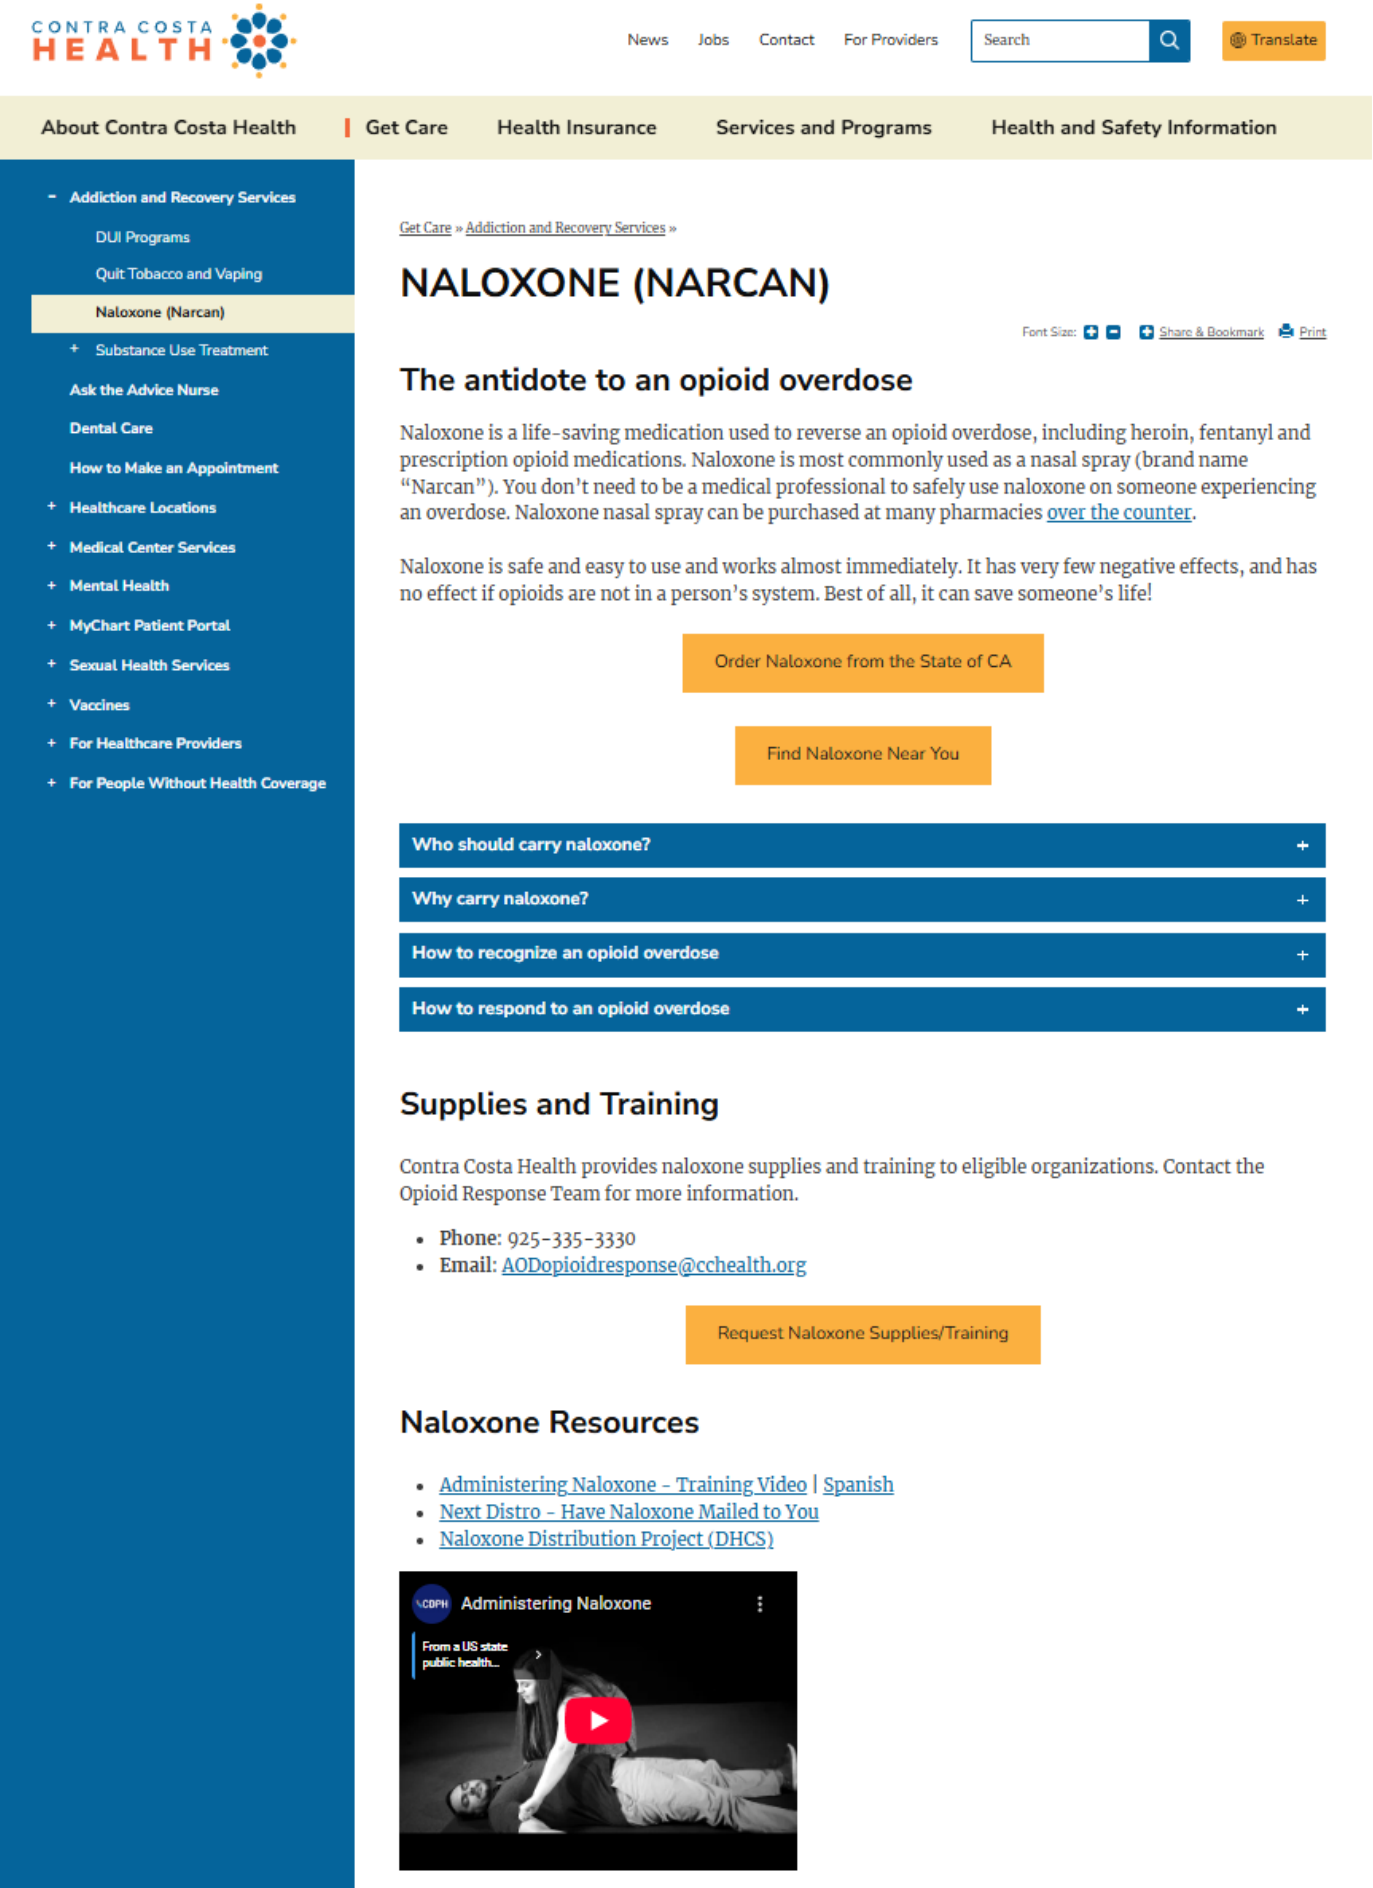

Overdose Prevention/Harm Reduction

An opioid overdose happens when someone takes too much of an opioid drug, like fentanyl or painkillers. Recognizing the signs of opioid overdose and acting fast can save a life.

