

**TENTATIVE ANNUAL REPORT  
FISCAL YEAR 2024-2025**

**CONTRA COSTA COUNTY SERVICE AREA L-100  
(Countywide Street Lighting)**

**July 9, 2024**

**Board of Supervisors**

John Gioia, District 1  
Candace Andersen, District 2  
Diane Burgis, District 3  
Ken Carlson, District 4  
Federal Glover, District 5

Prepared by  
**Contra Costa County  
Public Works Department**

**BACKGROUND INFORMATION**

On October 31, 1978, the Board of Supervisors instructed the Public Works Director to develop an alternate means to supplement ad valorem property taxes to fund street lighting in unincorporated areas of the County. This report recommends the levying of a street lighting charge as provided in the County Service Area Law, Government Code, Sections 25210.1 and following, and in accordance with Ordinance No. 79-42, adopted by the Board of Supervisors on March 27, 1979.

County Service Area (CSA) L-100 was formed on September 10, 1986, as a dependent special district of the County and as the consolidation of four street-lighting CSAs. The purpose for consolidating the four CSAs into one district was to provide more efficient and cost-effective street-lighting services throughout the County by having one new county service area with a single management structure and operational area throughout the County and in order to finance the cost of lighting services more equitably by utilizing a common service charge structure.

CSA L-100 provides street lighting operations and maintenance services throughout the County's unincorporated developed areas and pays for utility costs.

**CURRENT ANNUAL ADMINISTRATION**

Pursuant to County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report has been filed with the Clerk of the Board of Supervisors, public notice has been completed as required, and the Board will conduct a Public Hearing and then make a determination on each estimated service charge in the tentative report. Contra Costa Board of Supervisors will review the Tentative Annual Report on July 9, 2024, and conduct a Public Hearing in connection with the proceedings for CSA L-100.

Upon adoption of the Final Annual Report by the Board of Supervisors, the charges contained herein will be collected on the property tax roll of Contra Costa County in the same manner, by the same persons, at the same time as, and together with the County's general taxes.

**Legal Authority**

As required by County Ordinance Section 1012-2.6, former County Service Area Law (California Government Code Section 25210.77a), and current County Service Area Law (California Government Code Section 24210.3, subd. (d)), the Tentative Annual Report includes the following minimum information as shown in the Service Charge Roll:

1. A description of each parcel of real property receiving the miscellaneous extended service;
2. The basic service charge;
3. The estimated amount of the service charge for each parcel for such year; and
4. A parcel list identifying each parcel receiving services that allows parcel owners to find their property on the list and determine the proposed charge.

This annual report also includes an estimate of the annual costs and the method of apportionment as additional information to allow the reader to better understand what services are being paid for, what is the total annual cost for the services provided, and how the cost of services is spread to each individual parcel.

**Streetlight Capital Project Implementation**

As of late 2015, Contra Costa County has completed the conversion of County-owned standard streetlights from high-pressure sodium vapor to light-emitting diode (LED) lights.

In Fiscal Year 2022-2023, CSA L-100 established a Streetlight Pole Replacement Program (the "Program") to address the aging infrastructure. The on-going program was created to identify, assess, and replace obsolete, damaged, and leaning streetlight poles. In 2022, CSA L-100 initiated the replacement of streetlight poles and pull boxes along Cummings Highway and Crocket Boulevard in Crocket. The project was completed in 2023 for an estimated cost of \$26,000 including labor. In Fiscal Year 2024-2025, the program will continue to identify, assess, and replace failing streetlight poles. As part of the program approximately 550 decorative streetlight poles in the Alamo Creek will be replaced. Other anticipated projects are located on the Treat Boulevard median between Buskirk Avenue and Cherry Lane, Stone Valley Road, and Danville Boulevard. In addition, CSA L-100 currently administers an active Asset Management System that integrates the accounting, inspection, and on-going repair of streetlight assets. CSA L-100 will utilize the active Asset Management System in conjunction with the Program, to perform an analysis of the long-term fiscal requirements of CSA L-100 so that it remains financially stable while providing the proper levels of service.

**ESTIMATE OF ANNUAL COST**

The Fiscal Year 2023-2024 projected and Fiscal Year 2024-2025 proposed revenues and expenditures are shown on the following page. A special fund has been set up for the collection of revenues and coding of expenditures for CSA L-100. The total cost to provide the street lighting services can be recovered from the collection of service charges. Incidental expenses including administration, engineering fees, legal fees, and all other costs associated with the street lighting services may also be included.

When CSA L-100 was formed, a financial analysis was performed to provide the framework for an operating budget for the proposed street lighting operations and maintenance services. Revenues collected from the charge shall be used only for the expenditures represented in this report. Any balance remaining on July 1 at the end of the fiscal year must be carried over to the next fiscal year.

**BOUNDARY MAP**

The general boundaries of the CSA are shown herein. The lines and dimensions of each parcel within the CSA are those lines and dimensions shown on the maps of the Contra Costa County Assessor for the year in which this report was prepared and are incorporated by reference herein and made part of this report.

A copy of the Boundary Map is shown on the following pages.

