CONTRA COSTA COUNTY

Administration Building | 1025 Escobar St., Martinez, CA 94553

AGENDA

Tuesday, June 23, 2026

9:00 AM

BOARD OF SUPERVISORS

Supervisor John Gioia, District I
Supervisor Candace Andersen, District II
Supervisor Diane Burgis, District III
Supervisor Ken Carlson, District IV
Supervisor Shanelle Scales-Preston, District V

Clerk of the Board (925) 655-2000
clerkoftheboard@cob.cccounty.us

The public may attend the Board meeting in person and remotely via call-in or Zoom. Board meetings are televised live on Comcast Cable 27, ATT/U-Verse Channel 99, and WAVE Channel 32, and can be seen live online at www.contracosta.ca.gov. Meetings of the Board are closed-captioned in real time. For real time translation of the Board of Supervisors meeting, please go to the Wordly website: https://attend.wordly.ai/join/UPPW-1508.

Persons who wish to address the Board during public comment or with respect to an item on the agenda may comment in person or may call in during the meeting by dialing 1 855-758-1310. A caller should indicate they wish to speak on an agenda item by pushing "#2" on their phone. Persons who wish to address the Board in person should complete the form provided for that purpose. Access via Zoom is also available using the following link: https://cccounty-us.zoom.us/j/81863939331. Those participating via Zoom should indicate they wish to speak on an agenda item by using the “raise your hand” feature in the Zoom app. To provide contact information, please contact Clerk of the Board at clerkoftheboard@cob.cccounty.us or call 925-655-2000. If the Zoom connection malfunctions for any reason, the meeting may be paused while a fix is attempted. If the connection is not reestablished, the Board will continue the meeting in person without remote access.

Public comments generally will be limited to two minutes per speaker. In the interest of facilitating the business of the Board, the total amount of time that a member of the public may use in addressing the Board on all agenda items is 10 minutes. Your patience is appreciated.

A lunch break or closed session may be called at the discretion of the Board Chair. Staff reports related to open session items on the agenda are also accessible online at www.contracosta.ca.gov.

GENERAL INFORMATION

The Board meets in all its capacities pursuant to Ordinance Code Section 24-2.402.

Any disclosable public records related to an open session item on a regular meeting agenda and distributed by the Clerk of the Board to a majority of the members of the Board of Supervisors less than 96 hours prior to that meeting are available for public inspection at 1025 Escobar Street, First Floor, Martinez, CA 94553, during normal business hours.

All matters listed under CONSENT ITEMS are considered by the Board to be routine and will be enacted by one motion. There will be no separate discussion of these items unless requested by a member of the Board before the Board votes on the motion to adopt. Each member of the public will be allowed two minutes to comment on the entire consent agenda.

Persons who wish to speak on matters set for PUBLIC HEARINGS will be heard when the Chair calls for public testimony. Each speaker during public testimony will be limited to two minutes. After public testimony, the hearing is closed and the matter is subject to discussion and action by the Board. Comments on matters listed on the agenda or otherwise within the purview of the Board of Supervisors can be submitted to the office of the Clerk of the Board via mail: Board of Supervisors, 1025 Escobar Street, First Floor, Martinez, CA 94553 or to clerkoftheboard@cob.cccounty.us.

In the interest of facilitating the business of the Board, the total amount of time that a member of the public may use in addressing the Board on all agenda items is 10 minutes.

Time limits for public speakers may be adjusted at the discretion of the Chair.

The County will provide reasonable accommodations for persons with disabilities planning to attend Board meetings who contact the Clerk of the Board at least 24 hours before the meeting, at (925) 655-2000.

Anyone desiring to submit an inspirational thought nomination for inclusion on the Board Agenda may contact the Office of the County Administrator or Office of the Clerk of the Board, 1025 Escobar Street, Martinez, California.

Subscribe to receive to the weekly Board Agenda by calling the Office of the Clerk of the Board, (925) 655-2000 or using the County's on line subscription feature at the County's Internet Web Page, where agendas and supporting information may also be viewed: https://contra-costa.legistar.com/Calendar.aspx

DISCLOSURE OF CAMPAIGN CONTRIBUTIONS

Pursuant to Government Code section 84308 (the Levine Act), members of the Board of Supervisors are disqualified and not able to participate in any agenda item involving contracts (except for contracts exempt from the Levine Act under Government Code section 84308(a)), franchises, discretionary land use permits and other entitlements, if the Board member received, within the previous 12 months, more than $500 in campaign contributions from the applicant or contractor, an agent of the applicant or

contractor, or any financially interested participant who actively supports or opposes the County's decision on the agenda item. Members of the Board of Supervisors who have received, and applicants, contractors or their agents who have made, campaign contributions totaling more than $500 to a Board member within the previous 12 months are required to disclose that fact for the official record of the subject proceeding. Disclosures must include the amount of the campaign contribution and identify the recipient Board member, and may be made either in writing to the Clerk of the Board of Supervisors before the subject hearing or by verbal disclosure at the time of the hearing.

To: Board of Supervisors

From: Warren Lai, Public Works Director/Chief Engineer

Report Title: HEARING to consider adopting Traffic Resolution No. 2026/4556 for an 18-month extension of the temporary road closure of South Broadway Avenue, between Pittsburg city limits and Maylard Street, Bay Point area.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
OPEN the public hearing to consider adopting the attached Traffic Resolution approving an extension of the temporary road closure of South Broadway Avenue (Road No. 5385BA) between the Pittsburg city limits and extending northerly to Maylard Street, beginning June 27, 2026, and continuing for 18 months thereafter, through December 27, 2027, to prevent the occurrence or recurrence of serious and continual criminal activity, as recommended by the Public Works Director, Bay Point area. (District V); RECEIVE testimony; and CLOSE the public hearing.

MAKE the findings set forth in the attached Traffic Resolution.

ADOPT the attached Traffic Resolution.

FISCAL IMPACT:
No fiscal impact.

BACKGROUND:
The County Public Works Department, Sheriffs Department and the California Highway Patrol recommend continuing to prohibit vehicle traffic, which contributes to serious and continual criminal activity, along the section of South Broadway Avenue, in Bay Point, between the Pittsburg city limits and extending northerly to Maylard Street. This segment of roadway was originally closed for 18 month beginning December 27, 2024, and continuing for 18 months, through June 27, 2026. This is the first extension of that closure.

Public Works Department staff determined that South Broadway Avenue has not been designated as a through highway or arterial street. Public Works Department staff have further determined that the continued closure of the above-described section of South Broadway Avenue will not impact traffic flow or safety on the adjacent streets or in the surrounding neighborhoods, the operation of emergency vehicles, the performance of municipal or public utility services to, or the delivery of freight by commercial vehicles in the area of that section of roadway.

On May 21, 2026, and on April 29, 2026, Public Works Department staff received the recommendation from the California Highway Patrol and the County Office of the Sheriff, respectively, to continue the temporary

overnight closure of this segment of roadway. This is the first extension of that closure.

Public Works Department staff mailed notice of this hearing to the residents and owners, as shown on the last equalized assessment roll, of property adjacent to that section of South Broadway Avenue, pursuant to Vehicle Code section 21101.4(c)

Public Works Department staff recommend that the Board of Supervisors adopt the above-described traffic resolution to extend the current closure of this section of South Broadway Avenue for an additional 18 months, from June 27, 2026, through December 27, 2027, pursuant to Vehicle Code section 21101.4(b)

CONSEQUENCE OF NEGATIVE ACTION:
The temporary closure of this segment South Broadway Avenue would not be extended which could result in the recurrence of serious and continual criminal activities along this segment of roadway.

G:\transeng\Traffic\Temporary Road Closures\S. Broadway Avenue, Bay Point\18-month Closure Extensions\Extension - 27Jun26 to 27Dec2027\Staff Report.doc

THE BOARD OF SUPERVISORS OF CONTRA COSTA COUNTY, CALIFORNIA

Adopted this Traffic Resolution on (HEARING DATE), 2026 by the following vote:

AYES:

NOES:

ABSENT:

ABSTAIN:

TRAFFIC RESOLUTION NO. 2026/4556
Supervisorial District V

SUBJECT: ADOPT Traffic Resolution No. 2026/4556 for an 18-month extension of the temporary closure of South Broadway Avenue (Road No. 5385BA) between the city limits of Pittsburg and extending northerly to Maylard Street (Road No. 5385AX), to prevent serious and ongoing criminal activity, Bay Point area.

WHEREAS, the portion of South Broadway Avenue, which begins at the city limits of Pittsburg and extends northerly to Maylard Street, and has experienced serious and ongoing criminal activity, leading to closure of the roadway;

WHEREAS, because vehicle traffic contributes to that criminal activity, the County Sheriff's Department and California Highway Patrol, and Public Works Department staff also recommend extending the closure of this portion of South Broadway Avenue;

WHEREAS, Public Works Department staff determined that: South Broadway Avenue has not been designated as a through highway or arterial street; the continued closure of South Broadway Avenue will not impact traffic flow, safety on the adjacent streets or in the surrounding neighborhoods, the operation of emergency vehicles, the performance of municipal or public utility services to, or the delivery of freight by commercial vehicles in the area of South Broadway Avenue; and

WHEREAS, a public hearing has been held on this proposed extension of the closure of this section of South Broadway Avenue, notice of which was mailed to the residents and owners, as shown on the last equalized assessment roll, of property adjacent to that portion of roadway.

NOW, THEREFORE, BE IT RESOLVED BY THE CONTRA COSTA COUNTY BOARD OF SUPERVISORS, pursuant to Vehicle Code section 21101.4, subdivision (b), as follows:

1. The Board of Supervisors FINDS, as follows:

   A. Based on the recommendation of the County Office of the Sheriff and California Highway Patrol, continuation of the temporary closure of South Broadway Avenue (Road No. 5385BA), between the city limits of Pittsburg and extending northerly to Maylard Street (Road No. 5385AX), for an additional 18 months between sunset and sunrise will prevent the occurrence or recurrence of the serious and continual criminal activity that existed prior to the current closure.

B. The above-described section of South Broadway Avenue has not been designated as a through highway or arterial street;

C. Vehicle traffic contributes to criminal activity on the above-described section of South Broadway Avenue;

D. The immediately preceding closure (i.e., current closure that commenced December 27, 2024) of the above-described section of South Broadway Avenue will not impact traffic flow, safety on the adjacent streets or in the surrounding neighborhoods, the operation of emergency vehicles, the performance of municipal or public utility services to, or the delivery of freight by commercial vehicles in the area of, that section of roadway.

2. The Board of Supervisors ADOPTS this Traffic Resolution to extend the temporary closure of South Broadway Avenue, between the city limits of Pittsburg and northerly to Maylard Street, beginning June 27, 2026, and continuing for 18 months, through December 27, 2027.

I hereby certify that this is a true and correct Copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown.

File #: 26-2661 **Agenda Date:** 6/23/2026 **Agenda #:** D.2.

To: Board of Supervisors

From: Warren Lai, Public Works Director/Chief Engineer

Report Title: HEARING to consider adopting Traffic Resolution No. 2026/4557 for an 18-month extension of the temporary overnight road closure of Carquinez Scenic Drive, Martinez area.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
OPEN the public hearing to consider adopting the attached Traffic Resolution approving an extension of the temporary road closure of Carquinez Scenic Drive (Road No. 2191B), between the city limits of Martinez and extending westerly to McEwen Road (Road No. 2784), between sunset and sunrise, beginning June 27, 2026, and continuing for 18 months thereafter, through December 27, 2027, to prevent the occurrence or recurrence of serious and continual illegal dumping and criminal activity, as recommended by the Public Works Director, Martinez area. (District V); RECEIVE testimony; and CLOSE the public hearing.

MAKE the findings set forth in the attached Traffic Resolution.

ADOPT the attached Traffic Resolution.

FISCAL IMPACT:
No fiscal impact

BACKGROUND:
Following landslides in the early 1980s, the Board of Supervisors has, on various occasions, closed Carquinez Scenic Drive from the Ozol Fuel Facility (owned by the United States of America) to the Contra Costa Brick Works Plant 9 (former property of TXI Operations and recently purchased by the East Bay Regional Park District). Nighttime activities along the road generate refuse, trash, human waste, and other illegal activities. The previous closures and extensions expired by March 31, 2023. Due to serious and recurring illegal dumping activity and serious and recurring criminal activity, the County ordered a new temporary closure of the roadway by adopting Traffic Resolution No. 2024/4541, which ordered the overnight closure of the roadway from December 27, 2024, through June 27, 2026.

The Park District requested that the County extend the closure ordered by Traffic Resolution 2024/4541. On May 21, 2026, and on April 29, 2026, Public Works Department staff received the recommendations from the California Highway Patrol and the County Office of the Sheriff, respectively, to continue the temporary overnight closure of this segment of roadway. This is the first extension of that closure. The County Public Works Department, the County Office of the Sheriff, and the California Highway Patrol support the Park District's request to extend the temporary closure of Carquinez Scenic Drive, between the city limits of Martinez and extending westerly to McEwen Road, between sunset and sunrise, to prevent the recurrence of

serious and recurring illegal dumping and criminal activity.

Public Works Department staff mailed notices of this hearing to the owners - as shown on the last equalized assessment roll - of properties adjacent to that section of Carquinez Scenic Drive between the city limits of Martinez and extending westerly to McEwen Road, in accordance with Vehicle Code section 21101.4(c).

During this extended period of temporary closure, emergency vehicles will continue to have access to the roadway. Public Works Department recommends that the Board of Supervisors adopt the above-described traffic resolution to extend the temporary overnight closure of this segment of roadway, pursuant to Vehicle Code section 21101.4(b).

CONSEQUENCE OF NEGATIVE ACTION:
The closure of Carquinez Scenic Drive would not be extended beyond June 27, 2026, which could result in the occurrence or recurrence of illegal dumping and serious criminal activities along this segment.

G:\transeng\Traffic\Temporary Road Closures\Carquinez Scenic Drive -Combined Segments\New 18-month Closure Extensions\Extension - 27Jun26 to 27Dec2027\Staff Report.doc

THE BOARD OF SUPERVISORS OF CONTRA COSTA COUNTY, CALIFORNIA

Adopted this Traffic Resolution on (HEARING DATE), 2026 by the following vote:

AYES:

NOES:

ABSENT:

ABSTAIN:

TRAFFIC RESOLUTION NO. 2026/4557
Supervisorial District V

SUBJECT: ADOPT Traffic Resolution No. 2026/4557 for an 18-month extension of the temporary closure of Carquinez Scenic Drive (Road No. 2191B) between the city limits of Martinez and extending westerly to McEwen Road (Road No. 2784), to prevent illegal and criminal activity, as recommended by the Public Works Director, Martinez area. (District V)

WHEREAS, the eastern portion of Carquinez Scenic Drive, which begins at the city limits of Martinez and extends westerly to McEwen Road, has experienced serious and continual illegal dumping and serious and continual criminal activity between sunset and sunrise the following day, leading to previous closures of the roadway;

WHEREAS, the current closure approved by the Board of Supervisors on December 27, 2024, extends through June 27, 2026, when it will expire if not extended;

WHEREAS, the East Bay Regional Park District has requested extending the closure of the western portion of Carquinez Scenic Drive to prevent the occurrence or recurrence of serious and continual illegal dumping and serious and continual criminal activity;

WHEREAS, because allowing vehicle traffic on the roadway will result in the occurrence or recurrence of that illegal dumping and criminal activity, the County Office of the Sheriff and California Highway Patrol, and Public Works Department staff, all recommend the continued closure of Carquinez Scenic Drive for an additional 18 months;

WHEREAS, Public Works Department staff determined that: Carquinez Scenic Drive has not been designated as a through highway or arterial street; the continued overnight closure of Carquinez Scenic Drive will not impact traffic flow, safety on the adjacent streets or in the surrounding neighborhoods, the operation of emergency vehicles, the performance of municipal or public utility services to, or the delivery of freight by commercial vehicles in the area of Carquinez Scenic Drive; and

WHEREAS, a public hearing has been held on this proposed extension of the closure of Carquinez Scenic Drive, notice of which was mailed to the residents and owners, as shown on the last equalized assessment roll, of property adjacent to that portion of roadway, in accordance with Vehicle Code section 21101.4(c).

NOW, THEREFORE, BE IT RESOLVED BY THE CONTRA COSTA COUNTY BOARD OF SUPERVISORS, pursuant to Vehicle Code section 21101.4, subdivision (b), as follows:

1. The Board of Supervisors FINDS as follows:

   A. Based on the recommendation of the County Office of the Sheriff and California Highway Patrol, continuation of the temporary closure of Carquinez Scenic Drive (Road No. 2191B), between the city limits of Martinez and extending westerly to McEwen Road (Road No. 2784), for an additional 18 months between sunset and sunrise will prevent the occurrence or recurrence of the serious and continual illegal dumping and serious and continual criminal activity that existed prior to the current closure.

   B. The above-described section of Carquinez Scenic Drive is not designated as a through highway or arterial street;

   C. Vehicle traffic contributes to the above-described overnight illegal dumping and criminal activity on the above-described section of Carquinez Scenic Drive;

   D. The immediately preceding closure (i.e., current closure that commenced December 27, 2024) of the above-described section of Carquinez Scenic Drive has not substantially adversely affected traffic flow, safety on the adjacent streets or in the surrounding neighborhoods, the operation of emergency vehicles, the performance of municipal or public utility services to, or the delivery of freight by commercial vehicles in the area of that section of roadway.

2. The Board of Supervisors ADOPTS this Traffic Resolution to extend the temporary overnight closure of Carquinez Scenic Drive, between the city limits of Martinez and McEwen Road, between the hours of sunset and sunrise, beginning June 27, 2026, and continuing for 18 months thereafter, through December 27, 2027.

I hereby certify that this is a true and correct Copy of an action taken and entered on the minutes of the Board of Supervisors on the date shown.

TRAFFIC RESOLUTION NO. 2026/4557

File #: RES 2026-224 **Agenda Date:** 6/23/2026 **Agenda #:** D.3.

To: Board of Supervisors

From: Warren Lai, Public Works Director/Chief Engineer

Report Title: Resolution of Necessity Hearing for the I-80 San Pablo Dam Road Interchange Improvement - Phase 2 project, San Pablo area

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
OPEN the public hearing and ask if any notified property owners wish to be heard as to the four items specified in Section B below, CLOSE Public Hearing.

Upon completion and closing of the hearing, MAKE the findings and determinations listed under Section B below and ADOPT the Resolution of Necessity to acquire the required property by eminent domain. Project No.: 0660-6X4173/EA 0413000404

FISCAL IMPACT:
In eminent domain actions the judgment will be the price paid for the property and may include court costs which are regarded as a roughly calculable expense of property acquisition. Costs of acquisition in this case are 100% reimbursable from Contra Costa Transportation Authority ("CCTA"). (SCH NO.: 2009082009)

BACKGROUND:
A. Proposed Project:

The Contra Costa Transportation Authority (CCTA), in cooperation with the California Department of Transportation (Caltrans), proposes to reconstruct the Interstate 80 (I-80)/San Pablo Dam Road (SPDR) Interchange - Phase 2, which is in the City of San Pablo and borders the City of Richmond. The purpose of the Project is to improve overall safety, traffic operations, and bicycle/pedestrian access at the interchange. The Project will reduce traffic congestion, optimize traffic flows at interchange ramps, improve pedestrian and bicycle access and safety, and standardize the vertical clearance of the overcrossing.

The existing I-80/SPDR Interchange has several nonstandard features that contribute to traffic congestion and the inefficiency of the interchange operations, including short weaving sections between the ramps within the Project limits. The Phase 2 project scope of work includes Realignment of SPDR and replacement of the overcrossing. The new single span bridge will consist of a 4-foot striped median, three (3) lanes and a Class IV bikeway in each direction of travel, and 7-foot-wide sidewalks on each side of the structure. Reconstruction of the I-80 westbound on- and off-ramps at SPDR. Construction of a new connector road on the west side of I-80 to connect SPDR to McBryde Avenue. By consolidating the off-ramps at McBryde Avenue and SPDR in the westbound direction (while maintaining direct access to McBryde Avenue), the short weaving distance between the successive on- and off-ramps will be eliminated, and safety and traffic operations will be improved along

westbound I-80. This connector includes a new bridge over Wildcat Creek. Reconstruction of the I-80 eastbound on- and off-ramps at SPDR. Realignment of Amador Street.

Under an Agreement between Contra Costa County (County), Caltrans, CCTA and the City for the Exercise of the Power of Eminent Domain for the I-80/San Pablo Dam Road Interchange Project-Phase 1 (dated July 16, 2013), the Parties agreed and reaffirmed that the County is designated as the party to administer the portion of the Cooperative Agreement relating to the acquisition of real property, through eminent domain or otherwise, by and through its Board of Supervisors, County Officials and departments, and County attorneys.

On June 25, 2013, this Board ADOPTED the Mitigation Negative Declaration and pertaining to the entire project including Phase 2, as the responsible agency for the project.

Construction of the Phase 2 project is scheduled to begin Spring of 2028. In order to proceed with the project, it is necessary for the County to exercise its power of eminent domain to acquire the property rights described herein.

Pursuant to Section 1245.235 of the Code of Civil Procedure, notice was given to all persons listed on the attached Exhibit "A" whose names and addresses appear on the last equalized County Assessment Roll. This notice consisted of sending by first-class and certified mail on May 7, 2026, a Notice of Intention which notified these owners that a hearing is scheduled for June 23, 2026, at 9:30 a.m. in the Board's Chambers, at which time they may appear to be heard on the matters referred to in the notice.

B. Scope of Hearing Per C.C.P. Section 1245.235

1. Public Interest and Necessity require the proposed project.

The proposed I-80 San Pablo Dam Road interchange improvements includes constructing the proposed McBryde Connector Road between San Pablo Dam Road and McBryde Avenue to provide continuous access from I-80 westbound mainline. This connector road provides shorter access and eliminates vehicles using other local roads, such as San Pablo Dam Road and San Pablo Avenue, which can create more travel time and traffic congestion, and optimizes traffic flow. By removing the existing McBryde Avenue off ramp in the westbound direction, the existing weaving conflicts and congestion between successive WB San Pablo Dam Road On-Ramp and McBryde Avenue Off Ramp are eliminated, which significantly improves the I-80 WB mainline operations. A new Wildcat Creek Bridge will be constructed along connector road over Wildcat Creek; to construct this bridge, a temporary construction easement is required from Parcel 700026.

As part of the interchange improvement project the existing SPDR overcrossing bridge will be replaced with a wider bridge, including three lanes on each direction with Class IV bike lanes to meet the future traffic demand volume, reduce traffic congestion and improve traffic operation. In order to accommodate the interchange improvements, San Pablo Dam Road will be widened to match the proposed geometric design, which requires relocation of existing sidewalk, that requires a permanent right of way take and a temporary construction easement from parcel 700034.

2. The project is planned and located in the manner that will be most compatible with the greatest public good and the least private injury.

During the Project approval and environmental determination phase, the project team has studied several interchange design alternatives. After detailed study and discussion with the project development team, along

with taking input from public meeting, a preferred interchange design alternative was selected. The preferred interchange design achieves the required traffic operational improvement, provide safes pedestrian and bicycle access thru the new widened SPDR bridge structure, widens the on and off ramp from I-80 mainline, constructs a connector road that provide one way access between San Pablo Dam Road and McBryde Avenue with least of right of way impacts from both residential and commercial properties. The alternative designs that were not selected would have resulted in more right of way impacts, including both residential and commercial properties. The proposed preferred interchange design alternative and other local street improvements, including bridge structures, retaining wall and sound wall, are more specifically discussed in the approved Final Initial Study / Environmental Assessment (IS/EA)

3. The property(ies) sought to be acquired is/are necessary for the project.

The proposed properties right of way take sought for SPDR Phase 2 Project are necessary for the reconstruction of I-80 San Pablo Dam Road Interchange improvement design, which includes realignment and widening of on -ramp and off-ramp, widening of a San Pablo Dam Road, realignment of Amador Street, a new McBryde Avenue connector road, and the construction of SPDR Overcrossing bridge and Wildcat Creek bridge. The project team have all the avoidance measures to reduce right of way impacts to the properties within the project limit, both during and after construction. The proposed project improvements cannot be construction as planned without the right of way take and temporary construction easement (TCE) acquisition of these property interests.

4. The offer of compensation required by Section 7267.2 of the Government Code has been made to the owner or owners of record.

The County, through the Real Estate Division of the Public Works Department, has made an offer of just compensation to the owners of record for the rights required for this project. The offer was based on an appraisal of the fair market value of the property rights being acquired. In this case, efforts were made to acquire each required property or property right through negotiated purchase and sale instead of condemnation. Attempts to negotiate a settlement involved an offer being mailed and emailed to the owners of records, phone discussions, and offers to meet virtually or at the project site with owners and/or their representative. However, the negotiations were not successful requiring the County to proceed with the adoption of this Resolution of Necessity.

CONSEQUENCE OF NEGATIVE ACTION:
The County will be unable to acquire the property rights necessary for the project.

THE BOARD OF SUPERVISORS
CONTRA COSTA COUNTY, CALIFORNIA

Re:	Condemnation of Property)	**RESOLUTION OF NECESSITY**
	for Public Road Purposes,)	**NO. 2026-_____**
	I-80 San Pablo Dam Road Interchange Improvement - Phase 2)	(C.C.P. Sec. 1245.230)
	San Pablo Area)	
	Assessment District No. I)	

The Board of Supervisors of Contra Costa County, California, by vote of four-fifths or more of its members, **RESOLVES** that:

Pursuant to Government Code Section 25350.5 and Streets & Highways Code 760 (State Highway), Contra Costa County (County) intends to acquire property and property interests for the construction of the I-80 San Pablo Dam Road Interchange Improvement – Phase Project, San Pablo area. This work includes Realignment of San Pablo Dam Road (SPDR) and replacement of the overcrossing bridge. The new single span bridge will consist of a 4-foot striped median, three (3) lanes and a Class IV bikeway in each direction of travel, and 7-foot-wide sidewalks on each side of the structure. Reconstruction of the I-80 westbound on- and off-ramps at SPDR. Construction of a new connector road on the west side of I-80 to connect SPDR to McBryde Avenue. The Contra Costa Transportation Authority is responsible for delivering the project, and the County is responsible for right-of-way acquisition for the project.

The property to be acquired consists of four parcels and is generally located in the San Pablo area. The property is more particularly described in Appendix "A", attached hereto, and incorporated herein by this reference.

On May 7, 2026, notice of the County's intention to adopt a resolution of necessity for acquisition by eminent domain of the real property described in Appendix "A" was sent to persons whose names appear on the last equalized County Assessment Roll as owners of said property. The notice specified June 23, 2026, at 9:30 a.m., in the Board of Supervisors Chambers in the Administration Building, 1025 Escobar Street, Martinez, California, as the date, time, and place for the hearing thereon.

The hearing was held on that date and at that time and place, and all interested parties were given an opportunity to be heard. Based upon the evidence presented to it, this Board finds, determines, and hereby declares the following:

1. The public interest and necessity require the proposed Project; and

2. The proposed Project is planned or located in the manner that will be most compatible with the greatest public good and the least private injury; and

3. The property described herein is necessary for the proposed Project; and

4. The offer required by Section 7267.2 of the Government Code was made to the owner or owners of record.

5. Insofar as any of the property described in this resolution has heretofore been dedicated to a public use, the acquisition and use of such property by Contra Costa County for the purposes identified herein is for a more necessary public use than the use to which the property has already been appropriated or is for a compatible public use. This determination and finding is made and this resolution is adopted pursuant to Code of Civil Procedure Sections 1240.510 and 1240.610.

   On June 25, 2013, this Board ADOPTED the Mitigation Negative Declaration pertaining to the entire project, including Phase 2, as the responsible agency for the project. [DCD-CP#13-25] (SCH NO.: 2009082009)

NOW, THEREFORE, BE IT RESOLVED:

The County Counsel of this County is hereby **AUTHORIZED** and **EMPOWERED**:

To acquire in the County's name, by condemnation, the titles, easements, and rights of way hereinafter described in and to said real property or interest(s) therein, in accordance with the provisions for eminent domain in the Code of Civil Procedure and the Constitution of the State of California:

Parcel(s) 70034-1 and 70034-2 are to be acquired in fee title; and

Parcel(s) 70026-1 and 70034-3 are to be acquired as temporary easement(s);

To prepare and prosecute in the County's name such proceedings in the proper court as are necessary for such acquisition; and

To deposit the probable amount of compensation, based on an appraisal, and to apply to said court for an order permitting the County to take immediate possession and use said real property for said public uses and purposes.

PASSED and ADOPTED on _____, by the following vote:

AYES:

NOES:

ABSENT:

ABSTAIN:

I HEREBY CERTIFY that the foregoing resolution was duly and regularly introduced, passed, and adopted by the vote of four-fifths or more of the Board of Supervisors of Contra Costa County, California, at a meeting of said Board of Directors on the date indicated above.

Date: _____

APPENDIX "A"
LEGAL DESCRIPTION

The land referred to herein is situated in the State of California, County of Country Costa, City of San Pablo and described as follows:

Parcel 70026-1

An EASEMENT for Temporary Construction purposes over, under, upon and across the following described real property, described as follows:

Being a portion of that certain parcel of land described in the Grant Deed to Hiren B. Modi, recorded July 6, 2017 as Document Number 2017-0121058-00, Official Records of said County, more particularly described as follows;

Beginning at the northeastern corner of said lands of Modid;

1. Thence South 19°26'03" East 63.83 feet;
2. Thence South 13°24'01" East 0.33 feet;
3. Thence South 74°36'27" West 10.01 feet;
4. Thence North 13°24'01" West 0.16 feet;
5. Thence North 19°26'03" West 54.10 feet to the northern line of said lands of Modi;
6. Thence North 27°58'15" East 13.58 feet along last said line to the **Point of Beginning**.

Containing 592 square feet

Parcel 70034-1

Being a portion of that certain parcel of land as described in Grant Deed to Filia Enterprises, L.P. a California Limited Partnership, recorded January 26, 2005 as Document No. 2005-0028399-00, Official Records of said County, said lands also being designated as Parcel E on certain Parcel Map MS-776-89 filed July 13, 1989 in Book 141 of Parcel Maps at Page 8, Records of said County, more particularly described as follows;

Beginning at a the most easterly corner of that certain parcel of land designated as Parcel E, at the northerly terminus of that certain course shown as North 10° 52'45" East 25.64 feet on Parcel Map MS 776-89, filed July 13, 1989, in Book 141 of Parcel Maps, at Page 8, Records of Contra Costa County, said point also lying on the western line of State Route 80 as shown on the Right-of-Way Record Map R-14.15 on file at the State of California Department of Transportation District 4 Office. The bearing of North 11°59'36" East along last said course being taken for the purpose of this description;

1. Thence South 11°59'36" West 25.99 feet along said western line;
2. Thence South 51°21'33" East 0.41 feet along said western line to the intersection of the northern line of San Pablo Dam Road (Camino Pablo), said line also being coincident with the southern line of said Parcel E;
3. Thence South 38°11'09" West 52.31 feet along said common line;
4. Thence North 51°48'51" West 5.74 feet to the beginning of a non-tangent curve concave northerly and having a radius of 513.00 feet (a radial line of said curve through said point bearing South 61°42'25" East);

5. Thence northeasterly 76.97 feet along said curve through a central angle of 08°35'49" to said western line of State Route 80;
6. Thence South 18°18'03" East 1.62 feet along last said line to the **Point of Beginning**.

Containing 498 square feet

This conveyance is made for the purpose of a freeway, and the GRANTOR hereby releases and relinquishes to the STATE any and all abutter's rights of access, appurtenant to GRANTOR'S remaining property, in and to the freeway

Parcel 70034-2

Being a portion of that certain parcel of land as described in Grant Deed to Filia Enterprises, L.P. a California Limited Partnership, recorded January 26, 2005 as Document No. 2005-0028399-00, Official Records of said County, said lands also being designated as Parcel E on certain Parcel Map MS-776-89 filed July 13, 1989 in Book 141 of Parcel Maps at Page 8, Records of said County, more particularly described as follows;

Beginning at a point along the northern line of San Pablo Dam Road (90 feet wide) at the northerly terminus of that certain course shown as North 37°02'44" East 74.21 feet (the bearing of North 38°11'09" East taken for the purpose of this description) as shown on said Parcel Map, said point also being the beginning of a non-tangent curve concave northerly and having a radius of 50.00 feet (a radial line of said curve through said point bearing South 26°01'48" East);

1. Thence westerly 26.52 feet along said curve and along the southerly line of said Parcel E through a central angle of 30°23'28" to the beginning of a non-tangent curve concave northeasterly and having a radius of 52.16 feet (a radial line of said curve through said point bearing South 24°27'28" West);
2. Thence westerly 13.21 feet along said curve through a central angle of 14°30'25";
3. Thence North 37°44'03" East 8.99 feet;
4. Thence South 59°17'42" East 11.57 feet;
5. Thence North 70°06'45" East 26.51 feet;
6. Thence North 37°45'26" East 102.52 feet to the beginning of a curve concave westerly and having a radius of 513.00 feet;
7. Thence northerly 7.77 feet along said curve through a central angle of 00°52'02";
8. Thence South 51°48'51" East 5.74 feet to said northern line of San Pablo Dam Road;
9. Thence South 38°11'09" West 122.02 feet along last said line to the **Point of Beginning**.

Containing 987 square feet

Parcel 70034-3

An EASEMENT for Temporary Construction purposes over, under, upon, and across the following described real property, described as follows:

Being a portion of that certain parcel of land as described in Grant Deed to Filia Enterprises, L.P. a California Limited Partnership, recorded January 26, 2005 as Document No. 2005-0028399-00, Official Records of said County, said lands also being designated as Parcel E on certain Parcel Map MS-776-89 filed July 13, 1989 in Book 141 of Parcel Maps at Page 8, Records of said County, more particularly described as follows;

Number
70026-1, 70034-1, 70034-2, 70034-3

Beginning at a point lying on the eastern line of that certain parcel of land designated as Parcel E, as shown on Parcel Map MS 776-89, filed July 13, 1989, in Book 141 of Parcel Maps, at Page 8, Records of Contra Costa County, from which the northeast corner of said Parcel E bears North 19°24 55" West 144.58 feet (the bearing of North 18°18 03" East taken for the purpose of this description), said point also being the beginning of a non-tangent curve concave northwesterly and having a radius of 513.00 feet (a radial bearing of said curve through said point bearing South 61°42'25" East);

1. Thence southwesterly 84.74 feet along said curve through a central angle of 09°27'51";
2. Thence South 37°45'26" West 102.52 feet;
3. Thence South 70°06'45" West 26.51 feet;
4. Thence North 59°17'42" West 11.57 feet;
5. Thence South 37°44'03" West 8.99 feet to the beginning of a non-tangent curve concave southwesterly and having a radius of 52.16 feet (a radial line of said curve through said point bearing South 38°57'53" West);
6. Thence southeasterly 13.21 feet along said curve through a central angle of 14°30'25" to the western line of said Parcel E, also being a point of cusp with a non-tangent curve concave northeasterly and having a radius of 50.00 feet (a radial line of said curve through said point bears South 04°21'40" West);
7. Thence northwesterly 22.78 feet along said curve and said western line through a central angle of 26°06'32";
8. Thence North 37°23'58" East 24.52 feet;
9. Thence South 59°17'42" East 13.89 feet;
10. Thence North 70°06'45" East 18.89 feet;
11. Thence North 38°45'26" East 99.62 feet to the beginning of a curve concave northwesterly and having a radius of 503.00 feet;
12. Thence northeasterly 92.63 feet along said curve through a central angle of 10°33'05" to said eastern line of Parcel E;
13. Thence South 18°18'03" East 13.89 feet along last said line to the **Point of Beginning**.

Containing 2,441 square feet

The bearings and distances used in the above description are based on California Coordinate System of 1983, Zone 3, and EPOCH 1991.35. Multiply distances shown above by 1.0000677 to obtain ground level distances.

End of Description

This real property description has been prepared by me, or under my direction, in conformance with the professional land surveyor's act:

28-APR-2026

Dan S. Scott III, PLS 7840 Date

1025 ESCOBAR STREET
MARTINEZ, CA 94553

CONTRA COSTA COUNTY

Staff Report

File #: RES 2026-225 **Agenda Date:** 6/23/2026 **Agenda #:** D.4.

To: **Board of Supervisors**

From: Dr. Grant Colfax, Health Services Director

Report Title: County Service Area (CSA) EM-1 Tentative Report (Measure H) - FY 2026-27

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
1. OPEN the public hearing; RECEIVE public comments; and CLOSE the public hearing.
2. CONSIDER all objections or protests to the Tentative Report.
3. ADOPT the assessment set forth in the Tentative Report.
4. ADOPT a Resolution, confirming the Tentative Report and the assessment set forth therein.

FISCAL IMPACT:
There is no General Fund impact. Proposed Fiscal Year (FY) 2026-27 assessments for County Service Area (CSA) EM-1 total $240,341.97 for Zone A and $4,598,795.00 for Zone B.

BACKGROUND:
Revenues from the CSA EM-1 assessments are used to provide an enhanced countywide emergency medical service system as approved by the voters with the passage of Measure H in November 1988. Enhanced EMS services include additional staffed paramedic units to respond to 9-1-1 calls: support for firefighter EMS first responder programs, EMS communications and miscellaneous EMS enhancements.

The basic assessment rates proposed are $3.94 per single-family residence or benefit unit for Zone A (San Ramon Valley) and $10.00 per single-family residence or benefit unit for Zone B (balance of county). The lower rate for Zone A reflects the fact that certain EMS enhancements are funded by other revenue sources in the San Ramon Valley area. The proposed FY 2026-27 rates are unchanged from the previous year.

After confirmation of the Tentative Report, a Final Report will be prepared in conformance with the official assessment roll for Fiscal Year 2026-27. The Final Report will then be presented to the Board of Supervisors for confirmation. That confirmation will constitute the levy of the assessment.

CONSEQUENCE OF NEGATIVE ACTION:
Failure to set the CSA EM-1 assessment rates prior to August 10, 2026, may result in the EM-1 assessments not being included in the property tax bills countywide.

THE BOARD OF SUPERVISORS OF CONTRA COSTA COUNTY, CALIFORNIA

and for Special Districts, Agencies and Authorities Governed by the Board

IN THE MATTER OF: Confirmation of Tentative Report for County Service Area EM-1 (Emergency Medical Services) Fiscal Year 2026-27 and Approval of Assessments

WHEREAS, County Service Area EM-1 has been established to provide enhanced emergency medical services as miscellaneous extended services pursuant to the County Service Area Law (Government Code Sections 25210.1 and following);

WHEREAS, the Board, on June 23, 2026, held a public hearing and thereafter adopted Tentative Report for CSA EM-1, Fiscal Year 2026-27 has been filed with the Clerk of the Board pursuant to Ordinance Code Section 1012-2.602;

WHEREAS, the Tentative Report sets forth proposed assessments for Zone A and Zone B, which have been established within CSA EM-1 to receive specified miscellaneous services;

WHEREAS, notice of a Board hearing on the Tentative Report was published pursuant to Government Code Section 6066; and

WHEREAS, at the public hearing, the Board afforded to every interested person an opportunity to protest or object to the Tentative Report, either in writing or orally, and the Board has considered each protest and objection.

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors hereby confirms the Tentative Report for CSA EM-1, Fiscal Year 2026-27, and hereby declares its intent to levy the assessments identified therein for Fiscal Year 2026-27. The assessment for each parcel shall appear as a separate item on the tax bill to be collected at the same time and in the same manner as ordinary county ad valorem property taxes and subject to the same penalties and the same procedure and sale in case of delinquency.

June 1, 2026

TO: Clerk of the Board

FROM: Marshall Bennett, EMS Director

SUBJ: Filing of Tentative Report for CSA EM-1, FY 2026-27

Attached is the tentative report for CSA EM-1 for FY 2026-27 filed pursuant to Ordinance Code Section 1012-2.602. Also attached is a copy of the notice of the Board Hearing, which you have set for June 23, 2026, at 9:30 a.m. This notice is being published pursuant to Government Code Section 6066, and the appropriate affidavit of publication will be forwarded to you.

A Board Resolution and Board Order have been prepared and will be submitted with the required number of copies through the normal channels.

Thank you.

June 1, 2026

The attached Tentative Report for County Service Area EM-1 (Zones A and B) for Fiscal Year 2026-27 is hereby filed pursuant to Ordinance Code Section 1012-2.602.

Marshall Bennett, EMS Director

CONTRA COSTA HEALTH SERVICES
Emergency Medical Services Agency

June 1, 2026

County Service Area EM-1 (Zones A and B)

Tentative Report

Fiscal Year 2026-27

County Service Area EM-1 has been established to provide enhanced emergency medical services as a miscellaneous extended service within two designated zones:

Zone A: Those parcels located within the territory of the San Ramon Valley Fire Protection District.

Zone B: Those parcels are located within Contra Costa County, but not within Zone A, above.

ASSESSMENTS will be levied on each parcel based upon a formula using the following factors:

BENEFIT UNIT: A number of BENEFIT UNITS have been assigned to each parcel based upon the Assessor's Use Code classification. For example, a single-family residence (Use Code 11) is assigned one BENEFIT UNIT. Parcels with other Use Code classifications are assigned a number of BENEFIT UNITS based upon the relative benefit from the miscellaneous extended services provided under CSA EM-1. Exhibit A is a Table of BENEFIT UNITS showing the number of BENEFIT UNITS assigned parcels for each Use Code classification.

RATE: The RATE is the dollar amount of the ASSESSMENT levied per BENEFIT UNIT. Separate RATES have been established for each zone based upon the miscellaneous extended services to be provided within that zone.

The formula for calculating the ASSESSMENT on each parcel is as follows:

ASSESSMENT = BENEFIT UNITS x RATE

Zone A

The RATE which has been established for Zone A is:

$3.94 per BENEFIT UNIT

Exhibit B is “Zone A - Table of Assessments," showing the ASSESSMENT established for each parcel according to its USE CODE. A description of each parcel and the USE CODE number assigned thereto is contained in Exhibit C.

The total ASSESSMENTS for Zone A are $240,341.97 based upon 52,409 ASSESSED PARCELS.

Zone B

The RATE which has been established for Zone B is:

$10.00 per BENEFIT UNIT

Exhibit D is the "Zone B - Table of Assessments," showing the ASSESSMENT established for each parcel according to its USE CODE. A description of each parcel and the USE CODE number of assigned thereto is contained in Exhibit E.

The total ASSESSMENTS for Zone B are $4,598,795.00 based upon 304,362 ASSESSED PARCELS.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2662 **Agenda Date:** 6/23/2026 **Agenda #:** D.5.

To: Board of Supervisors

From: Marla Stuart, Employment and Human Services Director

Report Title: Update on Head Start Programs and Oversight

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
CONSIDER accepting the monthly update on the activities and oversight of the County's Head Start Program;

APPROVE the Head Start Program's 2026-27 Admission Priorities and Selection Criteria, Recruitment and Enrollment Plan, and Planning Calendar;

and provide guidance, as recommended by the Employment and Human Services Director.

FISCAL IMPACT:
There is no fiscal impact.

BACKGROUND:
Per Board Resolution No. 2023/274, the Board receives monthly updates on and provides guidance related to the activities of the Head Start program. This is the June 2026 update.

CONSEQUENCE OF NEGATIVE ACTION:
The County will not be in compliance with Head Start program requirements, which may jeopardize funding and successful 2024-2029 grant implementation.

CHILDREN'S IMPACT STATEMENT:
The services provided under this contract support all five of Contra Costa County's community outcomes: (1)"Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5) "Communities that are Safe and Provide a High Quality of Life for Children and Families".

Early Childhood Education Program Update

June 23, 2026

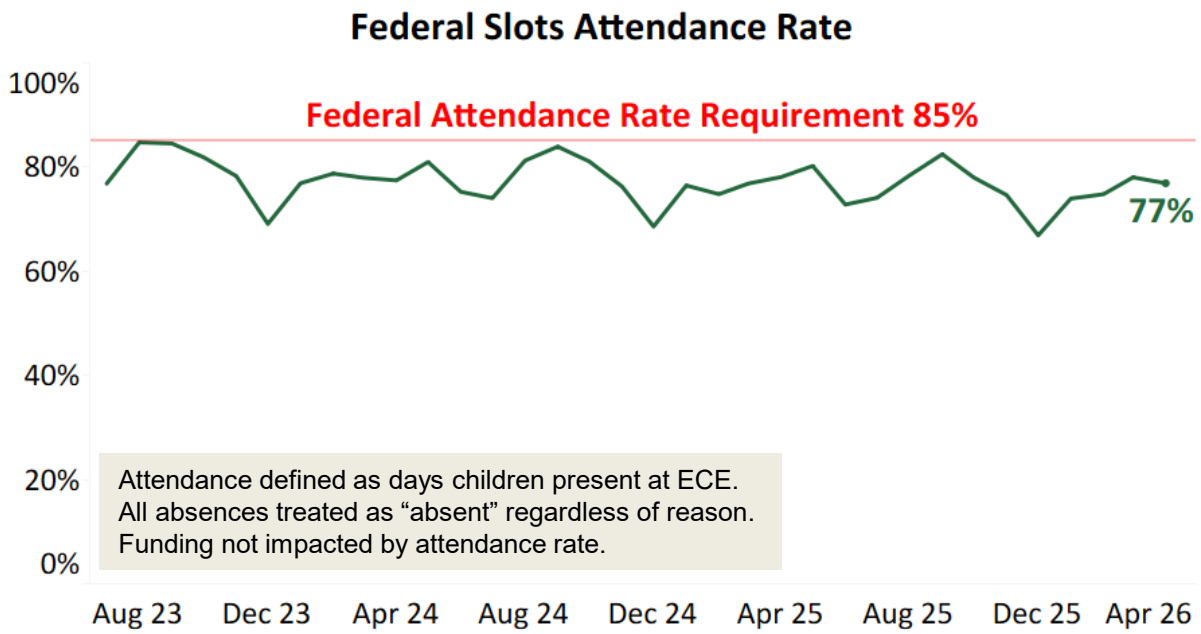
Building Brighter Futures Together

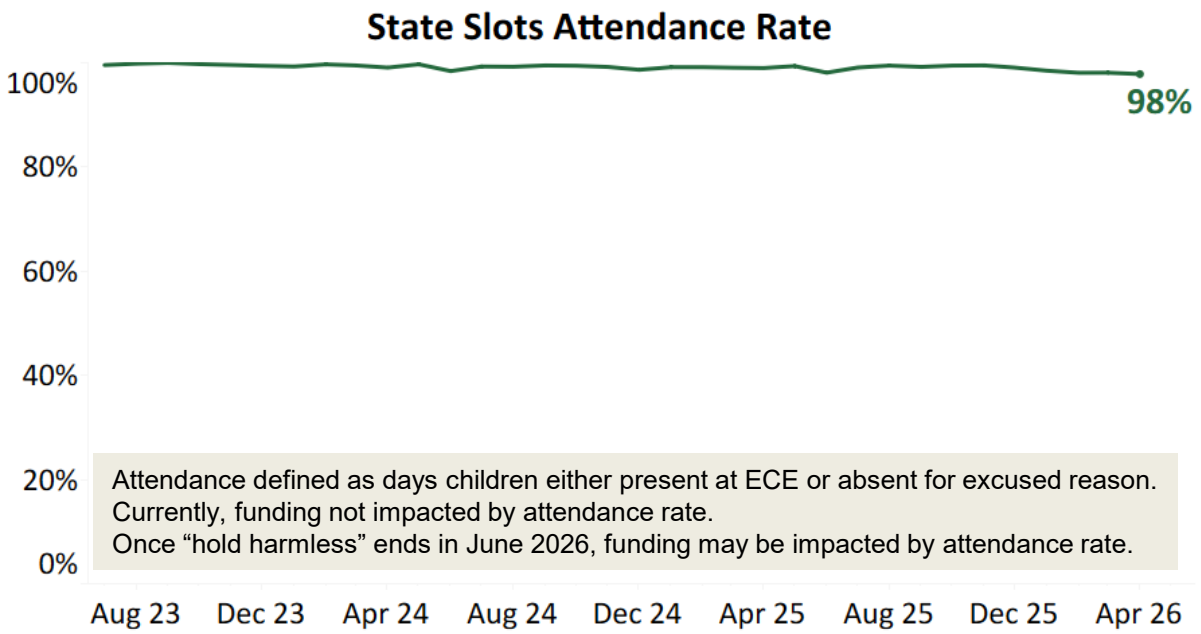
Center Enrollment Rates

Current Slot Allotments:



- Federal Slots (Head Start) = 1,201 (1,198 filled slots as of April 2026)
- State Slots (CDE and CDSS) = 764 (763 filled slots as of April 2026)
- Total Unique Slots = 1,345 (1,341 filled slots as of April 2026)

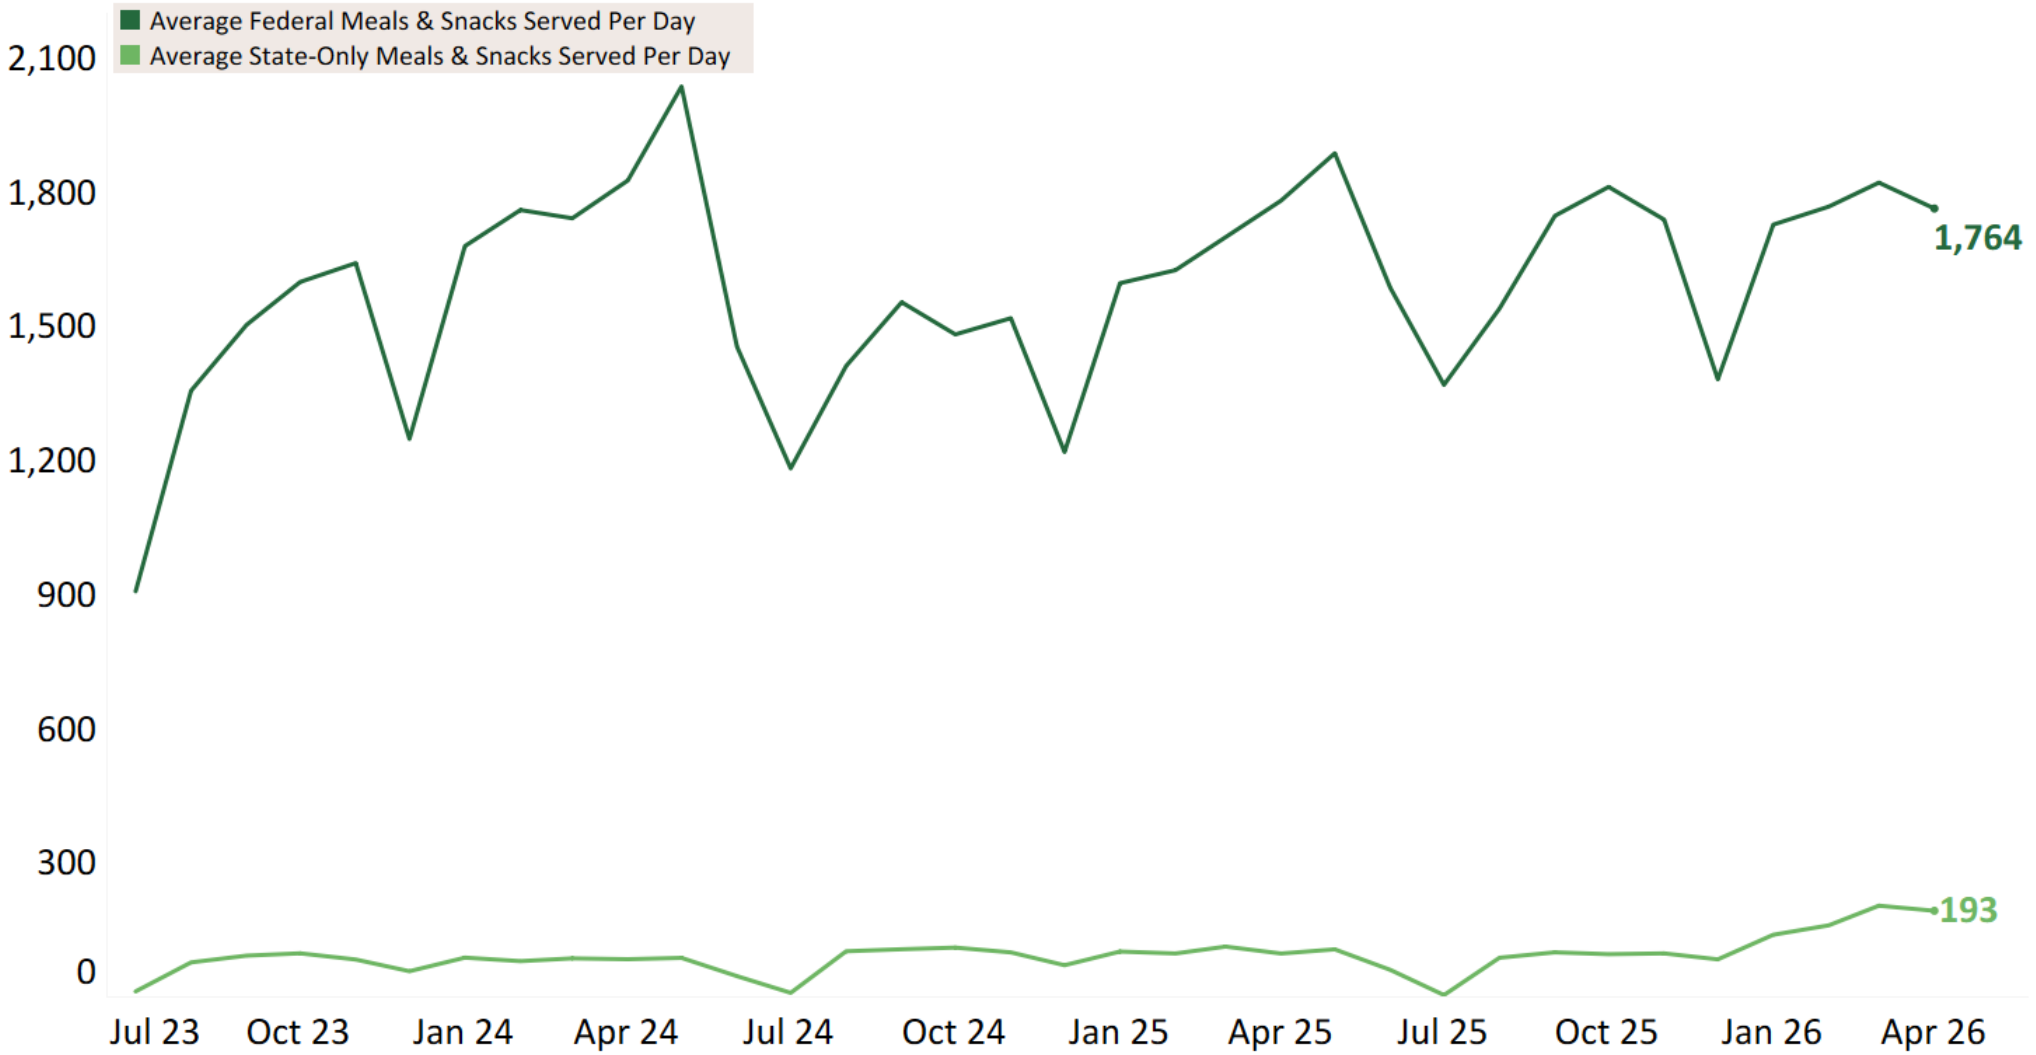
Current Enrollment Requirements:



- Federally Funded = 97% slots filled
- State Funded = Currently “hold harmless” meaning no penalties for not filling all slots. When “hold harmless” ends in June 2026, we will no longer be funded for unfilled slots.

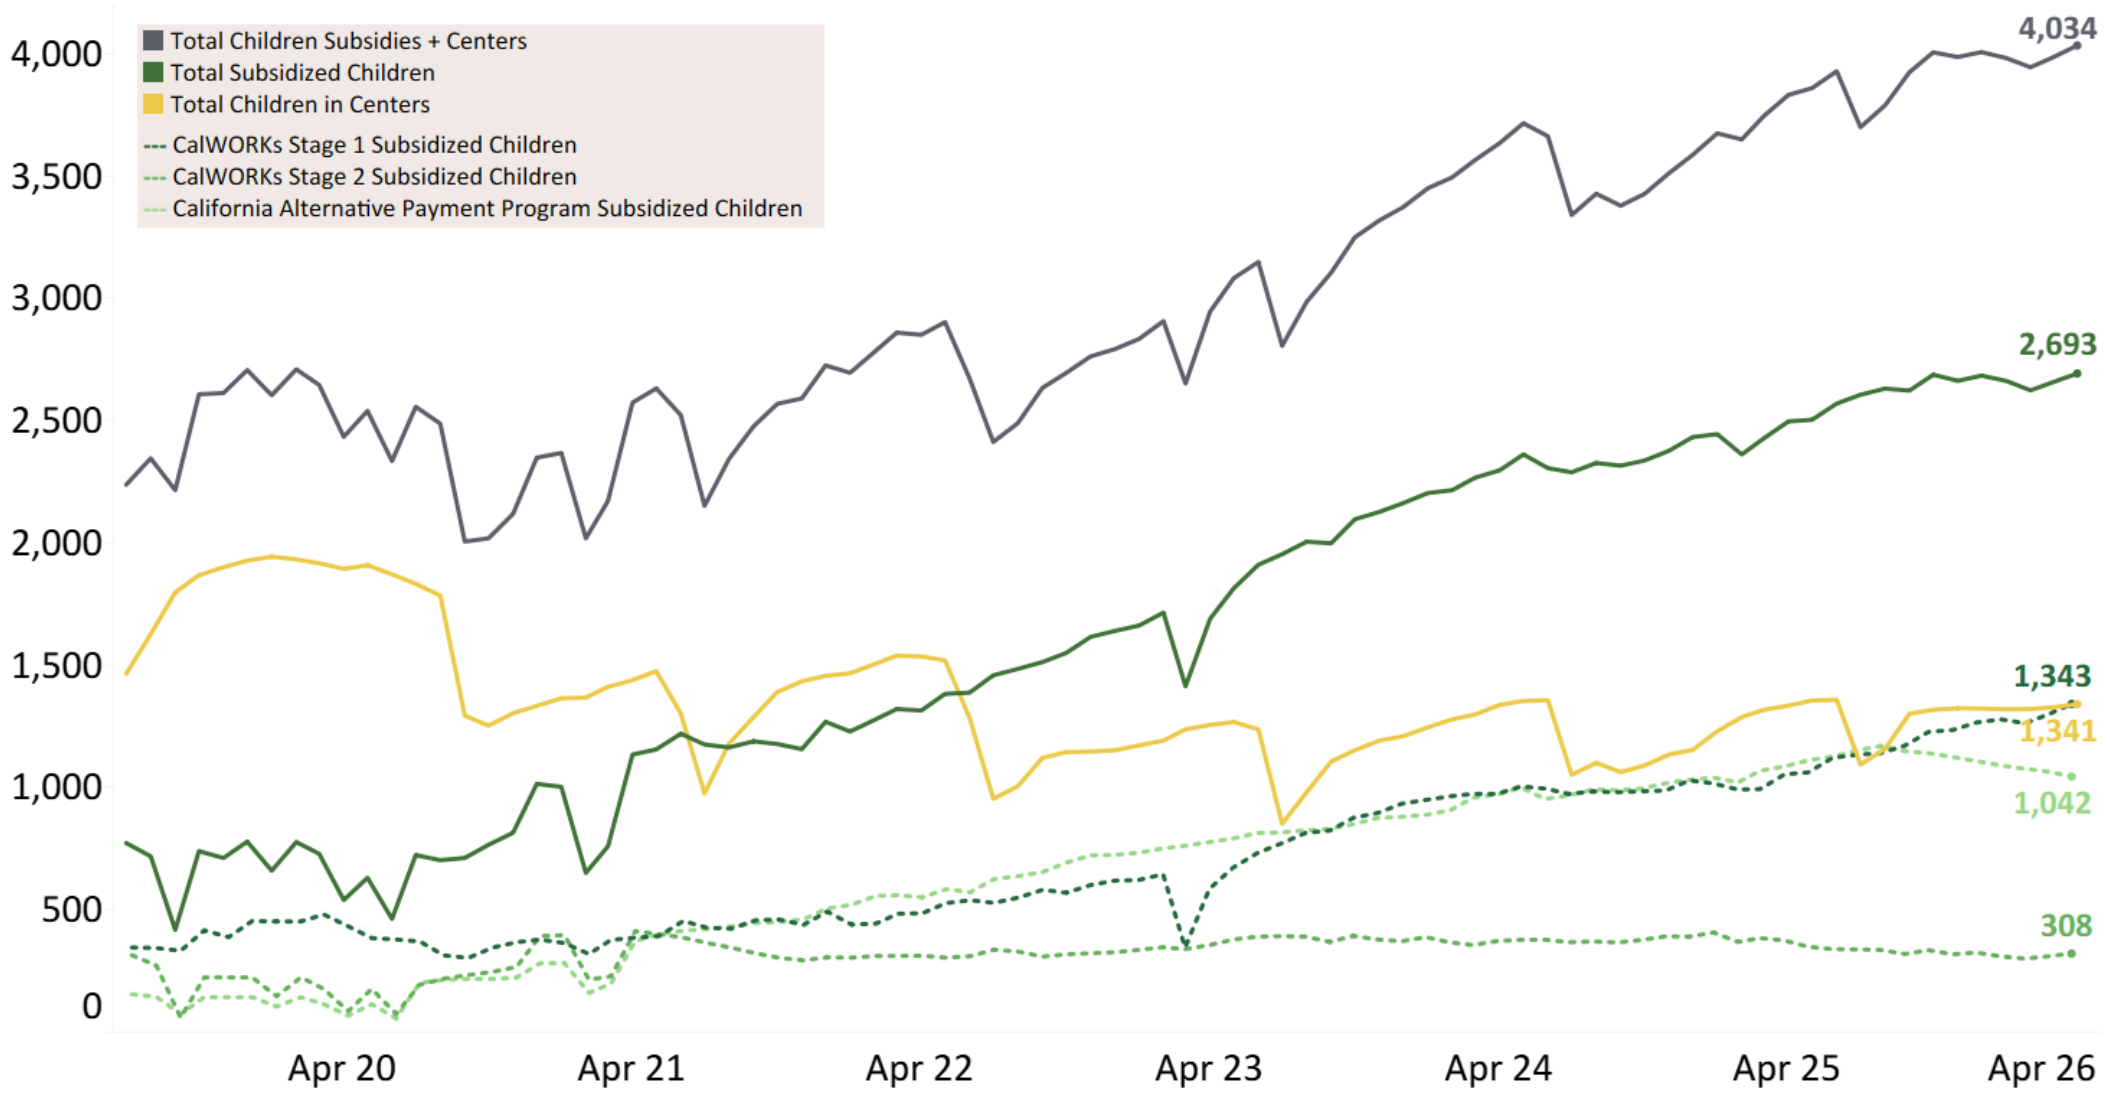
Building Brighter Futures Together

Center Attendance Rates



Attendance defined as days children present at ECE.
All absences treated as "absent" regardless of reason.
Funding not impacted by attendance rate.

Attendance defined as days children either present at ECE or absent for excused reason.
Currently, funding not impacted by attendance rate.
Once "hold harmless" ends in June 2026, funding may be impacted by attendance rate.



Absence Reasons for Federal Slots (% of Enrollment Days)	Dec 25	Jan 26	Feb 26	Mar 26	Apr 26
1. Sick (e.g., Hand Foot Mouth, Flu, COVID, cold, ear infection)	13%	13%	13%	11%	11%
2. Family Emergency (e.g., parent/family member sick, no transportation)	6%	6%	6%	6%	7%
3. Best Interest Day (e.g., home with family, vacation)	8%	3%	1%	1%	2%
4. Appointment (e.g., doctor, dentist, social services)	2%	1%	2%	2%	1%
5. Other (e.g., no details provided)	3%	2%	2%	2%	2%

Average Center Meals & Snacks Per Day

Building Brighter Futures Together

Children Served in Child Care

"Total Children in Centers" includes children enrolled with federal (Head Start/Early Head Start) and state (CCTR, CSPP) funding sources.

Building Brighter Futures Together

FY26-27 Admissions Priorities & Selection Criteria

Infants and Toddlers (Ages 0-2)

1. Recipients of Child Protective Services (CPS) | At risk for CPS | In Foster Care
2. Lowest income (tie breaker criteria)

Pre-School (Ages 3-5)

1. Recipients of Child Protective Services (CPS) | At risk for CPS | In Foster Care
2. With disabilities below income guidelines
3. 4-year-olds not in Transitional Kindergarten (tie breaker criteria)
4. 3-year-olds with lowest income (tie breaker criteria)
5. Income no more than 15% above income guidelines (tie breaker criteria)

FY26-27 Recruitment and Enrollment Plan

Desired Outcome: To inform the public about services available through the Contra Costa County Community Services Bureau, particularly those populations identified in our Community Assessment, to recruit and enroll eligible children and their families into the Head Start, Early Head Start, and State-funded child care programs, and attain/maintain 100% enrollment.

Goal 1: Recruit at least 1,500 eligible pregnant women, infants, toddlers, and children

Goal 2: Recruit at least 215 children with disabilities

Goal 3: Recruit special populations as per our Community Assessment and Selection Criteria

Goal 4: Attain and maintain full enrollment as defined by Head Start

Goal 5: Reduce administrative burden on families who apply

Goal 6: Track all recruitment efforts

FY26-27 Head Start Planning Calendar

Federal Requirements: Head Start Act (HSA) 640(g)(1)(D); Head Start Program Performance Standards (HSPPS) 1302.11(b), 1302.102(d)(2)

EHSD Implementation: Annual Head Start Program Planning Calendar

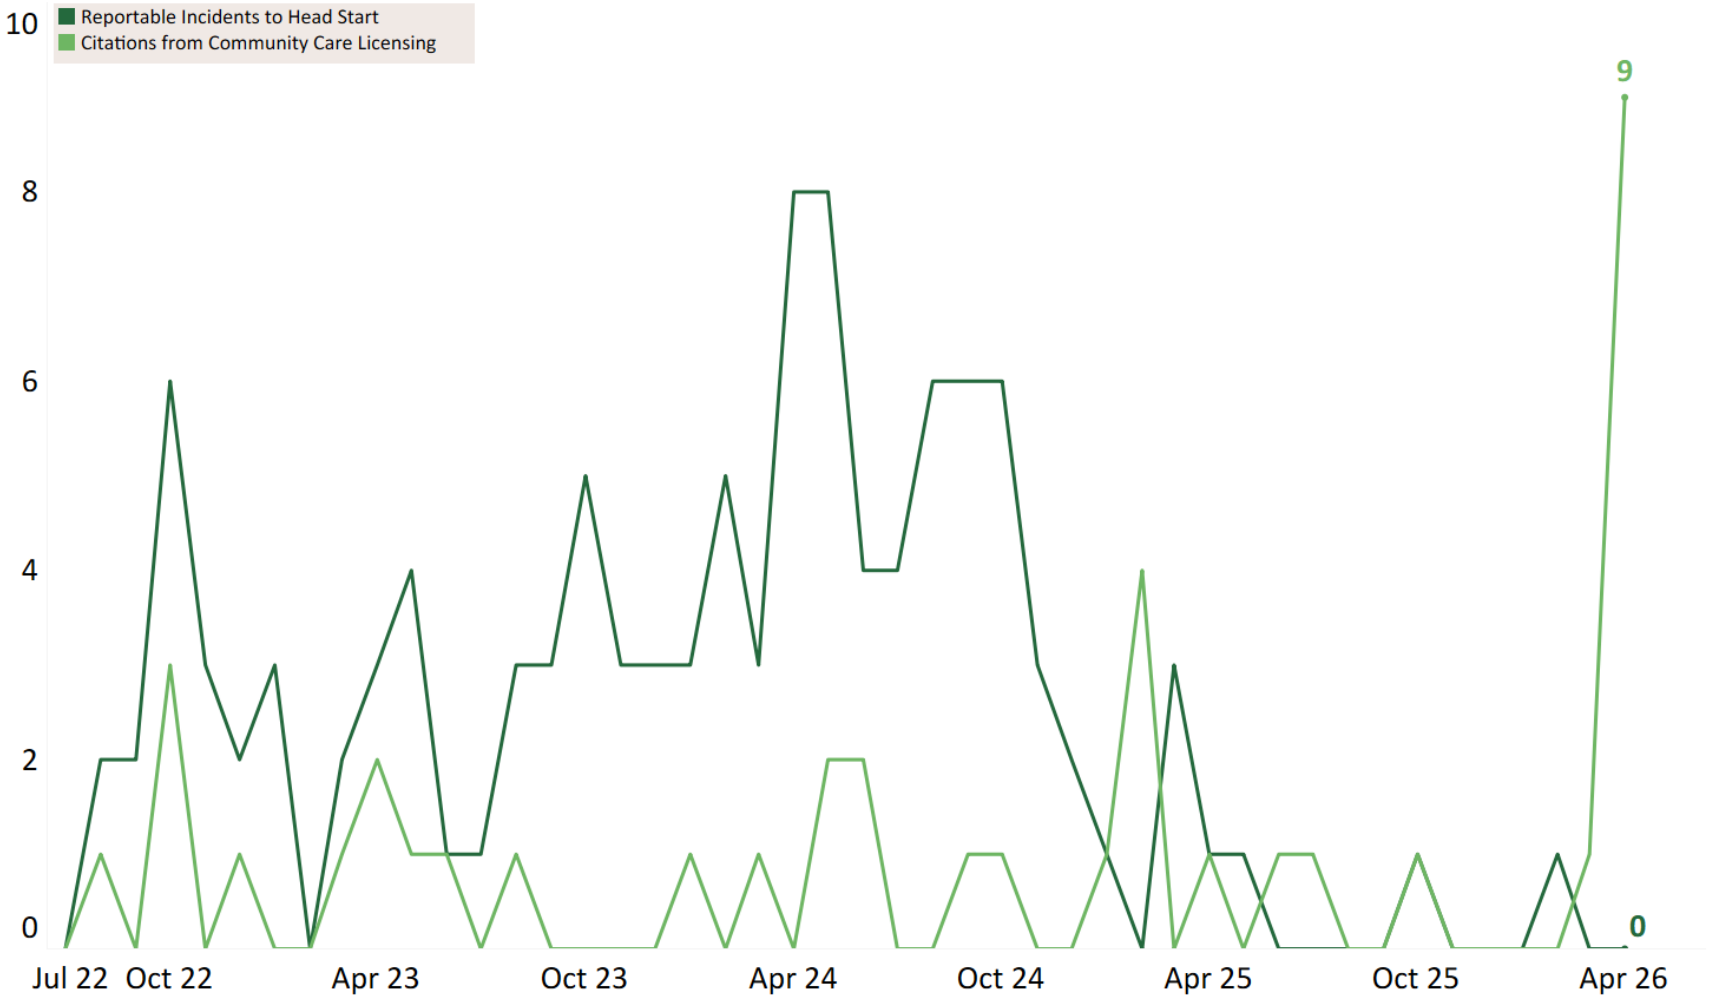
Health and Safety Compliance



Indicators with non-compliance rates over 10% in Apr 2026:

1. Classroom head count white board reflects the number of children and staff in room. (2/7 = 29%)
2. The center parent communication board has current, relevant, and translated material posted. (1/7 = 14%)
3. A review of the most recent Weekly Facility Tool, Daily Classroom Health & Safety Checklist, and Daily Playground Checklist reflect the findings in today's observation. (1/7 = 14%)
4. Wood on Playground Equipment: There are no splinters, cracks, rotting, or sharp ends. (4/34 = 12%)
5. Playground fall zones are appropriately padded. (4/34 = 12%)

Reportable Incidents & Citations

Office of Head Start (OHS) Reportable Incidents

OHS considers a "significant incident" to be any incident that results in serious injury or harm to a child, violates Head Start standards of conduct at 45 CFR §1302.90(c), or results in a child being left alone, unsupervised, or released to an unauthorized adult. A program must report all significant incidents affecting the health and safety of children with 7 days.

California Department of Social Services Community Care Licensing Citations

Type A: An immediate risk to the health, safety or personal rights of children in care.

Type B: If not corrected right away, may be a risk to the health, safety, and personal rights of the children in care.

CONTRA COSTA COUNTY
CSB Admissions Priorities & Selection Criteria
2026-2027 Program Year

Head Start Program Performance Standard 1302.14 (a)(1) mandates that the program set criteria, based on our Community Assessment, that define the types of children and families who will be given priority for recruitment and selection. Kindergarten is available in all communities that we serve. Due to the community need for full-day, full-year services, and the mandate that the Head Start & Early Head Start Program collaborate for full-day services, CSB has adopted the following selection criteria presented in order of priority, which also meets the regulations of our partners, the California Department of Education and California Department of Social Services.

INFANTS & TODDLERS (Aged 0-3, including pregnant women)	**PRE-SCHOOL (Aged 3-5)**
Transfers for children ***currently enrolled*** in Early Head Start and California Childcare and Development programs will be accommodated before enrolling any new children. Siblings in a currently enrolled family may be given priority. 1. Child Protective Services / Child At Risk referrals or in ♦Foster care 2. Children and families with the lowest income according to the income ranking a. When 2 or more have the same ranking then infants/toddlers with disabilities (IEP or IFSP) take priority b. If there is no family of the same priority with a child with disabilities, the family of the same priority in which the primary home language is a language other than English shall be admitted first. c. If there is no family of the same priority in which the primary home language is a language other than English, the family of the same priority that has been on the waiting list for the longest time shall be admitted first.	Requested transfers for children ***currently enrolled*** in Head Start and California State Preschool Programs (CSPP) will be accommodated before enrolling any new children. Siblings in a currently enrolled family may be given priority. 1. 3 or 4 year olds with Child Protective Services / At Risk referrals or in ♦Foster Care 2. 3 or 4 year olds with disabilities (after the set aside 10% has been filled) w/incomes below the eligibility guidelines 3. 4 year olds ***not*** enrolled in Transitional Kindergarten (TK) *a.* ***Part Day only****: Children enrolled in CSPP as a 3* year old b. Lowest income according to the income ranking i. When 2 or more have the same ranking then those with the Dual Language Learner designation take priority ii. If no Dual Language Learner then whomever has been on the waiting list the longest 4. 3 year olds Lowest income according to the income ranking a. When 2 or more have the same ranking then those with the Dual Language Learner designation take priority b. If no Dual Language Learner then whomever has been on the waiting list the longest 5. 3 or 4 year olds from families with incomes no more than 15% above the income guideline. a. 4 year olds with disabilities (after the set aside % has been met) then 3 year olds with disabilities b. 4 year olds without disabilities before 3 year olds without disabilities After all other eligible children have been enrolled: 6. ***Full day only***: 3 or 4 year olds that meet eligibility criteria without having a need for services a. Lowest income ranking i. When 2 or more have the same ranking 4 year olds then 3 year olds 7. 3 or 4 year olds that live within the attendance boundaries of a qualified free and reduced price lunch school 8. **Part day only**: Children enrolling to provide expanded learning and care to TK enrolled children
Head Start and Early Head Start - Additional Priorities	
1. ♦Currently Homeless or Homeless within the last 18 months 2. Eligible for special education or early intervention services 3. Teen parents (EHS only)	

1) ♦Denotes categorical eligibility as per Head Start Program Performance Standard 1302.14 (b). 2) At least 10 percent of the enrollment will be made available to children who meet the definition for children with disabilities. 3) Pre-School Selection Priorities apply to both Full Day and Part Day programs unless otherwise specified. 4) Admissions Priorities / Selection Criteria, approved by Policy Council on 04/15/2026 and approved by Board of Supervisors on xx/xx/xxxx.

2026-2027 Head Start/Early Head Start/State-Funded Child Care Programs Recruitment and Enrollment Plan

Contra Costa County Employment and Human Services Department - Community Services Bureau

DESIRED OUTCOME: To develop and implement a plan to actively inform the public about services available through the Contra Costa County Community Services Bureau (CSB), particularly those populations identified in our Community Assessment, to recruit and enroll eligible children and their families into the Head Start (HS), Early Head Start (EHS) and State-funded child care programs, and attain/maintain 100% enrollment. Recruitment activities as outlined in this plan will actively inform all families with eligible children within Contra Costa County of the availability of program services and will result in maintenance of an active waitlist of eligible children and families to ensure all slots are filled promptly after vacancy. The plan includes specific efforts to actively locate and recruit children with disabilities and other children in need, including children experiencing homelessness and children in foster care. The plan utilizes modern technologies to reduce the family's administrative and paperwork burden in the application and enrollment process.

Goal #1: To recruit at least 1,500 eligible pregnant women, infants, toddlers, and children.
Goal #2: To recruit at least 215 children with disabilities.
Goal #3: To recruit special populations as per our community assessment and selection criteria: CPS/At-Risk, Domestic Violence, Dual Language Learners, Need for Full Day Care, Homeless, CalFresh/Cash Aid Recipients, Children with Health Impairments, Teen Parents, Grandparent Caregivers, and children of currently or formerly incarcerated parents.
Goal #4: To attain and maintain full enrollment as defined by Head Start Act Section 641A(h)(5).
Goal #5: To reduce administrative burden on families who apply by utilizing the immunization registry, CalSAWS, and other county systems to obtain already provided documentation, and the IVR hotline and electronic submission of paperwork, while maintaining confidentiality.
Goal #6: To track all recruitment efforts to fully evaluate effectiveness and make course corrections as necessary.

ACTIVITIES	PERSON (S) RESPONSIBLE	TIMELINE	LOCATION	INFORMATION TO INCLUDE	DISTRIBUTION
Mobilize Parents by providing them with flyers and other recruitment supplies to use in the community. Track the number of flyers given out by parents at intake and the number that result in enrollment.	The Comprehensive Services Team (CST) staff, Site Supervisors, Parent/Family, Community Engagement Officer, Centralized Enrollment Unit (CEU) staff and Eligibility, Recruitment, Selection, Enrollment, and Attendance (ERSEA) Manager	Ongoing	Policy Council, Parent Meetings, Family Newsletter, Tables in entryways, Parent Orientation/Intake.	Reproducible Flyers and Pre-App Screening Forms. Palm Cards w/HS enrollment info.	All CSB and Partner sites.
Provide parents with numbered referral forms so we can track successful enrollment by parent recruitment and incentive recruitment by offering a monthly prize for the parent with the best result.	CST	Monthly	Wherever the parents go in the community.	Numbered referral forms.	All CSB and Partner sites.
Pamphlets/flyers distributed: a) General info on CSB services b) Enrollment flyers c) Home-based services	Teachers, Site Supervisors, CST and CEU Staff, Home Educators	For community distribution: 10 contacts per month for Comprehensive Services Team and 15 per month for CEU as tracked on the Recruitment spreadsheet. For mailings:	Laundromats Women, Infants and Children (WIC) offices Grocery Stores Site lobby/Classrooms Elementary Schools Clinics	Pictures Short paragraph describing program options Who is eligible Explanation of services available List Health, Nutrition, Education, Family Services,	Low Income Home Energy Assistance Program (LIHEAP) mailings CalFresh Offices Parent Meetings Doctors' Offices CSB Child Care Centers Volunteer Bureaus

CALIFORNIA DEPARTMENT OF SOCIAL SERVICES

EXECUTIVE SUMMARY

CHILD CARE BULLETIN (CCB) NO. 26-10

The purpose of this Child Care Bulletin (CCB) is to inform the California Work Opportunity and Responsibility to Kids Stages Two and Three contractors of initial contract allocations for Fiscal Year 2026-27.

CDSS

CALIFORNIA HEALTH & HUMAN SERVICES AGENCY
DEPARTMENT OF SOCIAL SERVICES
744 P Street • Sacramento, CA 95814 • *www.cdss.ca.gov*

JENNIFER TROIA
DIRECTOR

GAVIN NEWSOM
GOVERNOR

May 11, 2026

CHILD CARE BULLETIN (CCB) NO. 26-10

GUIDANCE TYPE: FISCAL

TO: ALL COUNTY CHILD CARE COORDINATORS
ALL CHILD CARE AND DEVELOPMENT CONTRACTORS

SUBJECT: **FISCAL YEAR 2026-2027 CALIFORNIA WORK OPPORTUNITY AND RESPONSIBILITY TO KIDS INITIAL CONTRACT ALLOCATIONS**

APPLICABLE PROGRAMS: CALIFORNIA WORK OPPORTUNITY AND RESPONSIBILITY TO KIDS STAGES TWO AND THREE

REFERENCE: WELFARE AND INSTITUTIONS CODE (WIC) SECTIONS 10227.5, 10372, 10372.5; CHILD CARE BULLETIN (CCB) 21-21; CCB 23-17; CCB 24-11; CCB 25-12

Purpose

The purpose of this Child Care Bulletin (CCB) is to inform the California Work Opportunity and Responsibility to Kids (CalWORKs) Stage Two (C2AP) and Stage Three (C3AP) contractors of Fiscal Year (FY) 2026-27 initial planning contract allocations. Please note that award amounts are proposed, and any changes based on Budget Act enactment may be communicated in a forthcoming Budget Act amendment CCB. Contracts will be provided on a flow basis as soon as possible. Funding Terms and Conditions are located on the Contractor Resources webpage.

Background

CalWORKs families receiving Stage One Child Care move to Stage Two when the County Welfare Department (CWD) determines they are "stable," or when the parent(s) or legal guardian(s) is/are discontinued from cash aid. Families can remain in Stage One or Stage Two until they have been discontinued from cash aid for 24 months. Stage One funding is available to CWDs as an entitlement to eligible CalWORKs families and funding is claimed through CDSS' County Expense Claim (CEC), not through contracts. Refer to County Fiscal Letter 21/22-08 for more information about claiming reimbursement for Stage One Child Care. The California Department of Social Services (CDSS) contracts with Alternative Payment Program (APP) agencies to administer Stage Two pursuant to Welfare and Institutions Code (WIC) Section 10372. For additional information on the Stage Two program, please refer to the Program Requirements for CalWORKs Stage Two.

Families that have exhausted 24 months of CalWORKs Stage One or CalWORKs Stage Two Child Care after they have been off cash aid transition to Stage Three Child Care. This program provides care if funding is available and if the family's income remains at or below 85 percent of the state median income. The CDSS contracts with APP agencies to administer this program pursuant to WIC Section 10372.5. For additional information on the Stage Three program, please refer to the Program Requirements for CalWORKs Stage Three. While counties are not reimbursed for Stage Two and Three programs through CDSS' CEC, counties are required to identify their costs for these programs to the CalWORKs Stage Two and Stage Three Child Care Program Codes in the CEC. Refer to the latest version of the Program Code Descriptions Manual on the CFL page of the CDSS website for the more information about the Stage Two Child Care and Stage Three Child Care codes.

As voucher-based programs, Stages Two and Three programs are reimbursed on the Regional Market Rate (RMR) schedule. The RMR ceilings are the maximum amounts that voucher-based child care providers can be reimbursed from the state for subsidized child care. Effective January 1, 2022, the RMR ceilings were established at the greater of either of the following:

- The 75th percentile of the 2018 Regional Market Rate (RMR) survey for that region.
- The Regional Market Rate ceilings that existed in that region on December 31, 2021.

For additional information regarding the RMR ceiling changes effective January 1, 2022, please review Child Care Bulletin (CCB) 21-21 and the Reimbursement Ceilings for Subsidized Child Care webpage.

Guidance

The annual Budget Act requires CDSS to adjust Stages Two and Stage Three contract amounts during the contract period to ensure that funds are distributed proportionally to need. The Department periodically reviews reported fiscal and caseload data to determine projected earnings and amends contracts as needed. This review may result in either an augmentation or a reduction to the contract's Maximum Reimbursable Amount (MRA). The process in which CDSS augments or reduces a contract is outlined in the Fiscal Handbook.

Over the years, the Department has used different methodologies to determine Stage Two and Stage Three Initial Allocations. For FY 2023-24, projected earnings were used to establish the initial allocation amounts for both C2AP and C3AP contracts. For additional information, please refer to CCB 23-17.

For FY 2024-25, the total Stage Two budget increased due to projected statewide caseload growth, while the total Stage Three budget decreased due to projected statewide caseload decline. Of the total Stage Two budget amount, individual C2AP contract allocations were based on the higher of the total 2023-24 MRAs or projected contract earnings, with additional funding provided to reflect statewide caseload growth. Of the total Stage Three budget amount, individual C3AP contract allocations were based on the lower of the total 2023-24 MRAs or projected contract earnings, and adjusted to reflect statewide caseload decline. For additional information, please refer to CCB 24-11.

In FY 2025-26, the total Stage Two budget increased due to a projected statewide caseload growth, while the total Stage Three budget decreased due to projected statewide caseload decline. Initial allocations for both individual C2AP and C3AP contracts were based on either the total 2024-25 MRAs or projected contract earnings. Individual C2AP contract allocations were adjusted by projected statewide caseload growth, while individual C3AP contract allocations were adjusted by projected statewide caseload decline. For additional information, please refer to CCB 25-12.

For FY 2026-27, the total Stage Two and Stage Three budget increased due to projected statewide caseload growth. To better align allocations with projected contract earning levels and support contractors experiencing caseload growth, the initial contract allocations for both C2AP and C3AP are based on each contractor's projected earnings, which was adjusted upwards for contractors projected to experience caseload growth. The Department will continue to review projected earnings, as mentioned above.

Claiming

As a reminder, MRAs are comprised of multiple funding sources. Each funding source's corresponding Service Location (SL) is provided in each contractor's annual child care contract. Reimbursements are processed through a system-generated percent-to-total

for each contract, which is comprised of multiple SLs. Contractors are encouraged to review the SL information and funding details in their local agreements and this CCB.

Attachment I displays the initial contract allocation for the Stage Two contracted programs. Stage Two programs are funded with a combination of Child Care and Development (CCDF) Title XX and General Fund. Stage Two program costs should be claimed to the following SLs:

Service Location Code	Code Title	Federal Catalog Number
24178	TANF Tnsfr to Title XX-CCDF C2AP	93.667
13367	C2AP – General Fund	N/A

Attachment II displays the initial contract allocation for the Stage Three contracted programs. Stage Three programs are funded with CCDF and General Fund. Stage Three program costs should be claimed to the following SLs:

Service Location Code	Code Title	Federal Catalog Number
23881	C3AP – CCDF Discretionary	93.575
25452	C3AP – CCDF Matching	93.596
13024	C3AP – General Fund	N/A

For further information about fiscal reporting and claiming for voucher-based Child and Development programs, please refer to the most recently published Enrollment, Attendance, and Fiscal Reporting and Reimbursement Procedures for Child Care and Development Contracts, commonly referred to as the Fiscal Handbook, located on the Fiscal Resources webpage.

If you have questions or need additional guidance regarding the information in this letter, please contact the Child Development Fiscal Services inbox at ChildDevelopmentFiscal@dss.ca.gov.

CHILD CARE BULLETIN (CCB) NO. 26-11

GUIDANCE TYPE: FISCAL

TO: ALL DIRECT SERVICE CHILD CARE AND DEVELOPMENT CONTRACTORS

SUBJECT: **FISCAL YEAR 2026-27 DIRECT SERVICE CHILD CARE AND DEVELOPMENT INITIAL CONTRACT AWARD ALLOCATIONS**

APPLICABLE PROGRAMS: GENERAL CHILD CARE AND DEVELOPMENT PROGRAMS (CCTR),
CHILD CARE AND DEVELOPMENT PROGRAMS FOR CHILDREN WITH SEVERE DISABILITIES (CHAN),
MIGRANT CHILD CARE AND DEVELOPMENT PROGRAM (CMIG), AND
MIGRANT SPECIAL SERVICES PROGRAM (CMSS)

REFERENCE: AB 131 (CHAPTER 116, STATUTES OF 2021)
CHILD CARE BULLETIN (CCB) NUMBER (NO.) 22-32;
CCB 25-25,
WELFARE AND INSTITUTIONS CODE (WIC) SECTION 10280

Purpose

The purpose of this CCB is to inform direct service child care and development contractors of Fiscal Year (FY) 2026-27 initial planning contract allocations. Initial allocations for certain child care contractors reflect agreed-upon, ongoing relinquishments of funds that historically have gone unspent and were projected to remain unspent. These relinquishments help absorb the FY 2026-27 Governor's Budget total fund reduction without disrupting services for any currently enrolled children. The

California Department of Social Services (CDSS) has and will continue and to be evaluate child care contracts to identify contract which either request to be adjusted to better align with lower earning trends or may be subject to relinquishment due to historical under-earning and the possibility of being reallocated to other contractors. Please note that award amounts are proposed, and any changes based on Budget Act enactment may be communicated in a forthcoming Budget Act amendment CCB. Contracts will be issued on a flow basis as soon as possible. Funding Terms and Conditions (FTCs) are located on the Contractor Resources webpage.

Per CCB 25-25, Child Care and Development (CCD) Direct Service and Alternative Payment Contractors who applied and received approval for continued funding will not need to sign and return a CCD contract to provide services for FY 2026-27. By completing and returning the FY 2026-27 Continued and Expansion Funding Application (CEFA), a contractor indicates that it wishes to automatically renew its CCD contract for FY 2026-27 in accordance with all applicable federal and state laws, as well as all the terms and conditions and Program Requirements that will be incorporated into the FY 2026-27 CCD contract. See CCB 25-25 for additional information regarding contract renewal/expansion.

Background

The Standard Reimbursement Rate (SRR), authorized by Welfare and Institutions Code (WIC) Section 10280, is used to reimburse direct-service contracted child care programs and does not vary based on regional costs. Commencing January 1, 2022, Assembly Bill (AB) 131 (Chapter 116, Statutes of 2021) and WIC Section 10280(c)(1) required direct-service contractors to be reimbursed at the greater of the following:

- The 75th percentile of the 2018 Regional Market Rate (RMR) survey.
- The contract per-child reimbursement amount as of December 31, 2021.

Current Direct-Service daily rates by county were published in CCB 22-32. As there have been no structural changes to the reporting for direct service contract programs, counties in which the RMR exceeds the SRR have an RMR based daily rate equivalent. For individual county Direct-Service daily rates, please see attachment 1 of CCB 22-32. For additional information regarding the RMR daily equivalent rate changes effective January 1, 2022, please review the Reimbursement Ceilings for Subsidized Child Care webpage.

CCTRs are state and federally funded programs that use centers and family child care home education networks (FCCHEN) operated or administered by either public or private agencies and local educational agencies. These contractors provide child development services for children from birth through thirteen (13) years of age and older children with exceptional needs as well. These programs provide an educational component that is developmentally, culturally, and linguistically appropriate for the children served. The programs also provide meals and snacks to children, parent education, referrals to health and social services for families, and staff development

opportunities to employees. Please refer to the CCTR program requirements for additional information.

CMIG uses centers and family child care home education networks (FCCHEN) operated or administered by either public or private agencies and local educational agencies. These programs provide child care and development services for children from birth to 13 years of age and older children with exceptional needs. These programs provide care that is culturally, linguistically, and developmentally appropriate for the children served. The programs also provide meals and snacks to children, parent education, referrals to health and social services for migrant agricultural families (as defined in CMIG Program Requirements, Section I Subsection B *California State Migrant Program*), and staff development opportunities to employees.

CHAN provides federal and state funds for providing children with exceptional needs with additional access to child care and development programs, up to twenty-one (21) years of age. Refer to the CHAN Program Requirements for additional information on the CHAN program.

CMSS contracts enhance CMIGs that serve the children of agricultural workers. Funds must be spent on reimbursable costs for Social Services, Staffing and Health Services activities. Refer to the CMIG Program Requirements for additional information on approved activities.

Contract Review

Throughout the contract period, CDSS assesses earning trends to identify contracts which have historically under-earned and to consider award adjustment to better align with lower earnings trends. This includes evaluating whether contractors who are projected to underspend should be asked to relinquish funds during the contract period for possible reallocation to other contractors who can immediately serve children.

Claiming

As a reminder, Maximum Reimbursable Amounts are comprised of multiple funding sources. Each funding source’s corresponding Service Location (SL) is provided in each contractor’s annual child care contract. Reimbursements are processed through a system-generated percent-to-total for each contract, which is comprised of multiple SLs. Contractors are encouraged to review the SL information and funding details in their local agreements and this CCB.

Attachment I displays the initial allocation for CCTR agencies. Funding is comprised of the Child Care and Development Fund (CCDF), and General Fund. CCTR program costs should be claimed to the following SLs:

Service Location Code	Code Title	Federal Catalog Number
13254	CCTR – State General Fund	N/A
24568	CCTR – CCDF Mandatory Federal Fund	93.596
25136	CCTR – CCDF Discretionary Federal Fund	93.575

Attachment II displays the initial allocation for CHAN. Funding is comprised of General Fund. CHAN program costs should be claimed to the following SL:

Service Location Code	Code Title	Federal Catalog Number
13078	CHAN – State General Fund	N/A

Attachment III displays the initial allocation for CMIG. Funding is comprised of General Fund. CMIG program costs should be claimed to the following SL:

Service Location Code	Code Title	Federal Catalog Number
13036	CMIG – State General Fund	N/A

Attachment IV displays the initial allocation for CMSS. Funding is comprised of General Fund. CMSS program costs should be claimed to the following SL:

Service Location Code	Code Title	Federal Catalog Number
13360	CMSS – State General Fund	N/A

For further information about fiscal reporting and claiming for Child and Development programs, please refer to the Enrollment, Attendance, and Fiscal Reporting and Reimbursement Procedures for Child Care and Development Contracts, commonly referred to as the Fiscal Handbook located on the Fiscal Resources webpage.

If you have questions or need additional guidance regarding the information in this letter, please contact the Child Development Fiscal Services inbox at ChildDevelopmentFiscal@dss.ca.gov.

CHILD CARE BULLETIN (CCB) NO. 26-12

GUIDANCE TYPE: FISCAL

TO: CHILD CARE AND DEVELOPMENT CONTRACTORS

SUBJECT: **FISCAL YEAR 2026-27 (CAPP, CMAP, AND CFCC) VOUCHER-BASED CHILD CARE AND DEVELOPMENT INITIAL CONTRACT AWARD ALLOCATIONS**

APPLICABLE PROGRAMS: CALIFORNIA ALTERNATIVE PAYMENT PROGRAMS (CAPP), MIGRANT ALTERNATIVE PAYMENT PROGRAM (CMAP), and FAMILY CHILD CARE HOME EDUCATION NETWORKS (CFCC)

REFERENCE: CHILD CARE BULLETIN (CCB) NUMBER (NO.) 21-21; CCB 25-25; WELFARE AND INSTITUTIONS CODE (WIC) SECTIONS 10227.5; 10236; 10213.5; AND 10250–10252

Purpose

The purpose of this CCB is to inform specified voucher-based child care and development contractors of Fiscal Year (FY) 2026-27 initial planning regarding contract allocations. Initial allocations for certain child care contractors reflect agreed-upon, ongoing relinquishments of funds that historically have gone unspent and were projected to remain unspent. These relinquishments help absorb the FY 2026-27 Governor's Budget total fund reduction without disrupting services for any currently enrolled children. The California Department of Social Services (CDSS) has and will continue to evaluate child care contracts to identify contracts which either were requested to be adjusted to better align with lower earning trends, or may be subject to relinquishment due to historical under-earning and the possibility of being reallocated to

other contractors. Please note that award amounts issued at the start of each FY are proposed based on projected budget allocations, and any changes based on Budget Act enactment may be communicated in a forthcoming Budget Act amendment CCB. Contracts will be issued on a flow basis as soon as possible. The Funding Terms and Conditions (FTCs) are located on the Contractor Resources webpage.

Per CCB 25-25, Child Care and Development (CCD) Direct Service and Alternative Payment Contractors who applied and received approval for continued funding will not need to sign and return a CCD contract to provide services for FY 2026-27. By completing and returning the FY 2026-27 Continued and Expansion Funding Application (CEFA), a contractor indicates that it wishes to automatically renew its CCD contract for FY 2026-27 in accordance with all applicable federal and state laws, terms and conditions, and Program Requirements that are incorporated into the FY 2026-27 CCD contract. See CCB 25-25 for additional information regarding contract renewal/expansion.

Background

Voucher-based programs, also referred to as Alternative Payment Programs, provide voucher-based child care subsidies to help income-qualified families pay for child care. To support maximum parental choice, vouchers are provided to families to obtain care from licensed child care centers, licensed family child care homes, or license-exempt care providers.

Voucher-based programs are reimbursed based on the Regional Market Rate (RMR) schedule. The RMR ceilings are the maximum amounts that voucher-based child care providers can be reimbursed from the state for subsidized child care. Effective January 1, 2022, the RMR ceilings were established at the greater of either of the following:

- The 75th percentile of the 2018 Regional Market Rate (RMR) survey.
- The Regional Market Rate ceilings that existed in that region on December 31, 2021.

For additional information regarding the RMR ceiling changes effective January 1, 2022, please review CCB 21-21 and the Reimbursement Ceilings for Subsidized Child Care webpage.

CAPP uses both federal and state funding to provide vouchers for eligible low-income families. Alternative payment program agencies help families enrolled in CalWORKs child care or CAPP arrange child care services and make payments for those services directly to the child care provider selected by the family.

California Migrant Alternative Payment Program (CMAP) provides vouchers to eligible, migrant agricultural worker families (as defined in Funding Terms and Conditions,

Section X *Definitions* and WIC Section 10236) to obtain child care and development services from child care providers serving a geographic area approved by the California Department of Social Services (CDSS). This program provides services for children birth to 13 years of age, and for older children with exceptional needs. Funding for services follows families as they move from place to place for agricultural work.

The California Family Child Care Home Education Network (CFCC) program serves families eligible for subsidized care. CFCC contractors support a consortia of licensed family child care providers in a community that provides child care and development services. Providers participate in a Family Child Care Home Education Network (FCCHEN). CFCC contractors also provide training for child care providers and their staff, conduct environmental assessments of participating licensed family child care homes, and complete development profiles for the children enrolled in the CFCC program. Additionally, CFCC contractors offer parent education, provide referrals for health and social services, and support parent involvement.

Contract Review

Throughout each contract period, CDSS assesses contract earning trends to identify contracts which have historically under-earned and to consider award adjustments to better align with lower earnings trends. This includes evaluating whether contractors that are projected to underspend should be asked to relinquish funds.

Claiming

As a reminder, Maximum Reimbursable Amounts are comprised of multiple funding sources. Each funding source's corresponding Service Location (SL) is provided in each contractor's annual child care contract. Reimbursements are processed through a system-generated percent-to-total for each contract, which is comprised of multiple SLs. Contractors are encouraged to review the SL information and funding details in their local agreements and this CCB.

Attachment I displays the initial allocation for CAPP agencies. Funding is comprised of revenues from the Youth Education, Prevention, Early Intervention and Treatment Account (YEPEITA), the Child Care and Development Fund (CCDF), and General Fund. CAPP program costs should be claimed to the following SLs:

Service Location Code	Code Title	Federal Catalog Number
25400	CAPP – CCDF Discretionary Federal Fund	93.575
13186	CAPP – State General Fund	N/A
15467	CAPP – Prop 64	N/A

Attachment II displays the initial allocation for CMAP agencies. Funding is comprised of General Fund and CCDF. CMAP program costs should be claimed to the following SLs:

Service Location Code	Code Title	Federal Catalog Number
24570	CMAP – CCDF Matching Federal Fund	93.596
13260	CMAP – State General Fund	N/A

Attachment III displays the initial allocation for CFCC agencies. Funding is comprised of General Fund and CCDF. CFCC program costs should be claimed to the following SLs:

Service Location Code	Code Title	Federal Catalog Number
24569	CFCC – CCDF Matching Federal Fund	93.596
13261	CFCC – State General Fund	N/A

For further information about fiscal reporting and claiming for voucher-based Child and Development programs, please refer to the most recently published Enrollment, Attendance, and Fiscal Reporting and Reimbursement Procedures for Child Care and Development Contracts, commonly referred to as the Fiscal Handbook located on the Fiscal Resources webpage.

If you have questions or need additional guidance regarding the information in this letter, please contact the Child Development Fiscal Services inbox at ChildDevelopmentFiscal@dss.ca.gov.

Sincerely,

Updated Head Start Program Performance Standard Requirements

Background: The office of Head Start published timelines by which grant recipients must comply with the Head Start Program Performance Standards updated in the final rule, Supporting the Head Start Workforce and Consistent Quality Programming. The final rule was published in the Federal Register on August 21, 2024.

No.	Performance Standard Summary	Compliance Date*	CCC Compliance Status	Description of Compliance / Recommended Actions
1	1302.12(e) AIAN Income Eligibility. All families in an American Indian and Alaska Native (AIAN) program's service area with age-eligible children, or pregnant women, are eligible for Head Start services, regardless of income.	3/1/2024	n/a	CCC does not operate an AIAN program.
2	1302.12(f) MSHS Income Eligibility. Migrant and Seasonal Head Start (MSHS) programs may serve any child who has one family member whose income comes primarily from agricultural employment, regardless of total family income	3/1/2024	n/a	CCC does not operate a MSHS program.
3	1302.14(a)(2), (3) AIAN and MSHS Selection Criteria. Tribes may prioritize children in families for which a child, a family member, or a member of the same household, is a member of an Indian tribe. MSHS programs may give priority to children whose families can demonstrate they have relocated frequently within the past two years to pursue agricultural work.	3/1/2024	n/a	CCC does not operate an AIAN or MSHS program.
4	1302.101(a)(2) Employee Engagement. A program must comply with enhanced requirements for employee engagement to promote more responsive management styles designed to identify and resolve barriers to high-quality job performance.	10/21/2024	Compliant	Supervisors are training in and exercise Reflective Supervision strategies to support meaningful and effective employee engagement and ongoing staff supervision. Upon hire, managers begin engagement through the onboarding process utilizing an orientation checklist specific to their job classification. Regular individual check-ins are facilitated by managers. Staff are engaged in goal-setting as a component of the annual performance evaluation.

*eclkc.ohs.acf.hhs.gov/publication/timeline-compliance-updated-performance-standard-requirements

Updated Head Start Program Performance Standard Requirements

No.	Performance Standard Summary	Compliance Date*	CCC Compliance Status	Description of Compliance / Recommended Actions
5	1302.101(a)(5), 1302.102(d) Training on Incident Reporting. A program must submit reports, as appropriate, to the responsible HHS official immediately but no later than seven calendar days following a health or safety incident. All staff are required to be trained to implement reporting procedures.	10/21/2024	Compliant	In 2023 CSB revised its procedures for reporting incidents, establishing expectations which ensure HHS official notification no later than seven calendar days following a reportable health or safety incident.
6	1302.12(i)(1) Housing Adjustment. A program may adjust a family's income to account for excessive housing costs when determining eligibility.	10/21/2024	Compliant	Enrollment team screens families over 100% of the Federal Poverty Level (FPL) for housing costs exceeding 30% and has implemented use of a calculation spreadsheet to adjust income accordingly.
7	1302.12(j) MSHS Eligibility Duration. In MSHS programs, once an infant or toddler and their family are deemed eligible, they are eligible until they turn three years old. This is consistent with the requirement that children participating in the Early Head Start program remain eligible for the duration of the program.	10/21/2024	n/a	CCC does not operate a MSHS program.
8	1302.13 Modernizing Recruitment. A program must include modern technologies to encourage and assist families in applying for admission to the program, and to reduce the family's administrative and paperwork burden in the application and enrollment process.	10/21/2024	Compliant	The program has an existing process whereby families may submit an online application, call the enrollment hotline / Interactive Voice Response (IVR) system, and submit and/or sign eligibility documents electronically.
9	1302.14(a)(6) Children of Staff Members. A program may consider the enrollment of eligible children of staff members as part of the selection criteria	10/21/2024	Compliant	CCC's Selection Criteria was approved by the PC on 2/21/24 and BOS on 9/10/24 and is effective through 6/30/25. CCC may consider addition of children of staff members to the selection criteria when revising for the 2025-2026 program year.

Updated Head Start Program Performance Standard Requirements

No.	Performance Standard Summary	Compliance Date*	CCC Compliance Status	Description of Compliance / Recommended Actions
10	1302.14(b)(1) Children with Disabilities Enrollment. A program must ensure at least 10% of its actual enrollment is filled by children eligible for services under the Individuals with Disabilities Education Act (IDEA).	10/21/2024	Compliant	CCC has historically met the 10% threshold when calculating percentage of children with a disability per cumulative enrollment. Our 2024 PIR indicated 13% of enrolled children had a disability.
11	1302.15(g) Modernizing Enrollment. A program must regularly examine their enrollment processes and implement any identified improvements to streamline the enrollment experience for families.	10/21/2024	Compliant	The enrollment process is analyzed on an ongoing basis in order to identify improvements to streamline enrollment. For the 2024-25 program year on-site enrollment clinics are being facilitated at centralized locations in areas of the county with high enrollment needs.
12	1302.17(a) Suspension and Expulsion. Suspension continues to be a measure of last resort only when there is a serious safety threat. Programs must first engage with a mental health consultant, collaborate with the parents, and use appropriate community resources. Programs must explore and document all steps taken to address the behaviors and supports needed to facilitate the child's safe reentry and continued participation in the program.	10/21/2024	Compliant	CSB's procedures currently align with this standard. CSB's step plan requires multidisciplinary efforts to support a child with continued program participation are sufficiently documented.

Updated Head Start Program Performance Standard Requirements

No.	Performance Standard Summary	Compliance Date*	CCC Compliance Status	Description of Compliance / Recommended Actions
13	1302.34(b)(9) Modernizing Communication. A program must ensure it uses accessible communication methods and modalities that meet the needs of the community when engaging with prospective and enrolled families.	10/21/2024	Compliant	As an outcome of 2019-2023 program goals, the enrollment process was modernized through use of innovative technologies: Interactive Voice Response (IVR) system, Short Messaging System (SMS), web-based application and resources page. Family meetings and trainings (including parenting curriculum) is offered in a virtual format. A communication survey is completed by families annually to ensure the program is utilizing communication methods that work best for enrolled families.
14	1302.40(b) Health and Mental Health Services Advisory Committee. Programs must establish and maintain a Health and Mental Health Services Advisory Committee.	10/21/2024	Compliant	An already established Health and Nutrition Services Advisory committee which meets twice annually. The next meeting, scheduled for 12/5/24, will take place under the new name: Health, Mental Health, and Nutrition Services Advisory Committee.
15	1302.41, 1302.42(b), 1302.46(b) Mental Health Integration. These program requirements consistently integrate mental health into all aspects of program service delivery.	10/21/2024	Compliant	The CCC HS program has been operated under a multidisciplinary approach, with high levels of collaboration among the designated Health and Mental Health content area managers. For example, CSB facilitates monthly managers meetings and joint family meetings. CSB's model for comprehensive service delivery positions assistant managers who are generalists and obtain training from specialists in the areas of Health and Mental Health.

Updated Head Start Program Performance Standard Requirements

No.	Performance Standard Summary	Compliance Date*	CCC Compliance Status	Description of Compliance / Recommended Actions
16	1302.45(b) Mental Health Consultants. A program must ensure mental health consultants provide consultation services that build the capacity of adults in a child's life to strengthen and support the mental health and social and emotional development of children.	10/21/2024	Compliant	The County's collaboration with the Early Childhood Mental Health Program
17	1302.47(b)(10) Safety Practices – Lead. In facilities where lead may exist, programs must regularly inspect and test for the presence of lead and, as needed, conduct remediation and abatement.	10/21/2024	Compliant	CCC HS centers follow California Health and Safety Code section 1597.16, which requires that all licensed Child Care Centers constructed before 1/1/2010, test their cold-water outlets used for drinking or cooking for lead by 1/1/23, and subsequent testing must occur every 5 years.
18	1302.47(b)(5) Safety Practices. Programs must ensure all staff, consultants, contractors, and volunteers follow appropriate practices to keep children safe. Aligns the definition of "child abuse and neglect" with Child Abuse Prevention and Treatment Act (another federal statute).	10/21/2024	Compliant	CSB revised its safety practices procedures in 2023, establishing a culture of safety including tools for active supervision and personal rights training. Annual trainings are provided which align with this standard.
19	1302.50(a) Modernizing Engagement with Families. Programs must communicate with families in a format that meets the needs of each individual family.	10/21/2024	Compliant	A communication survey is completed by families annually to ensure the program is utilizing communication methods that work best for enrolled families.
20	1302.53(b)(2) QRIS. Programs should participate in their Quality Rating and Improvement System (QRIS) to the extent practicable if the state or local area has strategies in place to support their participation.	10/21/2024	Compliant	CCC HS centers currently participate in QRIS.
21	1302.80(d) Newborn Visit. A newborn visit must, at minimum, include a discussion of the following: maternal mental and physical health, safe sleep, infant health, and support for basic needs.	10/21/2024	Compliant	Newborn visits include discussion of maternal mental and physical health, safe sleep, infant health, and support for basic needs.

*eclkc.ohs.acf.hhs.gov/publication/timeline-compliance-updated-performance-standard-requirements

Updated Head Start Program Performance Standard Requirements

No.	Performance Standard Summary	Compliance Date*	CCC Compliance Status	Description of Compliance / Recommended Actions
22	1302.81 Mental Health Information and Services Integration for Expectant Families. Programs must ensure the required prenatal and postpartum information, education, and services are provided to enrolled pregnant women, mothers, fathers, and partners or other family members.	10/21/2024	Compliant	Services to pregnant women include prenatal and postpartum information and education are provided to families enrolled through the County's partnerships with Aspiranet and Mount Diablo Unified School District.
23	1302.82(a) Maternal Health Curriculum. If a program uses a curriculum in the provision of services to pregnant women and pregnant people, it should be a maternal health curriculum to support prenatal and postpartum education needs.	10/21/2024	Compliant	The Growing Great Kids® curriculum includes prenatal health and postpartum education.
24	1302.90(c) Standards of Conduct. Programs must ensure that staff, consultants, contractors, and volunteers do not maltreat or endanger the health or safety of children, and that they report reasonably suspected or known incidents of child abuse and neglect.	10/21/2024	Compliant	CSB standards of conduct, signed by all staff, consultants and volunteers annually.
25	1302.91(e)(8)(ii) Mental Health Consultants' Licensure. A program must ensure all mental health consultants are licensed or under the supervision of a licensed mental health professionals. Programs also must use mental health consultants with knowledge of and experience in serving young children and their families.	10/21/2024	Compliant	CCC partners with Early Childhood Mental Health Program for mental health consultation services. Licensure is a component of the contract.
26	1302.92(b)(1) Professional Development Plans. Programs must develop professional development plans for full-time staff providing direct services to children, as required in Section 648A(f) of the Head Start Act.	10/21/2024	Compliant	Professional development plans are incorporated into the annual performance evaluation for staff in classifications providing direct services to children.
27	1302.92(b)(2–3) Annual Training. Programs must ensure staff receive annual training on: (1) Mandatory reporting; (2) Positive strategies to understand and support children's social and emotional development; and (3) The knowledge, experience, and competencies to improve child and family outcomes.	10/21/2024	Compliant	All 3 topics are incorporated into the annual training schedule.

*eclkc.ohs.acf.hhs.gov/publication/timeline-compliance-updated-performance-standard-requirements

Updated Head Start Program Performance Standard Requirements

No.	Performance Standard Summary	Compliance Date*	CCC Compliance Status	Description of Compliance / Recommended Actions
28	1302.93(d) Culture of Wellness. A program should cultivate a program-wide culture of wellness that empowers staff as professionals and supports staff to effectively accomplish their job responsibilities in a high-quality manner.	10/21/2024	Compliant	A culture of wellness has been established and is maintained through work of CSB's wellness team, SIA, which focuses on Simple, Impactful and Actionable strategies to promote wellness. On 5/8/24, CSB facilitated an all-staff wellness event which included keynote speakers on DEI, training on stress reduction, as well as healthy cooking and painting sessions. CCC promotes wellness through offering a robust Employee Assistance Program (EAP).
29	1303.42 Suitable Facilities. Grant recipients are no longer required to have a written statement from an independent real estate professional confirming the lack of other suitable facilities in the area.	10/21/2024	Compliant	The CCC HS program will no longer request such written statements when submitting capital projects requests for applicable major renovation or construction projects utilizing federal funds.
30	1303.43 Use of Grant Funds. If a recipient seeks to use federal funds for reasonable fees and costs necessary to submit an application under §§1303.42 and 1303.44, they must be granted approval from the responsible HHS official. Once approval is granted, the funds are allowable regardless of the outcome of the preliminary eligibility determination.	10/21/2024	Compliant	CCC will request approval for use of federal funds for reasonable fees and costs necessary to submit a pre-approval application for major renovation or construction projects.
31	1303.44 Application Requirements. Programs must adhere to updated application requirements, including the facility's value and additional information HHS officials may request as part of the 1303 process.	10/21/2024	Compliant	CCC will comply with the revised 1303 pre-approval requirements when requesting to use federal funds for major renovation / construction projects.

*eclkc.ohs.acf.hhs.gov/publication/timeline-compliance-updated-performance-standard-requirements

Updated Head Start Program Performance Standard Requirements

No.	Performance Standard Summary	Compliance Date*	CCC Compliance Status	Description of Compliance / Recommended Actions
32	1305.2 Definitions. Programs must use new and revised definitions for "Early Head Start", "Federal interest", "Grant recipient", "Head Start", "Head Start agency", "Head Start Preschool", "Housing costs", "Income", "Major renovations", "Migrant family", "Poverty line", "Purchase", and "Suspension".	10/21/2024	Compliant	CCC is using new and revised definitions under this section.
33	1302.80(e) Pregnant Women. A program must track and record services an enrolled pregnant woman or pregnant person receives, both from the program and through referrals, to help identify specific prenatal care services and resources needed to support a healthy pregnancy.	12/19/2024	Compliant	CCC currently maintains a record of services accessed by pregnant persons including rereferrals and services utilizing its child and family data system.
34	1302.80(f) Promoting Healthy Birth Outcomes. Programs must help address disparities in maternal and birth outcomes across racial and ethnic groups, using data to inform program services.	2/18/2025	Compliant	Through partnerships, CCC provides services to pregnant women which help address disparities in maternal and birth outcomes: (1) MDUSD Crossroads High School supports acheivement of high school diplomas and on-site prenatal and parenting classes to support posisitve outcomes among teen parents. (2) Aspiranet serves primarily Spanish-speaking families and adapts home visiting services based on needs assessment data collected from various screenings / assessments, including Life Skills Progression (LSP) and Patient Health Questionnaire (PHQ-4).
35	1302.11(b) Community Assessment. Programs must collect relevant data while maintaining the community assessment's content focus on geographic location, race, ethnicity, etc. Requires programs to conduct annual updates only as needed, such as if there are significant shifts in community demographics.	8/1/2025	Compliant	The program currently utilized a contractor who supplies a comprehensive community assessment with all required components annually.

*eclkc.ohs.acf.hhs.gov/publication/timeline-compliance-updated-performance-standard-requirements

Updated Head Start Program Performance Standard Requirements

No.	Performance Standard Summary	Compliance Date*	CCC Compliance Status	Description of Compliance / Recommended Actions
36	1302.14(d) Barriers to Enrollment. A program is required to use data from the community assessment to identify potential barriers to enrollment and attendance, including using data to understand access to transportation for the highest need families.	8/1/2025	Compliant	CCC has a sytems in place for examining data on an ongoing basis and responding to potential barriers to enrollment and attendance.
37	1302.16(a)(2)(v) Barriers to Attendance. A program must examine barriers to regular attendance, such as access to safe and reliable transportation, and where possible, provide or facilitate transportation for the child if needed.	8/1/2025	Compliant	CCC has a sytems in place for examining data on an ongoing basis and responding to potential barriers to enrollment and attendance.
38	1302.23(b)(2–4) Family Child Care Option. Family child care (FCC) services must comply with specified child ratios and group sizes for programs. There is no longer reference to the term "assistant provider". All FCC providers who count toward ratios must meet the qualification requirements for FCC providers described in§1302.91(e)(4).	8/1/2025	n/a	CCC does not operate HS within the Family Child Care Option.
39	1302.45(a) Multidisciplinary Approach. Programs must use a multidisciplinary approach to mental health and wellness supports. Mental health consultation services must be available at a frequency of at least once a month; if a mental health consultant is not available to provide services at least once a month, programs must use other licensed mental health professionals or behavioral health support specialists who coordinate with a mental health consultant.	8/1/2025	Compliant	CCC partners with Early Childhood Mental Health Program (ECMHP) for mental health consultation services. The program revised its procedures to ensure oversight structure monitors for monthly availability of mental health consultation services. An expanded contract with ECMHP is anticipated to be approved by the BOS on 8/12/25.

*eclkc.ohs.acf.hhs.gov/publication/timeline-compliance-updated-performance-standard-requirements

Updated Head Start Program Performance Standard Requirements

No.	Performance Standard Summary	Compliance Date*	CCC Compliance Status	Description of Compliance / Recommended Actions
40	1302.52(d) Family Partnership Services. Programs must ensure family service worker assignments do not exceed 40 families per family service worker. Programs may temporarily exceed the maximum during periods of staff absence and in emergency or recovery circumstances. A waiver is required to exceed the ratio of family assignments to family service worker if it will extend beyond a temporary period.	8/1/2027	In-Progress	On August 16, 2024, the Administration for Children and Families issued an award for the Head Start grant. On March 19, 2024 (D. 4), the Board of Supervisors approved the submission of the grant application which includes new positions. This budget includes an increase in Comprehensive Services (family service worker) positions to lower caseloads to 40 families.
41	1302.93(c) Staff Breaks. A program must provide, for each staff member, regular breaks of adequate length and frequency based on hours worked. During breaks, one teaching staff member may be replaced by one staff member who does not meet the teaching qualifications required for the age, provided that this staff member has the necessary training and experience to ensure safety of children and minimal disruption to the quality of services.	8/1/2027	Compliant	CCC complies with State and Federal requirements pertaining to staff breaks including meal breaks. Per the 2022-2026 Local One MOU employees are entitled to a rest break for each 4 hours of work. The program will identify how it may operationalize new flexibilities of allowing a staff member to provide classroom coverage who does not meet teaching qualifications.

*eclkc.ohs.acf.hhs.gov/publication/timeline-compliance-updated-performance-standard-requirements

Updated Head Start Program Performance Standard Requirements

No.	Performance Standard Summary	Compliance Date*	CCC Compliance Status	Description of Compliance / Recommended Actions
42	1302.90(f) Benefits. For full-time staff (working 30 or more hours per week) the program must provide or facilitate access to affordable health care coverage, offer paid leave, and offer access to short-term, free or minimal cost behavioral health services. Part-time staff must be connected with health insurance options in the Marketplace. Programs must connect eligible staff with child care subsidy programs and the Public Service Loan Forgiveness Program. Small Head Start agencies with 200 or fewer slots are exempt from most of the benefits requirements, but these agencies must still make measurable improvement in benefits for Head Start staff over time.	8/1/2028	In-Progress	Staff scheduled to work at least 20 hours per week, CCC provides affordable health care coverage. Part-time staff are connected with health insurance options. The program is in the process of identifying a process which ensures staff are connected with child care subsidy programs and the Public Service Loan Forgiveness Program.
43	1302.90(e)(1) Pay scale. (i) By August 1, 2031, a program must implement a salary scale, salary schedule, wage ladder, or other similar pay structure for program staff salaries that incorporates the requirements in paragraphs (e)(2) through (4) of this section; reflects salaries or wages for all other staff in the program; promotes salaries that are comparable to similar services in relevant industries in their geographic area; and considers, at a minimum, responsibilities, qualifications, experience relevant to the position, and schedule or hours worked. (ii) After August 1, 2031, a program must review its pay structure at least once every 5 years to assess whether it continues to meet the expectations described in paragraph (e)(1)(i) of this section. (iii) A program must ensure that staff salaries are not in excess of level II of the Executive Schedule, as required in 42 U.S.C. 9848(b)(1).	8/1/2031	In-Progress	The Program will work with HR on a salary study which compares similar services in relevant industries in Contra Costa County. Salary study will be required every 5 years.

*eclkc.ohs.acf.hhs.gov/publication/timeline-compliance-updated-performance-standard-requirements

Updated Head Start Program Performance Standard Requirements

No.	Performance Standard Summary	Compliance Date*	CCC Compliance Status	Description of Compliance / Recommended Actions
44	1302.90(e)(2) Progress to pay parity for education staff with elementary school staff. (i) By August 1, 2031, a program must demonstrate it has made progress to parity with kindergarten through third grade teachers by ensuring that each Head Start teacher receives an annual salary that is at least comparable to the annual salary paid to preschool teachers in public school settings in the program's local school district, adjusted for responsibilities, qualifications, experience, and schedule or hours worked. A program may provide annual salaries comparable to a neighboring school district if the salaries are higher than a program's local school district, adjusted for role, responsibilities, qualifications, experience, and schedule or hours worked.	8/1/2031	In-Progress	The Program will work with HR on a salary study which compares CCC teacher salary to school district preschool teachers. The program in is the process of developing a process to ensure it regularly tracks data on how wages paid to their education staff compare to wages paid to preschool through third grade teachers in their local or neighboring school district.
45	1302.90 (3) Salary floor. By August 1, 2031, a program must ensure, at a minimum, the wage or salary structure established or updated under paragraph (e)(1)(i) of this section provides all staff with a wage or salary that is generally sufficient to cover basic needs such as food, housing, utilities, medical costs, transportation, and taxes, or would be sufficient if the worker's hourly rate were paid according to a full-time, full-year schedule (or over 2,080 hours per year). (4) Wage comparability for all ages served. A program must ensure the wage or salary structure established or updated under paragraph (e)(1)(i) of this section does not differ by age of children served for similar program staff positions with similar qualifications and experience.	8/1/2031	In-Progress	The Program will work with HR and labor on a salary study which compares salary structure to salary that is generally sufficient to cover basic needs. CCC currently has the same salary schedule for staff providing to instruction to all ages served.

Updated Head Start Program Performance Standard Requirements

No.	Performance Standard Summary	Compliance Date*	CCC Compliance Status	Description of Compliance / Recommended Actions
46	1302.90(e) Wages. Small Head Start agencies with 200 or fewer slots are exempt from most of the wage requirements, but these agencies must still develop or update a pay scale that promotes competitive wages for all staff, and make measurable progress toward reducing disparities in wages between Head Start educators and public preschool teachers over time. The final rule includes an option for the Secretary of the Department of Health and Human Services (HHS) to establish in 2028 a limited waiver process for most of the wage requirements for eligible programs, if the prior four years of appropriation increases for Head Start are less than an annual average of 1.3%.	8/1/2031	n/a	CCC HS program serves more than 200 slots.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2663 **Agenda Date:** 6/23/2026 **Agenda #:** D.6.

To: Board of Supervisors

From: Thomas L. Geiger, County Counsel

Report Title: Policy on Disruption of Telephonic or Internet Service During Meetings of the Board of Supervisors

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE a policy on the disruption of telephonic or internet service during meetings of the Board of Supervisors.

FISCAL IMPACT:

None.

BACKGROUND:

In 2025, the Governor signed Senate Bill 707, which made several changes related to open meetings held pursuant to the Ralph M. Brown Act (Gov. Code §§ 54950 et seq.). Under SB 707, no later than July 1, 2026, a meeting held by the Board of Supervisors must include an opportunity for members of the public to attend the meeting via a two-way telephonic service or a two-way audiovisual platform, with certain exceptions. The Board of Supervisors has provided this opportunity to the public for several years.

SB 707 also establishes requirements if a disruption of telephonic or internet service occurs during a meeting. Under SB 707:

- the open session of a Board of Supervisors meeting must recess if any disruption of telephonic or internet service occurs;
- the meeting may continue in closed session during the recess;
- the Board of Supervisors must make a good faith effort for at least one hour to restore telephonic or internet service in accordance with an adopted policy regarding disruption of telephonic or internet service; and
- the Board of Supervisors may thereafter reconvene into open session even if telephonic or internet service is not restored as long as the Board makes certain findings by rollcall vote.

SB 707 further provides that the Board of Supervisors must adopt a policy regarding the disruption of telephonic or internet service on or before July 1, 2026. By approving the attached policy, the Board will fulfill the requirement of adopting a policy regarding the disruption of telephonic or internet service on or before July

1, 2026.

CONSEQUENCE OF NEGATIVE ACTION:

Approving the policy ensures compliance with the requirement that the Board adopt a disruption policy on or before July 1, 2026.

Contra Costa County Board of Supervisors
Policy on Disruption of Telephonic or Internet Service During Meetings of the Board of Supervisors

Section 1. Purpose.

This policy establishes procedures for responding to a disruption in the telephonic or internet services that provide two-way remote public access to meetings of the Contra Costa County Board of Supervisors, as required by the Brown Act. (Government Code section 54953.4.)

Section 2. Definitions.

For purposes of this Policy, the following words and phrases are defined as follows:

(a) "**Board**" means the Contra Costa County Board of Supervisors.

(b) "**Chair**" means the acting chair of the Contra Costa County Board of Supervisors.

(c) **"Service Disruption"** means any failure, outage, or other interruption to the County's remote access services that prevents members of the public from participating in a Board meeting through the remote access service.

(d) **"Remote access services"** means the two-way telephonic service and/or two-way audiovisual platform used to provide real-time remote public attendance and observation of Board meetings.

(e) **"Two-way audiovisual platform"** shall have the meaning stated in Government Code section 54953.4(e)(3).

(f) **"Two-way telephonic service**" shall have the meaning stated in Government Code section 54953.4(e)(4).

(g) **"Brown Act"** means the Ralph M. Brown Act.

Section 3. Application.

This policy applies to all open and public meetings of the Board at which remote public access is required under the Brown Act.

Section 4. Remote Public Access.

(a) When remote public access is required under the Brown Act, the Board shall provide members of the public with an opportunity to attend and participate in the meeting using a two-

way audiovisual platform or a two-way telephonic service, provided that adequate telephonic or internet service is operational at the meeting location.

(b) If adequate telephonic or internet service is not operational at the meeting location, the Board is not required to provide remote access. If adequate telephonic or internet service is operational for only a portion of the meeting, the Board will provide remote access during that portion of the meeting.

(c) Members of the public participating remotely shall be provided the same time allotment to provide public comment as members of the public attending in person.

Section 5. Service Disruptions.

If the Chair becomes aware of a service disruption:

(a) The Chair shall promptly announce that there is a service disruption.

(b) The Chair shall call for a recess of the open session and may convene the Board in an authorized closed session. The recess shall last for one hour or until service is restored, whichever is earlier.

(c) During the recess, County staff shall make a good faith effort to diagnose and restore the disrupted service. These efforts may include, but are not limited to:

- Restarting any services, tools, programs, or devices used to facilitate remote access;
- Attempting to access the service, tool, or program from another device;
- Contacting technical support for the services, tools, programs, or devices used to facilitate remote access;
- Resetting local network connections;
- Using back-up equipment or platforms, if available;
- Checking any physical network and electrical connections that may be responsible for the disruption; and
- Reviewing the service status of any service or tool used to facilitate remote access, typically through a service status tool hosted by the service or tool.

Section 6. Reconvening the Open Session if Service Was Restored.

If service is restored within one hour of the start of the recess:

(a) The Chair shall reconvene the meeting and the meeting will resume.

(b) The Clerk of the Board, or designee, shall announce to anyone attending the meeting remotely that service has been restored.

(c) Before hearing any open session items, if the Board met in closed session during the recess, the Board shall announce any action taken during closed session if required by the Brown Act.

Section 7. Reconvening in Open Session if Service Was Not Restored.

After the expiration of one hour, if service has not been restored, the Chair shall report on the status of staff's efforts to restore remote access services, and the Board may reconvene to:

(a) Adjourn the meeting;

(b) Resume the meeting, with the Chair stating that Government Code section 54953.4 and this policy allow the Board to resume in open session without remote access by making the following or a substantially similar finding:

> "The County has made good faith efforts to restore telephonic or internet service in accordance with its adopted policy, and the public interest in continuing the meeting outweighs the public interest in remote public access."

Thereafter, any member of the Board may move to adopt this finding and resume the open session of the meeting. The Board shall take a roll call vote on this motion. If the motion passes by majority vote, the open session of the meeting may resume in accordance with the posted agenda. If no motion is made, or if the motion does not pass, the open session must immediately end. Before hearing any open session items, if the Board met in closed session during the recess, the Board shall announce any action taken during closed session if required by the Brown Act.

Section 8. Recordkeeping.

The Clerk of the Board, or designee, shall enter the following information into the meeting minutes:

- The nature and time of the service disruption;
- A brief description of the efforts made to restore service;
- The time the meeting was reconvened (if applicable); and
- Any finding adopted pursuant to Section 7.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2664 **Agenda Date:** 6/23/2026 **Agenda #:** C.1.

To: Board of Supervisors

From: Greg Baer, Director of Airports

Report Title: Amendment to Consulting Services Agreement with Mead & Hunt, Inc., for On-Call Airport Engineering, Design and Architectural Services

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Director of Airports, or designee, to execute an amendment to the November 1, 2020, On-Call Consulting Services Agreement between the County and Mead & Hunt, Inc., to extend the contract from June 30, 2026, to December 31, 2026. (100% Airport Enterprise Fund)

FISCAL IMPACT:
There is no additional financial impact as projects are already in progress and are being paid by the Airport Enterprise Fund.

BACKGROUND:
In November of 2020, the County and Mead & Hunt, Inc. entered into a five-year On-Call Consulting Services Agreement (CSA) for airport related engineering, design, and architectural services. The contract is being amended because Airports management has assigned Task Orders under the CSA where the consultant will need additional time to complete. The most significant and important project that Mead & Hunt is nearing completion on is the design of the pilot-controlled lighting upgrade at Buchanan Field. Airports management recommends approval of this action in order to finish the remaining tasks by the fall of this year.

CONSEQUENCE OF NEGATIVE ACTION:
If the CSA extension is not approved, the Airports division will not be able to complete projects that are currently in progress under assigned Task Orders.

MARTINEZ, CA 94553

CONTRA COSTA COUNTY

Staff Report

File #: 26-2665 **Agenda Date:** 6/23/2026 **Agenda #:** C.2.

To: Board of Supervisors

From: Greg Baer, Director of Airports

Report Title: Approve and Authorize the Director of Airports, or designee, to execute a Lease agreement at Buchanan Field Airport

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Director of Airports, or designee, to execute a lease between the County, as Lessor, and TrexAir Aviation Academy, LLC, as Tenant, for 2,223 square feet of hangar space located at 145 John Glenn Drive, Concord, for a term of one year, at an initial rent of $1,467 per month, and annual rent escalators of 3%, beginning July 1, 2026. DELEGATE authority to the Director of Airports, or designee to terminate the agreement in accordance with the terms of the lease if deemed necessary. (100% Airport Enterprise Fund)

FISCAL IMPACT:
The Airport Enterprise Fund will receive annual ground lease rent totaling approximately $17,604. If Tenant exercises its option to extend the lease, rent will increase by 3% annually.

BACKGROUND:
The property located at 145 John Glenn Drive is County-owned property and was previously under lease with Sterling Aviation, which operated as a Fixed Base Operator (FBO). TrexAir Aviation Academy, LLC (TrexAir), was a subtenant of Sterling Aviation and operated a flight school. As of January 1, 2026, TrexAir is a direct lessee of the County and has requested to rent a portion of the building to maintain their flight school aircraft.

Key terms of the lease include a one-year term, with five options to extend the lease for a term of one year for each option. Each option period requires consent by the Director of Airports. Initial monthly rent will be $1,467 and will escalate annually by 3%. This will help offset some of the income due to the loss of the former lessee.

CONSEQUENCE OF NEGATIVE ACTION:
The Airport Enterprise Fund and General Fund would not realize the anticipated revenue generated by this lease.

EXHIBITS

EXHIBIT A – SITE PLAN OF 145 JOHN GLENN DRIVE

LEASE BETWEEN THE COUNTY OF CONTRA COSTA

AND

TrexAir Aviation Academy, LLC

This lease agreement ("**Lease**") is dated July 1, 2026 (the "**Effective Date**") and is between of the County of Contra Costa, a political subdivision of the State of California (the "**County**" or "**Lessor**"), and TrexAir Aviation Academy, LLC, a California Limited Liability Company (**"Tenant**", "**Lessee**" or "**Contractor**").

RECITALS

A. Lessor owns and operates Buchanan Field, a public airport located at Concord, California (the **"Airport**"), as shown on the Airport Layout Plan, which plan is on file in the office of the County Director of Airports **("Director of Airports")**.

B. For the purposes of conducting maintenance on flight school aircraft, Tenant desires to lease a portion of the real property at the Airport consisting of approximately 2,223 square feet of hangar space at 145 John Glenn Drive, as shown on Exhibit A (the **"Premises**").

The parties therefore agree as follows:

1. **LEASE:** For and in consideration of the rent, fees, and faithful performance by Tenant of the terms and conditions and the mutual covenants hereof, Lessor hereby leases to Tenant, and Tenant hereby leases from Lessor the Premises, subject to all easements and encumbrances of record.

2. **TERM:**

A. TERM: The term (**"Term")** of this Lease is one year, commencing on the Effective Date and ending June 30, 2027.

B. EXTENSIONS: Tenant has five options to extend this Lease for a term of one year for each option (each such period, an **"Extension Period"**) upon all the terms, covenants and conditions set forth herein, provided (1) Tenant is not in default beyond any applicable cure period as of the commencement of the Extension Period, and (ii) Tenant is not in default on the day an Extension Request, as defined below, is given. Not less than 90 days prior to the end of the Term, Tenant may request that this lease be extended by giving the Director of Airports written notice of its desire to extend the Term (the **"Extension Request"**). The Director of Airports, in his or her sole discretion, may, but is not required to, approve the Extension Request. The Director of Airports shall

respond in writing to Tenant within 60 days after receipt of the Extension Request. Failure of the Director of Airports to respond in writing within 60 days constitutes an approval of the Extension Request.

C. REFERENCES TO "TERM": Upon commencement of an Extension Period, all references to the Term of this Lease will be deemed to mean the Term as extended pursuant to this Section.

3. HOLDING OVER: In the event Tenant remains in possession of the Premises after the expiration of the Term, such holding over does not constitute a renewal or extension of this Lease, but will be construed to be a tenancy from month to month on the same terms and conditions set forth herein, which tenancy may be terminated at any time by Lessor or Tenant upon 30 days written notice.

If Tenant fails to surrender the Premises to Lessor on expiration or withing 30 days after cancellation or termination of this Lease, Tenant shall defend, indemnify, and hold Lessor harmless from any and all claims, liability, costs and damages resulting from Tenant's failure to surrender the Premises, including, without limitation, claims made by a succeeding tenant or renter.

4. RENT:

A. Tenant shall pay rent to Lessor without offset or demand on or before the first day of each month. Rent for any partial month will be prorated at the rate of 1/30th of the applicable rent per day.

i. Ground Rent. Beginning on the Effective Date and continuing on the first day of each month thereafter, Tenant shall pay rent in the amount of One Thousand Four Hundred Sixty Seven Dollars ($1,467.00) per month.

ii Rent Escalators. On each July 1, beginning July 1, 2027, rent will be increased by 3%.

5. ADDITIONAL PAYMENT PROVISIONS

A. Percentage Rent. [This Section Intentionally left blank]

(2) "**Gross Receipts**" [This Section Intentionally left blank]

(3) Statement of Gross Receipts. [This Section Intentionally left blank]

(4) Certified Annual Statement. [This Section Intentionally left blank]

(5) Records. [This Section Intentionally left blank]

(6) Audits. [This Section Intentionally left blank]

B. Records to Be Maintained. [This Section Intentionally left blank]

C. Late Rental Payments. In addition to the Ground Rent, Tenant shall pay as additional rent, all other charges, costs and fees required to be paid by Tenant pursuant to the provisions of this Lease (such amounts, **"Additional Rent,"** and together with the Extension Fee and Ground Rent, **"Rent"**). In the event Tenant fails to pay Rent to Lessor due under this Lease within five days after such amount is due, Tenant shall pay to Lessor a late charge of One Hundred Dollars ($100) per occurrence (the **"Late Charge"**), plus interest on the unpaid balance at a rate of one and one-half percent (1-1/2%) per month, from the date the payment was due and payable until paid in full. Tenant shall pay all Late Charges as Additional Rent on or before the date the next installment of periodic Rent is due. Lessor and Tenant hereby agree that it is and will be impracticable and extremely difficult to ascertain and fix Lessor's actual damage from any late payments and, thus, that Tenant shall pay as liquidated damages to Lessor the Late Charge specified in this Section, which is the result of the parties' reasonable endeavor to estimate fair average compensation therefor (other than attorneys' fees and costs). Lessor's acceptance of the Late Charge as liquidated damages will not constitute a waiver of Tenant's default with respect to the overdue amount or prevent Lessor from exercising any of the rights and remedies available to Lessor under this Lease.

D. Form and Place of Payment. Tenant shall pay all Rents and fees in cash or by personal check, certified check, or money order, payable to the County of Contra Costa, by delivering same on or before due date to the Director of Airports Office, 181 John Glenn Drive, Suite 100, Concord, California 94520, or at such other place as Lessor may designate from time to time.

E. Returned Checks. If a check written by Tenant is returned for insufficient funds, Lessor may impose a reasonable service charge in addition to any Late Charge and in addition to any charges imposed by the bank. Lessor may require Tenant to pay Rent by certified check or money order if Tenant's bank or banks have returned one or more personal checks in any 12 month period.

F. Security Deposit. Tenant shall pay Lessor a deposit in the amount of One Thousand Four Hundred Sixty Seven Dollars ($1,467.00) in cash or by check made payable to Lessor as security for the faithful performance of

the terms, covenants, and conditions of this Lease (the **"Security Deposit"**).

If Tenant is in Default under the terms of this Lease, Lessor may in its sole discretion (but is not be required to) apply the Security Deposit, or any portion of it, to (i) any expense, loss or any Rent or other sum owed to Lessor, (ii) any amount that Lessor may spend or become obligated to spend in exercising Lessor's rights under this Lease, or (iii) damage sustained by Lessor resulting from Tenant's Default. Upon demand by Lessor, Tenant shall immediately pay to Lessor a sum equal to the portion of the Security Deposit expended or applied by Lessor as provided in this Section 5.G. so as to maintain the Security Deposit in the sum initially deposited.

Upon the expiration or termination of this Lease and a final accounting by Lessor, any remaining Security Deposit balance will be refunded to Tenant, without interest. Tenant waives the provisions of California Civil Code Section 1950.7, and all other provisions of law in force or that become in force after the Effective Date of this Lease, that provide that Lessor may claim from a Security Deposit only those sums reasonably necessary to remedy defaults in the payment of Rent, to repair damage caused by Tenant or to clean the Premises. Lessor and Tenant agree that Lessor may, in addition, claim those sums reasonably necessary to compensate Lessor for any other foreseeable or unforeseeable loss or damage caused by the act or omission of Tenant or Tenant's officers, agents, employees, independent contractors or invitees.

6. LESSOR PROCESSING AND TRANSACTION FEES

In the event Tenant requires or requests Lessor's review, investigation, processing, recordation, or any other action in connection with any Tenant document, proposal or other matter (such as review of a proposed assignment or other transfer, lease amendment, an estoppel certificate or financing of Tenant's leasehold interest hereunder), Tenant shall pay to Lessor a transaction fee of Two Thousand Five Hundred Dollars ($2,500.00), plus all of Lessor's reasonable costs, including, but not limited to, staff time at rates determined by the County, for any time Lessor spends in connection with such review, investigation or other activity (together, such fee and costs are the **"Transaction Fee"**). The Transaction Fee will increase by $500.00 every five years after the Effective Date and is due 30 days after demand therefor by Lessor.

7. USE OF PREMISES

The Premises may be used for (1) Storage of aircraft owned by Tenant; and (2) Maintenance on aircraft owned by Tenant, provided that such maintenance is performed ONLY by (a) the owner of the aircraft, (b) a bona fide employee or

contractor of the owner of the aircraft, or (c) an established Airport Fixed Based Operator, and for no other purpose.

8. HANGAR RENTAL OPERATIONS [This Section intentionally left blank]

9. SUBLEASES

Tenant shall not sublease any portion of the Premises without prior written approval from the Director of Airports.

10. CONDITION OF PREMISES

A. No Warranty. Tenant is leasing the Premises in an "as is" physical condition with no warranty, express or implied, on the part of Lessor as to the physical condition of the Premises, including but not limited to, the condition of any existing improvements, the soil and the geology of the soil, the air, surface water and groundwater, the presence of known and unknown faults, the presence of Hazardous Materials and all other kinds of contamination and pollutants of any kind in the air, soil, groundwater and surface water, and the suitability of the Premises for the construction and use of the improvements thereon.

B. Tenant Independent Investigation. It is the sole responsibility of Tenant, at its sole cost and expense, to investigate the condition of the Premises to its satisfaction, including (i) the suitability of the soil, geologic, environmental and seismic conditions of the Premises for the intended use contemplated herein, and (ii) the presence of any contaminants, or Hazardous Materials, as defined in Section 16.A., in air, soil, groundwater and surface water in, on, or under the Premises and pollutants of any kind located on or within the Premises. This Lease imposes no responsibility or obligation on Lessor to prepare or implement any remediation plan or to attain remediation of the Premises to a level of standard required for Tenant's use or any other purpose. Lessor makes no warranties, representations, covenants, or agreements concerning remediation for the purposes of Tenant's use or any changes in Environmental Laws, as defined in Section 16.B., affecting such uses.

The respective agreements and obligations of Lessor and Tenant under this Section 10 will survive the expiration or termination, for any reason, of this Lease.

C. No Concealment. Notwithstanding anything in this Lease to the contrary, Lessor represents to Tenant that Lessor is not concealing any knowledge of the presence of contamination possessed by the current officers and managers of the Airport. However, Lessor makes no representation regarding what would be revealed by a review and search of its records, interviews of its employees or past employees or the undertaking of due

diligence to discover any information or knowledge not now known to its present officers and managers.

D. Maintenance. Tenant shall maintain the Premises in accordance with Section 13, Maintenance, Repair and Storage.

11. UTILITY OBLIGATIONS

Tenant shall pay utility providers directly for all utilities used or consumed on the Premises, including, but not limited to gas, water, electricity, garbage disposal, storm and sanitary sewer services, janitorial services, internet, and telephone services.

In the event Lessor or any utility company requires that any existing or new distribution system be installed underground, Tenant shall, at its own cost and expense, provide all necessary facility changes on the Premises, so as to receive such service.

12. ALTERATIONS AND ADDITIONS

A. Tenant may not do any of the following: (i) erect any structures on the Premises, (ii) make any improvements or alterations to the exterior of any hangar, office space, or any aircraft ramp, parking area or Landscaping, (iii) make any improvements or alterations to the interior hangar space that requires the issuance of a building permit without written consent by the Lessor. Tenant shall provide the Director of Airports with written plans detailing any proposed improvement. Approval of any proposed improvements will be at the sole discretion of the Director of Airports.

B. In the event Tenant makes alterations or constructs additions that violate the conditions contained in this Lease (an **"Unauthorized Addition"**), at the Director of Airports' sole discretion, Tenant shall remove all or any portion of such Unauthorized Addition at Tenant's sole cost and expense. If Tenant is required to remove any Unauthorized Addition, Tenant, at its sole cost and expense, shall restore the Premises to the condition existing immediately prior to the existence of the Unauthorized Addition, or such other condition designated by Lessor in its election. If Tenant is not required to remove all or any portion of the Unauthorized Addition, then such Unauthorized Addition will remain on and be surrendered with the Premises on the expiration or termination of the Lease.

C. If the Director of Airports has given written consent to Tenant, permitting Tenant to make certain alterations or make any additional improvements to the Premises, Tenant may not commence construction until Tenant has (i) obtained all necessary building permits and all other approvals required, and (ii) provided Lessor with 20 days advance written notice of the commencement of such construction. In addition, Tenant shall cause a

Notice of Lessor Non-Responsibility to be posted and recorded during construction in accordance with Civil Code Sections 3094 and 3129. A copy of the notice is to be mailed to Lessor upon filing it with the County Recorder.

13. MAINTENANCE, REPAIR AND STORAGE

A. Premises Maintenance.

Tenant shall, at its sole cost and expense throughout the Term of this Lease, maintain the Premises and the Improvements in good condition, ordinary wear and tear excepted. Tenant shall cause all maintenance, repairs, and replacements to be of a quality substantially equal to the original material including but not limited to: interior/general plumbing and electrical; interior flooring, walls, ceiling, windows and interior and exterior doors; HVAC; utilities; pest control; janitorial; and littler removal. Lessor is the sole judge of the maintenance standards required.

B. No Storage of Personal Property Outside Buildings. Without the prior written consent of the Director of Airports, Tenant may not cause or permit any materials, supplies, products, equipment or other personal property, except for assembled aircraft and ramp equipment and vehicles in regular use, to be stored or to remain on any portion of the Premises outside of buildings or structures. Tenant shall store personal property items, supplies, materials and combustibles inside the buildings in a safe, neat and sanitary manner.

C. Enclosures for Solid Waste. Tenant shall provide or cause to be provided adequate enclosures, screened areas and/or suitable covered metal receptacles within the Premises for the short-term accumulation and storage of solid waste, such as rubbish, trash, garbage, sludge, discarded machinery or parts and any other solid industrial wastes. Such enclosures and/or screened areas shall be designed in such a way as to prevent odors, fumes, attraction of pests, and dispersal of wastes due to wind or water runoff, and shall be serviced frequently by qualified waste removal and disposal services.

14. LAWFUL CONDUCT

Tenant shall obey and observe, and shall ensure that all persons entering upon the Premises obey and observe, all the terms and conditions of this Lease and all statutes, ordinances, resolutions, regulations, orders, and policies now in existence or adopted from time to time by the United States, (including, but not limited to, the Federal Aviation Administration) the State of California, the County of Contra Costa, the Central Contra Costa Sanitary District, the San Francisco Bay Regional Water Quality Control Board, and all other government agencies

with jurisdiction over the Airport (collectively, the "**Applicable Laws**") including, but not limited to, Applicable Laws concerning health, safety, fire, accessibility, police, and the environment.

Tenant shall pay all fines and penalties levied against it by any government agency for Tenant's violation of any Applicable Law associated with activities on the Premises.

15. WASTE, QUIET CONDUCT, NUISANCE, POLLUTION

Tenant may not commit, or suffer to be committed, any waste upon the Premises or any nuisance or other act or thing that may disturb the quiet enjoyment or the use of the Airport or surrounding property.

Tenant shall provide, as legally required, a separate drainage, collection, and/or liquid waste separation system to ensure that no untreated liquid waste from any type of operation, including aircraft cleaning and oil change operations, enters the Airport storm drainage or sanitary system.

Tenant may not permit any activity on the Premises that directly or indirectly produces unlawful or excessive amounts or levels of air pollution, (e.g., gases, particulate matter, odors, fumes, smoke, dust), water pollution, noise, glare, heat emissions, trash or refuse accumulation, vibration, prop-wash, jet blast, electronic or radio interference with navigational and communication facilities used in the operation of the Airport or by aircraft, or any other activity that is hazardous or dangerous by reason or risk of explosion, fire, or harmful emissions.

16. HAZARDOUS MATERIALS

A. Definition of Hazardous Materials. As used in this Lease, the term "Hazardous Materials" means any hazardous or toxic substance, hazardous or radioactive material, or hazardous waste, pollutant or contaminant at any concentration that is or becomes regulated by the United States, the State of California, or any local government authority having jurisdiction over the Premises. Hazardous Materials include, but are not limited to, the following: (1) Any "hazardous waste," "extremely hazardous waste," or "restricted hazardous waste," as defined in Sections 25115, 25117 or 25122.7, or listed pursuant to Section 25140 of the California Health & Safety Code, Division 20, Chapter 6.5 (Hazardous Waste Control Law); (2) any "hazardous substance" as that term is defined in Section 25316 of the California Health & Safety Code, Division 20, Chapter 6.8 (Carpenter-Presley-Tanner Hazardous Substance Account Act), (3) any material or substance listed as a chemical known to cause cancer or reproductive toxicity pursuant to Section 6380 of the California Labor Code, Division 5, Part 1, Chapter 2.5 (Hazardous Substances Information and Training Act); (4) any "hazardous waste" as

that term is defined in the Resource Conservation and Recovery Act, 42 U.S.C. Section 6901 *et seq.* (42 U.S.C. Section 6903); (5) any "hazardous substance" as that term is defined in the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. Section 9601 *et seq.* (42 U.S.C. Section 9601); (6) any pollutant, contaminant, or hazardous, dangerous, or toxic chemical, material, or substance, within the meaning of any other applicable federal, state, or local statute, ordinance, resolution, regulation, order, policy, or requirement, including consent decrees and administrative orders imposing liability or standards of conduct concerning any hazardous, dangerous, or toxic waste, substance, or material, now or hereafter in effect; (7) any petroleum product; (8) any radioactive material, including any "source materials", "special nuclear materials", or "byproduct material" as defined in 42 U.S.C. Section 2011 *et seq.*; (9) any asbestos in any form or condition; and (10) any polychlorinated biphenyls (PCBs) and any substances or any compounds containing PCBs.

B. Use of Hazardous Materials. Tenant may not cause or permit any Hazardous Material, as defined in this Section, to be generated, brought onto, stored, used, emitted, released, discharged or disposed of in, on, under, or about the Premises by Tenant or its officers, employees, agents, contractors, renters, guests or invitees, except for limited quantities of (1) standard office and janitorial supplies containing chemicals categorized as Hazardous Materials; (2) motor oils, hydraulic fluids, fuel and other materials commonly used in aircraft storage and fueling facilities; (3) such other Hazardous Materials as are approved in advance in writing by Lessor. During the term of this Lease, Tenant shall strictly comply with all applicable laws, statutes, ordinances, regulations, orders, etc., in effect that relate to public health and safety and protection of the environment including, but not limited to those identified in this Section 16 ("**Environmental Laws**").

C. Notification to the Director of Airports. If, during Term of this Lease, Tenant becomes aware of (a) any actual or threatened release of any Hazardous Materials on, under, or about the Premises; or (b) any inquiry, investigation, proceeding, or claim by any government agency or other person regarding the presence of Hazardous Material on, under, or about the Premises, Tenant shall (1) immediately provide verbal notification to the Director of Airports and (2) provide written notification of such release or investigation to the Director of Airports within 24 hours after learning of it. In the event Tenant receives any claims, notices of violation, reports, or other writing concerning the aforementioned release or investigation, Tenant shall furnish copies of all such materials to Lessor no later than the business day following Tenant's receipt thereof.

Notification to the Director of Airports under this Section does not relieve Tenant of any obligation to notify any governmental agency under any

Applicable Law.

D. Indemnification. Tenant shall, at Tenant's sole expense and with legal counsel reasonably acceptable to Lessor, indemnify, protect, defend, and hold harmless Lessor and Lessor's officers, employees, agents, and contractors from and against any and all demands, losses, claims costs, suits liability and expenses including without limitation, attorney's fees and consultant fees arising out of or relating to the violation of any Environmental Laws or the use, handling, generation, emission, release, discharge, storage or disposal of any Hazardous Materials by Tenant or Tenant's officers, employees, agents, contractors, Subtenants, renters, guests or invitees. This indemnification applies whether or not the concentration of such Hazardous Materials exceed state or federal maximum contaminant or action levels or whether any government agency has issued a cleanup order. Losses, claims, costs, suits, liability, and expenses covered by this indemnification provision include, but are not limited to: (1) losses attributable to diminution in the value of the Premises; (2) loss or restriction of use of rentable space on the Premises; (3) adverse effect on the marketing of any rental space on the Premises; and (4) penalties and fines levied by, and remedial or enforcement actions of any kind issued by any regulatory agency (including but not limited to the costs of any required testing, remediation, repair, removal, cleanup or detoxification of the Premises and surrounding properties). Tenant is not required to indemnify Lessor against liability arising solely as a result of Hazardous Materials that are present in, on, under or about the Premises as of the Effective Date of this Lease as established in the Phase II Environmental Report. This indemnification clause will survive any expiration or termination of this Lease.

17. STORM WATER DISCHARGE

Lessor has applied for and received a National Pollutant Discharge Elimination Permit ("**NPDEP**") under the Federal Clean Water Act, which covers Tenant's operations on the Premises. In accordance with Section 14, Lawful Conduct, of this Lease, Tenant shall comply with (i) all laws and regulations arising under the Federal Clean Water Act that are applicable to Tenant's operations on the Premises, and (ii) Lessor's NPDEP.

Tenant shall ensure that no pollution or Hazardous Materials of any type is discharged into the stormwater system at the Airport, and shall comply with Lessor's NPDEP in all respects and in accordance with the Stormwater Control Plan and Stormwater Control Operation and Maintenance Plan for the Premises, and any amendments thereto, and in accordance with all applicable laws and regulations and other Lessor requirements. Copies of the Stormwater Control Plan and Stormwater Control Operation and Maintenance Plan for the Premises will be maintained on file at the Contra Costa County Public Works Department and are incorporated herein by reference.

18. RULES AND REGULATIONS

Tenant shall observe and obey all policies, minimum standards, rules, and regulations promulgated by Lessor's Board of Supervisors and all any other government entities or agencies having jurisdiction over the Airport.

19. NOISE ORDINANCE

Tenant shall comply with County Ordinances 87-8 and 88-82, as amended, and all other rules and ordinances relating to noise standards at the Airport, as may be approved from time to time by the County Board of Supervisors.

20. SECURITY

Lessor has no obligation to provide security to the Premises. Tenant shall provide, through the use of buildings, structures, walls, fences, gates and similar barriers, or a combination thereof, uninterrupted on-site security at all times for the prevention of unauthorized pedestrian and vehicular access to the aircraft operating area by way of the Premises. Tenant shall control direct or indirect points of entry to the aircraft operating area to accommodate authorized individuals and authorized vehicles in compliance with FAA and Airport security requirements. Tenant shall also provide security for on-site facilities, such as vehicular parking lots, buildings, hangars and fueling facilities on the Premises. Tenant shall provide adequate lighting to provide for all-night illumination of the perimeter of all buildings on the Premises, including vehicular parking lots, and pedestrian walkways surrounding the Premises. If at any time during the Term of this Lease additional security requirements are imposed on the Airport by the FAA or any other agency having jurisdiction over the Airport, Tenant shall comply with said security requirements at Tenant's sole expense. If Airport is fined by FAA for a security violation caused by Tenant, Tenant shall immediately reimburse Lessor upon demand.

21. INDEMNIFICATION

Tenant shall defend, hold harmless, and indemnify the Indemnitees (as defined below) from the liabilities defined in this Section 21.

A. "**Indemnities**" means Lessor, its governing body, elective and appointive boards, commissions, officers, employees, representatives and agents.

B. "**Liabilities**" means any liability or claim for damage of any kind allegedly suffered, incurred or threatened because of an Act (as such term is defined below) and such liabilities shall include, but are not limited to personal injury, death, property damage, inverse condemnation claims of third parties or any combination of these, and including the defense of any suits or actions at law or equity concerning these.

C. An "**Act**" means any act, intentional or negligent, or omission by Tenant,

its officers, employees, agents, representatives, invitees, contractors, Subtenants, renters or guests in connection with the occupancy and use of the Premises by Tenant, its shareholders, or any Subtenant, renter or assignee, or the matters covered by this Lease, or claimed to be attributable to Tenant, its officers, employees, agents, representatives, invitees, contractors, Subtenants, renters, guests, assignees, or one or more of them.

D. The promise and agreement in this Section are not conditioned or dependent on whether Tenant or Lessor has prepared, supplied, or approved any plans or specifications in connection with work performed pursuant to Section 12. Alterations and Additions, or Section 13. Maintenance, Repair and Storage, or has insurance or other indemnification covering any of these matters. This indemnification clause will survive any expiration or termination of this Lease.

22. INSURANCE

Tenant shall procure and maintain, at its own cost and expense, at all times during the Term of this Lease, the following policies issued by insurance companies authorized to do business in California, with a financial rating of at least an A-status (unless otherwise stated below) as rated in the most recent edition of Best's Insurance Reports:

A. Commercial General Liability and Property Damage Insurance. Tenant shall obtain and maintain, owner, landlord, and tenant commercial general liability insurance with a financial rating of at least an A- or P status (pooled insurance coverage) covering and insuring all parties hereto (including naming Contra Costa County and its officers, agents, and employees as additional insureds under the policy or policies) with a minimum combined single limit coverage of One Million Dollars ($1,000,000.00) for all damages due to bodily injury, sickness or disease, or death to any person and damage to property, including the loss of use thereof, arising out of each accident or occurrence arising out of Tenant's leasehold interest in, or maintenance or use of, the Premises and all operations necessary or incidental thereto. Liability insurance will be factored periodically to maintain adequate coverage.

B. Worker's Compensation. Tenant shall obtain workers' compensation insurance as required by law, covering all employees of Tenant, and such insurance shall be kept in force during the entire Term of this Lease.

C. Form of Policies. Tenant shall cause all policies of insurance required by this Section to be in such standard form and written by such qualified insurance companies as is satisfactory to Lessor. Tenant shall provide evidence of such insurance to Lessor in the form of (i) a copy of the

policies, and (ii) a duly executed certificate of insurance. All of such certificates shall name "Contra Costa County, its officers, agents, and employees" as additional insureds. Said policy or policies or certificates shall contain a provision that written notice of policy lapses, cancellation or any changes thereto shall be delivered to Lessor no fewer than thirty (30) days in advance of the effective date thereof.

D. Notice. Tenant shall give Lessor prompt and timely notice of any claim made or suit instituted of which it has knowledge and which could in any way directly, contingently or otherwise, affect either Tenant or Lessor or both, and both Tenant and Lessor shall have the right to participate in the defense of such claim or suit to the extent of its respective interest.

23. TAXES

Tenant agrees to pay before delinquency all taxes (including, but not limited to, possessory interest tax), assessments, and other charges that are levied and assessed upon Tenant's interest in the Premises, or upon Tenant's personal property installed or located in or on the Premises, by Contra Costa County and other legally authorized government authority. Tenant may pay any taxes and assessments under protest, without liability, cost or expense to Lessor, to contest the amount in good faith.

24. INSPECTION, ACCESS AND NOTICE

Upon twenty-four (24) hour written notice to Tenant, Lessor and its agents may enter and inspect the Premises and any and every building, structure, or improvement thereon. Lessor also has the right to serve or to post and to keep posted on the Premises, or on any part thereof, any notice permitted by law or this Lease, including but not limited to a notice pursuant to Section 3094 of the Civil Code. Lessor is not liable in any manner for any inconvenience, disturbance, loss of business, or other damage arising out of Lessor's entry on the Premises as allowed in this Section. Lessor shall conduct its activities as allowed in this Section in a manner that will cause the least possible inconvenience, annoyance, or disturbance to Tenant, and may not materially interfere with access to or use of the Premises. Tenant shall provide an access gate through the Premises for emergency vehicles.

25. ASSIGNMENT AND ENCUMBRANCES

Except as provided in this Section 25, and Section 32, Financing of Leasehold Estate, Tenant may not voluntarily sell, assign, transfer or encumber (each, a **"Transfer"**), its interest in this Lease or in the Premises, or allow any other person or entity (except Tenant's authorized representatives) to occupy or use all or any part of the Premises, without first obtaining Lessor's written consent, which may not be unreasonably withheld. Notwithstanding the foregoing sentence, Lessor has the right to require financial and other information from a

proposed assignee, purchaser, transferee or other encumbering party (each, a **"Transferee"**), to make its decision, and Tenant shall assist Lessor in obtaining such information from any proposed Transferee. Any Transfer without Lessor's prior written consent is voidable and, at Lessor's election, constitutes a Default. Any consent to a Transfer does not constitute a further waiver of the provisions of this Section.

If Tenant is a corporation or a limited liability company, any (i) dissolution, merger, consolidation, or other reorganization of Tenant, or (ii) sale or other transfer of a controlling percentage of the capital stock or membership interests, as the case may be, of Tenant, or (iii) sale of fifty percent (50%) of the value of the assets of Tenant, will be deemed a voluntary assignment. The phrase "controlling percentage" means (a) in the case of a corporation, the ownership of, and the right to vote, stock possessing more than fifty percent (50%) of the total combined voting power of all classes of Tenant's capital stock issued, outstanding, and entitled to vote for the election of directors and (b) in the case of a limited liability company, ownership of, and the right to vote, membership interests possessing more than fifty percent (50%) of the total combined voting interests of Tenant.

If Tenant is in default of monetary obligations to Lessor pursuant to this Lease, Tenant immediately and irrevocably assigns to Lessor, as security for Tenant's monetary obligations under this Lease, all rent from any subletting of all or part of the Premises as permitted by this Lease. A receiver for Tenant appointed on Lessor's application, may collect such rent and apply it toward Tenant's obligations under this Lease.

26. SURRENDER OF POSSESSION

A. Site Improvements.

Title to all Site Improvements, including all alterations or additions (including Unauthorized Additions) thereto, will remain in Tenant until the expiration, cancellation, or other earlier termination of this Lease. Upon expiration, cancellation or other earlier termination of this Lease, except as otherwise provided herein, title to all Site Improvements will automatically vest in Lessor and will remain on and will be surrendered with the Premises.

If Lessor does not desire title to any portion of the Site Improvements, Lessor shall notify Tenant in writing as soon as practicable which of the Site Improvements are to be removed by Tenant (the "**Excluded Improvements**"). Tenant shall remove the Excluded Improvements above ground level, within 120 days following the effective date of such notice.

If Tenant fails to remove the Excluded Improvements, Lessor may remove them at Tenant's expense, and, upon written demand by Lessor, Tenant shall immediately reimburse Lessor, in full, for all of the costs and expenses incurred by Lessor in removing the Excluded Improvements.

Within 30 days after expiration, cancellation, or termination of this Lease, Tenant shall surrender to Lessor the Premises and all improvements, including alterations and additions, in good condition (ordinary wear and tear excepted). If Tenant is required to remove Excluded Improvements, Tenant shall surrender that portion of the Premises where the Excluded Improvements are located within 120 days after the expiration, cancellation, or termination of this Lease in good condition (ordinary wear and tear excepted). If Tenant fails to surrender the Premises to Lessor on expiration, cancellation, or termination of this Lease, Tenant shall defend, indemnify, and hold Lessor harmless from any and all claims, liability, costs, and damages resulting from Tenant's failure to surrender the Premises, including, without limitation, claims made by a succeeding tenant or renter.

B. Personal Property.

Title to personal property belonging to Tenant, or a Subtenant (for purposes of this Section, each, an "**Owner**") will remain in the Owner at all times during the Term of this Lease, and the Owner has the right at any time to remove any or all of its personal property from the Premises, provided that upon any such removal, Owner shall repair, at Owner's expense, any damage resulting therefrom and leave the Premises in a clean and neat condition.

If Owner fails to remove any personal property from the Premises within 30 days after the expiration, cancellation, or termination of this Lease, such personal property may be removed by Lessor at Tenant's expense, by charging such expense to the Security Deposit, as provided in Section 5, Additional Payment Provisions. If Lessor's cost to remove personal property from the Premises exceeds the amount of the Security Deposit, then Tenant shall reimburse Lessor the difference between Lessor's cost and the amount of the Security Deposit, immediately upon receipt of Lessor's written demand therefor.

C. Effectiveness.

The provisions of this Section will survive the expiration, cancellation or earlier termination of this Lease.

27. DEFAULT

The occurrence of any of the following is a **"Default"** by Tenant:

A. Tenant's failure to pay any Rent or other charges when due, if the failure continues for 30 days after such payment is due. Notwithstanding the foregoing, failure to pay any Rent or other charges when due twice in any 12 month period is a Default without further notice from Lessor.