Harm Reduction Efforts

As part of Contra Costa County’s comprehensive harm reduction and overdose prevention strategy, AODS in partnership with the MEDS Coalition (Bay Area Community Resources) —has launched a Naloxone Stand Box (NSB) Initiative. This effort is funded and supported through the DHCS and aligns with broader goals outlined in the OSF strategic framework.

On March 28, 2025, Naloxone Stand Box at Los Medanos College, Pittsburg are placed and accessible to college students.

Public Health Harm Reduction Vending Machine

Public Health Harm Reduction Vending Machine

CCH is coordinating the installation of four (4) naloxone vending machines across the county—targeting East, West, Central, and South Contra Costa. In collaboration with regional partners, including the HIV Education and Prevention Project of Alameda County (HEPPAC) and the Contra Costa’s Public Health HIV/STI Program. These machines will serve as a low barrier, 24/7 access points for naloxone and other harm reduction supplies.

Collaboration with Syringe Services Program (SSP)

Expanding Harm Reduction Through Mobile Outreach

The SSP anchors Contra Costa's harm reduction strategy, reaching individuals at higher risk of overdose, infection, or disengaged from treatment.

- The SSP is coordinated and led by the Public Health HIV/STI Program.
- Services are provided by HEPPAC through onsite in person outreach by ORT staff in East and West County.

Program Activities

- Distribution of sterile supplies (syringes, alcohol wipes, wound care kits, sharps containers) to prevent infections.
- Naloxone (Narcan) distribution and overdose prevention education at all outreach locations.
- Fentanyl test strip access and client education to reduce accidental overdoses.
- Wound care triage, first-aid supplies, and referrals to medical care for injection-related wounds.
- HIV and Hepatitis C education with referrals to testing and care. (Note: HEPPAC provides education but not onsite testing services)
- Behavioral Health Service navigation referrals to MAT, SUD and mental health treatment.
- Harm Reduction Training twice per year

Collaboration with Detention Health and Sheriff in the Jails

People who are now, or have spent time, in jails and prisons experience disproportionately higher rates of physical and behavioral health diagnoses and are at higher risk for injury and death as a result of trauma, violence, overdose, and suicide than people who have never been incarcerated.

Of people incarcerated in state/federal prison, nationally:

- 26.3% have high blood pressure/hypertension, compared to 18.1% of the general public
- 15% have asthma, compared to 10% of the general public
- 65% smoke cigarettes, compared to 21% of the general public^{1*}
- The mortality rate two weeks post-release from prison is **12.7 times** the normal rate, driven largely by overdoses²

People with behavioral health disorders are overrepresented in the criminal justice system.

- 51% of people in prison and 71% of people in jail in the U.S. have/previously had a mental health problem
- 58% of people in state prison and 63% of people in jail in the U.S. meet the criteria for drug dependence or abuse³
- Overdose deaths are **>100x** more likely for justice-involved individuals 2-weeks post release than the general population⁴

Focus on California

- Over the past decade, the proportion of incarcerated individuals in California jails with an active mental health case rose by **63%**⁵
- California's correctional health care system drug overdose rate for incarcerated individuals is **3x** the national prison rate⁶
- Among justice-involved individuals, **2 of 3** individuals incarcerated in California have high or moderate need for substance use disorder treatment⁷

Induction for Medication Assisted Treatment (MAT) through Detention Health

1.5FTE Embedded Substance Abuse Counselors – currently paid through a BJA grant and 1FTE Office of Ed

Screening and Linkages to SUD treatment in real time and placements in treatment post-release. Services at West County and Martinez Detention Facilities

OSF fund a portion of Sublocade, an injectable form of buprenorphine

MAT Treatment groups at MDF

Added Recovery Residences for clients on MOUD

Healthcare Needs of California's Justice-Involved Population (DHCS)

