Attachment 1

To whom it may concern,

On September 10 2023 at approximately 945 pm I was driving down Byers rd (Byron) approaching the turn on to Bixler Rd heading towards Discovery Bay. Next thing I knew I was up against the ceiling of my car when I landed I tried to make the turn and the car was non responsive due to a broken tie rod, bent control arm and blown tire putting me in to the ditch. The road was very dark and unlighted and this massive pothole extends well into the vary narrow road well past the fog line. I have taken pictures of the pothole, the approach to the pothole, the shabby repair of the road done 1 week after the incident telling me there has been other complaints as well as mine. I also have multiple pictures of others driving this road during the day that shows them driving the fog line not having oncoming traffic and being well beyond the fog line when oncoming traffic is approaching and passing. This is a very dangerous hazard as this is a main thoroughfare for parents and children going to and from Excelsior Middle School.