B. Tenant's failure to undertake such reasonable maintenance of the Premises as directed by the Director of Airports, if the failure continues for 30 days after notice of any reasonably required maintenance has been given to Tenant.

C. Tenant's failure to cure a safety hazard immediately upon notice from Lessor to do so. If, in the sole discretion of the Director of Airports, the required cure of the noticed safety hazard cannot be completed within 24 hours, Tenant is not in Default of this Lease if Tenant commences to cure the failure within the 24 hour period and diligently and in good faith continues to cure the Default as soon as reasonably possible.

D. Tenant's failure to provide a current insurance certificate meeting the requirements in Section 22. Insurance, within five business days after any policy expiration date.

E. Tenant's failure to perform any other obligation under this Lease if the failure continues for 30 days after written notice of the failure from Lessor to Tenant. If, in the sole discretion of the Director of Airports, the required cure of the noticed default cannot be completed within 30 days, Tenant is not in Default of this Lease if Tenant commences to cure the Default within the 30 day period and diligently and in good faith continues to cure the Default to completion.

F. The committing of waste on the Premises, including any intentional act by Tenant to harm the Premises.

G. Tenant's failure to comply with any of the provisions of Section 33, Non-Discrimination.

When this Lease requires service of notice, that notice shall replace rather than supplement any equivalent or similar statutory notice, including any notices required by Code of Civil Procedure section 1151 or any similar or successor statute. When a statute requires service of a notice in a particular manner, service of that notice (or similar notice required by this Lease) in the manner required by Section 39, Notices, will replace and satisfy the statutory service-of-notice procedures, including those required by Code of Civil Procedure section 1162 or any similar or successor statute.

28. LESSOR'S REMEDIES

Lessor has the following remedies upon the occurrence of a Default. These remedies are not exclusive; they are cumulative and in addition to any remedies now or later allowed by law:

A. Lessor may terminate this Lease and Tenant's right to possession of the Premises at any time. No act by Lessor other than giving written notice to Tenant shall terminate this Lease. Lessor's acts of maintenance, efforts to re-let the Premises, or the appointment of a receiver on Lessor's initiative to protect Lessor's interest under this Lease do not constitute a termination of Tenant's right to possession. Upon termination of this Lease, Lessor has the right to recover from Tenant:

(1) The worth, at the time of the award, of the unpaid Rent and fees that had been earned at the time of the termination of this Lease;

(2) The worth, at the time of the award, of the amount by which the unpaid Rent and fees that would have been earned after the date of termination of this Lease until the time of award exceeds the amount of the loss of Rent and fees that Tenant proves could have been reasonably avoided;

(3) The worth, at the time of the award, of the amount by which the unpaid Rent for the balance of the Term after the time of award exceeds the amount of the loss of Rent and fees that Tenant proves could have been reasonably avoided; and

(4) Any other amount, and court costs, necessary to compensate Lessor for all detriment proximately caused by Tenant's Default.

"The worth, at the time of the award," as used in (1) and (2) of this Section, is to be computed by allowing interest at the rate of ten percent (10%) per annum or the maximum rate permitted by law, whichever is less. "The worth, at the time of the award," as used in (3) of this Section, is to be computed by discounting the amount at the discount rate of the Federal Reserve Bank of San Francisco at the time of the award, plus one percent (1%).

B. Lessor, at any time after the occurrence of a Default described in Section 27.B, can cure the Default at Tenant's cost, provided Tenant has failed to cure such Default within the 30-day notice period described in Section 27.B.

C. Lessor, at any time after the occurrence of a Default described in Section 27.C, can cure the Default at Tenant's cost, provided Tenant has failed to cure such Default within the twenty-four (24) hour notice period described in Section 27.C or fails to diligently and in good faith continues to cure the Default as soon as reasonably possible.

D. If Lessor at any time, by reason of Tenant's Default, pays any sum to cure a Default or does any act that requires the payment of any sum, the sum paid by Lessor will be due from Tenant to Lessor within 30 days from the time the sum is paid, following written notice by Lessor to Tenant of the amount due. If such amount is not paid within 30 days of the notice, the amount due will bear interest at the rate of ten percent (10%) per annum or the maximum rate permitted by law, whichever is less, from the date the sum is paid by Lessor until Lessor is completely reimbursed by Tenant. The amount due from Tenant, together with interest accrued thereon, is Additional Rent.

29. DESTRUCTION. [This Section Intentionally left blank]

30. CONDEMNATION

A. If the whole or any part of the Premises is taken as a result of the exercise of the power of eminent domain or is conveyed to any entity having such power under threat of exercise thereof (both such actions being hereinafter referred to as **"Condemnation"**), this Lease will automatically terminate as to the portion taken as of the date physical possession is taken by the condemnor. The value of any damages to the remainder of the Premises sustained by Tenant and Lessor as a result of a Condemnation action will be determined by a court of law or by negotiation and agreement with the condemnor.

B. If the remaining part of the Premises s not reasonably suitable for the use described in Section 7, Use of Premises, as reasonably determined by Tenant, this Lease may be terminated by either Lessor or Tenant through written notice to the other party within thirty (30) days of the condemning agency's adoption of a resolution of necessity (or such agency's equivalent determination), to condemn the whole or any portion of the Premises. If a Condemnation takes (i) twenty-five percent (25%) or more of the Premises, or (ii) the portion of the Premises providing Tenant access to the Site Improvements, Tenant may terminate this Lease by providing Lessor written notice within thirty (30) days of the condemning agency's adoption of a resolution of necessity (or such agency's equivalent determination), to condemn such portion of the Premises. If the remaining part of the Premises is reasonably suitable for the operation of the business described in Section 7, as reasonably determined by Tenant, this Lease will continue in full force and effect as to such remaining part. If this Lease is not terminated as of the date of such Condemnation, Ground Rent will be reduced to an amount equal to the product of (i) the then-current Ground Rent multiplied by (ii) a fraction, the numerator of which is the number of square feet of the Premises

remaining after such Condemnation, and the denominator of which shall be the number of square feet of the Premises prior to such Condemnation.

In the event that all or any part of the Premises is taken by Condemnation or conveyed in lieu thereof, both parties have the right to pursue a condemnation award against the condemning agency. To the extent allowed by law, Tenant is entitled to any award for lost business, the residual value of its leasehold interest, moving expenses, and the depreciated value of any fixtures or property improvements installed and not removed by Tenant. Lessor is entitled to all other amounts awarded, including but not limited to, all amounts awarded for land value. No claim made by or payment to Tenant will diminish or otherwise adversely affect Lessor's award. Provided the Lessor is not the condemning agency, Tenant will not have, and may not make, any claim against Lessor for any loss, damage or other matter arising out of any Condemnation.

31. CANCELLATION BY LESSOR [This Section Intentionally left blank]

32. FINANCING OF LEASEHOLD ESTATE

A. Tenant's Right to Encumber. Lessee may not encumber the Premises in any way, including, but not limited to a leasehold mortgage.

33. NON-DISCRIMINATION

A. General Civil Rights Provisions

In all its activities within the scope of its airport program, the Contractor agrees to comply with pertinent statues, Executive Orders, and such rules as identified in Title VI List of Pertinent Nondiscrimination Acts and Authorities to ensure that no person shall, on the ground of race, color, national origin, creed, sex, age, or disability be excluded from participating in any activity conducted with or benefiting from Federal Assistance.

B. Lease Agreements or Transfer Agreements

If the Contractor transfers its obligation to another, the transferee is obligated in the same manner as the Contractor.

The above provision obligates the Contractor for the period during which the property is owned, used or possessed by the Contractor and the airport remains obligated to the Federal Aviation Administration.

C. Title VI List of Pertinent Nondiscrimination Acts and Authorities

1. During the performance of this contract, the Contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "Contractor") agrees to comply with the following non-discrimination statutes and authorities; including but not limited to:

- Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252) (prohibits discrimination on the basis of race color, national origin);
- 49 CFR Part 21 (Non-discrimination in Federally-Assisted programs of the Department of Transportation – Effectuation of Title VI of the Civil Rights Act of 1964) including amendments thereto;
- The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. § 4601) (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
- Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794 et seq.), as amended (prohibits discrimination on the basis of disability); and 49 CFR part 27 (Nondiscrimination on the Basis of Disability in Programs or Activities Receiving Federal Financial Assistance);
- The Age Discrimination Act of 1975, as amended (42 U.S.C. § et seq.) (prohibits discrimination on the basis of age);
- Airport and Airway Improvement Act of 1982 (49 U.S.C. § 47123), as amended (prohibits discrimination based on race, creed, color national origin, or sex);
- The Civil Rights Restoration Act of 1987 (P.L. 100-259) (broadened the scope, coverages and applicability of Title IV of the Civil Rights Act of 1964, the Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, sub-recipients, and contractors, whether such programs or activities are Federally funded or not);
- Titles II and III of the American with Disabilities Act of 1990 (42 U.S.C. § 12101, et seq.) (prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities) as implemented by U.S. Department of Transportation regulations at 49 CFR Parts 37 and 38;
- Title IX of the Education Amendments of 1972, as amended, which prohibits you from discrimination because of sex in education programs or activities (20 U.S.C. § 1681, et seq.).

D. Compliance with Nondiscrimination Requirements

During the Performance of this contract the Contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "Contractor"), agrees as follows:

1. **Compliance with Regulations**: The Contractor (hereinafter includes consultants) will comply with Title VI List of Pertinent Nondiscrimination Acts and Authorities, as they may be amended from time to time, which are herein incorporated by reference and made a part of this contract.
2. **Nondiscrimination:** The Contractor, with regard to the work performed by it during the contract, will not discriminate on the ground of race, color, national origin, creed, sex, age, or disability in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The Contractor will not participate directly or indirectly in the discrimination prohibited by the Nondiscrimination Acts and Authorities, including employment practices when the contract covers any activity, project, or program set forth in Appendix B of 49 CFR part 21 including amendments thereto.
3. **Solicitations for Subcontracts, including Procurements of Materials and Equipment:** In All solicitations, either by competitive bidding or negotiation made by the Contractor for work to be performed under a subcontract, including procurements of materials, or leases of equipment, each potential subcontractor or supplier will be notified by the Contractor of the contractor's obligations under this contract and the Nondiscrimination Acts and Authorities on the grounds of race, color or national origin.
4. **Information and Reports:** The Contractor will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the Sponsor or the Federal Aviation Administration to be pertinent to ascertain compliance with such Nondiscrimination Acts and Authorities and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish this information, the Contractor will so certify to the Sponsor or the Federal Aviation Administration, as appropriate, and will set forth what efforts it has made to obtain the information.
5. **Sanctions for Noncompliance:** In the event of a contractor's noncompliance with the non-discrimination provisions of this contract, the Sponsor will impose such contract sanctions as it or the Federal Aviation Administration may determine to be appropriate, including but not limited to:

a. Withholding payments to the Contractor under the contract until the Contractor complies; and/or
b. Cancelling, terminating, or suspending a contract, in whole or in part.

6. **Incorporation of Provisions:** The Contractor will include the provisions of paragraphs one through six in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations, and directives issued pursuant thereto. The Contractor will take action with respect to any subcontract or procurement as the Sponsor or the Federal Aviation Administration may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if the Contractor becomes involved in, or is threatened with litigation by a subcontractor, or supplier because of such direction, the Contractor may request the Sponsor to enter into any litigation to protect the interests of the Sponsor. In addition, the Contractor may request the United States to enter into the litigation to protect the interests of the United States.

E. Transfer of Real Property Acquired or improved under the Airport Improvement Program

1. The Lessee for himself/herself, his/her heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree that:

a. In the event facilities are constructed, maintained, or otherwise operated on the property described in this Lease for a purpose for which a Federal Aviation Administration activity, facility, or program is extended or for another purpose involving the provision of similar services or benefits, the Lessee will maintain and operate such facilities and services in compliance with all requirements imposed by the Nondiscrimination Acts and Regulations listed in the Title VI List of Pertinent Nondiscrimination Acts and Authorities (as may be amended) such that no person on the grounds of race, color, or national origin, will be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of such facilities.

2. With respect to licenses, leases, permits, etc., in the event of breach of any of the above Nondiscrimination covenants, County will have the right to terminate the Lease and to enter, re-enter, and repossess said lands and facilities thereon, and hold the same as if the Lease had never been made or issued.

3. With respect to a deed, in the event of breach of any of the above Nondiscrimination covenants, the County will have the right to enter or re-enter the lands and facilities thereon, and the above-described lands and facilities will there upon revert to and vest in and become the absolute property of the County and its assigns.

F. Construction/Use/Access to real property acquired under the activity, facility or program

1. The Lessee for himself/herself, his/her heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree (in the case of deeds and leases add, "as a covenant running with the land") that (1) no person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities, (2) that in the construction of any improvements on, over, or under such land, and the furnishing of services thereon, no person on the ground of race, color, or national origin, will be excluded from participation in, denied the benefits of, or otherwise be subjected to discrimination, (3) that the Lessee will use the premises in compliance with all other requirements imposed by or pursuant to the Title VI List of Pertinent Nondiscrimination Acts and Authorities.
2. With respect to the Lease, in the event of breach of any of the above Non-discrimination covenants, County will have the right to terminate the (license, permit, etc., as appropriate) and to enter or re-enter and repossess said land and the facilities thereon, and hold the same as if said Lease had never been made or issued.
3. With respect to deeds, in the event of breach of any of the above Non-discrimination covenants, County will there upon revert to and vest in and become the absolute property of County and its assigns.

34. OPERATION OF AIRPORT BY LESSOR

A. Aviation Hazards. Lessor shall take any action it considers necessary to protect the aerial approaches of the Airport against obstructions, including preventing Tenant from constructing, or permitting the construction of, any building or other structure on the Premises that, in the opinion of Lessor or the Federal Aviation Administration, would limit the usefulness of the Airport or constitute a hazard to aircraft.

B. Navigational Aids. Lessor reserves the right during the Term of this Lease, and during any renewal and/or extension or holdover period thereof to install air navigational aids including lighting, in, on, over, under, and across the Premises. In the exercise of any of the rights hereof, Lessor shall give Tenant no less than 90 days written notice of its intention to install such air navigational aids. Following installation, Lessor is responsible for the maintenance and operation of such navigational aids.

35. AIRPORT USE AND DEVELOPMENT

A. Lessor reserves the right to further develop or improve the landing area of the Airport as it sees fit, regardless of the desires or view of Tenant and without interference or hindrance.

B. Lessor reserves the right, but is not obligated to Tenant, to maintain and

keep in repair the landing area of the Airport and all publicly-owned facilities at the Airport, together with the right to direct and control all activities of Tenant in this regard.

C. This Lease is subordinate to the provisions and requirements of any existing or future agreement between Lessor and the United States, including but not limited to the Federal Aviation Administration, relative to the development, operation, and maintenance of the Airport.

D. There is hereby reserved to Lessor, its successors and assigns, for the use and benefit of the public, a right of flight for the passage of aircraft in the airspace above the surface of the Premises. This public right of flight includes the right to cause in said airspace all noise inherent in the operation of any aircraft used for navigation or flight through said airspace, and all noise inherent in landing at, taking off from, and operations at the Airport.

36. DEVELOPMENT OF PREMISES

A. Development of the Premises is prohibited.

37. INSTRUMENT OF TRANSFER

This Lease is subordinate and subject to the provisions and requirements of the Instrument of Transfer by and between the United States and Lessor dated the 9th day of October, 1947, and recorded in Book 1137, at page 114 of the Official Records of the County of Contra Costa, State of California.

38. CHOICE OF LAW

This Lease is governed by the laws of the State of California.

39. NOTICES

Any and all notices to be given under this Lease, or otherwise, may be served by enclosing same in a sealed envelope addressed to the party intended to receive the same, at its address set forth herein, and deposited in the United States Post Office as certified mail with postage prepaid. When so given, such notice will be effective from the third date of its mailing. Notices may also be given via a reputable overnight courier service, effective on the next business day following delivery of the notice to the courier service for next day business delivery. Unless otherwise provided in writing by the parties hereto, the address of Lessor, and the proper party to receive any such notices on its behalf, is:

Director of Airports
Contra Costa County Airports
181 John Glenn Drive, Suite 100
Concord, CA 94520-5550

and the address of Tenant is:

TrexAir Aviation Academy, LLC
161 John Glenn Drive, Suite 1
Concord, CA 94520-5550

40. TIME IS OF THE ESSENCE

Time is of the essence for each provision of this Lease.

41. BINDING ON SUCCESSORS

The terms of this Lease inure to the benefit of and bind the heirs, successors, executors, administrators and assigns of the parties hereto, subject to the limitations on assignment of this Lease.

42. INVALID PROVISIONS; SEVERABILITY

It is expressly understood and agreed by and between the parties hereto that in the event any covenant, condition or provision contained herein is held to be invalid by a court of competent jurisdiction, such invalidity does not invalidate any other covenant, condition or provision of this Lease, provided, however, that the invalidity of any such covenant, condition or provision does not materially prejudice either Lessor or Tenant in their respective rights and obligations contained in the valid covenants, conditions and provisions of this Lease.

43. ENTIRE AGREEMENT

This Lease and all exhibits (which are incorporated herein and made a part of this Lease by this reference), referred to in this Lease constitute the entire agreement between the parties relating to the rights herein granted and the obligations herein assumed and supersedes all prior or contemporaneous understandings or agreements of the parties. No alterations or variations of this Lease are valid unless they are in writing and signed by Lessor and Tenant.

44. CUMULATIVE RIGHTS AND REMEDIES

The rights and remedies with respect to any of the terms and conditions of this Lease are cumulative and not exclusive and are in addition to all other rights and remedies at law or in equity. Each right or remedy shall be construed to give it the fullest effect allowed in law.

45. NO THIRD-PARTY BENEFICIARIES

Nothing in this Agreement, express or implied, is intended to confer on any person, other than Lessor and Tenant, and their respective successors-in-interest, any rights or remedies under or by reason of this Lease.

46. NO CONTINUING WAIVER

The waiver by Lessor of any breach of any of the terms or conditions of this Lease does not constitute a continuing waiver or a waiver of any subsequent breach of the same or of any other terms or conditions of this Lease. The receipt by Lessor of any Rent with knowledge of the breach of any term or condition of this Lease may not be deemed to be a waiver by Lessor, unless such waiver is specifically expressed in writing by the Director of Airports. No payment by Tenant or receipt by Lessor of a lesser amount than specified in this Lease may be deemed to be other than a payment on account of such Rent and may not be deemed to be a waiver of notice of termination and of forfeiture of this Lease.

47. COVENANT AGAINST LIENS; RECORDATION AGAINST PREMISES

Neither Tenant nor Lessor shall permit any mechanic's, materialman's, or other lien against the Premises, or the property of which the Premises forms a part, in connection with any labor, materials, or services furnished or claimed to have been furnished. If any such lien is filed against the Premises, or property of which the Premises forms a part, the party charged with causing the lien will cause the same to be discharged; provided, however, that either party may contest any such lien, so long as the enforcement thereof is stayed. Tenant may not record this Lease or any sublease (or memoranda thereof), against the Premises without the prior written consent of Lessor. In the event Lessor consents to the recordation of this Lease or a sublease with the County Recorder's office, Tenant shall pay all charges incident to such recording.

48. LEASE AUTHORIZATION

This Lease is made and entered into by Lessor in exercise of authority as recognized in Section 25536 of the Government Code of the State of California.

49. DRAFTING CONVENTIONS

The section headings and captions of this Lease are, and the arrangement of this Lease is, for the sole convenience of the parties to this Lease. The section headings, captions, and arrangement of this Lease do not in any way affect, limit, amplify or modify the terms and provisions of this Lease.

The Lease is not to be construed as if it had been prepared by one of the parties, but rather as if both parties have prepared it. The parties to this Lease and their counsel have read and reviewed this Lease and agree that any rule of construction to the effect that ambiguities are to be resolved against the drafting party does not apply to the interpretation of this Lease. The definitions in this Lease apply equally to both singular and plural forms of the terms defined.

If any date specified in this Lease as a date for taking action falls on a day that is not a business day, then that action must be taken on the next business day.

Tenant hereby represents and warrants that it is a corporation duly organized and validly existing under the laws of the State of California.

[Remainder of Page Intentionally Left Blank]

The parties are signing this Lease as of the Effective Date stated in the introductory clause.

Staff Report

File #: 26-2827 **Agenda Date:** 6/23/2026 **Agenda #:** C.3.

To: Board of Supervisors

From: Shanelle Scales-Preston, District V Supervisor

Report Title: Community Impact Fund - District V Allocations

☐Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

1. APPROVE allocation of Supervisorial District V Community Impact Funds in the amount of $30,000 as described in Attachment A.

2. APPROVE and AUTHORIZE the District V Supervisor, or designee, identified in Recommendation above to enter into contracts related to the allocation of Community Impact Funds identified in Attachment A.

FISCAL IMPACT:

Today's action requests that the Board authorize Community Impact Fund allocations in District V in the amount of $30,000.

BACKGROUND:

On June, 24, 2025, the Board allocated $1 million per Supervisorial District from COVID 19-FEMA Reserve funds (now General Fund Appropriation for Contingencies) for direction by each District Supervisor following a community engagement process with each Supervisorial District.

CONSEQUENCE OF NEGATIVE ACTION:

The Community Impact Fund allocations sponsored by Supervisorial District V will not be formally approved by the Board.

District 5 Community Impact Fund

Supervisor Shanelle Scales-Preston
Recommendations for Funding
March 03, 2026- BOS Meeting

Organization	Program Brief	Awarded
Growing Healthy Kids	Growing Healthy Kids is a school-based program that supports student health, learning, and engagement through outdoor education, nutrition learning, and increased access to fresh food. The program uses hands-on garden and outdoor learning experiences to help students build knowledge and skills related to healthy eating and food systems. The project increases student access to fresh, locally grown produce through school gardens, farm stands, and food distribution activities. It also supports classroom and outdoor instruction that encourages students to try new foods and understand the importance of nutrition in their daily lives. Through experiential learning, students develop stronger connections to their environment, improve decision-making around food choices, and engage more actively in their education. The program is designed to support healthier students, increased engagement in school, and improved educational outcomes. Growing Healthy Kids integrates outdoor education, nutrition learning, and increased access to fresh food to support healthier, more engaged students and improved educational outcomes in Bay Point schools.	$10,000
Team Jesus	Team Jesus Outreach Ministries is a community-based organization focused on providing food support and basic assistance to individuals and families in need. The program delivers food distribution and outreach services that include access to perishable and non-perishable food items, helping to address food insecurity in the community. Through ongoing outreach efforts, the organization serves vulnerable populations, including low-income households	$20,000

	and individuals experiencing hardship, by increasing access to essential resources and support services. Team Jesus Outreach Ministries needs a new commercial refrigerator to support its community food service efforts. The refrigerator will provide cold storage for perishable food items distributed to individuals and families in need. This equipment will increase the organization's capacity to safely store and handle donated food and support ongoing outreach activities.	
Total Amount		$30,000

Staff Report

File #: 26-2847 **Agenda Date:** 6/23/2026 **Agenda #:** C.4.

To: Board of Supervisors

From: John Gioia, District I Supervisor

Report Title: Community Impact Fund Allocation - Supervisorial District 1

☐Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

1. APPROVE allocation of Supervisorial District One Community Impact Funds in the aggregate amount of $1,000,000 to the nonprofit entities as listed in Attachment A.

2. APPROVE and AUTHORIZE the District One Supervisor, or designee, to enter into contracts related to the allocation of Community Impact Funds listed in Attachment A.

FISCAL IMPACT:

In June 24, 2025, the Board indicated a desire to allocate $1 million per Supervisorial District from COVID-19 FEMA Reserve funds (now General Fund Appropriation for Contingencies) for direction by each District Supervisor following a community engagement process within each Supervisorial District.

Subsequently, on July 8, 2025, the Board allocated $15,000 per District to fund the costs of a community engagement process to gather input into how to allocate the $1 million per district. The $15,000 per District amounts are in addition to the $1 million per District allocations.

This Board action results in a new allocation of $1 million in Community Impact Funds to the nonprofit organizations listed in Attachment A.

BACKGROUND:

In June 2025, the Board of Supervisors allocated $5 million to create the Contra Costa Community Impact Fund, with $1 million designated for each Supervisorial District. To gather input in determining how to spend this fund, the Board of Supervisors/County Administrator's Office launched a countywide Community Impact Fund Survey.

Each Supervisor also conducted an independent process to receive feedback from their District residents. Supervisor Gioia and the District One staff led five town halls and a focus group across his Supervisorial District One, engaging over 275 residents, youth, organizational leaders, and community advocates. The goal was to gather authentic community input on how to allocate $1 million with the expressed goal of promoting equity and addressing health and economic disparities in West Contra Costa County.

The following 5 town halls and one focus group were well-attended, with a total of 275 Participants.

- Latina Center Focus Group (Richmond): 15 attendees (in-person only in Spanish)

- Youth Only Town Hall at RYSE (Richmond): 60 attendees (ages 13-24 in-person)
- Pinole Town hall (Pinole City Hall): 30 attendees (hybrid - in-person and Zoom)
- St. Peter CME Church Town Hall (El Cerrito): 50 attendees (hybrid - in-person and Zoom)
- RYSE Center Town Hall (Richmond): 48 attendees (hybrid - in-person and Zoom)
- San Pablo Town Hall (San Pablo City Hall): 72 attendees (hybrid - in-person and Zoom)

The feedback collected from these sessions revealed a wide variety of community needs and priorities, and are detailed in a Community Impact Fund District One Townhall Report (Attachment B) and summarized as follows:

• Public Health: Emphasis on mental health services, wellness programs, and healthcare access.
• Education: Support for educational programs, resources for schools, and youth development initiatives.
• Vocational Opportunities: Expansion of job training programs and employment resources.
• Housing: Advocacy for affordable housing projects and homelessness prevention measures.
• Local Environment: Enhancements to parks, green spaces, and community beautification projects.
• Legal Services: Access to legal aid and justice-related services for vulnerable populations.
• Arts and Culture: Investment in cultural programs, arts initiatives, and community events.
• Transportation: Improvements in public transportation infrastructure and accessibility.

The grant application period was open from January 30 to February 27, 2026. 200 grant applications were received and evaluated by the Office of Supervisor John Gioia based on the priorities expressed at the District One community listening sessions and townhalls. The District One Townhall Report is Attachment B.

CONSEQUENCE OF NEGATIVE ACTION:

The Community Impact Fund allocation sponsored by Supervisorial District One will not be formally approved by the Board and the worthy project and programs listed in Attachment A would not be implemented.

Contra Costa County
Community Impact Fund Grant Program, Supervisorial District Recommendations

	Department	Contractor	Term Start	Term End	Contract Amount	Program Description	Contract Deliverables	Performance Measures
	District 1	Black Wealth Builder Fund	7/1/2026	6/30/2027	$ 40,000	Provide zero interest down payment loans to first time Black homebuyers in West Contra Costa.	1. Provide $20,000 loans for 2 first-time Black homebuyer applicants.	1. Provide monthly report on number of loan applicants and number of loans provided
	District 1	California Emerging Technology Fund	7/1/2026	6/30/2027	$ 30,000	Provide outreach, affordable Internet enrollment support, free digital literacy training, and tools that empower Richmond, North Richmond and San Pablo residents to access critical information, monitor their environment, and actively participate in civic life.	1) Provide 4,250 very low-income households with an affordable internet service plan and 2) train 1000 very low income households in digital literacy in Richmond, San Pablo and North Richmond	1. Provide monthly report on number of households enrolled in an affordable internet service plan 2. Provide monthly report on number of households completing the digital literacy training course
	District 1	Center for Empowering Refugees and Immigrants (CERI)	7/1/2026	6/30/2027	$ 20,000	The project, "Refugees and Immigrants Thrive in Contra Costa County" will leverage CERI's community mental health model to provide care coordination, wellness groups and workshops, and strategic outreach and engagement intended to increase access to resources, and reduce economic and health disparities among refugee and immigrant communities, particularly Nepali and Tibetan residents in West Contra Costa County.	1) Provide intensive care coordination to at least 100 residents, including systems navigation, interpretation/translation, accompaniment, and referrals; 2) Facilitate a monthly elder wellness group serving approximately 20 Nepali elders to reduce isolation, strengthen social connection, and promote emotional wellbeing; 3) Host at least four culturally rooted community events (Teej, Dashain, Deepawali, and Nepali New Year), reaching 50–70 participants per event, to foster belonging, connection, and access to resources; 4) Conduct outreach and Know Your Rights education, reaching at least 500 West County residents; and 5) Strengthen community referral networks and crisis response through ongoing collaboration with local partners and coalitions.	1. Number of residents receiving intensive care coordination 2. Number of elder wellness groups delivered and total participants 3. Number of cultural events held and respective number of attendants 4. Number of residents reached through outreach and Know Your Rights education 5. Number of coalition meetings convened 6. Access indicators to health care, housing, legal, and social services, measured via surveys, interviews, and service follow-up. 7. Social isolation among Nepali elders based on group feedback and satisfaction surveys. 8. Sense of belonging and community connection measured through post-event survey responses and narrative testimonials. 9. Crisis response and referral pathways as documented in coalition meeting notes and case outcomes.
	District 1	Children's Art Studio	7/1/2026	6/30/2027	$ 27,000	Provide staff support, curriculum development, high quality "Starter Studio" kits, and bilingual side by side in home mentorship to strengthen home-based childcare in Richmond.	1. Provide workshops and online sessions on "Starter Studio" for providers. 2. Provide in-home mentorships and home studio kits for lead teachers.	1. Provide monthly report on number of attendees to workshops and online sessions. Provide monthly report on number of workshops and online sessions facilitated. 2. Provide monthly report on number of activities related to in-home mentorhsips and home studio kits for lead teachers. Provide monhtly report on number of lead teachers.
	District 1	CoBiz Richmond	7/1/2026	6/30/2027	$ 25,000	Provide monthly gatherings across West County where Black male adults can connect in private, inclusive spaces to share resources and engage in healing practices in West Contra Costa.	Provide 6-15 healing circles.	1. Provide monthly report on number of healing circles facilitated, number of healing circle participants, and other existing/in-place tracking measures.
	District 1	CoBiz Richmond	7/1/2026	6/30/2027	$ 25,000	Provide monthly gatherings across West County where Black female adults and other genders can connect in private, inclusive spaces to share resources and engage in healing practices in West Contra Costa.	Provide 6-15 healing circles.	1. Provide monthly report on number of healing circles facilitated, number of healing circle participants, and other existing/in-place tracking measures.
	District 1	Construction Trades Workforce Initiative	7/1/2026	6/30/2027	$ 40,000	Expand CTWI's Multi Craft Core Curriculum honors course from a single in school offering at Kennedy High School to a districtwide, after school program open to all WCCUSD high school students, providing union aligned training, exposure to skilled trades, and opportunities to earn industry recognized credentials to increase access and ensure any interested student can pursue building and construction trades.	1. Enroll 20-25 students in the after-school MC3 programs. 2. Ensure at least 90% of enrolled students earn MC3 completion credentials. 3. Ensure 100% of students that complete the program demonstrate measurable improvement on CTWI's apprenticeship readiness. 4 . Provide students that complete the program direct career navigation support, apprenticeship application assistance, or referral to postsecondary training.	1. Provide monthly report on number of enrolled students in the after-school MC3 programs. 2. Provide monthly report on number or percent of enrolled students earning MC3 completion credentials. 3. Provide monthly report on measurable improvement on CTWI's apprenticeship readiness among students that complete the program. 4. Provide the number or percent of students who complete the program that are given direct career navigation support, apprenticship application assistance, and/or referrals to postsecondary training.
	District 1	East Bay Center for the Performing Arts	7/1/2026	6/30/2027	$ 50,000	Provide the Young Artist Diploma program that builds mental, physical, academic, and leadership skills by fostering meaningful connections, developing artistic and critical thinking capacities, and empowering Richmond young people to become cultural workers and community change makers.	1. Deliver a full year-round performing arts training program 2. Implement the complex developmental curriculum 3. Provide wraparound support services	1. Provide a monthly report on the number of program participants and the number or percentage of student performing in at least 1 cultural event or community gathering. 2. Provide a monthly report on the number or percentage of participants accessing EBCPA student support services 3. Provide a monthly report outcome measures and qualitative feedback
	District 1	Families Empowered and Transformed (F.E.A.T.)	7/1/2026	6/30/2027	$ 35,000	Provide the Families Thrive program, a parenting education initiative for parents and caregivers of infants and young children to strengthen parenting skills, reduce caregiver stress, support healthy child development, and promote safe, stable, and nurturing family environments—particularly for families facing economic hardship in West Contra Costa.	1. Enroll and support 100-200 families in Families Thrive 2. Deliver at least 12 bilingual, culturally responsive sessions per program 3. Collect pre- and post-program assessments to measure changes in parenting confidence, positive parenting practices, and child behavioral outcomes	1. Provide a monthly report on the number of family program participants 2. Provide a monthly report on the number of bilingual, culturally responsive sessions per program 3. Provide program evaluation on parenting confidence levels, positive parenting practices, and child behavioral outcomes
	District 1	FIERCE Advocates	7/1/2026	6/30/2027	$ 28,000	Provide intergenerational circles, coaching, mentorship, and culturally rooted healing practices that build emotional literacy, strengthen family relationships, promote healthy masculinity, and create pathways to longterm community safety and racial equity for Black and Latinx male-identifying individuals in West Contra Costa.	1. Facilitate weekly emotional-literacy circles and coaching sessions 2. Facilitate family-strengthening workshops 3. Collect pre- and post-program assessments to measure changes in participant emotional-regulation and communication skills	1. Provide a weekly report on number of emotional-literacy circles and coaching sessions held and number of individuals participating in these activities 2. Provide a weekly report on number of family-strengthening workshops held and number of participants 3. Provide program outcome evaluation on participant emotional-regulation and communication skills
	District 1	Food For Thought of Contra Costa County (F4T)	7/1/2026	6/30/2027	$ 10,000	The program distributes fresh produce, non-perishables, bread items, frozen chicken, and a toy, aiming to reduce hunger, improve health, and limit educational decline among low-income students in West Contra Costa Unified School District during the winter break, when subsidized school meals are unavailable.	1. Provide food boxes and support materials to approximately 720 families 2. Conduct year-round preparation, storage, coordination, and logistics through partnerships with participating schools and community organizations 3. Complete Capacity-Building Deliverables: - Construct two storage sheds on donated land. - Purchase two computers and peripherals for administrative officers. - Purchase four heavy-duty hand trucks. - Host a team-building session with board members and Student Community Outreach Workers. - Acquire four insulating blankets for frozen food safety. - Improve website and digital infrastructure. - Purchase promotional materials (postcards, posters, banner). - Provide Food Safety Training for 15 board members. - Provide CPR training for 5 board members.	1. Number of families served 2. Amount and type of food distributed (track boxes and packages delivered to each school). 3. Number of partner schools and SCOW (Student Community Outreach Worker) collaborations. 4. Completion of capacity-building investments (sheds, equipment, training, website updates). 5. Tracking hunger and access to nutritious, fresh food during winter school closures. 6. Track family stability during a culturally significant and financially stressful time. 7. Track feedback from SCOWs reporting family appreciation and perceived impact.

	District 1	Immigrant Action Network - SAFE Center	7/1/2026	6/30/2027	$ 35,000	Support the launch of the Asian American Pacific Islander (AAPI) Coalition in Contra Costa County to address language barriers, limited culturally responsive services, and underrepresentation by building long term collaboration, coordination, and shared priorities that advance equity, visibility, belonging, and improved access to resources for underserved AAPI residents including those of West Contra Costa —particularly those who are low income, have limited English proficiency, or face multiple unmet needs.	1. Convene initial AAPI Coalition working group. 2. Assess prior coalition activities and identify priorities. 3. Draft work plan, communications plan, membership structure, and governance structure. 4. Conduct multilingual outreach, social media campaigns, meetings, and engagement events. 5. Develop branding, messaging, and a website. 6. Produce a strategic plan with shared priorities. 7. Track member participation, collaboration metrics, sense of belonging, and collective project outputs.	1. Provide a monthly report on number of coalition members, number of participants in meetings 2. Provide a monthly report evaluating indicators on member participation, satisfaction, engagement, and sense of belonging 3. Provide a monthly report on the number of collaborative project, joint outreach events, and other relevant metrics
	District 1	Los Cenzontles Cultural Arts Academy	7/1/2026	6/30/2027	$ 30,000	Provide the Youth Cultural Arts Academy program which involves four 10-week sessions of Latino music, dance, arts instruction, performances, media production, and a teen mentorship program, all designed to strengthen cultural pride, well-being, belonging, leadership, & teamwork for mostly low-income Latino ages 7-17 in San Pablo, Richmond & North Richmond	1. Provide year-round after-school arts instruction across four program cycles (Summer 2026–Spring 2027). 2. Provide teaching artist stipends, program coordination, and materials. 3. Provide teen mentorship programming. 4. Provide community performance events and media content documenting youth preparation and performances. 5. Collect student evaluations on skill progression and expanded mentorship/performance opportunities.	1. Provide a monthly report on participation numbers, attendance, and retention rates. 2. Provide a monthly report on progression through defined skill levels. 3. Provide a report on mid-session and end-of-session evaluations by teaching artists. 4. Provide a report on Family and youth feedback on cultural relevance, belonging, and social-emotional impact. 5. Provide a report on workforce-ready skills and long-term educational pathways (e.g., high school graduation and college enrollment trends).
	District 1	Meridien Health Foundation	7/1/2026	6/30/2027	$ 20,000	Provide comprehensive support to immigrant and low-income families in West Contra Costa through workshops, one-on-one support, resource navigation, and culturally responsive Spanish-language education focused on North Richmond and surrounding communities.	1. Provide 14 workshops (5 Housing, 3 Immigration, 3 Mental Health, 3 Business Development). 2. Provide GED classes for 20 participants, including enrollment and testing fees. 3. Provide food, childcare, materials, and translation services for workshops.	1. Provide attendance tracking for all workshops and GED classes to monitor engagement and retention. 2. Provide pre- and post-program surveys to assess participant learning, confidence, and progress across immigration, housing, mental health, business development, and GED preparation areas. 3. Provide documentation of GED enrollment and completion for all participants supported by the program.
	District 1	Morada de Mujeres de Milenio	7/1/2026	6/30/2027	$ 10,000	The Morada de Mujeres del Milenio Childcare License Training Project provides childcare licensing training, CPR, First Aid, and AED certification for 100 low-income Latino residents in West Contra Costa County. The program aims to increase economic opportunity, improve safety in childcare settings, and prepare participants—especially low-self-esteem and less educated Latino adults—to enter the mainstream workforce or open their own childcare facilities.	1. Provide childcare license training for approximately 100 low-income Latino participants, delivered in groups of 15 at a time. 2. Provide State of California-approved CPR, First Aid, and AED certification to all qualifying participants 3. Provide instruction on opening and operating licensed childcare facilities in Contra Costa County. 4. Provide snacks to participants and volunteers during training sessions. 5. Provide onsite childcare for participants attending trainings 6. Provide trained childcare personnel equipped with CPR/First Aid/AED, emergency response, and children's nutrition knowledge.	1. Provide attendance logs for all participants in each training session. 2. Provide CPR, First Aid, and AED certificates for participants who pass certification requirements. 3. Provide follow-up documentation by requesting participants send photos of their childcare centers or certification use after completion.
	District 1	Moving Forward	7/1/2026	6/30/2027	$ 10,000	Implement a Hike and Trail Run project which engages Richmond, North Richmond and neighboring community members by offering structured, community-centered hiking and trail-run experiences in order to promote health, community involvement, outdoor activity, and social connection.	1. Provide two waves of participants—hikers and runners—moving along the same trail to create encouragement, unity, and group motivation. 2. Provide custom participant apparel produced in partnership with Richmond Run Club to promote project identity and pride throughout the March–November timeline. 3. Provide hydration, snacks, and participant-requested refreshments to ensure equitable access and participant comfort across all events.	1. Provide attendance tracking through Eventbrite registration and physical sign-in sheets to monitor participation increases or decreases across events. 2. Provide bi-weekly assessments of attendance data, participant engagement, and program value to guide ongoing improvements. 3. rovide evaluation of community joy and connection—such as smiles, laughter, high-fives—as qualitative indicators of project effectiveness. 4. Provide tracking of key metrics including growth in attendance, participant retention, consistency in fitness goal progress, and family involvement increases.
	District 1	Nepali Association of Northern California (NANC)	7/1/2026	6/30/2027	$ 40,000	Identify language barriers, documenting where they occur, and collaborating on solutions aligned with Contra Costa County's Language Equity and Access Plan (LEAP) to improve access to healthcare, social services, and civic participation for the Nepali community in West Contra Costa County.	1. Provide a comprehensive community needs assessment by surveying ~1,000 Nepali residents and conducting five focus groups to document language barriers and community-identified solutions. 2. Provide translation of the top twenty key informational sources—including flyers, FAQs, website content, videos, and driving and citizenship practice test materials—into Nepali. 3. Provide biweekly ESL classes for approximately 80–100 participants over six months to improve English communication skills for individuals with limited English proficiency. 4. Provide community-wide dissemination of translated materials through NANC's community center, partner organizations, cultural events, and online channels to ensure maximum reach. 5. Provide opportunities for community members involved in translation work to build long-term translation skills, creating a sustainable internal resource for future language-access needs.	1. Provide quantitative tracking of community needs assessment outputs, including the number of survey responses (target: 1,000), focus groups completed (target: 5), and the finalized needs assessment report. 2. Provide documentation of translation outputs, including the number of top informational sources identified (target: 20) and the number of materials successfully translated into Nepali across formats. 3. Provide tracking of ESL class attendance, enrollment, and participant progress using pre- and post-assessments, aiming for 80–100 active participants. 4. Provide distribution metrics for translated materials—both print and digital—and gather community feedback on their clarity and usefulness. 5. Provide evaluation of long-term outcomes through follow-up surveys assessing confidence in accessing county services, use of translated materials, and continued community involvement in translation efforts.
	District 1	New Life Movement	7/1/2026	6/30/2027	$ 30,000	New Life Movement's Culinary Workforce & Pantry Initiative supports youth workforce development and food security in West Contra Costa County (focused on South/Central Richmond) by combineing vocational culinary training, paid experience, food pantry operations, and financial literacy to reduce economic and health disparities while strengthening community resilience.	1. Provide culinary training materials, kitchen equipment, and ServSafe-related certification resources to strengthen vocational pathways for youth. 2. Provide food procurement for pantry distribution, ensuring weekly access to fresh and healthy food for households in District 1. 3. Provide a structured 12-month timeline aligned with cohort cycles and pantry operations to deliver consistent services	1. Provide tracking of enrollment, program completion, certification attainment, and job placements within 90 days to measure workforce outcomes. 2. Provide measurement of pantry distribution volume, household counts, and frequency of community engagement to assess food security impact. 3. Provide pre- and post-program assessments to evaluate growth in vocational skills, financial literacy, confidence, and resilience. 4. Provide quarterly outcome reports combining quantitative metrics and qualitative participant feedback.
	District 1	North Richmond Missionary Baptist Church	7/1/2026	6/30/2027	$ 10,000	The "This is Your Breakthrough" project is a community-based economic and health empowerment program that will: • Provide proper attire, healthy meals training, nutrition and diet education, and strategies to reverse/prevent medical conditions. • Use the church's commercial kitchen as a business incubator for local residents. • Offer food safety classes, business license training, financial assistance, and support for launching small food-based businesses.	• Provide healthy cooking, nutrition, and dietary training. • Deliver Food Safety Classes to prepare participants for the Professional Food Manager exam. • Conduct business license training and support participants with obtaining permits for in-home cooking businesses. • Provide weekly commercial kitchen access for prep work and cooking. • Provide storage space including the use of new commercial refrigerator and freezer units. • Provide entrepreneurial coaching and assistance in building business plans. • Provide economic empowerment workshops, including financial education. • Distribute flyers in neighborhoods, churches, and partner organizations. • Advertise via the church website and Facebook. • Promote through existing programs (Food Bank, Farmers Market, weekly food distribution).	• Participation: number of attendees, exam passers, business license holders, new food businesses, and participants employed in the food industry. • Kitchen usage: total participant hours in the commercial kitchen. • Outreach reach: number of people engaged through flyers, website, and partner programs. • Participant outcomes: improvements in nutrition knowledge, cooking skills, and business readiness. • Community outcomes: perceived impacts on health and economic well-being, increases in certified food safety managers, growth in local micro-businesses, and improvements in health literacy and economic empowerment.

	District 1	One Accord	7/1/2026	6/30/2027	$ 40,000	The One Accord Project: Look Up and Live is a faith-centered health equity initiative designed to improve access to trusted health information, mental health support, preventive care, and culturally responsive services for historically underserved communities in West Contra Costa County. The initiative trains and equips African American clergy and faith leaders as trusted messengers and health advocates.	1. Provide bimonthly clergy briefings offering up-to-date public health information, training, and tools that equip faith leaders to serve as health equity ambassadors. 2. Provide Ask the Therapist sessions offering direct access to licensed mental health professionals in trusted, community-based settings. 3. Provide Ask the Doctor sessions providing preventive care information, chronic disease education, and medical resource navigation support. 4. Provide targeted health messaging campaigns to increase health literacy and awareness of available services. 5. Provide community workshops and forums to deliver culturally tailored health education and resources. 6. Provide translation of educational materials, resource dissemination, and referral coordination to connect residents to medical, mental health, and social services.	1. Provide attendance tracking for clergy briefings, Ask the Therapist sessions, Ask the Doctor sessions, and community workshops. 2. Provide referral tracking for residents connected to mental health, medical, and social services, including follow-up data. 3. Provide pre- and post-session surveys to measure changes in health literacy, confidence in navigating services, and awareness of health resources. 4. Provide clergy and stakeholder feedback through key informant interviews to assess program effectiveness and improvement needs. 5. Provide messaging analytics to evaluate engagement with targeted health communication campaigns. 6. Provide qualitative impact analysis through case studies illustrating increased trust, health knowledge, and access to care among community members.
	District 1	Pogo Park	7/1/2026	6/30/2027	$ 35,000	Greening the Yellow Brick Road, is a pilot program to green, steward, and maintain a six-block section of the Yellow Brick Road — a safe, green, clean walking and biking corridor in Richmond's Iron Triangle. The project showcases a replicable model demonstrating how resident-led stewardship can maintain public infrastructure, prevent blight, improve safety and walkability, and strengthen community pride.	1. Provide daily maintenance and care for 93 trees, 2,000 plants, pedestrian-scale lighting, custom signage, and waste stations along the six-block Yellow Brick Road corridor. 2. Provide a consistent Green Team presence to clean, green, and steward the route Monday–Friday, deterring illegal dumping and enhancing neighborhood safety. 3. Provide necessary materials and supplies — including plants, trees, mulch, compost, and tools — for ongoing maintenance and beautification. 4. Provide a resident-led pilot demonstrating a replicable stewardship model for additional segments of the Yellow Brick Road and future green infrastructure projects.	1. Provide regular documentation of street conditions, including tree/plant health, lighting functionality, cleanliness, and reduction of illegal dumping. 2. Provide monitoring of pedestrian and bicycle activity to track increased use of the corridor by children, families, and seniors. 3.Provide community feedback collected through daily neighbor interactions, observations, and informal conversations with residents along the route. 4. Provide workforce tracking metrics such as Green Team member retention, training hours completed, and skill-building progress. 5. Provide documentation of maintenance practices and lessons learned to support broader future replication along additional Yellow Brick Road segments. 6. Provide ongoing evaluation of environmental equity impacts, such as improved greenery, shade, air quality, and safety.
	District 1	RichMinds Network Coalition	7/1/2026	6/30/2027	$ 30,000	Provide trauma/substance-use groups, clinical case management, outreach for unsheltered individuals, mental health linkage, benefits access, food insecurity relief, psychoeducation, and resource navigation for families and youth in Richmond and North Richmond experiencing homelessness, housing instability, and mental health challenges.	1. Provide evidence-based Seeking Safety trauma and substance-use support groups to improve mental wellness and emotional stability among participants. 2. Provide clinical case management and therapy services for unsheltered individuals, including 1:1 assessments, linkage to benefits (CalFresh, Medi-Cal), and connection to shelters or housing programs. 3. Provide brown-bag outreach and welfare checks to unhoused individuals, ensuring consistent contact, needs assessment, and crisis support. 4. Provide brown-bag outreach and welfare checks to unhoused individuals, ensuring consistent contact, needs assessment, and crisis support. 5. Provide skills training workshops in financial literacy, job readiness, personal development, and mental wellness. 6. Provide community engagement activities that foster peer support, volunteerism, and connection.	1. Provide tracking of enrollment numbers, participation rates, and program retention to assess engagement consistency. 2. Provide monitoring of services delivered, referrals made, and participant progress toward individualized goals. 3. Provide pre- and post-program assessments to measure changes in participant knowledge, skills, mental wellness, and access to services.
	District 1	Richmond Community Foundation - Equity for Black Women and Girls	7/1/2026	6/30/2027	$ 30,000	The Sistas SOAR (Success Opportunities Apprenticeship & Resilience) program is a nine-month business incubator designed specifically for Black women entrepreneurs in Richmond and West Contra Costa County. It addresses longstanding racial and gender inequities in access to capital, business training, and economic opportunity—barriers that limit business creation, revenue generation, and long-term economic mobility for Black women.	1. Provide a nine-month business incubator cohort designed for 25 Black women entrepreneurs in District 1, offering weekly training and structured business development curriculum. 2. Provide technical assistance workshops in business planning, strategy, compliance, financial literacy, and marketing. 3. Provide pitch-prep classes and two major events: "Sowing Seeds for Success" and "Taking Flight," including space rental, food, and facilitation. 4. Provide mentorship through partnerships with Renaissance Entrepreneurship Center, JPMorgan Chase, Empower Soul Studios, and CoBiz Richmond 5. Provide alumni support and continued engagement pathways through the Equity for Black Women and Girls Initiative.	1. Provide tracking of program completion rates, with a target of 80% graduation. 2. Provide measurement of business development outcomes, including 100% completion of business plans, branding strategies, and pitch decks. 3.Provide tracking of economic outcomes, including 50% revenue generation within six months of completing the program. 4. Provide participant intake, exit, and six-month follow-up surveys to evaluate confidence, business knowledge, and network access. 5. Provide monitoring of the number of participants who convert business ideas into income-generating enterprises, including at least 3 women whose businesses become their primary source of income.
	District 1	Richmond Renaissance	7/1/2026	6/30/2027	$ 40,000	The Richmond Arts Corridor is a community-driven initiative revitalizing Macdonald Avenue and 23rd Street through public art, murals, music and literary events, outdoor festivals, artist stipends, community engagement, cleanup efforts, and cultural programming. The project aims to build community, reduce isolation, strengthen public safety, uplift local artists, and stimulate economic activity through arts-centered placemaking.	1. Provide 2–3 large-scale murals on the Corridor during 2026, beginning with 23rd Street in May and Civic Center mural in June. 2. Provide installation of corridor banners beginning April 2026 to visually unify the Arts Corridor. 3. Provide monthly outdoor literary arts events beginning May 2026, including writing workshops, spoken word, and cross-organizational collaborations. 4. Provide Music on the Corridor performances featuring local musicians and community ensembles. 5. Provide Community Art Days, offering family-friendly outdoor artmaking and public engagement opportunities. 6. Provide an Arts & Humanities Festival in October 2026, concluding the funded component of the program. 7. Provide stipends for muralists, musicians, literary artists, and behind-the-scenes production teams. 8. Provide ongoing "Corridor Cleanup" activities to keep public art areas safe, clean, and welcoming. 9. Provide community teach-ins on intersections of art, environment, just transition, and anti-displacement issues.	1. Provide attendance tracking, engagement metrics, and volunteer participation rates for all Corridor events. 2. Provide surveys for event attendees to collect feedback and guide future planning. 3. Provide tracking of website traffic, digital engagement, and newsletter growth (newsletter launches March 2026). 4. Provide documentation of business impact through partnerships with the Richmond Chamber and surrounding merchants. 5. Provide photo, video, and narrative documentation of murals, events, and community participation. 6. Provide tracking of paid opportunities created for local artists, musicians, and cultural workers.

	District 1	Robinson Weeks Robinson Scholarship Fund	7/1/2026	6/30/2027	$ 40,000	Provide scholarship and mentorship for WCCUSD graduating seniors pursuing STEM and health science degrees by providing financial awards, structured mentorship, academic and emergency support, and a homegrown pathway into high demand health careers that strengthens the local workforce, improves community health outcomes, and advances educational equity and longterm economic mobility across West County.	1. Provide scholarships to 7–23 rising or graduating WCCUSD seniors pursuing health sciences or STEM degrees, awarded over a 2–3 academic year period. 2. Provide structured mentorship and professional development opportunities to 100% of scholarship recipients. 3. Provide academic support including guidance on college navigation, degree pathways, and persistence strategies. 4. Provide internship, college exposure, and career exploration through partnerships with colleges, HBCUs, healthcare providers, and STEM employers. 5. Provide multi-channel outreach (school presentations, counselor referrals, digital communications, info sessions) to ensure awareness among all eligible students. 6. Provide data-driven implementation through a multi-year program structure supporting enrollment, retention, and degree completion.	1. Provide tracking of number of applicants and scholarships awarded to measure outreach effectiveness. 2. Provide verification of college enrollment to ensure recipients matriculate following graduation. 3. Provide monitoring of academic performance to ensure 75% maintain a 3.0 GPA or higher. 4. Provide annual persistence tracking to ensure 80% of scholars progress year-to-year toward completion. 5. Provide tracking of mentorship participation, student satisfaction, and professional exposure. 6. Provide long-term outcome tracking, including graduation rates and entry into STEM or healthcare careers.
	District 1	Salesian College Preparatory	7/1/2026	6/30/2027	$ 15,000	The project, Life Skills for Early Adolescents: Comprehensive, Compassionate, and Community-Oriented, expands Salesian's current one-year 9th-grade life skills curriculum into a two-year workshop series for both 9th and 10th graders. The initiative addresses academic development, personal growth, emotional intelligence, communication, decision-making, and social-emotional learning, while adding programming in reproductive and sexual health that is aligned with the school's Catholic values.	1. Provide an expanded two-year life-skills curriculum for 9th and 10th grade students embedded within the school day, addressing academics, emotional health, communication, consent, boundaries, and cyber-safety 2. Provide at least 18 structured workshops for 9th and 10th graders, including a half-day October retreat for each grade level. 3. Provide new programming focused on sexual and reproductive health, taught in a medically accurate, developmentally appropriate, and values-aligned manner. 4. Provide guest speaker events, speaker series, and professional facilitators specializing in youth development, health, safety, and well-being. 5. Provide independent-access resources and informational materials in the school's Wellness Center for all 435 students.	1. Provide annual student climate surveys to assess growth in social-emotional, physical, and reproductive-health understanding, compared longitudinally across multiple years. 2. Provide exit-ticket assessments after each workshop to measure comprehension, skill development, and emerging questions. 3. Provide ongoing qualitative tracking of student needs, concerns, and conversations documented by the personal counselor. 4. Provide review of long-term impact on students' decision-making, emotional well-being, and readiness for upper-grade responsibilities. 5. Provide monitoring of participation across all 9th and 10th grade students (approx. 220 students) due to program integration into the school day.
	District 1	St. Joseph School (Pinole)	7/1/2026	6/30/2027	$ 30,000	The St. Joseph School Outdoor Learning and Wellness Center project transforms an unused outdoor area into a multi-use learning and wellness environment. The project aims to reduce educational, environmental, and health disparities by increasing access to safe green spaces, hands-on STEM experiences, physical activity, social-emotional learning, and wellness resources for West County students and families—including many from underserved communities.	1. Provide construction and installation of a multi-use sports field, outdoor classroom, garden beds, composting systems, and a meditative wellness area. 2. Provide development and implementation of environmental education and outdoor classroom curricula aligned with academic standards. 3. Provide structured garden-based learning activities, seasonal planting/harvesting cycles, and launch of the Sustainable Garden Club 4. Provide mindfulness and reflective wellness practices integrated into regular student routines. 5. Provide entrepreneurship instruction for grades 7–8 through garden-based product development, marketing, and sales 6. Provide volunteer workdays and community engagement events.	1. Provide participation tracking for outdoor field usage, outdoor classroom learning, garden activities, mindfulness sessions, and entrepreneurship projects. 2. Provide parent surveys measuring student wellness, physical activity, learning engagement, and perceived program value. 3. Provide "quick surveys" after major events such as harvest days, volunteer events, and entrepreneurship showcases for real-time feedback. 4. Provide tracking of outdoor instructional minutes, number of participating students, frequency of physical activity, and distribution of STEM/garden-based learning opportunities. 5. Provide program leadership reviews of all survey data, engagement measures, and wellness indicators to determine goal attainment and inform improvements.
	District 1	STEAM the Streets	7/1/2026	6/30/2027	$ 40,000	"See It and Be It" is a STEAM career-exploration program targeting underserved middle school youth ages 11–14. The program delivers high-energy, culturally relevant STEAM career assemblies at five WCCUSD middle schools and trains 15 educators to implement a 12-week STEAM career exploration curriculum. Students engage with relatable BIPOC role models, multimedia storytelling, and hands-on exploration of STEAM career pathways.	1. Provide 60-minute STEAM career exploration assemblies ("This Can Be You") at five WCCUSD middle schools, reaching 2,500 students. 2. Provide training for 15 WCCUSD educators to deliver the 12-week STEAM career exploration curriculum. 3. Provide curriculum implementation support, including lesson plans, facilitation guides, student reflection tools, and STEAM career roadmaps.	1. Provide tracking of number of assemblies delivered, students reached, and educators trained. 2. Provide demographic data collection or estimation to ensure equity in participation. 3. Provide pre- and post-surveys assessing awareness, interest in STEAM careers, identity affirmation, and self-confidence. 4. Provide monitoring of indicators such as increased STEAM interest, improved awareness of career pathways, and potential improvements in STEAM achievement.
	District 1	The Latina Center	7/1/2026	6/30/2027	$ 20,000	Mujer, Salud y Liderazgo (MSL), Women, Health and Leadership is a 1-year transformative leadership program to build community and advance skills focused in the Latina community through trauma-informed training and support. As a part of the program, each Peer Leader designs and implements a project putting new skills into practice while serving their community through peer support groups, workshops and health education projects they design and that reach hundreds of residents each year in culturally appropriate ways on topics such as domestic violence nutrition, child literacy, physical activity, breast cancer, diabetes, art, cultural heritage, and parenting.	1. Recruit and enroll 3 cohorts of 15–20 Latina immigrant women each (total 50–60 participants) in the MSL program. 2. Deliver the full 3-phase MSL curriculum 3. Conduct one-day workshops ("jornadas") across the training period. 4. Support each participant to design and implement an Individual Learning Project, each reaching at least 20 community members. 5. Host joint project presentation event in May and graduation ceremony in June 2027. 6. Fund salaries for MSL Program Coordinator + 3 Community Health Educators (CHEs) (all program graduates). 7. Cover operational costs: mileage, office supplies, printing, training materials, communications (phone/internet/Zoom).	• Participation: number of enrolled participants, workshops delivered, Individual Learning Projects completed, and community members reached. • Outreach activity: volume of outreach conducted (flyers, tabling events, partner site engagement). • Participant growth: changes in knowledge, behaviors, confidence, and leadership capacity measured through baseline assessments, pre/post surveys, final interviews, and satisfaction surveys. • Social impact: changes in participants' social support networks and reductions in isolation. • Resource access: improvements in connection to legal, health, mental health, and family support resources. • Community leadership: increases in community leadership capacity and civic engagement.
	District 1	The Practice Space	7/1/2026	6/30/2027	$ 40,000	The Communication to Career Youth Program is a six-month initiative serving 25 West Contra Costa youth ages 16–22. The program includes a one-week summer camp plus ongoing twice-monthly networking nights with professionals across industries such as technology, health, government, education, and business. Youth receive coaching in oral communication, mentorship, mock interviews, public speaking, self-advocacy, pitches, and storytelling. The goal is to reduce economic disparities by strengthening communication skills that directly impact employability and leadership opportunities.	1. Provide a one-week summer communication and career-readiness camp where youth develop personal stories, career goals, networking skills, pitches, mock interview skills, and on-the-spot communication ability. 2. Provide twice-monthly networking nights throughout Fall 2026–January 2027, connecting youth to local West Contra Costa professionals aligned with their career interests. 3. Provide coaching and mentoring sessions focused on oral communication skills, audience adaptation, self-advocacy, and confidence-building. 4. Provide opportunities for paid coaching roles in educational programs during the academic year. 5. Provide school-based outreach, presentations, and recruitment workshops launching by May 30, 2026.	1. Provide demographic and access-related data to track whether youth from priority populations (BIPOC, immigrants, and economically vulnerable households) are being reached. 2. Provide observational rubrics assessing communication skill growth at strategic points during the program. 3. Provide youth feedback forms, assignment exit slips, and networking-event reflections to document learning and confidence gains. 4. Provide surveys tracking total number and perceived quality of professional connections built during the program. 5. Provide post-program surveys measuring confidence, belonging, self-awareness, and communication-skill growth at both the end of summer camp and the end of the full program cycle.

	District 1	The Richmond Black Historical Legacy Project	7/1/2026	6/30/2027	$ 25,000	The Richmond Black Historical Legacy Project (RBHLP) will preserve, celebrate, and activate Richmond's and North Richmond's Black history through mobile exhibits, official historical markers, Black history walking tours, special events (including a celebration of historic & current Black-owned businesses), and oral history collection from residents.	1. Provide 2–3 mobile Black history exhibits highlighting the Black Panther Party, local community programs, and Black Richmond's cultural legacy. 2. Provide installation of 2–3 official historical markers, including research, documentation, mapping, and ribbon-cutting events. 3. Provide 2–3 Black history walking tours with researched narratives and guided experiences. 4. Provide special community events, including a Macdonald Avenue Black-owned business celebration and oral history collection. 5. Provide website development, branding, printed collateral, outreach tools (canopies, banners, flags, tablecloths, handbills). 6. Provide a museum planning process, including hiring a museum/archives professional to create a phased plan for the future museum. 7. Provide a fundraising and capital campaign plan through grant-writer and advisor contracts. 8. Provide ongoing outreach, community engagement, and evaluation throughout the project term.	1. Provide documentation of 3–5 installed markers, including mapped locations, research reports, photographs, and ribbon-cutting participation metrics. 2. Provide attendance tracking through sign-in sheets and headcounts at public events, exhibits, and walking tours. 3. Provide participant surveys at mobile exhibits, community programs, walking tours, and special events to assess learning, relevance, and community impact. 4. Provide tracking of organizational development milestones, including completion of strategic plans, fundraising strategy, and capital campaign planning. 5. Provide evaluation of increased public awareness, strengthened partnerships, and expanded participation in Black history initiatives. 6. Provide photographic, narrative, and digital documentation of events, exhibits, and community engagement activities.
	District 1	Tibetan Association of Northern California (TANC)	7/1/2026	6/30/2027	$ 50,000	The TANC Community Center Renovation Project aims to repair and renovate the Tibetan Association of Northern California's community center's classrooms. The community center is the primary cultural, social, educational, and spiritual hub for 3,500–4,000 Tibetan immigrants in the Bay Area, with the majority residing in West Contra Costa County.	1. Provide full roof replacement and structural repairs to eliminate ongoing water leaks affecting the building. 2. Provide additional building repairs and upkeep necessary to ensure a safe, functional, and weather-resistant community center space. 3. Provide a safe and preserved space for ongoing youth, senior, cultural, health, and community programs central to Tibetan immigrant life in West County	1. Provide weekly renovation progress updates and field inspections conducted by TANC board members in coordination with the contractor. 2. Provide post-renovation evaluation through community meetings, gathering member feedback on structural improvements and usability. 3. Provide program participation tracking to gauge increased safety, comfort, and attendance at community center activities following renovation.
	District 1	Triangle Works	7/1/2026	6/30/2027	$ 25,000	The Triangle Learning Space is a youth and adult arts and learning program offering free and low-cost creative skills classes to Title I students, adults, and seniors in El Sobrante, Richmond, North Richmond, Pinole, San Pablo, and surrounding West County communities. The program addresses gaps in access to arts education for low-income youth, the lack of community-based learning spaces in the 94803 area, the need for safe, supportive creative environments promoting mental well-being.	1. Provide 18 months of creative programming including after-school classes (3 days/week) and expanded summer options. 2. Provide up to 200 youth with hands-on arts and maker classes using free or sliding-scale access 3. Provide 75–100 adults and seniors access to daytime and evening classes fostering community connection. 4. Provide class materials, supplies, and equipment upgrades, including youth-appropriate tools and safety equipment. 5. Provide bilingual outreach, registration support, and community showcase events. 6. Provide 2+ annual public showcase events where participants share projects with the broader community.	1. Provide tracking of class attendance by age group, neighborhood, and school affiliation (used as a non-invasive equity proxy). 2. Provide sign-in sheets for youth, adult, and senior classes to monitor program reach. 3. Provide tracking of scholarship/sliding-scale usage to ensure equitable access. 4. Provide participant feedback through brief end-of-session forms or verbal reflections. 5. Provide instructor observations documenting growth in creative skill, confidence, and social-emotional development. 6. Provide a final program report to the County including participation numbers, financial accounting, photos, and impact stories.
	District 1	Weigh of Life	7/1/2026	6/30/2027	$ 25,000	The Road to Active Safe Living is Weigh of Life's comprehensive holistic-health and employment-readiness program serving low-income and underserved Richmond, North Richmond, and San Pablo residents. The program is specially designed to support low-income Latino women ages 16–85, though all underserved residents may participate.	1. Provide weekly low-cost or no-cost exercise and nutrition classes at community sites including Veterans Hall on 23rd St., Shields Reid Community Center in North Richmond, and Nevin Community Center in Iron Triangle. 2. Provide healthy cooking classes and access to fruits and vegetables to support improved dietary habits. 3. Provide weekly job-readiness workshops covering resume writing, goal and timeline development, and employment search support. 4. Provide ESL classes to strengthen participants' communication skills and employment readiness. 5. Provide appointments with a stylist to prepare participants for job interviews. 6. Provide bi-monthly Saturday job fairs featuring local employment opportunities. 7. Provide referrals to community agencies for domestic violence, food insecurity, and other socio-economic needs. 8. Provide program launch no later than May 11, 2026, with full implementation throughout the following quarters.	1. Provide quarterly tracking of student completion of at least two program tasks/activities. 2. Provide monitoring of the number of job applications submitted by participants. 3. Provide tracking of job placements resulting from program participation. 4. Provide attendance logs for workshops, community events, ESL classes, and cooking sessions to assess program reach. 5. Provide quarterly goal assessments at the beginning and end of each quarter. 6. Provide tracking of overall number of individuals impacted through classes, workshops, or outreach.

SUPERVISOR

JOHN GIOIA

CONTRA COSTA COMMUNITY IMPACT FUND DISTRICT 1 TOWN HALL REPORT

November 13, 2025

Executive Summary

Background

In June 2025, the Board of Supervisors allocated $5 million to create the Contra Community Impact Fund, with $1 million designated for each Supervisor's District. To gather input for this fund, the Board of Supervisors/County Administrator's Office launched a Community Impact Fund Survey. Each Supervisor also conducted an independent process to receive feedback from their District residents. Supervisor John Gioia and staff led five town halls and a focus group across his Supervisorial District One, engaging 275 residents, youth, organizational leaders, and advocates. The goal was to gather authentic community input on how to allocate $1 million to promote equity and address health and economic disparities in West Contra Costa.

Data Overview

The 5 town halls and one focus group were well-attended, with a total of **275 participants**.

- Latina Center Focus Group (Richmond): 15 attendees (in-person, Spanish)
- Youth Only Town hall (RYSE, Richmond): 60 attendees (ages 13–24, in-person)
- Pinole Town hall (City Hall): 30 attendees (hybrid)
- St. Peter CME Church Town hall (El Cerrito): 50 attendees (hybrid)
- RYSE Center Town hall (Richmond): 48 attendees (hybrid)
- San Pablo Town hall (City Hall): 72 attendees (hybrid)

Key Categories

The feedback collected from these sessions revealed a wide variety of community needs and priorities, which can be categorized as follows:

- **Public Health:** Emphasis on mental health services, wellness programs, and healthcare access.
- **Education:** Support for educational programs, resources for schools, and youth development initiatives.
- **Vocational Opportunities:** Expansion of job training programs and employment resources.
- **Housing:** Advocacy for affordable housing projects and homelessness prevention measures.
- **Local Environment:** Enhancements to parks, green spaces, and community beautification projects.
- **Legal Services:** Access to legal aid and justice-related services for vulnerable populations.
- **Arts and Culture**: Investment in cultural programs, arts initiatives, and community events.
- **Transportation:** Improvements in public transportation infrastructure and accessibility.

Methodology

Participants were invited to share their input through various means, including in-person and virtual oral comments, posted written sticky notes, Zoom tools, and surveys. Comments were transcribed, categorized, and prioritized to reflect community priorities. All participant comments were recorded and categorized to ensure the diverse needs and voices within the community were effectively captured. Spanish and ASL interpretation were offered, and Spanish interpretation was utilized.

Conclusion

The synthesis of the data and narratives collected provides a roadmap for elected officials and policymakers to make informed and equitable public investments that address the critical needs of the community. The commitment to language justice and inclusive engagement was central to ensuring all community members could participate fully, reinforcing the importance of equity in decision-making processes.

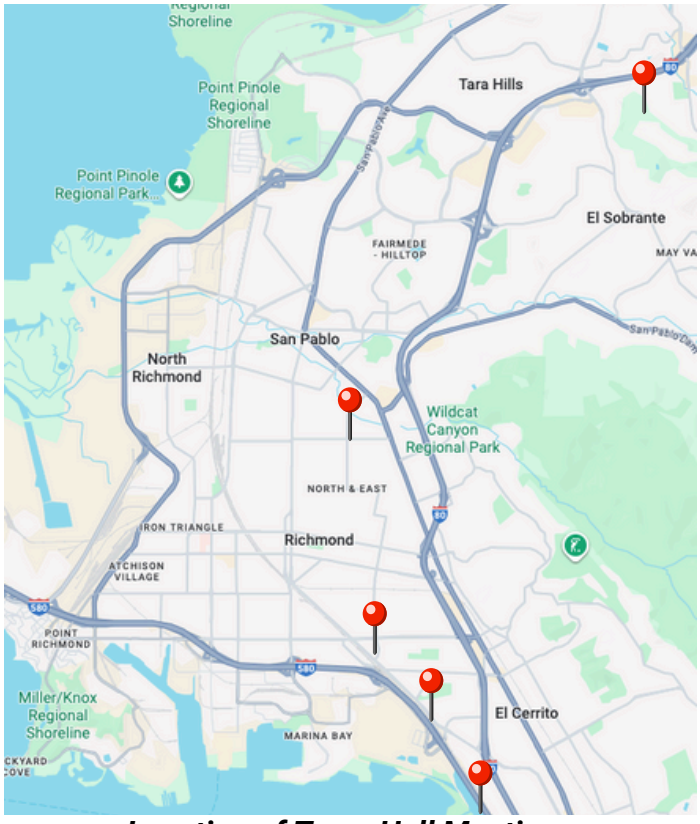
Background

In June 2025, the Board of Supervisors allocated $5 million to create the Contra Community Impact Fund, with $1 million designated for each Supervisor's District. To gather input for this fund, the Board of Supervisors/County Administrator's Office launched a Community Impact Fund Survey. Each Supervisor also conducted an independent process to receive feedback from their District residents to aid in their decision-making process to determine how to spend this fund of money.

Supervisor John Gioia and staff led five town halls and a focus group across his Supervisorial District One, engaging 275 residents, youth, organizational leaders, and advocates. The goal was to gather authentic community input on how to allocate $1 million to promote equity and address health and economic disparities in West Contra Costa.

The outreach strategy was robust, and Supervisor Gioia's Office thanks the community partners that assisted with outreach, planning and organizing the events, including Collective Care CoCo, St. Peter C.M.E. Church, RYSE Center, City of San Pablo, and City of Pinole. The town halls across District One revealed diverse community needs embedded in thematic consistencies. People of all backgrounds participated with notable, energetic optimism. We can confidently report that our constituents want County funding and believe in its ability to enable enhancements in public health, education, vocational opportunities, housing, local environment, legal services, arts, and transportation.

The following report synthesizes the priorities, narratives, and direct quotes from these sessions, providing a roadmap for elected officials and policymakers to advance equitable public investments.



Data Overview

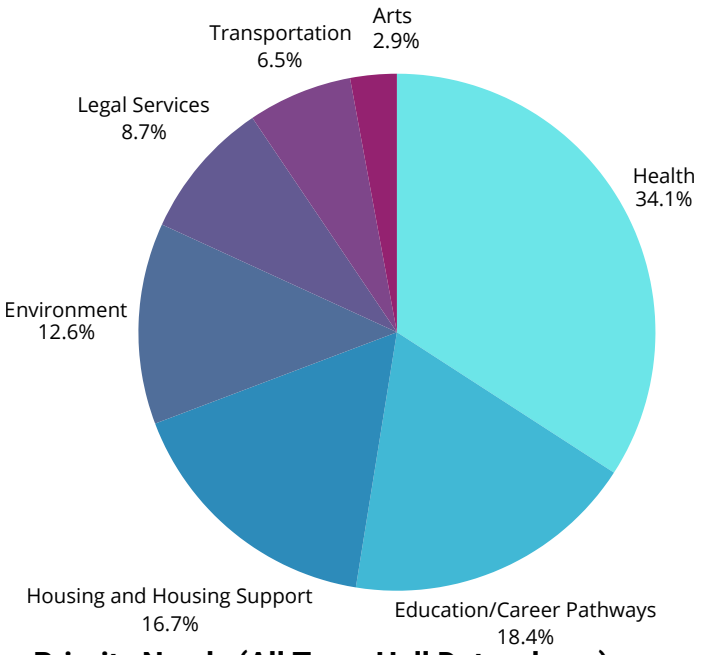
Attendee Profile

West County residents, organizational leaders, resident advocates, a small number of government staff, and CBOs seeking to expand services.

Methodology

The goal was to gather authentic community input on how to allocate $1 million to promote equity and address health and economic disparities in West Contra Costa. The focus group and five town halls provided a background and overview of the American Rescue Plan Act (ARPA) and the Board's allocation of $5 million. The discussion portion began with the question "How would you spend $1 million to promote equity and address economic health disparities in West Contra Costa?"

Location of Town Hall Meetings



Input was collected via in-person and virtual oral comments. in-person participants were also invited to write their ideas on sticky notes, staff also transcribed comments on sticky notes in real time. Virtual tools were utilized by participants such as Zoom whiteboard, chat, surveys, and email. Comments were prioritized using sticky notes, dot stickers, and frequency of comments. All contributions were recorded and categorized to reflect community priorities. This comprehensive approach ensured that the diverse needs and voices within the community were effectively captured. Additionally, the commitment to language justice principles ensured that all community members could participate fully, regardless of their language proficiency. Spanish and ASL interpretation were offered, and Spanish interpretation was utilized. The Latina Center focus group was held in Spanish, co-facilitated with staff from the Latina Center and Office of Supervisor John Gioia.

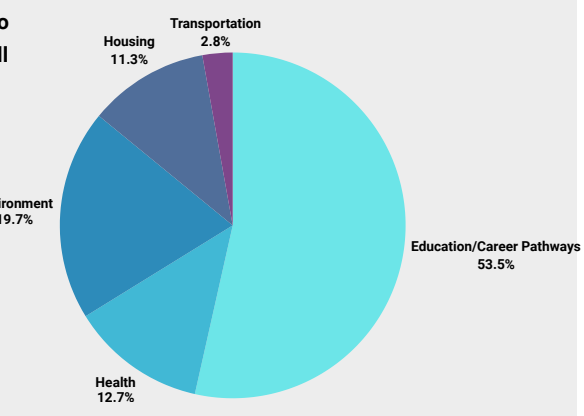
Pinole Town Hall



El Cerrito Town Hall

Richmond Town Hall

San Pablo Town Hall

Community Input: Narratives, Data, and Quotes by Category

1.Health, Mental Health & Wellness (141 attendees prioritized)

Narrative

Residents across a diverse range of town halls consistently called for affordable, accessible healthcare, mental health support, and culturally competent services, especially for youth, seniors, African American, immigrant, and unhoused populations. Nutrition support and mental health resources for vulnerable populations – and often hard to reach populations where stigmas about mental health persist – were frequent highlights of the health, wellness, and equity related feedback.

Key Priorities

- Affordable healthcare, expansion of clinics, free medical services for the unhoused
- Mental health and behavioral health support for parents and youth
- Nutrition, food security, and increased food distribution capacity
- Culturally competent AA mental health providers, maternal health programs, and doulas
- Peer-based wellness centers, addiction recovery, and respite services for seniors
- Support for vulnerable families, childcare, and children with disabilities

Quotes

- "Mental Health and Behavioral Health support for parents and youth who are dealing with anxiety, feeling unsafe, truancy due to ICE riots."
- "Free Therapy/Therapists in Schools/Mental Health Improvement Activities."
- "We should have herbalist/motivational speakers, hormone health and more. This because my mom was part of a research hub that talked about creating a sex education curriculum that went more in depth of healthy overall health. Maybe we should do something like that here."
- "Funding for health and wellness of the most vulnerable, especially African American populations."
- "Expansion of community-based clinics and free medical services for the unhoused."

2. Education/Career Pathways (76 attendees prioritized)

Narrative

Community members emphasized scholarships, mentorship, and career pathways in STEM, health, and entrepreneurship, with a focus on African American youth, immigrants, and economically vulnerable populations. Respondents noted that funding for education and career pathways may be an excellent investment for our relatively limited dollars because these investments into youth could compound over time. Attendees were generally very positive but cognizant of deep inequities and the failures of public investments in the past, while also remaining optimistic and intentional that the dollars must be leveraged for long-term utility rather than one-time, transitory stimulus. Phrases like investments, leveraging, and long-term were consistent.

Key Priorities

- Scholarship funds for students interested in medicine and STEM
- Mentorship programs for STEM and MATH with AA mentors
- Wage support for early childhood educators
- Entrepreneurial education, job training, and arts for young people
- Career building internships, resource centers for immigrants, and intergenerational programs

Quotes

- "Scholarship funds for students interested in medicine and STEM."
- "Mentorship programs for STEM and MATH with AA mentors."
- "Funding for entrepreneurial education programs for AA youth."
- "Choices for different pathway to education programs and career building like Welding, Beauty Industry, Fashion Design and Medical Certifications."
- "Youth who do not qualify to existing programs due to immigration status or other barriers."
- "African American doctors like me are getting older … without providing financing for scholarships for students interested in going into medicine, they have no hope."

Community Input: Narratives, Data, and Quotes by Category (continued)

3. Housing & Housing Supports (69 attendees prioritized)

Narrative

Affordable housing and transitional supports for youth, immigrants, and the unhoused were urgent themes. Residents advocated for emergency housing, group homes, rental assistance, and pathways to homeownership. Housing investments were a prominent theme particularly among young town hall participants, possibly reflective of the challenging housing market that confronts most young people as they enter the workforce or look to move out of the homes or apartments in which they grew up.

Key Priorities

- Transitional housing for youth and young adults (YYAs)
- Affordable apartments, emergency housing, and homeless shelters
- Rental assistance, homeownership programs, and grants for rehabilitation
- Housing programs for immigrants and single parents

Quotes

- “Give us more affordable apartments.” (youth)
- “I want a housing program for teens cause it’s not fair for them to be kicked out of their home.” (youth)
- “I want cheaper/affordable housing and better home quality.” (youth)
- “Housing programs for immigrants.”
- “More homeless shelters to get people off the street”

4. Environment (52 attendees prioritized)

Narrative

Environmental justice was a recurring theme, with calls for community clean-ups, improved air and water quality, and safer, greener public spaces. Equity in public spaces was a recurrent theme, with participants noting that factors like safety, cleanliness, transportation, and history can all play roles in reducing usage of existing public spaces. Accessibility and walkability were frequent themes, and often in the context of providing a holistic approach at improving health and reducing healthcare costs.

Key Priorities

- Community clean-up events, clean air and water
- More gardens, trees, and solar power
- Street safety initiatives, better lighting, and school facility improvements

Quotes

- “I would like to see a community that cleans up the streets and parks. Cleaner river, ponds, oceans. More care over the animals/wildlife.”
- “Parts of Richmond near Foods Co need to be cleaned up and BART.”
- “Clean Air/More regulations on refinery.”

Community Input: Narratives, Data, and Quotes by Category (continued)

5. Legal Services (36 attendees prioritized)

Narrative

Legal support for immigrants, reentry populations, youth, and homeowners was highlighted, alongside advocacy for tenant rights and protection from police misconduct. The relatively small investment needed to radically positively impact local lives was cited as a logical reason for this investment, as was the current political climate and the troubling attacks on undocumented residents that have come from the current federal administration.

Key Priorities

- Immigration support, reentry reintegration, clean slate housing programs
- Pro bono lawyers, tenant-landlord dispute resolution, legal counsel for homeowners
- Info sessions, know-your-rights, and funding for organizations like SAFE Center

Quotes

- “Immigration.”
- “Reentry reintegration.”
- “Pro Bono Lawyers.”
- “Protection from police misconduct.”
- “Info Sessions/Know Your Rights.”

6. Transportation (27 attendees prioritized)

Narrative

Improved transportation options, free driver training, and expanded services for youth and seniors were requested. Attendees pointed to the growing needs of West County seniors and others to maintain mobility as cuts in defined route transit systems loom and the costs of owning and operating a vehicle continue to climb.

Key Priorities

- Free driver training, free Clipper cards, more buses
- Expanded Richmond Moves service area, amenities at bus stops, better lighting

Quotes

- “Free Driver Training.”
- “Expand Richmond Moves Area of Service and hire more drivers.”
- “More transportation options.”

7. Arts and Culture (12 attendees prioritized)

Narrative

Arts advocacy focused on programming for youth and elders, culturally competent initiatives, and support for local creative projects. Arts programs for both youth and seniors were pitched as low-cost, engaging approaches to improve health outcomes, fuel educational and vocational attainment, and provide needed recreation and mental stimulation. It was also noted that access to high level artistic programming remains a serious equity issue, as the arts are often among the most notable imbalances between affluent communities and those struggling to satisfy basic material needs.

Key Priorities

- Advocacy through the arts, support for arts programming
- Culturally competent programming in arts, health, and environment

Quotes

- “Advocacy through the arts.”
- “Support for arts and arts programming.”

Input in the Process

Narrative
Participants raised critical questions about transparency, equity, and long-term impact in fund distribution. There was strong advocacy for local control, inclusion, and sustainability. Residents were favorable to the investments and tolerant of the limited funds ($1M) but were equally insistent on transparent processes and investments that will leverage existing resources to enhance impacts.

Key Questions, Quotes, and Feedback

- “Will there be a grant application process? And if so, what is the likely deadline?”
- “How can we ensure that investments in equity and health in West Contra Costa are not just short-term fixes, but long-term, community-driven solutions that empower families and youth to break cycles of poverty and thrive for generations?”
- “Can we ensure that the money is spent in west CCC and not just for west CCC? That is, don't spend it on outside consultants and contractors, spend it HERE with US, where we can keep it circulating amongst us.”
- “How will this funding be structured to allocate and proposals to be scored to give smaller nonprofits a fair chance?”
- “Will there be residents on the application review team? Also, will there be a chance to comment on the scoring/ranking criteria before the application period begins?”

Narrative Note

Feedback at St. Peter CME in El Cerrito was optimistic and intentional that the dollars must be leveraged for long-term utility rather than one-time, short-term, transitory stimulus.

Conclusion

The community’s priorities are clear: invest in health, mental health, housing, education, vocational opportunities, environment, legal services, transportation, and the arts, with a focus on equity and long-term impact. The voices and narratives captured here provide a blueprint for spending $1M to address health and economic disparities in District 1. The details in terms of allocation ratios and particular investments into partners and institutions remain their own consequential decision points, but the general outline of priorities can guide our approach.

As we reflect on the community sentiments gathered at town hall meetings throughout West County, I’m inspired by the compassion and creativity of our residents. Their ideas, powered by intelligence and heart, advance health and equity in our communities. Together, we prove yet again that we can transform visions into reality, ensuring that equity uplifts all policies in health, recreation, education, workforce training, and more. I thank the community’s commitment and dedication to building a brighter future for all in West Contra Costa County.

In partnership,
Contra Costa County Supervisor John Gioia, District 1

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
ADOPT resolution Recognizing June 28th as Community is Stronger Than Cancer Day

FISCAL IMPACT:
No fiscal impact

BACKGROUND:

CONSEQUENCE OF NEGATIVE ACTION:
No negative action

The Board of Supervisors of Contra Costa County, California

ADOPT Resolution NO. 2026 Recognizing
June 28th as Community is Stronger Than Cancer day

WHEREAS, as of 2025, about 1 out of every 18 Americans (18.6 million people) was a cancer survivor. By 2035, that number is projected to exceed 22 million.

WHEREAS, almost 5,800 individuals in the United States may be diagnosed with an invasive cancer in a single day in 2026; and

WHEREAS, a 2016 report estimated that at least 2.8 million people provided care to a person with cancer in the United States in a given year, and those individuals spent an average of 32.9 hours a week providing that care; and

WHEREAS, Cancer Support Community SF Bay Area serves over 2,300 local cancer patients and caregivers annually; and

WHEREAS, Community Is Stronger Than Cancer Day celebrates the collective support that patients, survivors, caregivers, and their families receive from their communities; and

WHEREAS, Community Is Stronger Than Cancer Day was first observed in 2021 by 175 Cancer Support Community and Gilda's Club locations across the country, providing community-based support to those affected by cancer; and

WHEREAS, in 2026, Community Is Stronger Than Cancer Day will be celebrated by more than 200 locations globally; and

WHEREAS, Community Is Stronger Than Cancer Day is a day of inspiration, connection, and hope; and

WHEREAS, communities across the country demonstrate every day that they are stronger than cancer.

NOW, THEREFORE, BE IT RESOLVED that the Contra Costa County Board of Supervisors hereby recognizes that June 28, 2026, shall be known as

Community Is Stronger Than Cancer Day

The Board of Supervisors of Contra Costa County, California

IN THE MATTER OF recognizing the collaboration of the Inclusivity and Wellness Center and the Community of Pride Learning Community at Diablo Valley College for their contributions to uplifting LGBTQIA+ students

WHEREAS, the Inclusivity and Wellness Center and the Community of Pride Learning Community at Diablo Valley College provide comprehensive support for LGBTQIA+ students, bridging academic learning with essential wellness and social support; and

WHEREAS, the Community of Pride Learning Community provides academic support, counseling, and mentorship to LGBTQIA+ students; and

WHEREAS, the Inclusivity and Wellness Center hosts workshops, lectures, trainings, and LGBTQIA+ awareness events to foster queer-and trans-inclusive teaching across the college; and

WHEREAS, the Community of Pride Learning Community was founded in 2019 by Professor James Wilson and was joined by Christie Harrington-Tsai to create an LGBTQIA+ learning community at Diablo Valley College; and

WHEREAS, the Community of Pride Learning Community at Diablo Valley College is the first community college in California to establish a dedicated learning community for LGBTQIA+ students and their allies; and

WHEREAS, the Community of Pride Learning Community provides general education courses tailored to the issues related to queer identity, history, and culture, where students are taught by LGBTQIA+ faculty and allies to build a safe space; and

WHEREAS, the Community of Pride Learning Community has served 260 students as of the Spring 2026 semester, and consistently serves between 50 and 60 students per semester; and

WHEREAS, the Community of Pride Learning Community has held four Lavender Graduations to celebrate students who finished this program;

NOW, THEREFORE, BE IT RESOLVED: that the Board of Supervisors of Contra Costa County does hereby recognizes the Inclusivity and Wellness Center and the Community of Pride Learning Community for their innovation and unwavering commitment to uplifting the LGBTQIA+ students of Diablo Valley College, and for its meaningful contributions toward making Contra Costa County a welcoming and inclusive place for all.

THE BOARD OF SUPERVISORS OF CONTRA COSTA COUNTY, CALIFORNIA

and for Special Districts, Agencies and Authorities Governed by the Board

IN THE MATTER OF Recognizing Royal Grand Duke Sammy Spencer for his outstanding service, leadership, and advocacy on behalf of the LGBTQ+ community.

WHEREAS, Royal Grand Duke Sammy Spencer is a dedicated community leader, advocate, and philanthropist whose lifelong commitment to service began at the age of eighteen and has continued to positively impact countless lives throughout his community; and

WHEREAS, from his earliest volunteer efforts within his church community to his hands-on participation in disaster relief efforts during the 1998 Rio Linda floods, Royal Grand Duke Sammy Spencer has consistently demonstrated a steadfast dedication to helping others in times of need; and

WHEREAS, in 2021, Royal Grand Duke Sammy Spencer further expanded his service by joining the Royal Grand Ducal Council, where he faithfully served two years as Treasurer and contributed significantly to strengthening the organization's charitable and community outreach efforts; and

WHEREAS, as Royal Crown Prince during Reigns 30 and 31, Royal Grand Duke Sammy Spencer championed transgender rights through the production of two successful fundraising events, generating more than $4,000 in support of advocacy, awareness, and community empowerment; and

WHEREAS, recognizing the importance of creating opportunities for LGBTQ+ youth, Royal Grand Duke Sammy Spencer played a pivotal role in reviving the Royal $1.98 Pageant at the Town Youth Center in Oakland, fostering inclusion, creativity, and community engagement for a new generation; and

WHEREAS, through innovative leadership and community-building efforts, Royal Grand Duke Sammy Spencer produced the Royal Folles comedy show at Club 1220 in Walnut Creek, raising nearly $10,000 for charitable causes while bringing together community members in celebration and support of philanthropy; and

WHEREAS, his commitment to the principles of the International Court System extends beyond his own realm through his support of sister courts, including outreach and fundraising efforts benefiting the community in Fresno and strengthening bonds throughout the organization; and

WHEREAS, through his activism, fundraising achievements, volunteerism, and unwavering dedication to community engagement, Royal Grand Duke Sammy Spencer has uplifted and empowered individuals across

generations while exemplifying the highest ideals of leadership, service, and compassion;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Contra Costa County does hereby recognize Royal Grand Duke Sammy Spencer for his outstanding service, leadership, advocacy, and enduring contributions to the realm, the International Court System, and the communities he so faithfully serves.

Report Title: Adopt Resolution in honor of Kimberli S. Buckley on the occasion of her retirement.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
ADOPT a Resolution in honor of Kimberli S. Buckley on the occasion of her retirement from Contra Costa County.

FISCAL IMPACT:
None.

BACKGROUND:
Please see attached resolution.

CONSEQUENCE OF NEGATIVE ACTION:
N/A

The Board of Supervisors of Contra Costa County, California

In the matter of recognizing Kimberli S. Buckley on the occasion of her retirement after more than 18 years of service to Contra Costa County

WHEREAS, Kimberli Buckley first served Contra Costa County as a paralegal contractor for County Counsel from January 14, 2000, until September 21, 2001; and

WHEREAS, she began her service to Contra Costa County Library on September 26, 2005 as a part-time Clerk-Experienced Level at the Concord Library, later serving as a Permanent Intermittent Clerk-Experienced Level from November 1, 2006, until April 26, 2007; and

WHEREAS, Kimberli returned to Contra Costa County Library on May 2, 2011, as a part-time Library

Assistant-Journey Level at the San Pablo Library. In this role, she reestablished connections with local schools, strengthened the Library's partnership with the City of San Pablo, and organized highly attended community events. During this period, she also served as a long-term substitute at the Dougherty Station Library, where teen services flourished under her leadership; and

WHEREAS, on January 3, 2014, Kimberli was appointed as the temporary Community Library Manager of the San Pablo Library and was subsequently appointed as the Community Library Manager of the Oakley Library on March 1, 2014. Drawing on her extensive experience in a variety of library settings, she excelled in this new role and consistently demonstrated initiative, sound judgment, strong interpersonal skills, creativity, reliability, and flexibility; and

WHEREAS, on November 3, 2014, Kimberli was promoted to Senior Community Library Manager of the Pittsburg and Bay Point Libraries, where she continued to demonstrate excellence as she oversaw daily operations, launched new programs, revitalized existing services, and strengthened communication and support among staff; and

WHEREAS, Kimberli has served as the Senior Community Library Manager of Concord Library since July 6, 2015, dedicating over a decade to expanding the reach and impact of library services for Concord residents; and

WHEREAS, in 2016, she initiated the Concord Library's participation in hosting National Night Out, promoting the library as a safe space in the community. Under her continued leadership, the event has grown into a highly attended annual tradition that fosters community engagement and deepens the library's connection with the residents it serves; and

WHEREAS, in 2017, Kimberli launched "Coffee and Conversation," a program connecting unhoused individuals with representatives from support organizations, fostering partnership with the County, the Concord community, and faith-based organizations. The program expanded to additional libraries in 2019; and

WHEREAS, from 2017 through 2018, she initiated and led the Manager's Training Task Team, recruiting fellow managers and coordinating speakers and training sessions for 12 Monthly Managers' Meeting sessions during that period. Through her leadership, the task team grew into the New Manager Training Team, which remains active and continues to support manager development today; and

WHEREAS, Kimberli presented "Celebrating Diversity & Multiculturalism through Crafts" at the California Library Association Conference in 2018, earning recognition from Infopeople, which later hosted an extended webinar based on her work; and

WHEREAS, during the COVID-19 pandemic in 2020, Kimberli developed a video series for high school and college students that evolved into "Growing Up Is Hard: Library Adulting Programs Can Make It Easier," later offered to librarians throughout California through Infopeople; and

WHEREAS, in 2020 and 2022, Kimberli led the planning and implementation of Concord Library refresh projects, strategically allocating limited funds to maximize community benefit. Through her advocacy, she secured the City of Concord's funding for new carpeting and interior painting, resulting in significant improvements to the library environment for patrons and staff; and

WHEREAS, in 2021, she developed and delivered a presentation for Diablo Valley College's Industry Insights program, sharing the history of Contra Costa County Library, providing insight into careers in public librarianship, and guiding library technician students through the County's hiring process; and

WHEREAS, in 2024, Kimberli's careful planning, creative problem-solving, and collaborative leadership were instrumental to the success of the Self-Service Sundays pilot, establishing a new service model that expanded access while maintaining quality;

NOW, THEREFORE, BE IT RESOLVED, that the Contra Costa County Board of Supervisors hereby recognizes and commends Kimberli for her exceptional service, innovative programming, and unwavering commitment to bringing people and ideas together, enriching the lives of Contra Costa County residents and strengthening the community; and extends its heartfelt congratulations and best wishes on her retirement after more than 18 years of dedicated public service, with gratitude for her lasting contributions and the positive impact she has had on generations of library patrons and community members.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2667 **Agenda Date:** 6/23/2026 **Agenda #:** C.12.

To: Board of Supervisors

From: Aaron J. McAlister, Chief, Contra Costa County Fire Protection District

Report Title: Declare a Vacancy on the CCCFPD Advisory Fire Commission

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

Acting as the governing board of the Contra Costa County Fire Protection District, ACCEPT the resignation of Mario DiPrisco, DECLARE a vacancy in the At Large Alternate #2 seat on the Contra Costa County Fire Protection District Advisory Fire Commission for a term ending on June 30, 2028, and DIRECT the Clerk of the Board to post the vacancy.

FISCAL IMPACT:

No Fiscal Impact

BACKGROUND:

The CCCFPD Advisory Fire Commission was originally established by Resolution No. 99/138 by the authority of California Health and Safety Code Section 13844. The functions of the Advisory Fire Commission, revised by Resolution No. 2022/9, are to (1) serve as the Appeals Board on weed abatement matters; (2) review and make recommendations on Fire District goals and objectives; (3) provide advice and information to the Board of Directors on fire protection matters as needed; (4) serve as liaison between the Board of Directors and the community served by the District; and (5) perform other duties and responsibilities as assigned and directed by the Board of Directors. The bylaws of the Commission provide that the Board of Supervisors appoints the District Seat. The term of the seat expires on June 30, 2028.

Mr. DiPrisco tendered his resignation from the Advisory Fire Commission, effective June 30, 2026.

CONSEQUENCE OF NEGATIVE ACTION:

The seat would not be declared vacant, which would hinder recruitment to fill the position and could make it difficult to achieve a quorum when seated members are absent.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2668 **Agenda Date:** 6/23/2026 **Agenda #:** C.13.

To: Board of Supervisors

From: Dr. Grant Colfax, Health Services Director

Report Title: Contra Costa Health Plan Compliance Activities Report (January through March 2026)

☐Recommendation of the County Administrator ☒ Recommendation of Board Committee

RECOMMENDATIONS:
ACCEPT the Contra Costa Health Plan (CCHP) Compliance Quarterly Activity Report for January through March of 2026, as recommended by the CCHP Joint Conference Committee.

FISCAL IMPACT:
There is no fiscal impact for this action.

BACKGROUND:
To promote transparency and accountability, CCHP quarterly submits the Compliance Activities Report for review by the governing body. The Compliance Activities Report provides required oversight information on the effectiveness of the Plan's Compliance Program, the status of key compliance activities, and any significant risks or issues that warrant attention, in accordance with Department of Health Care Services (DHCS), Centers for Medicare and Medicaid Services (CMS) contractual obligations and Knox Keene Act of 1975 for Medi-Cal, Commercial and Medicare D-SNP managed care regulations. Attachment A - Compliance Quarterly Activities Report is included.

During this reporting period, the CCHP Compliance Department continues to strengthen regulatory readiness across Medi-Cal, Medicare D-SNP and Commercial lines of businesses. CCHP Compliance Department is also stabilizing the D-SNP Care Plus program launched on January 1, 2026. Here are key highlights:

- **Regulatory Monitoring:** All required submissions were timely except for a few remediated delays. No critical findings were identified.
- **Enforcement Matter:** On March 13, 2026, the Department of Managed Health Care (DMHC) issued a follow-up subpoena requesting additional information related to Enforcement Matter 24-143. This interrogatory investigation sought the corrective action plans the Plan submitted in May 2023 to address deficiencies identified during the 2021 Mental Health and Substance Use Disorder investigation. The Plan submitted all requested supporting documents to DMHC timely, meeting the submission deadline on April 13, 2026. This remains an area of operational risk and the Plan continues to monitor it closely.
- **Audit Findings:** DHCS has issued the final report for the 2025 Medical Survey Audit, identifying nine findings. The complete set of corrective action plans was submitted to DHCS on April 20, 2026. On May 4, 2026, DHCS responded by requesting additional supporting documentation. This is due back to DHCS on May 28, 2026.

- **DMHC Financial Audit:** Plan staff submitted approximately 4,475 supporting documents in preparation for the DMHC Financial Audit. The audit team also conducted multiple mock audit sessions, along with internal reviews and discussions. This was to ensure readiness. Virtual interview sessions began with the entrance conference on April 6, 2026. The auditors completed their final interview session on May 5, 2026. An exit conference is expected at the end of May.
- **DMHC Follow-Up Survey:** DMHC has initiated a Follow-Up Review to assess outstanding deficiencies from the 2025 Final Report tied to the 2022 Full Scope Medical Survey. Virtual interviews are scheduled to begin on August 31, 2026. Between May and early June, the Plan must submit required questionnaires, logs and evidence of compliance for sampled cases. Internal mock audits are planned for August. Compliance is coordinating preparation across all affected operational areas. The operational areas include Claims, Appeals and Grievances, Information Technology (IT), Member Services, Pharmacy, Quality and Health Equity, Provider Network Operations, Clinical QA and Utilization Management. The preparation with all operational areas is to ensure timely and complete responses are submitted to all pre-onsite requests.
- **Compliance Initiatives:** Compliance Performance Improvement Workgroup (CPIW) initiatives are progressing. The priority is on establishing a Policy Management Program. While work is moving forward, the project is currently not on track due to competing organizational priorities, regulatory audits and limited resources. The project team continues to actively monitor and mitigate risks when identified.
- **Third-Party Oversight:** Though slow, Enhanced Care Management (ECM) and Community Support Services (CSS) provider corrective actions are in progress. The team is working with these non-traditional providers closely to ensure progress is made. Staff plans to start more formal corrective discussions with select ECM providers who have not completed their Corrective Action Plans (CAPs) on time. Continued noncompliance may result in contract termination.
- **Fraud, Waste & Abuse (FWA):** No emerging risks; investigations and recoveries are in progress. The Plan has started issuing recoupment letters to four providers because of our FWA investigation. The total recoupment amount issued to the four providers was approximately $7,856,000.
- **Privacy & Security:** There is currently a low incident volume. There are no reportable breaches. Compliance Department is developing workforce training materials.

Overall, compliance health is stable and trending positively. CPIW initiatives continue to address the identified gaps.

CONSEQUENCE OF NEGATIVE ACTION:
If this action is not accepted, it could lead to noncompliance under the federal and state regulations.

Compliance Quarterly Report

Report Period: January 1, 2026 – March 31, 2026

I. Compliance Program Performance Dashboard (CPPD)

To monitor the health of our compliance posture, we plan to design and implement a comprehensive CPPD. The dashboard aims to track and trend critical Key Performance Indicators (KPIs) in the next few years. This initiative has been included as part of the CPIW workplan. Due to competing priorities, we are planning to accomplish this in phases. We are including each dashboard as it becomes available in our reports. Currently, staff are working on the mandatory compliance training attainment and regulatory notices trending dashboards.

A. Mandatory Compliance Training

Mandatory Compliance Trainings are those that are specifically required by regulatory agencies via contractual requirements or codified in relevant laws governing the Plan. As reported previously, the CCHP Workforce is required to complete mandatory compliance training within 60 days of hire and annually thereafter. The CCHP Workforce includes employees, contractors, temporary workers, and IT and Finance personnel designated for CCHP. The required compliance training courses for the CCHP Workforce are the following:

1. General Compliance and Fraud, Waste and Abuse
2. HIPAA Privacy and Security
3. Diversity, Equity and Inclusion (DEI)
4. Code of Conduct
5. Conflict of Interest

The Plan achieved 100% completion of these trainings in 2025. We are now monitoring our training compliance rate for 2026.

Table 1: CCHP Staff Training Completion Rates in Calendar Year 2025 and 2026 (as of May 4, 2026)

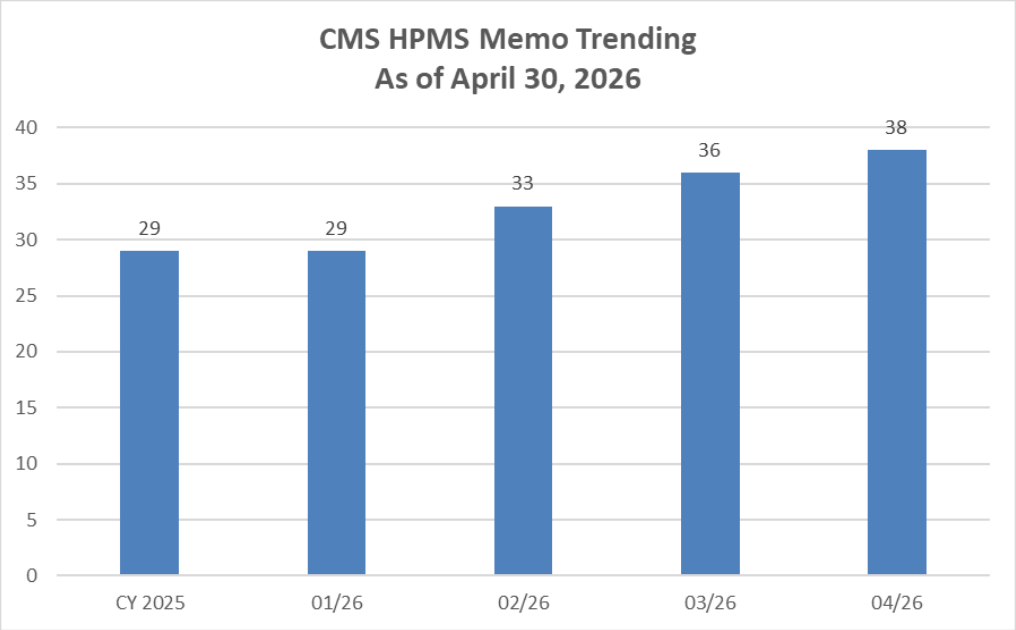
Course Title	Total	Incomplete	Complete	% Attainment	% Incomplete
2025 Fraud, Waste, and Abuse	280	0	280	100%	0%
2025 HIPAA Privacy Law Training	308	0	308	100%	0%
2025 Information Blocking	296	0	296	100%	0%
2025 CCHP: Diversity, Equity & Inclusion Training	315	3	312	99.0%	1.0%
2025 CCHP: D-SNP Model of Care Training - CCHP Staff	315	2	313	99.4%	0.6%
2025 CCHP: Transgender, Gender Diverse and Intersex (TGI) Training	323	2	321	99.0%	1.0%
2026 CCHP: Code of Conduct	**314**	**19**	**295**	**93.9%**	**6.1%**
2026 HIPAA Privacy Law Training (Due: 6/1/26)	**323**	**212**	**111**	**34.4%**	**65.6%**

On January 15, 2026, the CCHP Workforce was issued the Code of Conduct training to complete by February 15, 2026. As of May 4, 2026, approximately 94% of required staff have attested to reading and understanding the Code of Conduct. Compliance is actively working with non-compliant staff and their supervisors to ensure completion of this mandatory requirement.

In February, the CCHP Workforce was issued the 2026 HIPAA Privacy Law training to complete by June 1. Approximately 34% of the 323 workforce members have already completed the training.

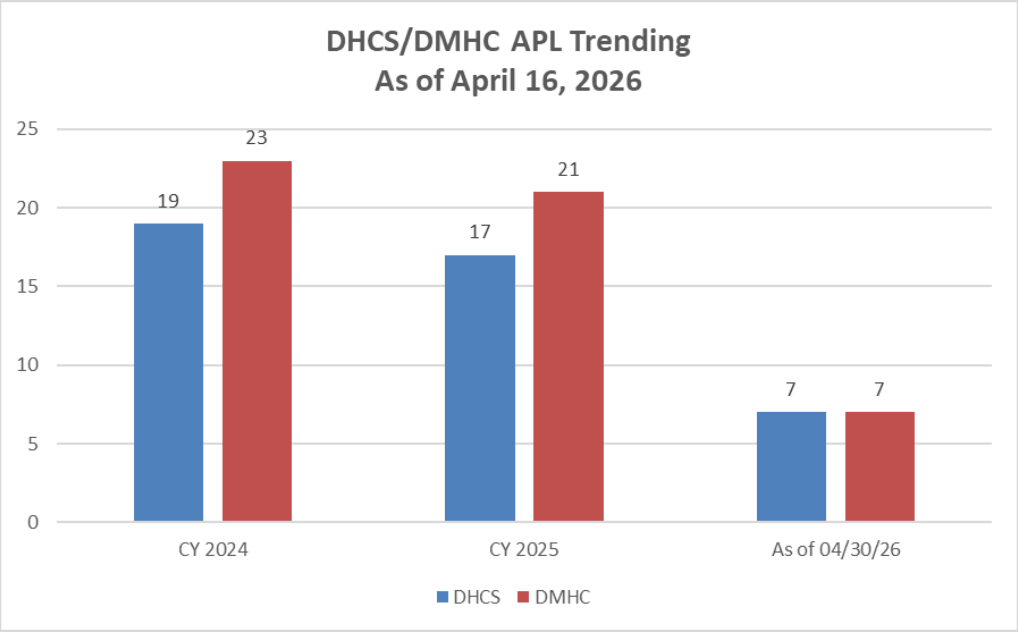
This year, CCH IT and Finance staff who provide shared services to CCHP will also be required to complete the mandatory trainings. The table below highlights their completion rates. We plan to put them all in one dashboard in the future.

Course Title	Total	Incomplete	Complete	% Attainment	% Incomplete
2026 Code of Conduct	35	5	30	86%	14%
2026 HIPAA Privacy Law Training	35	16	19	54%	46%



B. Regulatory Notice Trending: HPMS and DHCS/DMHC APLs

CCHP receives regulatory notices from Health Plan Management Services (HPMS) memos published by Centers for Medicare and Medicaid Services (CMS). We also



receive All Plan Letters (APLs) published by Department of Health Care Services (DHCS) and Department of Managed Health Care (DMHC).

The charts below compare the monthly volume of regulatory notices compared to the monthly average volume in calendar year 2025. Here is the overall impression of the regulatory notices that were published during this reporting period:

- **HPMS:** The HPMS memo volume was a little bit higher in March 2026 compared to the previous two months. It was also higher compared to the average for calendar year (CY) 2025.

- **DHCS/DMHC:** DHCS and DMHC issued a few more APLs in the first quarter of 2026 compared to CY 2025. The State continues to increase their focus on FWA inquiries via email, in-person and virtual meetings.

II. Program Integrity & Fraud, Waste and Abuse Prevention Program

Our Fraud, Waste and Abuse (FWA) Prevention Program is designed to prevent, detect and correct improper activities that could harm members, providers or program integrity. The program includes policies, mandatory training, data monitoring, auditing and processes for reporting and investigating suspected FWA. We partner with internal teams, delegated entities and regulators to ensure timely identification of risks and implementation of corrective actions. This program helps safeguard financial resources, uphold regulatory requirements and protect the integrity of our health care services. As such, we perform regular FWA prevention analyses and FWA investigations for irregular billing practices observed and complaints received.

This quarter, we drafted and are reviewing two Desk Level Procedures (DLP). Revisions were made to our anti-fraud policy and Anti-Fraud, Waste and Abuse Plan. Both policies were approved by the Compliance Committee in February 2026. FWA Case Tracker has also been enhanced to include alerts when timely reporting is approaching or when the timeline has been missed. This helps the Compliance Department monitor and act on the alerts during regular reviews. Furthermore, the Plan has weekly meetings with our business leaders and Special Investigative Unit (SIU) vendor. The meetings are to discuss current and potential FWA cases so that we can monitor, audit and strategize on how best to identify and address risks.

CCHP has started issuing recoupment letters to four providers because of our FWA investigation results. The total recoupment amount issued to the four providers was approximately $7,856,000. Providers have the right to submit appeals to the Plan within 30 days of the issuing date on the recoupment letter.

A. Fraud, Waste and Abuse Summary

Between January 1 and April 30, 2026, CCHP received and investigated a total of 16 FWA incidents. During the same period, seven cases were closed and eight credible FWA cases were filed with DHCS.

Table 2: Cases Received and Closed by Month for CY 2025 compared to 2026 (January through April)

	JAN	FEB	MAR	APR	MAY	JUN	JULY	AUG	SEPT	OCT	NOV	DEC	Total
2025 Received	1	0	1	1	4	5	7	7	5	6	5	2	**44**
2025 Closed	0	0	0	2	1	1	2	1	2	2	4	0	**15**
2026 Received	4	2	6	4									**16**
2026 Closed	0	2	3	1									**6**

CCHP staff continue to monitor the timely filing of FWA incidents and the types of cases referred to Compliance. During this period, 14% of cases (1 case) were submitted after the required deadline. The main reasons why there were delays were because of limited FWA investigation experience and insufficient Compliance staff. The assigned staff member was also managing time-sensitive State Fair Hearings (SFH) and State Grievance workloads.

Compliance has brought on a part-time consultant to strengthen capacity and support this process. However, onboarding the consultant has taken longer than expected. In the interim, Compliance has enhanced its FWA Case Tracker and established regular, small-group meetings (also called huddles) to review all cases, process cases and submit them within ten working days as required.

The tables below provide more details on FWA incidents. Between January 1 and April 30, 2026, one of the seven cases was filed late. We anticipate a significantly lower untimely-filing rate as more cases are referred to Compliance in the coming months. Tables 2 and 3 summarize FWA statuses and outcomes for the current calendar year.

Table 3: Accumulative Timely Regulatory Reporting of FWA Incident: Calendar Year 2026 - as of 04/30/26

Filing Status	Count	% of Total
Timely Filing *(within 10 working days of incident)*	6	86%
Untimely	1	14%
Filings are Not Required*	9	N/A
Total	**16**	**N/A**

*Include cases that are not FWA-related, cases supporting DHCS/DOJ investigation and consolidation with previously filed cases.

Table 3: Accumulative FWA Case Type (Closed Cases): Calendar Year 2026 - as of 04/30/26

Filing Status	Count	% of Total
Bundling/Unbundling	0	0%
Medically Unnecessary Services	0	0%
Services Not Rendered	3	50%
Upcoding/Misrepresentation of Services	0	0%
Not FWA	3	50%
Total	**6**	**100%**

B. Federal Initiatives on Fraud, Waste and Abuse

Since our last report, we have engaged our Special Investigative Unit (SIU) vendor to analyze our contracted CalAIM providers. These are the providers who provided most of the 14 services named below. Compliance received the analysis from the SIU vendor and will perform the internal review to determine the next course of actions.

1. Adult Companion Services
2. Adult Day Services
3. Adult Rehabilitative Mental Health Services
4. Assertive Community Treatment
5. Early Intensive Developmental and Behavioral Intervention
6. Housing Stabilization Services
7. Individual Home Supports
8. Integrated Community Supports
9. Intensive Residential Treatment Services
10. Night Supervision
11. Non-Emergency Medical Transportation (NEMT)
12. Peer Recovery Services
13. Personal Care Assistance/Community First Services and Supports

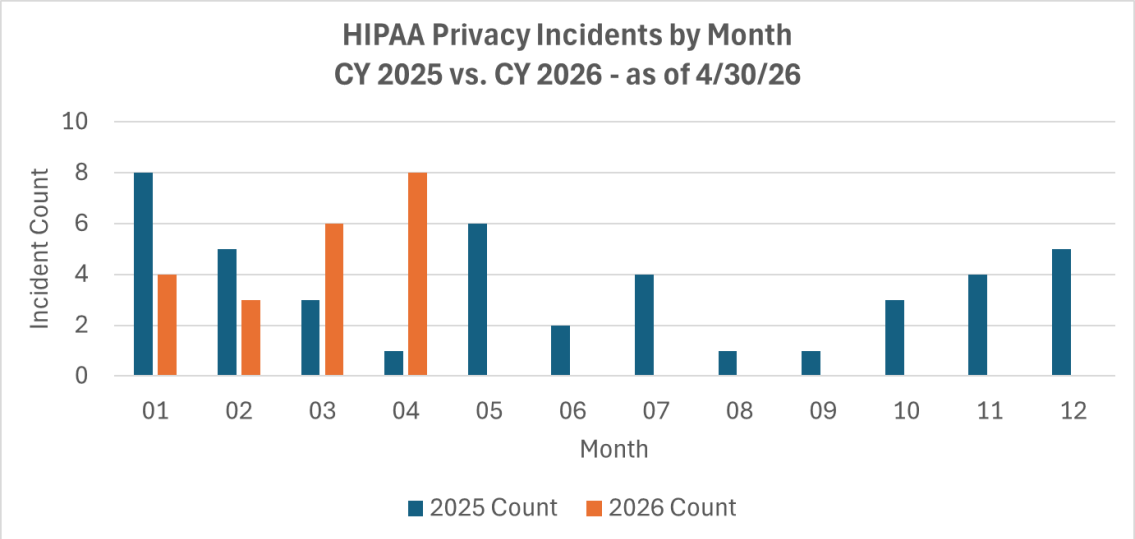
14. Recuperative Care

Shortly after receiving Dr. Oz's letter, CCHP began receiving an unusually high volume of data and documentation requests from the DHCS Audits and Investigations Division. There were four separate requests in total compared to zero requests received last quarter. These requests included Claims Detail Reports (CDRs) and Remittance Advice for paid claims. The requests were also various supporting documents, such as provider enrollment agreements, EFT agreements, submitter agreements and clearinghouse IP addresses. In addition, the California Department of Justice (DOJ) issued one request seeking certified copies of CDRs and Remittance Advice Details (RADs) for a specific provider.

The Compliance Department coordinated with Claims, IT, Finance and Provider Relations to gather the requested materials. Most documents have been submitted to the requesting agencies, except for the data validation certifications. We are working with each data owner to complete the certification process.

One more letter was issued by Senate committee that focused on the same topics listed above. Dr. Oz also issued a second letter to all governors focusing on provider validation requirements. Soon after Dr. Oz's second letter, Medi-Cal Rx informed Managed Care Plans that Medi-Cal Rx will no longer pay claims when they are prescribed by providers without NPIs. CCHP is analyzing the impact on our network providers and developing a plan to remediate as needed.

III. Privacy, Security and HIPAA Compliance



Our HIPAA Privacy Program is designed to protect member information and ensure compliance with federal and state regulations. The Program safeguards members' Protected Health Information (PHI), Personally Identifiable Information (PII) and other confidential information per privacy laws. The Program establishes policies, workforce training, ongoing monitoring, incident response procedures and risk-based security controls. This is to prevent unauthorized access, use or disclosure of protected information. It also ensures we continuously evaluate risks, strengthen safeguards and maintain transparency with regulators and stakeholders. Together, these efforts help members trust us. It supports the organization's commitment to securing confidential information and adhering to regulatory requirements.

Between January 1 and April 30, 2026, we received and investigated a total of 13 cases. Of the four cases investigated that required reporting to DHCS, two cases were not reported to DHCS within 24 hours of discovery. This was because the reporter reported them late. Cases that do not require reporting to DHCS are internal errors and patient requests. To date, 100% of the HIPAA incidents reported did not result in any reportable breach.

In January, CCHP received an Excel worksheet from a contracted provider which included 81 records containing non-CCHP members' PHI, along with CCHP claims data. CCHP alerted the provider (Covered Entity) and provided HIPAA education.

In March, part of the 19 members impacted was a result of a clerical error in which a provider received an Explanation of Benefits (EOB) document meant for another provider. The incident was mitigated timely and no breach occurred.

The chart below summarizes the HIPAA investigation trends in CY 2025 vs CY 2026.

Month	01	02	03	04	05	06	07	08	09	10	11	12	Total
2025 Incident Count	8	5	3	1	6	2	4	1	1	3	4	5	43
2025 Member Impacted	8	5	3	12	256	6	5	1	1	3	4	5	309
2026 Incident Count	4	3	6	8									21
2026 Member Impacted	4	3	6	8									21

The tables below summarize the HIPAA investigation monitoring activities between January 2026 and April 2026.

Table 4: DHCS Regulatory Reporting of HIPAA Incidents in Calendar Year 2026

Report within 24 Hours	JAN	FEB	MAR	APR	MAY	JUN	JULY	AUG	SEP	OCT	NOV	DEC	Total
Not Timely	0	1	1	0									2
Timely	0	0	1	6									1
Not Reported	4	2	4	2									10
Grand Total	**4**	**3**	**6**	**8**									**13**

Table 5: Internal Reporting Delays between Breach Date and Compliance Receipt Date in Calendar Year 2026

Internal Reporting Delays	JAN	FEB	MAR	APR	MAY	JUN	JULY	AUG	SEP	OCT	NOV	DEC	Total
Not Timely	0	1	2	0									2
Timely	4	2	4	8									10
Grand Total	**4**	**3**	**6**	**8**									**13**

Table 6: HIPAA Incident by Breach or No Breach Categories in Calendar Year 2026

	JAN	FEB	MAR	APR	MAY	JUN	JULY	AUG	SEPT	OCT	NOV	DEC	Total
Breach	0	0	0	0									0
No Breach	4	3	6	8									13
Members Impacted	4	3	19	21									25

IV. Internal Audits and Investigations

We plan to design and implement an Internal Audit Program between Q4 2026 and Q2 2027.

V. Policies and Culture of Compliance

A. Policy Review

We are developing and implementing a Policy Management Program (PMP). We are establishing a Policy Management Committee (PMC) between Q1 2026 and Q3 2026 as part of the CPIW effort. The first PMC meeting is scheduled for May 28, 2026. And it will focus on introducing the concept of Policy Management Program and rules of engagement for a formal CCHP policy lifecycle. This is so that going forward, all CCHP policies are tightly managed in preparation for audit readiness.

Before PMC, the Compliance Committee was reviewing and approving new and revised policies. Listed below are policies that were approved at the Compliance Committee meeting on May 8, 2026.

Department	Number	Policy	Type	Description
Appeals & Grievances	AGD 20.111	Submission of cases for IRE review policy	Modified	DSNP policy and attachments regarding submission of cases for IRE review.
Behavioral Health	BHD 18.001	Access to Mental Health	Modified	Revised per DMHC APL25-020: add language on autism diagnosis; cannot require new evaluation if ASD diagnosis already exists.

Department	Number	Policy	Type	Description
Behavioral Health	BHD 18.001	Access to Mental Health	Modified	Complies with DHCS APL 26-002 on approved Youth Trauma Screening Tools.
Behavioral Health	BHD 18.002	ABA	Modified	Revised per DMHC APL25-020: prohibition of re-diagnosis before service; may not delay/suspend/cancel service pending re-diagnosis; adds definitions for qualified autism providers/professionals/paras
Behavioral Health	BHD 18.002	ABA	Modified	Complies with DMHC APL 25-020 (SB402) defining BHT service providers per Business and Professions Code 4999.200-202
Behavioral Health	BHD 18.004	No Wrong Door	Modified	Revised per DMHC APL25-020: any outside request for records involving gender-affirming care must be escalated to Plan's Privacy Officer and Legal Counsel before providing. (Even though No Wrong Door is specifically a CalAIM/Medi-Cal feature, the language of the statute specifies applies to all plans.)
Behavioral Health	BHD 18.004	No Wrong Door	Modified	Complies with DHCS APL 26-002 on approved Youth Trauma Screening Tools.
Behavioral Health	BHD 18.007	Data Sharing	Modified	Revised per DMHC APL25-020: may not disclose medical or MH info relating to gender-affirming care in response to inquiries, subpoenas, etc. from other states. Plan, contractors and delegates shall not cooperate with out-of-state investigations or inquires.
CalAIM	CalAIM5.045	Community Support Overview, Eligibility, Restrictions and Limitations	Modified	Updated MTM/MSF eligibility, defined "At Risk for LTC" for the CS ALF transitions and personal care and homemaker services, further defined what "dependent for the majority of ADLs" meant for Respite Services.

Department	Number	Policy	Type	Description
Case Management	CM 16.403	Interdisciplinary Care Team for D-SNP Enrollees	Modified	Some minor edits to timing/frequency of ICT meeting to align with the full policy and other related policies.
Case Management	CM 16.400	Care Management Program Description for D-SNP Enrollees	Modified	Revised to explicitly include NCQA and CMS compliance/language to ensure alignment with accreditation standards and regulatory requirements.
Clinical Operations	CLIN 13.002	Reproductive Care	Modified	Updated to include legislative updates for IVF pursuant to DMHC APL 25-020 and SB 729.
Clinical Operations	CLIN 13.003	Street Medicine	Modified	Changing the name from “street Medicine” to “Field Medicine” updating minor changes.
Clinical Quality	CQA 10.007	Reporting Provider Preventable Conditions	Modified	Updated to include notification of provider responsibility to report PPCs to DHCS and provide a copy of the report to CCHP.
Member Services	MS8.055	Member Authorized Representative	New	Policy to establish procedure for authorized representative.
Quality and Health equity	QM 14.707	Health Information Form Screening and Health Risk Assessment	Modified	Minor edit to compliance with APL 26-001.
Quality and Health equity	QM14.701	Initial Health Appointment	Modified	Minor edit to compliance with APL 26-001.
Quality and Health equity	QM14.801	Cultural & Linguistic Services	Modified	Minor edit to meet requirements for APL 25-016 Alternative Format selection for members.
Utilization Management	UM15.018	Timeliness of the Utilization Review Decision and Communication	Modified	Removed language regarding date of receipt for requests received on weekends or holidays as next business day.
Utilization Management	UM15.102	Utilization Review Criteria and Guidelines	Modified	Updated to include Apollo guidelines.

Department	Number	Policy	Type	Description
Utilization Management	UM15.113	Transgender Services	Modified	Updated from MCG to Medicare guidelines.

B. Development of Compliance Awareness Training Materials

To foster and strengthen a culture of compliance at CCHP, the Compliance Department developed several training materials. These trainings meet applicable regulatory requirements. The topics covered are the following:

1. Elder Abuse
2. Fraud, Waste and Abuse
3. General Compliance & Code of Conduct
4. HIPAA Privacy and Security
5. General Compliance, FWA and Code of Conduct – Provider Focused

The Compliance Department also issued a survey to the CCHP leadership team for feedback on compliance awareness training needs. The top five topics that were requested are listed below:

1. Delegation and Vendor Oversight
2. Documentation Best Practices
3. Real Examples of FWA Cases
4. Lessons Learned from Audits
5. How and When to Report a HIPAA Incident

We will create training materials on the top five requested topics.

VI. Regulatory Audits

A. 2026 DMHC Financial Audit

During the reporting period, DMHC started their “pre-onsite” engagement with the Plan. During the “pre-onsite” period, we submitted approximately 4,475 supporting documents to the auditors as of April 16, 2026. More document requests will come from each interview session questions and answers (Q and A) section. During the “pre-onsite” period, Plan staff completed the following:

1. Prepared and submitted 107 documents, including several universe file extracts, before sample files were selected.

2. Prepared and submitted 3,583 supporting documents for 250 samples selected by the auditors.

3. Prepared and submitted additional 785 supporting documents during the interviews as of April 16, 2026.

The first mock audit was conducted on February 5, 2026. The mock audit focused on claims processing. More mock audits were conducted in March. The team held several huddles and discussions to ensure we were prepared for the actual audit.

The actual interview sessions were conducted virtually on April 6, 2026. We started with Claims topics, which included the examination of the following:

1. Paid Claims

2. Late Claims

3. Denied Claims

4. High Dollar Claims

5. Provider Dispute Resolutions

The DMHC auditors finished their final interview on May 12,2026. We expect the exit conference to take place at the end of May.

B. 2026 CMS Triennial Network Adequacy Review

CMS notified CCHP on January 6, 2026, for a "formal" Triennial Provider Network Adequacy Review. This is a requirement from Title 42 Chapter IV Subchapter B Part 422 Subpart C Section 422.116 here: https://www.ecfr.gov/current/title-42/chapter-IV/subchapter-B/part-422/subpart-C/section-422.116. This requirement is also described in CMS's Medicare Advantage and Section 1876 Cost Plan Network Adequacy Guidance here: https://www.cms.gov/files/document/medicare-advantage-and-section-1876-cost-plan-network-adequacy-guidance-12-09-2024.pdf. The notice states that we will receive instructions on how to start the formal review. We can upload the entire network for this contract into CMS's Network Management Module (NMM) for an Automated Criteria Check (ACC). We expect to get more instructions on submitting exception requests after the ACC is completed.

Since the last “informal” network adequacy review in January, the Provider Contracting Team continued to work on bridging the network adequacy gaps. As of April 1, 2026, the overall network adequacy is 93.1%. This is up by 4% compared to the prior reporting period. During this reporting period, network gaps in psychiatry, clinical psychology, surgical services and speech therapy were closed. Other gaps are all currently under active contract negotiations. The Provider Contracting Team is monitoring them.

The Plan has not received any formal notification on the formal review that is expected to start in June 2026. We are preparing while we wait for instructions from CMS to start the review process.

C. 2026 DMHC Medical Loss Ratio (MLR) Audit on CY2024 Commercial Line Submission

This audit is on track as of May 13,2026. All requested documentation has been submitted to the DMHC auditor. The auditor is reviewing the Plan's data. The audit is expected to be completed in spring of 2027.

D. 2026 DHCS Medical Loss Ratio (MLR) Audit on CY2024 on Medi-Cal Line Submission

This audit is on track as of May 13, 2026. All requested documentation has been submitted to DHCS. The auditor is currently reviewing the Plan's data. The audit is expected to be completed in summer 2026.

E. 2026 DMHC Follow-Up Survey

On May 4, 2026, DMHC issued a notice to conduct a Follow-Up Review of the Plan. The review or survey is on the outstanding deficiencies that were identified in March 13, 2025’s Final Report of the Routine Survey of Contra Costa County Medical Services. The final report came from the 2022 Full Scope Medical Survey that DMHC also conducted.

DMHC expects to conduct virtual or telephone interviews with key Plan staff starting at 9:00 a.m. on August 31, 2026. DMHC may choose to conduct the survey onsite instead if they tell us 60 days before their visit. The key dates for this Survey are outlined below:

1. **May 4, 2026:** CCHP received a formal notice from DMHC for a Follow-Up Survey on the Corrective Actions Plans (CAP) that we submitted on March 13, 2025.

2. **May 5 to May 18, 2026:** Prepare and submit two questionnaires and 13 log files to DMHC.

3. **May 19 to June 3, 2026:** Prepare and submit updated supporting documents reviewed during the 2022 audits.

4. **May 18 to May 22, 2026 (projected):** Receive sample case files from DMHC.

5. **May 26 to June 12, 2026 (projected):** Prepare and submit additional supporting documents for the selected samples. We are estimating 20 samples for each of the 13 categories of topics.

6. **August 2026:** Conduct internal mock audits.

7. **August 31 to September 11, 2026:** Virtual or telephone interviews with DMHC.

The Compliance Department is taking the lead to mobilize all impacted business leads to prepare for the pre-onsite requests. The impacted business units include the following:

- Culture and Linguistics
- Claims
- Compliance or Project Management Office (PMO)
- Appeals and Grievances
- IT
- Member Services
- Pharmacy
- Clinical Quality Assurance
- Mental Health and Substance Use Disorder (MH/SUD)
- Provider Network Operations
- Quality and Health Equity
- Utilization Management (UM)

The deficiencies identified from the 2022 Medical Survey are listed below:

#	Category	Deficiency Statement	Status
01	Quality Assurance	The Plan failed to demonstrate that the governing body approved the Quality Assurance program during the survey review period. Rule 1300.70(b)(2)(B).	Not Corrected
02	Quality Assurance	The Plan's governing body did not oversee the Quality Assurance program. Section 1370; Rule 1300.70(b)(2)(C).	Not Corrected
03	Grievances & Appeals	For grievances involving a denial based on medical necessity, the Plan's written responses to enrollees failed to consistently	Not Corrected

#	Category	Deficiency Statement	Status
		include the criteria, clinical guidelines or medical policies used and clinical reasons for the Plan's decision. Section 1368(a)(5).	
04	Access & Availability	The Plan's online provider directory did not indicate which providers are federally qualified providers, health centers or primary clinics. Section 1367.27(c)(2) and (h)(8)(c),(D).	Corrected
05	UM	The Plan's utilization management denial letters based in whole or in part on medical necessity did not consistently include a clear and concise explanation of the reasons for the Plan's decision, a description of the criteria or guidelines used, and the clinical reasons for the Plan's decision. Section 1367.01(h)(4).	Not Corrected
06	UM	The Plan's utilization management denial and modification letters to providers did not consistently include the direct telephone number or an extension of the healthcare professional responsible for the denial, delay, or modification decision. Section 1367.01(h)(4).	Not Corrected
07	UM	The Plan did not ensure its utilization management delegate, Kaiser, consistently provided written notifications to enrollees regarding denial, delay, or modification of requested health care services based on medical necessity that included a clinical reason for the decision. Section 1367.01(a); Section 1367.01(h)(4); Section 1367.01(j); Rule 1300.70(b)(2)(B) and (G)(3).	Not Corrected
08	UM	The Plan did not ensure its utilization management delegate, Kaiser, consistently included the accurately formatted statement required by Section 1368.02(b) in written notices regarding a delay, denial, or modification of requested healthcare services. Section 1368.02(b); Rule 1300.70(b)(2)(B) and (G)(3).	Not Corrected
09	UM	The Plan did not demonstrate it has the required processes in place for the denial of experimental health care services to terminally ill patients. Section 1368.1(a).	Corrected
10	UM	The Plan failed to demonstrate it complied with post stabilization care requirements. Section 1262.8(d)(1)(A) and (B); Section 1262.8(d)(2); Section 1371.4(a), (d) and (j)(1).	Not Corrected
11	ED Services	The Plan did not provide all noncontracting hospitals in the state with Plan contact information needed to request authorization of post-stabilization care. Section 1262.8(j).	Not Corrected
12	ED Services	The Plan failed to consistently process retrospective emergency room claims within 45 working days after the date the claim was received. Section 1371(a)(1).	Not Corrected
13	Drug Coverage	The Plan's formulary exception request denial and modification communications did not include a description of the process for requesting an external exception review. Section 1367.24(b) and (k); 45 C.F.R. part 156.122.	Not Corrected

#	Category	Deficiency Statement	Status
14	Language Assistance	The Plan's commercial evidence of coverage did not notify enrollees that the Plan does not discriminate based on ancestry, religion, marital status, gender, gender identity or sexual orientation. Section 1367.042(a)(3) and (b)(1).	Corrected
15	Behavioral Health	The Plan did not demonstrate that all staff who review claims, conduct utilization review and/or make medical necessity determinations received formal Nonprofit Association training for each Nonprofit Association training criteria. Section 1374.721(a), (b) and (e)(1).	Not Corrected
16	Behavioral Health	The Plan did not demonstrate that its Interrater Reliability testing scenarios cover all utilization management aspects, including concurrent inpatient or residential treatment cases. Section 1374.721(e)(5), (f)(3)(A) and (B).	Corrected

VII. Risk Assessment and CAP Tracking

A. 2024 Medical Survey CAP Status Update

As previously reported, there were a total of 19 deficiencies identified from the 2024 DHCS Medical Survey. Of the 19 deficiencies identified, one deficiency, "2.6 ECM assessment is not comprehensive," is still in remediation with our ECM providers. This remediation process is long and challenging because ECM providers lack managed care knowledge and have limited resources. Below is an update for this reporting period:

1. Corrective Action Plans proposed for the deficiencies were partially accepted by DHCS.

2. Follow-up requests were focused on audits of ECM providers.

    a. Two ECM providers have successfully closed their CAPs, with remediation validated through clinical chart audits.

    b. Four ECM providers have completed CAP documentation revisions, including policies, workflows and supporting materials. These are pending clinical validation through chart audits.

    c. Nine ECM providers remain actively engaged in CAP implementation and ongoing remediation efforts.

    d. Two providers are no longer delivering ECM services within CCHP.

3. At this time, we received no additional follow-up requests from DHCS.

To mitigate, the Compliance Department and business units are closely monitoring each ECM provider. We are making sure that the ECM providers provide monthly progress updates and submit supporting documentation to us timely, until there is no longer a deficiency. Since this CAP has been open for a long time, we are analyzing alternative options to mitigate this regulatory risk.

B. 2025 DHCS Medical Survey

On March 16, 2026, DHCS issued its final audit report for the Plan's State Supported Services (SSS) Hyde Contract for abortion services and the 2025 DHCS Medical Survey Audit. The audit period covered activities between August 1, 2024, and July 31, 2025.

No deficiencies were identified for SSS in the audit. This indicates full compliance with the requirements for abortion services under the Hyde Contract.

The Medical Survey Audit resulted in nine findings. The Plan met the CAP submission deadline on April 20, 2026.

Remediation efforts began immediately after the Exit Conference in September 2025 and when we received the preliminary audit report. As a result, substantial progress had already been made by the time the final report was issued in March 2026.

DHCS responded to our submission and requested additional documentation based on the responses we submitted in April. DHCS expects the Plan to provide additional information to support our remediation effort by May 28, 2026.

As of May 11, 2026, here are the findings and statuses, or DHCS's review results, of our remediation efforts in the table below:

ID	Category	Finding Summary	Status (5/11/26)
1.2.1	Utilization Management Program	The Plan's concurrent NOA letters did not explicitly state how the member's condition did not meet the clinical criteria or guidelines.	• 5 Accepted • 1 Partially accepted
1.2.2	Utilization Management Program	The Plan incorrectly applied PA requirements to cancer biomarker testing and home hospice services.	• 2 Accepted • 4 Partially accepted
3.6.1	Network and Access to Care	The Plan improperly denied emergency services claims that involved CCS eligible diagnoses.	• 2 Accepted • 4 Partially accepted

ID	Category	Finding Summary	Status (5/11/26)
4.1.1	Grievances, Appeals, and Member Rights	The Plan did not send complete Ukrainian and Russian taglines in the Notice of Availability attached to grievance acknowledgement and resolution letters.	• 1 Accepted • 3 Partially accepted • 2 Pending Deliverable
4.1.3	Grievances, Appeals, and Member Rights	The Plan did not send translated acknowledgement letters within the required 5-calendar day timeframe or translated resolution letters within the 30-calendar day timeframe.	• 3 Accepted • 5 Partially accepted • 2 Pending Deliverable • 2 Not Accepted
4.12.1	Grievances, Appeals, and Member Rights	The Plan did not notify DHCS within 24 hours of suspected security incidents.	• 3 Accepted • 3 Partially accepted
5.13.1	Quality Improvement and Health Equity Transformation Program	The Plan did not conduct oversight to ensure that its delegated entities conduct new provider training.	• 2 Partially accepted • 4 Pending Deliverable
6.13.1	Plan Administration and Organization	The Plan did not complete an investigation of all reported or suspected FWA activities.	• 5 Accepted • 4 Partially accepted
6.13.2	Plan Administration and Organization	The Plan did not report all suspected fraud cases to the DHCS within ten working days	• 3 Accepted • 3 Partially accepted

Compliance Department will continue to monitor the remediation progress. We will submit monthly updates to DHCS until all remediation efforts are completed and accepted.

VIII. Enforcement Matters

A. DMHC Enforcement Matter 24-143

On March 13, 2026, the Plan received an Investigative Interrogatory on the CAP we submitted to address deficiencies identified in the DMHC's 2021 investigation of the Plan's MH/SUD services. An Investigative Interrogatory is commonly referred to as a CAP Audit. They are formal enforcement actions and are not routine audit questions. This issuance means that this has escalated beyond standard oversight. And that it may carry regulatory or legal exposure. The Plan is required to respond separately, fully, in writing and under oath to each CAP identified in the request within 30 days of receipt.

During the 2021 MH/SUD investigative audit, the DMHC investigation team interviewed Plan staff and the Pharmacy Benefit Manager (PBM) from November 8 to 9 in 2021. DMHC issued

its preliminary investigation report on May 23, 2023. In response, the Plan submitted a set of CAPs addressing each deficiency on May 23, 2023. The final investigation report was issued on August 31, 2023. The current Investigative Interrogatory specifically concerns the CAP submitted by the Plan on May 23, 2023.

In the final report issued on August 31, 2023, the Plan was cited for eight deficiencies. Of the eight deficiencies, DMHC is performing additional inquiries on the following four findings:

Deficiency #2: The Plan failed to ensure the waiting time for enrollees to speak by telephone with a plan customer service representative did not exceed ten minutes.

Deficiency #3: The Plan failed to consistently notify the requesting provider of authorization decisions within 24 hours of making the decision.

Deficiency #6: Failure of customer service to identify all grievances.

Deficiency #8: The Plan failed to timely pay claims.

DMHC's Interrogatory Investigation demanded that the Plan submit evidence of compliance for the CAPs submitted in May 2023, specifically for the four deficiencies listed above. The Plan submitted all required supporting documentation on time. The Plan is waiting for DMHC to review, and we are prepared to provide more information if asked.

IX. CPIW Update

Starting with the November 2025 JCC Staff Report, the Plan provided progress updates on the CPIW initiative. We continue to use the **7 Elements of an Effective Compliance Program** as our guide to establish an effective compliance program. This enables an organization-wide culture of compliance and audit readiness.

The updates primarily focus on current initiatives and ongoing projects. More updates will be included in future reports as we take on more initiatives or projects. In summary, the table below outlines the overall status of current initiatives and ongoing projects.

Initiative/Project	Timeline	Status*
PIW I.0 Implement Effective Organizational Structure & Staffing level	Q1/26 – Q4/26	67% Complete
PIW III.01 Implement Effective Compliance Program for All LOBs including III.02 Compliance Leadership & Governance	Q3/25 – Q4/26	75% Complete
PIW III.01 Implement a Policy Management Program (PMP)	Q1/26 – Q3/26	54% Complete
PIW III.03 Develop & Conduct Effective Compliance Training & Education	Q1/26 – Q2/27	29% Complete
PIW III.05 Develop & Implement an Effective Lines of Communication	Q4/25 – Q4/26	40% Complete
PIW II.0 Implement Technology Solutions	Q3/25 – Q4/27	50% Complete

Initiative/Project	Timeline	Status*
PIW III.04 Enforce standards through well-publicized disciplinary guidelines	Q2/26 – Q3/26	TBD
PIW III.06 Conduct internal monitoring and auditing	Q1/26 – Q2/27	TBD
PIW III.07 Respond promptly to detected offenses and undertake corrective action	Q1/26 – Q2/27	TBD

*% Completion = total number of completed milestones ÷ total number of milestones per initiative or project.

Two out of three new full-time employees (FTEs) requested to support Audit & Oversight Program were approved by the Board in April. Therefore, we are back on track for this reporting period. We will start our recruitment effort to meet the timeline specified in the workplan.

For PIW II.0 Implement Technology Solutions, we may not meet one of the technology solution's original launch date because of the delay in executing the contract. The contract was executed in late April and we are implementing the solution now.

X. Regulatory and Contract Updates Issued in Q1 2026:

A. All Plan Letters issued by Department of Health Care Services (DHCS)

1. Title: Skilled Nursing Facility (SNF) Workforce and Quality Incentive Program (WQIP). DHCS issued APL 26-006 on March 30, 2026. Click the link here to see the APL. The following is the executive summary:

    - Managed care plans must make directed payments to eligible SNFs for the WQIP based on per diem amounts and exhibits provided by DHCS.
    - Plans must withhold WQIP payments from facilities with Class AA or A citations issued by the California Department of Public Health and recoup payments if citations are discovered after the fact.
    - MCPs must report qualifying bed day data, publish payment information on a public website and establish processes for provider communication, data sharing and grievance resolution related to the WQIP program.
    - MCPs must review and, if necessary, amend their Policies and Procedures to comply with this APL, submitting updated P&Ps or an attestation to the MCOD-MCP Submission Portal.

2. Title: Maternity Services for Pregnant and Postpartum Medi-Cal Members. DHCS issued APL 26-005 on March 25, 2026. Click the link here to see the APL. The following is the executive summary:

This letter details your plan's payment and data sharing requirements for the Skilled Nursing Facility (SNF) Workforce and Quality Incentive Program (WQIP) for rating periods through December 31, 2025.

- Managed care plans must make directed payments to eligible Skilled Nursing Facilities for the Workforce and Quality Incentive Program based on per diem amounts and exhibits provided by DHCS.
- Plans must withhold WQIP payments from facilities with Class AA or A citations issued by the California Department of Public Health and recoup payments if citations are discovered after the fact.
- MCPs must report qualifying bed day data, publish payment information on a public website, and establish processes for provider communication, data sharing, and grievance resolution related to the WQIP program.
- MCPs must review and, if necessary, amend their Policies and Procedures to comply with this APL, submitting updated P&Ps or an attestation to the MCOD-MCP Submission Portal.

3. Title: Medi-Cal Managed Care Plan Responsibilities for Behavioral Health Data-Sharing. DHCS issued APL 26-004 on March 16, 2026. Click the link here to see the APL. The following is the executive summary:

   This letter details your plan's payment and data sharing requirements for the Skilled Nursing Facility (SNF) Workforce and Quality Incentive Program (WQIP) for rating periods through December 31, 2025.

   - Managed care plans must make directed payments to eligible Skilled Nursing Facilities for the Workforce and Quality Incentive Program based on per diem amounts and exhibits provided by DHCS.
   - Plans must withhold WQIP payments from facilities with Class AA or A citations issued by the California Department of Public Health and recoup payments if citations are discovered after the fact.
   - MCPs must report qualifying bed day data, publish payment information on a public website, and establish processes for provider communication, data sharing, and grievance resolution related to the WQIP program.
   - MCPs must review and, if necessary, amend their Policies and Procedures to comply with this APL, submitting updated P&Ps or an attestation to the MCOD-MCP Submission Portal.

4. Title: Quality Measures for Encounter Data Update: Quality Measures for Encounter Data 2.0. DHCS issued APL 26-003 on March 13, 2026. Click the link here to see the APL. The following is the executive summary:

   DHCS is updating the Quality Measures for Encounter Data (QMED) to version 2.0, impacting how Medi-Cal managed care plans' encounter data quality is measured starting January 1, 2026.

   - For managed care encounters submitted on or after January 1, 2026, the quality of encounter data will be measured quarterly as "Pass" or "Fail" according to the new QMED 2.0 requirements.
   - MCPs must review their policies and procedures (P&Ps) and submit either updated P&Ps or an attestation of no changes to the Managed Care Operations Division Submission Portal.
   - MCPs are responsible for ensuring that their subcontractors, downstream subcontractors, and network providers comply with all applicable laws, regulations, and DHCS guidance, including this APL.

5. Title: Medi-Cal Managed Care Plan Responsibilities for Non-Specialty Mental Health Services. DHCS issued APL 26-002 on February 2, 2026. Click the link here to see the APL. The following is the executive summary:

   DHCS clarifies Medi-Cal managed care plan responsibilities for providing and arranging Non-Specialty Mental Health Services (NSMHS) and outlines mental health parity requirements for initial assessments.

   - Effective April 1, 2026, providers must use only DHCS-approved tools when a youth trauma screening is necessary to identify eligibility for Specialty Mental Health Services.
   - Managed Care Plans must provide or arrange for Non-Specialty Mental Health Services, including psychotherapy and psychiatric consultations, for specified member populations, including those under 21.
   - Managed Care Plans must not require prior authorization or a Primary Care Provider referral for a member to receive an initial mental health assessment from a network provider.
   - Managed Care Plans must ensure effective care coordination with the County Mental Health Plan for members receiving specialty mental health services, including medication reconciliation and transitional care services.

6. Title: Initial Health Appointment. DHCS issued APL 26-001 on January 7, 2026. Click the link here to see the APL. The following is the executive summary:

   Medi-Cal managed care plans must adhere to updated requirements for the Initial Health Appointment (IHA), which streamlines the initial member screening process and removes previous assessment components.

   - Managed care plans must review their policies and procedures for compliance with this letter and submit any updates, or an attestation of no changes, to the DHCS submission portal.
   - Plans must ensure an Initial Health Appointment is completed for all members, noting that an Individual Health Education Behavioral Assessment (IHEBA) or Staying Healthy Assessment (SHA) is no longer required.
   - Plans are responsible for ensuring their subcontractors and network providers comply with all IHA requirements and must communicate these requirements to them.

B. All Plan Letters Issued by Department of Managed Health Care (DMHC)

1. Title: APL 26-006 – AB 118: Part 2 - Compliance with Individual and Small Group Standardized Evidence of Coverage/Disclosure Form. DMHC issued APL 26-006 – AB 118: Part 2 on April 8, 2026. Click the link here to see the APL. The following is the executive summary:

   APL 26-006 (Part 2) implements requirements from AB 118 to ensure standardization, transparency and consumer clarity in health plan Evidence of Coverage (EOC) documents and disclosure forms for individual and small group markets in California.

   - Standardized EOC/Disclosure Templates: Plans must use state-mandated standardized formats. Applies to Individual market products and small group products. Limits plan-specific variation in language, structure and benefit presentation.
   - Required Content Elements: Plans must ensure EOCs clearly and consistently describe: 1) Covered benefits and exclusions; 2) Cost-sharing (copays, coinsurance, deductibles); 3) Limitations and prior authorization requirements; and 4) Member rights and responsibilities.
   - Regulatory Review and Approval: EOCs and disclosure forms must be submitted to regulators for review and approval. The materials must also be updated to reflect standardized requirements before use.
   - Consistency Across Products: Benefit descriptions must align across EOC, Summary of Benefits and Coverage (SBC) and Marketing materials.

2. Title: Compliance with Assembly Bill 904, Maternal and Infant Health Equity Program. DMHC issued APL 26-005 on March 20, 2026. Click the link here to see the APL. The following is the executive summary:

   New filing requirements for health plans to demonstrate compliance with Assembly Bill 904, which mandates developing a maternal and infant health equity program using doulas.

   - Health plans covering maternity services must develop and implement a maternal and infant health equity program to address racial health disparities using doulas.
   - Plans must submit a compliance filing to the DMHC, which includes a summary of e-filing information, a completed AB 904 Implementation Form and any supporting documentation like new or amended contracts or policies.
   - Medi-Cal managed care plans are considered compliant as long as doula services remain a covered Medi-Cal benefit.

3. Title: APL 26-004 - Plan Year 2027 QHP, QDP, and Off-Exchange Filing Requirements. DMHC issued APL 26-004 on January 30, 2026. Click the link here to see the APL. This APL was issued January 30, 2026. The following is the executive summary:

   DMHC provides guidance on Plan Year 2027 filing requirements for all individual and small group health and dental plans, both on and off the Covered California exchange.

   - The Department holds primary responsibility for the regulatory review and good standing recommendations for Qualified Health Plans and Dental Plans offered through Covered California.
   - Health plans offering non-grandfathered products outside of the Exchange must secure Department approval for all necessary filings, including benefit design and rates.
   - All health plans must review the checklists and attachments on the Department's website for detailed PY 2027 regulatory requirements, deadlines, and expectations.

4. Title: APL 26-003 - Large Group Renewal Notice Requirements. DMHC issued APL 26-003 on January 29, 2026. Click the link here to see the APL. The following is the executive summary:

   The DMHC clarifies mandatory content and timing for large group renewal notices, including specific rate comparisons and information on how contract holders can request a rate review.

- Health plans must deliver written notice of any premium or coverage changes to large group contract holders at least 120 days before the contract renewal effective date.

- Renewal notices must include a statement comparing the proposed rate change against average increases for Covered California, CalPERS and the large group market using state-provided figures.

- Notices must also provide information on how contract holders can request a rate review from the DMHC and how to obtain the Plan's required rate filing information.

5. Title: APL 26-002 – Delegation of risk for COVID-19 testing or immunizations. Applicability of SB 510 (Pan, 2021) to Medi-Cal Managed Care plans. DMHC issued APL 26-002 on January 15, 2026. Click the link here to see the APL. The following is the executive summary:

   Plans must negotiate with and obtain agreement from providers before delegating the financial risk for COVID-19 testing and immunizations, with specific rules outlined for Medi-Cal plans.

   - Health plans are prohibited from delegating the financial risk for COVID-19 testing or immunizations to a provider unless the parties negotiate and agree upon a new contract provision for that purpose.

   - For COVID-19 services with dates of service prior to June 30, 2025, Medi-Cal managed care plans must comply with the prohibition on delegating financial risk without a specific, negotiated agreement.

   - For dates of service on or after June 30, 2025, Medi-Cal managed care plans are exempt from this rule and must instead cover COVID-19 services in accordance with guidance from the Department of Health Care Services (DHCS).

6. Title: APL 26-001 – National Committee for Quality Assurance Accreditation Compliance Filing. DMHC issued APL 26-001 on January 2, 2026. Click the link here to see the APL. The following is the executive summary:

   Health plans must submit documentation proving NCQA accreditation to the DMHC by February 2, 2026, to comply with state law. The APL outlines the specific filing requirements and process.

   - Health plans must submit a Health Equity and Quality filing to the DMHC via its e-Filing Web Portal to demonstrate compliance with the state-mandated NCQA accreditation requirement.

   - The filing must include a completed NCQA Accreditation Compliance Form, an Exhibit E-1 summary with specific affirmations and supporting documentation such as an NCQA Decision Letter.

- Plans must affirm that all applicable Commercial and Exchange products and delegated functions are NCQA-accredited and provide explanations for any that are not.

CONSEQUENCE OF NEGATIVE ACTION

If this action is not accepted, the Board will not receive a required update on CCHP's overall compliance status, program activities and risk status. It could also lead to noncompliance under the federal and state regulations.

THIS FORM IS A PUBLIC DOCUMENT

Please explain why you would like to serve on this particular board, committee, or commission.

As a social worker, I have been working for the well-being of children and families for much of my ~40 year career; this seems like a way to continue that work in a different capacity. Many of the families I have worked with or developed programs for have faced the issues that this committee seeks to address through funding awards. For several years, I created and taught parenting classes, both general ones for parents of young children, and also ones for parents who are divorcing or separating and for those experiencing family violence -- experience which motivates me to want to participate in offering educational and material supports for families that may help all children reach their potential. As a long-time resident of CC County, I believe in acting locally and would like to offer my expertise in evidence-based and community-informed practices to strengthen families facing adversity. As someone who is

Describe your qualifications for this appointment. (NOTE: you may also include a copy of your resume).

As a former leader at a local nonprofit for ~20 years, I have developed, implemented, and evaluated programs for children and families, particularly for families facing multiple stressors. I have familiarity with many of the state and county funding streams that support families, mental health services, foster youth, and housing for homeless youth. I have written successful responses to county RFPs, as well as participated in site visits as a grantee. I have contributed a solution-oriented approach and collaborative mindset to meetings with both county staff and nonprofit provider members. I have served on the Executive Committee for the Human Services Alliance of Contra Costa County as well as the Foster Youth Alliance in Alameda County. I recognize the challenges facing the county, nonprofit providers, and families, and believe that collectively we can succeed in addressing these challenges. Lastly, I too am a parent, and

Important Information

1. This application and any attachments you provide to it is a public document and is subject to the California Public Records Act (CA Government Code §6250-6270).
2. All members of appointed bodies are required to take the advisory body training provided by Contra Costa County.
3. Members of certain boards, commissions, and committees may be required to: 1) file a Statement of Economic Interest Form also known as a Form 700, and 2) complete the State Ethics Training Course as required by AB 1234.
4. Meetings may be held in various locations and some locations may not be accessible by public transportation.
5. Meeting dates and times are subject to change and may occur up to two (2) days per month.
6. Some boards, committees, or commissions may assign members to subcommittees or work groups which may require an additional commitment of time.
7. As indicated in Board Resolution 2021/234, a person will not be eligible for appointment if he/she is related to a Board of Supervisors' member in any of the following relationships: (1) Mother, father, son, and daughter; (2) Brother, sister, grandmother, grandfather, grandson, and granddaughter; (3) Husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, stepson, and stepdaughter; (4) Registered domestic partner, pursuant to California Family Code section 297; (5) The relatives, as defined in 1 and 2 above, for a registered domestic partner; (6) Any person with whom a Board Member shares a financial interest as defined in the Political Reform Act (Gov't Code §87103, Financial Interest), such as a business partner or business associate.

Susanna S. Marshland, LCSW

[redacted] [redacted]

AREAS OF EXPERTISE

- Exceptional **collaborator** and coalition builder, with experience leading multidisciplinary and multi-agency collaborative efforts.
- Experienced in nonprofit governance, including **executive leadership** roles, reporting to, and serving on Boards of Directors.
- Identification and **implementation of evidence-based practices**, particularly those for high-needs youth and young adults, including those in foster care, in a variety of treatment settings.
- Initiation and sustaining of **equity and diversity initiatives**, including culturally responsive program delivery; the chief architect of agency's successful Racial Equity Initiative in its initial phase in 2017-18, successfully and collaboratively expanding it agency-wide in subsequent years.
- **Management of Personnel, Budgets, Contracts, Programs**.
- **Change Management and Continuous Quality Improvement**: Talented at soliciting stakeholder input, gaining consensus, incorporating culture change, building motivation, pacing change, and achieving outcomes.
- **Program Development, Funding, Redesign, Oversight, Compliance, and Evaluation**. Achieved highest marks in audits for integrity, systems, documentation, and quality of service delivery.
- **Strategic Planning**: led strategic planning process for young adult programs; using Balanced Scorecard, developed and led Learning and Growth strategic initiative for entire agency
- **Project Management** skills, utilizing outstanding organizational and tracking skills
- **Accreditation preparation** with The Joint Commission (led 3 successful surveys in past decade alone, attaining highest possible accreditation term for each)
- **Curriculum Development and Training** (e.g., Strengths-Based Management, Trauma-Informed Approaches to Documentation; Boundaries and Cultural Responsiveness)
- **Policy Development**: Experienced at developing, writing, implementing, and ensuring adherence to clinical and operational policies and procedures that guide and support programmatic quality and safety and comply with ever-evolving industry practices and regulations.

EDUCATION

University of California, Berkeley, CA. M.S.W., Community Mental Health specialization.
Harvard-Radcliffe College, Cambridge, MA. B.A. magna cum laude in anthropology.
American University in Cairo, Egypt. Coursework in family therapy, Arabic.
Transition Aged Youth Leadership Development Graduate, CA, 2009.

WORK EXPERIENCE

CONSULTANT, *Fred Finch Youth & Family Services*, Oakland, CA, 2022-present: Management consultation for senior managers and Executive Team members; proposal writing for government funding; special projects including curriculum development, budgeting, grant management. *Catalyst Center,* CA, 2023-present: provide programmatic and fiscal technical assistance to county and community agency staff developing foster youth services.

BOARD MEMBER/VOLUNTEER, *Coolidge Court Apartments*, Oakland, CA, 2022-present, oversight of fiscal and program operations at a supportive housing project; *Good Guest Kensington* (core member), Kensington, CA, 2023-present, building community support for Sogorea Te' Land Trust; *Investing in Academic Excellence,* (Student Activities Fund), El Cerrito High School, CA, 2011-2015, Secretary and fundraiser; *El Cerrito HS Mountain Biking Team*, CA, 2010-2013, Treasurer, fundraiser, grant writer.

REGIONAL VICE PRESIDENT, Fred Finch Youth & Family Services (formerly FFYC), Oakland, CA, 2013-2022.

Provided clinical and administrative oversight of all programs in multiple Northern CA counties. Portfolio included 20+ housing, residential treatment, supported employment, health care, and community-, clinic-, and school-based mental health programs for youth and young adults and their families with budget of $25-30M. Consistently delivered positive clinical and fiscal outcomes. As a member of the Executive Team, developed new business; negotiated and managed contracts with multiple local, state, and federal funders (e.g., Regional Center/DDS, county DSS and Medi-Cal, Mental Health Services Act, HUD, private insurers); developed, wrote, and implemented policies; enacted and oversaw quality improvement activities; ensured efficient operation, including implementation of an Electronic Health Record; collaborated with internal departments; collaboratively initiated and expanded an agency-wide Racial Equity Initiative and trauma-informed practices; ensured regulatory compliance; obtained and maintained national accreditation; introduced and sustained evidence-based and -informed practices; wrote and oversaw proposals and grants; collaborated with community agencies. Served on Executive Committee for Contra Costa Human Services Alliance for nearly a decade, and on the Steering Committee for the Foster Youth Alliance in Alameda County.

DIVISION DIRECTOR, Fred Finch Youth Center (FFYC), Oakland, CA, 2003-2013.

Provided fiscal and programmatic oversight of housing and intensive mental health programs serving Transition-Aged Youth (TAY); Wraparound, school-based, and behavioral intervention programs for youth and families. Obtained funding for, launched, and sustained multiple new programs using evidence-based practices. Responsibilities included staff training, budget development and oversight, fundraising, and development and maintenance of collaborative relationships with county and community-based agencies. Responsible for development and oversight of contracts including subcontracts, with county and federal agencies. Recognized as a state-wide expert on best practices for Transition Age Youth. Served as **FIELD INSTRUCTOR** for UC Berkeley MSW students. Served as **CHIEF OPERATING OFFICER** (Interim) from Sept. 2011-Oct. 2012.

PROGRAM DIRECTOR, Kids' Turn, San Francisco, CA, 1997- 2003.

Hired, trained, and supervised master's-level workshop leaders for agency specializing in helping children whose parents separate, divorce, or remarry. Oversaw all program development, delivery, evaluation, and improvement. Developed, wrote, and implemented teen program, stepfamily program, and nonviolent parenting program for teens and parents with a history of family violence. Expanded program to serve a fifth county, and assisted similar programs to launch in other parts of the state and country. Modified curricula for delivery in Spanish-speaking community and for an African-American school. Delivered presentations at state, local, and national conferences; conducted trainings for multidisciplinary professionals. Supported fundraising and legislative efforts. Served as **ACTING EXECUTIVE DIRECTOR**, May-August 2000.

PARENTING INSTRUCTOR, Kaiser, San Francisco, CA, 2000-2002.

Taught parenting classes through the Health Education Department. Also taught drug abuse prevention classes for Kaiser employees with teenage children for the Employee Assistance Program in 2000.

DIRECTOR OF SOCIAL SERVICES, First Hospital Vallejo, CA (now California Specialty Hospital), 1993-1998.
Hired, trained, and supervised social work staff. Conducted verbal and written performance evaluations. Managed FTEs to stay within budget. Guided department through 2 successful JCAHO (now TJC) surveys. Revised policies and procedures manual. Assisted in development and maintenance of effective discharge planning with county mental health agencies. Developed and managed hospital diversion program.

PSYCHIATRIC SOCIAL WORKER, First Hospital Vallejo, CA (now California Specialty Hospital), 1992-1998.
Assessed psychosocial needs of child, adolescent, and adult inpatients; participated in treatment and discharge planning as part of a multidisciplinary team. Conducted family and group therapy. Evaluated patients and arranged for admissions to inpatient and day treatment programs.

PSYCHIATRIC SOCIAL WORKER INTERN, Kaiser Permanente Department of Psychiatry, Redwood City, CA, Nov. 1992-Nov. 1993, post-master's intern; Richmond, CA, Sept. 1991-July 1992, pre-master's intern.
Provided brief outpatient psychotherapy to individuals, couples, and families. Screened and assessed patients requesting treatment. Co-led a short-term group for patients with mental health crises.

PSYCHIATRIC SOCIAL WORKER INTERN, San Francisco General Hospital, African-American Focus Ward, San Francisco, CA, Oct. 1990-May 1991.
Compiled psychosocial histories, planned discharge, and conducted group therapy for adult patients in an acute inpatient unit.

PROGRAM ASSISTANT, Rape Crisis Center, San Pablo, CA, 1989-92.
Provided crisis intervention and advocacy for victims and their families. Delivered educational presentations to community groups. Trained volunteers in counseling skills, racism, and homophobia. Wrote volunteer training manual. Coordinated successful fundraisers.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2673 **Agenda Date:** 6/23/2026 **Agenda #:** C.18.

To: Board of Supervisors

From: Family & Human Services Committee

Report Title: Appointment to the Local Planning and Advisory Council for Early Care and Education (LPC)

☐Recommendation of the County Administrator ☒ Recommendation of Board Committee

RECOMMENDATIONS:
APPOINT Latonya Saucer to the Consumer #1 - West County seat, and Maya Hernandez to the Community #4 - East County Seat with terms ending April 30, 2028 on the Local Planning and Advisory Council for Early Care and Education, as recommended by the Family and Human Services Committee.

FISCAL IMPACT:
There is no fiscal impact for this action.

BACKGROUND:
The review of applications for appointments to the Contra Costa Local Planning Council for Child Care and Development was originally referred to the Family and Human Services Committee by the Board of Supervisors on April 22, 1997.

The Local Planning and Advisory Council for Early Care and Education (LPC) coordinates programs and services affecting early childcare and education, including recommendations for the allocation of federal funds to local early childcare and education programs.

The LPC consists of 20 members: 4 consumer representatives - a parent or person who receives or has received child care services in the past 36 months; 4 child care providers - a person who provides child care services or represents persons who provide child care services; 4 public agency representatives - a person who represents a city, county, city and county, or local education agency; 4 community representatives - a person who represents an agency or business that provides private funding for child care services or who advocates for child care services through participation in civic or community based organizations; and 4 discretionary appointees - a person appointed from any of the above four categories or outside of those categories at the discretion of the appointing agencies.

At the June 8, 2026, Family and Human Services Meeting, the Committee approved the appointments Latonya Saucer to the Consumer #1 - West County seat, and Maya Hernandez to the Community #4 - East County Seat, with terms ending April 30, 2028 on the Local Planning and Advisory Council for Early Care and Education.

