PREVENTION SCREENING TOOL PILOT UPDATE

NEW HOMELESS PREVENTION TRIAGE TOOL – ROLLOUT UPDATE

Purpose of the Tool:

- To more effectively target **limited homelessness prevention resources** for households most at risk of becoming literally homeless
- Improve **targeting, consistency, and equity** in prevention referrals across the Coordinated Entry (CE) system

Why Now?

- Previous screening approach was based broadly on eligibility, making it difficult to ensure resources reached those at greatest risk
- Designed to align with national best practices (e.g., SSVF) and reflect local data-driven insights
- Aligns with our system goals of **reducing inflow**

Background & Development

- Developed through our **two-year partnership with Community Solutions** as part of the **Housing Stabilization Learning Cohort, network of Homeless Prevention Service Providers, and People with Lived Experience**
- Focused on strengthening upstream prevention and building systemwide triage practices

TOOL DESIGN & KEY RISK FACTORS

The new prevention triage tool assesses a household's risk of entering homelessness by examining **10 key domains** commonly associated with housing instability. These include:

- Imminent risk of housing loss
- Extremely low or no income
- History of homelessness or evictions
- Legal system involvement
- Disabilities and health concerns
- Family composition and caregiving responsibilities
- Risk of subsidy loss or unstable leaseholder status
- Representation in populations disproportionately represented in homelessness response system

IMPLEMENTATION & NEXT STEPS

Pilot Implementation:

- Launching next week with **211 Contra Costa Crisis Center**
- Tool used at first contact with households seeking prevention assistance

Referral Pathway:

- Households indicating higher risk are referred to **CE-connected prevention programs**
- Others receive **referrals to alternative community-based resources**

HMIS Integration & Training:

- Fully embedded in **HMIS**, with auto-scoring and referral guidance
- Assessors trained to ensure consistent and accurate application

Next Steps:

- **Monitor usage** and referral trends
- Conduct **quarterly evaluations in FY25/26** to assess tool impact and equity outcomes
