Discussion was held.

Public comment received.

Members reviewed the work plan and agreed they were on track with their objectives and priorities. They raised a question about a key action step, specifically reviewing survey results to help shape their recommendations. It was noted that CAB Programs & Services will be discussing both the in-custody and provider surveys at their next meeting.

Members expressed concern about not having enough time to review the survey results before submitting recommendations to the Community Corrections Partnership (CCP). They were informed that the CCP budget workshop takes place in November. If the survey results are not ready in time to inform budget recommendations, policy recommendations can still be submitted. Final CCP budget meetings will be held in December.

Members also raised questions regarding service utilization and ensuring data consistency. The Subcommittee expressed interest in continuing to provide input on data metrics.