CONSEQUENCE OF NEGATIVE ACTION:
Failure to appoint and reappoint members is likely to reduce public participation in advising policy development.

Qualifications and Volunteer Experience

Please explain why you would like to serve on this particular board, commitee, or commission.

I have been an early childhood professional for 20 years, with the majority of my career being in Contra Costa. I believe in the importance of early childhood programs as being an important foundation in setting our children up for their future.

Describe your qualifications for this appointment. (NOTE: you may also include a copy of your resume with this application)

Masters in Developmental Psychology - Human Development. 20 years of work experience in community based programs in all 3 areas of Contra Contra. I understand the unique demographics of the county and the needs of families, as well as how they have changed over time. I am a mother to neurodivergent children and an advocate for belonging and inclusion. I am also passionate about REDI work, and feel it is particularly important in this political climate in which it is being attacked.

☑ I Agree

Important Information

LaTonya Saucer LaTonya Saucer

1. This application and any attachments you provide to it is a public document and is subject to the California Public Records Act (CA Government Code §6250-6270).
2. All members of appointed bodies are required to take the advisory body training provided by Contra Costa County.
3. Members of certain boards, commissions, and committees may be required to: (1) file a Statement of Economic Interest Form also known as a Form 700, and (2) complete the State Ethics Training Course as required by AB 1234.
4. Meetings may be held in various locations and some locations may not be accessible by public transportation.
5. Meeting dates and times are subject to change and may occur up to two (2) days per month.
6. Some boards, committees, or commissions may assign members to subcommittees or work groups which may require an additional commitment of time.
7. As indicated in Board Resolution 2021/234, a person will not be eligible for appointment if he/she is related to a Board of Supervisors' member in any of the following relationships:
   (1) Mother, father, son, and daughter;
   (2) Brother, sister, grandmother, grandfather, grandson, and granddaughter;
   (3) Husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, stepson, and stepdaughter;
   (4) Registered domestic partner, pursuant to California Family Code section 297;
   (5) The relatives, as defined in 1 and 2 above, for a registered domestic partner;
   (6) Any person with whom a Board Member shares a financial interest as defined in the Political Reform Act (Gov't Code §87103, Financial Interest), such as a business partner or business associate.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2674 **Agenda Date:** 6/23/2026 **Agenda #:** C.19.

To: Board of Supervisors

From: Family & Human Services Committee

Report Title: Appointments to the Advisory Council on Aging

☐Recommendation of the County Administrator ☒ Recommendation of Board Committee

RECOMMENDATIONS:
APPOINT Bryan Harris to the City of Richmond's local seat with a term expiring September 30, 2026 on the Advisory Council on Aging, as recommended by the Family and Human Services Committee.

FISCAL IMPACT:
There is no fiscal impact for this action.

BACKGROUND:
On January 7, 2020, the Board of Supervisors adopted Resolution No. 2020/1 adopting policy amendments governing appointments to boards, committees, and commissions that are advisory to the Board of Supervisors. Included in this resolution was a requirement that applications for at-large/countywide seats be reviewed by a Board of Supervisors committee.

The Advisory Council on Aging (ACOA) provides a means for county-wide planning, cooperation and coordination for individuals and groups interested in improving and developing services and opportunities for the older residents of this County. The Council provides leadership and advocacy on behalf of older persons and serves as a channel of communication and information on aging.

The Advisory Council on Aging consists of 40 members serving 2-year staggered terms, each ending on September 30. The Council consists of representatives of the target population and the general public, including older low-income and military persons; at least one-half of the membership must be made up of actual consumers of services under the Area Plan. The Council includes: 19 representatives recommended from each Local Committee on Aging, 1 representative from the Nutrition Project Council, 1 Retired Senior Volunteer Program, and 19 Members at-Large.

Pursuant to the ACOA Bylaws, the ACOA may recommend for appointment up to four (4) alternate Member-at-Large (MAL) members, who shall serve and vote in place of members (City or MAL) who are absent from, or who are disqualifying themselves from participating in a meeting of the ACOA.

The Area Agency on Aging, the ACOA and the Clerk of the Board, using Contra Costa TV (CCTV), assisted

with recruitment. Area Agency on Aging staff has encouraged interested individuals including minorities to apply through announcements provided at the Senior Coalition meetings and at the regular monthly meetings of the ACOA. The Contra Costa County Employment and Human Services Department (EHSD) website contains dedicated web content where interested members of the public are encouraged to apply. The website provides access to the Board of Supervisors' official application with instructions on whom to contact for ACOA related inquiries, including application procedures.

At the June 8, 2026 Family and Human Services Meeting, the Committee approved the appointment of Bryan Harris to the City of Richmond's local seat with a term expiring September 30, 2026 on the Advisory Council on Aging.

CONSEQUENCE OF NEGATIVE ACTION:
Failure to appoint and reappoint members is likely to reduce public participation in advising policy development.

Contra Costa Advisory Council on Aging Roster (as of 10/2023)

Important Information

1. This application and any attachments you provide to it is a public document and is subject to the California Public Records Act (CA Government Code §6250-6270).

2. All members of appointed bodies are required to take the advisory body training provided by Contra Costa County.

3. Members of certain boards, commissions, and committees may be required to: 1) file a Statement of Economic Interest Form also known as a Form 700, and 2) complete the State Ethics Training Course as required by AB 1234.

4. Meetings may be held in various locations and some locations may not be accessible by public transportation.

5. Meeting dates and times are subject to change and may occur up to two (2) days per month.

6. Some boards, committees, or commissions may assign members to subcommittees or work groups which may require an additional commitment of time.

7. As indicated in Board Resolution 2011/55, a person will not be eligible for appointment if he/she is related to a Board of Supervisors member in any of the following relationships: mother, father, son, daughter, brother, sister, grandmother, grandfather, grandson, granddaughter, great-grandfather, great-grandmother, aunt, uncle, nephew, niece, great-grandson, great-granddaughter, first-cousin, husband, wife, father-in-law, mother-in-law, daughter-in-law, stepson, stepdaughter, sister-in-law, brother-in-law, spouse's grandmother, spouse's grandfather, spouse's granddaughter, and spouses' grandson, registered domestic partner, relatives of a registered domestic partner as listed above.

8. A person will not be eligible to serve if the person shares a financial interest as defined in Government Code §87103 with a Board of Supervisors Member.

BRYAN M HARRIS

Richmond, CA [redacted] [redacted]

Professional Summary

Compassionate and highly skilled caregiver, nurse, and community advocate with decades of experience in public health, senior services, and adult education. I specialized in Alzheimer's/dementia care, restorative nursing, and client advocacy, including fiduciary and power of attorney roles. Proven leader in senior policy, program development, and event coordination, with a lifelong commitment to improving quality of life for older adults, people with disabilities, and long-term HIV survivors. Adept at working independently or collaboratively, with exceptional communication skills and physical endurance.

Core Competencies

- Alzheimer's/Dementia & Restorative Nursing Care
- Respite & In-Home Non-Medical Care
- Client Advocacy & Fiduciary Management
- Senior Policy & Program Development
- Event Planning & Community Engagement
- Adult Education & Literacy Instruction
- Strong Oral/Written Communication
- Physical Stamina & Safety Compliance

Professional Experiences

Secretary & Transportation Chair
Richmond Commission on Aging – City of Richmond, CA
April 2023 – Present

- Appointed by mayor and city council; serve on Executive Board.
- Lead transportation initiatives and senior mobility advocacy as Transportation Chair.
- Coordinate programs, senior services, and events including Senior Safety Summit, Senior Winter Ball, and Wellness & Nutrition Health Clinics and annual Health Fairs.
- Foster partnerships to address housing, health, and transportation needs for seniors.

Vice-Chair & Committee Chair
Oakland Transitional Grant Area (OTGA) Planning Council – Alameda County Dept Public Health
January 2023 – Present

- Oversee allocation of federal Ryan White funds for HIV/AIDS services in Alameda and Contra Costa Counties. Served as Chair from 2023-2025, now serving as Co-chair.
- Chair multiple committees including Persons Living with HIV and Planning, Priorities & Allocations, Planning Council, and Membership Committee.
- Represent Contra Costa County in regional HIV care planning in partnership with Contra Costa Health Services (CCHS).

GED Tutor & ESL Classroom Assistant
Literacy for Every Adult Program (LEAP) – City of Richmond, CA

July 2019 – December 2022

- Tutored adult learners to achieve GED certification; supported ESL students in reading, writing, and speaking English.
- Helped over 20 students earn their GEDs: several advanced to higher education.

Nurse & In-Home Support Services Provider
Contra Costa County Employment & Human Services Dept.
June 2015 – December 2022

- Delivered specialized care for Alzheimer's patients, COPD clients, and disabled veterans.
- Provided personal care, medication reminders, and mobility assistance.

Program Leader & On-site LVN
City of Richmond, Recreation Department
May 2007 – April 2014

- Managed senior center programs, supervised staff, and coordinated community events.
- First hired for the Business Office as Office Aide until July 2009, promoted to community services. Assigned to the Richmond Senior Center, I worked as program leader and nutrition lunch program manager.

Triage Nurse & Instructor
American Red Cross, San Franciso, CA
2007 – 2012

- Provided crisis nursing in disaster and international relief settings.
- Specialized in infectious disease and HIV/AIDS protocols.

(Additional roles in education, food security, and community outreach available upon request.)

Education

- **Certificates** – Nursing Assistant & Home Health Aide, West Contra Costa Adult Ed, 2007
- **M.S.** – Gerontology, College of Continuing Education, CSU Sacramento, 2004

CONTRA COSTA COUNTY

Staff Report

File #: 26-2675 **Agenda Date:** 6/23/2026 **Agenda #:** C.20.

To: Board of Supervisors

From: Family & Human Services Committee

Report Title: 2026 Comprehensive County Child Care Needs Assessment

☐Recommendation of the County Administrator ☒ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE the Contra Costa County 2026 Comprehensive Local Child Care Planning Council Needs Assessment from the Local Planning and Advisory Council for Early Care and Education, as recommended by the Family and Human Services Committee.

FISCAL IMPACT:
No fiscal impact.

BACKGROUND:
The California Department of Education, Early Education and Support Division, requires every county to develop a child care needs assessment of early education and before-and after-school programs for their jurisdictions at least every five (5) years (ref. CA Education Code section 8499.5). The Child Care Planning Council of Contra Costa County has prepared the attached report not only to satisfy this requirement, but also to help inform child care policies and priorities based on the current status of child care in the County.

The Family and Humans Services Committee, at its June 8, 2026 meeting, reviewed and accepted the attached 2026 Comprehensive County Local Child Care Planning Council Needs Assessment on behalf of the Contra Costa County Local Planning and Advisory Council for Early Care and Education (LPC). The needs assessment requires Board of Supervisors approval.

CONSEQUENCE OF NEGATIVE ACTION:
The County will not be in compliance.

Executive Summary

Contra Costa County's 2026 Child Care Needs Assessment finds that the early learning and care system remains under significant strain, with the deepest gaps affecting infants and toddlers, low-income families, and children with disabilities. Child population trends are relatively stable overall, but growth is projected to concentrate among babies by 2035, while recent declines have been greatest for 2- to 4-year-olds.

- 73% of children under 5 have at least one working parent, nearly a quarter of young children live in families receiving CalFresh, a third rely on Medi-Cal, and 11.6% are in poverty, underscoring that many families who would benefit from early learning support are juggling high costs and economic insecurity.
- Only a small percentage of subsidy-eligible infants and preschoolers are served in subsidized programs, and publicly funded early childhood slots reach just 15.5% of children 0–5 under 200% of the federal poverty level.
- This leaves a large pool of eligible children without subsidized care even after accounting for some families' preference for parental or relative care.
- Supply, demand, and family experience data together indicate that unmet need is most acute at the youngest ages.
- Contra Costa has 28,538 licensed slots for children 0–5, but many seats are vacant.
- Licensed center-based infant/toddler and preschool classrooms operate closer to full, while family child care homes, an essential option for infants, toddlers, and non-traditional hours, have as much as one-third of their licensed capacity unused.
- Since 2022, infant/toddler waitlists nearly doubled while preschool waitlists dropped by 62%, likely reflecting the expansion of Transitional Kindergarten and the California State Preschool Program.
- More than half of recent requests for care are for children under age 3.

- Parent surveying reveals that families across the county, particularly in East County and among communities of color, report that cost, limited availability, non-traditional schedules, and language or cultural mismatches make it difficult to secure stable arrangements, even when they receive subsidies.
- A highly skilled but underpaid workforce, predominantly Latino and Black women, faces low wages, high turnover, and limited benefits.
- Facilities investments, Quality Matters participation, and new Head Start/Early Head Start slots show important progress but have not yet closed gaps in infant/toddler classrooms and inclusive preschool spaces.

Overall, the assessment points to a dual charge: expand infant/toddler capacity and utilization and strengthen affordability, workforce stability, inclusion, and geographic equity so that all Contra Costa children 0–5 can access high-quality early learning that matches their families' needs.

Introduction

Purpose of the Report

The California Department of Social Services (CDSS) requires county Local Child Care and Development Planning Councils (LPCs) to conduct a comprehensive assessment of local child care needs at least once every five years. This report fulfills that requirement for Contra Costa County and summarizes the most current available data on children ages 0–5, their families, and the early learning and care system that serves them. The findings are intended to guide long-term planning, policy decisions, and investments across public and private programs so that young children, particularly those who are eligible for subsidized services, have access to high-quality, affordable early care and education.

Data Sources

This assessment draws on a wide range of county, state, and national data sources. Primary sources include:

- California Department of Finance, Demographic Research Unit
- California Department of Social Services (CDSS)
- California Department of Education (CDE)
- California Department of Housing & Community Development (HCD)
- U.S. Census Bureau (American Community Survey)
- California Child Care Resource & Referral Network
- CocoKids
- First 5 Contra Costa
- Contra Costa County Special Education Local Plan Areas (SELPAs)
- Contra Costa County Employment and Human Services Department (EHSD)
- U.S. Department of Housing and Urban Development (HUD), Office of Policy Development and Research

This assessment employs a hybrid approach, using multiple authoritative data sources to provide the most accurate and comprehensive analysis possible. Where current-year figures were unavailable, the report uses the most recent and reliable proxy data, with each source and data year clearly cited.

Report Structure

The organization of this report follows the California County Local Child Care Planning Council (LPC) Needs Assessment Template issued by the CDSS. Data and narrative findings are provided to address 20 mandated response topics, including demographics, economics, family and child characteristics, and components of the childcare system in Contra Costa County. The report also includes the results of a survey of 263 parents conducted in July 2025. For ease of reference, each section header notes the corresponding template item number(s), and required state and local data are integrated throughout.

Acknowledgements

The Contra Costa County 2026 Child Care Needs Assessment was prepared by the Contra Costa County Office of Education in partnership with local service agencies, educational and research institutions, public agencies, and Early Care and Education (ECE) experts. We especially acknowledge the individuals and organizations who contributed data, reviewed findings, and shared their on-the-ground experience to shape this assessment. A list of these contributors can be found at the end of the report, in Appendix A.

1. Child Demographics, Market Rate Ceilings, and Unmet Need

Note: Because the California Early Learning Needs Assessments Reports (CELNAR) database that is typically used for reporting does not provide data beyond 2022, substitute data has been used for sections 1a through 1e.

1a. Number of Children by Age

The California Department of Finance's Demographic Research Unit (DRU) lists 69,137 children ages 0-5 in Contra Costa County for 2025, with this age group (on average) projected to remain relatively flat through 2035, as listed in the table below. The U.S. Census Bureau American Community Survey (ACS) 2024 estimates the population of children under age 6 at 70,3191[1] which is 1.7% higher than the DRU projection. This assessment uses DRU statistics as the baseline demographic source in most cases because it provides the forward projections essential to capacity planning.

Table 1: Contra Costa County — Projected Child Population Change (Ages 0-5) (2025-2035)

Age	Population 2025	Population 2035	Numeric Change	Percent Change
0 yrs (0-11 months)	10,897	12,016	+1,119	**+10.3%**
1 yrs (12-23 months)	10,946	11,660	+714	**+6.5%**
2 yrs (24-35 months)	11,480	11,478	-2	**0.0%**
3 yrs (36-47 months)	11,746	11,394	-352	**-3.0%**
4 yrs (48-59 months)	11,871	11,298	-573	**-4.8%**
5 yrs (60-71 months)	12,197	11,310	-887	**-7.3%**
Total (Ages 0-5)	69,137	69,156	+19	**+0.03%**

Source: State of California, Department of Finance, Demographic Research Unit (DRU), P-2B County Population by Age, Vintage 2025 (released September 30, 2025). https://dof.ca.gov/forecasting/demographics/projections/

1 U.S. Census Bureau. (2024). ACS 1-Year Estimates Detailed Table B23008: Presence of Children Under 18 Years by Household Type by Labor Force Status of Parents, Contra Costa County, California. https://data.census.gov/table/ACSDT1Y2024.B23008?g=050XX00US06013

The projections for 2025 to 2035 indicate eventual positive growth at the youngest end of the age spectrum, with babies (ages 0-11 months in 2025) projected to increase by 10% over the decade. However, this growth turns negative for children aged 3-5 years. This suggests a potential rebound in births after recent declines, but also implies that while infant-toddler capacity may need to expand, the overall cohort of young children remains relatively stable. It is also worth noting that significant East Contra Costa County in-migration is expected to continue to drive population gains, suggesting a need for geographic targeting for new subsidies and facilities.[2]

1b. Percent of Children by Race/Ethnicity and Age

The following California Department of Finance and American Community Survey synthesized data shows race and ethnicity estimates for 2025, offering a snapshot of the demographic composition of young children in Contra Costa County.

Table 2: Contra Costa County — Estimated Children Ages 0–5 by Race/Ethnicity (2025)

Race / Ethnicity	Percent	Estimated Children
Hispanic / Latino (any race)	36.0%	24,889
White (Non-Hispanic)	28.5%	19,703
Asian	16.0%	11,062
Black / African American	8.5%	5,876
Multiracial	9.0%	6,222
American Indian / Alaska Native	0.5%	346
Native Hawaiian / Pacific Islander	0.5%	346

Sources: California Department of Finance, Demographic Research Unit (DRU), P-2B County Population by Age, Vintage 2025 (released September 30, 2025). https://dof.ca.gov/forecasting/demographics/projections/. U.S. Census Bureau, American Community Survey 2024 1-Year Estimates (Tables B01001A-I: Sex by Age by Race/Ethnicity) for children under age 5 in Contra Costa County, California. Because ACS reports under 5 while DOF reports ages 0–5, the race/ethnicity counts shown here are reconciled estimates.

The 2025 estimates indicate a diverse young population in Contra Costa County, with Hispanic children representing the largest group (36%). White (Non-Hispanic) children also constitute a large segment of the 0-5 population. The data highlights the presence of substantial Asian, Black, and Multiracial populations, along with smaller American Indian/Alaska Native, Native Hawaiian/Pacific Islander groups. This race and ethnicity breakdown is crucial for understanding culturally responsive program development.

1c. Regional Market Rates for State-Subsidized Care by Age/Setting

The Regional Market Rate (RMR) methodology sets maximum reimbursement ceilings for state-subsidized child care, varying by setting type, child's age, and hours of care. These ceilings are intended to allow parents access to a significant percentage of providers in their market. As of January 1, 2022, the RMR ceilings were updated to be the greater of two values: either the 75th percentile of the 2018 regional market rate survey for that region, or the RMR ceiling that was in effect for that region on December 31, 2021.[3] Contra Costa County is part of the "Bay Area" region for these calculations.

It is important to note that while the state is transitioning to a new cost-based single rate structure, the specific rates under this new methodology are not yet fully finalized or publicly available in a comprehensive table. Therefore, the current RMR ceilings, based on the 2018 regional market rate survey, remain the official reference for existing reimbursement rates. In the interim, temporary 'Cost of Care Plus' monthly payments are being provided to state-subsidized child care providers from January 1, 2024, through June 30, 2025, to help bridge the gap between standard reimbursement/regional market rates and actual costs. In Bay Area counties, these payments fall within the state's $140–$211 per-child monthly range for licensed providers, with lower amounts for license-exempt providers.[4]

The table below provides the current Regional Market Rate Ceilings for Contra Costa County, effective January 1, 2022.

[3] California Department of Social Services. Child Care and Development Bulletin 21-21: Regional Market Rate (RMR) Ceiling Changes. November 30, 2021. https://earlyedgecalifornia.org/wp-content/uploads/2021/12/CDSS-Child-Care-and-Development-Bulletin-21-21_-Regional-Market-Rate-Ceiling-Changes.pdf

Table 3: Contra Costa County — Maximum Reimbursement for State-Subsidized Care by Age

Age Group	Full-time Daily	Full-time Weekly	Full-time Monthly	Part-time Hourly	Part-time Weekly	Part-time Monthly
Child Care Centers						
0-24 Months	$111.93	$448.93	$1889.8	$21.14	$309.58	$1208.60
2-5 Years	$87.13	$364.82	$1499.5	$16.09	$261.08	$920.58
School Age	$61.08	$293.97	$1067.5	$11.88	$149.90	$527.61
Family Child Care Homes						
0-24 Months	$75.26	$323.94	$1326.1	$15.83	$225.86	$896.98
2-5 Years	$71.91	$303.64	$1257.6	$15.20	$230.01	$893.91
School Age	$50.85	$223.18	$924.44	$11.50	$153.31	$592.86
TrustLined/Relative (Licensed-Exempt)						
0- 24 Months	$52.69	$226.76	$928.27	$11.08	$158.10	$627.88
2-5 Years	$50.33	$212.55	$880.33	$10.64	$161.01	$625.73
School Age	$35.59	$156.23	$647.11	$8.05	$107.31	$415.01

Source: California Department of Social Services (CDSS). https://rcscc.adm.dss.ca.gov/index.aspx

The continued reliance on 2018 market rate survey data for current RMR ceilings, despite being updated in 2022, indicates a significant lag between reimbursement rates and the actual, rising costs of providing childcare. This disparity is partially addressed by temporary supplemental payments, but the long-term financial stability of providers in Contra Costa County hinges on the successful and timely implementation of the new cost-based single rate structure. The higher cost of infant/toddler care compared to preschool, and center-based care compared to family child care homes, remains a consistent trend.

1d. and 1e. Unmet Need for State/Federally Subsidized Infant/Toddler Programs and Preschool Programs

Current data on unmet need for state and federally subsidized infant/toddler and preschool programs by specific age groups and program types for Contra Costa County is not available through the recommended CELNAR database. However, other indicators highlight a potential overall unmet need for subsidized support, and far too many of the county's low-income families who are eligible for subsidized care likely cannot access spaces due to the county's low supply.

Table 4: Estimated Child Care Needs for Infant/Toddler Programs (0-35 months) in Contra Costa County (2023)

Category	Number of Children	Share of Eligible
Subsidy-eligible children	19,660	100%
Subsidy-served	1,780	9%
Unmet need	17,880	91%

Sources: California Child Care Resource & Referral Network, 2023 Child Care Portfolio: Contra Costa County sheet (April 2025); First 5 Contra Costa, "Early Childhood Education Crisis in Contra Costa County"(2023), p. 4; California Department of Finance Population Projections (2023) and 2022 Contra Costa Child Care Needs Assessment ratios.

Table 5: Estimated Child Care Needs for Preschool Programs (36-59 months) in Contra Costa County (2023)

Category	Number of Children	Share of Eligible
Subsidy-eligible children	17,450	100%
Subsidy-served	6,750	39%
Unmet need	10,700	61%

Sources: California Child Care Resource & Referral Network, 2023 Child Care Portfolio: Contra Costa County sheet (May 2025); First 5 Contra Costa, "Early Childhood Education Crisis in Contra Costa County"(2023), p. 4; California Department of Finance Population Projections (2023) and 2022 Contra Costa Child Care Needs Assessment ratios.

The First 5 Contra Costa Early Childhood Systems Map (July 2025) provides a detailed breakdown of publicly funded slots versus eligible children (at less than 200% of the federal poverty level), also revealing acute shortages for infants/toddlers. Known slots cover only 15.5% of the eligible 0–5 population (~2,574 slots vs. 16,588 eligible).[5]

These estimates indicate that only a small share of subsidy-eligible infants/toddlers and a minority of subsidy-eligible preschoolers are currently served in subsidized programs; the remaining eligible children are not in subsidized care and therefore represent the potential pool of unmet need. Some of these children may be in informal or unsubsidized arrangements by family choice, but waitlist, request-for-care, and parent survey data suggest that a substantial portion reflects families who want but cannot obtain affordable, regulated care.

[5] First 5 Contra Costa Early Childhood Systems Map 2025, p. 39. Note: Excludes partial TK/CSPP overlap; gaps widest for infants. https://www.first5coco.org/our-impact/early-childhood-systems-map/

2. Local Population Data

Additional population County and State data is provided by the California Childcare Resource and Referral Network's 2023 Portfolio Report (released in April, 2025). According to the report, in Contra Costa County, there were 72,731 0-5 year olds in 2023 vs a total of 77,746 0-5 year olds in 2021 (-6.5%).

Table 6: Contra Costa County and California — Young Child Population in 2021 and 2023

Population	CC County			California		
	2021	2023	Change	2021	2023	Change
Under 2 years	23,909	23,259	**-3%**	861,008	830,631	**-4%**
2 years	12,567	11,636	**-7%**	460,224	407,630	**-11%**
3 years	13,292	12,067	**-9%**	469,378	443,300	**-6%**
4 years	13,916	12,540	**-10%**	484,018	455,053	**-6%**
5 years	14,062	13,229	**-6%**	493,582	464,560	**-6%**

Source: California Child Care Resource & Referral Network, 2023 Child Care Portfolio – Contra Costa County sheet, Population table (April 2025). https://rrnetwork.org/assets/general-files/Contra-Costa_2025-04-28-172348_iqqo.pdf

Overall, both Contra Costa County and California have experienced a slight decrease in their total resident populations, with the county seeing a ~1% decline and the state a ~0.4% decline as of 2023. This general trend of population contraction between 2021 and 2023 is also reflected in the child population. When examining the 0-5 age group, the most significant percentage decreases in Contra Costa County are observed among 4-year-olds (-10%), 3-year-olds (-9%), and 2-year-olds (-7%). Even the "Under 2 years" category saw a 3% decrease.

The trends in Contra Costa County generally mirror those of California, where all child age groups (ages 0-12) also experienced declines during this period, with 2-year-olds showing the largest statewide decrease at 11%. This consistent pattern across both the county and the state may suggest broader demographic shifts, such as declining birth rates or out-migration of families with young children. Despite an expected continuing decrease in the preschool population in Contra Costa County, longer-term analysis, as provided in Section 1, suggests positive growth at the youngest end of the age spectrum, with babies (age 0 in 2025) projected to increase by 10% by 2035.

Contra Costa County faces a dual challenge in childcare planning: a recent decline in ages 2-4, contrasting with a projected significant increase in infants (age 0) by 2035. This necessitates a strategic shift in childcare resources, moving from current preschool-focused services towards expanding infant and toddler care capacity over the next decade. Flexible funding models are crucial to support providers through these demographic fluctuations, ensuring financial stability while preparing for future demand. Ultimately, understanding these evolving population trends is vital for effective resource allocation and program development to meet the county's diverse childcare needs.

3. Enrollment

February 2026 CocoKids snapshot data indicates that Contra Costa County has 28,538 licensed child-care slots for children 0–5, with an estimated 22,266 filled slots and 6,272 vacancies, meaning about 22.0% of licensed seats are not in use at present. Centers account for 2,310 infant–toddler (0–35 months) slots, with an estimated 20.0% vacancy rate, and 16,924 preschool (36–59 months) slots with a 15.1% vacancy rate, suggesting that preschool classrooms are somewhat more fully utilized than infant/toddler rooms. Family child-care homes (FCCs), which serve mixed ages 0–59 months, contribute 9,304 licensed slots but show an estimated 34.9% vacancy rate, highlighting that a large share of licensed home-based capacity is currently underused despite these settings being an important option for infants, toddlers, and families needing non-traditional hours.

Table 7: Contra Costa County — Licensed Child-Care Capacity, Enrollment, and Vacancies

Provider Type	Age Band	Licensed Capacity	Estimated Filled Slots	Vacant Slots	% Vacant
Centers	Infant–Toddler (0–35 mo)	2,310	1,849	461	20.0%
Centers	Preschool (36–59 mo)	16,924	14,362	2,562	15.1%
Family Child-Care Homes (FCCs)	0–59 months	9,304	6,055	3,249	34.9%
Totals		**28,538**	**22,266**	**6,272**	**22.0%**

Source: CocoKids, My Child Care Plan extract. Data pulled on February 3rd, 2026. Estimated Filled Slots are calculated as Licensed Capacity minus Vacant Slots.

Because “Estimated Filled Slots” are calculated as licensed capacity minus provider-reported vacancies, and providers may be reporting openings relative to their desired operating capacity rather than their full license, these numbers should be interpreted as a proxy for system utilization rather than precise child enrollment counts. Even with that caveat, the pattern is informative: FCCs represent a large pool of unused licensed capacity, while center-based preschool operates closer to full. This implies that near-term strategies to expand access, particularly for babies and toddlers, should focus on reactivating idle FCC capacity through workforce stabilization, higher and more predictable subsidy reimbursement, and business supports, alongside maintaining incremental growth in center-based preschool to keep pace with demand among 3- to 5-year-olds. When paired with county-wide findings from the California Resource & Referral 2023 Portfolio Report and First 5 Contra Costa Early Childhood Systems Map, the total licensed capacity still covers only a portion of infants and toddlers, especially in low-income, subsidy-eligible families. The data point to a dual challenge: Contra Costa must both expand the overall supply of infant/toddler care and make available more of its existing licensed FCC and center slots, rather than relying solely on building new preschool classrooms.

The First 5 Systems Map (p. 40) shows 9,767 known children ages 3–5 served by public early childhood education programs, including California State Preschool Program (1,916), child care subsidy (1,739), and Transitional Kindergarten (5,317); the report notes potential duplication/undercounting due to blended funding and incomplete data. Yet waitlists persist, especially for low-income infants (e.g., long Head Start/Early Head Start delays).[6]

Even though Contra Costa has a sizable licensed child-care infrastructure, especially in family child-care homes, a portion of those slots sit unused while total licensed capacity still falls far short of meeting the care needs of low-income infants and toddlers. Based on recent estimates, licensed capacity covers only 72% of children ages 5 and under in households with all parents working, even before accounting for providers operating below their licensed maximum or the role of family/friend/neighbor care in filling gaps.[7]

4. Waiting Lists

CocoKids, as the local resource and referral agency in Contra Costa County, maintains a waitlist for parents seeking child care in Contra Costa County. Below is a comparison of the March 2022 waitlist snapshot and the February 2026 waitlist snapshot.

Table 8: Contra Costa County — Child Waitlist Trends by Age Group (2022 vs. 2026)

Age Group	2022 Waitlist	2026 Waitlist	Numeric Change	% Change
Infant/Toddler (0-2 yrs)	828	1,616	+788	**95%**
Preschool (3-5 yrs)	3,047	1,151	-1,896	**-62%**
Totals	**3,875**	**2,767**	**-1,108**	**-29%**

Source: CocoKids CareControl 4 (CC4) "Wait-List Age Report." Data pulled in February 2026. The January-March 2022 baseline (3,875 children) is taken from the 2022 Contra Costa County Childcare Needs Assessment. https://d16k74nzx9emoe.cloudfront.net/78469974-b46a-42d4-9f42-a8f6eef78ff7.pdf

The number of young Contra Costa children waiting for a child care slot shrank from 3,875 in March 2022 to 2,767 in February 2026, a nearly 30% percent decrease. Requests for infant–toddler care nearly doubled, from 828 to 1,616 (95%), so babies and toddlers now account for over a third more than preschoolers on the waitlist. The preschool wait-list fell by 62% percent, likely reflecting the further roll-out of Transitional Kindergarten and recent expansions in state preschool (CSPP) capacity. The data signal that Contra Costa's unmet demand has pivoted from preschool to the earliest ages, even as licensed infant capacity shows vacancies that could potentially be activated with targeted supports.

[7] First 5 Contra Costa. (July, 2025). Early Childhood Systems Map, p. 38 (Licensed Capacity and Potential Gaps in Child Care section)

5. Language

Spanish is the majority language among kindergarten English learners in Contra Costa County, comprising 67.5% of all EL kindergarteners. A diverse set of languages forms a long trail, with Farsi, Mandarin, Arabic, Portuguese, Russian, Pashto, Punjabi, Telugu, Tamil, Vietnamese, Cantonese, and Filipino each representing smaller but meaningful shares. This pattern indicates that while Spanish-language services must remain central, districts and providers should anticipate and plan for multilingual outreach and supports across several Asian and Middle Eastern language communities.

Table 9: Contra Costa County — Kindergarten English Learner Students by Language for the 2024-2025 Academic Year (≥ 1% of learner population)

Language	Kindergarten EL Count	% of EL Kindergarten
Spanish; Castilian	1,760	67.53%
Persian (Farsi)	120	4.6%
Mandarin (Putonghua, Guoyu)	86	3.3%
Arabic	42	1.61%
Cantonese	42	1.61%
Russian	48	1.84%
Portuguese	44	1.69%
Telugu	35	1.34%
Uncoded languages (Other non-English languages)	35	1.34%
Pashto	36	1.38%
Punjabi	34	1.3%
Vietnamese	28	1.07%
Tamil	28	1.07%
Filipino; Pilipino	26	1%

California Department of Education. DataQuest: English Learners by Grade and Language, 2024-2025. Accessed at https://dq.cde.ca.gov/dataquest/

The significant percentage of dual-language homes and English Language Learners among Kindergarten students underscores the linguistic diversity of Contra Costa County's young population. This highlights an ongoing need for culturally responsive and age-appropriate early learning environments and resources to support language acquisition and school readiness for children from diverse linguistic and cultural backgrounds.

6. Local Language Data

Almost 40% of the Contra Costa County population speaks a language other than English at home, with a growing proportion speaking Spanish, and 6.4% of the population has limited English skills. Additional data from childcare providers reporting on what languages are spoken to children ages 0-5 while in care provides additional insights into languages spoken by this population. English accounts for the majority of languages spoken by providers on site, at approximately 55%, followed by Spanish at 21%. The diversity in languages spoken, as seen below, once again suggests the need for multilingual support and highlights the varied linguistic needs of families in the community.

Table 10: Contra Costa County — Languages Spoken by Childcare Providers While Caring for Children (1% or greater)

Language	Center	Family Child Care	Total	Percentage
English	328	783	1,111	54.89%
Spanish	127	300	427	21.10%
Other	31	121	152	7.51%

7. Children with Special Needs

The Individuals with Disabilities Education Act (IDEA) mandates free appropriate public education for eligible individuals with disabilities, including special education and related services for those aged 0-22 years. Children under 3 years old are eligible for an Individual Family Services Plan (IFSP), and individuals aged 3-22 are eligible for an Individualized Education Plan (IEP). The most recent data available for IFSP and EIP numbers for the 0-5 age population in Contra Costa shows the following counts from the Special Education Local Plan Areas (SELPAs).

Table 11: Contra Costa County — Number of Children with an IFSP or IEP by Age Group (2024-2025)

Category	Mt. Diablo	Contra Costa	West Contra Costa	San Ramon Valley	TOTAL
IFSPs (0–3 yrs)	10	35	50	19	114
IEPs (3–5 yrs)	504	645	478	68	1,695
TOTAL	**514**	**680**	**528**	**87**	**1,809**

Source: Contra Costa County Special Education Local Plan Areas (SELPAs), Special Education Information System (SEIS) database. 2024-2025 data from October 2025. (Note: This data only divides ages by 0-3 and 3-5. Data specifically for 3-4 year olds is not fully available.)

Beyond primarily school-reported SELPA data is a broader capture of young children with special needs, such as through many private childcare providers, as shown in the next table.

Table 12: Contra Costa County — Number of Children with an IFSP or IEP by Age Group

Age Group	Plan Type	Broader Service Count
Birth–36 months (0–3)	IFSP (Part C/Early Start)	3,363 (May 2025, RCEB)
Ages 3–5	IEP (Part B/ECSE)	2,773 (FY 2024–25)
Total 0–5	**IFSP + IEP**	**6,136**

Source: First 5 Contra Costa. Early Childhood Systems Map (July 2025), pp. 107-113 (Early Childhood Special Education section), 35-37 (Early Intervention), 75 (ECSE outcomes); data from Regional Center of the East Bay (RCEB), May 2025. Ages 0-5 https://www.first5coco.org/our-impact/early-childhood-systems-map/

The Early Childhood Systems Map data for Contra Costa County identifies significant gaps in serving children with developmental delays/disabilities. Contra Costa excels at delivering Early Start services in everyday home settings at 95% (above state average) but lags in inclusive preschool settings, highlighting the need for better child find, screening, and workforce expansion.

8. Children in Child Protective Services

The California Child Welfare Indicators Project (CCWIP), a collaboration between the University of California at Berkeley and the California Department of Social Services (CDSS), provides data on children receiving Child Protective Services (CPS). One representative data point is the number of children in foster care, based on recent point-in-time counts.

Table 13: Contra Costa County — Number of Children in Foster Care by Age (0-5 Years)

Age	Oct 1, 2023	Oct 1, 2024	Oct 1, 2025
0	39	32	38
1-2	63	59	62
3-5	40	52	54
Total	**142**	**143**	**154**

Source: California Child Welfare Indicators Project (CCWIP), University of California, Berkeley and California Department of Social Services, In Care—Point in Time Count (AB 636), Contra Costa County, age group table (0; 1–2; 3–5), accessed January 22, 2026, at https://ccwip.berkeley.edu/childwelfare/reports/PIT/MTMG/r/ab636/l

The number of children aged 0-5 in foster care in Contra Costa County shows fluctuations between 2023 and 2025, revealing small increases over time. This indicates a consistent, albeit variable, need for specialized childcare services for this vulnerable population. The varying numbers within specific age groups (infants, 1-2 year olds, and 3-5 year olds) highlight the need for adaptable childcare resources and strong collaboration between providers, foster families, and child welfare agencies to meet the unique and changing demands of children in foster care.

9. Children in Working Families

The typically used Early Learning Needs Assessment Tool (ELNAT) does not provide up-to-date information on children in working families in Contra Costa County. However, the U.S. Census Bureau American Community Survey 2024 1-year estimate shows that approximately 73% of children under age 6 in Contra Costa County live in families where all available parents are in the civilian labor force. This represents a significant proportion of families who may potentially need childcare services to support their employment.

To provide the age-specific breakdown, the table below estimates children in working families by single year of age. Since ACS Table B23008 reports the 73.1% aggregate for children under 6 (not broken out by individual age years), this rate was applied to the California Department of Finance's P-2B 2025 population projections of children ages 0-5 by year to estimate potential childcare demand.

Table 14: Contra Costa County — Estimated Number of Children in Working Families by Age Group (2025)

Age	Number of Children in Working Families
Infants (less than one year old)	7,966
1	8,002
2	8,392
3	8,586
4	8,678
5	8,916
Total (Ages 0-5)	**50,540**

Sources: 1) California Department of Finance. Demographic Research Unit. Report P-2B: Total Population Projections, California Counties, 2020-2070 (Baseline 2024 Population Projections; Vintage 2025 Release). https://dof.ca.gov/forecasting/demographics/projections. 2) Working family rate (73%): U.S. Census Bureau, ACS 2024 1-Year Estimate, Table B23008. https://data.census.gov/table/ACSDT1Y2024.B23008?g=050XX00US06013

These estimates total 50,540 children ages 0-5 in working families, representing significant potential demand for early care and education across all ages. This figure represents the maximum potential demand for childcare, as not all families with working parents necessarily use paid childcare services. Some families may rely on family members for care, have flexible work arrangements, utilize school-based programs like Transitional Kindergarten, or arrange care through other informal means.

10. Families Receiving Public Assistance

Contra Costa County serves a substantial number of families with young children through several key public assistance programs, addressing health, nutrition, cash aid, and specialized support needs for children ages 0 to 5.

- CalFresh (federal SNAP) supplies monthly food-purchasing benefits.
- CalWORKs provides temporary cash aid, employment services, and a pathway to childcare subsidies for very-low-income families.
- Medi-Cal offers no- or low-cost health and dental coverage to income-eligible children and adults.

According to the County's Employment and Human Services Department (Youth Services Annual Report, July 2025), approximately 16,425 children ages 0-5 benefit from CalFresh, 4,895 live in CalWORKs households, and 23,774 depend on Medi-Cal for health coverage. Based on the California Department of Finance P-2B projected population of 69,137 children ages 0-5 in Contra Costa County (2025), these figures represent approximately 24% (CalFresh), 7% (CalWORKs), and 34% (Medi-Cal) of young children in the county. While the current total number of young children in families receiving housing support in Contra Costa County is not readily available, the estimated number of these children living in the U.S. Department of Housing and Urban Development (HUD)-supported rental units or public housing (see below) provides some indication of housing assistance in the County.

Table 15: Contra Costa County — Social Safety Net Programs for Children Ages 0-5 (2025)

Program	Children receiving benefits (Ages 0-5)
CalFresh	16,425
CalWORKs	4,895
Medi-Cal	23,774
HUD Housing Support	~3,000 (2023)

Sources: Contra Costa County, Department of Employment and Human Services, Community Services Bureau, Children and Family Services Committee Meeting presentation, July 14, 2025. https://contra-costa.legistar.com/View.ashx?M=F&ID=14497454&GUID=7D9EF7DF-95E6-45FE-A5B9-A1F9C6E8337C. HUD Office of Policy Development and Research, Picture of Subsidized Households (2023, County-level data for Contra Costa County). Accessed on January 29, 2026, at https://www.huduser.gov/portal/datasets/assthsg.html#:~:text=

These figures underscore the scale of low-income families facing cost and access barriers to early learning support, which is an essential consideration when prioritizing subsidized slots, outreach, and supportive services.

11. Median Family Income

The US Census Bureau American Community Survey 2024 1-Year estimates report the median family income for a four-person family in Contra Costa County is $191,534.[8] For context, the California Department of Housing & Community Development (HCD) uses a 2025 Area Median Family Income (AMI) of $159,800, with the 80% AMI threshold for a 4-person household at $125,050.[9]

The median household income figure in Contra Costa County, while higher than the state average, masks significant racial and economic disparities within the county, and many families still require public assistance and struggle to meet basic needs, highlighting the ongoing importance of childcare subsidies and support programs. As of 2023, 11.6% of children ages 5 and under were in poverty in Contra Costa, and over a quarter more were in families with low income.[10]

12. Children in Migrant Families

As of January 2026, the California Department of Education, Migrant Education Program, identified the following number of children as being Migrant Education Program-eligible in Contra Costa County.

Table 16: Contra Costa County — Migrant Education Program Eligible Children Ages 0-5

Ages	Number of Children
0-2	3
3-5	5

Source: California Department of Education, Migrant Education Program (MEP), Region 23, San Joaquin County Office of Education. Accessed on January 21, 2026.

The Migrant Education Program (MEP) identifies only a very small number of young children in Contra Costa County because eligibility is narrowly defined and focused on families who have recently moved due to qualifying agricultural work, and most of Region 23's migrant population is concentrated outside Contra Costa. These figures likely reflect both the county's relatively small agricultural migrant base and under-identification of very young children, rather than an absence of migrant families with young children.

[8] U.S. Census Bureau, American Community Survey , 2024 1-Year Estimates, Table B19119 ("Median Family Income in the Past 12 Months (in 2024 Inflation-Adjusted Dollars) by Family Size"), Contra Costa County, California. [10] First 5 Contra Costa County Early Childhood Systems Map, December 2025, P.11

13. Meeting Early Learning Facility Needs

Table 17 below compares 2023 licensed child care facility counts from KidsData/California Child Care Portfolio with CocoKids' active licensed provider counts from February 2026. Because the two sources use slightly different snapshots and counting conventions, the change figures should be read as directional rather than exact year-over-year comparisons.

Table 17: Contra Costa County — Active Child Care Facilities (2023 and 2026)

Facility Type	Number of Facilities (2023)	Number of Facilities (2026)	Change
Licensed Childcare Centers	339	345	**+1.8%**
Family Childcare Homes (FCCs)	779	837	**+7.4%**
Total	**1,118**	**1,182**	**+5.7%**

Source: KidsData.org, Licensed Child Care Facilities, by Type (California Child Care Resource & Referral Network, California Child Care Portfolio, April 2025); CocoKids Child Care Provider Counts, accessed February 3, 2026.

The County secured a 2024-2025 multi-year Head Start/Early Head Start award ($29.7M) supporting 1,634 slots and site upgrades, with Mexican American Opportunity Foundation (MAOF) and The Unity Council adding/renovating classrooms across Richmond, San Pablo, Hercules, Martinez, Pittsburg, Antioch, Concord, Oakley, Pinole, and Rodeo.[11] The Contra Costa College Early Learning Center received $2.8M (including $752k for classroom/playground upgrades) to operate at full licensed capacity and extend hours.[12]

State expansions are advancing through California's General Child Care and Development (CCTR) FY 2024–25 RFAs statewide ($306M total), CSPP 2024–25 contract awards, and ongoing UPK Mixed-Delivery planning, alongside county contracts like CocoKids' $1.4M+ Emergency Child Care Bridge program.[13]

These investments are bringing additional rooms online, though activation is paced by construction and workforce. Overall, momentum is real, but federal funding cuts threaten further facility development, and additional capital plus workforce supports are still needed to rebuild infant–toddler classrooms and activate FCC capacity in high-need neighborhoods.

14. Requests for Care During Non-Traditional Hours

According to February 2026 CocoKids-provided snapshot data, there were 1,292 recent requests for care during nontraditional hours, including 757 before and/or after child care requests; 9 for summer-only, and 526 for other child care (e.g., drop in, evening, overnight, weekends). The 2023 Resource & Referral Childcare Portfolio report for Contra Costa County revealed that requests for child care during nontraditional hours (evening, weekend, or overnight care) accounted for 2% of all child care requests. The same data revealed that only 22% of FCC homes and 1% of licensed child care sites in Contra Costa County offered non-traditional hour care. Overall, extended hours for evening or weekend care are an important need for parents. In a survey of Contra Costa parents cited below who utilize childcare, 61.4% of those surveyed desired nontraditional hours.

15. Meeting Early Learning Workforce and Quality

Contra Costa County's early care and education workforce includes nearly 4,000 educators across center-based and home-based settings (teachers, assistants, directors/administrators, and FCC providers/assistants).[14] A 2024 Center for the Study of Child Care Employment (CSCCE) at U.C. Berkeley study on Contra Costa County finds that this workforce is predominantly women of color and that almost half of center teachers and assistants are Latina. Accordingly, equity for a largely bilingual and culturally diverse workforce is a central concern. Despite high levels of experience (many educators report more than 10 years in the field) CSCCE concludes that Contra Costa's ECE workforce is "highly skilled yet undervalued," reflecting low pay and limited benefits relative to K–12 peers.

Compensation and economic insecurity are the most critical workforce needs. The CSCCE 2024 report documents wages that lag far behind local living costs and shows that many educators report difficulty paying for housing, food, and health expenses, with material hardship indicators higher than for California workers overall. First 5 Contra Costa's Early Childhood and Education Crisis in Contra Costa County brief reinforces these findings, noting that center-based teachers earn on average $6,300 less per year than comparable TK–12 teachers and FCC providers about $16,500 less, pushing many to take second jobs, incur debt, or rely on programs such as CalFresh and Medi-Cal.[15] In focus groups convened for wage-enhancement planning, educators repeatedly described being unable to afford local rents or health care on their current wages, and participants identified higher base pay and access to health benefits as the top priorities for sustaining the workforce.

Workforce stability and retention are closely linked needs. CSCCE's Contra Costa County survey shows that most centers experienced staff turnover in the prior year and many directors reported persistent vacancies that were difficult to fill, especially in infant–toddler and inclusion classrooms. According to the survey, between January 2021 and Spring 2023, 95% of centers had one or more positions turn over, with an average of 5.6 positions per site, significantly exceeding the statewide rate of 84% (avg. 4.2 positions). A substantial share of teachers and assistants indicated they did not expect to remain in their current center three years into the future, particularly in lower-resourced, non–Head Start programs, signaling ongoing risk of churn and loss of experienced educators. In First 5's 2024 wage-enhancement focus groups and stakeholder sessions, providers described chronic understaffing, difficulty finding qualified substitutes, and burnout from covering multiple roles; Local Education Agency (LEA) and community-based leaders echoed that teacher instability undermines continuity of care and quality in preschool and Transitional Kindergarten (TK) partnerships.[16]

[15] First 5 Contra Costa. Early Childhood and Education Crisis in Contra Costa County. Martinez, CA: First 5 Contra Costa, 2023. https://www.first5coco.org/wp-content/uploads/2024/02/Contra-Costa-Early-Childhood-Education-Crisis-2023.pdf

[16] First 5 Contra Costa. Wage Enhancement Pilot Program Stakeholder Input Session Report. Martinez, CA: First 5 Contra Costa, 2024. https://www.first5coco.org/wp-content/uploads/2024/08/F5-Contra-Costa-Stakeholder-Input-Session-Report-FINAL-6.26.2024-1.pdf

Participation in Quality Counts California (QCC), implemented locally as Quality Matters, is both a strength and an area of unmet need. According to the First 5 Early Childhood Systems Map for Contra Costa County, in 2024, 159 sites were participating in Quality Matters, employing 664 educators and involving 4,722 children.[17] This is a notable strength representing structured quality improvement across diverse settings. However, these stats also reflect unmet need, as licensed capacity covers only ~72% of working families' children ages 0-5, and high turnover disrupts program quality and continuity despite participation efforts.

CSCCE reports that publicly funded centers (Head Start, Early Head Start, and state preschool) are more likely to participate in intensive quality-improvement efforts such as coaching, college coursework, and structured quality assessments than private centers and FCC homes, which often have fewer administrative supports. The Contra Costa Workforce Development Board's Wage Enhancement Stipends Program supports early childhood education retention and quality improvement through financial incentives for inclusive practices and training to support children with disabilities in high-quality learning environments.[18] However, many FCC providers and smaller centers in First 5's 2024–2025 provider input sessions cited the time required for documentation, lack of paid release time, and the cost of arranging substitutes as major barriers to joining or deepening their engagement in QCC, indicating a need for simplified processes and stronger financial supports tied to quality participation.

Since 2020, Contra Costa has made measurable progress toward meeting these workforce and QCC needs, though gaps remain. CSCCE's 2024 county report and the 2025 State of the Early Care and Education Workforce – Contra Costa[19] snapshot highlight increased access to higher education and professional development, including substantial numbers of educators completing college ECE coursework and participating in coaching and Communities of Practice supported by Quality Matters. First 5 Contra Costa's wage-enhancement pilot (funded in part by Measure X) provides time-limited monthly stipends to selected FCC and center educators; the pilot summary notes that applications far exceeded available slots, confirming both strong participation interest and the depth of unmet need around compensation.[20] Taken together, these studies, surveys, and focus-group findings indicate that Contra Costa is moving in the right direction by expanding QCC-linked supports, investing in educational advancement, and testing wage strategies. However, sustained action is still required to raise compensation to livable levels, stabilize staffing, expand infant/toddler capacity, and reduce administrative barriers so that more FCCs and small centers can fully participate in Quality Counts California.

16. Addressing Parent Needs and Concerns

In July 2025, the Contra Costa County Office of Education's Early Care and Education Department, with outreach support from CocoKids, conducted a comprehensive parent survey to inform the county's child-care needs assessment. The survey was distributed through a newsletter targeting a cross-section of families who access, seek, or have recently applied for childcare in the county. A total of 263 parents and caregivers completed the survey, providing a robust dataset for understanding family experiences and concerns locally.

Parents from every region of Contra Costa County responded. The largest group came from East County, where just over half (53.3%) of surveyed parents reside. Central County was home to about a quarter (24.5%) of respondents, with the remainder (22.2%) living in West County. This slightly overrepresents East County compared to the county's total population but aligns well with the region's higher rates of families with young children and greater childcare needs. Respondents self-identified with a broad spectrum of racial and ethnic backgrounds, a distribution that both reflects and at times amplifies Contra Costa's demographic diversity. 30.9% identified as Black/African American, 26.3% as Hispanic, 20.2% as White/Caucasian, 14.5% as Mixed race, 6.9% as Asian/Pacific Islander, and the remaining 1% as American Indian/Alaska Native. While Black/African American families are overrepresented (relative to their share among all county households with young children) in the survey, and Hispanic/Latino families are somewhat underrepresented, the sample nonetheless provides strong voice to those managing the greatest systemic child care barriers in Contra Costa.

Across the county, parents expressed a common and urgent theme: quality early learning and care is both essential and difficult to afford and access. The cost of care stood as the primary and overwhelming barrier, with 84.3% of parents naming it as a current challenge. As one parent wrote, "Prices are out of control. Assistance thresholds need to be raised to accurately represent the costs of those living in the Bay Area… I can't afford to work AND pay child care." More than half of all families surveyed spend less than $500 per month on care, but a combined 38.8% pay $500 to $2,000, and 9.2% pay over $2,000 monthly, indicating a sharp affordability cliff for those not qualifying for subsidies or for those with multiple children in care. As noted below, over 80% of those in the survey currently receive a childcare subsidy.

Parents also pointed frequently to limited availability, especially for infants and toddlers. 30.1% cited a lack of available spots, while concerns about inconvenient hours, program quality, lack of special needs support, and language/cultural alignment surfaced throughout both statistical and narrative responses. Many described piecing together "patchworks" of care across friends, relatives, providers, and their own variable work schedules, often with anxiety about stability. As one parent summarized, "It is a patchwork of family, friends, and paid childcare that can crumble in a thousand tiny ways at any time."

Among those surveyed, over half (each 52.7%) used a licensed childcare center or a family childcare home, and more than a third (34.7%) relied on family, friend, or neighbor care. Smaller numbers accessed a nanny or babysitter (17.6%), a school-based program (16%), or had one parent able to remain home (3.1%).

Families across backgrounds were clear about the improvements that would best address their challenges: extended hours for evening or weekend care (desired by 61.4%), more affordable options (54.5%), more preschool/early education programs, and more employer-supported childcare (36.2%). Smaller but substantial numbers of parents also named more childcare options for infants (17.9%)

and bilingual or multicultural options (17.1%). Most parents in the survey (80.2%) currently receive a childcare subsidy, and describe programs like CocoKids as "a lifesaver." Satisfaction levels were mixed: while 16.9% of families report being "very satisfied" with their current arrangement, 64.8% rate themselves only "somewhat satisfied," and the remainder are neutral or unsatisfied.

The engagement between families and providers is valued, but could be stronger. There are family calls for increased communication, more transparent information about available care and subsidies, and opportunities for deeper involvement in programs.

Experiences with school transitions were mixed. Only a small percentage of respondents had a child currently enrolled in Transitional Kindergarten (TK). Among these, 57% were satisfied with their experience, while comments suggest that rigid age cutoffs and the limited hours of many TK programs left gaps in both coverage and readiness for many young children, especially for working families and those with children who narrowly miss the TK cutoff.

The 2025 parent survey clearly demonstrates deep parental concern, and at times, distress, about the cost, availability, and suitability of early learning and childcare in Contra Costa County. For most families surveyed, affordable, high-quality, and flexible child care remains out of reach without significant support. Barriers are even more pronounced for care covering non-traditional hours, infants/toddlers, those who need culturally or linguistically responsive programming, and support for children with disabilities. Even families able to access some forms of support still find that care arrangements are fragile. Most parents want more affordable care, greater supply (especially for very young children and outside "standard hours"), and integration with special needs, language access, and family support services. They also call for smoother, more inclusive transitions to TK and kindergarten, and for more robust family engagement from providers and public agencies. In the words of one parent, "Childcare is what helps me keep my family afloat... I can work the hours I need and make sure both my kids are fine." These findings reinforce that addressing cost, access, flexibility, and quality for all families is not just a social priority but an economic imperative for the region.

17. Increasing Access

Contra Costa County is working to ensure that families in every corner, including the river-delta communities of East County and the hill towns and unincorporated pockets of West County, have pathways into sufficient and high-quality early learning and care. The Local Planning Council (LPC), First 5 Contra Costa, CocoKids, and the County Office of Education are working together to expand the number of subsidized slots in high-need neighborhoods, make available mobile and regionally distributed outreach and support services, and make it easier to locate child care facilities in more parts of the county.

New and expanded publicly funded programs are being directed to areas that have historically lacked sufficient early learning options. As outlined above, 2024 federal Head Start/Early Head Start grant provides $29.7 million in the first year and similar amounts over five years to Contra Costa County,[21] the Mexican American Opportunity Foundation (MAOF), and The Unity Council,[22] supporting 1,634 total Head Start and Early Head Start slots (949 preschool, 685 infant–toddler) across multiple communities including Richmond, San Pablo, Pinole, Rodeo, Hercules, Martinez, Pittsburg, Antioch, Bay Point, Oakley, and Concord. These expansions explicitly prioritize underserved parts of West, Central, and East County, where low-income and immigrant families have faced the longest commutes to access quality early learning. In parallel, the Local Planning Council is using California's Universal PreKindergarten Mixed Delivery Planning Grant to strengthen partnerships between school districts, private centers, family child-care (FCC), and others in the early learning and care ecosystem.

The county and its partners are addressing geographic barriers by moving services closer to where families live and work. CocoKids' Child Care Eligibility Office in Concord serves as a central hub and also covers East County communities such as Antioch, Bay Point, Pittsburg, Brentwood, Byron, Discovery Bay, and Oakley, allowing families in these areas to access subsidy eligibility, referrals, and navigation through one regional office and multilingual phone support. First 5's Quality Matters initiative offers free coaching and training to early learning providers across Contra Costa County and now serves more than 200 participating programs, including many family child care homes (FCCs). Through Quality Matters and related initiatives, providers receive individualized site-level coaching, rating support, and professional development delivered through a mix of on-site visits, in-person trainings, and virtual learning formats, which has made it easier for FCCs and centers in outlying areas to engage consistently in quality-improvement activities.

Third, Contra Costa is using its zoning authority to embed child-care access into land-use decisions so that new development in more remote or previously underserved areas includes space for licensed programs. The County Ordinance Code's Chapter 82-22 (Child Care Facilities) clarifies that child care facilities are an allowed or conditionally allowed use in a broad range of zoning districts and, through recent amendments, authorizes child care centers (beyond small family day care homes) in residential, recreation, office, and agricultural zones with a land-use permit, expanding the number of places where

[21] Contra Costa County Employment & Human Services Department. "Contra Costa County Agencies Awarded $29.7 Million in Grants for Head Start Early Child Care Programs." Headlines Newsletter, September, 2024. https://ehsd.org/wp-content/uploads/2024/09/EHSD09-06-24.pdf

[22] The Unity Council. "The Unity Council Announces Munderservedajor Grant Award and Expansion of Head Start Services." September 26, 2024. https://unitycouncil.org/the-unity-council-announces-major-grant-award-and-expansion-of-head-start-services/

centers can be established.[23] These land-use changes, combined with affordable-housing and mixed-use projects that reserve ground-floor space for community-serving facilities near transit nodes like Bay Point Bay Area Rapid Transit (BART), are intended to ensure that as new housing is built (even in canyon corridors and delta communities) so families will have access to regulated early learning options within their own neighborhoods or along their daily commute.

Collectively, strategies of targeted slot growth, mobile and regionally distributed supports, and child-care-friendly zoning have begun to narrow geography-based gaps, though transportation limitations and workforce shortages remain key challenges cited by providers and families and will require ongoing investment in wage supports and mobile outreach to achieve truly universal geographic access.

18. Requests for Care

CocoKids data shows a total of 9,312 requests for care for infants, toddlers, and preschoolers between January 30th, 2025 and January 30th, 2026. Data is not available for part-day or full-day requests, but below is a breakdown by age range.

Table 18: Contra Costa County — Requests for Child Care by Age

Type of Care	Number of Requests	Percentage
Infants (under 2 years old)	5,656	42%
Preschoolers (2 years through 5 years, 11 months)	7,883	58%

Source: CocoKids, R&R Department Requests, January 30th, 2025 through January 30th, 2026.

Children under 2 years drive 42% of demand (5,656 requests), while preschoolers 2–5+ years represent 58% (7,883). Requests for care during nontraditional hours during this same time period totaled 2,557 (1,584 = before/after school; 46 = summer only; 927 = evening, overnight, weekends). CocoKids request data show a directional shift toward greater demand for infant/toddler care and nontraditional hours since the 2022 Child Care Needs Assessment.

This picture, combined with population and waitlist information, underscores the need for capacity to support the needs of working families for a range of childcare support.

[23] Contra Costa County. Ordinance Code, Title 8 Zoning, Division 82 General Regulations, Chapter 82-22 "Child Care Facilities." Available via Municode at: https://library.municode.com/ca/contra_costa_county/codes/ordinance_code?nodeId=TIT8ZO_DIV82GERE_CH82-22CHCAFA

19. Self-Sufficiency Standard Income

The previously used Insight Center for Community Economic Development does not provide current self-sufficieny income levels for a family of four in Contra Costa County, but the MIT Living Wage Calculator estimates that a family of two adults (both working) and two children in Contra Costa County requires an annual income of $182,895 before taxes to meet basic needs, equaling a monthly total of $11,863. This equates to an hourly wage of $34.22 per adult, assuming full-time employment (2,080 hours/year).

Table 19: Contra Costa County — 2026 Self-Sufficiency Standard Costs for a Two-Adult, Two-Children Household (both parents working)

Expenditure Category	Monthly Cost	Annual Cost	% of Annual Costs
Food	$1,228	$14,738	8.1%
Child Care	**$3,616**	**$43,396**	**23.7%**
Medical	$1,134	$13,604	7.4%
Housing	$2,930	$35,159	19.2%
Transportation	$1,380	$16,555	9.1%
Civic	$819	$9,827	5.4%
Internet & Mobile	$218	$2,618	1.4%
Other	$900	$10,804	5.9%
Annual Taxes	$3,016	$36,193	19.8%
Required Annual Income Before Taxes	**$15,241**	**$182,895**	**100.0%**

Source: MIT Living Wage Calculator for Contra Costa County, California (updated February 15, 2026). Available at https://livingwage.mit.edu/counties/06013

The annual living wage required for a Contra Costa County family with two working adults and two children has risen substantially in recent years, driven primarily by escalating child care and housing costs amid persistent inflation. Without substantial wage growth or expanded child care subsidies, many dual-income households will continue struggling to achieve self-sufficiency despite full-time employment.

20. Emergency Preparedness

Contra Costa County continues to strengthen a multi-agency system to support children and families during public health emergencies, wildfires, and other disruptions, with a focus on technology access, emergency childcare, health guidance, and multilingual outreach. These coordinated efforts aim to maintain continuity of early learning, protect health and safety in schools and child care, and reduce disparities for families most affected by health emergencies and other crises.

The Contra Costa County Office of Education (CCCOE) provides laptops and Internet hotspots to support the ongoing use of devices and online platforms for instruction, allowing schools to pivot between in-person and remote learning when classrooms must close due to smoke, flooding, or disease outbreaks.

CocoKids administers the California Emergency Child Care Bridge Program for Foster Children, offering time-limited childcare vouchers and navigator services to foster, kinship, and guardianship families who need care during placement changes or crises. On June 24, 2025, the Board of Supervisors expanded a contract with CocoKids to operate Bridge services from July 1, 2025, through June 30, 2026.[24] This contract ensures that foster and other vulnerable children can remain in stable, licensed care when emergencies disrupt family routines, reducing the likelihood that caregivers must leave work or that children experience unsafe arrangements.

Contra Costa County Public Health works with school districts and child-care providers to apply the California Department of Public Health (CDPH) TK–12 Guidance, which recommends layered prevention strategies including improved ventilation, staying home when sick, hand hygiene, respiratory etiquette, cleaning and disinfection, and keeping vaccinations up to date. CDPH explicitly notes that this guidance is intended for schools and child care and is to be implemented in collaboration with local health departments. In addition, Contra Costa Health publishes a "Communicable Disease Guide for Schools & Child Care Settings" that provides disease-specific fact sheets, exclusion criteria, and reporting procedures for outbreaks such as COVID-19, influenza, and gastrointestinal illnesses, giving child-care programs clear protocols to follow during health emergencies.

Contra Costa's Employment and Human Services Department's child care and community partners resources connect families to subsidies, emergency assistance, and developmental supports through coordinated referral systems. The Help Me Grow/Contra Costa Community Services Bureau resource directory lists centralized contacts for child-care subsidies, developmental screening, and home visiting, indicating that families can reach services through a single access point. Through the Emergency Child Care Bridge contract with CocoKids, the county also funds navigation and support for caregivers seeking licensed care that can meet children's behavioral and medical needs in times of crisis.

The Contra Costa County Office of Education's Early Learning Programs (ECE & CPIN) provides countywide training, technical assistance, and resource materials for early educators and families, and highlights partnerships with the California Child Care Health Program to promote health and safety in child-care settings. The Early Learning resources page includes multilingual materials and links on topics such as COVID-19, immunizations, and emergency preparedness, enabling providers to share information with families in languages commonly spoken in the county. These efforts complement the county's emergency alert system, which sends notifications about wildfires, power shutoffs, floods, and other hazards and offers preparedness materials in multiple languages to reach diverse communities.

Together, these actions demonstrate how Contra Costa County is working to ensure that children and families can continue learning, access safe care, and protect their health during and after health and other emergencies.

[24] Contra Costa County Board of Supervisors. File #25-4829, "Contract #20-170-16 (CFS) CocoKids, Inc., Contract Amendment – Emergency Child Care Bridge Program for Foster Children." November 18, 2025. https://contra-costa.legistar.com/LegislationDetail.aspx?ID=7744368&GUID=E5044810-32A9-41F4-AE2B-F93D110D6712

Conclusion

The 2026 Contra Costa County Childcare Needs Assessment confirms that while Contra Costa County has made progress in expanding preschool access and supporting provider quality, the early learning and care system remains under significant strain. Gaps are most severe for infants and toddlers, with only a small share of subsidy-eligible children served in public programs, rising waitlists, and persistent barriers for families seeking full-day, affordable care. Family child-care homes and centers together offer a sizable licensed infrastructure (although still insufficient), but providers report that staffing shortages, reimbursement levels, and operating costs limit their ability to use all of their licensed slots, especially for infant/toddler care. Preschool access is comparatively stronger, likely reflecting Transitional Kindergarten and CSPP growth, yet still falls short for working families that need full-day and wraparound options, and for children who require inclusive and culturally and linguistically responsive environments.

The early learning and education workforce, predominantly women of color and often bilingual, is skilled and dedicated but underpaid. Many educators experience economic insecurity, contributing to high turnover and chronic vacancies that undermine stability and quality. Quality improvement efforts through Quality Matters, increased professional development opportunities, and targeted wage-enhancement pilots have moved the county in a positive direction, but participation is uneven, and smaller centers and FCCs still face administrative and financial barriers to full engagement. Facilities investments are bringing additional rooms online in high-need communities, yet infant-toddler classrooms and inclusive preschool spaces remain insufficient in number and unevenly distributed. Taken together, these findings point to the need for bold, targeted strategies that address the underlying drivers of the challenge: Affordability, availability, compensation, infrastructure, and inclusion.

Going forward, the county's priorities should focus on:

- Expanding and activating infant/toddler capacity, especially in communities with the highest child poverty and waitlists;
- Stabilizing and valuing the early childhood workforce through sustained wage and benefit enhancements, streamlined access to professional development and credentials, and targeted support for bilingual and inclusive practice; and
- Improving affordability and navigability for families by enhancing subsidy access, coordinating enrollment across programs, and strengthening navigation through trusted hubs such as CocoKids, First 5 Centers, and school-linked services.

In parallel, the county should continue to invest in inclusive and multilingual environments and enhance shared data tools so partners can monitor capacity, utilization, equity gaps, and progress over time.

These efforts will require sustained collaboration among the Local Planning Council, First 5 Contra Costa, CocoKids, school districts, county departments, Head Start grantees, and community providers, as well as robust advocacy at the state and federal levels for cost-based reimbursement and flexible, long-term funding. If implemented together and at scale, the recommended strategies can move Contra Costa toward an early learning system in which infants and toddlers, preschoolers, children with disabilities, and linguistically and culturally diverse families all have genuine access to affordable, high-quality care in the neighborhoods where they live and work.

Paul Lamb, Man on a Mission Consulting, www.ManOnAMission.biz.

CONTRA COSTA COUNTY
2026 Child Care Needs Assesment
Summary Brief

69,137
children ages 0–5 in Contra Costa (2025).

73%
of children under age 5 have a working parent.

22%
of licensed seats are currently vacant.

28,538
licensed child care slots were reported as of February 2026.

10%
expected increase in 0-1 year old population by 2035.

7%
expected decrease in 5-year old population by 2035.

$43,000
is the approximate annual child care cost for a typical family.

Supply, Demand & Unmet Need

Estimated Vacancy Rate by Provider Type

FCC homes — 35%

Centers (infant/toddler) — 20%

Centers (preschool) — 15%

FCC homes are a key activation opportunity for infants and after hour care.

Waitlist Shift 2022-2026

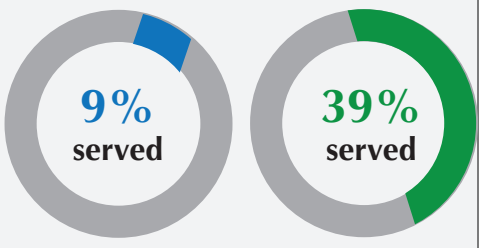
Infant/toddler (0-2 yrs)

2022 828

2026 1,616

+95%

Preschool (3-5 yrs)



2022 3,047

2026 1,151

-62%

Unmet demand has moved sharply toward the youngest children.

Eligible Children in Subsidized Care

Infant/toddler
91% unmet

Preschool
61% unmet

CONTRA COSTA COUNTY Office of Education
learn • lead • achieve

LPC
Contra Costa County
Local Planning & Advisory Council
for Early Care & Education

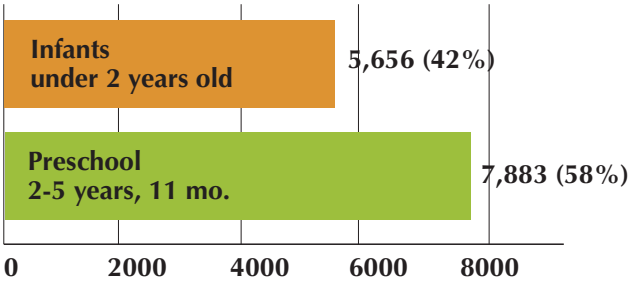
EARLY LEARNING WORKFORCE: SKILLED BUT UNDERVALUED

The Challenge

- 4,000 educators - predominantly women of color, many bilingual.
- Center teachers on average earn $6,300 less/yr than TK-12 teachers and FCC providers $16,500 less/yr.
- 95% of centers reported staff turnover (2021–23).

* Many educators rely on CalFresh and Medi-Cal to meet basic needs.

The Progress Made



- 159 certified Quality Matters sites serving 4,722 children.
- $29.7 Million Head Start/Early Head Start award for Contra Costa.
- The First 5 wage-enhancement pilot drew applications far beyond available slots.
- Licensed facilities grew from 1,118 in 2023 to 1,182 in 2026, and FCC homes increased 7.4%.

FAMILY VOICE: MIXED DELIVERY 2025 PARENT SURVEY (N=263)

> "It is a patchwork of family, friends, and paid child care that can crumble in a thousand tiny ways at any time."

- **84%** name cost as the #1 barrier.
- **61%** want non-traditional hours.
- **30%** cited limited availability, especially for infants and toddlers.
- **17%** wanted bilingual or multicultural care.

Care Requests by Age Jan 2025-Jan 2026

Who Needs Care

- Hispanic/Latino children make up 36% of all children ages 0–5.
- East County is projected to see continued population growth.
- 6,136 children ages 0–5 have an IFSP or IEP, and inclusive preschool spaces remain scarce.
- About 40% of residents speak a language other than English at home. Spanish, Farsi, and Mandarin are the top three languages spoken by kindergarteners.

Economic Need

- 11.6% of young children live in poverty.
- 34% are on Medi-Cal, 24% receive CalFresh, and 7% are in CalWORKs households.
- Self-sufficiency requires $182,895 per year for a family of four, and child care alone accounts for $43,396.

PRIORITY RECOMMENDATIONS FOR POLICYMAKERS

1

EXPAND AND ACTIVATE INFANT/TODDLER CAPACITY

Reactivate idle family child care slots and rebuild infant/toddler classrooms in high-poverty, high-waitlist communities. Increase and stabilize subsidy reimbursement rates. Add business and administrative supports for home-based providers.

2

STABILIZE AND FAIRLY COMPENSATE THE WORKFORCE

Raise wages toward a living wage and ensure access to health benefits. Expand bilingual and inclusive educator supports. Sustain wage-enhancement pilots beyond time-limited funding cycles to reduce chronic turnover.

3

IMPROVE AFFORDABILITY, ACCESS, AND EQUITY

Raise subsidy income thresholds to reflect Bay Area costs. Coordinate enrollment across programs and strengthen navigation hubs such as CocoKids, First 5, and school-linked systems. Expand non-traditional-hour, multilingual, and inclusive care, especially in East and West County.

Sources: Contra Costa County 2026 Child Care Needs Assessment | CocoKids (Feb 2026) | First 5 Contra Costa Early Childhood Systems Map (July 2025) | CA Dept. of Finance Vintage 2025 | U.S. Census ACS 2024 | MIT Living Wage Calculator (Feb 2026) | CSCCE at UC Berkeley (2024)

CALIFORNIA COUNTY LOCAL CHILD CARE PLANNING COUNCIL NEEDS ASSESSMENT – TEMPLATE

1. **Please include the following reports from the California Early Learning Needs Assessments Reports (CELNAR). Attach reports in Microsoft Excel or PDF directly from the CELNAR (http://reports.elneedsassessment.org/LPCReports.aspx).**
   a. **Table 1**: Number of Children by Age
   b. **Table 2**: Percent of Children by Race/Ethnicity and Age
   c. **Table 3**: Regional Market Rate Ceilings Allowed for State Subsidy by Age and Type of Care
   d. **Table 4**: Unmet Need for State and Federally Subsidized Programs for Infants and Toddlers
   e. **Table 5**: Unmet Need for State and Federally Subsidized Programs for Preschool

2. **Local population data.** Please provide below any additional information or explanation related to the population figures from the CELNAR. Please cite the specific source of data. *This could include any information related to recent population increases or decreases in your county, or local data sources that you believe provide more accurate estimates about the child population in your county (please cite specific source) than 1a-e above.*

Contra Costa County's recent child population data show a decline from 2021 to 2023, especially among children ages 2 to 4, according to the California Child Care R&R Network's 2023 Portfolio Report. CA Department of Finance projections point to growth among infants by 2035, so the county will need to shift planning toward infant and toddler care while maintaining preschool capacity.

3. **Local enrollment data.** Please provide any additional information about enrollment in early learning and care (ELC) programs not accounted for in 1a-e above (for example, locally funded preschool programs). Please cite the specific source of data.

A February 2026 CoCoKids snapshot shows 28,538 licensed slots for 0–5 with an 22% vacancy rate overall. The First 5 Child Care Systems Map reports ~9,767 children 3–5 served via Head Start, CSPP, child care subsidies, and TK, noting blending/duplication. Waitlists persist for low-income infants; capacity covers only 72% of working families' needs for licensed care.

4. **Waiting Lists.** Please provide any information you have related to the estimated number of children on ELC program waiting lists, by age cohort. Please cite the specific source of data.

CoCoKids CC4 waitlist reports show total children on waitlists dropping from 3,875 in 2022 to 2,767 in 2026, a nearly 30% decrease. However, infant–toddler requests almost doubled while preschool waitlists fell 62%, a shift likely due to TK and CSPP expansion. Unmet demand has pivoted to the youngest ages, even with some unused licensed infant capacity

5. **Language.** Please provide the number of children in kindergarten in your county speaking each language. This is a proxy for the languages of children zero to five years old. Please pull this information from California Department of Education (CDE) Dataquest.

Language	Number of Children
Spanish	1760
Tagalog	26
Mandarin	86
Cantonese	42
Vietnamese	28
Russian	48
Armenian	0
Arabic	42
Other: Persian	120
Other: Portuguese	44
Other: Pashto	36
All other non-English languages	374

6. **Local Language Data.** Please provide any additional local information you have related to the estimated number of children zero to five speaking different home languages. Please cite the specific source of data.

Nearly 40% of Contra Costa residents speak non-English at home (with Spanish growing); Based on CocoKids 2026 data, childcare providers report the following percentages of languages spoken on site by providers to children ages 0-5: English 55%, Spanish 21%, Farsi 4%; Tagalog/Hindi/Russian/Sign/Mandarin ~1–2% each.

7. **Children Receiving Special Education Services.**
   a. How many children under three years of age (up to 36 months) in your county had an Individualized Family Service Plan (IFSP) as of October of the most recent year? Please cite the specific source of data.

      Infants and toddlers with IFSPs: 114

      Source:

Contra Costa County Special Education Local Plan Areas (Contra Costa, West Contra Costa, San Ramon, and Mount Diablo), Special Education Information System (SEIS) database. 2024-2025 data from October 2025.

b. How many children ages three to four (from 37 to 60 months) in your county had an Individualized Education Program (IEP) as of October of the most recent year? Please cite the specific source of data.

Preschoolers with IEPs: 1695

Source:

Contra Costa County Special Education Local Plan Areas (Contra Costa, West Contra Costa, San Ramon, and Mount Diablo), Special Education Information System (SEIS) database. 2024-2025 data from October 2025. (Note: This data only divides ages by 0-3 and 3-5. Data specifically for 3-4 year olds is not fully available).

8. **Children under protective services (e.g., foster children).**

a. How many children under three years of age (up to 36 months) in your county are under protective services supervision as of October of the most recent year? Please cite the specific source of data. (Recommended data source: http://cssr.berkeley.edu/ucb_childwelfare/)

Infants and toddlers under protective services: 100

Source:

California Child Welfare Indicators Project (CCWIP), University of California, Berkeley and California Department of Social Services, In Care—Point in Time Count (AB 636), Contra Costa County, age group table (0; 1–2; 3–5), accessed January 22, 2026, at https://ccwip.berkeley.edu/childwelfare/reports/PIT/MTMG/r/ab636/l

b. How many children ages three and four in your county are under protective services supervision as of October of the most recent year? Please cite the specific source of data. (Recommended data source: http://cssr.berkeley.edu/ucb_childwelfare/)

Preschoolers under protective services: 54

Source:

California Child Welfare Indicators Project (CCWIP), University of California, Berkeley and California Department of Social Services, In Care—Point in Time Count (AB 636), Contra Costa County, age group table (0; 1–2; 3–5), accessed January 22, 2026, at https://ccwip.berkeley.edu/childwelfare/reports/PIT/MTMG/r/ab636/l

9. **Number of children in working families.** Please pull these numbers from the Early Learning Needs Assessment Tool subscription site (www.elneedsassessment.org).

Age Group	Number of Children in Working Families
Infants (less than one year old)	7,966
One-Year-Olds	8002
Two-Year-Olds	8392
Three-Year-Olds	9586
Four-Year-Olds	8678

10. **Families receiving public assistance.** Please indicate the number of children zero to five in families receiving public assistance (including CalFresh benefits, housing support, and Medi-Cal, and assistance from the Healthy Families Program and the Temporary Assistance for Needy Families [TANF] program). Please cite the specific source of data.

    Number of children: ~24K

    Source:

Total count is 23,744 for Medi-Cal recipients; 16,425 for CalFresh; 4,895 for CalWORKS; and ~3,000 for HUD housing support. Medi-Cal data used as largest category, as duplication exists. Source: Contra Costa County Department of Employment and Human Services, Community Services Bureau. Children and Family Services Committee Meeting presentation, July 14, 2025.

11. **Median family income.** Please indicate the median family income for a family of four. Please retrieve this data from data.census.gov (search for your county name to find its profile).

    Median income: $ 191,534

12. **Migrant Children.** Please indicate the number of children zero to five in migrant families. Please cite the specific source of data. (Census data, American Community Survey, ELNET, CELNAR, Resource and Referral)

    Number of migrant children: 8

    Source:

California Department of Education, Migrant Education Program (MEP), Region 23, San Joaquin County Office of Education. Accessed on January 21, 2026.

13. **Facilities.** Please describe ELC facilities needs in your county and any progress made in the past five years towards meeting those needs (for example, has the county conducted a facility needs assessment in the last two years? Are there any new facilities being built or that have been built in the last two years? Are there any sites that have expanded capacity due to facilities expansion?).

Facility needs remain for infant-toddler/inclusive spaces despite growth from 339 to 345 centers and 779 to 837 FCCs from 2023 to 2026 (CocoKids, Feb 2026). A 2024-25 $29.7M Head Start award funds 1,634 slots/upgrades, and a $2.8M grant is helping to modernize the Contra Costa College EL Center. State CCTR/CSPP has added capacity, but more capital is needed for high-need areas.

14. **Requests for care during nontraditional hours**. Please give an estimate of the number of requests for care during nontraditional hours during the past six months. Clearly specify your source of data. (Suggested resource: Local child care resource & referral agency, Alternative Payment agencies)

A CocoKids February 2026 snapshot shows 1,292 requests for nontraditional hours care in the past 6 months: 757 before/after school, 9 summer-only, 526 other (drop-in, evenings, overnight, weekends). The 2023 R&R Portfolio Report reveals: nontraditional requests = 2% of total; only 22% FCCs and 1% centers offer it. In a parent survey, 61.4% of respondents desire nontraditional hours.

15. **ELC Workforce and Quality Counts California (QCC).** Please describe needs in your county related to the workforce and site participation in QCC, and any progress towards meeting those needs. Be sure to include a summary of any findings from any local educational agency (LEA) or provider focus groups or surveys conducted for this Needs Assessment here.

CSCCE's 2024 Contra Costa study finds ECE educators are skilled but undervalued, with low wages causing hardship/turnover (95% centers lost staff 2021-23). 159 Quality Matters sites serve 4,722 kids. Progress: First 5 wage pilot, Measure X stipends, college coursework. Stated needs include livable pay, benefits, QCC simplification. Provider focus groups prioritize compensation and stability.

16. **Parent needs and concerns regarding access to quality early learning and care, needs for supports, family engagement, transition to kindergarten.** Please provide a description of findings from any focus groups or parent surveys conducted as a part of the Needs Assessment. Indicate how many parents participated and how parents were recruited for participation. Please provide some demographic information about the parents who participated and how well this reflects the demographics of your county. Please do not include any identifying information about parents.

A July 2025 CCCOE/CocoKids survey of 263 Contra Costa County parents shows 84.3% cite cost as a major barrier, and many spend $500 to $2,000 dollars monthly on care. Parents report limited infant slots, inconvenient hours, and fragile “patchwork” arrangements despite subsidies. They call for more affordable, flexible, culturally responsive care and smoother TK transitions.

17. **Access.** What is your county doing to ensure access to all geographic areas in your county, including remote areas? Please describe.

Contra Costa agencies and the Office of Education target high-need areas (East/West County), leveraging $29.7M in Head Start funding (1,634 slots in Antioch, Pittsburg, Richmond, etc.), UPK Mixed Delivery grants, and CocoKids' East County's area office. Zoning amendments enable centers in residential/agricultural zones. First 5 coaches 200+ County FCCs/centers, in person and remotely.

If you are a pilot county, please answer the following additional questions:

18. **Requests for care.** Approximately how many requests in the past year have agencies in your county received for the following types of care? (Suggested resource: Local child care resource & referral agency, Alternative Payment agencies)

Type of Care	Number of Requests
Infants: part-day	No Data
Infants: full-day	ND
Infants: nontraditional hours	ND
Toddlers: part-day	ND
Toddlers: full-day	ND
Toddlers: nontraditional hours	ND
Preschoolers: part-day	ND
Preschoolers: full-day	ND
Preschoolers: nontraditional hours	ND

19. **Self-sufficiency.** What is the self-sufficiency income level for a family of two adults and two children in your county? Please find this figure at https://insightcced.org/tools-metrics/self-sufficiency-standard-tool-for-california/

    $ 182,895

20. **Emergency Preparedness.** In the wake of the current pandemic, and other current emergencies, what is your county doing to ensure that children and families have access to resources that support distance learning, health and safety. Please describe .

Contra Costa ensures emergency access through resources such as equipment provision for distance learning, CoCoKids Emergency Child Care Bridge program for foster families, Public Health guidance (ventilation, vaccines), and multilingual resources (CCOE ECE/CPIN, Help Me Grow). County agencies also fully prioritize low-income/remote areas during wildfires/pandemics.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2676 **Agenda Date:** 6/23/2026 **Agenda #:** C.21.

To: Board of Supervisors

From: Monica Nino, County Administrator

Report Title: Approve the Board meeting minutes for May 2026

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE Board meeting minutes for May 2026, as on file with the Office of the Clerk of the Board.

FISCAL IMPACT:

No fiscal impact.

BACKGROUND:

Government Code Section 25101(b) requires the Clerk of the Board to keep and enter in the minute book of the Board a full and complete record of the proceedings of the Board at all regular and special meetings, including the entry in full of all resolutions and of all decisions on questions concerning the allowance of accounts. The vote of each member on every question shall be recorded.

CONSEQUENCE OF NEGATIVE ACTION:

The Board of Supervisors will not be in compliance with Government Code Section 25101(b).

To: Board of Supervisors

From: Airport Committee

Report Title: Reappoint Eric Meinbress to the Aviation Advisory Committee Member At-Large Seat

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
REAPPOINT Eric Meinbress to the Member At-Large #1 seat on the Aviation Advisory Committee to a term expiring February 28, 2029, as recommended by the Airport Committee.

FISCAL IMPACT:
None.

BACKGROUND:
The AAC provides a forum for the Director of Airports regarding policy matters at and around the airport.

The AAC comprises 11 members who must work and/or reside in Contra Costa County: one appointed by each Supervisor; one from, and nominated to the Board by the City of Concord; one from, and nominated to the Board by the City of Pleasant Hill; one from the community of Pacheco and nominated to the Board by the Airport Committee; one from the vicinity of Byron Airport (Brentwood, Byron, Knightsen, or Discovery Bay) and nominated to the Board by the Airport Committee; and two at-large to represent the general community, to be nominated by the Airport Committee.

During its meeting on June 11, 2026, the Airport Committee recommended the reappointment of Eric Meinbress to an At-Large Seat with a term ending on February 28, 2029.

CONSEQUENCE OF NEGATIVE ACTION:
The At-Large #1 Seat on the Aviation Advisory Committee will remain vacant.

To: Board of Supervisors

From: Internal Operations Committee

Report Title: RECOMMENDATION FOR APPOINTMENTS TO THE CONTRA COSTA COUNTY EMPLOYEES' RETIREMENT ASSOCIATION BOARD OF TRUSTEES

☐Recommendation of the County Administrator ☒ Recommendation of Board Committee

RECOMMENDATIONS:
REAPPOINT Jerry Holcombe to the Board Appointee #5 seat, APPOINT Eswar Menon to the Board Appointee #9 seat, and APPOINT Mario DiPrisco to the Board Alternate seat on the Contra Costa County Employees' Retirement Association Board of Retirement to new terms beginning July 1, 2026 and ending June 30, 2029, as recommended by the Internal Operations Committee

FISCAL IMPACT:
None to County. Retirement Board Trustees receive a stipend of $100 per meeting, plus mileage reimbursement, paid by CCCERA.

BACKGROUND:
The Contra Costa County Employees' Retirement Association (CCCERA) is administered by the Board of Retirement, an independent public entity responsible for general management of the association. With assistance from qualified professionals in the pension industry, the Board adopts regulations, policies, and procedures that are relevant to CCCERA, for the purpose of benefiting the members. CCCERA is also governed by the California Constitution and the regulations, procedures, and policies adopted by CCCERA's Board. The Contra Costa County Board of Supervisors may also adopt resolutions which affect member benefits, as permitted by the County Employees' Retirement Law of 1937.

The current term for three Board of Supervisors Appointee seats will expire on June 30, 2026. Staff initiated a recruitment by issuing a press release on April 13, 2026, through May 8, 2026 for Board of Supervisors Appointee #5, Appointee #9, and Appointee Alternate to #4, 5, 6, and 9.

To be eligible to serve on the CCCERA Board of Trustees as County appointees, applicants must be County residents, must not be Retirement System members or retirees, and may not market any investment, consulting, or related service to the Contra Costa County Retirement Board or any other 1937 Act Retirement Board. To be competitive, applicants should possess a sound business background, experience in pension fund investment or administration, or in equity investments or banking.

The April recruitment garnered five eligible applicants, all of whom were invited to interview with the Internal Operations Committee on May 26th:

- Stephen Biggs (Clayton)
- Mario DiPrisco (Lafayette)
- Larry Fernandes (Walnut Creek)
- Jerry Holcombe (incumbent, Walnut Creek)
- Eswar Menon (Walnut Creek)

The IOC interviewed all eligible applicants on May 26th except for Stephen Biggs, who withdrew his application for consideration at this time. As a result of the interviews, the IOC recommends the reappointment of Jerry Holcombe to seat #5, the appointment of Eswar Menon to seat #9, and Mario DiPrisco to the Alternate seat to new three-year terms that will expire on June 30, 2029. The IOC was very appreciative of all of applicants, who are highly qualified, and encouraged them to seek out future opportunities with the County's advisory bodies.

CONSEQUENCE OF NEGATIVE ACTION:
The County would not have full County representation on the Board of Trustees.

Would You Like to Serve on Contra Costa County's Retirement Board?

(Martinez, CA) – The Contra Costa County Board of Supervisors is seeking individuals with a sound business background, experience in pension fund investment or administration, or in equity investments or banking, to serve on the Contra Costa County Employees' Retirement Association Board of Trustees. To be considered, candidates must be County residents, must not be Retirement System members or retirees, and may not market any investment, consulting, or related service to the Contra Costa County Retirement Board or any other 1937 Act Retirement Board.

Regular meetings of the Retirement Board are held the first and third Wednesdays of each month beginning at 9:00 a.m. and sometimes extending into the afternoon. There may also be additional meetings on special topics that arise from time to time.

Members of the Retirement Board receive $100 per meeting up to a monthly maximum of $500, plus reimbursement for actual and necessary expenses. The appointment will be for a full three-year term beginning July 1, 2026 and ending June 30, 2029.

Application forms can be obtained from the Clerk of the Board of Supervisors by calling (925) 655-2000 or by visiting the County webpage. Applications should be returned to the Clerk of the Board of Supervisors, County Administration Building, 1025 Escobar St., Martinez, CA 94553 no later than 5 p.m. on Friday, May 8, 2026. Applicants should plan to be available for public interviews via Zoom (video meeting) on Tuesday, May 26, 2026.

Further information about the Retirement Board can be obtained by calling CCCERA CEO Christina Dunn at (925) 521-3960 or by visiting the website www.cccera.gov.

Qualifications and Volunteer Experience

Please explain why you would like to serve on this particular board, commitee, or commission.

I have served as a Board member since 2008. During that time, the Board and CCCERA staff have seen Plan assets grow from $5 Billion to $13 Billion. Together, the Board and the staff have also approved and initiated countless policy modifications that have further strengthened the organization. I'm proud of the role I've played in that effort and I look forward to continuing my contributions.

Describe your qualifications for this appointment. (NOTE: you may also include a copy of your resume with this application)

I retired as a Senior Vice President of $6.0 Billion-strong Delta Dental of California (Dentegra) following a 32-year career. During that time, I had a variety of corporate administrative responsibilities, including Communications, Public & Professional Relations, Advertising, Legal, Information Technology, Commercial Operations, Corporate Services and Human Resources. In my HR role, I had executive oversight responsibilities for the employee benefits program, including the 401-K plan that covered nearly 2000 employees.

Qualifications and Volunteer Experience

Please explain why you would like to serve on this particular board, commitee, or commission.

I have been a resident of Contra Costa County for 26 years and would like the opportunity to assist the Retirement Fund in its long-term goals. This would be an opportunity to give back to a community that my family and I care about.

Describe your qualifications for this appointment. (NOTE: you may also include a copy of your resume with this application)

I have extensive educational and work experience in asset allocation, investments and oversight of investment teams. I am a Board Trustee/Board Vice-Chair at the San Jose Police & Fire Retirement Board; also a member of the Audit Committee and Chair of the Joint Personnel Committee. Previously, I served as the Chair of The Investment Committee for about six years. As the Chair and Vice-Chair of the Joint Personnel Committee, I had significant responsibilies during the hiring of a new CEO and new CIO over the last two years. I am currently a professional investment manager and work as the Chief Investment Officer of Fundamental strategies at Empiric Institutional. Over my career, I have worked at well-known Investment firms like Nicholas-Applegate Capital Management, Loomis Sayles, WHV Investments and Geneva Advisors.

Qualifications and Volunteer Experience

Please explain why you would like to serve on this particular board, commitee, or commission.

Investing our retirement funds wisely and ethically is an important civic responsibility. There are a lot of very bad ideas in Finance and it is important to keep our beneficiaries' interests paramount.

Describe your qualifications for this appointment. (NOTE: you may also include a copy of your resume with this application)

I retired rom a long and successful career in investment management at the end of 2024 and want to get more involved in my community. I was an industry analyst and a portfolio manager of two award winning mutual funds (DODFX and DODEX) at one of the largest asset managers in the Bay Area (Dodge & Cox). My children are almost all out of the house and they no longer need my help in terms of coaching, volunteering in their classroom or, even, being an on-call chauffeur. I understand budgets and have a long held interest in public policy. I understand the private sector well from my career in Finance and am a firm believer that good public policy is essential to sustaining our successes and building a better future for our entire community.

(1993-1997) **Georgetown University, Bachelor in School of Foreign Service**, Regional & Comparative Studies (Latin America)

GPA: 3.45; Varsity Baseball (1993-95); Studied at PUC Santiago Chile (1996)

- Passed the State Department's Foreign Service Written & Oral Examinations (1997)
- Qualified as fluent in Spanish and Proficient in Portuguese (1997)
- Chartered Financial Analyst since 2002

Professional

(1998-now) **Dodge & Cox Investment Managers**

Founded in 1930, D&C is one of the largest independently owned investment managers in the United States

Became a shareholder in 2004

1998-2000 Research Assistant in Fixed Income. Advocated purchase of Argentine Brady Bonds and Pemex Finance Bonds.

2000-2015 Industry Analyst covering Banks in Europe, Africa and Latin America. Building Materials Globally.

2003-now Investment Committee Member of International Stock Fund (DODFX)

2019-now Investment Committee Member of Emerging Market Stock Fund (DODEX)

- Worked from start-up of Dodge & Cox International Stock Fund (DODFX). Morningstar Fund Manager of the Year x2. $4m AUM to ~$40bn today.
- Long track record of successful investing since 2000: ~4% alpha (buy vs sells) with 95% confidence interval.
- The bulk of my coverage (Banks outside US) underperformed broader index by 200% 2000-2015.
- Co-led the concept, design and launch of the 7th fund in D&C's history (DODEX).

Community

(1997) **City of Albany (CA), Paid Intern City Planning**

Successfully revised City By-laws on Animal Control among other responsibilities

(1998) **Senate Campaign of Barbara Boxer, communications intern**

Wrote talking points for the Senator while she campaigned up through the primary

(2000-2002) **City of Albany (CA), City Councilmember**

Ran successfully in a special election for a 2 year term created from a retirement

(2000-2004) **San Francisco University High School, Board of Trustees**

Served on the Alumni Council of my alma mater and eventually became the Chair of the Finance Committee of the Board

Interests

Doing something active in a beautiful place with people I like (e.g. white-water rafting, golf, hiking, etc).

A fan of too many sports and teams (e.g. Warriors, Giants, Arsenal, etc).

Trying to spend as much time with family as they'll tolerate (e.g. travel, skiing, BBQ, etc).

To: Board of Supervisors

From: Kristin Connelly, Clerk-Recorder

Report Title: Presentation - Graduates of the Certified Election Observer Program

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
PRESENTATION recognizing the graduating participants of the County's Certified Election Observer Program.

Recognize Kim Buck, Cathleen Crane, Tiffany Martin, Chris Moore, and William Walker for participating and becoming graduates of the program. They will be ambassadors for the Elections Division as we continue our mission to build public trust in elections.

FISCAL IMPACT:

None.

BACKGROUND:

The Elections Division launched its Certified Election Observer Program in 2022 to strengthen transparency and give interested residents a deeper understanding of how elections are administered in Contra Costa County. The program offers a comprehensive, start-to-finish look at the elections process from voter registration through final certification with behind-the-scenes access and opportunities to ask questions directly to election officials.

The Certified Election Observer Program features a series of online and in-person sessions held throughout the election. The course curriculum covers the essential components of California and federal election administration, including election security, voter registration and list maintenance, poll worker training, in-person voting operations, vote-by-mail processing, voting system testing, audits, ballot tabulation and adjudication, the canvass, provisional ballot procedures, reconciliation processes, and the final certification. Participants receive a "passport" of election activities and earn stamps as they complete each section of the comprehensive curriculum.

The Elections Division will continue offering the Certified Election Observer Program throughout the 2026 Statewide Election cycle and into the 2028 Presidential Election cycle, ensuring ongoing opportunities for additional residents to learn how elections are conducted in Contra Costa County.

CONSEQUENCE OF NEGATIVE ACTION:

The Elections Division will fail to recognize these members of the community who have volunteered their time to learn about election administration.

Report Title: Purchase Order with R-Computer for Pointnext Tech Care Essential Service

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Purchasing Agent, on behalf of the Clerk-Recorder, to execute a purchase order with R-Computer in an amount not to exceed $5,980 to provide Pointnext Tech Care Essential Service which supports the Elections Information Management System server, for the period of June 14, 2026, through June 14, 2028.

FISCAL IMPACT:

$5,980 General Fund. The costs of this purchase are within the Department's operating budget.

BACKGROUND:

The Elections Division requires the purchase of this warranty support coverage for the production server hosting the Elections Management System applications and database.

The Terms and Conditions for the HPE Pointnext Tech Care contain a Limitation of Liability clause that states HP's liability is capped at the amount paid for the service, neither HP nor the County can claim indirect or consequential damages, and HP is not responsible for delays or failures outside its control.

By executing this purchase order, the County agrees to defend, indemnify, and hold HPE harmless for any claims arising out of its performance under the purchase order agreement.

CONSEQUENCE OF NEGATIVE ACTION:

The Department will not have warranty coverage on its Election Management System servers in case of defect, breakage, or failure, which could result in the inability to backup data on the Elections servers.

File #: 26-2683 **Agenda Date:** 6/23/2026 **Agenda #:** C.28.

To: Board of Supervisors

From: Kristi Jourdan, Communication and Media Director

Report Title: Contract with CivicPlus for Social Media Archiving Services

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Purchasing Agent, on behalf of the Office of Communications and Media, to execute a purchase order with CivicPlus, LLC in an amount not to exceed $16,000 for social media archiving, subject to the terms and conditions of the CivicPlus Master Services Agreement, for the period of July 1, 2026, through June 30, 2027. (100% Cable Franchise Fees)

FISCAL IMPACT:

Approval of this agreement will result in annual contractual service expenditures up to $16,000 and will be funded with cable franchise fees.

BACKGROUND:

CivicPlus is a cloud-based platform to automatically and reliably archive social media activity on County social media platforms. This agreement includes mutual indemnification and limited liability language to hold harmless both parties for any claims arising out of the performance of this contract.

CONSEQUENCE OF NEGATIVE ACTION:

If not approved, the County could be out of compliance with records retention laws.

To: Board of Supervisors

From: John Kopchik, Director, Conservation and Development

Report Title: Contract extension with Crowe, LLP, for services related to solid waste and recycling collection franchises and rate setting

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Conservation and Development Director, or designee, to execute a contract amendment with Crowe, LLP, to increase the payment limit by $100,000 to a new payment limit of $300,000, and extend the term from June 30, 2026 through June 30, 2028, for technical assistance services related to the County's solid waste and recycling collection franchises.

FISCAL IMPACT:

100% Solid waste and recycling franchise fees. The cost for the change in payment limit for these retainer contract services will continue being paid for with the solid waste and recycling franchise fee revenue.

BACKGROUND:

The County has enterted into prior retainer contracts with Crowe, LLP (previously Crowe Horwath and NewPoint Group) in order to facilitate timely engagement of solid waste collection rate setting services as needed for over 25 years. The Department of Conservation and Development (DCD) has worked with the same Project Manager who has gained comprehensive County franchise specific knowledge and experience as a result of the rate setting assistance provided. The Project Manager’s background and in-depth understanding of the County franchises offer substantial value that benefit both the County and the County rate payers.

CONSEQUENCE OF NEGATIVE ACTION:

If the contract is not amended to extend the term and increase the payment limit, Department would not have access to the Crowe, LLP Project Manager's technical expertise needed to thoroughly review and analyze the solid waste collection rate applications and supporting financial documentation in order to determine the appropriate rate changes to be recommended to the Board.

To: Board of Supervisors

From: John Kopchik, Director, Conservation and Development

Report Title: FY 2026/27 Transportation Demand Management Contract with the Contra Costa Centre Association

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Director of Conservation and Development, or designee, to execute a contract with the Contra Costa Centre Association in an amount not to exceed $440,200 for transportation demand management services for the Contra Costa Centre area, for the period July 1, 2026 through June 30, 2027.

FISCAL IMPACT:
100% County Service Area M-31 funds. The commercial property owners at Contra Costa Centre voted to approve the formation of County Service Area M-31 to fund County mandated transportation demand management services in the area

BACKGROUND:
Contra Costa County (County) has required a Transportation Demand Management (TDM) program for the Contra Costa Centre area since 1986 to encourage the use of alternative modes of transportation by station area employees in order to mitigate the traffic impacts resulting from the development of the area. Property owners in Contra Costa Centre area were required to establish a County Service Area with an annual assessment to fund the TDM Program. The County has entered an agreement with the Contra Costa Centre Association to manage the TDM program for the Contra Costa Centre area each year since 1990.

The TDM program offers commute alternative service to BART station area employees. While there is no mandate requiring participation by employers or any penalty for non-participation, there has been high participation in the program by both employers and employees. The TDM program goals of achieving over 30% of the area employees travel to work via alternative modes (transit, carpool, vanpools, bicycle, walk, telecommute, etc.) have consistently been met. The project agreement covers a 12-month period from July 1, 2026 to June 30, 2027. It funds the operation of vanpools and a noon-time shuttle service to nearby commercial areas, bicycle services, on-site transit ticket sales, and marketing and management of a variety of transit subsidy and incentive programs.

CONSEQUENCE OF NEGATIVE ACTION:
The Contra Costa Centre Association members who have paid an annual assessment for TDM services would be unable to receive the TDM services through this contract.

File #: 26-2831 **Agenda Date:** 6/23/2026 **Agenda #:** C.31.

To: Board of Supervisors

From: John Kopchik, Director, Conservation and Development

Report Title: **Weatherization Contract Amendment #3 - Ambient Air (C46815-01)**

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Conservation and Development Director, or designee, to execute a contract amendment with Ambient Air, Inc., to increase the payment limit by $450,000 to a new payment limit of $1,500,000, with no change to the original term ending December 31, 2026, for the purchase or repair of additional heating and air conditioning equipment.

FISCAL IMPACT:
100% state and federal Weatherization Program Funds.

BACKGROUND:

The Department of Conservation and Development (DCD) has partnered with the Employment and Human Services Department (EHSD) for the past 20 years to provide energy-saving home improvements to low income families throughout unincorporated Contra Costa County, as well as the County's 19 cities. This funding is provided by state and federal grant programs including, but not limited to, the Low Income Home Energy Assistance Program (LIHEAP), the Energy Crisis Intervention Program (ECIP), and the U.S. Department of Energy (DOE).

With these grants, the Weatherization Program may provide homes with hot water heaters, furnaces, refrigerators, microwaves, doors, windows, LED (light emitting diode) light bulbs, LED night lights, Tier 2 Advanced power strips, occupancy sensors, weather-stripping, ceiling fans, and attic insulation.

Homes receive a blower door test (a diagnostic tool to locate and correct air infiltration), and homes with gas appliances receive a combustion appliance safety test that checks for carbon monoxide gas leakage. Homes with gas appliances are provided with a carbon monoxide alarm.

Under its grant funding contract, the Weatherization Program is required to meet minimum unit production goals (number of homes weatherized) by the end of its annual grant contract term. Failure to maintain the required production goals may result in the state reallocating our share of funding to other counties and could

jeopardize our future funding.

The contract with Ambient Air, Inc., became effective on March 15, 2023. The initial term is through December 31, 2026, with a payment limit not to exceed of $200,000. On December 12, 2023, the Board of Supervisors approved Amendment No. 1 (File #: 23-1134) with Ambient Air, Inc., to raise the contract limit to $600,000. On January 14, 2025, the Board of Supervisors approved Amendment No. 2 (File #: 25-71) to raise the limit to 1,050,000. Due to the high need of repairs/replacement of heating and air conditioning equipment, this contract amendment #3 is to increase payment limit to $1,500,000 in order to meet demand for weatherization services through the end of the contract period, with no changes to the end term date of December 31, 2026.

CONSEQUENCE OF NEGATIVE ACTION:
A denial would prevent DCD Weatherization Program from replacing or repairing heating and air conditioning equipment to eligible Contra Costa County clients.

File #: 26-2832 **Agenda Date:** 6/23/2026 **Agenda #:** C.32.

To: Board of Supervisors

From: John Kopchik, Director, Conservation and Development

Report Title: Solid Waste and Recycling Collection Services in the Unincorporated Areas Served by Crockett Sanitary Service, Inc. (Republic)

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

1. APPROVE and AUTHORIZE the Chair of the Board of Supervisors to execute a Franchise Agreement with Crockett Sanitary Service, Inc., a subsidiary of Republic Services, for solid waste, recycling, and organic waste collection services in Crockett, Port Costa and Tormey during the period from June 30, 2026, through June 30, 2045.

2. DETERMINE that it can be seen with certainty that there is no possibility that granting a franchise for these purposes under the Franchise Agreement may have a significant effect on the environment, and, therefore, this activity is exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15061 (b)(3) of the CEQA Guidelines.

3. DIRECT the Department of Conservation and Development (DCD) Director, or designee, to file a CEQA Notice of Exemption with the County Clerk and the State Clearinghouse.

FISCAL IMPACT:

The franchise fee paid by Crockett Sanitary Service, Inc. is calculated to recover the County's costs for staff time spent and other expenses to administer the Franchise Agreement, including any required consulting services, during the term of the Franchise Agreement.

BACKGROUND:

Crockett Sanitary Service, Inc., a subsidiary of Republic Services provides solid waste, recycling, and organic waste collection services within the following three (3) unincorporated areas of District V, as more particularly shown on Exhibit A to the Franchise Agreement ("Franchise Area") attached to this staff report:

1. Crockett
2. Tormey

3. Port Costa

In November 1996, the County entered into a Franchise Agreement with Walter Botta, the sole proprietor of the Crockett Garbage Company, to provide collection and recycling services for the unincorporated communities of Crockett, Port Costa and Tormey. Walter Botta immediately assigned his rights and obligations under the Agreement to Crockett Garbage Service, Inc. (name was subsequently changed to Crockett Sanitary Service, Inc.), which is a subsidiary of Richmond Sanitary Service, Inc. (owned by Republic Services). The Agreement was amended eight times and said amendments were approved by both Parties on November 1, 2016, December 20, 2016, March 1, 2017, July 22, 2025, September 30, 2025, December 9, 2025, March 1, 2026, and May 19, 2026.

The Franchise Agreement grants Crockett Sanitary Service, Inc., a subsidiary of Republic Services, the exclusive privilege and duty to collect solid waste, recyclables and organics routinely generated by residential and commercial customers within the Franchise Area.

Since May 2025, staff have been negotiating with Crockett Sanitary Service, Inc. over terms of a new Franchise Agreement to replace the existing agreement. In July 2025, the Board authorized the current Franchise Agreement with Crockett Sanitary Service, Inc. be extended through September 30, 2025. The Board authorized extending the term of the current Agreement four additional times extending the term through June 30, 2026, to allow negotiations between staff and Crockett Sanitary Service, Inc. to continue without a break in solid waste and recycling collection within the Franchise Area.

Staff have concluded negotiations with Crockett Sanitary Service, Inc. The new Franchise Agreement, attached as Exhibit A to this staff report, is based on the previous Agreement as well as the County's 2025 Franchise Agreement with Richmond Sanitary Service, Inc. The most notable modifications to the existing Agreement include:

4. A new 19-year term from June 30, 2026, through June 30, 2045
5. Additional Community Clean-up boxes
6. New multi-family on-call bulky item collection service
7. Increased single-family residential bulky item collection
8. New provision for residential scheduled clean-up day
9. Revised rates (with the same rate-setting methodology for any future rate adjustments)

This new Franchise Agreement ensures that solid waste and recycling collection services provided to the County in the Crockett Franchise Area meet current regulatory, legal, and performance standards. Residential and commercial solid waste customers are provided with solid waste collection services, including separate containers for trash, recyclables, and organics. This ensures customers are provided the means for proper disposal and recycling of solid waste materials at rates that recover the cost of collection services provided by Crockett Sanitary Service, Inc.

Rates are increasing substantially, primarily due to increased disposal costs, labor increases resulting from recently approved collective bargaining agreements, and to a lesser degree the new service enhancements. Below are two tables showing the new residential collection rates to take effect July 1, 2026. The new commercial collection rates are shown in Exhibit B to the Franchise Agreement.

Table 1 - Residential Rates for Curbside Collection

Container Size	Current Monthly Rates	Monthly Rate Increase	New Monthly Rates (effective July 1, 2026)
20-gallon cart	$41.52	$11.10	$52.62
35-gallon cart	$49.23	$12.93	$62.16
45-gallon can	$65.02	$16.68	$81.70
65-gallon cart	$86.31	$21.73	$108.04
95-gallon cart	$104.86	$26.12	$130.98

Table 2 - Residential Rates for Backyard Collection

Container Size	Current Monthly Rates	Monthly Rate Increase	New Monthly Rates (effective July 1, 2026)
20-gallon can	$41.52	$11.10	$52.62
35-gallon can	$50.50	$13.24	$63.74
45-gallon can	$66.40	$16.99	$83.39

The majority of residential customers in this Franchise Area subscribe to curbside collection service using the 35-gallon trash cart.

The Franchise Agreement authorizes annual increases in the rates (on January 1 of each year), not to exceed 4.5%, to account for changes in the consumer price index for water, sewer, and trash collection services. In years 1, 7, and 13 of the Agreement, the rates will be reviewed to determine whether a further adjustment is required to properly account for the actual cost of service.

In order to meet SB 1383 container contamination minimization requirements, this Agreement authorizes Crockett Sanitary Service, Inc. to charge a contamination fee. Prior to imposition of the fee, notification and an educational grace period will be provided to customers informing them of the proper procedures for sorting recyclable and organic materials.

This Franchise Agreement only includes minor changes to existing collection services. Department of Conservation and Development staff have determined that it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment and, therefore, this activity is exempt under CEQA Guidelines section 15061(b)(3).

CONSEQUENCE OF NEGATIVE ACTION:

After June 30, 2026, Crockett Sanitary Service, Inc. would no longer provide solid waste, recycling, and

organics collection services pursuant to a County Franchise Agreement as required by County Code Chapter 418-7. Staff would either need to continue to negotiate with Crockett Sanitary Service, Inc. or consider other alternatives for providing these critical public services.

FRANCHISE AGREEMENT
BETWEEN THE
COUNTY OF CONTRA COSTA
AND
CROCKETT SANITARY SERVICE, INC.

This Franchise Agreement ("**Agreement**") is entered into effective June 30, 2026 ("**Effective Date**"), by and between Crockett Sanitary Service, Inc., a California corporation ("**Contractor**"), and the County of Contra Costa, a political subdivision of the State of California ("**County**"). County and Contractor are sometimes referred to herein together as the "**Parties,**" and each, individually, as a "**Party**." (Capitalized words and phrases used in the recitals below shall have the definitions ascribed to them in Section 1 (Definitions) of this Agreement.)

RECITALS

A. The County and Contractor are parties to the Prior Agreement, which expires on June 30, 2026.

B. The County and the Contractor desire to enter into this Agreement to grant the Contractor the exclusive right to collect and remove, for disposal and recycling, all Residential Solid Waste and Commercial Solid Waste within the Franchise Area, and to provide for rates Contractor may charge Customers in the Franchise Area for Solid Waste collection, among other terms of this Agreement. This Agreement includes in **Exhibits A- E**, attached hereto and incorporated herein. The Parties intend for this Agreement to replace the Prior Agreement as of the Effective Date first written above.

NOW, THEREFORE, in consideration of the mutual covenants, agreements, and consideration contained in this Agreement, County and Contractor agree as follows:

AGREEMENT

1. **DEFINITIONS.** The following terms used in this Agreement have the following meanings:

   a) **Affiliated Entity.** "Affiliated Entity" means any person or entity that provides products or services to Contractor and in which either Contractor or the Affiliated Entity owns a thirty percent (30%) or greater interest in the other, or where one person or entity owns thirty percent (30%) or greater interest in both. For purposes of this definition of "Affiliated Entity" only, "Contractor" shall include Contractor, and if Contractor is an individual, or a group of individuals (e.g., partnership), all immediate family members; or, if Contractor is a corporation, "Contractor" shall include major shareholders and, if any major shareholder, is an individual, said individual's immediate family members. For the purpose of this

definition of “Contractor” within this definition “Affiliated Entity” only, "immediate family members” include spouses and relatives of the first degree of consanguinity, and their spouses.

b) **Act.** "Act" means the California Integrated Waste Management Act of 1989 (Public Resources Code, § 40000 et seq.) and all rules and regulations adopted under any of those sections, as such sections, rules, and regulations may be amended from time to time in the future.

c) **Applicable Law.** “Applicable Law” means all of the following, regardless of whether they are in effect as of the Effective Date or become effective any time thereafter: all applicable laws, regulations, ordinances, rules, orders, judgments, rulings, decrees, permits, approvals, and other requirements of any federal, state, county, city, regional, and local governmental agency or judicial or administrative body having jurisdiction over the collection and/or disposition of Solid Waste, including Recyclable Materials, Organic Waste, or that otherwise govern the County’s legal obligations or Contractor’s operations. The foregoing notwithstanding, Applicable Law does not limit or preclude a Change in Applicable Law, as defined herein, which would require certain meet and confer and rate review obligations under Section 8(h) of this Agreement.

d) **Basic Service.** “Basic Services” means the Basic Residential & Commercial Services performed by Contractor as set forth in **Exhibit B** of this Agreement.

e) **Board.** "Board" means the Board of Supervisors for the County of Contra Costa.

f) **Bulky Items.** “Bulky Items” means those materials including, but not limited to furniture, carpets, mattresses, white goods, brown goods, E-waste, clothing and large Green Waste items that do not exceed 1.8 cubic yards in size and weigh no more than two hundred (200) pounds which are generated from the activities of a single-family or multi-family residential dwellings of up to four units. Bulky items include “Bulky wastes” and means Solid Waste items which by their large size or weight are precluded from normal storage and collection. Bulky Items include, but is not limited to stoves, refrigerators, water heaters, furniture, mattresses/boxsprings, etc., subject to the size and weight limitations set forth above that require special arrangements for collection.

g) **California Integrated Waste Management Act or the Act.** “California Integrated Waste Management” Act or “the Act” means the California Integrated Waste Management Act of 1989 (Public Res. Code, § 40000 et seq.) and all rules and regulations adopted under any of those sections, as such sections, rules and regulations may be amended from time to time in the future subject to the Change in Applicable Law provisions of this Agreement.

h) **CalRecycle.** “CalRecycle” means California's Department of Resources Recycling and

Recovery, which is the State Agency charged with responsibility for developing, implementing, and enforcing the provisions of the Act.

i) **CCR.** "CCR" means the State of California Code of Regulations. CCR references in this ordinance are preceded with a number that refers to the relevant Title of the CCR (e.g., "14 CCR" refers to Title 14 of CCR).

j) **Change in Applicable Law.** "Change in Applicable Law" means (i) the enactment, adoption, promulgation, amendment, repeal, judicial interpretation, or formal administrative interpretation of any Applicable Law, including any County-directed changes to the terms and conditions of this Agreement; (ii) the issuance of any order or judgment of any federal, state, or local court or agency in a proceeding to which a Party is a party, but not to the extent such order or judgment finds the Party asserting there to have been a Change in Applicable Law to have been negligent or otherwise at fault; or (iii) the denial, suspension, or termination of any government permit or other entitlement, but not to the extent such denial, suspension, or termination is the result of any act or omission of the Party asserting there to have been a Change in Applicable Law.

k) **Collection Rates.** "Collection Rates" mean the rates for Residential Solid Waste and Commercial Solid Waste collection, Recycling, and disposal within the Franchise Area, as may be revised from time to time in accordance with this Agreement.

l) **Commercial Solid Waste.** "Commercial Solid Waste" means Solid Waste routinely originating from stores, business offices and other commercial and light industrial sources, excluding residences and wastes from heavy industry (i.e., industry that manufactures or processes petroleum, lumber, steel, chemicals, explosives, fertilizers, gas, rubber, cement, sugar and other products [see Section 84-60.402 of the Contra Costa County Ordinance Code.]). Commercial Solid Waste does not include construction or demolition waste, industrial waste, or septage.

m) **Conservation and Development. "**Conservation and Development" means the County's Department of Conservation and Development.

n) **Customers.** "Customers" means those who have contracted with the Contractor for the collection, removal, or Recycling of Recyclable Material and/or for the collection, removal, or disposal of other Solid Waste, pursuant to this Agreement and applicable ordinances of County, including mandatory subscription ordinances.

o) **Designated Waste.** "Designated Waste" as used herein has the meaning set forth in 23 CCR 2522, as amended from time to time.

p) **Director.** "Director" means the Director of the County's Conservation and

Development Department.

q) **E-waste.** “E-waste” means discarded electronic items such as stereos, televisions, and other similar items.

r) **Excluded Waste.** “Excluded Waste” means Biomedical Waste, Hazardous Waste, Hazardous Substances, Universal Waste, Special Waste, volatile, corrosive, infectious, Biohazardous, and toxic substances or material, waste that cannot be disposed of in Class III Landfills, waste that would present a significant risk to human health or the environment.

s) **Food Waste.** “Food Waste” means (1) food scraps, including all edible or inedible food such as, but not limited to, fruits, vegetables, meat, poultry, seafood, shellfish, bones, rice, beans, pasta, bread, cheese, coffee grounds, and eggshells; and (2) food-soiled paper, which is compostable paper material that has come in contact with food or liquid, such as, but not limited to, compostable paper plates, paper coffee cups, napkins, and pizza boxes. Food Waste excludes fats, oils, and grease when such materials are Source Separated from other Food Waste.

t) **Franchise Area.** "Franchise Area" means the geographic area generally known as the unincorporated communities of Crockett, Port Costa, and Tormey, as described and depicted in **Exhibit A** to this Agreement, which is attached hereto and incorporated herein by reference, and illustrated in maps to be maintained and available for inspection at Conservation and Development. **Exhibit A** and said maps shall be amended from time to time to reflect changes in jurisdictional boundaries approved by LAFCO, or as agreed upon by the Parties, to reflect changes of boundaries of the Franchise Area.

u) **Green Waste.** “Grean Waste” means grass clippings, leaves, landscape and pruning waste, wood materials from trees and shrubs, and other forms of organic materials generated from landscapes or gardens.

v) **Hazardous Waste.** "Hazardous Waste" includes any waste material or mixture of wastes which is toxic, corrosive, flammable, an irritant, a strong sensitizer, which generates pressure through decomposition, heat or other means, if such a waste or mixture of wastes may cause substantial personal injury, serious illness or harm to humans, domestic animals, or wildlife, during or as an approximate result of any disposal of such wastes as defined in Article 2, Chapter 6.5, Section 25117 of the Health and Safety Code. The terms "toxic", "corrosive", "flammable", "irritant", and "strong sensitizer" shall be give the same meaning as in the California Hazardous Substances Act (Chapter 4 commencing with Section 108100 of Division 104 of the Health and Safety Code).

w) **Industrial Waste.** "Industrial Waste" means Solid Waste originating from mechanized manufacturing facilities, factories, refineries, and publicly operated treatment works, or

that result from industrial processes and manufacturing operations and/or that originate from those facilities.

x) **Infectious Waste.** "Infectious Waste" as used herein has the meaning set forth in Health and Safety Code Section 25117.5, as amended from time to time.

y) **Liquidated Damages.** "Liquidated Damages" means the amounts agreed upon by Contractor and County as fair and reasonable damages for Contractor's failure to meet specific quantifiable standards of performance as described in **Exhibit E.**

z) **Multi-Family.** "Multi-Family" or "Multi Family Residential Complex" means a residential development with five (5) or more multiple-family dwelling units.

aa) **Non-Franchised Contractor.** "Non-Franchised Contractor" means a contractor hired to perform a service, including but not limited to landscaper or building contractor, where such service may include the removal and disposal or recycling which is solely incidental to work such as remodeling or gardening occasionally performed by or for the customer.

bb) **Organic Waste.** "Organic Waste" means solid waste containing material originated from living organisms and their metabolic waste products including, but not limited to, food, green material, landscape and pruning waste, lumber, wood, paper products, printing and writing paper, and manure.

cc) **Prior Agreement.** "Prior Agreement" means and includes the Franchise Agreement, dated November 6, 1996, by and between Contractor and County, as amended by a First Amendment to Franchise Agreement dated November 1, 2016, a Second Amendment to Franchise Agreement, dated December 20, 2016, a Third Amendment to Franchise Agreement, dated March 1, 2017, a Fourth Amendment to Franchise Agreement, dated July 22, 2025, a Fifth Amendment to Franchise Agreement, dated September 30, 2025, a Sixth Amendment to Franchise Agreement, dated December 9, 2025, a Seventh Amendment to Franchise Agreement, dated March 17, 2026, and a Eighth Amendment to Franchise Agreement, dated May 19, 2026, collectively.

dd) **Prohibited Container Contaminants.** "Prohibited Container Contaminants" means the following: (i) Materials placed in the recyclables container that are not designated as acceptable under this Agreement; (ii) Materials placed in the organics container that are not designated as acceptable under this Agreement; (iii) Materials placed in the trash container that are otherwise designated as acceptable in either the recyclables container or organics container under this Agreement; and, (iv) Excluded Waste placed in any container.

ee) **Recycle or Recycling.** "Recycle," or "Recycling" means the process of collecting, sorting, cleaning, treating and reconstituting materials that would otherwise become Solid

Waste, and recovering them so that they may be turned into new, reused, or reconstituted products. Recycle or Recycling includes compost or composting of organic materials including yard waste and food waste as well as any other Director approved means of diverting waste authorized by Applicable Law. Green waste collected in this Franchise Area shall not be used as ADC.

ff) **Recyclable Material.** "Recyclable Material" means all organic and non-organic materials the Contractor is required to Recycle in its curbside collection program, including but not limited to glass, aluminum, paper and organic waste. Listing of Recyclable Material currently collected by Contractor is set forth in **Exhibit B**, attached hereto and incorporated herein. **Exhibit B** may be changed from time to time by agreement of the County and Contractor, or pursuant to the provisions of Section 11 and Section 15 of the Agreement.

gg) **Residential Solid Waste.** "Residential Solid Waste" means Solid Waste routinely originating from single-family or multiple family dwellings of four (4) units or less. Residential Solid Waste does not include Septage.

hh) **Septage.** "Septage" means non-sewered liquid or semi-liquid waste which may be trucked to treatment facilities for disposal, to include, but not be limited to, waste from residential septic tanks, commercial grease cleanouts, and industrial waste holding facilities.

ii) **Solid Waste.** "Solid Waste" has the meaning set forth in Section 40191 of the California Public Resources Code as of the date of execution of this Agreement. Solid Waste includes, but is not limited to, all putrescible and non-putrescible solid, semisolid, and liquid wastes, including garbage, trash, refuse, paper, rubbish, ashes, industrial waste, demolition and construction wastes, abandoned vehicles, and parts thereof, discarded home and induction appliances, dewatered, treated, or chemically fixed sewage sludge which is not hazardous waste, manure, vegetable or animal solid and semisolid wastes and other discarded solid and semisolid wastes. Solid Waste does not include Hazardous waste, radioactive waste, and medical waste.

jj) **Waste Stream.** "Waste Stream" means the Solid Waste to be collected under this Agreement from the time of its collection by the Contractor to its disposal at a landfill or, at County's discretion, delivery to a transfer facility or other post-collection facility by Contractor.

2. **TERM.** Subject to Section 32 (Annexation and Change of Franchise Area Boundaries) and Section 34 (Breach and Termination), the term of this Agreement begins on the Effective Date, and it expires on June 30, 2045. As of the Effective Date of this Agreement, the Prior Agreement is terminated and replaced and superseded in its entirety by this Agreement.

3. **INTENT TO REGULATE ALL RECYCLING AND SOLID WASTE COLLECTION, REMOVAL AND/OR DISPOSAL.** The parties hereto agree that County currently has jurisdiction to regulate the collection, removal and disposal of all Solid Waste, and the recycling of all material in the Franchise Area. The intent of this Agreement is to establish the terms for Solid Waste handling service and recycling of material in the Franchise Area.

4. **EXCLUSIVE PRIVILEGE AND DUTY.**

   a) To the extent allowed by law, County hereby grants to Contractor the exclusive privilege and duty to (i) collect and remove, for disposal and Recycling, all Residential Solid Waste, and Commercial Solid Waste, including Recyclable Material, from within the Franchise Area, pursuant to the terms of this Agreement, and (ii) charge Collection Rates for the services Contractor performs within the Franchise Area in accordance with this Agreement.

   b) Contractor shall collect and remove, for disposal and Recycling, all Solid Waste, including Recyclable Material, from Customers within the Franchise Area in accordance with this Agreement.

   c) Contractor shall perform the Basic Services at the authorized Maximum Collection Rates described in **Exhibit B**, attached hereto and incorporated herein.

5. **EXCEPTIONS TO EXCLUSIVE PRIVILEGE.** The exclusive privilege granted by this Agreement shall not apply for any of the reasons described in this Section.

   a) A person or entity generates Solid Waste, including Recyclable Materials, and personally collects, removes, and disposes or recycles such in a clean and sanitary manner in conformance with all applicable laws and regulations, including mandatory subscription ordinances. Provided, however, that this exception only applies to a generator of the Solid Waste and shall not apply to a person who incurs a net cost of collection to a third person in the above-described activities.

   b) A person or entity contracts with Non-Franchised Contractor for the removal and disposal or recycling of inorganic refuse or garden waste and such removal and disposal or recycling is performed by Contractor using its own employees, vehicles and equipment and is solely incidental to work such as remodeling or gardening occasionally performed by or for the customer. This exception shall not apply if the Non-Franchised Contractor incurs a net cost of collection to any third person in connection with its collection and/or disposal of said Solid Waste.

   c) Recyclable Materials that are not placed out for collection by Contractor and are accumulated solely for the purpose of the generator donating them to youth, civic, and charitable entities.

6. **CONTRACTOR'S DUTY TO MAINTAIN RECORDS; COUNTY'S RIGHT TO EXAMINE RECORDS.**

a) Contractor shall maintain a proper set of books and records in accordance with generally accepted accounting principles, accurately reflecting the business done by it under this Agreement.

b) Contractor shall further maintain and make available to County, upon its request, records as to number of Customers and addresses, total and by type, route maps, service records and other materials and operating statistics in such manner and with such detail as County may require. County shall treat the information required by this paragraph that (1) affects customer information held by Contractor as private information, and (2) contains confidential information that can adversely affect the competitive position of the company as confidential and proprietary information to the extent permitted by law.

c) At any time during the term of this Agreement, County, at its discretion, may have the books and records of the Contractor examined by a County Agent or Agents appointed for that purpose by the County. Unless such examination pertains to review of a rate application submitted by the Contractor, County shall give thirty (30) days written notice to the Contractor of such examination date.

d) The information required by this section shall pertain to Contractor's operations covered and regulated by this Agreement, and nothing contained herein shall require the Contractor to provide the County with information pertaining to the Contractor's operations which are not regulated by the County, except in conformance with this section.

e) For the purposes of rate setting, County's Agents may examine Contractor's books, records and financial statements pertaining to operations not regulated by the County as may be reasonably required for the sole purpose of gathering information necessary to allow the Agents to ascertain whether income, expenses, assets and liabilities are reasonably and consistently allocated among operations regulated by County and those not regulated by the County. Contractor shall obtain County's written approval of its method of segregating its financial records between County-regulated and non-County regulated operations. County shall not unreasonably withhold such approval.

f) Information gained from examination of Contractor’s financial records pertaining to any operations not regulated by the County shall be treated by County and its Agents as confidential information and shall not become public records subject to the provisions of the California Public Records Act.

g) For the review of books and other financial records necessary to verify the Contractor's income, expenses, assets and liabilities, “County Agent” shall mean County employees or any independent Certified Public Accountant or professional financial consulting firm retained by the County. For all other information or records, including the results of financial verification, “County Agent” shall mean any consultant designated by the County

or County employees.

h) County is subject to requests under the California Public Records Act (Gov. Code, § 7920.000, et seq.) ("CPRA") and the County Better Government Ordinance (Title 2, Division 25 of the County Ordinance Code), as well as court orders, third-party subpoenas, and discovery requests (each a "Records Request"). County and Contractor agree that the confidential and proprietary Information that may be provided to County by Contractor is subject to Contractor designating these materials "trade secrets" or "confidential and proprietary" under Government Code Section 7927.705, Evidence Code Section 1060, Civil Code Section 3426.1(d), and Public Resources Code Section 40062(a). In the event that County receives a Records Request seeking disclosure of information Contractor has designated as "trade secrets" or "confidential and proprietary," the Director will promptly notify the Contractor in writing (email is sufficient), and, within 10 days after the Director provides that notice, the Director and the Contractor's authorized representatives shall meet in person or virtually to review the Records Request and consider whether any records are exempt or protected from disclosure to the third-party requester under any applicable state or federal laws or regulations. If the Director determines that the records must be produced to the third-party requester notwithstanding Contractor's difference of opinion or objection to such disclosure, the Contractor shall have 14 days from the date of the meeting to seek an order from the Contra Costa County Superior Court preventing or temporarily preventing the County from disclosing said records. If, within said 14-day period, the Contractor has not obtained a court order preventing or temporarily preventing the County from disclosing the records, the County may disclose all disclosable records discussed at the meeting between the Director and Contractor's authorized representatives without violating or being in breach of any terms of this Agreement. In the event that the County withholds any Contractor records responsive to a Records Request on the basis that they contain Contractor's trade secret or confidential and proprietary information and litigation is filed against the County connected with that withholding, the Contractor shall defend and indemnify the County in such litigation, which indemnity shall cover County's reasonable expenses, including County's attorney's fees, and any damages or attorney's fee awards ordered by the Court or negotiated by the parties to said litigation. The obligations of this Section 6(h) shall survive the termination or expiration of this Agreement.

7. **RATE REGULATION IN GENERAL. ESTABLISHMENT AND ADJUSTMENT OF RATES.**

a) The County shall establish and regulate Collection Rates. In establishing the Collection Rates, the County shall use the methodology set forth in the Rate Setting Process and Methodology Manual, as may be modified from time to time (the "Rate Manual"). The foregoing notwithstanding, nothing in the Rate Manual shall in any way conflict with or supersede any express provision of this Agreement.

b) In determining the Collection Rates, the County shall consider fairness to both Contractor and the Customers. Reasonable costs incurred by Contractor pursuant to this Agreement shall be determined by the County, after consultation with Contractor, during the rate

review process.

c) The maximum Collection Rates that Contractor may charge Customers within the Franchise Area for collection, Recycling, and disposal services are the Collection Rates approved by the County for Solid Waste collection pursuant to this Agreement as set forth in **Exhibit B**. Nothing in this Agreement precludes Contactor from charging rates less than the maximum rates fixed by the County.

d) Absent a Change in Applicable Law and except as provided herein, adjustments to the Collection Rates may not be passed through to Customers in the Franchise Area more than once in any calendar year unless otherwise approved by the County.

e) Following consultation with the Contractor and examination of industry norms and trends, the County, in its sole discretion, shall determine the method of determining Contractor profitability.

8. **RATES.**

a) The Collection Rates that apply to Basic Services are set forth in **Exhibit B**.

b) The Collection Rates are subject to annual adjustments in accordance with the Rate Manual, unless otherwise specified herein and below.

c) Maximum Allowed Collection Rates. Maximum Rates for Residential and Commercial Collection are set forth in **Exhibit B**.

d) Annual Adjustment of Collection Rates for Change in CPI. The Maximum Collection Rates in **Exhibit B** shall be adjusted on January 1, 2027, and each January 1 thereafter of each year during the Term hereof in accordance with one hundred percent (100%) of the change in the Consumer Price Index ("CPI") for the preceding year, measured from August to August. "CPI" means U.S. Bureau of Labor Statistics, Consumer Price Index for All Urban Consumers: Water and Sewer and Trash ("WST") Collection Services in U.S. City Average [CUUR0000SEHG], as published by the United States Department of Labor, Bureau of Labor Statistics. The maximum adjustment in any year for a change in CPI shall be 4.5% per year, and any additional amount above the 4.5% shall roll over into the following year only to be included in that year's annual adjustment, provided, however, that the annual adjustment in any year shall not exceed 4.5%. The roll over amount for any year over year change in CPI shall be included in the process for review of Contractor's Collection Rates pursuant to the Review and Adjustment process set forth in Section 8(e) below. Notwithstanding the foregoing, in any year there is a rate review under Section 8(e) below Contractor shall not be entitled to a CPI adjustment in that year.

e) Review and Adjustment of Collection Rates in Agreement Years 1 (2027), 7 (2033), and 13 (2039). The review shall be conducted consistent with the County's Rate Regulation Manual utilizing operating margin guardrails of 12 percent (12%) to 15 percent (15%). If

the Contractor's operating margin in the years preceding the rate review falls below 12% or above 15% then the rates will be adjusted to reflect an operating margin of 14%. Pursuant to Section 8(d) above, for the interim years between reviews and adjustments of rates conducted in Agreement Years 1 (2027), 7 (2033), and 13 (2039), Contractor shall receive annual rate adjustments based on the change in CPI, as set forth in Section 8(d).

f) Rate applications shall be prepared in accordance with such forms and in such detail as required by the County. Rate application forms and associated guidelines and instructions are contained in the Rate Manual approved by the County. The foregoing notwithstanding, nothing in the Rate manual shall in any way conflict with or supersede any express provision of this Agreement.

All rate applications shall include information from the previous approved rate change to the present, or such other period of time as is selected by the County. In accordance with the provisions of paragraph 9(e), Contractor shall submit a detailed rate application, accompanied by an audited financial statement covering the entire period specified in the County's Rate Methodology Manual together with supporting documentation as required to segregate its County regulated activities from other business activities. The Director may, in writing, allow the rate application to be submitted without an audited financial statement provided the Director is satisfied that the level of verifiable detail allows for adequate assessment of the Contractor's income, expenses, assets and liabilities.

g) Rate changes may be initiated by County at any time or by Contactor under the conditions allowed in this Section. In either case, Contractor shall prepare a rate application in accordance with the requirements of this Section and the County's Rate Manual. If the rate change is initiated by County, the Contractor shall submit its rate application to County within 60 days of County's notice to Contractor. Expenses incurred by Contractor for preparing the rate application pursuant to this Section will be treated as allowable pass-through costs for rate setting purposes to the extent such costs are properly accounted for in the rate applications(s) submitted by Contractor. If the rate change is initiated by Contractor, it shall be submitted no more than once a year under normal operating conditions. The date of Contractor initiated applications shall be standard, year by year; such dates have been mutually determined by the Parties and incorporated into the rate setting schedules in the Rate Manual.

h) Change in Applicable Law. At any time during the term of this Agreement, if the Contractor provides written notice to the Director that a Change in Applicable Law has increased or will increase Contractor's costs to perform Services under this Agreement, the Director and Contractor's authorized representatives shall meet and confer to determine the extent of the financial impact of the Change in Applicable Law on Contractor's performance of Services. If the Director reasonably determines that any Change in Applicable Law will result in Contractor incurring additional costs to perform services hereunder, the Director will determine the amount of adjustment, if any, to be made to Collection Rates in accordance with Section 8(e), and whether any modifications to the performance of Services must be made as a consequence of the Change in Applicable Law.

Any rate adjustment approved by the Director under this Section 8(h) is separate from and in addition to adjustments under Section 8(d), the Rate Year 1 (2027), 7 (2033), and 13 (2039) Rate Reviews conducted in accordance with Section 8(e), and any changes in Collection Rates for modified or additional programs or under Section 11(c). The amount of the actual Collection Rate adjustment under this Section 8(h) will ultimately be determined by the County in its reasonable discretion.

i) Extraordinary Adjustments. In the event that Contractor must make significant changes in its operations or experiences significant changes in costs or revenue not under its control, Contractor may submit an extraordinary rate application. Contractor shall provide documentation for the need for such rate application relative to those extraordinary changes as provided for and described in the County's Rate Methodology Manual. The application will thereafter be reviewed by County staff and scheduled for consideration by the Board.

9. **OPERATION BY CONTRACTOR.**

a) Carts and Equipment. Contractor shall furnish all necessary equipment (including but not limited to providing wheeled carts with lids to Customers for garbage, recyclables and organic waste for curbside service provided pursuant to this Agreement. Customers subscribing to backyard collection shall provide their own 20, 32 or 45-gallon containers for garbage. Contractor shall maintain its equipment in good repair and working condition at all times.

b) Trucks. In performing services under this Agreement, Contractor shall use trucks with covered, water-tight truck bodies constructed of sufficient strength to withstand a fire within the body without endangering adjacent property. Contractor shall keep trucks, debris boxes and similar equipment in good repair, and Contractor shall cause them to be cleaned as needed. Contractor shall cause carts and bins to be cleaned prior to delivery to Customers and repaired or replaced as needed. Contractor shall repair or replace carts and other Contractor supplied containers when drivers or Customers identify specific containers as either missing or in disrepair. Contractor shall use due care to prevent Recyclable Material and Solid Waste from being spilled or scattered during collection or transportation. If any material is spilled, Contractor shall promptly clean up all spilled materials. Each collection vehicle shall carry a broom and shovel at all times. Contractor shall cause its name to appear on the side of each truck and on each drop box, bin and similar equipment provided by Contractor.

c) Provisions of Labor. Contractor shall provide all labor necessary to carry out the services required of it under this Agreement.

d) Public Education and Outreach. Contractor shall collaborate with and act at the direction of the County on matters pertaining to the development and implementation of public education and outreach materials to raise awareness of Customers. Contractor shall send to County copies of any notices and other informational materials intended to be sent to

Customers at least fourteen (14) days in advance of the respective intended distribution date, unless a shorter review period is approved in advance by the Director. At least once every calendar year, Contractor shall develop and distribute notices and other informational materials for Customers about existing services. Contractor shall, if required by the Director, develop and distribute one additional notice or other informational material for Customers about existing services once per calendar year. Contractor shall develop and distribute additional materials for Customers pertaining to Recycling services when deemed necessary by the Director following consultation with CalRecycle to maintain or achieve higher participation levels in the Recycling program. The form and content of all notices and other informational materials intended to be sent to Customers shall be subject to the prior review and approval of the Director, which approval shall not be unreasonably withheld.

e) SB 1383 Compliance Reviews. Subject to compliance with Applicable Law governing data security and privacy rights, including, without limitation, the California Consumer Privacy Act of 2018 (Civ. Code, § 1798.100 et. seq.), Contractor shall, upon County's request, assist County with its annual compliance review of Commercial and Multi-Family Customers as set forth in 14 CCR Section 18995.1(a)(1)(A) and investigations of complaints as set forth in 14 CCR Section 18995.1(a)(3). Any such compliance review shall mean a "desk" review of records to determine the Commercial/Multi-Family Customer's compliance with 14 CCR Section 18984.9(a). Notwithstanding the foregoing and unless otherwise provided in the Agreement, Contractor shall not have any obligation to inspect the premises of any Customer or pursue any enforcement action related to, or arising out of, 14 CCR Section 18995.1, Section 18995.3, and Section 18995.4, which remain the sole obligations of County pursuant to Applicable Law.

f) SB 1383 Waivers. A commercial business as defined in County Ordinance Code Chapter 418-20 may be exempted from the obligation to comply with some or all of the Organic Waste Disposal Reduction Requirements, if: (i) the commercial business applies for a waiver in accordance with Section 418-20.210 and (ii) the Director finds that the commercial business generates a de minimis amount of waste or the Director finds that the business or property owner lacks sufficient space on the premises to accommodate the carts utilized in the organics waste collection service available.

   Contractor shall use reasonable efforts to assist County to verify that Commercial and Multi-Family Customers' waiver requests meet the applicable requirements under County Ordinance Code Chapter 418-20. When County grants a waiver to a Customer, County shall notify Contractor of any such waiver granted by the County within seven (7) business days.

g) Annual Reviews. Annually, Contractor shall conduct route reviews of Customers for compliance with the SB 1383 regulatory requirements pertaining to container monitoring. These route reviews may be performed concurrently with the contamination monitoring reviews, provided that Contractor documents a reasonable sampling of Customers for which compliance was assessed during the route review.

10. **LIMITATION ON TIME AND MANNER OF COLLECTION.** Contractor shall systematically collect Solid Waste, and to the extent required by this Agreement, materials for Recycling from its Customers. Frequency, place of pickup (e.g. curbside, backyard, etc.) or any other manner of collection shall be subject to the review and approval of the Director. To avoid conflicts with other related services, such as street sweeping, any proposed change in collection service days shall be requested in writing and subject to review and approval of the Director. Such approval shall not be withheld without cause. Upon commencement of service and upon changes in collection day schedules, Contractor shall provide each Customer with notice of the scheduled collection day ten (10) days in advance of the date of the implementation of the change. Contractor shall not collect Solid Waste from an inhabited dwelling or dwelling unit between the hours of 7:00 PM and 6:00 AM (unless otherwise directed by the Director). Residents may report missed pick-ups by calling the phone number provided by the Contractor. Contractor shall return and make missed pick-ups no later than the following working day.

11. **CUSTOMER SATISFACTION, AB 939 AND COUNTY-DIRECTED CHANGES.**

a) From time to time, at its discretion, County may examine Contractor's operation in order to evaluate whether the Contractor is operating at a satisfactory level of efficiency and customer satisfaction. Contractor agrees to cooperate in any such examination and shall permit County representatives to inspect, at Contractor's principal place of business, such information pertaining to Contractor's obligations hereunder as County may require, including, but not limited to, such things as customer inquiry records, collection routes and equipment records. Access to Contractor's records shall be subject to Section 6 (Contractor's Duty to Maintain Records; County's Right to Examine Records).

b) Notwithstanding any contrary provision in this Agreement, the County shall have the right to direct Contractor to compile and provide information, develop plans for and/or conduct programs on alternative methods of and manage collected Solid Waste and Recyclable Material, or to take any other action requested by the County for the purpose of meeting the source reduction, recycling and composting requirements of the California Integrated Waste Management Act, and any other applicable federal, state or local laws regarding Solid Waste and Recyclable Material collection, recycling and disposal, including, without limitation, the County's Materials Diversion Ordinance, and Mandatory Subscription Ordinance.

Subject to Applicable Law, including but not limited to provisions of Public Resource Code Section 40059.1, Contractor shall indemnify, defend, and hold the County harmless from and against any and all liability to the State of California for the County's noncompliance with the requirements of the California Integrated Waste Management Act, as determined by CalRecycle, due in whole or part to the material failure of Contractor to properly carry out the reasonable directives of the County to Contractor regarding collection and disposition of Solid Waste and Recyclable Material; provided, however, that Contractor shall not be obligated to carry out any such directive, nor indemnify the County from any resulting liability if the County does not treat Contractor's reasonable costs (including profit) associated with carrying out such directives as allowable for rate setting purposes

to the extent such costs are properly accounted for in the rate applications(s) submitted by Contractor in accordance with the requirements of this Agreement. Contractor's obligations in this paragraph shall survive the termination or expiration of this Agreement

c) County has the authority to require changes to the services Contractor performs under this Agreement to implement new programs or modify existing programs relative to the scope and methods of providing collection services, as may from time-to-time be necessary and desirable, as determined by the County. County will provide Contractor with written notice of any proposed change to services Contractor performs, and, promptly thereafter, the Director and the Contractor's authorized representatives shall meet and confer in good faith concerning those matters. County agrees that it will adjust Collection Rates to reasonably reflect any additional costs that will be incurred by Contractor to implement the new programs or requirements. The amount of the actual Collection Rate adjustment will ultimately be determined by the County in its reasonable discretion. Any adjustment to the Collection Rates under this Section shall be separate from and in addition to any changes to the Collection Rates under Sections 8(d), 8(e), and 8(h) of this Agreement. Contractor agrees not only to do those things specified herein, but also to act at the direction of the County on other matters that may be necessary for the success and efficiency of the program, such as public information and notification.

12. **CUSTOMER SERVICE STANDARDS.** Contractor shall provide prompt, efficient, continuous and professional service to its Customers. Contractor shall use its best efforts to assure that all employees, owners and partners conduct themselves in a courteous manner. Contractor shall have a phone system with sufficient capacity to promptly respond to telephone calls for at least 8 hours a day during weekdays, excluding those holidays observed by Contractor, plus a 24-hour answering service. All vehicles shall be radio equipped. Telephone numbers for customer service shall be located in the local telephone directory. All telephone lines for customer service shall be toll free to Customers. The Contractor's call center shall continue to remain local. Collection of solid waste from a subscribing customer shall not be refused without leaving behind a clearly written explanation of the reason on the container.

    At least once every three years and not less than six months prior to an application for contract renewal, assignment or extension of term, Contractor shall conduct a representative survey or surveys of Customers within the Franchise Area to determine satisfaction with service, including, without limitation, response to customer complaints. The survey methodology, sampling size, format and content shall be subject to the prior review and approval of the Director. A copy of the survey results shall be sent to the County within sixty (60) days of completion of the survey. Nothing in this paragraph shall limit the right of the County to conduct additional surveys. The Contractor shall cooperate with the County in such cases.

    Upon initiation of service under this Franchise Agreement, and at least once a year, Contractor shall send or deliver to Customers information concerning the conditions of service, including, but not limited to, rates, fees, charges, service options, payment options, discounts (if any), days of collections, the amount and manner of refuse to be collected, service level and

inquiry/complaint procedures, including the name, address and local telephone number of Contractor and the name, address and telephone number of the County Conservation and Development Department. The form and content shall be subject to the review and approval of the Director.

13. **CUSTOMER COMPLAINTS.** Contractor shall develop and implement policy and procedure for responding to and recording Customer complaints, including dispute resolution. The policy and procedure shall be subject to the approval of the Director.

    In the event that any Customer reports to the County a dispute as to rates charged or a complaint or claim for a damaged container or any other matter that has not been resolved to the Customer's satisfaction, the County may require Contractor to present a detailed report outlining the nature of the dispute, complaint or claim and remedies proposed and action to be taken to resolve said dispute, complaint or claim. If, in the opinion of the County, the Contractor's proposed remedies and actions taken are insufficient to adequately resolve the dispute, complaint or claim, the Director, or designee, shall meet with the Contractor's authorized representative and mutually agree on an appropriate remedy to resolve the dispute, complaint or claim. The County shall maintain a written record of all such disputes, complaints or claims and actions taken to resolve or mitigate such disputes, complaints or claims. In the event that the parties hereto are unable to reach agreement on such an appropriate remedy for the complaint, then the County shall direct the Contractor to take such action as the County reasonably believes to be prudent under the circumstances.

14. **BILLING.**

    a) The form and content of Customer bills shall be subject to the review and approval of the Director. The Contractor shall provide written notification of any proposed changes to the form and content of Customer bills at least thirty (30) days in advance.

    b) Bills for services shall at a minimum conform to the standards and practices of billings for Solid Waste collection, disposal, and recycling services applicable in West Contra Costa County and may be monthly, bi-monthly or quarterly. Contractor may bill its Customers in advance or in arrears. The County may establish billing period options for Customers upon a finding that such options are cost-effective and meet a community need.

    c) Full payment for drop boxes may be required by Contractor prior to delivery of the drop box to the Customer.

    d) The County shall have the right to direct the Contractor to change or alter its billing system in which event the marginal additional expenses incurred by the Contractor in the implementation of the change, with regard to the accounting, printing, mailing, loss of use of funds, or otherwise, shall be recoverable by the Contractor through the rates allowed by the County provided such expenses are reasonable.

    e) Contractor shall inform Customer of all rate changes at least 30 days prior to their effective

date. The form and content of rate change notices shall be subject to the review and approval of the Director. A copy of such notice shall be provided to County at the time of Customer notification.

f) Contractor shall accommodate placement of messages requested by the County on Customer bills and arrange for the inclusion of printed inserts subject to the direction and approval of the Director. County shall notify Contractor six (6) weeks in advance of requesting placement of billing inserts in or messages upon bills. Contractor shall not be obligated to include printed inserts or messages provided by the County less than three (3) weeks before the bill distribution date.

15. **RECYCLING.** County grants to Contractor the right and obligation to operate Recycling programs, including curbside pickup of Recyclable Material, as determined and designated by County.

Contractor has instituted and implemented a Recycling program that includes mandatory Recycling with regular pickup of Recyclable Material at all single and multi-family residences, (including apartments and condominiums) and businesses. These Recycling services and a list of the Recyclable Material currently collected for Recycling are set forth in **Exhibit B**. This program is currently operating to the satisfaction of County; however, County has the right at any time to modify said program or require new programs as provided for in Section 11(c) hereof.

Contractor shall maintain and provide to the County records relating to its Recycling programs as directed by the Director. Unless otherwise required by the Director, Contractor shall provide the County with quarterly reports on the Recycling program, which will include:

a) Participation level (i.e., the number of residences and businesses setting out recycling and green waste carts for collection), which may be based on averages or sampling method acceptable to Contractor and the Director.

b) Quantity of materials collected for Recycling, composting or disposal, in tons, by type of Recyclable Material (e.g., newspaper, glass, plastic, metal, yard waste, municipal solid waste, etc.), totaled by month.

c) Upon request of the Director, Contractor shall report quarterly revenues received for each type of Recyclable Material and for all Recyclable Material collected.

Expenses incurred by Contractor to prepare and submit reporting data required by the County pursuant to this Franchise shall be treated as allowable for rate setting purposes to the extent such costs are properly accounted for in the rate application(s) submitted by Contractor.

16. **SERVICES FOR PUBLIC FACILITIES.**

a) Contractor shall collect and remove for disposal and Recycling all Solid Waste and

Recyclable Material from County buildings, street cans, and other public purpose facilities that are owned, operated, or occupied by the County and identified on **Exhibit C**, attached hereto and incorporated herein. The service described in this Section 16 will be provided without charge to County. The Director may change **Exhibit C** from time to time to incorporate changes in any of the services or locations described therein.

b) Contractor shall collect and remove for disposal and recycling all Solid Waste from specified locations within the public right-of-way and from designated properties being abated by the County upon the request of the Director or designee. The services to be provided pursuant to this Section 16 are more fully described in **Exhibit C**.

1. Contractor is not obligated to provide abatement services unless and until the costs of the services are included in the Collection Rates.

2. After the cost of a service described in Section 16(b)(1) is included in the Collection Rates, Contractor will provide the service at no charge to the County.

c) Expenses incurred by Contractor in performing services pursuant to this Section 16 will be treated as allowable for rate setting purposes to the extent such costs are properly accounted for in the Rate Application(s) submitted by Contractor.

17. **ON-CALL & SCHEDULED CLEAN-UPS.**

a) Unless otherwise determined by the Director, in each year of this Agreement, Contractor shall perform the following services for each residential Customer in the Franchise Area that lives in a single-family home or muti-family residential dwellings of up to four units, on an on-call basis, upon request of the Customer: (i) one curbside general clean-up collection of bagged material, with each collection consisting of up to two cubic yards (i.e., up to fifteen 32-gallon bags), and (ii) one curbside pickup of up to two (2) Bulky Items or electronic waste items. Additionally, one scheduled general clean-up collection of bagged material, with each collection consisting of up to two cubic yards (i.e., up to fifteen 32-gallon bags). The services to be provided pursuant to Section 17 are more fully described in **Exhibit B**.

b) Contractor shall submit quarterly reports to the Director indicating (i) the number of curbside general clean-ups performed during the reporting period, and (ii) the number of curbside pickups of bulky or electronic waste items performed during the reporting period. Expenses incurred by Contractor in performing services pursuant to this Section 17 will be treated as allowable for rate setting purposes to the extent such costs are properly accounted for in the Rate Application(s) submitted by Contractor.

c) The scope and frequency of collection services provided pursuant to this Section 17 may be changed from time to time at the direction of, or with the approval of the Director and without the need to amend this Agreement.

18. **PARTICIPATION IN COMMUNITY CLEAN-UPS**Error! Bookmark not defined..

    a) Upon the request of the Director, Contractor shall provide Solid Waste debris boxes or equivalent containers for community clean-up events or other clean-up projects within the Franchise Area, as specified in **Exhibit C.** Contractor is not obligated to provide more than the equivalent of eleven (11) 20-cubic-yard debris boxes per year in the Franchise Area pursuant to this Section, as long as the Franchise Area is not expanded.

    b) Expenses incurred by Contractor in performing services pursuant to this Section, if properly documented in the Rate Application(s) submitted by Contractor, shall be treated as allowable for rate setting purposes.

19. **DISPOSAL AND WASTE STREAM CONTROL.** Contractor shall be solely responsible for the procurement of the post-collection processing, Disposal, and Recycling of the Solid Waste collected pursuant to this Agreement. County has complete authority and control over the Franchise Area waste stream.

    a) County may, at its sole discretion upon providing 60 days' advance notice to Contractor, direct the Solid Waste collected under this Agreement to be delivered to any site or facility of County's choosing. This shall include the right of the County to direct the Solid Waste to be delivered to any County designated transfer station, disposal site, transformation facility and/or resource recovery facility. It is understood that County may contract with any party, public or private, to commit the waste stream from the Franchise Area, and that Contractor's contracts may not bind County, nor need County consider such other contracts for any purpose.

    b) Notwithstanding the above, Contractor may propose, and County may but need not consider, waste management and/or disposition alternatives which are cost effective. In determining or comparing costs, County shall consider all relevant factors, including but not limited to, transportation costs, closure and post closure requirements, costs and liabilities, disposal fees, fees levied by governmental entities, including benefits to Contractor's customers from paying such fees, costs of compliance with ordinances and other local requirements, and long-term costs, including degree of control over future costs.

20. **MISCELLANEOUS OBLIGATIONS OF CONTRACTOR.** Contractor shall assist County in its enforcement of its mandatory subscription ordinance by providing County with the addresses of properties not subscribing to collection service within the Franchise Area and by providing collection service to such properties upon written request by the County. Contractor shall cooperate with County in developing a process in the service area for implementing the ordinance in its current or future form.

21. **FRANCHISE FEE.**

    a) Contractor shall pay the County an amount equal to a percentage of Contractor's Gross

Annual Revenues (such amount, the "Franchise Fee"). The Franchise Fee is payable at the time and frequency established by the Director from time to time. For purposes of this Agreement, "Gross Annual Revenues" means all money generated by Contractor's operation in the Franchise Area in a particular year, before deduction for expenses.

b) The Franchise Fee is equal to seven percent (7%) of the Contractor's Gross Annual Revenues.

c) Subject to applicable legal limitations, the County may adjust the Franchise Fee. Any adjustment to the Franchise Fee will be effective on the earlier to occur of (1) the effective date of a change in the rate(s) Contractor charges Customers, if the changed rate incorporates the adjusted Franchise Fee; or (2) the first day of the second calendar month immediately following the approval of the County's Board of Supervisors of a Collection Rate that incorporates the adjusted Franchise Fee.

d) Franchise Fees shall be considered reasonable costs and subject to "pass-through" if properly accounted for pursuant to Section 8, Rate Applications and the Rate Manual.

22. **HAZARDOUS WASTE.** The parties hereto recognize that federal, state and local agencies with responsibility for defining hazardous waste and for regulating the collection, handling or disposing of such substances are continually providing new definitions, tests and regulations concerning these substances. Under this Agreement, it is Contractor's responsibility to keep current with the regulations on such substances and to identify such substances and to comply with all federal, state and local regulations concerning such substances.

    Contractor agrees to provide to County upon its request, Contractor's program for identifying hazardous waste and complying with all federal, state and local statutes and regulations dealing with hazardous waste.

    Contractor shall make every reasonable effort to prohibit the collection and the disposal of hazardous waste in any manner inconsistent with applicable law.

23. **PRELIMINARY DISPUTE RESOLUTION.** If Contractor has a question as to the interpretation of this Agreement, it shall submit a written request to the Director for a determination of the issue. The Contractor shall provide and submit such information as the Director may request or require to make the requested determination. The written determination of the Director on such interpretation, as with any other determination by the Director, may be appealed to the Board of Supervisors pursuant to Ordinance Code Chapter 14-4.

24. **FAITHFUL PERFORMANCE BOND.** Contractor shall submit to County simultaneously with the execution of this Agreement a corporate surety bond in the amount of $1 million, to ensure Contractor's faithful performance hereunder; provided however, that the Board may increase this amount not more often than every three years to reflect changes in the Consumer Price Index for All Urban Consumers for the San Francisco Bay Area. Within 10 days of receipt of notice of an adjustment, Contractor shall submit to County a new corporate surety bond in the

adjusted amount. Each corporate surety bond shall be executed by a surety company licensed to do business in the State of California and acceptable to County. Each corporate surety bond shall be approved by County and shall be payable to County. The condition of each corporate surety bond shall be that Contractor will faithfully perform the duties imposed by ordinance, this Agreement, the rules and regulations of County, and all Applicable Laws. Any action by County to proceed against the bond shall not limit or affect the right of County to use other remedies available to County under the Agreement, or to seek a remedy in state or federal court with jurisdiction over the parties and the subject matter of litigation. Notwithstanding the foregoing. Not withstanding the foregoing, in lieu of the corporate surety bond, Contractor may provide to County a letter of credit, cash bond, or other security acceptable to the County Administrator's Office and in a form satisfactory to the County.

25. **INSURANCE.** Contractor shall procure and maintain in full force and effect at all times during the entire term of this Agreement the following insurance coverage:

a) Commercial general liability insurance including property damage, pollution, completed operations, products, contractual liability, broad form property damage, and personal injury with such coverages and limits as may be reasonably requested by County from time to time, but in no event with limits not less than the sum of $5 million combined single limit for each occurrence, and $10 million aggregate, arising from the services as stated in the Agreement herein. County shall be named as an additional insured via a blanket-form endorsement under such Commercial general liability insurance policy, if commercially available.

b) Commercial automobile liability insurance including owned, hired and non-owned automobiles with limits not less than the sum of $5 million combined single limit for each occurrence arising from the services as stated in the Agreement herein. County shall be named as an additional insured via blanket-form endorsement under such Commercial automobile liability policy.

c) Contractor shall carry workers' compensation insurance for all its employees.

d) Evidence of commercial general liability, commercial automobile liability and workers' compensation insurance as required herein shall be provided by Contractor by filing with County an ACORD 25 certificate of insurance supplemented with the applicable blanket-form endorsements providing that County is endorsed as an additional named insured if commercially available under the liability policy. All policies required herein, except workers' compensation, shall include a blanket-form notice of cancellation endorsement provision that written notice of cancellation, non-renewal or any material change shall be delivered to County thirty (30) days in advance of the effective date thereof. No cancellation, nonrenewal alteration or material change shall be made without thirty (30) days prior written notice to County.

e) County reserves the right to examine all policies to ensure appropriate conformity to prevailing practices and standards of the insurance industry.

f) All policies of insurance required under this Agreement shall be obtained from a company or companies authorized to do business in the State of California and rated A- VIII, or higher, by A.M. Best. Failure of Contractor to maintain insurance in the manner and amount stated herein and as directed by County Administrator, subject to approval of the Board, will constitute a material breach of this Agreement.

26. **INDEMNIFICATION.**

a) All work and performance covered by this Agreement is at the risk of Contractor.

b) Contractor shall save, indemnify, defend, and hold harmless the County, its officers, employees, agents and assigns against any and all liability, cause of action, claims, judgments, or demands, including demands arising from injuries or deaths of persons or damage to property, costs, expenses, and damages, including attorney's fees and attorney's fee awards (collectively, "**Liabilities**" for the purposes of this Section) arising directly or indirectly out of the obligations herein undertaken or out of the operations conducted by Contractor pursuant to this Agreement, including but not limited to any Liabilities connected with any legal challenge connected with fees paid by customers within the Franchise Area subject to the provisions of Public Resources Code Section 40059.2, and save and except claims or litigation arising through the sole negligence or sole willful misconduct of County; and Contractor shall make good to and reimburse County for any expenditures, including reasonable attorney's fees, that County may make by reason of such matters and, if requested by County, shall defend any lawsuit at the sole cost and expense of Contractor. This Section 26(b) shall survive the termination or expiration of this Agreement.

c) Should any third party successfully challenge the validity of this Agreement, as determined by a Court of competent jurisdiction in a final judgment, the procedure by which this Agreement was entered into or the validity of any County ordinance that authorizes the County to enter into this Agreement, then in such case the Contractor shall have no cause of action for damages or any other relief against County as a result of such successful third-party challenge.

d) Contractor has the right to defend this Agreement and the County. The County shall fully cooperate and assist Contractor in Contractor's defense of the County or of the validity of the Agreement but has no independent duty to Contractor to defend the validity of this Agreement or any provision hereof. The County will provide timely written notice to Contractor of County's receipt of any claim or action affecting this Agreement.

27. **ATTORNEY'S FEES.** In the event of litigation or actions to enforce the terms and conditions of this Agreement between the parties arising hereunder, each party shall pay its own litigation expenses, including attorney's fees, except to the extent that any provision of this Agreement, including but not limited to Sections 6(h) and 26, expressly provides otherwise.

28. **FORCE MAJEURE.** The time period(s) specified for performance of the provisions of this Agreement shall be extended because of any delays due to unforeseeable causes beyond the reasonable control of either Party and without the fault or negligence of the Contractor, including, without limitation acts of God or of the public enemy, severe weather, fires, earthquakes, floods, epidemics, pandemics, quarantine restrictions, government emergency orders, riots, freight embargoes, the first five days of any labor disruption or strike, wars, and/or acts of any governmental agency, including County.

    Contractor shall use commercially reasonable efforts to provide written notice to the County as soon as practicable after commencement of a delay in performance for Force Majeure, but in no event later than ten (10) days after commencement of such delay, to notify the County of the nature of the delay, the cause(s) of the delay , and the anticipated duration of the delay. In the event of a delay due to Force Majeure, it shall be the responsibility of Contractor to exercise commercially reasonable efforts to mitigate interruptions to services and/or any potential damages as is feasible under the circumstances.

    As used herein, **"labor disruption"** means a work stoppage or slowdown, sickout, picketing, refusal to work, or other concerted action by or including Contractor's employees, due to picketing or labor action by union affiliates and/or third parties, which precludes Contractor from completing routes on the scheduled collection day(s) due to the unplanned absences of Contractor's employees who refuse to work or are participating in a strike or concerted action or other labor disruption.

