**A Resolution Authorizing the Contra Costa County
Flood Control & Water Conservation District to
Establish an Annual Parcel Assessment for FY 2025-
26 for Drainage Maintenance and National Pollutant
Discharge Elimination System (NPDES) Program**

Resolution No. 25-5

WHEREAS, under the Federal Water Pollution Control Act, [33 U.S.C. Section 1342(p)], certain municipal storm water discharges require a permit from the appropriate federal or state authorities pursuant to the National Discharge Elimination System (NPDES) Program; and

WHEREAS, the City of Concord, in conjunction with other affected jurisdictions within Contra Costa County, applied to the State Regional Water Quality Control Board and received a Joint NPDES Permit to discharge storm water and developed a Storm Water Management Plan; and

WHEREAS, Assembly Bill 2768 (West's Water Code Appendix, Section 63-12 and 63-12.9) authorizes the Contra Costa Flood Control and Water Conservation District (DISTRICT) to establish storm water utility areas and to impose annual benefit assessments for the purpose of carrying out the activities required under the NPDES Program; and

WHEREAS, the DISTRICT has completed the process for formation of a Concord Storm Water Utility Area (SUA), including the adoption of Storm Water Assessment Drainage Ordinance No. 93-47; and

WHEREAS, the SUA and Program Group Costs Payment Agreement between the City of Concord and DISTRICT requires the City of Concord annually to determine the rate to be assessed per Equivalent Runoff Unit (ERU) for the forthcoming fiscal year; and

WHEREAS, the City Council adopted Resolution 93-14, which established the range of annual assessment to be imposed by the DISTRICT within the SUA at an amount not to exceed \$35 per ERU.

**NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF CONCORD DOES
RESOLVE AS FOLLOWS:**

Section 1. Pursuant to the California Environmental Quality Act (CEQA) of 1970, Public Resources Code Section 21000, et. seq., as amended and implementing State CEQA Guidelines, Title 14, Chapter 3 of the California Code of Regulations (collectively "CEQA"), establishing the annual assessment amount and authorizing the Contra Costa County Flood Control & Water Conservation District to adopt SUA levies and/or assess ERUs does not constitute a "project," within the meaning of Public Resources Code Section 21065, 14 Cal Code Regs. Section 15060(c)(2), and/or 15378 because it has no potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment, and/or 15273 because it involves government funding/fiscal activities. Even if such action did constitute a "project" under CEQA, establishing the annual amount and authorizing the Contra Costa County Flood Control & Water Conservation District to adopt SUA levies and/or assess ERUs, falls within the "common sense" exemption set forth in CEQA Guidelines Section 15061(b)(3), excluding projects where "it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment."

Additionally, pursuant to Section 15273 of the CEQA Guidelines, the establishment of charges for the purpose of meeting operating expenses is categorically exempt. Projects funded by the annual assessment will undergo CEQA review as necessary.

Therefore, establishing the annual assessment amount and authorizing the Contra Costa County Flood Control & Water Conservation District to adopt SUA levies and/or assess ERUs does not warrant further environmental review. This determination reflects the City's independent judgement and analysis.

Section 2. The annual assessment imposed by the DISTRICT within the SUA for Fiscal Year 2025-26 shall be \$35.00 per Equivalent Runoff Unit (ERU).

Section 3. The City Council requests the DISTRICT to adopt storm water utility area levies based on said amount per ERU.

Section 4. This resolution shall become effective immediately upon its passage and adoption.
