Contra Costa County  
Hazardous Materials Commission  
597 Center Avenue, Suite 200  
Martinez CA 94553

Attention Fred Gluck, Hazardous Materials Commission Chairperson:

Sustainable Contra Costa is pleased to sponsor Rohan Tyagi for the Contra Costa County Hazardous Materials Commission Environmental Organization Alternate Seat.

Rohan is Vice Chair of Sustainable Contra Costa's Sustainable Leaders in Action (SLIA) program, where he helps lead our team of young interns and SLIA members working on sustainability projects. Some of his accomplishments include: initiating and planning environmental policy workshops within classrooms in Contra Costa; moderated and connected with professionals at Climate Careers Chats; writing for the SLIA newsletter; managed communications and media output for SLIA's social media channels; and planning a sustainable career oriented summer camp for youth.

Sustainable Contra Costa is a community of citizens, educators, innovators, and organizations working together for ecologically sustainable, economically vibrant, and socially just communities for all. Since 2008, SCOCO has grown into one of the broadest reaching nonprofits in Contra Costa, providing tools and resources that enable people to take meaningful actions. We help thousands of people each year learn to live more sustainably and make changes to save water and energy, reduce waste, grow food, and build healthy, resilient communities.

Thank you for your consideration.

Sincerely,

Tina Neuhausel, President & CEO, Sustainable Contra Costa
