SERVICE PLAN

I. INTRODUCTION

- A. The Contra Costa County Flood Control and Water Conservation District (referred to herein as “District”; each reference to “County” shall mean “District”) is collaborating with the Aquatic Science Center (referred to here, interchangeably as “ASC” and “Agency”) to undertake a comprehensive historical ecology study of the Walnut Creek Watershed. To formalize this collaboration, the Flood Control District proposes to enter into a contract with ASC for the development and completion of the study, with a total cost not to exceed \$1,000,000.
- B. District and ASC have a mutual interest in the Walnut Creek Watershed, which is located in the heart of Contra Costa County, in the San Francisco Bay Area. The geographic focus for this study includes nearly the full extent of the Walnut Creek Watershed, including the Walnut Creek valley floor and upland portions. Areas of the watershed previously mapped in the Lower Walnut Creek Historical Ecology Study and the East Contra Costa County Historical Ecology Study are excluded from the study area.

II. OVERVIEW

The Walnut Creek Watershed Historical Ecology Study shall synthesize diverse historical data to enhance understanding of the ecological, hydrological, and geomorphic conditions of the Walnut Creek Watershed prior to major Euro-American modification. Drawing on sources such as historical maps, landscape and aerial photographs, textual accounts, field observations and botanical records, the study shall reconstruct landscape-scale patterns and environmental variability within the watershed. Synthesis of the historical dataset shall also help inform a landscape change analysis, comparing historical habitat extent and distribution to their present-day state. Findings from the study shall be compiled into an illustrated technical report describing historical conditions and processes and discussing implications for management and restoration. Results shall also be communicated through presentations at community meetings or other venues.

Baseline information about historical landscape patterns and processes shall support Flood Control District in developing multi-benefit approaches for managing the channel network and ecosystems within the Walnut Creek watershed. Findings from the study shall address a variety of scientific questions related to topics such as historical habitat distribution, vegetation community structure and composition, channel and streamflow dynamics, and landscape change over time.

The ASC shall draw on an extensive body of prior research in reconstructing historical ecological conditions for watersheds and landscapes around the Bay Area, including Lower Walnut Creek, the Alameda Creek watershed, Eastern Contra Costa County, and the Peninsula Watershed.

III. SCOPE OF ASC SERVICES

During the term of this Agreement, ASC shall perform, at District's written request, the following services,

A. **Task 1: Data Collection**

ASC shall work on acquiring a wide array of historical data sources, as well as selected contemporary data sources needed to fulfill project objectives.

1. **1.1: Develop Workplan and Target Questions**

- a. Through communications with District, project partners, Tribal representations, and select local experts, ASC shall develop an initial list of target scientific questions for the project. ASC shall provide a draft list of questions to District's Chief Engineer or Designee for review. This document shall help guide data collection and interpretation priorities and facilitate discussion of the project's goals and objectives with technical advisors.

2. **1.2: Historical Data Collection**

- a. ASC shall identify the historical data sources needed to fulfill project objectives and then acquire historical data from source institutions. To guide data collection efforts, ASC shall develop a comprehensive list of target materials to acquire and institutions to visit.
- b. ASC shall recover historical data from a wide variety of sources, including Spanish/Mexican-era materials, early American-era maps and landscape photographs, General Land Office survey notes, and written accounts. In addition, ASC shall review relevant 20th-century sources such as aerial photographs; vegetation maps; soil maps; archaeological, ecological, paleoecological, and water resources reports; and botanical and zoological records.
- c. ASC shall collect data from online databases and from source institutions in the Bay Area, Sacramento, and other locations as needed. Institutions visited may include local historical societies, libraries, and museums; county ASC archives; and regional archives such as The Bancroft Library and the California State Library. ASC shall work with libraries and institutions to acquire appropriate permission for use of historical data. It should be noted that copyright or other restrictions may make the acquisition of some historical data difficult and/or prevent the distribution of the actual data. Data collection for the project shall focus on ecological conditions prior to major Euro-American modification (i.e., late 1700s to mid-1800s). Task 1.2 includes budget for at least one day of reconnaissance field work.

3. **1.3: Contemporary Data Collection**

- a. ASC shall acquire selected contemporary data sources needed to fulfill project objectives, which may include relevant technical reports and GIS layers for habitat distribution, hydrology, geology, soil surveys, DEMs, and contemporary aerial photography.
- b. Other
 - (1) Direct expenses may include the cost of travel to libraries and archival institutions, as well as purchases, scans, or photocopies of relevant source materials.

Initials: _____
Agency County Dept.