29. **ASSIGNABILITY.** Contractor shall not sell, assign, subcontract or transfer this Agreement or any part hereof, or any obligation hereunder, without the written consent of County, which shall be within County's reasonable discretion to provide. The term "assignment" shall include any dissolution, merger, consolidation or other reorganization of Contractor, which results in change of control of Contractor, or the sale or other transfer by probate proceeding or otherwise of a controlling percentage of Contractor's capital stock to a person or entity not a shareholder on the date of the execution of this Agreement. Provided, however, that the term "assignment" does not include internal business reorganizations, name changes, transfer to an Affiliated Entity or formation of new companies by Contractor, formation of trusts by Contractor or transfer of any interest of Contractor as a result of death, disability or estate planning by one or more of the principals of Contractor, so long as essential management decisions are retained by a majority of the current controlling interests of the Contractor, shareholders of Contractor or their children, their spouses and relatives of the first degree of consanguinity.

    Consent to assignment may not be unreasonably withheld. Following a properly noticed public hearing, County may assign or transfer any or all of its rights under this Agreement without the consent of Contractor to any legally authorized public entity.

30. **INVOLUNTARY ASSIGNMENT.** No interest of Contractor in this Agreement shall be assignable by operation of law. Each or any of the following acts shall be considered an involuntary assignment providing County with the right to elect to terminate the Agreement forthwith,

without suit or other proceedings:

a) If Contractor is or becomes insolvent, or makes an assignment for the benefit of creditors;

b) If Writ of Attachment or Execution is levied on this Agreement or other property of Contractor such that would affect Contractor's ability to perform its duties and obligations under this Agreement.

c) If in any proceeding to which Contractor is a party, a Receiver is appointed with authority to take possession of Contractor's property such that would affect Contractor's ability to perform its duties and obligations under this Agreement.

d) Except as otherwise provided herein, in the event of a probate proceeding where the rights of Contractor under the Agreement would pass to another individual or other individuals.

31. **NOTICE PROVISIONS.** Any notice required or permitted under this Agreement shall be in writing and shall be deemed to have been given (a) on the delivery date, if delivered personally, (b) on the next business day, if sent by overnight carrier with delivery charges prepaid for next day delivery, or (c) five days after mailing, if mailed by certified U.S. Mail, return receipt requested, with postage prepaid. All notices shall be addressed to the receiving party as follows:

To Contractor:

Crockett Sanitary Service, Inc.
Attn: General Manager
3260 Blume Drive, Suite 115
Richmond, CA 94806

To County:

Contra Costa County
Department of Conservation and Development
Attn: Director of Conservation and Development
30 Muir Road
Martinez, CA 94553

Each party will also endeavor to email a courtesy copy to counsel for the other party, but an emailed courtesy copy of a notice does not substitute for providing notice in the manner required by this section. Either party may change its address for notices by providing notice to the other party in accordance with this section at least 10 days before the new address becomes effective.

32. **ANNEXATION AND CHANGE OF FRANCHISE AREA BOUNDARIES.** Contractor shall give notice to County by January 30 of the next calendar year of any geographic area in the Franchise Area or immediately contiguous to the Franchise Area, in which Contractor has commenced service within the preceding year, notwithstanding whether Contractor deems that area to be regulated or unregulated.

    Contractor realizes that the public agency boundaries may be altered by virtue of actions taken by the Contra Costa County Local Agency Formation Commission (LAFCO). Contractor agrees that should a municipal corporation lawfully annex territory which is within the Franchise Area, County may make such alterations to the Franchise Area as the annexation necessitates. Should the Franchise Area boundaries be amended, Contractor agrees that it will abide by any change resulting from the Franchise Area change. Contractor agrees that the Board of Supervisors may make such alterations to the Franchise Area as are necessitated by such Local Agency Formation Commission actions, excepting any LAFCO action initiated by County, and shall have no right or claim to damages or other relief against the County for such alterations to the Franchise Area. However, nothing herein shall abrogate Contractor's rights under Public Resources Code Section 49520 or any successor or similar statute.

33. **AFFILIATED ENTITIES' CHARGES.** For the purposes of rate review with respect to Contractor's costs and rates, Contractor shall provide information necessary to reasonably satisfy County that the charges made by any Affiliated Entity are reasonable. Charges which are equal to or less than the least costly alternative shall be deemed reasonable hereunder.

34. **BREACH AND TERMINATION.** The Director shall have authority, subject to Contractor's right to cure and review by the Board of Supervisors upon appeal, to determine whether a breach of any provision of this Agreement by Contractor has occurred. Any waiver of a breach shall not be deemed to be a waiver of any subsequent breach or to be construed as approval of a course of conduct. In the event that the Director determines that a breach has occurred, County shall give Contractor written notice of the matter constituting the breach or default. Contractor shall have 30 days from the date of said notice, or a reasonable period of time as determined by the County if the County determines 30 days is not sufficient under the circumstances, to cure the breach or default; provided, however, for any breach or default that cannot reasonably be cured within said 30-day period or such other longer period as may be determined by the County, Contractor shall commence to cure the breach or default within said period and shall continue thereafter to diligently take steps to cause the breach or default to be cured within a reasonable time thereafter. In the event the breach or default is cured to the satisfaction of the Director within the period of time allotted, the breach shall not be deemed a material breach the breach or default shall be deemed cured and resolved. In the event that the Director determines that Contractor has failed to satisfactorily cure the breach or default as provided in this Section, the Director may determine such breach or default to be material.

    Multiple or repeated breaches, or a pattern of breaches and subsequent attempts to cure said breaches, by Contractor shall provide an adequate basis for the Director, in the Director's sole discretion, to declare any subsequent breach to be material, notwithstanding whether that

breach is ultimately cured by Contractor.

If such a determination of material breach is made, the Director's determination shall be automatically appealed to the Board of Supervisors for final action.

A material breach shall be cause for termination of this Agreement by the Board of Supervisors, in the reasonable discretion of the Board.

In the event of a termination pursuant to this Section, County shall have the right to temporarily assume the obligations of Contractor and shall have the right to forthwith take possession of all trucks and other equipment of Contractor and exercise Contractor's right to enter and use any disposal facilities for the purpose of performing the services agreed to be performed by Contractor herein until such time as County can make other arrangements for the performance of said services by another person or entity. However, such temporary assumption of Contractor's obligations under the Agreement shall not be continued by County for a period exceeding twelve (12) months from the date such operations are undertaken by County.

During any period in which County has temporarily assumed the obligations of Contractor under this Agreement, County shall be entitled to the gross revenue attributable to operations during such period and shall pay therefrom only those costs and expenses applicable or allocable to said period, including the reasonable rental value of the trucks and equipment to be paid to Contractor. County shall be entitled to the excess, if any, of revenue over applicable or allocable costs and expenses during such period. The loss, if any, during such period shall be a charge against Contractor, and shall be paid to County by Contractor on demand. Final adjustment and allocation of gross revenue, costs, and expenses to the period during which County temporarily assumed the obligations of Contractor shall be determined by an audit by a Certified Public Accountant and prepared in report form with his unqualified opinion annexed thereto.

Nothing in this Agreement shall prevent County during any period in which County temporarily assumes the obligations of Contractor under this Agreement, from employing persons who were employed by the Contractor for the collection of Solid Waste under this Agreement.

Upon the occurrence of a material breach and the declaration of such and termination of this Agreement by the Board of Supervisors, this Agreement and the franchise granted thereunder shall be of no further force and effect as of the termination date set by the Board, expecting these provisions concerning County's right to temporarily assume Contractor's obligations and to use Contractor's facilities upon early termination as provided herein, and further excepting the other terms of this Agreement that survive the termination of the Agreement. Upon the termination of this Agreement, County then shall be free to enter into whatever other arrangements are deemed justified and necessary for the collection, removal and disposal of Solid Waste within the Franchise Area.

Notwithstanding the foregoing, Contractor shall not be in breach or default under the terms of

this Agreement if such breach or default is due to events of Force Majeure, including war, insurrection, riots, floods, earthquakes, fires, acts of God, acts of a public enemy, epidemics, quarantine restrictions, or any other causes beyond the control or not the fault of Contractor, and such breach or default could not have been prevented by reasonable foresight on the part of Contractor.

35. **EMERGENCY.** Notwithstanding Contractor's exclusive franchise rights set forth in Section 4 (Exclusive Privilege and Duty), in the event of an emergency due to natural disaster which interrupts the collection of Solid Waste by Contractor, the Board of Supervisors shall have the right to declare a temporary suspension of this Agreement for the reasonable duration of the emergency and until such time as County determines that Contractor is able to reassume all obligations under this Agreement. Should Contractor fail to demonstrate to the satisfaction of the Board of Supervisors that required services can be resumed by Contractor prior to the expiration of a six (6) month period, this Agreement may be terminated at the direction of the Board. During the period of any suspension or termination of the Franchise Agreement under this section, the County shall have the right to assume Contractor's obligations pursuant to the Section 34.

36. **COMPLIANCE WITH FEDERAL, STATE AND LOCAL LAWS.** Contractor shall comply with Applicable Law now in effect or as may be promulgated or amended from time to time by the Government of the United States, the State of California, the County and any other agency now authorized, or which may become authorized in the future, to regulate the services to be performed herein regarding the collection, removal and disposal of Solid Waste and recycling of material. The Applicable Law includes but is not limited to County Ordinance Code Chapter 418-6 (on mandatory subscription to Solid Waste collection service), and the County's Materials Diversion Ordinance. Contractor's reasonable costs of compliance shall be included in the Collection Rates allowed by County, as may be adjusted from time to time in accordance with the terms of this Agreement.

37. **ENTIRE AGREEMENT.** This Agreement contains the entire agreement between the Parties pertaining to Contractor's collection and disposition of Solid Waste from within the Franchise Area, and this Agreement fully supersedes all prior written or oral negotiations and communications between the Parties leading up to this Agreement.

38. **GOVERNING LAW.** This Agreement shall be governed by and construed in accordance with the laws of the State of California. Any litigation arising out of this Agreement shall be filed in a state or federal court in California that has jurisdiction over the parties to and the subject matter of the litigation.

39. **AMENDMENT OR MODIFICATION.** This Agreement may not be amended or modified except in writing signed by the Parties hereto and following approval by County's Board of Supervisors, which shall be within its discretion to approve. The parties agree to meet and confer in good faith if amendments or modifications are proposed.

40. **POLICE POWERS.** Nothing in this Agreement is intended to or may limit County authority

pursuant to its police power.

41. **CONTEST OF AGREEMENT'S TERMS.** In the event either party to this Agreement attempts to challenge the validity of any portion of this Agreement, such action in attempting to challenge the Agreement shall constitute a material breach of this Agreement and the non-breaching party shall have the right to elect to terminate forthwith without suit or other proceeding.

    This section shall not be construed to prevent either party from seeking redress from the courts for the purpose of legal review of administrative proceedings regarding rate setting or County actions taken pursuant to this Agreement, or for the purpose of interpreting or enforcing the provisions contained in this Agreement.

42. **SEVERABILITY.** In the event legal action is brought by a person or entity, other than the parties to this Agreement, to challenge, invalidate, contest or set aside any of the provisions of this Agreement, each and every term and condition, and each and every section and paragraph is severable from the remaining terms, conditions, sections, and paragraphs. The invalidation of any term, condition, section or paragraph as a result of a legal action, brought by a person or entity not a party to this Agreement shall not affect the validity or enforceability of the remaining provisions. However, if material provisions hereof are affected, the parties agree to negotiate in good faith to reach agreement on revisions which preserve the substance hereof to the greatest extent allowed by law.

43. **COUNTERPARTS.** This Agreement may be executed in one or more counterparts, each of which shall be deemed an original and that, when taken together, constitute one and the same instrument.

44. **SUCCESSORS; NO THIRD-PARTY BENEFICIARIES.** This Agreement shall be binding upon the Parties and their successors and assigns. However, this provision shall not be construed as an authorization to assign, transfer, hypothecate, or pledge this Agreement. Any assignment or transfer of this Agreement shall be governed by Section 29. Except to the extent this Agreement may expressly provide otherwise, nothing in this Agreement is intended to confer on any person other than the Parties and their successors and assigns any rights or remedies by reason of this Agreement.

45. **CONSTRUCTION.** The section headings and captions of this Agreement are, and the arrangement of this Agreement is, for the sole convenience of the Parties to this Agreement. The section headings, captions, and arrangement of this Agreement do not in any way affect, limit, amplify, or modify the terms and provisions of this Agreement. This Agreement shall not be construed as if it had been drafted by one of the Parties, but rather as if both Parties have drafted it. The Parties to this Agreement and their attorneys have read and reviewed this Agreement and agree that any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not apply to the interpretation of this Agreement.

46. **WAIVER.** A waiver of breach of any covenant or provision in this agreement by either party shall not be deemed a waiver of any other covenant or provision in this Agreement, and no

waiver shall be valid unless it is in writing and executed by the waiving Party's authorized representative. The acceptance of any monies which become due hereunder shall not be deemed to be a waiver of any pre-existing or concurrent breach or violation by the other party of any provision of this Agreement.

47. **GUARANTY.** Prior to the Effective Date, Contractor shall provide to the Director, proof of guaranty by Republic Services, Inc., of the performance by Contractor of each and every provision of this Agreement to be performed by Contractor. Proof of Guaranty shall be substantially in the form set forth in **Exhibit D**.

48. **SURVIVAL OF OBLIGATIONS.** Obligations of this Agreement which embody continuing obligations, including but not limited to Section 26 (Indemnification), shall survive the termination or expiration of this Agreement.

49. **ENTIRE AGREEMENT.** This Agreement represents the full and entire agreement between the parties hereto with respect to the matters covered herein, and there are no other agreements whether written or oral that are not included within this Agreement.

EXHIBIT B

RESIDENTIAL & COMMERCIAL SERVICES AND MAXIMUM RATES
Crockett, Port-Costa and Tormey

Dated: June 2026

Section 1: GENERAL OBLIGATIONS RELATED TO BASIC SERVICES

Contractor shall offer to provide the services set forth herein and shall provide collection services requested by customers. The collection services specified herein may be modified from time to time as provided for in Sections 11 and 15 of the Agreement.

Contractor shall cause source-separated Organic Waste collected in the Franchise Area not to be used as landfill cover; instead, collected Organic Waste shall either be composted or otherwise diverted in accordance with the Integrated Waste Management Act subject to the review and approval of the Director or his designee.

Contractor shall provide quarterly reports and an annual report with information requested by the Director or his/her designee pertaining to collection and diversion activities, including, but not limited to quantities collected, participation, contamination levels and other operational statistics for routine and on-call pickup of Solid Waste, Recyclable Material, Organic Waste and construction and demolition (C&D) materials.

Section 2: RESIDENTIAL SERVICES

Contractor shall provide basic residential service for single-family homes and duplexes upon request of residential Customers consisting of routine collection of trash, Recyclable Material, and Organic Waste and supplemental on-call collections as set forth in this Section 2 and Section 4 of this Exhibit B. Routine collection includes weekly collection of waste using a black wheeled cart for curbside collection (select from 20-gallon, 35-gallon, 65-gallon or 95-gallon cart sizes), or customer provided trash container for backyard collection, as well as weekly collection of recycling and organic waste using blue and green wheeled carts respectively (65-gallon size for each cart).

Customers may also request additional containers. Contractor may charge the appropriate monthly fee, plus any additional fees set forth herein.

A. ROUTINE COLLECTION

1. **Pickup Locations:** Customers shall have the choice of selecting backyard or curbside trash service. Curbside collection is available at a reduced rate for all but mini-can (20-gallon) service. Contractor shall collect trash from carts placed at the curb (curbside service) or from the Customers' containers placed on their property (backyard service). Contractor shall provide collection for Recyclable Material (organic and non-organic) in blue and green wheeled carts that Customers place at the curb. Backyard service for organic and non-organic Recyclable Materials (organic and non-organic) shall be made available to Customers where no one in the household is able to move carts to the curb, at the standard residential rate. Annual medical certification of disability is required.

2. **Containers:** Only wheeled carts provided to Customers by Contractor will be serviced unless Customers request backyard service using their own trash container (20-gallon, 32-gallon or 45-gallon). Contractor shall provide each Customer with three separate wheeled carts to be used for curbside collection of trash, organic Recyclable Material and non-organic Recyclable Material. Customers shall select their cart sizes from the following options to be made available by Contractor: 20-gallon, 35-gallon, 65-gallon or 95-gallon black trash carts; 65-gallon blue Recyclable Material carts, and 65-gallon green organic Recyclable Material carts.

3. **Frequency:** Contractor shall provide weekly collection of trash and Recyclable Material (organic and non-organic) placed by Customers in accordance with the above requirements.

4. **On-call Collection Services**: Except for collection of bagged material using prepaid bag ties, collections will be on-call (at customer request).

B. ON-CALL CURBSIDE CLEAN-UP (Bagged Materials)

Contractor shall offer residential Customers one (1) On-Call Curbside Clean-up each year at no additional charge and provide such Clean-ups within ten (10) working days of Customer's request. The following parameters apply to On-Call Curbside Clean-ups:

1. On-call curbside clean-ups can be used for either trash or Green Waste only. No Food Waste is allowed in either the trash or Green Waste collections.
2. On-call clean-ups are scheduled upon request of the Customer. Clean-ups will be arranged to occur on the next regularly scheduled collection day.
3. Mixed set-outs of trash and Recyclable Material will be collected and disposed of as Solid Waste.
4. A maximum of two cubic yards of bagged material (up to fifteen 35-gallon bags) will be collected in each on-call curbside clean-up.
5. All items must be bagged.
6. Filled bags must weigh no more than 30 pounds and be strong enough to hold contents securely.
7. All bagged materials must be placed at the curb for collection.
8. Branches/twigs can be tie-bundled (up to 18 inches in diameter, four (4) feet in length.

C. SCHEDULED CURBSIDE CLEAN-UP (Bagged Materials)

Contractor shall offer residential Customers one (1) scheduled Curbside Clean-up each year at no additional charge. Contractor shall notify all residential Customers fourteen (14) days in advance, informing residential Customers of the scheduled clean-up date and how to properly participate. The following parameters apply to scheduled Curbside Clean-ups:

1. Scheduled Bagged Clean-ups can be used for either Solid Waste or all Green Waste only collection. No Food Waste is allowed in either the Solid Waste or the Green Waste only collections.
2. Mixed waste set-outs will be collected and disposed of as Solid Waste.
3. A maximum of two cubic yards of bagged material (15 35-gallon bags) will be collected in each scheduled Curbside Clean-up.

4. All items must be bagged.
5. Filled bags must weigh no more than 30 pounds and be strong enough to hold contents securely.
6. All bagged materials must be placed at the curb for collection.
7. Branches/twigs can be tie-bundled (up to 18 inches in diameter, four (4) feet in length.

D. ON-CALL CURBSIDE BULKY COLLECTION

Contractor shall offer residential Customers residing in single-family homes or multi-family residential dwellings of up to four units up to one on-call curbside bulky item collection each year at no additional charge upon Customers request.

The following parameters apply to on-call curbside bulky item collection:

1. Two (2) major residential appliances or other bulky items (which may include Christmas tree) or up to ten (10) e-waste items may be disposed of in one (1) on-call curbside bulky item collection per year.
2. Each item to be collected can weigh no more than 200 pounds.
3. Only bulky items that won't fit in waste cart, cannot be bagged for annual on-call curbside clean-up and are not collected for Recycling curbside will be accepted.
4. On-call curbside bulky item collection will be scheduled on a different date than the regular route, which is disclosed to Customers at the time they call. Collection will be scheduled on a date to be agreed upon by the Contractor and Customer.

E. OPTIONAL SERVICES AVAILABLE FOR ADDITIONAL CHARGE

Contractor provides residential Customers the option of requesting the following services. Maximum rates for basic services approved by the County do not include these optional services. Contractor may impose an extra charge to provide listed services if the Customer is made aware of and agrees to the charges in advance.

1. Extra waste pickup (on-call) – Upon request by a Customer, Contractor shall provide Customer with an estimate of the cost of collection of the items, and then schedule a pick up date with the customer.
2. Collection of extra bagged material (prepaid bag ties on customer provided bags) – Contractor will pickup bagged material on the scheduled collection date if the bags are marked with prepaid bag ties that Customer may purchase in advance. Material placed in plastic bags will be picked up by the garbage truck and disposed of as trash. Material placed in compostable bags will be picked up by the Organic Waste truck and recycled.
3. Extra bulky item pickup (on-call)
4. Cart wash out (on-call)
5. Same week on-call curbside clean-ups or on-call curbside bulky item collection

Contractor shall include revenues from optional services in calculations of Gross Annual Revenues subject to the Franchise Fee under Section 22 of this Agreement.

Contractor shall properly segregate the revenues and costs associated with these optional services requested by Customers for the purposes of rate setting. Contractor shall account for these revenues and costs in the rate application(s) submitted to the County.

Section 3: COMMERCIAL SERVICES

Contractor shall provide the following services to commercial Customers, which includes Multi-Family Customers, upon request. The basic or minimum service level for commercial and Multi-Family Customers shall consist of three containers (black, blue and green). Contractor shall provide the County with information and assistance requested by the Director for the purpose of maintaining compliance with Applicable Laws.

Contractor shall offer the County the opportunity to participate in each bulk purchase of internal containers and other assets (posters, bags, etc.) to increase recycling by commercial Customers.

A. SOLID WASTE (TRASH) COLLECTION

1. Contractor shall provide commercial Customers with the option of selecting trash bin sizes ranging from one (1) to seven (7) cubic yards, or 35-gallon, 65-gallon or 95-gallon carts.

2. Contractor shall provide commercial Customers with bin service the option to select their preferred frequency of trash collection, ranging from one (1) to five (5) times per week.

B. RECYCLING COLLECTION

Contractor shall offer to collect for recycling the materials specified in Section 4 of this Exhibit from commercial Customers at a service level up to equal their solid waste service subscription at no additional charge and shall provide such services upon request.

Contractor shall provide additional recycling collection services to commercial Customers, including but not necessarily limited to the following:

1. Increased frequency of collection for commercial recyclable materials (including multi-family): from carts and bins, at a minimum weekly and up to three times per week for bins, upon request of Customer.
2. Collection of commercial source-separated organic materials (including all compostable food waste and food-soiled paper) up to three times per week, as requested by the Customer.
4. Collection of an expanded list of materials in the recycling containers.
5. Assistance and support from Contractor's sustainability coordinators to maximize success of diversion programs.

Contractor shall mail notices regarding collection service options for organic and non-organic Recyclable Materials to all commercial Customers. The written notice shall address cart/bin sizes and frequency options and include a list of Recyclable Material collected as specified in Section 4 of this Exhibit as well as options to arrange for new or expanded collection services. The form and content of the Customer notice shall be subject to the review and approval of the Director or his designee. This can be addressed in Customer informational materials required under Section 9(d) of the Agreement.

C. MULTI-FAMILY ON-CALL CURBSIDE CLEAN-UP

Contractor shall offer Multi-Family Residential Complexes (MFD) of up to 20 units, one (1), fifteen (15) bag, curbside clean-up event each year. Curbside Bagged Clean-up Collection Service shall be governed by the following terms and conditions:

1. Contractor shall provide one (1) scheduled curbside bagged collection of up to fifteen (15) bags per MFD unit each year at no additional charge. The Curbside collection event shall be arranged, organized and supervised by the MFD Property Manager.
2. Curbside bagged collection can be either (1) curbside bagged pickups or (2) Roll-off container service.
3. Each bag of discards to be collected can weigh no more than forty (40) pounds.
4. Organic Waste consisting of Green Waste only—grass clippings and yard waste but no Food Waste is allowed--in plastic bags strong enough to hold up to 40 pounds of material--can be collected. Mixed waste (Solid Waste and Organic Waste) loads shall be collected as Solid Waste.
5. Only non-hazardous, dry, small Recyclable Materials that can be contained without cutting/tearing the bags, and which materials are not accepted in the curbside recycling program, with each bag weighing no more than 40 pounds, will be collected in this service.
6. MFD bagged clean-up collection will be scheduled on a date in the regular route schedule on a date to be agreed upon by the Contractor and Customer.

D. MULTI-FAMILY ON-CALL BULKY ITEM COLLECTION

Contractor shall offer MFDs of 20 units or less, one (1) curbside Bulky Item pick-up or roll-off container collection per calendar year. Bulky Item collection service shall be governed by the following terms and conditions:

1. Bulky Item collection service shall be arranged by the MFD's Property Manager and the collection method can be either curbside pickup or roll-off container as determined by the Contractor.
2. Contractor shall provide one (1) Bulky Item collection per unit at the MFD for residential household appliances, or other residential bulky items, or, alternatively, up to five (5) e-waste items each year, at no additional charge.
3. Each item to be collected can weight no more than 200 pounds.
4. Acceptable Bulky Items are: Non-Hazardous E-waste and Bulky Items that (a) won't fit in a Cart, or (b) cannot be bagged for the annual On-Call Curbside Clean-up and are not accepted in the curbside recycling program.
5. The Bulky Item routes will be scheduled to run on different days of the week, Monday - Friday. MFD curbside bulky item collection will be scheduled on a date within the regular weekly route schedule, to be agreed upon by the Contractor and Customer.

E. COMMERCIAL PROGRAMS MANDATED BY THE STATE

1. Contractor shall provide the County with information and assistance requested by the Director for the purpose of monitoring, documenting and maintaining compliance with Applicable Laws, including but not limited to Assembly Bill 341 (AB 341), Assembly Bill 1826 (AB 1826), and Senate Bill 1383 (SB 1383).

2. Contractor shall provide the County with a report for each calendar year detailing

the number of covered entities as defined by the above referenced laws ("Covered Entities"), that are or are not participating in Recyclable Material collection and Organic Waste collection, the number of waste assessments conducted, a summary of any additional educational and outreach efforts that may have been undertaken. Contractor shall also provide additional information required for reporting to CalRecycle upon request of the Director or his designee.

3. Contractor shall publish information on its website on how businesses, public entities, and multi-family complexes can comply with Applicable Laws.

    a. Contractor shall make printed information about AB 341 and SB 1383 requirements readily available to businesses, public entities, and multi-family complexes. This information can be in the form of newsletters, bill messages, bill inserts, letters, e-mail notifications, or special similar methods of notification approved by the Director or his designee.

    b. Contractor shall provide waste assessments to commercial Customers upon request. During waste assessments, Contractor shall provide Customers with information and/or materials related to mandatory Recyclable Materials and Organic Waste collection.

Section 4: RESOURCE RECOVERY AND DIVERSION

Contractor shall collect the following materials for recycling or composting from residential and commercial Customers on a weekly basis at no additional charge.

A. RECYCLING

Contractor shall collect and recycle the following materials placed in **curbside *recycling carts*** and/or ***commercial recycling bins/carts:***

1. Aluminum cans, clean foil & clean foil food containers
2. Glass bottles, jars (all colors)
3. Plastic #1 -7 beverage and food containers
4. Steel/tin cans
5. Scrap metal
6. Mixed rigid plastic packaging and other food containers
7. All mixed plastics
8. Plastic bags, film and wrapping (properly bagged)
9. Uncoated and uncontaminated paper (newspaper, white paper, mixed paper, colored paper, chipboard, clean cardboard with no food or drink contamination, phone books, paper bags, junk mail, envelopes, clean cardboard egg cartons, magazines, paperback books, catalogs etc.)
10. Juice and milk cartons

Contractor shall provide used oil recycling kits to Customers upon request as well as collect the following items for recycling curbside on an on-call basis:

1. Used motor oil
2. Used oil filters

The above list may be modified from time to time by agreement of the County and Contractor pursuant to the provisions of the Franchise Agreement.

B. ORGANIC WASTE

Contractor shall collect and compost the following materials placed in **curbside organic *waste carts*** *or* ***commercial organic waste bins/carts:***

Green Waste

1. Yard trimmings
2. Grass clippings
3. Leaves and flowers
4. Pine needles
5. Weeds
6. Natural unflocked Christmas trees (cut/trimmed to fit in green waste carts)
7. Untreated and unpainted wood (cut/trimmed to fit in green waste carts)
8. Pinecones, nuts and other organic debris from plants and trees, except palm fronds or ivy

Other Organic Materials

9. Coffee filters
10. Cardboard, paper egg cartons and other paper products soiled with food and drink contamination
11. Uncooked fruit and vegetables
12. Waxy cardboard
13. Waxed paper
14. Food soiled paper
15. Food waste
16. Pet hair
17. Manure

The above list may be modified from time to time by agreement of the County and Contractor or pursuant to the provisions of the Franchise Agreement.

C. CONSTRUCTION AND DEMOLITION DEBRIS RECOVERY

Contractor shall offer debris boxes to a Customer upon request for collection and Recycling of Recyclable construction and demolition (C&D) debris. Recyclable C&D debris includes, but is not necessarily limited to: glass, paper, cardboard, wood, concrete, plastic, ferrous and non-ferrous metal, aluminum and any other C&D material that is feasibly capable of being Recycled.

Contractor may charge for C&D debris box services provided that Customer is made aware of and agrees to the estimated charges in advance. Maximum rates subject to County approval do not include or apply to these debris box services. County does not set maximum rates for debris box services. Contractor shall include revenues from debris box services in calculations of Gross Annual Revenues under Section 22 of this Agreement. Contractor shall account for debris box revenues and costs in the rate application(s) submitted to the County.

Section 5: MAXIMUM COLLECTION RATES

Contractor shall charge no more than the below listed maximum approved Collection Rates for basic services for Customers:

A. MAXIMUM COLLECTION RATES FOR RESIDENTIAL SERVICE[1]

Weekly Backyard [3] - Customer Can (MONTHLY RATES)	
Waste Can Size	**Maximum Rate[4] - Weekly Waste, Recycling & Organic** includes post-collection processing & disposal

EXHIBIT C

SERVICES FOR COUNTY DESIGNATED LOCATIONS AND FACILITIES

Dated: June 2026

Section 1: GENERAL OBLIGATIONS RELATED TO SERVICES FOR COUNTY DESIGNATED LOCATIONS AND FACILITIES

Contractor shall provide Solid Waste collection and recycling/disposal services at designated locations within the Franchise Area pursuant to Sections 16 and 18 of the Franchise Agreement. This includes services at specified County buildings, street cans and other public facilities (see "Routine Services" below). Contractor shall provide on-call services at locations within the County rights-of-way or at properties being abated by the County (see "On-Call Services" below).

Section 2: ROUTINE SERVICES

Contractor shall collect green waste, recycling and/or Solid Waste upon request at County designated locations. The following list of locations and related service levels may be modified from time to time pursuant to Section 16 of the Franchise Agreement. As of the date of this Exhibit C, routine service levels for each currently designated location are as follows:

Public Facilities Being Served in Crockett-Tormey-Port Costa		Location	SERVICE LEVEL *[Weekly unless otherwise specified]*		
			Trash (Qty/Size)	**Recycling** (Qty/Size)	**Organics** (Qty/Size)
i.	Crockett Community Center	850 Pomona St	10 / 95-gal *[twice per week]*	5 / 65-gal	N/A

Section 3: ON-CALL SERVICES

Contractor shall provide on-call Solid Waste collection and recycling/disposal services at locations within the County rights-of-way or at properties being abated by the County within the Franchise Area, upon written request of the Director or their designee. The manner in which the on-call services required in Section 16 of the Agreement are to be arranged, provided and reported is described in Sections 3.A. and 3.B. Similarly, the community clean-up services required in Section 18 of the Agreement are to be scheduled, provided and reported as described in Section 3.C. Contractor shall provide operational and cost data by on-call service type upon request of the Director or his designee. In order to be considered for rate setting purposes, Contractor shall separately track costs for providing said on-call services requested by the County and such costs shall be segregated in rate applications. Expenses incurred by Contractor in performing services pursuant to Sections 16 and 18 of the Agreement will be treated as allowable for rate setting purposes to the extent such costs are properly accounted for in the rate

application(s) submitted by Contractor.

A. RIGHT-OF-WAY LOCATIONS: Contractor shall remove Solid Waste and Recyclable Material from specified locations in the County rights-of-way, as defined by the County, within three (3) business days of receiving each written request from the Director or his designee.

Contractor shall track and report to Director all on-call services provided by Contractor at requested right-of-way locations. Contractor shall utilize the on-call service reporting template provided by Director or his designee, unless an alternative reporting format is approved by the Director or his designee.

Contractor shall provide up to six (6) right-of-way pick-ups to remove illegally dumped debris per year (unused pick-ups will be available in subsequent years).

B. ABATEMENT PROJECT LOCATIONS: Upon written request of the Director or their designee, Contractor shall provide and service requested receptacle(s) at the specified abatement project locations in accordance with the following parameters:

1. Contractor shall identify mutually agreeable date that the requested receptacle(s) will be delivered to the specified location within three business days of the written request.
2. Contractor shall deliver the requested receptacle(s) on the date mutually agreed upon.
3. Contractor shall remove the requested receptacle(s) on the date mutually agreed upon.
4. Contractor shall track and report to Director all receptacles provided to County by Contractor and document the amount of material disposed or Recycled from receptacles. Contractor shall utilize the on-call service reporting template provided by the Director or his designee, unless an alternative reporting format is approved by the Director or his designee.

Contractor is not obligated to provide these services until an associated rate change takes effect.

C. COMMUNITY CLEAN-UPS: Contractor shall provide and service up to eight (8) 20-cubic yard debris boxes per year, unless some other combination of boxes with equivalent total capacity is approved by the Director or his designee, at community clean-up locations in the Franchise Area specified by the Director or his designee pursuant to Section 18 of the Franchise Agreement. Contractor shall track and report in writing to Director the number of community clean-up boxes utilized at each location and associated amounts disposed of or Recycled semi-annually.

EXHIBIT D

GUARANTY

Dated: June 2026

This Guaranty is made and entered into this 23rd day of June 2026, by and between the County of Contra Costa (hereinafter "County") and Republic Services, Inc., a Delaware corporation ("Guarantor").

WHEREAS, Crockett Sanitary Service, Inc., a California corporation ("Contractor"), a wholly owned subsidiary of Guarantor, desires to enter into a certain Franchise Agreement with the County (the "Agreement") for the provision of solid waste handling service within specified areas in the unincorporated area of the County;

WHEREAS, pursuant to Section 47 of the Agreement, the County has required that Contractor obtain certain assurances from Guarantor, as to all conditions and obligations of the Agreement to be fulfilled by Contractor; and

WHEREAS, in order to induce the County to approve the Agreement with Contractor, Guarantor desires to provide the County with said assurances as to all conditions and obligations of the Agreement to be fulfilled by Contractor;

NOW, THEREFORE, the County and Guarantor hereby agree as follows:

1. Guarantor hereby guarantees to the County the full performance by Contractor of all conditions and obligations in the Agreement which are to be fulfilled by Contractor, provided that the County has fulfilled all of its obligations under the Agreement, and in particular, without limiting the foregoing, that the County has provided Contractor with the requisite notice(s), and opportunities to cure as provided for in the Agreement.

2. The County agrees to give Guarantor notice by certified mail, return receipt requested, at:

Republic Services, Inc.
Attn: Vice President & Deputy General Counsel
5353 E. City North Drive
Phoenix, AZ 85054

each time that the County becomes aware of any fact or circumstance which may give rise to an obligation of Guarantor to perform pursuant to this Guaranty.

3. Notwithstanding any provision in this Guaranty to the contrary, the Guarantor may exercise or assert any and all legal or equitable rights, defenses, counter claims or affirmative defenses under the Agreement or Applicable Law which the Contractor could assert against any Party seeking to enforce the Agreement against

the Contractor, and nothing in this Guaranty shall constitute a waiver thereof by the Guarantor.

4. The County shall not sell, assign or otherwise transfer this Guaranty, or its rights or obligations thereunder, without the prior written consent of Guarantor, which consent shall not be unreasonably withheld if the assignment is to a municipal corporation.

5. This Guaranty constitutes the entire agreement between the Parties to this Guaranty with respect to the transactions contemplated by this Guaranty. Nothing in this Guaranty is intended to confer on any Person other than the Guarantor, the Authority and their permitted successors and Assigns under this Guaranty any rights or remedies under or by reason of this Guaranty.

6. This Guaranty may be executed in any number of counterparts, some of which may not bear the signatures of all Parties to this Guaranty. Each counterpart, when so executed and delivered, is deemed to be an original and all counterparts, taken together, shall constitute one and the same instrument; *provided, however,* that in pleading or proving this Guaranty, it shall not be necessary to produce more than one (1) copy (or sets of copies) bearing the signature of the Guarantor.

IN WITNESS WHEREOF, this Guaranty has been executed on the date first above written.

EXHIBIT E

LIQUIDATED DAMAGES

Dated: June 2026

The Parties acknowledge and agree that provision of consistent, reliable waste collection services is of utmost importance to County and its West County residents. Further, they agree that the County has relied on Contractor's ability, performance, and commitment to quality of service in awarding the Franchise Agreement. The Parties further recognize that some qualified standards of performance are necessary and appropriate to ensure consistent and reliable service and performance. The Parties further recognize that if Contractor fails to achieve the performance standards or fails to submit required documents in a timely manner, the County and West County residents will suffer damages and that it is and will be impractical and extremely difficult to ascertain and determine the exact amount of damages which the County and residents will suffer.

Therefore, without prejudice to the County's right to treat uncorrected non-performance as an event of default under this Franchise Agreement, the Parties agree that the following liquidated damage amounts represent a reasonable estimate of such damages.

LIQUIDATED DAMAGES

In the event that Contractor fails to perform its obligations under this Agreement specifically set forth below, the County may impose the following liquidated damages upon the Contractor in addition to any other available remedies the County may have.

A. CONTRACTOR RELIABILITY	
1. For each failure to collect Solid Waste, Recyclable Material or Organic Waste that have been properly set-out for collection, from an existing Customer on the scheduled collection day, if the missed pick-up is not cured by close of the next work day.	$25.00 / day (if not cured within 24 hours)
2. For each failure to collect Solid Waste, Recyclable Material, or Organic Waste that have been properly set out for collection, from the same existing Customer on two (2) consecutive scheduled pick-ups.	$50.00 / day (if not cured within 24 hours)
3. For each failure to properly conduct on-call curbside clean-up or bulky item pick-ups as provided in this Agreement.	$50.00 / occurrence (if not cured within 24 hours)
4. For each failure to commence service to a new Customer within seven (7) calendar days after order received and account number established.	$50.00 / day (if not cured within 24 hours)
5. For each failure to deliver a replacement container to a Customer or repair existing container within seven (7) calendar days of request.	$25.00 / occurrence (if not cured within 24 hours)
6. For each failure to deliver a different container size to a customer within seven (7) business days of request.	$25.00 / occurrence (if

	not cured within 24 hours)
7. For each failure to notify County of a change in post-collection facility used to manage Organic Waste for County approval as required by SB 1383 regulations.	$50.00 / day
8. Subject to Force Majeure, for each incident where two different waste streams (Solid Waste, Recyclable Material, and Organic Waste) are collected in the same non-split body vehicle.	$500.00 / incident
9. Failure to provide Recyclable Material and Organic Waste collection services to each and every Customer that is not meeting the following circumstances: 1) Customer has a County-approved waiver from recycling and/or organics recycling service, or 2) Contractor documents Customer is sharing recycling and/or organic recycling services with another Customer.	$100 / customer per day (if not cured within 48 hours)
10. Failure to conduct route audits as required by this Agreement and SB 1383.	$100 / missed route
11. Failure to pick up abandoned waste (illegally dumped) within twenty-four (24) hours upon request from the County.	$250 / day per incident (if not cured within 24 hours)
12. Failure to provide roll-off containers for a Community Clean-Up event.	$300 / missing container
B. QUALITY	
1. For each failure to immediately clean-up material spilled from contractor's vehicles, Solid Waste, recycling or organics containers.	$25.00 / day (if not cured within 24 hours)
2. For each occurrence of collecting Solid Waste, recyclable or organic materials, during unauthorized hours of operation.	$50.00 / occurrence
3. For each failure to repair any Solid Waste, recycling or organics collection vehicle in accordance with Section 9 within 24 hours of receiving notification from the County representative.	$50.00 / day per vehicle (if not cured within 24 hours)
4. For each failure to obtain approval from the County for changes in collection operations (i.e., frequency, place of pick-up or any other manner of collection, etc.).	$250.00 / day
5. For each failure of not tagging containers that are left uncollected.	$50.00 / day (if not cured within 24 hours)
6. Vehicle fluid leak incidents from Contractor Collection vehicles where clean up is not commenced within 90 minutes of notification from County representative.	$100 / incident
C. CUSTOMER RESPONSIVENESS	
1. For each documented failure to return Customer calls received during non-business hours no later than 5:00pm of the following business day.	$50.00 / occurrence
2. Failure to respond to each complaint within three (3) business days of receipt of complaint.	$200 / incident per customer (if not cured within 72 hours)

3. Failure to maintain call center hours as required by Section 12 Customer Service Standards.	$250 / day
D. PUBLIC EDUCATION	
1. Failure to obtain County approval prior to sending out quarterly residential or commercial newsletters.	$150.00 / occurrence
2. Failure to send out quarterly residential or commercial newsletters.	$250.00 / occurrence
3. Failure to send or deliver to customers the information concerning the conditions of service at least once a year as required by Section 12 of the Agreement.	$250.00 / occurrence
E. REPORTING REQUIREMENTS & TIMELY SUBMISSIONS	
1. Failure to submit to County any required reports in the timeframes required under the provisions of this Agreement. Any report or other required submission shall be considered late until a correct and complete report is received by the County.	$50.00 / day (if not cured within 24 hours)
2. For each occurrence of County requesting information required to be maintained by contractor where contractor fails to provide such information to the County within seven (7) days.	$50.00 / day (if not cured 24 hours)
3. Failure to submit to County monthly Franchise Fee payments by the twentieth day of the month following the end of each month for which Solid Waste Collection was provided.	1% of the total amount due if fees are 1-10 days late; and 10% of the total amount due if fees are more than 10 days late.
F. FACILITY-RELATED SERVICES	
1. Failure to provide adequate capacity to accept and process County franchise recyclable and organic recyclable materials in accordance with appliable laws.	$100.00 / ton
G. MISCELLANEOUS	
1. Failure for collection containers to be compliant with Section 9 of this Agreement and/or SB 1383 labeling and color requirements.	$100 / Collection container not compliant
2. Failure of Contractor to provide proof of corporate surety bond as required by Section 25 of this Agreement.	$250 / day
3. Failure of Contractor to provide proof of insurance as required by Section 27 of this Agreement.	$250 / day

Above amounts will be adjusted by the County annually on January 1, to reflect changes in the San Francisco-Oakland-Hayward Consumer Price Index for All Urban Consumers for the 12 month period between August 1 to-July 31 immediately preceding the January 1 when the adjustment is effective (August – August period).

Prior to assessing Liquidated Damages, the Director shall give Contractor notice of intent to do so. The notice shall include a brief description of the incident of non-performance and any information or documentation relating to the incident or non-performance.

Contractor may, within ten (10) days after receiving the notice, request a meeting with the County Representative. At said meeting, Contractor may present evidence in writing and through testimony of its employees and other information relevant to the incident or non-performance. The Director, or designee, shall provide Contractor with a written explanation of his or her determination on each incident or non-performance prior to authorizing any assessment of Liquidated Damages ("final authorized assessment of Liquidated Damages").

Within fourteen (14) days of receiving a final authorized assessment of Liquidated Damages from the County, Contractor shall remit to the County the damages specified in said assessment.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2843 **Agenda Date:** 6/23/2026 **Agenda #:** C.33.

To: Board of Supervisors

From: John Kopchik, Director, Conservation and Development

Report Title: 2026/2027 North Richmond Waste and Recovery Mitigation Fee Expenditure Plan

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE the 2026/2027 North Richmond Waste and Recovery Mitigation Fee Expenditure Plan (Exhibit A), identifying the activities authorized to be funded with Mitigation Fee revenue and respective funding allocations for the period of July 1, 2026 through June 30, 2027, as recommended by the North Richmond Waste and Recovery Mitigation Fee Joint Expenditure Planning Committee.

FISCAL IMPACT:

Mitigation Fee revenue is used to cover the costs incurred by the County and City for any activities (Strategies) authorized to be funded under the applicable North Richmond Waste and Recovery Mitigation Fee Expenditure Plan approved by the County and City of Richmond. Each annual Expenditure Plan includes a Contingency line item in the budget to serve as a cushion for potential revenue shortfalls, and staff anticipates that there will be sufficient funding in the Contingency fund for this purpose.

BACKGROUND:

New Expenditure Plans and/or modifications to existing Expenditure Plans (Amended Expenditure Plan) must be approved by both the County Board of Supervisors and Richmond City Council to officially authorize use of North Richmond Waste and Recovery Mitigation Fee funding. The purpose of this North Richmond Mitigation Fee (NRMF) is to mitigate designated impacts resulting from the County and City approved land use permits for the expanded Bulk Material Processing Center (BMPC) located in North Richmond.

Summary of Recommended 2026/2027 Expenditure Plan

At the NRMFC meeting on May 22, 2026, the Committee voted to recommend that the County Board of Supervisors and Richmond City Council approve a 2026/2027 Expenditure Plan that allocates funding from July 1, 2026, through June 30, 2027.

The recommended 2026/2027 Expenditure Plan attached (Exhibit A) incorporated the following changes:

- Decrease funding for Strategy 2 - Neighborhood Clean-ups
- Decrease contingency funding

All other strategies remained unchanged.

The next NRMFC meeting is planned to be scheduled for October 16, 2026.

CONSEQUENCE OF NEGATIVE ACTION:

Each new Expenditure Plan must receive final approval from the County Board of Supervisors and Richmond City Council. Expenditure Plans and any associated amendments recommended or approved by the NRMFC only take effect if/when approved by the Board of Supervisors and the Richmond City Council. Therefore, if the 2026/2027 Expenditure Plan is not approved by the Board prior to July 1, 2026 the previously approved strategies (activities) could not be funded by NRMF in which case, most if not all, would not continue being implemented without interruption.

North Richmond Waste & Recovery Mitigation Fee
2026/2027 Expenditure Plan

The Waste & Recovery Mitigation Fee was established as a result of the Environmental Impact Report (EIR) certified in July 2004 for the WCCSL Bulk Materials Processing Center (BMPC) and Related Actions (Project). The Project involved new and expanded processing and resource recovery operations on both the incorporated and unincorporated area of the Project site, which the EIR concluded would impact the host community. To mitigate this impact Mitigation Measure 4-5 called for a Mitigation Fee to benefit the host community, described as follows:

> "Mitigation Fee. The facility operator shall pay a Mitigation Fee of an amount to be determined by the applicable permitting authority(ies) ***to defray annual costs associated with collection and disposal of illegally dumped waste and associated impacts in North Richmond and adjacent areas*.** The mitigation fee should be subject to the joint-control of the City and County and should be collected on all solid waste and processible materials received at the facility consistent with the existing mitigation fee collected at the Central IRRF."

In July 2004, the City of Richmond and Contra Costa County entered into a Memorandum of Understanding (MOU) agreeing to jointly administer Mitigation Fee monies collected from the BMPC for the benefit of the incorporated and unincorporated North Richmond area. This North Richmond Waste & Recovery Mitigation Fee Joint Expenditure Planning Committee (Committee) was formed pursuant to the terms of the MOU for the specific purpose of preparing a recommended Expenditure Plan. This Expenditure Plan provides a means to jointly administer the Mitigation Fee funding for the benefit of the host community, as described in the EIR. The Expenditure Plan is subject to final approval of the Richmond City Council and the Contra Costa County Board of Supervisors.

By approving this Expenditure Plan, the City Council and Board of Supervisors authorize the use of Mitigation Fee funding for only the purposes and in the amounts specified herein. The City and County have each designated their respective staff persons responsible for administering the development and implementation of the approved Expenditure Plan, which includes responsibility for drafting and interpreting Expenditure Plan language. However, the City and County have not delegated to the Committee or to staff the authority to expend funding for purposes not clearly identified in the Expenditure Plan document officially approved by their respective decision-making bodies.

Activities which can be funded in this Expenditure Plan period with the Mitigation Fee amounts specified within this Expenditure Plan are described herein as "Strategies" or "Staff Costs". Strategies are categorized as either "Core Services" or "Supplemental Enhancements". Core Services includes the higher funding priority strategies that most directly address the intended purpose of this City/County approved Mitigation Fee*, "to defray annual costs associated with collection and disposal of illegally dumped waste and associated impacts in North Richmond"*.

All references to the "Mitigation Fee Primary Funding Area" or "Mitigation Fee Funding Area" pertain to the geographic area shown in the attached map (Attachment 5).

Expenditure Plan Period:	July 1, 2026 - June 30, 2027 *(unless otherwise specified herein)*

BUDGET

The funding allocation amounts included in this document apply to the Expenditure Plan Period specified on the first page unless otherwise specified herein. The total amount of funding allocated in the Expenditure Plan Budget is based on revenue projections provided by the BMPC operator, Republic Service, which are dependent upon multiple variables (e.g. number of tons of recovered materials vs. solid waste, per ton gate rate charged and amount of CPI-adjusted per ton Mitigation Fee). Actual Mitigation Fee revenue may deviate from revenue projections provided by Republic and used to prepare this Budget. A "Contingency" line item is included in the Budget to help accommodate variations between projected and actual revenue. Excess funding allocated to strategies and not expended by the end of each Expenditure Plan period is treated as "roll-over" funding for reallocation in a subsequent Expenditure Plan period.

The Budget includes some line items that are based on fixed costs, however there are other line items which are scalable and/or dependent on utilization thereby providing flexibility to reallocate amounts if and when a significant need is identified. Allocated funding may remain unspent due to under-utilization of a particular program. If the amount allocated to a particular line item is determined to exceed needs based upon usage, the remaining funding can only be reallocated by officially amending the Expenditure Plan. This Expenditure Plan may only be adjusted upon official action taken by both the City and County. Although there has been some interest in allowing flexibility for staff to adjust funding allocations under specific circumstances, the authority to approve or modify the Expenditure Plan rests solely with the City Council and Board of Supervisors.

Annual fiscal year Expenditure Plan cycle is expected to reduce margin of error of Mitigation Fee revenue projections, streamline financial reconciliation/budgeting process and minimize need to amend Expenditure Plans mid-cycle. Amending Expenditure Plans involve administrative burden and costs due to the joint approval needed from both the Richmond City Council and County Board of Supervisors. In order to minimize the amount of funding needed to cover staff costs incurred to amend the Expenditure Plan, staff will only recommend changes to the Expenditure Plan when necessary to address a significant or time-sensitive need.

BUDGET TABLE

	#	Expenditure Plan (EP) Strategy	Budget Allocations for 2026/2027
Core Services	1	Bulky Item Pick-ups & Disposal Vouchers	$ 2,500.00
	2	Neighborhood Clean-ups	$ 35,000.00
	3	Prevention Services Coordinator	$ 50,726.75
	4.A.	City/County Right-of-Way Pick-ups & Tagging Abatement	$ 60,000.00
	4.B.	City/County Right-of-Way Pick-ups	$ 5,000.00
	5	Code Enforcement Staff - County	$ 91,850.60
	6	Illegal Dumping Law Enforcement	$ 175,814.30
	7	Surveillance Cameras	$ -
	8	Code Enforcement Staff - City	$ 13,000.00
Supplemental Enhancements	9	Community Services Coordinator	$ 90,909.09
	10	Community Clean-Up Projects (See Attachment 2)	$ 87,000.00
	11	North Richmond Green Community Service Programs	$ 21,042.00
	12	North Richmond Green Campaign	$ 24,500.00
	13	Garden Projects (See Attachment 4)	$ 28,062.13
	14	Mobile Tool Lending Library	$ 35,540.00
		Contingency *(10% of Projected Revenue)*	$ 80,808.44
Subtotal (without Committee Staffing)			$ 801,753.31
	X	Committee Administration/Staffing	$ 90,000.00
Total Projected Revenue in 2026/2027 (July 1, 2026 thru June 30, 2027)			$ 808,084.39
Roll-over Funding from Prior EP Cycle(s)			$ 83,668.92
Total 2026/2027 Expenditure Plan Budget			$ 891,753.31

DESCRIPTION OF STRATEGIES RECOMMENDED FOR FUNDING

Funding allocation amounts for each strategy are specified in the Budget table on page 3. The following Strategies describe the activities allowed to be funded with the amounts allocated to each in the Budget (associated allowable agency staff costs are described in the Staff Costs section). Strategies are grouped based on relative funding priority levels and the "Core Services" category contains higher priority Strategies than the "Supplemental Enhancements" category. Higher funding priority Strategies are those which best address the Fee's intended purpose, ***"to defray annual costs associated with collection and disposal of illegally dumped waste and associated impacts in North Richmond"***).

Level 1 Priority - PRIMARY CORE SERVICES STRATEGIES

- 1 - Bulky Item Pick-ups & Disposal Vouchers
- 2 - Neighborhood Clean-ups
- 4.A. - City/County Right-of-Way Pick-ups & Tagging Abatement
- 4.B. - City/County Right-of-Way Pick-ups
- 5 - Code Enforcement Staff – County
- 6 – Illegal Dumping Law Enforcement
- 8 – Code Enforcement Staff – City

Level 2 Priority - SECONDARY CORE SERVICES STRATEGIES

- 3 - Prevention Services Coordinator
- 7 - Surveillance Cameras

Level 3 Priority - PRIMARY SUPPLEMENTAL ENHANCEMENTS STRATEGIES

- 9 - Community Services Coordinator
- 10 - Community Clean-up Projects
- 11 - North Richmond Green Community Services Programs
- 12 - North Richmond Green Campaign
- 13 - Garden Projects
- 14 - Mobile Tool Lending Library

CORE SERVICES

1. Bulky Item Pick-ups & Disposal Vouchers

Provide residents in the Mitigation Fee Primary Funding Area, who prove eligibility consistent with City/County procedures, with the option of choosing to:

- Request up to one on-call pick-up service per household per calendar year for bulky items that are not accepted in the current on-call clean-ups through Richmond Sanitary Service (RSS), only available to those with an active account with RSS; or
- Request up to twenty four $5 vouchers per household for disposal at Republic's transfer station on Parr Blvd. per calendar year (vouchers expire

after six months, Mitigation Fees only pay for vouchers that are actually redeemed).

[See "Staff Costs" section for agency activities that may also be funded under this Strategy.]

Administering Agency: City of Richmond

Implementing Entity(ies):

Community Housing Development Corporation *(processes requests and issues Disposal Vouchers/arranges Bulky Item Pick-ups)*

Republic Services - Golden Bear Transfer Station & Richmond Sanitary Service *(reimbursed for Disposal Vouchers redeemed and Bulky Item Pick-ups provided)*

Reporting/Payment Requirements: Effective July 1, 2012, CHDC and Republic Services shall provide required data pertinent to Strategy 1 based upon the strategy-specific invoicing/reporting requirements and schedule developed/maintained by Committee Staff in order to receive NRMF-funded payments.

2. Neighborhood Clean-ups

Provide at least one neighborhood and/or creek clean-up event in the Mitigation Fee Funding Area; additional clean-up event may be scheduled as funding allows.
[See "Staff Costs" section for agency activities that may also be funded under this Strategy.]

Administering Agency: City of Richmond

Implementing Entity(ies):

City Manager's Office *(coordinates scheduling of clean-up dates and associated arrangements in conjunction with partner entities)*

Republic Services - Richmond Sanitary Service *(reimbursed for providing/servicing clean-up boxes and disposing of debris placed in clean-up boxes)*

Reporting/Payment Requirements: Effective July 1, 2012, the City Manager's Office and Republic Services shall provide required data pertinent to Strategy 2 based upon the strategy-specific invoicing/reporting requirements and schedule developed/maintained by Committee Staff in order to receive NRMF-funded payments (funding transfers).

3. Prevention Services Coordinator

Fund at least a portion of a Prevention Services Coordinator (PSC) position (including salary/benefits/overhead and administering agency contracting charge[1]) on a contract basis to assist the City and County in implementing Strategy 1 as the point of contact for community members interested in claiming Disposal Vouchers or Bulky-Item Pick ups. Assist community members interested in reporting illegal dumping and seeking referral/resources. Track and report data related to illegally dumped waste collected by Republic Services Hot Spot Crew and handle

[1] Administering agency contracting charge applies ($3,000 per contract)

associated referrals to applicable public agencies, including right-of-way referrals for Strategy 4. The PSC may also assist City and County with administering funding allocated to selected non-profit organizations under Strategies 10 and 13.

[See "Staff Costs" section for agency activities that may also be funded under this Strategy.]

Administering Agency: Contra Costa County

Implementing Entity: Community Housing Development Corporation (CHDC)
(reimbursed actual cost for part-time position that issues Disposal Vouchers/arranges Bulky Item Pick-ups)

Reporting/Payment Requirements: Effective July 1, 2012, CHDC shall provide required data pertinent to Strategy 1 and Strategy 3 based upon the strategy-specific invoicing/reporting requirements and schedule developed/maintained by Committee Staff in order to receive NRMF-funded payments.

4.A. City/County Right-of-Way Pick-ups & Tagging Abatement

Fund consolidated pick-up program (including personnel, mileage, equipment rental and administrative costs) for removal of illegal dumping and tagging abatement in the public right-of-way located within the unincorporated & incorporated Mitigation Fee Primary Funding Area. Additional tasks would include identifying potential sites for Strategy 10 Clean-Up Projects. Funding is intended to pay for removal of illegal dumping that occurs as a result of referrals from the Prevention Services Coordinator for items/debris not collected by the designated Republic Services Hot Spot Route crew.

[See "Staff Costs" section for agency activities that may also be funded under this Strategy.]

Administering Agency: City of Richmond

Implementing Entity: Richmond Public Works Department's Abatement Division

Reporting/Payment Requirements: Effective July 1, 2012, the Richmond Public Works Department's Abatement Division shall provide required data pertinent to Strategy 4.A. based upon the strategy-specific invoicing/reporting requirements and schedule developed/maintained by Committee Staff in order to receive NRMF-funded payments (funding transfers).

4.B. City/County Right-of-Way Pick-ups

Fund consolidated pick-up program (including personnel, mileage, equipment rental and administrative costs) for removal of illegal dumping in the public right-of-way located within the unincorporated & incorporated Mitigation Fee Primary Funding Area. Additional tasks would include identifying potential sites for Strategy 10 Clean-Up Projects. Funding is intended to pay for removal of illegal dumping that occurs as a result of referrals from the Prevention Services Coordinator for items/debris not collected by the designated Republic Services Hot Spot Route crew.

[See "Staff Costs" section for agency activities that may also be funded under this Strategy.]

Administering Agency: Contra Costa County

Implementing Entity: Republic Services

Reporting/Payment Requirements: Effective July 1, 2022, Contra Costa County's Department of Public Works shall provide required data pertinent to Strategy 4.B. based upon the strategy-specific invoicing/reporting requirements and schedule developed/maintained by Committee Staff in order to receive NRMF-funded payments (funding transfers).

5. Code Enforcement Staff - County

Fund at least a portion of County code enforcement position (including salary/benefits and related vehicle and equipment costs), to assist with vacant/ abandoned lot abatements and fencing as well as other health/building/zoning violations related to illegal dumping and blight throughout the unincorporated Mitigation Funding Area. Additional tasks would include identifying potential sites for Strategy 10 Clean-Up Projects.

[See "Staff Costs" section for agency activities that may also be funded under this Strategy.]

Administering Agency: Contra Costa County

Implementing Entity: County Department of Conservation & Development's Building Inspection Division

Reporting/Payment Requirements: Effective July 1, 2012, the County Department of Conservation & Development's Building Inspection Division shall provide required data pertinent to Strategy 5 based upon the strategy-specific invoicing/reporting requirements and schedule developed/maintained by Committee Staff in order to receive NRMF-funded payments (funding transfers).

6. Illegal Dumping Law Enforcement

Fund majority of a full-time Sheriff Deputy (between approximately 90-100% of salary/benefits, overtime, uniform and related cell phone, equipment, and vehicle costs) to assist with law enforcement investigations and patrols to combat illegal dumping within the Mitigation Fee Primary Funding Area. Additional tasks would include identifying potential sites for Strategy 10 Clean-Up Projects.
[See "Staff Costs" section for agency activities that may also be funded under this Strategy.]

Administering Agency: Contra Costa County

Implementing Entity: County Sheriff's Office

Reporting/Payment Requirements: Effective July 1, 2012, the County Sheriff's Office shall provide required data pertinent to this Strategy based upon the

strategy-specific invoicing/reporting requirements and schedule developed/maintained by Committee Staff in order to receive NRMF-funded payments (funding transfers).

7. Surveillance Cameras

Fund the cost of cameras, camera infrastructure, camera signage and costs related to monitoring, maintenance, warranty, repair & relocation of surveillance camera system equipment within the Mitigation Fee Primary Funding Area. Cameras will be used to assist the dedicated Illegal Dumping Law Enforcement officer prevent dumping in targeting specific locations where illegal dumping occurs most regularly.

[See "Staff Costs" section for agency activities that may also be funded under this Strategy.]

Administering Agency: Contra Costa County

Implementing Entity(ies):

Richmond Police Department *(operate, move and maintain eight Pan-Tilt-Zoom wireless video surveillance cameras and associated camera system infrastructure throughout NR -AND- install/clean/move FlashCam cameras located within the incorporated NR area if funding is available)*

County Sheriff's Department *(coordinate monitoring of FlashCams or other camera systems located throughout NR and identify/request relocation of surveillance cameras throughout NR as needed)*

County Public Works Department (*install/clean/move FlashCam or other camera systems cameras located within the unincorporated NR area upon request if funding is available)*

Reporting/Payment Requirements: Effective July 1, 2012, each Implementing Entity shall provide required data pertinent to each entity's applicable Strategy 7 responsibilities based upon the strategy-specific invoicing/reporting requirements and schedule developed/maintained by Committee Staff in order to receive NRMF-funded payments (funding transfers) now or in the future.

8. Code Enforcement Staff - City

Fund at least a portion of City code enforcement position (including salary/benefits and related vehicle and equipment costs), to assist with vacant/ abandoned lot abatements and fencing as well as other health/building/zoning violations related to illegal dumping and blight throughout the incorporated Mitigation Funding Area. Additional tasks would include identifying potential sites for Strategy 10 Clean-Up Projects.

[See "Staff Costs" section for agency activities that may also be funded under this Strategy.]

Administering Agency: City of Richmond

Implementing Entity: City Department of Infrastructure Maintenance & Operations

Reporting/Payment Requirements: Effective July 1, 2020, the City Department of Infrastructure Maintenance & Operations shall provide required data pertinent to Strategy 8 based upon the strategy-specific invoicing/reporting requirements and schedule developed/maintained by Committee Staff in order to receive NRMF-funded payments (funding transfers).

SUPPLEMENTAL ENHANCEMENTS

9. Community Services Coordinator

Fund at least a portion of a Community Services Coordinator (CSC) position to be staffed on a contract basis (including salary/benefits/overhead and administering agency contracting charge[2]). The CSC shall:

- serve as a link between the community of North Richmond, the City of Richmond, and Contra Costa County for issues related to beautification, illegal dumping, and blight using referral process identified by the City and County;
- coordinate outreach activities related to illegal dumping and beautification within the Primary Funding area, as specified by the City/County, including North Richmond Green community service programs and outreach activities described under Strategies 11 & 12; and
- Identifying potential sites for Strategy 10 Clean-Up Projects.
- be bilingual in order to assist with Spanish translation as needed.

[See "Staff Costs" section for agency activities that may also be funded under this Strategy.]

Administering Agency: Contra Costa County

Implementing Entity: Community Housing Development Corporation (CHDC).

Reporting/Payment Requirements: CHDC shall provide required data pertinent to Strategies 9, 11 & 12 based upon the strategy-specific invoicing/reporting requirements and schedule developed/maintained by Committee Staff in order to receive NRMF-funded payments.

10. Community Clean-up Projects

Fund the implementation, oversight and administering agency contracting charges[3] of community clean-up projects with specific focus on reducing blight. Community clean-up projects may involve the removal of debris and/or landscaping maintenance. Sites to be cleaned shall be in the Mitigation Fee Funding area and designated by the Administering Agency. The number of sites to be cleaned will be determined by the amount of funding allocated.

[2] Administering agency contracting charge is $3,000 per contract.

[3] Administering agency contracting charge is $3,000 per contract entered into by the County and up to 20% of the per project funding allocation (as described in the "Administering Agency" section).

A breakdown of contracting costs and amount awarded to the Implementing Entity is contained in the Community Clean-up Project Table included as Attachment 2. Up to 15% of the Implementing Entity's Award Amount in Attachment 2 may be used for a fiscal sponsor or administrative oversight.

[See "Staff Costs" section for agency activities that may also be funded under this Strategy.]

Administering Agency: Contra Costa County. Community Housing Development Corporation (CHDC) may under contract with the County as an Administering Agency, administer Community Clean-Up Project contracts funded under this Strategy. CHDC shall use no more than twenty (20) percent (%) of the total amount awarded to Community Clean-Up Projects (after subtracting City/County contracting cost) listed in Attachment 2 to oversee implementation, including facilitating review/assessment of reports' and deliverables. Payments to Implementing Entities for Community Clean-Up Projects shall not be issued by CHDC without the written approval of City and County Committee Staff.

Implementing Entity: See Community Clean-up Projects Table in Attachment 2

Reporting/Payment Requirements: Any Community Clean-Up Projects shall be subject to the Reporting & Invoicing Requirements specified in the template Memorandum of Understanding included in Attachment 1. Attachment 1 only applies to Community Clean-Up Project contracts with the Implementing Entities. The County will issue advance payments to CHDC, as needed, to ensure there is adequate funding available for payments requested by Implementing Entities if and when authorized by City and County Staff. Additionally, CHDC would be subject to contractual payment and reporting provisions that differ from those in Attachment 1 due to the nature of the services to be provided.

11. North Richmond Green Community Services Programs

Fund the following North Richmond Green programs on a contract basis[4] to the extent the specific details submitted are determined to align with the purpose of the Mitigation Fee and Expenditure Plan:

- *NR Little League Baseball Program* - Includes cost of registration and uniforms with customized North Richmond Green patches for up to 5-6 teams, season kick-off event/parade, equipment, stipends for game monitoring and oversight, food and transportation.
- *NR Youth Twilight Basketball Program* - Includes cost of registration and uniforms with North Richmond Green patches for up to 5-6 teams, equipment, stipends for game monitoring and oversight, food and transportation.
- *NR Youth Soccer Program* - Includes cost of registration and uniforms with North Richmond Green patches for up to 5-6 teams, equipment, stipends for game monitoring and oversight, food and transportation.
- *NR Eco Workshops & Beautification Projects* – Eco Workshops and Beautification Projects include school gardens, recycling efforts, beach/creek/neighborhood clean-ups and ecological field trips. May fund the cost of materials, transportation and fees

[4] Administering agency contracting charge applies ($3,000 per contract)

associated with pre-approved community beautification projects such landscaping and murals.

[See "Staff Costs" section for agency activities that may also be funded under this Strategy.]

Administering Agency: Contra Costa County

Implementing Entity: Community Housing Development Corporation (CHDC)

Reporting/Payment Requirements: CHDC shall provide required data pertinent to Strategies 9, 11 & 12 based upon the strategy-specific invoicing/reporting requirements and schedule developed/maintained by Committee Staff in order to receive NRMF-funded payments.

12. North Richmond Green Campaign

Fund the design, printing and/or distribution of education and outreach materials on a contract basis[5] which must align with the purpose of the Mitigation Fee and Expenditure Plan and be pre-approved by Committee Staff. Outreach materials must include "Jointly funded by City of Richmond & Contra Costa County" unless otherwise specified herein. Outreach materials may be any of the types specified below, however must clearly intend to directly:

- Inform the community about Mitigation Fee funded programs/efforts,
- Increase participation in Mitigation funded programs/efforts,
- Reduce illegal dumping and blight in the Mitigation Fee Funding Area, and/or
- Promote beautification in the Mitigation Fee Funding Area.

The following type of outreach material expenditures may be funded if reviewed and pre-approved by Committee Staff:

- STIPENDS – Pay local community members (youth and adults) to distribute printed outreach materials door-to-door to promote mitigation-funded strategies *(Jointly Funded text not applicable to stipend expenses, only materials)*
- HANDOUTS/MAILERS – Newsletters, flyers, brochures or other documents intended to be handed out or mailed to local residents/organizations.
- T-SHIRTS - Shirts shall include the NRGreen.org website to encourage people to learn more about Mitigation funded programs/efforts *(local phone number should also be included when possible, however inclusion of Jointly Funded text may not be required)*
- NR GREEN FESTIVAL – Event held once per year and generally include information booths to raise awareness about mitigation-funded efforts and other local beautification efforts as well as fun activities for kids and food. Materials promoting the event shall include the NRGreen.org website as well as a local phone number.
- SIGNAGE – Printed or manufactured signage, which includes promotional banners for local events/parades, which should include the NRGreen.org website for Community members to learn more about Mitigation funded programs/efforts. Repair, replacement and removal of NRMF-funded Light Pole Banners.

[5] Administering agency contracting charge applies ($3,000 per contract)

[See "Staff Costs" section for agency activities that may also be funded under this Strategy.]

Administering Agency: Contra Costa County

Implementing Entity: Community Housing Development Corporation (CHDC)

Reporting/Payment Requirements: CHDC shall provide required data pertinent to Strategies 9, 11 & 12 based upon the strategy-specific invoicing/reporting requirements and schedule developed/maintained by Committee Staff in order to receive NRMF-funded payments.

13. Garden Projects

Fund the implementation, oversight and administering agency contracting charges[6] of Garden Projects as further described below.

Community Garden Projects: Fund on-going maintenance and up-keep of existing community gardens within the Primary Funding Area. The projects selected under this Strategy have been funded on an on-going basis.

Details, including recommended allocation amounts, for Projects are included in Attachment 4. Up to 15% of the Non-Profit Implementer Award Amount specified in Attachment 4 may be used for administrative oversite.

[See "Staff Costs" section for agency activities that may also be funded under this Strategy.]

Administering Agencies: Contra Costa County. Community Housing Development Corporation (CHDC) may under contract with the County as the Administering Agency, administer Garden Project contracts funded under this Strategy. CHDC shall use no more than twenty (20) percent (%) of the total amount awarded to Projects (after subtracting City/County contracting cost) to oversee implementation, including facilitating review/assessment of reports and deliverables. Payments to Implementing Entities for Garden Projects shall not be issued by CHDC without the written approval of both City and County Committee Staff.

Implementing Entity: See Garden Projects Table in Attachment 4

Reporting/Payment Requirements: Any Garden Project contracts issued or amended by the City/County shall incorporate Reporting & Invoicing Requirements equivalent with those shown in Attachment 3. Garden Project contracts being administered by CHDC on behalf of the County shall also incorporate Reporting & Invoicing Requirements equivalent with those shown in Attachment 3. Attachment 3 only applies to the Garden Project contracts with the Implementing Entities. CHDC would be subject to contractual payment and reporting provisions that differ

[6] Administering agency contracting charge is $3,000 per contract entered into by the County and up to 20% of the per project funding allocation (as described in the "Administering Agency" section).

from those in Attachment 3 due to the nature of the services to be provided. The County will issue advance payments to CHDC, as needed, to ensure there is adequate funding available to payments requested by Implementing Entities if and when authorized by City and County Staff.

14. Mobile Tool Lending Library

Fund the development, implementation, and on-going maintenance of a mobile tool lending library that is accessible to the public within the Mitigation Fee Primary Funding Area at least once a week. Funding is intended to pay for the purchase of educational material, tools, a cell phone for the library, costs related to the tool lending system & trailer/tool maintenance, and personnel/labor.

Administering Agency: City of Richmond

Implementing Entity: City of Richmond Community Services Department

Reporting/Payment Requirements: Effective July 1, 2020, the City of Richmond Community Services Department shall provide required data pertinent to Strategy 14 based upon the strategy-specific invoicing/reporting requirements and schedule developed/maintained by Committee Staff in order to receive NRMF-funded payments (funding transfers).

STAFF COSTS

Committee Administration/Staffing Funding: The funding allocated for Committee Administration/Staffing may not be adequate to cover the full cost of staff time necessary for jointly staffing the North Richmond Waste & Recovery Mitigation Fee Joint Expenditure Planning Committee as well as developing, administering and overseeing this Expenditure Plan for the specified period. Supplemental funding allocation may be necessary upon determining actual costs exceed the amount budgeted to cover the intended City/County costs for joint staffing.

Strategy-Specific Funding: The cost of City/County staff time spent providing direct implementation assistance and/or coordination for specific Strategies may be covered with a portion of the NRMF funding budgeted for each applicable Strategy. Additionally, a portion of the NRMF funding budgeted for Strategies will be used to pay fixed administering agency contracting charge for each applicable contract (Currently $3,000 per contract. An additional $3,000 may be added to a contract amendment to add additional funding or nonprofits to a contract during an existing contract cycle) unless otherwise specified herein.

TEMPLATE MEMORANDUM OF UNDERSTANDING BETWEEN

_____

AND
COMMUNITY HOUSING DEVELOPMENT CORPORATION

This is an agreement made and executed on _____ between Community Housing Development Corporation (CHDC) and _____ (Contractor). This contract will remain in effect for the time period identified in the TERM section of the agreement.

OVERVIEW:
The _____ North Richmond Mitigation Fee (NRMF) Expenditure Plan approved by the Board of Supervisors in _____ and Richmond City Council in _____ allocates a total of **$_____**to the Contractor for the disbursement of funds within Strategy 10 to complete Clean-Up Project(s) in the North Richmond Mitigation Area.

TERM: The term of this agreement begins on _____ and ends on _____. Contractor will complete all work performed under this agreement not later than _____. Invoices submitted for work performed before or after this specified term and invoices submitted after _____will not be paid.

I. Contractor's Obligations

The Contractor shall administer the _____, as described herein for an amount not to exceed **$_____**involving the following activities:

A. Recruit and Hire up to four (4) workers

1. Contractor will develop and publicize the job announcements. Job announcements shall contain, "Jointly funded by The City of Richmond & Contra Costa County" language.
2. Contractor will interview, select and hire up to four workers.
3. Contractor will host training for new hires that discusses the proper procedures of disposal of hazardous waste (televisions, phones, batteries, tires, paint etc.).

Task A - Deliverables:

1. Documentation of publicized job announcement in English/Spanish with required jointly funded language.
2. Documentation of hiring papers.

B. Clean up to _____(_) North Richmond Sites Approved by the County

1. Contractor shall select North Richmond addresses provided by the County or City to be cleaned during each clean up. Community clean-up projects may involve the removal of debris and/or landscaping maintenance.
    a. Addresses provided by the County or City will include a description of debris for removal and/or landscaping needs.
    b. Addresses provided by the County or City shall only be selected once for clean-up unless directed otherwise by County Staff.
2. Contractor will confirm with the County the address for cleanup one week and provide clear written procedures for the proper disposal of all waste types previously described at each clean-up site, including

waste that is recyclable, hazardous or requires special handling. Procedures shall be submitted and approved by the County before the site is cleaned up.

3. Contractor shall make arrangements in advance with the appropriate partners for the proper removal, recycling, composting or disposal of the debris identified in the area to be cleaned, including materials that require special handling such as tires, hazardous/universal wastes, appliances, and medical sharps/waste.
4. Contractor shall document approximate quantities (count, volume or weight) of each type of material/debris removed from the area during clean-up, using a log or other method agreed upon in advance.
5. Contractor shall demonstrate how the materials/debris removed during the clean-up were transported and where each type was properly recycled, composted or disposed.

Task B - Deliverables:

1. Documentation of disposal procedures approved by the County for each confirmed clean-up address.
2. Before photos of the entire site before the material/debris has been cleaned up.
3. Completed Contractor's Log identifying the types and amount of material/debris removed.
4. After photos of the entire site after it has been cleaned up. Contractor shall strive to take After photos from the same vantage points as the Before photos.
5. Documentation demonstrating that the material/debris removed was properly disposed or recycled. If debris removed during the clean-up is disposed of in existing containers that are routinely serviced by Republic Services, Contractor shall submit copy of an invoice or letter from Republic Services confirming what collection services were being provided at the disposal location during the applicable timeframe. For any in-kind hauling/disposal service offered by partner organizations or agencies, contractor may submit written communication identifying what was picked up by whom and where it was taken (e.g. e-mail message from the Parks District confirming that yard debris that was placed in tarps and set-out at agreed upon location was placed in designated green waste bin on the District's property or transported to a specified compost facility). Alternatively, if disposal services are provided in the form of debris box donation(s) from Republic Services, contractor may submit written communication confirming donation.

C. Attend Community Meetings and Events

1. Attend one North Richmond Green meeting(s) per quarter (quarterly periods end on December 31st, March 31st and June 30th).
    a. No portion of the Quarterly Meeting Attendance budget line item will be paid to Contractor unless Contractor submits written evidence proving Contractor representative attended at least one monthly North Richmond Green Meeting during the applicable quarter.

Task C - Deliverables:

1. Documented attendance via minutes or copies of sign-in sheets of North Richmond Green meetings

D. Reporting & Invoicing

1. Submit invoices and the required supporting documentation (including applicable required Deliverables and completed Progress Reports as specified in Section III. Payment Provisions) for each calendar month, and not later than 30 days after the end of the applicable monthly period. The Reporting and Invoicing budget line items are intended to ensure timely submittal of invoices and required supporting

documentation. No portion of the Invoicing budget line item will be paid to Contractor for invoices submitted late, or without the required documentation or completed Progress Report.

Task D- Deliverables:

1. Complete monthly invoices on time for all tasks completed, accompanied by all required deliverables (including completed Progress Report or Final Progress Report). If Contractor does not provide a timely and complete invoice with all deliverables required for applicable tasks outlined on the invoice, as specified herein, no later than 30 days after the end of the applicable monthly period, the Contractor shall forfeit the $100 allocated for each applicable invoice period. Contractor may not use any funding specifically allocated for Reporting and Invoicing for any other purpose
2. Completed Progress Report addressing activities that occurred during the corresponding invoice period (except for the final invoice) consistent with Section III.3.a.
3. Completed Final Progress Report addressing the entire project to be submitted with the final invoice consistent with Section III.3.a.

E. Eligible Costs:

Eligible costs consistent with the below table can only be reimbursed if included on invoices in conformance with the payment provisions and submitted prior to _____.

Budget Line Items by Task/Deliverable	Quantity	Payment per Unit	Total Payments	Budget Amount
A. Recruit and hire up to four (4) workers				**$ 1,750**
Deliverable 1 - Recruitment Documentation	1 each	$350	$350	
Deliverable 2 - Hiring Documentation	4 each	$350	$1,400	
B. Clean-up up to _____(_) designated locations in the NRMF Funding Area				**$ _____**
Deliverable 1 - Procedures	_ each	$200	$1600-	
Deliverable 2 - Before Photos	_ each	$300	$2,400-	
Deliverable 3 - Contractors Log	_ each	$400	$3,200-	
Deliverable 4 - After Photos	_ each	$300	$2,400-	
Deliverable 5 - Disposal Documentation	_ each	$600	$4,800-	
C. Attend North Richmond Green Meetings				**$ 750**
Deliverable 1 - NR Green Meetings	3 each	$250	$750	
D. Reporting and Invoicing				**$ 2,500**
Deliverable 1 - Timely & Complete Invoice	9 each	$100	$900	
Deliverable 2 - Progress Reports	8 each	$150	$1,200	
Deliverable 3 - Final Progress Report	1 each	$400	$400	
SUBTOTAL				**$ _____**
Fiscal Agent (10% of amount invoiced)			$0	
TOTAL BUDGET & ALLOWABLE PAYMENTS				**$ _____**

II. CHDC's Obligations

Subject to the payment limit of **$_____**CHDC shall reimburse Contractor for eligible costs described in the previous section where such are incurred in the performance of work under the contract, subject to the below Payment Provisions. CHDC will disburse Contractor funds only after receiving written approval by County authorizing the disbursement of the Contractor grant funds based on approved budget, approved advance and request for reimbursement.

III. Payment Provisions

Contractor shall submit invoices and required deliverables on a monthly basis consistent with the amounts and frequency specified in Section I.E -Eligible Costs, which together may not total more than **$_____**. Contractor will only receive payment for eligible costs incurred for work performed during the term of this contract which are itemized on invoices substantiated with adequate supporting documentation. Invoices submitted after July 30, -_____ will not be paid.

1. **Advanced Payments:** In order to receive any potential advance payment, such must be authorized for the specified project in Attachment ____ of the Expenditure Plan approved by the Board of Supervisors and The City of Richmond. Advance payment is limited to no more than ten (10) percent (%) of the approved implemented Entity Award for the Project. Contractor shall submit a written request to CHDC for approval by City and County Committee staff detailing the reason(s) advance payment is necessary and itemizing each specific cost that the requested advance payment amount would pay for and how such costs will aid in the completion of each applicable required task. Advance payment requests must be submitted prior to any other invoice. If an advance payment is issued, Contractor shall not be eligible for an additional payment until enough required deliverables have been approved to offset the amount paid in advance.

2. **Partial Payments:** The Contracting entity (City of County) may authorize partial payment to Contractor for submittal of incomplete deliverables if solely incomplete due to unusual and unforeseen circumstances beyond the control of the Contractor. Contractor must submit written request asking to receive payment for incomplete deliverable containing an explanation as to what factors beyond the Contractor's control specifically precluded the Contractor from submitting the completed deliverable and why such could not have been foreseen or avoided by Contractor.

3. **Invoices:** Invoices shall be submitted monthly, no later than 30 days after the end of the applicable monthly period and contain the following information in sufficient detail and be submitted in a form which adequately demonstrates consistency with this contract. Invoices shall be accompanied by the applicable deliverables.

    a. Itemization of any tasks completed during the applicable calendar month for which completed deliverables are submitted and associated payment is being requested.

4. **Supported Documentation**: The following required supporting documentation must be submitted with invoices when applicable as described below.

a. Every invoice must be accompanied by a Progress Report, with the exception of the final invoice which must be accompanied by a Final Report. Both types of Reports must contain all of the information specified in the City/County provided Report templates, as well as any applicable details specified above in Section I. Contractor's Obligations.

b. All applicable Deliverables associated with the tasks and requested payment amounts itemized on each monthly invoice.

Attachment 2 - Community Clean-up Projects Table (Strategy 10)

2026/27 Expenditure Plan Funding Allocations for Projects recommended for City/County approval by the North Richmond Mitigation Fee Committee

A total of **$87,000.00 is recommended to be allocated in the 2026/2027 Expenditure Plan for Community Clean-up Projects (Strategy 10)**. Two of the three entities below were previously selected by the Committee based on a Funding Request Proposal process conducted in 2018.[1] The third entity, SOS! Richmond, was added per Committee direction at the October 16, 2020 meeting.

Community Clean-up Projects Recommended for Funding in 2026/2027

Implementing Entity / *Fiscal Sponsor* *(if applicable)*	Project Title	Advance Payment Allowed (Up to 10% of Implementer Award Amount)	Requested Amount	Total Award Amount	County Contracting Costs[2]	CHDC Contracting Cost (20%) to Manage Non-Profits[2]	Non-Profit Implementer Award Amount for Project	Notes
Social Progress Inc.	Brighter Beginnings in North Richmond	Yes	$ 29,999.76	$ 25,250.00	$ 1,000.00	$ 4,850.00	$ 19,400.00	
SOS! Richmond	SOS! Richmond	Yes	$ 75,000.00	$ 36,500.00	$ 1,000.00	$ 7,100.00	$ 28,400.00	
Men & Women of Valor	Community Working Together	Yes	$ 20,000.00	$ 25,250.00	$ 1,000.00	$ 4,850.00	$ 19,400.00	
Total Funding Requested/Allocated			$ 124,999.76	$ 87,000.00	$ 3,000.00	$ 16,800.00	$ 67,200.00	

[1] Funding Request Proposal released on February 9, 2018 by Committee Staff and Proposals submitted by eligible non-profit organizations and Agencies on March 6, 2018. Funding Proposal Application received by Men & Women of Valor was the wrong application. At their meeting on March 23, 2018, the NRMF Committee gave Men & Women of Valor 30 days to re-submit their application to the NRMF Committee using the correct application and submittal requirements. On April 22, Committee staff received the correct Funding Proposal application. The Men & Women of Valor Proposal application was considered at the NRMF Committee Meeting on June 8th and selected for funding.

[2] Costs to have 3rd party organization (CHDC) manage and oversee contracts with Organizations selected for funding is up to twenty (20) percent (%) of award amount after first taking out City/County Contracting cost for $3,000 for City/County to contract directly with CHDC to have CHDC administer non-profit contracts.

Garden Project Reporting and Invoicing Requirements

Substantially equivalent language to be included in all NRMF-funded Community Project Agreements/Amendments

Agreements providing for payments using funding allocated for Community Projects must include provisions that address the requirements contained herein. Contractor shall submit Progress Reports covering each invoice period, using a City/County provided template in conjunction with each monthly invoice in order to be eligible for payment. Contractor shall monitor, document, and report all Project activities associated with the tasks and deliverables described in the agreement and any eligible Project costs for which reimbursement will be requested. Upon completion of work or the end of the contract's term, Contractor shall submit a Final Report, using a City/County provided template similar to the attached, in conjunction with the final invoice.

Task Deliverables

The agreement shall assign a dollar amount for each deliverable within each task. Contractor shall only be paid for completed deliverables submitted with all associated supporting documentation. The agreement may include assignment of one dollar amount to multiple deliverables for a specific task when appropriate to substantiate completion of the required task. The Contracting entity (City of County) may authorize partial payment to Contractor for submittal of incomplete deliverables if solely incomplete due to unusual and unforeseen circumstances beyond the control of the Contractor. Contractor must submit written request asking to receive payment for incomplete deliverable containing an explanation as to what factors beyond the Contractor's control specifically precluded the Contractor from submitting the completed deliverable and why such could not have been foreseen or avoided by Contractor.

Timely Submittal of Invoices

A separate Reporting & Invoicing budget line item shall be included in the agreement to facilitate timely submittal of invoices, progress reports and other deliverables. Submittal of monthly invoices shall be included as a deliverable and the exact amount that is payable upon timely submittal of each invoice complete with all required supporting documentation shall be specified. The agreement shall provide that no portion of the Reporting & Invoicing budget line item be paid to Contractor for invoices submitted beyond 30 days of any monthly invoice period, or without the required documentation including completed Progress Reports.

Pre-approval Required for Supplies and Materials

Unless the exact supplies and materials are specified as preauthorized in the Agreement, Contractor shall obtain pre-approval from the Contracting entity (City or County) prior to incurring supplies and materials expenses for which reimbursement will be requested. To request pre-approval, contractor shall provide written request identifying all proposed supplies and materials as well as an explanation demonstrating its reasonable cost and how said items will aid in the completion of each applicable required task.

Attendance of Community Meetings and Events

Contractor shall attend one North Richmond Green meeting per quarter during the contract period. Documentation substantiating attendance of required meetings shall be included as a deliverable for this task and be included with all applicable monthly invoice(s).

Acknowledgment Required on Outreach & Promotional Materials

Any printed outreach materials or promotional items must include “Jointly funded by City of Richmond & Contra Costa County”, with the exception of T-Shirts, which Contractor may request Contracting entity pre-approve to include only the NRGreen.org website address.

Authorized Advance Payments

In order to receive any potential payment in advance, such must be authorized for the specified Project in Attachment 2 or Attachment 3 of the Expenditure Plan approved by both the County Board of Supervisors and Richmond City Council. No Contractor authorized for advance payment may receive more than ten (10) percent (%) of the approved Implementing Entity Award for this Project. In order to receive any advance payment(s) provided for in the City and County approved Expenditure Plan, the Contractor shall submit a written request to both the City and County Committee Staff detailing the reason(s) advance payment is necessary and itemizing each specific cost that the requested advance payment amount (not to exceed 10% of total award) would pay for and how such costs will aid in the completion of each applicable required task.

Conflict of Interest Provisions

Contractor shall not employ, subcontract with, or make payment to any person, for the purpose of implementing a specified Project in Attachment 2 or Attachment 3 of the Expenditure Plan that is at the same time employed by Contra Costa County, City of Richmond or any entity that receives Expenditure Plan funding from the County or the City of Richmond, except upon written approval by the Contracting entity (either City or County).

Payment Provisions

Contractor shall submit invoices and required deliverables on a monthly basis consistent with the amounts and frequency contained in the “Eligible Costs” Section, which together may not total more than $ (enter applicable contract amount). Contractor will only receive payment for eligible costs if such amounts are included on invoices adequately substantiated with required supporting documentation that are all submitted to the Contracting entity on or before July 30th. Invoices or portions thereof for which required supporting documentation has not been submitted by July 30th (or 30 days after any contract end date prior to June 30th) shall not be eligible for payment.

1. **Invoices:** Invoices shall be submitted monthly and contain the following information in sufficient detail and be submitted in a form, which adequately demonstrates consistency with the “Service Plan” specified in the contract. Invoices shall be accompanied by the applicable deliverables.

    a. Itemization of any tasks partially or fully completed during the applicable calendar month for which completed deliverables are submitted and associated deliverable payment amount is being requested.

2. **Supporting Documentation**: The following required supporting documentation must be submitted with invoices when applicable as described below.

    a. Every invoice must be accompanied by a Progress Report, with the exception of the final invoice, which must be accompanied by a Final Report. Both types of Reports must contain all of the information specified in the City/County provided Report templates, as well as any applicable details specified in the Service Plan as a Contractor’s Obligation.

b. All applicable required deliverables associated with the requested payment amounts itemized on each monthly invoice.

City/County shall review submitted invoices and supporting documentation within a reasonable period of time and remit payment to Contractor promptly upon determining the purpose and amount of payment requested are authorized under the Agreement.

Staff Report

File #: 26-2833 **Agenda Date:** 6/23/2026 **Agenda #:** C.34.

To: Board of Supervisors

From: Family & Human Services Committee

Report Title: Consider Family and Human Services Committee Recommendations of FY 2026/27 Measure X Housing Funds for housing and homelessness related services.

☒Recommendation of the County Administrator ☒ Recommendation of Board Committee

RECOMMENDATIONS:

1. APPROVE the Family and Human Services (FHS) Committee FY 2026/27 recommendations for the allocation of $4,068,983 in Measure X Housing Funds for housing related services and homelessness crisis response and intervention services.

2. AUTHORIZE the Department of Conservation and Development Director, or designee, to execute a program agreement for the Measure X Housing Funds with Bay Area Legal Aid in the amount of $1,000,000 for the recommended activities in Attachment A, as approved by the Board of Supervisors.

3. AUTHORIZE the Health Services Director, or designee, to execute respective program agreements for the Measure X Housing Funds totaling $3,068,983 with the recommended organizations for the recommended activities in Attachment A, as approved by the Board of Supervisors.

FISCAL IMPACT:
100% Measure X. Measure X funds are part of a countywide, 20-year 1/2 cent sales tax approved by Contra Costa County voters on November 30, 2020.

BACKGROUND:
Measure X is a countywide 20-year 1/2 cent sales tax approved by Contra Costa voters on November 3, 2020. The ballot measure language stated the intent of Measure X is "to keep Contra Costa's regional hospital open and staffed; fund community health centers, provide timely fire and emergency response; support crucial safety -net services; invest in early childhood services; protect vulnerable populations; and for other essential County services."

On November 16, 2021, the County Board of Supervisors approved allocating a portion of Measure X revenue to establish a new funding source to support the development of affordable housing and housing/homelessness related activities, now known as the Measure X Housing Fund (MX Housing Fund). The Board of Supervisors approved and committed $10 million of Measure X funds for Year One and $12 million on an annual basis thereafter for the MX Housing Fund.

On September 20, 2022, the Board of Supervisors approved and authorized the County's Health Services

Department-Health, Housing, and Homelessness Division (H3) and the Department of Conservation and Development (DCD) to administer the MX Housing Fund, with H3 administering 25 percent of the overall MX Housing Fund and DCD administering 75 percent of the MX Housing Fund.

On June 13, 2023, the Board of Supervisors approved the first year (Year One) of MX Housing Funds for housing/homelessness related service activities.

Available Funding
The total amount available for FY 2025/26 (Year Four) in the County's MX Housing Fund is $13.15 million dollars. The amount of MX Housing Funds available to be allocated for Year Four housing/homelessness related services is $4,068,983, which is comprised of H3's 25 percent portion, minus 10 percent for Administration ($328,914), an additional $1 million that comes from DCD's 75 percent portion, and $212,513.01 that is being recaptured from completed MX Housing Fund activities from previous years. The remaining balance of the total MX Housing Fund was dedicated to assist with financing affordable housing development projects, which was distributed through a separate RFP that was released solely by DCD in October 2025, and recommendations for those funds were considered separately by the Board of Supervisors on May 19, 2026.

In addition to the MX Housing Fund, additional funding sources available through H3 for homelessness services/crisis response and intervention were included in the RFP. The additional non-Measure X funding programs include County General Funds, Contra Costa Health Funds, Coordinated Entry funding via the US Department of Housing and Urban Development, California Work Opportunity and Responsibility to Kids (CalWORKs), Housing Disability Advocacy Program (HDAP), Home Safe, Bringing Families Home (BFH), and Foster Youth to Independence/Housing Navigation (FYI/HN) via the Employment and Human Services Department (EHSD), and Homeless Housing Assistance and Prevention (HHAP) Program via the California Department of Housing & Community Development. These additional non-Measure X funding sources total $7.1 million and are solely administered by H3. The approval of the respective contracts with the respective organizations for these non-Measure X funds will be considered at a future meeting by the Board of Supervisors.

Two-Year Funding Cycle
On November 7, 2023, the Board of Supervisors approved establishing and implementing a two-year funding cycle for housing/homelessness related services beginning with the Year One and Year Two MX Housing Funds (FY 2023/24 and FY 2024/25). FY 2026/27 is Year 4 of the Measure X Housing Fund and is also the second or last year of the two-year funding cycle. Therefore, except for the recommendations for three new services/projects (reflected in Attachment A), the recommended amounts for each respective agency/program for Year 4 (FY 2026/27) were previously recommended to the same agencies/programs for Year 3. The Year 4 Measure X funds for the service projects awarded for Year 3 were contingent on the availability of Year 4 funds and satisfactory performance of the awarded service providers during Year 3.

Application Process
In an effort to continuously improve RFP processes, CCH-H3 and DCD worked with technical assistance provider Focus Strategies during the summer of 2025 to conduct stakeholder engagement for the development of this RFP, which included applicant surveys. Improvements to the RFP based on community feedback included developing a diverse application review panel, streamlining the renewal and expansion applications, discontinuing use of BidSync, and clarifying funding priorities and sources in the writing of the RFP.

CCH-H3 and DCD released an RFP for Year Four funds on September 24, 2025. As the Board of Supervisors approved a two-year funding cycle; the RFP required the service providers that were awarded Year Three funds to submit a renewal application so they could renew and be recommended and awarded Year Four funds in approximately a similar amount. In addition to the renewal applications, the RFP did allow service providers to apply for new services.

In total, 19 complete applications for Measure X Housing Funds were submitted by the October 31, 2025 deadline.

A five-member application review panel evaluated each application, which included interviews with applicants that requested an interview. The application review panel further assisted with the development of funding recommendations and recommended Measure X Housing funds to support 14 programs/services provided by non-profit, community-based organizations. During the week of March 23, 2026, CCH-H3 and DCD notified applicants of the funding recommendations and that the recommendations would be presented to and considered by the Board's Family and Human Services Committee on May 11, 2026.

On May 11, 2026, the Board's Family and Human Services Committee met to consider the recommendations on the MX Housing funds for housing related services and homelessness response and intervention services. After hearing public comments and after some discussion, the FHS Committee approved the recommendations as presented by staff and directed staff to forward the recommendations to the Board of Supervisors for final consideration. The MX Housing Fund recommendations approved by the FHS Committee are included in Attachment A.

CONSEQUENCE OF NEGATIVE ACTION:
Negative action will prevent or delay the recommended housing and homelessness services from being provided to residents in the County. The applicants would have to seek other funding sources, which could jeopardize or delay the services from being provided.

Agency	Total Amount Requested	Total Measure X Amount Requested	Measure X Recommended	County General Fund	HHAP-5 and HHAP-6[1] Prevention/ Diversion	Coordinated Entry CARE Center[2]	EHSD Rapid Rehousing Funds[3]	Contra Costa Health Funds	Total

Family and Human Services Committee Recommendations – Proposed Project Descriptions

Agency	Proposed Project Descriptions
Bay Area Community Resources	Renews existing Measure X funding to support rapid rehousing program.
Bay Area Community Services	Renews existing Measure X funding to support Keep People Housed program which offers homelessness prevention services to households at-risk of homelessness. New project includes rapid-rehousing funding to support exits to permanent housing.
Bay Area Legal Aid	Renews existing Measure X funding to support legal services to households at-risk of homelessness through Keep People Housed collaboration with Bay Area Community Services and Centro Legal de la Raza.
Caminar	New projects to support eligible participants of the Employment and Human Services Department (EHSD) funded rapid rehousing and homelessness prevention programs for CalWORKs, Housing Disability Advocacy Program (HDAP), Home Safe, Bringing Families Homes, Transition Aged Youth (TAY) ages 18-24, and Foster Youth to Independence eligible participants.
Catholic Charities of the East Bay	Renews existing homelessness prevention services to support households at-risk of homelessness in maintaining housing stability.
City of Antioch - Public Safety and Community Resources Department	New project to provide homelessness prevention services, interim housing, laundry, and document services to Antioch residents who are at-risk of homelessness.
Contra Costa Interfaith Transitional Housing, DBA Hope Solutions	Renews existing Measure X funding to support intensive case management to Permanent Supportive Housing residents. New projects include prevention and rapid exit programs, and Employment and Human Services Department (EHSD) funded rapid rehousing and homelessness prevention programs for CalWORKs, Housing Disability Advocacy Program (HDAP), Home Safe, Bringing Families Homes, Transition Aged Youth (TAY) ages 18-24, and Foster Youth to Independence eligible participants.
Contra Costa Senior Legal Services	New project to provide legal services to older residents of Contra Costa County with activities focused on helping seniors remain housed and reduce homelessness.
Episcopal Community Services of San Francisco	New projects include rapid rehousing to support eligible participants through the Employment and Human Services Department (EHSD) funded CalWORKs program, and implementing a Night-by-Night Shelter for adults experiencing homelessness in West County.
Front Porch Communities Foundation, Home Match Contra Costa	New project to provide homelessness prevention services to older adults aged 50+ in West County who are at risk of displacement and/or becoming homeless.
Genesis Church	New project to provide wraparound services through the “Elevate Program” to support African American families who are homeless or at-risk of becoming homeless in East County.
Greater Richmond Interfaith Program	New project includes emergency shelter services, night-by-night shelter, and CARE and Warming Center services to individuals and families experiencing homelessness in West County.

Family and Human Services Committee Recommendations – Proposed Project Descriptions

Agency	Proposed Project Descriptions
Lao Family Community Development	Renews existing Measure X funding to support rapid rehousing program.
Northern California Family Center	New project includes shelter services supporting homeless unaccompanied minors up to and including 17 years of age.
Resources for Community Development	Renews existing Measure X funding to support Permanent Supportive Housing in West County.
Safe Organized Spaces	New project to support the "Warm Hand Wellness Centers" drop-in space for unhoused and recently housed individuals in West County.
Satellite Affordable Housing Associates	Renews existing Measure X funding to support Permanent Supportive Housing for formerly homeless veterans in West County.
SHELTER, Inc.	Renews existing Measure X funding to support family shelter operations.
St. Vincent de Paul	Renews existing homelessness prevention services.
STAND! For Families Free of Violence	New project to provide emergency shelter support for homeless adult and child survivors of Intimate Provider Violence (IPV).
The Bay Compassion	New project includes mobile shower and resources through "Clean Start Homeless Outreach" program in East and Central County.
The SHARE Community	New project to provide mobile shower and hygiene services, and basic needs services in East County.
Winter Nights	Renews existing Measure X funding to support family shelter operations in East County.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2684 **Agenda Date:** 6/23/2026 **Agenda #:** C.35.

To: Board of Supervisors

From: Monica Nino, County Administrator

Report Title: Sales Tax Audit and Information Services

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the County Administrator, or designee, to execute a contract amendment with Hinderliter, de Llamas and Associates for sales tax audit and information services extending the termination date from June 30, 2026 to June 30, 2031 and increasing the payment limit by $225,000, from $1,125,000 to $1,350,000.

FISCAL IMPACT:
The contract costs are based on three components: (1) a flat annual fee for sales and use tax information and technical assistance, which will be adjusted annually based on the 12-month percent change in the most recently published annual Consumer Price Index for All Urban Consumers; (2) a flat annual fee for Measure X transaction tax information and technical assistance, which will remain fixed for the term of the agreement; and (3) 15% of new sales, use, and transaction tax revenues recovered by the County as a result of HdL's audit services. Historically, the County has recovered substantially more revenue than the cost of this contract. (100% Measure X)

BACKGROUND:
Hinderliter, de Llamas and Associates (HdL) developed California's first computerized sales tax management program and secured the legislation that allows independent verification of the California Department of Tax and Fee Administration allocation of sales tax revenues to local governments. The County began contracting with HdL in 1990 to monitor sales and use tax receipts, and to identify, correct and recover allocation errors that impact the County's revenue. The consistent fee structure - flat annual fee plus 15% of recovered revenues - has remained in place throughout the entire contract history. HdL has been very successful in locating mis-allocated revenues on behalf of the County. Additionally, HdL provides sales tax revenue forecasting to assist with annual budget development, and in-depth quarterly sales tax information and specialized analysis to the County for budget monitoring. The need for detailed sales tax information is essential to revenue forecasting and economic development planning.

CONSEQUENCE OF NEGATIVE ACTION:
The County will not have comprehensive resources to recover mis-allocated sales and use tax revenue or essential information for revenue forecasting and economic development planning.

File #: 26-2685 **Agenda Date:** 6/23/2026 **Agenda #:** C.36.

To: Board of Supervisors

From: Monica Nino, County Administrator

Report Title: Contract Amendment for Measure X Needs Assessment and Program Evaluation - Alta Planning + Design, Inc.and reallocate Measure X Administration funds to the Measure X Needs Assessment and Program Evaluation

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the County Administrator, or designee, to execute a contract amendment with Alta Planning + Design, Inc., to increase the contract payment limit by $53,175, from $249,998 to $303,173, for the Measure X Needs Assessment and Program Evaluation, with no change in the term ending January 1, 2027and APPROVE the reallocation of $53,175 from the Measure X Administration allocation to the Measure X Needs Assessment and Program Evaluation allocation to fund the increased contract payment limit.

FISCAL IMPACT:
Approval of this contract amendment will result in additional contractual expenditures of up to $53,175 and is funded 100% by Measure X funds. This action will not result in additional impact to the General Fund. This action shifts $53,175 in Measure X funds previously assigned to the Measure X Administration allocation to the Measure X Needs Assessment and Program Evaluation.

BACKGROUND:
On June 10, 2025, the Board of Supervisors approved an allocation of $250,000 to conduct a Measure X Needs Assessment and Program Evaluation. This comprehensive assessment is intended to deepen understanding of community needs and current Measure X programs' impacts to support future policy and funding decisions. The contractor will conduct countywide quantitative and qualitative research, including a representative survey, focus groups, stakeholder interviews, and analysis of program data and reports. The scope also includes refining program performance indicators, creating a standardized annual reporting tool, training County staff to use the new framework, and delivering a final assessment report and presentations to the Board of Supervisors and stakeholder groups.

To implement the Measure X allocation for the needs assessment, the County Administrator's Office presented a draft Request for Proposals (RFP) for the services at the November 3, 2025 Finance Committee meeting, which was approved to move forward and officially issued on November 5, 2025. The RFP sought a qualified provider to conduct a countywide analysis of community needs, service gaps, and program performance for

Measure X-funded programs. The response period closed on December 8, 2025, with the County receiving 26 proposals. The County's Purchasing Division facilitated the evaluation process, and an RFP review panel of three internal and external subject matter experts was convened, including representatives from the Contra Costa County Fire Protection District, Contra Costa Health Services, and the San Mateo County Executive's Office.

Review Panel members received the 26 RFP responses on December 9, 2025. The panel convened on January 14, 2026, to discuss initial feedback and determine which respondents would be invited to provide presentations. On February 4, 2026, the panel held virtual presentations with the top seven respondents. Following deliberation, the Review Panel unanimously recommended Raimi & Associates, Inc. for the contract award.

On February 11, 2026, the County was notified that Raimi & Associates, Inc. is merging with Alta Planning + Design, Inc. and there would be no change to the identified team members, proposed scope of services, or cost structure.

On March 17, 2026, the Board of Supervisors approved a contract with Alta Planning + Design, Inc. to conduct the Measure X Needs Assessment and Program Evaluation. The approved scope included a countywide representative survey with a target sample size of 800 respondents and funding for participant incentives, including 128 Target gift cards and 128 Walmart gift cards valued at $25 each, for a total of $6,400.

The County Administrator now seeks authority to amend the contract to increase the representative survey sample size from 800 respondents to at least 2,000 respondents and to repurpose the $6,400 budgeted for gift card incentives to support additional community outreach activities. The increased sample size will ensure a minimum of 400 completed surveys from each supervisorial district, resulting in a statistically reliable sample size and an acceptable margin of error for district-level analysis. No other substantive changes to the scope of work are proposed. To fund the expanded scope of work, staff is requesting a reallocation of $53,175 from the Measure X Administration allocation to the Measure X Needs Assessment and Program Evaluation allocation. The Measure X Administration allocation funds sales tax consulting, administration expenses and support staff within the County Administrator's Office. Sufficient funds remain in the Measure X Administration allocation to absorb this transfer without impacting ongoing administrative operations. This reallocation will bring the total Measure X Needs Assessment and Program Evaluation allocation to $303,173, consistent with the amended contract payment limit.

Project Timeline

The project will be carried out from March through November and includes a structured series of engagement, data collection, analysis, and reporting activities. Major milestones and public-facing engagement events are summarized below.

Key Activities

- March - Project kickoff, background data review, and initial development of engagement tools and the program inventory
- April-June - Initial presentation to the Measure X Community Advisory Board (MXCAB) and other key stakeholder groups; launch and administration of the countywide representative and convenience

surveys; continued development of engagement tools; refinement of KPIs
- May-August - Qualitative data collection, including focus groups and stakeholder interviews; continued program inventory development; development of the standardized annual reporting tool/template
- July-August - Staff training on the evaluation framework and reporting tools
- August-September - Preparation of the draft assessment and evaluation report
- September-October - Finalization of the assessment and evaluation report and companion summary
- October-November - Presentations of findings and recommendations to the Measure X Community Advisory Board, Board of Supervisors, and other key stakeholder groups

CONSEQUENCE OF NEGATIVE ACTION:

If the Board does not approve the contract amendment, the representative survey will remain at the originally approved sample size of 800 respondents. As a result, the County may not obtain a sufficient number of responses within each supervisorial district to support statistically reliable district-level analysis.

Report Title: Civil Grand Jury Report No. 2607, "Ambulance Patient Offload Delays: Time is of the Essence"

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
RECEIVE Civil Grand Jury Report No. 2607, entitled, "Ambulance Patient Offload Delays: Time is of the Essence", and REFER the report to the Health Services Department and County Administrator, for response.

FISCAL IMPACT:
No fiscal impact.

BACKGROUND:
On May 28, 2026, the 2025-26 Civil Grand Jury filed the above referenced report. Per Penal Code § 933(c):

> No later than 90 days after the grand jury submits a final report on the operations of any public agency subject to its reviewing authority, the governing body of the public agency shall comment to the presiding judge of the superior court on the findings and recommendations pertaining to matters under the control of the governing body.

Per standard procedures, this action alerts the Board of Supervisors that the report has been received and directs the appropriate staff to review the report and provide an appropriate response for the Board of Supervisors to adopt no later August 28, 2026 (90 days).

The Contra Costa County Fire Protection District has also received a copy of this report and its Board of Directors is identified as a responding agency.

CONSEQUENCE OF NEGATIVE ACTION:
There is no immediate consequence. However, California Penal Code 933 requires the Board of Supervisors to comment on the findings and recommendations of the attached report within 90 days of its receipt.

SUMMARY

In a medical emergency, residents of Contra Costa County (the County) depend on ambulance services to transport patients to a hospital. Patients expect the hospital emergency department to provide immediate care. In practice, monthly measures of the time it takes to transfer a patient from the ambulance to an emergency department regularly exceed time standards set by both the County Emergency Medical Services Agency (EMS) and the State's Emergency Medical Services Authority (EMSA). This patient transfer time is referred to as Ambulance Patient Offload **Time** (APOT). The time starts when the ambulance arrives at the hospital and ends when the emergency department accepts the patient. When the time exceeds local or state patient offload time standards, it is referred to as an Ambulance Patient Offload **Delay** (APOD).

APODs occur when the emergency department has both reached capacity, and the arriving patient does not require immediate medical attention. The emergency department may not accept the patient immediately and instead, the patient is either held in the ambulance or "parked" meaning placed in whatever space is available in the emergency department or elsewhere in the hospital. The ambulance personnel generally stay with the patient until the patient is accepted by the hospital. Ambulances and the ambulance personnel are unable to respond to other emergencies while they are at the hospital with a patient. This impacts the overall availability of ambulances within the emergency medical services system. Once an emergency department accepts a patient who does not require immediate care, the patient may still have to wait before treatment.

No single entity has jurisdiction or control over all the parts of the ambulance patient offload system. This means public and private organizations including local emergency medical services agencies and hospitals must collaborate to address the issues. In Contra Costa County, this collaboration is longstanding and ongoing. Although APOT data demonstrates improvements over the last year, APODs continue.

GLOSSARY

Ambulance Patient Offload **Delay** (APOD): an ambulance patient offload transfer to a hospital emergency department that exceeds a required standard.

Ambulance Patient Offload **Time** (APOT): the time it takes from ambulance arrival to a hospital until the patient is accepted by the emergency department.

Emergency Department (ED): facilities that have been licensed by the California Department of Public Health as having an emergency department service level of "basic, comprehensive, or standby" and "includes any location within the general acute care hospital (GACH) with an emergency department where ambulance patients are received."(Title 22, Division 9, Chapter 1.2, Section100002.10).

Emergency Medical Services Authority (EMSA): California state agency responsible for the equitable coordination, administration, and integration of the statewide emergency medical services system throughout California.

General Acute Care Hospital (GACH): a health facility having a duly constituted governing body with overall administrative and professional responsibility and an organized medical staff that provides 24-hour inpatient care, including the following basic services: medical, nursing, surgical, anesthesia, laboratory, radiology, pharmacy, and dietary (Health and Safety Code Section 1250(a)).

Local Emergency Medical Services Agency (LEMSA): the county governmental entity designated to "plan, implement, and evaluate the local emergency medical services system." The County's LEMSA encompasses the entire county and is also referred to as Contra Costa County Emergency Medical Services (EMS).

California Welfare and Institutions Code Section 5150 (5150) provides that designated professionals can place a person in an involuntary psychiatric hold for up to 72 hours if they are experiencing a mental health crisis and evaluated to be a danger to others, themselves, or are gravely disabled. This hold is also commonly referred to as a "5150." These professionals include police officers, licensed members of a crisis team, or other mental health professionals authorized by the county.

BACKGROUND

Emergency medical services systems are designed to respond to medical emergencies. Federal and State statutes and regulations establish the framework for the provision of emergency medical care. County ordinances and policies add to the body of requirements that regulate and administer this system. System features include the 911 program, ambulance services, and patient treatment in emergency departments. These features interact to provide people with a rapid response and medical treatment.

However, people routinely use the emergency system for non-emergency services. Reasons include lack of insurance, lack of transportation, or lack of knowledge about alternatives. Diverting non-emergency patients from the emergency medical services system could reduce APODs. Patients like this are often informally referred to as "low acuity." These are patients who could get appropriate (and usually faster) medical care through other means other than through the emergency medical services system.

Since at least 2006, federal, state, and local governments, hospitals, and hospital associations have studied APODs and intervened to reduce them. The County's monthly reports of APOT data from all hospitals in Contra Costa County demonstrate a trend toward shorter average delays, but none of these hospitals are meeting the County's APOT standard.

Contra Costa County Local Emergency Medical Services Agency (LEMSA)

The Contra Costa County Emergency Medical Services Agency (EMS) is housed within Contra Costa Health, which is the County's integrated health system. Contra Costa Health provides public health programs, protects public health and offers medical care and managed-care health plans.

The County EMS serves as Contra Costa County's only Local Emergency Medical Services Agency (LEMSA). Its jurisdiction includes all of Contra Costa County.

California Health and Safety Code Section 1797.94 provides that LEMSAs have "primary responsibility for administration of emergency medical services in a county." California Health and Safety Code Sections 1797.200 through 1797.233 then set out the numerous requirements and responsibilities of LEMSAs. These include the planning, implementation, and evaluation of an emergency medical services system that, per California Health and Safety Code Section 1797.204, consists of "an organized pattern of readiness and response services based on public and private agreements and operational procedures."

LEMSAs are responsible for ensuring that county emergency medical services systems operate as intended. Contra Costa County's LEMSA describes its responsibilities to include regulating the provision of emergency medical services to ensure that everyone involved in a response is trained, licensed, and properly equipped. The County's LEMSA also provides medical oversight to emergency medical technicians and paramedics through its Medical Director. LEMSAs do not have the authority to control all the factors that contribute to APODs, including APOTs at private hospitals.

State and Federal Ambulance Patient Offload Time Requirements

Federal and state regulatory agencies presently do not have the authority to act to eliminate APODs. There is no federal or state requirement that a patient must be offloaded within a defined amount of time. Federal and state regulatory agencies do provide guidance to hospitals that discourages APODs and also caution that APODs could violate other laws or regulations.

- ***Federal Requirements***

The Federal Emergency Medical Treatment and Labor Act (EMTALA) Section 482.55 requires emergency departments to meet the emergency needs of patients. Patients cannot be refused care if they lack health insurance.

On July 13, 2006, the Centers for Medicare & Medicaid Services (CMS), which establishes minimum health and safety and standards for hospitals participating in the Medicare and Medicaid programs, issued an "All-State Letter" stating that "parking" patients in hospitals is a possible violation of EMTALA. The letter also states that "parking raises serious concerns for patient care and the provision of emergency services in a community" and "adversely impacts the ability of the EMS personnel to provide emergency response services to the rest of the

community." According to CMS, "parking" is a hospital practice of "deliberately delaying moving an individual from an EMS stretcher to an emergency department bed."

- ***State Requirements***

In June 2007, the California Department of Public Health (CDPH), which licenses and regulates California's General Acute Care Hospitals, sent an "All-Facilities Letter" to all California general acute care hospitals reiterating the information from CMS and advising that "parking patients" could be a violation of specified Department of Public Health regulations and could be an EMTALA violation.

At the time of this Report, neither CMS nor CDPH have made findings of violations related to an APOD at Contra Costa County's hospitals in 2024 or 2025.

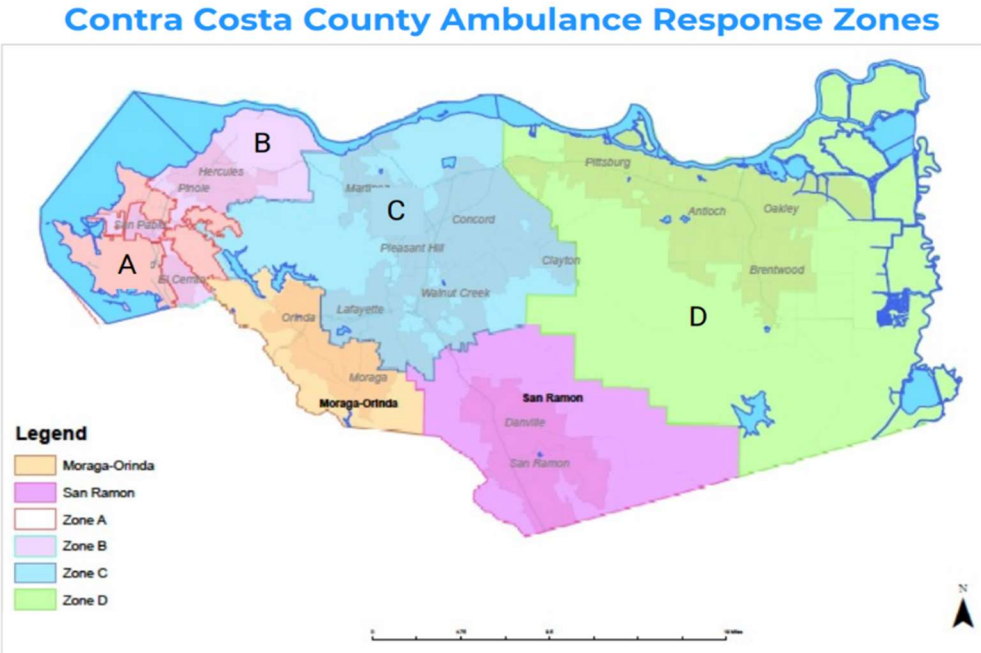
In 2015, the California Legislature passed Assembly Bill (AB) 1223, which required EMSA to create a standard methodology for calculating APOTs. The bill allowed LEMSAs to adopt policies to calculate and report on APOTs based on the EMSA methodology. AB 1223, in part, established a statewide APOT measurement that is described later in this Report.

State law did not require that LEMSAs report their APOT data to EMSA until 2019, when AB 2961 added the requirement for LEMSAs to provide quarterly APOT reports to EMSA. Despite these measures, EMSA data in subsequent years demonstrates that APODs continue, including in Contra Costa County.

In 2023, Assembly Bill 40 (AB 40) added Sections 1797.120.5, 1797.120.6, and 1797.120.7 to the Health and Safety Code relating to emergency services. The bill:

- Set a state APOT standard of not to exceed 30 minutes 90% of the time and allows LEMSAs to establish a shorter time.
- Required EMSA to develop and implement an electronic signature system to uniformly mark the arrival of ambulances at emergency departments and the transfer of patient care to emergency department personnel.
- Directed EMSA to develop and implement an APOT Auditing Tool for hospitals and LEMSAs.
- Requires EMSA to monitor monthly APOT data and report exceedances to the relevant LEMSA and the State Commission on Emergency Medical Services.
- Mandated that general acute care hospitals with an emergency department file an APOT Reduction Protocol with EMSA no later than September 1, 2024.
- Mandated that the APOT Reduction Protocol be triggered if the hospital monthly APOT exceeds their LEMSA standard in the prior month of reporting.

AB 40's implementing regulations are set forth in the California Code of Regulations, Title 22, Division 9, Chapter 1.2, 100002.01 through 100002.19 (hyperlink in bibliography). Initial emergency regulations were approved by the State of California Office of Administrative law on June 23, 2025. They included specific content requirements for the APOT Reduction Protocol, which were incorporated by reference into the current regulations under Section 100005.01 (b).



EMSA reports that since these measures have been implemented, statewide data quality and consistency have improved, and reporting is now more widespread.

Ambulance and Dispatch Operations

- ***Fire District Coverage***

Contra Costa County LEMSA has exclusive operating agreements with three fire districts to provide emergency ambulance response for the entire County. The County is divided into ambulance response zones as currently approved by EMSA.

Figure 1, below, displays color-coded zones. Contra Costa County Fire Protection District (ConFire) covers all areas not covered by Moraga-Orinda Fire Protection District or San Ramon Valley Fire Protection District.

- ***Ambulance Transports***

Ambulance transports in Contra Costa County have increased. As an example, ConFire, the fire district with the largest emergency coverage area, reports the data displayed in Table 1.

Table 1. ConFire Ambulance Transports from 2021 to 2025

Year	Ambulance Transports
2021	75,046
2022	81,499
2023	80,296
2024	84,861
2025	85,783

- ***Ambulance Response Times***

Ambulance response time is the time it takes for an ambulance to arrive at a scene after dispatch. The exclusive operating agreements require the fire districts to meet ambulance response time standards or be subject to fines by the County LEMSA.

- San Ramon Valley (per 11/2/21 Agreement with Contra Costa County)
    - Not to exceed 11 minutes and 45 seconds 95% of the time (urban/suburban)
    - Not to exceed 20 minutes 95% of the time (rural)
- Moraga/ Orinda (per 10/22/22 Agreement #23-768 with Contra Costa County)
    - Not to exceed 11 minutes and 45 seconds 95% of the time (urban/suburban)
    - Not to exceed 20 minutes 95% of the time (rural)
- ConFire (1/1/2016 Standard Contract with Contra Costa County)
    - Not to exceed 10 minutes in defined Zone
    - Not to exceed 11 minutes and 45 seconds in defined zones, except for low density designated areas
    - Not to exceed 16 minutes and 45 seconds for Bethel Island
    - Not to exceed 20 minutes (low density)

These contracted fire districts must ensure sufficient ambulance and personnel availability to stay within their Priority 1 (life threatening) ambulance response time requirements, and they most often do so. When a response time exceeds the requirement, it is called an ambulance response time exceedance. When an exceedance occurs, the County LEMSA can assess a fine.

APODs are not a direct cause of exceedances, which can occur for several reasons including traffic or weather. However, whenever an ambulance is delayed at a hospital, it decreases the number of ambulances that are available to respond to emergencies. The emergency medical services system must therefore attempt to maintain the appropriate number of ambulances in its fleet to offset APOD impacts.

LEMSA currently holds $1,062,715 in fines it has assessed and collected from fire districts for ambulance response time exceedances. At the present time, the County has not designated a purpose for the use of these funds.

- ***Dispatch Process***

When someone calls 911 in the County, the system directs the call to either the appropriate local law enforcement agency or the California Highway Patrol. From there, if it is determined to be a medical emergency, the call is redirected to the appropriate fire district dispatch, shown in Table 2.

Table 2. County Fire District Emergency Medical Service Dispatch and Ambulance Service

Fire District	Dispatch Service	Ambulance Service
Moraga-Orinda	ConFire provides dispatch service	Contracts with American Medical Response
San Ramon Valley	San Ramon Valley does its own dispatch through its Emergency Communications & Technology Unit	Operates its own ambulances
ConFire	Contra Costa Regional Fire Communications Center (CCRFCC)*	Contracts with American Medical Response

*CCRFCC dispatches for ConFire, Moraga-Orinda, Crockett-Carquinez Fire Department, and El Cerrito/Kensington Fire Department

As determined by the dispatch process, a Basic Life Support or an Advanced Life Support ambulance(s) will be dispatched. In the County, the patient is allowed to request the specific hospital to which they want to be transported. A paramedic can advise the patient if there is an alternative emergency department with a shorter current APOT. The patient may still demand their choice of hospital. This is per Contra Costa Health EMS Patient Destination Determination Policy 4002, which provides guidance to ground ambulance personnel that are transporting patients to emergency departments.

The paramedic can also evaluate the patient and, if appropriate, recommend an alternative to ambulance transport. However, all patients have the right to insist on transport by ambulance.

Emergency medical services calls have increased during the past five years. As an example, ConFire, the fire district with the largest emergency coverage area, reports the data displayed in Table 3.

Table 3. ConFire Emergency Medical Services 911 Calls From 2020 through 2025

Year	Emergency Medical Services 911 Calls
2020	62,613
2021	70,281
2022	81,311
2023	76,480
2024	69,036
2025	69,837

Not all emergency ambulance transports result from a 911 call – for example police radioing for an ambulance.

These fire districts are responsible for dispatching ambulances and personnel quickly to emergencies. They do this without being able to predict how often, or for how long, any ambulance and its personnel will be held at an emergency department. They must depend on the County LEMSA, the hospitals, and the Contra Costa Regional Medical Center's (CCRMC) Psychiatric Emergency Services (PES) Unit to address APODs.

METHODOLOGY

The Grand Jury used the following methods to conduct its investigation:

- Interviews with subject matter experts
- Study of APOT and APOD data sets
- Study of records and reports available on governmental and non-governmental websites
- Reviews of meeting minutes from the Contra Costa County Emergency Medical Care Committee
- Review of current statutes, regulations, and policies as noted throughout this Report
- Review of Sacramento County LEMSA's activities that resulted in improvements in APODs
- Observations during a Grand Jury tour of the Contra Costa County Psychiatric Emergency Services Unit

DISCUSSION

Numerous systemic and hospital-specific factors contribute to APODs.

Low-Acuity Patient Demand on the Emergency Medical Services System

Emergency medical services systems do not always screen out low-acuity patients. These are patients who could get appropriate medical care through means other than an ambulance and an emergency department. Low-acuity patients include:

- Those who need to fill a prescription or obtain a medical test
- Those who can be treated with urgent care or first aid
- Those who do not know how to use the non-emergency health care system and only know to dial 911
- Those who do not know how to evaluate their medical need and do not have access to someone who can help
- Those whose only means of accessing health care is via ambulance, which must transport the patient to an emergency department

Low-acuity usage of the emergency medical system strains its capacity and contributes to APODs because ambulances and their personnel remain at the emergency department until it can accept the patient. This can reduce system-wide ambulance response time to other emergencies and delay care for persons who must wait in an emergency department when they could have received appropriate care in a non-emergency room setting.

The U.S. Department of Health and Human Services Office of Health Policy's March 2, 2021, report, titled *Trends in the Utilization of Emergency Department Services, 2009-2018*, states that "potential overuse or inappropriate use of emergency departments for non-emergent care has been a concern for many years."

APODs do not typically impact patients who require immediate medical care. Emergency department medical personnel triage patients as they arrive so that those with critical or otherwise emergent conditions receive immediate emergency care. However, studies including one from the National EMS Quality Alliance (2022), show that adverse outcomes can occur if ambulance response times are extended due to APODs.

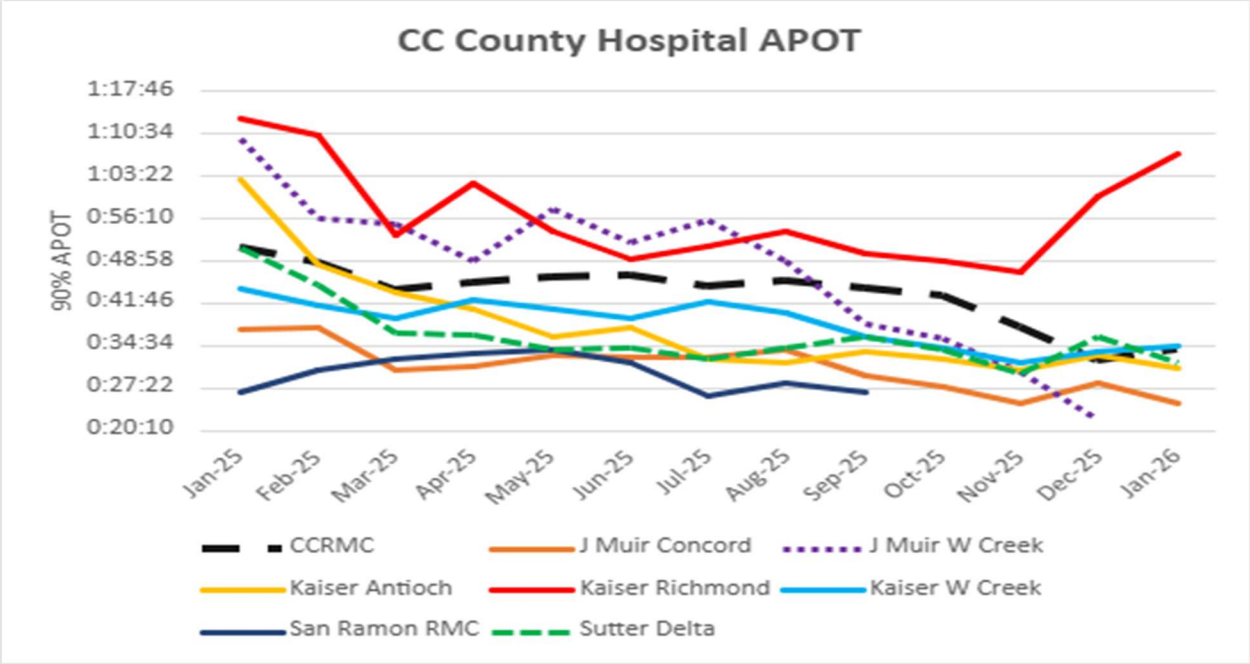
Ambulance Patient Offload Times (APOTs) and Ambulance Patient Offload Delays (APODs)

The California Emergency Medical Services Authority (EMSA) reports that:

> *Timely transfer of care is essential so emergency medical personnel can respond to the next emergency. Monitoring offload times helps identify system pressures, improve coordination between hospitals and emergency medical services, and support better patient flow across the healthcare system.*

APOTs and APODs are measurements used in the emergency medical services field to capture the time of patient transfers from ambulance care to the care of an emergency department. California Code of Regulations, Title 22, Division 9, Chapter 1.2, Article 2 Section 100002.04 defines an "APOT Standard" as "the maximum length of time permitted for APOT, not to exceed thirty minutes, 90% of the time, that is developed and adopted by each LEMSA to be applicable within its jurisdiction." This standard is guidance and not an enforceable limit.

APOTs are calculated using the 90th percentile of monthly offload times, meaning 90% of recorded times during the measurement month fall below that value and 10% are higher. In practical terms, this means that 90% of all recorded APOTs for the month are shorter than this value, and only 10% are longer. The EMSA APOT standard is not to exceed 30 minutes 90% of the time.



- Contra Costa County LEMSA has adopted a shorter APOT standard of not to exceed 20 minutes 90% of the time.

Hospitals use EMSA's database to report their APOT data. EMSA evaluates whether hospitals meet local APOT standards. EMSA compiles statewide results and reports exceedances monthly to the State Commission on Emergency Services and the applicable LEMSAs. In its February 2026 report, EMSA found that 55% of California hospitals exceeded their local APOT standard in January 2026.

There is no state law requiring LEMSAs to report APOT data to their County Board of Supervisors and the County LEMSA does not do so.

Chart 1 displays Contra Costa County hospitals' APOT data from January 2025 to January 2026, the most recent data available. The vertical axis (the numbers on the left side of the chart) shows the APOT in hours, minutes and seconds). It demonstrates that APOTs across all County hospitals have improved. Nonetheless, APOTs remain higher than the County LEMSA standard and are often higher than the EMSA standard.

Chart 1. Contra Costa County Hospitals' Monthly Ambulance Patient Offload Times from January 2025 to January 2026

Compiled from monthly CC County LEMSA data and EMSA monthly Reports to the State Commission on Emergency Services

Hospitals

Hospitals are an integral part of an emergency medical services system. Therefore, an investigation of the County APODs necessarily included examining publicly available information about relevant hospital data and practices.

Private hospitals are not subject to Grand Jury investigations. Private hospital representatives voluntarily provided information about their emergency departments and APODs.

There are eight general acute care hospitals with emergency departments in the County, and all are subject to AB 40. Contra Costa Health operates the CCRMC and directs its operations. The remaining seven hospitals are privately administered. All eight hospitals may receive ambulances from anywhere inside and outside of the County.

APODs at hospitals can occur for one or more reasons. These include the previously discussed usage of the emergency medical services system by low-acuity patients. There is no known County-wide data on this usage. Each fire district has its own data.

Using data reported by San Ramon Valley Fire Protection District's ambulance patient offloads as an example, Table 4 presents "lower acuity" data for the five Contra Costa County hospitals where it offloads patients. "Patients Seen" is the total number of ambulance patients seen in the emergency department in the given year.

Table 4. San Ramon Valley Fire Protection District Lower-Acuity Ambulance Patient Offloads in 2024 and 2025

Hospital	Lower Acuity 2024		Lower Acuity 2025	
	Patients Seen	% low acuity	Patients Seen	% low acuity
Contra Costa Regional	198	87%	234	81%
John Muir, Concord	14	56%	15	52%
John Muir, Walnut Creek	751	57%	618	53%
Kaiser, Walnut Creek	1,169	67%	1,125	63%
San Ramon Regional	1,995	66%	1,995	65%

APODs can also be caused by increasing overall patient usage of emergency departments, whether they arrive by ambulance or walk in. The California Hospital Association's *Toolkit to Reduce Ambulance Offload Delays in the Emergency Department Building Strategies for California Hospitals and Local Agencies* notes that the number of ED visits to a hospital is one factor affecting APODs.

According to the California Health Care Almanac published by the California Health Care Foundation, between 2013 and 2023, the number of emergency department visits statewide increased by 17%, while the state's overall population increased by 2%. According to the California Department of Healthcare Access and Information, emergency department usage in the County has been increasing year to year. Table 5, on the following page, provides the most recent available data. The causes of APOD across hospitals vary because the hospitals are not identical. The size of the emergency department, whether it is designated as a trauma center, its inpatient capacity, and the number and type of patients who use the emergency department vary widely among hospitals.

Table 5. Contra Costa County Hospital Emergency Department Capacity and Usage from 2021 to 2024

Hospital	ED Beds	Acute Care Beds	Intensive Care Beds	Trauma Center	2021 ED Usage	2022 ED Usage	2023 ED Usage	2024 ED Usage
Contra Costa Regional Medical Center	17	167	8	No	33,573	37,890	35,943	38,717
John Muir Concord	32	245	47	No	45,748	52,369	54,040	58,249
John Muir Walnut Creek	44	554	55	Yes	40,015	47,848	50,630	52,046
Kaiser Antioch	35	150	20	No	57,989	66,644	67,243	70,321
Kaiser Richmond	15	50	8	No	N/A	N/A	N/A	N/A
Kaiser Walnut Creek	52	233	24	No	55,604	65,573	69,036	70,559
San Ramon Regional	17	123	12	No	14,729	18,054	18,005	18,245
Sutter Delta	32	145	12	No	35,375	41,182	46,518	49,523

APODs can occur due to:

- Limited number of hospital emergency department beds
- Limited number of hospital in-patient beds (where emergency department patients may need to be transferred but cannot be when the beds are full)
- The inability to release hospital in-patients to non-hospital care (skilled nursing, rehabilitation, psychiatric, and others) in cases where there is no availability
- Hospitals having to maintain federal- and state-required nurse to patient ratios, which can limit flexibility to move nurses to emergency departments when demand exceeds nursing capacity

When an ambulance arrives at an emergency department that cannot readily accept a low-acuity patient, Contra Costa Health EMS Standard Policy 4010 (Appendix 1) requires that ambulance personnel provide continuity of oxygen, IV fluids, and nebulizer treatments to patients while they wait to be accepted. The policy does not address whether the ambulance personnel must otherwise stay with a patient who is waiting to be accepted by the emergency department but, in practice, this is what occurs. Although the policy also describes the expectations of emergency departments and ambulance personnel to resolve the delay, there remain regular instances of APODs. These APODs prevent ambulance personnel from leaving the emergency department until the patient is accepted.

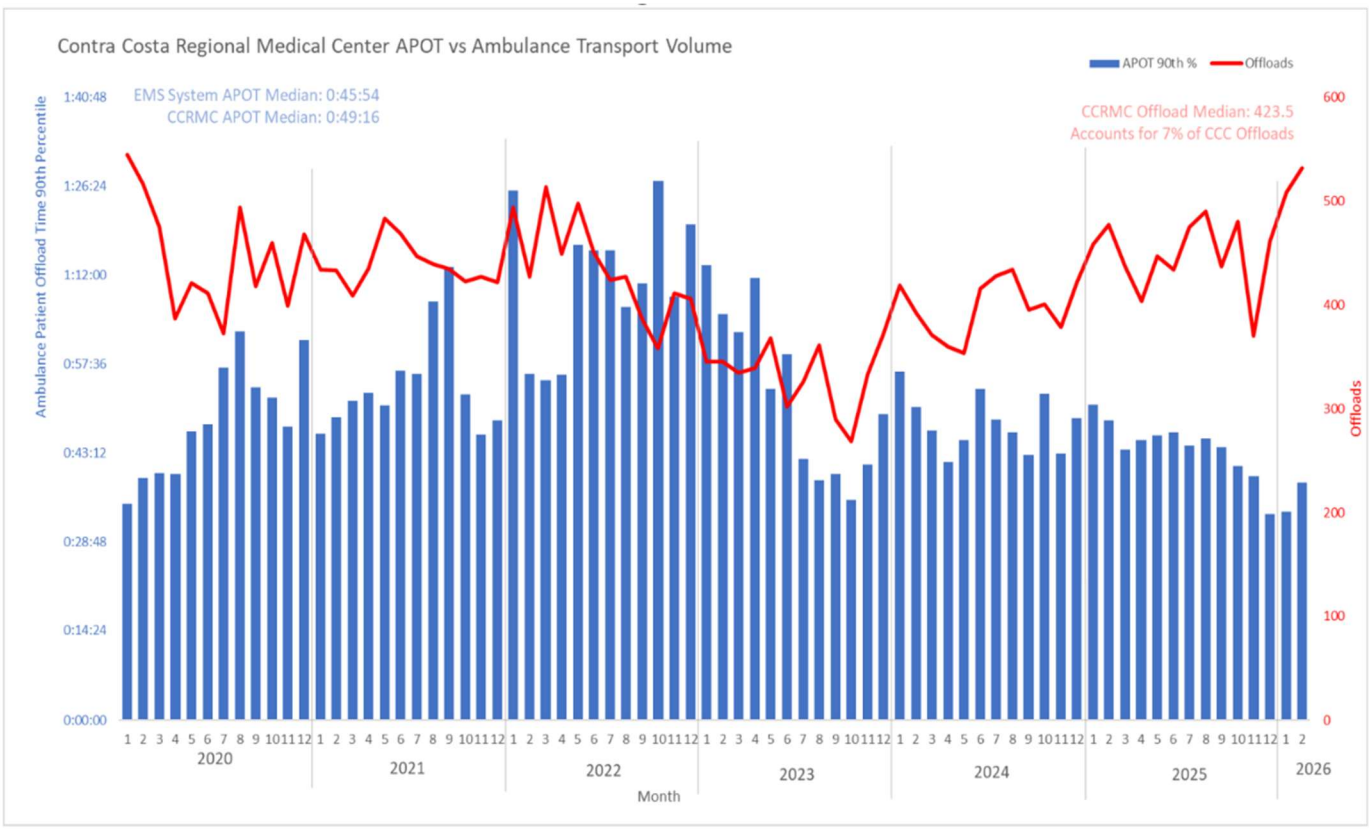
The risk of APODs can be reduced when the emergency medical services system redirects patients who do not require emergency medical services to appropriate alternative care. This reduces the demand in emergency departments which then reduces the risk that the emergency department will reach capacity.

While hospitals do not control all factors that cause APODs, they can use hospital-specific strategies to address those within their control. In August 2014, the California Hospital Association, in collaboration with EMSA and other stakeholders published *Toolkit to Reduce Ambulance Offload Delays in the Emergency Department Building Strategies for California Hospitals and Local Agencies.* This is the most recent publication of its kind for statewide consideration. It provides a detailed description of APODs in California and includes strategies that hospitals can consider to reduce them.

Examples of strategies used in one or more hospitals in the County include:

- Employing an emergency department nurse whose primary job is to immediately triage and accept ambulance offload patients as they arrive at the emergency department. This frees up ambulances, though it does not necessarily reduce the number of low acuity patients who are "parked" while they await treatment.
- Engaging an expert in hospital emergency department throughput (patient movement from intake to discharge) to comprehensively evaluate its emergency department processes and suggest improvements.
- Sharing best practices among hospital officials and LEMSA.
- Engaging hospital executives to prioritize development and execution of APOT reduction strategies.

AB 40 required specified hospitals to complete and submit an APOT Reduction Protocol to EMSA by September 1, 2024. The intent is for hospitals to have specific strategies to use to reduce APODs when their APOTs in the prior month exceed the applicable standard. All eight Contra Costa hospitals have complied with this requirement (see Appendix 2 for CCRMC's Protocol). None of these APOT Reduction Protocols cite the County's local APOT standard of not to exceed 20 minutes 90% of the time.



- All hospital Protocols except San Ramon Regional Medical Center and Sutter Delta Medical Center refer to the state standard of not to exceed 30 minutes 90% of the time.

- The San Ramon Regional Medical Center Protocol cites the 30 minutes but not the percentage of the time.
- The Sutter Delta Medical Center Protocol does not cite an APOT standard.

Contra Costa Regional Medical Center

The CCRMC is a 167-bed public hospital in Martinez. It has a history of APODs, as depicted in Chart 2 below and Chart 1, previously displayed.

Chart 2. Contra Costa Regional Medical Center Ambulance Patient Offload Times January 2020 through February 2026

Contra Costa Health Emergency Medical Services (LEMSA)

CCRMC faces the same challenges as other hospitals. There is a limited amount of space available for emergency department patients as they arrive and are awaiting treatment. When the emergency department reaches capacity, it cannot immediately accept patients. Instead, depending on the patient's needs, the patient may be redirected to the lobby for intake, or wait in an available chair or be kept on the ambulance gurney in the hallway until an alternative is available. The ambulance personnel remain until the emergency department accepts the patient.

Public Hospital Challenges

Public hospitals treat patients regardless of their ability to pay. The California Public Policy Institute's March 2026 Fact Sheet, titled *California's Health Care Safety Net*, reports that in 2023–2024, patients identified as homeless made more than 900,000 visits to emergency departments statewide. CCRMC's emergency department regularly receives patients who need long-term care, shelter, or other services to be safely released. CCRMC has a medical social worker assigned to the emergency department during the day who works with available community resources to implement safe releases. As described, community resources may be insufficient to immediately respond to the need. In these cases, the patient may be held at CCRMC until needed resources are available, which can decrease the emergency department's capacity and increase the risk of APODs.

The U.S. Department of Health and Human Services Office of Health Policy's March 2, 2021 report, titled *Trends in the Utilization of Emergency Department Services, 2009-2018*, notes that public hospitals receive a higher percentage of emergency department visits from patients with mental health or substance use disorder issues. These patients may have additional needs beyond emergency medical care, which require hospital resources that strain capacity and increase the risk of APODs.

Contra Costa Regional Medical Center took steps in 2025 to reduce APODs:

- Established an "APOT nurse" whose primary duty is to complete the intake of patients who arrive by ambulance
- Introduced a new electronic screen in the emergency department that displays a constant visual reminder of real-time APOTs

Despite efforts made to date, the Contra Costa County Regional Medical Center's monthly APOT data exceeds the state and LEMSA APOT standard.

Contra Costa Regional Medical Center APOT Reduction Protocol

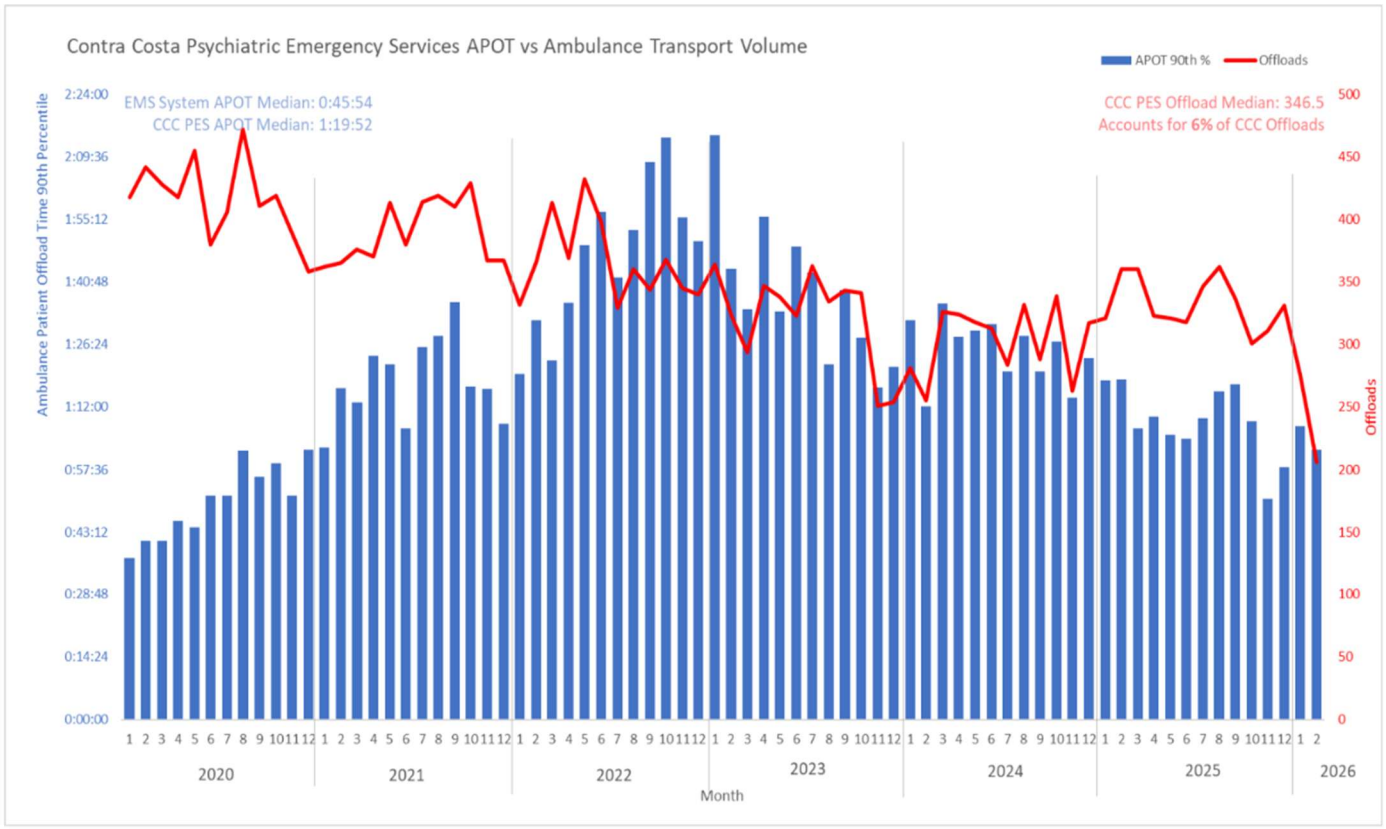
The Contra Costa Regional Medical Center's APOT Reduction Protocol procedure is as follows:

> *Upon notification from EMS crew that there is an extended ambulance offload time, the ED Charge nurse will notify the ED Manager and/or Medical Center Supervisor. The ED Manager or Medical Center Supervisor will coordinate with the ED Charge nurse to coordinate a plan to safely transfer care of the patient from the EMS crew to the ED Charge nurse or designee. The Medical Center Supervisor will follow tasks in saturation plan to create capacity as needed.*

This replicates Contra Costa Health EMS Standard Policy 4010.

California Code of Regulations, Title 22, Division 9, Chapter 1.2, Section 100002.03 defines an APOT reduction protocol as one that "identifies specific criteria for activation of the protocol and contains actionable steps to decrease APOD as described in Section 100005.01 of this chapter."

CCRMC's APOT Reduction Protocol does not include specific criteria for activation but instead states "an extended ambulance offload time". It does not include a description of actionable steps. Instead, it refers to a "saturation plan" that is not included or described in the APOT Reduction Protocol. It does not include most of the procedures found in the Hospital Reduction Protocols of the private hospitals in Contra Costa County.



Psychiatric Emergencies – Psychiatric Emergency Services Unit

The state and counties work together to designate the facilities that can provide mental health evaluation and treatment. These facilities are approved by the State Department of Health Care Services and licensed as a health facility or certified by the state to:

- Provide for the involuntary detention (5150) of a person who is a danger to themselves or others for up to 72 hours for assessment, evaluation, and crisis intervention, or
- Allow for the patient's placement for evaluation and treatment

In the County, this facility is Contra Costa Regional Medical Center's Psychiatric Emergency Services Unit (PES). Although John Muir Behavioral Health Center can provide these services, it is not the facility used by the County emergency medical services system for responses to behavioral health crises. Patients who require an emergency psychiatric evaluation and/or are placed on a 5150 hold in the field must be taken to PES for evaluation. Patients who also have a medical emergency will first be treated in a hospital's emergency department.

Chart 3. Contra Costa Psychiatric Emergency Services Ambulance Patient Offload Times January 2020 through February 2026

Contra Costa Health Emergency Medical Services (LEMSA)

PES APODs, calculated like hospital APODs, are the longest in the County. Many of the reasons for PES APODs are the same as for hospitals, but PES has additional contributing factors, including:

- All emergency medical service system responses for a 5150 hold require the person to be transferred to PES by ambulance if law enforcement does not provide the transportation.
- Up to 95% of arrivals at PES are by ambulance.
- PES does not have a screening space to triage and determine if a person requires further evaluation or can be redirected, which means every person has to be seen in the intake room.
- PES has only one intake room and privacy must be maintained, which means that PES can only assess one patient at a time.
- When there is more than one person requiring assessment at PES, the additional persons are held in an ambulance because they must be kept under observation and cannot be held in a common space.

The County has architectural plans to expand the PES intake space. This may improve APOTs by providing additional space to screen and redirect patients who do not require an intake and

would provide an additional evaluation space. The estimated current expansion cost of $30 to $40 million has not been budgeted.

- ***A3 Program***

The County established the A3 Program as an additional feature of its emergency response system, focused on mental and behavioral health crisis response. A3 provides timely and appropriate mental and behavioral health crisis services to "Anyone, Anywhere, Anytime" in the County. Contra Costa Health operates A3 with 48 clinicians and staff.

The A3 program is linked to APODs because of its connection to PES. Its mobile crisis teams respond to emergency scenes when contacted by law enforcement or emergency medical services due to a behavioral health emergency. However, A3 cannot transport patients to PES when a 5150 determination is made. Instead, those individuals are transported by an ambulance with life support equipment and medical personnel.

A December 2023 Fitch & Associates report, titled *EMS System Assessment Summary Briefing Report*, discussed later in this report, notes that in the County, approximately 20 persons on a 5150 hold per day require such transportation. These APODs are often the longest duration in the County. The Fitch & Associates report further notes that where PES was the receiving facility, the average APOT was 122 minutes in 2022.

County APOT Interventions

The County has taken measures beyond those required in AB40 to reduce APOTs.

- ***Meetings***

In 1998, the County established the Contra Costa County Emergency Medical Care Committee, an advisory body to the Board of Supervisors. The Committee includes emergency medical services stakeholders and organizations, and one member of the public nominated by each supervisor. Its duties include at least annually reviewing ambulance services operating within the County. The Committee meets up to four times per year. In its meetings, the Committee discusses the impacts of APODs and strategies to address them. Its 2025 Annual Report noted continuing discussion of the adverse impacts associated with APODs and continued support to reduce them.

LEMSA and fire districts also participate in a separate hospital-led quarterly meeting that focuses on APOTs.

- ***Expert Consultant***

In 2023, the County contracted with Fitch & Associates, experts in emergency medical systems, to evaluate response time standards and performance and make recommendations for improvements in ambulance services. Applicable recommendations are to be considered for inclusion in the new County Request for Proposals (RFP) for a fire district contract for the

ambulance zone currently covered by ConFire. (ConFire's contract expired on December 31, 2025, but was extended until December 31, 2027).

In December 2023, Fitch & Associated produced the responsive report, titled *EMS System Assessment Summary Briefing Report.* Relevant recommendations made in this report include that the county should explore appropriate non-EMS transport alternatives for behavioral health and that CCRFCC should consider a Nurse Navigation system. Both of these actions would reduce the frequency and duration of APODs by moving persons who do not require ambulance transport for medical purposes out of the ambulance response system.

- ***Sobering Center***

Sobering centers provide an alternative to emergency departments in treating people with short-term recovery and recuperation from acute alcohol or drug intoxication. The County does not have a sobering center but one is being planned. On May 13, 2025, Contra Costa Health announced that it would use its $98 million in State Behavioral Health Services Act funding, in part, to develop the Los Medanos Recovery Center. The new facility will include a Sobering Center, crisis triage, withdrawal management, and outpatient services. One of the goals for this Sobering Center is to reduce avoidable emergency department visits.

- ***Nurse Navigation Program***

The Contra Costa County Fire Protection District's pilot Nurse Navigation Program diverts non-urgent 911 calls to registered nurses, who provide callers with support and coordinate alternative care. Launched in June 2025 within the ConFire zone, the program redirects low-acuity patients to appropriate alternative medical care without impacting ambulance service or emergency departments. This reduces low acuity usage of emergency departments.

- ***Right Care, Right Way Initiative***

In July 2025, the County launched the "Right Care, Right Way" initiative, currently focused in Antioch, Bethel Island, Brentwood, Byron, Discovery Bay, Knightsen, and Oakley, with plans to expand countywide. Supervisor Diane Burgis spearheaded this pilot program in eastern Contra Costa County as a partnership among Kaiser Permanente, Contra Costa Health, and CCCFPD. This educational program provides information to people to help them know how and when to use healthcare, in part to reduce low-acuity usage of emergency departments. Reducing emergency department usage decreases the risk of APODs.

- ***EMS Vital Signs Dashboard***

The County, through Contra Costa Health, recently launched a new public website titled "EMS Vital Signs Dashboard." It displays real-time APOTs at all hospitals in Contra Costa County to the public and encourages hospitals to remain focused on this issue.

CONCLUSION

LEMSA quarterly reports reflect that hospitals in the County have improved their APOTs over the last year, a positive outcome for the County emergency medical services system and residents. Nonetheless, APODs remain an issue in the County, despite efforts to date to reduce their frequency and duration.

FINDINGS

F1. Ambulance Patient Offload Time (APOT) is the time it takes from ambulance arrival at a hospital until the patient is accepted by the emergency department.

F2. An Ambulance Patient Offload Delay (APOD) occurs when the time taken for an ambulance patient offload transfer to a hospital emergency department exceeds the required standard.

F3. California Health & Safety Code Section 1797.120.5 (b)(1) mandates that every Local Emergency Medical Services Agency (LEMSA) develop an APOT standard of not to exceed 30 minutes 90% of the time, measured monthly.

F4. The County LEMSA has adopted an APOT standard not to exceed 20 minutes 90% of the time, measured monthly.

F5. The County LEMSA Quarterly reports demonstrate that APODs in Contra Costa County have been occurring since at least 2020.

F6. The County LEMSA does not have the authority to enforce compliance with its APOT standard.

F7. County Emergency Medical Services (EMS) Standard Policy 4010 requires that ambulance personnel provide continuity of care to patients until they are accepted into the emergency department.

F8. APODs prevent EMS personnel from responding to other emergencies in the County.

F9. ConFire's ambulance transports have increased 14% from 2021 to 2025.

F10. Emergency department usage at Contra Costa Regional Medical Center (CCRMC) has increased 15% from 2021 through 2024.

F11. CCRMC's average monthly APOTs have consistently exceeded the County LEMSA standard of not to exceed 20 minutes 90% of the time since January 2020.

F12. Contra Costa County Psychiatric Emergency Services (PES) has the highest APODs in the County, with monthly 90th percentile averages exceeding one hour for each year from 2020 to 2025.

F13. PES does not have a prescreening area to triage patients who might not need a complete behavioral assessment.

F14. PES has physical limitations that only allow one patient at a time to be given an intake assessment.

F15. PES currently has unbudgeted architectural plans for expansion.

F16. PES expansion would reduce the frequency and duration of APODs by providing additional screening and intake space.

F17. The County EMS system is being used by low-acuity patients.

F18. Low acuity usage of the County emergency medical services system increases the risk of APODs.

F19. Redirecting people who do not require emergency medical services to appropriate alternative care reduces the risk of APODs.

F20. County emergency medical and behavioral health responders use an ambulance with life support equipment to transport persons having a behavioral crisis and/or who are on a 5150 hold to PES when law enforcement does not do so.

F21. The County does not have a sobering center.

F22. The County has plans and funding to build the Los Medanos Recovery Center.

F23. The Board of Supervisors has a goal to reduce emergency department usage by building the Los Medanos Recovery Center.

F24. The Contra Costa County Fire Protection District's Nurse Navigation Program can divert low-acuity patients from the emergency medical system by redirecting them to appropriate non-emergency care.

F25. The County's "Right Care, Right Way" initiative is designed to reduce low-acuity patient usage of ambulances and emergency departments by giving the public information about appropriate non-emergency alternatives.

F26. CCRMC uses a dedicated nurse to triage patients arriving by ambulance with a goal of improving APOTs.

F27. CCRMC's APOT Reduction Protocol, implemented on September 1, 2024, does not cite the County LEMSA APOT standard not to exceed 20 minutes 90% of the time.

F28. CCRMC's APOT Reduction Protocol does not provide specific criteria for activation of the protocol, as required by California Code of Regulations, Title 22, Division 9, Chapter 1.2, Section 100002.03.

F29. The County LEMSA has not notified the hospitals in the County that their APOT Reduction Protocols do not cite the applicable County LEMSA standard.

F30. As of March 2026, the County LEMSA has a current balance of $1,062,715 from fire district fines assessed when ambulance response times exceeded contracted times.

F31. The Board of Supervisors (Board) does not have the County LEMSA's quarterly APOT reports as a standing agenda Board item.

RECOMMENDATIONS

R1. By April 1, 2027, the Board should consider retaining a consultant to evaluate CCRMC's emergency department throughput and to make recommendations on how to reduce or eliminate APODs.

R2. By April 1, 2027, the Board should consider using the County LEMSA's ambulance exceedance fine collections for the cost of an emergency department throughput consultant.

R3. By April 1, 2027, the Board should consider directing the County LEMSA to assess whether any current County LEMSA regulations and policies limit EMS personnel's ability to redirect low-acuity patients to appropriate levels of care.

R4. By April 1, 2027, the Board should direct the County A3 Program to consider using non-ambulance vehicles to transport persons in a behavioral crisis and/or who are on a 5150 hold and not having a medical emergency, as recommended in the Fitch & Associates Report, titled *EMS System Assessment Summary Briefing Report.*

R5. By April 1, 2027, the Board should consider exploring sources of funding for construction of the proposed PES expansion.

R6. By April 1, 2027, the Contra Costa County Fire Protection District should consider expanding the use of its Nurse Navigation Programs to divert low-acuity callers from 911 ambulance responses when clinically appropriate.

R7. By April 1, 2027, the Board should consider using the County LEMSA's ambulance response exceedance fines to expand the County's "Right Care, Right Way" initiative countywide to reduce unnecessary emergency department usage.

R8. By April 1, 2027, the Board should consider requiring CCRMC to update its APOT Reduction Protocol to meet the requirements of California Code of Regulations, Title 22, Division 9, Chapter 1.2, Section 100002.03.

R9. By April 1, 2027, the Board should consider requiring the County LEMSA to notify CCRMC that its APOT Reduction Protocol does not cite the applicable LEMSA APOT standard of not to exceed 20 minutes 90% of the time.

R10. By April 1, 2027, the Board should consider requiring the County LEMSA to notify any hospital in the County when its APOT Reduction Protocol cites a standard longer than the County LEMSA standard.

R11. By April 1, 2027, the Board should consider requiring the County LEMSA to provide the Board with its quarterly reporting on the status of APOTs in the County.

REQUEST FOR RESPONSES

Pursuant to California Penal Code § 933(b) et seq. and California Penal Code § 933.05, the 2025-2026 Contra Costa County Civil Grand Jury requests responses from the following governing bodies:

Responding Agency	Findings	Recommendations
Contra Costa County Board of Supervisors	F1-F7, F10-F23, F25-F31	R1-R5, R7-R11
Contra Costa County Fire Protection District	F8, F9, F24	R6

These responses must be provided in the format and by the date set forth in the cover letter that accompanies this report. An electronic copy of these responses in the form of a Word document should be sent by e-mail to ctadmin@contracosta.courts.ca.gov and a hard (paper) copy should be sent to:

Civil Grand Jury – Foreperson
725 Court Street
P.O. Box 431
Martinez, CA 94553-0091

Reports issued by the Grand Jury do not identify individuals interviewed. Penal Code section 929 requires that reports of the Grand Jury not contain the name of any person or facts leading to the identity of any person who provides information to the Grand Jury.

APPENDICES

Appendix 1. Contra Costa County Emergency Department Transfer of Care Standard 4010

Contra Costa County Emergency Medical Services

EMS – Emergency Department Transfer of Care Standards

I. PURPOSE

This policy establishes standards for transfer of patient care for 9-1-1 ambulance personnel to Emergency Department (ED) staff in Contra Costa County. These standards are essential to public safety.

II. POLICY

Hospitals designated as an EMS receiving hospital in Contra Costa County shall be prepared to receive patients transported by 9-1-1 ambulance providers and accept these patients upon arrival. The patient transfer process performance expectations for the EMS System is twenty (20) minutes or less 90% of the time.

III. EMS AMBULANCE PROVIDER RESPONSIBILITIES

A. Prehospital personnel will notify ED staff of their estimated time of arrival as soon as practical, once patient destination has been established.

B. Prehospital personnel shall provide continuity in their treatments upon arrival at the hospital, which typically may involve oxygen, IV fluids and nebulizer treatments, which have been started prior to patient arrival in the ED.

C. During periods of unusual level of demand, prehospital personnel may provide the stable patient with information on hospital delays to assist the patient in their choice of destination.

D. Prehospital personnel will promptly notify ED supervisory staff of ambulance parking, stacking conditions and "Patient Care Delays" when they occur. Ambulance supervisory personnel will assist with the resolution of parking and stacking issues and follow up with the Contra Costa County EMS Agency (LEMSA) and hospital.

E. Notification of the need to release ambulance resources shall be communicated by the ambulance supervisor using the following chain of command:

1. ED charge nurse and physician in charge
2. Hospital House Nursing Supervisor

IV. RECEIVING HOSPITAL RESPONSIBILITIES

A. The hospital responsibility for the care of a patient begins when the patient or ambulance arrives on hospital grounds and requires an initial assessment and triage of the patient without delay. *

B. Hospital staff shall provide ongoing care beyond oxygen and IV fluids once the patient has arrived in the ED.

C. ED staff will work with ambulance personnel to ensure optimal patient care handoff and resolve any instances or delayed patient care handoff.

D. During periods of unusual level of demand, hospitals shall activate internal protocols for ED saturation using the hospital incident command system.

E. Predictable seasonal high utilization periods are considered normal EMS System operations that should be included in hospital planning and are not considered unusual level of demand episodes.

F. Hospital staff will work with LEMSA staff to ensure internal policies and procedures are in place to prioritize patients arriving by EMS ambulance and effectively manage ambulance parking and stacking issues. Examples include:

1. Rapid response teams to support ED patient care flow.
2. Communication protocols with appropriate personnel to support rapid patient transfer of care decisions (e.g., Hospital Nurse Supervisor, Hospital Administrator on call, the EMS Duty Officer, etc.)

V. EMS AGENCY RESPONSIBILITIES

A. Provide hospitals and ED leadership with reliable patient handoff performance reports.

B. Post countywide EMS-hospital offload reports on the LEMSA website at appropriate intervals.

*Emergency Medical Treatment and Labor Act (EMTALA)

Appendix 2. Contra Costa Regional Medical Center APOT Reduction Protocol

CONTRA COSTA HEALTH

ED AMBULANCE OFFLOAD PROCEDURE

I. PURPOSE:

To provide guidelines for the Emergency Department to reduce ambulance patient offload time.

II. REFERENCES:

CA AB 40 SECTION "Emergency services adopts a statewide standard of 30 minutes, 90 percent of the time, for ambulance offload time… and requires general acute hospitals with an emergency department to develop an ambulance patient offload time reduction protocol.

Contra Costa County Fire Protection District Ambulance Offload Policy "the goal of this policy is to transfer patients to the receiving hospital and off AMR gurneys as soon as possible, with actions taken at 10, 20, 45, and 60 minutes to make certain patient offloads do not exceed 60 minutes".

III. PROCEDURE:

Upon notification from EMS crew that there is an extended ambulance offload time, the ED Charge nurse will notify the ED Manager and/ or Medical Center Supervisor.

The ED Manager or Medical Center Supervisor will coordinate with the ED Charge nurse to coordinate a plan to safely transfer care of the patient from the EMS crew to the ED Charge nurse or designee.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2687 **Agenda Date:** 6/23/2026 **Agenda #:** C.38.

To: Board of Supervisors

From: Thomas L. Geiger, County Counsel

Report Title: Public report of litigation settlement agreements that became final during the period May 1, 2026, through May 31, 2026.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

RECEIVE public report of litigation settlement agreements that became final during the period May 1, 2026, through May 31, 2026.

