**Re: Preliminary Application Pursuant to the Builder's Remedy for Bethel  
Estuary Estates, Unincorporated Oakley  
(APN 032-112-007)**

---

Dear John:

Our client, Duong Estuary Cove LLC ("Estuary Cove"), hereby submits a Preliminary Application pursuant to Senate Bill 330 and the "builder's remedy" for its proposed residential "housing development project" at the intersection of Bethel Island Road and Sandmound Boulevard in unincorporated Oakley. This letter and the enclosed information represent the Project's Preliminary Application pursuant to Government Code section 65941.1(a). In addition to the early vesting conferred by SB 330, Estuary Cove intends to rely on the protections provided under the Housing Accountability Act ("HAA"), Density Bonus Law ("DBL"), and Permit Streamlining Act ("PSA").

**A. Project Description and Background**

The proposed project consists of 271 dwelling units, including 209 market-rate low-density single-family detached homes and 62 below market rate duplexes, with approximately 621,500 net (955,870 gross) square feet of residential building area, approximately 36.04 acres of on-site open space, a public trail system, and related infrastructure ("Project") on an approximately 78.33-acre property with one existing legal parcel (Assessor Parcel Number APN 032-112-007) at the intersection of Bethel Island Road and Sandmound Boulevard in unincorporated Oakley ("Project Site").

The Project Site has a general plan land use designation of AL/OIBA and is zoned P-1. The base density for the Project Site is 1 dwelling unit per 5 acres, which can be increased if a project participates in certain programs, including by providing

“substantial recreational facilities,” in which case the allowed density is 1.0 to 2.9 units per net acre.

By way of additional background, the County approved the Coronado Villages project, which zoned the Project Site to P-1 and approved 185 market-rate residential units and a golf course. The Project differs from Coronado Villages in that it does not include a golf course, due to water and other site constraints, and instead of being fully market-rate, the Project includes a minimum of 20% below market-rate units.

**B. Builder’s Remedy Pursuant to the Housing Accountability Act**

This Project is protected by the “Builder’s Remedy” provisions of the Housing Accountability Act (“HAA”). (Gov. Code § 65589.5). These provisions prohibit a county that does not have an adopted housing element that is substantially compliant with the Housing Element Law (Gov. Code § 65580 *et seq.*) from disapproving or conditioning in a manner that renders infeasible a housing development project “for very low, low-, or moderate-income households,” even where the project is inconsistent with both the city’s zoning ordinance and general plan land use designation.<sup>1</sup> (Gov. Code § 65589.5(d)(5)). Projects for very low, low-, or moderate-income households are defined to include projects that provide 20 percent of the units for lower income households as defined in the HAA. (Gov. Code § 65589.5(h)(3)). Because the County does not yet have a substantially compliant 6th Regional Housing Needs Assessment (“RHNA”) Cycle Housing Element<sup>2</sup> and the Project is a housing development project that will provide 20 percent of its units for lower income households, the Project is protected by the Builder’s Remedy. Therefore, the County cannot deny or condition approval of the Project in a manner that would render it infeasible, notwithstanding any inconsistency of the Project with the zoning ordinance or General Plan land use designation of the Project Site.

**C. Senate Bill 330**

---

<sup>1</sup> A county can disapprove such a project only if it makes written findings based on a preponderance of evidence in the record that (1) the county has an adopted, substantially compliant housing element and has met its RHNA requirements; (2) the project would have a specific adverse impact on health or safety that cannot be mitigated without rendering the project unaffordable or infeasible; (3) the denial or conditioning of the project is required to comply with state or federal law; (4) the project site is zoned for agriculture or resource preservation; or (5) the project is inconsistent with both the city’s zoning ordinance and general plan land use designation and the county has an adopted, substantially compliant housing element. None of these findings apply to the Project or the Project Site.

<sup>2</sup> See <https://www.hcd.ca.gov/planning-and-community-development/housing-open-data-tools/housing-element-review-and-compliance-report> (showing the determination of the Department of Housing and Community Development that the County is out of compliance with state housing law as of today’s date, based on HCD’s last review of the County’s Housing Element on August 18, 2023).