Task 1 Deliverables

- Data collection summary memo: ASC shall prepare a 1-2 page list of selected key historical data collected attributed by description and source institution.

B. Task 2: Data Compilation

ASC shall compile the acquired historical data to extract relevant information, develop a geodatabase of spatial data, and facilitate synthesis and analysis of data.

1. 2.1: Georeference Historic Maps

- a. ASC shall use appropriate geospatial transformation techniques in ArcGIS Pro to georeference selected historical maps that display spatially-accurate technical detail. Every reasonable effort shall be made to achieve a high level of accuracy.

2. 2.2: Compile Textual and Photographic Data

- a. ASC shall compile textual data from historical sources that describe historical conditions into a document, organized geographically and/or thematically, that will support data interpretation and analysis. These sources may include explorer reports, journals and diaries, newspaper articles, surveyor and scientist notes, and other materials. Selected, spatially-explicit textual data may be additionally compiled in the GIS. ASC shall also geolocate selected historical photographs.

C. Task 3: GIS Synthesis

ASC shall synthesize the assembled data to document and reconstruct historical landscape patterns prior to major Euro-American modification.

In valley floor areas, ASC shall create a digital map representing prevailing ecological conditions prior to major Euro-American modifications. Because early data sources may be limited ASC may need to restrict the level of detail and/or certainty that will be achievable in the historical mapping for some areas. ASC shall code all mapped information on a feature-by-feature basis to identify specific sources and certainty levels. ASC shall provide draft valley floor mapping to District as an interim deliverable, and shall deliver final historical mapping GIS layers under Task 5. The resultant mapping shall also be included in the report (see Task 5).

In upland areas, ASC shall develop synthesis methods based on available data and in consultation with technical advisors and District, and may include mapping or other quantitative or qualitative analyses. ASC will likely build on methods piloted in the East Contra Costa Historical Ecology Study (Stanford et al. 2011) and Peninsula Watershed Historical Ecology Study (Baumgarten et al. 2021). Due to limited early data availability, ASC will likely base any mapping developed for upland areas on early 20th century aerial imagery and vegetation mapping and thus reflect later conditions.

Initials: _____
Agency County Dept.

Task Deliverables

- Draft historical habitat and channel mapping for valley floor areas in Digital GIS format, to be transferred to District.

D. Task 4: Interpretation and Analysis

ASC shall interpret the data synthesized and developed in Tasks 1-3 to build an understanding of historical ecological characteristics and landscape changes over time. ASC shall select specific analyses to be conducted, based on the target questions (1.1) and in consultation with District, the Technical Advisory Committee (TAC) (see Task 6.1), and Tribal representatives.

Potential focal topics for detailed analysis may include historical habitat composition, Indigenous land use and Traditional Ecological Knowledge, land use history, hydrologic dynamics, geomorphic patterns, ecological functions, habitat change over time, or other topics. Products from the analyses may be presented in the form of charts, tables, maps, conceptual models, narrative descriptions, or other formats.

Task Deliverables

- Summary of emerging findings: Bullet-point list of key emerging findings (1-2 pages).

E. Task 5: Reporting and Technology Transfer

1. 5.1: Draft Report

- a. ASC shall develop a draft report (~60-80 pages) using narrative text, maps, photographs, diagrams, and tables to describe historical conditions in the study area and other findings. The report shall provide a technically accurate and engaging summary of historical characteristics of the area and document major landscape changes.

2. 5.2: Final Report

- a. ASC shall submit a final report which addresses TAC and District comments on the draft report. A PDF of the report shall be made available for download via the SFEI website.

3. 5.3: Data Transfer

- a. ASC shall provide GIS layers of historical conditions (developed as part of Task 3) through the ASC’s website. Data shall be delivered in UTM or other specified projections in ESRI geodatabase or GeoTiff format. All spatial data shall include associated metadata (i.e., a document that describes the characteristics of the data).

4. Other

Direct expenses may include the cost of printing, mailing, presentation travel and permissions for key data sources.

Initials: _____
Agency County Dept.

2. 7.2: Invoices and Progress Reports

4. Task Deliverables

- Invoices and progress reports at least quarterly

In the event of such termination, County may proceed with the work in any reasonable manner it chooses. The cost to County of completing Contractor's performance will be deducted from any sum due Contractor under this Contract, without prejudice to County's rights to recover damages.

addition to any indemnity provided by Contractor in this Contract, Contractor will indemnify, defend, and hold the County harmless from any and all claims, investigations, liabilities, or damages resulting from or related to any and all alleged conflicts of interest. Contractor warrants that it has not provided, attempted to provide, or offered to provide any money, gift, gratuity, thing of value, or compensation of any kind to obtain this Contract.