FISCAL IMPACT:

Settlement amounts are listed below.

BACKGROUND:

Two agreements to settle pending litigation, as defined in Government Code section 54956.9, became final during the period May 1, 2026, through May 31, 2026.

Jack Francis Bruce v. Angel Garcia, et al., United States District Court, Northern District of California, Case No. 4:25-cv-01297-YGR 2: On April 14, 2026, the Board of Supervisors approved a settlement in this medical negligence case. The Board approved the settlement for $100,000 in closed session by a vote of 5-0. The settlement agreement was fully executed on May 5, 2026. The funding source is the County's Risk Management Liability Internal Service Fund.

Vyacheslav Viner, et al. v. Contra Costa County, et al., Contra Costa County Superior Court, Case No. C21-00187: On November 4, 2025, the Board of Supervisors approved a settlement in this medical negligence case. The Board approved the settlement for $1,700,000 in closed session by a vote of 5-0. The settlement agreement was fully executed on May 12, 2026. The funding source up to $1,000,000 is the County's Risk Management Medical Malpractice Internal Service Fund, with the remainder of the settlement paid by Public Risk Innovations Solutions and Management, which functions as the County's excess insurance provider.

CONSEQUENCE OF NEGATIVE ACTION:

The report would not be accepted.

cc: Monika L. Cooper, Assistant County Counsel; Susan Brajkovic, Director, Risk Management Department

CONTRA COSTA COUNTY

Staff Report

File #: 26-2688 **Agenda Date:** 6/23/2026 **Agenda #:** C.39.

To: Board of Supervisors

From: Thomas L. Geiger, County Counsel

Report Title: Conflict of Interest Code of the Central Contra Costa Sanitary District

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE amendments to the Conflict of Interest Code of the Central Contra Costa Sanitary District.

FISCAL IMPACT:

None.

BACKGROUND:

The Central Contra Costa Sanitary District ("District") has amended its conflict of interest code and submitted the revised code, attached as Exhibit A, to the Board for approval pursuant to Government Code sections 87306 and 87306.5.

The conflict of interest code in Exhibit A has been revised pursuant to Senate Bill 852, which made changes to the Political Reform Act by adding "public officials who manage public investments" to the list of individuals for whom the Fair Political Practices Commission is the filing officer as of January 1, 2026. This change will ensure that the conflict of interest code for the District accurately reflects its current positions and organizational structure and is consistent with the recent legislation. A red-lined version of the conflict of interest code is attached as Exhibit B.

CONSEQUENCE OF NEGATIVE ACTION:

None.

cc: Monica Nino, Clerk of the Board of Supervisors; Hannah M. Shafsky, Deputy County Counsel; Katie Young, Central Contra Costa Sanitary District

CONFLICT OF INTEREST CODE

Adopted: November 15, 2012
Last Revised: May 28, 2026

CENTRAL SAN

CENTRAL CONTRA COSTA SANITARY DISTRICT
CONFLICT OF INTEREST CODE

Incorporation of FPPC Regulation 18730 by Reference

The Fair Political Practices Commission ("FPPC") has adopted a regulation (2 Cal.Code Regs. § 18730) which contains the terms of a standard conflict of interest code which can be incorporated by reference in the agency's code. After public notice and hearing, it may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act. Therefore, the terms of 2 California Code of Regulations Section 18730 and any future amendments to it duly adopted by the Fair Political Practices Commission are hereby incorporated by reference. Such regulation, and the attached Appendix designating officials and employees and establishing disclosure categories, shall constitute the conflict-of-interest code of the Central Contra Costa Sanitary District.

Place of Filing of Statements of Economic Interests

Filing through the County Clerk: The designated officials and employees listed on the attached **Appendix** shall file statements of economic interests with the County Clerk through its electronic NetFile system. The Secretary of the District shall make copies of the statements available for public inspection and reproduction. (Gov't Code § 81008.)

Filing through the FPPC: Pursuant to SB 852 which was signed into law in October 2025, the officials and employees who manage public investments must file Form 700 disclosure statements directly with the Fair Political Practices Commission using its electronic filing system, rather than filing forms with the County Clerk. For purposes of the District's Conflict of Interest Code, the following individuals are required to submit Form 700 disclosure statements directly to the FPPC:

- Members of the Board of Directors
- General Manager

RECEIVED
JUN 04 2026
CLERK BOARD OF SUPERVISORS
CONTRA COSTA CO.

RECEIVED
JUN 04 2026
CLERK BOARD OF SUPERVISORS

- Secretary of the District
- Counsel for the District
- Deputy General Manager (Finance and Administration)
- Deputy General Manager (Engineering and Operations)
- Director of Engineering and Technical Services
- Finance Manager

Filing Requirements for Candidates for the District Board of Directors

In addition to any other requirements of 2 California Code of Regulations Section 18730 and any amendments thereto, a candidate for the Board of Directors of Central Contra Costa Sanitary District shall file, no later than the final filing date of a declaration of candidacy, a statement of economic interests, pursuant to Government Code section 87200 et seq.

Financial Training Requirements

Pursuant to SB 827 which became effective on January 1, 2026, certain District officials and employees are required to complete at least two hours of fiscal and financial training every two years. The goal of this requirement is to facilitate the strengthening of financial oversight for specific individuals involved in the budgetary process.

Timing of Initial Training: Each of the individuals listed below must complete an initial financial training as follows:

- Officials who began service to the District prior to January 1, 2026 must complete the initial training by January 1, 2028; and

- Officials who began service on or after January 1, 2026 must complete training within six months of the date they took office.

Individuals Required to Complete Financial Training: Following the initial training, each individual listed below must take the financial training at least every two years. For purposes of the District and this Conflict of Interest Code, the following individuals must complete the biennial financial training:

- Members of the Board of Directors
- General Manager
- Deputy General Manager (Finance and Administration)
- Deputy General Manager (Engineering and Operations)
- Finance Manager
- Human Resources and Organizational Development Manager
- Communications and Governmental Relations Manager
- Operations Optimization Division Manager
- Resource Recovery and Development Services Division Manager

- Capital Projects Division Manager
- Information Technology Manager
- Plant Maintenance Division Manager
- Environmental and Regulatory Compliance Division Manager
- Collection System Operations Division Manager
- Plant Operations Division Manager
- All Procurement Staff
- All Finance Department Staff

****Consultants**

Only those Consultants who fall within the criteria described below shall disclose pursuant to the broadest disclosure category in the District's Conflict of Interest Code, unless the General Manager determines, in writing, that a different, narrower category is appropriate.

For purposes of the District's Conflict of Interest Code, "Consultant" means an individual who, pursuant to a contract with the District:

1. Makes a governmental decision whether to:

   a. Approve a rate, rule, or regulation;
   b. Adopt or enforce a law;

RECEIVED
JUN 04 2026
CLERK BOARD OF SUPERVISORS
CONTRA COSTA CO.

c. Issue, deny, suspend, or revoke any permit, license, application, certificate, approval, order, or similar authorization or entitlement;
d. Authorize the agency to enter into, modify, or renew a contract provided it is the type of contract that requires agency approval;
e. Grant agency approval to a contract that requires agency approval and to which the agency is a party, or to the specifications for such a contract;
f. Grant agency approval to a plan, design, report, study, or similar item;
g. Adopt, or grant agency approval of, policies, standards, or guidelines for the agency, or for any subdivision thereof; or

2. Serves in a staff capacity with the agency and, in that capacity, participates in making governmental decisions as defined in FPPC Regulation 2 CCR 18700, et seq., or performs the same or substantially all the same duties for the agency that would otherwise be performed by an individual holding a designated position specified above.

The General Manager shall make a written determination when a particular Consultant meets the above-described criteria, requiring the Consultant to be treated as a "designated position." The General Manager's determination is a public record and shall be retained for public inspection in the same manner and location as the Conflict-of-Interest Code.

Part II: Disclosure Categories

Designated Employees are required to file statements of economic interests for the types of interests set forth in the Disclosure Categories which apply to each position, as described in Part 1 of this Appendix. The Disclosure Categories are as follows:

- Category 1 – Board Members and any Designated Employees whose duties are broad and indefinable:

  All investments and business positions in business entities, and income (including loans, gifts, and travel payments) from sources located in or doing business in the District's jurisdiction. A business entity is "located or doing business in the jurisdiction of District" if the business entity is doing business or plans to do business within the boundaries of the District, or if the business entity owned or leased any facilities within the boundaries of the District, or has done business within the boundaries of the District, at any time during the two years prior to the time that the disclosure statement of the designated office/employee is filed.

  Interests in real property located in the jurisdiction, including property located in part or in whole within the boundaries of the District, within two miles thereof, or within two miles of land owned or used by the District.

- Category 2 – Designated Employees whose duties involve contracting or purchasing equal to or exceeding $1,500 per month or $18,000 per year for the District:

  All investments and business positions in business entities, and income (including gifts, loans, and travel payments) from sources that provide leased facilities, goods, equipment, vehicles, machinery, or services, including training or consulting services, of the type utilized by this District.

- Category 3 – Designated Employees whose decisions may affect real property interests:

  Interests in real property located in the jurisdiction, including property located in part or in whole within the boundaries of the District, within two miles thereof, or within two miles of land owned or used by the District.

- Category 4 – Designated Employees with regulatory powers:

  All investments and business positions and income, including gifts, loans, and travel payments, from sources that are subject to the regulatory, permit, or licensing authority of, or have an application for a license or permit pending before, the District.

CONFLICT OF INTEREST CODE

Adopted: November 15, 2012
Last Revised: November 21, 2024

CENTRAL CONTRA COSTA SANITARY DISTRICT
CONFLICT OF INTEREST CODE

Incorporation of FPPC Regulation 18730 by Reference

The Fair Political Practices Commission ("FPPC") has adopted a regulation (2 Cal.Code Regs. § 18730) which contains the terms of a standard conflict of interest code which can be incorporated by reference in the agency's code. After public notice and hearing, it may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act. Therefore, the terms of 2 California Code of Regulations Section 18730 and any future amendments to it duly adopted by the Fair Political Practices Commission are hereby incorporated by reference. Such regulation, and the attached Appendix designating officials and employees and establishing disclosure categories, shall constitute the conflict-of-interest code of the Central Contra Costa Sanitary District.

Place of Filing of Statements of Economic Interests

Filing through the County Clerk: The designated officials and employees listed on the attached **Appendix** shall file statements of economic interests with the County Clerk through its electronic NetFile system. The Secretary of the District shall make copies of the statements available for public inspection and reproduction. (Gov't Code § 81008.)

Filing through the FPPC: Pursuant to SB 852 which was signed into law in October 2025, the officials and employees who manage public investments must file Form 700 disclosure statements directly with the Fair Political Practices Commission using its electronic filing system, rather than filing forms with the County Clerk. For purposes of the District's Conflict of Interest Code, the following individuals are required to submit Form 700 disclosure statements directly to the FPPC:

- Members of the Board of Directors
- General Manager

CLERK BOARD OF SUPERVISORS
CONTRA COSTA CO.

- Secretary of the District
- Counsel for the District
- Deputy General Manager (Finance and Administration)
- Deputy General Manager (Engineering and Operations)
- Director of Engineering and Technical Services
- Finance Manager

Filing Requirements for Candidates for the District Board of Directors

In addition to any other requirements of 2 California Code of Regulations Section 18730 and any amendments thereto, a candidate for the Board of Directors of Central Contra Costa Sanitary District shall file, no later than the final filing date of a declaration of candidacy, a statement of economic interests, pursuant to Government Code section 87200 et seq.

Financial Training Requirements

Pursuant to SB 827 which became effective on January 1, 2026, certain District officials and employees are required to complete at least two hours of fiscal and financial training every two years. The goal of this requirement is to facilitate the strengthening of financial oversight for specific individuals involved in the budgetary process.

Timing of Initial Training: Each of the individuals listed below must complete an initial financial training as follows:

- Officials who began service to the District prior to January 1, 2026 must complete the initial training by January 1, 2028; and
- Officials who began service on or after January 1, 2026 must complete training within six months of the date they took office.

Individuals Required to Complete Financial Training: Following the initial training, each individual listed below must take the financial training at least every two years. For purposes of the District and this Conflict of Interest Code, the following individuals must complete the biennial financial training:

- Members of the Board of Directors
- General Manager
- Deputy General Manager (Finance and Administration)
- Deputy General Manager (Engineering and Operations)
- Finance Manager
- Human Resources and Organizational Development Manager
- Communications and Governmental Relations Manager
- Operations Optimization Division Manager
- Resource Recovery and Development Services Division Manager

- Capital Projects Division Manager
- Information Technology Manager
- Plant Maintenance Division Manager
- Environmental and Regulatory Compliance Division Manager
- Collection System Operations Division Manager
- Plant Operations Division Manager
- All Procurement Staff
- All Finance Department Staff

****Consultants**

Only those Consultants who fall within the criteria described below shall disclose pursuant to the broadest disclosure category in the District's Conflict of Interest

Code, unless the General Manager determines, in writing, that a ~~less broad~~different, narrower category is appropriate.

For purposes of the District's Conflict of Interest Code, "Consultant" means an individual who, pursuant to a contract with the District:

1. Makes a governmental decision whether to:

   a. Approve a rate, rule, or regulation;
   b. Adopt or enforce a law;
   c. Issue, deny, suspend, or revoke any permit, license, application, certificate, approval, order, or similar authorization or entitlement;
   d. Authorize the agency to enter into, modify, or renew a contract provided it is the type of contract that requires agency approval;
   e. Grant agency approval to a contract that requires agency approval and to which the agency is a party, or to the specifications for such a contract;
   f. Grant agency approval to a plan, design, report, study, or similar item;
   g. Adopt, or grant agency approval of, policies, standards, or guidelines for the agency, or for any subdivision thereof; or

2. Serves in a staff capacity with the agency and, in that capacity, participates in making governmental decisions as defined in FPPC Regulation 2 CCR 18700, et seq., or performs the same or substantially all the same duties for the agency that would otherwise be performed by an individual holding a designated position specified above.

The General Manager shall make a written determination when a particular Consultant meets the above-described criteria, requiring the Consultant to be treated as a "designated position." The General Manager's determination is a public record and shall be retained for public inspection in the same manner and location as the Conflict-of-Interest Code.

Part II: Disclosure Categories

Designated Employees are required to file ~~a~~ statements of economic interests for the types of interests set forth in the Disclosure Categories which apply to each position, as described in Part 1 of this Appendix. The Disclosure Categories are as follows:~~as their job duties fall under one or more of the following categories:~~

- Category 1 – Board Members and any Designated Employees whose duties are broad and indefinable:

  All investments and business positions in business entities, and income (including loans, gifts, and travel payments) from sources located in or doing business in the District's jurisdiction. A business entity is "located or doing business in the jurisdiction of District" if the business entity is doing business or plans to do business within the boundaries of the District, or if the business entity owned or leased any facilities within the boundaries of the District, or has done business within the boundaries of the District, at any time during the two years prior to the time that the disclosure statement of the designated office/employee is filed.

  Interests in real property located in the jurisdiction, including property located in part or in whole within the boundaries of the District, within two miles thereof, or within two miles of land owned or used by the District.

- Category 2 – Designated Employees whose duties involve contracting or purchasing equal to or exceeding $1,500 per month or $18,000 per year for the District:

  All investments and business positions in business entities, and income (including gifts, loans, and travel payments) from sources that provide leased facilities, goods, equipment, vehicles, machinery, or services, including training or consulting services, of the type utilized by this District.

- Category 3 – Designated Employees whose decisions may affect real property interests:

  Interests in real property located in the jurisdiction, including property located in part or in whole within the boundaries of the District, within two miles thereof, or within two miles of land owned or used by the District.

- Category 4 – Designated Employees with regulatory powers:

  All investments and business positions and income, including gifts, loans, and travel payments, from sources that are subject to the regulatory, permit, or licensing authority of, or have an application for a license or permit pending before, the District.

Staff Report

File #: 26-2689 **Agenda Date:** 6/23/2026 **Agenda #:** C.40.

To: Board of Supervisors

From: Thomas L. Geiger, County Counsel

Report Title: Contract Amendment with Sophus Consulting

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the County Counsel, or designee, to execute on behalf of the County a contract amendment with Sophus Consulting, to increase the payment limit by $75,000 to a new payment limit of $225,000 and extend the term through June 30, 2027, for additional case management consulting services.

FISCAL IMPACT:

Approval of this contract amendment will result in contractual services of additional expenditures of up to $75,000 for a total of $225,000. (100% General Fund)

BACKGROUND:

The County Counsel's Office has worked with Sophus Consulting for the implementation of and ongoing support of the ProLaw case management system from 2023 to present. The ProLaw system has substantially streamlined operations by simplifying procedures and significantly reduced the time spent entering data across multiple platforms. The contract amendment will update the current ProLaw environment (v31) to ProLaw v31.x or v32. Additionally, Sophus Consulting will provide project management and ongoing support, including system maintenance, automation, training, document and reporting enhancements, along with AIT-related services and software subscription.

CONSEQUENCE OF NEGATIVE ACTION:

If this contract is not approved, Sophus Consulting will not provide the consulting and support services needed for the ProLaw case management system.

From: Marla Stuart, Employment and Human Services Director

Report Title: State of California Department of Community Services and Development, Supplemental Low Income Home Energy Assistance Program

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

ADOPT a resolution to approve and authorize the Employment and Human Services Director, or designee, to execute a revenue agreement with the State of California Department of Community Services and Development, in an amount not to exceed $119,667 for the Supplemental Low Income Home Energy Assistance Program, for the period May 1, 2026, through May 31, 2027.

FISCAL IMPACT:

100% Federal, funded by the California Department of Community Services and Development, all of which is budgeted in FY 26-27. No County match is required.

BACKGROUND:

The County routinely receives funding from the California Department of Community Services and Development wherein Contra Costa County provides energy bill assistance payments and/or weatherization services to residents who are income eligible through Low Income Home Energy Assistance Program (LIHEAP) and the Energy Crisis Intervention Program (ECIP). The priority for services is to those households with the lowest income and highest energy burden. LIHEAP priority is to service those households with the following vulnerable populations: young children (ages five years or under), disabled, and elderly persons (ages 60 years or older). Supplemental Low Income Home Energy Assistance Program (SLIHEAP) provides additional funding to support the operation of LIHEAP and ECIP.

The program is operated by the Employment and Human Services Department, Community Services Bureau. This action is to approve funds in the amount of $119,667 for the 2026 SLIHEAP Program FY 2026-2027.

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, the County will not receive funding to be able to provide services to eligible residents for SLIHEAP in Contra Costa County to meet their energy needs.

CHILDREN'S IMPACT STATEMENT:

This Contract supports the fourth community outcome in the Children's Report Card: (4) "Families that are Safe, Stable and Nurturing".

THE BOARD OF SUPERVISORS OF CONTRA COSTA COUNTY, CALIFORNIA

and for Special Districts, Agencies and Authorities Governed by the Board

IN THE MATTER OF the State of California Department of Community Services and Development, Supplemental Low Income Home Energy Assistance Program.

WHEREAS, the County routinely receives funding from the California Department of Community Services and Development (CSD) wherein Contra Costa County provides energy bill assistance payments and/or weatherization services to residents who are income eligible through Low Income Home Energy Assistance Program (LIHEAP) and the Energy Crisis Intervention Program (ECIP), and

WHEREAS, the priority for services is to those households with the lowest income and highest energy burden. LIHEAP priority is to service those households with the following vulnerable populations: young children (ages five years or under), disabled, and elderly persons (ages 60 years or older), and

WHEREAS, Supplemental Low Income Home Energy Assistance Program (SLIHEAP) provides additional funding to support the operation of LIHEAP and ECIP, and

WHEREAS, the program is operated by the Employment and Human Services Department (EHSD), Community Services Bureau (CSB), and

WHEREAS, this action is to approve funds in the amount of $119,667 for the 2026 SLIHEAP Program FY 2026-2027.

NOW, THEREFORE, BE IT RESOLVED that the Contra Costa County Board of Supervisors approve and authorize the Employment and Human Services Director, or designee, to execute a revenue agreement with the State of California Department of Community Services and Development, in an amount not to exceed $119,667 for the Supplemental Low Income Home Energy Assistance Program, for the period May 1, 2026 through May 31, 2027.

To: Board of Supervisors

From: Marla Stuart, Employment and Human Services Director

Report Title: Crystal McClendon-Gourdine Amendment

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract amendment with Crystal McClendon-Gourdine, effective March 1, 2026, to increase the total payment limit by $110,000 for a new payment limit not to exceed $250,000, to provide Head Start Childcare Program consultation services, with no change to the term January 31, 2025, through June 30, 2027.

FISCAL IMPACT:

42% County MX, 29% Federal, 29% State of which $83,333 is budgeted for FY 25-26 and $166,667 will be budgeted for FY 26-27.

BACKGROUND:

Contra Costa County receives funds from the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Head Start to provide Head Start Childcare Program consultation services to Employment & Human Services Department/Community Services Bureau (EHSD/CSB) Head Start children's centers and staff.

Contractor will provide early childhood education consultation services including classroom observations, individualized coaching, and training for teachers, site supervisors, and managers. Services include implementing Practice-Based Coaching using the Together Learning and Collaborating model, supporting Creative Curriculum implementation, and providing professional development to strengthen teams and teacher-child interactions, and staff knowledge of child development.

This action seeks to approve a contract amendment to increase the payment limit by $110,000. The new total payment limit is $250,000, with no change to the contract term.

This vendor was selected per procurement requirements outlined in Administrative Bulletin 600.3.

CHILDREN'S IMPACT STATEMENT:

This contract supports two of Contra Costa County's community outcomes of the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood".

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, Contra Costa County will not be able to provide specialized consultation, coaching, and training to Head Start staff to support program quality and implementation of Head Start Performance Standards.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2691 **Agenda Date:** 6/23/2026 **Agenda #:** C.43.

To: Board of Supervisors

From: Marla Stuart, Employment and Human Services Director

Report Title: Progress Software Corporation

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Purchasing Agent, or designee, to execute on behalf of the Employment and Human Services Director, a purchase order with Progress Software Corporation in an amount not to exceed $12,175 for the purchase of DevCraft Complete Licenses, a software development toolkit for building applications and web interfaces, for the period March 19, 2026, through October 28, 2029.

FISCAL IMPACT:

54% Federal, 38% State, 8% County General Fund, all of which is budgeted in FY 26-27.

BACKGROUND:

The Employment and Human Services Department Information Technology Unit seeks to purchase DevCraft Complete Licenses, a software development toolkit that will provide user interface components, reporting, and testing tools for building and maintaining web and desktop applications. These licenses include Telerik User Interface components currently used to support several intranet applications. The Telerik components enable software developers to accelerate application development, ensure consistent user experience, and add features and functionality without requiring extensive custom code.

Progress' End-User License Agreement includes indemnification provisions from the County to Progress, as well as a limitation of liability clause capping liability at the amount of fees paid in the 12 months prior to the claim arising. This vendor was selected per procurement requirements outlined in Administrative Bulletin 600.3.

CONSEQUENCE OF NEGATIVE ACTION:

EHSD may not be able to properly maintain or update applications, which could lead to system issues, delays, and potential security risks.

CHILDREN'S IMPACT STATEMENT:

This Purchase Order supports one of Contra Costa County's community outcomes of the Children's Report Card: (4) "Families that are Safe, Stable and Nurturing."

To: Board of Supervisors

From: Marla Stuart, Employment and Human Services Director

Report Title: Purchase Order Renewal with Euna Solutions, Inc. for eCivis

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Purchasing Agent, or designee, to execute on behalf of the Employment and Human Services Director a purchase order and related agreement with Euna Solutions, Inc., subject to their terms and conditions in an amount not to exceed $38,145 for the purchase of grant management software, for the period July 1, 2026, through June 30, 2029.

FISCAL IMPACT:

54% Federal, 38% State, 8% County General Fund, all of which will be budgeted in FY26/27.

BACKGROUND:

The Employment and Human Services Department (EHSD) Alliance to End Abuse has used this service since 2018. The eCivis subscription with EUNA Solutions, Inc. will provide an online, comprehensive, searchable database of federal, state and foundation grant funding.

This purchase order has an End User License Agreement that includes an indemnification and limitation-of-liability of Euna Solutions, Inc. eCivis, Inc. has undergone a corporate rebranding and now operates under the name Euna Solutions, Inc. This vendor was selected per procurement requirements outlined in Administrative Bulletin 600.3.

CHILDREN'S IMPACT STATEMENT:

This agreement/contract supports all five of the community outcomes established in the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood";(3)"Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5) "Communities that are Safe and Provide a High Quality of Life for Children and Families," by supporting staff working directly with families and children.

CONSEQUENCE OF NEGATIVE ACTION:

EHSD will not be able to effectively search for and apply to foundation, state, and federal funding opportunities.

1025 ESCOBAR STREET
MARTINEZ, CA 94553

CONTRA COSTA COUNTY

Staff Report

File #: 26-2693 **Agenda Date:** 6/23/2026 **Agenda #:** C.45.

To: Board of Supervisors

From: Marla Stuart, Employment and Human Services Director

Report Title: California Statewide Automated Welfare System Postage Cost

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Auditor-Controller to issue payment on behalf of Employment and Human Services Director, or designee, to BIT California LLC dba Document Fulfillment Services (DFS) in an amount not to exceed $4,583,205 to replenish monthly the California Statewide Automated Welfare System Central Print Contra Costa County postage account for the period April 1, 2026, through June 30, 2028.

FISCAL IMPACT:
Cost for the period April 1, 2026, through June 30, 2028, is $4,583,205, of which $540,294 is included in the FY25-26 Adopted Budget. The remaining balance will be budgeted in future fiscal years through June 2028. Funding ratios are 54% Federal, 38% State and County 8% County.

BACKGROUND:
On July 8, 2020, the California Statewide Automated Welfare System (CalSAWS) Consortium released a Request for Proposal to solicit proposals from qualified vendors to design, develop, and implement central print and mailing services ("Central Mail Services") for the CalSAWS environment, and selected prime contractor Gainwell Technologies LLC ("Gainwell") to provide central mail services. The agreement was executed in April 2021; its duration was for five years and could be extended for up to five one-year terms at the discretion of the CalSAWS Consortium. Gainwell entered into a subcontract agreement with BIT California LLC dba Document Fulfillment Services (DFS) (Subcontractor) to provide certain central print and mailing services, including but not limited to preprocessing, presort and postage. The Employment and Human Services Department (EHSD) purchasing agent issued purchase order #027191 on February 16, 2023, for $174,725 to meet the three-month prefunding requirement announced in CalSAWS Information Transmittal 0170-22. This board order will approve and authorize the Auditor-Controller to issue a total amount not-to-exceed $4,583,205 over the term April 1, 2026, through June 30, 2028, to replenish monthly the CalSAWS Central Print Contra Costa County postage account in an amount not less than the actual postage used in the prior month.

CONSEQUENCE OF NEGATIVE ACTION:
Not replenishing the CalSAWs Central Print Contra Costa postage account will result in disruption to CalSAWs operations and in EHSD clients not receiving timely or failing to receive their Notices of Action, forms, letters,

stuffers, and flyers.

CHILDREN'S IMPACT STATEMENT:
This agreement supports all five community outcomes established in the Children's Report Card: 1) "Children Ready for and Succeeding in School"; 2) "Children and Youth Healthy and Preparing for Productive Adulthood"; 3) "Families that are Economically Self Sufficient"; 4) Families that are Safe, Stable and Nurturing"; and 5) "Communities that are Safe and Provide a High Quality of Life for Children and Families," by supporting staff working directly with families and children.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2694 **Agenda Date:** 6/23/2026 **Agenda #:** C.46.

To: Board of Supervisors

From: Marla Stuart, Employment and Human Services Director

Report Title: Advocacy and Resolution Services Renewal

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Advocacy and Resolution Services in an amount not to exceed $201,600 to provide ombudsman, mediation and exit interview services, for the term July 1, 2026, through June 30, 2028. (54% Federal, 38% State, 8% County General Fund)

FISCAL IMPACT:

54% Federal, 38% State, 8% County General Fund; of which $100,800 is budgeted in FY 26-27 and $100,800 will be budgeted in FY 27-28.

BACKGROUND:

Advocacy and Resolution Services investigates and resolves customer complaints, providing impartial mediation services for Employment and Human Service Department (EHSD) staff. These services allow EHSD to maintain a healthy, thriving workplace culture and collect valuable information through employee exit interviews. The Contractor has expertise in data compilation and report writing required to meet the demands of this service and was selected per procurement requirements outlined in Administrative Bulletin 600.3.

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, EHSD will not be able to provide impartial mediation services, investigate and resolve customer complaints.

CHILDREN'S IMPACT STATEMENT:

The contract supports all five of Contra Costa County community outcomes of the Children's Report Card: (1) "Children and Youth Health and Preparing for Productive Adulthood"; (2) "Families that are Economically Self -Sufficient"; (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stabel and Nurturing"; and (5) "Communities that are Safe and Provide a High Quality of Life for Children and Families" by providing training and employment opportunities.

Report Title: Interagency Agreement Mount Diablo Unified School District - Crossroads High School Amendment

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute an agreement amendment with Mount Diablo Unified School District to provide Early Head Start services, with no change to the payment limit of $615,728 and no change to the term period September 1, 2024, through June 30, 2027.

FISCAL IMPACT:

100% Federal, of which $193,665 was budgeted in FY 24-25, $211,031 is budgeted in FY 25-26, and $211,032 is budgeted in FY 26-27.

BACKGROUND:

On December 28, 2023, Request for Proposal #1202 was posted in selecting Head Start Program Childcare Partners. Mount Diablo Unified School District was selected through the bidder's process for a term of September 1, 2024, to June 30, 2027. This Agreement will provide a minimum of 20 to a maximum of 24 childcare program slots for children in the Early Head Start per year.

On December 17, 2024, the Board of Supervisors approved consent item C.91, authorizing an agreement in the amount of $615,728 for Fiscal Years 2024 to 2027.

This action seeks approval to amend the agreement with Mount Diablo Unified School District with no change to the payment limit and no change in the term for the continued provision of Federal childcare program services.

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, County's ability to fund childcare slots for its community-based agency partner, Mount Diablo Unified School District, will be significantly limited.

CHILDREN'S IMPACT STATEMENT:

This Agreement supports three of Contra Costa County's community outcomes of the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (3) "Families that are Economically Self-Sufficient"; and (4) "Families that are Safe, Stable and Nurturing".

Report Title: We Care Services for Children State Preschool Services Renewal

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract renewal with We Care Services for Children in an amount not to exceed $904,871 to provide State preschool program services for the period July 1, 2026, through June 30, 2028.

FISCAL IMPACT:

100% State funded (California Department of Education), of which $452,435 will be budgeted for FY 26/27, and $452,436 will be budgeted for FY 27/28.

BACKGROUND:

Contra Costa County receives funds from California Department of Education to provide State Preschool services to program eligible County residents. To provide a wider distribution of services to County residents, the County contracts with a number of community-based organizations. This contract with We Care Services for Children will provide childcare services for twenty-four (24) children enrolled in the childcare program.

On October 21, 2025, the Board of Supervisors approved consent item C.47, authorizing an amendment to this contract in the amount of $672,630 for Fiscal Years 2024 to 2026.

This action seeks approval to renew the contract with We Care Services for Children in an amount not to exceed $904,871 for the term July 1, 2026, through June 30, 2028, for the continued provision of State preschool program services.

This vendor was selected per procurement requirements outlined in Administrative Bulletin 600.3.

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, Contra Costa County will not be able to fund childcare slots for its community-based agency partner, We Care Services for Children.

CHILDREN'S IMPACT STATEMENT:

This contract supports three of the five of Contra Costa County's community outcomes of the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (3) "Families that are Economically Self-Sufficient"; and (4) "Families that are Safe, Stable and Nurturing".

Report Title: Pacific Clinics for Transitional Housing Assistance for Emancipated Youth Services

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Pacific Clinics, in an amount not to exceed $950,400 to provide transitional housing and supportive services to eligible emancipated transitional aged former foster youth for the period July 1, 2026, through June 30, 2028.

FISCAL IMPACT:

100% State; of which 50% is budgeted in FY 26-27, and 50% will be budgeted in FY 27-28.

BACKGROUND:

Transitional Housing Program-Plus (THP+) is a transitional housing program for young adults who exit foster care on or after their 18th birthday and are not yet 25 years of age. The housing model provides participants a safe living environment while obtaining skills and supportive services to become self-sufficient, including educational and employment services, counseling and crisis intervention, as well as assistance with securing permanent housing. With the approval of this contract renewal, Pacific Clinics (Contractor) will continue to provide THP+ services in alignment with requirements defined by the California Department of Social Services for up to an average of twelve (12) full-time participants per month as referred by Employment and Human Services, Children and Family Services.

The Board of Supervisors previously approved recent contracts for these services on May 9, 2023 (C.34), for FY 2023/2026 and on June 7, 2022 (C.69), for FY 2022/2023. This vendor was selected per procurement requirements outlined in Administrative Bulletin 600.3.

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, the County will not be able to meet the housing and supportive service needs for youth transitioning from foster care to independent living, thereby creating housing insecurities.

CHILDREN'S IMPACT STATEMENT:

The services provided under this contract support all five of Contra Costa County's community outcomes: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5)"Communities that are Safe and Provide a High Quality of Life for Children and Families" by providing safe housing and supportive services to assist youth while transitioning from foster care to independent living.

Report Title: Contract Pacific Clinics

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Pacific Clinics, in an amount not to exceed $540,000 to provide Kinship Support Services to relative caregivers in Central and West Contra Costa County for the period July 1, 2026, through June 30, 2027.

FISCAL IMPACT:

100% State Funds, all of which will be budgeted in FY 26-27.

BACKGROUND:

Kinship Support Services Program provides community-based family support services to relative caregivers and the dependent children placed in their homes by the juvenile court, as well as for those who are at risk of dependency or delinquency, which includes providing post-permanency services to relative caregivers who have become the legal guardian or adoptive parent of formerly dependent children.

Pacific Clinics provides multiple support services for relative and non-relative caregivers including enhanced post guardianship services, site-based mentoring, case management, support groups, enhanced academic achievement programs, recreational/group activities, respite, emergency assistance and educational forums. The goal of the kinship program is to support positive outcomes and reduce the risk of dependency and delinquency for children in a relative's care.

This is a renewal contract. The most recent contract with the Contractor was approved by the Board of Supervisors on September 24, 2024 (24-3056), for FY 2024/2026 which resulted from Request for Proposal 1203 in alignment with County procurement requirements outlined in Administrative Bulletin 600.3.

CHILDREN'S IMPACT STATEMENT:
This contract supports all five (5) of Contra Costa County's community outcomes of the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5)"Communities that are Safe and Provide a High Quality of Life for Children and

Families" by providing residential placement services to youth who have been denied placement and/or cannot live safely in lower level care.

CONSEQUENCE OF NEGATIVE ACTION:

County will not be able to provide additional supports to relative caregivers in successfully raising their kin, increase positive outcomes for at-risk youth, and prevent the removal of children from an extended family when the biological parents are unable to provide care.

Report Title: Revenue Agreement, California Jobs First Catalyst Program - Business Services and Regional Workforce Coordination Project

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee to accept, and execute a grant agreement, including any amendments or extensions thereof, pursuant to the agreement, with the City and County of San Francisco Economic and Workforce Development for fiscal years 25/26 and 26/27, in an amount not to exceed $100,000 for the California Jobs First Catalyst Program for the period July 1, 2025, through September 30, 2026.

FISCAL IMPACT:

100% State funds from the California Jobs First Catalyst Program; of which $70,000 is budgeted in FY 25/26, and $30,000 will be budgeted in FY 26/27.

BACKGROUND:

The Workforce Development Board of Contra Costa County seeks approval to accept grant funding from the City and County of San Francisco Economic and Workforce Development under the California Jobs First Catalyst Program. The $100,000 grant will support the California Jobs First Catalyst Program - Business Services and Regional Workforce Coordination project, which focuses on expanding workforce opportunities in key regional industries, including advanced manufacturing, clean energy, and healthcare. The project aims to strengthen local economic resilience by engaging businesses, facilitating regional collaboration, advancing critical skill training, and increasing equitable access to quality employment across Contra Costa County.

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, the County will not receive the California Jobs First Catalyst Program grant funds, resulting in missed opportunities to strengthen local workforce development initiatives, engage businesses in critical industry sectors, provide targeted training and support services, and enhance economic resilience and equity across Contra Costa County.

CHILDREN'S IMPACT STATEMENT:

This contract supports three community outcomes on the Children's Report Card: (2) "Children and Youth Healthy and Preparing for Productive Adulthood," (3) "Families that are Economically Self-Sufficient," and (5) "Communities that are Safe and Provide a High Quality of Life for Children and Families," by promoting economic stability through targeted workforce development initiatives, enhancing employment opportunities in high-demand industries, and contributing to the overall economic resilience of Contra Costa County.

Report Title: Liberty Union High School District Interagency Agreement

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute an Interagency Agreement with Liberty Union High School District in an amount not to exceed $750,000 to provide employability skills training and individual education plan support for California Work Opportunity and Responsibility to Kids Welfare-to-Work participants for the period July 1, 2026, through June 30, 2029.

FISCAL IMPACT:

100% Federal: California Work Opportunity and Responsibility to Kids (CalWORKs) single allocation, of which $250,000 is budgeted in FY 26-27, $250,000 to be budgeted in FY 27-28, and $250,000 to be budgeted in FY 28-29.

BACKGROUND:

On May 21, 2024, the Board approved Item C. to execute an Interagency Agreement with Liberty Union High School District for the period July 1, 2024, through June 30, 2026. This action is to execute an agreement renewal.

The Employment and Human Services Department provides countywide employment skills training and individual education planning for California Work Opportunity and Responsibility to Kids (CalWORKs) Welfare-to-Work (WTW) participants through the Finding Opportunities Careers for Ultimate Self-Sufficiency and Career Connections Programs. These services are currently administered by Liberty Union High School District as an integral part of the CalWORKs WTW Program. These courses are designed to provide assistance to families with the goal of obtaining employment and becoming self-sufficient.

CONSEQUENCE OF NEGATIVE ACTION:

Contra Costa County will not be able to continue to provide these services through Liberty Union High School District to CalWORKs WTW participants.

CHILDREN'S IMPACT STATEMENT:

This Agreement supports three community outcomes established in the Children's Report Card: (3) "Families that are Economically Self Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5) "Communities that are Safe and Provide a High Quality of Life for Children and Families."

Report Title: STAND! For Families Free of Violence

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with STAND! For Families Free of Violence, in an amount not to exceed $132,744 to provide shelter and crisis line services for victims of intimate partner violence and their children for the period July 1, 2026, through June 30, 2027.

FISCAL IMPACT:

100% County General Fund, all of which is budgeted in FY 26-27.

BACKGROUND:

On September 24, 2024, the Board approved item C.50 to execute a contract with STAND! For Families Free of Violence to address the social needs of the County's population by providing a crisis call center and an emergency shelter facility to women and children in domestic violence crisis situations. On June 24, 2025, the Board approved Item C.57 for contract renewal. This action is to execute a contract renewal for the continued provision of case management and shelter services to victims of domestic violence in Contra Costa County.

Contractor provides support and assistance in response to referrals from a law enforcement agency or hospital emergency room including danger assessments, safety planning, and domestic violence education. Contractor is a domestic violence shelter-based agency providing services to domestic violence victims and their children in compliance with the requirements of the California Welfare and Institutions Code section 18294. Approval by the Board of Supervisors is appropriate under welfare and Institutions Code section 18294.

CONSEQUENCE OF NEGATIVE ACTION:

County will be unable to provide valuable emergency shelter, support, counseling, or educational services to the victims of intimate partner violence and their children and out of compliance with the Domestic Violence Shelter-Based Programs Act, Welfare and Institutions Code section 18290, et seq.

CHILDREN'S IMPACT STATEMENT:

This Contract supports two of Contra Costa County's community outcomes of the Children's Report Card: "Families that are Safe, Stable and Nurturing"; and "Communities that are Safe and Provide a High Quality of Life for Children and Families."

Report Title: Empowered Aging - Measure X

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Empowered Aging, in an amount not to exceed $355,138 for Long-Term Care Ombudsman services for the period July 1, 2026, through June 30, 2028.

FISCAL IMPACT:

100% Measure X, of which $177,569 is budgeted in FY 26-27 and $177,569 will be budgeted in FY 27-28.

BACKGROUND:

On November 5, 2024, the Board of Supervisors approved a contract with Empowered Aging, in an amount not to exceed $355,138 to provide Long-Term Care Ombudsman services for the period of September 1, 2024, through June 30, 2026 (Consent Item C. 29).

This action is to renew the contract with Empowered Aging for the continued provision of Long-Term Care Ombudsman Services in Contra Costa County and response to reports of abuse of residents in long-term care facilities. Services also include representing residents with issues related to day-to-day care, health safety and personal preferences.

On November 16th, 2021, the Board of Supervisors adopted the Measure X policy and funding allocation expenditure plan, which includes support for the local implementation of the Master Plan for Aging.

CONSEQUENCE OF NEGATIVE ACTION:

County will be unable to provide Long-Term Care Ombudsman Services to older adults in Contra Costa County.

CHILDREN'S IMPACT STATEMENT:

This Contract supports the fourth community outcome of Contra Costa County's Children's Report Card:

"Families that are Safe, Stable and Nurturing."

Report Title: First Place for Youth for Transitional Housing Assistance for Emancipated Youth

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with First Place for Youth, in an amount not to exceed $1,584,000 to provide transitional housing and support services to eligible emancipated transitional aged former foster youth for the period July 1, 2026, through June 30, 2028.

FISCAL IMPACT:
100% State funded, of which 50% will be budgeted in FY 26-27, and 50% will be budgeted in FY 27-28.

BACKGROUND:
Transitional Housing Program-Plus (THP+) is a transitional housing program for young adults who exited foster care on or after their 18th birthday and are not yet 25 years of age. The housing model provides participants a safe living environment while obtaining skills and supportive services to become self-sufficient, including educational and employment services, counseling and crisis intervention, as well as assistance with securing permanent housing. First Place for Youth (Contractor) will provide THP+ services for up to an average of twenty (20) full-time participants per month as referred by the EHSD Children and Family Services Independent Living Skills Program staff.
This action seeks to execute a contract renewal; the previous contracts with this Contractor for these services were authorized by the Board of Supervisors on April 24, 2023 (C.46), for FY 2023/2026 and on May 24, 2022 (C.44), for FY 2022/2023.

CHILDREN'S IMPACT STATEMENT:
The services provided under this contract support all five of Contra Costa County's community outcomes: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5)"Communities that are Safe and Provide a High Quality of Life for Children and Families" by providing safe housing and supportive services to assist youth while transitioning from foster care to independent living.

CONSEQUENCE OF NEGATIVE ACTION:
The County will not be able to meet the housing and supportive service needs for youth transitioning from foster care to independent living, thereby creating housing insecurities.

Report Title: Contract Empowered Aging 26-27 OAA Renewal

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Empowered Aging in an amount not to exceed $611,677 for the provision of Long-Term Care Ombudsman services pursuant to the Older Americans Act for the period July 1, 2026, through June 30, 2027.

FISCAL IMPACT:

82% State, which is funded through the California Department of Aging (State Ombudsman Program, State Public Health Licensing and Certification Program, Health Facilities Citation Penalties Account, and Skilled Nursing Facility Quality and Accountability Funds); 18% Federal, which is funded through the Older Americans Act; all of which is budgeted in FY 26-27.

BACKGROUND:

Empowered Aging provides Long-Term Care Ombudsman services to seniors and disabled adults in long-term care facilities. Services include mediation and conciliation services in the resolution of inquiries and complaints from older, long-term care residents and patients, participation in family councils for support of families of long-term care facility residents, and investigation of reports of physical abuse of all dependent adult and elder residents of long-term care facilities. They also provide advocacy services and educational resources to empower residents, their families, and the aging community at large.

Contractor was selected through County procurement process, deriving from Request for Interest 773 and received initial Board approval (C.33) on September 13, 2024. Subsequent staff reports received Board approval as follows: on October 7, 2025, the Board approved a contract renewal (C.54); and on March 31, 2026, the Board approved a contract amendment (C.53). This action seeks to execute a contract renewal with Empowered Aging in an amount not to exceed $611,677 for the provision of Long-Term Care Ombudsman services for the period July 1, 2026, through June 30, 2027.

CONSEQUENCE OF NEGATIVE ACTION:

Seniors and disabled adults in Contra Costa County will not receive Long-Term Care Ombudsman services

through this contractor.

CHILDREN'S IMPACT STATEMENT:

This contract supports the fourth of Contra Costa County's community outcomes of the Children's Report Card: "Families that are Safe, Stable and Nurturing."

Report Title: Copiers and Printers with UBEO West LLC

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Purchasing Agent, or designee, to execute a purchase order amendment to PO 17752 and PO 27245 on behalf of the Employment and Human Services Director with UBEO West LLC to increasing the payment limit by $63,794 to a new limit of $3,354,169 and by $116,776 to a new limit of $414,914, respectively, to purchase Multi-function Copier and printer services under the terms of a master agreement between the County and the company and extend the effective dates to December 23, 2019, through June 30, 2026, for both purchase orders.

FISCAL IMPACT:

8% County General Fund; 38% State; 54% Federal for both purchase orders (PO 17752 and PO 27245), all budgeted in FY 25/26.

BACKGROUND:

Ray A. Morgan (UBEO West LLC) was selected as a result of the competitive bid process held by Contra Costa County Public Works on behalf of all County departments and coincides with the Master agreement approved by the Board of Supervisors on July 23, 2019 (Item C 44).

UBEO West LLC provides valuable multi-function copier services, maintenance and supplies for the Employment and Human Services Department's 550+ copier devices. The Board of Supervisors approved PO 017752 on 07/28/2020 (item C.52) and three subsequent amendments on January 11, 2022 (item C74), October 4, 2022 (item C.57), and November 29, 2022 (item .C89), for a total of $3,290,375, for the period December 23, 2019, through December 23, 2025.

The Department is requesting approval for final Purchase Order amendments in the amount of $63,794 to cover close out invoices for PO 017752, and the amount of $116,776 to cover close out invoices for PO 27245 for the Community Services Bureau.

This vendor was selected per procurement requirements outlined in Administrative Bulletin 600.3.

CHILDREN'S IMPACT STATEMENT:

This agreement/contract supports all five of the community outcomes established in the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3)"Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5) "Communities that are Safe and Provide a High Quality of Life for Children and Families," by supporting staff working directly with families and children.

CONSEQUENCE OF NEGATIVE ACTION:

Employment and Human Services will be unable to provide valuable printer services to all EHSD programs, clients, and infrastructure staff.

Report Title: Title IIIC-1 Interagency Agreements with City Partners

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute ten interagency agreements with public agencies and to execute one contract with a non-profit corporation, to deliver the Older Americans Act Title IIIC-1 Congregate Meal Program services by hosting and coordinating the Area Agency on Aging's Contra Costa Café meals sites and County will receive voluntary payment contributions for the period July 1, 2026, through June 30, 2029.

FISCAL IMPACT:

County to receive approximately $450,000 in voluntary contributions collected from Contra Costa Café congregate meal program participants in FY 2026-2029, of which $150,000 is budgeted in FY26-27, $150,000 will be budgeted in FY27-28, and $150,000 will be budgeted in FY28-29.

BACKGROUND:

The Title IIIC Senior Nutrition Program is a major program funded under the Older Americans Act (OAA), which includes serving meals onsite in congregate settings or delivering meals to homebound and frail individuals. This action seeks to execute ten (10) interagency agreement renewals, and one contract renewal to enable the Area Agency on Aging to provide the Title IIIC-1 Congregate Meal Program directly to Contra Costa residents aged 60 and over and other eligible diners by offering hot, nutritious meals at Contra Costa Café sites hosted by these agencies. As required in the OAA, program participants must be provided with an opportunity to contribute to the program. County expects to receive approximately $150,000 annually, or $450,000 total, in voluntary contributions from individuals receiving meals at these congregate dining sites. Per the OAA, these funds will be used to enhance the congregate meals programs.

On June 4, 2024, the Board of Supervisors approved Item C.40, authorizing the execution of nine interagency agreements with local jurisdictions to establish congregate meal programs through Employment and Human Services Department. On June 4, 2024, the Board of Supervisors approved Item C.39, authorizing the execution of a contract with Golden Rain Foundation of Walnut Creek to deliver the OAA Title IIIC-1 Congregate Meal Program for the period July 1, 2024 through June 30, 2026. On July 8, 2024, the Board of Supervisors approved Item C.27, authorizing the establishment of a tenth interagency agreement for a congregate meal program.

These organizations, listed below, require renewal of their respective interagency agreements and one contract renewal in order to continue providing Title IIIC-1 Congregate Meal Program services:

- City of Antioch
- Town of Danville
- City of El Cerrito
- City of Hercules
- City of Martinez
- City of Oakley
- Pleasant Hill Recreation and Park District
- City of Richmond
- City of San Pablo
- City of San Ramon
- Golden Rain Foundation of Walnut Creek - a nonprofit

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, the County's Title IIIC-1 Congregate Meal services will not be delivered in Contra Costa County.

CHILDREN'S IMPACT STATEMENT:

These ten (10) interagency agreement renewals, and one contract renewal, support the fourth of Contra Costa County's community outcomes of the Children's Report Card: "Families that are Safe, Stable and Nurturing."

Report Title: Contract Wayfinder Family Services Renewal

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Wayfinder Family Services, in an amount not to exceed $673,150 to provide the Kinship Support Services Program to relative caregivers in East Contra Costa County for the period July 1, 2026, through June 30, 2027.

FISCAL IMPACT:

100% State Funds, all of which is budgeted in FY 26-27.

BACKGROUND:

Kinship Support Services Program (KSSP) provides community-based family support services to relative caregivers and the dependent children placed in their homes by the juvenile court, as well as for those who are at risk of dependency or delinquency, which includes providing post-permanency services to relative caregivers who have become the legal guardian or adoptive parent of formerly dependent children. Wayfinder Family Services provides multiple support services for relative and non-relative caregivers including enhanced post guardianship services, site-based mentoring, case management, support groups, enhanced academic achievement programs, recreational/group activities, respite, emergency assistance and educational forums. The goal of the kinship program is to support positive outcomes and reduce the risk of dependency and delinquency for children in a relative's care.

The Board of Supervisors approved the initial contract for KSSP services awarded through Request for Proposal #1203 on June 25, 2024 (C.77), for FY24-26. The Board approved an amendment (C.22) on February 10, 2026, to increase the payment limit by $58,751.

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, the County will not be able to provide additional supports to relative caregivers in successfully raising their kin, increase positive outcomes for at-risk youth, and prevent the removal of children from extended family when the biological parents are unable to provide care.

CHILDREN'S IMPACT STATEMENT:

This contract supports all five of Contra Costa County's community outcomes of the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5)"Communities that are Safe and Provide a High Quality of Life for Children and Families" by providing residential placement services to youth who have been denied placement and/or cannot live safely in lower level care.

To: Board of Supervisors

From: Marla Stuart, Employment and Human Services Director

Report Title: Delta Personnel Services, Inc. dba Guardian Security Agency

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Department Director, or designee, to execute a contract amendment with Delta Personnel Services, Inc., dba Guardian Security Agency, to increase the payment limit by $2,443,957, to a new payment limit of $4,068,957 for security guard services and extend the term from June 30, 2026, to June 30, 2028.

FISCAL IMPACT:

54% Federal, 38% State, 8% County General Fund; of which 50% is budgeted in FY26/27 and 50% will be budgeted in FY27/28.

BACKGROUND:

On June 24. 2025, the Board of Supervisors approved Consent Item C.52 authorizing a contract with Delta Personnel Services, Inc. dba Guardian Security Agency for the provision of security personnel services at EHSD locations. This action seeks to execute a contract amendment to increase the total payment limit by $2,443,957 and extend the contract for two years, during which the department will complete a solicitation of services process in accordance with the procurement procedures defined in Administrative Bulletin 600.3.

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, County building sites, property, and staff will not have security and safety mechanisms in place.

CHILDREN'S IMPACT STATEMENT:

This contract supports two of the five Contra Costa County's community outcomes: (4) Families that are Safe, Stable, and Nurturing; and (5) Communities that are Safe and Provide High Quality of Life for children and Families.

Report Title: Contract Private Adoption Agency Reimbursement Program

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Auditor-Controller, or designee, to issue reimbursement payments to private adoptions agencies approved by the Employment and Human Services Department, for a total amount not to exceed $800,000 to support the Private Adoption Agency Reimbursement Program pursuant to Welfare and Institutions Code 16122 per California State Assembly Bill 1301 for the period July 1, 2026, through June 30, 2028.

FISCAL IMPACT:

50% State 2011 Realignment Funds, 50% Federal, of which $400,000 is budgeted for FY 26-27 and $400,000 will be budgeted for FY 27-28.

BACKGROUND:

California's Private Adoption Agency Reimbursement Program (PAARP) as outlined in All County Letter 20-85 dated August 20, 2020, requires county child welfare agencies to provide standardized reimbursement payments to licensed private adoption agencies for costs associated with supporting families through the process of adopting children and non-minor dependents who would otherwise remain in foster care because of age, medical or psychological disability, or other circumstance that would make adoptive placement of these children especially difficult pursuant to Welfare and Institutions Code Section 16122 resulting from CA Assembly Bill 1301 (AB1301).

- The PAARP reimbursement for children adopted by resource families approved by dually licensed private non-profit foster family and adoptions agencies is $8,000 each.
- The PAARP reimbursement for dually licensed private non-profit foster family and adoption agencies that, upon the request of the County, provide adoption support activities for adoptive placement and/or finalization for resource families that were approved by the County or another Foster Family Agency, is $6,600 each.

The Board of Supervisors has approved prior staff reports supporting PAARP reimbursement payments on July 23, 2024 (24-2194); May 17, 2022 (C.39); June 8, 2021 (C.100); and October 13, 2020 (C.42).

CHILDREN'S IMPACT STATEMENT:

This payment supports all five of the community outcomes established in the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) Families that are Economically Self-Sufficient; (4) Families that are Safe, Stable and Nurturing"; and (5) "Communities that are Safe and Provide a High Quality of Life for Children and Families".

CONSEQUENCE OF NEGATIVE ACTION:

The County would not be in compliance with AB1301.

From: Marla Stuart, Employment and Human Services Director

Report Title: Pacific Clinics for Family Preservation Program Services

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Pacific Clinics, in an amount not to exceed $612,500 to provide Family Preservation and Supportive Services to families referred by Children and Family Services and/or the County Probation Department for the period July 1, 2026, through June 30, 2027.

FISCAL IMPACT:
70% State Realignment Funds, 30% County General Fund, all of which is budgeted in FY 26-27.

BACKGROUND:
This action seeks to execute a contract renewal. In February 2023, in alignment with County policy, Employment and Human Services Department Children and Family Services issued Request for Proposal 1193 for Family Preservation and Support Services of which Pacific Clinics was awarded a contract. On June 27, 2023, the Board approved item C.71 authorizing executing a contract with Pacific Clinics for a term of July 1, 2023, to June 30, 2025. On August 12, 2025, the Board approved item C.17 authorizing a contract with Pacific Clinics for a term of July 1, 2025, to June 30, 2026. This contract will renew the prior approved contract for a term of July 1, 2026, to June 30, 2027. With the implementation of Assembly Bill (AB) 3145, effective January 1, 2026, Family Preservation program requirements are anticipated to change. Currently, the California Department of Social Services has not issued formal guidance or regulations necessary to inform a new solicitation. As a result, continuation of the current contract ensures service continuity while the County awaits State direction and aligns future procurement with AB 3145 requirements. This contract will continue to provide family preservation and support services, including ongoing case management that engage and establish a positive rapport with families who have been referred as a result of child welfare involvement and/or County Probation Department involvement and who are experiencing multiple stressors impacting their ability to parent effectively and consequently are at risk of having their children placed in out-of-home care.

CONSEQUENCE OF NEGATIVE ACTION:
Should the proposed action not be approved by the Board of Supervisors, the County will experience an increased number of children being removed from their families and placed in foster care.

CHILDREN'S IMPACT STATEMENT:
This contract supports all five of Contra Costa County's community outcomes of the "Children's Report Card: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5) "Communities that are Safe and Provide a High Quality of Life for Children and Families".

To: Board of Supervisors

From: Marla Stuart, Employment and Human Services Director

Report Title: Summit Building Services, Inc.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Summit Building Services, Inc., in an amount not to exceed $1,344,168 to provide custodial services at various Community Services Bureau facilities for the term February 1, 2026, through June 30, 2027.

FISCAL IMPACT:

62% State, 38% Federal; $797,001 is budgeted in FY 25-26 and $533,167 is budgeted in FY 26-27.

BACKGROUND:

On August 8, 2023, the Board approved item C.23 for a contract with Summit Building Services, Inc. for the provision of custodial services to the Employment and Human Services Department (EHSD), Community Services Bureau site locations. On September 10, 2024, the Board approved item C.47 to amend and extend the contract through July 31, 2025. On September 16, 2025, the Board approved item C.37 to amend and extend the contract through January 31, 2026.

This action seeks to execute a contract renewal with Summit Building Services, Inc. to provide custodial services for several County-operated facilities, including childcare sites. Summit Building Services has provided custodial services for these facilities for over 10 years. EHSD childcare facilities are remotely located, beyond the typical routes of the County's custodial staff, and require nighttime services. At present, the County's custodial services are not equipped to effectively manage or supervise employees under these specific requirements.

This request has no impact on the current County Custodial staff.

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, custodial services provided by Summit Building Services, Inc. will be terminated, and EHSD facilities will not be in compliance with the Office of Head Start, the California Department of Education, and the California Department of Social Services.

CHILDREN'S IMPACT STATEMENT:

This Contract supports three of the community outcomes established in the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (3)"Families that are Economically Self-Sufficient"; and (4) "Families that are Safe, Stable and Nurturing".

To: Board of Supervisors

From: Marla Stuart, Employment and Human Services Director

Report Title: CFS Contract 20-580-2 Pacific Clinics

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Pacific Clinics, in an amount not to exceed $1,600,000, to provide Comprehensive Prevention Plan Program services in the City of Antioch, CA, for the period July 1, 2026, through June 30, 2028.

FISCAL IMPACT:

100% State, of which 50% is budgeted in FY 26-27 and 50% will be budgeted in FY 27-28.

BACKGROUND:

In February 2018, the Bipartisan Budget Act which included the Family First Prevention Services Act (FFPSA) was signed into law. An objective of FFPSA is to amend the Title IV-E foster care program to enhance support services to families to prevent entry to foster care.

In July 2021, California's Family First Prevention Services (FFPS) program was established to support the development and implementation of Title IV-E prevention services, and to address rates of recidivism and disproportionality in child welfare and juvenile probation.

Contra Costa County, Employment and Human Services Department (EHSD) Children and Family Services (CFS) Bureau and Probation opted into the FFPS program as co-leads and partnered with community representatives to develop a Comprehensive Prevention Plan (CPP). The vision of the CPP is that all children and families in Contra Costa County are supported by services and systems that are accessible, have an equitable approach, include culturally and linguistically responsive services, and celebrate all aspects of diversity. Contra Costa County's CPP was approved by the California Department of Social Services in July 2023, and on August 8, 2023, the CFS Bureau presented the plan to the Board of Supervisors. The CFS Bureau piloted the CPP program in the City of Antioch.

In December 2023, in alignment with County policy, EHSD issued Request for Proposal #1206 for the CPP Program which Pacific Clinics was awarded. On September 1, 2024, Pacific Clinics began providing CPP Program services in the City of Antioch. If approved, Pacific Clinics will continue to provide CPP Program

services in the City of Antioch for a term of July 1, 2026, to June 30, 2028. This vendor was selected per procurement requirements outlined in Administrative Bulletin 600.3.

The CPP Program provides a community pathway to trauma informed and evidenced based services including in home parenting programs, case management services, educational support, transportation, and the provision of concrete supports. Additionally, the CPP Program offers Primary, Secondary, and Tertiary Prevention Level Services in order to enhance and expedite access to services and strengthen the Antioch community's ability to meet family's needs when they are at their crisis point before system involvement is required.

The CPP Program's outcomes include increasing the number of children/youth who can remain safely home with their parents, decreasing the number of children/youth who enter foster care and Juvenile probation, creating more equitable access to services, and addressing issues of disproportionate numbers of children/youth of color who enter the foster care and Juvenile Probation systems.

CHILDREN'S IMPACT STATEMENT:

This contract supports all five (5) of Contra Costa County's community outcomes of the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5) "Communities that are Safe and Provide a High Quality of Life for Children and Families."

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, County will not be able to continue to implement and provide services in accordance with Contra Costa County's Comprehensive Prevention Plan.

Report Title: Star View Children and Family Services, Inc. dba Star View Community Treatment Facility Renewal

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract renewal with Star View Children and Family Services, Inc. dba Star View Community Treatment Facility, in an amount not to exceed $346,752 to provide youth residential placement services for the period July 1, 2026, through June 30, 2027.

FISCAL IMPACT:

70% State Realignment Funds, 30% County General Fund, which will be budgeted in FY 26-27.

BACKGROUND:

Star View Children and Family Services, Inc. dba Star View Community Treatment Facility (Star View) provides residential placement services for youth who cannot live safely in family homes or lower-level group care because of the nature and severity of their emotional and behavioral needs. Star View's Community Treatment Facility (CTF) offer alternatives to repeated placement failures. Star View stabilizes, provides treatment, and then transitions youth to less restrictive placements, including with family, foster families, or lower-level group homes as part of each youth's long-term permanency plan.

On September 9, 2025 (25-3617), the Board approved a new contract with Star View Children and Family Services, Inc. dba Star View Community Treatment Facility (Star View) for FY25/26 in an amount not to exceed $339,978 to provide residential placement services. Previous agreements for similar services with Star View Children and Family Services, Inc.'s affiliate, Star View Behavioral Health, Inc. were authorized by the Board of Supervisors on June 25, 2024 (24-1853), for FY24/25; May 16, 2023 (C.35), for FY23/24; May 24, 2022 (C.39), for FY22/23; June 8, 2021 (C.78), for FY21/22; and on Oct 13, 2020 (C. 11), for FY 20/21. This action seeks to execute a renewal contract with Star View Children and Family Services, Inc. dba Star View Community Treatment Facility to provide residential placement services for the period July 1, 2026, through June 30, 2027.

CHILDREN'S IMPACT STATEMENT:

This contract supports all five (5) of the community outcomes established in the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5) "Communities that are Safe and Provide a High Quality of Life for Children and Families".

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, dependent youth in need of residential placement with integrated treatment services due to the nature and severity of their emotional and behavioral needs will not receive the services needed to effectively manage the behavior(s) symptoms that are a barrier to achieving and/or maintaining a residence in less restrictive environments, such as with a resource family.

Report Title: Title IIIC Senior Nutrition Program with Meals on Wheels Diablo Region

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a renewal contract with Meals on Wheels Diablo Region, with a payment limit not to exceed $1,000,000 to deliver the Older Americans Act Title IIIC-2 Senior Nutrition Home-Delivered Meals Program for the period July 1, 2026, through June 30, 2028.

FISCAL IMPACT:

100% County Measure X funding of which $500,000 is budgeted for FY 26-27 and $500,000 will be budgeted for FY 27-28.

BACKGROUND:

On July 23, 2024, the Board of Supervisors approved Consent Item C.40, authorizing the Employment and Human Services Director, or designee, to execute a contract with Meals on Wheels Diablo Region in an amount not to exceed $700,002 to provide home-delivered meals under the Older Americans Act Title IIIC-2 Senior Nutrition Program for the period of July 1, 2024, through June 30, 2026 (100% Measure X).

On the same date, the Board also approved Consent Item C.28, authorizing the execution of a contract with West Contra Costa County Meals on Wheels in an amount not to exceed $300,000 to provide home-delivered meals for the period of July 1, 2024, through June 30, 2026 (100% Measure X).

Following the award of Request for Proposal 1226, Meals on Wheels Diablo Region became the County's sole provider for III-C2 home-delivered meal services and incorporated the West County service area previously served by West Contra Costa County Meals on Wheels. Under this renewal, Meals on Wheels Diablo Region will consolidate both funding sources into a single contract, enabling the organization to continue providing uninterrupted home-delivered meal services for older adults across all regions of Contra Costa County.

CHILDREN'S IMPACT STATEMENT:
This contract supports one (1) of the community outcomes established in the Children's Report Card: (4) "Families that are Safe, Stable and Nurturing."

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed contract not be approved by the Board of Supervisors, Meals on Wheels Diablo Region will be unable to expand critical Senior Nutrition services for older adults in Contra Costa County.

Report Title: Wayfinder Family Services

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Wayfinder Family Services, in an amount not to exceed $1,023,120 to provide family finding, engagement and resource family pre-approval supportive services for the period July 1, 2026, through June 30, 2027.

FISCAL IMPACT:

87% State, 13% Federal funds, all of which is budgeted in FY 26-27.

BACKGROUND:

On August 1, 2023, the Board approved item C.50 authorizing a contract with Wayfinder Family Services for a term of July 1, 2023, to June 30, 2024. The Employment and Human Services Department Children and Family Services Bureau selected Wayfinder from the competitive procurement Request for Proposal #1197 in May 2023. On June 25, 2024, the Board approved item C.77 (24-1863) authorizing a contract renewal with Wayfinder Family Services for a term of July 1, 2024, to June 30, 2025. On June 24, 2025, the Board approved item 25-2542 authorizing a contract renewal with Wayfinder Family Services for a term of July 1, 2025, to June 30, 2026.

This action seeks to execute a contract renewal for the term of July 1, 2026, to June 30, 2027, to provide family finding, engagement and resource family pre-approval supportive services for foster youth. For the FY26-27 contract, a one-year sole source approval was approved by Purchasing on December 1, 2025, in lieu of going out to solicitation. The sole source approval was based on Wayfinder providing specialized Family Findings Opt-In services for a funding allocation that ends on June 30, 2027.

The purpose of family findings and engagement and resource family pre-approval supportive services is to provide permanency-focused outreach, engagement, family finding, resource family pre-approval assessments and associated activities to secure supports, lifelong connections and ideally permanent placement for foster youth.

CHILDREN'S IMPACT STATEMENT:

This contract supports all of Contra Costa County's community outcomes of the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5) "Communities that are Safe and Provide a High Quality of Life for Children and Families".

CONSEQUENCE OF NEGATIVE ACTION:

The County will not provide foster youth with supportive services to identify, approve and transition into appropriate stable permanent placements.

Report Title: Hummble Translation LLC

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Hummble Translations LLC, in an amount not to exceed $360,000 to provide document translation, interpretation, editing, and proofreading services for Children and Family Services clients for the period July 1, 2026, through June 30, 2027.

FISCAL IMPACT:

54% Federal, 38% State, 8% County, all of which is budgeted in FY 26-27.

BACKGROUND:

This action seeks to execute a contract renewal with Hummble Translations LLC to provide Children and Family Services (CFS) with accurate and time-sensitive translation and interpretation services to support court-mandated cases, facilitating CFS client communication, and meeting court requirements related to legal language access. These services include, but are not limited to, the translation of court reports, case plans, and real-time interpretation.

This contract includes the use of artificial intelligence (AI)-assisted translation, wherein Hummble Translations LLC reviews, edits, and validates all final documents to ensure accuracy, quality, and compliance with all original documents. When required, Hummble provides attestations confirming that AI-assisted translations meet court standards.

The use of Hummble Translations LLC in this capacity ensures that all finalized translations are suitable for court use and align with County, State, and Federal legal language access requirements. This approach supports continuity of services and enables the County to manage increasing translation volume while maintaining compliance with court timelines and mandates.

CONSEQUENCE OF NEGATIVE ACTION:

The County will not be able to meet time sensitive translation and interpretation for CFS clients, placing the County at risk of non-compliance with court requirements, hindering timely court communication with CFS clients, and compromising the compliance with legal language access requirements.

CHILDREN'S IMPACT STATEMENT:

The services provided under this Contract support all five of Contra Costa County's community outcomes: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5)"Communities that are Safe and Provide a High Quality of Life for Children and Families" by providing translated documents to families to maintain compliance with legal language access requirements.

Report Title: Contra Costa County Office of Education

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute an interagency agreement with Contra Costa County Office of Education in an amount not to exceed $440,000 to provide Educational Liaison Services for children and youth in foster care for the period July 1, 2026, through June 30, 2028.

FISCAL IMPACT:

70% State Funds, 30% County, of which 50% is budgeted in FY 26-27 and 50% will be budgeted in FY 27-28.

BACKGROUND:

Contra Costa County Office of Education (CCCOE) is designated by the California Department of Education as the Foster Youth Services Coordinating Program in Contra Costa County. With this renewal, CCCOE will provide an Educational Liaison that will work collaboratively countywide with the local school districts, child welfare agency, foster care agencies, probation, post-secondary institutions, caregivers, and community organizations with the goal of improving the educational performance and personal achievement for foster children and youth while also decreasing the educational gap. Using a unique partnership, the Educational Liaison will work closely with Children and Family Services Social Workers to help support the educational needs of foster children and youth by ensuring proper educational placement, school enrollment, and checkout from school, as well as assisting with the transfer of grades, credits, and records when there is a school change as mandated by California Education Code § 48853.5(b)-(d), (e)(8)(C).

This action seeks to execute an interagency agreement with CCCOE for educational services. The most recent agreements with the Agency were approved by the Board of Supervisors on April 4, 2023 (C.72) for FY2023-2026; April 27, 2021 (C.46), for FY2021-2023; and on March 31, 2020 (C.65), for FY 2020-2021. This agreement was procured in alignment with County procurement requirements outlined in Administrative Bulletin 600.3.

CHILDREN'S IMPACT STATEMENT:

This contract supports four (4) of the five (5) of Contra Costa County's community outcomes of the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) "Families that are Economically Self-Sufficient"; and (4) "Families that are Safe, Stable and Nurturing" by supporting the educational rights of child and youth in foster care.

CONSEQUENCE OF NEGATIVE ACTION:

Children and youth in foster care will experience increased barriers in accessing the same academic resources, services, and extracurricular and enrichment activities that are available to all students.

Report Title: Laboratory Corporation of America Holdings FY 26-28

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Laboratory Corporation of America Holdings, a Corporation of Delaware, in an amount not to exceed $18,900 to provide genetic parentage testing services for the period July 1, 2026, through June 30, 2028.

FISCAL IMPACT:

70% State 2011 Realignment Funds, and 30% County General Fund; of which $9,450 is budgeted in FY 2026-2027 and $9,450 will be budgeted in FY 2027-2028.

BACKGROUND:

Since July 1, 2019, the Employment and Human Services Department, Children and Family Services Bureau (CFS) has been required to take on genetic testing contracting responsibilities as a result of a California Department of Social Services mandate. The Contractor provides genetic parentage testing for CFS clients to evaluate paternity in court ordered cases. The services provided under the Contract are court ordered and require an active provider to handle service delivery for clients. This action seeks to execute a contract renewal to provide genetic testing services for clients of CFS for the period July 1, 2026, through June 30, 2028. This contract includes modified indemnification and insurance language.

On September 10, 2019 (C.81), the Board of Supervisors approved execution of a contract with Laboratory Corporation of America Holdings for the period July 1, 2019, through June 30, 2020. The Board then approved subsequent renewals on June 23, 2020 (C.41), June 22, 2021 (C.93), June 21, 2022 (C.98), and May 14, 2024 (C.46).

CHILDREN'S IMPACT STATEMENT:

This contract supports all five of the community outcomes established in the Children's Report Card: 1) "Children Ready for and Succeeding in School"; 2) "Children and Youth Healthy and Preparing for Productive Adulthood"; 3) "Families that are Economically Self Sufficient"; 4) "Families that are Safe, Stable and Nurturing"; and 5) "Communities that are Safe and Provide a High Quality of Life for Children and Families"

by providing training to CFS staff to support these outcomes.

CONSEQUENCE OF NEGATIVE ACTION:

The County will not be able to comply with court-ordered genetic testing of CFS clients.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with One Solution Technology, Inc., in an amount not to exceed $500,000, for the purchase and migration of Child Location Observation Utilization Data System software for retention of child and family data, for the period June 23, 2026, through June 22, 2027.

FISCAL IMPACT:

100% State; of which $450,000 is budgeted in FY 25-26, and $50,000 is budgeted in FY 26-27.

BACKGROUND:

The Employment and Human Services Department (EHSD) seeks to execute a contract with One Solution Technology, Inc. to purchase the proprietary Child Location Observation Utilization Data System software and facilitate installation and data migration. EHSD is currently in the process of transitioning into a new child data management system. The transition was initiated following Board approval on June 10, 2025 (C.52), to enter into an agreement with KinderSystems, Inc, following the Request for Proposal 1211. Data migration limitations resulted in only a portion of current child and family data being transferred to the new system. Under California Education Code, records must be retained for at least five years and be maintained in a recordkeeping system that can be readily accessible to auditors and the State who may conduct audits or reviews of the contractors' records (5 CCR Section 18067 and EC Section 33421). Therefore, this action seeks to execute a contract with One Solution Technology, Inc. to ensure the County can effectively retain child and family data necessary for accurate reporting and required under record retention requirements.

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, the County will not be able to meet record retention requirements for the administration of childcare programs.

CHILDREN'S IMPACT STATEMENT:

This Contract supports three (3) of the community outcomes established in Contra Costa County's Children's Report Card: (1) "Children Ready for and Succeeding in School"; (3) "Families that are Economically Self-Sufficient"; and (4) "Families that are Safe, Stable and Nurturing".

Report Title: Early Childhood Mental Health Program

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Early Childhood Mental Health Program in an amount not to exceed $240,000 to provide Family Preservation Services for the period July 1, 2026, through June 30, 2028.

FISCAL IMPACT:

100% Federal, of which 50% is budgeted in FY 26-27, and 50% will be budgeted in FY27-28.

BACKGROUND:

In May 2025, Early Childhood Mental Health Program was awarded a contract resulting from Request for Proposal 1217 to deliver services under the federal Promoting Safe and Stable Families Program to provide Family Preservation Services in the form of specialized mental health consultation, education, guidance and lived experience support to foster families with children from birth to six years old in the Contra Costa County.

This action seeks to execute a contract renewal to provide Family Preservation Services for the period July 1, 2026, through June 30, 2028. This vendor was selected per procurement requirements outlined in Administrative Bulletin 600.3.

CONSEQUENCE OF NEGATIVE ACTION:

County will not be able to provide valuable mental health services to children through Early Childhood Mental Health Program.

CHILDREN'S IMPACT STATEMENT:

This contract supports all of Contra Costa County's community outcomes of the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and

Nurturing"; and (5) "Communities that are Safe and Provide a High Quality of Life for Children and Families".

Report Title: Wayfinder Family Services

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Wayfinder Family Services in an amount not to exceed $330,400 to provide adoptions support services for the term July 1, 2026, through June 30, 2028.

FISCAL IMPACT:

100% Federal, of which 50% is budgeted in FY 26-27, and 50% will be budgeted in FY 27-28.

BACKGROUND:

In May 2025, Wayfinder Family Services was awarded a Contract resulting from Request for Proposal 1217 to deliver services under the federal Promoting Safe and Stable Families Program to provide Adoption Promotion and Support in the form of adoptions support services including community outreach, information and referral linkages, welcome packages, consultation and case management utilizing the Family Success Coach model, support groups and training for youth and parents, family and youth activities, and respite services. This action seeks to execute a contract renewal to provide adoptions support services for the term July 1, 2026, through June 30, 2028. This vendor was selected per procurement requirements outlined in Administrative Bulletin 600.3.

CONSEQUENCE OF NEGATIVE ACTION:

County will not be able to provide valuable adoptions services through Wayfinder Family Services.

CHILDREN'S IMPACT STATEMENT:

This Contract supports all of Contra Costa County's community outcomes of the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5) "Communities that are Safe and Provide a High Quality of Life for Children and Families".

To: Board of Supervisors

From: Marla Stuart, Employment and Human Services Director

Report Title: Rubicon Programs Incorporated

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract amendment with Rubicon Programs Incorporated to increase the payment limit by $1,591,710, to a new payment limit of $3,525,910, to operate and manage Contra Costa County's America's Job Centers of California locations and provide Adult and Dislocated Worker Career services under the Workforce Innovation and Opportunity Act and extend the term from June 30, 2026, to June 30, 2027.

FISCAL IMPACT:

79% Federal (Workforce Innovation and Opportunity Act), 21% State (Displaced Oil and Gas Worker Fund; and California Workforce Development Board High Road Training Partnerships Marine Trades and Water Transportation Careers Initiative), of which 54% was budgeted in FY 2025-26, and 46% is budgeted in FY 2026-27.

BACKGROUND:

On June 24, 2025, the Boad approved Item C.56 to execute a contract with Rubicon Programs Incorporated. This action seeks to execute a contract amendment to increase the payment limit and extend the term through June 30, 2027.

For program years 2022-2025, Employment and Human Services Department (EHSD), Workforce Development Board (WDB) appropriated funding through a competitive procurement process for the operation of comprehensive America's Job Centers of California (AJCC) and the delivery of career services under the Local Area. The current contract is set to expire on June 30, 2026; however, in response to the recent government release of H.R.1 (One Big Beautiful Bill Act) and impact of the reconciliation bill, this action is directly related to an exceptional activity necessary for reconciliation preparations. Under the Workforce Innovation and Opportunity Act (WIOA) and its implementation regulations, there's no single, fixed contract year limit across all procurements. Contracts duration and renewals are governed by Uniform Guidance, local policy, competitive procurement frequency and funding availability. The justification for the delay of competitive procurement is due to the previous government shutdown and delays in the Supplemental Nutrition Assistance Programs (SNAP) and the current unanticipated federal budget reconciliation that reduces federal

spending on food security and healthcare, which significantly impacts those receiving SNAP benefits, Medi-Cal and Affordable Care Act subsidies within Contra Costa County.
During the planned competitive procurement period, EHSD experienced human resources (HR) impacts that affected the organization's operational capacity and continuity of services, public exigency is warranted and immediate action to prevent serious impairment to public infrastructure and health. The HR disruption reduced the capacity to effectively conduct competitive procurement in a manner that would ensure full and timely open competition. Going forward with a competitive bid under these conditions will pose risks to the integrity and fairness of the procurement process, timely and accurate evaluation of proposals, continuity of critical services to participants, compliance with WIOA, Uniform Guidance (2CFR Part 200) and local procurement policies. This delay is administrative, temporary and determined by operational needs and not to limit competition. WDB is committed to conducting a fully competitive procurement at the earliest opportunity and practice full compliance with all applicable procurement requirements.

The H.R.1 release, implementation, and the potential interruption of other public assistance programs represent an unforeseen event that poses an immediate risk to both our employees and the customers we serve. Given this urgent situation, postponing competitive bidding is necessary to prevent significant disruption to financial operations, service delivery, and the work of those implementing WIOA AJCC career services programs and access.

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, the provision of adequate career services for adult and dislocated workers by the County will be adversely impacted.

CHILDREN'S IMPACT STATEMENT:

This contract extension/amendment supports three of the five of Contra Costa County's community outcomes of the Children's Report Card: (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5) "Communities that are Safe and Provide a High Quality of Life for Children and Families" by providing career support services for families of adult and dislocated workers.

File #: 26-2723 **Agenda Date:** 6/23/2026 **Agenda #:** C.75.

To: Board of Supervisors

From: Marla Stuart, Employment and Human Services Director

Report Title: Paradise Adolescent Homes, Inc.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

APPROVE and AUTHORIZE the Employment and Human Services Director, or designee, to execute a contract with Paradise Adolescent Homes, Inc., in an amount not to exceed $1,279,991 to provide residential placement and supportive services for Contra Costa County dependent foster youth for the period July 1, 2026, through June 30, 2027.

FISCAL IMPACT:

70% State Realignment Funds, 30% County General Fund, all of which is budgeted in FY 26/27.

BACKGROUND:

Paradise Adolescent Homes, Inc. (Paradise) provides Enhanced Short-Term Residential Therapeutic Program housing and supportive services for youth who cannot live safely in a family home, do not qualify to be placed in a Regional Center facility, and/or are denied entry into lower-level placements due to acute, complex, emotional, and behavioral needs. Paradise offers alternatives to repeated placement disruptions and provides additional staffing, supports and services to house, stabilize, provide treatment, and ultimately transition youth to less restrictive placements, including with family, resource family homes, or lower-level care licensed facilities as part of each youth's long-term permanency plan.

On August 12, 2025, the Board of Supervisors approved consent item C.18 authorizing a renewal to this contract in the amount of $1,192,436.00 for FY 25/26. This action seeks approval to renew the contract with Paradise in an amount not to exceed $1,279,991.00 for the term July 1, 2026, through June 30, 2027, for the continued provision of residential placement and supportive services.

This vendor was selected per procurement requirements outlined in Administrative Bulletin 600.3.

CONSEQUENCE OF NEGATIVE ACTION:

Should the proposed action not be approved by the Board of Supervisors, County will not be able to meet the placement and treatment needs of its high acuity, complex care dependent foster youth, and reduce safety risk

and additional trauma for this most vulnerable population with severe emotional and behavioral needs.

CHILDREN'S IMPACT STATEMENT:

This contract supports all five of Contra Costa County's community outcomes of the Children's Report Card: (1) "Children Ready for and Succeeding in School"; (2) "Children and Youth Healthy and Preparing for Productive Adulthood"; (3) "Families that are Economically Self-Sufficient"; (4) "Families that are Safe, Stable and Nurturing"; and (5)"Communities that are Safe and Provide a High Quality of Life for Children and Families."

To: Board of Supervisors

From: Lewis Broschard, Chief, Contra Costa County Fire Protection District

Report Title: Fire Station 9 Redevelopment Project

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
Acting as the governing board of the Contra Costa County Fire Protection District, APPROVE and AUTHORIZE the Fire Station 9 Redevelopment Project and the Public Works Director, on behalf of the Fire Chief, or designee, to advertise the Project, in the unincorporated Pacheco area. [Project No. WH728B] DCD-CP# 25-38 (District V), and

FIND, based on the whole record, including the proposed Initial Study/Mitigated Negative Declaration and any comments received and staff responses thereto, that there is no substantial evidence that the Project may have a significant effect on the environment, and that the Mitigated Negative Declaration (MND) reflects the independent judgment and analysis of the lead agency, Contra Costa County (County).

ADOPT the MND and Mitigation and Monitoring Reporting Program (MMRP) for the Project.

SPECIFY that the Contra Costa County Fire Protection District is the custodian of the documents and other material that constitute the record of proceedings upon which the Board's decision is based, and that the record of proceedings is located at 4005 Port Chicago Highway, Suite 250, Concord, CA 94520.

DIRECT the Public Works Director, on behalf of the Fire Chief, or designee, to cause a CEQA Notice of Determination (NOD) to be filed with the County Clerk and State Clearinghouse, and

AUTHORIZE the Public Works Director, on behalf of the Fire Chief, or designee, to arrange for payment of $3,043.75 for California Department of Fish and Wildlife fees, and a $50 fee to the County Clerk for filing the NOD.

FISCAL IMPACT:
Estimated Project cost: Between $24,000,000.00 - $26,000,000.00. This project is funded through the CCCFPD Capital Construction fund.

BACKGROUND:
The proposed project would demolish and reconstruct an operational fire station on the same site (0.92 acres). The existing station, constructed in 1956, is outdated and unable to support the staff and equipment required for a modern fire protection agency. The new fire station would be larger than the current one. The current station

is a 2,215-square-foot single-company, one-story station with two apparatus bays. The new structure would be an approximately 15,400-square-foot, double-company, two-story station with three apparatus bays, each with a maximum height of 35 feet. The existing station has a three-person crew with one captain, one engineer, and one firefighter that works a 48-hour shift; it houses two fire engines. The new fire station would include offices and crew quarters for up to nine firefighters during their 48-hour shifts and an apparatus bay for storing three fire engines when not on call. The office/crew quarters portion of the building would include a lobby area, a battalion chief's office, station office, nine dorm rooms, a kitchen, dining and day rooms, an exercise room, a laundry room, a communications/IT room, a multipurpose room, and five restrooms. The apparatus bay would include turnout and washrooms, gear storage rooms, a restroom, storage and compressor rooms, and mechanical and electrical rooms. The project would comply with Leadership in Energy and Environmental Design (LEED) Silver-equivalent requirements, which provide a framework for healthy, efficient, and cost-effective green buildings.

The parcel would also be developed with paved areas for parking and an equipment yard for on-site vehicle cleaning and maintenance, along with two fuel tanks, an emergency generator, and a trash enclosure. In addition, landscaping and pedestrian walkways would be installed at the fire station entrance; stormwater retention basins would be installed within the landscaping throughout the parcel. Existing mature redwood trees at the corner of Center Avenue and Blackwood Drive would need to be removed from the project site. A 6-foot-tall privacy wall would be installed along Blackwood Drive, around the back of the property, and along Grayson Creek.

The project would require the following variance and exception:
• A front yard setback of approximately 4 to 10 feet is required.

Access, Circulation, and Parking
Fire engines would leave the station via Center Avenue and enter the station from Blackwood Drive. Three visitor parking spaces would be provided in the front parking lot, accessible from Center Avenue. Up to 16 employee parking spaces and two bike racks, for a total of four bikes, would be provided behind the building; these could be accessed from either Blackwood Drive or Center Avenue through automatic gates.

Site plans are attached.

Construction
Project construction is anticipated to begin in late 2026 and take approximately 17 months. The first phase of construction would involve demolition of the existing fire station, which would take approximately 2 months. Site preparation, including grading activities, would take approximately 1 month. Trenching and utility line preparation would then occur and take approximately 1 month to complete. Construction of the building and its interior would follow and take approximately 12 months to complete. Following building construction, site work, including paving and landscaping, would take approximately 2 months to complete. A total of 2,000 cubic yards of fill material is anticipated over the course of project construction.

CONSEQUENCE OF NEGATIVE ACTION:
The Contra Costa County Fire Protection District may not be able to proceed with this project.

ATTACHMENTS:
CEQA IS/MND/MMRP/NOD

Errata for the Fire Station 9 Redevelopment Project

Final Initial Study/Mitigated Negative Declaration (IS/MND)
April 2026

This Final IS/MND was prepared using a redline method and is the final document for following compliance with the California Environmental Quality Act (CEQA). The redline method identifies subsequent changes following the publication of the IS/MND for public review, which commenced on April 2, 2026, and concluded on April 22, 2026. There is minor technical information and typo corrections as shown in redline to the Final IS/MND. None of these changes required recirculation under CEQA Guidelines Section 15073.5. On page 2-52 of the Final IS/MND, changes are shown to clarify that additional coordination efforts would occur during the encroachment permit process for the Contra Costa County Public Works Department Engineering Services Division and the Contra Costa County Flood Control & Water Conservation District. On page 11 of the MMRP, the implementation timing, implementation responsibility, and verification responsibility were filled out to clarify roles in implementation of Mitigation Measure NOI-2.

   Single-Family Residential (R-7)

7. **Project Location:**
   209 Center Avenue
   Pacheco, CA 94553
   Assessor's Parcel Number: 125-073-003

8. **Description of Project:**
   The proposed project would demolish and reconstruct an operational fire station on the same site (0.92 acre). The existing station, which was constructed in 1956, is outdated and unable to support the staff or equipment needed for a modern fire protection agency. The new fire station building would be larger than the fire station that currently exists. The current station is a 2,215-square-foot single-company, one-story station with two apparatus bays. The new structure would be an approximately 15,400-square-foot double-company, two-story station with three apparatus bays that would have a maximum height of 35 feet. The existing station has a three-person crew with one captain, one engineer, and one firefighter that works a 48-hour shift; it houses two fire engines.

   The new fire station would include offices and crew quarters for up to nine firefighters during their 48-hour shifts and an apparatus bay for storing three fire engines when not on call. The office/crew quarters portion of the building would include a lobby area, a battalion chief's office, station office, nine dorm rooms, a kitchen, dining and day rooms, an exercise room, a laundry room, a communications/IT room, multipurpose room, and five restrooms. The apparatus bay would include turnout and washrooms, gear storage rooms, a restroom, storage and compressor rooms, and mechanical and electrical rooms. The project would comply with Leadership in

Energy and Environmental Design (LEED) Silver standard requirements which provides a framework for healthy, efficient, and cost-effective green buildings.

The parcel would also be developed with paved areas for parking and an equipment yard for on-site vehicle cleaning and maintenance, along with two fuel tanks, an emergency generator, and a trash enclosure. In addition, landscaping and pedestrian walkways would be installed at the fire station entrance; stormwater retention basins would be installed within the landscaping throughout the parcel. Existing mature redwood trees at the corner of Center Avenue and Blackwood Drive would need to be removed from the project site. A 6-foot-tall privacy wall would be installed along Blackwood Drive, around the back of the property, and along Grayson Creek.

The project would require the following variance and exception:

- A front yard setback of approximately 4 to 10 feet is required.

Access, Circulation, and Parking
Fire engines would leave the station via Center Avenue and enter the station from Blackwood Drive. Three visitor parking spaces would be provided in the front parking lot that would be accessed from Center Avenue. Up to 16 employee parking spaces and two bike racks, for a total of four bikes, would be provided behind the building; these could be accessed from either Blackwood Drive or Center Avenue through automatic gates.

Site plans are attached.

Construction
Project construction is anticipated to begin in late 2026 and take approximately 17 months. The first phase of construction would involve demolition of the existing fire station, which would take approximately 2 months. Site preparation, including grading activities, would take approximately 1 month. Trenching and utility line preparation would then occur and take approximately 1 month to complete. Construction of the building and its interior would follow and take approximately 12 months to complete. Following building construction, site work, including paving and landscaping, would take approximately 2 months to complete. A total of 2,000 cubic yards of fill material is anticipated over the course of project construction.

9. **Surrounding Land Uses and Setting:**
The project location is in unincorporated Pacheco, about 0.3 miles east of the Martinez city limit. The highly residential setting is bordered to the north, south, and west by residences. North of the project is a medium-density planned apartment unit. South and west of the project are single-family residential homes. Grayson Creek is directly east of the project site, as is an access road owned and maintained by the Contra Costa County Flood Control District. East of the project site, across Grayson Creek, is a retail business district with numerous commercial stores. These are located along the Pacheco Boulevard.

10. **Other Agencies Whose Approval Is Required:**
While the County is the CEQA Lead Agency for the project, other agencies also have discretionary authority related to the project and approvals, or serve as a responsible and/or trustee agency in connection to the proposed project. A list of these agencies and potential permits and approvals that may be required is provided in Table 1.

Table 1: Potential Permits and Approvals

Lead Agency	Permits/Approvals
Contra Costa County Fire Protection District Board of Directors	Approve Project/CEQA and advertise; award; and accept project as complete
Contra Costa County Department of Conservation and Development, Building Inspection Division	Building and Grading Permit
Contra Costa County Department of Public Works, Engineering Services Division	Encroachment Permit (Road Right-of-Way)
Contra Costa County Flood Control and Water Conservation District	Encroachment Permit (Grayson Creek Maintenance Access)

11. **Have California Native American Tribes Traditionally and Culturally Affiliated with the Project Area Requested Consultation Pursuant to Public Resources Code Section 21080.3.1? If so, is there a plan for consultation that includes, for example, a determination of the significance of impacts on tribal cultural resources, procedures regarding confidentiality, etc.?**

    Yes, tribes that have previously requested to be notified of projects within Contra Costa County under Assembly Bill (AB) 52 include Wilton Rancheria and the Confederated Villages of Lisjan Nation (CVLN). A Notice of Opportunity to Request Consultation was sent on February 4, 2025, to Wilton Rancheria and CVLN. Wilton Rancheria did not request consultation or provide information about potential resources. CVLN requested consultation and Contra Costa County (County) consulted with CVLN regarding the methods of resource investigation and identification, along with avoidance, mitigation, and monitoring measures. Refer to Section 2.18, Tribal Cultural Resources, for a record of consultation meetings. Measures were agreed upon and consultation concluded on November 19, 2025.

Environmental Factors Potentially Affected

The environmental factors checked below could be affected by this project, with at least one impact that would be a "potentially significant impact," as indicated by the checklists on the pages below.

- ☐ Aesthetics
- ☐ Agriculture and Forestry Resources
- ☐ Air Quality
- ☐ Biological Resources
- ☐ Cultural Resources
- ☐ Energy
- ☐ Geology and Soils
- ☐ Greenhouse Gas Emissions
- ☐ Hazards and Hazardous Materials
- ☐ Hydrology and Water Quality
- ☐ Land Use and Planning
- ☐ Mineral Resources
- ☐ Noise
- ☐ Population and Housing
- ☐ Public Services
- ☐ Recreation
- ☐ Transportation
- ☐ Tribal Cultural Resources
- ☐ Utilities and Service Systems
- ☐ Wildfire
- ☐ Mandatory Findings of Significance

Environmental Determination

On the basis of this initial evaluation:

☐ I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.

☒ I find that, although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions to the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.

☐ I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.

☐ I find that the proposed project MAY have a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards and 2) has been addressed by mitigation measures, based on the earlier analysis, as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.

☐ I find that although the proposed project could have a significant effect on the environment because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

Chapter 2
Environmental Checklist

2.1 Aesthetics

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Except as provided in Public Resources Code Section 2.1099, would the project:				
a) Have a substantial adverse effect on a scenic vista?	☐	☐	☒	☐
b) Substantially damage scenic resources, including, but not limited to, trees. rock outcroppings. and historic buildings within a state scenic highway?	☐	☐	☒	☐
c) In non-urbanized areas. substantially degrade the existing visual character or quality of public views of the site and its surroundings? (Public views are those that are experienced from publicly accessible vantage points). If the project is in an urbanized area, would the project conflict with applicable zoning and other regulations governing scenic quality?	☐	☐	☐	☒
d) Create a new source or substantial light or glare that would adversely affect daytime or nighttime views in the area?	☐	☐	☒	☐

2.1.1 Discussion

a) Would the project have a substantial adverse effect on a scenic vista?

According to the Contra Costa County 2045 General Plan, scenic vistas include scenic routes, scenic ridges, and other natural features with scenic value (Conta Costa County 2024). The project site is in an urbanized area within unincorporated Pacheco, California, and surrounded primarily by residential uses on the north, west, and south, with commercial uses to the east beyond Grayson Creek; the project site currently supports a fire station. The Contra Costa County 2045 General Plan does not identify any County-recognized scenic vistas in the project vicinity. The only natural feature in the project vicinity is Grayson Creek, which supports natural vegetation; however, the character of the surrounding environment is urban and includes the maintenance trail that parallels the creek. Views of the creek at this location are not considered a designated scenic resource, and the replacement of an existing fire station with a larger fire station would not obstruct or alter views of any scenic resources or natural features. Therefore, the project would have a **less-than-significant impact**.

b) Would the project substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?

The nearest designated state scenic highway is State Route 24, approximately 6 miles south of the project site. The project site is not near any County-designated scenic routes (California Department of Transportation [Caltrans] 2019; Contra Costa County 2024), and the existing fire station is not considered a historic building. The project would involve the removal of eight mature redwood trees and 15 smaller trees that were planted as landscaping for the existing fire station. The tree removals would be exempt from the County's tree protection and preservation ordinance because the parcel is owned by the County (Contra Costa County Municipal Code

[CCCMC] 816-6.1002[6]), and their removal would not affect a state scenic highway or historic building. Therefore, the project would have a **less-than-significant impact.**

c) *In non-urbanized areas, would the project substantially degrade the existing visual character or quality of public views of the site and its surroundings? (Public views are those that are experienced from publicly accessible vantage points). If the project is in an urbanized area, would the project conflict with applicable zoning and other regulations governing scenic quality?*

The project site is in an urbanized area and currently supports a fire station. The project site is zoned Single-Family Residential (R-7) and a fire station is a permissible use under R-7 zoning.

The Contra Costa County 2045 General Plan contains the following relevant goals and policies from the Conservation, Open Space, and Working Lands Element (COS):

> **Goal COS-12**. Protected natural features with high scenic value, such as visual landmarks, major ridges, prominent hillsides, and stands of mature trees.
>
> **Policy COS-P12.1.** Deny applications for development that would destroy unique and irreplaceable natural features, such as distinctive rock formations.
>
> **Policy COS-P12.2.** Require redesign of project components that negatively impact viewsheds or the visual quality of the area.
>
> **Policy COS-P12.5.** Require restoration of natural contours and vegetation after grading and other land disturbances.

As discussed above, the project site does not have views of any County-designated scenic vistas, and it does not contain any protected scenic resources. The new fire station, although larger in scale, has been designed to blend into the existing urban fabric; it would not degrade the visual character of the area. The surrounding neighborhood already includes a variety of residential and commercial structures, many of which are multiple stories. The increase in height would not be incompatible with the surrounding development. Thus, the project would not conflict with applicable regulations governing scenic quality. The project would have **no impact**.

d) *Would the project create a new source or substantial light or glare that would adversely affect daytime or nighttime views in the area?*

The project site is in an urbanized area with existing sources of nighttime light, including streetlights and headlights from vehicles and existing interior and exterior lighting from surrounding residential and commercial uses.

Construction is anticipated to occur during daylight hours; however, temporary nighttime lighting could be used during construction for safety and security purposes. Lighting will be in accordance with the California Energy Code (CEC), which contains standards for reducing nuisances associated with lighting and includes standards that requires all lighting, whether temporary or permanent be controlled and properly shielded to reduce light spillover (CEC 76-4.612).

During operation, sources of light would continue however could increase due to the larger building size and height. Nighttime sources include the interior and exterior lighting for security and navigation. Without proper configuration, the new fire station could result in light spillover onto adjacent properties. However, the project would comply with the CCCMC street light standards and the CEC, which requires light fixtures to be controlled or directed to reduce light interference or spillover as well as dimming, motion-activated lighting, and automatic shutoff features (Chapter 76-

4.612). Further, the addition of landscape trees would also provide shielding of nighttime light source spillover.

Sources of glare during operation include light reflected from pavement, vehicles, and building materials, such as reflective glass and polished surfaces, which could affect neighboring properties. However, glare would be minimized with treated windows and solar panels. Solar panels would be placed on the roof of the fire station building which is situated at a higher elevation (approximately 35 feet) than the surrounding land uses and treated to not create glare that could be a safety concern for air traffic or avian species. As noted, all exterior light fixtures would comply with the CEC, which also requires lighting features that control glare. Consequently, the new structure would be designed to minimize glare and be consistent with the surrounding environment.

The project would not create new sources of light and glare that would substantially affect daytime or nighttime views in the area. Therefore, the project would have a **less-than-significant impact**.

2.2 Agriculture and Forestry Resources

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
In determining whether impacts on agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation as an optional model to use in assessing impacts on agriculture and farmland. In determining whether impacts on forest resources, including timberland, are significant environmental effects, lead agencies may refer to information compiled by the California Department of Forestry and Fire Protection regarding the state's inventory of forestland, including the Forest and Range Assessment Project and the Forest Legacy Assessment Project, and the forest carbon measurement methodology provided in the Forest Protocols adopted by the California Air Resources Board.				
Would the project:				
a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?	☐	☐	☐	☒
b) Conflict with existing zoning for agricultural use or a Williamson Act contract?	☐	☐	☐	☒
c) Conflict with existing zoning for, or cause rezoning of, forestland (as defined in Public Resources Code Section 12220[9]), timberland (as defined by Public Resources Code Section 4526), or timberland zoned for timberland production (as defined by Government Code Section 51104[9])?	☐	☐	☐	☒
d) Result in the loss of forestland or conversion of forestland to non-forest use?	☐	☐	☐	☒
e) Involve other changes in the existing environment that, due to their location or nature, could result in the conversion of Farmland to non-agricultural use or the conversion of forestland to non-forest use?	☐	☐	☐	☒

2.2.1 Discussion

a) Would the project convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?

The current Contra Costa County Important Farmland Map (2022) indicates that the project site is classified as "Urban and Built-Up Land," defined as land "occupied by structures with a building density of at least 1 unit to 1.5 acres, or approximately six structures to a 10-acre parcel" (California Department of Conservation 2025). Because the project site is classified as Urban and Built-Up Land, project development would not result in the conversion of Prime Farmland, Unique Farmland, or Farmland of Statewide Importance to a non-agricultural use. Therefore, the project would have **no impact**.

b) Would the project conflict with existing zoning for agricultural use, or a Williamson Act contract?

The project site and surrounding area is in an urbanized area not zoned for agricultural use and is not restricted by a Williamson Act contract. Therefore, the project would have **no impact**.

c) Would the project conflict with existing zoning for, or cause rezoning of, forestland (as defined in Public Resources Code Section 12220[9]), timberland (as defined by Public Resources Code Section 4526). or timberland zoned for timberland production (as defined by Government Code Section 51104[9])?

The project site is in an urbanized area and is zoned R-7, Single-Family Residential. The site and its surroundings are urban and not zoned for forestland, timberland, or timberland production. Therefore, the project would have **no impact.**

d) Would the project result in the loss of forestland or conversion of forestland to non-forest use?

No forestland is present on or near the project site. The project would not result in the loss of forestland and/or conversion of forestland. Therefore, the project would have **no impact**.

e) Would the project involve other changes in the existing environment that, due to their location or nature, could result in the conversion of Farmland to non-agricultural use or the conversion of forestland to non-forest use?

There is no farmland or forestland on or near the project site. The project site is a functioning fire station and the surrounding area is developed with predominantly residential and commercial uses. Because no farmland or forestland is present, the project would not result in the conversion of farmland to non-agricultural use or the conversion of forestland to non-forest use. Therefore, the project would have **no impact**.

2.2.2 Sources of Information

California Department of Conservation. 2025. *Contra Costa County Important Farmland 2022.* Available: https://www.conservation.ca.gov/dlrp/fmmp/Pages/ContraCosta.aspx. Accessed: November 7, 2025.

2.3 Air Quality

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Conflict with or obstruct implementation of the applicable air quality plan?	☐	☐	☒	☐
b) Result in a cumulative considerable net increase in any criteria pollutant for which the project region is in non-attainment under an applicable federal or state ambient air quality standard?	☐	☒	☐	☐
c) Expose sensitive receptors to substantial pollutant concentrations?	☐	☒	☐	☐
d) Result in other emissions (such as those leading to odors) adversely affecting a substantial number of people?	☐	☐	☒	☐

2.3.1 Discussion

Setting

The project site is in unincorporated Contra Costa County, which is in the San Francisco Bay Area Air Basin (SFBAAB). Concentrations of ozone (O_3), carbon monoxide (CO), nitrogen dioxide (NO_2), sulfur dioxide (SO_2), lead, and particulate matter (PM_{10} [particulate matter no more than 10 microns in diameter] and $PM_{2.5}$ [particulate matter no more than 2.5 microns in diameter]) are commonly used indicators of ambient air quality conditions. These pollutants are known as criteria pollutants and regulated by the U.S. Environmental Protection Agency (EPA) and California Air Resources Board (CARB) through the National Ambient Air Quality Standards (NAAQS) and California Ambient Air Quality Standards (CAAQS), respectively. The NAAQS and CAAQS limit criteria pollutant concentrations to protect human health and prevent environmental and property damage.

Regional Attainment Status

CARB and EPA maintain ambient air quality monitoring stations within California. Local monitoring data are used to designate areas as nonattainment, maintenance, attainment, or unclassified areas for ambient air quality standards. The four designations are defined below. Table 2.3-1 summarizes the attainment status of Contra Costa County.

- Nonattainment—assigned to areas where monitored pollutant concentrations consistently violate the standard in question
- Maintenance—assigned to areas where monitored pollutant concentrations exceeded the standard in question in the past but are no longer in violation of that standard
- Attainment—assigned to areas where pollutant concentrations meet the standard in question over a designated period of time
- Unclassified—assigned to areas where data are insufficient for determining whether a pollutant is violating the standard in question.

Table 2.3-1. Federal and State Attainment Status for Contra Costa County Portion of the San Francisco Bay Area Air Basin

Criteria Pollutant	Federal Designation	State Designation
Ozone (O_3 [8-hour standard])	Marginal nonattainment	Nonattainment
Carbon monoxide (CO)	Attainment	Attainment
Particulate matter (PM_{10})	Attainment	Nonattainment
Fine particulate matter ($PM_{2.5}$) [a]	Moderate nonattainment	Nonattainment
Nitrogen dioxide (NO_2)	Attainment	Attainment
Sulfur dioxide (SO_2)	Attainment	Attainment
Lead	Attainment	Attainment
Sulfates	(no federal standard)	Attainment
Hydrogen sulfide	(no federal standard)	Unclassified
Visibility-reducing particles	(no federal standard)	Unclassified

Sources: CARB 2023; EPA 2024.

[a] Federal designation reflects the 2006 $PM_{2.5}$ standard, which is more stringent than the 2012 standard. The area's status under the 2006 standard is worse than under the 2012 standard.

Existing Toxic Air Contaminant Sources and Health Risks

The Bay Area Air District (Air District) maintains an inventory, which is available online, of health risks associated with all permitted stationary sources within the SFBAAB (Air District 2024). Within 1,000 feet of the project site, there are two permitted facilities. Aside from stationary sources, emissions of toxic air contaminants (TACs) around the project site are also generated from mobile sources on roads and highways, like Pacheco Boulevard and I-680. Health risks associated with the nearby permitted stationary sources and roads are considered in the analysis of the project's cumulative health risks.

Environmental Burdens

The Office of Environmental Health Hazard Assessment (OEHHA) maintains the California Communities Environmental Health Screening Tool (CalEnviroScreen), which provides relative rankings of census tracts, based on 21 environmental, health, demographic, and socioeconomic indicators (e.g., O_3 concentrations, groundwater threats, education levels). Scores are given on a scale of 0 to 100, with larger numbers representing areas with relatively high existing pollution burdens and population sensitivities. The proposed project is in Census Tract 6013321200, which has a CalEnviroScreen percentile score of 33. This score indicates that the census tract experiences more minor levels of pollution, as well as secondary effects, than the rest of the state (OEHHA 2023). Because the census tract has a CalEnviroScreen score lower than 70 percent, it is not considered an overburdened community, per Air District guidance (Air District 2023).

Regulatory Setting

The Air District is responsible for ensuring that the NAAQS and CAAQS are met within the SFBAAB. Specifically, the Air District manages air quality through a comprehensive program that includes long-term planning, regulations, incentives for technical innovation, education, and community outreach. The Air District's 2017 Clean Air Plan (Spare the Air, Cool the Climate) is the current air quality attainment plan for the SFBAAB. It provides an integrated strategy for reducing O_3, particulate matter, TAC, and greenhouse gas (GHG) emissions in a manner that is

consistent with federal and state air quality programs and regulations. Specifically, the Clean Air Plan:

- Describes the Air District plan for attaining all state and federal air quality standards and eliminating health risk disparities from exposure to air pollution among Bay Area communities;
- Defines a vision for transitioning the region to the post-carbon economy needed to achieve ambitious GHG reduction targets for 2030 and 2050;
- Provides a regional climate protection strategy that will put the Bay Area on a pathway to achieving GHG reduction targets; and
- Includes a wide range of control measures to decrease emissions of air pollutants that are harmful to Bay Area residents, such as particulate matter, O_3, and TACs; reduce emissions of methane and other GHGs with high global warming potential that are potent climate pollutants for the near term; and decrease emissions of CO by reducing fossil fuel combustion.

In addition to air quality plans, the Air District also adopts rules and regulations to improve existing and future air quality. The proposed project may be subject to the Air District rules below.

- Regulation 2, Rule 2 (New Source Review)—contains requirements for best available control technology and emission offsets
- Regulation 2, Rule 5 (New Source Review of Toxic Air Contaminant)—outlines guidance for evaluating TAC emissions and their potential health risks
- Regulation 6, Rule 1 (Particulate Matter)—restricts emissions of particulate matter darker than a 1 on the Ringlemann Chart to less than 3 minutes in any 1 hour
- Regulation 7 (Odorous Substances)—establishes general odor limitations for odorous substances and specific emission limitations for certain odorous compounds
- Regulation 8, Rule 3 (Architectural Coatings)—limits the amount of reactive organic gas (ROG) in architectural coatings
- Regulation 9, Rule 6 (Nitrogen Oxides Emission from Natural Gas–Fired Boilers and Water Heaters)— limits emissions of NO_X generated by natural gas–fired boilers.
- Regulation 9, Rule 8 (Stationary Internal-Combustion Engines)—limits emissions of nitrogen oxides (NO_X) and CO from stationary internal-combustion engines of more than 50 horsepower

Air District California Environmental Quality Act Air Quality Guidelines

In April 2023, the Air District published the most recent version of its California Environmental Quality Act Air Quality Guidelines (Air District CEQA Guidelines). The Air District CEQA Guidelines provide recommended procedures for evaluating potential air impacts during the environmental review process, consistent with CEQA requirements, and include recommended thresholds of significance, mitigation measures, and background air quality information. They also include recommended assessment methodologies for TACs and odors as well as best practices for centering environmental justice, health, and equity.

a) Would the project conflict with or obstruct implementation of the applicable air quality plan?

According to the Air District CEQA Guidelines, the determination of consistency with the 2017 Clean Air Plan, which is the current air quality attainment plan for the SFBAAB, should consider the following for project-level analyses (Air District 2017):

- Does the project support the primary goals of the 2017 Clean Air Plan?
- Does the project include all applicable control measures from the 2017 Clean Air Plan?
- Does the project disrupt or hinder implementation of any 2017 Clean Air Plan control measures?

Support of 2017 Clean Air Plan Goals

The primary goals of the 2017 Clean Air Plan are to reduce emissions and decrease concentrations of harmful pollutants, safeguard public health by reducing exposure to air pollutants that pose the greatest health risk and reduce GHG emissions to protect the climate.

The project is necessary for the County to provide critical emergency services, and it will be constructed and operated without resulting in significant emissions of criteria pollutants or causing significant increases in health risks. As a fire station, the project serves a critical role for safeguarding public health because uncontrolled fires and the corresponding smoke are detrimental to human health; thus, the project supports a primary goal of the 2017 Clean Air Plan.

Include Applicable 2017 Clean Air Plan Control Measures

Control strategies in the 2017 Clean Air Plan include measures in the following categories: stationary source control measures, transportation control measures, energy control measures, building control measures, agriculture control measures, natural and working lands control measures, waste management control measures, and water control measures. The project's diesel-powered emergency generator would require a permit to operate from the Air District; compliance with district permitting requirements, which include stationary-source control measures from the 2017 Clean Air Plan, ensures the project would be consistent with these measures. The project would install bike racks and be less than 600 feet from bus stops at the intersection of Pacheco Boulevard and Center Avenue; thus, employees and visitors would have the option to bicycle or use public transit instead of driving, which is consistent with the Clean Air Plan's goals to reduce transportation-related emissions. Further, the project would install photovoltaic panels to generate on-site renewable energy, supporting the Clean Air Plan's energy-related goals. Other energy measures from the Clean Air Plan apply to utility providers and not the sponsors of individual projects; those measures are thus not applicable to the project. Similarly, the waste, water, and agriculture measures from the Clean Air plan are not applicable because those measures are intended for landfill operators, water providers, and other similar entities rather than sponsors of individual projects. In addition, some measures are not applicable because the project does not include land uses that the measures are intended for (i.e. agricultural land).

Disrupt or Hinder Implementation of 2017 Clean Air Plan Control Measures

As discussed previously, the project would incorporate design features to reduce emissions. As a result, the project would not disrupt, delay, or otherwise hinder implementation of any applicable control measures from the 2017 Clean Air Plan.

Accordingly, the project would not conflict with or obstruct implementation of the 2017 Clean Air Plan and would have a **less-than-significant impact**.

b) Would the project result in a cumulative considerable net increase of any criteria pollutant for which the project region is in non-attainment under an applicable federal or state ambient air quality standard?

Construction

Construction of the project would generate ROG, NO_X, PM_{10}, and $PM_{2.5}$ emissions that could result in short-term air quality effects during the construction period of 2026 to 2028. Emissions would be released in the form of exhaust from off-road equipment, employee vehicles, vendor trucks, and haul trucks; fugitive dust from site grading and earthmoving; suspended road dust from vehicle travel; and off-gassing from architectural coatings and paving. Table 2.3-2 summarizes the results of the emissions modeling. The technical memorandum prepared for this project, included in Attachment B, outlines the methods used to conduct the modeling.

Table 2.3-2. Criteria Pollutant Emissions from Project Construction (average pounds per day)

				PM_{10}		$PM_{2.5}$	
Construction Year	**ROGs**	**NO_X**	**CO**	**Dust**	**Exhaust**	**Dust**	**Exhaust**
2026	<1	4	6	<1	<1	<1	<1
2027	<1	4	6	<1	<1	<1	<1
2028	3	7	10	1	<1	<1	<1
Air District Threshold	*54*	*54*	-	*BMPs*	*82*	*BMPs*	*54*
Exceed Threshold?	*No*	*No*	-	-	*No*	-	*No*

Source: Attachment B.

BMPs = best management practices; CO = carbon monoxide; NO_X = nitrogen oxide; $PM_{2.5}$ = particulate matter no more than 2.5 microns in diameter; PM_{10} = particulate matter no more than 10 microns in diameter; ROGs= reactive organic gases.

As shown in Table 2.3-2, construction of the project would not generate ROG, NO_X, or PM exhaust in excess of the Air District's numeric thresholds. However, the District considers emissions of fugitive dust to be potentially significant unless BMPs are implemented to minimize the generation of fugitive dust. As such, this impact is potentially significant.

The project would incorporate **Mitigation Measure AQ-1**, which will require implementation of the BMPs to minimize construction-related fugitive dust impacts during all phases of construction.

Because construction-related criteria pollutant emissions associated with the project would be below the District's significance thresholds, and the project would incorporate **Mitigation Measure AQ-1**, the project would not contribute to a significant level of air pollution that would degrade regional air quality within the SFBAAB. This impact would be **less than significant with mitigation**.

Mitigation Measure AQ-1: Implement the Air District's Basic Best Management Practices for Construction-Related Fugitive Dust Emissions

The project sponsor shall require its contractor(s) to implement the *Basic Best Management Practices for Construction-Related Fugitive Dust Emissions* recommended by the Air District. The emissions reduction measures shall include, at a minimum, the following practices.

- All exposed surfaces (e.g., parking areas, staging areas, soil piles, graded areas, and unpaved access roads) shall be watered two times per day.

- All haul trucks transporting soil, sand, or other loose material off-site shall be covered.
- All visible mud or dirt trackout onto adjacent public roads shall be removed using wet power vacuum street sweepers at least once per day. The use of dry power sweeping is prohibited.
- All vehicle speeds on unpaved roads shall be limited to 15 miles per hour (mph).
- All roadways, driveways, and sidewalks to be paved shall be completed as soon as possible. Building pads shall be laid as soon as possible after grading unless seeding or soil binders are used.
- All excavation, grading, and/or demolition activities shall be suspended when average wind speeds exceed 20 mph.
- All trucks and equipment, including their tires, shall be washed off prior to leaving the site.
- Unpaved roads providing access to sites located 100 feet or further from a paved road shall be treated with a 6- to 12-inch layer of compacted layer of wood chips, mulch, or gravel.
- Publicly visible signs shall be posted with the telephone number and name of the person to contact at the lead agency regarding dust complaints. This person shall respond and take corrective action within 48 hours. The Air District's General Air Pollution Complaints number shall also be visible to ensure compliance with applicable regulations.

Operations

The project's operations would result in criteria air pollutant emissions from area, energy (i.e., natural gas), mobile, and stationary sources. These sources of emissions are the same as the existing fire station; however, conservatively it was assumed that there is no emergency generator located at the existing fire station[1]. Table 2.3-3 summarizes the criteria pollutant emissions from the existing Fire Station 9, the project, and the net emissions, which are compared to the Air District's operational criteria pollutant thresholds. Attachment B outlines the methods used to conduct the modeling.

[1] The exiting station includes an emergency generator, however this was not included in the analysis and therefore, the quantification of existing emissions is lower than what presently exists and provides a foundation for a conservative analysis because the delta between existing and projected is actually less than modeled.

Table 2.3-3. Existing Conditions (2025), Project Conditions (2028), and Net Criteria Pollutant Emissions during Project Operation (average daily pounds per day)

				PM_{10}			$PM_{2.5}$

Air District Threshold [b]	*54*	*54*	—	—	—	*82*	—	—	*54*
Exceed Threshold?	*No*	*No*	—	—	—	*No*	—	—	*No*

Source: Attachment B
CO = carbon monoxide; NO_X = nitrogen oxide; $PM_{2.5}$ = particulate matter no more than 2.5 microns in diameter; PM_{10} = particulate matter no more than 10 microns in diameter; ROGs= reactive organic gases.
[a] The existing analysis conservatively assumed there was no existing emergency generator.
[b] The Air District has no threshold of significance for CO; CO emissions presented for informational purposes.

Operation of the project would not generate ROG, NO_X, or particulate matter that would exceed the Air District's thresholds, as shown in Table 2.3-3. As such, operational emissions would not contribute a significant level of air pollution that would degrade regional air quality within the SFBAAB. This impact would be **less than significant**.

Localized Carbon Monoxide Impacts

CO hot spots are typically observed at heavily congested intersections where a substantial number of gasoline-powered vehicles idle for prolonged durations throughout the day. Peak-hour traffic volumes at the Center Avenue and Pacheco Boulevard intersection in the transportation study area were analyzed (Fehr & Peers 2025). The peak-hour volumes at this intersection are less than 2,500 vehicles per hour; thus, the minimal increase in peak-hour trips from the project at this intersection would not result in volumes greater than the 24,000- or 44,000-vehicle-per-hour screening threshold that the Air District has identified. This screening threshold is discussed in more detail in Attachment B. The project would thus not result in an exceedance of the CAAQS. This impact would be **less than significant**.

Health Effects of Regional Criteria Pollutant and Precursor Emissions

The Air District has developed District-specific CEQA thresholds of significance for use in consideration of existing air quality concentrations and attainment designations under the NAAQS and CAAQS. The NAAQS and CAAQS are informed by a wide range of scientific evidence regarding safe concentrations of criteria pollutants. Recognizing that air quality is a cumulative problem, the Air District typically considers projects that generate criteria pollutant and ozone precursor emissions that are below the thresholds to be minor in nature. Such projects would not adversely affect air quality or exceed the NAAQS or CAAQS. As shown in Table 2.3-2 and Table 2.3-3, construction and

operation of the project would not generate ROGs, NO_X, or particulate matter that would be in excess of the Air District's numeric thresholds with **Mitigation Measure AQ-1**, applicable to project construction. This impact would be **less than significant with mitigation**.

c) Would the project expose sensitive receptors to substantial pollutant concentrations?

Diesel Particulate Matter and $PM_{2.5}$

During construction, diesel particulate matter (DPM) would result from the use of off-road diesel-powered equipment and heavy-duty trucks, and $PM_{2.5}$ would result from diesel and non-diesel exhaust and from fugitive dust generated by soil disturbance and vehicle travel on paved and unpaved surfaces. During project operation, DPM emissions would occur from the testing, maintenance, and emergency use of the proposed backup generator.

The health risk assessment (HRA) evaluates potential impacts from these emissions and was prepared using the AERMOD View 13.0.0 air dispersion model. Attachment B provides more methodology discussion of the HRA. Table 2.3-4 presents the incremental health risk estimates for off-site residential, student, and worker receptors located within 1,000 feet of the project site. Because **Mitigation Measure AQ-1** is required to mitigate fugitive dust emissions, the HRA results presented here assume implementation of this measure and are considered unmitigated for this component of the analysis. Based on the HRA results, the residential maximally exposed individual receptor (MEIR) is located at a single-family home on Blackwood Drive, directly south of the project site; the student MEIR is located at a day-care facility on 2nd Avenue, southwest of the site; and the off-site worker MEIR is located in the retail center at the intersection of Center Avenue and Pacheco Boulevard, east of the project site.

Table 2.3-4. Estimated Unmitigated Project-Level Health Risk Results[2]

Off-site Receptor Type	Cancer Risk (cases per million)[a]	Non-Cancer Chronic Risk	Annual $PM_{2.5}$ Concentrations ($\mu g/m^3$)[b]
MEIR – Resident			
Construction	2.4	<0.01	0.01
Generator Operation	<0.1	<0.01	<0.01
Project – Total (resident)	**2.4**	**<0.01**	**0.01**
Threshold	10	1.0	0.3
Exceeds Threshold?	*No*	*No*	*No*
MEIR – Student			
Construction	0.1	<0.01	<0.01
Generator Operation	<0.1	<0.01	<0.01
Project – Total (student)	**0.1**	**<0.01**	**<0.01**
Threshold	10	1.0	0.3
Exceeds Threshold?	*No*	*No*	*No*
MEIR – Worker			

[2] These results reflect the implementation of the Air District's basic dust-reducing BMPs, as written in the District CEQA Guidelines. Because these BMPs are required for a project to be considered less than significant with respect to mass emissions of fugitive dust, their implementation is required regardless of the HRA results. Therefore, the scenario shown in Table 2.3-4 is considered unmitigated for the purposes of the HRA.

Off-site Receptor Type	Cancer Risk (cases per million)[a]	Non-Cancer Chronic Risk	Annual $PM_{2.5}$ Concentrations ($\mu g/m^3$)[b]
Construction	<0.1	<0.01	<0.01
Generator Operation	<0.1	<0.01	<0.01
Project – Total (worker)	**<0.1**	**<0.01**	**<0.01**
Threshold	10	1.0	0.3
Exceeds Threshold?	*No*	*No*	*No*

Source: Attachment B

MEIR = maximally exposed individual receptor; $\mu g/m^3$ = micrograms per cubic meter; $PM_{2.5}$ = particulate matter with an aerodynamic diameter of 2.5 or less. Exceedances are bolded and underlined.

[a.] The evaluation of cancer risks in the HRA was based on an exposure duration of 1.42 years for project construction.

[b.] Because construction activities and generator operation would not occur simultaneously, their annual $PM_{2.5}$ concentrations are not combined. Instead, the "Project – Total" value reflects the highest annual $PM_{2.5}$ concentration from either source.

As shown in Table 2.3-4, cancer risks and annual $PM_{2.5}$ concentrations would be below the applicable thresholds at all receptor locations. The highest values would occur for the residential receptor, but all results would be considerably less than the thresholds. Therefore, project-generated emissions would not expose sensitive receptors to substantial pollutant concentrations or associated health risks. With implementation of **Mitigation Measure AQ-1**, the DPM and $PM_{2.5}$ impact of the project would be **less than significant with mitigation**.

Cumulative Health Risk Assessment

According to the Air District CEQA Guidelines, risk levels from project-generated sources and existing sources within 1,000 feet of a project site should be combined and compared to the district's cumulative health risk thresholds (Air District 2023).

Existing and project-generated health risks could contribute to a cumulative health risk for sensitive receptors near the project site. Potential existing TAC sources include permitted stationary sources (e.g., generators and gas dispensing facilities), roadways, and other development projects in the surrounding area. As described previously, there are two permitted facilities within 1,000 feet of the project site. The District's inventory of stationary health risks was used to estimate the combined health risks from the existing permitted facilities in combination with the project's contributions. Mobile sources on nearby roadways like Interstate 680 would also generate TAC emissions. Geographic information system (GIS) raster files provided by the district were used to estimate roadway emissions within 1,000 feet of the project site (Air District 2022).

Table 2.3-5 summarizes the health risks for the project's MEIRs, in addition to the contributions from existing stationary and mobile sources within 1,000 feet of the site. The combined health risk values are compared to the District's cumulative thresholds. Additional details on individual background source contributions are provided in Attachment B.

Table 2.3-5. Cumulative Health Risk Results

Pollutant/Receptor Type	Cancer Risk (cases per million)	Non-Cancer Chronic Risk	Annual $PM_{2.5}$ Concentration ($\mu g/m^3$)
MEIR – Resident			
Existing Sources	12.5	0.04	0.24
Stationary Sources	1.6	<0.01	<0.01
Roadway Sources	10.9	0.03	0.24
Project Sources	2.4	<0.01	0.01
Total cumulative (resident)	**14.9**	**0.04**	**0.25**
Threshold	100	10	0.8
Exceeds threshold?	*No*	*No*	*No*
MEIR – Student			
Existing Sources	7.1	0.02	0.15
Stationary Sources	0.3	<0.01	<0.01
Roadway Sources	6.7	0.02	0.15
Project Sources	0.1	<0.01	<0.01
Total cumulative (student)	**7.2**	**0.02**	**0.16**
Threshold	100	10	0.8
Exceeds threshold?	*No*	*No*	*No*

Threshold	100	10	0.8
Exceeds threshold?	*No*	*No*	*No*

Source: Attachment B.

MEIR = maximally exposed individual receptor; $\mu g/m^3$ = micrograms per cubic meter; $PM_{2.5}$ = particulate matter with an aerodynamic diameter of 2.5 or less.

As shown in Table 2.3-5, health risks associated with existing stationary and roadway sources in combination with the project would not exceed the Air District's cumulative thresholds. All results would be below the District's thresholds by a substantial margin. Therefore, the cumulative effect of TACs and $PM_{2.5}$ emitted by the project in combination with TACs and $PM_{2.5}$ from existing sources would not result in cumulatively considerable local health risks or substantial pollutant concentrations at sensitive land uses. The cumulative health impact of the project would be **less than significant**.

Naturally Occurring Asbestos

For projects that are not in an area that is known to contain naturally occurring asbestos, it can be assumed that those projects would not have the potential to expose people to airborne asbestos particles. The project site is not in an area that is known to contain naturally occurring asbestos (U.S. Geological Survey and California Geological Survey [USGS and CGS] 2011). Demolition of the

existing asphalt surface and building on the project site may expose workers and nearby receptors to asbestos if it was used during construction of the original hardscape and building. However, the project would comply with Air District Regulation 11, Rule 2, Asbestos, Demolition, Renovation, and Manufacturing, which would control emissions of asbestos into the atmosphere during demolition and building renovation. **Mitigation Measure AQ-1** would also reduce dust emissions. Therefore, construction of the project would not expose receptors to substantial public health risks related to asbestos. This impact would be **less than significant**.

d) Would the project result in other emissions (such as those leading to odors) adversely affecting a substantial number of people?

Potential odor sources during construction include diesel exhaust, asphalt paving, and architectural coatings and solvents. Construction-related activities would be temporary, and construction activities would not be likely to result in nuisance odors that would violate Air District Regulation 7 (Odorous Substances), described in *Regulatory Setting*. Odors during operation could result from emergency generator testing and maintenance, activities at the project site, and from vehicle exhaust and the reapplication of architectural coatings. These odors would be limited to areas adjacent to the building. Although such brief exhaust- and paint-related odors may be considered adverse, they would not affect a substantial number of people. In addition, emergency generator testing would be minimal, occurring weekly for 30 minutes and up to 2 hours on one day per year. Further, the project does not propose any changes that would include odor-generating facilities. This impact would be **less than significant**.

f) Conflict with the provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan?	☐	☐	☐	☒

2.4.1 Discussion

Setting

The project site is an approximately 1-acre developed lot within an urbanized area surrounded to the north, west, and south by residential properties, and channelized Grayson Creek is adjacent to the east. The existing fire station, including a paved parking lot, occupies the northern third of the project site. The undeveloped portion of the project site is dominated by non-native annual grasses, disturbed and bare ground is present on the northwestern side of the project site, and landscape trees are present along the western and southern edges of the fire station and along the southern border of the project site. The developed urban area surrounding the project site has existing sources of night-time ambient light, such as streetlights, vehicle headlights, and residential lighting.

To characterize special-status biological resources with potential to occur on the project site, a desktop analysis was conducted by ICF to review aerial imagery, existing species information, and database searches using the following sources:

- California Native Plant Society online Inventory of Rare and Endangered Plants of California search of the 9 U.S. Geological Survey quadrangles surrounding the project site (California Native Plant Society 2025).

- California Natural Diversity Database (CNDDB) special-status plants and wildlife search of the 9 U.S. Geological Survey quadrangles surrounding the project site (California Department of Fish and Wildlife 2025).
- U.S. Fish and Wildlife Service (USFWS) species list of endangered and threatened species that may occur in or be affected by the proposed project was obtained through the Information for Planning and Consultation (IPaC) web portal (USFWS 2025).
- Cornell University's eBird species maps of bird observations reported by the public (eBird 2025).

a) *Would the project have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special-status species in local or regional plans, policies, or regulations or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service?*

Special-Status Plants

The database searches identified 64 special-status plant species within the 9-quad search area (CNPS 2025; CDFW 2025). None of these species are expected to occur on the project site due to a lack of suitable habitat. Therefore, the project would have **no impact**.

Special-Status Wildlife

The database searches identified 69 special-status wildlife species that are occurring or potentially occurring in the project vicinity (CDFW 2025; USFWS 2025). Of these, 63 species were eliminated from consideration due to the absence of suitable habitat within the project site, the project's location outside of the species' known range, or the small patch size and presence of urbanization and human activity in areas surrounding the project site that would render potentially suitable habitat unsuitable for some species (Dudek 2025). The 68 species are not discussed further.

A review of occurrence databases indicated that there is moderate potential for white-tailed kite (*Elanus leucurus*), non-special-status migratory or nesting birds, and special-status bats including pallid bat (*Antrozous pallidus*), hoary bat (*Lasiurus cinereus*), and Townsend's big-eared bat (*Corynorhinus townsendii*) to occur on the project site. The trees and building provide suitable habitat for these species and therefore, project construction would result in the temporary loss of suitable habitat. Furthermore, construction activities may result in injury, mortality, or disruption of normal behaviors if the aforementioned species are present during construction. The removal of trees and buildings on the site has the potential to physically injure or kill individuals, cause physiological stress from disturbance, or could increase the risk of predation. In addition, bird eggs and nestlings, and nursing young bats may be subjected to disturbance-related abandonment.

Windows on the constructed building could create glare that increases the risk of bird collisions, and permanent nighttime lighting for security purposes may result in injury, mortality, or disruption of normal behaviors; however, the proposed project is designed to include downcast lighting and bird-friendly design, which would reduce the risk of injury or mortality. During project operations, landscape and building maintenance and presence of humans and vehicles may result in injury, mortality, or disruption of normal behaviors for special-status wildlife. Therefore, project impacts would be potentially significant. The mitigation measures described below are provided to reduce impacts to a less-than-significant level.

White-Tailed Kite

White-tailed kite is a California Fully Protected species. The project site and adjacent Grayson Creek contains suitable nesting, foraging, and roosting habitat. There are no CNDDB occurrences within 5 miles of the project site (CDFW 2025); however, there are several eBird reports of white-tailed kite within 1 mile of the project site, including one location approximately 730 feet south of the project site along Grayson Creek (eBird 2025).

Migratory and Nesting Passerine Birds and Raptors

Migratory and nesting passerine birds and raptors are protected by the federal Migratory Bird Treaty Act (MBTA). Disturbing or destroying active nests is a violation of the MBTA. In addition, nests and eggs are protected under California Fish and Game Code Section 3503.

The ruderal land cover on the project site and the adjacent trees may provide suitable habitat for several migratory and nesting bird species, such as Cooper's hawk, (*Astur cooperii*), red-tailed hawk (*Buteo jamaicensis*), mourning dove (*Zenaida macroura*), and white-crowned sparrow (*Zonotrichia leucophrys*).

Project construction and operations could result in injury, mortality, or disturbance of normal behaviors of migratory and nesting birds and white-tailed kite if present, a potentially significant impact. Implementation of **Mitigation Measure BIO-1**, below, would require pre-construction surveys for nesting passerine birds and raptors, which would also detect any white-tailed kites nesting in the site vicinity, and avoidance measures and construction monitoring would be required if the species is present. Therefore, the project would have a **less-than-significant impact with mitigation incorporated**.

Mitigation Measure BIO-1: Avoid and Minimize Impacts on Nesting and Migratory Passerine Birds and Raptors

If project construction-related activities take place during the nesting season (February through August), preconstruction surveys for nesting passerine birds and raptors (birds of prey) within the project site and the large trees within the adjacent area will be conducted by a qualified biologist no more than five (5) days prior to the commencement of site grading or construction activities. The survey area (area of influence) shall include the project site and those adjacent areas within 250 feet of the project site. If any bird listed under the Migratory Bird Treaty Act is found to be nesting within the project site or within the area of influence, an adequate protective buffer zone shall be established by a qualified biologist to protect the nesting site. This buffer shall be a minimum of 75 feet from the project activities for passerine birds, and a minimum of 200 feet for raptors. The distance shall be determined by the competent biologist based on the site conditions (topography, if the nest is in a line of sight of the construction and the sensitivity of the birds nesting). The nest site(s) shall be monitored by a qualified biologist periodically to see if the birds are stressed by the construction activities and if the protective buffer needs to be increased. If an active nest is located in a tree or shrub designated for removal, the removal shall be deferred until the young are no longer dependent on the nest site, as determined by a qualified biologist. Once the young have fledged and are flying well enough to avoid project construction zones (typically by August), the project can proceed without further regard to the nest site(s).

Special-status Bats

Existing trees and buildings on the project site provide potential roosting habitat for special-status bats, including pallid bat, hoary bat, and Townsend's big-eared bat. Project construction and operations could result in injury, mortality, or disturbance of normal behaviors for special-status bats if present, a potentially significant impact. Implementation of Mitigation Measure BIO-2, below, would require preconstruction surveys; if roosting bats are present, avoidance measures would be implemented. Therefore, the project would have a **less-than-significant impact with mitigation incorporated**.

Mitigation Measure BIO-2: Avoid and Minimize Impacts on Roosting Bats

To avoid take of roosting bats, a preconstruction survey of buildings to be demolished or trees to be trimmed or removed shall be conducted prior to the start of by a qualified wildlife biologist in accordance with *Caltrans Bat Mitigation: A Guide to Developing Feasible and Effective Solutions* (Johnston et al. 2019). If special-status roosting bats are found, an avoidance or mitigation plan prepared by a qualified wildlife biologist shall be developed and implemented to avoid take of roosting bats. Avoidance measures may include conducting construction, demolition, tree-trimming or tree-removal outside of hibernation and maternal roosting time periods (April 1 through October 31) and excluding bats from buildings after they have left the roost to forage at night by closing entrances.

b) *Would the project have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service?*

No riparian habitat or other sensitive natural communities are present at the project site. While the adjacent Grayson Creek is a riparian zone, the project would have no impact as construction and operations of the project would occur on the project site. Therefore, the project would have **no impact.**

c) *Would the project have a substantial adverse effect on state or federally protected wetlands (including, but not limited to, marshes, vernal pools, coastal areas) through direct removal. filling, hydrological interruption, or other means?*

No state or federally protected wetlands are present at the project site. Therefore, the project would have **no impact.**

d) *Would the project interfere substantially with the movement of any native resident or migratory fish or wildlife species, or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?*

The project would not substantially interfere with the movement of any native resident or migratory fish or wildlife species or migratory wildlife corridors or impede the use of wildlife nursery sites. No rookeries or other nursery sites, water bodies, riparian areas, or wildlife corridors are located on the project site. The project site contains existing developed and disturbed areas, and a small area (less than 1 acre) of vegetation dominated by non-native invasive grasses with few trees. Surrounding land uses include residential neighborhoods to the west and the narrow Grayson Creek corridor with limited riparian vegetation to the east bordered by commercial buildings. While the non-native grassland and trees may provide some habitat for wildlife, the existing highly urbanized surrounding areas likely obstruct most wildlife movement through the area. Urban-adapted wildlife

would move around the Project site unhindered along Grayson Creek. Therefore, the project would have a **less-than-significant impact**.

e) Would the project conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?

The project will involve the removal of eight mature redwood trees and 15 smaller trees; however, the tree removal will be exempt from the County's tree protection and preservation ordinance because the parcel is owned by the County (Contra Costa County Municipal Code [CCCMC] 816-6.1002(6)) Therefore, the project would have **no impact.**

f) Would the project conflict with the provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan?

The project is not located in area of an adopted habitat conservation plan (HCP), natural community conservation plan (NCCP), or other approved local, regional, or state habitat conservation plan. Therefore, the project would have **no impact.**

2.5 Cultural Resources

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Cause a substantial adverse change in the significance of a historical resource pursuant to Section 15064.5?	☐	☐	☐	☒
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?	☐	☐	☐	☒
c) Disturb any human remains, including those interred outside of formal cemeteries?	☐	☒	☐	☐

2.5.1 Discussion

HELIX Environmental Planning, Inc. (HELIX), prepared a Cultural and Historic Resources Evaluation for the project in February 2025 (HELIX 2025). The findings of the report are summarized herein, and the report is included as Attachment C of this IS/MND.

A records search at the Northwest Information Center (NWIC) on July 22, 2024, for the project site and a 0.25-mile radius. The records search was done to identify prehistoric and historic-era resources within the search radius, determine which portions of the project site have been previously studied, and ascertain the potential for cultural resources and human remains to occur within the project site. The search included a review of United States Geological Service archaeological site location maps at the NWIC, resource records, and data from previous studies. HELIX also reviewed the California Points of Historical Interest, California Historical Landmarks, National Register of Historic Places (NRHP), California Register of Historic Resources (CRHR), Office of Historic Preservation (OHP) Archaeological Determinations of Eligibility, Built-Environment Resources Directory (BERD), historic-era topographic maps and plat maps, and historic-era aerial photographs.

The records search revealed that 18 studies have previously been conducted within a 0.25-mile radius of the project site, and that none of these studies included the project site. The records search also revealed that ten cultural resources, consisting primarily of historic era structures, are located within a 0.25-mile radius of the project site, but that none of these resources lie within the project site itself.

a) *Would the project cause a substantial adverse change in the significance of a historical resource pursuant to Section 15064.5?*

Because of its age and its proposed demolition, a HELIX senior architectural historian conducted an eligibility evaluation of the existing fire station building and complex to determine eligibility for the NRHP and/or the CRHR. Constructed in 1957, the building and complex are not listed individually in the NRHP or CRHR, nor are they located within any NRHP-listed or CRHR-listed historic districts. Further, the station is not included in the California OHP BERD for Contra Costa County. Based on the results of the evaluation, HELIX concluded that the fire station building and complex do not meet the criteria to be eligible for listing in either the NRHP or CRHR. As such, the fire station building and complex does not qualify as a historical resource for the purposes of CEQA. Thus, the project would

not disturb any known historical resources pursuant to Section 15064.5 Therefore, the project would have **no impact.**

b) Would the project cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?

As noted above, the records search did not identify any cultural resources for the project site. A pedestrian survey of the project site conducted by HELIX staff did not identify cultural resources. However, if present on site, subsurface cultural resources may be impacted during construction activities. Implementation of **Mitigation Measure TR-CUL-1** described in the Tribal Cultural Resources section would address protocol in accordance with state regulations.

On July 22, 2024, HELIX requested that staff at the Native American Heritage Commission (NAHC) conduct a search of their Sacred Lands File (SLF) for the presence of Native American sacred sites or human remains in the vicinity of the project site. A written response received from the NAHC on July 30, 2024, stated that the results of the SLF search were positive. The NAHC also provided a list of 40 Native American points of contact who may possess additional information concerning cultural and or tribal resources within the project site and its vicinity. The Contra Costa County Public Works Department Environmental Services Division conducted outreach with Native American points of contact. Please refer to Section 2.18, Tribal Cultural Resources for further discussion of the consultation and mitigation measures applicable to tribal cultural resources.

c) Would the project disturb any human remains, including those interred outside of formal cemeteries?

No human remains or cultural resources were identified from the NWIC and NAHC record search, or other research, Native American consultation, or during the pedestrian-level survey of the project site. In addition, no formal cemeteries are present within or adjacent to the project site. However, construction could discover human remains if present within the project site, a potentially significant impact. Implementation of **Mitigation Measure CUL-1**, below, details the course of action if human remains are discovered. Therefore, the project would have a **less-than-significant impact with mitigation incorporated**.

Mitigation Measure CUL-1. Procedures for Discovery of Human Remains

- In the event of the accidental discovery or recognition of any human remains, all work within 100 feet of the remains or any nearby area reasonably suspected to overlie adjacent human remains should be redirected and the County Coroner notified immediately. There shall be no further excavation or disturbance within 100 feet of the remains until the Contra Costa County Coroner determines whether the remains are Native American and if an investigation of the cause of death is required. At the same time, an archaeologist shall be contacted to assess the situation.
- If the Coroner determines the remains to be Native American, the Coroner shall contact the Native American Heritage Commission (NAHC) within 24 hours of this identification. The NAHC shall identify a Most Likely Descendant (MLD) to inspect the site and provide recommendations for the proper treatment of the remains and associated funerary objects.
- Once NAHC identifies the MLD, the tribe shall make every effort to recommend keeping ancestral remains and funerary objects in situ and protected. If removal of burials is necessary, tribal representatives shall work with the qualified archaeologist to ensure that excavation and documentation are treated carefully, ethically, and respectfully. No photography or testing shall

be conducted on Native American human remains. All bone, if not identifiable as human or animal, shall be treated as human remains and the appropriate protocols followed. The archaeologist shall recover information, AS appropriate and in accordance with the recommendations of the MLD and/or tribal representative. The archaeologist shall prepare a report of all activities, including the recommendations for the treatment of the human remains and any associated funerary objects as provided by the MLD. The report shall be submitted to the County, the Northwest Information Center, and the tribe.

- Tribal representatives shall rebury the Native American human remains and associated funerary objects with appropriate dignity either: 1) In accordance with the recommendations of the MLD if available; or 2) In the project vicinity at a location mitigated between the tribal representative and the County, where the reburial would be accessible to tribal members, protected in perpetuity, and would not be subject to further subsurface disturbance. The discovery is to be documented on DPR 523 forms and otherwise kept confidential and secure to prevent any further disturbance.

2.5.2 Sources of Information

HELIX Environmental Planning, Inc. 2025. *Fire Station 9 Project No. WH728A, Cultural and Historic Resources Evaluation*. February 2025.

2.6 Energy

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Result in potentially significant environmental impact due to the wasteful, inefficient, or unnecessary consumption of energy resources during project construction or operation?	☐	☐	☒	☐
b) Conflict with or obstruct a state or local plan for renewable energy or energy efficiency?	☐	☐	☒	☐

2.6.1 Discussion

a) Would the project result in potentially significant environmental impact due to the wasteful, inefficient, or unnecessary consumption of energy resources during project construction or operation?

The project would not result in the wasteful, inefficient, or unnecessary consumption of energy. Although energy would be used during both construction and operation of the proposed project, the project would be designed to minimize its impact through compliance with regulatory standards.

The incorporation of the recommended Air District BMPs to reduce GHGs also reduces energy consumption during construction. These BMPs as shown in Table 6-1 of the 2022 CEQA Guidelines include a combination of using zero emission or hybrid equipment as well as equipment that meets the Tier 4 compliant engines, and minimize idling times, among other recommendations (see Section 2.8 Greenhouse Gas Emissions). These recommendations would be incorporated as feasible and applicable.

The project would be constructed pursuant to Part 6 of the California Energy Code, which ensures a baseline level of energy efficiency and design. To further reduce energy consumption, the project would incorporate renewable energy sources and infrastructure, including a solar photovoltaic system to generate electricity on-site and Electric Vehicle Supply Equipment (EVSE). EVSE includes the infrastructure necessary to charging electric vehicles such as charging stations, connectors, cables, and control systems. Furthermore, the project would be expected to achieve, at a minimum, LEED Silver certification by incorporating energy efficient designs. Therefore, the project would have a **less-than-significant impact**.

b) Would the project conflict with or obstruct a state or local plan for renewable energy or energy efficiency?

The project would not conflict with or obstruct a state or local plan for renewable energy or energy efficiency. The County has adopted the 2024 Climate Action and Adaptation Plan (CAAP), which includes goals for expanding renewable energy use and increasing energy efficiency in buildings and infrastructure (Contra Costa County 2024). The project's design and operational features, such as solar energy, drought-resistant landscaping, and using LEED building design standards would be consistent with the objectives.

At the state level, the project would support the framework laid out in CARB's 2022 scoping plan update, which emphasizes decarbonizing the electricity sector through efficient energy use and replacing fossil-fueled generation with renewable and zero-carbon resources. The project also

support the goals of Senate Bill (SB) 100, which requires renewable and zero-carbon resources to supply 90 percent of all retail electricity sales by 2035 and 95 percent of all retail electricity sales by 2040 (CARB 2022). As mentioned above, the project is designed to meet LEED Silver certification. Given the project's incorporation of renewable energy infrastructure and compliance with state and County climate planning efforts, the project would have a **less-than-significant impact**.

2.7 Geology/Soils

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Directly or indirectly cause potential substantial adverse effects, including the risk of loss, injury, or death involving:				
i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.	☐	☐	☐	☒
ii) Strong seismic ground shaking?	☐	☐	☐	☒
iii) Seismically related ground failure, including liquefaction?	☐	☐	☒	☐
iv) Landslides?	☐	☐	☐	☒
b) Result in substantial soil erosion or the loss of topsoil?	☐	☐	☒	☐
c) Be located on a geologic unit or soil that is unstable or that would become unstable as a result of the project and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction, or collapse?	☐	☐	☒	☐
d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial direct or indirect risks to life or property?	☐	☐	☒	☐
e) Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems where sewers are not available for the disposal of wastewater?	☐	☐	☐	☒
f) Directly or indirectly destroy a unique paleontological resource or site or unique geological feature?	☐	☒	☐	☐

2.7.1 Discussion

The discussion below is based on the geotechnical investigation prepared for the project by Geocon (2024), attached to this IS/MND as Attachment D. The geotechnical investigation report contains several recommendations that are designed to meet the criteria set forth in the California Building Code (CBC), which is adopted into the Contra Costa County Code as Chapter 74-2.002. Accordingly, these recommendations are required by the CBC and are incorporated as project design features that would be included as conditions of approval. Please refer to Attachment D for the recommendations.

a) Directly or indirectly cause potential substantial adverse effects, including the risk of loss, injury, or death involving:

i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.

The Alquist-Priolo Earthquake Fault Zone Act of 1972 regulates development near active faults for the purpose of preventing surface fault rupture hazards at structures for human occupancy. The project site is not mapped within an Alquist-Priolo Fault Zone or within a currently

designated California Earthquake Fault Zone. According to the geotechnical report prepared by Geocon, no known faults have been mapped on the site (Geocon 2024). Because no active faults cross the project site, the project would not exacerbate known risks of fault rupture or exacerbate an existing fault rupture risk. Therefore, the project would have **no impact**.

ii) Strong seismic ground shaking?

The project site is in a seismically active region. Small earthquakes occur every year in the San Francisco Bay Area. However, large earthquakes have been recorded and can be expected to occur in the future (Geocon 2024). The project would not involve any activity, such as groundwater injection, that would exacerbate seismicity. Therefore, the project would have **no impact.**

iii) Seismically related ground failure, including liquefaction?

According to Geocon, the site is in an area of mapped liquefaction and in particular, the eastern portion of the site is highly susceptible to liquefaction, Geocon performed subsurface investigations and in general, the results indicated that the liquefiable layers are more than 15 feet below existing grade at the site. Consequences of liquefaction can include ground surface settlement, ground loss (sand boils) and lateral slope displacements (lateral spreading).

Based on the presence of the non-liquefiable layer that mantles the site and the depth to significant liquefiable layers, the potential for ground loss due to sand boils or fissures in a seismic event is considered low and the greatest risk of potential liquefaction at the site is settlement. Analysis indicates that total ground surface settlements up to approximately 1 inch may result from liquefaction after a seismic event. The recommendations included in the geotechnical investigation report adhere to the CBC and are incorporated into the project design. Therefore, the project would have a **less-than-significant impact**.

iv) Landslides?

There are no known landslides near the site, nor is the site in the path of any known or potential landslides. The geotechnical investigation indicates that there is no potential for a landslide to be a hazard to this project. Therefore, the project would have **no impact.**

b) Result in substantial soil erosion or the loss of topsoil?

The modified grades associated with the completed project would result in negligible changes in topography. Construction of the project would temporarily increase the exposure of soil to stormwater runoff and wind erosion because of grading and excavation. However, standard erosion control BMPs would be implemented during construction to minimize potential impacts. A Stormwater Pollution Prevention Plan (SWPPP) would be prepared consistent with the Statewide Construction General Permit (Order No. 2022-0057-DWQ). See Section 3.10, Hydrology/Water Quality, for more details about the SWPPP. Therefore, the project would have a **less-than-significant impact**.

c) Be located on a geologic unit or soil that is unstable or that would become unstable as a result of the project and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction, or collapse?

As noted above, the project site is subject to liquefaction and subsequently the secondary impacts that result from liquefaction. The project has incorporated the recommendations of the geotechnical investigation report as required. Therefore, the project would have a **less-than-significant impact**.

d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial direct or indirect risks to life or property?

As described in detail in the geotechnical investigation report, the alluvial soils encountered at the project site are considered "expansive" as defined by the 2022 CBC (Geocon 2025). The clayey portions of the alluvium at the site possesses moderate to high expansion potential based on the results of laboratory testing. The project has incorporated the recommendations of the geotechnical investigation report as required. Therefore, the project would have a **less-than-significant impact**.

e) Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems where sewers are not available for the disposal of wastewater?

The project does not include septic tank or alternative wastewater disposal system would not be required. Therefore, the project would have **no impact**.

f) Directly or indirectly destroy a unique paleontological resource or site or unique geological feature?

The project site is nearly level, and the surface is partially covered with the existing fire station building, as well as concrete and asphalt pavement, and artificial fill from previous site development (Geocon 2025). Based on geologic mapping by the California Geological Survey (CGS), the site is underlain by late Pleistocene age alluvial deposits; Holocene age deposits are mapped within the Grayson Creek channel to the east of the site (Geocon 2024; CGS 1991). Areas of artificial fill from past episodes of site development are also present.

Paleontological resources include fossil plants and animals, and evidence of past life such as trace fossils and tracks. Pleistocene age alluvial deposits have the potential to contain paleontological resources; the nearby Holocene deposits are too young and therefore unlikely to yield fossil resources.

No unique geologic features are present on or near the project site and no known paleontological resources are located within the project site. However, excavation on the project site could inadvertently expose previously unknown paleontological resources. Therefore, the project would result in a potentially significant impact. Implementation of **Mitigation Measure GEO-1**, below, would reduce this impact to a less-than-significant level. Therefore, the project would have a **less-than-significant impact with mitigation incorporated**.

Mitigation Measure GEO-1. Procedures for Discovery of Paleontological Resources

The contractor(s) shall be notified of the possibility of encountering paleontological materials during ground-disturbing activities. A standard inadvertent discovery clause will be included in every construction contract to inform contractors of requirements during construction.

Implement the following measures if potential unanticipated paleontological resources are discovered during project construction.

1) The contractor(s) will be educated on the types of materials that may be encountered.

2) If an inadvertent discovery is made, the contractor(s) will cease all ground-disturbing activities within the area of discovery.

3) The contractor(s) will immediately notify the County who will then request a qualified paleontologist to evaluate the finding(s).

4) If the finding(s) is determined to be potentially significant, the paleontologist will develop a research design and treatment plan outlining management of the resource, analysis, and reporting of the find. Such plan may include data recovery and analysis, preparation of a final report, and the formal transmission or delivery of any fossil material recovered to a paleontological repository, such as the University of California Museum of Paleontology. If project activities cannot avoid the resources, the adverse effects will be mitigated in accordance with CEQA Guidelines Section 15126.4(b)(3). Upon completion of project activities, the final report will document methods and findings of the mitigation and be submitted to Contra Costa County and a suitable paleontological repository.

2.8 Greenhouse Gas Emissions

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Generate greenhouse gas emissions. either directly or indirectly, that may have a significant impact on the environment?	☐	☐	☒	☐
b) Conflict with an applicable plan, policy, or regulation adopted for the purpose of reducing the emissions of greenhouse gases?	☐	☐	☒	☐

2.8.1 Discussion

Setting

Human activities that generate GHGs increase the amount of infrared radiation absorbed by the atmosphere, thereby enhancing the greenhouse effect and amplifying the warming of Earth. Increases in fossil fuel combustion and deforestation have exponentially increased concentrations of GHGs in the atmosphere since the Industrial Revolution (Intergovernmental Panel on Climate Change [IPCC] 2007). Rising atmospheric concentrations of GHGs, in excess of natural levels, have resulted in increasing global surface temperatures—a process commonly referred to as *global warming*. Higher global surface temperatures have, in turn, resulted in changes to Earth's climate system, including increases in ocean temperature and acidity, reduced sea ice, variable precipitation, and increases in the frequency and intensity of extreme weather events (IPCC 2018). Large-scale changes to Earth's system are collectively referred to as *climate change.*

The principle anthropogenic (human-made) GHGs are carbon dioxide (CO_2), methane (CH_4), nitrous oxide (N_2O), and fluorinated compounds, including sulfur hexafluoride, hydrofluorocarbons (HFCs), and perfluorocarbons. The primary GHGs emitted by project-related construction and operations would include CO_2, CH_4, and N_2O. The principal characteristics of these pollutants are discussed below.

- **Carbon dioxide** enters the atmosphere through the combustion of fossil fuel (i.e., oil, natural gas, coal), solid waste decomposition, plant and animal respiration, and chemical reactions (e.g., from manufacturing cement). CO_2 is also removed from the atmosphere, or *sequestered*, when it is absorbed by plants as part of the biological carbon cycle.
- **Methane** is emitted during the production and transport of coal, natural gas, and oil. CH_4 emissions also result from livestock and agricultural practices as well as the anaerobic decay of organic waste in municipal solid waste landfills.
- **Nitrous oxide** is emitted by agricultural and industrial activities as well as the combustion of fossil fuels and solid waste.

Regulatory Setting

California has adopted statewide legislation to address various aspects of climate change and implement GHG emissions mitigation. Much of this legislation establishes a broad framework for the state's long-term GHG reduction and climate change adaptation program. Of particular importance are SB 32 and AB 1279, which outline the State's GHG reduction goals (i.e., achieving a

40 percent reduction in GHG emissions by 2030 [relative to 1990 emissions levels] and net-zero GHG emissions no later than 2045 (i.e., reach a balance between GHGs emitted and removed from the atmosphere). AB 1279 also mandates an 85 percent reduction in statewide GHG emissions (from 1990 levels) by 2045. The 2017 climate change scoping plan and the 2022 scoping plan update provide frameworks for achieving the 2030 and 2045 reduction targets, respectively, by leveraging and enhancing many of the efforts and programs already adopted by the state (CARB 2017 and 2022).

Recent actions by President Donald Trump have significantly altered the federal climate policy landscape. On January 20, 2025, President Trump signed executive order Executive Order 14154, which includes pausing the disbursement of funds appropriated through the Inflation Reduction Act (2022) and targeting incentives for EVs and other clean energy technologies. Although some of former President Biden's policies remain, these new executive orders represent a shift away from the previous administration's focus on reducing GHG emissions and increasing climate resiliency.

The following sections describe regional and local regulations relevant to the project.

Metropolitan Transportation Commission

The Metropolitan Transportation Commission (MTC) is the metropolitan planning organization for the nine counties that make up the Bay Area and SFBAAB, including Contra Costa County. In October 2021, MTC and the Association of Bay Area Governments (ABAG) adopted Plan Bay Area 2050, the latest regional transportation plan/sustainable communities strategy (RTP/SCS) for the SFBAAB. Plan Bay Area 2050 incorporates emission reduction targets that were updated by CARB in 2018 pursuant to SB 375 and carries forward many of the development and funding strategies of earlier plans (MTC/ABAG 2021a).

Air District

The Air District is the primary agency responsible for managing air quality in the Bay Area, including Contra Costa County. It provides recommended methods for analyzing project-related GHGs in CEQA reviews. In April 2023, the Air District published the most recent version of its CEQA Air Quality Guidelines (Air District Guidelines), which offer direction for evaluating plan- and project-level air quality and climate impacts. These guidelines also outline best practices for centering environmental justice, health, and equity thresholds when evaluating a project's impact on air quality (Air District 2023). Appendix B of the guidelines, *CEQA Thresholds for Evaluating the Significance of Climate Impacts*, provides substantial evidence in support of the Air District's updated GHG thresholds and recommendations for assessing project-level climate impacts. This analysis was prepared in accordance with the guidance and recommendations outlined in the Air District Guidelines.

Construction GHG Emissions

The Air District Guidelines do not identify a GHG emissions threshold for construction-related emissions (Air District 2023). Nevertheless, the Air District Guidelines recommend the quantification and disclosure of construction-related GHG emissions. Even though the significance of construction GHG emissions has not been determined, the Air District Guidelines provide BMPs that projects should incorporate to reduce construction-related GHG emissions (Air District 2023).

Operational GHG Emissions

According to the Air District Guidelines, the Air District recommends focusing the evaluation of land use projects on contributions to the state's efforts to meet long-term climate goals. If a project would contribute its "fair share"[3] of what would be required to achieve long-term climate goals, then a reviewing agency can find that the impact would not be significant because the project would help to solve the problem of global climate change (Air District 2023). Applying this approach, the Air District has found that a new land use development project being built today would need to incorporate the design elements provided in Table 2.8-1 to do its fair share toward meeting the SB 32 2030 target and the goal of carbon neutrality by 2045.

Table 2.8-1. Air District Greenhouse Gas Thresholds for Land Use Projects

Thresholds for Land Use Projects (Must Include A or B)
A. Projects must include, at a minimum, the following project design elements: 1. Buildings a. The project would not include natural gas appliances or natural gas plumbing (in both residential and nonresidential development). b. The project would not result in any wasteful, inefficient, or unnecessary electrical usage, as determined by the analysis required under Section 21100(b)(3) of the CEQA statute and Section 15126.2(b) of the State CEQA Guidelines. 2. Transportation a. Achieve compliance with EV requirements in the most recently adopted version of CALGreen Tier 2. b. Achieve a reduction in project-generated vehicle miles traveled (VMT) to a level below the regional average, consistent with the current version of the California Climate Change Scoping Plan (currently, 15 percent), or meet a locally adopted SB 743 VMT target, reflecting the recommendations provided in the Governor's Office of Planning and Research's Technical Advisory on Evaluating Transportation Impacts in CEQA: i. Residential projects: 15 percent below existing VMT per capita ii. Office projects: 15 percent below existing VMT per employee iii. Retail projects: no net increase in existing VMT
B. Projects must be consistent with a local GHG reduction strategy that meets the criteria under State CEQA Guidelines Section 15183.5(b).

Source: Air District 2023.

If a project is designed and built to incorporate the design elements listed in Table 2.8-1 (Threshold Option A) or consistent with a local GHG reduction strategy under Section 15183.5(b) of the State CEQA Guidelines (Threshold Option B), then it would contribute its portion of what is necessary to achieve California's long-term climate goals—its fair share—and would not make a cumulatively considerable contribution to global climate change. If the project does not incorporate these design elements or is not consistent with a local GHG reduction strategy, then it should be found to have a

[3] The Air District defines "fair share" as the design elements that need to be incorporated into a project to lay the foundation for achieving carbon neutrality by 2045. These design elements are elements that the project has influence or control over. For example, becoming carbon neutral by 2045 will require California's electrical power generators to shift to 100 percent carbon-free energy resources, which is not something that can be controlled through the design of new land use projects and would not be a part of a project's fair share. Other sources that would not be part of the "fair share" are the vehicle fleet mix or indirect off-site emissions (e.g., methane emissions from wastewater or solid waste).

significant climate impact because it would hinder the state's efforts to address climate change. This analysis evaluates the project's consistency with the Air District's land use GHG thresholds (Threshold Option B) to determine the significance of the project's GHG emissions.

Contra Costa County

Contra Costa County 2045 General Plan

The Contra Costa County 2045 General Plan includes the following goals and policies associated with greenhouse gases that are relevant to the project (Contra Costa County 2024b).

> **Policy HS-P3.2:** Facilitate carbon-neutral development projects and communities that support a circular economy, zero-emission modes of transportation, reliable and renewable energy resources, energy-efficient buildings, zero waste, water efficiency and conservation, green infrastructure, soil conservation, and a system of natural and working lands that support natural carbon sequestration and climate resilience.
>
> **Policy HS-P3.3:** Require new development projects using the Contra Costa County Climate Action and Adaptation Plan to streamline their environmental review of GHG emissions, as permitted by CEQA Guidelines Section 15183.5, to demonstrate consistency with the Climate Action and Adaptation Plan and incorporate applicable GHG reduction and climate change adaptation measures.
>
> **Policy COS-P14.3:** Encourage installation of battery storage systems in new and existing buildings, especially buildings with solar energy systems and buildings that provide essential community services.

Contra Costa County Climate Action and Adaptation Plan

In 2024, the County adopted an update to previous climate action planning efforts, the Climate Action and Adaptation Plan 2024 Update (CAAP). The CAAP outlines strategies to reduce greenhouse gas emissions and adapt to climate impacts. It includes measures to improve energy efficiency, develop renewable energy, reduce VMT, and expand green infrastructure. The CAAP sets targets to reduce emissions 40 percent below 1990 levels by 2030 and 85 percent below 1990 levels by 2045, and it calls for the County to be on a pathway to support statewide carbon neutrality by 2045 (Contra Costa County 2024a).

a) Would the project generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?

Construction

As noted in the Air Quality section, construction of the project would result in direct GHG emissions generated by vehicle trips (i.e., construction worker trips and haul truck trips) and operation of construction equipment. Project construction would result in GHG emissions that would generate approximately 231 metric tons (MT) of carbon dioxide equivalent (CO_2e) over the course of the approximately 17-month project construction period. Because construction emissions would cease once construction is complete, they are considered short term. The Air District CEQA Guidelines do not identify a GHG emission threshold for construction-related emissions. Instead, the Air District recommends that GHG emissions from construction be quantified and disclosed. The Air District further recommends incorporation of BMPs to reduce GHG emissions during construction, as feasible and applicable. BMPs recommended by the Air District, as shown in Table 6-1 of the 2022

CEQA Guidelines, to reduce GHG emissions during construction are provided below (Air District 2023).

- Use zero-emission and hybrid-powered equipment to the greatest extent possible, particularly if emissions are occurring near sensitive receptors or located within a Air District-designated Community Air Risk Evaluation (CARE) area or Assembly Bill 617 community.
- Require all diesel-fueled off-road construction equipment be equipped with EPA Tier 4 Final compliant engines or better as a condition of contract.
- Require all on-road heavy-duty trucks to be zero emissions or meet the most stringent emissions standard, such as model year (MY) 2024 to 2026, as a condition of contract.
- Minimize idling time either by shutting equipment off when not in use or reducing the time of idling to no more than 2 minutes (A 5-minute limit is required by the state airborne toxics control measure [Title 13, Sections 2449(d)(3) and 2485 of the California Code of Regulations]). Provide clear signage that posts this requirement for workers at the entrances to the site and develop an enforceable mechanism to monitor idling time to ensure compliance with this measure.
- Prohibit off-road diesel-powered equipment from being in the "on" position for more than 10 hours per day.
- Use California Air Resources Board–approved renewable diesel fuel in off-road construction equipment and on-road trucks.
- Use U.S. Environmental Protection Agency SmartWay certified trucks for deliveries and equipment transport.
- Require all construction equipment is maintained and properly tuned in accordance with manufacturer's specifications. Equipment should be checked by a certified mechanic and determined to be running in proper condition prior to operation.
- Where grid power is available, prohibit portable diesel engines and provide electrical hook ups for electric construction tools, such as saws, drills and compressors, and using electric tools whenever feasible. Where grid power is not available, use alternative fuels, such as propane or solar electrical power, for generators at construction sites.
- Encourage and provide carpools, shuttle vans, transit passes, and/or secure bicycle parking to construction workers and offer meal options onsite or shuttles to nearby meal destinations for construction employees.
- Reduce electricity use in the construction office by using LED bulbs, powering off computers every day, and replacing heating and cooling units with more efficient ones.
- Minimize energy used during site preparation by deconstructing existing structures to the greatest extent feasible.
- Recycle or salvage nonhazardous construction and demolition debris, with a goal of recycling at least 15% more by weight than the diversion requirement in Title 24.
- Use locally sourced or recycled materials for construction materials (goal of at least 20% based on costs for building materials and based on volume for roadway, parking lot, sidewalk and curb materials). Wood products used should be certified through a sustainable forestry program.
- Use low-carbon concrete, minimize the amount of concrete used and produce concrete on-site if it is more efficient and lower emitting than transporting ready-mix.

