Article 14-6.4. Uniform Public Nuisances Abatement Procedure

14-6.402 Uniform procedure.

This article shall be known and may be cited as the "Uniform Public Nuisance Abatement Procedure." It is enacted pursuant to Government Code Section 25845 and is intended to be an alternative procedure for the abatement of any violation of this code which violation is declared to be a public nuisance.

(Ord. 88-88 § 2).

14-6.404 Definition.

The term "county abatement officer" means the county officer responsible for enforcing the county ordinance code provision being violated, which violation has been declared to be a public nuisance.

(Ord. 88-88 § 2).

14-6.406 Summary abatement.

- (a) Nothing in this article prohibits the summary abatement of a nuisance upon order of the board or upon order of any other county officer authorized by law to summarily abate nuisances, if the board or officer determines that the nuisance constitutes an immediate threat to public health and safety.
- (b) If a public nuisance is summarily abated, the county abatement officer shall keep an account of the cost of abatement and bill the property owner for the cost of abatement. The bill shall be sent by certified mail to the last known address of the property owner. Simultaneously, the bill may be sent by regular mail. If the bill sent by certified mail is returned unsigned, then service is deemed effective pursuant to regular mail.
- (c) If the bill is not paid within forty-five days from the date of mailing, the county abatement officer may proceed to obtain a special assessment and lien against the owner's property in accordance with the procedures set forth in this article, except that, in addition to a review of the costs of abatement, the board shall also hear and determine any issues relative to the necessity for the abatement or the manner in which the property was declared to be a public nuisance and summarily abated.

(Ords. 2007-18 § 2, 88-88 § 2).

14-6.408 Scope.

Whenever a public nuisance is declared, it may be abated in accordance with the procedures provided in this article. The procedures set forth in this article are not exclusive but are cumulative to all other civil and criminal remedies provided by law. The seeking of other remedies shall not preclude the simultaneous commencement of proceedings pursuant to this article.

(Ord. 88-88 § 2).

14-6.410 Nuisance declared.

A county abatement officer may declare a public nuisance for any reason specified in this code. Once a public nuisance is declared, the county abatement officer shall issue a notice and order to abate substantially in the following form:

"NOTICE AND ORDER TO ABATE

The issuance date is specified below. You may abate the nuisance by (insert desired action which, if taken, will adequately remedy the situation) _____. If you fail to abate the public nuisance within the number of days specified, the county may order its abatement by public employees, private contractor, or other means. The cost of said abatement, if not paid, may be levied and assessed against the property as a special assessment lien and may be collected at the same time and in the same manner as ordinary county taxes are collected, subject to the same penalties, procedures and sale in case of delinquency.

YOU MAY APPEAL FROM THIS ORDER OF ABATEMENT, but any such appeal must be brought prior to the expiration of the number of days specified above for completion of abatement. The appeal must be in writing; specify the reasons for the appeal; contain your name, address and telephone number; be accompanied by an appeal fee of _____ dollars (\$ _____); and be submitted to the Clerk of the Board of Supervisors at the following address:

One who is legally indigent may obtain a waiver of the appeal fee. Upon timely receipt of the appeal and accompanying fee, or waiver, the Clerk of the Board will cause the matter to be set for hearing before the Board of Supervisors and notify you of the date and location of the hearing.

If you have any questions regarding this matter, you may direct them to the county officer issuing this notice at the address or telephone number listed below.

ISSUANCE DATE: _____

(Name, title, address and telephone number of the county abatement officer issuing this notice.)"

(Ord. 88-88 § 2).

14-6.412 Service.

The notice and order to abate will be served by the method specified either in subsection (a) or (b).

- (a) Certified Mail and Posting. Certified mail will be addressed to the owner at the address shown on the last equalized assessment roll or as otherwise known, and addressed to anyone known to the county abatement officer to be in possession of the property at the street address of the property being abated. Service is deemed completed upon the deposit of the notice and order to abate, postage pre-paid, in the United States mail. Simultaneously, the notice and order to abate may be sent by regular mail. If the notice and order to abate sent by certified mail is returned unsigned, then service is deemed effective pursuant to regular mail. Posting of the notice and order to abate will be conspicuously on or in front of the property. If the property has no frontage, posting will be on the portion of the property nearest to a street, highway, or road, or most likely to give actual notice to the

owner. The failure of a person to receive a properly addressed service shall not affect the validity of the proceedings.

(b) Personal Service. Personal service is deemed complete on the date the notice is personally served.

(Ords. 2007-18 § 3, 88-88 § 2).

14-6.414 Recording.

(a) The county abatement officer may record with the Contra Costa county recorder a notice of pending nuisance abatement proceeding. A notice of pending nuisance abatement proceeding will describe the property and the condition in violation of the code. Before recording a notice of pending nuisance abatement proceeding, the county abatement officer will serve on the record owner of the property a notice of intent to record a notice of pending nuisance abatement proceeding. Following recordation of a notice of pending nuisance abatement proceeding, the county abatement officer will serve a copy of the recorded notice.

(b) If a notice of pending nuisance abatement proceeding is recorded, the county abatement officer shall serve on the record owner of the property a notice of final disposition when the nuisance abatement proceeding has been completed, including any appeals and the completion of any work necessary to abate the nuisance. If the work to abate the nuisance is performed at county expense, the notice of final disposition need not be issued until those costs have been paid or a lien for those costs has been recorded. The notice of final disposition may be recorded by any party that was served with the notice of pending nuisance abatement proceeding.

(c) All notices specified in this section will be served in the manner specified in Section 14-6.412.

(d) A county abatement officer is not required to record a notice of pending nuisance abatement proceeding before issuing a notice and order to abate pursuant to Section 14-6.410.

(Ords. 2007-18 § 4, 88-88 § 2).

14-6.416 Appeal procedure.

(a) Any owner or other person in possession of the property may appeal to the board within the number of days specified in the notice and order to abate. The appeal shall be submitted in writing, specify the grounds upon which the appeal is taken, contain the name, address and telephone number of the appellant, and be filed with the clerk of the board.

(b) An appeal filed with the clerk of the board must be accompanied by an appeal fee. The amount of the appeal fee will be determined periodically by the board based upon the costs incurred by the county in processing appeals pursuant to this article. The calculation will include all costs of the county abatement officer, the clerk of the board, and any other county department that is involved in the processing of appeals, but will exclude actual costs for any work of abatement. If the appellant claims an economic hardship in paying the appeal fee, the appellant may submit an application for waiver of the appeal fee on forms provided by the clerk of the board for that purpose. The forms will be substantially similar to those required of litigants initiating court proceedings in forma pauperis pursuant to Section 68511.3 of the Government Code. The forms shall be executed under penalty of perjury and contain a declaration as to the truthfulness and correctness of the information contained in the forms. The clerk of the board may grant the appellant up to three business days beyond the expiration of the appeal period to complete and submit the fee waiver forms, provided the appeal was timely filed. The appeal fee will be waived upon the timely submittal of the completed fee waiver forms.

-
- (c) Failure to submit the completed fee waiver forms or pay the appeal fee in a timely manner shall cause the appeal request to be automatically denied. Enforcement of the order to abate may then proceed as if no appeal request had been submitted.
 - (d) Upon the filing of a timely and complete appeal, including payment of the appeal fee or submission of completed fee waiver forms, the clerk of the board will set the matter for hearing before the board. The clerk of the board will notify the parties in writing of the date and location of the hearing at least ten days prior to the hearing date. Further abatement action shall be stayed until the appeal is acted upon.
 - (e) If the appeal fee is paid and the board finds there is no public nuisance, the appeal fee shall be refunded to the appellant without the payment of any interest that could have accrued.
 - (f) The failure to file a timely and complete appeal of a notice and order to abate shall be deemed to be a failure to exhaust administrative remedies.

(Ords. 2007-18 § 5, 88-88 § 2).

14-6.418 Hearing procedure.

- (a) At the hearing before the board, the appellant will be given the opportunity to present oral and written testimony and other evidence, and to present oral and written argument.
- (b) The hearing need not be conducted according to technical judicial rules relating to evidence, witnesses and discovery. Any relevant evidence may be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule that might make improper the admission of the evidence over objection in civil actions. Irrelevant or unduly repetitious evidence may be excluded. The board may, from time to time, adopt procedures to govern hearings in further detail.
- (c) The hearing may be continued from time to time upon the request of a party to the hearing and upon a showing of good cause.

(Ords. 2007-18 § 6, 88-88 § 2).

14-6.420 Decision.

- (a) At the conclusion of the hearing, the board will reverse, modify or affirm the determinations of the county abatement officer and may direct the county abatement officer to proceed and perform the work of abatement if not performed by the owner or the person in possession of the property within a prescribed period of time.
- (b) The decision of the board will be in writing, be based on the record, and include a statement of the factual and legal basis of the decision. The decision of the board will be filed with the clerk of the board following the conclusion of the hearing. A copy of the decision will be sent by first-class mail to the appellant at the address specified in the appeal, and by mail to each party appearing at the hearing. The county abatement officer is responsible for preparing, mailing and filing the decision.
- (c) The decision of the board is final when mailed to the appellant.

(Ords. 2007-18 § 7, 88-88 § 2).

14-6.422 Time for compliance.

If the board decides that the order to abate should be enforced, that owner or person in possession of the property shall comply with the order within such period of time as may be prescribed, and in the absence of any prescribed time, within thirty days from the date of mailing of the final decision. The prescribed period of time shall commence on the date of mailing of the final decision.

(Ord. 88-88 § 2).

14-6.424 Judicial review.

Judicial review of the board's final decision is governed by California Code of Civil Procedure Sections 1094.5 and 1094.6.

(Ords. 2007-18 § 8, 88-88 § 2).

14-6.426 Abatement by county.

- (a) Upon the failure, neglect or refusal to properly comply with the order to abate within the prescribed time period, the county abatement officer may cause to be done whatever work is necessary to abate the public nuisance. An account of the cost of abatement shall be kept for each separate assessor's parcel involved in the abatement.
- (b) When the county has completed the work of abatement, or has paid for the work, the total abatement costs shall be charged to the owner of the property. "Total abatement costs" means the costs of the actual work of abatement, administrative costs, inspection and reinspection costs, the appeal fee if it had been waived pursuant to Section 14-6.416, and attorneys' fees if applicable.
- (c) Attorneys' fees may be recovered in a proceeding under this article if the county elects, at the initiation of the proceeding, to seek recovery of its own attorneys' fees. If the county so elects, attorneys' fees will be recovered by the prevailing party. In no proceeding shall an award of attorneys' fees exceed the amount of reasonable attorneys' fees incurred by the county in the proceeding.
- (d) The total abatement costs shall be included in a bill and sent by certified mail to the last known address of the property owner. Simultaneously, the bill may be sent by regular mail. If the bill sent by certified mail is returned unsigned, then service is deemed effective pursuant to regular mail. The bill shall inform the owner that failure to pay the bill within forty-five calendar days from the date of mailing may result in a lien upon the property.

