Additional topics included CAB roles and responsibilities, attendance and communication protocols, presentation and tabling expectations, work plans, meeting schedules, membership, and current recommendations, including the AB 109 Excess Funding Recommendations.

Advisory Board: Community Advisory Board on Public Safety

Subject: AB 109 Excess Funding Updates

Presenter: Gemma Project and Contra Costa County's Employment and Human Services Department (EHSD) and Health, Housing, and Homeless Services (H3) Division

Information:

Received presentations from the Gemma Project and Contra Costa County's Employment and Human Services Department and Health, Housing, and Homeless Services Division on program implementation, expenditures, and the status of the one-time \$15 million AB 109 excess funding recommendations.

Referral History and Update:

In 2024, the Community Advisory Board (CAB) was tasked with developing recommendations for allocating a one-time \$15 million in funding to support community services. Through this process, CAB identified key needs and gaps and developed recommendations focused on four priority areas: housing, behavioral health, employment, and pre- and post-release engagement. Service providers presented initial overviews of their programs, including services, processes, and implementation plans.

As part of its priorities for this year, the CAB continues to review program implementation and expenditures related to the one-time \$15 million in AB 109 excess funding. Various agencies have been invited to provide updates on the services supported through these recommendations.

Recommendation(s)/Next Step(s):

Discuss next steps for monitoring and identify information needed to support ongoing CAB oversight of the AB 109 Excess Funding recommendations.

Success Story

At Brookside, Peter's Case Manager provided advocacy and support to help him connect to needed services. Peter remained engaged and motivated to stabilize his life.

Once connected to Hope Solutions, Case Manager supported Peter in accessing employment services through Rubicon to help him stabilize and find housing.

Peter was successfully housed shortly after being referred through Coordinated Entry to the AB109 Rapid Rehousing Program with Hope Solutions.

Peter expressed deep gratitude for the support and shared how satisfied he was with his housing, and connection to employment services—so he can maintain housing on his own in the future.

Peter's journey highlights the importance of Coordinated Entry, cross-system collaboration, and intentional reentry-focused funding in ensuring justice-impacted individuals can successfully stabilize in the community.

CORE Housing Success

In a group session at Marsh Creek Detention Facility, CORE met an individual who was preparing for release without a housing plan and felt uncertain about entering a shelter or AOD program.

Through open conversation, encouragement, and shared lived experience, CORE shared what treatment could offer. Feeling supported rather than pressured, they agreed to pursue AOD treatment.

CORE quickly worked with the facility's AOD counselor to secure a treatment bed upon release. CORE was there at release and transported them to transition smoothly in the program.

The individual has fully engaged in treatment, completed 30 days, and have moved into a SLE. Today, they are attending meetings, seeking employment, and focusing on long-term stability.