# Contra Costa County Service Area (CSA) L-100 (Countywide Street Lighting) Boundary Map

## **METHOD OF APPORTIONMENT**

### **Special vs. General Benefit**

On November 5, 1996, California voters approved Proposition 218 entitled "Right to Vote On Taxes Act" which added Articles XIIC and XIID to the California Constitution. While its title refers only to taxes, Proposition 218 establishes new procedural requirements for fees, charges, and benefit assessments.

Although the District's annual service charges are generally collected on the property tax rolls, the District's service charges are not "taxes." Service charges are distinct from the regular one percent (1%) property tax and property tax debt override in that assessment rates are not levied on an ad valorem basis. The service charges contained in this report are considered assessments under Proposition 218.

Proposition 218 procedures stipulate that even if charges or benefit assessments are initially exempt from Proposition 218, future increases in the charges or benefit assessments must comply with the provisions of Proposition 218. However, if the future increase in the charge or benefit assessment were anticipated in the charge or benefit assessment formula when approved by property owners (e.g., consumer price index increases or a predetermined cap), then the future increase in the charge or benefit assessment would be in compliance with the intent and provisions of Proposition 218.

Proposition 218 provides that "only special benefits are assessable" and defines a special benefit as a particular and distinct benefit conferred on real property and not a general benefit received by the public at large. Parcels located within the boundaries of the CSA will be charged for the operation, maintenance, and capital replacement costs associated with street lighting improvements as described herein, if they receive a special and direct benefit from the improvements. Furthermore, the identification and separation of general benefits from the special benefits follows for CSA L-100.

In the absence of the annual service charge, the streetlight improvements within CSA L-100 would not be provided, therefore the enhanced public services provided within CSA L-100 confer a special benefit on the properties within the boundaries of CSA L-100 because only the parcels located within the boundaries of the CSA are served. Without the services, the property located in the unincorporated area would receive no street lighting and no special benefits. Therefore, the services in CSA L-100 are 100 percent special benefit to the parcels within the CSA.

Special benefits conferred on property within the CSA from the public street lighting improvements include:

- Providing for safe vehicular and pedestrian access to property,
- Providing improved livability, appearance, and desirability of property within the CSA, and
- Providing safety and security to property due to enhanced illumination of the property.

Properties outside of CSA L-100 do not enjoy the close proximity to the streetlight improvements provided by the CSA and therefore property outside the boundaries of the CSA do not receive the special benefits. Although these improvements may be available to the public at large, the public street lighting within the CSA was specifically designed, located, and created to provide additional and improved public resources for the direct advantage of property inside the CSA, and not the

public at large. The boundaries of the CSA have been narrowly drawn to include only those parcels that receive a direct advantage from the improvements.

In addition to the special and direct benefits the property owners receive within the CSA from the street lighting improvements, it has been determined that no general benefits are associated with street lighting within CSA L-100. Furthermore, any benefits conferred by the streetlights to the public at large are considered to be incidental, negligible, and non-quantifiable benefits. The streetlight improvements described herein within this report, confer special benefits that affect the assessed property in a way that is distinct from their effects on other parcels and which real property in general and the public at large do not share.

### **Methodology**

The total operation and maintenance costs for the extended public services are apportioned in accordance with the methodology that is consistent with standard practices.

The proper functioning of street lighting is imperative for the welfare and safety of the property owners throughout the County. Proper operation, maintenance, and servicing of a street-lighting system benefits properties by providing increased illumination for ingress and egress, safety for traveling at night, improved security, protection of property and the reduction of traffic accidents.

The degree of benefit is determined by the use of each individual parcel, the intensity of illumination provided, the number of pedestrians generated, and the enhanced security during hours of darkness. The method for distributing the costs to each parcel is based on the Equivalent Dwelling Unit (EDU) factor. The single-family residential parcel is considered one unit of benefit (1.00 EDU). All other land uses have been analyzed to determine the benefit they receive from the intensity of illumination provided, the number of pedestrians generated by their property and the enhanced security to their property during hours of darkness.

The single-family residential parcel has been selected as the basic unit for the calculation of service charge since it represents approximately 72 percent of the parcels within the County. Therefore, the single-family residential parcel is defined as one Equivalent Dwelling Unit (EDU). The methodology used to assign EDUs to the land uses in proportion to the benefit they receive relative to the single family residential parcel is based on the intensity of the street lighting illumination adjacent to the parcel, the amount of pedestrian traffic generated from the parcel, and the security received from the street lighting to the parcel.

### **Rate**

See Table 1 on the following page for Fiscal Year 2024-2025 Typical Street Lighting Service Charge Rates.

**CSA L-100 Countywide Street Lighting Tentative Annual Report  
Fiscal Year 2024-2025**

---

<b>Landuse</b>	<b>Number of Units</b>	<b>Number of EDUs</b>	<b>FY 2024-2025 Charge per EDU</b>	<b>FY 2024-2025 Charge</b>
Single Family	1.00	1.00	\$14.94	\$14.94
Condominiums	1.00	0.50	\$14.94	\$7.47
10 unit Apartment	10.00	5.00	\$14.94	\$74.70
30 unit Apartment	30.00	7.00	\$14.94	\$104.58
Commercial	N/A	5.00	\$14.94	\$74.70