Signed into law on October 9, 2019 by Governor Newsom and effective January 1, 2020, SB 330 declared a statewide housing emergency. The bill places restrictions on certain types of development standards, amends the HAA, and makes changes to local approval processes and the Permit Streamlining Act (Gov. Code § 65920 *et seq.*). During the housing emergency period, as extended until 2030 by Senate Bill 8, all cities are subject to specified project review requirements and timelines regarding applications for housing developments. These changes include a prohibition on applying new zoning regulations and development standards or listing the project as a local historic landmark after a project's application is submitted, except under certain specified circumstances. Housing developments that meet all applicable objective general plan and zoning standards may only be subject to a limited number of public hearings, including continuances and appeal hearings.

1. Preliminary Application

SB 330 allows an applicant to submit a Preliminary Application for any "housing development project," meaning a project that is at least two-thirds residential by square footage. (Gov. Code § 65941.1). A Preliminary Application is separate and distinct from, and does not require as much detail as, a traditional development application—i.e., a "Formal Application." SB 330 precludes local agency input into the required contents of a Preliminary Application. For example, the local agency may not add to the 17-item checklist.<sup>3</sup> In addition, the applicant may elect to use the city's Preliminary Application checklist, a checklist created by the California Department of Housing and Community Development, the applicant's own checklist, or no checklist at all. (Gov. Code § 65941.1(b)). Finally, the local agency has no role in determining the completeness of a Preliminary Application.<sup>4</sup> Thus, if the applicant complies with the checklist, then the Preliminary Application is complete at the moment of filing and vested rights accrue at that moment—without any affirmative action by the City required or allowed.

If an applicant submits a Formal Application within 180 days of submitting a Preliminary Application, then the zoning, design, subdivision, and fee requirements in effect at the time the Preliminary Application was submitted shall remain in effect for the remainder of the entitlement and permitting process, with certain limited exceptions,<sup>5</sup> plus two and one-half years following the date of final approval.

---

<sup>3</sup> Gov. Code § 65941.1(b)(3) ("A checklist or form shall not require or request any information beyond that expressly identified in subdivision (a).").

<sup>4</sup> Gov. Code § 65941.1(d)(3) ("This section shall not require an affirmative determination by a city, county, or city and county regarding the completeness of a preliminary application or a development application for purposes of compliance with this section.").

<sup>5</sup> Exceptions to this rule include: (1) development impact fees, application and permit processing fees, capacity or connection fees, or other charges may be annually adjusted based on a published cost index (Gov. Code § 65589.5(o)(2)(A)); (2) where the requirement is necessary to avoid an adverse impact to public health or safety as defined in state law

This is the earliest form of vested rights provided in the state Planning and Zoning Law and it is completely applicant controlled.

2. Consistency with General Plan and Zoning

SB 330 provides that a housing development project “shall be deemed consistent, compliant, and in conformity with an applicable plan, program, policy, ordinance, standard, requirement, or other similar provision if there is substantial evidence that would allow a reasonable person to conclude that the housing development project is consistent, compliant, or in conformity.” (Gov. Code § 65905.5(c)(1)). It also provides that a proposed housing development project “is not inconsistent with the applicable zoning standards and criteria, and shall not require a rezoning, if the housing development project is consistent with the objective general plan standards and criteria, but the zoning for the project site is inconsistent with the general plan.” (Gov. Code § 65905.5(c)(2)).

3. Early Statutory Vested Rights

As noted above, the filing of a Preliminary Application provides the earliest form of vested rights established in California law. Subject to certain limited exceptions, SB 330 provides that a housing development project shall be subject only to the ordinances, policies, non-adjusting fees and exactions and standards adopted and in effect when a Preliminary Application was submitted. (Gov. Code § 65589.5(o)).

