Advisory Board: Los Medanos Health Advisory Committee

Subject: Staff to provide update on future grant process.

Presenter: Ernesto De La Torre

Contact: Ernesto.DeLaTorre@cchealth.org

Information:

Due to the significant challenges, we have encountered in the 23-25 grant process the next grant cycle is on hold. We have spoken with both Supervisor Glover and Supervisor Carlson to let them know about this hold. We received support from both supervisors to put the next round on hold until we can secure an agency for grant management. The goal is to find a local agency that can distribute the grants that are approved by the Board of Supervisors in a timelier way. The request for proposals is under development and the goal is to have an agency secured by end of year. The next grant cycle will open once the agency has been contracted.