The Bureau of Justice Statistics found through surveys that nearly two-thirds (63 percent) of people in jail meet criteria for drug dependence or abuse. Many of these individuals have OUDs and could benefit from access to MAT. National Sheriffs' Association/National Commission on Correctional Health Care: Jail-Based Medication-Assisted Treatment: Promising Practices, Guidelines, and Resources for the Field

Medication Assisted Treatment (MAT)

Services

- MAT can be used as a stand- alone treatment or in conjunction with outpatient and/or residential treatment
- Medications are based on client's substance use and current living situation
- For individuals with Opioid Use Disorders (OUD), a choice between Methadone and Buprenorphine
- Methadone is distributed at daily office visits until take – home doses are suitable
- Buprenorphine can be prescribed as any prescription is and picked up at local pharmacies
- If Sublocade is recommended, then counselors work with the PCP
- Medication for Alcohol Use Disorders (AUD), through PCP or Recover

Programs

- 3 methadone/Buprenorphine programs located in West, East and Central County
- Buprenorphine is available at Choosing Change Clinics and it can be prescribed by any PCP
- Recover – via telehealth

RECOVERY RESIDENCES

Recovery Residences is a term generally used to describe a specific type of housing. Also known as Sober Living Environments offer a housing alternative to individuals recovering from substance use disorders.

Recovery Residences are not licensed but they are monitored by Alcohol and Other Drugs staff.

Residents must have the ability to live independently with minimal to no support

Recovery Residences are not considered low barrier housing, clients must commit to continue outpatient treatment and become employable

A total of \$478,149.72 in OSF were allocated in FY24-25 for clients with OUD

REQUESTS FOR PROPOSALS

Font Size: + - + Share & Bookmark Print

This page is home to all requests for proposal (RFPs) for new Contra Costa Health (CCH) projects. Each RFP announces a new project, describes the scope and goals and solicits bids from contractors who are interested in working with CCH and meet the RFP's requirements.

Be sure to read RFPs closely before submitting them. Requirements vary from request to request.

You can also check the County's [Purchasing Services page](#) for opportunities.

Opioid Settlement Funds for SUD Primary Prevention Programs

Start Date:03/13/2025

Close Date:04/30/2025 5:00 PM

Contra Costa Behavioral Health (CCBH) is currently seeking proposals from providers interested in providing Substance Use Disorder Prevention services for beneficiaries in Contra Costa County. Prevention remains a key strategy in Contra Costa County’s efforts to combat the opioid crisis. CCBH invites community-based organizations to submit proposals for prevention activities to be served within Contra Costa to residents who qualify for such activities. Please refer to the attachments below for additional details and requirements. Applicants are asked to submit proposals that will cover services to be rendered for FY 25-26 through FY 27-28.

The deadline to submit proposals is April 30, 2025 at 5:00 pm.

Email completed RFP packets to mliu@cchealth.org

Recommendations

ACCEPT Behavioral Health's Report and Response to the Opioid Crisis in Contra Costa

ACKNOWLEDGE that the delays created in program implementation, resulted from slow release of funding, workforce shortages, inability to hire in a timely manner and delays in implementing the required community engagement process

DIRECT Behavioral Health to continue efforts intended to raise community awareness and education in the community

DIRECT Behavioral Health to distribute funds through the Request for Proposals (RFP) process and support projects and activities with equity-driven programming, and measurable community impact.

ACCEPT the Division's recommendation to distribute available OSF as follows: 50% treatment and recovery, 20% harm reduction/intervention, 30% prevention, while maintaining spending requirements of no less than 50% in High Impact Abatement Initiatives.

ACCEPT recommendation to issue additional Request for Proposals to ensure that Exhibit E activities and Core Strategies are implemented in the community

DIRECT Behavioral Health staff to continue to track data to monitor the impact of opioids in the County and continue efforts to prevent overdoses

SUPPORT, efforts intended to promote the County's OD-Free Contra Costa campaign to increase awareness and education in the community

SUPPORT continued efforts to increase SUD and MAT treatment and support SUD treatment provider initiatives intended to remove barriers to treatment

DIRECT, Behavioral Health to continue to work with local cities and subdivisions to amplify the impact of abatement efforts