16. **Confidentiality**. To the extent allowed under the California Public Records Act, Contractor agrees to comply and to require its officers, partners, associates, agents and employees to comply with all applicable state or federal statutes or regulations respecting confidentiality, including but not limited to, the identity of persons served under this Contract, their records, or services provided them, and assures that no person will publish or disclose or permit or cause to be published or disclosed, any list of persons receiving services, except as may be required in the administration of such service. 18. **Indemnification**. Contractor will defend, indemnify, save, and hold harmless County and its officers and employees from any and all claims, demands, losses, costs, expenses, and liabilities for any damages, fines, sickness, death, or injury to person(s) or property, including any and all administrative fines, penalties or costs imposed as a result of an administrative or quasi-judicial proceeding, arising directly or indirectly from or connected with the services provided hereunder that are caused, or claimed or alleged to be caused, in whole or in part, by the negligence or willful misconduct of Contractor, its officers, employees, agents, contractors, subcontractors, or any persons under its direction or control. If requested by County, Contractor will defend any such suits at its sole cost and expense. If County elects to provide its own defense, Contractor will reimburse County for any expenditures, including reasonable attorney's fees and costs. Contractor's obligations under this section exist regardless of concurrent negligence or willful misconduct on the part of the County or any other person; provided, however, that Contractor is not required to indemnify County for the proportion of liability a court determines is attributable to the sole negligence or willful misconduct of the County, its officers and employees. This provision will survive the expiration or termination of this Contract.
19. **Insurance**. During the entire term of this Contract and any extension or modification thereof, Contractor shall keep in effect insurance policies meeting the following insurance requirements unless otherwise expressed in the Special Conditions:
- a. **Commercial General Liability Insurance**. For all contracts where the total payment limit of the contract is \$500,000 or less, Contractor will provide commercial general liability insurance, including coverage for business losses and for owned and non-owned automobiles, with a minimum combined single limit coverage of \$500,000 for all damages, including consequential damages, due to bodily injury, sickness or disease, or death to any person or damage to or destruction of property, including the loss of use thereof, arising from each occurrence. Such insurance must be endorsed to include County and its officers and employees as additional insureds as to all services performed by Contractor under this Contract. Said policies must constitute primary insurance as to County, the state and federal governments, and their officers, agents, and employees, so that other insurance policies held by

them or their self-insurance program(s) will not be required to contribute to any loss covered under Contractor's insurance policy or policies. Contractor must provide County with a copy of the endorsement making the County an additional insured on all commercial general liability policies as required herein no later than the effective date of this Contract. For all contracts where the total payment limit is greater than \$500,000, the aforementioned insurance coverage to be provided by Contractor must have a minimum combined single limit coverage of \$1,000,000.

- b. **Workers' Compensation.** Contractor must provide workers' compensation insurance coverage for its employees.
- c. **Certificate of Insurance.** The Contractor must provide County with (a) certificate(s) of insurance evidencing liability and worker's compensation insurance as required herein no later than the effective date of this Contract. If Contractor should renew the insurance policy(ies) or acquire either a new insurance policy(ies) or amend the coverage afforded through an endorsement to the policy at any time during the term of this Contract, then Contractor must provide (a) current certificate(s) of insurance.
- d. **Additional Insurance Provisions.** No later than five days after Contractor's receipt of: (i) a notice of cancellation, a notice of an intention to cancel, or a notice of a lapse in any of Contractor's insurance coverage required by this Contract; or (ii) a notice of a material change to Contractor's insurance coverage required by this Contract, Contractor will provide Department a copy of such notice of cancellation, notice of intention to cancel, notice of lapse of coverage, or notice of material change. Contractor's failure to provide Department the notice as required by the preceding sentence is a default under this Contract
20. **Notices.** All notices provided for by this Contract must be in writing and may be delivered by deposit in the United States mail, postage prepaid. Notices to County must be addressed to the head of the county department for which this Contract is made. Notices to Contractor must be addressed to the Contractor's address designated herein. The effective date of notice is the date of deposit in the mails or of other delivery, except that the effective date of notice to County is the date of receipt by the head of the county department for which this Contract is made.
21. **Primacy of General Conditions.** In the event of a conflict between the General Conditions and the Special Conditions, the General Conditions govern unless the Special Conditions or Service Plan expressly provide otherwise.
22. **Nonrenewal.** Contractor understands and agrees that there is no representation, implication, or understanding that the services provided by Contractor under this Contract will be purchased by County under a new contract following expiration or termination of this Contract, and Contractor waives all rights or claims to notice or hearing respecting any failure to continue purchasing all or any such services from Contractor.
23. **Possessory Interest.** If this Contract results in Contractor having possession of, claim or right to the possession of land or improvements, but does not vest ownership of the land or improvements in the same person, or if this Contract results in the placement of taxable improvements on tax exempt land (Revenue & Taxation Code Section 107), such interest or improvements may represent a possessory interest subject to property tax, and Contractor may be subject to the payment of property taxes levied on such interest. Contractor agrees that this provision complies with the notice requirements of Revenue & Taxation Code Section 107.6, and waives all rights to further notice or to damages under that or any comparable statute.

