CONTRA COSTA DEPARTMENT OF CONSERVATION

Attn: SEOANE, ALLISON

30 MUIR RD

MARTINEZ, CA94553

RE: CDVR2401060
3565 WILLOW RD
APN: 029 100 014
Service Request #: SR0023878

Dear SEOANE, ALLISON :

Contra Costa Environmental Health (CCEH) has received a request for agency comment regarding the above referenced project. See below for our comments grouped by environmental health program:

- If an onsite water supply well is used for this project, it must meet current standards, including construction, yield, water quality, and setbacks. A hydrogeological study may be required to ensure adequate water supply.
- A permit from CCEH is required for any well or soil boring prior to commencing drilling activities, including those associated with water supply, environmental investigation and cleanup, or geotechnical investigation.
- Any abandoned wells (water, environmental, or geotechnical) and septic tanks must be destroyed under permit from CCEH. If the existence of such wells or septic tanks are known in advance or discovered during construction or other activities, these must be clearly marked, kept secure, and destroyed pursuant to CCEH requirements.
- If this project is not served by sanitary sewer and an onsite wastewater disposal system (septic system) is needed for this project, a permit from CCEH is required prior to installation. The new septic system, including disposal field replacement area must comply with current standards. Holding tanks for sewage disposal are prohibited unless these are owned and maintained by a public entity.
- For proposed subdivisions/minor subdivisions served by onsite wastewater disposal systems (septic systems). It must be demonstrated that each lot can accommodate a septic system meeting current standards, including disposal field replacement area.
- For proposed subdivisions/minor subdivisions served by onsite private water wells. It must be demonstrated that each lot has a water supply well meeting current standards, including construction, yield, water quality, and setbacks. A hydrogeological study may be required to ensure adequate water

supply.

- If the project will require a small public water system, these systems must operate under permit from CCEH. The water supply (e.g. well) must meet current standards, including construction, yield, water quality, and setbacks. A hydrogeological study may be required to ensure adequate water supply.
- If the proposed lot line adjustment involves properties served by an onsite waster disposal system (septic system). The new lot configurations must accommodate the septic system(s), including the disposal field replacement area(s), without conflicting with current standards(e.g., setbacks to property lines).
- If the proposed lot line adjustment involves properties served by an onsite water well. The new lot configurations must not conflict with current standards(e.g., setbacks to property lines).
- Horse boarding facilities are subject to the requirements of the Contra Costa County Cleanwater Program, including routine inspections. The applicant can contact CCEH for details.
- It is recommended that the project be served by public sewer and public water wherever possible.

These comments do not limit an applicant's obligation to comply with all applicable laws and regulations. If the proposed project is subject to regulation by CCEH, the project tenant must apply for all applicable health permits. Should you have any questions, please do not hesitate to contact Environmental Health at (925) 608-5500 or CoCoEH@cchealth.org.

Sincerely,

A handwritten signature in dark ink, appearing to read "Kristian Lucas". The signature is fluid and cursive, with a long horizontal stroke at the end.

Kristian Lucas, REHS

Subject: Bethel Island MAC - CDVR24-01060
Date: Thursday, January 16, 2025 10:43:04 AM

Good morning Allison,

My name is Stephen Griswold, and I am the staff contact for the Bethel Island MAC. CDVR24-01060 was on the agenda last Tuesday and the MAC recommended it be approved 5-0.

Please let me know if you have any questions!

Regards,

Stephen W. Griswold III
Deputy Chief of Staff
