Monument Corridor Trail
DTSC Site No. 202031

This Covenant and Agreement ("Covenant") is made by and between Contra Costa County (the "Covenantor"), the current owner of the County of Contra Costa Assessor's Parcel Numbers 127-210-026, 127-253-005, and 127-150-018 (the "Property"), and the Department of Toxic Substances Control (the "Department"). Pursuant to Civil Code section 1471, the Department has determined that this Covenant is reasonably necessary to protect present or future human health or safety or the environment as a result of the presence on the land of hazardous materials as defined in Health and Safety Code section 25260. The Covenantor and the Department hereby agree that, pursuant to Civil Code section 1471 and Health and Safety Code section 79055, the use of the Property be restricted as set forth in this Covenant and that the Covenant shall

conform with the requirements of California Code of Regulations, title 22, section 67391.1.

ARTICLE I
STATEMENT OF FACTS

1.1. Property Location. The Property that is subject to this Covenant, totaling approximately 12.04 acres, is more particularly described in the attached Exhibit A, "Legal Description of the Property", and depicted in Exhibit B, "Plat to Accompany Exhibit A". The Property is located in the area now generally bounded by Monument Boulevard to the south, Mayette Avenue to the north and runs parallel to California State Route (SR) 242. The Property is also identified as County of Contra Costa, Assessor Parcel Numbers 127-210-026, 127-253-005, and a portion of 127-150-018.

1.2. Remediation of Property. The Department approved a Preliminary Endangerment Assessment in accordance with Health and Safety Code, division 45, part 2. The remediation activities conducted at the Property include construction of an asphalt concrete trail, capping certain impacted soil with one foot of clean fill, and fencing certain impacted soils. Hazardous substances, including arsenic at 630 milligrams per kilogram (mg/kg), zinc at 1000 mg/kg, total petroleum hydrocarbons as motor oil at 520 mg/kg, benzo(a)anthracene at 0.96 mg/kg, benzo(a)pyrene at 2.0 mg/kg, benzo(b)fluoranthene at 1.9 mg/kg, dibenzo(a,h)anthracene at 0.47 mg/kg, and indeno(1,2,3-cd)pyrene at 1.5 mg/kg, remain at the Property above levels acceptable for unrestricted land use.

1.3. Basis for Environmental Restrictions. As a result of the presence of hazardous substances, which are also hazardous materials as defined in Health and Safety Code section 25260, at the Property, the Department has concluded that it is reasonably necessary to restrict the use of the Property in order to protect present or future human health or safety or the environment, and that this Covenant is required as part of the Department-approved remedy for the Property. The Department has also concluded that the Property, as remediated and when used in compliance with the Environmental Restrictions of this Covenant, does not present an unacceptable risk to present and future human health or safety or the environment.

GENERAL PROVISIONS

- 3.1. Runs with the Land. This Covenant sets forth Environmental Restrictions that apply to and encumber the Property and every portion thereof no matter how it is improved, held, used, occupied, leased, sold, hypothecated, encumbered, or conveyed. This Covenant: (a) runs with the land pursuant to Civil Code section 1471 and Health and Safety Code section 79055; (b) inures to the benefit of and passes with each and every portion of the Property, (c) is for the benefit of, and is enforceable by the Department, and (d) is imposed upon the entire Property unless expressly stated as applicable only to a specific portion thereof.
- 3.2. Binding upon Owners/Occupants. This Covenant (a) binds all Owners of

the Property, their heirs, successors, and assignees, and (b) the agents, employees, and lessees of the Owners and the Owners' heirs, successors, and assignees. Pursuant to Civil Code section 1471, all successive Owners of the Property are expressly bound hereby for the benefit of the Department, this Covenant, however, is binding on all Owners and Occupants, and their respective successors and assignees, only during their respective periods of ownership or occupancy except that such Owners or Occupants shall continue to be liable for any violations of, or non-compliance with, the Environmental Restrictions of this Covenant or any acts or omissions during their ownership or occupancy.

3.3. Incorporation into Deeds and Leases. This Covenant shall be incorporated by reference in each and every deed and Lease for any portion of the Property.

3.4. Conveyance of Property. The Owner and each new Owner shall provide written Notice to the Department not later than thirty (30) calendar days after any conveyance or receipt of any ownership interest in the Property (excluding Leases, and mortgages, liens, and other non-possessory encumbrances). The written Notice shall include the name and mailing address of the new Owner of the Property and shall reference the site name and site code as listed on page one of this Covenant. The Notice shall also include the Assessor's Parcel Number(s) (APN) noted on page one. If the new Owner's property has been assigned a different APN, each such APN that covers the Property must be provided. The Department shall not, by reason of this Covenant, have authority to approve, disapprove, or otherwise affect proposed conveyance, except as otherwise provided by law or by administrative order.

3.5. Costs of Administering the Covenant to be paid by Owner. The Department has already incurred and will in the future incur costs associated with this Covenant. Therefore, the Covenantor hereby covenants for the Covenantor and for all subsequent Owners that, pursuant to California Code of Regulations, title 22, section 67391.1(h), the Owner agrees to pay the Department's costs in administering, implementing and enforcing this Covenant.

ARTICLE IV

RESTRICTIONS AND REQUIREMENTS

4.1. Prohibited Uses. The Property shall not be used for any of the following purposes without prior written approval by the Department:

- (d) Subdivision of the land, as that term is used in Division 2 (commencing with Section 66410) of Title 7 of the Government Code, unless the Department provides specific approval in writing. This paragraph does not prevent the division of a parcel of land so as to divide that portion of the parcel that contains hazardous materials, as defined in Health and Safety Code section 25260(d), from other portions of that parcel.

4.4. Access for Department. The Department shall have reasonable right of entry and access to the Property for inspection, investigation, remediation, monitoring, and other activities deemed necessary by the Department in order to protect human health or safety, or the environment.

The annual inspection report must include the dates, times, and names of those who conducted the inspection and reviewed the annual inspection report. It also shall describe how the observations that were the basis for the statements and conclusions in the annual inspection report were performed (e.g., drive by, fly over, walk in, etc.). If any violation is noted, the annual inspection report must detail the steps taken to correct the violation and return to compliance. If the Owner identifies any violations of this Covenant during the annual inspections or at any other time, the Owner must within 10 calendar days of identifying the violation: (a) determine the identity of the party in violation, (b) send a letter advising the party of the violation of the Covenant, and (c)

demand that the violation cease immediately. Additionally, a copy of any correspondence related to the violation of this Covenant shall be sent to the Department within 10 calendar days of its original transmission.

In addition to the annual inspection noted above, after a period of five (5) years from the execution of this Covenant and every five (5) years thereafter, Owner shall submit a Five-Year Review report in general accordance with the US EPA Comprehensive Five-Year Review Guidance to the Department documenting its review of the remedy implemented and its evaluation to determine if human health and the environment are being adequately protected by the remedy as implemented. The report shall describe the results of all inspections, sampling analyses, tests and other data generated or received by Owner and evaluate the adequacy of the implemented remedy in protecting human health and the environment. As a result of any review work performed, DTSC may require Owner to perform additional review work or modify the review work previously performed by Owner.

ARTICLE V

ENFORCEMENT

5.1. Enforcement. Failure of the Owner or Occupant to comply with this Covenant shall be grounds for the Department to require modification or removal of any improvements constructed or placed upon any portion of the Property in violation of this Covenant. Violation of this Covenant, such as failure to submit (including submission of any false statement) a record or report to the Department, shall be grounds for the Department to pursue administrative, civil, or criminal actions, as provided by law.
