## Qualifications and Volunteer Experience

### Please explain why you would like to serve on this particular board, committee, or commission.

---

I seek appointment to the Local Enforcement Agency Independent Hearing Panel because I value fair, consistent, and transparent regulatory enforcement. As a long-term resident of Contra Costa County, I have a strong interest in ensuring that local regulatory processes protect both the community and the environment. Through my professional work in the recycling industry, where I supply recycling and waste handling supplies, I have direct familiarity with regulated operations and the importance of clear, practical, and consistently applied standards. This experience has given me an appreciation for both regulatory objectives and the operational realities faced by compliant businesses. I believe the effectiveness of the enforcement process depends on objective evaluation of evidence and balanced application of applicable regulations. I would welcome the opportunity to contribute my time and judgment to support fair hearings, sound decision-making, and public confidence in the enforcement system.

### Describe your qualifications for this appointment. (NOTE: you may also include a copy of your resume with this application)

---

My qualifications include long-term residency in Contra Costa County and professional experience in the recycling industry supplying recycling and waste handling supplies to regulated entities, making me a stakeholder in the effective and consistent application of local enforcement standards. I also possess experience in other regulated industries, including grain handling operations, as well as in the transportation of potentially hazardous industrial materials and in manufacturing environments subject to safety and environmental oversight. In addition, I am a qualified arbitrator for the National Grain and Feed Association (NGFA), which has provided me with experience in evaluating evidence, applying written standards, and rendering impartial decisions. This background provides practical knowledge of regulatory compliance, operational controls, and the impacts of enforcement actions. I bring an objective and impartial perspective, together with a commitment to due process and the consistent application of applicable laws and regulations.