The state Department of Housing and Community Development (“HCD”), the state agency delegated by the Legislature with “primary responsibility for development and implementation of housing policy” (Health & Saf. Code § 50152), has determined that SB 330 vesting includes vesting of a jurisdiction’s noncompliant status with respect to the Housing Element Law for the duration of processing of the project, even if the jurisdiction subsequently achieves compliance. (See HCD, 3030 Nebraska Avenue, Santa Monica – Letter of Technical Assistance, October 22, 2022).<sup>6</sup>

An applicant for a housing development project may bring legal action to enforce the HAA if a local agency requires or attempts to require a housing development project to comply with an ordinance, policy, and standards (which includes those relating to development impact fees, capacity or connection fees, or permit processing fees),

---

(Gov. Code § 65589.5(o)(2)(B)); (3) where the requirement is necessary to avoid or lessen an impact under CEQA (Gov. Code § 65589.5(o)(2)(C)); (4) where the project does not commence construction within two and one-half years of the project’s site permit being issued (Gov. Code § 65589.5(o)(2)(D)); and (5) where the project increases by more than 20 percent in the number of units or total square footage beyond the preliminary application, except as the project may be revised using a density bonus (Gov. Code § 65589.5(o)(2)(E)).

<sup>6</sup> See <https://www.hcd.ca.gov/sites/default/files/docs/planning-and-community/HAU/santa-monica-TA-100522.pdf>.

not adopted and in effect when a Preliminary Application was submitted. (See Gov. Code § 65589.5(k)(1)(a)(i)(III) and § 65589.5(o)(4)).

4. Limited Public Hearings

Under SB 330, housing development projects that comply with applicable objective general plan and zoning standards are subject to a maximum of five public hearings<sup>7</sup> prior to final action by the City. (Gov. Code § 65905.5(a)). The City must consider and either approve or disapprove the project at one of these five hearings, after which no further hearings may be held in connection with project approval. (*Id.*).

**D. Conclusion**

We would be happy to discuss the Project or this Preliminary Application with you at any time. We will file the Formal Application (currently anticipated to include a Vesting Tentative Map and Final Map) within 180 days, as required by Government Code section 65941.1(d)(1)).

Sincerely,

MILLER STARR REGALIA

## WIRE FRAUD ALERT

This Notice is not intended to provide legal or professional advice.  
If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. **DO NOT** use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the number of relevant parties to the transaction as soon as an escrow account is opened.** **DO NOT** send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do **NOT** reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

Olberding Environmental, Incorporated  
Attn: Mr. Jeff Olberding  
193 Blue Ravine Road, Suite 165  
Folsom, California 95630-4770  
[jeff@olberdingenv.com](mailto:jeff@olberdingenv.com)

Dear Mr. Olberding:

We are responding to your April 22, 2021, request for an approved jurisdictional determination for the Coronado Village site. This letter supersedes our May 25, 2021, determination to correct an error in the acreage amount. The approximately 90.34-acre project site is located northeast of the intersection of Bethel Island Road and Sandmound Boulevard, at Latitude 38.007765°, Longitude -121.634060°, in an unincorporated portion of Contra Costa County, California.

Based on available information, we concur with your aquatic resources delineation for the site, as depicted on the enclosed drawing, *Figure 5: Jurisdictional Delineation of Wetlands and Other Waters of the U.S. for the Coronado Village Property*, prepared January 17, 2020, by Olberding Environmental (enclosure 1). Approximately 6.96 acres of aquatic resources, consisting of 5.93 acres of seasonal wetland and 1.03 acres of drainage ditches, are present within the survey area. This letter verifies that the location and boundaries of wetlands were delineated consistent with the wetland definition at 33 CFR §328.3(c)(16), the 1987 *Corps of Engineers Wetlands Delineation Manual* (Wetlands Research Program Technical Report Y-87-1) and the applicable regional supplements; and the location and boundaries of non-tidal waters conform with the ordinary high water mark definition at 33 CFR §328.3(c)(7), Regulatory Guidance Letter 05-05, and any applicable regional guide.

Of these aquatic resources, we have determined that those features SW1-SW9, PD1, PD2, and ED-1 totaling 6.96 acres are not waters of the U.S. regulated under Section 404 of the Clean Water Act or under Section 10 of the Rivers and Harbors Act.

We are enclosing a copy of the *Approved Jurisdictional Determination Form* (enclosure 2) for your site.