- Develop a plan to efficiently use water for adequate dust control since substantial amounts of energy can be consumed during the pumping of water.
- Include all requirements in applicable bid documents, purchase orders, and contracts, with successful contractors demonstrating the ability to supply the compliant on- or off-road construction equipment for use prior to any ground-disturbing and construction activities.

These measures would reduce GHG emissions during construction. Regardless, the Air District has not identified a GHG emissions threshold for construction activities, and the impact would be **less than significant**.

Operations

Project operations would result in GHG emissions from area, energy, mobile, stationary, solid waste, water, and wastewater sources. Table 2.8-2 summarizes the estimated operational GHG emissions from the existing fire station, the proposed project, and the net difference in emissions between the two.

Table 2.8-2. Existing Conditions (2025), Project Conditions (2028), and Net GHG Emissions during Project Operation (metric tons per year)

Emission Source	CO_2	CH_4	N_2O	CO_2e
Existing Fire Station 9 (Existing Conditions, 2025)				
Area	< 1	< 1	< 1	< 1
Energy	9	< 1	< 1	9
Mobile	65	< 1	< 1	68
Stationary [a]	-	-	-	-
Solid Waste Generation	<1	< 1	< 1	1
Water and Wastewater Use	<1	< 1	< 1	1
Total Existing	*74*	*< 1*	*< 1*	*78*
New Fire Station 9 (Project Conditions, 2028)				
Area	< 1	< 1	< 1	< 1
Energy	51	< 1	< 1	52
Mobile	147	< 1	< 1	155
Stationary	14	< 1	< 1	14
Solid Waste Generation	1	< 1	< 1	4
Water and Wastewater Use	3	< 1	< 1	6
Total Project	*216*	*< 1*	*< 1*	*231*
Net Emissions	**142**	**< 1**	**< 1**	**153**

Source: See Attachment B.

[a] The existing analysis conservatively assumed there was no existing emergency generator.

CH_4 = methane; CO_2 = carbon dioxide; CO_2e = carbon dioxide equivalent; N_2O = nitrous oxide.

As shown in Table 2.8-2, the project would generate approximately 153 MT CO_2e of net emissions during its first year of full buildout. While these emission estimates are not directly used to determine significance under CEQA, they are included here to provide a fully comprehensive assessment.

Under the Air District's Land Use Threshold Option B, projects must demonstrate consistency with a local GHG reduction strategy. To address this requirement, the following discussion evaluates the project's alignment with the County's CAAP. Table 2.8-3 evaluates the project's consistency with the CAAP 2024 Climate Action Strategies to determine if the project would generate GHG emissions, either directly or indirectly, that may have a significant impact on the environment.

Table 2.8-3. Project Consistency with Contra Costa County's CAAP 2024 Climate Action Strategies

Climate Action Strategy	Project Consistency
BE-1: Require and incentivize new buildings and additions built in unincorporated Contra Costa County to be low-carbon or carbon neutral.	Consistent. The project would be built to LEED Silver Standard. Although the design includes natural gas stoves, they are part of the proposed employee facilities. Additionally, the County replaced its all-electric ordinance in October 2024 by adopting Ordinance No. 2024-17, which amended the 2022 California Energy Code to require increased energy efficiency standards for newly constructed residential, hotel, office, and retail buildings. The more stringent energy efficiency standards support low levels of GHG emissions for new constructions and are expected to contribute to the reduction of Contra Costa County's future GHG emissions.
BE-2: Retrofit existing buildings and facilities in the unincorporated county, and County infrastructure, to reduce energy use and convert to low-carbon or carbon-free fuels.	Not applicable. The project is demolishing an existing building and constructing a new one.
BE-3: Increase the amount of electricity used and generated from renewable sources in the county.	Consistent. The project will include solar panels, be consistent with Title 24 standards, and be built to LEED Silver standard.
NW-1: Increase composting of organic waste.	Consistent. The project will include green waste bins and will participate in composting program managed by Republic Services, the solid waste service provider to the site.
NW-2: Reduce waste from County operations.	Consistent. Shipping and receiving occurs out of a centralized Fire District location in Concord. The substantial waste associated with shipping and receiving is recycled from the central warehouse and would not occur as part of this project. The project will be served by Republic Services, which implements three-stream recycling (trash, recycling, and organic waste). Bay-friendly landscaping will be incorporated within bioretention features with drought-resistant plants reducing waste/pollution.
NW-3: Increase community-wide recycling and waste minimization programs.	Not applicable. This measure involves expanding waste minimization programs, which are not within the operational control of the Fire District.
NW-4: Reduce emissions from landfill gas.	Not applicable. This measure applies to the operations of County-owned landfills, which is not within the operational control of the fire district.
DR-1: Reduce indoor and outdoor water use.	Consistent. The project will be built to LEED Silver standard, which requires water-efficient devices and technology and drought-tolerant landscaping.

Climate Action Strategy	Project Consistency
DR-2: Ensure sustainable and diverse water supplies.	Not applicable. This measure involves decision-making with respect to water supplies, which is not within the operational control of the Fire District.
TR-1: Improve the viability of walking, biking, zero-emission commuting, and using public transit for travel within, to, and from the county.	Consistent. The project would install bike racks, thereby supporting active transportation and enhancing the viability of biking as a commuting option for staff. The project is also less than 600 feet from bus stops located at the intersection of Pacheco Boulevard and Center Avenue.
TR-2: Increase the use of zero-emission vehicles. Transition to a zero-emission County fleet by 2035 and a community fleet that is at least 50 percent zero-emission by 2030.	Not applicable. Zero-emission fire suppression vehicles are not widely commercially available at this time. These types of vehicles are exempt from zero-emission regulations, because they are used for emergency purposes and thus have higher reliability requirements. This measure indicates that over 70 percent of heavy-duty vehicles will be zero-emissions by 2045. The percentage of heavy-duty vehicles that will not be zero-emissions by 2045 are those that are exempt and/or that have feasibility challenges, such as fire engines.
NI-1: Protect against and adapt to changes in sea levels and other shoreline flooding conditions.	Not applicable. The project is not near the shoreline and is thus less vulnerable to sea level rise.
NI-2: Protect against and adapt to increases in the frequency and intensity of wildfire events.	Consistent. The project is a fire station; therefore, it directly supports wildfire preparedness and emergency response capacity.
NI-3: Establish and maintain community resilience hubs.	Not applicable. The project's purpose is to provide emergency fire services rather than a community resilience hub. However, the facility may serve a critical role in emergency response and coordination during disasters, which can contribute to broader community resilience.
NI-4: Sequester carbon on natural and working lands in Contra Costa County.	Not applicable. The project does not involve natural or working lands, because it is replacing an existing fire station at the same site.
NI-5: Minimize heat island effects through the use of cool roofs, green infrastructure, tree canopy, cool paint and pavement, and other emerging strategies.	Consistent. The landscaping will include drought-tolerant green infrastructure which would include bioretention features that will filter and retain runoff to support flood management and groundwater recharge. Trees will also be installed.
NI-6: Protect communities against additional hazards created or exacerbated by climate change.	Consistent. The project is a fire station, and thus its purpose is to protect against hazards, some of which will be exacerbated by climate change. The project also includes an emergency generator, which enhances the facility's operational resilience during power outages and extreme weather events. The backup power capability supports continuous emergency response services, helping protect the community from climate-related hazards such as wildfires, heat waves, and severe storms.
CE-1: Provide access to affordable, clean, safe, and healthy housing and jobs.	Consistent. While the project does not provide housing, it contributes to a safe and healthy living environment by enhancing emergency response services. In addition, the fire station creates local employment opportunities for public safety personnel and support staff.

Climate Action Strategy	Project Consistency
CE-2: Invest in solutions to support climate equity.	Consistent. The fire station supports climate equity by ensuring emergency services are accessible to all community members, including vulnerable populations who may be disproportionately affected by climate-related hazards.
CE-3: Increase access to parks and open space.	Not applicable. The intention of this measure is for the County to take action to increase access to parks and open space, which is not within the operational control of the fire district.
CE-4: Ensure residents have equitable, year-round access to affordable, local fresh food.	Not applicable. The intention of this measure is for the County to take action to ensure residents have access to food, which is not within the operational control of the fire district.
CE-5: Ensure that large industrial facilities act as good neighbors.	Not applicable. The project is not a large industrial facility.
L-1: Establish Contra Costa County as a leader among local governments for addressing climate issues.	Not applicable. The measure focuses on County-wide leadership and policy initiatives, which is not within the operational control of the fire district. However, the fire station may indirectly support climate leadership by enhancing emergency response capacity and incorporating resilient infrastructure.
L-2: Continue to recognize the climate crisis as an emergency for Contra Costa County and make addressing climate change a top County priority.	Not applicable. This measure pertains to County-level policy and prioritization, which is not within the operational control of the Fire District. Nonetheless, the fire station contributes to climate emergency preparedness by improving local response capabilities to climate-related hazards such as wildfires and extreme weather.
IS-1: Monitor and report progress toward achieving Climate Action and Adaptation Plan goals on an annual basis.	Not applicable. This measure pertains to County-level monitoring and reporting, which is not within the operational control of the Fire District.
IS-2: Continue collaborative partnerships with public agencies, private partners, and community groups that support Climate Action and Adaptation Plan implementation, with an emphasis on residents and community-based organizations from Impacted Communities.	Not applicable. The project does not involve formal partnerships for Climate Action Plan implementation, because that is not within the operational control of the Fire District. However, as a public safety facility, it may engage with other agencies during emergency response operations.
IS-3: Secure necessary funding to implement the Climate Action and Adaptation Plan.	Not applicable. This measure involves securing funding for Climate Action Plan implementation, which is not within the operational control of the Fire District.
IS-4: Continue to update the baseline emissions inventory and Climate Action and Adaptation Plan every five years.	Not applicable. This measure involves updating the emissions inventory in the Climate Action and Adaptation Plan, which is not within the operational control of the Fire District.
IS-5: Maintain and update the Climate Action and Adaptation Plan to allow for greater resilience.	Not applicable. This measure involves maintaining and updating the Climate Action Plan, which is not within the operational control of the Fire District. However, the fire station contributes to community resilience through enhanced emergency response capabilities.

Source: Contra Costa County 2024.

As discussed in Table 2.8-3, the project would be consistent with all applicable Contra Costa County CAAP 2024 Climate Action Strategies. Thus, the project would not generate GHG emissions, either directly or indirectly, that may have a significant impact on the environment. Therefore, the project would have a **less-than-significant impact**.

b) Would the project conflict with an applicable plan, policy, or regulation adopted for the purpose of reducing emissions of greenhouse gases?

California Senate Bill 375/Plan Bay Area 2050

The project aligns with the type and scale of development envisioned in the Contra Costa County 2045 General Plan, which supports growth and development assumptions for Plan Bay Area 2050, which is the Regional Transportation Plan/Sustainable Communities Strategy for the San Francisco Bay Area (MTC/ABAG 2021b). It advances the Plan's overarching vision of creating a safe, healthy, and resilient region by maintaining and upgrading infrastructure to support communities' and enhancing resilience to hazards such as wildfires and earthquakes. Redeveloping the fire station strengthens emergency response capacity—critical for wildfire preparedness and disaster recovery—while ensuring essential public services remain accessible. Furthermore, by redeveloping the station within the established urban growth boundary, the project directly supports Strategy EN4 (Maintain Urban Growth Boundaries), reinforcing the Plan's commitment to sustainable and equitable growth.

The project would also be located less than 600 feet from bus stops located at the intersection of Pacheco Boulevard and Center Avenue. Thus, the project would be consistent with Plan Bay Area 2050 goals that encourage the use of transit as an alternate method of transportation. Further, the project would also install bike racks, thereby supporting active transportation and enhancing the viability of biking as a commuting option for staff, which aligns with Plan Bay Area 2050's strategies to reduce reliance on single-occupancy vehicles and promote low-carbon travel modes. Finally, as described in Section 2.17, Transportation, the project would have a less-than-significant impact with respect to VMT.

Because the project would support Plan Bay Area 2050 goals of reducing VMT and GHG emissions from passenger cars and light-duty trucks and its proposed land use fits within the envelope of the uses assumed in the plan, the project would not conflict with implementation of Plan Bay Area 2050. Therefore, the project would have a **less-than-significant impact**.

CARB 2022 Scoping Plan

The proposed project is consistent with CARB's 2022 Scoping Plan because it incorporates modern building standards that improve energy efficiency, supports electrification of building systems, and reduces reliance on fossil fuels. By demolishing the outdated facility and constructing a new, energy-efficient building, the project helps advance building decarbonization goals identified in the Scoping Plan. Further, the Scoping Plan emphasizes reducing GHG emissions from buildings and public facilities through electrification and improved energy performance. The new fire station will be designed to meet current Title 24 energy efficiency standards, including solar panels, and be built to LEED Silver Standard. These features reduce operational emissions and align with CARB's strategy to transition public infrastructure toward carbon neutrality. In addition, by improving resiliency and supporting emergency response capabilities, the project contributes to climate adaptation goals while minimizing emissions compared to maintaining a less efficient existing structure. Although the project would include natural gas stoves for essential fire personnel operations, this does not

substantially conflict with the overall goal of reducing emissions. Therefore, the project would not conflict with the scoping plan. Therefore, the project would have a **less-than-significant impact**.

Contra Costa County Climate Action and Adaptation Plan

As discussed above in Table 2.8-3, the project would be consistent with all applicable 2024 Climate Action Strategies, indicating the project would not conflict with the Contra Costa County CAAP, and the impact with respect to applicable plans, policies, or regulations adopted for the purpose of reducing GHG emissions. Therefore, the project would have a **less-than-significant impact**.

2.9 Hazards and Hazardous Materials

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?	☐	☐	☒	☐
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?	☐	☒	☐	☐
c) Emit hazardous emissions or involve handling hazardous or acutely hazardous materials, substances, or waste within 0.25 mile of an existing or proposed school?	☐	☐	☐	☒
d) Be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, create a significant hazard to the public or the environment?	☐	☐	☐	☒
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within 2 miles of a public airport or public use airport, result in a safety hazard or excessive noise for people residing or working in the project area?	☐	☐	☒	☐
f) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	☐	☐	☒	☐
g) Expose people or structures, either directly or indirectly, to a significant risk of loss, injury or death involving wildland fires?	☐	☐	☐	☒

2.9.1 Discussion

a) Would the project create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?

Project construction would involve the routine transport, use, and disposal of hazardous materials such as solvents, paints, oils, grease, and caulking but would be handled on a temporary basis and do not represent acutely hazardous materials. Such transport, use, and disposal must comply with applicable regulations. Any spills or releases involving these materials are expected to be small, localized, and cleaned up as they occur. In addition, construction personnel would implement standard construction best management practices to prevent hazardous materials releases from the construction site into the environment.

Long-term maintenance activities associated with the new fire station building would involve the use of hazardous chemicals that are typical of maintenance uses such as cleaners and degreasers, solvents, paints, lubricants, adhesives, sealers,. Such materials are considered common and are unlikely to be stored or used in large quantities. Any spills involving these materials would be small and localized and cleaned up as they occur.

A 2,000-gallon aboveground diesel fuel storage tank (AST) will be installed for fueling fire engines and an on-site generator. Improper storage and handling of the AST could create a hazard to the public or environment if there are significant leaks or spills. However, prior to the issuance of building permits, in accordance with California Health and Safety Code Chapter 6.67, the project

applicant is required to submit a Spill Prevention Control and Countermeasure (SPCC) plan[4] for the aforementioned AST to the Contra Costa Health Services, Hazardous Materials Program (CCHSHMP) for review and approval. The project applicant is also required to prepare a Hazardous Materials Business Plan[5] and submit it to CCHSHMP. Compliance with applicable programs and requirements of the CCHSHMP would reduce potential impacts to **less than significant**.

b) *Would the project create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?*

For potential impacts associated with the handling, transport and disposal of hazardous materials during construction and operations, refer to threshold *a)*, above.

An environmental database search was conducted by ICF in November 2025 using the State Water Resource Control Board's (SWRCB) GeoTracker, the Department of Toxic Substances Control's (DTSC's) EnviroStor, and the California Environmental Protection Agency's (CalEPA's) Cortese List Data Resources online databases. The project site was identified in GeoTracker as a Non-Case Information[6] site. According to a 2021 Unauthorized Release /Contamination Report form (SWRCB. 2021), a diesel hydrocarbon release was noted (in 2020) during an underground storage tank[7] (UST) removal, however, the release appears to be minor as comments in the form state that the discharge had been stopped, and *no soil contamination was found.* Potential impacts associated with this listing are considered low. No other records associated with releases, violations or remediation activities were identified with the project site.

The environmental database search revealed several hazardous material sites within a 0.50-mile radius with a history of environmental releases (sites within this radius were analyzed because they are the most likely to have a deleterious effect on the project). All sites identified within the specified radius were listed with a *Completed-Case Closed* status and are not considered a risk to implementation of the project.

The first phase of construction would involve demolition of the existing fire station. The structure was constructed in 1956 and thus, hazardous building materials are expected to be encountered during demolition. As such, a hazardous building materials survey as part of **Mitigation Measure HAZ-1** would be required prior to demolition. The surveys would provide protocols for the proper

[4] An SPCC is required when a facility has an aggregate aboveground oil storage capacity greater than 1,320 U.S. gallons or a completely buried storage capacity greater than 42,000 U.S. gallons and there is a reasonable expectation of an oil (of any type and in any form) discharge into or upon navigable waters of the U.S. or adjoining shorelines (EPA 2010).

[5] The business plan's objective is to prevent or minimize damage to public health, safety, and the environment, from a release or threatened release of hazardous materials. This is accomplished by requiring businesses that handle hazardous materials in reportable quantities(equal to or greater than 55 gallons of a liquid, 500 pounds of a solid, 200 cubic feet of gas, or an extremely hazardous substance at or above the chemical specific reportable quantity (40 CFR, Part 355) to submit an annual hazardous materials business plan to the local Certified Unified Program Agency (CUPA) as well as prepare a site map, develop an emergency response plan, and implement a training program for employees. Contra Costa Health Services - Hazardous Materials Programs (CCHSHMP) is the CUPA for all businesses within Contra Costa County (Contra Costa Health 2025).

[6] Non-Case Information sites are sites that either have no unauthorized release, had a release to the environment with minimal impact or are currently evaluated for impacts and may result with the activation of a new case. Non-Case Information sites contain environmental data, location data, or potential source information that may be considered important to a given area.

[7] The removal involved a 550-gallon single wall tank.

handling and disposal of the materials, should they be encountered. With implementation of **Mitigation Measure HAZ-1**, the project would result in a **less-than-significant impact with mitigation incorporated**.

Mitigation Measure HAZ-1: Conduct a Hazardous Building Materials Survey prior to Demolition.

Prior to the issuance of any demolition permit, the applicant shall ensure that a Hazardous Building Materials Survey is conducted (or has been conducted) by a licensed contractor on the structure to be demolished. The survey shall identify the presence of hazardous building materials including asbestos-containing materials, lead-based paint, and PCBs. Should the survey determine that asbestos-containing materials, lead-based paint, or other hazardous building materials are present, the following actions shall be implemented by the applicant.

- A Health and Safety Plan shall be developed by a certified industrial hygienist for potential asbestos-containing materials, lead-based paint, or other hazardous building materials risks present during demolition. The Plan shall then be implemented by a licensed contractor. The Plan shall comply with federal OSHA and Cal/OSHA requirements.
- Necessary approvals shall be acquired from Contra Costa County (by the licensed contractor) for specifications or commencement of abatement activities. Abatement activities shall be conducted by a licensed contractor.
- Prior to demolition of building materials containing asbestos, the Air District shall be notified ten days prior to initiating construction and demolition activities. Section 19827.5 of the California Health and Safety Code requires that local agencies not issue demolition or alteration permits until an applicant has demonstrated compliance with notification requirements under applicable federal regulations regarding hazardous air pollutants, including asbestos. In addition:
    - Asbestos shall be disposed of at a licensed disposal facility to be identified by the licensed contractor.
    - The local office of the Cal/OSHA shall be notified of asbestos abatement activities.
    - Asbestos abatement contractors shall follow state regulations contained in 8 CCR 1529 and 8 CCR 341.6 through 341.14 where there is asbestos-related work involving 100 square feet or more of asbestos containing material.
    - Asbestos removal contractors shall be certified as such by the Contractors Licensing Board of the State of California.

c) *Would the project emit hazardous emissions or involve handling hazardous or acutely hazardous materials, substances, or waste within 0.25 mile of an existing or proposed school?*

There are no schools within a 0.25-mile radius of the proposed project. The closest school is the *Choice in Learning Montessori* preschool at 490 Golf Club Road in Pleasant Hill, located approximately 0.60 miles to the southwest of the proposed project. **No impact** would occur.

d) Would the project be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, create a significant hazard to the public or the environment?

An environmental database search conducted in November 2025 by ICF (via SWRCB's *GeoTracker*, DTSC's] *EnviroStor*, and CalEPA's] Cortese List Data Resources) did not identify the project site on any hazardous materials listings that would meet the criteria of a Cortese List[8] site. As mentioned, the proposed project site is listed as a *Non-Case Information* site (refer to threshold b) for additional details regarding this classification), however, that category does not meet the criteria of a Cortese List site. **No impact** would occur.

e) For a project located within an airport land use plan or, where such a plan has not been adopted, within 2 miles of a public airport or public use airport, would the project result in a safety hazard or excessive noise for people residing or working in the project area?

Buchanan Field Airport is approximately 0.25 mile east of the project site, as measured from the closest point on the project site to the runway. The project site is located within the airport's Federal Aviation Administration (FAA) Regulation Part 77 sphere of influence and within the boundaries of Airport Influence Area of the Contra Costa County Airport Land Use Compatibility Plan (ALUCP)(Contra Costa County Airport Land Use Commission 2000). As such, the compatibility criteria contained within the ALUCP are applicable to development of the project site. The intent of the ALUCP is to promote compatibility between the airports in Contra Costa County and the land use which surrounds them. Moreover, the plan serves as a tool for use by the Airport Commission to review airport and adjacent land use development.

The project site is within *Height Exception Overlay Zone 2* of the airport's Airspace Protection Criteria. According to the ALUCP, structures proposed for construction within Height Exception Overlay Zone 2 are permitted to have a total height of up to 45 feet above ground level. If a proposed structure height exceeds the 45-foot threshold, a FAA aeronautical study is required. As stated above in the *Description of Project*, the new station's maximum height would be 35 feet and thus, would not require an aeronautical study as it is within the permitted total height of the protection criteria. In addition, the project site is not located within a composite noise contour (per Figure 3B of the ALUCP) and as such is not subject to the airport's noise compatibility criteria. Furthermore, the proposed project would not introduce any new aircraft noise sources, would not result in changes to flight operations at Buchanan Field Airport, or any existing airports, airfields, airstrips, or heliports in the region and as discussed in Section 2.13, *Noise*, with mitigation, Thus, the project would result in a **less-than-significant impact**.

[8] U.S.C. Section 65962.5 (Cortese List) includes DTSC-listed hazardous waste facilities and sites, Department of Health Services lists of contaminated drinking water wells, sites listed by SWRCB as having underground storage tank leaks or a discharge of hazardous wastes or materials into the water or groundwater, and lists from local regulatory agencies of sites with a known migration of hazardous waste/material. Specifically, the following resources provide information regarding facilities meeting "Cortese List" requirements:

- List of hazardous waste and substances sites from DTSC's EnviroStor database.
- List of leaking underground storage tank sites from SWRCB's GeoTracker database.
- List of solid waste disposal sites identified by SWRCB with waste constituents above hazardous levels.
- List of "active" cease-and-desist orders and cleanup and abatement orders from SWRCB.
- List of hazardous waste facilities subject to corrective action pursuant to Section 25187.5 of the Health and Safety Code, as identified by DTSC.

f) Would the project impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?

Project development would not include any permanent changes to existing public roadways that provide emergency access to the project site or surrounding area. The project consists of a redevelopment of an existing fire station, which would also include offices and crew quarters. It is possible that construction activity associated with the project could affect emergency response or evacuation plans that could impede emergency access. However, compliance with County requirements regarding emergency access during construction activities would minimize potential impacts associated with emergency response times and access; and thus, emergency response access or emergency evacuation plan routes would not be impeded significantly during construction. Also, the project would not involve any long-term features that would impair implementation of, or physically interfere with, an adopted emergency response plan or emergency evacuation plan, such as the *2024 Hazard Mitigation Plan Contra Costa County, California* (LHMP) (Contra Costa County 2024). Therefore, development of the project is not expected to interfere with the aforementioned LHMP or any evacuation route assigned to the project area. Furthermore, as the project would handle and store hazardous materials, it would be required to adhere to all applicable regulations including the Hazardous Materials Business Plan Program and the Unified Hazardous Waste and Hazardous Materials Management Regulatory Program (the CCHSHMP is the Certified Unified Program Agency [CUPA] for Contra Costa County). Adherence to the aforementioned regulations and plans would ensure a proper response and evacuation in the event of an emergency associated with a hazardous material release. Potential impacts would be **less than significant**.

g) Would the project expose people or structures, either directly or indirectly, to a significant risk of loss, injury or death involving wildland fires?

The project site is in a highly developed area of Contra Costa County with no wildlands intermixed. The project site is bound by residential uses to the north, west and south, and the Grayson Creek and commercial development to the east. According to CAL FIRE's Local Responsibility Area Fire Hazard Severity Zones, Contra Costa County – Unincorporated LRA map (California Department of Forestry and Fire Protection [CAL FIRE] 2025), the project site is not within a Very High, High, or Moderate Fire Hazard Severity Zone. The closest moderate fire area is approximately 1.37 miles southwest of the project site, within the Paso Nogal Park in Pleasant Hill. Thus, the project would not exacerbate wildfire risks of any nature, and it is not located within or adjacent to a Fire Hazard Severity Zone. **No impact** would occur.

2.10 Hydrology and Water Quality

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface or groundwater quality?	☐	☐	☒	☐
b) Substantially decrease groundwater supplies or interfere substantially with groundwater recharge such that the project may impede sustainable groundwater management of the basin?	☐	☐	☒	☐
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river or through the addition of impervious surfaces, in a manner that would:				
i) Result in substantial erosion or siltation on- or off-site,	☐	☐	☒	☐
ii) Substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or off-site;	☐	☐	☒	☐
iii) Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff; or	☐	☐	☒	☐
iv) Impede or redirect floodflows?	☐	☐	☒	☐
d) In flood hazard, tsunami, or seiche zones, risk release of pollutants due to project inundation?	☐	☐	☒	☐
e) Conflict with or obstruct implementation of a water quality control plan or sustainable groundwater management plan?	☐	☐	☐	☒

2.10.1 Discussion

a) Would the project violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface or groundwater quality?

The project site is currently developed with an operational fire station. Most of the site currently drains west via overland flow towards Blackwood Drive, where runoff is collected by existing drainage inlets within the roadway and on the project parcel. Runoff is routed via an existing 18-inch storm drainpipe towards Grayson Creek to the east of the project site.

Construction activities associated with the proposed project include ground-disturbing activities such as vegetation removal, trenching, and grading. Ground-disturbing activities and runoff from work areas could cause soil erosion and sedimentation, reducing water quality. Grayson Creek adjoins the project site to the east. The potential impacts on water quality are related to sediment and sediment-bound pollutants that may be mobilized into the storm drain system that may drain into Grayson Creek. In addition, common hazardous materials (e.g., gasoline, oils, grease, lubricants) from construction equipment could be accidentally released during construction. Accidental discharges, contaminants from construction vehicles and equipment, and sediment from soil erosion could temporarily adversely affect water quality or result in a violation of water quality standards

due to increase the pollutant load in runoff being transported to receiving waters via the storm drain system and/or runoff into Grayson Creek.

Because less than one acre would be disturbed, compliance with the Construction General Permit and implementation of a Stormwater Pollution Prevention Plan is not required. However, projects creating and/or replacing (redeveloping) impervious area exceeding 10,000 square feet require submitting a Storm Water Control Plan (SWCP) for the review and approval of the Public Works Department, in compliance with Provision C.3 of the NPDES Permit and the County's Stormwater Management and Discharge Control Ordinance (Section 1014). The project's SWCP would ensure stormwater is captured and treated on the project site. The SWCP would identify temporary soil stabilization, sediment control, tracking control, and non-stormwater management best management practices (BMPs) to be implemented during construction activities to minimize adverse effects to water quality. Erosion control BMPs include source control measures, such as wetting dry and dusty surfaces to prevent fugitive dust emissions and installing an effective soil cover (e.g., geotextiles, straw mulch) for inactive areas to prevent sediments from being dislodged by wind, rain, or flowing water. Sediment control BMPs would include measures such as the installation of fiber rolls to capture particles that have already been dislodged.

Currently, the project site is 6,657 square feet (0.15 acre) of impervious cover and 29,899 square feet (0.69 acre) of pervious cover. Impervious surfaces could transport sediment and hazardous substances into area storm drain inlets that drain into waterways. The project would have additional impervious surfaces and therefore would result in increased concentrated polluted flows. Provision C.3 of the San Francisco Bay Region Municipal Regional Stormwater National Pollutant Discharge Elimination System Permit (MRP) requires all projects creating and/or redeveloping at least 5,000 square feet of impervious surface to incorporate stormwater management treatment facilities. The project would create approximately 23,823 square feet (0.55 acre) of impervious surface cover, resulting in 30,480 square feet (0.70 acre) of impervious cover totaling 76 percent of the project site. However, the project would also include the installation of stormwater retention basins, bioretention areas, flow through planters, and landscaping. These features would decrease the rate and volume of stormwater runoff, treat runoff, and allow runoff to infiltrate prior to discharge. A Stormwater Control Plan (SWCP) would be required for review and approval by the Contra Costa County Public Works Department, in compliance with the Stormwater Management and Discharge Control Ordinance (Section 1014) and MRP.

All project activities would be subject to existing regulatory requirements as described above which complies with the goals and requirements of the Water Quality Control Plan for the San Francisco Bay Basin (Basin Plan) and the Contra Costa County 2045 General Plan. Furthermore, operation and maintenance of the C.3 stormwater treatment facilities would comply with the MRP requirements through the County Clean Water Program. Therefore, construction and operation would not violate water quality standards or waste discharge requirements. Therefore, the project would have a **less-than-significant impact**.

b) *Would the project substantially decrease groundwater supplies or interfere substantially with groundwater recharge such that the project may impede sustainable groundwater management of the basin?*

Due to the underlying geology, the project site is predominantly not within a recognized Department of Water Resources groundwater basin. The eastern portion of the project site is within the Ygnacio Valley Groundwater Basin, which is considered a very low priority basin. The Sustainable Groundwater Management Act (SGMA) encourages and authorizes the submittal and

implementation of a groundwater sustainability plan (GSP) for a basin designated low- or very low-priority but does not mandate it. Implementation of the project would increase the impervious area within the project site. However, the project site would be developed with stormwater retention basins, bioretention areas, flow through planters, and landscaping. These features would decrease the volume of stormwater runoff, treat runoff, and allow runoff to infiltrate prior to discharge into the municipal storm drain. Recharge in the area would continue to occur through infiltration of precipitation. Groundwater supplies would not be used for construction activities or project operation, and no groundwater pumping or dewatering is anticipated. Groundwater was observed at depths of approximately 12 to 16 feet below existing grade, which is below the maximum depth of project excavation (9 feet), although historic high groundwater levels in the site vicinity are less than 10 feet below grade (Geocon 2024). Therefore, the project would have a **less-than-significant impact**.

c) *Would the project substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river or through the addition of impervious surfaces, in a manner that would:*

i) *Result in substantial erosion or siltation on- or off-site,*

During construction, existing drainage patterns could temporarily be altered through minor grading, potentially resulting in temporary increased erosion. Construction BMPs would be implemented to manage runoff and potential erosion, that would be described in the SWCP for erosion and sediment control such as wetting dry and dusty surfaces to prevent fugitive dust emissions and installing an effective soil cover (e.g., geotextiles, straw mulch) and installation of fiber rolls to capture particles that have already been dislodged. Implementation of the project would result in the addition of impervious surface cover. However, the project site would include stormwater retention basins, bioretention areas, flow through planters, and landscaping, which would decrease stormwater runoff and any mobilization of sediment. As a result, soil disturbance would be minimized and associated soil erosion and siltation impacts would be reduced. Therefore, the project would have a **less-than-significant impact**.

ii) *Substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or off-site;*

During construction, existing drainage patterns could temporarily be altered, potentially resulting in increased runoff or flooding. Construction BMPs would be implemented to manage runoff or flooding that would be described in the SWCP. The project would result in an increase in impervious surface area compared to existing conditions. An increase in impervious cover could result in increased surface runoff rates and volumes. However, the project site would include stormwater retention basins, bioretention areas, flow through planters, and landscaping. These features would decrease the rate and volume of stormwater runoff and allow runoff to infiltrate prior to discharge into the municipal storm drain. A SWCP would be required for review and approval by the Contra Costa County Public Works Department/Clean Water Program, in compliance with the Stormwater Management and Discharge Control Ordinance (Section 1014) and MRP. Runoff would be managed according to the approved SWCP to ensure that site drainage features are appropriately sized and connected to drainage infrastructure off-site. Therefore, the project would have a **less-than-significant impact**.

iii) Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff; or

Most of the site currently drains west via overland flow towards Blackwood Drive, where runoff is collected by existing drainage inlets within the roadway and on the project parcel. Runoff is routed via an existing 18-inch storm drainpipe towards Grayson Creek to the east of the project site. The project would increase the area of impervious cover which would increase runoff if not managed. Runoff would be managed onsite with the inclusion of bioretention areas, flow through planters, and landscaping. The SWCP process would ensure that site drainage and features would be appropriately sized and connected to the off-site drainage infrastructure. Therefore, the project would not create or contribute to runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff. The project would have a **less-than-significant impact**.

iv) impede or redirect floodflows?

The proposed project would demolish and reconstruct an operational fire station on the same site. During construction, the drainage pattern of the site may be temporarily altered. The project site is within Federal Emergency Management Agency (FEMA) Zone AE, the 100-year Floodplain Zone where base flood elevations are known (FEMA 2009). Grayson Creek, which is within the FEMA Zone AE floodway, is approximately 70 feet from the project site. The project will raise the grade of the project site by two feet due to its location in a floodplain zone. Runoff flows would be managed through implementation of the BMPs in the approved SWCP as described above. Additionally, the project will require an encroachment permit from the Contra Costa County Public Works Department Engineering Services Division and the Contra Costa County Flood Control & Water Conservation District. Coordination to determine if any local impacts to the floodplain would be reviewed during both the Contra Costa County Public Works Department Engineering Services Division and the Contra Costa County Flood Control & Water Conservation District encroachment permit processes. Therefore, the project would not impede or redirect floodflows. The project would have a **less-than-significant impact.**

d) Would the project, in flood hazard, tsunami, or seiche zones, risk release of pollutants due to project inundation?

The project site is approximately 4.5 miles southeast of the Carquinez Strait and not within a mapped tsunami inundation zone (State of California 2021). There are no reservoirs adjacent to the project site; therefore, the project would not be prone to inundation by seiche. As noted above, the project site is within FEMA Zone AE, the 100-year floodplain (FEMA 2009). The project site would include, bioretention areas, flow through planters, and landscaping which would manage treat runoff prior to discharge. Chemicals stored on-site would be appropriately stored. The project would not release pollutants due to project inundation. Therefore, the project would have **less-than-significant impact.**

e) Would the project conflict with or obstruct implementation of a water quality control plan or sustainable groundwater management plan?

As noted above, the proposed project would comply with the applicable water quality objectives for the region through implementation of federal, state, and local requirements. Therefore, the project would have **no impact.**

2.11 Land Use and Planning

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Physically divide an established community?	☐	☐	☐	☒
b) Cause a significant environmental impact due to a conflict with any land use plan, policy, or regulation adopted for the purpose of avoiding or mitigating an environmental effect?	☐	☒	☐	☐

2.11.1 Discussion

a) Would the project physically divide an established community?

The project site is in the unincorporated community of Pacheco, about 0.3 mile east of the Martinez city limit. The project site is bordered to the north, south, and west by residences and commercial structures to the east. North of the project is a medium density apartment complex and a commercial building. Single family homes are immediately south and west of the project site. Grayson Creek is directly east of the project site, with retail development across Grayson Creek to the east. Hayden/Pacheco Creekside Park is northeast of the project site across Center Avenue.

The project would demolish and replace an existing fire station with a larger facility of the same type. It does not include features, such as new roads or barriers, that would divide an existing community. Therefore, the project would have **no impact**.

b) Would the project cause a significant environmental impact due to a conflict with any land use plan, policy, or regulation adopted for the purpose of avoiding or mitigating an environmental effect?

The project site carries a Contra Costa County 2045 General Plan land use designation of Mixed-Use Community Specific (MUC), allowing for "various housing types, including tiny homes, townhouses, condominiums, apartments, studios, live-work units, and micro-units, along with a wide range of neighborhood- and community-serving retail, personal service, office, hospitality, entertainment, and public uses" (ArcGIS 2025; Contra Costa County 2024). The project site is zoned R-7, Single-Family Residential, under which governmental structures, including fires stations, are a permitted use.

The project replaces an existing fire station on the project site with a new, larger fire station and would be consistent with the intent and assumptions of the MUC land use designation and R-7 zoning designation.

The General Plan Conservation, Open Space, and Working Lands Element calls for the protection of unknown cultural and paleontological resources in the event of discovery (COS-P10.7); however, with mitigation measures CUL-1 and GEO-1, impacts are less than significant. In addition, without the implementation of BMPs to minimize the generation of fugitive dust, project-related fugitive dust emissions would be potentially significant under the Bay Area Air Quality District's standards. Mitigation Measure AQ-1 requires implementation of the Air District's Basic Best Management Practices for Construction-Related Fugitive Dust Emissions to reduce construction-related fugitive dust impacts during all phases of construction. Implementation of Mitigation Measure AQ-1 would reduce this conflict to a less-than-significant level. Similarly, conflicts in relation to regulations that protect special status wildlife species and migratory birds are reduced to less than significant levels

through Mitigation Measures BIO-1 through BIO-3. The project would involve the removal of approximately eight mature redwood trees and 15 smaller trees; however, tree removal is exempt from the County's tree protection and preservation ordinance because the parcel is owned by the County (CCCMC 816-6.1002[6]). The project's potential conflict with noise standards established in General Plan Policies HS-P14.5 and HS-P14.7 would be mitigated to less-than-significant levels through implementation of Mitigation Measures NOI-1 and NOI-2, which would minimize noise impacts on surrounding land uses.

The project would not cause a significant environmental impact due to a conflict with any land use plan, policy, or regulation adopted for the purpose of avoiding or mitigating an environmental effect with implementation of the above mitigation measures. Therefore, the project would have a **less-than-significant impact with mitigation incorporated**.

2.11.2 Sources of Information

ArcGIS. 2025. CC Map. Available: https://www.arcgis.com/apps/webappviewer/index.html?id=92d542bcb39247e8b558021bd0446d18. Accessed: November 17, 2025.

2.12 Mineral Resources

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?	☐	☐	☐	☒
b) Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan?	☐	☐	☐	☒

2.12.1 Discussion

a) Would the project result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?

No known mineral resources are present within the project site (California Department of Conservation 2025). A geotechnical report prepared for the project does not indicate the presence of mineral resources on the project site (Contra Costa County Public Works Department 2024). Therefore, the project would not result in the loss of availability of any known mineral resource that would be of value to the region and the residents of the state. Therefore, the project would have **no impact**.

b) Would the project result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan?

No local general plan, specific plan or other land use plan identifies known mineral resources within the project site (Contra Costa County 2024). Therefore, the project would not result in the loss of availability of any locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan. Therefore, the project would have **no impact.**

2.12.2 Sources of Information

2.13 Noise

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Generate a substantial temporary or permanent increase in ambient noise levels in the vicinity of the project in excess of standards established in the local general plan or noise ordinance or applicable standards of other agencies?	☐	☒	☐	☐
b) Generate excessive groundborne vibration or groundborne noise levels?	☐	☒	☐	☐
c) For a project located within the vicinity of a private airstrip or an airport land use plan or, where such a plan has not been adopted, within 2 miles of a public airport or public use airport, expose people residing or working in the project area to excessive noise levels?	☐	☐	☒	☐

2.13.1 Discussion

Noise can be described as any loud, unexpected, or annoying sound. The loudness of the noise source and obstructions or atmospheric factors affecting the propagation path to the receptor determine the sound level and characteristics of the noise perceived by the receptor. The standard unit of measurement of the loudness of sound is the decibel (dB). Because the human ear is not equally sensitive to sound at all frequencies, the A-weighted decibel scale (dBA) was devised to relate noise to human sensitivity because it gives greater weight to the frequencies of sound to which the human ear is most sensitive. The human ear can detect changes in sound levels of approximately 3 dBA under normal conditions. A change of 5 dBA is noticeable to most people in an exterior environment.

Different metrics are used to evaluate the effects of noise on a community. The equivalent sound level (L_{eq}) represents an average of the sound energy occurring over a specified period, typically 1 hour. The maximum sound level (L_{max}) refers to the root-mean-square (rms) sound level corresponding to the loudest 1second interval occurring during the measurement. The day/night level (DNL)is an average of all noise levels recorded over a 24-hour period, with a 10 dBA penalty added to noise levels occurring during nighttime hours between 10:00 p.m. and 7:00 a.m.

The primary source of existing noise in the project area is traffic on local roads, including Center Avenue, Pacheco Boulevard, Aspen Drive, and Blackwood Drive. Other noise sources include periodic aircraft overflights and general residential sources (e.g., air conditioners and landscaping activities). In addition, the existing fire station at the project site is a source of intermittent vehicle and siren noise. The closest airport to the project site is Buchanan Field Airport, a public airport approximately 0.4 mile east of the project site in the city of Concord.

To establish the existing noise environment, long-term noise monitoring was conducted at three locations on April 28 and 29, 2025. The purpose of long-term noise measurement is to establish the existing DNL in a project area and characterize the daily trend in noise levels throughout a 48-hour period.

The monitoring results are summarized in Table 2.13-1.

Table 2.13-1. Summary of Noise Measurement Results

Site	Description	Day 1[a] 24-Hour Noise Level (dBA DNL)	Day 2[b] 24-Hour Noise Level (dBA DNL)	Average Daytime Noise Level (dBA L_{eq})	Average Nighttime Noise Level (dBA L_{eq})
LT-1	Southeast corner of Center Avenue and Blackwood Drive	64.9	65.2	62.0	57.8
LT-2	Blackwood Drive, south of South 1st Avenue	66.6	64.6	64.4	57.4
LT-3	Pantano Lane, west of Aspen Drive	64.3	63.7	61.2	56.5

[a] Day 1 was from 12:00 a.m. April 28, 2025, to 12:00 a.m. April 29, 2025.

[b] Day 2 was from 12:00 a.m. April 29, 2025, to 12:00 a.m. April 30, 2025.

dBA = A-weighted decibel level, a logarithmic measurement scale that approximates the frequency response of the human ear.

Daytime noise level = average noise level calculated from measured hourly noise levels between 7:00 a.m. and 10:00 p.m.

Nighttime noise level = average noise level calculated from measured hourly noise levels between 10:00 p.m. and 7:00 a.m.

DNL = day-night sound level. DNL describes the average acoustical energy content of noise for a 48-hour period. Nighttime hours between 10:00 p.m. and 7:00 a.m. are assigned a 10 dB penalty to account for human sensitivity to noise at night.

L_{eq} = equivalent sound level. L_{eq} describes the average acoustical energy content of noise for an identified period of time, commonly 1 hour.

Sensitive Receptors

Sensitive receivers are defined as locations that are sensitive to noise and vibration, such as residences, schools, transient lodging (e.g., hotels), and hospitals. Land uses and the closest noise-sensitive receptors surrounding the project site include single-family residential uses to the south and west along Blackwood Drive and to the north along Center Avenue, multi-family residences further north along Aspen Drive and Pantano Lane, and the Gospel Light Church on Aspen Drive. The closest single-family residences to the project site are located along Blackwood Drive. Across Blackwood Drive and Center Avenue, single-family residences are 65 and 70 feet away, respectively. Multi-family residences are approximately 255 feet northwest of the project site. The Gospel Light Church is approximately 230 feet north of the project site.

a) *Would the project generate a substantial temporary or permanent increase in ambient noise levels in the vicinity of the project in excess of standards established in the local general plan or noise ordinance or applicable standards of other agencies?*

Project-related noise would occur because of construction and operation. However, the current land use, an existing fire station, also generates noise. In addition, vibration would occur as a result of demolition of the existing fire station building and the operation of construction equipment.

Construction Noise

The assessment of noise levels from heavy construction equipment was based on equipment data provided in Federal Transit Authority (FTA) guidance (FTA 2018). The heavy equipment needed for each construction phase is listed in Table 2.13-2, along with reference noise levels for each equipment type.

Table 2.13-2. Construction Phases and Reference Noise Levels of Equipment Types

Construction Phase	Equipment	Reference Noise Level at 50 Feet (dBA)	Number of Pieces	Hours/Day
Demolition	Concrete saw/industrial saw	90	1	8
	Rubber-tired dozer	85	1	1
	Tractor/loader/backhoe	80	2	6
Site preparation	Grader	85	1	8
	Tractor/loader/backhoe	80	1	8
Trenching/utilities	Tractor/loader/backhoe	80	1	8
Building shell	Crane	83	1	4
	Forklift	80	2	6
	Tractor/loader/backhoe	80	2	8
Architectural coating	Air compressor	80	1	6
	Aerial lift	73	1	6
Paving	Cement and mortar mixer	85	4	6
	Paver	85	1	7
	Roller	85	1	7
	Tractor/loader/backhoe	80	1	7

Sources: Contra Costa County Public Works Department 2025; FTA 2018; Federal Highway Administration 2006.

As shown, typical sound levels for heavy construction equipment are in the range of 73 to 90 dBA L_{eq} at a reference distance of 50 feet. The construction noise level at a given receiver location would depend on the type of construction activity as well as the distance and shielding between the activity and noise-sensitive receivers. To characterize the source level of the worst-case noise condition during each phase of project construction, the two loudest pieces of equipment were assumed to be operating simultaneously at a work area perimeter location.

The worst-case noise exposure at the nearest sensitive receptors was determined by combining the noise levels of the two loudest pieces of equipment that could operate at the same time. Construction equipment noise levels, listed by project phase, are shown in Table 2.13-3.

Construction would be done during the allowed hours specified in General Plan Policy HS-P14.7, which requires noise-generating construction activities be limited to weekdays and non-holidays between the hours of 7:30 a.m. to 5:00 p.m. within 1,000 feet of noise-sensitive uses and the hours of 7:00 a.m. to 6:00 p.m. if beyond 1,000 feet from noise-sensitive uses (Contra Costa County 2024). Night construction work would not occur. The loudest construction equipment would be used during the demolition phase, which could result in a combined noise level of 91 dBA L_{max} at 50 feet; this would exceed the FTA daytime criterion at 57 feet. Given the levels indicated in Table 2.13-3, construction activities would be readily audible at residential receptors adjacent to the project site. However, the use of heavy equipment at the site would be temporary and intermittent and would cease at the end of each day during the construction period.

Table 2.13-3. Construction Noise Levels by Activity and Distance to Allowable Sound Levels

Construction Activity	Loudest Equipment Types Used	Worst-Case Combined Source Level at 50 feet (L_{max}, dBA)	Distance to Daytime Sound-Level Limit of 90 dBA L_{eq} (feet)[a]	Distance to Nighttime Sound-Level Limit of 80 dBA L_{eq} (feet)[a]
Demolition	Concrete saw, dozer	91	57	181
Site Preparation	Grader, loader	86	32	102
Trenching/Utilities	Backhoe	80	16	50
Building Shell	Crane, backhoe	85	27	87
Architectural Coating	Air compressor, aerial lift	81	17	55
Paving	Cement mixer, paver	88	40	126

[a] The maximum distance where the combined equipment level may exceed FTA criteria.

Note: Distance calculations do not include the effects, if any, of local shielding from walls, topography, or other barriers that may further reduce sound levels.

L_{eq} = equivalent sound level; dBA = A-weighted decibel

The nearest residential structure is on Blackwood Drive about 10 feet from the southern property line of the project site. The single family residences on Blackwood Drive are about 50 feet away from the western property line, and the single family residences on Center Avenue are about 75 feet away from the northern property line. Due to the proximity of the closest residence on Blackwood Drive, noise levels would exceed FTA daytime noise criteria at this location during the site preparation and paving phases of construction because construction would extend up to the property line during these phases of construction, resulting in a potentially significant impact. Noise during construction may exceed the FTA daytime criteria at the multi-family residences as well; however, this would occur only when equipment is operated at full power at locations near the residences. This would occur infrequently, because the proposed parking areas would be adjacent to the property line, and the proposed building would be farther from residences. Given the potential for construction noise to exceed FTA standards, this impact is potentially significant. Implementation of **Mitigation Measure NOI-1**, below, would minimize the potential for community annoyance through best noise control practices. With implementation of **Mitigation Measure NOI-1**, the project would have a **less-than-significant impact with mitigation incorporated**.

Mitigation Measure NOI-1: Implement Noise Control Practices During Construction

The project sponsor shall require its contractor(s) to implement noise control practices during demolition and construction to minimize noise levels in the community. Best practices to minimize construction noise include the following:

- Locating stationary equipment (e.g., generators, pumps, cement mixers, idling trucks) as far as possible from noise-sensitive land uses.
- Requiring that all construction equipment powered by gasoline or diesel engines have sound-control devices such as exhaust mufflers that are at least as effective as those originally provided by the manufacturer and that all equipment be operated and maintained to minimize noise generation.
- Preventing excessive noise by shutting down idle vehicles or equipment.

- Using noise-reducing enclosures around noise-generating equipment.
- Notifying adjacent residents in advance of construction work.

During operation, noise would be generated by mobile sources, primarily fire station vehicles, including vehicles with emergency sirens, and traffic associated with the project. In addition, noise at the site would be generated intermittently by heating, ventilation, air-conditioning (HVAC) equipment; an emergency alert system; and an emergency generator. The project would replace an existing fire station and occupy the same location; thus, many sources of operational noise would be similar to those under existing conditions. Each source of operational noise is described below.

Fire Station Vehicles

The existing fire station is currently a source of noise from sirens and emergency vehicles. Sirens on fire station vehicles are required to be operated in accordance with California Vehicle Code Section 21055, which states that sirens should be sounded "as may be reasonably necessary." In principle, the use of sirens depends heavily on traffic conditions at the time of an emergency call; the use of sirens may not always be necessary. Based on previously conducted modeling, sirens may produce a maximum noise level of 85 to 97 dBA at 50 feet (Los Angeles Bureau of Engineering 2016). This would be readily noticeable above existing ambient levels for a short duration as an emergency vehicle passes by a given location.

The project would replace an existing fire station and occupy the same location. As described in the transportation analysis technical memorandum (Fehr & Peers 2025) prepared for the project, the response area would not change as a result of the proposed project. According to service call data provided by the County, the station responds to an average of eight or nine incidents per day, with a total of 3,054 calls in 2024. Because the response area would be the same following redevelopment, zero net new calls would need to be served by the redeveloped Fire Station 9. The number of vehicles responding to incidents would vary each day, similar to existing conditions. Because there would be a net-zero increase in the use of emergency vehicles as a result of the project, a noticeable increase in noise from fire station vehicles would not occur based on the frequencies from the incident response data. The project would have a **less-than-significant impact.**

Emergency Alert System

Similar to existing conditions, the project would include an emergency alert system to notify the on-site staff of an emergency call for service. This type of system creates noise and is activated by an electronic signal received from a dispatch center. The system includes a speaker behind the apparatus bay on the east side of the building. According to the Fire District, the system would be used only when personnel are working outdoors and need to be alerted; it would be turned off at night between 8:00 p.m. and 8:00 a.m. Although emergency alerts may be audible at the nearest noise-sensitive receivers on an occasional basis, they would not be used at night and would not be expected to contribute to an overall increase in ambient levels at nearby residences. The impact of the project would be **less than significant**.

Traffic Generation

Similar to existing conditions, the project would generate traffic from employee trips, fuel trucks, and visitors. Traffic volumes on local roads near the fire station site were calculated by Fehr & Peers under no-project and with-project scenarios. As shown in transportation analysis memorandum (Fehr & Peers 2025), traffic volumes under with-project scenarios would increase by less than 1 percent compared to the no-project scenario, which would be less than a 40 percent average daily

traffic (ADT) increase threshold for a traffic noise analysis, as stated in General Plan Policy HS-P14.8. The transportation analysis memorandum also indicates the project would generate 22 new vehicle trips in addition to the 20 trips under existing conditions. This incremental increase in the number of vehicle trips would produce a traffic noise level of up to 50 dBA DNL. With an existing ambient noise level of 67 dBA DNL, the incremental increase in noise from new vehicle trips would be less than 0.1 dB. This magnitude of increase would not be noticeable above existing conditions. The project would have a **less-than-significant impact.**

Building HVAC System

The proposed building would include an HVAC system that would generate steady-state noise on an intermittent basis. While the existing fire station includes HVAC equipment, the HVAC system for the project would be larger, would require different equipment, and the equipment on the roof of the proposed station would be closer to residences on Blackwood Drive compared to the equipment at the existing station. Noise levels from HVAC equipment vary but generally depend on the make/model and size (capacity) of the HVAC system. The HVAC system for the project would consist of two heat recovery units, three heat pumps, two energy recovery ventilators, two supply fans, and two exhaust fans on the roof. At 50 feet, HVAC equipment could produce a sound level of up to 75 dBA (Hoover & Keith 2000). Typically, this type of equipment includes a sound attenuating feature such as a screen, enclosure, or building parapet; however, this has not yet been specified.

Because the fire station would be used as sleeping quarters, the HVAC system could be operational anytime of the day or night. As described in the noise measurement results in Table 4, nighttime ambient levels would be about 57 dBA (1-hour L_{eq}) around the project site, with an average value of 65 dBA DNL. Depending on the location and orientation of the system relative to the property, HVAC equipment could be located as close as 80 feet from the nearest residence, resulting in a noise level of up to 71 dBA (1-hour L_{eq}), assuming no sound attenuating features are included. This would be noticeable above ambient levels. In terms of DNL, this would result in an increase of more than 1.5 dB above General Plan noise standards under Policy HS-P14.5, a potentially significant impact. Implementation of **Mitigation Measure NOI-2**, below, would reduce the potential for the HVAC system to exceed General Plan noise standards through installation of noise attenuating features.

Emergency Generator

While the existing fire station includes an emergency generator adjacent to the current building along Center Avenue, the emergency generator for the project would be larger and closer to residences compared to the existing station. Under the proposed project, an emergency generator would be installed inside a structure that would be separate from the main fire station along the southern perimeter of the project site. The generator would be operated intermittently (e.g., on an emergency basis during power outages). In addition, the generator would require weekly tests, during which time it would run for 30 minutes. Every year, the generator would run for 2 hours. Every 3 years, it would require a 4-hour test. Without a ventilated acoustic enclosure, generators produce a steady-state noise level of up to 82 dBA at 50 feet (Hoover & Keith 2000).

The generator would be located along the southern boundary of the site approximately 20 feet away from the nearest residence, which is to the south on Blackwood Drive. At that location, the noise level from the generator could be up to 90 dBA (1-hour L_{eq}). At the nearest residences on Blackwood Drive, about 80 feet away from the generator location, the noise level would be up to 78 dBA (1-hour L_{eq}). Although the generator would produce noise only on an occasional basis, it would contribute to a significant increase in noise levels during outages and testing and be readily noticeable above

ambient levels, which were measured at 57 dBA (1-hour L_{eq}) during nighttime hours in this area. In terms of DNL, operation of the generator would result in an increase of more than 1.5 dB above General Plan noise standards stated in Policy HS-P14.5. Due to the substantial increase above ambient levels during operation of the generator, this impact is potentially significant. Implementation of **Mitigation Measure NOI-2**, below, would reduce the potential for the emergency generator to exceed General Plan noise standards through installation of noise attenuating features.

Mitigation Measure NOI-2: Design Noise Attenuation for the HVAC System and Emergency Generator Enclosure to Meet County Noise Standards

The project sponsor shall require its contractor(s) to implement this measure to ensure that operational noise levels shall not exceed the County standard of 1.5 dB above ambient DNLs found in the General Plan. This can be achieved through low-noise equipment specifications or acoustic treatments such as louvers or silencers. Verification noise monitoring shall be conducted to confirm that acoustic treatments will reduce operational noise to comply with the General Plan. The acoustic treatments for the HVAC system and emergency generator shall include, but are not limited to, the following:

- Enclosing noise-generating mechanical equipment;
- Installing relatively quiet models of air handlers, exhaust fans, and other mechanical equipment;
- Using mufflers or silencers on equipment exhaust fans;
- Orienting or shielding equipment to protect noise-sensitive receptors to the greatest extent feasible;
- Increasing the distance between noise-generating equipment and noise-sensitive receptors; and
- Placing barriers around the equipment to facilitate the attenuation of noise.

With implementation of **Mitigation Measure NOI-2**, the project would have a **less-than-significant impact with mitigation incorporated**.

b) Would the project generate excessive groundborne vibration or groundborne noise levels?

Construction Vibration

Ground-borne vibration during project construction was analyzed using the methodology from the FTA Manual. Vibration source levels (expressed in terms of peak particle velocity (PPV) in inches per second and root-mean-square VdB at a reference distance of 25 feet from the source) for the typical construction equipment proposed for the project are shown in Table 2.13-4. According to project-specific information provided by the Fire District, construction of the project would not require impact equipment such as pile drivers, which would otherwise be the most vibration-intensive construction equipment. Therefore, for this project, a vibratory roller (source vibration level with a PPV of 0.210 inch per second at 25 feet) is expected to produce the highest vibration levels of the equipment types to be used.

Table 2.13-4. Reference Vibration Levels of Construction Equipment

Equipment	PPV at 25 Feet	PPV at 50 Feet	PPV at 75 Feet	PPV at 100 Feet
Vibratory roller	0.210	0.074	0.040	0.026
Large bulldozer	0.089	0.032	0.017	0.011
Loaded trucks	0.076	0.027	0.015	0.010
Jackhammer	0.035	0.012	0.007	0.004
Small bulldozer	0.003	0.001	0.001	< 0.001

Source: FTA 2018.
PPV = peak particle velocity

The nearest residential structure is on Blackwood Drive about 10 feet from the southern property line of the project site. Although project-related construction vibration would be temporary and intermittent and would cease once construction is complete, vibratory rollers and other heavy equipment may result in perceptible vibration at the nearest residence when such equipment is operated near the structure. Table 2.13-5 identifies the damage potential thresholds associated with vibration generated by construction activities.

Table 2.13-5. Maximum Vibration Levels for Preventing Damage to Buildings

Building Category	Limiting Velocity (PPV in inch/ second)	Approximate Maximum Vibration Level (VdB)
Reinforced concrete, steel, or timber (no plaster)	0.5	102
Engineered concrete and masonry (no plaster)	0.3	98
Non-engineered timber and masonry buildings	0.2	94
Buildings that are extremely susceptible to vibration damage	0.12	90

Source: Federal Transit Administration 2018.
PPV = peak particle velocity; VdB = root-mean-square velocity in decibels (1 micro-inch/second)

At a distance of 10 feet, vibration levels could have a PPV of up to 0.83 inch per second during use of a vibratory roller and up to 0.35 inch per second during use of a bulldozer. These levels of vibration would be readily perceptible to the nearest structure to the south and exceed the building damage criteria in Table 2.13-5 at this location. At the next-nearest residences across Blackwood Drive, vibration from the use of heavy equipment could be slightly perceptible to people inside the buildings but would not result in structural damage. Due to exceeding the building damage criteria at one residence, this impact is potentially significant. Implementation of **Mitigation Measure NOI-3**, below, would reduce the potential for vibration damage to adjacent buildings and structures through vibration control planning, monitoring and building damage mitigation.

With implementation of **Mitigation Measure NOI-3**, the project would have a **less-than-significant impact with mitigation incorporated**.

Mitigation Measure NOI-3: Protect Adjacent Buildings/Structures and Vibration Monitoring During Construction

The project sponsor shall require its contractor(s) to implement a vibration management and monitoring plan during demolition and construction to 1) avoid project-related construction vibration damage to adjacent buildings and/or structures and 2) ensure that any such damage is documented and repaired. The vibration management and monitoring plan shall include the following components, as applicable:

- Pre-construction Survey. Prior to the start of any ground-disturbing activity, the project sponsor or its contractor(s) shall engage a structural engineer or other professional consultant with similar qualifications to undertake a pre-construction survey of the residential building just south of the project site that may be affected and document and photograph the existing conditions.
- Use of Alternative Construction Equipment and Techniques. The plan shall identify potential alternative equipment and techniques that could be implemented if construction vibration levels are observed in excess of the established standard (e.g., smaller, lighter equipment could be used in some cases).
- Buffer Distances. The plan shall identify buffer distances to be maintained, based on vibration levels and site constraints, between vibration-generating construction equipment and the potentially affected building and/or structure to avoid damage to the extent possible.
- Maximum Vibration Level. Based on the anticipated construction and condition of the residential structure, a qualified acoustic/vibration consultant shall establish a maximum vibration level that shall not be exceeded at each building/structure on adjacent properties, based on existing conditions, character-defining features, soil conditions, and anticipated construction practices.
- Vibration Monitoring. The plan shall identify the method and equipment for vibration monitoring to ensure that construction vibration levels do not exceed the established standards identified in the plan. Should construction vibration levels be observed in excess of the standards established in the plan, the contractor(s) shall halt construction and put alternative construction techniques identified in the plan into practice, to the extent feasible. If vibration has damaged nearby buildings, the structural engineer shall immediately notify the County and prepare a damage report documenting the features of the building and/or structure that have been damaged.
- Periodic Inspections. The plan shall identify the intervals and parties responsible for periodic inspections. The structural engineer shall conduct periodic inspections of the residential structure (as allowed by property owner) during vibration-generating construction activity on the project site. The plan will specify how often inspections occur.
- Repair Damage. The plan shall also identify provisions to be followed should damage to any building and/or structure occur due to construction-related vibration. The residential structure shall be remediated to pre-construction conditions (as allowed by property owner) at the conclusion of vibration-generating activity on the site.

Operation Vibration

Like existing conditions, operation of the project would include the use of fire station vehicles with rubber tires, which would not be a source of substantial vibration. Projects that involve the use of rubber-tired vehicles rarely show any potential for vibration impacts. For example, a loaded heavy truck, similar to a fire station vehicle, produces a vibration level with a PPV of less than 0.1 inch per second at 25 feet. At that level, vibration would generally not be noticeable. Therefore, it is not anticipated that vehicles accessing the project site would generate perceptible levels of vibration at surrounding land uses. No other aspects of project operation would generate a noticeable level of vibration. Ground-borne vibration from the operation of the project would not result in building damage or a negative community reaction. The project would have a **less-than-significant impact.**

c) *For a project located within the vicinity of a private airstrip or an airport land use plan or, where such a plan has not been adopted, within 2 miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?*

Buchanan Field Airport is a public-use airport approximately 0.4 mile east of the project site. According to the 2000 Contra Costa County Airport Land Use Compatibility Plan (ALUCP), the project site falls outside the 50–55 dBA Community Noise Equivalent Level (CNEL) contour (Contra Costa County Airport Land Use Commission 2000). The project would consist of sleeping quarters (i.e., residential uses). The 2000 ALUCP designates this land use category as "normally acceptable" and "clearly acceptable" within the 50–55 dBA CNEL contour, according to the noise compatibility criteria in the ALUCP. Because of this, the project would not conflict with the land use restrictions found in the ALUCP.

The project would have a **less-than-significant impact.**

2.14 Population and Housing

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Induce substantial unplanned population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?	☐	☐	☐	☒
b) Displace substantial numbers of existing people or housing, necessitating the construction of replacement housing elsewhere?	☐	☐	☐	☒

2.14.1 Discussion

a) Induce substantial unplanned population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?

The project site is in an urbanized, unincorporated area of Contra Costa County (USGS 2025). The project involves the replacement of the existing fire station with a larger, more modern fire station on the same site; the project does not include new homes or businesses that could directly induce population growth. The new fire station is anticipated to employ an additional six fire personnel drawn from the nearby population and would not result in substantial population growth in Contra Costa County. No extension of roads or other infrastructure is proposed that could directly or indirectly induce population growth. Therefore, the project would have a **no impact**.

b) Displace substantial numbers of existing people or housing, necessitating the construction of replacement housing elsewhere?

The project would replace an existing fire station on the same site. It would not displace any existing people or housing; as such, no replacement housing is necessary. Therefore, the project would have **no impact**.

2.14.2 Sources of Information

U.S. Geological Survey. 2025. Pacheco. Geographic Names Information Service Database. Available: https://edits.nationalmap.gov/apps/gaz-domestic/public/search/names/1659330. Accessed: November 21, 2025.

2.15 Public Services

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities or the need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times, or other performance objectives for any of the following public services:				
Fire protection?	☐	☒	☐	☐
Police protection?	☐	☐	☐	☒
Schools?	☐	☐	☒	☐
Parks?	☐	☐	☐	☒
Other public facilities?	☐	☐	☐	☒

2.15.1 Discussion

a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities or the need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the following public services:

Fire Protection?

The project involves the replacement of the existing fire station with a larger, more modern fire station on the same site allowing the fire station to adequately meet existing and forecasted demand and comply with the response time standards presented in the Contra Costa County General Plan (Contra Costa County 2024). As previously discussed within this IS/MND, the project would result in physical impacts associated with the provision of a new government facility (fire station); all of which are mitigated to less than significant (see mitigation measures AQ-1, BIO-1 through BIO-3, CUL-1, GEO-1, NOI-1 through NOI-3, and TRA-1).

Over the past 5 years, Fire Station 9 experienced a 26.93 percent increase in calls, and anticipates the trend of an approximate 5-percent-per-year increase in calls to continue (Dutter pers comm). The response area of Fire Station 9 will not be increased; the expanded facilities, six additional fire personnel, and additional fire engine will result in quicker response times and more effective service.

Project construction is anticipated to begin in late 2026 and take 17 months to complete. During project construction the fire station would not be operational, thus the surrounding fires stations would be required to temporarily absorb the workload of Fire Station 9. The three nearest fire stations, all within a 3-mile radius of Fire Station 9, are:

- **Fire Station 6:** One Type 1 engine, 1 truck, 1 battalion vehicle, and 21 employees, approximately 2 miles southeast of Fire Station 9 (United Professional Firefighters of Contra Costa County 2024; Google Earth 2025).
- **Fire Station 5:** One Type 1 engine and three employees approximately 2.7 miles to the south of Fire Station 9 (United Professional Firefighters of Contra Costa County 2024; Google Earth 2025).
- **Fire Station 13:** Approximately 2.8 miles to the west of Fire Station 9,

During construction, the current Fire Station 9 staff and resources would be temporarily reassigned and continue to serve at nearby facilities to help alleviate the increased demand on surrounding stations.

The project could therefore affect service ratios, response times, or other performance objectives for fire protection during construction, but will ultimately serve to improve service ratios, response times, and performance objectives for fire protection in the long term. Therefore, the project would have a **less-than-significant impact with mitigation incorporated.**

Police Protection?

The project would not result in population growth, nor does it propose new land uses that increase demands on police services; as such, the project would not affect service ratios, response times, or other performance objectives for police protection. Construction of a new or expanded police station would not be required. Therefore, the project would have **no impact**.

Schools?

The project site is within the Mt. Diablo Unified School District, and the neighborhood is served by Hidden Valley Elementary School, Valley View Middle School, and College Park High School (Mt. Diablo Unified School District 2025). The addition of six fire personnel to new fire station would not result in substantial population growth, nor does the project propose land uses that increase demands on school services. Therefore, the project would have **no impact.**

Parks?

Because the expansion of the fire station would not result in population growth, nor does it propose land uses that increase demands on park services, no construction of new or expanded parks would be required. Therefore, the project would have **no impact**.

Other Public Facilities?

The project would not result in population growth, nor does it propose land uses that increase demands on other public facilities including civic, library, medical, and other community facilities. Therefore, the project would have **no impact.**

2.15.2 Sources of Information

Contra Costa County. 2024. *Contra Costa County 2045 General Plan*. Adopted November 2, 2024. Available: https://www.contracosta.ca.gov/DocumentCenter/View/84949/Chapter-8---Public-Facilities-and-Services-Element-PDF. Accessed: November 21, 2025.

2.16 Recreation

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facilities would occur or be accelerated?	☐	☐	☐	☒
b) Include recreational facilities or require the construction or expansion of recreational facilities, which might have an adverse physical effect on the environment?	☐	☐	☐	☒

2.16.1 Discussion

Pacheco Creekside Park is northeast of the project site across Center Avenue. Pacheco Creekside Park is a 1.61-acre park built in 2011 and follows the frontage of Grayson Creek.

a) *Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facilities would occur or be accelerated?*

The project would replace the existing operational fire station with a larger fire station on the same site to support the equipment and staffing needs of a modern fire protection agency. The new fire station would retain its current three employees and is expected to increase staffing to include six additional employees in the future. This expansion does not result in significant population growth, nor does the project propose land uses that increase demands on park services that would increase use of existing parks or recreational facilities to a degree that would result in substantial physical deterioration. Therefore, the project would have **no impact.**

b) *Would the project include recreational facilities or require the construction or expansion of recreational facilities, which might have an adverse physical effect on the environment?*

The project does not include recreational facilities or new residential development. Contra Costa County strives to provide 3 acres of local parks per 1,000 residents (Contra Costa County 2025). The new fire station's staffing increase of 6 employees is expected to draw from the nearby population and does not represent significant population growth that would require the construction of new recreational facilities or the expansion of existing recreational facilities. Therefore, the project would have **no impact.**

2.16.2 Sources of Information

Contra Costa Public Works. 2025. *Parks and Recreation*. Available: https://www.contracosta.ca.gov/446/Parks-and-Recreation. Accessed: November 21, 2025.

2.17 Transportation

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Conflict with a program plan, ordinance, or policy addressing the circulation system, including transit, roadways, bicycle, and pedestrian facilities?	☐	☐	☒	☐
b) Conflict with or be inconsistent with State CEQA Guidelines Section 15064.3, subdivision (b)?	☐	☐	☒	☐
c) Substantially increase hazards due to a geometric design feature (e g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?	☐	☐	☒	☐
d) Result in inadequate emergency access?	☐	☐	☒	☐

2.17.1 Discussion

In November 2025, Fehr & Peers prepared a transportation analysis memorandum (Attachment F) for the proposed project to satisfy the traffic impact requirements of Contra Costa County.

To evaluate the project's effects on traffic operations, the intersection of Pacheco Boulevard and Center Avenue was analyzed. Weekday AM (7:00 to 9:00 a.m.) and PM (4:00 to 6:00 p.m.) peak-period turning movement counts were collected in April 2025 for the intersection on a clear-weather midweek day. Attachment F includes a summary of the traffic count data.

Two scenarios were evaluated to assess project effects:

- **Existing**: Existing traffic volumes based on traffic counts collected in 2025.
- **Existing plus Project**: Existing conditions plus estimated traffic generated by the project.

Intersection operations including delay and level of service (LOS) were evaluated using the *Highway Capacity Manual,* seventh edition, applied using the Synchro software (version 12). The intersection operations analysis (Attachment F) was conducted to determine if peak hour queues would block the fire station's Center Avenue driveway and to provide data for the air quality and noise analyses prepared for the project.

a) Would the project conflict with a program, plan, ordinance, or policy addressing the circulation system, including transit, roadway, bicycle, and pedestrian facilities?

Relevant transportation-related policies of the Contra Costa County 2045 General Plan include the following.

Transportation Element

TR-P2.1. In addition to any required California Environmental Quality Act (CEQA) review, evaluate the traffic operations effects of proposed projects in accordance with the County's Transportation Analysis Guidelines and other appropriate policy supplements and transportation plans, and best practices. When operational deficiencies are identified, the treatments to address those deficiencies should first prioritize reducing the project's vehicular trips and collision risks and may secondarily consider adding vehicular capacity so long as the

safety and movement of active modes are not compromised. Exceptions to the level of service (LOS) operational standards presented in the Transportation Analysis Guidelines may be granted if the treatments necessary to address operational deficiencies would conflict with other priorities in this General Plan and if the project is otherwise consistent with this Plan.

TR-P3.2. Minimize conflicts between vehicles and people who walk, bike, or use micromobility through careful site planning, paying particular attention to driveway locations and internal pedestrian circulation, and prioritizing safety for active modes of travel.

TR-P4.1. Plan, design, and maintain improvement projects involving County roadways in accordance with the County's adopted Complete Streets Policy, other applicable policies (e.g., Vision Zero and other safety initiatives), planning documents such as the County ATP and CCTA Countywide Bicycle and Pedestrian Plan, and best practices (e.g., Caltrans, American Association of State and Highway Transportation Officials, and National Association of City Transportation Officials guidance).

TR-P4.4. Manage access points along arterial and collector roadways to minimize the number of new driveway or street-type intersections. Consolidate existing street and driveway intersections to limit conflict points as opportunities arise.

Growth Management Element

GM-P3.2. Through the development review process, support accommodation of transit, bicycle, and pedestrian access for new development by applying the County Transportation Analysis Guidelines, Complete Streets Policy, Active Transportation Plan, and related best practices.

As indicated in the November 2025 Fehr & Peers transportation report, the analysis follows Contra Costa County's adopted guidelines and methods.

County Connection currently provides fixed-route and paratransit services throughout Pacheco and the rest of Contra Costa County. There are five bus stops within 0.1 mile of the project site, outlined in **Table 2.17-1**.

Table 2.17-1. Transit Stop Locations and Facilities

Direction	Nearest Bus Stop Location	Routes	Bus Stop Facilities
NB	Pacheco Boulevard, south of Center Avenue	18, 19, 98X, 316	Bus stop sign, shelter with bench
SB	Pacheco Boulevard, south of Center Avenue	18, 19, 28, 98X, 316	Bus stop sign, shelter with bench
WB	Center Avenue, west of Pacheco Boulevard	28	Bus stop sign
EB	Center Avenue, west of Blackwood Drive	28	Bus stop sign

Source: Fehr & Peers 2025.

Table 2.17-2 below provides service information for the County Connection transit lines.

Table 2.17-2. Transit Line Descriptions

Route	Major Destinations	Days of Operation	Hours of Operation	Headways (minutes)
18	Martinez Amtrak, Morello Avenue, Diablo Valley College, Gregory Lane, Pleasant Hill BART	Weekdays	6:00 a.m. to 9:30 p.m.	Every 80 minutes
19	Martinez Amtrak, Pacheco Boulevard, Concord BART	Weekdays	7:00 a.m. to 7:30 p.m.	Every 90 minutes
28	Martinez Amtrak, Contra Costa Regional Medical Center, Veteran Affairs Clinic, Diablo Valley College, Concord BART	Weekdays	6:45 a.m. to 6:30 p.m.	Every 50 minutes
98X	Martinez Amtrak, Contra Costa Regional Medical Center, Walnut Creek BART	Weekdays	5:30 a.m. to 7:45 p.m.	Every 45 minutes
316	Martinez Amtrak, Morello Avenue, Arnold Drive, Diablo Valley College, Pleasant Hill BART	Weekends	7:00 a.m. to 8:30 p.m.	Every 80 minutes

Source: Fehr & Peers 2025.

The project proposes no features which conflict with existing or planned transit services and increases in ridership above the available capacities are not expected.

Pedestrian facilities in the study area include sidewalks, crosswalks, and pedestrian signals. Crosswalks and pedestrian push-button actuated signals are provided at the signalized intersection of Center Avenue and Pacheco Boulevard. Nine-foot-wide sidewalks are provided on both sides of Pacheco Boulevard, and five-foot-wide sidewalks are provided on Center Avenue, except for the south side of the overcrossing of Grayson Creek.

The project reduces potential conflicts between vehicles and pedestrians through incorporation of sidewalks abutting the fire station along Center Drive that are 10-feet-wide and along Blackwood Drive that are five-feet-wide. However, Americans with Disabilities Act (ADA) compliant curb ramps are not detailed along the project site's frontage where crossings would occur. As the project is reconstructing these sidewalks, ADA curb ramps will be required in the southeast corner of the Center Avenue/Blackwood Drive intersection along the project frontage.

The project will install two bike racks that can accommodate four bikes. Bicycle access to the site would be provided via Center Avenue or Blackwood Drive.

Center Avenue provides a Class II bike lane west of Aspen Drive (north of Center Avenue) and a Class III bike route east of Pacheco Boulevard. Center Avenue has three proposed projects in the 2025 revised list of local projects within the 2018 Countywide Bike and Pedestrian Plan, as detailed in Table 2.17-3.

Table 2.17-3. Center Avenue Complete Street Project in 2018 Countywide Bicycle and Pedestrian Plan

Limits	Description	Bikeway Class
Blackwood Drive to Contra Costa Canal	Close sidewalk gaps, widen sidewalks, upgrade pedestrian crossings, and construct Class-IV separated bikeway. Potential for two-way cycle track on south side with fewer driveways and connection to trails. Narrow curb to curb roadway to calm traffic.	Class IV
Marsh Drive to Pacheco Boulevard	Improve this section of Pacheco Boulevard with complete streets type improvements including closing sidewalk gaps, installing Class-II bike lanes, provide improved lighting in highway overpass for pedestrian comfort and personal security	Class II
Pacheco Boulevard to Blackwood Drive	Improve this section of Pacheco Boulevard with complete streets type improvements including widening the Grayson Creek bridge and installing buffered bike lanes.	-

Source: Fehr & Peers 2025.

Project construction would be done in compliance with all applicable regulations, including the required installation of Americans with Disabilities Act (ADA) compliant curb ramps in the southeast corner of the Center Avenue/Blackwood Drive intersection along the project's frontage.

A Class IV bicycle facilities is planned along Center Avenue and construction of the project would not prohibit the County's ability to implement it. Through the County's Public Works Director review and approval, future roadways would be altered to accommodate the planned Class IV bicycle facility and fire station driveways. Because the project does not conflict with a program plan, ordinance, or policy addressing the circulation system, including transit, roadways, bicycle, and pedestrian facilities, the project would have a **less-than-significant impact**.

b) *Would the project conflict with or be inconsistent with State CEQA Guidelines Section 15064.3, subdivision (b)?*

State CEQA Guidelines Section 15064.3(b) sets forth the criteria for assessing a project's transportation impacts using vehicle miles traveled (VMT), defined as the "amount and distance of automobile travel attributable to a project." The vehicle miles traveled analysis for the proposed project follows Contra Costa County's adopted guidelines and methods which include metrics, thresholds, and screening criteria for evaluating a project's VMT impact. Land use projects that meet the screening criteria below are presumed not to cause significant VMT impacts and do not require a detailed VMT analysis:

- Projects that:
  - Generate or attract fewer than 110 daily vehicle trips.
  - Projects of 10,000 square feet or less of non-residential space or 20 residential units or less or otherwise generating less than 836 VMT per day.
- Residential, retail, office, or mixed-use projects located within half a mile of high-quality transit.
- Residential projects with home-based VMT at 85 percent or less of the baseline County-wide average or employment projects with employee VMT at 85 percent or less of the baseline Bay Area average in areas with low VMT that incorporate similar VMT-reducing features.

- Public facilities (e.g., emergency services, passive parks, libraries, community centers, public utilities) and government buildings.

The proposed project falls under the public facility VMT screening criteria as a local-serving emergency service. Therefore, the project would have a **less-than-significant impact**.

c) Would the project substantially increase hazards due to a geometric design feature (e g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?

Vehicle access to the project site will be provided via Center Avenue and Blackwood Drive. Up to 16 employee parking spaces and two bike racks would be provided behind the building, accessible from either Blackwood Drive or Center Avenue, through automatic gates. The front parking lot, accessible from Center Avenue, would have three visitor parking spaces. The project does not propose any hazardous design features such as sharp curves or dangerous intersections, or incompatible uses.

Sight distances were evaluated based on sight distance criteria contained in the Highway Design Manual (HDM) published by Caltrans. The recommended sight distance for the intersection of streets is based on corner sight distances, with more sight distance needed for a left turn versus a right turn. The corner sight distance criterion for private road intersections was applied for evaluation purposes. The HDM recommends an equation of D = 1.47 * V * T for corner sight distance, where "D" is corner sight distance, "V" is vehicle speed, and "T" is a time gap dependent on turning movement and design vehicles, which for a passenger car correlates to a "T" of 7.5 seconds for left turns and 6.5 seconds for right turns.

The posted speed limit along Center Avenue is 25 mph; Blackwood Drive does not have a posted speed limit and thus functions under the prima facie speed limit of 25 mph. Adding five mph to each speed limit, the corner sight distance for left-turning traffic is 330 feet and right-turning traffic is 290 feet for both roadways.

Drivers departing from the driveway on Blackwood Drive appear to have adequate sight distances for the conflicting southbound traffic; however, views of the northbound traffic could be obstructed by landscaping on the adjacent property. Drivers departing from the Center Avenue driveway appear to have adequate sight distance for eastbound conflicting traffic; however, views of the westbound traffic may be obstructed by the existing bridge railing.

Because of the posted speed limits and roadway configuration, the Project would not substantially increase traffic hazards. Therefore, the project would have a **less-than-significant impact**.

d) Would the project result in inadequate emergency access?

Several factors determine whether a project has enough access for emergency vehicles, including the following:

- Number of access points
- Width of access points
- Width of internal roadways

The project site has two access points, with driveways at Center Avenue and Blackwood Drive and internal roadways that are designed to accommodate fire engines. The project would provide adequate emergency vehicle access. Therefore, the project would have a **less-than-significant impact**.

Fehr & Peers. 2025. *Transportation Analysis for the Fire Station 9 Redevelopment Project (County Project No. WH728A)*. November 17, 2025.

2.18 Tribal Cultural Resources

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Cause a substantial adverse change in the significance of a tribal cultural resource, defined in Public Resources Code Section 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe and:	☐	☒	☐	☐
i) listed in or eligible for listing in the California Register of Historical Resources or in a local register of historical resources, as defined in Public Resources Code Section 5020.1(K), or				
ii) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1. In applying the criteria set forth in subdivision (c) of Public Resource Code Section 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.				

2.18.1 Discussion

a) Would the project cause a substantial adverse change in the significance of a tribal cultural resource, defined in Public Resources Code Section 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe and:

i) Listed in or eligible for listing in the California Register of Historical Resources or in a local register of historical resources, as defined in Public Resources Code Section 5020.1(K), or

ii) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1. In applying the criteria set forth in subdivision (c) of Public Resource Code Section 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.

As discussed in Section 2.3, Cultural Resources, the project would not have an impact on historical and non-tribal archeological resources.

In relation to tribal cultural resources, on July 22, 2024, HELIX requested that staff at the Native American Heritage Commission (NAHC) conduct a search of their Sacred Lands File (SLF) for the presence of Native American sacred sites or human remains in the vicinity of the project site. A written response received from the NAHC on July 30, 2024, stated that the results of the SLF search were positive. Therefore, the project would result in a potentially significant impact.

Costa Contra County conducted the tribal consultation for the project. Tribes that have previously requested to be notified of projects within Contra Costa County under AB 52, which requires public agencies to consult with tribes during the CEQA process, include Wilton Rancheria and

Confederated Village of Lisjan Nation (CVLN). CVLN requested consultation on February 4, 2025. Wilton Rancheria did not request consultation or provide information about resources.

The County and CVLN had a consultation meeting on March 25, 2025, and CVLN requested additional information about site records and project excavation depths. The County provided site record information and continued to correspond and consult with CVLN regarding the methods of resource investigation identification and avoidance, mitigation, and monitoring measures**.** Measures were agreed upon and consultation was concluded on November 19, 2025. Implementation of **Mitigation Measures TCR-1 and TCR-2 in addition to CUL-1** would require the presence of a Native American monitor when ground disturbance would occur within the agreed-upon environmentally sensitive area (ESA) and outline the process, responsibilities, and requirements of the County and CVLN in the event that potential tribal cultural resources are discovered. Therefore, the project would have a **less-than-significant impact with mitigation incorporated**.

Mitigation Measure TCR-1: Native American Monitoring.

- The ESA shall be established where excavation activities would occur in previously undisturbed soil.
- Prior to ground disturbing activities, a CVLN tribal monitor(s) shall be retained. Archaeological tribal monitoring by tribal monitor(s) shall be conducted during all ground disturbing activities within the boundaries of the Environmentally Sensitive Area. Monitoring may be reduced or halted at the discretion of the CVLN monitor, in consultation with the County Fire as warranted by conditions such as encountering bedrock, sediments being excavated are fill, negative findings during the first 50 percent of the entire area of ground disturbance, etc. If monitoring is reduced to spot checking, spot checking shall occur when ground disturbing activities moves to a new location within the project site and/or when ground disturbance will extend to depths not previously reached (unless those depths are within bedrock). The tribal monitor shall complete daily monitoring logs that provide descriptions of the day's activities, including construction activities, locations, soil, and any cultural materials identified.
- CVLN tribal monitor(s) will have the authority to halt and redirect work should any archeological or tribal cultural resources be identified during monitoring.
- If archeological or tribal cultural resources are encountered during ground disturbing activities, work within 100 feet of the find must halt and the find must be evaluated for listing in the CRHR and NRHP.

Mitigation Measure TCR-2. Unanticipated Discovery of Archaeological and/or Tribal Cultural Resources

- The Contractor shall be notified of the possibility of encountering archaeological and/or tribal Cultural materials during ground-disturbing activities. A standard inadvertent discovery clause will be included in every construction contract to inform Contractors of requirements during construction.
- Prior to the initiation of construction activities, a qualified archaeologist and tribal monitor shall provide Worker Environmental Awareness Program (WEAP) training to construction personnel with an overview of applicable laws, Project mitigation measures, and procedures

to be followed with regards to historical, archaeological, and tribal resources that may be encountered over the course of the project.

- Procedures for discovery include:
  - If potential archaeological and/or tribal cultural resources are encountered during construction, the contractor shall cease all ground disturbing activities within a 100-foot radius of the find and the find must be evaluated for listing in the CRHR and NRHP. The contractor shall immediately notify the County resident engineer or their designated representative to request a qualified archaeologist and a Confederated Villages of Lisjan Nation representative to assess the nature and significance of the find to determine if the find is a tribal cultural resource and thus significant under CEQA and/or the tribe. The archaeologist shall stake the area of discovery, placing stakes no more than 10 feet apart, forming a circle having a radius of no less than 100 feet from the point of discovery.
  - If the finding(s) is not determined to be potentially significant, work may resume. If the finding(s) is determined to be potentially significant, the archaeologist in consultation with the tribal representatives shall develop a mitigation plan outlining management of the resource, analysis, reporting of the find, and reburial of cultural items. The plan shall be implemented by the County in accordance with state guidelines and in consultation with the consulting tribe. The mitigation plan shall include avoidance of the resource or, if avoidance of the resource is not feasible, the plan shall outline appropriate treatment of the resource in coordination with the consulting tribe and, if applicable, a qualified archaeologist. Examples of appropriate mitigation for the tribal cultural resources include, but are not limited to, protecting the cultural character and integrity of the resources, protecting traditional use of the resources, protecting the confidentiality of the resources, heritage recovery, processing materials for reburial, minimizing handling of cultural objects, leaving objects in place within the landscape, construction monitoring of any further activities by a tribal representative, and/or returning the objects to a location within the project area where they will not be subject to future impacts. Preservation in place (i.e., avoidance) is typically the preferred manner of treatment of tribal resources and cultural items. Tribal cultural resources shall not be permanently curated, unless specifically requested by the tribe. Work may resume according to the recommendations in the mitigation plan.
  - Any previously undiscovered resources found during construction within the project site shall be recorded on appropriate California Department of Parks and Recreation (DPR) 523 forms and shall be submitted to Contra Costa County Department of Conservation and Development, the Northwest Information Center (NWIC), and the California Office of Historic Preservation (OHP), as required.

2.18.2 Sources of Information

2.19 Utilities and Service Systems

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Require or result in the relocation or construction of new or expanded water, wastewater treatment (for stormwater drainage), electric power, natural gas, or telecommunications facilities, the construction or relocation of which could cause significant environmental effects?	☐	☐	☒	☐
b) Have sufficient water supplies available to serve the project and reasonably foreseeable future development during official dry and multiple dry years?	☐	☐	☒	☐
c) Result in a determination by the wastewater treatment provider that serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?	☐	☐	☒	☐
d) Generate solid waste in excess of State or local standards, or in excess of the capacity of local infrastructure, or otherwise impair the attainment of solid waste reduction goals?	☐	☐	☒	☐
e) Comply with federal, state, and local management and reduction statutes and regulations related to solid waste?	☐	☐	☒	☐

2.19.1 Discussion

a) Would the project require or result in the relocation or construction of new or expanded water, wastewater treatment (for stormwater drainage), electric power, natural gas, or telecommunications facilities, the construction or relocation of which could cause significant environmental effects?

The project site is developed with a fire station and water, wastewater, electric/gas and telecommunication services are provided by the Contra Costa Water District (CCWD), Central Contra Costa Sanitary District (Central San), Pacific Gas & Electric, and Comcast.

The project would add six additional employees to the existing fire station staff, While the expanded (reconstructed) fire station would have an increase in demand for services proportionate to the increase in size and employees, the existing infrastructure is adequately sized to meet the increased demand and would involve only localized infrastructure improvements and connections to accommodate site development.

The existing electric pole on Blackwood Avenue would need to be relocated. Although there would be various upgrades and connections to the existing infrastructure that occurs within and surrounding the site, the extent of impacts would be examined in the context of the project as a whole (i.e., grading for utility trenches would be considered in overall grading plan). The project would not result in the need for new or expanded water, wastewater treatment or storm drainage, electric power, natural gas, or telecommunication facilities.

Utility and drainage relocations would be done in compliance with all applicable regulations and would not cause a significant environmental impact. Therefore, the project would have a **less-than-significant impact**.

b) Would the project have sufficient water supplies available to serve the project and reasonably foreseeable future development during official dry and multiple dry years?

The project site is located within the CCWD service area. The CCWD provides water to its service area through a combination of purchased imported water, groundwater, and recycled water. According to the most recent CCWD Water Management Plan (WMP), CCWD does not anticipate any supply deficits in normal years or single-dry years throughout the planning horizon however, CCWD may have supply shortfalls in future years of up to 15 percent of demand in the later years of a multiple dry year conditions (CCWD 2021). The WMP outlines the strategies for any potential supply shortfalls experienced during dry year conditions that include a combination of a short-term conservation program and/or short-term water purchases, consistent with the CCWD's future water supply study and includes the purchase of additional water supply if necessary to meet the water supply reliability goal.

The project site currently supports a fire station, and the project would not introduce a new use that would alter the pattern of water usage. Although demand may increase incrementally with the increase of employees housed at the site, this increase would be countered with the installation of improved infrastructure (e.g., water efficient plumbing) to meet LEED Silver standards and drought-resistant landscaping.

Moreover, fire protection is a priority, and in the event that CCWD determined that the ordinary demands and requirements of water consumers within the service area cannot be satisfied without depleting the water supply to the extent that there would be insufficient water for human fire protection, in accordance with the California Water Code, conservation efforts are required to be implemented (as outlined in the WMP). Therefore, the project would have a **less-than-significant impact**.

c) Would the project result in a determination by the wastewater treatment provider that serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?

As noted in 2.19.1(a), the project would not be expected to produce an unmanageable added capacity demand on the wastewater system, nor interfere with existing facilities. Therefore, the project would have a **less-than-significant impact**.

d) Would the project generate solid waste in excess of State or local standards, or in excess of the capacity of local infrastructure, or otherwise impair the attainment of solid waste reduction goals?

During construction, the project would generate waste as part of normal construction activities and from the demolition of the existing structure. In accordance with the County's CALGreen Construction and Demolition Debris Recovery Program, the County requires that at least 65 percent of construction and demolition debris be reused, recycled or otherwise diverted from a landfill. In accordance with CALGreen, the project conditions of approval will include that the construction contractor provides a construction and demolition plan prior to the issuance of demolition and grading permits and provide post-project documentation.

The project site currently supports a fire station, and the new station, which would include six additional employees, may generate additional waste. However, the waste from six additional employees would be a negligible change to the waste stream in type or quantity that would negatively affect waste services and could be managed by the existing provider and facilities. Republic Services provides solid waste collection, disposal, recycling, and yard waste services for

the project site and the project would include three-stream collections (trash, recycling, and organic waste).

Waste from the site is ultimately transferred to the Keller Canyon Landfill. Keller Canyon Landfill is 1,399 acres with 244 acres used for disposal. The landfill is permitted to accept 3,500 tons/day and the remaining capacity is 63,408,410 cubic yards. Based on the remaining capacity at Keller Canyon Landfill, sufficient capacity would be available to accommodate the project's solid waste needs. Therefore, the project would have a **less-than-significant impact**.

e) Would the project comply with federal, state, and local management and reduction statutes and regulations related to solid waste?

The proposed project would be required to comply with federal, state, and local waste reduction and recycling regulations, particularly those contained in the California Integrated Waste Management Act (Assembly Bill 939); Division 4.4, Material Conservation and Resource Efficiency, of CALGreen; and the City's Construction and Demolition Debris Recycling Ordinance.

The project would be LEED Silver equivalent. To receive the credits to achieve LEED certification, a project must demonstrate that waste reduction and management strategies have been incorporated into both construction and operation, Typical actions include diverting construction waste from landfills through recycling and reuse, reuse of existing and salvaged materials or using construction materials with high recycled content, dedicated recycling area, collection systems, and tracking ongoing waste generation and diversion during operation.

Therefore, the project would have a **less-than-significant impact**.

2.19.2 Sources of Information

Contra Costa Water District. 2021. *2020 Water Management Plan.* Available: 2020-https://www.ccwater.com/DocumentCenter/View/9851/2020-Urban-Water-Management-Plan-PDF Urban-Water-Management-Plan-PDF.

2.20 Wildfire

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
If located in or near state responsibility areas or lands classified as very high fire hazard severity zones, would the project:				
a) Substantially impair an adopted emergency response plan or emergency evacuation plan?	☐	☐	☐	☒
b) Due to slope, prevailing winds, and other factors, exacerbate wildfire risks, and thereby expose project occupants to, pollutant concentrations from a wildfire or the uncontrolled spread of a wildfire?	☐	☐	☐	☒
c) Require the installation or maintenance of associated infrastructure (such as roads, fuel breaks, emergency water sources, power lines or other utilities) that may exacerbate fire risk or that may result in temporary or ongoing impacts to the environment?	☐	☐	☐	☒
d) Expose people or structures to significant risks, including downslope or downstream flooding or landslides, as a result of runoff, post-fire slope instability, or drainage changes?	☐	☐	☒	☐

2.20.1 Discussion

a) Would the project substantially impair an adopted emergency response plan or emergency evacuation plan?

The County has not adopted an emergency response plan for the Pacheco area, and thus the project would not impair implementation of or physically interfere with such a plan. In addition, the project is designed to comply with County and Fire District standards for roadways and emergency vehicle access and compliance would be verified by both agencies prior to and after construction. Similarly, the project would not impact implementation of or physically interfere with an emergency evacuation system. The Emergency Alert System and Emergency Digital Information Service are the primary systems used to inform the public of emergencies and threats to health, safety, and welfare. These systems are electronic and operated by government agencies in conjunction with television and radio stations. In the event of an emergency, these systems are used to broadcast emergency information, such as evacuation alerts, across all radio and television stations in the affected area. Due to the electronic nature of these systems, there is no possibility they would be impacted by the project. Therefore, the project would have **no impact.**

b) Would the project due to slope, prevailing winds, and other factors, exacerbate wildfire risks, and thereby expose project occupants to, pollutant concentrations from a wildfire or the uncontrolled spread of a wildfire?

According to CAL FIRE's State Responsibility Area Fire Hazard Severity Zones Map, the project site is not within a Very High, High, or Moderate Fire Hazard Severity Zone and is not within or near a state responsibility area. The project site is flat and in an urbanized area subject to a Local Responsibility Zone (LRA) where a local agency bears responsibility for preventing and suppressing wildfires (CAL FIRE 2025a; 2025b). The project site is in Contra Costa County's Unincorporated Local Responsibility Area and is in an unzoned LRA; the local fire protection agency for the project site is the Contra Costa County Fire Protection District (CAL FIRE 2025b; Contra Costa County Fire Protection District 2025).

Redevelopment of the existing fire station would continue to address and respond to fires. As such, the project would not exacerbate wildfire risk and thereby expose occupants to pollutant concentrations from wildfire or the uncontrolled spread of a wildfire. Therefore, the project would have **no impact**.

c) *Would the project require the installation or maintenance of associated infrastructure (such as roads, fuel breaks, emergency water sources, power lines or other utilities) that may exacerbate fire risk or that may result in temporary or ongoing impacts to the environment?*

The project involves the redevelopment of an existing fire station in an urbanized area and therefore, would not require the installation of new water, power, and other utility connections. The project would be built in compliance with applicable state and local building, engineering, and environmental standards and regulations. Moreover, the project involves the construction of a fire station that would address and respond to fire risks in the area. Therefore, the project would have **no impact.**

d) *Would the project expose people or structures to significant risks, including downslope or downstream flooding or landslides, as a result of runoff, post-fire slope instability, or drainage changes?*

The project is limited to the construction of a replacement fire station on relatively flat ground where minor amounts of grading will occur. While the project site will be raised a couple of feet due to its location within a 100-year floodplain zone, drainage will be designed for flood flows. As discussed in Sections 2.7 (Geology/Soils) and 2.10 (Hydrology/Water Quality) of this IS/MND, the project, with the required regulatory adherence, would not expose people or structures to significant risks, including downslope or downstream flooding or landslides resulting from runoff, post-fire slope instability, or drainage changes. Therefore, the project would have **a less-than-significant impact.**

2.21 Mandatory Findings of Significance

	Potentially Significant Impact	*Less than Significant with Mitigation Incorporated*	*Less-than-Significant Impact*	*No Impact*
Would the project:				
a) Does the project have the potential to substantially degrade the quality of the environment substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?	☐	☒	☐	☐
b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)?	☐	☒	☐	☐
c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?	☐	☒	☐	☐

2.21.1 Discussion

a) Does the project have the potential to substantially degrade the quality of the environment substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?

As described in Section 2.4, Biological Resources, no special-status plant species were observed during the field survey. Because they are not expected to occur on the project site due to a lack of suitable habitat the project would have no impact on plants or plant communities. However, there is moderate potential for special-status wildlife species including western burrowing owl (*Athene cunicularia*), Swainson's hawk (*Buteo swainsoni*), and white-tailed kite (*Elanus leucurus*), as well as non-special-status migratory or nesting birds protected by the MBTA, such as red-tailed hawk (*Buteo jamaicensis*), mourning dove (*Zenaida macroura*), and savannah sparrow (*Passerculus sandwichensis*), to occur on the project site. Project construction would result in the loss of suitable habitat and construction activities may result in injury, mortality, or disruption of normal behaviors if these species are present. In addition, project operations and the associated presence of humans, vehicles, and permanent nighttime lighting may result in injury, mortality, or disruption of normal behaviors for special-status wildlife. Implementation of **Mitigation Measures BIO-1 through BIO-3** would require pre-construction surveys for burrowing owl, nesting Swainson's hawks, and non-special-status migratory and nesting birds, which would also detect any white-tailed kites nesting in the site vicinity, and avoidance measures and construction monitoring would be required if the species is present. Therefore, the project would have a **less-than-significant impact with mitigation incorporated**.

Section 2.5, Cultural Resources; Section 2.7, Geology/Soils; and Section 2.18, Tribal Cultural Resources, indicate that the project would not disturb any known historical or prehistoric resources.

However, as described in Sections 2.5, 2.7, and 2.18, project construction could discover historical or prehistoric resources, including human remains, if present within the project site, a potentially significant impact. Implementation of **Mitigation Measures CUL-1, GEO-1, and TCR-1**, which outline the course of action if historical, prehistoric, and human remains are discovered, would reduce the project's potential impact on unknown examples of the major periods of California history or prehistory to a **less-than-significant impact with mitigation incorporated**.

b) *Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)?*

The County has not identified any cumulative projects within the project area.

Implementation of the proposed project would not result in individually limited, but cumulatively considerable significant impacts. As discussed under item 2.3.1.b, the project's emissions of criteria pollutants would not exceed the Air District screening thresholds. Therefore, the project's operational activities would not result in a cumulatively considerable net increase of criteria pollutants that would violate any air quality standard or contribute substantially to an existing or projected air quality violation. Similarly, the project would have a less-than-significant impact in relation to GHG, which is inherently discussed in terms of cumulative impacts.

All resource topics associated with the project have been analyzed in accordance with State CEQA Guidelines and found to pose no impact, less-than-significant impact, or less-than-significant impact with mitigation incorporated. Potential cumulative projects that could be constructed in the vicinity of the project would be required to comply with existing applicable federal, state, and local regulations. Therefore, the project would have a **less-than-significant cumulative impact with mitigation incorporated**.

c) *Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?*

The project would not consist of any uses or activities that would negatively affect any people in the vicinity. In addition, resource topics associated with the project have been analyzed in accordance with CEQA and the State CEQA Guidelines and found to pose no impact, less-than-significant impact, or less-than-significant impact with mitigation. As discussed in Sections 2.3 and 2.9 of this Initial Study, there are no concerns in relation to air quality that cannot be mitigated (see **Mitigation Measure AQ-1**), no concerns from past activities at the site, and no present hazardous materials and/or wastes concerns have been identified. No potential land use consistency conflicts related to noise impacts that would impact human beings and cannot be mitigated to less than significant have been identified (see **Mitigation Measures NOI-1** and **NOI-2**). Consequently, the project would not result in any environmental effects that would cause substantial adverse effects on human beings directly or indirectly.

With implementation of the identified mitigation measures in this Initial Study, the proposed project would not have environmental effects that would directly or indirectly cause substantial adverse effects on human beings. All identified mitigation measures will be included in the conditions of approval for this project, and the project sponsor will be responsible for implementation of the measures. As a result, there would not be any environmental effects that would directly or indirectly cause substantial adverse effects on human beings. Therefore, the project would have a **less-than-significant impact with mitigation incorporated**.

Mitigation Monitoring and Reporting Program for the ~~Draft~~ Final IS/MND

The following Mitigation Monitoring and Reporting ~~Plan~~ Program (MMRP) will be implemented as part of the Fire Station 9 Redevelopment Project. Contra Costa County Fire Protection District (CCCFPD) is responsible for ensuring these measures are implemented by CCCFPD staff and by Contractors working on behalf of CCCFPD.

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
Impact AQ-b: Project construction would create fugitive dust emissions.	**Mitigation Measure AQ-1: Implement the Air District's Basic Best Management Practices for Construction-Related Fugitive Dust Emissions** The project sponsor shall require its contractor(s) to implement the *Basic Best Management Practices for Construction-Related Fugitive Dust Emissions* recommended by the Air District. The emissions reduction measures shall include, at a minimum, the following practices. • All exposed surfaces (e.g., parking areas, staging areas, soil piles, graded areas, unpaved access roads) shall be watered two times per day. • All haul trucks transporting soil, sand, or other loose material off-site shall be covered. • All visible mud or dirt track-out onto adjacent public roads shall be removed using wet power vacuum street sweepers at least once per day. The use of dry power sweeping is prohibited. • All vehicle speeds on unpaved roads shall be limited to 15 mph. • All roadways, driveways, and sidewalks to be paved as soon as possible. Building pads shall be laid as soon as possible after grading, unless seeding or soil binders are used. • All excavation, grading, and/or demolition activities shall be suspended when average wind speeds exceed 20 mph. • All trucks and equipment, including their tires, shall be washed prior to leaving the site. • Unpaved roads providing access to sites located 100 feet or more from a paved road shall be	During construction	Contractor and CCCFPD	CCCFPD	

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	treated with a 6- to 12-inch layer of compacted wood chips, mulch, or gravel. • Publicly visible signs shall be posted with the telephone number and name of the person to contact at the lead agency regarding dust complaints. This person shall respond and take corrective action within 48 hours. The Air District's general air pollution complaints number shall also be visible to ensure compliance with applicable regulations.				
Impact AQ-c: Project construction has the potential to expose sensitive receptors to substantial pollutant concentrations	**Mitigation Measure AQ-1: Implement the Air District's Basic Best Management Practices for Construction-Related Fugitive Dust Emissions**	During construction	Contractor and CCCFPD	CCCFPD	
Impact BIO-a: Project construction and operations have the potential to result in injury, mortality, or disturbance of normal behaviors of migratory and nesting birds, white-tailed kite, and special-status bats if present	**Mitigation Measure BIO-1: Avoid and Minimize Impacts on Nesting and Migratory Passerine Birds and Raptors** If project construction-related activities take place during the nesting season (February through August), preconstruction surveys for nesting passerine birds and raptors (birds of prey) within the project site and the large trees within the adjacent area will be conducted by a qualified biologist no more than five (5) days prior to the commencement of site grading or construction activities. The survey area (area of influence) shall include the project site and those adjacent areas within 250 feet of the project site. If any bird listed under the Migratory Bird Treaty Act is found	Prior to and during construction	Qualified biologist, Contractor, and CCCFPD	CCCFPD	

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	to be nesting within the project site or within the area of influence, an adequate protective buffer zone shall be established by a qualified biologist to protect the nesting site. This buffer shall be a minimum of 75 feet from the project activities for passerine birds, and a minimum of 200 feet for raptors. The distance shall be determined by the competent biologist based on the site conditions (topography, if the nest is in a line of sight of the construction and the sensitivity of the birds nesting). The nest site(s) shall be monitored by a qualified biologist periodically to see if the birds are stressed by the construction activities and if the protective buffer needs to be increased. If an active nest is located in a tree or shrub designated for removal, the removal shall be deferred until the young are no longer dependent on the nest site, as determined by a qualified biologist. Once the young have fledged and are flying well enough to avoid project construction zones (typically by August), the project can proceed without further regard to the nest site(s). **Mitigation Measure BIO-2: Avoid and Minimize Impacts on Roosting Bats** To avoid take of roosting bats, a preconstruction survey of buildings to be demolished or trees to be trimmed or removed shall be conducted prior to the start of by a qualified wildlife biologist in accordance with *Caltrans Bat Mitigation: A Guide to Developing Feasible and Effective Solutions* (Johnston et al. 2019). If special-status roosting bats are found, an avoidance or mitigation plan prepared by a qualified wildlife				

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	biologist shall be developed and implemented to avoid take of roosting bats. Avoidance measures may include conducting construction, demolition, tree-trimming or tree-removal outside of hibernation and maternal roosting time periods (April 1 through October 31) and excluding bats from buildings after they have left the roost to forage at night by closing entrances.				
Impact CUL-b: The project has the potential to disturb unknown subsurface cultural resources during construction.	**Mitigation Measure TCR-1: Native American Monitoring.** • The ESA shall be established where excavation activities would occur in previously undisturbed soil. • Prior to ground disturbing activities, a CVLN tribal monitor(s) shall be retained. Archaeological tribal monitoring by tribal monitor(s) shall be conducted during all ground disturbing activities within the boundaries of the Environmentally Sensitive Area. Monitoring may be reduced or halted at the discretion of the CVLN monitor, in consultation with the County Fire as warranted by conditions such as encountering bedrock, sediments being excavated are fill, negative findings during the first 50 percent of the entire area of ground disturbance, etc. If monitoring is reduced to spot checking, spot checking shall occur when ground disturbing activities moves to a new location within the project site and/or when ground disturbance will extend to depths not	Prior to and during construction	CCCFPD	Monitor and CCCFPD	

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	previously reached (unless those depths are within bedrock). The tribal monitor shall complete daily monitoring logs that provide descriptions of the day's activities, including construction activities, locations, soil, and any cultural materials identified. • CVLN tribal monitor(s) will have the authority to halt and redirect work should any archeological or tribal cultural resources be identified during monitoring. • If archeological or tribal cultural resources are encountered during ground disturbing activities, work within 100 feet of the find must halt and the find must be evaluated for listing in the CRHR and NRHP.				
Impact CUL-c: There is the potential to unearth unknown human remains,	**Mitigation Measure CUL-1: Procedures for Discovery of Human Remains** • In the event of the accidental discovery or recognition of any human remains, there shall be no further excavation or disturbance within 100 feet of the remains. The Contra Costa County Coroner will be contacted immediately to determine whether the remains are Native American and if an investigation of the cause of death is required. At the same time, an archaeologist shall be contacted to assess the situation. • If the Coroner determines the remains may be those of a Native American, the Coroner shall contact the Native American Heritage	During construction	Contractor, Monitor, and CCCFPD	Monitor and CCCFPD	

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	Commission (NAHC) by telephone within 24 hours of this identification. The NAHC shall identify a Most Likely Descendant (MLD) to inspect the site and provide recommendations for the proper treatment of the remains and associated funerary objects. • Once NAHC identifies the MLD, the tribe shall make every effort to recommend keeping ancestral remains and funerary objects in situ and protected. If removal of burials is necessary, tribal representatives shall work with the qualified archaeologist to ensure that excavation and documentation are treated carefully, ethically, and respectfully. No photography or testing shall be conducted on Native American human remains. All bone, if not identifiable as human or animal, shall be treated as human remains and the appropriate protocols followed. The archaeologist shall recover information, AS appropriate and in accordance with the recommendations of the MLD and/or tribal representative. The archaeologist shall prepare a report of all activities, including the recommendations for the treatment of the human remains and any associated funerary objects as provided by the MLD. The report shall be submitted to the County, the Northwest Information Center, and the tribe. • Tribal representatives shall rebury the Native American human remains and associated funerary objects with appropriate dignity either: 1) In accordance with the recommendations of the MLD if available; or 2) In the project vicinity at a location mitigated				

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	between the tribal representative and the County, where the reburial would be accessible to tribal members, protected in perpetuity, and would not be subject to further subsurface disturbance. The discovery is to be documented on DPR 523 forms and otherwise kept confidential and secure to prevent any further disturbance.				
Impact GEO-f: There is the potential during construction to disturb unknown unique paleontological resource or site or unique geological feature.	**Mitigation Measure GEO-1: Procedures for Paleontological Resources** Contractor(s) shall be notified of the possibility of encountering paleontological materials during ground-disturbing activities. A standard inadvertent discovery clause will be included in every construction contract to inform contractors of requirements during construction. Implement the following measures if potential unanticipated paleontological resources are discovered during project construction. • Contractor will be educated on the types of materials that may be encountered. • If an inadvertent discovery is made, the contractor will cease all ground-disturbing activities in the area of discovery. • The contractor will immediately notify the County who will then request a qualified paleontologist to evaluate the finding(s). • If the finding(s) is determined to be potentially significant, the archaeologist will develop a research design and treatment plan outlining management of the resource, analysis, and	Prior to and during construction	Qualified paleontologist, and CCCFPD	CCCFPD	

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	reporting of the find. Such plan may include data recovery and analysis, preparation of a final report, and the formal transmission or delivery of any fossil material recovered to a paleontological repository, such as the University of California Museum of Paleontology. If project activities cannot avoid the resources, the adverse effects will be mitigated in accordance with CEQA Guidelines Section 15126.4(b)(3). Upon completion of project activities, the final report will document methods and findings of the mitigation and be submitted to Contra Costa County and a suitable paleontological repository.				
Impact HAZ-b: Demolition of the existing structure has the potential to release hazardous materials into the environment,	**Mitigation Measure HAZ-1: Conduct a Hazardous Building Materials Survey prior to Demolition.** Prior to the issuance of any demolition permit, the applicant shall ensure that a Hazardous Building Materials Survey is conducted (or has been conducted) by a licensed contractor on the structure to be demolished. The survey shall identify the presence of hazardous building materials including asbestos-containing materials, lead-based paint, and PCBs. Should the survey determine that asbestos-containing materials, lead-based paint, or other hazardous building materials are present, the following actions shall be implemented by the applicant. • A Health and Safety Plan shall be developed by a certified industrial hygienist for potential asbestos-containing materials, lead-based paint, or other hazardous building materials risks present during demolition. The Plan	Prior to demolition	Contractor and CCCFPD	CCCFPD	

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	shall then be implemented by a licensed contractor. The Plan shall comply with federal OSHA and Cal/OSHA requirements. • Necessary approvals shall be acquired from Contra Costa County (by the licensed contractor) for specifications or commencement of abatement activities. Abatement activities shall be conducted by a licensed contractor. • Prior to demolition of building materials containing asbestos, the Air District shall be notified ten days prior to initiating construction and demolition activities. Section 19827.5 of the California Health and Safety Code requires that local agencies not issue demolition or alteration permits until an applicant has demonstrated compliance with notification requirements under applicable federal regulations regarding hazardous air pollutants, including asbestos. In addition: ○ Asbestos shall be disposed of at a licensed disposal facility to be identified by the licensed contractor. ○ The local office of the Cal/OSHA shall be notified of asbestos abatement activities. ○ Asbestos abatement contractors shall follow state regulations contained in 8 CCR 1529 and 8 CCR 341.6 through 341.14 where there is asbestos-				

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	related work involving 100 square feet or more of asbestos containing material. ○ Asbestos removal contractors shall be certified as such by the Contractors Licensing Board of the State of California.				
Impact LU-b: The project could conflict with a land use plan or policy	**Mitigation Measures AQ-1, BIO-1-, BIO-2, CUL-1, GEO-1, NOI-1, and NOI-2**	Prior to and during construction	Contractor and CCCFPD	CCCFPD	
Impact NOI-a: Construction equipment noise could generate noise more than standards.	**Mitigation Measure NOI-1: Implement Noise Control Practices During Construction** The project sponsor shall require its contractor(s) to implement noise control practices during demolition and construction to minimize noise levels in the community. Best practices to minimize construction noise include the following: • Locating stationary equipment (e.g., generators, pumps, cement mixers, idling trucks) as far as possible from noise-sensitive land uses. • Requiring that all construction equipment powered by gasoline or diesel engines have sound-control devices such as exhaust mufflers that are at least as effective as those originally provided by the manufacturer and that all equipment be operated and maintained to minimize noise generation. • Preventing excessive noise by shutting down idle vehicles or equipment.	Prior to and during construction	Contractor and CCCFPD	CCCFPD	

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	• Using noise-reducing enclosures around noise-generating equipment. • Notifying adjacent residents in advance of construction work.				
Impact NOI-a: Construction equipment noise could generate noise more than standards.	**Mitigation Measure NOI-2: Design Noise Attenuation for the HVAC System and Emergency Generator Enclosure to Meet County Noise Standards** The project sponsor shall require its contractor(s) to implement this measure to ensure that operational noise levels shall not exceed the County standard of 1.5 dB above ambient DNLs levels found in the General Plan. This can be achieved through low-noise equipment specifications or acoustic treatments such as louvers or silencers. Verification noise monitoring shall be conducted to confirm that acoustic treatments will reduce operational noise to comply with the General Plan. The acoustic treatments for the HVAC system and emergency generator shall include, but are not limited to, the following: • Enclosing noise-generating mechanical equipment; • Installing relatively quiet models of air handlers, exhaust fans, and other mechanical equipment; • Using mufflers or silencers on equipment exhaust fans; • Orienting or shielding equipment to protect noise-sensitive receptors to the greatest extent feasible;	Prior to and during construction	Contractor and CCCFPD	CCCFPD	

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	• Increasing the distance between noise-generating equipment and noise-sensitive receptors; and • Placing barriers around the equipment to facilitate the attenuation of noise.				
Impact NOI-b: Construction activities could generate excessive vibration.	**Mitigation Measure NOI-3: Protect Adjacent Buildings/Structures and Vibration Monitoring During Construction** The project sponsor shall require its contractor(s) to implement a vibration management and monitoring plan during demolition and construction to 1) avoid project-related construction vibration damage to adjacent buildings and/or structures and 2) ensure that any such damage is documented and repaired. The vibration management and monitoring plan shall include the following components, as applicable: • Pre-construction Survey. Prior to the start of any ground-disturbing activity, the project sponsor or its contractor(s) shall engage a structural engineer or other professional consultant with similar qualifications to undertake a pre-construction survey of the residential building just south of the project site that may be affected and document and photograph the existing conditions. • Use of Alternative Construction Equipment and Techniques. The plan shall identify potential alternative equipment and techniques that could be implemented if construction vibration levels are observed in excess of the established standard (e.g., smaller, lighter equipment could be used in some cases).	Prior to and during construction	Contractor and CCCFPD	CCCFPD	

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	• Buffer Distances. The plan shall identify buffer distances to be maintained, based on vibration levels and site constraints, between vibration-generating construction equipment and the potentially affected building and/or structure to avoid damage to the extent possible. • Maximum Vibration Level. Based on the anticipated construction and condition of the residential structure, a qualified acoustic/vibration consultant shall establish a maximum vibration level that shall not be exceeded at each building/structure on adjacent properties, based on existing conditions, character-defining features, soil conditions, and anticipated construction practices. • Vibration Monitoring. The plan shall identify the method and equipment for vibration monitoring to ensure that construction vibration levels do not exceed the established standards identified in the plan. Should construction vibration levels be observed in excess of the standards established in the plan, the contractor(s) shall halt construction and put alternative construction techniques identified in the plan into practice, to the extent feasible. If vibration has damaged nearby buildings, the structural engineer shall immediately notify the County and prepare a damage report documenting the features of the building and/or structure that have been damaged. • Periodic Inspections. The plan shall identify the intervals and parties responsible for				

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	periodic inspections. The structural engineer shall conduct periodic inspections of the residential structure (as allowed by property owner) during vibration-generating construction activity on the project site. The plan will specify how often inspections occur. • Repair Damage. The plan shall also identify provisions to be followed should damage to any building and/or structure occur due to construction-related vibration. The residential structure shall be remediated to pre-construction conditions (as allowed by property owner) at the conclusion of vibration-generating activity on the site.				
Impact PS-a: There is the potential for substantial adverse impacts associated with the provision of a new governmental facility (Fires Station)	**Mitigation Measures AQ-1, BIO-1, BIO-2, CUL-1, and GEO-1, NOI-1, NOI-2, and TCR-1**	Prior to and during construction	Contractor and CCCFPD	CCCFPD	
Impact TCR-a: There is the potential for an adverse change in the significance of unknown tribal cultural resources during construction.	**Mitigation Measure TCR-1: Native American Monitoring.** • The ESA shall be established where excavation activities would occur in previously undisturbed soil. • Prior to ground disturbing activities, a CVLN tribal monitor(s) shall be retained.	Prior to and during construction	Contractor, Monitor, and CCCFPD	Monitor and CCCFPD	

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	Archaeological tribal monitoring by tribal monitor(s) shall be conducted during all ground disturbing activities within the boundaries of the Environmentally Sensitive Area. Monitoring may be reduced or halted at the discretion of the CVLN monitor, in consultation with the County Fire as warranted by conditions such as encountering bedrock, sediments being excavated are fill, negative findings during the first 50 percent of the entire area of ground disturbance, etc. If monitoring is reduced to spot checking, spot checking shall occur when ground disturbing activities moves to a new location within the project site and/or when ground disturbance will extend to depths not previously reached (unless those depths are within bedrock). The tribal monitor shall complete daily monitoring logs that provide descriptions of the day's activities, including construction activities, locations, soil, and any cultural materials identified. • CVLN tribal monitor(s) will have the authority to halt and redirect work should any archeological or tribal cultural resources be identified during monitoring. • If archeological or tribal cultural resources are encountered during ground disturbing activities, work within 100 feet of the find must halt and the find must be evaluated for listing in the CRHR and NRHP.				

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	Mitigation Measure TCR-2. Unanticipated Discovery of Archaeological and/or Tribal Cultural Resources • The Contractor shall be notified of the possibility of encountering archaeological and/or tribal Cultural materials during ground-disturbing activities. A standard inadvertent discovery clause will be included in every construction contract to inform Contractors of requirements during construction. • Prior to the initiation of construction activities, a qualified archaeologist and tribal monitor shall provide Worker Environmental Awareness Program (WEAP) training to construction personnel with an overview of applicable laws, Project mitigation measures, and procedures to be followed with regards to historical, archaeological, and tribal resources that may be encountered over the course of the project. • Procedures for discovery include: o If potential archaeological and/or tribal cultural resources are encountered during construction, the contractor shall cease all ground disturbing activities within a 100-foot radius of the find and the find must be evaluated for listing in the CRHR and NRHP. The contractor shall immediately notify the County				

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	resident engineer or their designated representative to request a qualified archaeologist and a Confederated Villages of Lisjan Nation representative to assess the nature and significance of the find to determine if the find is a tribal cultural resource and thus significant under CEQA and/or the tribe. The archaeologist shall stake the area of discovery, placing stakes no more than 10 feet apart, forming a circle having a radius of no less than 100 feet from the point of discovery. o If the finding(s) is not determined to be potentially significant, work may resume. If the finding(s) is determined to be potentially significant, the archaeologist in consultation with the tribal representatives shall develop a mitigation plan outlining management of the resource, analysis, reporting of the find, and reburial of cultural items. The plan shall be implemented by the County in accordance with state guidelines and in consultation with the consulting tribe. The mitigation plan shall include avoidance of the resource or, if avoidance of the resource is not feasible, the plan shall outline appropriate treatment of the resource in coordination with the				

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	consulting tribe and, if applicable, a qualified archaeologist. Examples of appropriate mitigation for the tribal cultural resources include, but are not limited to, protecting the cultural character and integrity of the resources, protecting traditional use of the resources, protecting the confidentiality of the resources, heritage recovery, processing materials for reburial, minimizing handling of cultural objects, leaving objects in place within the landscape, construction monitoring of any further activities by a tribal representative, and/or returning the objects to a location within the project area where they will not be subject to future impacts. Preservation in place (i.e., avoidance) is typically the preferred manner of treatment of tribal resources and cultural items. Tribal cultural resources shall not be permanently curated, unless specifically requested by the tribe. Work may resume according to the recommendations in the mitigation plan. o Any previously undiscovered resources found during construction within the project site shall be recorded on appropriate California				

Impact	Mitigation Measure	Implementation Timing	Implementation Responsibility	Verification Responsibility	Compliance Verification Date
	Department of Parks and Recreation (DPR) 523 forms and shall be submitted to Contra Costa County Department of Conservation and Development, the Northwest Information Center (NWIC), and the California Office of Historic Preservation (OHP), as required.

Report Suspicious

Good afternoon,

My apologies for the confusion. Thank you for the clarification and have a good rest of your day!

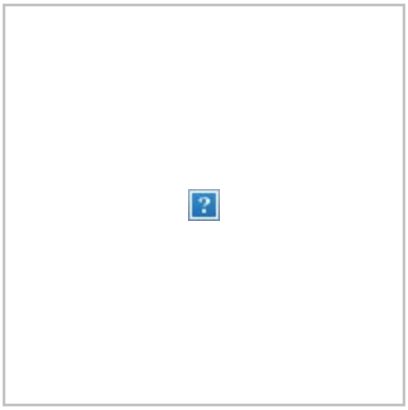
Uuha'yi (With Gratitude),

Jon Kunkel, Tribal Administrative Assistant
Confederated Villages of Lisjan Nation

On Wed, Apr 8, 2026 at 10:58 AM Sam Nichols <snich@cccfpd.org> wrote:

> Good Morning,
>
> Thank you for your comment and request for consultation. Please note that Contra Costa County conducted tribal consultation for this project on behalf of the Contra Costa County Fire Protection District in 2025 under AB 52. The County initially met with the Confederated Village of Lisjan Nation (CVLN) in March 2025 and agreed to mitigation measures for this project in November 2025. For more information about the results of the SLF request from the NAHC and CHRIS records search request, please see Section 2.18 (Tribal Cultural Resources) and Attachment C (Cultural and Historic Resource Evaluation) of the Draft IS/MND, which is available on our website at the following link: Fire Station 9 | Contra Costa County FPD, CA.

We will have a tribal monitor from CVLN present during ground disturbing activities within the boundaries of an Environmentally Sensitive Area (ESA). The ESA is still being developed and will include areas where excavation will occur in previously undisturbed soil. For more details about the mitigation measures for this project, please see Attachment G of the Draft IS/MND. Please let me know if you have any more. Thank you.



Respectfully,

Sam

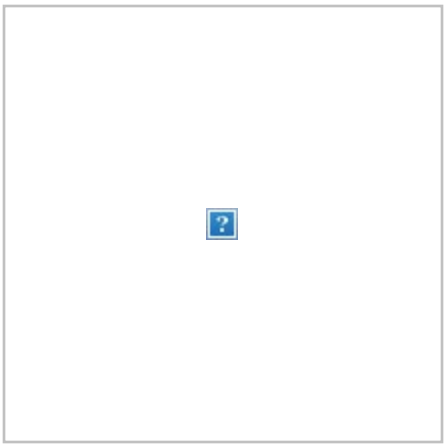
Report Suspicious



Good afternoon,

Thank you for your letter dated April 7, 2026, regarding the proposed project. Wilton Rancheria ("Tribe") is a federally recognized Tribe as listed in the Federal Register, Vol. 74, No. 132, p. 33468-33469, as "Wilton Rancheria of Wilton, California". The Tribe's Service Delivery Area ("SDA") as listed in the Federal Register, Vol. 78, No. 176, p. 55731,

is Sacramento County. The Tribe's Trust Lands are in Sacramento County however, the Tribe's ancestral territory spans from Sacramento County to portions of the surrounding Counties.

Wilton Rancheria has reviewed this project, and we currently have no concerns. We appreciate your continued outreach and/ or consultation in the future and respectfully request that you contact us if there are any project updates or changes.

Thank you,

Department of Cultural Preservation

Hi Christian,

The Flood Control and Water Conservation District has reviewed the Request for Comments for the Fire Station 9 Initial Study/Mitigated Negative Declaration in Pacheco (APN 125-073-003) and submits the following comment:

> The project proposes to raise the site grading by two feet due to floodplain constraints. The applicant should coordinate with the Engineering Services Division of Contra Costa County and associated Floodplain Manager to determine local impacts, if any, to the floodplain by elevating the project site.

Please feel free to contact us if you have any questions or need further clarification.

Thanks,
Thao

Subject: CEQA Notice | Fire Station 9 Redevelopment Project

Good morning all,

Please be advised that Contra Costa County Fire Protection District filed the Notice of Intent to adopt a proposed Mitigated Negative Declaration for the Fire Station 9 Redevelopment Project with the County Clerk on 4/2/26 and State Clearinghouse on 4/1/26.

The IS/MND is available online with the following link: Fire Station 9 | Contra Costa County FPD, CA

The 20-day public review period for the IS/MND began on April 2, 2026 and will end on April 22,

2026.

Sincerely,

Christian Montoya, AICP

General Response to Comments on Fire Station 9 Redevelopment Initial Study and Mitigated Negative Declaration (IS/MND)

Public comments received on a mitigated negative declaration (MND) do not require formal, point by point, responses as done with an environmental impact report (EIR). Staff is providing the following general responses to aid the Contra Costa County Fire Protection District's (CCCFPD's) Board of Directors in evaluating the comments received and attached to the main staff report.

Comment #1: Request for Consultation, Records Search Results, and Cultural Resources Reports from the Confederated Villages of Lisjan Nation

Response to Comment #1: The Confederated Villages of Lisjan Nation (CVLN) requested tribal consultation, records search results, and cultural resource reports for this project as well as additional details about the proposed ground disturbance for this project. Tribal consultation with CVLN occurred in 2025 under AB 52 consultation and as a result appropriate mitigation measures were agreed to and incorporated in the IS/MND and MMRP. CCCFPD respectfully let CVLN know they can find more information on the requests through the publicly available documents published during the public review period. No further comments or questions from CVLN occurred. No revisions to the Final IS/MND were made in response to this comment.

Comment #2: No Concern Comment and Request for Future Notification of Project Changes from Wilton Rancheria

Response to Comment #2: Wilton Rancheria responded with a comment of no concern and requested that if the project were to undergo updates or changes that Wilton Rancheria be contacted for additional outreach and/or consultation. CCCFPD would notify Wilton Rancheria if there are any project updates or changes. No revisions to the Final IS/MND were made in response to this comment.

Comment #3: Request for Additional Coordination from Contra Costa County Flood Control & Water Conservation District

Response to Comment #3: The Contra Costa County Flood Control & Water Conservation District commented that additional coordination with the Contra Costa County Engineering Services Division and associated Floodplain Manager should occur to determine if any local impacts to the floodplain by elevating the project site. CCCFPD will need an encroachment permit from the Engineering Services Division and Flood Control & Water Conservation District. Additional coordination to determine if any local impacts to the floodplain would be reviewed during each agency's encroachment permit process. Section 2.10.1(c)(iv) of the IS/MND was changed to clarify this additional coordination would occur during each agency's encroachment permit process.

State Clearinghouse Number (if submitted to State Clearinghouse): SCH #2026040087

Project Title: Fire Station 9 Redevelopment, Project No. WH728B

Project Applicant: Contra Costa County Fire Protection District, 4005 Port Chicago Highway, Suite 250, Concord, CA 94520, Contact: Sam Nichols, (925) 941-3300 ext. 1107

Project Location: 209 Center Avenue, Pacheco, CA 94553 (Assessor's Parcel Number: 125-073-003)

Project Description:

The proposed project would demolish and reconstruct an operational fire station on the same site (0.92 acre). The existing station, which was constructed in 1956, is outdated and unable to support the staff or equipment needed for a modern fire protection agency. The new fire station building would be larger than the fire station that currently exists. The current station is a 2,215-square-foot single-company, one-story station with two apparatus bays. The new structure would be an approximately 15,400-square-foot double-company, two-story station with three apparatus bays that would have a maximum height of 35 feet. The existing station has a three-person crew with one captain, one engineer, and one firefighter that works a 48-hour shift; it houses two fire engines.

The new fire station would include offices and crew quarters for up to nine firefighters during their 48-hour shifts and an apparatus bay for storing three fire engines when not on call. The office/crew quarters portion of the building would include a lobby area, a battalion chief's office, station office, nine dorm rooms, a kitchen, dining and day rooms, an exercise room, a laundry room, a communications/IT room, multipurpose room, and five restrooms. The apparatus bay would include turnout and washrooms, gear storage rooms, a restroom, storage and compressor rooms, and mechanical and electrical rooms. The project would comply with Leadership in Energy and Environmental Design (LEED) Silver standard requirements which provides a framework for healthy, efficient, and cost-effective green buildings.

The parcel would also be developed with paved areas for parking and an equipment yard for on-site vehicle cleaning and maintenance, along with two fuel tanks, an emergency generator, and a trash enclosure. In addition, landscaping and pedestrian walkways would be installed at the fire station entrance; stormwater retention basins would be installed within the landscaping throughout the parcel. Existing mature redwood trees at the corner of Center Avenue and Blackwood Drive would need to be removed from the project site. A 6-foot-tall privacy wall would be installed along Blackwood Drive, around the back of the property, and along Grayson Creek.

The project would require the following variance and exception:

- A front yard setback of approximately 4 to 10 feet is required.

Access, Circulation, and Parking

Fire engines would leave the station via Center Avenue and enter the station from Blackwood Drive. Three visitor parking spaces would be provided in the front parking lot that would be accessed from Center Avenue. Up to 16 employee parking spaces and two bike racks, for a total of four bikes, would be provided behind the building; these could be accessed from either Blackwood Drive or Center Avenue through automatic gates.

Site plans are attached.

Construction

Project construction is anticipated to begin in late 2026 and take approximately 17 months. The first phase of construction would involve demolition of the existing fire station, which would take approximately 2 months. Site preparation, including grading activities, would take approximately 1 month. Trenching and utility line preparation would then occur and take approximately 1 month to complete. Construction of the building and its interior would follow and take approximately 12 months to complete. Following building construction, site work, including paving and landscaping, would take approximately 2 months to complete. A total of 2,000 cubic yards of fill material is anticipated over the course of project construction.

This is to advise that the Contra Costa County Fire Protection District Board of Directors (☒ Lead Agency or ☐ Responsible Agency) has approved the above-described project on May, 12, 2026 and has made the following determinations:

1. The project [☐ will ☒ will not] have a significant effect on the environment.
2. ☐ An Environmental Impact Report (EIR) was prepared for this project pursuant to the provisions of CEQA.
   ☒ A Mitigated Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [☒ were ☐ were not] made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan [☒ was ☐ was not] adopted for this project.
5. A statement of Overriding Considerations [☐ was ☒ was not] adopted for this project.
6. Findings [☒ were ☐ were not] made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the Negative Declaration, is available to the General Public on the Contra Costa County Fire Protection District's website at https://www.cccfpd.org/427/Fire-Station-9 and in-person at:

Staff Report

File #: 26-2725 **Agenda Date:** 6/23/2026 **Agenda #:** C.77.

To: Board of Directors

From: California Tradewinds Geological Hazard Abatement District

Report Title: Adopt Resolution No. 2026-01 to approve the FY26-27 budget and to reflect a new payment limit for the GHAD General Manager pursuant to the Consulting Services Agreement

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

ADOPT California Tradewinds GHAD Resolution No. 2026-01 approving the GHAD budget for fiscal year 2026-27 and updating GHAD General Manager payment limit pursuant to the Consulting Services Agreement.

FISCAL IMPACT:

The GHAD is funded 100% through real property assessments levied on properties within the GHAD.

BACKGROUND:

On June 10, 1997, the Contra Costa County Board of Supervisors adopted Resolution 97/297 approving the formation of the GHAD and appointed itself to serve as the GHAD Board of Directors. The GHAD includes a GHAD General Manager (Sands Construction), GHAD Clerk/Attorney (Fennemore LLP) and a GHAD Treasurer (Laffer Tengler Investments) all appointed by the GHAD Board of Directors.

The GHAD Board adopts a budget for the GHAD operations each fiscal year. The GHAD Board is being requested to adopt the fiscal year budget for 2026/2027 as prepared by the GHAD General Manager which is attached to Resolution No. 2026/01. The proposed fiscal year budget totals $26,420.00.

In addition, the GHAD Board is being requested to update the GHAD General Manager payment limit under the existing Consulting Services Agreement as required by that Agreement. The budget attached to Resolution No. 2026/01 identifies that limit at $18,000.

CONSEQUENCE OF NEGATIVE ACTION:

The GHAD will not be able to continue to operate starting July 1, 2026 if the budget is not approved.

THE BOARD OF DIRECTORS OF CALIFORNIA TRADEWINDS GEOLOGIC HAZARD ABATEMENT DISTRICT

Adopted this Resolution on June 23, 2026, by the following vote:

AYES:

NOES:

ABSENT:

ABSTAIN:

RESOLUTION NO. 2026/01 (ANNUAL BUDGET AND UPDATING GHAD MANAGER PAYMENT LIMITS)

SUBJECT: Adopting 2026/2027 annual budget and updating GHAD General Manager payment limits under the existing Consulting Services Agreement.

WHEREAS, on June 10, 1997, the Contra Costa County Board of Supervisors adopted Resolution 97/297 approving the formation of the California Tradewinds Geologic Hazard Abatement District ("GHAD") and appointed itself to serve as the GHAD Board of Directors.

WHEREAS, the GHAD Board of Directors desires to adopt the budget for the fiscal year 2026/2027 prepared by the GHAD Manager, Sands Construction Company, Inc., in the amount of $26,420.00 attached hereto as **Exhibit A**.

WHEREAS, on October 7, 2014, pursuant to Resolution No. 2014/02, the GHAD Board approved the consultant services agreement with Sands Construction Company, Inc. to act as General Manager for the GHAD. This agreement, in section 3, requires the GHAD Board to determine by resolution each fiscal year the payment limits for GHAD General Manager services. The budget attached in **Exhibit A** identifies this limit at $18,000.00.

WHEREAS, the GHAD General Manager recommends that the GHAD Board review and approve the fiscal year budget for 2026/2027.

The Board of Directors of the GHAD HEREBY RESOLVES THAT:

1. The GHAD Board approves the GHAD budget for the 2026/2027 fiscal year of $26,420.00 attached as **Exhibit A** and incorporated herein by this reference.

2. The GHAD Board adopts the payment limit for the GHAD General Manager services at $18,000.00 for fiscal year 2026/2027 as set forth in **Exhibit A** and incorporates this payment limit into the Consulting Services Agreement.

3. The recitals are incorporated herein by this reference.

This Resolution shall become effective immediately upon its passage and adoption.

Exhibit A – 2026/2027 Annual Budget

CALIFORNIA TRADEWINDS
GEOLOGIC HAZARD ABATEMENT DISTRICT

Program Budget

FISCAL YEAR 2026-2027

APRIL 2026

CA Tradewinds GHAD Board of Directors
c/o Supervisor Shanelle Scales-Preston
190 E. 4th Street
Pittsburg, California 94565

SUBJECT: Program Budget for Fiscal Year 2026-2027
CA Tradewinds Geologic Hazard Abatement District

Dear Board Members:

Attached is the proposed program budget for the California Tradewinds Geologic Hazard Abatement District ("CA Tradewinds GHAD," "GHAD," or "District") for fiscal year 2026–2027. The proposed budget reflects the District's continued focus on risk-based prioritization, preventive maintenance, and long-term infrastructure management.

The budget is organized into four primary categories: Major Projects, Preventive Maintenance and Operations, Special Projects, and Administration, Legal, and Accounting. These programs collectively support the District's responsibility to prevent, mitigate, abate, and control geologic hazards in accordance with the Plan of Control. The FY2026/2027 anticipates a surplus of $1,554 annual revenue producing a contribution to the Reserve Fund.

BACKGROUND:

On June 1, 1997, the Contra Costa Board County of Supervisors adopted Resolution 97/297 approving the formation of the California Tradewinds Geologic Hazard Abatement District (CA Tradewinds GHAD), located in the hills of Bay Point within the jurisdiction of Contra Costa County. The CA Tradewinds GHAD was formed pursuant to State Public Resources Code § 26500 et seq. The Board of Supervisors at that time appointed itself as the Board of Directors of the CA Tradewinds GHAD.

Resolutions 98/194 adopted on April 21, 1998, by the Board of Supervisors, acting as the CA Tradewinds GHAD Board, confirmed the assessments for the District and ordered the collection

of the amounts called for in the Assessment Report. The initial fiscal year for the CA Tradewinds GHAD was established as 1998-1999.

A 17-lot subdivision also completed in Bay Point known as Savana Seabreeze II was annexed in 2008 to the CA Tradewinds GHAD. The Final Map was filed in 2013. Assessments are currently assessed on all the planned 19 parcels. Pursuant to the Plan of Control provisions[1] maintenance responsibilities have been provided by the Savona developer. In late October of 2016 the developer, DeNova Homes, applied to begin the transfer process pursuant to the Plan of Control[2]. Transfer of maintenance responsibilities was completed on February 6, 2021.

As a percentage of the budget, this year the Major Projects Program is not anticipating a Major Project and therefore funds have not been allotted in advance of this program.

The Preventive Maintenance Program will focus on efforts to complete asset site restorations. The program will pursue analysis and upgrades to instrument and asset sites and the associated data collection to ensure all predictive features of these instrumentation sites are fully realized. Specifically, we will continue to address in-field data collection identifying and responding the following program elements - Concrete Interceptor Ditch Systems (Repair and Replace Program); and the Soil Debris Bench/Bio swale (Maintenance Program).

The Operations Program will continue its existing monitoring profile through this period, and continue to review accumulated empirical data from monitoring assets to further expose any notable trending or performance data that might occur over significant periods of time, thereby reducing risk exposure. Currently, the National Oceanic and Atmospheric Administration (NOAA) predicts a strong probability of El Niño conditions in the Southern Oscillation; however, early probability forecasts have often changed throughout the summer months.

The Special Projects Program will be directed, in part, to analyzing the Plan of Control and other essential documents that establish and direct the CA Tradewinds GHAD. Preliminary review will be initiated to assess the need to conduct a formal Reserve Study, which would serve to test, identify weaknesses, and expose any necessary adjustments to the criteria or methodologies utilized in the program and anticipate revenue and reserve demands. Additional studies may include assessing the feasibility of integrating a Geographic Information System (GIS) into the CA Tradewinds program.

This budget anticipates continued strengthening and building efficiencies within the Administration Program, by developing and implementing an advanced Information Technology (IT) system, data security and Content Management System (CMS). As managers, in close association with the GHAD Treasurer (Laffer Tengler Investments), we corporately monitor and project significant short-term and long-term financial impacts on GHAD reserves and compare such impacts with our reserve study in progress.

[1] First Amendment to California Tradewinds Geologic Hazard Abatement District – Dated 10/07/2007: Revised 8/08/2008 – Exhibit C (3)
[2] First Amendment to California Tradewinds Geologic Hazard Abatement District – Dated 10/07/2007: Revised 8/08/2008 – Exhibit C (5)

General legal counsel will continue to be provided by the CA Tradewinds GHAD Board appointed attorney, Patricia Curtin of Fennemore, Wendel, LLP.

A summary of the expenses is shown on Table 1, followed by brief descriptions of each of the budget items.

Respectfully yours,

CA Tradewinds Geologic Hazard Abatement District

CA Tradewinds Geologic Hazard Abatement District
Program Budget
Fiscal Year 2026/2027

The following proposed line-item program budget (Table 1) summarizes the anticipated expenditures for fiscal year 2026-2027 for the CA Tradewinds Geologic Hazard Abatement District ("CA Tradewinds GHAD", "GHAD" or "District"). Through an ongoing assessment, the manager evaluates and addresses geologic risk through the implementation of an annual program budget consisting of four major categories. Preceding Table 1, and directly below, is a general overview description of the four major program elements within the budget.

Major Projects Program

The annual Major Projects Program includes, landslide repair projects, drainage improvement projects and capital improvement projects necessary to either control, mitigate, or prevent landslide activity. Other large program responses necessary to implement the Plan of Control, including specific purpose studies and investigations, may also be included in the Major Projects Program.

Generally, for consideration of inclusion into the Major Projects Program, a project or study would represent a level of complexity requiring plans, specifications, and comprehensive engineering analysis including modeling and research, or a project with a protracted scope such as those requiring multiple regulatory agency approvals. Most Major Projects have a projected cost that exceeds $25,000.

Historically, a Major Projects Program has been comprised of significant landslide repair projects and other responsive large projects; at other times, it has included programmatic studies and investigations useful in generating proactive responses. This diversity of projects demonstrates the importance of a flexible Major Projects Program structure that adapts between responsive and proactive needs and capabilities to manage the dynamic nature of larger scale geologic events.

Preventive Maintenance and Operations Program

The annual Preventive Maintenance and Operations Program includes all minor repairs, cleanup, maintenance, monitoring and replacement of drainage structures and other assets that degrade over a serviceable life. The goal of preventive maintenance is to keep assets in operational condition and identify potential slope stability risks before they manifest, allowing measures to be taken to either prevent, or mitigate the impact of these hazards as defined in the CA Tradewinds GHAD Plan of Control.

Typical CA Tradewinds GHAD assets include concrete lined ditches, subdrainage systems, groundwater measuring instrumentation, slope inclinometers and moisture gauges, and slope debris catchment features.

The Preventive Maintenance Program also includes preparations for emergency response, winterization measures including erosion protection and slope stabilization supplies, and instrument maintenance.

The Operations Program is primarily populated with scheduled instrument monitoring events. Data from these instruments are evaluated to establish risk and trends to avert landslide activity. In addition to the instrumentation monitoring program, the Operations Program contains the Incident Response and Community Relations Program, which incorporates comprehensive first response capabilities, and fosters community incident interaction.

Special Projects

The CA Tradewinds GHAD pursues ongoing and new activities identified as "Special Projects." Special Projects include activities requested by the Board such as the Communications Program, or projects and studies designed to improve the District's operational effectiveness and insure financial solvency. Special Projects also include utilizing new technologies to increase the efficiencies of the day-to-day operations.

Administration

Administrative expenses are required to operate the CA Tradewinds GHAD and implement projects. Administrative expenses include personnel and consultants to manage the operations including, the General Manager, Administrative Manager, Construction Services Manager, certain clerical and accounting staff, consultants, and legal support.

General Manager Program Budget FY26/27 $ 18,000.00

The scope of services for the General Manager includes, managing the day-to-day operations through implementation of the necessary financial recordkeeping and reporting; updating and maintaining governing documents, such as the Plan of Control; and managing and updating administrative tools such as the Reserve Study, Communications Plan, Work Program and Monthly Incident Log. The General Manager Consulting Services Agreement provides for certain administrative positions including but not limited to; a General Manager, an Administrative Manager, a Construction Services Manager and a Network Administrator as well as overhead costs, such as office space rent, office supplies and postage.

With respect to the Operations of the CA Tradewinds GHAD, the scope of services for Operations includes, implementing the Major Projects and Preventive Maintenance Programs through forecasting work schedules and priorities, preparing Requests for Proposals, and managing maintenance and repair operations within the Major Projects and Preventive Maintenance Programs. These services include project management and construction management and preparing for and responding to emergency incidents.

The General Manager will retain the necessary professionals, including without limitation, engineers, accounting professionals, and vendors to facilitate the operations of the CA Tradewinds GHAD. The General Manager Consulting Services Agreement, and associated budget, allows for the conditional use of subcontractors such as administrative sub-consultants and engineering or construction sub-consultants, within the payment limits of the Consulting Services Agreement.

A summary of the proposed Fiscal Year 2026-2027 Budget is presented in Table 1 on the following pages, followed by brief descriptions of each of the budget items.

Table 1 – Summary of Fiscal Year 2026/2027 Budget

Budget Item	Budget Amount	% of Total Budget
Major Projects		
	$ -	
No Scheduled Major Projects	$ -	
	$ -	
Total Major Projects	**$ -**	**0%**

Preventive Maintenance/Operations		
Preventive Maintenance		
Drainage	$ -	
Storm Drain Facilities – Bio-swales	$ 3,500

DESCRIPTION OF BUDGET ITEMS

Major Projects

No Anticipated Major Projects

Preventive Maintenance and Operations

Preventive Maintenance

Preventive maintenance generally consists of those measures taken to prevent an incident or landslide event including, asset maintenance, drainage structures, instrument sites and winterization measures. Operations include ongoing monitoring programs and responses to community requests. Details of the proposed budget for each of these categories are listed below.

Storm Drain Facilities – Bio-swales (Major Repairs)

In addition to other drainage systems such as Concrete Interceptor Ditches, Subdrains, and other surface and subsurface drainage systems, the CA Tradewinds GHAD maintains an inventory of concrete drainage structures that from time to time need refurbishment or repairs. A budget has been established to inspect these facilities and make any necessary repairs, not covered within the established *"B-58 Drain Systems – Repair and Replacement Program*" scope. No planned work on this project.

Estimated Budget $3,500

B-58 Drain Systems

Maintenance – Allows for one major annual cleaning and mapping. In addition, District staff periodically walks the B-58 systems and Bio-swales to get a first-hand account of the current conditions and project serviceable life. This information, along with other empirical data, is typically utilized in Reserve Study updates. With the extreme weather conditions last year and the related soil and vegetation load impacting the network of B-58 systems, we have anticipated and allowed for a greater effort to maintain proper drainage for these facilities over the fiscal year.

Estimated Budget $2,000

Repair and Replacement – A detailed assessment will be performed to establish the existing condition of the B-58 Concrete ditches throughout the District. This assessment will serve to establish a baseline for needed repairs and/or assessments as to the remaining serviceable life of these assets to be utilized in reserve study criteria. No planned work on this project.

Estimated Budget $0

Retention Basins

There is one retention basin within the District boundaries. This retention basin requires annual improvements and de-silting efforts. In FY17/18 improvements were made to the retention basin and again in FY24/25 limited cleaning and monitoring of performance is anticipated for FY25/26.

Estimated Budget $500

Subdrain Systems

Subdrain systems must be monitored, and maintenance provided to ensure the systems have not been damaged or impeded. No planned work on this project.

Estimated Budget $0

Horizontal Drains

There are no Horizontal Drains currently within the District.

Estimated Budget $0

Sub-drain Outlets

The CA Tradewinds GHAD is currently conducting efforts to identify, locate and make determinations about the effectiveness of the network of subdrains throughout the District. It is anticipated that on-site restoration work may be necessary at some sites. This additional work has been incorporated into this budget item.

Estimated Budget $0

Piezometers

There are no known piezometers currently within the District.

Estimated Budget $0

Settlement Monitors

There are no known inclinometers currently within the District.

Estimated Budget $0

Minor Repairs

No anticipated Minor Repairs

Estimated Budget $0

Winterization

The District provides an annual budget for procuring and storing an inventory of winterization materials and to provide for the costs of site installation. The District will procure materials as needed.

Estimated Budget $0

Emergency Response

During the winter rainy season, the CA Tradewinds GHAD prepares for and may respond to a range of urgent, active, or threatening landslides as well as drainage issues where property damage is threatened. These incidents typically involve mud or debris flows, plugged storm drains at the base of slopes or flooded properties due to the overflow of runoff from plugged or damaged facilities. In severe cases these responses can require the initiation of temporary slope stabilization measures in preparation for a major repair.

Estimated Budget $1,500

Debris Benches/Impact Walls/Bio-swales

Earthen debris benches exist throughout the District. It is essential that these facilities are inspected to ensure capacities and drainage have not been compromised. Annual inspections are made, and periodic debris removal plans are initiated. This year's budget allows for geotechnical evaluations and the periodic removal of accumulated debris from several of those benches identified during the study and routine monitoring events.

Estimated Budget $0

Operations

An inventory of on-site instrumentation including piezometers, inclinometers, horizontal drains, sub-drains and settlement monuments are monitored periodically throughout the year as a preventative measure.

Monitoring sites can be established for a variety of uses. Often completed repair sites require monitoring to confirm that the slope has been stabilized. Other sites have been utilized to indicate signs of unstable conditions developing and have been instrumental in determining slope conditions prior to the activation of a landslide.

Through the use of collected data such as groundwater depth, magnitude of slope movement, depth of movement and ground surface movement, the District has been able to arrest slope movement in advance of an incipient failure.

Throughout the year, the District receives incident response or assistance calls from property owners regarding slope stability or drainage issues. Community relations, including incident responses through the annual Operations Program has been institutionalized as a role of CA Tradewinds GHAD management. All incidents are recorded and move through the District response mechanisms as is appropriate and consistent with the CA Tradewinds GHAD Plan of Control.

The CA Tradewinds GHAD Manager receives updates in long-range weather and oceanic temperature changes through the National Oceanic and Atmospheric Administration (NOAA) and other scientific and atmospheric agencies that track data and produce probabilistic

assessments on the likelihood of a recurrence of El Niño conditions. El Niño conditions are projected for the 2nd and 3rd quarters of FY2026/27[3].

Estimated Budget $2,000

Special Projects

During fiscal year 2026/2027, the District will continue with special projects. Brief descriptions of the special projects are presented in Table 1 and further described below:

Plan of Control

It is anticipated that an evaluation and assessment of the current Plan of Control for the CA Tradewinds GHAD will be pursued to confirm operational compliance. Project costs will be applied to General Administration.

Estimated Budget $0

Reserve Study Assessment

A reserve study functions as a pro-forma analysis of the financial needs of the CA Tradewinds GHAD. It serves as a tool to calculate the annual contribution required by the District to build and maintain sufficient funds for emergencies and capital replacement programs based on past weather patterns, landslide repair costs, and general attrition. As a result of severe winters, draws will likely be necessary in the future on the reserve fund. Work is planned to evaluate and complete an analysis of the fund health and methodologies. This analysis will be used in establishing a pro-forma plan and provide instruction to CA Tradewinds GHAD management as to the necessary reserve demands over time. Project analysis costs will be applied to General Administration.

Estimated Budget $500

Special Studies

The CA Tradewinds GHAD intends to continue targeted studies in the areas of fiscal policy and geologic risk. The CA Tradewinds GHAD, now in its 29th year, has the unique opportunity to address many of the issues surrounding long-term viability and sustainability, within changing environment and financial conditions. Using empirical data, we can assess potentially increasing financial loads and geologic risks that may accompany the maturation process of this District. We are confident that these studies have produced and will continue to produce beneficial results. No planned work on this project.

Estimated Budget $500

[3] NOAA "El Nino/Southern Oscillation (ENSO) Diagnostic Discussion Climate Prediction Center/NCEP/NWS May 14, 2026

Information Systems and Technology

The CA Tradewinds GHAD will consider integrating a GIS system to include all of the GHAD's data collection and monitoring operations. The record and tool that this system offers facilitates the General Manager's ability to locate past repairs and assist in a variety of risk assessments within the District.

Estimated Budget $1,000

Geographic Information System – Feasibility Study

Recent GIS modernization study efforts including improved field reporting, incident tracking, asset management, and operational coordination through deployment of enhanced mobile and centralized data management tools utilizing GIS are undergoing a feasibility study continuing through FY26/27. Once viability has been determined the installation of a GIS system will be phased into operations on a phased basis.

Estimated Budget $500

Accounting System Upgrade

Periodic upgrades are necessary to enhance accounting system capabilities. The CA Tradewinds GHAD utilizes expense accounting software to assist in reporting and the day-to-day operation of the District. Continued accounting systems enhancements will be implemented allowing more data entry streamlining, enhanced reporting, and quality control assurance procedures, augmenting the current systems. Project costs will be applied to General Administration. No planned work on this project.

Estimated Budget $0

Tax Assessment Calculation

Each year an assessment calculation is conducted to identify and determine all qualified parcels within the District to receive assessments for CA Tradewinds GHAD services. Typically, the GHAD Manager will contract these assessments to a firm that specializes in these services. Historically, the CA Tradewinds GHAD has provided this information through its contracted consultant to the County Assessor's Office as required.

Estimated Budget $1,500

Communications Plan

The CA Tradewinds GHAD maintains a communications plan designed to keep constituents current on CA Tradewinds GHAD operations and developments. The plan addresses several venues and mediums used to disseminate information within this District, and to other concerned parties, and to establish clear and accessible channels for community interaction. The CA Tradewinds GHAD intends to implement a web page for public information and a multi-page informational brochure to be available to interested Homeowner Associations

(HOA) and stakeholders that describes the CA Tradewinds GHAD and its responsibilities and limitations. No planned work on this project.

Estimated Budget $0

Outreach/Legislative Review
California Association of GHADs (CAGHADs) Membership/Insurance

The proliferation of new GHADs within California has resulted in new legislation and adopted procedures. The CA Tradewinds GHAD Manager, in association with others, shares information and knowledge through a consortium of GHAD managers known as the California Association of GHADs (CAGHADs). The CAGHAD has recently obtained General Liability policies for its member GHADs. Policy premium costs for the CA Tradewinds GHAD are approximately $500.[4]. Additionally, the CA Tradewinds GHAD manager participates in the

CAGHADs as the organization pursues other financial instruments that may provide the CA Tradewinds GHAD additional options for extraordinary financial demand and planning. In 2016 the CAGHAD Board adopted a new fee schedule reducing the annual GHAD fees for membership by 50%.

Estimated Budget $800

Administration

The administration of the CA Tradewinds GHAD includes all costs associated with legal support, office expenses, staffing, and accounting. Brief descriptions are presented below.

Legal

General Counsel – CA Tradewinds GHAD management must interact regularly with CA Tradewinds GHAD Counsel. The day-to-day operations of the CA Tradewinds GHAD present myriad opportunities and issues to work directly with GHAD counsel, in the areas of contracts, agreements, issues or new business to present to the Board, legislation, property owner issues, etc.

Estimated Budget $1,000

Special Counsel – Typically Special Counsel consists of legal representation in the event of legal issues that might arise. Currently there are no legal issues involving litigation. No planned work on this project.

Estimated Budget $0

Staffing/Administrative Support

The CA Tradewinds GHAD staff includes the General Manager, an Operations Manager, an Administration Manager and frequently other support staff and consulting professionals. The

[4] A more comprehensive policy has been proposed but not approved to date with a modest premium increase.

General Manager administers all CA Tradewinds GHAD day-to-day operations, including financial budgeting and communications regarding its activities. The Operations Manager, among other tasks, administers the Major Projects and Preventive Maintenance Programs and associated work schedules, consulting and construction contracts, and documents. The administrative staff is responsible for accounting/bookkeeping, contract administration, clerical, and construction management support. Additional management staff costs are also applied to specific projects as appropriate. Authorized business expenses such as rent, office supplies and leases are included in Staffing.

Estimated Budget $11,120

CONTRA COSTA COUNTY

Staff Report

File #: 26-2726 **Agenda Date:** 6/23/2026 **Agenda #:** C.78.

To: Board of Directors

From: Wendt Ranch Geological Hazard Abatement District

Report Title: Adopt Resolution No. 2026-01 to approve the FY26-27 Annual Budget and to update the GHAD Manager payment limit pursuant to the Consulting Services Agreement.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

ADOPT Wendt Ranch GHAD Resolution No. 2026-01 adopting the GHAD budget for fiscal year 2026-27 and updating the GHAD Manager payment limit pursuant to the Consulting Services Agreement.

FISCAL IMPACT:

The GHAD is funded 100% through real property assessments levied on properties within the GHAD.

BACKGROUND:

On February 12, 2002, the Contra Costa County Board of Supervisors adopted Resolution 2002/59 approving the formation of the Wendt Ranch Geologic Hazard Abatement District ("GHAD") and appointed itself to serve as the GHAD Board of Directors. On July 15, 2005, the GHAD Board of Directors ("Board") adopted Resolution 2005/437 approving the annexation of the Alamo Creek and Monterosso developments into the GHAD. The most recent annexation occurred on August 3, 2021, with the Board's adoption of Resolution 2021/03, which approved the annexation of the Somerset development into the GHAD.

As part of the preparation for the GHAD's FY 2026/27 budget, the GHAD Manager reviewed the current GHAD reserves. The GHAD is ahead of its target rate of reserve accumulation forecast estimate in the approved 2002 and 2005 Engineer's Reports and 2008 Reserve Study for the Wendt Ranch, Alamo Creek, and Monterosso developments within the GHAD, therefore GHAD Staff is recommending an assessment levy less than the assessment limit for the Wendt Ranch, Alamo Creek, and Monterosso developments only for FY 2026/27, and prepared a budget that reflects a lower assessment levy for FY 2026/27.

Staff is providing this recommendation based on the following conditions.

• Unencumbered reserve funds collected from within the GHAD exceed the rate of target reserve accumulation estimated in the approved 2002 and 2005 Engineer's Report and 2008 Reserve Study

• Reserve funds collected from within GHAD exceed the dollar amount estimated for a large-scale repair

As provided in the approved Engineers' Reports, the assessment limits in each of the three developments (Alamo Creek, Monterosso, and Wendt Ranch) will continue to be adjusted for inflation annually. The proposed assessment levy is $466.04 per single-family residence for FY 2026/27 for the Wendt Ranch, Alamo Creek, and Monterosso developments. This action would not preclude the GHAD Board from increasing or decreasing the levy of the assessment up to the inflation-adjusted assessment limit in the future.

The Somerset development has not yet met the above conditions relating to the reserve, therefore the residential parcels within the Somerset development will be assessed at the inflation-adjusted assessment limit of $673.19 per single-family residence for FY 2026/27.

The assessment levy determination is made by the GHAD Board each year in approving the annual budget for the GHAD. As long as the GHAD Board levies future assessments in accordance with the Engineer's Report, a vote of property owners is not required; a vote is only required if the assessment limit is increased beyond that provided in the Engineer's Report.

The GHAD Board is requested to adopt a budget for the GHAD operations each fiscal year. The GHAD Board is requested to adopt the Fiscal Year 2026/2027 budget of $814,538 as prepared by the GHAD Manager, which is attached to Resolution No. 2026/01, and to approve an assessment levy less than the assessment limit. In addition, the GHAD Board is requested to update the GHAD Manager payment limits under the Consulting Services Agreement as required by that Agreement to $203,345 as referenced in the attached Resolution No. 2026/01.

CONSEQUENCE OF NEGATIVE ACTION:

The GHAD will not be able to continue to operate starting July 1, 2026, if the budget is not approved.

THE BOARD OF DIRECTORS OF WENDT RANCH GEOLOGIC HAZARD ABATEMENT DISTRICT

Adopted this Resolution on June 23, 2026, by the following vote:

AYES:

NOES:

ABSENT:

ABSTAIN:

RESOLUTION NO. 2026/01 (ANNUAL BUDGET AND UPDATING GHAD MANAGER PAYMENT LIMITS)

SUBJECT: Adopt Resolution No. 2026/01 Approving the Annual Budget and Updating GHAD Manager Payment Limit.

WHEREAS, on February 12, 2002, the Contra Costa County Board of Supervisors adopted Resolution 2002/59 approving the formation of the Wendt Ranch Geologic Hazard Abatement District (GHAD) and appointed itself to serve as the GHAD Board of Directors.

WHEREAS, the Wendt Ranch development was included in the GHAD when originally formed.

WHEREAS, on July 15, 2005, the GHAD Board of Directors adopted Resolution 2005/437 approving the annexation of the Alamo Creek and Intervening Properties (Monterosso) into the GHAD.

WHEREAS, on August 3, 2021, the GHAD Board of Directors adopted Resolution 2021/03 approving the annexation of the Somerset Development into the GHAD.

WHEREAS, every fiscal year the GHAD Board of Directors is requested to adopt an annual budget to allow the GHAD to operate.

WHEREAS, the GHAD Board of Directors desires to adopt the budget for Fiscal Year 2026/2027 prepared by the GHAD Manager, ENGEO Incorporated for $814,538, attached hereto as **Exhibit A**.

WHEREAS, the assessment levy for the Wendt Ranch, Alamo Creek, and Monterosso developments will be $466.04 per single-family residence for Fiscal Year 2026/2027,

WHEREAS, the assessment levy for the Somerset development will be subject to the inflation-adjusted assessment limit for FY 2026/2027 in the amount of $673.19 per single-family residence.

WHEREAS, pursuant to Resolution No. 2013/02, the GHAD Board approved and updated Consultant Services Agreement with ENGEO, Inc., as Manager for the GHAD. This Agreement, in section 1(c), requires the GHAD Board to determine by resolution each fiscal year the payment limits for GHAD Manager services. The budget attached in **Exhibit A** identifies this limit at $203,345.

The Board of Directors of the GHAD HEREBY RESOLVES THAT:

1. The GHAD Board approves the GHAD budget of $814,538 for the Fiscal Year 2026/2027 attached as **Exhibit A** and incorporated herein by this reference.

2. The GHAD Board approves an assessment levy of $466.04 per single-family residence for Fiscal Year 2026/27 for the Wendt Ranch, Alamo Creek, and Monterosso developments.

3. The GHAD Board approved an assessment levy of $673.19 per single-family residence for Fiscal Year 2026/27 for the Somerset development.

4. The GHAD Board adopts the payment limit for the GHAD Manager services at $203,345 for Fiscal Year 2026/2027 as set forth in **Exhibit A** and incorporates this payment limit into the consulting services agreement.

5. The recitals are incorporated herein by this reference.

This Resolution shall become effective immediately upon its passage and adoption.

Subject: Wendt Ranch Geologic Hazard Abatement District
Contra Costa County, California

PROGRAM BUDGET FOR FISCAL YEAR 2026/27

Dear Chair Andersen and Boardmembers:

Attached is the program budget for the Wendt Ranch Geologic Hazard Abatement District (GHAD) for Fiscal Year (FY) 2026/27. The program budget, as proposed, is $814,538. The budget expenses are broken down into the following approximate percentages of the total expenses.

