Engaged in Regional Planning

Engaged in regional planning is defined as participating in and contributing to regional planning, regional plan implementation, and regional performance negotiations. The Local Area hereby certifies that it has participated in and contributed to regional planning and negotiating regional performance measures in the following ways:

The region funded economic development partner, East Bay Economic Development Alliance, to develop an analytical overview of the region, a required component of the PY 25-28 Regional Plan.

East Bay RPU sustained strong collaborative structures including regular convenings of executive and board leadership to apply for and coordinate regional grants, share best practices and programs, align policies, troubleshoot, and explore additional opportunities to enhance their partnership and promote EASTBAYWorks brand. In addition, the partners strategize around the region's sector partnerships.

Data to inform the measurement of regional metrics was collected in collaboration with contracted training providers and managed by the Regional Organizer (RO) who is in regular communication with all local board partners. The Regional Organizer regularly updated all Adult/Dislocated Worker and Youth/Youth Adult Program Managers about training attendance and evaluation data to feed continuous improvement in the regional capacity building training program.

An important best practice that supports data gathering has been a requirement in all funded providers' contracts to participate in training provided by EASTBAYWorks.
