

2025

HOMELESSNESS AWARENESS MONTH

November is Homeless Awareness Month

The Contra Costa Council on Homelessness and Contra Costa Health are proud to join communities across the county in recognizing this important month.

We use this time to learn, act and celebrate by sharing stories, data and opportunities that deepen understanding, inspire action and honor those working to end homelessness.

This toolkit includes three sections to help get you started:

LEARN

Explore local data, services and videos featuring people with lived experience of homelessness in Contra Costa.

ACT

Discover ways to make a difference. Attend an event, volunteer or donate to support local programs and organizations.

CELEBRATE

Recognize the incredible work happening across our community to support people experiencing homelessness.

We hope this toolkit inspires you to learn, get involved and celebrate the progress we're making together.