Administration – GHAD Manager	7 percent
Administration – GHAD Clerk, Treasurer, Attorney, others	8 percent
Preventive Maintenance and Operations	83 percent
Special Projects	2 percent
Major Repairs	0 percent

The budget anticipates FY 2026/27 revenue of $948,753 with an estimate of $134,215 contributing to the reserve fund. A summary of the expenses is shown in Table 5, followed by a brief description of each budget item on the following pages.

If you have any questions regarding the contents of this letter, please contact us.

Sincerely,

Wendt Ranch Geologic Hazard Abatement District
ENGEO Incorporated, GHAD Manager
ENGEO Project No. 4063.002.025

Wendt Ranch Geologic Hazard Abatement District
Program Budget
Fiscal Year 2026/27

The following proposed program budget summarizes the anticipated receivables and expenditures for Fiscal Year 2026/27 for the Wendt Ranch Geologic Hazard Abatement District (District), which currently includes Wendt Ranch, Intervening Properties (Monterosso), Alamo Creek, and Somerset communities. The structure of the Wendt Ranch GHAD is shown below.

The GHAD has maintenance and monitoring responsibilities and is the property owner for the following parcels within the District. The parcels listed include the open-space parcels within the Monterosso and Wendt Ranch developments. Maintenance, monitoring responsibilities, and ownership of the listed parcels have been transferred to the GHAD.

TABLE 1: Parcels Owned and/or Maintained by GHAD

ASSESSOR'S PARCEL NUMBER	PARCEL, TRACT	DESCRIPTION
Monterosso (Intervening Properties) Development		
206-020-094	I	Water Quality Basin
206-020-095	K	Western Open Space
206-580-036	B	Open Space North of Casablanca Bridge
206-020-093	C	Eastern Open Space
206-580-038	J	Bioretention Basin B
206-630-054	E	Bioretention Basin C and Driveway

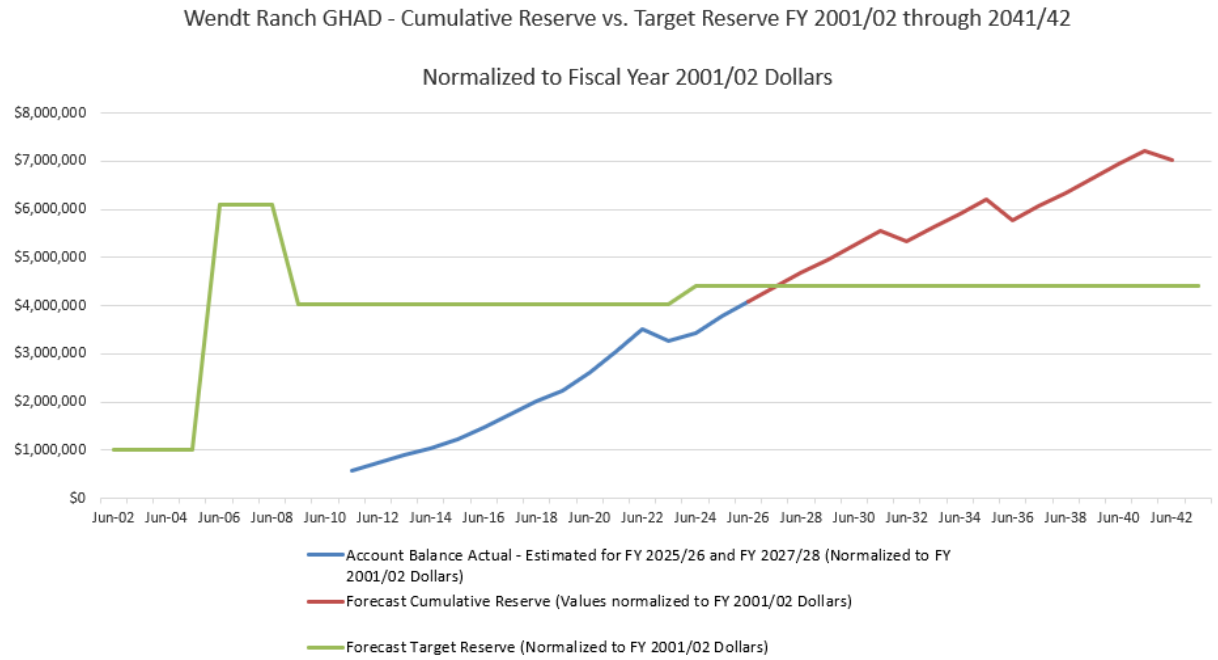
ASSESSOR'S PARCEL NUMBER	PARCEL, TRACT	DESCRIPTION
Wendt Ranch Development		
206-030-037	A, 8698	Wendt Ranch Southern Open Space including Buffalo Wetlands
206-650-011	B, 8847	Wendt Ranch Western Open Space, North of Casablanca
206-030-038	B, 8698	Wendt Ranch Western Open Space, South of Casablanca
206-030-034	D, 8002	Wendt Detention Basin
Alamo Creek Development		
206-030-058	F, 8381	Alamo Creek Mustang Soccer Fields
206-030-077	A, 8943	Creekside Elementary School Slope
206-030-078		Alamo Creek Central Open Space, South of Lusitano Street
206-030-079		Alamo Creek Open Space, West of Belarus Street
206-030-080		Alamo Creek Open Space, East of Bengali Street
206-030-073		Alamo Creek Open Space
206-030-074		Alamo Creek Open Space
206-030-085		Alamo Creek Open Space
206-030-088		Alamo Creek Open Space
206-030-089		Alamo Creek Open Space
206-700-129		Alamo Creek Open Space
206-710-061		Bioretention Basin A

Maintenance and monitoring responsibilities for the remaining properties within the GHAD, not listed above, are the responsibility of the individual property owners, although a number of parcels have been offered to the GHAD, but have not yet been accepted by the GHAD due to punchlist items remaining to be completed. Within this budget, it is anticipated that during the 2026/27 fiscal year, additional, and possibly all parcels within the Alamo Creek and Somerset developments, will be transferred to the Wendt Ranch GHAD, and these expenses have been anticipated in the 2026/27 budget estimates.

On August 3, 2021, the Wendt Ranch GHAD Board of Directors adopted Resolution 2021/03 approving the annexation of the Somerset development into the Wendt Ranch GHAD. On November 28, 2023, the Wendt Ranch GHAD Board of Directors adopted Resolution 2023/06 authorizing the levy of the assessment for GHAD responsibilities within the Somerset development. To date, the GHAD has not accepted any Plan of Control responsibilities within the Somerset development; however, it is anticipated that the Somerset development will transfer Plan of Control responsibilities to the GHAD in FY 2026/27. The budget prepared for FY 2026/27 allows for expenses related to the Alamo Creek and Somerset developments for Fiscal Year 2026/27.

The annual assessment limits and actual levies are summarized below.

TABLE 2: Actual CPI Adjustments and Assessment Limit for Residential Properties



FISCAL YEAR	INDEX DATE	SAN FRANCISCO-OAKLAND-HAYWARD CPI	MONTEROSSO, WENDT RANCH, AND ALAMO CREEK ASSESSMENT LIMIT	MONTEROSSO, WENDT RANCH, AND ALAMO CREEK ANNUAL ASSESSMENT LEVY	SOMERSET ASSESSMENT LIMIT AND LEVY

2026/27	12/31/2025	3.04%	$776.73	$466.04[1]	$673.19

[1]Proposed assessment levy for Fiscal Year 2026/27, subject to approval by the Board of Directors.

The GHAD is funded through real property assessments. The assessment limits are adjusted annually on December 31 to reflect the percentage change in the San Francisco-Oakland-Hayward Consumers Price Index (CPI) for All Urban Consumers for the previous 12 months. - The December CPI is typically published annually in mid-January. All 1,317 properties within the Monterosso, Wendt Ranch, and Alamo Creek developments were subject to the levy of the GHAD assessment in FY 2025/26. All 150 properties within the Somerset development were subject to the levy of the GHAD assessment in FY 2025/26.

Graph 1 compares the actual and forecast cumulative reserve amounts against the forecast target reserve amount normalized to FY 2001/02 dollars. The forecast target reserve amount was set with the first Engineer's Report for the Wendt Ranch development and increased to include the Alamo Creek and Monterosso developments annexation in FY 2005/06. In 2008, the GHAD prepared a reserve study adjusting the target reserve amount to approximately $4,000,000 in 2001/02 dollars. In FY 2023/24, the Somerset development was annexed into the GHAD, increasing the target reserve amount to approximately $4,400,000 in 2001/02 dollars. The GHAD reserve is intended to fund unanticipated expenses that may occur, which is represented by the troughs in the forecast reserve trendline in Graph 1.

GRAPH 1: Cumulative Reserve

The GHAD is ahead of its target rate of reserve accumulation forecast in the approved Engineer's Reports for the Alamo Creek, Monterosso, and Wendt Ranch developments. We have in this proposed budget, and may in future budgets, recommend an annual levy amount less than the assessment limit if the following conditions are met.

- Unencumbered reserve funds collected from a development exceed the target reserve amount estimated in the approved Engineer's Report, or unencumbered reserve funds collected from a development exceed the target reserve
- Reserve funds collected from within a development exceed the dollar amount estimated for a large-scale repair

We are recommending an assessment levy less than the assessment limit for the Monterosso, Wendt Ranch, and Alamo Creek developments based on the aforementioned conditions. The proposed assessment levy for FY 2026/27 is $466.04 per single-family residence within the Monterosso, Wendt Ranch, and Alamo Creek developments only. The residential properties within the Somerset development will be assessed at the inflation-adjusted assessment limit of $673.19.

TABLE 3: Estimated Revenue for FY 2026/27

	FY 2026/27 ESTIMATE
Assessment Revenue	$714,753
Investment Income	$234,000
Total Revenues	**$948,753**

In general, the budget amounts listed are based on the Engineer's Report approved by the Wendt Ranch GHAD Board of Directors for each development in the GHAD. The budget amounts have been adjusted by inflation to provide the FY 2026/27 budget estimates. The fiscal year for

the Wendt Ranch GHAD begins on July 1 annually. The budget is divided into four categories including Administration and Accounting, Preventive Maintenance and Operations, Special Projects, and Major Repair. As needed, the GHAD Manager may reallocate funds without additional Board approval.

ADMINISTRATION

Administrative expenses include the GHAD Manager's duties related to the operation and administration of the GHAD. These include clerical and accounting functions.

PREVENTIVE MAINTENANCE AND OPERATIONS

Preventive maintenance and operations include professional services, slope stabilization services, and erosion protection within the District. Professional services include site monitoring events as scheduled in the GHAD Plan of Control. Slope stabilization and erosion protection responsibilities include the open space slopes and creek channels. GHAD-maintained improvements generally include the District's slopes, concrete-lined drainage ditches, retaining walls, subsurface drainage facilities, monitoring instruments including settlement monitoring devices, storm drain facilities, and the creek channels.

SPECIAL PROJECTS

The Special Projects category allows the GHAD to budget for projects beneficial to the GHAD that are not included in one of the other three categories. Special projects can include items such as global positioning system (GPS)/geographic information system (GIS) development for GHAD maintained improvements, website development and maintenance, and reserve studies to reevaluate the financial condition of the GHAD.

MAJOR REPAIR

Included within the major repair category are those repair or improvement projects that are intermittent and, by their nature, do not fit within a scheduled maintenance program. Minor slope repair and erosion control items are generally funded within the Preventive Maintenance and Operations category. For the purposes of this budget, we define major repairs as those estimated at over $250,000.

TABLE 4: Summary of Use of Funds

USE OF FUNDS				
	FY 2025/26 ESTIMATE*	FY 2025/26 BUDGET	FY 2026/27 PROPOSED	PERCENT CHANGE FROM FY 2025/26

Expenses through June 30, 2026		$814,538	
ESTIMATED RESERVE ON JUNE 30, 2027		**$7,603,279**	

At the beginning of the 2026/27 fiscal year, the cumulative reserve is estimated at $7,469,064 and about $7,603,279 at the end of the 2026/27 fiscal year in FY 2026/27 dollars.

Special Condition 1(e) of the approved Consulting Services Agreement provides that a payment limit shall be determined each fiscal year by a resolution of the GHAD Board. For fiscal year 2026/27 (July 1, 2026, through June 30, 2027), the payment limit is set at $203,345. The tasks included within the payment limit are listed in Table 6.

TABLE 6: Payment Limit

TASK	AMOUNT
Administration	$51,900
Annual Report and Budget Preparation	$5,150
Monitoring Services	$70,000
Maintenance and Operations Oversight	$61,295[1]
Special Projects (GIS and Website)	$15,000
Major Repairs	$0[1]
TOTAL	**$203,345**

[1]Dependent on maintenance and/or repair activities by the GHAD during FY 2026/27. ENGEO payment limit is estimated at up to 20% of the total budget item.

ADMINISTRATION AND ACCOUNTING

Administration

Administrative expenses include the GHAD Manager's duties related to the operation and administration of the GHAD. The budget estimate for the accounting and administrative services are derived from the original GHAD budget used to prepare the GHAD's Engineer's Report.

Annual Report and Budget Preparation

This budget provides for the preparation of the annual report and budget. The budget estimate for the accounting and administrative services is derived from the original GHAD budget used to prepare the GHAD's Engineer's Report.

Assessment Roll and Levy Update

This budget item allows for preparation of the assessment roll for the GHAD and the updated levy based on the Consumer Price Index adjustment.

County Assessor's Fees

This budget item allows for fees from the Contra Costa County Assessor's Office.

Association Membership

The GHAD maintains membership in the California Association of GHADs.

Treasurer

This budget item accounts for fees related to investment of the GHAD reserve funds and processing of accounts payable. This budget item allows the GHAD to hire a treasurer for the GHAD as provided under Resolution 2008/01 adopted on November 18, 2008. As budgeted, half of the estimated cost is for the Treasurer services with half for the investment advisor services.

Legal Counsel

This budget item allows the GHAD to secure legal counsel for the GHAD as provided under Resolution 2008/01 adopted on November 18, 2008. The duties of the legal counsel may include but not be limited to preparation or review of contracts, grant deeds, right of entry, and board resolutions.

Insurance

The GHAD maintains general liability insurance for open space areas within the GHAD.

Transfer Services

We do not anticipate any transfer activities to be funded by the GHAD to occur during FY 2026/27.

PREVENTIVE MAINTENANCE AND OPERATIONS

Maintenance and Operations

The budget items listed in the tables above are to provide for the maintenance of concrete-lined drainage ditches, detention basins, vegetation management, maintenance roads, debris catchment structures, litter removal, and subdrain outlets within the GHAD-accepted portions of the Wendt Ranch GHAD, as described in the Plans of Control for each development.

Slope Stabilization

This is for minor repairs, including slope instability or erosion, which may occur during the 2026/27 fiscal year. Purchase of emergency stabilization supplies is included within this budget item.

Erosion Control

Anticipated tasks under this budget item include the repair of slope or creek erosion and removal of debris from creek channel culverts.

Professional Services- GHAD Manager

Scheduled Monitoring Events

As provided in the Plan of Control, we have two scheduled monitoring events within the GHAD during each calendar year, which include monitoring of detention and bioretention basins.

Heavy Rainfall Events

We have budgeted for two heavy rainfall-monitoring events during the 2026/27 winter season.

Maintenance and Operations Oversight

This budget item is to provide for scheduling and coordination of general maintenance and repair operations.

SPECIAL PROJECTS

Global Positioning System (GPS)/Geographic Information System (GIS) Development

To provide a more efficient system to capture, store, update, analyze, and display information pertaining to GHAD features (including, but not limited to, subdrains, landslides, drainage facilities, walls, or slopes), the GHAD has provided a budget item to continue development and use of a GIS database. The database facilitates the tracking of location, maintenance, and repair activities and automates the communication of this information to affected parties. We anticipate GIS database development for FY 2026/27 would include continued transition of available and pertinent information to an electronic format suitable for GIS deployment, and as necessary, field verification with GPS surveys.

Website Maintenance and Updates

To allow for greater access to information about the Wendt Ranch GHAD, the GHAD has provided a budget item to update and maintain the existing website.

MAJOR REPAIRS

There are currently no ongoing repair projects, and none are anticipated for the 2026/27 fiscal year within GHAD-maintained areas of the Wendt Ranch GHAD. Minor slope repair and erosion control items are generally funded within the Preventive Maintenance and Operations category. While no major repairs are ongoing at this time, by their nature, major repairs such as landslides are unpredictable and could occur during FY 2026/27. The reserve portion of the budget allows for funding toward these unpredictable events.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2727 **Agenda Date:** 6/23/2026 **Agenda #:** C.79.

To: Board of Directors

From: Wiedemann Ranch Geological Hazard Abatement District

Report Title: Adopt Resolution No. 2026-01 to approve the FY26-27 Annual Budget and to update the GHAD Manager payment limit pursuant to the Consulting Services Agreement.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

ADOPT Wiedemann Ranch GHAD Resolution No. 2026-01 approving the GHAD budget for fiscal year 2026-27 and updating the GHAD Manager payment limit pursuant to the Consulting Services Agreement.

FISCAL IMPACT:

The GHAD is funded 100% through real property assessments levied on properties within the GHAD.

BACKGROUND:

On September 1, 1998, the Contra Costa County Board of Supervisors adopted Resolution 98/438 approving the formation of the Wiedemann Ranch Geologic Hazard Abatement District (GHAD) which included the Norris Canyon Estates development and appointed itself to serve as the GHAD Board of Directors.

Four developments have been annexed into the Wiedemann Ranch GHAD since its formation in 1998. These include:

- Henry Ranch (Subdivision 8118) in San Ramon on April 11, 2000, with the adoption of Resolution Nos. 2000/166 and 2000/167.
- Elworthy Ranch in Danville on July 29, 2014, with the adoption of Resolution 2014/03.
- Red Hawk (formerly Podva Property) (Subdivision 9309) in Danville on January 19, 2016, with the approval of Resolution 2016/01.
- Magee Preserve (Subdivision 9291) in Danville on July 13, 2021, with the approval of Resolution 2021/03.

The Magee Preserve development was annexed into the Wiedemann Ranch GHAD, with an approved assessment, but currently receives no services from the GHAD. The Magee Preserve development will be

eligible to transfer GHAD-related Plan of Control Responsibilities in late 2026 at the earliest.

As part of the preparation for the GHAD's FY 2026/27 budget, the GHAD Manager reviewed the current GHAD reserves. The GHAD is ahead of its target rate of reserve accumulation forecast estimate in the approved Engineer's Reports for the Norris Canyon Estates, Henry Ranch, Elworthy Ranch, and Red Hawk developments, therefore GHAD Staff is recommending an assessment levy less than the assessment limit for the Norris Canyon Estates, Henry Ranch, Elworthy Ranch, and Red Hawk developments only for FY 2026/27, and prepared a budget that reflects a lower assessment levy for FY 2026/27.

Staff is providing this recommendation based on the following conditions.

- Unencumbered reserve funds collected from within the GHAD exceed the rate of target reserve accumulation estimated in the approved Engineer's Report or unencumbered reserve funds collected from a development exceed the target reserve.

- Reserve funds collected from within GHAD exceed the dollar amount estimated for a large-scale repair

- Plan of Control responsibilities have been transferred from the developer to the GHAD.

As provided in the approved Engineers' Reports, the assessment limits in each of the four developments (Norris Canyon Estates, Henry Ranch, Elworthy Ranch, and Red Hawk) will continue to be adjusted for inflation annually. The proposed assessment levies for the Norris Canyon Estates, Henry Ranch, Elworthy Ranch, and Red Hawk developments for FY 2026/27 will be $706.62, $684.16, $1,185.32, $592.66 (Elworthy Ranch apartment units), and $1,987.55, respectively. This action would not preclude the GHAD Board from increasing or decreasing the levy of the assessment up to the inflation-adjusted assessment limit in the future.

The Magee Preserve development has not yet met the above conditions relating to the reserve, therefore the residential parcels within the Magee Preserve development will be assessed at the inflation-adjusted assessment limit of $2,925.72 per single-family residence for FY 2026/27.

The assessment levy determination is made by the GHAD Board each year in approving the annual budget for the GHAD. As long as the GHAD Board levies future assessments in accordance with the Engineer's Report, a vote of property owners is not required; a vote is only required if the assessment limit is increased beyond that provided in the Engineer's Report.

The GHAD Board is requested to adopt a budget for GHAD operations each fiscal year. The GHAD Board is being requested to adopt the Fiscal Year 2026/2027 budget of $459,845 as prepared by the GHAD Manager which is attached to Resolution No. 2026/01. and update the GHAD Manager payment limits under the existing Consulting Services Agreement to $158,160 as referenced in the attached Resolution No. 2026-01.

CONSEQUENCE OF NEGATIVE ACTION:

The GHAD will not be able to continue to operate starting July 1, 2026, if the budget is not approved.

THE BOARD OF DIRECTORS OF WIEDEMANN RANCH GEOLOGIC HAZARD ABATEMENT DISTRICT

Adopted this Resolution on June 23, 2026, by the following vote:

AYES:

NOES:

ABSENT:

ABSTAIN:

RESOLUTION NO. 2026/01 (ANNUAL BUDGET AND UPDATING GHAD MANAGER PAYMENT LIMITS)

SUBJECT: Adopt Resolution No. 2026/01 Approving the Annual Budget and Updating the GHAD Manager Payment Limit.

WHEREAS, on September 1, 1998, the Contra Costa County Board of Supervisors adopted Resolution 98/438 approving the formation of the Wiedemann Ranch Geologic Hazard Abatement District (GHAD) and appointed itself to serve as the GHAD Board of Directors.

WHEREAS, on April 11, 2000, the Wiedemann Ranch GHAD Board of Directors adopted Resolutions 2000/166 and 2000/167 approving annexation of the Henry Ranch development into the Wiedemann Ranch GHAD.

WHEREAS, on July 29, 2014, the Wiedemann Ranch GHAD Board of Directors adopted Resolution 2014/03 approving annexation of the Elworthy Ranch development into the Wiedemann Ranch GHAD.

WHEREAS, on January 19, 2016, the Wiedemann Ranch GHAD Board of Directors adopted Resolution 2014/01 approving annexation of the Red Hawk (formerly Podva) development into the Wiedemann Ranch GHAD.

WHEREAS, on July 13, 2021, the Wiedemann Ranch GHAD Board of Directors adopted Resolution 2021/03 approving annexation of the Magee Preserve development into the Wiedemann Ranch GHAD.

WHEREAS, every fiscal year the GHAD Board of Directors is requested to adopt an annual budget to allow the GHAD to operate.

WHEREAS, the GHAD Board of Directors desires to adopt the budget for the Fiscal Year 2026/2027 prepared by the GHAD Manager, ENGEO Inc. in the amount of $459,845, attached hereto as **Exhibit A**.

WHEREAS, on May 19, 2009, pursuant to Resolution No. 2009/03, the GHAD Board approved the consultant services agreement with ENGEO Inc., to act as Manager for the GHAD. This Agreement, in section 1(e), requires the GHAD Board to determine by resolution each Fiscal Year the payment limits for GHAD Manager services. The budget attached in **Exhibit A** identifies this limit as $158,160.

The Board of Directors of the GHAD HEREBY RESOLVES THAT:

1. The GHAD Board approves the GHAD budget for Fiscal Year 2026/27 of $459,845 attached as **Exhibit A** and incorporated by this reference.

2. The GHAD Board adopts the payment limit for the GHAD Manager services at $158,160 for Fiscal Year 2026/27 as set forth in **Exhibit A** and incorporates this payment limit into the consulting services agreement.

3. The recitals are incorporated herein by this reference.

This Resolution shall become effective immediately upon its passage and adoption.

PROGRAM BUDGET FOR FISCAL YEAR 2026/27

Dear Chair Andersen and Boardmembers:

Attached is the program budget for the Wiedemann Ranch Geologic Hazard Abatement District (GHAD) for the Fiscal Year (FY) 2026/27. The program budget, as proposed, is $459,845. The budget expenses are broken down into the following approximate percentages of the total expenses.

- Administration and Accounting ..... 13 percent
- Outside Professional Services ..... 14 percent
- Preventive Maintenance and Operations ..... 71 percent
- Special Projects ..... 2 percent
- Major Repairs ..... 0 percent

The budget anticipates FY 2026/27 revenue of $885,425 with an estimated increase of $425,580 to the reserve fund. A summary of the expenses is shown in Table 3, followed by a brief description of each budget item on the following pages.

If you have any questions regarding the contents of this letter, please contact us.

Sincerely,

Wiedemann Ranch Geologic Hazard Abatement District

Wiedemann Ranch Geologic Hazard Abatement District
Program Budget
Fiscal Year 2026/27

The following budget summarizes the anticipated expenditures for Fiscal Year (FY) 2026/27 for the Wiedemann Ranch GHAD, which currently includes the Henry Ranch, Norris Canyon Estates, Elworthy Ranch, Red Hawk (Podva), and Magee Preserve developments. For FY 2026/27, we have budgeted for GHAD responsibilities within these developments, with the exception of the Magee Preserve development. The Magee Preserve development was annexed into the Wiedemann Ranch GHAD on July 13, 2021, with the adoption of Resolution No. 2021/03, and approved an assessment on October 3, 2023, with the adoption of Resolution 2023/07. The Magee Preserve development will be eligible to transfer GHAD-related responsibilities during FY 2026/27 and, therefore, may receive services from the GHAD within FY 2026/27.

The structure of the Wiedemann Ranch GHAD is shown below.

The fiscal year for the Wiedemann Ranch GHAD begins on July 1. The budget is divided into four categories including Administration and Accounting, Preventive Maintenance and Operations, Special Projects, and Major Repair. As needed, the GHAD Manager may reallocate funds without additional Board approval.

The annual assessment limits are as follows in Table 1.

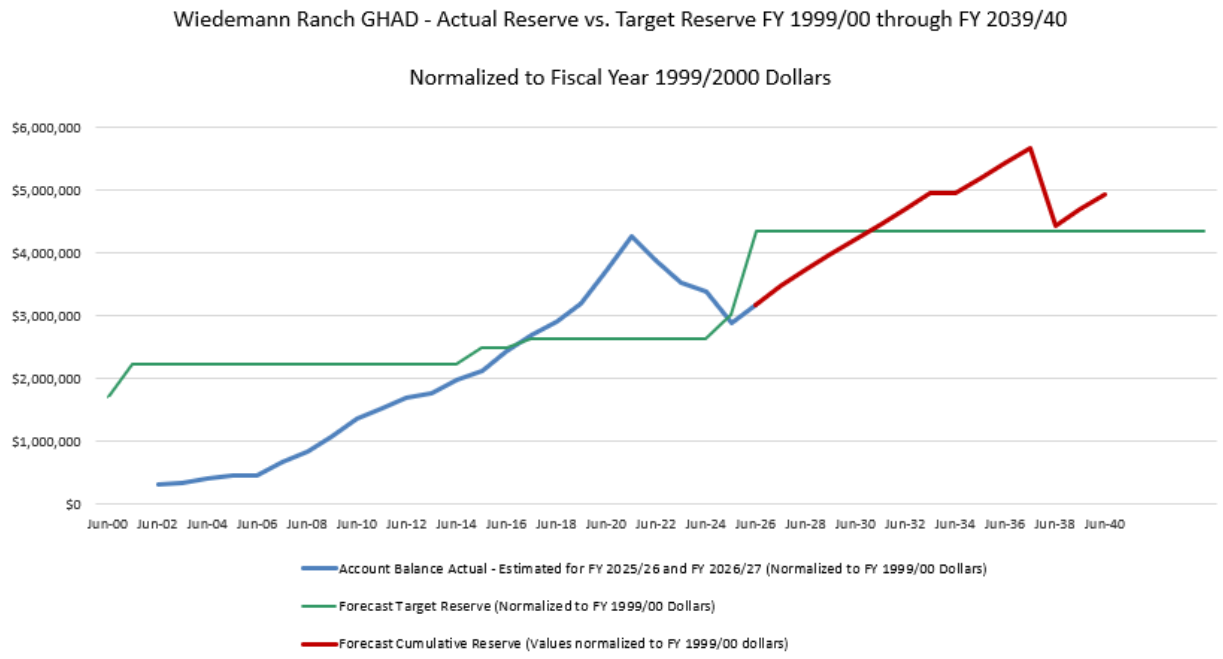

TABLE 1: Actual CPI Adjustments and Assessment Limit for Single-Family Residential Properties

FISCAL YEAR	INDEX DATE	SAN FRANCISCO -OAKLAND-HAYWARD CPI (JUNE /JUNE)	ANNUAL ASSESSMENT LIMIT				
			NORRIS CANYON ESTATES	HENRY RANCH	ELWORTHY RANCH	REDHAWK	MAGEE PRESERVE

2024/25	6/30/2024	3.24%	$1,123.60	$1,087.89	$1,884.78	$3,160.41	$2,791.33
2025/26	12/31/2024	2.38%	$1,150.33	$1,113.78	$1,929.62	$3,235.60	$2,857.74
2026/27	12/31/2025	3.04%	$1,177,70	$1,140.27	$1,975.53	$3,312.58	$2,925.72

The GHAD is funded through real property assessments. The assessment limits are adjusted annually on December 31 to reflect the percentage change in the San Francisco-Oakland-Hayward Consumer Price Index (CPI) for All Urban Consumers for the previous 12 months. The December CPI is typically published in mid-January. The final assessment roll prepared for the 2025/26 fiscal year and submitted to the Contra Costa County Assessor's Office identifies 576 parcels subject to the levy of the GHAD assessment. Thirteen apartment units are located within the Elworthy Ranch development on a single assessor's parcel. Graph 1 compares the actual and forecast cumulative reserve amounts against the forecast target reserve amount normalized to FY 1999/2000 dollars. The forecast target reserve amount was set

with the first Engineer's Report for the Norris Canyon Estates development and increased with the Henry Ranch, Elworthy, Red Hawk, and Magee Preserve development annexations in 2001, 2015, 2017, and 2021, respectively. In April 2025, the GHAD prepared a reserve study adjusting the target reserve amount to approximately $4,300,000 in 1999/2000 dollars. The GHAD reserve is intended to fund unanticipated expenses that may occur, which is represented by the troughs in the forecast reserve trendline in Graph 1.

Graph 1: Cumulative Reserve

The GHAD has exceeded the target reserve rate of accumulation forecast in the approved Engineer's Reports for the Norris Canyon Estates, Henry Ranch, Elworthy Ranch, and Red Hawk Developments. The excess revenue is primarily due to the delays in transferring Plan of Control responsibilities from original developers to the GHAD, and lower than anticipated expenses within each development within the GHAD.

We have in this budget, and may in future budgets, recommend an annual levy amount less than the assessment limit if the following conditions are met.

- Unencumbered reserve funds collected from within a development exceed the target reserve amount estimated in the approved Engineer's Report or unencumbered reserve funds collected from a development exceed the target reserve.
- Reserve funds collected from within a development exceed the dollar amount estimated for a large-scale repair.
- Plan of Control responsibilities have been transferred from the developer to the GHAD.

As the above conditions have been met for the Norris Canyon Estates, Henry Ranch, Elworthy Ranch, and Red Hawk developments within the GHAD, we are recommending, and the budget prepared provides that the residential parcel levy for FY 2026/27 be set at 60 percent of the CPI-adjusted assessment limit for each development to cover annual maintenance and operation

costs and maintain a cumulative reserve near the target reserve. The levies for the Norris Canyon Estates, Henry Ranch, Elworthy Ranch, and Red Hawk developments for FY 2026/27 will be $706.62, $684.16, $1,185.32, $592.66 (Elworthy Ranch apartment units), and $1,987.55, respectively. The assessment levy for the residential parcels within the Magee Preserve development will remain at the CPI-adjusted assessment limit of $2,925.72, as the above conditions have not yet been met for the Magee Preserve development.

Table 2 shows the estimated revenue for FY 2026/27 within the Norris Canyon Estates, Henry Ranch, Elworthy Ranch, Red Hawk, and Magee Preserve developments.

TABLE 2: Anticipated Revenue for FY 2026/27

	FY 2026/27 ESTIMATE
Assessment Revenue	$679,425
Investment Income	$206,000
Total Revenues	**$885,425**

In general, the budget amounts listed are based on the Engineer's Reports approved by the Wiedemann Ranch GHAD Board of Directors in 2001 for the Norris Canyon Estates and Henry Ranch developments, in 2014 for the Elworthy Ranch development, and in 2016 for the Red Hawk (Podva) development. The budget amounts have been inflation adjusted to provide the estimates.

ADMINISTRATION AND ACCOUNTING

Administrative expenses include the GHAD Manager's duties related to the operation and administration of the GHAD. These include clerical and accounting functions performed by the GHAD Clerk and Treasurer.

PREVENTIVE MAINTENANCE AND OPERATIONS

Preventive maintenance and operations include professional services, slope stabilization services, and erosion protection within the District. Professional services include site monitoring events as scheduled in the GHAD Plan of Control. Slope stabilization and erosion protection responsibilities include the open-space slopes and creek channels. GHAD-maintained improvements generally include the District's slopes, concrete-lined drainage ditches, retaining walls, subsurface drainage facilities, monitoring instruments including settlement monitoring devices, storm drain facilities, and the creek channels.

SPECIAL PROJECTS

The Special Projects category allows the GHAD to budget for projects beneficial to the GHAD that are not included in one of the other three categories. Special projects can include items such as global positioning system (GPS)/geographic information system (GIS) development for GHAD maintained improvements, website development and maintenance, and reserve studies to reevaluate the financial condition of the GHAD.

MAJOR REPAIR

Included within the major repair category are those repair or improvement projects that are intermittent and, by their nature, do not fit within a scheduled maintenance program. Minor slope repair and erosion control items are generally funded within the Preventive Maintenance and Operations category. For the purposes of this budget, we define major repairs as those estimated at over $250,000.

TABLE 3: Summary of Use of Funds

	FY 2025/26 ESTIMATE*	FY 2025/26 BUDGET	FY 2026/27 PROPOSED	PERCENT CHANGE FROM FY 2025/26

Estimated FY 2026/27 Investment Income	$206,000	
Estimated 2026/27 Expenses		
Expenses through June 30, 2027	$459,845	
ESTIMATED RESERVE ON JUNE 30, 2027	**$6,841,468**	

Special Condition 1(e) of the approved Consulting Services Agreement provides that a payment limit shall be determined each fiscal year by a resolution of the GHAD Board. For fiscal year 2026/27 (July 1, 2026, through June 30, 2027), the payment limit is set at $158,160. The tasks included within the payment limit are listed in Table 5.

TABLE 5: Payment Limit

TASK	AMOUNT
Administration and Accounting	$52,560
Annual Report and Budget Preparation	$6,900
Monitoring Services	$46,200
Maintenance and Operations Oversight	$45,500
Special Projects (GPS, Website, and Reserve Study)	$7,000
Major Repairs	$0[1]
TOTAL	**$158,160**

[1]Dependent on maintenance and/or repair activities by the GHAD during FY 2026/27. ENGEO payment limit is estimated at up to 20% of the total budget item.

ADMINISTRATION AND ACCOUNTING

Administration

Administrative expenses include the GHAD Manager's duties related to the operation and administration of the GHAD. The budget estimates for the accounting and administrative services are derived from the original GHAD budget used to prepare the GHAD's Engineer's Report.

Annual Report and Budget Preparation

This budget provides for the preparation of the annual report and budget. The budget estimates for the accounting and administrative services are derived from the original GHAD budget used to prepare the GHAD's Engineer's Report.

Assessment Roll and Levy Update

This budget item allows for preparation of the assessment roll for the GHAD and the updated levy based on the Consumer Price Index adjustment.

County Assessor's Fees

This budget item anticipates fees from the Contra Costa County Assessor's Office when placing the assessment levy on the property tax bills.

Association Membership

The GHAD maintains membership in the California Association of GHADs.

Treasurer

This budget item accounts for fees related to investment of the GHAD reserve funds and processing of accounts payable. This budget item allows the GHAD to hire a treasurer for the GHAD as provided under Resolution 2008/01 adopted on November 18, 2008. As budgeted, half of the estimated cost is for the Treasurer services and half for the investment advisor services.

Legal Counsel

This budget item allows the GHAD to secure legal counsel for the GHAD as provided under Resolution 2008/01 adopted on November 18, 2008. The duties of the legal counsel may include but not be limited to preparation or review of contracts, grant deeds, right of entry, and board resolutions.

Insurance

The GHAD maintains general liability insurance for open-space areas within the GHAD.

Transfer Services

This budget item allows for consultation and site walk-overs for transfer of eligible parcels. We do not anticipate the GHAD to fund any transfer activities during FY 2026/27.

PREVENTIVE MAINTENANCE AND OPERATIONS

Maintenance and Operations

The budget items listed in the tables above are to provide for the maintenance of concrete-lined drainage ditches, detention basins, vegetation management, maintenance roads, debris catchment structures, litter removal, and subdrain outlets within the GHAD-accepted portions of the Wiedemann Ranch GHAD, as described in the Plans of Control for each development.

Slope Stabilization

This budget item is for minor repairs, including slope instability or erosion, which may occur during the 2026/27 fiscal year. Purchase of emergency stabilization supplies is included within this budget item.

Erosion Control

Anticipated tasks under this budget item include the repair of slope or creek erosion and removal of debris from creek channel culverts.

PROFESSIONAL SERVICES – GHAD MANAGER

Scheduled Monitoring Events

As provided in the Plan of Control, we have two scheduled monitoring events within the GHAD during each calendar year.

Heavy Rainfall Events

We budgeted for two heavy rainfall-monitoring events during the 2026/27 winter season.

Maintenance and Operations Oversight

This budget item is to allow for scheduling and coordination of general maintenance and repair operations by the GHAD Manager.

SPECIAL PROJECTS

Global Positioning System (GPS)/Geographic Information System (GIS) Development

To provide a more efficient system to capture, store, update, analyze, and display information pertaining to GHAD features (including, but not limited to, subdrains, landslides, drainage facilities, walls, or slopes), the GHAD has provided a budget item to continue development and use of a GIS database. The database facilitates the tracking of location, maintenance, and repair activities and automates the communication of this information to affected parties. We anticipate GIS database development for FY 2026/27 would include continued transition of available and pertinent information to an electronic format suitable for GIS deployment, and as necessary, field verification with GPS surveys.

Website Maintenance and Updates

To allow for greater access to information about the Wiedemann Ranch GHAD, the GHAD has provided a budget item to update and maintain the existing website.

MAJOR REPAIRS

In FY 2026/27, the GHAD does not plan to provide for construction activities for any major replacement or repair of improvements associated with the developments within the GHAD. When applicable, this budget item allows for ENGEO to provide testing and observation services during major repair activities and final reporting.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2728 **Agenda Date:** 6/23/2026 **Agenda #:** C.80.

To: Board of Directors

From: Canyon Lakes Geological Hazard Abatement District

Report Title: Adopt Resolution No. 2026-01 to approve the FY26-27 Annual Budget and to update the GHAD Manager payment limit pursuant to the Consulting Services Agreement.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

ADOPT Canyon Lakes GHAD Resolution No. 2026-01 approving the GHAD budget for fiscal year 2026-27 and updating the GHAD General Manager payment limit pursuant to the Consulting Services Agreement.

FISCAL IMPACT:

The GHAD is funded 100% through real property assessments levied on properties within the GHAD.

BACKGROUND:

On June 4, 1985, the Contra Costa County Board of Supervisors adopted Resolution 85/289 approving the formation of the Canyon Lakes Geologic Hazard Abatement District ("GHAD") and appointed itself to serve as the GHAD Board of Directors ("GHAD Board"). The GHAD includes a GHAD Manager (Sands Construction), GHAD Clerk/Attorney (Fennemore LLP) and a GHAD Treasurer (Laffer Tengler Investments) all appointed by the GHAD Board of Directors.
The GHAD Board adopts a budget for the GHAD operations each fiscal year. The GHAD Board is being requested to adopt the fiscal year budget for 2026/2027 as prepared by the GHAD Manager which is attached to Resolution No. 2026/01. The proposed fiscal year budget totals $1,556,720.

In addition, the GHAD Board is being requested to update the GHAD Manager payment limit under the existing Consulting Services Agreement as required by that Agreement. The budget attached to Resolution No. 2026/01 identifies that limit at $515,850.

CONSEQUENCE OF NEGATIVE ACTION:

The GHAD will not be able to continue to operate starting July 1, 2026 if the budget is not approved.

THE BOARD OF DIRECTORS OF CANYON LAKES GEOLOGIC HAZARD ABATEMENT DISTRICT

Adopted this Resolution on June 23, 2026 by the following vote:

AYES:

NOES:

ABSENT:

ABSTAIN:

RESOLUTION NO. 2026/01 (ANNUAL BUDGET AND UPDATING GHAD MANAGER PAYMENT LIMITS)

SUBJECT: Adopting 2026/2027 Annual Budget and Updating GHAD Manager Payment Limits under the Consulting Services Agreement

WHEREAS, on June 4, 1985, the Contra Costa County Board of Supervisors adopted Resolution 85/289 approving the formation of the Canyon Lakes Geologic Hazard Abatement District ("GHAD") and appointed itself to serve as the GHAD Board of Directors ("GHAD Board").

WHEREAS, the GHAD Board of Directors desires to adopt the budget for the fiscal year 2026/2027 prepared by the GHAD General Manager, Sands Construction Company, Inc. in the amount of $1,556,720.00, attached hereto as **Exhibit A**.

WHEREAS, on June 13, 2023, pursuant to Resolution No. 2023/02, the GHAD Board approved and updated the consultant services agreement with Sands Construction Company, Inc. to act as General Manager for the GHAD. That agreement, in section 3, requires the GHAD Board to determine by resolution each fiscal year the payment limits for GHAD Manager services. The budget attached in **Exhibit A** identifies this limit at $515,850.00 for both general and operation manager services.

WHEREAS, the GHAD General Manager recommends that the GHAD Board review and approve the fiscal year budget for 2026/2027.

The Board of Directors of the GHAD HEREBY RESOLVES THAT:

1. The GHAD Board approves the GHAD budget for the 2026/2027 fiscal year of $1,556,720.00 attached as **Exhibit A** and incorporated herein by this reference.

2. The GHAD Board adopts the payment limit for the GHAD General Manager services at $515,850.00 for fiscal year 2026/2027 as set forth in **Exhibit A** and incorporates this payment limit into the Consulting Services Agreement.

3. The recitals are incorporated herein by this reference.

This Resolution shall become effective immediately upon its passage and adoption.

SUBJECT: Program Budget for Fiscal Year 2026-2027
Canyon Lakes Geologic Hazard Abatement District

Dear Board Members:

Attached is the proposed program budget for the Canyon Lakes Geologic Hazard Abatement District ("Canyon Lakes GHAD," "GHAD," or "District") for fiscal year 2026–2027. The proposed budget totals $1,556,720 and reflects the District's continued focus on preventive maintenance, infrastructure stewardship, operational readiness, and long-term geologic risk management. The budget anticipates a $228,789 deficit to be funded from reserves, with the projected fund balance decreasing from approximately $8.16 million to $7.94 million by fiscal year end.

The FY26/27 budget continues the District's transition toward a more structured and data-driven infrastructure management program emphasizing study-driven maintenance schedules, GIS integration, asset monitoring, and long-term operational planning. Program implementation remains adaptive and risk-based, allowing the District to prioritize maintenance and response activities according to observed field conditions and evolving operational needs.

The Major Projects Program focuses on targeted investigations, groundwater evaluation, horizontal drain cleaning efforts, and site-specific mitigation measures intended to support long-term slope stability and drainage performance. Preventive Maintenance and Operations remain central GHAD functions, emphasizing drainage infrastructure, instrumentation, monitoring systems, emergency preparedness, and seasonal winterization efforts.

Building on a comprehensive infrastructure assessment program advanced during FY24/25 and FY25/26, the District continues implementation of study-driven maintenance schedules across storm drain systems, B-58 drainage facilities, horizontal drains, subdrain systems, instrumentation networks, and related infrastructure assets. These efforts support refinement of maintenance priorities, improvement of system reliability, and continued integration of infrastructure data into the District's GIS platform.

The Special Projects Program continues to support GIS modernization, IT system improvements, Reserve Study updates, operational procedures, and long-term planning initiatives. Recent GIS and mobile platform enhancements have significantly improved field reporting, data consistency, incident tracking, and operational coordination.

Administrative efforts remain focused on maintaining strong legal, financial, and operational oversight while supporting implementation of District programs and ensuring long-term fiscal sustainability.

A summary of expenses is provided in Table 1, with detailed project descriptions and cost projections included in the accompanying Budget Report.

Respectfully yours,

Canyon Lakes Geologic Hazard Abatement District

REF: Treasurer's Report

Dear Board of Directors:

The GHAD portfolios were designed to comply with the unique objectives of the agency, focused on mitigation of risk, preservation of capital and income generation.

When Laffer Tengler Investments (LTI) took over the management of the GHAD's we created an asset allocation that would achieve the above-mentioned objectives while being able to meet liquidity requirements. In accordance with the GHAD investment policy LTI has attempted to maintain 65% of the portfolios in fixed income. Two thirds of that allocation is invested in individual bonds and the remainder in a liquid fixed-income ETF vehicle. Additionally, about 10% of the portfolio is invested in convertibles bonds and preferreds to enhance total return while generating reasonable income. Finally, 20% of the portfolio is reserved for a conservative equity portfolio to enhance the growth of the GHAD portfolios while taking below market levels of risk.

The portfolio performance has generated excess return above the benchmarks by a wide margin since inception. The lower risk profile of the underlying investments shown through during the negative stock and bond markets of 2022. The equity portion of the portfolio declined approximately -7.0% versus -18.1% for the S&P 500 while the corporate bond portfolio declined less than -1.0% versus -3.8% for the Bloomberg Aggregate Bond Index. Protection in declining markets is the focus of our strategy to preserve capital.

LAFFER TENGLER
INVESTMENTS

LTI's investment strategies are research driven and disciplined. The team has a cumulative 150 years of experience navigating the stock and bond markets.

We are optimistic about the returns for risk assets and have positioned our bond portfolios for declining interest rate environment over the next few years. We also have maintained flexibility with the Fixed Income ETF strategy to take advantage of market dislocations. Risk management is our primary objective with total return as a secondary objective.

Respectfully submitted,

Nancy Tengler

EXECUTIVE SUMMARY

The FY26/27 budget reflects Canyon Lakes GHAD's continued emphasis on proactive infrastructure management, preventive maintenance, and implementation of study-driven maintenance programs supporting long-term geologic risk reduction. The proposed budget totals $1,556,720 and includes a projected deficit of $228,789 to be funded from reserves, with projected fund balance decreasing from approximately $8.16 million to $7.94 million by fiscal year end.

Major Projects Program

The Major Projects Program focuses on targeted investigations and mitigation efforts supporting long-term drainage performance and slope stability. Planned FY26/27 work includes regional groundwater studies, implementation of the Horizontal Drain Cleaning Program, response capability for unanticipated sites, and landscape restoration associated with GHAD repair activities. These projects support ongoing evaluation of groundwater conditions, infrastructure performance, and long-term geologic risk management.

Preventive Maintenance and Operations

Preventive Maintenance and Operations remain core District functions and continue to evolve through implementation of a comprehensive, study-driven infrastructure assessment and maintenance program initiated in FY24/25. These efforts include inventory verification, condition assessments, standardized inspection procedures, GIS integration, and development of recurring maintenance schedules across critical infrastructure systems.

FY26/27 implementation efforts focus on storm drain systems, B-58 drainage facilities, horizontal drains, subdrain systems, instrumentation networks, retention basins, debris benches, drain inlets, and headwalls. Program activities emphasize targeted maintenance, monitoring, system improvements, and operational readiness to support proper drainage function and slope stability.

The Operations Program continues ongoing instrumentation monitoring, incident response, community coordination, and analysis of environmental and groundwater conditions supporting informed operational decision-making.

Special Projects (GIS/IT Systems and Planning)

The Special Projects Program continues to support long-term operational planning, Reserve Study updates, GIS modernization, IT systems, accounting system enhancements, procedures development, and communications initiatives. Recent GIS modernization efforts significantly improved field reporting, incident tracking, asset management, and operational coordination through deployment of enhanced mobile and centralized data management tools. FY26/27 efforts will focus on continued system maintenance, refinements, and operational support.

Administration and Financial Management

Administrative efforts remain focused on providing legal, financial, operational, and management support necessary to implement District programs and maintain long-term fiscal stability. Administrative functions include legal coordination, staffing support, accounting and financial services, contract administration, operational oversight, and ongoing program management.

Summary

The FY26/27 budget reflects Canyon Lakes GHAD's continued transition toward proactive, data-driven infrastructure management supported by study-driven maintenance programs, enhanced monitoring capabilities, GIS integration, and long-term planning initiatives. While expenditures modestly exceed revenues in the near term, the District continues to prioritize infrastructure performance, operational flexibility, and long-term geologic risk management consistent with the Plan of Control.

PROGRAM BUDGET

The following proposed line-item program budget (Table 1) summarizes the anticipated expenditures for fiscal year 2026-2027 for the Canyon Lakes Geologic Hazard Abatement District ("Canyon Lakes GHAD", "GHAD" or "District"). Through an ongoing assessment, the GHAD manager evaluates and addresses geologic risk through the implementation of an annual program budget consisting of four major categories. Preceding (Table I), and directly below, please see general overview descriptions of the four major program elements within the budget.

Major Projects Program

The annual Major Projects Program includes landslide repair projects, drainage improvement projects and capital improvement projects necessary to either control, mitigate, or prevent landslide activity. Other large program responses necessary to implement the Plan of Control, including specific purpose studies and investigations may also be included in the Major Projects Program.

Projects considered for inclusion in the Major Projects Program typically involve a level of complexity requiring the preparation of plans and specifications, comprehensive engineering analysis, or geotechnical evaluation. These efforts may include modeling, investigation, and design, or may involve extended project durations due to site conditions, construction requirements, or coordination with regulatory agencies. While not a defining criterion, Major Projects often represent higher-cost efforts, frequently exceeding $100,000.

Historically, the Major Projects Program has included significant landslide repair efforts as well as larger scale preventive and investigative initiatives that support long-term risk reduction. This range of project types reflects the need for operational flexibility that can address both active or imminent landslide conditions and proactive measures, consistent with the priorities and authority established in the Plan of Control.

Preventive Maintenance and Operations Program

The annual Preventive Maintenance and Operations Program encompasses routine maintenance, minor repairs, debris removal, monitoring, and replacement of drainage facilities and related infrastructure that support the prevention, mitigation, abatement, or control of landslides. These activities are undertaken to maintain system functionality and to identify conditions associated with threatened landslides, allowing for timely and appropriate response measures.

Typical Canyon Lakes GHAD assets include concrete lined ditches, sub-drainage systems, groundwater measuring instrumentation, slope inclinometers and moisture gauges, and slope debris catchment features. These systems are regularly evaluated as part of an integrated approach to managing landslide risk within GHAD boundaries.

The Preventive Maintenance Program also includes preparedness measures for emergency response, including seasonal winterization efforts such as installation of erosion control

materials, staging of slope stabilization supplies, and ongoing maintenance of monitoring equipment.

The Operations Program is primarily populated with scheduled instrument monitoring events. Data from these instruments are used to assess site conditions, identify trends, and inform decisions regarding the prevention, mitigation, abatement, or control of landslides. In addition to the instruments monitoring program, the Operations Program contains the Incident Response and Community Relations Program, which incorporates comprehensive first response capabilities, and fosters community incident interaction.

Special Projects

The Canyon Lakes GHAD undertakes ongoing and new initiatives identified as "Special Projects" that support the implementation of the Plan of Control. Special Projects include activities requested by the Board such as the Communications Program, or projects and studies designed to improve the District's operational effectiveness and ensure financial solvency. Special Projects also include utilizing new technologies to increase the efficiency, consistency, and reliability of the GHAD. The development of a more comprehensive and robust Geographic Information System (GIS) platform represents a key advancement under this program, providing enhanced capabilities for data management, field reporting, and informed decision-making.

Administration

Administrative expenses are required to operate the Canyon Lakes GHAD and the implementation of its programs and projects. Administrative expenses include personnel and consultants to manage the operations including the General Manager, Operations Manager, Administrative Manager, Construction Services Manager, certain clerical and accounting staff, consultants, and legal support. These program allocation values are distributed across multiple budget categories reflected throughout Table 1.

General Manager Program Budget FY26/27	$295,850
Operations Manager Program Budget FY26/27	$220,000
	$515,850

The scope of services for the General Manager includes but is not limited to, managing the day-to-day operations through implementation of the necessary financial recordkeeping and reporting, updating and maintaining governing documents, such as the Plan of Control and managing and updating administrative tools such as the Reserve Study, Communications Plan, Work Program and Monthly Incident Log. The General Manager Consulting Services Agreement provides for certain administrative positions and costs, including but not limited to, a General Manager, Operations Manager, Administrative Manager, a Constructions Services Manager and a Network Administrator as well as overhead costs, such as office space rent, office supplies, and postage. The General Manager retains the necessary professionals, including without limitation, engineers, accounting professionals and other consultants and vendors to facilitate the operations of the GHAD.

The General Manager Consulting Services Agreement and associated budget also allow for the use of defined task subcontractors, including administrative, engineering, and construction-related subconsultants, as needed and within the established limits of the Agreement.

Within the General Management of the Canyon Lakes GHAD, the Operations Program scope of services includes implementing the Major Projects and Preventive Maintenance Programs through forecasting work schedules and priorities, preparing Requests for Proposals, and managing maintenance and repair operations within the Major Projects and Preventive Maintenance Programs. These services also include specific project management and construction oversight, preparing for and responding to emergency incidents, monitoring instrumentation and assets, and analyzing and processing collected data into established District programs to inform decisions related to the prevention, mitigation, abatement, or control of landslides. The Operations Program provides for certain operational positions including, but not limited to; Project Engineer, Construction Services Supervisor as well as certain overhead costs, such as, office supplies and rent, and electronic monitoring devices, testing apparatus, equipment purchases and/or equipment rental and conditional use of subcontractors such as contractors, consultants, engineers, and special inspectors, within the payment limits of the Consulting Services Agreement.

A summary of the proposed Fiscal-Year 2026-2027 Budget is presented in Table 1, and followed by project-specific descriptions.

TABLE 1 – LINE ITEM BUDGET

Budget Item	Budget Amount	% of Total Budget
Major Projects		
Groundwater Study: Multiple Regional Sites	$ 60,000	
Horizontal Drain Cleaning Program (Recurring Area) - Study-driven	$ 75,000	
Unanticipated Sites	$ 30,000	
Landscape Replacement (associated GHAD repairs)	$ 15,000	
Total Major Projects	**$ 180,000**	**11%**

Preventive Maintenace/Operations		
Preventive Maintenace		
Drainage		
Storm Drain Facilities - Study-driven Maintenance Schedule	$ 75,000	
B-58 Concrete Lined Ditches		
Maintenance/Cleaning/Mapping	$ 80,000	
Repair and Replace - Study-driven Maintenance Schedule	$ 40,000	
Subdrain Systems		
Horizontal Drains - Study-driven Maintenance Schedule	$ 105,000	
Subdrain Outlets/Pumps - Study-driven Maintenance Schedule	$ 15,000	
Piezometers - Study-driven Maintenance Schedule	$ 40,000	
Settlement Monitors - Study-driven Maintenance Schedule	$ -	
Retention Basins/Arterial Open Channels - Study-driven Maint. Sch.	$ 45,000	
Debris Benches - Study-driven Maintenance Schedule	$ 20,000	
Drain Inlets – Associated with GHAD Maintained Infrastructure	$ 15,000	
Headwalls - Study-driven Maintenance Schedule	$ -	
Minor Repairs	$ 30,000	
Winterization/Inventory	$ 200,000	
Emergency Response	$ 50,000	
Subtotal	**$ 715,000**	
Operations		
Piezometer Monitoring	$ 7,500	
Horizontal Drain Monitoring	$ 7,500	
Subdrain Monitoring	$ 7,500	
Settlement Monitoring	$ -	
Incident Response/Community Relations	$ 45,000	
Subtotal	**$ 67,500**	
Total Preventive Maintenance/Operations	**$ 782,500**	**50%**

Special Projects		
Plan of Control	$ 1,000	
Reserve Study	$ 35,000	
Special Studies	$ 15,000	
Information Technology/Content Management	$ 50,000	
Geographic Information Systems	$ 100,000	
Accounting Systems Upgrade	$ 20,000	
Procedures Manual	$ 5,000	
Communications Program	$ 5,000	
CA Association of GHADs - Membership/Insurance	$ 11,000	
Total Special Projects	**$ 242,000**	**16%**

Administration		
Legal Fees		
General Counsel	$ 15,000	
Special Counsel	$ 10,000	
Litigation/Legal Concerns	$ 10,000	
HOA/CCCFCD	$ -	
Assessment Roll Update	$ 10,000	
Administrative Support		
Staffing/Administrative Support	$ 198,600	
Accounting/Financial Services	$ 85,120	
Training/Education	$ 4,000	
Office - Rent/Supplies/Equipment/Lease	$ 19,500	
Total Administration	**$ 352,220**	**23%**

TOTAL PROPOSED BUDGET FY2026/2027	**$ 1,556,720**	**100%**

Available Funds		
Estimated Beginning Fund Balance - July 1, 2026*		$ 8,163,962
Estimated Property Owner Assessment totals		$ 751,965
Single Family detached	$325.83/unit**	
Townhomes	$218.25/unit**	
Condominiums/Multi-Family	$162.95/unit**	
Commercial (per building square foot)	$0.160950/sq ft**	
Estimated Interest and Dividends on Investments***		$ 584,966
Other Income		$ -
Total Available Funds		**$ 9,500,893**
Use of Funds		
Major Projects		$ 180,000
Preventive Maintenance		$ 782,500
Special Projects		$ 242,000
Administrative		$ 352,220
Total Use of Funds		**$ 1,556,720**
Estimated Reserve Available/Ending Fund Balance June 30, 2026		**$ 7,935,173**

* Including estimated true-up revenue payment (June 2026) of $37,090 – Projected Fund Balance date of publication

**Estimates based on USBLS April 2026 CPI San Francisco, Oakland, Hayward Area

***Investments change in value included in calculations

DESCRIPTION OF BUDGET ITEMS

Major Projects

Groundwater Studies (Regional Sites)

Studies, as they relate to field conditions, are essential and are designed to analyze specific sets of aggregated empirical data with the intent of assessing condition of infrastructure and efficacy of instrumentation data collection. Through this effort, specific studies inform management about tailoring programs targeted to capitalize on the most effective preemptive measures as the GHAD implements its Major Projects Program and Preventive Maintenance Program.

This study is projected to be conducted in multiple phases. It will analyze regional groundwater regimes where groundwater levels have risen over time. Data from piezometer histories will be the primary criterion used in collaboration with the Horizontal Drain Study results in the effectiveness of horizontal drains in lowering local groundwater levels. It is expected that recent rain events will significantly impact this study and the efficacy of drainage systems, and runoff regimes throughout the District.

Estimated Budget $60,000

Horizontal Drain Cleaning Program (Phase 1 Locations)

This Phased cleaning program implements the results of our completed Horizontal Drain Cleaning Program (Phase 3) previously completed in FY23/24. Post-cleaning drain yields will be measured and analyzed compared to pre-cleaning yields. Impact on local groundwater levels will be analyzed and data will be additionally utilized in evaluating the efficacy of the Horizontal Drain Cleaning Program, as well as the impact on regional (District wide) groundwater levels. Data sets from historical above average rain events (2000 through 2025) will be accessed and utilized to further inform the Horizontal Drain Program.

Estimated Budget $75,000

Unanticipated Sites

During heavy rain years unexpected repairs are necessary to avert or control landslides that may threaten property within the District. It is vital for the manager to retain the availability of funds within the Major Repair Program to address such events.

It is also common to experience a change in the planned construction schedule to include additional sites. Known sites can rise in priority throughout the year and additional sites may emerge.

Estimated Budget $30,000

Landscape Replacement

Typically, remedial landscaping is either included in the scope of work for major projects or eliminated completely from the repair scheme: however, on occasion the associated License Agreements executed in preparation of the work will address a reimbursement or allowance to the property owner for remedial landscaping installation. With as many sites and events that the Canyon Lakes GHAD must attend to over the next fiscal year, we have allowed for certain, unknown at this time, landscape/structure reimbursements.

Estimated Budget **$15,000**

Preventive Maintenance/Operations

Preventive Maintenance

Preventive maintenance generally consists of those measures taken to prevent an incident or landslide event including, asset maintenance, drainage structures, instrument sites and winterization measures. Operations include ongoing monitoring programs and responses to community requests. Details of the proposed budget for each of these categories are listed below.

The Preventive Maintenance Program is an ongoing program to ensure that facilities, infrastructure, systems, and slopes perform and operate as designed. The GHAD has operated a robust preventive maintenance program since its inception, preventing untold numbers of slope failures. After nearly 40 years of operation, much of the GHAD infrastructure is estimated to be approximately 50 percent through its serviceable life, consistent with the projections in the GHAD's Reserve Study. In the 3rd and 4th quarters of fiscal year 24/25, the GHAD Manager initiated a comprehensive test study on infrastructure to identify existing conditions and produce a system-wide maintenance schedule to address weaknesses in physical infrastructure and anticipate future costs.

This comprehensive test study has been structured into three phases: Phase 1 (Feasibility), Phase 2 (Development), and Phase 3 (Implementation). Phases 1 and 2 were largely completed during the 24/25 and 25/26 fiscal years, though some feasibility and development activities remain in progress. The 26/27 fiscal year will focus primarily on Phase 3 (Implementation), while any remaining Phase 1 and 2 tasks are concluded. The resulting program test studies provide and will continue to provide the information needed to address infrastructure weaknesses, extend the longevity and serviceable life of GHAD infrastructure, and refine long-term financial planning. This test study has substantially informed the current reserve study update.

Storm Drains/Facilities – Study-driven Maintenance Schedule

Completed in FY25/26: During FY25/26, the GHAD advanced a comprehensive evaluation of storm drain systems that convey flows from B58 ditches to downstream community infrastructure. Initial field inspections (Phase 1) confirmed that, based on surface observations,

these systems are generally functioning as intended, with inlets and outlets operating without significant blockage or restriction.

As part of this effort, the GHAD then began developing a formalized Storm Drain System program (Phase 2) consistent with the Preventive Maintenance Program. This included identifying systems within GHAD jurisdiction, developing a standardized identification framework, and initiating site verification efforts. In addition, protocols for file management and data organization were established to support long-term monitoring and maintenance.

To enhance internal inspection capabilities, the GHAD procured a crawler-type camera system. This equipment is now being actively utilized in the field to perform in-line inspections and establish baseline conditions of storm drain piping systems. This approach provides a cost-effective and efficient alternative to third-party inspection services while allowing for more frequent and responsive evaluations.

Projected for FY26/27: In FY26/27, the GHAD will continue implementation of the Storm Drain System program (Phase 2) as part of its ongoing efforts to support the prevention, mitigation, abatement, or control of landslides. Work will include completion of baseline in-line inspections of storm drain systems using the crawler camera, further refinement of system inventory and identification, and continued integration of asset data into the GIS platform.

Additional efforts will include development and implementation of a biennial inspection schedule, allowing for systematic monitoring of system performance, with flexibility to conduct supplemental inspections following significant storm events. Field activities will also include continued site access improvements, inlet identification marking, and data standardization to support consistent, repeatable maintenance practices.

Phase 3 (Implementation) of the Storm Drain System program will also commence in FY26/27. This phase will focus on addressing findings from the inspection and evaluation efforts, including targeted repairs, maintenance, and system improvements where warranted. Work will be prioritized based on conditions observed and their relevance to supporting proper drainage function and slope stability, with the goal of maintaining and enhancing system performance in a manner consistent with the GHAD's responsibility to prevent, mitigate, abate, or control landslides.

These efforts will further strengthen the GHAD's ability to monitor drainage infrastructure directly related to slope stability and to proactively address conditions associated with threatened landslides.

Estimated Budget **$75,000**

B-58 Drain Systems

Maintenance*:* Allows for one major annual cleaning and mapping of the B-58 drain systems. In addition, District staff periodically walks the B-58 systems to get a first-hand account of the current conditions and project serviceable life. This information, along with other empirical data, is utilized in our Reserve study updates. This year, because of the late rains, we anticipate

heavier than normal vegetation to be encountered and managed during our annual cleaning program.

Completed in FY25/26: During FY25/26, the GHAD continued implementation of its study-driven maintenance program for B-58 drainage systems, which are a critical component of surface water management related to slope stability. Specifically, the GHAD advanced system-wide inspection and documentation protocols following completion of annual cleaning activities. A standardized, low-flying UAV inspection program was developed and implemented to capture high-resolution video of B-58 segments immediately following cleaning. This approach provides consistent and comprehensive documentation of post-maintenance conditions, enhances the ability to identify deficiencies, and supports remote evaluation by the GHAD Manager.

Inspection procedures were formalized to include coordinated scheduling with cleaning operations, standardized flight paths, and consistent data management practices. Video data of the B-58s is now being systematically collected, cataloged, and reviewed to identify segments exhibiting wear, cracking, erosion, blockage, or other conditions that may affect drainage performance and slope stability. This program establishes a repeatable and defensible baseline for ongoing monitoring and maintenance prioritization.

Projected for FY26/27: In FY26/27, the GHAD will continue implementation of the B-58 inspection and maintenance program as part of its ongoing efforts to support the prevention, mitigation, abatement, or control of landslides. Drone-based inspections will be conducted in coordination with the annual cleaning program to ensure consistent documentation of system conditions and to maintain an updated inventory of asset performance.

Based on collected data and observed conditions, repair and replacement activities will continue on a prioritized, site-specific basis, focusing on segments where deficiencies may affect proper drainage function and contribute to conditions associated with threatened landslides. Additional efforts will include refinement of inspection protocols, continued integration of data into the GIS platform, and targeted re-inspections of higher-risk areas following significant storm events.

Phase 3 (implementation) of the B-58 program will also commence in FY26/27. This phase will focus on addressing findings from the inspection and evaluation efforts, including targeted repairs, maintenance, and system improvements where warranted. Work will be prioritized based on observed conditions and their relevance to maintaining effective surface drainage and supporting slope stability.

Estimated Budget **$120,000**

Subdrain Systems Program

Outlet sites for subdrain systems must be monitored and maintenance provided to ensure outlets have not been damaged or impeded. Outlets will continue to be monitored under the existing protocol under the Operations Program. Maintenance costs will be deferred this fiscal year in favor of other program needs and as maintenance has recently been provided and not necessary in this budget.

Horizontal Drains – Study-driven Maintenance Schedule

Completed in FY25/26: During FY25/26, the GHAD initiated Phase 1 and Phase 2 efforts for the horizontal drain (HD) system, which serves a critical role in subsurface drainage and groundwater management associated with slope stability. This work includes, but is not limited to, a comprehensive review of existing documentation for approximately 280 horizontal drains within the GHAD.

Projected for FY26/27: In FY26/27, the GHAD will advance Phase 1 and Phase 2 field and reporting efforts for the horizontal drain system, including site verification, condition assessments, camera inspections, and identification of maintenance and repair needs. Work will also include efforts to locate previously unidentified drains where feasible, evaluation of system accessibility for cleaning operations, and development of updated inspection and maintenance protocols.

Additional efforts will include organization and standardization of system data, integration into the GIS platform, and implementation of improved maintenance practices, including installation of access features such as cleaning portals and resumption of cleaning operations where appropriate. These activities will support improved performance of subsurface drainage systems and enhance the GHAD's ability to monitor and manage groundwater conditions associated with slope stability.

Phase 3 (Implementation) of the horizontal drain program will commence in FY26/27. This phase will focus on addressing findings from the inspection and evaluation efforts, including targeted repairs, maintenance, system reconfiguration, and completion of access improvements where warranted. Work will be prioritized based on observed conditions and the relative importance of each drain in supporting subsurface drainage and slope stability.

Estimated Budget **$105,000**

Subdrain Outlets/Pumps – Study-driven Maintenance Schedule

Completed in FY25/26: During FY25/26, the GHAD completed Phase 1 and Phase 2 efforts for subdrain pump systems, which support groundwater management associated with slope stability. This work included assessment of the baseline condition of GHAD-maintained pumping facilities through field visits and review of exiting documentation.

In addition, the GHAD evaluated existing inspection and maintenance protocols, including maintenance schedules, scope, and associated costs, and developed recommendations for improved procedures and updated inspection schedules. These efforts establish a baseline understanding of system condition and performance and provide a framework for ongoing maintenance and operational planning consistent with the GHAD's responsibility to prevent, mitigate, abate, or control landslides.

Projected for FY26/27: In FY26/27, the GHAD will implement Phase 3 (Implementation) of the subdrain pump systems program. This phase will focus on

executing the maintenance and operational improvements identified during the Phase 1 and Phase 2 efforts, including targeted maintenance, repairs, and system upgrades where warranted.

The GHAD will also continue routine monitoring and maintenance of its subdrain pumping facilities, including periodic operational checks and upkeep of equipment, instrumentation, and control systems to ensure continued reliability.

Work will be prioritized based on observed conditions and the importance of each system in supporting groundwater management and slope stability.

Estimated Budget **$15,000**

Piezometers – Study-driven Maintenance Schedule

Completed in FY25/26: During FY25/26, the GHAD completed a comprehensive inspection and evaluation of its piezometer network (Phase 1 and 2), which provides critical groundwater elevation data used to monitor subsurface conditions associated with slope stability. All piezometer assets within the GHAD were observed, and program objectives including GPS verification, condition assessment, and standardized reporting were completed for each site.

Minor maintenance activities were performed where feasible, including debris removal, lock lubrication, and identification of obstructions or site access issues. In addition, select piezometers exhibiting minor deficiencies were addressed in the field, including stabilization of faulty bases to reduce the potential for surface water intrusion and ensure more reliable readings. Identification and security issues, such as missing/damaged locks, or deteriorated tags and markings, were documented for future correction.

This effort also reinforced the use of aerial drone support for site location and access planning, while confirming that internal inspection and condition evaluation are best performed through direct field methods. The results of this work have established a verified and standardized inventory of piezometer assets and a consistent baseline for ongoing monitoring and maintenance activities. This concluded Phase 1 and 2.

Projected for FY26/27: The piezometer network will continue to serve as a key component of the GHAD's instrumentation program, providing data used to evaluate groundwater conditions, identify trends, and inform decision-making related to slope stability. As such, in FY26/27, Phase 3 (implementation) of the piezometer program will also commence in FY26/27. This phase will focus on addressing findings from the inspection and evaluation efforts, including targeted repairs, maintenance, and system improvements where warranted. Work will be prioritized based on observed conditions and the importance of each site in monitoring groundwater levels associated with slope stability, consistent with the GHAD's responsibility to prevent, mitigate, abate, or control landslides.

Estimated Budget **$40,000**

Settlement Monitors - Study-driven Maintenance Schedule

Over time, a number of project-related settlement monitors have been placed throughout the development. These monitors were, in large part, installed as part of new monitoring programs and exist in several areas of the District. Although older or obsolete instrument sites may periodically be evaluated for decommissioning, no such work is currently planned for this fiscal year.

Estimated Budget **$0**

Retention Basins - Study-driven Maintenance Schedule

Previously protracted drought and then heavy rain load conditions in northern California have resulted in significant variance of water level surfaces in many dual-purpose storm water retention facilities in the area, including the Canyon Lakes development. The GHAD manager has actively worked with local Homeowners Associations and jurisdictional agencies to further explore the potential risk ramifications to collectively plan for impacts. This fiscal year efforts will be made to analyze the watercourse between the Lakes at Canyon Lakes and Canyon Lakes Drive ("Watson Canyon"). A preceding Test Study will inform inspection protocol and actions if necessary.

Estimated Budget **$45,000**

Debris Benches - Study-driven Maintenance Schedule

Completed in FY25/26: During FY25/26, Phase 1 and Phase 2 efforts were completed, including comprehensive field inspections and aerial drone documentation for each debris bench to establish baseline conditions and confirm functionality. Observations indicate that the debris benches are performing as intended, with no current deficiencies affecting drainage patterns or structural integrity.

Standardized inspection protocols were developed, including implementation of consistent drone flight procedures to capture both detailed condition and broader site context. Recommendations were also established for permanent field identification markers to improve tracking and inspection efficiency. A recurring inspection and maintenance schedule was developed, including annual inspections and additional evaluations following significant storm events, with data organized to support ongoing comparison and trend analysis. All debris benches were marked in the field for more accurate identification and monitoring in the field.

Projected for FY26/27: In FY26/27, the GHAD will commence Phase 3 (Implementation) of the debris bench program. This phase will focus on maintaining and preserving the long-term functionality of debris benches through routine inspections, debris removal where necessary, and targeted maintenance activities identified during prior evaluations.

Additional efforts will include continued implementation and refinement of the drone-based inspection protocol, installation of permanent identification markers, and integration of debris bench data into the GIS platform to support consistent tracking and long-term asset

management. Monitoring efforts will emphasize comparison of current conditions with prior inspections to identify developing trends that may affect performance.

As part of Phase 3, a licensed soils engineer will evaluate debris benches to distinguish between those functioning primarily as debris catchment features and those serving as structural buttresses. This distinction will support more informed prioritization of maintenance and ensure that each bench continues to perform its intended role in supporting slope stability, consistent with the GHAD's responsibility to prevent, mitigate, abate, or control landslides.

These efforts will support a proactive and systematic approach to managing debris benches as a long-term component of the GHAD's slope stabilization infrastructure.

Estimated Budget **$20,000**

Drain Inlets – Associated with GHAD Maintained Infrastructure

Completed in FY25/26: During FY25/26, Drain Inlets (DIs) were established as a distinct asset category within the GHAD's storm drain system infrastructure program to allow for more refined management, tracking, and maintenance. Previously grouped with broader systems such as B-58 ditches or storm drain systems, this separation enables more precise condition assessment, targeted maintenance, and improved data organization, supporting a more systematic approach to managing surface drainage associated with slope stability.

Accordingly, Phase 1 and Phase 2 efforts were completed, including comprehensive field inspections to establish baseline conditions, photographic documentation, and centralized data collection. A standardized digital reporting platform and structured server organization were also implemented to support consistent tracking and long-term asset management.

Phase 2 efforts also included installation of permanent identification markers using a standardized naming convention and preparation of a comprehensive report summarizing findings. Based on these efforts, an ongoing inspection and maintenance schedule was developed to support systematic monitoring and maintenance of DI systems.

Projected for FY26/27: In FY26/27, the GHAD will commence with Phase 3 (Implementation) of the drop inlet systems program. This phase will focus on addressing findings from the inspection and evaluation efforts, including targeted maintenance, cleaning, repairs, and minor improvements where warranted to maintain proper drainage function.

Additional efforts will include continued use and refinement of the inspection and reporting system, integration of DI asset data into the GIS platform, and ongoing evaluation of system performance. Work will be prioritized based on observed conditions and the role of each inlet in supporting effective surface drainage and reducing conditions associated with threatened landslides.

These efforts will support a consistent and proactive approach to managing drop inlet systems as part of the GHAD's broader drainage infrastructure program.

Estimated Budget **$15,000**

Headwalls

During FY25/26, the GHAD completed Phase 1-3 efforts for all headwall systems, which function as key drainage points within the District's drainage infrastructure supporting slope stability. Comprehensive field inspections and evaluations were performed for all identified headwalls, including documentation of location, condition, and operational characteristics. As such, no additional work is currently planned for this fiscal year.

Estimated Budget $0

Minor Repairs

A budget is established annually for ongoing smaller projects or unanticipated minor projects within the Preventive Maintenance Program. Most current minor project sites have been incorporated into the Rain Event storms under the Major Projects program calendar. The Minor Projects Program may be used in collaboration with the Major Projects "Rain Event" program to manage groups of smaller repair projects.

Estimated Budget $30,000

Winterization/Inventory - Study-driven Maintenance Schedule

The District provides an annual budget for procuring and storing an inventory of winterization materials and to provide for the costs of site installation. Winterization materials inventory have been fortified since significant depletion of materials during the last three season's responses. With efforts to continue replenishment of emergency response materials, this year's winterization measures should normalize once again. Inventory analyses, offsite storage, and procurement policies are planned for FY26/27.

Estimated Budget $200,000

Emergency Response

During the winter rainy season, the Canyon Lakes GHAD responds to a range of urgent active and threatening landslides and drainage issues where property damage is threatened. These incidents typically involve mud or debris flows, plugged storm drains at the base of slopes or flooded properties due to the overflow of runoff from plugged or damaged facilities. In severe cases these responses can be the initiation of slope stabilization measures in preparation for a major repair.

Estimated Budget $50,000

Operations

An inventory of onsite instrumentation including hundreds of piezometers, inclinometers, horizontal drains, subdrains, and settlement monuments are monitored periodically throughout

the year as a preventive measure. Collected data from these sites is analyzed and aggregated into the GIS for further analysis to establish trends.

Monitoring sites can be established for a variety of uses. Completed repair sites often require monitoring protocol to confirm that the slope has been stabilized. Other sites have been utilized to indicate signs of unstable conditions developing and have been instrumental in determining slope conditions prior to the activation of a landslide.

Through the use of collected data such as groundwater depth, magnitude of slope movement, depth of movement, and ground surface movement, the District has been able to arrest slope movement in advance of an incipient failure. Archiving of historical data is ongoing integrating into the GHAD GIS as new features are designed and activated.

Throughout the year, the District receives incident response or assistance calls from property owners regarding slope stability or drainage issues. Community relations, including incident responses through the annual Operations Program, have been institutionalized as a role of Canyon Lakes GHAD management. All incidents are recorded within the GIS and move through the District response mechanisms as appropriate and consistent with the Canyon Lakes GHAD Plan of Control. GHAD has completed an updated user-friendly interactive website that provides a portal for property owners and stakeholders to report incidents or inquire about the GHAD's operations.

The GHAD manager receives updates in long-range weather and oceanic temperature changes through the National Oceanic and Atmospheric Administration (NOAA) and other scientific and atmospheric agencies that track data and produce probabilistic assessments on the likelihood of seasonal heavy rain or seismic conditions. Preliminary NOAA reporting indicates atmospheric and oceanic conditions currently suggest approximately a one-in-three probability of elevated El Niño conditions during late 2026 and early 2027, although forecasts may change as additional data becomes available. These probabilities may change significantly during the ensuing months to either strengthen or weaken the probabilities of El Nino.

Estimated Budget **$67,500**

Special Projects

During fiscal year 2025/2026 the District will continue several special projects. Brief descriptions of the special projects are presented in Table 1 and further described below:

Plan of Control Update

Amendment 3 to the Plan of Control (POC) has been adopted by the GHAD Board and put into use. Amendment 3 supersedes previous plans and addresses additional clarification and instruction with respect to the GHAD responsibilities and authorities. A modest allowance has been established for any activity that may involve the Plan of Control.

Estimated Budget **$1,000**

Reserve Study Update

The Canyon Lakes GHAD reserve fund study was originally completed in FY2002-2003. An extensive update to the plan was completed in fiscal year 2012-2013. This year GHAD initiated work on a comprehensive update to the Reserve Study in January 2026, as a coordinated effort with the Preventive Maintenance program to establish a baseline condition of mid-serviceable life for much of the infrastructure that GHAD manages. The programs communicate within a 3-phase infrastructure testing and evaluation program. The reserve study functions as a pro-forma (40 year) analysis of the financial needs of the GHAD. It serves as a tool to calculate the annual contribution required by the GHAD to build and maintain sufficient funds for emergencies and capital replacement programs based on past weather patterns, landslide repair costs, and general attrition. Historically, as a result of severe winters, draws have been necessary on the reserve fund. The current efforts to update the Reserve Study is anticipated to be completed in FY2026-2027.

Estimated Budget **$35,000**

Special Studies

The Canyon Lakes GHAD intends to continue targeted and site-specific studies in the areas of fiscal policy and geologic risk. The GHAD, as we anticipate our 40th year, has the unique opportunity to address many of the issues surrounding long-term viability and sustainability within changing environmental and financial conditions. Using empirical data, we can assess potentially increasing financial loads and geologic risks that may accompany the physical maturation process of this District, as well as identifying infrastructure serviceability and project capital replacement costs in advance. We are confident that these studies have produced and will continue to produce beneficial results. The Special studies program has been modified this year to analyze and account for projected costs to continue site specific studies currently underway.

Estimated Budget **$15,000**

Information Technology Systems (IT) and Geographic Information Systems (GIS)

Completed in FY25/26: In FY25/26 the GHAD developed a comprehensive Geographic Information System (GIS) solution to support the District's monitoring and management of geologic hazards and related incidents. The effort was organized into three phases and included system modernization, feature enhancements, and the deployment of mobile capabilities. In Phases 1 and 2, the existing GIS functionality was migrated into a new, more reliable platform. Building on that foundation, Phase 2 introduced enhanced features to improve overall system usability, reliability, and efficiency. In Phase 3, a mobile version was developed to improve field data entry and incident management. This included enabling field staff to create and update incidents in real time, upload photos, access asset information, and perform simplified searches.

Overall, this project significantly improved the District's ability to monitor, document, and respond to geologic hazards. By modernizing the GIS platform and extending its functionality into the field, the contractor enhanced operational efficiency, improved data accuracy and accessibility, and equipped staff with tools necessary to make more timely and informed decisions.

Projected for FY26/27: Efforts in FY26/27 are anticipated to focus on ongoing system maintenance, implementation of bug fixes, and continued IT support to ensure reliable performance of the GIS platform. Additional work will include miscellaneous system improvements and refinements to further enhance usability, address evolving operational needs, and maintain long-term system effectiveness

Estimated Budget for IT and GIS $150,000

Accounting System Upgrade

Periodic upgrades are necessary to enhance accounting system capabilities. The GHAD utilizes expense accounting software to assist in reporting and the day-to-day operation of the District. Continued accounting systems enhancements will be implemented allowing more data entry streamlining, enhanced reporting, and quality control assurance procedures. The GHAD Treasurer and the General Manager work collaboratively to fortify the accounting systems, receivables and invoice processing procedures.

Estimated Budget $20,000

Procedures Manual

GHAD continually upgrades procedures and modifies plans to incorporate new technologies that assist the GHAD in delivering the highest level of services. Procedures require certain modifications and enhancements as new methodologies are introduced and incorporated into the GHAD Standard Operation Procedures. Certain financial and operations procedures have been institutionalized within the program. Additional procedures will be incorporated to further define and standardize the following areas:

- Preventive Maintenance/Operations
- Contracts and Agreements
- Administrative Procedures
- Content Management Systems

Estimated Budget $5,000

Communications Plan

The Canyon Lakes GHAD maintains a communications plan designed to keep constituents current on GHAD operations and developments. The plan addresses several venues and mediums in which to disseminate information within this District and to other concerned parties, and to establish clear and accessible channels for community interaction. The GHAD has now implemented a web page for public information and interaction and a multi-page

informational brochure has been completed and distributed to interested Homeowner Associations (HOA) that describes the GHAD and its responsibilities and limitations. Additionally, when asked, the General Manager writes periodic articles for the HOA newsletter

Estimated Budget $5,000

Outreach/Legislative Review
California Association of GHADs (CAGHADs) Membership/Insurance

The proliferation of new GHADs within California has resulted in new legislation and adopted procedures. The Canyon Lakes GHAD Manager, in association with others make up the CAGHAD Board of Directors and share information and knowledge through a consortium of GHAD managers. The CAGHAD has obtained General Liability policies for its member GHADs.

Additional GHAD onboarding and participation has reduced relative premiums. Coverage for the Canyon Lakes GHAD is approximately $4,500[1], plus administrative costs.

Additionally, the GHAD manager participates in the CAGHADs as the organization pursues other financial instruments that may provide GHAD additional options for extraordinary event financial planning. In 2016, the CAGHAD Board adopted a new fee schedule reducing the annual GHAD fees for membership by 50%.

Estimated Budget $11,000

Administration

The administration of the Canyon Lakes GHAD includes all costs associated with legal support, office expenses, staffing, and accounting. Brief descriptions are presented below.

Legal

General Counsel: GHAD management must interact regularly with GHAD Counsel. The day-to-day operations of the GHAD present a myriad of opportunities and issues to work directly with GHAD counsel, in the areas of contracts, agreements, issues or new business to present to the Board, legislation, property owner issues.

Estimated Budget $15,000

Special Counsel/Litigation/Legal Concerns: GHAD management requires the services of special counsel from time to time in the areas of litigation, new legislation and other legal concerns.

Estimated Budget $20,000

[1] 2025/2026 Premium referenced

Assessment Roll Update

Annually, the District funds an effort to recalculate the final assessment roll for the District. This budget allows for a periodic analysis of the comprehensiveness of the roll in addition to calculating the properties status and rate modifications.

Estimated Budget **$10,000**

Staffing/Administrative Support

The Canyon Lakes GHAD staff includes the General Manager, Operations Manager, Construction Services Manager, an Administration Manager and frequently other support staff and consulting professionals. The General Manager administers all GHAD day-to-day operations, including financial budgeting and communications regarding its activities. The Operations Manager and Construction Services Manager, among other tasks, administer the Major Projects and Preventive Maintenance Programs and associated work schedules, consulting and construction contracts, and documents. The administrative staff is responsible for accounting/bookkeeping, contract administration, clerical, and construction management support; Additional management staff costs are also applied to specific projects as appropriate. Authorized business expenses such as rent, office supplies and leases are included in Staffing.

Estimated Budget **$307,220**

1025 ESCOBAR STREET
MARTINEZ, CA 94553

CONTRA COSTA COUNTY

Staff Report

File #: 26-2729 **Agenda Date:** 6/23/2026 **Agenda #:** C.81.

To: Board of Directors

From: Hillcrest Heights Geological Hazard Abatement District

Report Title: ADOPT Resolution No. 2026-01 to approve the FY26-27 Annual Budget and to update the GHAD Manager payment limit pursuant to the Consulting Services Agreement.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

ADOPT Hillcrest Heights GHAD Resolution No. 2026-01 approving the GHAD budget for fiscal year 2026-27 and updating the GHAD General Manager payment limit pursuant to the Consulting Services Agreement.

FISCAL IMPACT:

The GHAD is funded 100% through a real property assessment levied on properties within the GHAD.

BACKGROUND:

On July 23, 1996, the Contra Costa County Board of Supervisors adopted Resolution 96/329 approving the formation of the GHAD and appointed itself to serve as the GHAD Board of Directors. The GHAD includes a GHAD General Manager (Sands Construction), GHAD Clerk/Attorney (Fennemore LLP) and a GHAD Treasurer (Laffer Tengler Investments) all appointed by the GHAD Board of Directors.

The GHAD Board adopts a budget for the GHAD operations each fiscal year. The GHAD Board is being requested to adopt the fiscal year budget for 2026/2027 as prepared by the GHAD General Manager which is attached to Resolution No. 2026/01. The proposed fiscal year budget totals $380,000.00.

In addition, the GHAD Board is being requested to update the GHAD General Manager payment limits under the existing Consulting Services Agreement as required by that Agreement. The budget attached to Resolution No. 2026/01 identifies that limit at $123,200.00.

CONSEQUENCE OF NEGATIVE ACTION:

The GHAD will not be able to continue to operate starting July 1, 2026 if the budget is not approved.

THE BOARD OF DIRECTORS OF HILLCREST HEIGHTS GEOLOGIC HAZARD ABATEMENT DISTRICT

Adopted this Resolution on June 23, 2026, by the following vote:

AYES:

NOES:

ABSENT:

ABSTAIN:

RESOLUTION NO. 2026/01 (ANNUAL BUDGETAND UPDATING GHAD MANAGER PAYMENT LIMITS)

SUBJECT: Adopting 2026/2027 annual budget and updating GHAD General Manager payment limits under the existing Consulting Services Agreement.

WHEREAS, on July 23, 1996, the Contra Costa County Board of Supervisors adopted Resolution 96/329 approving the formation of the Hillcrest Heights Geologic Hazard Abatement District (GHAD) and appointed itself to serve as the GHAD Board of Directors.

WHEREAS, the GHAD Board of Directors desires to adopt the budget for the fiscal year 2026/2027 prepared by the GHAD General Manager, Sands Construction Company, Inc, for a total of $380,000.00 attached hereto as **Exhibit A**.

WHEREAS, on October 7, 2014, pursuant to Resolution No. 2014/02, the GHAD Board approved an updated consultant services agreement with Sands Construction Company, Inc., to act as General Manager for the GHAD. This Agreement, in section 3, requires the GHAD Board to determine by resolution each fiscal year the payment limits for GHAD General Manager services. The budget attached in **Exhibit A** identifies this limit at $123,200.00 Staffing/Administrative Support.

The Board of Directors of the GHAD HEREBY RESOLVES THAT:

1. The GHAD Board approves the GHAD budget for the 2026/2027fiscal year of $380,000.00 attached as **Exhibit A** and incorporated herein by this reference.

2. The GHAD Board adopts the payment limit for GHAD General Manager services at $123,200.00 for fiscal year 2026/2027 as set forth in **Exhibit A**, and incorporates this payment limit into the Consulting Services Agreement.

3. The recitals are incorporated herein by this reference.

This Resolution shall become effective immediately upon its passage and adoption.

Exhibit A – 2026/2027 Annual Budget

El Cerrito, California 94530

SUBJECT: Program Budget for Fiscal Year 2026-2027
Hillcrest Heights Geologic Hazard Abatement District

Dear Board Members:

Attached is the proposed program budget for the Hillcrest Heights Geologic Hazard Abatement District ("Hillcrest Heights GHAD," "GHAD," or "District") for fiscal year 2026–2027. The proposed budget reflects the District's continued focus on risk-based prioritization, preventive maintenance, and long-term infrastructure management.

The budget is organized into four primary categories: Major Projects, Preventive Maintenance and Operations, Special Projects, and Administration, Legal, and Accounting. These programs collectively support the District's responsibility to prevent, mitigate, abate, and control geologic hazards in accordance with the Plan of Control. The FY2026/2027 anticipates a surplus of annual revenue producing a contribution to the Reserve Fund.

BACKGROUND:

On July 23, 1996, the Contra Costa Board of Supervisors adopted Resolution 96/239 approving the formation of the Hillcrest Heights Geologic Hazard Abatement District (Hillcrest Heights GHAD), located in the hills of El Sobrante, within the jurisdiction of Contra Costa County. The Hillcrest Heights GHAD was formed pursuant to State Public Resources Code § 26500 et seq. The Board of Supervisors at that time appointed itself as the Board of Directors of the Hillcrest Heights GHAD.

Resolution 97/178 adopted on April 1, 1997, by the Board of Supervisors, acting as the Hillcrest Heights Board, confirmed the assessments for the District and ordered the collection of the amounts called for in the Assessment Report. The initial fiscal year for the Hillcrest Heights GHAD was established as 1997-1998.

A 15-lot subdivision located in El Sobrante, known as Spanish Trails, was annexed in 2008 to the Hillcrest Heights GHAD and on February 25, 2009, the Notice of Assessment was recorded. Assessments were levied on the 15 lots beginning fiscal year 2009-2010. Maintenance transfer to

the Hillcrest Heights GHAD for the activities pursuant to the approved Plan of Control occurred on February 5, 2010.

A 32-lot subdivision also located in El Sobrante known as Edgemont (Colina Canyon) was also annexed to the Hillcrest Heights GHAD on May 11, 2010, with the Final Map and Notice of Assessment recorded on July 29, 2010. Construction commenced on several model homes and activities halted and the subdivision remained in this condition for a time, although the District has been receiving revenue from property assessments. Maintenance transfer to the Hillcrest Heights GHAD has not been completed and therefore the District cannot currently provide services.

The Major Projects program - In March of 2024, Alan Kropp & Associates (AKA), issued a report at the GHAD's directive to evaluate a comprehensive video survey of the storm drain infrastructure in Hillcrest Heights. The AKA report details and prioritizes a number of drainage pipe damage areas. It appears that the damage sites recorded in the video inspections were caused during the original installations of the storm drain systems as part of the overall development of Hillcrest Heights. The report cites that the observed damages do not appear to negatively impact the drainage system's operation. Since the project was considered discretionary and therefore lower in priority, During FY25/26 GHAD chose to move the project into a more comprehensive schedule of infrastructure evaluations and maintenance protocol within the Preventive Maintenance program (see below) and initiated scheduled periodic events to observe conditions and performance of the community storm drain systems. This Study/Project has been moved into the Preventive Maintenance program this year and will comply with the protocol established within that platform.

The Preventive Maintenance Program – In FY25/26 a District-wide infrastructure Test Program was initiated across several GHAD maintained systems. This three-phase program has been incorporated and tested in other Contra Costa County GHADs under the same management as Hillcrest Heights. The first phase of the program assesses the feasibility of system initiation; a second phase establishes current conditions of infrastructure and makes recommendations for repairs, maintenance, longevity assessments and costing; a third phase, informed by the previous phases prioritizes and implements a district-wide maintenance program. The Storm Drain system program from the Major Projects program has been incorporated into this year's Preventive Maintenance project under this described protocol. The program will continue into third phase operations during FY26/27.

Additional annual maintenance on instrumentation and infrastructure will continue in fiscal year 26/27 to be addressed on a priority basis. Specifically, we will target the following program elements - Concrete Interceptor Ditch Systems (Repair and Replace Program); the Horizontal Drains (Site Maintenance Program); the Piezometers (Site Maintenance Program); Retention Basins (Maintenance Program), and the Soil Debris Bench/Impact Walls (Maintenance Program), with the addition of Storm Drain systems under the Preventive Maintenance program.

The Operations Program will continue its existing monitoring profile through this period. Recurring semi-annual site monitoring and reporting of GHAD assets, slope performance and infrastructure conditions will continue to be conducted by Alan Kropp & Associates providing current conditions. GHAD conducts ongoing studies of accumulated empirical data from its many monitoring assets to further expose any notable trending that might occur over significant periods of time, thereby reducing risk exposure. Currently, The National Oceanic and

Atmospheric Administration (NOAA) reports Oceanic warming and expected trade winds may produce a one-in-three chance of El Niño conditions in the Southern Oscillation in Fall of 2026; however, early probability forecasts have often changed throughout the summer months.

The Special Projects Program will include analyzing the Plan of Control and other essential documents that establish and direct the Hillcrest Heights GHAD. A preliminary review was initiated to assess the need to conduct a formal Reserve Study that would serve to test, identify weaknesses, and expose any necessary adjustments to the criteria or methodologies utilized in the program and anticipate revenue and reserve demands over time. The data and results of the Preventive Maintenance Test program will be used to inform a projected formal Reserve Study, possibly occurring in late FY26/27. GHAD continues to analyze the feasibility of integrating a Geographic Information System (GIS) into the Hillcrest Heights program.

This budget anticipates continued strengthening and building efficiencies within the Administration Program, by completing an Information Technology (IT) system, modeling a Geographic Information System (GIS), and Content Management System (CMS). As managers, in close association with the GHAD Treasurer (Laffer Tengler Investments), we corporately monitor and project significant short-term and long-term financial impacts on GHAD reserves and compare such impacts with a 40-year reserve study in progress.

General legal counsel will continue to be provided by the Hillcrest Heights GHAD Board appointed attorney, Patricia Curtin of Fennemore, Wendel, LLP in a variety of areas including GHAD law, land use, contracts and agreements, and Federal, State and local Government agency matters.

A summary of the expenses is shown on Table 1, followed by brief descriptions of each of the budget items.

Respectfully yours,

Hillcrest Heights Geologic Hazard Abatement District

Hillcrest Heights Geologic Hazard Abatement District
Program Budget
Fiscal Year 2026/2027

The following proposed line-item program budget (Table 1) summarizes the anticipated expenditures for fiscal year 2026-2027 for the Hillcrest Heights Geologic Hazard Abatement District ("Hillcrest Heights GHAD", "GHAD", or "District"). Through an ongoing assessment, the manager evaluates and addresses geologic risk through the implementation of an annual program budget consisting of four major categories. Preceding Table 1, and directly below, is a general overview description of the four major program elements within the budget.

Major Projects Program

The annual Major Projects Program includes landslide repair projects, drainage improvement projects and capital improvement projects necessary to either control, mitigate, or prevent landslide activity. Other large program responses necessary to implement the Plan of Control, including specific purpose studies and investigations may also be included in the Major Projects Program.

Projects considered for inclusion in the Major Projects Program typically involve a level of complexity requiring the preparation of plans and specifications, comprehensive engineering analysis, or geotechnical evaluation. These efforts may include modeling, investigation, and design, or may involve extended project durations due to site conditions, construction requirements, or coordination with regulatory agencies. While not a defining criterion, Major Projects often represent higher-cost efforts, frequently exceeding $75,000.

Historically, the Major Projects Program has included significant landslide repair efforts as well as larger scale preventive and investigative initiatives that support long-term risk reduction. This range of project types reflects the need for deft program flexibility that can address both active or imminent landslide conditions and proactive measures, consistent with the priorities and authority established in the Plan of Control.

Preventive Maintenance and Operations Program

The annual Preventive Maintenance and Operations Program encompasses routine maintenance, minor repairs, debris removal, monitoring, and replacement of drainage facilities and related infrastructure that support the prevention, mitigation, abatement, or control of landslides. These activities are undertaken to maintain system functionality and to identify conditions associated with threatened landslides, allowing for timely and appropriate response measures.

Typical Hillcrest Heights GHAD assets include concrete lined ditches, sub-drainage systems, groundwater measuring instrumentation, slope inclinometers and moisture gauges, and slope debris catchment features. These systems are regularly evaluated as part of an integrated approach to managing landslide risk within GHAD boundaries.

The Preventive Maintenance Program also includes preparedness measures for emergency response, including seasonal winterization efforts such as installation of erosion control materials, staging of slope stabilization supplies, and ongoing maintenance of monitoring equipment.

The Operations Program is primarily populated with scheduled instrument monitoring events. Data from these instruments are used to assess site conditions, identify trends, and inform decisions regarding the prevention, mitigation, abatement, or control of landslides. In addition to the instruments monitoring program, the Operations Program contains the Incident Response and Community Relations Program, which incorporates comprehensive first response capabilities, and fosters community incident interaction.

Special Projects

The Hillcrest Heights GHAD undertakes ongoing and new initiatives identified as "Special Projects" that support the implementation of the Plan of Control. Special Projects include activities requested by the Board such as the Communications Program, or projects and studies designed to improve the District's operational effectiveness and ensure financial solvency. Special Projects also include utilizing new technologies to increase the efficiency, consistency, and reliability of the GHAD.

The Special Projects Program continues to support long-term operational planning, Reserve Study updates, GIS modernization, IT systems, accounting system enhancements, procedures development, and communications initiatives.

Recent GIS modernization study efforts including improved field reporting, incident tracking, asset management, and operational coordination through deployment of enhanced mobile and centralized data management tools utilizing GIS are undergoing a feasibility study continuing through FY26/27. Once feasibility has been determined the installation of a GIS system will be phased into operations.

Accounting System Upgrades are necessary as new software technologies are released or improved.

Procedure Manuals, Communication channels, along with Association memberships provide standardized systems and insurance pooling and networking opportunities and savings.

Administration

Administrative expenses are required to operate the Hillcrest Heights GHAD and the implementation of its programs and projects. Administrative expenses include personnel and consultants to manage the operations including the General Manager, Operations Manager, Administrative Manager, Construction Services Manager, certain clerical and accounting staff, consultants, and legal support.

General Manager Program Budget FY26/27	$ 123,200.00

The scope of services for the General Manager includes but is not limited to, managing the day-to-day operations through implementation of the necessary financial recordkeeping and reporting, updating and maintaining governing documents, such as the Plan of Control and managing and updating administrative tools such as the Reserve Study, Communications Plan, Work Program and Monthly Incident Log. The General Manager Consulting Services Agreement provides for certain administrative positions and costs, including but not limited to, a General Manager, Operations Manager, Administrative Manager, a Construction Services Manager and a Network Administrator as well as overhead costs, such as office space rent, office supplies, and postage. The General Manager retains the necessary professionals, including without limitation, engineers, accounting professionals and other consultants and vendors to facilitate the operations of the GHAD.

The General Manager Consulting Services Agreement and associated budget also allow for the use of defined task subcontractors, including administrative, engineering, and construction-related subconsultants, as needed and within the established limits of the Agreement.

With respect to the Operations of the Hillcrest Heights GHAD, the scope of services for Operations includes, implementing the Major Projects and Preventive Maintenance Programs through forecasting work schedules and priorities, preparing Requests for Proposals, and managing maintenance and repair operations within the Major Projects and Preventive Maintenance Programs. These services include project management and construction management; and preparing for and responding to emergency incidents.

The General Manager will retain the necessary professionals, including without limitation: engineers, accounting professionals, and vendors to facilitate the operations of the Hillcrest Heights GHAD. The General Manager Consulting Services Agreement and associated budget allows for the conditional use of subcontractors such as administrative sub-consultants and engineering or construction sub-consultants within the payment limits of the Consulting Services Agreement.

A summary of the proposed Fiscal Year 2026-2027 Budget is presented in Table 1 on the following pages and followed by detailed project descriptions.

Table 1 – Program Budget

Budget Item	Budget Amount	% of Total Budget
Major Projects		
Study: Groundwater Study/Slope Stability Study	$ 50,000	
Unanticipated Sites.	$ 20,000	
Landscape Replacement (associated GHAD Repairs)	$ 7,000	
	$ -	
Total Major Projects	**$ 77,000**	**20%**

Preventive Maintenance/Operations

DESCRIPTION OF BUDGET ITEMS

Major Projects

Study/Project – Storm Drain System Project Repair (Phase 1)

In March of 2024, Alan Kropp & Associates (AKA), issued a report at the GHADs directive to evaluate a comprehensive video survey of the storm drain infrastructure in Hillcrest Heights. The AKA report details and prioritizes a number of drainage pipe damage areas. It appears that the damage sites recorded in the video inspections were caused during the original installations of the storm drain systems as part of the overall development of Hillcrest Heights. The report cites that the observed damages do not appear to negatively impact the drainage system operation.

GHAD has moved forward with Phase 1 and Phase 2 during FY25/26 of a three-phased plan to address many of these sites on a priority basis, based on a Test Project action plan developed by Prayco, a contracted construction consultant, addressing feasibility and costs. Since the Storm Drain System project was considered as a phased discretionary Major Project, GHAD chose to integrate it into a more comprehensive schedule of infrastructure evaluations and maintenance protocol within the Preventive Maintenance program and will comply with the protocol established within that platform (see below).

Estimated Budget $0

Study – Groundwater Study/Slope Stability Analyses

Slope weathering and changes in groundwater levels and regimes over time can impact slope stability. It is important for Hillcrest Heights GHAD management to make dynamic assessments to ensure design thresholds are met in slope stability. This study addresses several potential sites and analyzes conditions. Recent storm events will be evaluated through onsite instrumentation data and any evidence of latent slope stability impacts identified and addressed.

An ongoing study of surfacing groundwater levels on Bridgeway Circle will continue with addressing possible mitigations in collaboration with the Hillcrest Heights HOA.

Estimated Budget $50,000

Unanticipated Sites

During heavy rain years, unexpected repairs are necessary to avert or control landslides that may threaten property within the District. It is vital for the manager to retain the availability of funds within the Major Repair Program to address such an event.

It is also common to experience a change in the planned construction schedule to include additional sites. Known sites can rise in priority throughout the year and additional sites may emerge.

Estimated Budget $20,000

Landscape Replacement

Typically, remedial landscaping is either included in the scope of work for major projects or eliminated completely from the repair scheme depending on impact from remedial efforts to restore slope stability. However, on occasion, and in compliance with the Plan of Control, the associated License Agreement executed in preparation of the work will address a reimbursement or allowance to the property owner for remedial landscaping installation.

Estimated Budget $7,000

Preventive Maintenance and Operations

Preventive Maintenance

Preventive maintenance generally consists of those measures taken to prevent an incident or landslide event including, asset maintenance, drainage structures, instrument sites and winterization measures. Operations include ongoing monitoring programs and responses to community requests. Details of the proposed budget for each of these categories are listed below.

The Preventive Maintenance Program has been a significant ongoing program to ensure facilities, infrastructure, systems and slopes are performing and operating as designed. The GHAD has incorporated a robust preventive maintenance program since the GHAD's inception, and the program has prevented untold numbers of slope failures. Since the GHAD has been in operation for nearly 30 years it suggests that much of the infrastructure is approximately 35% - 40% through its serviceable life as projected by widely used data and projections within the structural concrete community. In the 3rd and 4th quarter of fiscal year 24/25 the GHAD Manager ordered a comprehensive test study on infrastructure to identify existing conditions and produce a system-wide maintenance schedule to address any weaknesses in physical infrastructure and project costs. The program test studies have and will continue to provide the necessary information to begin addressing any infrastructure weaknesses, reset the longevity and/or serviceable life of infrastructure and the financial needs moving forward. Each of the Preventive Maintenance Program elements on (Table 1 and listed below) with the designation of "*Study-driven Maintenance Schedule*" is a program element that is subject to the Test Study results and protocol.

B-58 Drain Systems

Maintenance – Allows for one major annual cleaning and mapping. In addition, District staff periodically walks the B-58 systems to get a first-hand account of the current conditions and project serviceable life. This information, along with other empirical data, is typically utilized in Reserve Study updates. With extreme weather conditions in years past and the related soil and vegetation load impacting the network of B-58 systems, we have anticipated and allowed for a greater effort to maintain proper drainage.

Estimated Budget $8,000

Repair and Replacement – Study-driven Maintenance Schedule An ongoing detailed assessment is performed to establish the existing condition of the B-58 Concrete ditches throughout the District. This assessment and associated data are periodically aggregated with past collected data to serve to establish a typical timeline for needed repairs. These assessments as to the remaining serviceable life of these assets are also utilized in reserve study criteria to anticipate repair and replacement costs. Currently there are no replacement projects active.

Estimated Budget $10,000

Storm Drain Facilities – Study-driven Maintenance Schedule

Planned continued work on community storm drain condition and maintenance assessments. GHAD is working with consultants to establish conditions of existing storm drainage systems throughout the District. Assessments will be made on baseline conditions of drainage systems and projected longevity. Conclusions of this effort will inform the GHAD on current performance and future maintenance or replacement intervals for these infrastructure assets. As described in Major Projects above, development-wide storm drainage systems are currently being evaluated and deficiencies addressed on a priority basis.

Estimated Budget $20,000

Subdrain Systems

Subdrain systems must be monitored, and maintenance provided to ensure the systems have not been damaged or impeded. This budget will allow for an inspection and minor maintenance of these sites through the Horizontal Drains and Sub-drain Outlets programs below.

Horizontal Drains

The District must provide ongoing maintenance to ensure horizontal drains remain functional. This budget will allow for the maintenance of new installations.

Estimated Budget $7,000

Sub-drain Outlets

The Hillcrest Heights GHAD is currently conducting efforts to identify, locate and make determinations about the effectiveness of the network of subdrains throughout the District. It is anticipated that on-site restoration work may be necessary at some sites. This additional work has been incorporated into this budget item.

Estimated Budget $7,000

Piezometers – Study-driven Maintenance Schedule

The District reads and maintains piezometers which measure ground water elevations. A budget has been established to provide for work to begin to restore the sites and install identification markers.

Estimated Budget $7,000

Settlement Monitors

Over time, several settlement monitors have been placed throughout the development. These monitors were, in large part, installed as part of one specific study or another and therefore are not continually monitored. Currently ongoing monitoring programs exist in areas of the District and are periodically read and evaluated.

Estimated Budget $2,000

Retention Basins – Study-driven Maintenance Schedule

There is one retention basin within the District boundaries. This retention basin requires annual improvements and de-silting efforts. With the extreme weather conditions and the related soil and vegetation load impact, improvements are likely to occur this year to this facility. We anticipate and allow for typical efforts to maintain proper drainage for these facilities over this fiscal year.

Estimated Budget $12,500

Debris Benches/Impact Walls

Earthen debris benches and debris impact walls exist throughout the District. It is essential that these facilities are inspected to ensure capacities and drainage have not been compromised. Annual inspections are made, and periodic debris removal plans are initiated. This year's budget allows for geotechnical evaluations and the periodic removal of accumulated debris from several of the benches identified during the study and routine monitoring events.

Estimated Budget $5,000

Minor Repairs

A budget is established annually for minor projects establishing a provision for unanticipated minor projects within the Preventive Maintenance Program.

Estimated Budget $30,000

Winterization

The District provides an annual budget for procuring and storing an inventory of winterization materials and to provide for the costs of site installation.

Estimated Budget $3,000

Emergency Response

During the winter rainy season, the Hillcrest Heights GHAD prepares for and may respond to a range of urgent, active, or threatening landslides as well as drainage issues where property damage is threatened. These incidents typically involve mud or debris flows, plugged storm drains at the base of slopes or flooded properties due to the overflow of runoff from plugged or damaged facilities. In severe cases these responses can require the initiation of temporary slope stabilization measures in preparation for a major repair.

Estimated Budget $7,500

Operations

An inventory of on-site instrumentation including piezometers, inclinometers, horizontal drains, sub-drains, and settlement monuments are monitored periodically throughout the year as a preventative measure.

Monitoring sites can be established for a variety of uses. Often completed repair sites require monitoring to confirm that the slope has been stabilized. Other sites have been utilized to indicate signs of unstable conditions developing and have been instrumental in determining slope conditions prior to the activation of a landslide.

Through the use of collected data such as groundwater depth, magnitude of slope movement, depth of movement and ground surface movement, the District has been able to arrest slope movement in advance of an incipient failure.

Throughout the year, the District receives incident response or assistance calls from property owners regarding slope stability or drainage issues. Community relations, including incident responses through the annual Operations Program has been institutionalized as a role of Hillcrest Heights GHAD management. All incidents are recorded and move through the District response mechanisms as is appropriate and consistent with the Hillcrest Heights GHAD Plan of Control.

The Hillcrest Heights GHAD Manager receives updates in long range weather and significant oceanic temperature changes through the National Oceanic and Atmospheric Administration (NOAA) and other scientific and atmospheric agencies that track data and produce probabilistic assessments on the likelihood of a recurrence of El Niño conditions.

Estimated Budget $26,000

Special Projects

During fiscal year 2026-2027 the District will continue several special projects. Brief descriptions of the special projects are presented in Table 1 and further described below:

- B-58 Concrete Lined Ditches
- Storm Drain Systems
- Subdrain Systems
- Retention Basins
- Debris Benches

Collected data will be used in long-term facility performance, and reserves analysis.

Plan of Control

It is anticipated that an evaluation and assessment of the current Plans of Control for the Hillcrest Heights GHAD, including Spanish Trails, will be pursued, to confirm operational compliance. Once an initial evaluation is completed, consideration will be given to amend the

current plan to incorporate historical practices of the GHAD and acknowledge technological and other procedural advancements.

Estimated Budget $15,000

Reserve Study Assessment

A reserve study functions as a pro-forma analysis of the financial needs of the Hillcrest Heights GHAD. The study serves as a tool to calculate the annual contribution required by the District to build and maintain sufficient funds for emergencies and capital replacement programs based on past weather patterns, landslide repair costs, and general attrition. As a result of severe winters, draws will likely be necessary in the future on the reserve fund. Work is planned to evaluate and complete an analysis of the fund health and methodologies. This analysis will be used in establishing a pro-forma plan and provide instruction to Hillcrest Heights GHAD management as to the necessary reserve demands over time.

Estimated Budget $7,500

Special Studies

The Hillcrest Heights GHAD intends to continue targeted studies in the areas of fiscal policy and geologic risk. The Hillcrest Heights GHAD, now in its 31st year, has the unique opportunity to address many of the issues surrounding long-term viability and sustainability, within changing environment and financial conditions. Using empirical data, we can assess potentially increasing financial loads and geologic risks that may accompany the maturation process of this District. We are confident that these studies have produced and will continue to produce beneficial results.

Estimated Budget $5,000

Information Systems and Technology

In early 2024 GHAD issued Requests for Proposals (RFP) in a planned effort of upgrading its managed Information Technology (IT) systems to modernize data collection systems, storage, processing and expansion capabilities. In April of 2024 Rooted Software, a Walnut Creek based firm, was selected and engaged to perform a scope of work to accomplish this project. IT and Content Management Systems (CMS) have been initiated and will continue with advanced safeguards for data protection and increased data storage capacities, as well as file convention modernization and integration ability with a new planned Geographic Information System (GIS).

Estimated Budget $12,000

Geographic Information System – Feasibility Study

Recent GIS modernization study efforts including improved field reporting, incident tracking, asset management, and operational coordination through deployment of enhanced mobile and centralized data management tools utilizing GIS are undergoing a feasibility study continuing through FY26/27. Once feasibility has been determined the installation of a GIS system will be phased into operations.

Estimated Budget $10,000

Accounting System Upgrade

Periodic upgrades are necessary to enhance accounting system capabilities. The Hillcrest Heights GHAD utilizes expense accounting software to assist in reporting and the day-to-day operation of the District. Continued accounting systems enhancements will be implemented allowing more data entry streamlining, enhanced reporting, and quality control assurance procedures, augmenting the current systems.

Estimated Budget **$4,000**

Communications Plan

The Hillcrest Heights GHAD maintains a communications plan designed to keep constituents up to date on Hillcrest Heights GHAD operations and developments. The plan addresses several venues and mediums used to disseminate information within this District and to other concerned parties, and to establish clear and accessible channels for community interaction.

The Hillcrest Heights GHAD continues to evaluate the community benefit to implement an interactive web page for public information, reporting and inquiries, and a multi-page informational brochure to be available to interested Homeowner Associations (HOA) and stakeholders that describes the Hillcrest Heights GHAD and its responsibilities and limitations.

Estimated Budget **$3,000**

Outreach/Legislative Review
California Association of GHADs (CAGHADs) Membership/Insurance

The proliferation of new GHADs within California has resulted in new legislation and adopted procedures. The Hillcrest Heights GHAD Manager, in association with others, make up the CAGHAD Board of Directors and shares information and knowledge through a consortium of GHAD managers known as the California Association of GHADs (CAGHADs). The CAGHAD has obtained General Liability policies for its member GHADs. Additional GHAD onboarding and participation has reduced relative premiums. Policy premium costs for the Hillcrest Heights GHAD are approximately $710.[1].

Additionally, the Hillcrest Heights GHAD manager participates in the CAGHADs as the organization pursues other financial instruments that may provide the Hillcrest Heights GHAD additional options for extraordinary financial demand and planning. In 2016 the CAGHAD Board adopted a new fee schedule reducing the annual GHAD fees for membership by 50%.

Estimated Budget **$2,500**

Administration

The administration of the Hillcrest Heights GHAD includes all costs associated with legal support, office expenses, staffing, and accounting. Brief descriptions are presented below.

Legal

General Counsel – Hillcrest Heights GHAD management must interact regularly with Hillcrest Heights GHAD Counsel. The day-to-day operations of the Hillcrest Heights GHAD present myriad opportunities and issues to work directly with GHAD counsel, in

[1] A more comprehensive policy was presented in 2025 with an incremental premium increase

the areas of contracts, agreements, issues or new business to present to the Board, legislation, property owner issues, etc.

Estimated Budget **$5,000**

Special Counsel – Typically Special Counsel consists of legal representation in the event of legal issues that might arise. Currently there are no legal issues involving litigation.

Estimated Budget **$0**

Tax Assessment Calculation

Each year an assessment calculation is conducted to identify and determine all qualified parcels within the District to receive assessments for Hillcrest Hei GHAD services. Typically, the GHAD Manager will contract these assessments to a firm that specializes in these services. Historically, the Hillcrest Heights GHAD has provided this information through its contracted consultant to the County Assessor's Office as required.

Estimated Budget **$4,000**

Staffing/Administrative Support

The Hillcrest Heights GHAD staff includes the General Manager, an Operations Manager, an Administration Manager and frequently other support staff and consulting professionals. The General Manager administers all Hillcrest Heights GHAD day-to-day operations, including financial budgeting and communications regarding its activities. The Operations Manager, among other tasks, administers the Major Projects and Preventive Maintenance Programs and associated work schedules, consulting and construction contracts, and documents. The administrative staff is responsible for accounting/bookkeeping, contract administration, clerical, and construction management support. Additional management staff costs are also applied to specific projects as appropriate. Authorized business expenses such as rent, office supplies and leases are included in Staffing.

Estimated Cost **$90,000**

File #: 26-2730 **Agenda Date:** 6/23/2026 **Agenda #:** C.82.

To: Board of Directors

From: Blackhawk Geological Hazard Abatement District

Report Title: Adopt Resolution 2026-01 to reauthorize GHAD Officers to work with Cal OES and Adopt Resolution 2026-02 to adopt annual budget and update payment limit for GHAD Manager Consulting Agreement

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:

ADOPT Blackhawk GHAD Resolution No. 2026-01 updating authorization for GHAD General Manager and GHAD Legal Counsel to work with the California Governor's Office of Emergency Services (Cal OES) for purposes of obtaining federal financial assistance for the performance of disaster services.

ADOPT Blackhawk GHAD Resolution No. 2026-02 adopting the GHAD budget for fiscal year 2026-27 and updating the GHAD Manager payment limit pursuant to the Consulting Services Agreement.

FISCAL IMPACT:

The GHAD is funded 100% through a portion of the property tax levied on properties within the GHAD.

BACKGROUND:

On April 22, 1986, the Contra Costa County Board of Supervisors adopted Resolution 86/210 approving the formation of the Blackhawk Geologic Hazard Abatement District ("GHAD") and appointed itself to serve as the GHAD Board of Directors ("GHAD Board"). The GHAD includes a GHAD General Manager (Sands Construction), GHAD Clerk/Attorney (Fennemore LLP) and a GHAD Treasurer (Laffer Tengler Investments) all appointed by the Board.

1. Reauthorizing GHAD Officers to work with Cal OES to obtain federal financial assistance (Resolution No. 2026/01).

On March 7, 2023 pursuant to Resolution No. 2023/01, the GHAD Board authorized the GHAD General Manager and the GHAD Legal Counsel to work with Cal OES to seek federal assistance for costs related to the winter 2022/2023 storms. Cal OES requires this authorization to be updated every three years. Resolution No.

2026/01 serves as that authorization.

The GHAD has been working with CalOES and has obtained $183,327.43 in reimbursement to date. FEMA denied the remainder of the claims asserting that the GHAD lacked the legal responsibility to perform the work undertaken. The GHAD challenged FEMA's determination by filing for arbitration. On February 24, 2026, Civilian Board of Contract Appeals' (CBCA) ruled that the GHAD has the legal authority to perform disaster-related work on private property and is therefore eligible to seek FEMA Public Assistance for permanent work and debris removal. This determination reversed FEMA's prior determination that the GHAD lacked legal responsibility. The GHAD is now returning to FEMA for technical review of the scope of eligible repairs, and the associated costs. FEMA was not operating during the government shut down over the budget and the GHAD will resume the process as soon as FEMA allows.

In order to continue seeking federal assistance, the GHAD Board must adopt the attached Resolution No. 2026/01 directing the GHAD Clerk to execute the Designation of Applicant's Agent Resolution for Non-State Agencies (Designation Resolution) attached as Exhibit A to the Resolution.

2. Annual Budget and Payment Limit for FY 2026/2027 (Resolution 2026/02).

The GHAD Board adopts a budget for the GHAD operations each fiscal year. The GHAD Board is requested to adopt the fiscal year budget for 2026/2027 as prepared by the GHAD General Manager attached to Resolution No. 2026/01. The proposed fiscal year budget is $5,615,589.00.

In addition, the GHAD Board has been requested to update the GHAD Manager payment limits under the existing Consulting Services Agreement as required by that Agreement. The budget attached to Resolution No. 2026/02 identifies that payment limit at $1,273,260.00

CONSEQUENCE OF NEGATIVE ACTION:

The GHAD will not be able to continue to operate starting July 1, 2026 if the budget is not approved.

THE BOARD OF DIRECTORS OF BLACKHAWK GEOLOGIC HAZARD ABATEMENT DISTRICT

Adopted this Resolution on June 23, 2026, by the following vote:

AYES:

NOES:

ABSENT:

ABSTAIN:

RESOLUTION NO. 2026/01 (BLACKHAWK GHAD)

SUBJECT: Adopting Resolution No. 2026/01 reaffirming the authorization of the GHAD General Manager and GHAD Legal Counsel to work with the California Governor's Office of Emergency Services (Cal OES) for purposes of obtaining federal financial assistance for the performance of disaster services.

WHEREAS, on April 22, 1986, the Contra Costa County Board of Supervisors adopted Resolution 86/210 approving the formation of the Blackhawk Geologic Hazard Abatement District ("GHAD") and appointed itself to serve as the GHAD Board of Directors.

WHEREAS, in the winter of 2022/2023 severe storms occurred throughout California and greatly impacted the GHAD resulting in geologic hazards that threatened public health and safety; President Joseph R. Biden, Jr and Governor Gavin Newson declared emergencies in response to these storms.

WHEREAS, as required by the GHAD's Plan of Control, the GHAD Manager performed emergency services required by the storms and these services will continue to be performed until the damage is mitigated, resolved and/or addressed.

WHEREAS, as a public entity under the GHAD Laws (Pub Res Code Sect 26500 et seq.), the GHAD desired to seek federal financial assistance through Cal OES for the performance of services as a result of disasters that has occurred from the winter 2022/2023 items.

WHEREAS, on March 7, 2023 the GHAD Board unanimously approved Resolution 2023/01, authorizing the GHAD Manager and Legal Counsel to work with Cal OES to seek federal financial assistance for costs related to the winter 2022/2023 storms. Cal OES requires this Resolution to be updated every three years.

WHEREAS, following adoption of Resolution No. 2023/01, the GHAD pursued disaster assistance through Cal OES and FEMA, submitted multiple claims for eligible work, and

received reimbursement in the amount of $183,327.43 for initial debris removal, while additional claims and requests for assistance remained pending and/or disputed.

WHEREAS, thereafter, FEMA issued a determination denying additional requested funding, the GHAD timely pursued an appeal of that determination, and Cal OES provided support for the GHAD's continued request for federal financial assistance.

WHEREAS, on February 24, 2026, the Civilian Board of Contract Appeals determined that the GHAD had established legal authority to perform work on affected private property and returned the matter to FEMA for further review of the GHAD's request for public assistance funding, thereby confirming that the GHAD's efforts to obtain federal financial assistance remain active and ongoing.

WHEREAS, in order to continue to seek federal assistance, the GHAD Board is required to reauthorize certain GHAD Officers to work with Cal OES; attached to Resolution No, 2026/01 as Exhibit A is the Designation of Applicant's Agent Resolution for Non-State Agencies (Designation Resolution) authorizing the GHAD General Manager and the GHAD Legal Counsel to continue to seek federal assistance.

The Board of Directors of the GHAD HEREBY RESOLVES THAT:

1. The GHAD Board hereby adopts Resolution No. 2026/01 authorizing the GHAD General Manager and GHAD Legal Counsel to continue to work with the California Governor's Office of Emergency Services (Cal OES) for purposes of obtaining federal financial assistance for the performance of disaster services that pose a threat to the public health and safety.

2. The GHAD Board directs the GHAD Clerk to immediately execute the Designation Resolution on behalf of the GHAD Board and file it with Cal OES in order to seek financial assistance.

3. The recitals are incorporated herein by this reference.

This Resolution shall become effective immediately upon its passage and adoption.

THE BOARD OF DIRECTORS OF BLACKHAWK GEOLOGIC HAZARD ABATEMENT DISTRICT

Adopted this Resolution on June 23, 2026 by the following vote:

AYES:

NOES:

ABSENT:

ABSTAIN:

RESOLUTION NO. 2026/02 (ANNUAL BUDGET AND UPDATING GHAD MANAGER PAYMENT LIMITS)

SUBJECT: Adopting FY 2026/2027 Annual Budget and Updating GHAD Manager Payment Limits under the Consulting Services Agreement.

WHEREAS, on April 22, 1986, the Contra Costa County Board of Supervisors adopted Resolution 86/210 approving the formation of the Blackhawk Geologic Hazard Abatement District ("GHAD") and appointed itself to serve as the GHAD Board of Directors ("GHAD Board").

WHEREAS, the GHAD Board of Directors desires to adopt the budget for the fiscal year 2026/2027 prepared by the GHAD General Manager, Sands Construction Company, Inc., for a total of $5,615,589.00 attached hereto as **Exhibit A**.

WHEREAS, on June 13, 2023, pursuant to Resolution No. 2023/02, the GHAD Board approved and updated the consultant services agreement with Sands Construction Company, Inc. to act as General Manager for the GHAD. That agreement, in section 3, requires the GHAD Board to determine by resolution each fiscal year the payment limits for GHAD Manager services. The budget attached in **Exhibit A** identifies this limit at $1,273,260.00 for both general and operation manager services, now all performed by GHAD General Manager.

WHEREAS, the GHAD General Manager recommends that the GHAD Board review and approve the fiscal year budget for 2025/2026 and updating the GHAD Manager payment limit under the Consulting Services Agreement.

The Board of Directors of the GHAD HEREBY RESOLVES THAT:

1. The GHAD Board approves the GHAD budget for the 2026/2027 fiscal year of $5,615,589.00 attached as **Exhibit A** and incorporated herein by this reference.

2. The GHAD Board adopts the payment limit for the GHAD General Manager services at $1,273,260.00 for fiscal year 2026/2027 as set forth in **Exhibit A** and incorporates this payment limit into the consulting services agreement.

4. The recitals are incorporated herein by this reference.

This Resolution shall become effective immediately upon its passage and adoption.

BLACKHAWK
GEOLOGIC HAZARD ABATEMENT DISTRICT

April 21, 2026

Blackhawk GHAD Board of Directors
c/o Supervisor Candice Andersen
309 Diablo Road
Danville, CA 94526

SUBJECT: Program Budget for Fiscal Year 2026-2027
Blackhawk Geologic Hazard Abatement District

Dear Board Members:

Attached is the proposed program budget for the Blackhawk Geologic Hazard Abatement District ("Blackhawk GHAD," "GHAD," or "District") for fiscal year 2026–2027. The proposed budget totals $5,615,589 and reflects the District's continued focus on risk management, infrastructure stewardship, and long-term operational stability. The budget anticipates a $1,412,399 deficit to be funded from reserves, with the projected fund balance decreasing from approximately $16.13 million to $14.72 million by fiscal year end.

The FY26/27 budget reflects a continued transition from emergency storm recovery toward sustained infrastructure management and implementation of long-term maintenance programs. While storm recovery efforts associated with the FY22/23 atmospheric river events remain ongoing, the District has stabilized many of the highest priority sites and continues to address remaining locations through a risk-based and prioritized approach.

The budget maintains emphasis on preventive maintenance, drainage infrastructure, instrumentation, monitoring systems, and operational readiness, while continuing targeted capital improvements and modernization of GIS and information management systems. These efforts support the District's responsibility to prevent, mitigate, abate, and control geologic hazards in accordance with the Plan of Control.

The District also continues to pursue FEMA and CalOES reimbursement associated with storm-related damages. Following arbitration before the Civilian Board of Contract Appeals, GHAD established its legal authority and responsibility to perform work on both public and private property. The financial component of the claim remains under FEMA review.

Administrative efforts remain focused on maintaining strong legal, financial, and operational oversight while balancing ongoing recovery obligations, long-term infrastructure needs, and prudent reserve management.

A summary of the proposed Fiscal-Year 2026-2027 Budget is presented in Table 1, and followed by project specific descriptions.

Respectfully submitted,

Blackhawk Geologic Hazard Abatement District

REF: Treasurer's Report

Dear Board of Directors:

The GHAD portfolios were designed to comply with the unique objectives of the agency, focused on mitigation of risk, preservation of capital and income generation.

When Laffer Tengler Investments (LTI) took over the management of the GHAD's we created an asset allocation that would achieve the above-mentioned objectives while being able to meet liquidity requirements. In accordance with the GHAD investment policy LTI has attempted to maintain 65% of the portfolios in fixed income. Two thirds of that allocation is invested in individual bonds and the remainder in a liquid fixed-income ETF vehicle. Additionally, about 10% of the portfolio is invested in convertibles bonds and preferreds to enhance total return while generating reasonable income. Finally, 20% of the portfolio is reserved for a conservative equity portfolio to enhance the growth of the GHAD portfolios while taking below market levels of risk.

The portfolio performance has generated excess return above the benchmarks by a wide margin since inception. The lower risk profile of the underlying investments shown through during the negative stock and bond markets of 2022. The equity portion of the portfolio declined approximately -7.0% versus -18.1% for the S&P 500 while the corporate bond portfolio declined less than -1.0% versus -3.8% for the Bloomberg Aggregate Bond Index. Protection in declining markets is the focus of our strategy to preserve capital.

LAFFER TENGLER
INVESTMENTS

LTI's investment strategies are research driven and disciplined. The team has a cumulative 150 years of experience navigating the stock and bond markets.

We are optimistic about the returns for risk assets and have positioned our bond portfolios for declining interest rate environment over the next few years. We also have maintained flexibility with the Fixed Income ETF strategy to take advantage of market dislocations. Risk management is our primary objective with total return as a secondary objective.

Respectfully submitted,

Nancy Tengler
CEO and Chief Investment Officer

EXECUTIVE SUMMARY

The FY26/27 budget reflects a continued transition from large-scale emergency response and storm recovery toward a more balanced program emphasizing preventive maintenance, infrastructure monitoring, operational efficiency, and long-term asset management. While several major stabilization projects have been completed in recent fiscal years, the District continues to address storm-related impacts and evolving infrastructure needs through a risk-based and prioritized approach. The proposed budget totals $5,615,589 and includes a projected deficit of $1,412,399, requiring a reserve draw, with fund balance projected to decrease from approximately $16.13 million to $14.72 million by fiscal year end.

Major Projects Program

The Major Projects Program reflects reduced expenditures compared to prior fiscal years following completion of several major stabilization projects of the FY25/26 budget and following completion of several significant landslide repair projects in prior fiscal years, including Kingswood Place (Phase 1&2), the Blackhawk Executive Center stabilization project, and Phase 1 of the Blackhawk Plaza stabilization project. Phase 2 of the Blackhawk Plaza stabilization project is anticipated to proceed during FY26/27, subject to resolution of property access and legal considerations. Additional projects include a slope stabilization project on the Lakes Golf Course and continued advancement of the Hole 11 Retention Basin Silt Abatement project in coordination with the Blackhawk Country Club and regulatory agencies.

Preventive Maintenance and Operations

Preventive Maintenance remains a core GHAD function, supported by a comprehensive infrastructure assessment and study-driven maintenance initiative initiated in FY24/25. These efforts have improved identification, evaluation, and prioritization of repairs and maintenance activities across drainage systems, instrumentation, and stabilization infrastructure. FY26/27 efforts focus on implementation of prioritized repairs, continued monitoring, refinement of maintenance protocols, and expanded GIS integration to support long-term asset performance and operational consistency.

Storm-related restoration and repair efforts from the FY22/23 events remain ongoing; however, many of the highest priority locations have now been stabilized. Remaining work will continue through a prioritized and funding-sensitive approach over multiple fiscal years.

Special Projects (GIS/IT Systems)

The GIS modernization initiative has been fully implemented and is actively supporting both field and management operations through real-time, location-based reporting and centralized asset management. Mobile GIS deployment has improved field data collection, incident tracking, data consistency, and operational coordination. Ongoing IT, CMS, and GIS improvements continue to support system reliability, operational efficiency, and data security.

FEMA/CalOES Funding Status

The FEMA/CalOES reimbursement process remains ongoing following the FY22/23 storm events. After FEMA initially denied portions of the District's claim, GHAD advanced the matter through arbitration before the Civilian Board of Contract Appeals, which determined that GHAD possesses legal authority and responsibility to perform work on both public and private property. The financial component of the claim remains under FEMA review, and the District continues to pursue reimbursement while advancing recovery work through existing District resources.

Administration and Financial Management

Administrative efforts remain focused on maintaining strong legal, financial, and operational oversight, including coordination with the Treasurer regarding reserve impacts, long-term fiscal sustainability, and implementation of District programs and projects.

Summary

The FY26/27 budget reflects a continued shift from emergency response toward sustained infrastructure management, supported by data-driven maintenance programs, enhanced monitoring capabilities, and ongoing technology investments. While expenditures exceed revenues in the near term, the District continues to manage geologic risk, advance recovery efforts, and maintain long-term operational stability through prioritized implementation and prudent reserve management.

PROGRAM BUDGET

The following proposed line-item program budget (Table 1) summarizes the anticipated expenditures for fiscal year 2026-2027 for the Blackhawk Geologic Hazard Abatement District ("Blackhawk GHAD", "GHAD" or "District"). Through an ongoing assessment, the GHAD manager evaluates and addresses geologic risk through the implementation of an annual program budget consisting of four major categories. Preceding (Table I), and directly below, please see general overview descriptions of the four major program elements within the budget.

Major Projects Program

The annual Major Projects Program includes landslide repair projects, drainage improvement projects and capital improvement projects necessary to either control, mitigate, or prevent landslide activity. Other large program responses necessary to implement the Plan of Control, including specific purpose studies and investigations may also be included in the Major Projects Program.

Projects considered for inclusion in the Major Projects Program typically involve a level of complexity requiring the preparation of plans and specifications, comprehensive engineering analysis, or geotechnical evaluation. These efforts may include modeling, investigation, and design, or may involve extended project durations due to site conditions, construction requirements, or coordination with regulatory agencies. While not a defining criterion, Major Projects often represent higher-cost efforts, frequently exceeding $200,000.

Historically, the Major Projects Program has included significant landslide repair efforts as well as larger scale preventive and investigative initiatives that support long-term risk reduction. This range of project types reflects the need for program flexibility that can address both active or imminent landslide conditions and proactive measures, consistent with the priorities and authority established in the Plan of Control.

Preventive Maintenance and Operations Program

The annual Preventive Maintenance and Operations Program encompasses routine maintenance, minor repairs, debris removal, monitoring, and replacement of drainage facilities and related infrastructure that support the prevention, mitigation, abatement, or control of landslides. These activities are undertaken to maintain system functionality and to identify conditions associated with threatened landslides, allowing for timely and appropriate response measures.

Typical Blackhawk GHAD assets include concrete lined ditches, sub-drainage systems, groundwater measuring instrumentation, slope inclinometers and moisture gauges, and slope debris catchment features. These systems are regularly evaluated as part of an integrated approach to managing landslide risk within GHAD boundaries.

The Preventive Maintenance Program also includes preparedness measures for emergency response, including seasonal winterization efforts such as installation of erosion control materials, staging of slope stabilization supplies, and ongoing maintenance of monitoring equipment.

The Operations Program is primarily populated with scheduled instrument monitoring events. Data from these instruments is used to assess site conditions, identify trends, and inform decisions regarding the prevention, mitigation, abatement, or control of landslides. In addition to the instruments monitoring program, the Operations Program contains the Incident Response and Community Relations Program, which incorporates comprehensive first response capabilities, and fosters community incident interaction.

Special Projects

The Blackhawk GHAD undertakes ongoing and new initiatives identified as "Special Projects" that support the implementation of the Plan of Control. Special Projects include activities requested by the Board such as the Communications Program, or projects and studies designed to improve the District's operational effectiveness and ensure financial solvency. Special Projects also include utilizing new technologies to increase the efficiency, consistency, and reliability of the GHAD. The development of a more comprehensive and robust Geographic Information System (GIS) platform represents a key advancement under this program, providing enhanced capabilities for data management, field reporting, and informed decision-making.

Administration

Administrative expenses are required to operate the Blackhawk GHAD and the implementation of its programs and projects. Administrative expenses include personnel and consultants to manage the operations including the General Manager, Operations Manager, Administrative Manager, Construction Services Manager, certain clerical and accounting staff, consultants, and legal support.

General Manager Program Budget FY26/27	$ 891,000
Operations Manager Program Budget FY26/27	$ 382,260
	$1,273,260

The scope of services for the General Manager includes but is not limited to, managing the day-to-day operations through implementation of the necessary financial recordkeeping and reporting, updating and maintaining governing documents, such as the Plan of Control and managing and updating administrative tools such as the Reserve Study, Communications Plan, Work Program and Monthly Incident Log. During extraordinary environmental events the General Manager may pursue and manage Local, State and Federal funding mechanisms. The General Manager's fiscal year 2026-2027 budget represents significant resources to manage FEMA Disaster DR4683CA claim following recent United States Civilian Board of Contract Appeals (CBCA) arbitration directives. The General Manager Consulting Services Agreement provides for certain administrative positions and costs, including but not limited to, a General Manager, Operations Manager, Administrative Manager, a Constructions Services Manager and a Network Administrator as well as overhead costs, such as office space rent, office supplies, and postage.

The General Manager retains the necessary professionals, including without limitation, engineers, accounting professionals and other consultants and vendors to facilitate the operations of the GHAD.

The General Manager Consulting Services Agreement and associated budget also allow for the use of defined task subcontractors, including administrative, engineering, and construction-related subconsultants, as needed and within the established limits of the Agreement.

Within the General Management of the Blackhawk GHAD, the Operations Program scope of services includes implementing the Major Projects and Preventive Maintenance Programs through forecasting work schedules and priorities, preparing Requests for Proposals, and managing maintenance and repair operations within the Major Projects and Preventive Maintenance Programs. These services also include specific project management and construction oversight, preparing for and responding to emergency incidents, monitoring instrumentation and assets, and analyzing and processing collected data into established District programs to inform decisions related to the prevention, mitigation, abatement, or control of landslides. The Operations Program provides for certain operational positions including, but not limited to; Project Engineer, Construction Services Supervisor as well as certain overhead costs, such as, office supplies and rent, and electronic monitoring devices, testing apparatus, equipment rental and conditional use of subcontractors such as contractors, consultants, engineers, and special inspectors, within the payment limits of the Consulting Services Agreement.

A summary of the proposed Fiscal-Year 2026-2027 Budget is presented in Table 1, and followed by project specific descriptions.

TABLE 1 – LINE ITEM BUDGET

Budget Item	Budget Amount	% of Total Budget
Major Projects		
Rain Event 2022/2023 - Damage Repairs (priority-based list)	$ 1,500,000	
Targeted Studies: Groundwater, Reserve Study, Administrative Systems Testing*	$ 200,000	
Study/Project: Hole 11 (Falls Course) Retention Basin Siltation Mitigation Prog.**	$ 153,500	
Project - Landslide Repair - Blackhawk Plaza - Phase 2***	$ 350,000	
Project - Hole #8 Golf Course Slope Stability Project	$ 355,700	
Landscape Replacement (associated with GHAD repairs)	$ 255,920	
(limited to no greater than 10% of repair costs)****		
Total Major Projects	**$ 2,815,120**	**50.00%**

Preventive Maintenance/Operations		
Preventive Maintenance		
Drainage		
Storm Drain Facilities - Study-driven Maintenance Schedule	$ 75,000	
B-58 Concrete Lined Ditches		
Maintenance/Cleaning/Mapping	$ 75,000	
Repair and Replace - Study-driven Maintenance Schedule	$ 245,000	
Subdrain Systems		
Horizontal Drains - Study-driven Maintenance Schedule	$ 100,000	
Subdrain Outlets	$ 25,000	
Debris Catchment Walls - Study-driven Maintenance Schedule		
Temporary Walls	$ 44,000	
Permanent Walls	$ 25,000	
Piezometers - Study-driven Maintenance Schedule	$ 25,000	
Settlement Monitors - Study-driven Maintenance Schedule	$ 15,000	
Retention Basins Maintenance - Study-driven Maintenance Schedule	$ 20,000	
Debris Benches - Study-driven Maintenance Schedule	$ 10,000	
Drain Inlets - Associate with GHAD Maintained Infrastructure	$ 15,000	
Headwalls	$ 195,000	
Pumping Stations	$ 10,000	
Minor Repairs	$ 100,000	
Winterization/Inventory	$ 250,000	
Emergency Response	$ 140,000	
Subtotal	**$ 1,369,000**	

Operations		
Piezometer Monitoring	$ 15,000	
Horizontal Drain Monitoring	$ 15,000	
Subdrain Monitoring	$ 15,000	
Settlement Monitoring	$ 40,000	
Inventory Management	$ -	
Incident Response/Community Relations	$ 120,000	
Subtotal	**$ 205,000**	
Total Preventive Maintenance/Operations	**$ 1,574,000**	**28.00%**

Special Projects		
Plan of Control	$ 1,000	
Reserve Study	$ 50,000	
Special Studies	$ 20,000	

Information Technology/Content Management	$	60,000	
Geographic Information Systems	$	100,000	
Accounting Systems Upgrade	$	30,000	
Procedures Manual	$	5,000	
Communications Program	$	10,000	
CA Association of GHADs - Membership/Insurance	$	15,000	
FEMA	$	50,000	
Total Special Projects	**$**	**341,000**	**6.00%**

Administration			
Legal Fees			
General Counsel	$	15,000	
Special Counsel	$	15,000	
Litigation/Legal Concerns	$	20,000	
FEMA - Disaster 4683	$	75,000	
HOA	$	5,000	
Assessment Roll Update	$	4,000	
Data Security			
Insurance/Compliance	$	10,000	
Administrative Support			
Staffing/Administrative Support	$	535,164	
Accounting/Financial Services	$	153,305	
Training/Education	$	10,000	
Office - Rent/Supplies/Equipment/Lease	$	43,000	
Total Administration	**$**	**885,469**	**16.00%**

TOTAL PROPOSED BUDGET FY2026/2027	**$**	**5,615,589**	**100%**

Available Funds	
Estimated Beginning Fund Balance - July 1, 2026*****	$ 16,132,846
Estimated Contributions from M-23 (M-23 Surplus)******	$ 3,102,069
Estimated Interest on Investments/Change in Value	$ 1,101,121
Other Income (FEMA - DR4683)	$ -
Total Available Funds	**$ 20,336,036**
Use of Funds	
Major Projects	$ 2,815,120
Preventive Maintenance	$ 1,574,000
Special Projects	$ 341,000
Administrative	$ 885,469
Total Use of Funds	**$ 5,615,589**
Estimated Reserve Available/Ending Fund Balance June 30, 2027	**$ 14,720,447**

* Pursuant to the Blackhawk GHAD Plan of Control – Section VIII B

** 3-party (Blackhawk HOA, Blackhawk Country Club, Blackhawk GHAD De-siltation and Mitigation Program)

*** Project subject to the Receivership review of Superior Court of the State of California for the County of Orange, Case No. 30-2025-01496573-CU-OR-CJC

**** Pursuant to the Blackhawk GHAD Plan of Control – Section IX B-1

***** Includes estimated accrued true-up revenue payment (Sept 2026) of $149,427. Projected Fund Balance date of publication - (pending CSA M-23 FY25/26 actual expenses).

****** Estimated FY26/27 Revenue has been represented anticipating revenues may be adjusted as a result of current economic conditions. If there exists a material change in revenue numbers once Contra Costa County Assessor's Office publishes CSA M-23 revenues for the period (expected in June 2026), this budget will be revised to represent such changes and, if material, the GHAD Board will be notified. Estimated Surplus Revenue after CSA M-23 FY26/27 Budget.

DESCRIPTION OF BUDGET ITEMS

Major Projects

Storm Events Damage Repairs and FEMA

Beginning December 27, 2022, and continuing for successive months, Northern California and the Bay Area received an extraordinary number of atmospheric river[1] storms. The great number and intensity of storms in the Blackhawk community produced over 295 mudflows, debris flows, and landslides. The GHAD responded immediately with field operations to address many of the sites and control debris, restore access to roads and community drainage systems. The Blackhawk Homeowners Association (HOA) as well as the Blackhawk Country Club (Club) worked together with the GHAD in a collaborative effort to provide and restore critical services to the community. Once federal, State and local declarations of emergency were established the GHAD submitted applications to the Federal Emergency Management Agency[2] (FEMA) and the California Office of Emergency Services (CalOES) to apply for financial relief through established grant programs.

The Blackhawk GHAD FEMA application relating to the Federal Emergency Declaration in early 2023, following storm-related damage, was initially denied on the basis that the District did not demonstrate legal responsibility for the work performed. GHAD timely submitted an appeal, and on August 18, 2025, FEMA issued a First Appeal denial citing similar eligibility concerns. GHAD then requested arbitration before the United States Civilian Board of Contract Appeals (CBCA). A hearing was conducted on December 17, 2025, in Washington DC, during which the GHAD Manager and a geotechnical engineer provided testimony, along with expert testimony, remotely presented on behalf of the California Association of GHADs. Legal counsel Patricia Curtin and Kurt Franklin from Fennemore Law represented the District. The CBCA issued its decision on February 24, 2026, determining that GHAD has legal authority to perform work on private property under its statutory framework and agreements with property owners. However, the CBCA also found that additional eligibility requirements for certain categories of work, including emergency protective measures, were not fully satisfied. The Board did not determine the amount of eligible funding and declined to direct FEMA to obligate funds, instead remanding the matter to FEMA for further review. GHAD will continue to engage with FEMA to advance the claim and pursue reimbursement consistent with the CBCA decision.

Districtwide damage site protection work continued through the summer of 2025 on a priority basis based on risk and District financial capabilities. Although restoration and repair work are likely to continue for several years, the GHAD has completed a robust schedule of temporarily stabilizing, monitoring and maintaining damage sites in this fourth year of recovery.

Estimated Budget for Selected Storm Related Sites $1,500,000

[1] Department of Energy (.gov) http//www.energy.gov > science > doa-explainsatmospheric-rivers#
[2] FEMA Disaster DR4683CA

Studies

Targeted Studies, as they relate to field conditions, are essential and are designed to analyze specific sets of aggregated empirical data with the intent of assessing condition of infrastructure and efficacy of instrumentation data collection. Through this effort, specific studies inform management about how to tailor programs to capitalize on the most effective preemptive measures as the GHAD implements its Major Projects Program, Preventive Maintenance Program, Special Projects Program, and Administration Program.

Estimated Cost $200,000

Study/Project - Hole #11 Falls Course Retention Basin Maintenance

The Hole #11 Falls Course Retention Basin receives storm runoff and silt-laden water from the West Branch of Alamo Creek. The retention basin requires silt removal periodically. The GHAD, Blackhawk Country Club and Blackhawk HOA have historically cooperated to address this issue. The Country club is leading this effort and has hired consultants to perform hydrological studies of the creek and silt basin. A Regulatory Agency consultant was also contracted to coordinate the various agencies with jurisdictional authority over the basin and related habitat. Project design and engineering have been completed, and it is expected that permits will be issued allowing construction to occur in the summer months of 2027. The Blackhawk HOA has determined that it cannot continue to fund their portion of the project because it is not within the owned properties of the Association. GHAD's financial commitment moving forward will be unchanged. The GHAD has an interest in these concepts to not only mitigate the silt quantities deposited in the retention basin, but also how these efforts could also mitigate potential slope stability issues within the upstream watercourse system.

Estimated Cost 153,500

Parking Lot Settlement – Blackhawk Plaza – Phase 2

A Blackhawk Plaza Phase 2 slope stabilization project was planned for the first quarter of FY2025/2026; however, required property access agreements were not provided by the owner, delaying progression of the work. On March 18, 2026 the Plaza owners declared Chapter 11 bankruptcy. GHAD and the GHAD legal counsel have communicated with representatives established by the Court, and we understand that legal proceedings are continuing and may provide for a way forward during the bankruptcy. In preparation that a GHAD Phase 2 project is possible during FY26/27, a cost estimate has been established within the Major Projects schedule.

Estimated Cost 350,000

Project – Hole 8 Slope Stability Project

GHAD intends to initiate construction on a slope stability project on the Lakes Golf Course. Plans have been drawn and a contractor has been selected to conduct the project during FY26/27. Subject to funding, GHAD intends to let the project out during the summer of 2026.

Estimated Budget $355,700

Landscape Replacement

Typically, remedial landscaping is either included in the scope of work for major projects or eliminated completely from the repair scheme depending on impact from remedial efforts to restore slope stability. However, on occasion, and complying with Section (IX B-1) of the Plan of Control, the associated License Agreement executed in preparation of the work will address a reimbursement or allowance to the property owner for remedial landscaping installation.

Estimated Budget $255,920

Preventive Maintenance/Operations

Preventive Maintenance

Preventive maintenance generally consists of those measures taken to prevent an incident or landslide event including, asset maintenance, drainage structures, instrument sites and winterization measures. Operations include ongoing monitoring programs and responses to community requests. Details of the proposed budget for each of these categories are listed below.

The Preventive Maintenance Program is an ongoing program to ensure that facilities, infrastructure, systems, and slopes perform and operate as designed. The GHAD has operated a robust preventive maintenance program since its inception, preventing untold numbers of slope failures. After nearly 40 years of operation, much of the GHAD infrastructure is estimated to be approximately 50 percent through its serviceable life, consistent with the projections in the GHAD's Reserve Study. In the 3rd and 4th quarters of fiscal year 24/25, the GHAD Manager initiated a comprehensive test study on infrastructure to identify existing conditions and produce a system-wide maintenance schedule to address weaknesses in physical infrastructure and anticipate future costs.

This comprehensive test study has been structured into three phases: Phase 1 (Feasibility), Phase 2 (Development), and Phase 3 (Implementation). Phases 1 and 2 were largely completed during the 24/25 and 25/26 fiscal years, though some feasibility and development activities remain in progress. The 26/27 fiscal year will focus primarily on Phase 3 (Implementation), while any remaining Phase 1 and 2 tasks are concluded. The resulting program test studies provide and will continue to provide the information needed to address infrastructure weaknesses, extend the longevity and serviceable life of GHAD infrastructure, and refine long-term financial planning. This test study has substantially informed the current reserve study update.

Storm Drain Systems – Study-driven Maintenance Schedule

Completed in FY25/26: During FY25/26, the GHAD advanced a comprehensive evaluation of storm drain systems that convey flows from B58 ditches to downstream community infrastructure. Initial field inspections (Phase 1) confirmed that, based on surface observations, these systems are generally functioning as intended, with inlets and outlets operating without significant blockage or restriction.

As part of this effort, the GHAD then began developing a formalized Storm Drain System program (Phase 2) consistent with the Preventive Maintenance Program. This included identifying systems within GHAD jurisdiction, developing a standardized identification framework, and initiating site verification efforts. In addition, protocols for file management and data organization were established to support long-term monitoring and maintenance.

To enhance internal inspection capabilities, the GHAD procured a crawler-type camera system. This equipment is now being actively utilized in the field to perform in-line inspections and establish baseline conditions of storm drain piping systems. This approach provides a cost-effective and efficient alternative to third-party inspection services while allowing for more frequent and responsive evaluations.

Projected for FY26/27: In FY26/27, the GHAD will continue implementation of the Storm Drain System program (Phase 2) as part of its ongoing efforts to support the prevention, mitigation, abatement, or control of landslides. Work will include completion of baseline in-line inspections of storm drain systems using the crawler camera, further refinement of system inventory and identification, and continued integration of asset data into the GIS platform.

Additional efforts will include development and implementation of a biennial inspection schedule, allowing for systematic monitoring of system performance, with flexibility to conduct supplemental inspections following significant storm events. Field activities will also include continued site access improvements, inlet identification marking, and data standardization to support consistent, repeatable maintenance practices.

Phase 3 (Implementation) of the Storm Drain System program will also commence in FY26/27. This phase will focus on addressing findings from the inspection and evaluation efforts, including targeted repairs, maintenance, and system improvements where warranted. Work will be prioritized based on conditions observed and their relevance to supporting proper drainage function and slope stability, with the goal of maintaining and enhancing system performance in a manner consistent with the GHAD's responsibility to prevent, mitigate, abate, or control landslides.

These efforts will further strengthen the GHAD's ability to monitor drainage infrastructure directly related to slope stability and to proactively address conditions associated with threatened landslides.

Estimated Budget **$75,000**

B-58 Drain Systems

Maintenance: Allows for one major annual cleaning and mapping of the B-58 drain systems. In addition, District staff periodically walks the B-58 systems to get a first-hand account of the current conditions and project serviceable life. This information, along with other empirical data, is utilized in our Reserve study updates. This year, because of the late rains, we anticipate heavier than normal vegetation to be encountered and managed during our annual cleaning program.

Completed in FY25/26: During FY25/26, the GHAD continued implementation of its study-driven maintenance program for B-58 drainage systems, which are a critical component of surface water management related to slope stability. Specifically, the GHAD advanced system-wide inspection and documentation protocols following completion of annual cleaning activities. A standardized, low-flying UAV inspection program was developed and implemented to capture high-resolution video of B-58 segments immediately following cleaning. This approach provides consistent and comprehensive documentation of post-maintenance conditions, enhances the ability to identify deficiencies, and supports remote evaluation by the GHAD Manager.

Inspection procedures were formalized to include coordinated scheduling with cleaning operations, standardized flight paths, and consistent data management practices. Video data of the B-58s is now being systematically collected, cataloged, and reviewed to identify segments exhibiting wear, cracking, erosion, blockage, or other conditions that may affect drainage performance and slope stability. This program establishes a repeatable and defensible baseline for ongoing monitoring and maintenance prioritization.

Projected for FY26/27: In FY26/27, the GHAD will continue implementation of the B-58 inspection and maintenance program as part of its ongoing efforts to support the prevention, mitigation, abatement, or control of landslides. Drone-based inspections will be conducted in coordination with the annual cleaning program to ensure consistent documentation of system conditions and to maintain an updated inventory of asset performance.

Based on collected data and observed conditions, repair and replacement activities will continue on a prioritized, site-specific basis, focusing on segments where deficiencies may affect proper drainage function and contribute to conditions associated with threatened landslides. Additional efforts will include refinement of inspection protocols, continued integration of data into the GIS platform, and targeted re-inspections of higher-risk areas following significant storm events.

Phase 3 (implementation) of the B-58 program will also commence in FY26/27. This phase will focus on addressing findings from the inspection and evaluation efforts, including targeted repairs, maintenance, and system improvements where warranted. Work will be prioritized based on observed conditions and their relevance to maintaining effective surface drainage and supporting slope stability.

Estimated Budget **$320,000**

Subdrain System Outlets

The GHAD will continue its efforts to identify, locate, and evaluate the effectiveness of subdrain systems throughout the District, including integration of these assets into the GIS platform to support improved tracking, monitoring, and data accessibility. Site-specific restoration work will be performed where necessary to maintain functionality and support subsurface drainage performance associated with slope stability.

Estimated Budget **$25,000**

Horizontal Drains – Study-driven Maintenance Schedule

Completed in FY25/26: During FY25/26, the GHAD initiated Phase 1 and Phase 2 efforts for the horizontal drain (HD) system, which serves a critical role in subsurface drainage and groundwater management associated with slope stability. This work includes, but is not limited to, a comprehensive review of existing documentation for approximately 280 horizontal drains within the GHAD.

Projected for FY26/27: In FY26/27, the GHAD will advance Phase 1 and Phase 2 field and reporting efforts for the horizontal drain system, including site verification, condition assessments, camera inspections, and identification of maintenance and repair needs. Work will also include efforts to locate previously unidentified drains where feasible, evaluation of system accessibility for cleaning operations, and development of updated inspection and maintenance protocols.

Additional efforts will include organization and standardization of system data, integration into the GIS platform, and implementation of improved maintenance practices, including installation of access features such as cleaning portals and resumption of cleaning operations where appropriate. These activities will support improved performance of subsurface drainage systems and enhance the GHAD's ability to monitor and manage groundwater conditions associated with slope stability.

Phase 3 (Implementation) of the horizontal drain program will commence in FY26/27. This phase will focus on addressing findings from the inspection and evaluation efforts, including targeted repairs, maintenance, system reconfiguration, and completion of access improvements where warranted. Work will be prioritized based on observed conditions and the relative importance of each drain in supporting subsurface drainage and slope stability.

Estimated Budget **$100,000**

Subdrain Outlets/Pumps

Completed in FY25/26: During FY25/26, the GHAD completed Phase 1 and Phase 2 efforts for subdrain pump systems, which support groundwater management associated with slope stability. This work included assessment of the baseline condition of GHAD-maintained pumping facilities through field visits and review of exiting documentation.

In addition, the GHAD evaluated existing inspection and maintenance protocols, including maintenance schedules, scope, and associated costs, and developed recommendations for improved procedures and updated inspection schedules. These efforts establish a baseline understanding of system condition and performance and provide a framework for ongoing maintenance and operational planning consistent with the GHAD's responsibility to prevent, mitigate, abate, or control landslides.

Projected for FY26/27: In FY26/27, the GHAD will implement Phase 3 (Implementation) of the subdrain pump systems program. This phase will focus on executing the maintenance and

operational improvements identified during the Phase 1 and Phase 2 efforts, including targeted maintenance, repairs, and system upgrades where warranted.

The GHAD will also continue routine monitoring and maintenance of its subdrain pumping facility, including periodic operational checks and upkeep of equipment, instrumentation, and control systems to ensure continued reliability.

Work will be prioritized based on observed conditions and the importance of each system in supporting groundwater management and slope stability.

Estimated Budget **$10,000**

Debris Catchment Walls – Study-driven Maintenance Schedule

Permanent Walls

Completed in FY25/26: During FY25/26, the GHAD completed Phase 1 and Phase 2 efforts for permanent debris wall systems, consisting of comprehensive field verification, documentation, and condition assessment. Existing records were reviewed to accurately identify known wall GPS coordinates, followed by field investigations to confirm and document each asset.

Based on these evaluations, the permanent debris walls were found to be in satisfactory condition and functioning as intended. This effort establishes a consistent baseline for future monitoring and supports the development of a structured maintenance program aligned with the GHAD's responsibility to prevent, mitigate, abate, or control landslides.

Projected for FY26/27: In FY26/27, the GHAD will implement an ongoing monitoring and maintenance program for permanent debris walls as part of its broader efforts to support slope stability and protect downslope improvements. Annual inspections will be conducted, particularly during the dry season, to evaluate wall condition and ensure readiness for subsequent winter periods.

Maintenance activities will be performed as needed to preserve functionality and maintain design capacity. Data collected during inspections will continue to be integrated into the GIS platform to support tracking, prioritization, and long-term asset management.

Phase 3 (Implementation) of the permanent debris wall program will also commence in FY26/27. This phase will focus on addressing findings from the inspection and evaluation efforts, including targeted maintenance, repairs, and localized improvements where warranted. Work will be prioritized based on observed conditions and the role of each wall in supporting slope stability and protecting improvements.

Estimated Budget **$25,000**

Temporary Walls

Completed in FY25/26: During FY25/26, the GHAD completed Phase 1 and Phase 2 efforts for temporary debris wall systems, which were installed in response to the FY22/23 storm events to provide interim protection to downslope improvements, roadways, and infrastructure as part of a permanent repair scheme. A comprehensive field investigation was conducted to identify, locate, and document all temporary debris wall installations.

Approximately twenty-five (25) temporary debris wall locations were verified through site visits, with each wall identified, marked, and assessed for condition. GPS coordinates, photographic documentation, and field observations were collected for each site, with supplemental drone imagery utilized where access was limited or broader site context was needed. All data were compiled and organized to support ongoing evaluation and prioritization.

These temporary systems were found to be functioning adequately in their current role as interim protective measures. The evaluation process also established a prioritized framework for future maintenance and integral to a transition to permanent systems, where appropriate, based on observed conditions and long-term performance considerations.

Projected for FY26/27: In FY26/27, the GHAD will continue maintenance and monitoring of temporary debris wall systems to ensure their ongoing effectiveness in protecting improvements from downslope soil movement associated with storm events. Inspections will be conducted during the dry season to assess condition and restore capacity as needed in advance of winter conditions.

Maintenance efforts will focus on preserving the functionality of these interim systems, including debris removal, repair of localized deficiencies, and reinforcement where necessary. In addition, the GHAD will continue to evaluate these locations for potential replacement with permanent debris wall systems based on priority, site conditions, and long-term risk considerations.

Phase 3 (implementation) of the temporary debris wall program will also commence in FY26/27. This phase will include targeted maintenance, repairs, and, where warranted, transition of select temporary installations to permanent solutions. Work will be prioritized based on observed performance, condition, and the degree to which each installation supports the prevention, mitigation, abatement, or control of landslides.

Estimated Budget **$44,000**

Piezometers – Study-driven Maintenance Schedule

Completed in FY25/26: During FY25/26, the GHAD completed a comprehensive inspection and evaluation of its piezometer network (Phase 1 and 2), which provides critical groundwater elevation data used to monitor subsurface conditions associated with slope stability. All piezometer

assets within the GHAD were observed, and program objectives including GPS verification, condition assessment, and standardized reporting were completed for each site.

Minor maintenance activities were performed where feasible, including debris removal, lock lubrication, and identification of obstructions or site access issues. In addition, select piezometers exhibiting minor deficiencies were addressed in the field, including stabilization of faulty bases to reduce the potential for surface water intrusion and ensure more reliable readings. Identification and security issues, such as missing/damaged locks, or deteriorated tags and markings, were documented for future correction.

This effort also reinforced the use of aerial drone support for site location and access planning, while confirming that internal inspection and condition evaluation are best performed through direct field methods. The results of this work have established a verified and standardized inventory of piezometer assets and a consistent baseline for ongoing monitoring and maintenance activities. This concluded Phase 1 and 2.

Projected for FY26/27: The piezometer network will continue to serve as a key component of the GHAD's instrumentation program, providing data used to evaluate groundwater conditions, identify trends, and inform decision-making related to slope stability. As such, in FY26/27, Phase 3 (implementation) of the piezometer program will also commence in FY26/27. This phase will focus on addressing findings from the inspection and evaluation efforts, including targeted repairs, maintenance, and system improvements where warranted. Work will be prioritized based on observed conditions and the importance of each site in monitoring groundwater levels associated with slope stability, consistent with the GHAD's responsibility to prevent, mitigate, abate, or control landslides.

Estimated Budget **$25,000**

Settlement Monitors – Study-driven Maintenance Schedule

Over time, a number of project-related settlement monitors have been placed throughout the development. These monitors were, in large part, installed as part of new monitoring programs and exist in several areas of the District. Older, obsolete instrument sites will be evaluated, and if appropriate, decommissioned.

Estimated Budget **$15,000**

Retention Basins– Study-driven Maintenance Schedule

There are seven retention basins within the District boundaries. Three basins are unimproved retention basins and are maintained exclusively by the Contra Costa County Flood Control District through CSA M-23. Blackhawk GHAD, as well as the property owners, perform certain periodic maintenance operations at the other four basin locations. In a collective agreement with the Homeowners Association, The Country Club (landowner), and the GHAD, de-siltation efforts

have been periodically completed on two retention basins. Currently, GHAD is partnering with the Country Club to desilt a retention pond on Hole #11 of the Falls Course. The project has been through phase 1 to assess feasibility and is currently in Phase 2 of the project which includes procuring the necessary agency permits to complete the work. Phase 3, the Construction phase is scheduled to occur in FY27/28. All costs or budgets for the Hole 11 de-siltation project are represented in the Major Projects program. Typical Retention Basin annual maintenance costs are represented in the Preventive Maintenance program.

Estimated Budget $20,000

Debris Benches – Study-driven Maintenance Schedule

Completed in FY25/26: During FY25/26, Phase 1 and Phase 2 efforts were completed, including comprehensive field inspections and aerial drone documentation for each debris bench to establish baseline conditions and confirm functionality. Observations indicate that the debris benches are performing as intended, with no current deficiencies affecting drainage patterns or structural integrity.

Standardized inspection protocols were developed, including implementation of consistent drone flight procedures to capture both detailed condition and broader site context. Recommendations were also established for permanent field identification markers to improve tracking and inspection efficiency. A recurring inspection and maintenance schedule was developed, including annual inspections and additional evaluations following significant storm events, with data organized to support ongoing comparison and trend analysis. All debris benches were marked in the field for more accurate identification and monitoring in the field.