24. **No Third-Party Beneficiaries.** Nothing in this Contract may be construed to create, and the parties do not intend to create, any rights in third parties.
25. **Copyrights, Rights in Data, and Works Made for Hire.** Contractor will not publish or transfer any materials produced or resulting from activities supported by this Contract without the express written consent of the County Administrator. All reports, original drawings, graphics, plans, studies and other data and documents, in whatever form or format, assembled or prepared by Contractor or Contractor's subcontractors, consultants, and other agents in connection with this Contract are "works made for hire" (as defined in the Copyright Act, 17 U.S.C. Section 101 et seq., as amended) for County, and Contractor unconditionally and irrevocably transfers and assigns to Agency all right, title, and interest, including all copyrights and other intellectual property rights, in or to the works made for hire. Unless required by law, Contractor shall not publish, transfer, discuss, or disclose any of the above-described works made for hire or any information gathered, discovered, or generated in any way through this Agreement, without County's prior express written consent. If any of the works made for hire is subject to copyright protection, County reserves the right to copyright such works and Contractor agrees not to copyright such works. If any works made for hire are copyrighted, County reserves a royalty-free, irrevocable license to reproduce, publish, and use the works made for hire, in whole or in part, without restriction or limitation, and to authorize others to do so.
26. **Endorsements.** In its capacity as a contractor with Contra Costa County, Contractor will not publicly endorse or oppose the use of any particular brand name or commercial product without the prior written approval of the Board of Supervisors. In its County-contractor capacity, Contractor will not publicly attribute qualities or lack of qualities to a particular brand name or commercial product in the absence of a well-established and widely accepted scientific basis for such claims or without the prior written approval of the Board of Supervisors. In its County-contractor capacity, Contractor will not participate or appear in any commercially produced advertisements designed to promote a particular brand name or commercial product, even if Contractor is not publicly endorsing a product, as long as the Contractor's presence in the advertisement can reasonably be interpreted as an endorsement of the product by or on behalf of Contra Costa County. Notwithstanding the foregoing, Contractor may express its views on products to other contractors, the Board of Supervisors, County officers, or others who may be authorized by the Board of Supervisors or by law to receive such views.
27. **Required Audit.**
- a. If Contractor expends \$750,000 or more in federal grant funds in any fiscal year from any source, Contractor must provide to County, at Contractor's expense, an audit conforming to the requirements set forth in the most current version of Code of Federal Regulations, Title 2, Part 200, Subpart F.
 - b. If Contractor expends less than \$750,000 in federal grant funds in any fiscal year from any source, but the grant imposes specific audit requirements, Contractor must provide County with an audit conforming to those requirements.
 - c. If Contractor expends less than \$750,000 in federal grant funds in any fiscal year from any source, Contractor is exempt from federal audit requirements for that year except as required by Code of Federal Regulations, Title 2, Part 200, Subpart F. Contractor shall make its records available for, and an audit may be required by, appropriate officials of the federal awarding agency, the General Accounting Office, the pass-through entity and/or the County. If an audit is required, Contractor must provide County with the audit.

- d. With respect to the audits specified in sections (a), (b) and (c) above, Contractor is solely responsible for arranging for the conduct of the audit, and for its cost. County may withhold the estimated cost of the audit or 10 percent of the contract amount, whichever is greater, or the final payment, from Contractor until County receives the audit from Contractor.
28. **Authorization.** Contractor, or the representative(s) signing this Contract on behalf of Contractor, represents and warrants that it has full power and authority to enter into this Contract and to perform the obligations set forth herein.
29. **No Implied Waiver.** The waiver by County of any breach of any term or provision of this Contract will not be deemed to be a waiver of such term or provision or of any subsequent breach of the same or any other term or provision contained herein.