This approved jurisdictional determination is valid for five years from the date of this letter unless new information warrants revision of the determination before the expiration date. If you object to this determination, you may request an administrative appeal under Corps regulations at 33 Code of Federal Regulations (CFR) Part 331. A *Notification of Appeal Process (NAP) and Request for Appeal (RFA) Form* is enclosed (enclosure 3). If you request to appeal this determination, you must submit a completed RFA form to the South Pacific Division Office at the following address: Administrative Appeal Review Officer, Army Corps of Engineers, South

Pacific Division, CESPDPDO, 1455 Market Street, 2052B, San Francisco, California 94103-1399, Telephone: 415-503-6574, FAX: 415-503-6646.

In order for an RFA to be accepted by the Corps, we must determine that the form is complete, that it meets the criteria for appeal under 33 CFR Part 331.5, and that the form was received by the Division Office within 60 days of the date of the NAP. It is not necessary to submit an RFA form to the Division Office unless you object to the determination in this letter.

We recommend that you provide a copy of this letter and notice to all other affected parties, including any individual who has an identifiable and substantial legal interest in the property.

The delineation included herein has been conducted to identify the location and extent of the aquatic resource boundaries and/or the jurisdictional status of aquatic resources for purposes of the Clean Water Act for the particular site identified in this request. This delineation and/or jurisdictional determination may not be valid for the Wetland Conservation Provisions of the Food Security Act of 1985, as amended. If you or your tenant are USDA program participants, or anticipate participation in USDA programs, you should discuss the applicability of a certified wetland determination with the local USDA service center, prior to starting work.

We appreciate feedback, especially about interaction with our staff and our processes.

**B. Excluded Waters or Features**

Excluded waters ((b)(1) – (b)(12)): <sup>2</sup>				
Exclusion Name	Exclusion Size		Exclusion <sup>3</sup>	Rationale for Exclusion Determination
PD-1	0.83	acre	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1).	Ditch constructed entirely in uplands that does not relocate an (a)(1) - (a)(4) water.
PD-2	0.08	acre	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1).	Ditch constructed entirely in uplands that does not relocate an (a)(1) - (a)(4) water.
ED-1	0.12	acre	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1).	Ditch constructed entirely in uplands that does not relocate an (a)(1) - (a)(4) water.
SW-1	3.55	acres	(b)(1) Non-adjacent wetland.	This wetland meets the definition of paragraph (c)(16); however, it does not abut, nor is it inundated by flooding from, an (a)(1) – (a)(3) water in a typical year, nor is it physically separated from an (a)(1) – (a)(3) water by a natural or artificial barrier.
SW-2	0.10	acre	(b)(1) Non-adjacent wetland.	This wetland meets the definition of paragraph (c)(16); however, it does not abut, nor is it inundated by flooding from, an (a)(1) – (a)(3) water in a typical year, nor is it physically separated from an (a)(1) – (a)(3) water by a natural or artificial barrier.
SW-3	0.42	acre	(b)(1) Non-adjacent wetland.	This wetland meets the definition of paragraph (c)(16); however, it does not abut, nor is it inundated by flooding from, an (a)(1) – (a)(3)

<sup>2</sup> Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

<sup>3</sup> Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

**C. Additional comments to support AJD:** The nearest (a)(1)-(a)(3) water to this study site is Dutch Slough, located approximately 500 feet from the site, and is a jurisdictional water under Section 10 of the Rivers and Harbors Act. The features PD-1, PD-2 and ED-1 are drainage ditches that were constructed in uplands and did not relocate a tributary. Earliest available USGS topo maps from 1910-1942 depict only uplands within the study site. The 1952 USGS topo map is the earliest map to depict the ditches on site, indicating that the ditches were constructed some time between 1947-1952. The straightness of the channels also indicates that these are constructed ditches that did not occur naturally. The ditch PD-1 receives water from a pump station upstream which pumps water from Dutch Slough into a series of channels connected to PD-1. The wetlands on site, SW-1 through SW-9, receive water from the drainage ditch PD-1. While the wetlands on site may be indirectly inundated by an (a)(1)-(a)(3) water in a typical year, this water travels through PD-1 which is not a tributary and thus severs any jurisdictional hydrologic connection.