Projected for FY26/27: In FY26/27, the GHAD will commence Phase 3 (Implementation) of the debris bench program. This phase will focus on maintaining and preserving the long-term functionality of debris benches through routine inspections, debris removal where necessary, and targeted maintenance activities identified during prior evaluations.

Additional efforts will include continued implementation and refinement of the drone-based inspection protocol, installation of permanent identification markers, and integration of debris bench data into the GIS platform to support consistent tracking and long-term asset management. Monitoring efforts will emphasize comparison of current conditions with prior inspections to identify developing trends that may affect performance.

As part of Phase 3, a licensed soils engineer will evaluate debris benches to distinguish between those functioning primarily as debris catchment features and those serving as structural buttresses. This distinction will support more informed prioritization of maintenance and ensure that each bench continues to perform its intended role in supporting slope stability, consistent with the GHAD's responsibility to prevent, mitigate, abate, or control landslides.

These efforts will support a proactive and systematic approach to managing debris benches as a long-term component of the GHAD's slope stabilization infrastructure.

Estimated Budget $10,000

Drain Inlets – Study-driven Maintenance Schedule

Completed in FY25/26: During FY25/26, Drain Inlets (DIs) were established as a distinct asset category within the GHAD's storm drain system infrastructure program to allow for more refined management, tracking, and maintenance. Previously grouped with broader systems such as B-58 ditches or storm drain systems, this separation enables more precise condition assessment, targeted maintenance, and improved data organization, supporting a more systematic approach to managing surface drainage associated with slope stability.

Accordingly, Phase 1 and Phase 2 efforts were completed, including comprehensive field inspections to establish baseline conditions, photographic documentation, and centralized data collection. A standardized digital reporting platform and structured server organization were also implemented to support consistent tracking and long-term asset management.

Phase 2 efforts also included installation of permanent identification markers using a standardized naming convention and preparation of a comprehensive report summarizing findings. Based on these efforts, an ongoing inspection and maintenance schedule was developed to support systematic monitoring and maintenance of DI systems.

Projected for FY26/27: In FY26/27, the GHAD will commence with Phase 3 (Implementation) of the drop inlet systems program. This phase will focus on addressing findings from the inspection and evaluation efforts, including targeted maintenance, cleaning, repairs, and minor improvements where warranted to maintain proper drainage function.

Additional efforts will include continued use and refinement of the inspection and reporting system, integration of DI asset data into the GIS platform, and ongoing evaluation of system performance. Work will be prioritized based on observed conditions and the role of each inlet in supporting effective surface drainage and reducing conditions associated with threatened landslides.

These efforts will support a consistent and proactive approach to managing drop inlet systems as part of the GHAD's broader drainage infrastructure program.

Estimated Budget $15,000

Headwalls – Study-driven Maintenance Schedule

Completed in FY25/26: During FY25/26, the GHAD completed Phase 1 and Phase 2 efforts for headwall systems, which function as key drainage points within the District's drainage infrastructure supporting slope stability. Comprehensive field inspections and evaluations were performed for all identified headwalls, including documentation of location, condition, and operational characteristics.

Phase 1 and Phase 2 efforts included incorporation of headwalls into the GHAD asset inventory, development of identification protocols, and establishment of monitoring and maintenance recommendations. These include installation of permanent identification markers, implementation

of routine inspection schedules, and additional evaluation of outlet piping conditions through camera inspection.

Phase 3 (Implementation) was initiated in FY25/26, including maintenance and improvement activities such as removal of accumulated silt at headwalls, placement and refreshing of rip rap, and other site-specific measures to support continued functionality.

Projected for FY26/27: In FY26/27, the GHAD will continue Phase 3 (Implementation) of the headwall program. Work will include ongoing maintenance and improvement efforts identified during prior evaluations, including debris and vegetation removal, sediment management, and enhancement of headwall protection measures such as rip rap where necessary.

Additional efforts will include continued implementation of the recommended inspection schedule, and camera inspection of outlet pipes to further evaluate internal conditions and ensure proper system performance. Monitoring frequency will be adjusted based on site-specific conditions, with certain headwalls receiving more frequent inspections where access or performance considerations warrant.

Maintenance activities will be prioritized based on observed conditions and operational importance, with emphasis on ensuring that headwalls continue to function effectively as part of the GHAD's drainage infrastructure system. These efforts support the GHAD's responsibility to prevent, mitigate, abate, or control landslides by maintaining proper discharge and reducing the potential for blockage or erosion-related impacts.

Estimated Budget $195,000

Minor Repairs

A budget is established annually for ongoing smaller projects or unanticipated minor projects within the Preventive Maintenance Program. Most current minor project sites have been incorporated into the Rain Event storms under the Major Projects program calendar. The Minor Projects Program may be used in collaboration with the Major Projects "Rain Event" program to manage groups of smaller repair projects.

Estimated Budget $100,000

Winterization

The District provides an annual budget for procuring and storing an inventory of winterization materials and to provide for the costs of site installations. To replenish and keep materials available, inventories are routinely taken, and materials procured. Since the heavy rain storms of 2022-2023 year-round protective measures have been necessary to manage greater than 100 sites, exhausting inventory and requiring frequent materials reordering. This year's winterization materials needs are expected to continue to exceed normal parameters for procurement and site maintenance expenses. Therefore, the budget has been increased from previous years.

Estimated Budget $250,000

Emergency Response

During the winter rainy season, the Blackhawk GHAD responds to a range of urgent, active and threatening landslides, as well as drainage issues where property damage is threatened. These incidents typically involve mud or debris flows, plugged storm drains at the base of slopes, or flooded properties due to the overflow of runoff from plugged or damaged facilities. In severe cases these responses can require the initiation of substantial temporary slope stabilization measures as a phase of a major repair project.

Estimated Budget $140,000

Operations

An inventory of onsite instrumentation including hundreds of piezometers, inclinometers, horizontal drains, subdrains, and settlement monuments are monitored periodically throughout the year as a preventive measure. Collected data from these sites is analyzed and aggregated into the GIS for further analysis to establish trends.

Monitoring sites can be established for a variety of uses. Completed repair sites often require monitoring protocol to confirm that the slope has been stabilized. Other sites have been utilized to indicate signs of unstable conditions developing and have been instrumental in determining slope conditions prior to the activation of a landslide.

Through the use of collected data such as groundwater depth, magnitude of slope movement, depth of movement, and ground surface movement, the District has been able to arrest slope movement in advance of an incipient failure. Archiving of historical data rewquires ongoing integration into the GHAD GIS as new features are designed and activated.

Throughout the year, the District receives incident response or assistance calls from property owners regarding slope stability or drainage issues. Community relations, including incident responses through the annual Operations Program, have been institutionalized as a role of Blackhawk GHAD management. All incidents are recorded within the GIS and move through the District response mechanisms as appropriate and consistent with the Blackhawk GHAD Plan of Control. GHAD has completed an updated user-friendly interactive website that provides a portal for property owners and stakeholders to report incidents or inquire about the GHAD's operations.

The GHAD manager receives updates in long-range weather and oceanic temperature changes through the National Oceanic and Atmospheric Administration (NOAA) and other scientific and atmospheric agencies that track data and produce probabilistic assessments on the likelihood of seasonal heavy rain or seismic conditions. Preliminary NOAA reporting suggests atmospheric and oceanic metrics currently indicate approximately a one-in-three probability that late 2026, early 2027 is subject to "strong" El Nino conditions. These probabilities may change significantly during the ensuing months to either strengthen or weaken the probabilities of El Nino.

Operations Program Estimated Budget $205,000

Special Projects

During fiscal year 2026/2027 the District will continue several special projects and studies. Brief descriptions of the special projects are presented in Table 1 and further described below:

Plan of Control Update

Amendment 4 to the Plan of Control (POC) was adopted by the GHAD Board in 2024 and put into use. Amendment 4 supersedes previous plans and addresses additional clarification and instruction with respect to the GHAD responsibilities and authorities. A modest allowance has been established for any activity that may involve the Plan of Control.

Estimated Budget $1,000

Reserve Study Update

The Blackhawk GHAD reserve fund study was originally completed in FY2002-2003. An extensive update to the plan was completed in fiscal year 2012-2013. This year GHAD initiated work on a comprehensive update to the Reserve Study in January 2026, as a synergetic effort with the Preventive Maintenance program to establish a baseline condition of mid-serviceable life for much of the infrastructure that GHAD manages. The programs communicate within a 3-phase infrastructure testing and evaluation program. The reserve study functions as a pro-forma (40 year) analysis of the financial needs of the Blackhawk GHAD. It serves as a tool to calculate the annual contribution required by the GHAD to build and maintain sufficient funds for emergencies and capital replacement programs based on past weather patterns, landslide repair costs, and general attrition. Historically, as a result of severe winters, draws have been necessary on the reserve fund. The current efforts to update the Reserve Study are anticipated to be completed in May of 2026.

Estimated Budget $50,000

Special Studies

The Blackhawk GHAD intends to continue targeted and site-specific studies in the areas of fiscal policy and geologic risk. The GHAD, as we anticipate our 41st year, has the unique opportunity to address many of the issues surrounding long-term viability and sustainability within changing environmental and financial conditions. Using empirical data, we can assess potentially increasing financial loads and geologic risks that may accompany the physical maturation process of this District, as well as identifying infrastructure serviceability and project capital replacement costs in advance. We are confident that these studies have produced and will continue to produce beneficial results. The Special studies program has been modified this year to analyze and account for projected costs to support site specific studies currently underway.

Estimated Budget $20,000

Information Technology Systems (IT) and Geographic Information Systems (GIS)

Completed in FY25/26: In FY25/26 the GHAD developed a comprehensive Geographic Information System (GIS) solution to support the District's monitoring and management of geologic hazards and related incidents. The effort was organized into three phases and included system modernization, feature enhancements, and the deployment of mobile capabilities. In Phases 1 and 2, the existing GIS functionality was migrated into a new, more reliable platform. Building on that foundation, Phase 2 introduced enhanced features to improve overall system usability, reliability, and efficiency. In Phase 3, a mobile version was developed to improve field data entry and incident management. This included enabling field staff to create and update incidents in real time, upload photos, access asset information, and perform simplified searches.
This project significantly improved the District's ability to monitor, document, and respond to geologic hazards. GIS modernization and expanded field tools improved efficiency, data quality, and decision-making.

Projected for FY26/27: Efforts in FY26/27 are anticipated to focus on ongoing system maintenance, implementation of bug fixes, and continued IT support to ensure reliable performance of the GIS platform. Additional work will include miscellaneous system improvements and refinements to further enhance usability, address evolving operational needs, and maintain long-term system effectiveness.

Estimated Budget **$160,000**

Accounting System Upgrade

Periodic upgrades are necessary to enhance accounting system capabilities. The Blackhawk GHAD utilizes expense accounting software to assist in reporting and the day-to-day operation of the District. Ongoing accounting system enhancements are being implemented allowing more data entry streamlining, enhanced reporting, and quality control assurance procedures. The GHAD Treasurer and the General Manager work collaboratively to fortify the accounting systems, receivables and invoice processing procedures.

Estimated Budget **$30,000**

Procedures Manual

The Blackhawk GHAD continually upgrades procedures and modifies plans to incorporate new technologies that assist the GHAD in delivering the highest level of services. Procedures require certain modifications and enhancements as new methodologies are introduced and incorporated into the GHAD Standard Operation Procedures. Certain financial and operations procedures have been institutionalized within the program. Additional procedures will be incorporated to further define and standardize the following areas:

- Preventive Maintenance/Operations
- Standard Form Contracts (Evaluation)

- Administrative Procedures (Evaluation)
- Content Management Systems
- GIS/IT Protocol

Estimated Budget $5,000

Communications Program

The Blackhawk GHAD maintains a communications plan designed to keep constituents current on GHAD operations and developments. The plan addresses several venues and mediums in which to disseminate information within this District and to other concerned parties, and to establish clear and accessible channels for community interaction. The GHAD has now implemented a web page for public information and interaction and a multi-page informational brochure has been completed and distributed to interested Homeowner Associations (HOA) that describes the GHAD and its responsibilities and limitations. Additionally, when asked, the General Manager writes periodic articles for the HOA newsletter.

Estimated Budget $10,000

Outreach/Legislative Review
California Association of GHADs (CAGHADs) Membership/Insurance

The proliferation of new GHADs within California has resulted in new legislation and adopted procedures. The Blackhawk GHAD Manager, in association with others make up the CAGHAD Board of Directors and share information and knowledge through a consortium of GHAD managers. The CAGHAD has obtained General Liability policies for its member GHADs.

Additional GHAD onboarding and participation has reduced relative premiums. Coverage for the Blackhawk GHAD is approximately $9,306[3], plus administrative costs.

Additionally, the GHAD manager participates in the CAGHADs as the organization pursues other financial instruments that may provide the Blackhawk GHAD additional options for extraordinary event financial planning. In 2016, the CAGHAD Board adopted a new fee schedule reducing the annual GHAD fees for membership by 50%.

During GHAD's arbitration with FEMA in December, the President of the CAGHADs worked with the GHAD manager and counsel to prepare for and testify at the hearing.

Estimated Budget $15,000

FEMA Administration

An administrative budget has been established to allow GHAD management and consultants to continue to pursue Federal and State funds through grant programs offered by the Federal and

[3] 2025/2026 Premium referenced

State Emergency Response agencies. Providing funding is awarded, a portion of administrative costs are recoverable as well.

Estimated Budget **$50,000**

Administration

The administration of the Blackhawk GHAD includes all costs associated with legal support, office expenses, staffing, and accounting. Brief descriptions are presented below.

Legal

General Counsel: Blackhawk GHAD management must interact regularly with GHAD Counsel. The day-to-day operations of the GHAD present myriad issues and opportunities to work directly with GHAD counsel in the areas of contracts, agreements, new business, legislation, and property owner issues.

Estimated Budget **15,000**

Special Counsel (FEMA): Blackhawk GHAD management requires the services of special counsel from time to time in the areas of litigation and other legal concerns. Currently GHAD General legal counsel is assisted the General Manager with active FEMA and CalOES applications.

Estimated Budget **$35,000**

FEMA – Disaster 4683

Estimated Budget **$75,000**

HOA

Periodically specific communication, research or other common interest issues arise where GHAD is asked to provide information, documentation, etc.

Estimated Budget **$5,000**

Tax Assessment Roll Update

GHAD annually asks a consultant to provide the current tax rolls for the GHAD. There is need as well for ad hoc utilization of consultants to research specific property assessment status.

Estimated Budget **$4,000**

Data Security – Insurance/Compliance

In an effort to address changing data security needs the GHAD will conduct a review and include updated data insurance as needed.

Estimated Budget **$10,000**

Staffing/Administrative Support

The Blackhawk GHAD staff includes the General Manager, Operations Manager, Construction Services Manager, an Administration Manager and frequently other support staff and consulting professionals. The General Manager administers all GHAD day-to-day operations, including financial budgeting and communications regarding its activities. The Operations Manager and Construction Services Manager, among other tasks, administer the Major Projects and Preventive Maintenance Programs and associated work schedules, consulting and construction contracts, and documents. The administrative staff is responsible for accounting/bookkeeping, contract administration, clerical, and construction management support; Additional management staff costs are also applied to specific projects as appropriate. Authorized business expenses such as rent, office supplies and leases are included in Staffing.

Estimated Budget **$741,469**

1025 ESCOBAR STREET
MARTINEZ, CA 94553

CONTRA COSTA COUNTY

Staff Report

File #: 26-2769 **Agenda Date:** 6/23/2026 **Agenda #:** C.83.

To: Board of Supervisors

From: Dr. Grant Colfax, Health Services Director

Report Title: Amendment to the County's Industrial Safety Ordinance

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
ADOPT Ordinance No. 2026-11, amending the County's Industrial Safety Ordinance to authorize the Contra Costa County Fire Protection District to enforce it.

FISCAL IMPACT:
There is no fiscal impact for this action.

BACKGROUND:
On March 28, 2000, the Board adopted what is known today as the Industrial Safety Ordinance (Chapter 450-8) ("ISO"). This was driven by incidents in Contra Costa County at industrial chemical, petrochemical, and oil industry facilities that prompted the consideration of reviews, inspections, and audits that supplement existing federal and state safety programs and the imposition of additional safety measures to protect public health and safety from accidental releases. The Contra Costa County Department of Health ("CCH") was given authority to implement and enforce the ISO which was done by the Hazardous Materials Programs ("HMP"). Over the last 26 years, the CCH Hazardous Materials Programs has staffed a dedicated team of engineers to implement and enforce the ISO.

To date, HMP has conducted audits of industrial facilities to ensure compliance with the ISO. The HMP also has overseen investigations and other 3rd party evaluations related to Major Chemical Accidents and Releases (MCAR). Most recently through the development of an Oversight Committee, HMP has overseen Community Risk Assessments, Incident Investigations, and Management Systems evaluations.

On June 24, 2025, the Contra Costa County Board of Supervisors (the Board) approved the transition of the HMP from CCH to the Contra Costa County Fire Protection District ("the District"). HMP currently implements and enforces the ISO and has a dedicated group of engineers (one Supervising Accidental Release Prevention Engineer and seven Accidental Release Prevention Engineers) who are charged with this implementation and enforcement. Pursuant to the Board's approval, these personnel will be transferred to the District, including the engineering group that currently implements and enforces the ISO. The proposed amendment to the ISO would allow the County to delegate authority to the District to implement and enforce the ISO.

On June 9, 2026, the Board introduced Ordinance No. 2026-11, setting adoption at the June 23, 2026 meeting.

CONSEQUENCE OF NEGATIVE ACTION:
Administration and enforcement of the County's industrial safety ordinance will remain with CCH notwithstanding the Board of Supervisors' prior approval to transition this program to the Fire Protection District.

ORDINANCE NO. 2026-11

AMENDING THE COUNTY'S INDUSTRIAL SAFETY ORDINANCE TO AUTHORIZE THE CONTRA COSTA COUNTY FIRE PROTECTION DISTRICT TO ADMINISTER AND ENFORCE THE ORDINANCE

The Contra Costa County Board of Supervisors ordains as follows (omitting the parenthetical footnotes from the official text of the enacted or amended provisions of the County Ordinance Code):

SECTION I. SUMMARY. This action amends the County's Industrial Safety Ordinance, Chapter 450-8 of the County Ordinance Code, to permit the Contra Costa County Fire Protection District to enforce the ordinance pursuant to a written delegation agreement approved by the Board of Supervisors.

SECTION II. Section 450-8.008 of the County Ordinance Code is amended to read:

> The Department is charged with the responsibility of administering and enforcing this chapter. Pursuant to a written delegation agreement approved by the Board of Supervisors, the Contra Costa County Fire Protection District may administer, inspect, investigate, and enforce this chapter to the extent set forth in the delegation agreement. References in this chapter to the "Department" shall include the Contra Costa County Fire Protection District when acting pursuant to the delegation agreement.

(Ord. 2026-11, § II; 2024-14, § IV; Ord. 98-48 § 2)

SECTION III. Subsection (b) of Section 450-8.014 of the County Ordinance Code is amended to read:

> "Department" means the county health services director and any director-authorized deputies. "Department" also means the Contra Costa County Fire Protection District when acting pursuant to a written delegation agreement approved by the Board of Supervisors.

(Ord. 2026-11, § III; 2024-14, § IV; Ord. 98-48 § 2)

SECTION IV. Subsection (b)(2) of Section 450-8.017 of the County Ordinance Code is amended to read:

> The hazard review shall be conducted within one year of the effective date of the ordinance adding Section 450-8.017 to this chapter and no later than the submittal date of the safety plan. Hazard reviews shall be updated and revalidated at least once every five years after completion of the initial hazard review. As part of the HR, a tank terminal shall complete a seismic

assessment in accordance with good engineering practices as set forth in American Petroleum Institute Standard 650, 13th edition, and a security and vulnerability assessment (SVA) within one year after the effective date of the ordinance adding Section 450-8.017 to this chapter or within one year after the Department first issues a safety program guidance document for tank terminals, whichever is later, and at least once every five years after the initial assessment. A tank terminal that demonstrates its compliance with Department of Homeland Security or U.S. Coast Guard SVA requirements to the Department is exempt from the requirement to complete an SVA under this subsection. The tank terminal shall document its process for assuring that recommended action items in the HR are addressed.

(Ord. 2026-11, § IV; 2024-14, § IV)

SECTION V. Section 450-8.022 of the County Ordinance Code is amended to read:

An ombudsperson shall be provided for the hazardous materials programs. The ombudsperson will serve as a single point of contact for people who live or work in Contra Costa County regarding environmental health concerns, questions, and complaints about hazardous materials programs. The ombudsperson will be empowered to make recommendations to the Department. The ombudsperson may retain appropriate technical experts to fulfill technical assistance requests from members of the public. The cost of experts may be funded through programs established by the U.S. EPA or other appropriate entities.

(Ord. 2026-11, § V; 2024-14, *§* IV; Ord. 2000-20 *§* 2, Ord. 98-48 *§* 2)

SECTION VI. EFFECTIVE DATE. This ordinance becomes effective 30 days after passage, and within 15 days after passage shall be published once with the names of supervisors voting for or against it in the *East Bay Times*, a newspaper published in this County.

PASSED ON _____, 2026, by the following vote:

AYES:
NOES:
ABSENT:
ABSTAIN:

ATTEST: MONICA NINO,
Clerk of the Board of Supervisors
and County Administrator

_____
Board Chair

H:\2026\Health Services\Ordinance No. 2026-11 - ISO.final.docx

ORDINANCE NO. 2026-11

(Amendments to Ordinance Code Chapter 450-8 Regarding Industrial Safety)

The Contra Costa County Board of Supervisors ordains as follows (omitting the parenthetical footnotes from the official text of the enacted or amended provisions of the County Ordinance Code):

SECTION I. **SUMMARY.** This ordinance amends specified sections of County Ordinance Code Chapter 450-8 to permit enforcement of the ordinance pursuant to a written delegation agreement approved by the Board of Supervisors

SECTION II. **AUTHORITY.** This ordinance is adopted pursuant to Article 11, section 7 of the California Constitution.

SECTION III. **FINDINGS.** On June 24, 2025, the Contra Costa County Board of Supervisors approved the transfer of the Hazardous Materials Division from Contra Costa Health to Contra Costa County Fire Protection District . The ordinance is being updated to allow a delegatee of the Board of Supervisors to carry out the administration, inspection and enforcement of this ordinance.

Chapter 450-8 - RISK MANAGEMENT

450-8.002 - Background and findings.

The board of supervisors of Contra Costa County finds as follows:

(a) Recent incidents in Contra Costa County at industrial chemical, petrochemical, and oil industry facilities have prompted the consideration of reviews, inspections, and audits that supplement existing federal and state safety programs and the imposition of additional safety measures to protect public health and safety from accidental releases.

(b) Section 112(r)(7) of the Clean Air Act (42 U.S.C.A. Section 7412(4)) required the United States Environmental Protection Agency ("EPA") to promulgate the rule known as the "Risk Management Program," which is intended to prevent accidental releases of regulated substances, as defined in the federal program, and reduce the severity of those releases that do occur. All facilities subject to this federal regulation must prepare a risk management plan (RMP) based on a risk management program established at the facility, that includes a hazard assessment of the facility, an accidental release prevention program, and an emergency response program (40 CFR Section 68). The facility must submit the Federal RMP to the EPA by June 21, 1999 (40 CFR Section 68-150-68.185). The federal RMP will be available to state and local government and the public.

(c) The California Health and Safety Code Article 2 (Section 25531 et seq.) of Chapter 6.95 was amended effective January 1, 1997, to implement the federal EPA's risk management program rule with certain state-specific amendments. The state's risk management program is known as the California Accidental Release Prevention (CalARP) Program.

(d) The county recognizes that regulatory requirements alone will not guarantee public health and safety, and that the public is a key stakeholder in chemical accident prevention, preparedness, and response at the local level. Preventing accidental releases of regulated substances is the shared responsibility of industry, government and the public. The first steps toward accident prevention are identifying the hazards and assessing the risks. Once information about chemical hazards in the community is openly shared, industry, government, and the community can work together towards reducing the risk to public health and safety.

(e) The success of a safety program is dependent upon the cooperation of industrial chemical, petrochemical, and oil refining facilities within Contra Costa County. The public must be assured that measures necessary to prevent incidents are being implemented, including changes or actions required by the Department or the stationary source that are necessary to comply with this chapter.

(Ord. 2024-14, § IV; Ord. 98-48 § 2)

450-8.004 - Purpose and goals.

(a) The purpose of this chapter is to impose regulations which improve industrial safety by:

(1) Requiring the conduct of process hazard analyses for covered processes handling hazardous materials not covered by the federal or state accidental release prevention programs;

(2) Requiring the review of action items resulting from process hazard analyses and requiring completion of those action items selected by the stationary source for implementation within a reasonable time frame;

(3) Requiring the review of accidental release prevention efforts of stationary sources and providing for the conduct of investigations and analyses for the determination of the root cause for certain incidents;

(4) Providing review, inspection, auditing and safety requirements that are more stringent than those required in existing law and regulations;

(5) Providing for public input into the safety plan and safety program and public review of any inspection and audit results;

(6) Facilitating cooperation among industry, the county, local fire departments, Cal/OSHA, EPA, other agencies that have oversight of stationary sources or tank terminals, and the public in the prevention and reduction of incidents at these facilities;

(7) Expanding the application of certain provisions of the federal and state accidental release prevention programs .to processes not covered by the federal or state accidental release prevention programs;

(8) Verifying that an approved security and vulnerability study is performed, and that the recommendations are addressed within a reasonable time frame;

(9) Requiring the development and implementation of a written human factors program;

(10) Preventing and reducing the number, frequency, and severity of accidental releases in the county to the greatest extent feasible.

(Ord. No. 2024-14, § IV; 2014-07, § III, 6-17-14; Ord. 2006-22 § 2, Ord. 98-48 § 2)

450-8.006 - Authority.

The ordinance codified in this chapter is adopted by the county pursuant to its police power for the purposes of protecting public health and safety by prevention of accidental releases of hazardous materials and to assure protection of the environment.

(Ord. 2024-14, § IV; Ord. 98-48 § 2)

450-8.008 - Administration.

The Department is charged with the responsibility of administering and enforcing this chapter. Pursuant to a written delegation agreement approved by the Board of Supervisors, the Contra Costa County Fire Protection District may administer, inspect, investigate, and enforce this chapter, to the extent set forth in the delegation agreement. References in this chapter to the "Department" shall include the Contra Costa County Fire Protection District when acting pursuant to the delegation agreement.

(Ord. 2026-11, Ord. 2024-14, § IV; Ord. 98-48 § 2)

450-8.010 - Applicability.

(a) This chapter shall apply to stationary sources and tank terminals except as set forth in subsection (b).

(b) To the extent that the following are stationary sources, they are exempt from the provisions of this chapter except Sections 450-8.016(c) and (e), and 450-8.018(f) and (g):

(1) Storage tanks containing a nonregulated substance, except for storage tanks that contain a material that has a flashpoint above one hundred forty degrees Fahrenheit and below two hundred degrees Fahrenheit in accordance with the definition of combustible liquid in 49 CFR Section l 73.120(b);

(2) Drum storage of: (A) a nonregulated substance; (B) less than ten thousand pounds of a hazard category B material located such that the drums could reasonably be expected to be involved in a single release; and (C) a hazard category A material, located such that the drums could reasonably be expected to be involved in a single release, at less than the quantity specified as the threshold planning quantity on the extremely hazardous substances list (Appendix A to 40 CFR Chapter I, Subchapter J, Part 355, as amended from time to time) or five hundred pounds, whichever is less;

(3) Activities in process plant laboratories or laboratories that are under the supervision of a technically qualified individual as defined in Section 720.3(ee) of 40 CFR. This exemption does not apply to specialty chemical production; manufacture, processing or use of substances in pilot plant scale operations; and activities conducted outside the laboratory;

(4) Utilities, except for fuel gas and natural gas systems to the battery limits of a process unit; and

(5) Any waste tanks, containers or other devices subject to the federal and state _hazardous waste laws, including the Resource Conservation and Recovery Act (RCRA), 40 CFR

Chapter I, Subchapter I, commencing with Part 260, the California Hazardous Waste Control Law, California Health and Safety Code, commencing with Section 25100 and the California Code of Regulations, Title 22 Division 4.5 Environmental Health Standards for the Management of Hazardous Waste. (Ord. 2024-14 § IV; Ord. 2006-22 § 3; Ord. 98-48 § 2)

450-8.012 - Inspection.

The Department shall be allowed reasonable access to any part of a stationary source or tank terminal subject to requirements in this chapter, and to supporting documentation retained by the stationary source or tank terminal, for the purpose of determining compliance with this chapter. (Ord. 2024-14, § IV; Ord. 98-48 § 2)

450-8.014 - Definitions.

For purposes of this chapter, the definitions set forth in this section shall apply. Words used in this chapter not defined in this section shall have the meanings ascribed to them in the Clean Air Act Regulations (40 CFR Section 68.3) and in California Health and Safety Code Article 2 (Section 25531 et seq.) of Chapter 6.95 of Division 20, unless the context indicates otherwise.

(a) "Covered process" means any process at a stationary source.

(b) "Department" means the county health services director and any director-authorized deputies. Department also means Contra Costa County Fire Protection District when acting pursuant to a written delegation agreement approved by the Board of Supervisors.

(c) "Feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, legal, social, and technological factors.

(d) "Hazard category A materials" are substances which meet the hazard category A material definition as set forth in Section 84-63. IO16.

(e) "Hazard category B materials" are substances which meet the hazard category B material definition as set forth in Section 84-63.1016.

(f) "Industry codes, standards, and guidelines" means the edition of the codes, standards, and guidelines in effect at the time of original design or construction for the design, construction, alteration, maintenance or repair of process units, industrial equipment, or other industrial facilities, structures or buildings published by, but not limited to, the American Petroleum Institute (APT), the American Chemistry Council (ACC), the American Society of Mechanical Engineers (ASME) or the American National Standards Institute (ANSI), and meets recognized

and generally accepted good engineering practices (RAGAGEP).

(g) "Inherently safer systems" means "inherently safer design strategies" as discussed in the latest edition of the Center for Chemical Process Safety Publication "Inherently Safer Chemical Processes," and means feasible alternative equipment, processes, materials, lay-outs, and procedures meant to eliminate, minimize, or reduce the risk of a major chemical accident or release by modifying a process rather than adding external layers of protection. Examples include, but are not limited to, substitution of materials with lower vapor pressure, lower flammability, or lower toxicity; isolation of hazardous processes; and use of processes which operate at lower temperatures and/or pressures.

(h) "Major chemical accident or release" means an incident that meets the definition of a level three or level two incident in the community warning system incident level classification system defined in the hazardous materials incident notification policy, as determined by the Department; or results in the release of a regulated substance and meets one or more of the following criteria:

(1) Results in one or more fatalities;

(2) Results in at least twenty-four hours of hospital treatment of each of at least three persons;

(3) Causes on- and/or off-site property damage (including clean-up and restoration activities) initially estimated at five hundred thousand dollars or more. On-site estimates shall be performed by the stationary source. Off-site estimates shall be performed by appropriate agencies and compiled by the Department;

(4) Results in a vapor cloud of flammables and/or combustibles that is more than five thousand pounds.

(i) "Regulated substance" means (1) any chemical substance which satisfies the provisions of California Health and Safety Code Section 25532(i), as amended from time to time, or (2) a substance which satisfies the provisions of hazard categories A or B in Section 84-63.1016. Mixtures containing less than one percent of a regulated substance shall not be considered in the determination of the presence of a regulated material.

(j) ”Risk management program" means the documentation, development, implementation, and integration of management systems by the facility to comply with the regulations set forth in 40 CFR, Part 68 and the California Health and Safety Code, Article 2 of Chapter 6.95 of Division 20.

(k) "RMP" means the risk management plan required to be submitted pursuant to the requirements of the 40 CFR Sections 68.150-68.185 and the California Health and Safety Code Article 2 (Section 25531 et seq.) of Chapter 6.95 of Division 20.

(l) "Root cause" means prime reasons, such as failures of some management systems, that allow

faulty design, inadequate training, or improper changes, which lead to an unsafe act or condition, and result in an incident. If root causes were removed, the particular incident would not have occurred.

(m) "Safety plan" means the safety plan required to be submitted to the Department pursuant to the requirements of Section 450-8.016 or Section 450-8.017.

(n) "Safety program" means the documentation, development, implementation, and integration of management systems by a stationary source or tank terminal to comply with applicable safety requirements set forth in Section 450-8.016 or Section 450-8.017.

(o) "Stationary source" or "source" means a facility which includes at least one process as defined in 40 CFR Section 68.10 that is subject to federal risk management program level three requirements and whose primary North American Industry Classification System code (NAICS) is three hundred twenty-four (petroleum and coal products manufacturing) or three hundred twenty-five (chemical manufacturing), or the owner or operator thereof. As used in Section 450- 8.018, stationary source will be interpreted to also mean a tank terminal.

(p) "California accidental release prevention program" means the documentation, development, implementation, and integration of management systems by a facility to comply with the regulations set forth in California Code of Regulations, Title 19, Division 5, Chapter 2.

(q) "Catastrophic release" means a major uncontrolled emission, fire, or explosion, involving one or more highly hazardous chemicals, that presents serious danger to employees in the workplace and/or the public. As used in this section, "highly hazardous chemical" has the meaning ascribed to it in 29 CFR Section 1910.119(b) as of May 21, 2003.

(r) "Human factors" means a discipline concerned with designing machines, operations, and work environments so that they match human capabilities, limitations, and needs. "Human factors" can be further referred to as environmental, organizational, and job factors, and human and individual characteristics that influence behavior at work in a way that can affect health and safety.

(s) "Human systems" means the systems, such as written and unwritten policies, procedures, and practices, in effect to minimize the existence/persistence of latent conditions at the stationary source. It also includes the broad area of safety culture of a stationary source to the extent that it influences the actions of individuals or groups of individuals.

(t) "Layer of protection analysis" (LOPA) means a semi-quantitative analysis of the risk of process hazards and the adequacy of safeguards against those hazards.

(u) "Process hazard analysis" (PHA) means a qualitative, semi-quantitative or quantitative analysis of a process, involving the identification of individual hazards of a process, determination of the mechanisms by which hazards could give rise to undesired events, and evaluation of the consequences of these events on health, property and the environment.

(v) "Process safety performance indicators" are measurements of a stationary source's activities and other events that are used to evaluate the performance of process safety systems.

(w) "Combustible liquid" means a liquid having a closed cup flash point at or above 100° F (38°C).

(x) "Flammable liquid" means a liquid having a closed cup flash point below 100° F (38°C).

(y) "Ignitable liquid" means a flammable liquid or combustible liquid.

(z) "Field erected tank" means an aboveground container constructed and/or erected on the site where it will be utilized.

(aa) "Tank terminal" means at least one field erected tank with a minimum shell capacity of 50,000 gallons that contains a minimum of 10,000 pounds of flammable liquid, or the owner or operator thereof, on one or more contiguous properties.

(bb) "Tank terminal activities" mean any activity at a tank terminal involving an ignitable liquid, including but not limited to using, storing, blending, producing, gathering, refining, transferring, distributing, consuming, handling or moving an ignitable liquid.

(cc) "Tank terminal equipment" means equipment that is at a tank terminal and involved in tank terminal activities, and such equipment is under the control of the tank terminal owner or operator. This equipment includes, but is not limited to, tanks, pumps, piping, valves, and ancillary equipment.

(Ord. No. 2026-11, 2024-14, § IV; Ord. 2014-07, § IV, 6-17-14; Ord. 2006-22 § 4, Ord. 98-48 § 2)

450-8.016 - Stationary source safety requirements.

The stationary source shall submit a safety plan to the Department within one-year of the effective date of the ordinance codified in this chapter or within three years of the date a facility becomes a stationary source, that complies with the provisions of this section and that includes the safety elements listed in subsection (a). In addition, the stationary source shall comply with the safety requirements set forth in subsections (a) through (e), (i) and G) and shall include a description of the manner of compliance with these subsections in the safety plan. A new covered process at an existing stationary source shall comply with subsections (a) through (e), (i) and G) prior to initial startup.

(a) Safety Program Elements. All covered processes shall be subject to the safety program elements listed below. The safety plan shall include a description of the manner in which these safety program elements listed below shall be applied to the covered process. These safety program elements shall be implemented in conformance with the California accidental release prevention program, and the safety plan shall follow Chapters 5, 7, 8 and 9 of the county health services Department's CalARP program guidance document.

1. Process Safety Information.

(A) The stationary source shall complete a compilation of written process safety information before conducting any process hazard analysis as required by this chapter. The compilation of written process safety information is to enable the stationary source and the employees involved in operating the covered process to identify and understand the hazards posed by the covered process. This process safety information shall include information pertaining to the hazards of the regulated substances used or produced by the process, information pertaining to the technology of the process, information pertaining to the equipment in the process, and information pertaining to the hazards of the regulated substances in the process.

(i) This information shall consist of at least the following: toxicity information;

permissible exposure limits; physical data; reactivity data; corrosivity data; thermal and chemical stability data; and hazardous effects of inadvertent mixing of different materials that could foreseeably occur.

(ii) Safety data sheets meeting the requirements of Section 5194, Title 8 of California Code of Regulations may be used to comply with this requirement to the extent they contain the information required by this subsection.

(iii) Information pertaining to the technology of the process shall include at least the following: a block flow diagram or simplified process flow diagram; process chemistry; maximum intended inventory; safe upper and lower limits for such items as temperatures, pressures, flows or compositions; and, an evaluation of the consequences of deviations. Where the original technical information no longer exists, such information may be developed in conjunction with the process hazard analysis in sufficient detail to support the analysis.

(iv) Information pertaining to the equipment in the process shall include: materials of construction; piping and instrument diagrams (P&ID's); electrical classification; relief system design and design basis; ventilation system design; design codes and standards employed; material and energy balances for processes built after the compliance date of the ordinance codified in this chapter; and safety systems (e.g., interlocks, detection or suppression systems).

(B) The stationary source shall document that equipment complies with recognized and generally accepted good engineering practices.

(C) For existing equipment designed and constructed in accordance with codes, standards, or practices that are no longer in general use, the stationary source shall determine and document that the equipment is designed, maintained, inspected, tested, and operating in a safe manner.

2. Operating Procedures.

(A) The stationary source shall develop and implement written operating procedures that provide clear instructions for safely conducting activities involved in each covered process consistent

with the process safety information and shall address at least the following elements:

(i) Steps for each operating phase: initial startup; normal operations; temporary operations; emergency shutdown, including the conditions under which emergency shutdown is required, and the assignment of shutdown responsibility to qualified operators to ensure that emergency shutdown is executed in a safe and timely manner; emergency operations; normal shutdown; and, startup following a turnaround, or after an emergency shutdown.

(ii) Operating limits: consequences of deviation; and steps required to correct or avoid deviation.

(B) Safety and Health Considerations. Properties of, and hazards presented by, the chemicals used in the process; precautions necessary to prevent exposure, including engineering controls, administrative controls, and personal protective equipment; control measures to be taken if physical contact or airborne exposure occurs; quality control for raw materials and control of hazardous chemical inventory levels; and, any special or unique hazards.

(C) Safety systems and their functions.

(D) Operating procedures shall be readily accessible to employees who work in or maintain a process.

(E) The operating procedures shall be reviewed as often as necessary to assure that they reflect current operating practice, including changes that result from changes in process chemicals, technology, and equipment, and changes to stationary sources. The stationary source shall certify annually that these operating procedures are current and accurate.

(F) The stationary source shall develop and implement safe work practices to provide for the control of hazards during operations such as lockout/tagout; confined space entry; opening process equipment or piping; and control over entrance into a stationary source by maintenance, contractor, laboratory, or other support personnel. These safe work practices shall apply to employees and contractor employees.

a. Employee Participation.

(A) The stationary source shall develop a written plan of action regarding the implementation of the employee participation required by this chapter.

(B) The stationary source shall consult with employees and their representatives on the conduct and development of process hazards analyses and on the development of the other elements of the safety program in this chapter.

(C) The stationary source shall provide to employees and their representatives access to process hazard analyses and to all other information required to be developed under this chapter.

b. Training. For each employee in such covered process:

(A) Initial Training. Each employee presently involved in operating a covered process, and each employee before being involved in operating a newly assigned covered process, shall be trained in an overview of the process and in the operating procedures as specified in subsection (a)(2)(A). The training shall include emphasis on the specific safety and health hazards, emergency operations including shutdown, and safe work practices applicable to the employee's job tasks. In lieu of initial training for those employees already involved in operating a process, an owner or operator may certify in writing that the employee has the required knowledge, skills, and abilities to safely carry out the duties and responsibilities as specified in the operating procedures.

(B) Refresher Training. Refresher training shall be provided at least every three years, and more often if necessary, to each employee involved in operating a covered process to assure that the employee understands and adheres to the current operating procedures of the covered process. The stationary source, in consultation with the employees involved in operating the process, shall determine the appropriate frequency of refresher training.

(C) Training Documentation. The stationary source shall ascertain that each employee involved in operating a process has received and understood the training required by this section. The stationary source shall prepare a record which contains the identity of the employee, the date of training, and the means used to verify that the employee understood the training.

c. Mechanical Integrity, including the use of industry codes, standards, and guidelines.

(A) Application. Subsections (a)(5)(B) through (a)(5)(F) apply to the following process equipment: pressure vessels and storage tanks; piping subsystems (including piping components such as valves); relief and vent systems and devices; emergency shutdown systems; controls (including monitoring devices and sensors, alarms, and interlocks) and pumps.

(B) Written Procedures. The stationary source shall establish and implement written procedures to maintain the on-going integrity of process equipment.

(C) Training for Process Maintenance Activities. The stationary source shall train each employee involved in maintaining the on-going integrity of process equipment in an overview of that process and its hazards and in the procedures applicable to the employee's job tasks to assure that the employee can perform the job tasks in a safe manner.

(D) Inspection and Testing.

(1) Inspections and tests shall be performed on process equipment. Inspection and testing procedures shall follow recognized and generally accepted good engineering practices. The frequency of inspections and tests of process equipment shall be consistent with

applicable manufacturers' recommendations and good engineering practices, and more frequently if determined to be necessary by prior operating experience. The stationary source shall document each inspection and test that has been performed on process equipment. The documentation shall identify the date of the inspection or test, the name of the person who performed the inspection or test, the serial number or other identifier of the equipment on which the inspection or test was performed, a description of the inspection or test performed, and the results of the inspection or test.

(E) Equipment Deficiencies. The stationary source shall correct deficiencies in equipment that are outside acceptable limits (defined by the process safety information in subsection (a)(l)) before further use or in a safe and timely manner when necessary means are taken to assure safe operation.

(F) Quality Assurance. In the construction of new plants and equipment, the stationary source shall assure that equipment as it is fabricated is suitable for the process application for which they will be used. Appropriate checks and inspections shall be performed to assure that equipment is installed properly and consistent with design specifications and the manufacturer's instructions. The stationary source shall assure that maintenance materials, spare parts and equipment are suitable for the process application for which they will be used.

(6) Management of Change.

(A) The stationary source shall establish and implement written procedures to manage changes (except for "replacements in kind") to process chemicals, technology, equipment, and procedures; and changes to stationary sources that affect a covered process.

(B) The procedures shall assure that the following considerations are addressed prior to any change: the technical basis for the proposed change; impact of change on safety and health; modifications to operating procedures; necessary time period for the change; and authorization requirements for the proposed change. The procedures shall also require identification and analysis of inherently safer systems as required by subsection (i).

(C) Employees involved in operating a process and maintenance and contract employees whose job tasks will be affected by a change in the process shall be informed of, and trained in, the change prior to startup of the process or affected part of the process.

(D) If a change covered by this section results in a change in the process safety information required by subsection (a)(l), such information shall be updated accordingly.

(E) If a change covered by this section results in a change in the operating procedures or practices required by subsection (a)(2), such procedures or practices shall be updated accordingly.

(7) Pre-Startup Reviews.

(A) The stationary source shall perform a pre-startup safety review for new stationary sources and for modified stationary sources when the modification is significant enough to require a change in the process safety information.

(B) The pre-startup safety review shall confirm that prior to the introduction of regulated substances to a covered process: construction and equipment is in accordance with design specifications; safety, operating, maintenance, and emergency procedures are in place and are adequate; for new covered processes, a process hazard analysis has been performed and recommendations have been resolved or implemented before startup; and modified covered processes meet the requirements contained in management of change, subsection (a)(6); and training of each employee involved in operating a process has been completed.

(8) Compliance Audits.

(A) The stationary source shall certify that they have evaluated compliance with the provisions of this section at least every three years to verify that the procedures and practices developed under this chapter are adequate and are being followed.

(B) The compliance audit shall be conducted by at least one person knowledgeable in the process.

(C) A report of the findings of the audit shall be developed.

(D) The stationary source shall promptly determine and document an appropriate response to each of the findings of the compliance audit, and document that deficiencies have been corrected.

(E) The stationary source shall retain the two most recent compliance audit reports.

(9) Incident Investigation.

(A) The stationary source shall investigate each incident which resulted in, or could reasonably have resulted in a catastrophic release of a regulated substance.

(B) An incident investigation shall be initiated as promptly as possible, but not later than forty-eight hours following the incident.

(C) An incident investigation team shall be established and consist of at least one person knowledgeable in the covered process involved, including a contract employee if the incident involved work of the contractor, and other persons with appropriate knowledge and experience to thoroughly investigate and analyze the incident.

(D) A report shall be prepared at the conclusion of the investigation which includes at a minimum: date of incident; date investigation began; a description of the incident; the

factors that contributed to the incident; and recommendations resulting from the investigation. The written summary shall indicate whether the cause of the incident and/or recommendations resulting from the investigation are specific only to the process or equipment involved in the incident, or are applicable to other processes or equipment at the stationary source. The incident investigation report shall be made available to the Department upon request.

(E) The stationary source shall establish a system to promptly address and resolve the incident report findings and recommendations. As part of this system, inherently safer systems shall be identified and analyzed as required by subsection (i). Resolutions and corrective actions shall be documented.

(F) The report shall be reviewed with all affected personnel whose job tasks are relevant to the incident findings including contract employees where applicable.

(G) Incident investigation reports shall be retained for five years.

(10) Hot Work.

(A) The stationary source shall issue a hot work permit for hot work operations conducted on or near a covered process.

(B) The permit shall document that the fire prevention and protection requirements in Section 5189 of Title 8 of California Code Regulations have been implemented prior to beginning the hot work operations; it shall indicate the date(s) authorized for hot work; and identify the object on which hot work is to be performed. The permit shall be kept on file until completion of the hot work operations.

(11) Contractors.

(A) Application. This section applies to contractors performing maintenance or repair, turnaround, major renovation, or specialty work on or adjacent to a covered process. It does not apply to contractors providing incidental services which do not influence process safety, such as janitorial work, food and drink services, laundry, delivery or other supply services.

(B) Stationary Source Responsibilities.

(i) The stationary source, when selecting a contractor, shall obtain and evaluate information regarding the contract owner or operator's safety performance and programs.

(ii) The stationary source shall inform contract owner or operator of the known potential fire, explosion, or toxic release hazards related to the contractor's work and the process.

(iii) The stationary source shall explain to the contract owner or operator the applicable provisions of the emergency response program subsection (a)(12).

(iv) The stationary source shall develop and implement safe work practices consistent with subsection (a)(2) to control the entrance, presence, and exit of the contract owner or operator and contract employees in covered process areas.

(v) The stationary source shall periodically evaluate the performance of the contract owner or operator in fulfilling their obligations as specified in subsection (a)(l l)(C).

(C) Contract Owner or Operator Responsibilities.

(i) The contract owner or operator shall assure that each contract employee is trained in the work practices necessary to safely perform his/her job.

(ii) The contract owner or operator shall assure that each contract employee is instructed in the known potential fire, explosion, or toxic release hazards related to his/her job and the process, and the applicable provisions of the emergency action plan.

(iii) The contract owner or operator shall document that each contract employee has received and understood the training required by this section. The contract owner or operator shall prepare a record which contains the identity of the contract employee, the date of training, and the means used to verify that the employee understood the training.

(iv) The contract owner or operator shall assure that each contract employee follows the safety rules of the stationary source including the safe work practices required by subsection (a)(2).

(v) The contract owner or operator shall advise the stationary source of any unique hazards presented by the contract owner or operator's work, or of any hazards found by the contract owner or operator's work.

(12) Emergency Response Program.

(A) The stationary source shall develop and implement an emergency response program for the purpose of protecting public health and the environment. Such program shall include the following elements:

(i) An emergency response plan, which shall be maintained at the stationary source and contain at least the following elements: procedures for informing the public and local emergency response agencies about accidental releases, emergency planning, and emergency response; documentation of proper first aid and emergency medical treatment necessary to treat accidental human exposures; and procedures and measures for emergency response after an accidental release of a regulated substance;

(ii) Procedures for the use of emergency response equipment and for its inspection, testing, and maintenance, including documentation of inspection, testing, and maintenance;

(iii) Training for all employees in relevant procedures and the incident command system;

(iv) Procedures to review and update, as appropriate, the emergency response plan to reflect changes at the stationary source and ensure that employees are informed of changes.

(B) A written plan that complies with other federal contingency plan regulations or is consistent with the approach in the national response team's integrated contingency plan guidance ('One Plan") and that, among other matters, includes the elements provided in subsection (a)(12)(A), shall satisfy the requirements of this section if the stationary source also complies with subsection (a)(12)(C).

(C) The emergency response plan developed under this section shall be coordinated with the community emergency response plan developed under 42 U.S.C. Section 11003. Upon request of the local emergency planning committee or emergency response officials, the stationary source shall promptly provide to the local emergency response officials information necessary for developing and implementing the community emergency response plan.

(D) The stationary source whose employees will not respond to accidental releases of regulated substances need not comply with subsections (a)(12)(A) through (a)(l2)(C) provided that they meet the following:

(i) For stationary sources with any regulated toxic substance held in a process above the threshold quantity, the stationary source is included in the community emergency response plan developed under Section 11003 of Title 42 of the United States Code (U.S.C.); or

(ii) For stationary sources with only regulated flammable substances held in a process above the threshold quantity the stationary source has coordinated response actions with the local fire department; and

(iii) Appropriate mechanisms are in place to notify emergency responders when there is a need for a response.

(13) Safety Program Management.

(A) The owner or operator of a stationary source subject to this chapter shall develop a management system to oversee the implementation of the safety program elements.

(B) The owner or operator shall assign a qualified person or position that has the overall responsibility for the development, implementation, and integration of the safety program elements.

(C) When responsibility for implementing individual requirements of this chapter is assigned

to persons other than the person identified under subsection (a)(13)(B), the names or positions of these people shall be documented and the lines of authority defined through an organization chart or similar document.

(D) Process Safety Performance Indicators.

(i) No later than September 30, 2014, the Department shall develop a list of stationary source activities and other events to be measured by each stationary source in order to evaluate the performance of process safety systems. This list is the "event list." Each stationary source shall measure these activities and other events and document the measurements. These documented measurements are "common process safety performance indicators." No later than September 30 of each year after 2014, each stationary source will report to the Department the common process safety performance indicators recorded by the stationary source in the prior calendar year. The Department will include these common process safety performance indicators in the annual performance review and evaluation report required by Section 450-8.030.

(ii) The Department shall review the event list at least once every three years to determine if it should be revised. If the Department determines that a new activity or other event will be added to the event list, stationary sources shall report to the Department the new common process safety performance indicator(s) by September 30 of year following the revision of the event list.

(iii) No later than September 30, 2014, each stationary source shall develop a list of site-specific activities and other events that it will measure in order to evaluate the performance of its process safety systems. Each stationary source shall document these site-specific process safety performance indicators and make this documentation available to the Department during an audit or inspection and upon request.

(b) Human Factors Program.

(1) Stationary sources shall develop a written human factors program that follows the human factors guidance document developed or adopted by the Department. The program shall be developed within one-year following the issuance of the county guidance documents, the effective date of the ordinance codified in this section, or as otherwise allowed by this chapter, whichever is later. The human factors program shall address:

(A) The inclusion of human factors in the process hazards analysis process;

(B) The consideration of human systems as causal factors in the incident investigation process for major chemical accidents or releases or for an incident that could reasonably have resulted in a major chemical accident or release;

(C) The training of employees in the human factors program;

(D) Operating procedures;

(E) Maintenance safe work practice procedures and maintenance procedures for specialized equipment, piping, and instruments, no later than June 30, 2011, and;

(F) The requirement to conduct a management of change prior to staffing changes for changes in permanent staffing levels/reorganization in operations, maintenance, health and safety, or emergency response. This requirement shall also apply to stationary sources using contractors in permanent positions in operations and maintenance. Prior to conducting the management of change, the stationary source shall ensure that the job function descriptions are current and accurate for the positions under consideration. Staffing changes that last longer than ninety days are considered permanent. Temporary changes associated with strike preparations shall also be subject to this requirement. Employees and their representatives shall be consulted in the management of change.

(2) Employees and their representatives shall participate in the development of the written human factors program.

(3) The program shall include, but not be limited to, issues such as staffing, shiftwork and overtime.

(4) A description of the human factors program subsections (b)(l) through (b)(3) shall be included in the safety plan prepared by the stationary source.

(c) Root Cause Analysis and Incident Investigation.

(l) Stationary sources shall conduct a root cause analysis for each major chemical accident or release which occurs after the effective date of the ordinance codified in this chapter. Stationary sources shall periodically update the Department on facts related to the release or incident, and the status of a root cause analysis conducted pursuant to this section, at meetings scheduled by the Department in cooperation with the stationary source. To the maximum extent feasible, the Department and the stationary source shall coordinate these meetings with other agencies with jurisdiction over the stationary source. Within thirty days of completing a root cause analysis performed pursuant to this section, the stationary source shall submit to the Department a final report containing that analysis, including recommendations to be implemented to mitigate against the release or incident reoccurring, if any, and a schedule for completion of resulting recommendations. The stationary source shall also comply with subsection (i)(l)(E) if applicable. The Department may require the stationary source to submit written, periodic update reports at a frequency not to exceed every thirty days until the final report is submitted. The methodology of the root cause analysis shall be one of the methodologies recognized by the Center for Chemical Process Safety or shall be reviewed by the Department to determine substantial equivalency.

(2) The Department may elect to do its own independent root cause analysis or incident investigation for a major chemical accident or release. If the Department elects to conduct a root cause analysis or incident investigation the stationary source shall cooperate with the Department by providing the following access and information in a manner consistent with the safety of Department and stationary source personnel and without placing undue burdens on the operation of the stationary source:

(a) Allow the Department to investigate the accident site and directly related facilities such as control rooms, physical evidence and where practicable the external and internal inspection of equipment;

(b) Provide the Department with pertinent documentation; and

(c) Allow the Department to conduct independent interviews of stationary source employees, subject to all rights of the stationary source and employees to be represented by legal counsel and/or management and union representatives during such interviews. If in the course of the Department's root cause analysis or incident investigation access is required to areas of the stationary source which in the judgment of the stationary source requires personnel entering the area to use protective equipment and/or have specialized training the Department shall provide its personnel with such equipment and training. To the maximum extent feasible, the Department shall coordinate any root cause analysis or incident investigation it conducts with investigations conducted by other agencies with jurisdiction over the stationary source to minimize the adverse impacts on the stationary source and/or its employees.

(3) No part of the conclusions, findings or recommendations of the root cause analysis conducted by the Department or stationary source, or incident investigation conducted by the Department, relating to any major chemical accident or release or the investigation thereof shall be admitted as evidence or used in any action or suit for damages arising out of any matter mentioned in such report.

(4) If the Department issues a root cause analysis report, the stationary source shall comply with subsection (i)(l)(E) if applicable.

(d) Process Hazard Analysis/Action Items.

(1) Process hazard analyses will be conducted for each of the covered processes according to one of the following methods: What-if, checklist, what-if/checklist, hazard and operability study (HAZOP), failure mode and effects analysis (FMEA), fault tree analysis or an appropriate equivalent methodology approved by the Department prior to conducting the process hazard analysis. The PHA shall be appropriate to the complexity of the covered process and shall identify, evaluate, and control the hazards involved in the covered process. The PHA shall address: the hazards of the process; the identification of any previous incident which had a likely potential for catastrophic consequences; engineering and administrative

control applicable to the hazards and their interrelationships such as appropriate application of detection methodologies to provide early warning of releases (acceptable detection methods might include process monitoring and control instrumentation with alarms, and detection hardware such as hydrocarbon sensors); consequences of failure of engineering and administrative controls; covered process and stationary source siting; human factors; and a qualitative evaluation of a range of the possible safety and health effects of failure of controls. Process hazard analyses should also include consideration of external events except for seismic analyses, which are only required when criteria listed in subsection (d)(2) are satisfied. All process hazard analyses shall be performed by a team with expertise in engineering and process operations, and the team shall include at least one employee who has experience and knowledge specific to the process being evaluated. Also, one member of the team must be knowledgeable in the specific PHA methodology being used.

(2) The process hazard analyses shall be conducted within one-year of the effective date of the ordinance codified in this chapter and no later than the submittal date of the safety plan. Previously completed process hazard analyses that comply with the California Code of Regulations, Title 8, Section 5189, and/or the California Code of Regulations, Title 19, Section 5100.2 are acceptable for the purposes of this chapter. Process hazard analyses shall be updated and revalidated at least once every five years after completion of the initial process hazard analysis. Updated and revalidated process hazard analyses completed to comply with the California Code of Regulations, Title 8, Section 5189, and/or the California Code of Regulations, Title 19, Section 5100 are acceptable for meeting the update and revalidation requirement. Seismic events shall be considered for processes containing a substance defined in the California Code of Regulations, Title 19, Chapter 2, Section 5130.6, if the distance to the nearest public receptor for a worst case release scenario specified by the California Code of Regulations, Title 19, Chapter 2, Section 5080.3 is within the distance to a-toxic or flammable endpoint as defined in California Code of Regulations, Title 19, Chapter 2, Section 5080.2(a).

(3) For all covered processes, the stationary source shall document the decision made to implement or not implement all PHA recommended action items and the results of recommendations for additional study. The stationary source shall complete recommended actions from the initial PHA and from PHA revalidations, identified by the process hazard analysis and selected for implementation by the stationary source as follows: all actions not requiring a process shutdown shall be completed within one-year after the completion of the PHA; all actions requiring a process shutdown shall be completed during the first regularly scheduled turnaround of the applicable process subsequent to one-year after the completion of the PHA unless the stationary source demonstrates to the satisfaction of the Department that such a schedule is infeasible. For recommended actions not selected for implementation, the stationary source shall include the justification for not implementing the recommended action. For all covered processes, the stationary source shall retain documentation of closure,

and any associated justifications, of actions identified by the PHA. The stationary source shall communicate the actions to operating, maintenance, and other employees whose work assignments are in the process and who may be affected by the recommendations or actions.

(e) Accident History.

(1) The stationary source shall include an accident history in the safety plan of all major chemical accidents or releases from June 1, 1992, through the date of safety plan submittal to the Department. For each major chemical accident or release the stationary source shall report the following information, to the extent known:

- Date, time and approximate duration of the release;
- Chemicals released;
- Estimated quantity released in pounds;
- Type of release event and its source;
- Weather conditions at the time of the release;
- On-site impacts;
- Known off-site impacts;
- Initiating event and contributing factors;
- Root cause(s);
- Whether off-site responders were notified, and;
- Operational or process changes that resulted from the investigation of the release.

(2) The stationary source shall annually submit a report of the accident history to the Department. The first report shall be due two years after the effective date of the ordinance codified in this chapter, and subsequent reports shall be due by September 30 of each year.

(f) Certification. The owner or operator shall submit in the safety plan a single certification that, to the best of the signer's knowledge, information, and belief formed after reasonable inquiry, the information submitted is true, accurate, and complete.

(g) Security and Vulnerability Assessment. Each stationary source shall perform and document a security and vulnerability assessment as defined in the Contra Costa County CalARP program guidance document, by June 30, 2007, and at least once every five years after the initial assessment, or as prescribed by federal regulation. The stationary source shall document its process for assuring that recommendations are addressed.

(h) Safety Culture Assessment. The stationary source shall conduct a safety culture assessment. The assessment shall be based upon a method listed in the Contra Costa County ISO Safety Program

guidance document or shall be reviewed by the Department to determine substantial equivalency. The initial assessment shall be performed by one-year following the revisions to the industrial safety ordinance guidance document that addresses the safety culture assessment, and at least once every five years thereafter. The safety culture assessment will be reviewed during the audit and inspection of the stationary source. The Department may perform its own safety culture assessment after a major chemical accident or release or the occurrence of any incident that could reasonably have led to a major chemical accident or release, or based on Department audit results of the stationary source.

(i) Inherently Safer Systems Analysis.

(1) A stationary source shall conduct an inherently safer systems analysis (ISSA) for each covered process as follows:

(A) The stationary source shall conduct an ISSA on existing covered processes every five years.

(B) The stationary source shall conduct an ISSA in the development and analysis of recommended action items identified in a PHA.

(C) Effective September 30, 2014, whenever a major change is proposed at a facility that could reasonably result in a major chemical accident or release, the stationary source shall conduct an ISSA as part of a management of change review required by subsection (a)(6)(B).

(D) If an incident occurs on or after September 30, 2014, an investigation of the incident is conducted pursuant to subsection (a)(9)(A) and the incident investigation report recommends a major change that could reasonably result in a major chemical accident or release, the stationary source shall commence and complete an ISSA of the recommended major change as soon as administratively practicable after completion of the incident investigation report.

(E) If an incident occurs on or after September 30, 2014, a root cause analysis of the incident is conducted as required by subsections (c)(1) or (c)(2), and the root cause analysis report or an associated incident investigation report recommends a major change that could reasonably result in a major chemical accident or release, the stationary source shall commence and complete an ISSA of the recommended major change as soon as administratively practicable after completion of the root cause analysis report.

(F) The stationary source shall conduct an ISSA during the design of new processes, process units and facilities. Immediately upon completion of the ISSA report referred to in subsection (i)(2), the stationary source shall advise the Department of the availability of the ISSA report.

(2) The stationary source shall prepare a written report documenting each ISSA within thirty

days of completion of the ISSA and make the report available to the Department during an audit or inspection and upon request. The ISSA report must contain, at a minimum, the following information:

(A) Identification and a description of the inherently safer system(s) analyzed in the ISSA;

(B) A description of the methodology used to analyze the inherently safer systems(s);

(C) The conclusions of the analysis;

(D) The rationale for the conclusions; and

(E) An action plan, including a timeline to implement the inherently safer system(s) recommended in the ISSA.

(3) The stationary source shall select and implement each inherently safer system identified in an ISSA report to the greatest extent feasible and as soon as administratively practicable. If a stationary source concludes that implementation of an inherently safer system is not feasible, the stationary source shall document the basis for this conclusion in meaningful detail. The documentation shall include sufficient evidence to demonstrate to the Department's satisfaction that implementing the inherently safer system is not feasible and the reasons for this conclusion. A claim that implementation of an inherently safer system is not feasible shall not be based solely on evidence of reduced profits or increased costs.

(j) Safeguard Protection Analysis.

(1) Effective September 30, 2014, a stationary source shall conduct a Layer of Protection Analysis or an alternative type of analysis approved by the Department that uses a quantitative, qualitative or equivalent semi-quantitative method to determine the effectiveness of existing safeguards and safeguards recommended in a PHA to reduce the probability and/or severity of a catastrophic release. The safeguard protection analysis may be a standalone analysis or incorporated within a PHA.

(2) The stationary source shall complete the safeguard protection analysis no later than June 30, 2019. A safeguard protection analysis that was completed by a stationary source within five years prior to June 30, 2019, in accordance with the standards set forth in subsection (j)(l), will be deemed to comply with this requirement. The stationary source shall update and revalidate the safeguard protection analysis at least once every five years.

(3) All safeguard protection analyses shall be performed by a team with expertise in engineering and process operations. The team shall include at least one employee who has experience and knowledge specific to the safeguards and one member who is knowledgeable about the specific safeguard protection analysis method used.

(4) The stationary source shall prepare a written report that documents the safeguard protection analysis in accordance with the standard of practice applicable to the type of analysis

conducted. The stationary source will complete the report within thirty days after the completion of the safeguard protection analysis and make the report available to the Department during an audit or inspection and upon request. (Ord. No.2024-14, § *N;* 2014-07, § V, 6-17-14; Ords. 2006-22 § 5, 2000-20 § 1, 98-48 § 2)

450-8.017 - Tank terminal safety requirements.

The tank terminal shall submit to the Department a safety plan that includes the safety elements listed in subsection (a), within one and a half years after the effective date of the ordinance adding Section 450-8.017 to this chapter, within one and a half years after the Department first issues a safety program guidance document for tank terminals, or within one and a half years after a tank terminal becomes subject to this section, whichever is later. In addition, the tank terminal shall comply with the safety requirements set forth in subsections (a) through (c) and shall include a description of the manner of compliance with the safety program elements in subsection (a) in the safety plan. Any new tank terminal equipment at an existing tank terminal shall comply with subsections (a) through (c) prior to introduction of an ignitable liquid into that equipment.

(a) Safety Program Elements. All tank terminal activities and tank terminal equipment shall be subject to the safety program elements listed below. The safety plan shall include a description of the manner in which these safety program elements listed shall be applied to the tank terminal. These safety program elements shall be implemented in conformance with the Department's safety program guidance document for tank terminals.

(1) Safety Information.

(A) The tank terminal shall complete a compilation of written safety information before conducting any hazard review as required by this chapter. The compilation of written safety information enables the tank terminal and the employees involved in tank terminal activities to identify and understand the hazards posed by these activities. This safety information shall include information pertaining to the hazards of the tank terminal activities and information pertaining to the hazards of the ignitable liquids contained in tank terminal equipment.

(i) The safety information required under subsection (a)(l)(A) shall consist of at least the following: Toxicity information; permissible exposure limits; physical data; reactivity data; corrosivity data; thermal and chemical stability data; and hazardous effects of inadvertent mixing of different materials that could foreseeably occur. Safety data sheets meeting the requirements of Section 5194, Title 8 of California Code of Regulations may be used to comply with this requirement to the extent they contain the information required by this subsection.

(ii) Information pertaining to the tank terminal activities shall include at least the following: A block flow diagram or simplified process flow diagram; maximum intended inventory; safe upper and lower limits. for such items as temperatures, pressures, flows, levels or

compositions; and an evaluation of the consequences of deviations. Where the original technical information no longer exists, such information may be developed in conjunction with the hazard review in sufficient detail to support the analysis.

(iii) Information pertaining to the tank terminal equipment shall include materials of construction; P&ID's; electrical classification; relief system design and design basis; design codes and standards employed; and safety systems (e.g., interlocks, detection or suppression systems).

(B) The tank terminal shall document that tank terminal equipment complies with recognized and generally accepted good engineering practices.

(C) For existing tank terminal equipment designed and constructed in accordance with codes, standards, or practices that is no longer in general use, the tank terminal shall determine and document that the equipment is designed, maintained, inspected, tested, and operating in a safe manner.

(2) Operating Procedures.

(A) The tank terminal shall develop and implement written operating procedures that provide clear instructions for safely conducting tank terminal activities consistent with the safety information and shall address at least the following elements:

(i) Steps for each operating phase: Initial startup; normal operations; temporary operations; emergency shutdown, including the conditions under which emergency shutdown is required, and the assignment of shutdown responsibility to qualified operators to ensure that emergency shutdown is executed in a safe and timely manner; emergency operations; normal shutdown; and startup following a maintenance outage or after an emergency shutdown.

(ii) Operating limits: Consequences of deviation; and steps required to correct or avoid deviation.

(B) Safety and Health Considerations. Properties of, and hazards presented by, the ignitable liquids contained in tank terminal equipment; precautions necessary to prevent exposure, including engineering controls, administrative controls, and personal protective equipment; control measures to be taken if physical contact or airborne exposure occurs; quality control for raw materials and control of hazardous inventory levels; and, any special or unique hazard.

(C) Operating procedures shall be readily accessible to employees who operate or maintain tank terminal equipment.

(D) Operating procedures shall be reviewed and revised as often as necessary to assure that they reflect current operating practice, including changes that result from changes in ignitable

liquids, tank terminal activities or tank terminal equipment, or changes to the tank terminal. The tank terminal shall certify annually that these operating procedures are current and accurate.

(E) The tank terminal shall develop and implement safe work practices to provide for the control of hazards during operations such as hot work; lockout/tagout; confined space entry; opening tank terminal equipment; an control over access to a tank terminal by maintenance, contractor, laboratory, or other support personnel. These safe work practices shall apply to employees and contractor employees.

(F) Training on Operating Procedures. The tank terminal shall provide initial and refresher training to each employee involved in implementing the written operating procedures for safely conducting tank terminal activities. Initial training shall be provided to each employee before being involved in newly assigned tank terminal activities. Refresher training shall be provided at least every three years to each employee involved in tank terminal activities to assure that the employee understands and adheres to the current operating procedures. All training shall be documented.

(3) Mechanical Integrity, Including the use of industry codes, standards, and guidelines.

(A) Application. Subsections (a)(3)(B) through (a)(3)(F) apply to the following tank terminal equipment: Pressure vessels and storage tanks; piping subsystems (including piping components such as valves); relief and vent systems and devices; emergency shutdown systems; controls (including monitoring devices and sensors, alarms, and interlocks) and pumps.

(B) Written Procedures. The tank terminal shall establish and implement written procedures to maintain the ongoing integrity of tank terminal equipment.

(C) Training for Tank Terminal Equipment Maintenance Activities. The tank terminal shall train each employee involved in maintaining the ongoing integrity of tank terminal equipment in hazards of the tank terminal equipment and of the ignitable liquid contained in the equipment, and in the procedures applicable to the employee's job tasks to assure that the employee can perform the job tasks in a safe manner.

(D) Inspection and Testing. Inspections and tests shall be performed on tank terminal equipment. Inspection and testing procedures shall follow recognized and generally accepted good engineering practices. The frequency of inspections and tests of tank terminal equipment shall be consistent with applicable manufacturers' recommendations and good engineering practices, and more frequently if determined to be necessary by prior operating experience. The tank terminal shall document each inspection and test that has been performed on tank terminal equipment. The documentation shall identify the date of the inspection or test, the name of the person who performed the inspection or test, the serial number or other identifier

of the equipment on which the inspection or test was performed, a description of the inspection or test performed, and the results of the inspection or test.

(E) Equipment Deficiencies. The tank terminal shall correct deficiencies in equipment that are outside acceptable limits (defined by the safety information in subsection (a)(l)) before further use or in a safe and timely manner when necessary means are taken to assure safe operation.

(F) Quality Assurance. In the construction of new equipment, the tank terminal shall assure that equipment as it is fabricated is suitable for the tank terminal activities for which they will be used. Appropriate checks and inspections shall be performed to assure that equipment is installed properly and consistent with design specifications and the manufacturer's instructions. The tank terminal shall assure that maintenance materials, spare parts and equipment are suitable for the tank terminal activity in which they will be used.

(4) Management of Change, including compliance with applicable building and fire codes then in effect.

(A) The tank terminal shall establish and implement written procedures to manage changes (except for "replacements in kind") to ignitable liquids, tank terminal activities, tank terminal equipment, and procedures.

(B) The procedures shall assure that the following considerations are addressed prior to any change: The technical basis for the proposed change; impact of change on safety and health; modifications to operating procedures; necessary time period for the change; and authorization requirements for the proposed change.

(C) Employees involved in operating a tank terminal and maintenance and contract employees whose job tasks will be affected by a change shall be informed of, and trained in, the change prior to operating the tank terminal equipment.

(D) If a change covered by this section results in a change in the safety information required by subsection (a)(l), such information shall be updated accordingly.

(E) If a change covered by this section results in a change in the operating procedures or practices required by subsection (a)(2), or results in a change in written procedures to maintain the ongoing integrity of tank terminal equipment required by subsection (a)(3), such procedures or practices shall be updated accordingly.

(F) Prior to construction of new tank terminal equipment or a structure, or alteration to the construction or use of existing tank terminal equipment or an existing structure, the tank terminal owner or operator shall consult with the local agency having authority to enforce the California Building Standards Code regarding any required building permits that must be obtained prior to construction or alteration.

(G) If a change covered by this section will result in a change in the type of material stored. in

any field erected tank, the tank terminal owner or operator shall consult with the local agency having land use authority regarding any required land use permits or other approvals that must be obtained prior to the change.

(5) Pre-Startup Reviews.

(A) The tank terminal shall perform a pre-startup safety review for new tank terminal equipment and for modified tank terminal equipment when a modification is significant enough to require a change in the safety information.

(B) The pre-startup safety review shall confirm, separate and in addition to any management of change review, that prior to the introduction of ignitable liquids to tank terminal equipment: Construction and equipment is in accordance with design specifications; safety, operating, maintenance, and emergency procedures are in place and are adequate; modified tank terminal equipment meets the requirements contained in management of change, subsection (a)(4); and training of each employee involved in operating tank terminal equipment has been completed.

(6) Incident Investigation.

(A) The tank terminal shall investigate each incident that resulted in or could reasonably have resulted in a major chemical accident or release (MCAR), uncontrolled ignition of an ignitable liquid, or a threatened release (as defined in Health and Safety Code section 25501(t)) of one or more ignitable liquids.

(B) An incident investigation shall be initiated as promptly as possible, but not later than 48 hours following the incident.

(C) An incident investigation team shall be established and consist of at least one person knowledgeable in the tank terminal activities involved, including a contract employee if the incident involved work of the contractor, and other persons with appropriate knowledge and experience to thoroughly investigate and analyze the incident.

(D) A report shall be prepared at the conclusion of the investigation which includes at a minimum: Date of incident; date investigation began; a description of the incident; the factors that contributed to the incident; and recommendations resulting from the investigation. The written summary shall indicate whether the cause of the incident and/or recommendations resulting from the investigation are specific only to the tank terminal activities or tank terminal equipment involved in the incident or are applicable to other tank terminal activities or tank terminal equipment at the tank terminal. The incident investigation report shall be made available to the Department upon request.

(E) The tank terminal shall establish a system to promptly address and resolve the incident report findings and recommendations. Resolutions and corrective actions shall be documented with completion date(s).

(F) The report shall be reviewed with all affected personnel whose job tasks are relevant to the incident findings, including contract employees where applicable.

(G) Incident investigation reports shall be retained for five years.

(7) Emergency Response.

(A) The tank terminal shall develop and implement an emergency response program for the purpose of protecting public health and the environment. Such program shall include the following elements:

(i) An emergency response plan, which shall be maintained at the tank terminal and contain at least the following elements: Procedures for informing the public and local emergency response agencies about accidental releases, emergency planning, and emergency response; documentation of proper first-aid and emergency medical treatment necessary to treat accidental human exposures; and procedures and measures for emergency response after an accidental release of an ignitable liquid.

(ii) Procedures for the use of emergency response equipment and for its inspection, testing, and maintenance, including documentation of inspection, testing, and maintenance.

(iii) Training for all employees in relevant procedures and the incident command system; and

(iv) Procedures to review and update, as appropriate, the emergency response plan to reflect changes at the tank terminal and ensure that employees are informed of changes.

(B) A written plan that complies with other federal contingency plan regulations or is consistent with the approach in the national response team's integrated contingency plan guidance ("One Plan") and that, among other matters, includes the elements provided in subsection (a)(7)(A), shall satisfy the requirements of this section if the tank terminal also complies with subsection (a)(7)(C).

(C) The emergency response plan developed under this section shall be coordinated with the community emergency response plan developed under 42 U.S.C. Section 11003. Upon request of the local emergency planning committee or emergency response officials, the tank terminal shall promptly provide to the local emergency response officials information necessary for developing and implementing the community emergency response plan.

(D) The tank terminal whose employees will not respond to an accidental release of an ignitable liquid need not comply with subsections (a)(7)(A) through (a)(7)(C) provided that they meet the following:

(i) The tank terminal has coordinated response actions with the local fire department at least once every three years; and

(ii) Appropriate mechanisms are in place to notify emergency responders when there is a need for a response.

(8) Safety Program Management.

(A) The tank terminal shall develop a management system to oversee the implementation of the safety program elements.

(B) The tank terminal shall assign a qualified person or position that has the overall responsibility for the development, implementation, and integration of the safety program elements.

(C) When responsibility for implementing individual safety program elements is assigned to persons other than the person identified under subsection (a)(8)(B), the names or positions of these people shall be documented and the lines of authority defined through an organization chart or similar document.

(D) Safety Performance Indicators.

(i) No later than September 30, 2024, the Department shall develop a list of tank terminal activities and other events to be measured by each tank terminal in order to evaluate the performance of safety systems. This list is the "event list." Each tank terminal shall measure these activities and other events and document the measurements. These documented measurements are "common safety performance indicators." No later than September 30 of each year after the effective date of the ordinance adding Section 450-8.017 to this chapter, each tank terminal will report to the Department the common safety performance indicators recorded by the tank terminal in the prior calendar year. The Department will include these common safety performance indicators in the annual performance review and evaluation report required by Section 450-8.030.

(ii) The Department shall review the event list at least once every three years to determine if the event list should be revised. If the District determines that a new activity or other event will need to be added to the event list, each tank terminal shall report to the District the new common safety performance indicator(s) by September 30 of the next year following the revision of the event list.

(iii) No later than September 30, 2024, each tank terminal shall develop a list of site-specific activities and other events that it will measure in order to evaluate the performance of its safety systems. Each shall document these site-specific safety performance indicators and make this documentation available to the Department during an audit or inspection and upon request.

(b) Hazard Review/Action Items.

(1) A hazard review (HR) will be conducted on each tank terminal activity according to one of the following methods: What-if, checklist, what-if/checklist, HAZOP, failure mode and effects analysis (FMEA), fault tree analysis, or an appropriate equivalent methodology approved by the Department prior to conducting the hazard review. The HA shall be appropriate to the complexity of the tank terminal activity and shall identify, evaluate, and control the hazards involved in the tank terminal activity. The HR shall address: The hazards

of the tank terminal activity; the identification of any previous incident which had a likely potential for catastrophic consequences; engineering and administrative control applicable to the hazards and their interrelationships such as appropriate application of detection methodologies to provide early warning of releases (acceptable detection methods might include monitoring and control instrumentation with alarms, and detection hardware such as hydrocarbon sensors); consequences of failure of engineering and administrative controls; tank terminal equipment and tank terminal siting; human factors; and a qualitative evaluation of a range of the possible safety and health effects of failure of controls. Hazard reviews should also include consideration of external events. All hazard reviews shall be performed by a team with expertise in engineering and tank terminal activities, and the team shall include at least one operating employee who has experience and knowledge specific to the activity being evaluated. Also, one member of the team must be knowledgeable in the specific HR methodology being used.

(2) The hazard review shall be conducted within one year of the effective date of the ordinance adding Section 450-8.017 to this chapter and no later than the submittal date of the safety plan. Hazard reviews shall be updated and revalidated at least once every five years after completion of the initial hazard review. As part of the HR, a tank terminal shall complete a seismic assessment in accordance with good engineering practices as set forth in American Petroleum Institute Standard 650, 13th edition, and a security and vulnerability assessment (SVA) within one year after the effective date of the ordinance adding Section 450-8.017 to this chapter or within one year after the Department first issues a safety program guidance document for tank terminals, whichever is later, and at least once every five years after the initial assessment. A tank terminal that demonstrates its compliance with Department of Homeland Security or U.S. Coast Guard SVA requirements to the Department is exempt from the requirement to complete an SVA under this subsection. The tank terminal shall document its process for assuring that recommended action items in the HR are addressed.

(3) For all tank terminal activities, the tank terminal shall document the decision made to implement or not implement all HR recommended action items and the results of recommendations for additional study. The tank terminal shall complete recommended actions from the initial HR and from HR revalidations, identified by the hazard review and selected for implementation by the tank terminal within one year after the completion of the HR unless the tank terminal demonstrates to the satisfaction of the Department that such a schedule is infeasible and obtains a written extension from the Department, in which case the tank terminal shall complete the recommended actions in accordance with the extension. For recommended actions not selected for implementation, the tank terminal shall include the justification for not implementing the recommended action. For all tank terminal activities, the tank terminal shall retain documentation of closure, and any associated justifications, of actions identified by the HR. The tank terminal shall communicate the actions to operating, maintenance, and other employees whose work assignments relate to tank terminal activities

and who may be affected by the recommendations or actions.

(c) Root Cause Analysis and Incident Investigation.

(1) Tank terminals shall conduct a root cause analysis for each major chemical accident or release which occurs after the effective date of the ordinance adding Section 450-8.017 to this chapter. Tank terminals shall periodically update the Department on facts related to the release or incident, and the status of a root cause analysis conducted pursuant to this section, at meetings scheduled by the Department in cooperation with the tank terminal. To the maximum extent feasible, the Department and the tank terminal shall coordinate these meetings with other agencies with jurisdiction over the tank terminal. Within thirty days of completing a root cause analysis performed pursuant to this section, the tank terminal shall submit to the Department a final report containing that analysis, including recommendations to be implemented to mitigate against the release or incident reoccurring, if any, and a schedule for completion of resulting recommendations. The Department may require the tank terminal to submit written, periodic update reports at a frequency not to exceed every thirty days until the final report is submitted. The methodology of the root cause analysis shall be one of the methodologies recognized by the Center for Chemical Process Safety or shall be reviewed by the Department to determine substantial equivalency.

(2) The Department may elect to do its own independent root cause analysis or incident investigation for a major chemical accident or release. If the Department elects to conduct a root cause analysis or incident investigation, the tank terminal shall cooperate with the District by providing the following access and information in a manner consistent with the safety of Department and tank terminal personnel and without placing undue burdens on the operation of the tank terminal:

(A) Allow the Department to investigate the accident site and directly related facilities such as control rooms, physical evidence and where practicable the external and internal inspection of equipment.

(B) Provide the Department with pertinent documentation; and

(C) Allow the Department to conduct independent interviews of tank terminal employees, subject to all rights of the tank terminal and employees to be represented by legal counsel and/or management and union representatives during such interviews. If, in the course of the Department's root cause analysis or incident investigation, access is required to areas of the tank terminal which in the judgment of the tank terminal requires personnel entering the area to use protective equipment and/or have specialized training the Department shall provide its personnel with such equipment and training. To the maximum extent feasible, the Department shall coordinate any root cause analysis or incident investigation it conducts with investigations conducted by other agencies with jurisdiction over the tank

terminal to minimize the adverse impacts on the tank terminal and its employees.

(3) No part of the conclusions, findings or recommendations of the root cause analysis conducted by the Department or tank terminal, or incident investigation conducted by the Department, relating to any major chemical accident or release or the investigation thereof, shall be admitted as evidence or used in any action or suit for damages arising out of any matter mentioned in such report.

(d) Accident History.

(1) The tank terminal shall include an accident history in the safety plan of all major chemical accidents or releases from January 1, 2018, through the date of safety plan submittal to the Department. For each major chemical accident or release the tank terminal shall report the following information, to the extent known:

- Date, time and approximate duration of the release;
- Chemicals released;
- Estimated quantity released in pounds; Type of release event and its source;
- Weather conditions at the time of the release; On-site impacts;
- Known off-site impacts;
- Initiating event and contributing factors;
- Root cause(s);
- Whether off-site responders were notified; and
- Operational or tank terminal equipment changes that resulted from the investigation of the release.

(2) The tank terminal shall annually submit a report of the accident history to the Department. The first report shall be due two years after the effective date of the ordinance adding Section 450-8.017 to this chapter, and subsequent reports shall be due September 30 of each year.

(e) Certification. The tank terminal shall submit in the safety plan a single certification that, to the best of the signer's knowledge, information, and belief formed after reasonable inquiry, the information submitted is true, accurate, and complete. (Ord. 2026-11, 2024-14, § IV)

450-8.18 - Review, audit and inspection.

a) Upon submission of a safety plan under Section 450-8.016 or Section 450-8.017, the Department shall review the safety plan to determine if all the required elements are included and complete. The Department shall provide to the stationary source a written notice of deficiencies, if any. The stationary source shall have sixty calendar days from receipt of the

notice of deficiencies to make any corrections. The stationary source may request, in writing, a one-time thirty-day calendar day extension to correct deficiencies. By the end of the sixty calendar days or any extension period, the stationary source shall resubmit the revised safety plan to the Department. After the Department determines that the safety plan is complete, the Department shall schedule a public meeting on the stationary source's safety plan to explain its contents to the public and take public comments. Public comments on the safety plan shall be taken by the Department for a period of forty-five days after the safety plan is made available to the public. The Department shall schedule a public meeting on the stationary source's safety plan during the forty-five-day comment period. The public meetings shall be held in the affected community on evenings or weekends. The Department shall respond in writing to all written comments received during the forty-five-day comment period and to all oral comments received and not addressed at the public meeting. The Department shall make portions of the safety plan, which are not protected trade secret information, available to the public for the public meeting.

(b)

(1) The Department shall, within one year of the submission of the stationary source's safety plan, conduct an initial audit and inspection of the stationary source's safety program to determine compliance with this chapter. Based upon the Department's review of the safety plan and the audit and inspection of the stationary source, the Department may require modifications or additions to the safety plan submitted by the stationary source, or safety program to bring the safety plan or safety program into compliance with the requirements of this chapter. Any determination that modifications or additions to the safety plan or safety program are required shall be in writing, collectively referred to as the "preliminary determination." The preliminary determination shall explain the basis for the modifications or additions required to bring the safety plan or safety program into compliance with the requirements of this chapter and provide a timetable for resolution of the recommendations. The preliminary determination shall be provided to the stationary source.

(2) The stationary source shall respond in writing to the preliminary determination issued by the Department. The response shall state that the stationary source will incorporate into the safety plan or safety program the revisions contained in the preliminary determination or shall state that the stationary source rejects the revisions; in whole or in part. For each rejected revision, the stationary source shall explain the basis for rejecting such revision. Such explanation may include substitute revisions.

(3) The stationary source's written response to the Department's preliminary determination shall be received by the Department within ninety days of the issuance of the preliminary determination or such shorter time as the Department specifies in the preliminary determination as being necessary to protect public health and safety. Prior to the written response being due and upon written request from the stationary source, the Department may provide, in writing,

additional time for the response to be received.

(4) After receiving the written response from the stationary source, the Department shall issue a public notice pursuant to the Department's public participation policy and make portions of the safety plan, the preliminary determination and the stationary source's responses, which are not protected trade secret information, available for public review. Public comments on the safety plan shall be taken by the Department for a period of forty-five days after the safety plan, the preliminary determination and the stationary source's responses are made available to the public. The Department shall schedule a public meeting on the stationary source's safety plan during the forty-five-day comment period. The public meetings shall be held in the affected community on evenings or weekends. The Department shall respond in writing to all written comments received during the forty-five-day comment period and to all oral comments received and not addressed at the public meeting.

(c) Based upon the Department's preliminary determination review of the stationary source's responses and review of public comments on the safety plan, the preliminary. determination and the stationary source's responses, the Department may require modifications or additions to the safety plan submitted by the stationary source or safety program to bring the safety plan or safety program into compliance with the requirements of this chapter. Any determination that modifications or additions to the safety plan or safety program are required, and any determination that no modifications or additions to the safety plan or safety program are required shall be in writing (collectively referred to as "final determination"), shall be provided to the stationary source and shall be made available to the public. A copy of the final determination report will be sent to Cal/OSHA, EPA and the local fire Department that has oversight of the stationary source. The Department may not include in a final determination any requirements to a safety plan or safety program that would cause a violation of, or conflict with, any state or federal law or regulation or a violation of any permit or order issued by any state or federal agency.

(d) Within thirty days of the Department's final determination, the stationary source and/or any person may appeal the final determination to the board of supervisors pursuant to Chapter 14-4 by a verified written notice of appeal filed with the clerk of the board of supervisors and payment of the applicable appeal fee. The appeal must be limited to issues raised during the public comment period. The notice shall state the grounds for any such appeal, including (i) the reasoning that the appeal is necessary because the stationary source is in compliance with this chapter, or (ii) the reasoning that the appeal is necessary to bring the stationary source into compliance with this chapter. In acting on the appeal, the board shall have the same authority over the final determination as the Department. The board may require modifications or additions to the safety plan or safety program to bring the safety plan or safety program into compliance with the requirements of this chapter. The board may not include in its decision on the final determination any requirements to a safety plan or safety program that would cause a violation of, or conflict with, any state or federal law or regulation or a

violation of any permit or order issued by any state or federal agency. The decision of the board of supervisors shall be final with respect to the final determination.

(e) The safety plan shall be valid for a period of three years from the date of receipt by the Department and shall be reviewed and updated by the stationary source every three years pursuant to the requirements of this chapter. Any revisions to the safety plan because of the review and update shall be submitted to the Department and shall be subject to the provisions of this section.

(f) The Department may, within thirty days of a major chemical accident or release, initiate a safety inspection to review and audit the stationary source's compliance with the provisions of Section 450-8.016 or Section 450-8.017, whichever is applicable. The Department shall review and audit the stationary source's compliance with the above provisions at least once every three years. The Department may audit the stationary source based upon any of the following criteria: accident history of the stationary source, accident history of other stationary sources in the same industry, quantity of regulated substances present at the stationary source, location of the stationary source and its proximity to the public and environmental receptors, the presence of specific regulated substances, the hazards identified in the safety plan, a plan for providing neutral and random oversight, or a complaint from the stationary source's employee(s) or their representative. The stationary source shall allow the Department to conduct these inspections and audits. The Department, at its option, may select an outside consultant to assist in conducting such inspection.

(g) Within thirty days of a major chemical accident or release the Department may commence an incident safety inspection with respect to the process involved in the incident pursuant to the provisions of Section 450-8.016(c) or Section 450-8.017(c).

(h)

(i) Based upon the Department's audit, safety inspection or an incident inspection, the Department may require modifications or additions to the safety plan submitted by the stationary source or safety program to bring the safety plan or safety program into compliance with the requirements of this chapter. Any determination by the Department shall be in writing and shall be provided to the stationary source (referred to as the "notice of findings"). The stationary source shall have sixty calendar days from receipt of the notice of findings to make any corrections. The stationary source may request, in writing, a one-time thirty-day calendar day extension to make corrections. The Department may not include in its notice of findings requirements to a safety plan or safety program that would cause a violation of, or conflict with, any state or federal law or regulation or a violation of any permit or order issued by any state or federal agency. The notice of findings made by the Department will be available to the public.

(j) Within thirty days of the Department's notice of findings, the stationary source and/or any person may appeal the notice of findings to the board of supervisors pursuant to Chapter 14- 4 by a verified written notice of appeal filed with the clerk of the board of supervisors and payment of

the applicable appeal fee. The appeal must state the grounds for any such appeal, including (i) the reasoning that the appeal is necessary because the stationary source is in compliance with this chapter, or (ii) the reasoning that the appeal is necessary to bring the stationary source into compliance with this chapter. In acting on the appeal, the board shall have the same authority over the notice of findings as the Department. The board may require modifications or additions to the safety plan or safety program to bring the safety plan or safety program into compliance with the requirements of this chapter. The board may not include in its decision on the notice of findings any requirements to a safety plan or safety program that would cause a violation of, or conflict with, any state or federal law or regulation or a violation of any permit or order issued by any state or federal agency. The decision of the board of supervisors shall be final with respect to the notice of findings.

(k) Nothing in this section shall preclude, limit, or interfere in any way with the authority of the county to exercise its enforcement, investigatory, and information gathering authorities under any other provision of law nor shall anything in the chapter effect or diminish the rights of the stationary source to claim legal privileges such as attorney client privilege and/or work product with respect to information and/or documents required to be submitted to or reviewed by the Department. (Ords. 2024-14, § IV; Ord. 2014-07, § VI, 6-17-14; Ord. 2006-22 § 6; Ord. 98-48 § 2)

450-8.020 - Trade secret.

The disclosure of any trade secret information required by this chapter shall be governed by California Health and Safety Code Section 25538, as amended from time to time, or as otherwise protected or required by law. (Ord. 2024-14, § IV; Ord. 98-48 § 2)

450-8.022 - Hazardous materials ombudsperson.

An ombudsperson shall be provided for the hazardous materials programs. The ombudsperson will serve as a single point of contact for people who live or work in Contra Costa County regarding environmental health concerns, questions, and complaints about hazardous materials programs. The ombudsperson will be empowered to make recommendations to the Department. The ombudsperson's role will be one of investigating concerns and complaints, facilitating their resolution and assisting people in gathering information about programs, procedures, or issues. The ombudsperson may retain appropriate technical experts to fulfill technical assistance requests from members of the public. The cost of experts may be funded through programs established by the U.S. EPA or other appropriate entities. (Ord. 2026-11;2024-14, § IV; Ord. 2000-20 § 2, Ord. 98-48 § 2)

450-8.024 - Public information bank.

The Department shall collect and provide ready access, including the use of electronic accessibility as reasonably available, to public documents which are relevant to the goals of this chapter, including at a minimum, business plan inventories and emergency response plans, risk management plans, safety plans, and Department incident reports. This section shall not apply to trade secret information or other information protected from disclosure under federal or state law. The public information bank shall be completed by December 31, 2000. (Ord. 2024-14, *§* IV, Ord. 98-48 *§* 2)

450-8.026 - Fees.

The Department may, upon a majority vote of the board of supervisors, adopt a schedule of fees to be collected from each stationary source and tank terminal subject to the requirements of this chapter. Any review, inspection, audit fee schedule shall be set in an amount sufficient to pay only those costs reasonably necessary to carry out the requirements of this chapter, including costs of staff and/or consultant time or public hearings and administrative overhead. The fee schedule shall include the cost of the ombudsperson position. (Ord. 2024-14, § IV; Ord. 98-48 § 2)

450-8.028 - Penalties.

Regardless of the availability of other civil or administrative remedies and procedures for enforcing this chapter, every act or condition prohibited or declared unlawful by this chapter, and every knowing or willful failure or omission to act as required herein, is a violation of this code and shall be punishable and/or subject to enforcement pursuant to the provisions of Chapter 14-6 of the County Ordinance Code, specifically including but not limited to Article 14-6.4 (public nuisance abatement); Chapter 14-8 (criminal enforcement), as misdemeanors or infractions; and Chapter 14-12 (administrative penalties). (Ord. 2024-14, § IV; Ord. 98-48 § 2)

450-8.030 - Annual performance review and evaluation.

(a) The Department shall annually:

(1) Review its activities to implement this chapter, and

(2) Evaluate the effectiveness of this chapter in achieving its purpose and goals pursuant to Section 450-8.004.

(b) An annual performance review and evaluation report shall be prepared by the Department based upon the previous fiscal year's activities and shall be submitted to the board of supervisors on or before December 31 of each year. The report shall contain:

(1) A brief description of how the Department is meeting the requirements of this chapter as follows:

(i) Effectiveness of the Department's program to ensure stationary source compliance with this chapter

(ii) effectiveness of the procedures for records management;

(iii) number and type of audits and inspections conducted by the Department pursuant to this chapter;

(iv) number of root cause analyses and/or incident investigations conducted by the Department;

(v) the Department's process for public participation;

(vi) effectiveness of the public information bank, including status of electronic accessibility;

(vii) effectiveness of the hazardous materials ombudsperson;

(viii) other required program elements necessary to implement and manage this chapter.

(2) A listing of all stationary sources covered by this chapter and, commencing on December 31 after the effective date of the ordinance adding Section 450-8.017 to this chapter, all tank terminals covered by this chapter, including for each:

(i) The status of the safety plan and program of each stationary source and tank terminal;

(ii) a summary of all safety plan updates and a listing of where the safety plans are publicly available;

(iii) the annual accident history report submitted under Section 450-8.016(e)(2) or Section 450-8.017(d)(2);

(iv) a summary, including the status, of any root cause analyses conducted or being conducted under this chapter by the stationary source or tank terminal, including the status of implementation of recommendations;

(v) a summary, including the status, of any audits, inspections, root cause analyses and/or incident investigations conducted or being conducted by the Department pursuant to this chapter, including the status of implementation of recommendations;

(vi) description of inherently safer systems implemented by stationary sources; (vii) legal enforcement actions initiated by the Department, including administrative, civil, and criminal actions pursuant to this chapter; and

(vii) process safety performance indicators reported by the stationary source as required under Section 450-8.016(a)(13)(D)(i) or safety performance indicator reported by the tank terminal as required under Section 450-8.017(a)(8)(D)(i).

(3) Total penalties assessed by way of enforcement of this chapter.

(4) Total fees, service charges, and other assessments collected specifically for the support of this chapter.

(5) Total personnel and personnel years utilized by the jurisdiction to directly implement or administer this chapter.

(6) Comments from interested parties regarding the effectiveness of the local program that raise public safety issues.

(7) The impact of the chapter in improving industrial safety.

(c) The Department shall provide a copy of the annual performance audit submission required by Title 19 Chapter 2 Section 5150.5 of the California Code of Regulations to the board of supervisors on or before December 31 of each year. (Ord. 2024-14, § IV, Ord. 2014-07, § VII, 6-17-14; Ord. 2006-22 § 7; Ord. 98-48 § 2)

450-8.032 - Construction.

Notwithstanding any other provision of this code and for the purposes of this chapter wherever it provides that the Department shall act, such direction in all instances shall be deemed and is directory, discretionary and permissive and not mandatory. (Ord. 2024-14, § IV; Ord. 98-48 § 2)

SECTION V. Section 14-8.008 (Infraction arrest and citation) of the Ordinance Code is amended to read:

14-8.0034 - Infraction arrest and citation.

(a) The following officers, or their designated subordinates, shall have and are hereby vested with the authority to arrest any person who violates the following provisions of this Code and other codes as indicated, punishable as infractions:

(1) Director of health services: Division 413, Division 445, Chapters 414-4, 414-6, 416-14, 418-2, 418-6, 418-12, 418-16, 420-2, 420-6, 450-6, 450-8, and Labor Code Section 6404.5;

(2) Director of building inspection: Title 7;.

(3) Director of community development: Title 8;

(4) Director of public works: Divisions 1002, 1010, 1014, 1106 and 1110;

(5) Sheriff: Division 54, Chapter 54-2, and Divisions 410 and 1110.

(b) The above-listed officers, or their designated subordinates, may issue citations for infraction violations of the above-listed code provisions.

(c) The county administrator may by written order issue regulations to provide for administration,

procedures and policy direction for this section.

(Ord No. 2024-14, § V; Ord. No. 2021-19, § III, 6-8-21; Ord. No.2016-24, § V, 12-20-16; Ord. No. 2012-05, § III, 2-28-12; Ords. 2006-66 § 8, 2004-30 § 2, 2003-01 § 5, 2002-48 § 2, 2001-03 § 1, 98-31 § 1, 98-22 § 2, 96-21 § 2, 95-36 § 1, 90-122 § 2, 86-80 § 2; Penal Code§§ 19.7, 836.5, and 853.6; Labor Code§ 6404.5).

SECTION VI. EFFECTIVE DATE. This ordinance becomes effective 30 days after passage and within 15 days after passage shall be published in the East Bay Times, a newspaper published in this County. This ordinance shall be published in a manner satisfying the requirements of Government Code section 25124, with the names of the supervisors voting for and against it.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2770 **Agenda Date:** 6/23/2026 **Agenda #:** C.84.

To: Board of Supervisors

From: Dr. Grant Colfax, Health Services Director

Report Title: Contract #76-714-6 with RPH on the Go USA, LLC

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #76-714-6 with RPH on the Go USA, LLC, a limited liability company, in an amount not to exceed $300,000, to provide pharmacist recruitment services and temporary pharmacists and pharmacy technicians at Contra Costa Regional Medical Center (CCRMC) and Contra Costa Health Centers, to provide coverage during peak loads, temporary absences, vacations, and emergencies, for the period of June 15, 2026 through January 31, 2031.

FISCAL IMPACT:
Approval of this Contract renewal will result in additional expenditures of up to $300,000 over a five-year period as budgeted by the department and funded 100% by Hospital Enterprise Fund I. (No rate increase)

BACKGROUND:
CCRMC and Contra Costa Health Centers have an obligation to provide pharmacy services to patients. To meet the needs of the community, on occasion, the County receives referrals for qualified pharmacists and pharmacy technicians to assist with coverage during temporary staff absences. This Contractor has been providing recruitment services for CCRMC since December 2020.

This Contract is entered into under and subject to the following legal authorities: California Government Code §§ 26227 and 31000. Health Services Personnel approved this Contract to ensure no conflicts with labor relations. Contractor is a member of the Vizient Group Purchasing Organization (GPO) and per Administrative Bulletin 600.3, GPO members are exempt from solicitation requirements.

On February 25, 2025, the Purchasing Agent approved Contract #76-714-5, in an amount not to exceed $100,000 to provide candidates for pharmacist permanent hire and registry services for pharmacy technicians and pharmacists at CCRMC and Contra Costa Health Centers for the period of December 1, 2024 through November 30, 2025.

Approval of Contract #76-714-6 will allow RPH on the Go USA, LLC to continue providing pharmacist recruitment services and candidate referrals in conjunction with providing temporary pharmacists and pharmacy technicians to County through January 31, 2031.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, County will not receive pharmacist recruitment services or temporary pharmacists and pharmacy technicians to provide coverage at CCRMC and Contra Costa Health Centers.

To: Board of Supervisors

From: Dr. Grant Colfax, Health Services Director

Report Title: Rescind Prior Board Action Pertaining to Contracted Services with Agfa Healthcare Corporation

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
RESCIND Board action of October 12, 2021 (C.35), which pertained to a contract with Agfa Healthcare Corporation; and APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #23-704 with Agfa Healthcare Corporatoin, a corporation, in an amount not to exceed $4,282,363, to provide imaging technology services to Contra Costa Health (CCH), for the period June 1, 2023 through May 31, 2028.

FISCAL IMPACT:
Approval of this contract will result in expenditures of up to $4,282,363 over a five-year period and is funded by 100% Hospital Enterprise Fund I.

BACKGROUND:
This Contract meets the needs of the County's patient population by providing a radiology imaging system. CCH Radiology Department provides, reads, interprets, and maintains radiology exams for its patients. To deliver this care, CCH's Radiology Department has been using the Agfa IMPAX radiology imaging system since 2006 and upgraded the system in 2012. The system reached its end of useful life in December 2016 and required replacement. In 2017, and 2018 CCH conducted a search and evaluation of potential replacements for the outdated system. In addition to considering upgrading Agfa's IMPAX radiology imaging system to the latest version, CCH evaluated Fujifilm and Philips, and Picture Archiving and Communications Systems (PACS). Of these solutions, considered top tier, CCH Radiologists chose Agfa's Enterprise Imaging Software system to replace the existing radiology imaging system. Agfa Healthcare Corporation's Enterprise Imaging Software services, including Agfa Patching and Endpoint Managed Services, are used to assist CCH in delivering services such as radiology exams and breast imaging exams. Agfa's Radiology PACS benefits physicians, radiologists, and CCH clinics in the course of patient care. Under this Contract, the Radiology PACS replacement system will be implemented and includes Enterprise Imaging production software, test licenses, third-party software, data migration, and hardware.

Under this new Contract #23-704, contractor will provide radiology imaging technology services for the period June 1, 2023 through May 31, 2028.

The terms of the agreement obligate the County to indemnify AGFA for: (1) claims arising as a result of County's modification of the equipment or software; (2) taxes that are payable by County; and (3) County's use

of the software in a manner not authorized by the agreement. AGFA's liability to County for damages is limited to the amount paid by County in the 12-month period preceding the claim, excluding claims for personal injury, property damage and death.

County may terminate the agreement before its expiration for an uncured breach by AGFA, and in the event County does not appropriate funds for the payment of a computerized radiology imaging system in any fiscal year.

On October 12, 2021 (C.35) the Board of Supervisors approved Contract #23-704 with Agfa Healthcare Corporation's, in an amount not to exceed $4,282,363 for imaging technology services for CCH, for the period October 5, 2021, through October 4, 2026, however, the dates on the staff report misaligned with the final execution of agreement. Per the agreement, the term of this Contract begins on the Effective Date, November 30, 2021, and shall continue for a five (5) year period from the Commencement Date, June 1, 2023, unless earlier terminated per the terms of the agreement.

This Staff Report will rescind the prior Board action and allow the Department to clarify the Contract Effective Date of November 30, 2021, with term beginning June 1, 2023, through May 31, 2028.

CONSEQUENCE OF NEGATIVE ACTION:
If the recommendation is not approved, the prior incorrect Board action will stand and the Contract term will not match the contract terms or reflect the intent of the parties, and the County will be unable to process the remainder of invoices due under the contract.

1025 ESCOBAR STREET
MARTINEZ, CA 94553

CONTRA COSTA COUNTY

Staff Report

File #: 26-2772 **Agenda Date:** 6/23/2026 **Agenda #:** C.86.

To: Board of Supervisors

From: Dr. Grant Colfax, Health Services Director

Report Title: Contract #74-627-8 with Ever Well Health Systems, LLC.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #74-627-8 with Ever Well Health Systems, LLC, a limited liability company, in an amount not to exceed $1,507,450 to provide residential and mental health services for adults diagnosed with Serious Mental Illness (SMI) and Serious and Persistent Mental Illness (SPMI) for the period July 1, 2026 through June 30, 2027.

FISCAL IMPACT:
Approval of this Contract will result in annual expenditures of up to $1,507,450 and will be funded as budgeted by the department in FY 2026-27, by 100% Behavioral Health Services Act (BHSA) funds. Beginning July 1, 2026, the Mental Health Services Act (MHSA) funding fully transitions to the BHSA to reflect full implementation and oversight required under California Proposition 1, approved by voters in March 2024, which modernizes MHSA by renaming it the BHSA and redirecting funding to support building a comprehensive, integrated, and unified behavioral health system statewide.

BACKGROUND:
The County has been contracting with Ever Well Health Systems, LLC since December 2020 to provide residential and mental health services to adults diagnosed with SMI and SPMI. This Contract meets the social needs of County's population by providing residential facilities for adults who require support and are being discharged from state hospitals or psychiatric health facilities and require step-down care to transition to community living.

This Contract is entered into under and subject to the following legal authorities: Welfare and Institutions Code §§ 5600, et seq. (The Bronzan McCorquodale Act); California Code of Regulations ("CCR"), Title 9, §§ 523, et seq. (Community Mental Health Services); California Government Code §§ 26227 and 31000. This Contract was approved by Health Services Personnel to ensure there is no conflict with labor relations. The Behavioral Health's Quality Management, Utilization Management and Contract Monitor Staff meet on a regular basis to ensure monitoring and performance measures in the Contract are upheld. These contracted services were determined to be exempt from Administrative Bulletin 600.3 solicitation requirements by the Public Works Department's Purchasing Division.

On June 24, 2025, the Board of Supervisors approved Contract #74-627-7 with Ever Well Health Systems,

LLC, in an amount to exceed $1,507,450, for the provision of residential and mental health services for adults diagnosed with SMI and SPMI for the period July 1, 2025 through June 30, 2026.

Approval of Contract #74-627-8 will allow the Contractor to continue to provide services through June 30, 2027.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, County clients in need of SMI and SPMI care will not have access to Contractor's services possibly resulting in higher levels of placement, including hospitalization.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2773 **Agenda Date:** 6/23/2026 **Agenda #:** C.87.

To: Board of Supervisors

From: Dr. Grant Colfax, Health Services Director

Report Title: Rescind Prior Board Action Pertaining to Contracted Services with Cotiviti, Inc.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
Board action of April 14, 2026 (C.61), which pertained to a contract amendment with Cotiviti, Inc.; and APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract Amendment #27-791-15 with Cotiviti, Inc., a corporation, effective April 28, 2026, to amend Contract #27-791-14, to increase the payment limit by $2,250,000, from $3,000,000 to a new payment limit of $5,250,000, and to extend the termination date from October 31, 2028 to October 31, 2029 for additional code editing and validation capabilities concerning its hosted software solution for analyzing Healthcare Effectiveness Data and Information Sets (HEDIS) for fraud, waste and abuse for Contra Costa Health Plan (CCHP).

FISCAL IMPACT:
Approval of this Contract Amendment will result in additional contractual service expenditures of up to $2,250,000 and will be budgeted by the department in FY's 2026-29 and will be funded 100% by CCHP Enterprise Fund II revenues.

BACKGROUND:
This Contract Amendment meets the needs of the County by providing proprietary data analysis software for HEDIS projects and reports to support State and contractual requirements for CCHP. Cotiviti, Inc., provides its licensed program, Quality Intelligence, used by CCHP to calculate and analyze HEDIS measures. HEDIS Measures, are a requirement for accreditation certification with the National Committee for Quality Assurance (NCQA) and mandated by the Department of Health Care Services, for which CCHP is assessed. HEDIS scores are used to determine Plan assignment, and therefore impact capitation payments from the state. HEDIS is also utilized for Quality Rate Factor payments in which capitation is not only based on monthly membership numbers but also HEDIS scores in comparison to other Plans. HEDIS is a heavily structured, highly audited process and calculations will not be accepted without the use of NCQA certified software to process the data. Under this Contract, Cotiviti provides the NCQA software to process the data.

On October 21, 2025, the Board of Supervisors approved Contract #27-791-14 with Cotiviti Inc., in an amount not to exceed $3,000,000 for the provision its hosted software utilized by CCHP to analyze healthcare effectiveness and identify fraud, waste and abuse for the period November 1, 2025, through October 31, 2028.

On April 14, 2026, the Board of Supervisors approved Contract Amendment #27-791-15 with Cotiviti Inc., to

increase the payment limit by $2,250,000 to an amount not to exceed $5,250,000 and to extend the termination date through October 31, 2028 to provide additional hosted software to analyze healthcare effectiveness and identify fraud, waste and abuse for the CCHP, however, the Contract termination date on the Staff Report was incorrect.

This Staff Report will rescind the prior Board action and allow the Department to correct the Contract term to be extended through October 31, 2029.

Approval of this Contract Amendment #27-791-15 will allow the Contractor to provide additional hosted software solution and services regarding code editing and validation capabilities concerning its Quality Intelligence Application Service Provider (ASP), a HEDIS-licensed program and data analysis solution which aids in identifying fraud, waste, and abuse schemes affecting CCHP through October 31, 2029.

Under this Contract Amendment, Cotiviti's liability, including its indemnity obligations, is limited to the amount paid by County under the Contract except for bodily injury, death, fraud or criminal acts by Cotiviti, which is not capped, and any claims that an unauthorized party accessed protected health information in the Cotiviti-hosted system, which is capped at $5,000,000. The Contract requires Cotiviti to maintain $5,000,000 in cyber-liability insurance.

CONSEQUENCE OF NEGATIVE ACTION:
If the recommendation is not approved, the prior incorrect Board action will stand, and the Contract term will not match the contract terms of the executed agreement, nor reflect the intent of the parties. The County will not have access to Contractor's data analysis software solution, nor funds to reimburse Providers, per requirements from the Department of Managed Healthcare, and Department of Health Care Services, which will negatively impact CCHP's ability to operate and ultimately patient care.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2774 **Agenda Date:** 6/23/2026 **Agenda #:** C.88.

To: Board of Supervisors

From: Dr. Grant Colfax, Health Services Director

Report Title: Contract #74-767 with Contra Costa Youth Service Bureau

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #74-767 with Contra Costa Youth Service Bureau, a non-profit corporation, in an amount not to exceed $686,457 to provide opioid prevention services through the See Us Dream project to help mitigate the impact of the opioid epidemic for youth and community residents in Contra Costa County, for the period July 1, 2026 through June 30, 2028.

FISCAL IMPACT:
Approval of this Contract will result in annual budgeted expenditures of up to $686,457 over a two-year period and will be funded 100% by Opioid Settlement Funds (OSF).

BACKGROUND:
This Contract helps address the misuse and abuse of opioid products by providing opioid prevention services through education campaigns and community initiatives aimed at reducing stigma regarding seeking help for opioid misuse, preventing opioid misuse and reducing overdose risk. Alcohol & Other Drug Services (AODS) receives funding from California's OSF and part of the State's requirements includes implementing prevention services to promote opioid remediation activities.

This Contract is entered into under and subject to the following legal authorities: California Government Code §§ 26227 and 31000. This Contract was approved by Health Services Personnel to ensure there is no conflict with labor relations. The Behavioral Health's Quality Management, Utilization Management and Contract Monitor Staff meet on a regular basis to ensure monitoring and performance measures in the Contract are upheld. Following a Request for Proposal (RFP), this Contract was awarded to Contra Costa Youth Service Bureau by Public Works Department on June 12, 2025.

Approval of new Contract #74-767 will allow the Contractor to provide the See Us Dream project to help mitigate the impact of the opioid epidemic for youth and community residents in Contra Costa County through June 30, 2028.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, County's AODS clients will not receive opioid use prevention and intervention programs from Contractor, resulting in an overall reduction of services to a community at risk for incarceration.

CHILDREN'S IMPACT STATEMENT:
This prevention and intervention program supports the following Board of Supervisors' community outcomes: "Children Ready For and Succeeding in School"; "Families that are Safe, Stable, and Nurturing"; and "Communities that are Safe and Provide a High Quality of Life for Children and Families". Expected program outcomes include addicted youth being provided an opportunity to prevent or recover from the effects of alcohol or other drug use, become self-sufficient, and return to their families as productive individuals.

To: Board of Supervisors

From: Dr. Grant Colfax, Health Services Director

Report Title: Contract #76-583-7 with Agiliti Health, Inc.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #76-583-7 with Agiliti Health, Inc., a corporation, in an amount not to exceed $967,200, to provide preventative maintenance and repair services on biomedical equipment and systems at Contra Costa Regional Medical Center (CCRMC) and Contra Costa Health Centers for the period of June 1, 2026 through May 31, 2029.

FISCAL IMPACT:
This Contract will result in contractual service expenditures of up to $967,200 over a 3-year period and will be funded 100% by Hospital Enterprise Fund I revenues.

BACKGROUND:
This Contract requires access to proprietary systems unique to Contractor's personnel. As such, the division is unable to use any other Contractor to fulfill these service requirements. Contractor will provide maintenance and repair services on Mesa Temperature Monitoring Systems for the Vaccines for Children Program, GCX End User Devices, Metro Flo Electronic Medical Record Workstations and HUGS Infant Security System, and biomed equipment, such as pumps, monitors, and automated external defibrillators. Contractor has been providing maintenance and repair services for the County since June 2017.

This Contract is entered into under and subject to the following legal authorities: California Government Code §§ 26227 and 31000. This Contractor was selected through the request for quotation (RFQ) process on April 6, 2026. CCRMC's Quality Management, Utilization Management and Contract Monitor Staff meet on a regular basis to ensure monitoring and performance measures in the Contract are upheld. This Contract was approved by Health Services Personnel to ensure there is no conflict with labor relations.

On June 13, 2023, the Board of Supervisors approved Contract #76-583-6 with Agiliti Health, Inc., in an amount not to exceed $998,000, for the provision of preventative maintenance and repair services on biomedical equipment and systems at CCRMC and Contra Costa Health Centers, for the period June 1, 2023 through May 31, 2026.

Approval of Contract #76-583-7 will allow the Contractor to continue to provide preventative maintenance and repair services on biomedical equipment and systems at CCRMC and Contra Costa Health Centers through

May 31, 2029.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, County will not receive maintenance and repair services for complicated biomedical equipment and systems and patients will be negatively affected.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2776 **Agenda Date:** 6/23/2026 **Agenda #:** C.90.

To: Board of Supervisors

From: Dr. Grant Colfax, Health Services Director

Report Title: Contract #74-475-217(1) with Global Family Care Network, Inc. (dba Daughter Project Girls Home)

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #74-475-217(1) with Global Family Care Network, Inc. (dba Daughter Project Girls Home), a non-profit corporation, in an amount not to exceed $734,496, to provide Medi-Cal Specialty Mental Health Services (SMHS) for youth in crisis, for the period from July 1, 2026 through June 30, 2029.

FISCAL IMPACT:
Approval of this Contract will result in budgeted expenditures of up to $734,496 over a three-year period and will be funded by 50% by Federal Medi-Cal and 50% Mental Health Realignment funds.

BACKGROUND:
Behavioral Health Services Division (BHSD)/Mental Health has an obligation to provide certain Medi-Cal SMHS including case management and crisis intervention for its members under the terms of their Individual and Group Health Plan membership contracts with the County. This Contract meets the social needs of County's population by providing community-based mental health services focusing on high-risk youth in crisis which will result in positive social and emotional development at home, in the community and greater school success. This Contractor has been providing these mental health services while fostering a deep understanding of the BHSD organizations mission, values, and long-term objectives since July 1, 2025.

This Contract is entered into under and subject to the following legal authorities: Welfare and Institution Code, §5600 et seq. (The Bronzan-McCorquodale Act); California Code of Regulations ("CCR"), Title 9, § 523 et seq. (Community Mental Health Services) and California Government Code §§ 26227 and 31000. Health Services Personnel approved this Contract to ensure no conflicts with labor relations. Contractor currently cooperates and participates in BHSD's Quality Management Program which consists of quality improvement activities to improve the quality of care, services and member experience. Cooperation includes collection and evaluation of performance measurement data and participation in the organization's clinical and service measure Quality Improvement Programs. Per Administrative Bulletin 600.3 the Department has posted a continuous Request for Qualifications and maintains a current qualified list of vendors at all times.

In October 2024, the Purchasing Services Manager approved and executed Contract #74-475-217 with Global Family Care Network, Inc. (dba Daughter Project Girls Home), in an amount not to exceed $190,000, for the

provision of Medi-Cal SMHS for at-risk youth in crisis for the period July 1, 2025 through June 30, 2026.

Approval of Contract #74-475-217(1) will allow the Contractor to continue to provide Medi-Cal SMHS for at-risk youth in crisis through June 30, 2029.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, there will be fewer Medi-Cal SMHS available for youth in Contra Costa County as the County solicits and engages an alternative contractor.

CHILDREN'S IMPACT STATEMENT:
This program supports the following Board of Supervisors' community outcomes: "Children Ready For and Succeeding in School"; "Families that are Safe, Stable, and Nurturing"; and "Communities that are Safe and Provide a High Quality of Life for Children and Families". Expected program outcomes include an increase in positive social and emotional development as measured by the Child and Adolescent Functional Assessment Scale (CAFAS).

CONTRA COSTA COUNTY

Staff Report

File #: 26-2777 **Agenda Date:** 6/23/2026 **Agenda #:** C.91.

To: Board of Supervisors

From: Dr. Grant Colfax, Health Services Director

Report Title: Purchase Order with Trace3, LLC

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Purchasing Agent, or designee, to execute on behalf of the Health Services Director, a purchase order with Trace3, LLC in an amount not to exceed $1,280,000 for the purchase of Rubrik data protection platform support services for the period from March 1, 2026 through March 1, 2029.

FISCAL IMPACT:
This purchase order will result in expenditures of up to $1,280,000 over a three-year period and will be funded by Hospital Enterprise Fund I revenues.

BACKGROUND:
Rubrik data security and protection platform, secure backup, threat detection, and rapid data recovery across on-premise, cloud, and SaaS environments. As an authorized reseller, Trace3, LLC also provides specialized implementation and optimization services to ensure the Rubrik platform is fully aligned with the County's operational and security needs. Contra Costa Health (CCH) has utilized Rubrik since 2017 to protect critical data from cyberattacks, accidental loss, and ransomware. The platform enables secure backups, monitors for unusual activity, and supports rapid system recovery, reducing downtime, safeguarding patient information, and supporting compliance with healthcare security and privacy regulations.

To ensure continued support and long-term viability of the Rubrik enterprise platform, the County issued Request for Proposals (RFP) to identify the most qualified vendor. Following evaluation, on April 17, 2026 Trace3, LLC was selected and awarded the contract based on their expertise and capability to meet CCH's data protection requirements.

This purchase remains subject to the existing Rubrik End User License and Limited Warranty Agreement dated June 28, 2017, as well as the Rubrik Product Warranty and Support Services Policy dated November 18, 2016, both established between Contra Costa County and Rubrik, Inc.

CONSEQUENCE OF NEGATIVE ACTION:
Failure to implement Rubrik leaves CCH vulnerable to data loss, extended downtime, and costly recovery efforts during a cyberattack or system failure. It increases the risk of compliance violations, potential exposure of sensitive patient information, and disruptions to essential services. Overall, it significantly weakens CCH's ability to quickly recover and protect critical data.

From: Dr. Grant Colfax, Health Services Director

Report Title: Contract #76-620-7 with Christian Eisert, M.D.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #76-620-7 with Christian Eisert, M.D., an individual, in an amount not to exceed $1,562,000, to provide otolaryngology services at Contra Costa Regional Medical Center (CCRMC) and Health Centers for the period June 1, 2026 through May 31, 2029.

FISCAL IMPACT:
This contract will result in contractual service expenditures of up to $1,562,000 over a three-year period and will be funded 100% by Hospital Enterprise Fund I revenues. (Rate increase)

BACKGROUND:
Due to the limited number of specialty providers available within the community, CCRMC and Health Centers rely on contractors to provide necessary specialty health services to their patients. This contractor has been providing otolaryngology specialty services including, but not limited to, on-call coverage, consultation, training, medical and surgical procedures, and administrative support services since October 2018. This contract is entered into under and subject to the following legal authorities: California Government Code §§ 26227 and 31000; and Health and Safety Code § 1451. Health Services Personnel approved this contract to ensure no conflicts with labor relations. CCRMC's Quality Management, Utilization Management and Contract Monitor staff meet on a regular basis to ensure monitoring and performance measures in the contract are upheld. Per Administrative Bulletin 600.3, CCRMC Physician services are exempt from Solicitation requirements.

In March 2026, the County Administrator approved and the Purchasing Services Manager executed Contract #76-620-6 with Christian Eisert, M.D., in an amount not to exceed $195,000 for the provision of otolaryngology services at CCRMC and health centers, for the period February 1, 2026 through May 31, 2026.

Approval of Contract #76-620-7 will allow the Contractor to continue to provide otolaryngology services through May 31, 2029.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, certain specialized otolaryngology services for CCRMC patients will not be provided and/or may be delayed.

From: Dr. Grant Colfax, Health Services Director

Report Title: New and Recredentialing Providers and Organizational Providers in Contra Costa Health Plan's Community Provider Network

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE the list of providers recommended by Contra Costa Health Plan's Peer Review Credentialing Committee and Medical Director and the Health Services Director on May 14 and 27, 2026, as required by the State Departments of Health Care Services and Managed Health Care, and the Centers for Medicare and Medicaid Services.

FISCAL IMPACT:
There is no fiscal impact for this action.

BACKGROUND:
The National Committee on Quality Assurance (NCQA) requires that evidence of Board of Supervisor approval be contained within each Contra Costa Health Plan (CCHP) provider's credentials file. Approval of this list of providers as recommended by the CCHP Medical Director will enable CCHP to comply with this requirement.

CONSEQUENCE OF NEGATIVE ACTION:
If this action is not approved, Contra Costa Health Plan's Providers would not be appropriately credentialed and not be in compliance with the NCQA.

CONTRA COSTA COUNTY

Staff Report

File #: 26-2780 **Agenda Date:** 6/23/2026 **Agenda #:** C.94.

To: Board of Supervisors

From: Dr. Grant Colfax, Health Services Director

Report Title: Contract #74-382-19 with Mental Health Connections

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #74-382-19 with Mental Health Connections, a non-profit corporation, in an amount not to exceed $961,153, to provide Behavioral Health Services Act (BHSA) Prevention and Early Intervention (PEI) services for adults recovering from psychiatric disorders, for the period July 1, 2026 through June 30, 2027.

FISCAL IMPACT:
Approval of this Contract will result in annual expenditures of up to $961,153 and will be funded 100% by BHSA-PEI revenues. Beginning July 1, 2026, the Mental Health Services Act (MHSA) funding fully transitions to the BHSA to reflect full implementation and oversight required under California Proposition 1, approved by voters in March 2024, which modernizes MHSA by renaming it the BHSA and redirecting funding to support building a comprehensive, integrated, and unified behavioral health system statewide.

BACKGROUND:
This Contract meets the social needs of County's population by providing BHSA-PEI services and programming for adults in recovery from psychiatric disorders, helping them to develop the support networks, vocational skills, and self-confidence needed to sustain stable and productive lives, throughout Contra Costa County. Contractor has been providing BHSA-PEI services to the County since July 1, 2009.

This Contract is entered into under and subject to the following legal authorities: California Government Code §§ 26227 and 31000. The Behavioral Health's Quality Management, Utilization Management and Contract Monitor Staff meet on a regular basis to ensure monitoring and performance measures in the Contract are upheld. This Contract was approved by Health Services Personnel to ensure there is no conflict with labor relations. This Contractor was selected under the BHSA 2025/2026 update to the BHSA three-year plan, approved by the Board of Supervisors on June 24, 2025

On July 22, 2025, the Board of Supervisors approved Contract #74-382-18 with Mental Health Connections, in an amount not to exceed $942,307, for the provision of BHSA-PEI services for adults recovering from psychiatric disorders, for the period from July 1, 2025 through June 30, 2026.

Approval of Contract #74-382-19 will allow the Contractor to continue providing BHSA-PEI services through June 30, 2027.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, adults, and families of adults, in recovery from psychiatric disorders will not have access to contractor's BHSA-PEI programs and services in Contra Costa County.

To: Board of Supervisors

From: Dr. Grant Colfax, Health Services Director

Report Title: Grant Amendment #78-049-2 with the California Department of Public Health

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
RESCIND Board action of June 24, 2025 (C.95), which pertained to a Grant Amendment with California Department of Public Health (CDPH); APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Grant Amendment #78-049-2 (State #23-10810 A1) with CDPH, to add new services, increase the amount payable to County by $387,921, from $108,539 to a new amount not to exceed $496,460 and extend the termination through June 30, 2027, for the continuation of the LabAspire Public Health Laboratory Director Fellowship Program.

FISCAL IMPACT:
Approval of this Grant Amendment will result in an additional amount payable to the County of $387,921 from the CDPH. No County match required.

BACKGROUND:
The CDPH's Center for Laboratory Sciences is accepting applications from California Public Health Laboratories for Public Health Laboratory (PHL) workforce training. These PHL training funds are specifically authorized by Assembly Bill 102 (AB 102) Item 4265-001-0001 Provisions 12 and 13, and AB102 Item 4265-111-0001 Provisions 5 and 6. This funding is provided to increase the number of state and local California Public Health Microbiologist (PHM) trainees and to increase enrollment in the LabAspire Program, which trains and prepares qualified professionals to direct California Public Health Laboratories. This Program includes training on regulatory requirements, laboratory budgeting and finance, laboratory administration, safety, quality assurance, technical program solving and networking with public health partners.

On April 22, 2024 the Board of Supervisors approved Grant Agreement #78-049-1 with CDPH, in an amount payable to the County of $108,539 to allow one (1) Senior Public Health Microbiologist to enroll in the LabAspire Fellowship Program to obtain the required supervisor experience and/or advanced degree while providing workforce capacity for the County's Public Health Laboratory through June 30, 2026, including agreeing to indemnify and hold the State harmless for any claims arising out of the County's performance under the Grant Amendment.

On June 24, 2025 (C.95), the Board of Supervisors approved Grant Amendment #78-049-2 with CDPH, to increase the amount payable to County by $190,347 to a new amount not to exceed $298,886 and extend the termination through June 30, 2027 for the continuation of the LabAspire Public Director Fellowship Program.

This Board Order will rescind the prior Board action and allow the Department to correct the amount payable to the County.

CONSEQUENCE OF NEGATIVE ACTION:
If this Board action is not approved, the prior Board approval will stand and will not match the executed Grant Amendment which increases the amount payable to the County by $387,921, which reflects the intent of both parties.

From: Dr. Grant Colfax, Health Services Director

Report Title: Contract #74-475-183(3) with Reach to Win Youth Homes and Family Services Inc.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #74-475-183(3) with Reach to Win Youth Homes and Family Services Inc., a non-profit corporation, in an amount not to exceed $593,106, to provide Medi-Cal Specialty Mental Health Services (SMHS) including Short-Term Residential Therapeutic Program (STRTP) services for female youth ages 12 to 17 in Contra Costa County for the period July 1, 2026 through June 30, 2029.

FISCAL IMPACT:
Approval of this Contract will result in contractual service expenditures of up to $593,106 over a 3-year period and will be funded 100% by Federal Medi-Cal revenues.

BACKGROUND:
This Contract meets the social needs of County's population by providing Medi-Cal SMHS for female youth ages 12 to 17 in Contra Costa County. Contractor's STRTP services include, but are not limited to, 24/7 safety monitoring and staff, intensive specialty mental health treatment services such as medication support, family therapy, individual and group therapy and case management.This Contractor has been providing these mental health services since July 2024.

This Contract is entered into under and subject to the following legal authorities: Welfare and Institution Code, §5600 et seq. (The Bronzan McCorquodale Act); California Code of Regulations ("CCR"), Title 9, § 523 et seq. (Community Mental Health Services) and California Government Code §§ 26227 and 31000. Health Services Personnel approved this Contract to ensure no conflicts with labor relations. Contractor currently cooperates and participates in the Behavioral Health Services Department's Quality Management Program which consists of quality improvement activities to improve the quality of care, services and member experience. Cooperation includes collection and evaluation of performance measurement data and participation in the organization's clinical and service measure Quality Improvement Programs. These services were determined to be exempt from Administrative Bulletin 600.3 solicitation requirements by the Public Works Department's Purchasing Division.

In August, 2025, the Purchasing Services Manager approved and executed Contract #74-475-183(2) with Reach to Win Youth Homes and Family Services Inc., in an amount not to exceed $190,000, for the provision Medi-Cal SMHS including STRTP services for female youth ages 12 to 17 in Contra Costa County, for the period

from July 1, 2025 through June 30, 2026.

Approval of Contract #74-475-183(3) will allow the Contractor to continue to provide services through June 30, 2029.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, youth requiring Medi-Cal SMHS and STRTP services will not have access to Contractor's services, potentially resulting in placement in higher levels of care as County solicits and engages an alternative Contractor.

CHILDREN'S IMPACT STATEMENT:
The recommendation supports the following children's outcome(s): Children Ready for and Succeeding in School; Children and Youth Healthy and Preparing for Productive Adulthood; and Families that are Safe, Stable and Nurturing.

From: Dr. Grant Colfax, Health Services Director

Report Title: Contract #27-456-27 with La Clinica De La Raza, Inc.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #27-456-27 with La Clinica De La Raza, Inc., a non-profit corporation, in an amount not to exceed $9,000,000, to provide primary care physician (PCP) services and other specialty medical services for Contra Costa Health Plan (CCHP) members and County recipients, for the period July 1, 2026 through June 30, 2027.

FISCAL IMPACT:
Approval of this Contract will result in annual expenditures of up to $9,000,000 and will be funded as budgeted 100% by CCHP Enterprise Fund II revenues.

BACKGROUND:
CCHP has an obligation to provide certain PCP services, optometry, and other medical health care services for its members under the terms of their Individual and Group Health Plan membership contracts with the County. This Contractor is a Federally Qualified Health Center (FQHC) facility and has been a part of the CCHP Provider Network providing these PCP and specialty medical services while fostering a deep understanding of the CCHP organization's mission, values, and long-term objectives since December 1999.

This Contract is entered into under and subject to the following legal authorities: California Government Code §§ 26227 and 31000; Health and Safety Code § 1451. Health Services Personnel approved this Contract to ensure no conflicts with labor relations. Contractor currently cooperates and participates in CCHP's Quality Management Program which consists of quality improvement activities to improve the quality of care, services and member experience. Cooperation includes collection and evaluation of performance measurement data and participation in the organization's clinical and service measure Quality Improvement Programs. Per Administrative Bulletin 600.3, CCHP Physician services are exempt from solicitation requirements.

On November 4, 2025, the Board of Supervisors approved Contract #27-456-26 with La Clinica De La Raza, Inc., in an amount not to exceed $5,000,000, for the provision of PCP, optometry, and other medical services for CCHP members and County recipients, for the period of July 1, 2025 through June 30, 2026.

Approval of Contract #27-456-27 will allow the Contractor to continue providing PCP services and other specialty medical services for CCHP members and County recipients through June 30, 2027.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, certain PCP services, and other specialty medical services for CCHP members under the terms of their Individual and Group Health Plan membership contracts with the County will not be provided and such services may be delayed.

Report Title: Cancellation Agreement #76-806-4 and Contract #76-806-5 with Allison Sih, M.D., A Professional Corp.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County, as follows: (1) Cancellation Agreement #76-806-4 with Allison Sih, M.D., A Professional Corp., effective at the end of business on June 30, 2026; and (2) Contract #76-806-5 with Allison Sih, M.D., A Professional Corp., in an amount not to exceed $810,000, to provide urology services at Contra Costa Regional Medical Center (CCRMC) and Contra Costa Health Centers, for the period July 1, 2026 through June 30, 2029.

FISCAL IMPACT:
Approval of this Contract will result in contractual service expenditures of up to $810,000 over a three-year period and will be funded 100% by Hospital Enterprise Fund I revenues.

BACKGROUND:
Due to the limited number of specialty providers available within the community, CCRMC and Contra Costa Health Centers relies on contractors to provide necessary urology specialty health services to its patients. The County has been contracting with Allison Sih, M.D. to provide urology services including, but not limited to: clinic coverage, consultation, on-call coverage, and medical and surgical procedures since December 2022.

This Contract is entered into under and subject to the following legal authorities: California Government Code §§ 26227 and 31000; Health and Safety Code § 1451. Contractor currently cooperates with and participates in CCRMC's Quality Assurance Program which consists of quality improvement activities such as assisting with the completion of CCRMC's annual performance review. Health Services Personnel approved this Contract to ensure no conflicts with labor relations. Per Administrative Bulletin 600.3, CCRMC Physician services are exempt from Solicitation requirements.

On January 13, 2026, the Board of Supervisors approved Contract #76-806-3 with Allison Sih, M.D., a Professional Corp., in an amount not to exceed $810,000 for the provision of urology services at CCRMC and Contra Costa Health Centers, for the period December 1, 2025 through November 30, 2028.

In consideration of the Contractor's agreement to continue providing urology services and the departments need to increase rates to maintain an adequate network for services at CCRMC and Contra Costa Health Centers, the department and Contractor have agreed to: (1) mutual cancellation of the current Contract in accordance with

General Conditions Paragraph 5 (Termination) of the Contract and Cancellation Agreement #76-806-4 will accomplish this cancellation; and (2) establish a new Contract with the correct terms and conditions for the next three years.

Under new Contract #76-806-5, Contractor will provide urology services at CCRMC and Contra Costa Health Centers for the period July 1, 2026 through June 30, 2029.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, the necessary specialty urology services needed for patient care will not be available or will create increased wait times due to the limited number of specialty providers available within the community.

Report Title: Cancellation Agreement #76-703-7 and Contract #76-703-8 with Vladimir Krepostin, D.O.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County, as follows: (1) Cancellation Agreement #76-703-7 with Vladimir Krepostin, D.O., an individual, effective at the end of business on June 30, 2026; and (2) Contract #76-703-8 with Vladimir Krepostin, D.O., an individual, in an amount not to exceed $3,120,000, to provide anesthesiology services at Contra Costa Regional Medical Center (CCRMC) and Contra Costa Health Centers, for the period July 1, 2026 through June 30, 2029.

FISCAL IMPACT:
Approval of this Contract will result in contractual service expenditures of up to $3,120,000 over a three-year period and will be funded 100% by Hospital Enterprise Fund I.

BACKGROUND:
Due to the limited number of specialty providers available within the community, CCRMC and Contra Costa Health Centers relies on Contractors to provide necessary specialty health services to its patients. Contractor's anesthesiology services will include clinic coverage, consultation, training, medical procedures, and on-call coverage. This Contractor has been providing anesthesiology services at CCRMC and Contra Costa Health Centers since September 2020.

This Contract is entered into under and subject to the following legal authorities: California Government Code §§ 26227 and 31000; Health and Safety Code § 1451. Health Services Personnel approved this Contract to ensure no conflicts with labor relations. CCRMC's Quality Management, Utilization Management and Contract Monitor Staff meet on a regular basis to ensure monitoring and performance measures in the Contract are upheld. Per Administrative Bulletin 600.3, CCRMC Physician services are exempt from solicitation requirements.

On June 10, 2025, the Board of Supervisors approved Contract 76-703-6 with Vladimir Krepostin, D.O., in an amount not to exceed $3,030,000, for the provision of anesthesiology services at CCRMC and Contra Costa Health Centers, for the period June 1, 2025 through May 31, 2028.

In consideration of the Contractor's agreement to continue providing anesthesiology services and the departments need to increase rates to maintain an adequate network for services at CCRMC and Contra Costa Health Centers, the department and Contractor have agreed to: (1) mutual cancellation of the current Contract

in accordance with General Conditions Paragraph 5 (Termination) of the Contract and Cancellation Agreement #76-703-7 will accomplish this cancellation; and (2) establish a new Contract with the correct terms and conditions for the next three years.

Under new Contract #76-703-8, Contractor will provide anesthesiology services at CCRMC and Contra Costa Health Centers for the period July 1, 2026 through June 30, 2029.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, the necessary specialty anesthesiology services needed for patient care will not be available or will create increased wait times due to the limited number of specialty providers available within the community.

Report Title: Contract #74-475-185(4) with Jordan House of Umoja

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #74-475-185(4) with Jordan House of Umoja, a non-profit corporation, in an amount not to exceed $1,058,172, to provide school-based Medi-Cal Specialty Mental Health Services (SMHS) for Seriously Emotionally Disturbed (SED) youth in Contra Costa County for the period July 1, 2026 through June 30, 2029.

FISCAL IMPACT:
Approval of this Contract will result in contractual service expenditures of up to $1,058,172 over a three-year period and will be funded 50% by Federal Medi-Cal revenues and 50% by Mental Health Realignment funds.

BACKGROUND:
This Contract meets the social needs of County's population by providing community-based Medi-Cal SMHS to youth with emotional and behavioral problems to improve school performance, reduce unsafe behavioral practices, and reduce the need for out-of-home placements. This Contractor has been providing these services to the County since July 2024.

This Contract is entered into under and subject to the following legal authorities: Welfare and Institution Code, §5600 et seq. (The Bronzan McCorquodale Act); California Code of Regulations ("CCR"), Title 9, § 523 et seq. (Community Mental Health Services) and California Government Code §§ 26227 and 31000. Health Services Personnel approved this Contract to ensure no conflicts with labor relations. Contractor currently cooperates and participates in BHSD's Quality Management Program which consists of quality improvement activities to improve the quality of care, services and member experience. Cooperation includes collection and evaluation of performance measurement data and participation in the organization's clinical and service measure Quality Improvement Programs. Per Administrative Bulletin 600.3, the Department of Public Works has posted a continuous Request for Qualifications and maintains a current qualified list of vendors at all times.

In August 2025, the Purchasing Services Manager approved and executed Contract #74-475-185(1) with Jordan House of Umoja, in an amount not to exceed $190,000 for the provision of Medi-Cal SMHS for SED youth in Contra Costa County for the period July 1, 2025 through June 30, 2026.

In March 2026, the Board of Supervisors approved Contract Amendment #74-475-185(2) with Jordan House of Umoja, effective January 1, 2026 to increase the payment limit by $139,110, to a new payment limit of

$329,110 to provide additional Medi-Cal SMHS for SED youth with no change in the term.

Approval of Contract #74-475-185(4) will allow the Contractor to continue providing Medi-Cal SMHS through June 30, 2029.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, there will be fewer Medi-Cal SMHS available for SED children in Contra Costa County as the County solicits and engages an alternative Contractor.

CHILDREN'S IMPACT STATEMENT:
The recommendation supports the following children's outcome(s): (1) Children Ready for and Succeeding in School; (2) Children and Youth Healthy and Preparing for Productive Adulthood; (3) Families that are Safe, Stable and Nurturing; and (4) Communities that are Safe and Provide a High Quality of Life for Children and Families.

Contractor currently cooperates and participates in BHSD's Quality Management Program which consists of quality improvement activities to improve the quality of care, services and member experience. Cooperation includes collection and evaluation of performance measurement data and participation in the organization's clinical and service measure Quality Improvement Programs. Per Administrative Bulletin 600.3, the Department has posted a continuous Request for Qualifications and maintains a current qualified list of vendors at all times.

On July 22, 2025, the Board of Supervisors approved Contract #74-622-9 with Paradise Adolescent Homes, Inc., in an amount not to exceed $455,906, for the provision of Medi-Cal SMHS for SED youth for the period from July 1, 2025 through June 30, 2026.

On March 31, 2026, the Board of Supervisors approved Contract Amendment #74-622-11 with Paradise Adolescent Homes, Inc., effective February 28, 2026, to increase the payment limit by $201,211 to a new

payment limit not to exceed $657,117, to provide additional Medi-Cal SMHS with no change in the term.

Approval of Contract #74-622-12 will allow the Contractor to continue providing Medi-Cal SMHS through June 30, 2029.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, there will be fewer Medi-Cal SMHS available for SED children in Contra Costa County as the County solicits and engages an alternative Contractor.

CHILDREN'S IMPACT STATEMENT:
The recommendation supports the following children's outcome(s):" and then include whichever of the following apply (1) Children Ready for and Succeeding in School; (2) Children and Youth Healthy and Preparing for Productive Adulthood; (3) Families that are Safe, Stable and Nurturing; and (4) Communities that are Safe and Provide a High Quality of Life for Children and Families.

From: Dr. Grant Colfax, Health Services Director

Report Title: Contract #74-371-20 with Mt. Diablo Unified School District

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #74-371-20 with Mt. Diablo Unified School District (MDUSD), a government agency, in an amount not to exceed $13,305,760, to provide school-based Medi-Cal Specialty Mental Health Services (SMHS) to Seriously Emotionally Disturbed (SED) students and their families for the period July 1, 2026 through June 30, 2029.

FISCAL IMPACT:
Approval of this Contract will result in contractual service expenditures of up to $13,305,760 over three-years and will be funded by 50% Federal Medi-Cal revenues and 50% Mental Health Realignment funds.

BACKGROUND:
Behavioral Health Services Division (BHSD)/Mental Health has an obligation to provide certain school and community based Medi-Cal SMHS including but not limited to: early and periodic screening, diagnostic and treatment (EPSDT), wraparound and outpatient treatment, individual, group and family evaluations and therapy, plan development, rehabilitation support services, medication support services, crisis intervention services and linkage/advocacy services for its members under the terms of their Individual and Group Health Plan membership Contracts with the County. This Contract meets the social needs of County's population by providing community-based mental health services focusing on SED children and their families in the MDUSD which will result in positive social and emotional development at home, in the community and greater school success. This Contractor has been providing these Medi-Cal specialty mental health services while fostering a deep understanding of the BHSD organizations mission, values, and long-term objectives since August 2009.

This Contract is entered into under and subject to the following legal authorities: Welfare and Institution Code, §5600 et seq. (The Bronzan McCorquodale Act); California Code of Regulations ("CCR"), Title 9, § 523 et seq. (Community Mental Health Services) and California Government Code §§ 26227 and 31000. Health Services Personnel approved this Contract to ensure no conflicts with labor relations. Contractor currently cooperates and participates in BHSD's Quality Management Program which consists of quality improvement activities to improve the quality of care, services and member experience. Cooperation includes collection and evaluation of performance measurement data and participation in the organization's clinical and service measure Quality Improvement Programs. These contracted services were determined to be exempt from Administrative Bulletin 600.3 solicitation requirements due to Contractor being a government agency.

On July 22, 2025, the Board of Supervisors approved Contract #74-371-19 with Mt. Diablo Unified School District, in an amount not to exceed $5,144,823, for the provision of school-based Medi-Cal SMHS for SED students and their families in the MDUSD, for the period from July 1, 2025 through June 30, 2026.

Approval of Contract #74-371-20 will allow the Contractor to continue to provide school-based Medi-Cal SMHS for SED students and families through June 30, 2029.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, there will be fewer Medi-Cal SMHS available for SED children in MDUSD and students will have reduced access to treatment services and may require placement at higher level of care, including hospitalization or residential care.

CHILDREN'S IMPACT STATEMENT:
This school-based Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) program supports the following Board of Supervisors' community outcomes: "Children Ready For and Succeeding in School"; "Families that are Safe, Stable, and Nurturing"; and "Communities that are Safe and Provide a High Quality of Life for Children and Families". Expected program outcomes include an increase in positive social and emotional development as measured by the Child and Adolescent Functional Assessment Scale (CAFAS).

Report Title: Contract #74-475-218(1) with MSK Solutions

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #74-475-218(1) with MSK Solutions, a non-profit corporation, in an amount not to exceed $734,496, to provide Medi-Cal Specialty Mental Health Services (SMHS) to Seriously Emotionally Disturbed (SED) youth from Contra Costa County in congregate care facilities for the period July 1, 2026 through June 30, 2029.

FISCAL IMPACT:
Approval of this Contract will result in contractual service expenditures of up to $734,496 over a three-year period and will be funded by 50% Federal Medi-Cal revenues and 50% Mental Health Realignment funds.

BACKGROUND:
This Contract meets the social needs of County's population by providing community-based Medi-Cal SMHS to SED youth in congregate care facilities who meet medical necessity criteria for discharge and who are looking to step down to a lower level of care to prepare them for long-term success transitioning back into the community. This Contractor has been providing these mental health services while fostering a deep understanding of Behavioral Health Service Departments organizations mission, values and long-term objectives since July 2025.

This Contract is entered into under and subject to the following legal authorities: Welfare and Institution Code, §5600 et seq. (The Bronzan McCorquodale Act); California Code of Regulations ("CCR"), Title 9, § 523 et seq. (Community Mental Health Services) and California Government Code §§ 26227 and 31000. Health Services Personnel approved this Contract to ensure no conflicts with labor relations. Contractor currently cooperates and participates in BHSD's Quality Management Program which consists of quality improvement activities to improve the quality of care, services and member experience. Cooperation includes collection and evaluation of performance measurement data and participation in the organization's clinical and service measure Quality Improvement Programs. Per Administrative Bulletin 600.3, the Department of Public Works has posted a continuous Request for Qualifications and maintains a current qualified list of vendors at all times.

In November 2025, the Purchasing Services Manager approved and executed Contract #74-475-218 with MSK Solutions, in an amount not to exceed $190,000 for the provision of Medi-Cal SMHS for SED youth in Contra Costa County for the period July 1, 2025 through June 30, 2026.

Approval of Contract #74-475-218(1) will allow the Contractor to continue providing Medi-Cal SMHS through June 30, 2029.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, there will be fewer Medi-Cal SMHS available for SED youth in Contra Costa County as the County solicits and engages an alternative Contractor.

CHILDREN'S IMPACT STATEMENT:
This Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) program supports the following Board of Supervisors' community outcomes: "Children Ready For and Succeeding in School"; "Families that are Safe, Stable, and Nurturing"; and "Communities that are Safe and Provide a High Quality of Life for Children and Families". Expected program outcomes include an increase in positive social and emotional development as measured by the Child and Adolescent Functional Assessment Scale (CAFAS).

To: Board of Supervisors

From: Dr. Grant Colfax, Health Services Director

Report Title: Contract #26-745-23 with Medical Solutions L.L.C.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #26-745-23 with Medical Solutions L.L.C., a limited liability company, in an amount not to exceed $3,500,000, to provide temporary nursing and medical staffing services at Contra Costa Regional Medical Center (CCRMC), Contra Costa Health Centers, and County Detention Facilities for the period July 1, 2026 through June 30, 2027.

FISCAL IMPACT:
Approval of this Contract will result in annual service expenditures of up to $3,500,000 and will be funded as budgeted by the department 100% by Hospital Enterprise Fund I revenues.

BACKGROUND:
This Contract meets the social needs of County's population by providing temporary medical staffing services for CCRMC, Contra Costa Health Centers, and County's Detention facilities. Contractor is able to provide coverage during peak workloads, temporary absences and emergency situations at CCRMC, Contra Costa Health Centers, and the County's Detention Facilities and has contracted with the County since July 1, 2013 to provide these services. This Contract is entered into under and subject to the following legal authorities: California Government Code §§ 26227 and 31000; and Health and Safety Code § 1451. CCRMC and Contra Costa Health Center's Quality Management, Utilization Management and Contract Monitor Staff meet on a regular basis to ensure monitoring and performance measures in the Contract are upheld. Health Services Personnel approved this Contract to ensure no conflicts with labor relations. These contracted services were determined to be exempt from Administrative Bulletin 600.3, solicitation requirements by the Public Works Department's Purchasing Division.

On June 10, 2025, the Board of Supervisors approved Contract #26-745-22 with Medical Solutions L.L.C., in an amount not to exceed $3,500,000, for the provision of temporary nursing and medical staffing services for CCRMC, Contra Costa Health Centers and County Detention Facilities, for the period July 1, 2025 through June 30, 2026.

Approval of Contract #26-745-23 will allow Contractor to continue to provide temporary nursing and medical staffing services through June 30, 2027. This Contract includes services provided by represented classifications and the County has met its obligations with the respective labor partner(s).

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, patients at CCRMC, Contra Costa Health Centers and County Detention Facilities will not benefit from Contractor's services, which may increase wait time for services.

Report Title: Contract #26-577-25 with All Health Services, Corporation

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #26-577-25 with All Health Services, Corporation, in an amount not to exceed $1,000,000, to provide temporary medical staffing services at the Contra Costa Regional Medical Center (CCRMC), Contra Costa Health Centers and County Detention Facilities for the period from July 1, 2026 through June 30, 2027.

FISCAL IMPACT:
Approval of this Contract will result in budgeted annual expenditures of up to $1,000,000 and will be funded 100% by Hospital Enterprise Fund I revenues.

BACKGROUND:
CCRMC and Contra Costa Health Centers have an obligation to provide medical services to patients. Therefore, the County contracts with temporary help firms to ensure patient care is provided during peak loads, temporary absences, vacations and emergency situations where additional staffing is required. The County has been using the Contractor's temporary staffing services since July 1, 2006. This Contract is entered into under and subject to the following legal authorities: California Government Codes §§ 26227; 31000 and 31000.4. CCRMC and Contra Costa Health Center's Quality Management, Utilization Management and Contract Monitor Staff meet on a regular basis to ensure monitoring and performance measures in the Contract are upheld. Health Services Personnel approved this Contract to ensure no conflicts with labor relations. These contracted services were determined to be exempt from Administrative Bulletin 600.3 solicitation requirements by the Public Works Department's Purchasing Division.

On June 10, 2025, the Board of Supervisors approved Contract #26-577-24 with All Health Services, Corporation in an amount not to exceed $1,000,000, for the provision of temporary medical staffing services at CCRMC, Contra Costa Health Centers, and County Detention Facilities, including specialty registered nurses, nurse practitioners and medical surgery registered nurses for the period from July 1, 2025 through June 30, 2026.

Approval of Contract #26-577-25 will allow Contractor to continue to provide temporary medical staffing services at CCRMC, Contra Costa Health Services and County Detention Facilities through June 30, 2027. This Contract includes services provided by represented classifications and the county has met its obligations with the respective labor partner(s).

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, the Department may not have appropriate levels of clinical/medical staff at CCRMC, Contra Costa Health Centers, and County Detention Facilities to cover during temporary staff absences, vacations and vacancies, which may result in longer wait times for patients to receive services.

Report Title: Contract #26-458-36 with AYA Healthcare, Inc.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #26-458-36 with AYA Healthcare, Inc., a corporation, in an amount not to exceed $3,000,000, to provide temporary nursing staffing services for Contra Costa Regional Medical Center (CCRMC) and Contra Costa Health Centers for the period July 1, 2026 through June 30, 2027.

FISCAL IMPACT:
Approval of this Contract will result in annual expenditures of up to $3,000,000 and will be funded as budgeted by the Department 100% by Hospital Enterprise Fund I revenues.

BACKGROUND:
CCRMC and Contra Costa Health Centers have an obligation to provide medical services to patients. Therefore, the County contracts with temporary help firms to ensure patient care is provided during peak loads, temporary absences, vacations and emergency situations where additional staffing is required. The County has been using Contractor's temporary staffing services since July 1, 2008. This Contract is entered into under and subject to the following legal authorities: California Government Code §§ 26227 and 31000. CCRMC and Contra Costa Health Center's Quality Management, Utilization Management and Contract Monitor Staff meet on a regular basis to ensure monitoring and performance measures in the Contract are upheld. Health Services Personnel approved this Contract to ensure no conflicts with labor relations. These contracted services were determined to be exempt from Administrative Bulletin 600.3 solicitation requirements by the Public Works Department's Purchasing Division.

On June 24, 2025, the Board of Supervisors approved Contract #26-458-35 with AYA Healthcare, Inc., in an amount not to exceed $3,000,000 for the provision of temporary nursing services for CCRMC and Contra Costa Health Centers to cover during temporary absences and shortages of nurses in critical areas for the period July 1, 2025 through June 30, 2026.

Approval of Contract #26-458-36 will allow the Contractor to continue to provide temporary nursing services at CCRMC and Contra Costa Health Centers through June 30, 2027. This Contract includes services provided by represented classifications and the County has met its obligations with the respective labor partner(s).

CONSEQUENCE OF NEGATIVE ACTION:

If this Contract is not approved, patients requiring nursing services at CCRMC and Contra Costa Health Centers will not have access to Contractor's services, which may increase wait time for services.

Report Title: Contract #26-721-11 with Minh Nguyen, M.D.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #26-721-11 with Minh Nguyen, M.D., an individual, in an amount not to exceed $1,260,000, to provide pulmonary services at Contra Costa Regional Medical Center (CCRMC) and Contra Costa Health Centers, for the period June 1, 2026 through May 31, 2029.

FISCAL IMPACT:
Approval of this Contract will result in annual budget expenditures of up to $1,260,000 over a three-year period and will be funded 100% by Hospital Enterprise Fund I revenues.

BACKGROUND:
Due to limited number of specialty providers available within the community, CCRMC and Contra Costa Health Centers rely on Contractors to provide necessary specialty health services to their patients. This Contractor has been providing pulmonary services, including but not limited to: on-call and clinic coverage, consultation, critical care, bronchoscopies procedures, and staffing services in the Critical Care Unit since June 1, 2012.

This Contract is entered into under and subject to the following legal authorities: California Government Code §§ 26227 and 31000; Health and Safety Code § 1451. Health Services Personnel approved this contract to ensure no conflicts with labor relations. Contractor currently cooperates with and participates in CCRMC's Quality Management, Utilization Management and Contract Monitor Staff meet on a regular basis to ensure monitoring and performance measures in the Contract are upheld. Per Administrative Bulletin 600.3, CCRMC Physician services are exempt from solicitation requirements.

On June 27, 2023, the Board of Supervisors approved Contract #26-721-10 with Minh Nguyen, M.D., an individual, in an amount not to exceed $1,840,000, for the provision of pulmonary services at CCRMC and Contra Costa Health Centers, for the period June 1, 2023 through May 31, 2026.

Approval of Contract #26-721-11 will allow the Contractor to continue providing pulmonary services through May 31, 2029.

CONSEQUENCE OF NEGATIVE ACTION:

If this Contract is not approved, the necessary specialty pulmonary services needed for patient care will not be available or will create increased wait times due to the limited number of specialty providers available within the community.

Report Title: Contract Amendment #76-941-1 with Vananh Nguyen MD, Inc.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract Amendment #76-941-1 with Vananh Nguyen MD, Inc., a professional corporation, effective July 1, 2026, to amend Contract #76-941, to increase the payment limit by $450,000, from $450,000 to a new payment limit of $900,000, to provide additional radiology services at Contra Costa Regional Medical Center (CCRMC) and Contra Costa Health Centers, with no change in the term ending December 31, 2028.

FISCAL IMPACT:
Approval of this Contract Amendment will result in additional expenditures of up to $450,000 funded 100% by Hospital Enterprise Fund I. (No rate increase)

BACKGROUND:
Due to the limited number of specialty providers available within the community, CCRMC and Contra Costa Health Centers rely on contractors to provide necessary radiology specialty health services to their patients. Contractor has provided radiology services, including but not limited to: clinic coverage, consultation, training, and medical and/or surgical procedures and on-call coverage at CCRMC and Contra Costa Health Centers since January 2026.

This Contract is entered into under and subject to the following legal authorities: California Government Code §§ 26227 and 31000; and Health and Safety Code § 1451. Health Services Personnel approved this Contract to ensure no conflicts with labor relations. CCRMC's Quality Management, Utilization Management and Contract Monitor Staff meet on a regular basis to ensure monitoring and performance measures in the contract are upheld. Per Administrative Bulletin 600.3, CCRMC Physician services are exempt from Solicitation requirements.

On March 3, 2026, the Board of Supervisors approved Contract #76-941 with Vananh Nguyen MD, Inc., in an amount not to exceed $450,000, for the provision of radiology services for CCRMC and Contra Costa Health Center patients, for the period January 1, 2026 through December 31, 2028.

Approval of Contract Amendment #76-941-1 will allow the Contractor to provide additional radiology services at CCRMC and Contra Costa Health Centers through December 31, 2028.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract Amendment is not approved, the necessary additional specialty radiology services needed for patient care will not be available or will create increased wait times due to the limited number of specialty providers available within the community.

Report Title: Contract #74-286-28 with Crestwood Behavioral Health, Inc.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract #74-286-28 with Crestwood Behavioral Health, Inc., a corporation, in an amount not to exceed $1,495,040 to provide Medi-Cal Specialty Mental Health Services (SMHS) and residential treatment services for eligible Contra Costa County residents with Severe and Persistent Mental Illness (SPMI), for the period from July 1, 2026 through June 30, 2027.

FISCAL IMPACT:
Approval of this Contract will result in contractual service expenditures of up to $1,495,040 and will be funded by 50% Federal Medi-Cal revenues and 50% Mental Health Realignment funds.

BACKGROUND:
The Behavioral Health Services Department has been contracting with Crestwood Behavioral Health, Inc., since January 2007 to provide Medi-Cal SMHS, including transitional residential treatment, rehabilitative services, medication support, and mental health services for SPMI adult clients. This Contract meets the social needs of County's population by providing transitional residential treatment, rehabilitative services, medication support, and mental health services for SPMI adult clients at its Crestwood Healing Center.

This Contract is entered into under and subject to the following legal authorities: Welfare and Institutions Code §§ 5600, et seq. (The Bronzan McCorquodale Act); California Code of Regulations ("CCR"), Title 9, §§ 523, et seq. (Community Mental Health Services); California Government Code §§ 26227 and 31000. The Behavioral Health's Quality Management, Utilization Management and Contract Monitor staff meet on regular basis to ensure monitoring and performance measures in the Contract are upheld. This Contract was approved by Health Services Personnel to ensure there is no conflict with labor relations. Per Administrative Bulletin 600.3, the Department has posted a continuous Request for Qualifications and maintains a current qualified list of vendors at all times.

On July 22, 2025, the Board of Supervisors approved Contract #74-286-27 with Crestwood Behavioral Health, Inc., in an amount not to exceed $1,436,640, for the provision of Medi-Cal SMHS and residential treatment services for SPMI adults for the period from July 1, 2025 through June 30, 2026.

Approval of Contract #74-286-28 will allow the Contractor to continue providing Medi-Cal SMHS and

residential treatment services through June 30, 2027.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract is not approved, the necessary mental health services needed for patient care will not be available or will create increased wait times due to the limited number of specialty providers available within the community.

To: Board of Supervisors

From: Dr. Grant Colfax, Health Services Director

Report Title: Contract Amendment #74-704-2 with Contra Costa Interfaith Transitional Housing, Inc. (dba Hope Solutions)

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County Contract Amendment #74-704-2 with Contra Costa Interfaith Transitional Housing, Inc. (dba Hope Solutions), a non-profit corporation, effective June 30, 2026, to amend Contract #74-704 (as amended by Contract Amendment #74-704-1), to increase the payment limit by $216,000, from $1,000,000 to a new payment limit of $1,216,000, and to extend the termination date from June 30, 2026 to September 30, 2026 to provide additional housing, case management, and property management services for adults and families eligible for Behavioral Health Services Act (BHSA) housing and are referred by the County.

FISCAL IMPACT:
Approval of this Contract Amendment will result in additional expenditures of up to $216,000 funded 100% by BHSA funds. Beginning July 1, 2026, the Mental Health Services Act (MHSA) funding fully transitions to the BHSA to reflect full implementation and oversight required under California Proposition 1, approved by voters in March 2024, which modernizes MHSA by renaming it the BHSA and redirecting funding to support building a comprehensive, integrated, and unified behavioral health system statewide. (No rate increase)

BACKGROUND:
This Contract meets the social needs of the County's population by providing housing options to support adults and families who are eligible for services under BHSA. Contractor will provide up to ten (10) housing units for adults and families who have been assessed and referred for services by the Behavioral Health Services Division (BHSD). Contractor's services also include case management and property management to assist in housing stability plan development, supportive services referrals, housing placement, lease management, rent collection, unit inspections, maintenance support, and landlord relations.

This Contract is entered into under and subject to the following legal authorities: California Government Code § 26227 and 31000. This Contract was approved by Health Services Personnel to ensure there is no conflict with labor relations. The BHSD Contract Monitoring staff meet on a regular basis to ensure monitoring of performance measures set forth in the Contract are upheld. This Contractor has been a longstanding partner in previous projects, fostering a deep understanding of our organization's mission, values, and long-term objectives. This Contractor was approved by the Public Works Department's Purchasing Division on November 6, 2023.

On May 14, 2024, the Board of Supervisors approved Contract #74-704 with Contra Costa Interfaith Transitional Housing, Inc. (dba Hope Solutions), in an amount not to exceed $870,000, to provide housing and case management and property management services for adults and families eligible for BHSA housing and are referred by the County for the period March 15, 2024 through June 30, 2026.

On March 17, 2026, the Board of Supervisors approved Contract Amendment #74-704-1 with Contra Costa Interfaith Transitional Housing, Inc. (dba Hope Solutions), effective March 1, 2026, to increase the payment limit by $130,000, from $870,000 to a new payment limit of $1,000,000 for additional housing, case management and property management services for adults and families eligible for BHSA housing and are referred by the County with no change in the term ending June 30, 2026.

Approval of Contract Amendment #74-704-2 will allow the Contractor to provide additional housing and case management, and property management services through September 30, 2026.

CONSEQUENCE OF NEGATIVE ACTION:
If this Contract Amendment is not approved, County residents and families who are homeless or at risk of becoming homeless will not have access to Contractor's additional housing services.

CHILDREN'S IMPACT STATEMENT:
This program supports the following Board of Supervisors' community outcomes: "Families that are Safe, Stable, and Nurturing"; and "Communities that are Safe and Provide a High Quality of Life for Children and Families". Expected program outcomes include an increase in positive social and emotional development as measured by the Child and Adolescent Functional Assessment Scale (CAFAS).

Report Title: Cancellation Agreement #76-917-1 and Contract #76-917-2 with Jaspreet Kaur Mann, D.O.

☒Recommendation of the County Administrator ☐ Recommendation of Board Committee

RECOMMENDATIONS:
APPROVE and AUTHORIZE the Health Services Director, or designee, to execute on behalf of the County, as follows: (1) Cancellation Agreement #76-917-1 with Jaspreet Kaur Mann, D.O., an individual, effective at the end of business on June 30, 2026; and (2) Contract #76-917-2 with Jaspreet Kaur Mann, D.O., an individual, in an amount not to exceed $870,000, to provide neurology services at Contra Costa Regional Medical Center (CCRMC) and Contra Costa Health Centers, for the period July 1, 2026 through June 30, 2028.

FISCAL IMPACT:
Approval of this Contract will result in contractual service expenditures of up to $870,000 over a two-year period and will be funded 100% by Hospital Enterprise Fund I revenues.

BACKGROUND:
