Rationale:
The AAA has been designated to coordinate the implementation of Contra Costa's Master Plan for Aging Local Playbook. Rationale:
The continued growth of the older adult population, especially with the oldest of the baby boomers reaching advanced age of 85 years starting in 2031, calls attention to the need to prioritize and promote age- and disability-friendly Contra Costa communities. A strong infrastructure that includes diverse and reliable funding sources for programs and services and the inclusion and prioritization of older adults, persons with disabilities, and family caregivers in planning, building, and delivering services promote the development of age- and disability-friendly communities. Promoting neighborhood safety, improving the walkability of streets, protecting seniors from falling victims to scams and crime, and keeping essential services, such as housing, transportation, food, medical/dental care, etc., were among the needs mentioned by focus group participants to make communities age- and disability-friendly.