(Ords. 2007-18 § 9, 97-19 § 2, 88-88 § 2; Gov. Code § 25845(c)).

14-6.428 Report and notice of hearing.

- (a) If the bill is not paid within forty-five days from the date of mailing, the county abatement officer shall render an itemized report in writing to the clerk of the board for submittal to the board for hearing and confirmation. The report shall include, at a minimum, the names and addresses of the possessor of the property and all persons having any record interest in the property (including but not limited to, holders of mortgages or deeds of trust), the date upon which the abatement of the nuisance was ordered, the date the abatement was complete, a description of the real property subject to the lien, and the total abatement costs.

-
- (b) At least ten days prior to the hearing, the clerk of the board shall give notice, by certified mail, of the hearing to all persons named in the county abatement officer's report. The notice shall be prepared by the county abatement officer and shall describe the property by assessor's parcel number and street number or some other description sufficient to enable identification of the property and contain a statement of the amount of the proposed assessment.

(Ords. 2007-18 § 10, 88-88 § 2).

14-6.430 Hearing on report.

At the time fixed for receiving and considering the report, the board shall hear it and any objections of any of the owners liable to be assessed for the work of abatement or any other persons who may have a legal interest in the property. The board may add to the proposed assessment an amount equal to the cost of conducting the assessment confirmation hearing. The board may also make such other modifications in the report as it deems necessary, after which, the board may order the report confirmed. The order and modified report shall be filed with the clerk of the board, and as filed shall be final and conclusive.

(Ord. 88-88 § 2).

14-6.432 Cost as special assessment and lien.

The amounts and the costs of abatement mentioned in the report as confirmed shall constitute a special assessment against such property and are a lien on the property for the amount of the respective assessment.

In addition to its rights to impose said special assessment, the county shall retain the alternative right to recover its costs by way of civil action against the owner and person in possession or control jointly and severally.

(Ord. 88-88 § 2).

14-6.434 Notice of assessment and abatement lien.

Article 14-6.8. Graffiti

14-6.802 Findings.

This article and chapter provide for the removal of graffiti from public and private property and the board finds that graffiti is detrimental to property values and degrades the unincorporated area. Graffiti is inconsistent with the county's goals for property maintenance and maintenance of the county's development standards; is obnoxious, a public nuisance, and unless it is quickly removed from public and private property, results in other properties becoming the target of graffiti, thereby diminishing their value and reducing the ability of the county to meet the health, safety and welfare needs of its citizens.

(Ord. 99-48 § 1; Gov. C. §§ 25845, 53069.3(d)(2) and Civil C. § 1714.1).

- (b) "Graffiti" means the unauthorized writing, defacing, marring, marking, inscribing, scratching, painting, or affixing of markings on public or private buildings or structures, including, but not limited to, walls, fences, signs, retaining walls, driveways, walkways, sidewalks, curbs, traffic control devices, signs, and utility boxes, except as otherwise expressly permitted by this code.

(Ord. 99-48 § 1).

14-6.806 Placement and prohibition.

- (a) No person shall place graffiti upon any public or privately owned building or structure located on public or privately owned real property within the unincorporated area of the county.
- (b) No person owning or otherwise in possession or control of any real property within the county area shall permit or allow any graffiti to be placed upon or remain on any building or structure located on such real property when the graffiti is visible from any public street or other public or private property.

(Ord. 99-48 § 1).

guardian having custody or control of the minor. The parents or guardian having custody of the minor shall be liable for all damages so caused by the minor in a sum not to exceed two thousand dollars for each such act including therein, and not in addition, any county costs to remove the involved graffiti. (Ord. 99-48 § 1).

14-6.810 Public nuisance abatement.

Where a property owner and/or other person(s) in possession or control of property with graffiti on it fail to abate the graffiti, the county abatement officer may proceed with and complete public nuisance abatement of the graffiti pursuant to Article 14-6.4 and this chapter.

All laws applicable to the levy, collection, and enforcement of county taxes are applicable to the assessments, except that if any real property to which a lien would attach has been transferred or conveyed to a bona fide purchaser for value, or a lien of a bona fide encumbrancer for value has been created and attaches on the property before the date on which the first installment of taxes would become delinquent, then the lien that would otherwise imposed shall not attach to the real property and the lien will be transferred to the unsecured roll for collection.

-
- (c) The county may withhold issuance of licenses, permits and other entitlements to an owner on any project, property, or application of any kind whenever an administrative fine remains unpaid.
 - (d) The county may take such other actions as are allowed for enforcement of a civil judgment as provided for pursuant to the Enforcement of Judgment Law, California Code of Civil Procedure Section 680.010 et seq.

All such staff material must be distributed to the policy body and be made available to the public ninety-six hours before a scheduled meeting or twenty-four hours prior to a meeting when the agenda item has been added to the agenda at a previous meeting of the policy body not more than seven days prior to the scheduled meeting. - (b) Litigation shall be considered pending when any of the following circumstances exist:

- (c) Legal advice as to the potential risk of litigation of actions not yet taken, if provided by counsel at a meeting of a policy body, is to be conveyed openly as a matter of public record.
- (d) A closed session may not be held under this section to consider the qualifications or engagement of an independent contract attorney or law firm, for litigation services or otherwise.
- (e) Prior to holding a closed session pursuant to this section, the policy body shall disclose the justification for its closure either by entries in the appropriate categories on the agenda or, in the case of an item added to the agenda based on a finding of necessity and urgency, by an oral announcement specifying the same information.

A policy body shall not discuss or negotiate compensation or other contractual matters in closed session with one or more employees directly interested in the outcome of the negotiations except as follows. The board of supervisors may, in closed session, discuss and provide direction to the county administrator or other negotiators representing the county regarding the salary and benefits of unrepresented management employees. The salary and benefits of members of the board of supervisors, the county administrator and department heads will be discussed and acted on separately by the board of supervisors in open session.

-
- (b) In addition to the closed sessions authorized by subdivision (a), a policy body subject to Government Code Section 3501 may hold closed sessions with its designated representatives on mandatory subjects within the scope of representation of its represented employees, as determined pursuant to Government Code Section 3504.
 - (c) Closed sessions shall be for the purpose of reviewing the county's position and instructing its designated representatives and may take place only prior to and during consultations and discussions between the county's designated representatives and the representatives of employee organizations or the unrepresented employees.

(Ord. No. 95-6)

25-2.406 Report of closed session actions.

- (a) After every closed session, a policy body may in its discretion and in the public interest, disclose to the public any portion of its discussion the disclosure of which is not prohibited by federal or state law. The body shall, by motion and vote in open session, elect either to disclose no information or to disclose the information which a majority deems to be in the public interest. The disclosure shall be made through the presiding officer of the body or such other person, present in the closed session, whom ~~he or she~~ the presiding officer of the body designates to convey the information.
- (b) A policy body shall publicly report any final action taken in closed session and the vote or abstention of every member present thereon, as follows:
 - (1) Real Property Negotiations. Direction or approval given to the policy body's negotiator concerning real estate negotiations pursuant to Government Code Section 54956.8 shall be reported as soon as the agreement is final. If its own approval renders the agreement final, the policy body shall report that approval, the substance of the agreement and the vote thereon in open session immediately. If final approval rests with the other party to the negotiations, the county shall disclose the fact of that approval, the substance of the agreement and the policy body's vote or votes thereon upon inquiry by any person, as soon as the other party or its agent has informed the county of its approval.
 - (2) Litigation. Direction or approval given to the policy body's legal counsel to prosecute, defend or seek or refrain from seeking appellate review or relief, or to otherwise enter as a party, intervenor or amicus curiae in any form of litigation as the result of a consultation under Government Code Section 54956.9 shall be reported in open session as soon as given, or at the first meeting after the adverse parties have been served if, in the opinion of legal counsel, earlier disclosure would jeopardize the county's ability to effectuate service of process or to conclude existing settlement negotiations to its advantage, in a manner that identifies the adverse party or parties, any co-parties with the county, and the substance of the litigation, including the circumstances leading to the dispute.
 - (3) Settlement. Approval given to the policy body's legal counsel of a settlement of pending litigation as defined in Government Code Section 54956.9, at any stage prior to or during a judicial or quasi-judicial proceeding, shall be reported as soon as the settlement is final. If its own approval renders the settlement final, the policy body shall report that approval, the substance of the agreement and the vote thereon in open session immediately. If final approval rests with some other party to the litigation, the county shall disclose the fact of that approval, the substance of the agreement and the policy body's vote or votes thereon upon inquiry by any person, as soon as the settlement is final. The county shall neither solicit nor agree to any term in a final settlement which would preclude the release of the text and terms of the settlement itself and any related documentation communicated to or received from the adverse party or parties, or any other materials not originally constituting a confidential communication between the county and its counsel. The county shall oppose any request for confidentiality to which it is proposed the county would be a party.

-
- (4) Claim Payments. Disposition reached as to claims discussed in closed session pursuant to Government Code Section 54956.95 shall be reported as soon as agreed upon by the claimant, in a manner that discloses the name of the claimant, the substance of the claim, and any monetary amount approved for payment.
 - (5) Employee Actions. Action taken by a policy body to appoint, employ, dismiss, transfer, accept the resignation of or otherwise modify the terms or duration of the employment contract of a public employee in closed session pursuant to Government Code Section 54957, shall be reported immediately in a manner that names the employee and position affected and specifies any change in compensation, job description, assignment or other contract particulars and, in the case of dismissal for a violation of law or of the policy of the county, the reason for dismissal. "Dismissal" within the meaning of this division includes any termination of employment at the will of the employer rather than of the employee, however characterized, including a resignation tendered as an alternative to involuntary termination. The proposed terms of any separation agreement shall be disclosed, along with its final terms, immediately upon final approval by the policy body. Provided, that the report of a dismissal or the nonrenewal of an employment contract shall be deferred until the first public meeting following the exhaustion of administrative remedies, if any.
 - (6) Collective Bargaining. Approval of a final agreement concluding labor negotiations pursuant to Government Code Section 54957.6 shall be reported as soon as it has been approved and ratified by all parties in a manner that describes the item approved, and identifies the other party or parties to negotiation. Such disclosure shall include all formal offers and counteroffer made over the term of the negotiations.
- (c) Reports required to be made immediately may be made orally or in writing, but shall be supported by copies of any contracts, settlement agreements, or other affected documents that were finally approved or adopted by both sides after action in the closed session. These documents shall be provided to any person who requested such copies in a written request submitted within twenty-four hours of the posting of the agenda, or who has made a standing request for all such documentation as part of a request for notice of meetings pursuant to Government Code Sections 54944.1 or 54946.

(Ord. No. 95-6)

25-2.606 Public comment by members of policy bodies.

Every member of a policy body retains the full constitutional rights of a citizen to comment publicly on the wisdom or propriety of government actions, including those of the policy body of which ~~he or she~~ the individual is a member. This county shall not sanction, reprove or deprive members of their rights as elected or appointed officials for expressing their judgments or opinions, including those which deal with the perceived inconsistency of nonpublic discussions, communications or actions with the requirements of state or federal law or of this division. The release of factual information made confidential by state or federal law including, but not limited to, the privilege for confidential attorney-client communications, may be the basis for a request for injunctive relief, a complaint to the grand jury seeking an accusation of misconduct, or both.

Whenever a county officer asserts, as a justification for nondisclosure of a public record, the exemption protecting personal privacy in Government Code Section 6254(c), the exemption for names and addresses of crime victims in Government Code Section 6254(f)(2), the exemption for taxpayer information in Government Code Section 6254(i), any confidentiality or privilege statute referenced under Government Code Section 6254(k), the exemption for personal financial data in Government Code Section 6254(n), and any other claimed exemption based upon the personal or proprietary interests of a private natural or corporate person, the officer shall cooperate with the requester's efforts to communicate with the subject of the record as follows, upon request, if the requester fulfills the related terms and conditions.

-
- (a) If the requester is seeking information concerning an unknown number of persons, the officer or designee shall inform the requester of the number or approximate number of persons to whom the public record request pertains. If ascertaining that number involves itemized labor or other costs reflecting more than ten minutes of staff time in research, the requester may be required to pay those itemized costs.
 - (b) The requester shall prepare one stamped envelope for each of the persons sought to be contacted, with the requester's return address on the envelope. Within the envelope the requester shall place a letter explaining why the information is being sought and asking the person to contact the requester. The requester may also include a self-addressed, stamped envelope for that purpose. The envelope shall be presented to the officer for mailing.
 - (c) The officer or designee shall affix to each envelope so received the mailing address of the person who is the subject of the information request and shall mail it, provided that a mailing address is included in the officer's records. Any staff time required to do so shall be required to be paid by the requester, at the pro rata hourly rate of the employee addressing the envelopes.

 - (e) If the subject of the record is legally incompetent to waive privacy interests, the officer shall address the requester's envelope to the parent, guardian, conservator or judicial officer, as the case may be, if known, with the duty and authority to make such decisions for the incompetent person.
 - (f) If, in the judgment of the department head, the requestor is someone who may misuse the information, or if the records or the subjects of the records are of a sensitive nature, the department head may include in the mailing a caution that the individual need not waive ~~his or her~~ the individual's privacy interests. The requester shall be provided a copy of the caution and an opportunity to include a response in the mailing.

(Ord. No. 95-6)

25-4.604 Immediacy of response.

Notwithstanding the ten-day period for response to a request permitted in Government Code Section 6256, a request for a public record described in any nonexempt category under Section 25 -4.204 which is received by a department head shall be satisfied no later than the close of business on the day following the request unless the department head advises the requester in writing that the request will be answered by a specific future date. The statutory deadlines are appropriate for more extensive or demanding requests, but shall not be used to delay fulfilling a simple, routine or otherwise readily answerable request. If the voluminous nature of the information requested, its location in a remote storage facility or the need to consult with legal counsel warrants an extension of ten days as provided in Government Code Section 6256.1, the requester shall be noticed as required within three business days of the request.

(Ord. No. 95-6)

25-4.606 Minimum withholding.

Information that is exempt from disclosure shall be masked, deleted or otherwise segregated in order that the nonexempt portion of a requested record may be released and keyed by footnote or other clear reference to the appropriate justification for withholding required by Section 25-4.608 of this division.

(Ord. No. 95-6)

Chapter 40-4 ONE LOCAL HEALTH PLAN MODEL OF MEDI-CAL MANAGED CARE

40-4.002 Purpose.

To protect the health, welfare and safety of the people of Contra Costa County, it is necessary to ensure that the County Health Services Department maintains its flexibility to serve Medi-Cal managed care enrollees in the most effective manner, including but not limited to serving enrollees through a single local plan model.

(Ord. No. 2021-31, § 1, 9-14-21; Ord. No. 2021-42, § 1, 12-14-21)

40-4.004 Findings and declaration.

The board of supervisors finds and declares as follows:

- (a) Residents of Contra Costa County who are Medi-Cal beneficiaries are currently served under the two-plan model of Medi-Cal managed care that was established by the California Department of Health Care Services.
- (b) Contra Costa Health Plan, which is directly owned and operated by the county, currently serves as the local initiative plan under the existing two-plan model.

-
- (c) The California Department of Health Care Services has offered counties the opportunity to transition to a single local plan model of Medi-Cal managed care.
 - (d) The county operates Contra Costa Health Plan within the county health services department, as authorized by Government Code Section 25209.6, which imposes no limitations on the contracting models available to the county-operated health plan.
 - (e) A single local plan allows for enrollment in one local public health plan, making entry into the health care system and managing care for members more effective and efficient.
 - (f) Contra Costa Health Plan is well-positioned to become the single local Medi-Cal managed care plan because it serves more than eighty percent of the local Medi-Cal population, contracts with most health care providers who furnish services to Medi-Cal enrollees in the county, and has a demonstrated record of success in arranging and providing Medi-cal services through managed care.
 - (g) It is in the best interests of the county to maintain its flexibility to operate in a manner that best serves the county's Medi-Cal managed care population.

(Ord. No. 2021-31, § 2, 9-14-21; Ord. No. 2021-42, § 2, 12-14-21)

40-4.006 Single local plan model.

Contra Costa Health Plan is authorized to serve as the single local plan for Medi-Cal managed care enrollees in the county, upon approval of the California Department of Health Care Services. The effective date of this authorization is January 1, 2024, unless the California Department of Health Care Services approves and authorizes a different date.

(Ord. No. 2021-31, § 3, 9-14-21; Ord. No. 2021-42, § 3, 12-14-21)

40-4.008 Other contracting models.

Nothing in this chapter precludes the county from continuing to operate under the two-plan model or from opting into any other Medi-Cal managed care contracting model the state makes available.

- (a) A private parking operator that issues notices of parking charges must establish a written dispute resolution policy for contested parking charges that complies with this section. A copy of the private parking operator's current policy must be filed with the Public Works Department. The private parking operator shall make its current policy available to the public upon request. The policy shall contain a provision that allows the issuer of the notice of parking charges to cancel the parking charge at any time for any reason.
- (b) For a period of twenty-one calendar days after the issuance of a notice of parking charge or fourteen calendar days after the mailing of a notice of delinquent parking charge, exclusive of any days from the day the private parking operator or processing entity receives a request for a copy or facsimile of the original notice of parking charge and the day the private parking operator or processing entity complies with the request, a person may request an initial review of the notice by the private parking operator. The request may be made by telephone, in writing, or in person. There shall be no charge for this review. If, following the initial review, the private parking operator is satisfied that the violation did not occur, that the registered owner was not responsible for the violation, or that extenuating circumstances make dismissal of the parking charge appropriate in the interest of justice, the private parking operator shall cancel the notice of parking charge or notice of delinquent parking charge. The private parking operator shall advise the processing

agency, if any, of the cancellation. The private parking operator or the processing entity shall mail the results of the initial review to the person contesting the notice. If the notice is not cancelled after the initial review, the private parking operator shall include a reason for the denial, notice of the ability to request an administrative hearing, and notice of the procedure for waiving prepayment of the parking penalty based upon an inability to pay as specified in subsection (c).

- (c) If the person is dissatisfied with the result of the initial review, the person may request an administrative hearing of the parking charge no later than twenty-one calendar days after the results of the private parking operator's initial review are mailed. The request may be made by telephone, in writing, or in person. The person requesting an administrative hearing shall deposit the amount of the parking charge with the private parking operator or the processing entity. The private parking operator shall adopt a written procedure to allow a person to request an administrative hearing without payment of the parking charge upon satisfactory proof of an inability to pay the amount due. Notice of this procedure shall be provided to all persons who request an administrative hearing. An administrative hearing shall be held within ninety calendar days after the receipt of a request for an administrative hearing, excluding time tolled pursuant to this section. The person requesting the hearing may request one continuance, not to exceed twenty-one calendar days.
- (d) The administrative hearing process shall include the following:
- (1) The person requesting a hearing shall have the choice of a hearing by mail or in person. An in-person hearing shall be conducted within the boundaries of Contra Costa County.
 - (2) If the person requesting the hearing is a minor, that person shall be permitted to appear at a hearing or admit responsibility for the parking charge without the necessity of the appointment of a guardian. The private parking operator or processing entity may proceed against the minor in the same manner as against an adult.
 - (3) The administrative hearing shall be conducted in accordance with written procedures established by the private parking operator and approved by the Public Works Department. The hearing shall provide an independent, objective, fair, and impartial review of contested parking violations.
 - (4) (A) To conduct the administrative hearings, the private parking operator shall contract with an independent third party or parties, not controlled by a private parking operator, that employ qualified examiners. Examiners shall demonstrate those qualifications, training and objectivity necessary to conduct a fair and impartial review. An examiner shall not be employed, managed, or controlled by a person whose primary duties are as a private parking operator or parking charge processor. The examiner shall be separate and independent from the parking charge collection or processing function. An examiner's continued employment, performance evaluation, compensation, and benefits shall not, directly or indirectly, be linked to the amount of parking charges collected by the examiner. No contract between a private parking operator and an independent third party for the use of hearing examiners may include incentives based on the number of invoices issued or the number or percent of disputed invoices adjudicated that uphold parking charges.
(B) Examiners shall have a minimum of twenty hours of training. The examiner is responsible for the costs of the training. The private parking operator may reimburse the examiner for those costs. Training may be provided through (i) an accredited college or university, (ii) a program conducted by the Commission on Peace Officer Standards and Training, (iii) the American Arbitration Association, or (iv) any program approved by the Public Works Department. Training programs may include topics relevant to the administrative hearing, including, but not limited to, applicable laws and regulations, parking enforcement procedures, due process, evaluation of evidence, hearing procedures, and effective oral and written communication. Upon the approval of the Public Works Department, up to twelve hours of relevant experience may be substituted for up to twelve hours of training. In addition, up to eight hours of training requirements described in this subparagraph may be credited to an individual, at the discretion of the Public Works

Department, based upon training programs or courses described in this subparagraph that the individual attended within the last five years.

- (5) The person who issues a notice of parking charge shall not be required to participate in an administrative hearing. The private parking operator shall not be required to produce any evidence other than the notice of parking charge or copy of the notice and information received from the Department of Motor Vehicles identifying the registered owner of the vehicle. The documentation in proper form shall be prima facie evidence of the violation.
- (6) The examiner's decision following the administrative hearing may be personally delivered to the person by the examiner or sent by first-class mail. If the notice is not cancelled, the decision shall include a written reason for the denial.
- (7) If the examiner determines that the person owes the parking charge, the examiner may allow payment of the parking charge in installments, or the private parking operator may allow for deferred payment or payment in installments, if the person provides evidence satisfactory to the examiner or the private parking operator, as the case may be, of an inability to pay the parking penalty in full.

(Ord. No. 2016-15, § II, 8-16-16)

Incidental or limited movement of a structure upon water or resting partially or entirely on the bottom does not preclude the structure from being classified as a floating home or floating structure for purposes of this ordinance code. Registration of a structure as a vessel with the California Department of Motor Vehicles does not preclude the structure from being classified as a floating home or floating structure for purposes of this ordinance code. A houseboat or liveaboard that is permanently moored or grounded and is incapable of self-propelled navigation is a floating home for purposes of this ordinance code. Floating homes and floating structures are expressly excluded from the definition of the term "vessel" provided in this section.

- (h) "To anchor" means to secure a vessel within a waterway by dropping an anchor, anchors or other ground tackle to the bottom of the waterway.
- (i) "Vessel" means every description of watercraft used or capable of being used as a means of transportation on the water, except: a seaplane on the water; or, a watercraft specifically designed to operate on a permanently fixed course, the movement of which is restricted to a fixed track or arm to which the watercraft is attached or by which the watercraft is controlled. A "vessel" includes a barge, a dredge, a towboat and its tow, a houseboat and a liveaboard.
- (j) "Waterway" means any water, lake, river, creek, canal, lagoon, bay, inlet, slough, channel, or tributary situated within the county, or any water area situated within the county providing access for vessels from one place to another.

No person shall fail to comply with these designations when so marked.

(Ord. 69-50 § 1 (part), 1969).

410-2.010 Water shows and boat races exempt.

This division does not prohibit or restrict the operation of any vessel, aquaplane, or water skier actually participating in a water show, race or regatta, previously authorized in writing and actively supervised by a public agency or its duly authorized agent having jurisdiction over the waters involved.

The vessel may be redeemed upon proof of ownership and payment of all costs incident to recovery, movement, impounding, and storage or may be disposed of in accordance with Section 410-2.016 of this code.

(Ord. 2005-02 § 6).

The owner of the vessel will be civilly liable to the county for all costs, fees, damages and expenses incurred by the county in removing, storing and selling the vessel. These costs are a lien upon the vessel and the proceeds of the sale.

Any area designated as a "slow area" by resolution of the board of supervisors is a speed zone.

Article 413-3.16. Mobile Vendor Regulation

413-3.1602 General.

This article supplements and is in addition to the requirements otherwise provided in this chapter for retail food vehicles. All applicable provisions of this division shall apply to retail food vehicles and, in addition, to mobile, motorized mobile and nonmotorized mobile units as defined in this article. This article and this division otherwise do not authorize the operation or conducting of vending from a retail food vehicle or mobile unit where such use is not otherwise allowed or permitted by applicable zoning district or other regulations of this code or state law.

(Ord. 95-36 § 2).

413-3.1604 Findings and purpose.

It is hereby found and declared that:

- (1) To protect the public health and safety, promote fair economic competition and ensure safe pedestrian and motorist traffic, the unincorporated area of the county needs more equitable, uniform retail food vehicle and mobile vending regulations.

-
- (2) A lack of sufficient regulation of retail food vehicle and mobile vending from pushcarts, motor vehicles, stands or by persons can cause safety and sanitary hazards on public streets and property and on private property by contributing to traffic and pedestrian congestion, contributing to litter accumulation and causing planning and design problems, especially those retail food vehicle and mobile vendors that become a continual, stationary enterprise.

(Ord. 95-36 § 2).

413-3.1606 Prohibitions.

As provided in this division, no person shall conduct, operate or engage in any retail food vehicle and mobile unit business, vending, sale or distribution without having a valid, unrevoked, unsuspended environmental health permit therefor fully complying with the provision of this division and this article. In addition, no person shall conduct, operate or engage in any business, vending or other activity pursuant to a valid environmental health permit that violates any provision or standard of this code including this division and this article.

(Ord. 95-36 § 2).

413-3.1608 Permit limitations.

One environmental health permit may be obtained for multiple units if the health officer is satisfied that all applicable requirements will be met. For a retail food vehicle and/or mobile unit, an environmental health permit to the extent otherwise allowed by law may be issued for vending upon private property, for vending upon county streets where parking is permitted and for vending upon county sidewalks, subject to the permittee's compliance with the regulations herein and otherwise applicable. An environmental health permit shall not be issued for vending on other public property without prior approval of the board of supervisors or other public body having jurisdiction.

The animal services director shall hear the evidence and argument of the owner and make such further investigation as is deemed appropriate. A dog or cat may be adopted solely for the purpose of serving as a pet and only after the animal has been licensed, neutered or spayed, and vaccinated against rabies.
- (b) If the owner of a found animal is not located, and the finder of the animal, as provided in Section 416-8.002(c), is an animal-related nonprofit organization that identifies a person willing to adopt the animal, then the finder must provide all appropriate vaccinations to the animal, implant a microchip in the animal, spay or neuter the animal, and provide license information to the new owner at the time of adoption. The following terms and conditions shall govern uses of land for the purposes of this chapter:

- (1) Any lawful use of any land or building for or as part of a mink raising operation, existing at the time this chapter becomes effective, which does not conform to the provisions of Section 416-16.602, shall constitute a nonconforming use, and shall not be in violation of this chapter until such nonconforming use is discontinued, or ceases for any reason.
- (2) It is unlawful to extend or enlarge any mink raising operation which constitutes an existing nonconforming use except in a manner which causes it to conform, or tends to bring it into conformity with, this chapter; provided, however, that such mink raising operations constituting such nonconforming uses may hereafter increase their land, facilities, buildings, equipment and number of mink by not more than ten percent of the present breeding stock or a maximum of twelve hundred,

whichever is the greater, on the effective date of this chapter without being in violation of this subdivision. Existing nonconforming uses may expand structures and operations within the area otherwise prohibited by Section 416-16.602(2), should the boundaries of the property upon which such use is conducted prohibit compliance; provided, however, that in such use such expansion shall conform as nearly as possible to such restriction.

Article 416-18.4. Procedures

416-18.402 Potentially dangerous and dangerous animal designations.

- (a) The animal services director may determine that an animal is potentially dangerous or dangerous. Within fifteen days after determining that an animal is potentially dangerous or dangerous, the animal services director will issue an order designating the animal potentially dangerous or dangerous. The order will specify the reasons for the designation. If applicable, the order will also inform the owner that ~~he or she~~ the owner may apply for a permit to keep the animal, the deadline for applying, the permit conditions that may be imposed, and the owner's right to appeal the designation.
- (b) The animal services director will consider all of the following factors in determining whether an animal is potentially dangerous or dangerous:
- (1) Whether an injury to a person by the animal was caused or contributed to by the actions of that person, including acts of physical abuse, tormenting, teasing, or assaulting the animal.
 - (2) Whether a person injured by the animal was committing a trespass or other tort upon premises occupied by the owner or keeper of the animal, or was committing or attempting to commit a crime.
 - (3) Whether an injury to a domestic animal was caused or contributed to by the actions of the domestic animal, including acts of teasing, tormenting, abusing, or attacking the animal.
 - (4) Whether a person injured by the animal had gained uninvited and unauthorized entry onto fenced or indoor property of the animal's owner or keeper. As used in this section, "unauthorized entry" does not include entry into a fenced residential front yard unless the yard is locked or posted to prohibit entry.
 - (5) Whether an injury to a person by the animal was caused while the animal was protecting or defending a person within the immediate vicinity of the animal from an unjustified attack or assault. (Ord. No. 2020-04 § II, 3-20-20).

416-18.404 Permits to keep potentially dangerous or dangerous animals.

- (a) Application. If an owner wishes to keep an animal that has been designated potentially dangerous or dangerous, the owner must apply for and obtain a permit to keep the animal. The owner must apply for the permit within the time specified in the final order designating the animal potentially dangerous or dangerous. The permit application must include:
- (1) The name and address of the animal's owner, and the names and addresses of two persons who may be contacted in the case of emergency;
 - (2) An accurate description of the animal for which the permit is requested, including the number of the county-issued license for that animal;
 - (3) The address where the animal will be located;

-
- (5) An application fee;
 - (6) An agreement to comply with all permit conditions; and
 - (7) Such other information as the animal services director may require.
- (b) Order on Application. Within thirty days after receiving a completed application for a permit to keep an animal designated potentially dangerous or dangerous, the animal services director will issue an order granting or denying the permit. If the order denies the permit, the order will specify the reasons for denying the permit and state that the owner has a right to appeal the permit denial.
- (c) Permit Denial. The animal services director may deny an application for a permit if the director determines (1) the animal poses an undue risk to public safety, or (2) the animal's owner lacks sufficient resources or ability to keep the animal in a manner that does not pose a threat to public safety, or (3) the animal's owner does not agree to comply with all permit conditions.
- (d) Permit Issuance. The animal services director may issue a potentially dangerous or dangerous animal permit if the director finds all of the following conditions are satisfied:
- (1) The animal's owner has facilities to adequately secure, feed, house, and maintain the animal.
 - (2) Possession and maintenance of the animal at the owner's location is not likely to endanger the peace, quiet, health, safety, or comfort of persons in the vicinity of the location.
 - (3) Possession and maintenance of the animal at the owner's location is not likely to be detrimental to agriculture, native wildlife, or the public peace, health, or safety.
 - (4) Possession and maintenance of the animal at the owner's location has not resulted in, and is not likely to result in, the animal being subjected to neglect, suffering, cruelty, or abuse.
 - (5) The animal's owner has not had a potentially dangerous or dangerous animal permit revoked, and has not been found to have violated this division or any law regulating animals within the previous three years.
 - (6) Possession of the animal at the owner's location will not violate any law, ordinance, or regulation.
 - (7) The animal's owner agrees to comply with all of the permit conditions.
- (e) Permit Conditions. The animal services director will impose conditions on a permit to keep a dangerous or potentially dangerous animal as provided in this section.

 - (F) The animal's owner must display on the property where the animal is kept a sign containing a warning that there is a potentially dangerous or dangerous animal on the premises. The dimensions, colors, lettering, and graphics of the sign must comply with standards established by the animal services director. The sign must be located where it will be visible to the general public.

-
- (G) The animal may never be at large, as defined in Section 416-4.402, and must be securely maintained at all times.
 - (H) The animal's owner shall immediately notify the animal services department if the animal is at large, has attacked another animal, has bitten a human being, or has died.
 - (I) If the animal is not securely confined indoors, it must be confined as follows, unless the animal services director modifies the conditions of confinement where warranted:
 - (i) The animal shall be confined in an enclosure consisting of a fence or structure suitable to prevent the entry of young children, and suitable to confine a potentially dangerous or dangerous animal as determined by the animal services department. The enclosure shall be securely locked, have secure sides and bottom sufficient to prevent the animal from escaping, and shall be of sufficient size to provide the animal with adequate exercise area.
 - (ii) When off the property of the animal's owner or keeper, the animal shall be muzzled and leashed with a substantial leash not to exceed six feet in length and under the control of a responsible adult who is familiar with and in control of the animal.
 - (iii) When being transported, the animal shall be humanely confined in a vehicle so that it can neither escape nor inflict injury on passersby.
 - (J) The animal shall not be allowed to endanger the peace, health, or safety of people, domestic animals or native wildlife.
 - (K) The animal shall not be subject to neglect, suffering, cruelty, or abuse.
 - (L) The location where the animal is possessed or maintained must be kept clean and sanitary; and the animal must be provided with proper and adequate food, water, ventilation, shelter and care at all times.
 - (M) An employee of the animal services department must be allowed at any reasonable time to inspect the animal and the place where the animal is located.
 - (N) The animal's owner must pay all fees required in accordance with the animal services department's fee schedule adopted by resolution of the board of supervisors.
 - (O) The animal's owner must allow and pay for the animal to be sterilized and have a microchip implanted by the animal services department for identification purposes.
- (2) A potentially dangerous animal permit shall also include all of the following conditions:
- (A) The potentially dangerous animal must complete an obedience course approved by the animal services director, at the owner's expense, within sixty days after the animal is released to its owner, or within a reasonable time as authorized by the animal services director.
 - (B) The permittee shall notify the animal services department within 48 hours after the potentially dangerous animal is deceased, sold, transferred or permanently removed from the location designated on the permit, and provide the name, address, and phone number of the animal's new owner and the animal's new location.
- (3) A dangerous animal permit shall also include all of the following conditions:
- (A) A dangerous animal securely confined in an enclosure shall not be tethered.
 - (B) Unless a dangerous animal is securely confined indoors or in an outdoor enclosure on the property where the animal is maintained as described in subsection (e)(I)(i) of this section, the animal may only be removed for purposes of obtaining veterinary care, being sold or given away, or to comply with any provision of law or a directive of the animal services director.

-
- (C) Within thirty days after the animal is designated dangerous, the animal's owner must give written notice, with a copy to the animal services director, of the animal's dangerous designation to the local police and fire departments, the local branch of the U.S. Post Office, and all utility companies that provide services to the premises where the animal is kept.
- (D) The animal's owner must have in force at all times liability insurance from an insurer licensed in the state of California, in a single incident amount of not less than one hundred thousand dollars for each animal, for injury to or death of a person, or loss or damage to property caused by or resulting from an act of the animal. Liability insurance shall not be canceled unless the owner ceases to own the animal. The owner shall provide to the animal services director a certificate of insurance issued by the insurer stating that the foregoing insurance is in place. The owner shall also provide documentation from the insurer warranting that the insurer will provide the county at least thirty days advance notice of cancellation of insurance.
- (E) The permittee shall give the animal services department at least forty-eight hours advance notice of the sale, transfer or permanent removal of the animal to a location not designated in the permit, and provide the name, address, and phone number of the animal's new owner and the animal's new location.
- (f) Term of Permit. A potentially dangerous or dangerous animal permit is valid for one year from the date of its issuance, unless the animal services director approves a longer term.
- (g) Removal of Potentially Dangerous Designation. The animal services director will remove the "potentially dangerous" designation from an animal if there are no additional instances of the behavior described in the definition of "potentially dangerous" animal within the thirty-six-month period after the date of designation. The animal services director may, in ~~his or her~~the director's discretion, remove the "potentially dangerous" designation earlier than thirty-six months after the date of designation.
- (h) Permit Renewal. An application to renew a permit issued under this chapter must be filed at least thirty days before the permit expires. No person holding a potentially dangerous or dangerous animal permit has the right to an automatic renewal of the permit. Failure to renew a permit before its expiration will result in a late fee, may result in an administrative fine or infraction citation, or the animal may be impounded and humanely destroyed.
- (i) Fees. Animal permit application fees, permit fees, late fees, impound fees, inspection fees, microchip fees, and sterilization fees will be in amounts established by the board of supervisors in the animal services department's fee schedule. An inspection fee for evaluating the facilities where an animal designated potentially dangerous or dangerous is maintained will be charged to the animal's owner for each inspection deemed necessary following the initial investigation.
- (j) Permit Revocation. If the owner of an animal designated potentially dangerous or dangerous violates a permit condition, the animal services director may, in addition to administrative penalties under Article 416-4.8, issue an order revoking the permit and impounding the animal. If the animal services director determines the animal poses an undue threat to public safety, the animal may be euthanized. The order revoking the permit will specify whether the animal is to be euthanized.
- (k) Prohibition of Future Ownership.
- (1) If the owner of an animal designated potentially dangerous or dangerous violates a permit condition, the animal services director may, in addition to other penalties provided in this chapter, issue an order prohibiting the owner from owning an animal of the same species for up to five years after the date of the original designation.
 - (2) A person who owns, possesses, keeps, or harbors an animal designated potentially dangerous or dangerous without a permit may be subject to restrictions on ownership of other animals of the same species for a period of five years. (Ord. No. 2020-04 § II, 3-20-20).

416-18.406 Hearings.

- (a) Appeal. An animal owner may appeal an order that: designates the owner's animal potentially dangerous or dangerous; denies a permit to keep an animal designated potentially dangerous or dangerous; revokes a permit; imposes penalties for a violation of this chapter; or requires that an animal be euthanized.
- (b) Hearing Request. An appeal of an order must be filed with the animal services department within fifteen days after the date of the issuance of the order. If no request for appeal is received within fifteen days after the date of issuance of the order, then the order is final.
- (c) Notice of Hearing. Upon receipt of a timely request for a hearing, the animal services director will schedule a hearing before an impartial hearing officer and provide written notice to the owner of the date, time, and location of the hearing at least five days before the hearing date.
- (d) Hearing Procedures.
 - (1) Evidence. At the hearing, the animal's owner and animal services department employees will be given the opportunity to present oral and written testimony and other evidence, and to present oral and written argument. The hearing need not be conducted according to technical judicial rules relating to evidence, witnesses and discovery. Any relevant evidence may be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule that might make improper the admission of the evidence over objection in civil actions.
 - (2) Transcript of Hearing. Oral testimony at the hearing will not be transcribed by a court reporter unless the animal owner arranges and pays for a court reporter to be present at the hearing.
 - (3) Decision. Within fifteen days after the conclusion of the hearing, the hearing officer will issue a written proposed decision affirming, revising, or reversing the order. The proposed decision will be based on the record and include a statement of the factual and legal basis of the decision.
- (e) Procedures After Hearing.
 - (1) The animal services director will issue a final order after considering the hearing officer's proposed decision. Within fifteen days after receiving the hearing officer's proposed decision, the animal services director will send to the owner a notice of the final order and a copy of the hearing officer's proposed decision.
 - (2) If the final order designates the animal as potentially dangerous or dangerous, then the owner may keep the animal only after applying for and obtaining a permit, as provided in this chapter. The animal services director retains discretion to accept or deny a permit to keep the animal.
 - (3) If the final order revokes a permit, then within ten days of the date of the notice of order the owner of the animal shall surrender the animal to the animal services department or place the animal outside of Contra Costa County with permission from the new jurisdiction.
 - (4) If the final order after hearing overturns the animal services director's order, then any bond obtained by the animal owner shall be released and, if applicable, the animal shall be returned to the custody of the owner.
- (f) Appeal of Final Order to the Superior Court. A final order issued under this chapter may be appealed to the Superior Court in accordance with Code of Civil Procedure Section 1094.5.
- (g) Written Notices. All notices, orders, and decisions issued under this chapter shall be sent by first class mail to the animal's owner at the address identified on the application for the permit to keep the potentially dangerous or dangerous animal, if any, or at the address identified on the animal's license with the county.

The animal's owner shall promptly notify the animal services department of any change of address. (Ord. No. 2020-04 § II, 3-20-20).

- (a) A person who has been convicted of a felony under the laws of the United States, of the state of California, or any other state, government, or country, who owns, purchases, receives, or has in ~~his or her~~ their possession or under ~~his or her~~ their custody or control an animal that poses a danger to public health, safety, or welfare if misused by a convicted felon is guilty of a misdemeanor, unless the person possesses a current, valid permit for that animal as provided in this section. A convicted felon under this section does not include felons whose convictions were set aside pursuant to Penal Code Section 1203.4.
- (1) "Misuse" by a convicted felon means use of an animal in a threatening or aggressive manner, or in the commission of a crime.
 - (2) An animal whose owner is in violation of this section shall be impounded, and may be euthanized, at the owner's expense.
 - (3) An animal that poses a danger to public health, safety, or welfare if misused by a convicted felon under this section means any of the following:
 - (A) A dog weighing more than twenty pounds;
 - (B) An animal that has been designated potentially dangerous or dangerous under this chapter;
 - (C) An animal designated by the animal services director as posing a danger to public health, safety, or welfare if misused by a convicted felon based upon the following factors:

 - (ii) The strength of the animal, including jaw strength,
 - (iii) The animal's tolerance for pain,
 - (iv) The animal's tendency to refuse to terminate an attack,
 - (v) The animal's potential propensity to bite humans or other domestic animals,
 - (vi) The animal's potential for unpredictable behavior,
 - (vii) The animal's aggressiveness, and
 - (viii) The likelihood that a bite by the animal will result in severe injury.
- (b) Felon Prohibited Animal Permit.
- (1) A convicted felon who wishes to own, purchase, receive, or have in ~~his or her~~ their possession or under ~~his or her~~ their custody or control a dog weighing more than twenty pounds, or an animal that the animal services director designates as posing a danger to public health, safety, or welfare if misused by a convicted felon as provided in this section, may apply for a prohibited animal permit to own, keep, or maintain that animal.
 - (2) If there is probable cause to believe that an animal poses a danger to public health, safety, or welfare if misused by a convicted felon, the animal services director may order the animal impounded until any required permit is obtained.
 - (3) If the animal services director designates an animal as posing a danger to public health, safety, or welfare if misused by a convicted felon, written notice of this designation shall be mailed to the animal's owner.

-
- (4) The owner of an animal designated as posing a danger to public health, safety, or welfare if misused by a convicted felon, must apply for a prohibited animal permit and pay an application fee within fifteen calendar days after the mailing of the written notice of designation.
 - (5) The animal services director may deny a prohibited animal permit if ~~he or she~~the animal services director determines that the animal poses a danger to public health, safety, or welfare, or may condition the issuance of the permit upon the permittee's written agreement to comply with conditions of ownership to be determined by the animal services director. These conditions of ownership may include, but are not limited to, the permit conditions imposed for animals designated potentially dangerous or dangerous under this chapter.
 - (6) The animal services director may revoke a prohibited animal permit if there is probable cause to believe that the convicted felon's continued ownership of the animal poses a danger to public health, safety, or welfare.
- (c) This section does not apply to any assistance dog, including guide dogs, signal dogs, and service dogs, trained or in training to assist a qualified individual with a disability. (Ord. No. 2020-04 § II, 3-20-20).

Any person who wishes to bring into the county an animal that has been designated potentially dangerous or dangerous, or an equivalent designation, by another jurisdiction shall report the designation to the animal services department before entering the county and shall apply for a permit to keep the animal in the county. An animal that has previously been determined to be potentially dangerous or dangerous, or the equivalent, by another jurisdiction may not be present in the county unless the animal's owner complies with the potentially dangerous or dangerous animal permit requirements under this chapter. Animals in violation of this section are subject to impoundment and humane destruction by injection after notice to the animal's owner and, if requested, a hearing under this chapter, except that the only issues for hearing are whether the animal ever received a potentially dangerous, dangerous, or equivalent designation in another jurisdiction, and whether the animal's owner complied with the permit requirements under this chapter. (Ord. No. 2020-04 § II, 3-20-20).

416-18.606 Require bond.

If an investigation is conducted regarding whether an animal should be designated potentially dangerous or dangerous, or regarding whether an animal already so designated has violated permit conditions, then during the investigation the animal services director may require the animal's owner to post a bond to secure the release of the animal to the owner's possession during the investigation. The animal services director may order the release of an animal under investigation only if the director first determines the animal does not pose an undue risk to public safety and the owner has the ability to prevent the animal from being at large and from posing a threat to public safety. (Ord. No. 2020-04 § II, 3-20-20).

Chapter 418-4 DISPOSAL SITES¹⁰

418-4.002 Short title.

This chapter shall be known as and may be designated as the "refuse disposal site ordinance of Contra Costa County."

(Ord. 1459: prior code § 4521).

418-4.004 Policy.

It is declared by the board of supervisors that the disposal of refuse is affected by the public interest. Such activity is a useful and necessary occupation and essential to the economic life and welfare of the county. At the same time, such activity has a tendency to and often becomes a nuisance. Refuse stored may be a fire hazard from spontaneous or accidental combustion; refuse disposal sites may become habitats for rodents, mosquitoes and pests; refuse disposal sites may be unsightly and offensive to the senses and may interfere with the comfortable and enjoyable use of land in the vicinity. The public interest, the protection of the public health, safety and welfare, the conservation of property values, and the encouragement of the orderly development of the county require that the establishment of sites for the disposal of refuse be regulated.

(Ord. 1459: prior code § 4521).

418-4.006 Definitions.

For the purposes of this chapter, the following definitions apply:

- (1) "Refuse" means garbage, combustible or noncombustible waste, and putrescible solid or liquid wastes originating from household, business, commercial or industrial activity, including sewage, sewage effluent, sewage sludge, or any admixture of any of these substances with another of them or with any other substance.
- (2) "Refuse disposal site" means any property in the unincorporated territory of the county used or intended for use for disposal of refuse.
- (3) "Person" has the meaning in Section 16- 4.022, but also includes public or governmental entities and agencies and their officers, employees and agents.

¹⁰Note(s)—For the statutory provisions regarding dumping sites, see Health & Saf. C. § 4260.

which contains or may be contaminated with human or animal excrement or offal, and includes wastewater, wastewater effluent, sewage sludge, and/or supernatant liquid.

(Ord. 82-42 § 3: prior code § 4522: Ord. 1459).

418-4.008 Permit—Required.

No person shall establish or maintain a refuse disposal site in this county without first obtaining and holding a valid unrevoked permit therefor, as provided in this chapter.

(Ord. 1459: prior code § 4523).

418-4.010 Permit—Existing sites.

Any permit issued under any prior county ordinance is continued in effect by the operation of this section for the purposes of Section 418-4.008, subject to the provisions of this chapter and subject to such regulations as may be established from time to time for operation under such permits. Existing refuse disposal sites not located in land use districts as herein required may continue as nonconforming uses as specified in Title 8.

(Ord. 1459: prior code § 4524).

418-4.012 Application and fee.

The owner, lessee or operator of any premises located in a heavy industrial (H-I) land use district, a general agricultural (A-2) land use district, or a heavy agricultural (A-3) land use district may apply for a permit, pursuant to this chapter, to the planning department. At the time of filing such application, the applicant shall pay a filing fee of two hundred fifty dollars.

(Ord. 72-89 § 1, 1972: Ord. 1459: prior code § 4525).

418-4.014 Conditions.

- (a) In considering an application for a permit, the planning commission and the board of supervisors shall consider the health, safety, and welfare of the people of the county, the orderly development of property in the county, the preservation of property values, the protection of the tax base, the effect upon the neighborhood, the likelihood of a nuisance being created, the effect upon the master plan of the county, special conditions or exceptional characteristics of the property, and its location or surroundings.
- (b) The board of supervisors, with the advice of the health officer, after hearings shall adopt by resolution regulations for operations of all refuse disposal sites. When such regulations are adopted by resolution of the board of supervisors they shall become requirements of this chapter as though incorporated herein and shall control the operation of all sites. Such regulations after hearings may be modified from time to time as the public interest may require and when notice of such modified regulations has been given they shall constitute conditions for continued operation under permits.
- (c) The planning commission and board of supervisors shall, before granting any permit, request the advice of the county health officer and other appropriate county officers. Such officers shall investigate the application and the proposed site and submit a written report of their findings, recommendations and such special conditions or proposed regulations reasonably necessary to assure that operation of the particular refuse disposal site will not constitute a public nuisance. The board of supervisors in finally approving a permit may prescribe special conditions or special regulations as deemed necessary for the particular site.

-
- (d) No permit shall be issued until the applicant furnishes a surety company bond in the penal sum of ten thousand dollars, the condition of which shall be that if the permittee complies with all the provisions of this chapter, regulations and any conditions which may be imposed upon the permit, the bond is to be void; otherwise, the bond is to be in full force and effect to insure the payment of any fine which may be imposed upon the permittee, any costs of suit to obtain the abatement of a public nuisance, or to pay any judgment rendered against the permittee in favor of the county, all within the limits of the bond. Such bond may be waived by the board of supervisors if the applicant is a public agency. No additional bond shall be required on an expanded site.

(Ord. 1459: prior code § 4526).

418-4.016 Procedure.

- (a) Upon receiving an application the planning department shall schedule a public hearing before the planning commission and shall cause a notice thereof to be posted and published in accordance with the requirements of Chapter 26-2.
- (b) Such hearing may be continued from time to time as determined necessary by the commission but final decision thereon shall be rendered within sixty days from the date of the hearing unless the applicant consents to extension thereof.
- (c) The decision of the planning commission together with findings, reports and special conditions recommended, if any, shall be transmitted to the board of supervisors for final decision.
- (d) The board of supervisors in considering the application may decide the application on the basis of the record submitted by the planning commission by adopting the report as submitted or modify or add conditions. In the event the board of supervisors determines that the public interest requires further investigation, the board of supervisors may order a public hearing and notice thereof shall be given in the same manner as for the hearing before the planning commission.

(Ord. 1459: prior code § 4527).

418-4.018 Inspection.

(Ord. 85-12 § 2 (part)).

418-6.004 Purpose.

The accumulation of solid waste and other filth on land for long periods of time is a matter affecting the public health, welfare and safety. Such accumulation encourages and attracts rodents, flies and other disease-carrying pests, is offensive to the senses, and is a public and private nuisance. Such unhealthy and illegal accumulation of solid waste is less likely to occur when removed from property on a regular and frequent basis. The purpose of this chapter is to prevent such accumulation of solid waste by requiring that owners and other persons in control of all premises from which solid waste is generated provide for its removal and disposal on a regular and frequent basis.

Chapter 418-12 FOOD ESTABLISHMENT LITTER

418-12.002 Findings.

The Environmental Health Division of the Health Services Department enforces the California Uniform Retail Food Facilities Law and issues environmental health permits to food establishments open for business. The board of supervisors finds that the proliferation of trash, litter and sometimes garbage in neighborhoods located near food establishments, including fast food restaurants, is unsightly, unhealthy and has a negative effect on property values. Therefore, the board declares that the provisions in this chapter declaring trash, litter and garbage originating from food establishments to be a public nuisance and requiring abatement of that nuisance, are in the best interest of the public and are necessary to protect public health and safety, promote civic pride, and preserve property values.

(Ords. 2002-48 § 18, 89-49 § 3).

The owner or operator of a food establishment is responsible for the deposit of litter, trash or garbage identifiable as originating from the food establishment, on public property within four hundred feet of any boundary of the premises on which the food establishment is located.

(Ords. 2002-48 § 18, 90-30 § 2, 89-49 § 3, 88-89 § 2).

418-12.008 Nuisance declaration, abatement.

Litter, trash or garbage identifiable as originating from a food establishment on public property within four hundred feet of any boundary of the premises on which the food establishment is located is declared to be a public nuisance. If the director determines that a requirement under Subsection 418 - 20.206(b), has been violated, the director will serve written notice on the responsible person before taking any other enforcement action under this chapter against the responsible person with regard to the violation. The notice will contain all of the following:
 - (1) A description of the violation; and
 - (2) Information about the requirement to properly separate materials into the appropriate containers.
- (d) Notice of Violation.
 - (1) If the director determines that a requirement of this chapter has been violated on or after January 1, 2024, the director may issue a notice of violation to the responsible person. A notice of violation will require the responsible person to correct the violation and contain all of the following information:
 - (A) The date of the violation;
 - (B) The address or location where the violation occurred;
 - (C) The code section violated and description of the violation;
 - (D) A description of how the violation can be corrected;

 - (F) An advisement that the violator may be subject to an administrative fine under this article if the violation is not corrected within the compliance period, and the maximum amount of that fine.

-
- (2) The director may extend the compliance period set forth in a notice of violation if the director finds that extenuating circumstances beyond the control of the responsible person make compliance by the compliance date impracticable. For the purpose of this section, "extenuating circumstances" are:
- (A) Earthquakes, wildfires, flooding, and other emergencies or natural disasters;
 - (B) Delays in obtaining a discretionary permits or other government agency approvals; or
 - (C) Deficiencies in organic waste recycling capacity infrastructure or edible food recovery capacity, if the county is under a corrective action plan under Section 18996.2 of Title 14 of the California Code of Regulations due to those deficiencies.
- (e) Administrative Fines.
- (1) If a violation has not been corrected by the end of the compliance period in a notice of violation, the director may impose an administrative fine on the responsible person.
 - (2) Fine Amounts. The amount of the fine will be \$100.00 for a first violation, \$200.00 for a second violation of the same requirement within one year of the first violation, and \$500.00 for a third or subsequent violation of the same requirement within one year of the first violation.
 - (3) Continuing Violations. Acts, omissions, or conditions in violation of any section of this chapter that continue, exist or occur on more than one day constitute separate violations and offenses on each day. Violations continuing, existing, or occurring on the service date, the compliance date, and each day between the service date and the compliance date are separate violations.
 - (4) An administrative fine will be imposed by means of a notice of fine. The responsible person will be served with the notice of fine as specified in Subsection 418-20.222(j). The notice of fine will include all of the following information:
 - (A) The date of the violation;

The appellant must file a written appeal with the director within fifteen calendar days after the service date of the notice of fine. The written appeal must contain:
 - (A) A brief statement explaining who the appealing party is and what interest the appealing party has in challenging the imposition of the fine; and
 - (B) A brief statement of the material facts that the appellant claims supports the contention that no administrative fine should be imposed or that an administrative fine of a different amount is warranted.
 - (2) Notice of the hearing will be served on the appellant as specified in Subsection 420-20.220(j). The director will set the hearing no sooner than twenty days and no later than forty-five days following the service date of the notice of hearing.
 - (3) An appeal of an administrative fine imposed for violations of this chapter will be heard by a hearing examiner appointed by the director.

-
- (4) At the hearing, the appellant will be given the opportunity to testify, and present written and oral evidence.
 - (5) An appellant's failure to appear at the hearing shall constitute an abandonment of any defense the appellant may have to the administrative fine.
 - (6) After considering the testimony and evidence submitted at the hearing, or after the appellant has failed to appear at the hearing, the hearing examiner will issue a written decision to uphold, modify, or cancel the administrative fine and will list in the decision the reason or reasons for that decision. The decision will be served as specified in Subsection 420-20.222(j).
 - (g) Final Administrative Order. The imposition of the administrative fine becomes a final administrative order at one of the following times:
 - (1) On the date the notice of fine is served, if the responsible person fails to file a written appeal within the time specified; or
 - (2) On the date the written decision by the hearing examiner is served, if the responsible person files a written appeal within the time specified.
 - (h) Payment of the Fine. The fine must be paid to the county within thirty days after the imposition of the administrative fine becomes a final administrative order. Payment of a fine under this article does not excuse or discharge any continuation or repeated occurrence of the violation that is the subject of the notice of fine. The payment of a fine does not bar the county from taking any other enforcement action regarding a violation that is not corrected.
 - (i) Collection. If the fine is not paid within thirty days after the imposition of the fine becomes a final administrative order, the county may collect the fine, the county's collection costs, and interest. An administrative fine accrues interest at the same annual rate as any civil judgment, beginning on the twentieth day after the fine becomes a final administrative order. The county may collect by using any available legal means, including but not limited to the following:
 - (1) The county may file a civil action. If a civil action is commenced, the county is entitled to recover all costs associated with the collection of the fine, including those costs set forth in Code of Civil Procedure Section 1033.5.
 - (2) The county may take such other actions as are allowed for enforcement of a civil judgment as provided for pursuant to the Enforcement of Judgments Law, California Code of Civil Procedure Section 680.010 et seq.
 - (j) Service. All notices or decisions required to be served by this section will be served by any of the methods specified below:
 - (1) First Class Mail. 420-6.808 Permit procedure.

- (a) Application; issuance. An application for a construction permit required under Section 420-6.806 or 420-6.1004 must be submitted to the health officer. The health officer will accept an application for a construction permit only if the application is complete and accompanied by payment of a permit fee established by the board by resolution. The health officer will approve a permit application and issue a permit based solely on compliance with this chapter and the sewage regulations.
- (b) Expiration. Every construction permit issued by the health officer under this chapter becomes void if the work authorized by the construction permit is not commenced within one hundred eighty days from the permit's date, or if the work is suspended or abandoned for one hundred eighty days without excuse satisfying the health officer as being beyond control of and remedy by the permittee. Work under a construction permit will be deemed to have commenced if at least one health officer inspection of construction has been completed within one hundred eighty days of the permit issuance date. Once a construction permit becomes void, a new construction permit must be obtained before any work is commenced or recommenced, and a new permit fee must be paid.
- (c) Renewal. Any permittee holding an unexpired construction permit may apply to the health officer for a permit extension upon a showing of good and satisfactory reason acceptable to the health officer. If the permittee is unable to commence work within the time required by this section, the health officer may extend the time of the permit for a period not exceeding 180 days upon written request by the permittee. No permit may be renewed more than once.
- (d) Permit not approval of violations. The issuance of a construction permit under this chapter will not be construed as a permit for an approval of any violation of this chapter or code or determination that the permittee is the owner of the subject property or otherwise authorized to do the work for which the permit has been issued. No construction permit presuming to give authority to violate or cancel the provisions of this chapter will be valid except insofar as the work that it authorizes is lawful. The issuance of a construction

At the hearing, the licensee will be given the opportunity to testify and to present evidence concerning the notice of suspension hearing. After considering the testimony and evidence submitted at the hearing, the public health director will issue a written decision to suspend or not suspend the tobacco retailer's license. The public health director will list in the decision the reason or reasons for the decision and will list the time period of the tobacco retailer's license suspension, if applicable. The written decision will be served as specified in Section 445-10.022.

Division 450 HAZARDOUS MATERIALS AND WASTES

Chapter 450-2 HAZARDOUS MATERIALS RELEASE RESPONSE PLANS AND INVENTORIES

450-2.002 Purpose.

Health and Safety Code Chapter 6.95 requires, among other things, that any business which handles a specified quantity of a hazardous material establish a business plan for emergency response to a release or threatened release of a hazardous material, which includes an inventory of hazardous materials handled by the business, and report to the administering agency and the State Office of Emergency Services, occurrences of specified releases or threatened releases of hazardous materials.

The purpose of this division is to impose regulations in addition to Health and Safety Code Chapter 6.95, for the protection of the public and emergency rescue personnel in the county, and to facilitate implementation of said chapter, as authorized by Health and Safety Code Section 25500.

(Ords. 88-74 § 2, 87-5 § 2).

450-2.004 Definitions.

The board finds that the handling of consumer products which are not prepackaged, and which contain a hazardous material or a mixture containing a hazardous material, poses the same threat to the public and emergency rescue personnel as the handling of any hazardous material or mixture containing a hazardous material not meant for direct distribution to the general public. For this reason, consumer products which are not prepackaged for direct distribution to, and use by, the general public should be subject to the same regulations as hazardous materials or mixtures thereof, of like quantities.

(b) Business plans required. Notwithstanding Health and Safety Code 25503.5, any business handling a hazardous material or mixture containing a hazardous material, which has a quantity at any one time during the reporting year equal to, or greater than a total weight of five hundred pounds, or a total volume of fifty-five gallons, or two hundred cubic feet at standard temperature and pressure for compressed gas, contained solely in a consumer product for direct distribution to, and use by, the general public, and which is not prepackaged prior to such distribution, shall establish and implement a business plan for emergency response to a release or threatened release of a hazardous material in accordance with Health and Safety Code § 25500 et seq., and the standards and regulations adopted pursuant thereto and in this division.

(Ord. 87-5 § 2).

450-2.010 Business plans.

Business plans shall be submitted on the form and in the manner prescribed by the administering agency. In addition to the information required by state law, business plans shall include:

(Ord. 87-5 § 2).

450-2.014 Appeals.

Any decision of the administering agency may be appealed to the hearing authority, in the manner and according to the procedures for appeals from the permit authority in decisions concerning underground storage of hazardous substances, set forth in Sections 450-6.802 through 450-6.806, inclusive, of this code.

(Ord. 96-49 § 2, 87-5).

450-2.016 Report required.

- (a) In addition to the releases or threatened releases of hazardous materials required to be reported under Health and Safety Code Section 25507, a handler shall, immediately upon discovery, report to the administering agency, any release of a hazardous material reportable under any law to any federal, state or other local regulatory agency.
- (b) For purposes of this section, the term "hazardous material" includes any material, substance or chemical defined as a hazardous material, hazardous substance or hazardous waste under any law requiring report of a release of such material, chemical or waste to any federal, state or other local regulatory agency.

Chapter 450-8 RISK MANAGEMENT

450-8.002 Background and findings.

The board of supervisors of Contra Costa County finds as follows:

- (a) Recent incidents in Contra Costa County at industrial chemical, petrochemical, and oil industry facilities have prompted the consideration of reviews, inspections, and audits that supplement existing federal and state safety programs and the imposition of additional safety measures to protect public health and safety from accidental releases.
- (b) Section 112(r)(7) of the Clean Air Act (42 U.S.C.A. Section 7412(4)) required the Federal Environmental Protection Agency ("EPA") to promulgate the rule known as the "Risk Management Program," which is intended to prevent accidental releases of regulated substances, as defined in the federal program, and reduce the severity of those releases that do occur. All facilities subject to this federal regulation must prepare a risk management plan (RMP) based on a risk management program established at the facility, that includes a hazard assessment of the facility, an accidental release prevention program, and an emergency response program (40 CFR Section 68). The facility must submit the Federal RMP to the

EPA by June 21, 1999 (40 CFR Section 68-150-68.185). The federal RMP will be available to state and local government and the public.

- (c) The California Health and Safety Code Article 2 (Section 25531 et seq.) of Chapter 6.95 was amended effective January 1, 1997 to implement the federal EPA's risk management program rule with certain state-specific amendments. The state's risk management program is known as the California Accidental Release Prevention (CalARP) Program.
- (d) The county recognizes that regulatory requirements alone will not guarantee public health and safety, and that the public is a key stakeholder in chemical accident prevention, preparedness, and response at the local level. Preventing accidental releases of regulated substances is the shared responsibility of industry, government and the public. The first steps toward accident prevention are identifying the hazards and assessing the risks. Once information about chemical hazards in the community is openly shared, industry, government, and the community can work together towards reducing the risk to public health and safety.
- (e) The success of a safety program is dependent upon the cooperation of industrial chemical and oil refining facilities within Contra Costa County. The public must be assured that measures necessary to prevent incidents are being implemented, including changes or actions required by the department or the stationary source that are necessary to comply with this chapter.

(Ord. 98-48 § 2)

450-8.004 Purpose and goals.

- (a) The purpose of this chapter is to impose regulations which improve industrial safety by:
 - (1) Requiring the conduct of process hazard analyses for covered processes handling hazardous materials not covered by the federal or state accidental release prevention programs;
 - (2) Requiring the review of action items resulting from process hazard analyses and requiring completion of those action items selected by the stationary source for implementation within a reasonable time frame;
 - (3) Requiring the review of accidental release prevention efforts of stationary sources and providing for the conduct of investigations and analyses for the determination of the root cause for certain incidents;
 - (4) Providing review, inspection, auditing and safety requirements that are more stringent than those required in existing law and regulations;
 - (5) Providing for public input into the safety plan and safety program and public review of any inspection and audit results;
 - (6) Facilitating cooperation between industry, the county, local fire departments, Cal/OSHA, EPA, other agencies that have oversight of refineries, and the public in the prevention and reduction of incidents at stationary sources;
 - (7) Expanding the application of certain provisions of the federal and state accidental release prevention programs to processes not covered by the federal or state accidental release prevention programs;
 - (8) Verifying that an approved security and vulnerability study is performed, and that the recommendations are addressed within a reasonable time frame;
 - (9) Requiring the development and implementation of a written human factors program; and

-
- (10) Preventing and reducing the number, frequency, and severity of accidental releases in the county to the greatest extent feasible.

(Ord. No. 2014-07, § III, 6-17-14; Ords. 2006-22 § 2, 98-48 § 2)

450-8.006 Authority.

The ordinance codified in this chapter is adopted by the county pursuant to its police power for the purposes of protecting public health and safety by prevention of accidental releases of hazardous materials and to assure protection of the environment.

(Ord. 98-48 § 2)

450-8.008 Administration.

 - (D) Process Safety Performance Indicators.
 - (i) No later than September 30, 2014, the department shall develop a list of stationary source activities and other events to be measured by each stationary source in order to evaluate the performance of process safety systems. This list is the "event list." Each stationary source shall measure these activities and other events and document the measurements. These documented measurements are "common process safety performance indicators." No later than June 30 of each year after 2014, each stationary source will report to the department the common process safety performance indicators recorded by the stationary source in the prior calendar year. The department will include these common process safety performance indicators in the annual performance review and evaluation report required by Section 450-8.030.
 - (ii) The department shall review the event list at least once every three years to determine if it should be revised. If the department determines that a new activity or other event will be added to the event list, stationary sources shall report to the department the new common process safety performance indicator(s) by June 30 of the next year following the revision of the event list.
 - (iii) No later than September 30, 2014, each stationary source shall develop a list of site-specific activities and other events that it will measure in order to evaluate the performance of its process safety systems. Each stationary source shall document these site-specific process safety performance indicators and make this documentation available to the department during an audit or inspection and upon request.
 - (b) Human Factors Program.
 - (1) Stationary sources shall develop a written human factors program that follows the human factors guidance document developed or adopted by the department. The program shall be developed within one-year following the issuance of the county guidance documents, the effective date of the ordinance codified in this section, or as otherwise allowed by this chapter, whichever is later. The human factors program shall address:
 - (A) The inclusion of human factors in the process hazards analysis process;

-
- (B) The consideration of human systems as causal factors in the incident investigation process for major chemical accidents or releases or for an incident that could reasonably have resulted in a major chemical accident or release;
 - (C) The training of employees in the human factors program;
 - (D) Operating procedures;
 - (E) Maintenance safe work practice procedures and maintenance procedures for specialized equipment, piping, and instruments, no later than June 30, 2011; and
 - (F) The requirement to conduct a management of change prior to staffing changes for changes in permanent staffing levels/reorganization in operations, maintenance, health and safety, or emergency response. This requirement shall also apply to stationary sources using contractors in permanent positions in operations and maintenance. Prior to conducting the management of change, the stationary source shall ensure that the job function descriptions are current and accurate for the positions under consideration. Staffing changes that last longer than ninety days are considered permanent. Temporary changes associated with strike preparations shall also be subject to this requirement. Employees and their representatives shall be consulted in the management of change.
- (2) Employees and their representatives shall participate in the development of the written human factors program.
 - (3) The program shall include, but not be limited to, issues such as staffing, shiftwork and overtime.
 - (4) A description of the human factors program subsections (b)(1) through (b)(3) shall be included in the safety plan prepared by the stationary source.
- (c) Root Cause Analysis and Incident Investigation.
- (1) Stationary sources shall conduct a root cause analysis for each major chemical accident or release which occurs after the effective date of the ordinance codified in this chapter. Stationary sources shall periodically update the department on facts related to the release or incident, and the status of a root cause analysis conducted pursuant to this section, at meetings scheduled by the department in cooperation with the stationary source. To the maximum extent feasible, the department and the stationary source shall coordinate these meetings with other agencies with jurisdiction over the stationary source. Within thirty days of completing a root cause analysis performed pursuant to this section, the stationary source shall submit to the department a final report containing that analysis, including recommendations to be implemented to mitigate against the release or incident reoccurring, if any, and a schedule for completion of resulting recommendations. The stationary source shall also comply with subsection (i)(1)(E) if applicable. The department may require the stationary source to submit written, periodic update reports at a frequency not to exceed every thirty days until the final report is submitted. The methodology of the root cause analysis shall be one of the methodologies recognized by the Center for Chemical Process Safety or shall be reviewed by the department to determine substantial equivalency.
 - (2) The department may elect to do its own independent root cause analysis or incident investigation for a major chemical accident or release. If the department elects to conduct a root cause analysis or incident investigation the stationary source shall cooperate with the department by providing the following access and information in a manner consistent with the safety of department and stationary source personnel and without placing undue burdens on the operation of the stationary source:

-
- (i) Allow the department to investigate the accident site and directly related facilities such as control rooms, physical evidence and where practicable the external and internal inspection of equipment;
 - (ii) Provide the department with pertinent documentation; and
 - (iii) Allow the department to conduct independent interviews of stationary source employees, subject to all rights of the stationary source and employees to be represented by legal counsel and/or management and union representatives during such interviews. If in the course of the department's root cause analysis or incident investigation access is required to areas of the stationary source which in the judgment of the stationary source requires personnel entering the area to use protective equipment and/or have specialized training the department shall provide its personnel with such equipment and training. To the maximum extent feasible, the department shall coordinate any root cause analysis or incident investigation it conducts with investigations conducted by other agencies with jurisdiction over the stationary source to minimize the adverse impacts on the stationary source and/or its employees.
- (3) No part of the conclusions, findings or recommendations of the root cause analysis conducted by the department or stationary source, or incident investigation conducted by the department, relating to any major chemical accident or release or the investigation thereof shall be admitted as evidence or used in any action or suit for damages arising out of any matter mentioned in such report.
- (4) If the department issues a root cause analysis report, the stationary source shall comply with subsection (i)(1)(E) if applicable.
- (d) Process Hazard Analysis/Action Items.
- (1) Process hazard analyses will be conducted for each of the covered processes according to one of the following methods: What-if, checklist, what-if/checklist, hazard and operability study (HAZOP), failure mode and effects analysis (FMEA), fault tree analysis or an appropriate equivalent methodology approved by the department prior to conducting the process hazard analysis. The PHA shall be appropriate to the complexity of the covered process and shall identify, evaluate, and control the hazards involved in the covered process. The PHA shall address: the hazards of the process; the identification of any previous incident which had a likely potential for catastrophic consequences; engineering and administrative control applicable to the hazards and their interrelationships such as appropriate application of detection methodologies to provide early warning of releases (acceptable detection methods might include process monitoring and control instrumentation with alarms, and detection hardware such as hydrocarbon sensors); consequences of failure of engineering and administrative controls; covered process and stationary source siting; human factors; and a qualitative evaluation of a range of the possible safety and health effects of failure of controls. Process hazard analyses should also include consideration of external events except for seismic analyses, which are only required when criteria listed in subsection (d)(2) are satisfied. All process hazard analyses shall be performed by a team with expertise in engineering and process operations, and the team shall include at least one employee who has experience and knowledge specific to the process being evaluated. Also, one member of the team must be knowledgeable in the specific PHA methodology being used.
 - (2) The process hazard analyses shall be conducted within one-year of the effective date of the ordinance codified in this chapter and no later than the submittal date of the safety plan. Previously completed process hazard analyses that comply with the California Code of Regulations, Title 8, Section 5189, and/or the California Code of Regulations, Title 19, Section

2760.2 are acceptable for the purposes of this chapter. Process hazard analyses shall be updated and revalidated at least once every five years after completion of the initial process hazard analysis. Updated and revalidated process hazard analyses completed to comply with the California Code of Regulations, Title 8, Section 5189, and/or the California Code of Regulations, Title 19, Section 2760 are acceptable for meeting the update and revalidation requirement. Seismic events shall be considered for processes containing a substance defined in the California Code of Regulations, Title 19, Chapter 4.51, Section 2770.5, if the distance to the nearest public receptor for a worst case release scenario specified by the California Code of Regulations, Title 19, Chapter 4.5, Section 2750.3 is within the distance to a toxic or flammable endpoint as defined in California Code of Regulations, Title 19, Chapter 4.5, Section 2750.2(a).

- (3) For all covered processes, the stationary source shall document the decision made to implement or not implement all PHA recommended action items and the results of recommendations for additional study. The stationary source shall complete recommended actions from the initial PHA and from PHA revalidations, identified by the process hazard analysis and selected for implementation by the stationary source as follows: all actions not requiring a process shutdown shall be completed within one-year after the completion of the PHA; all actions requiring a process shutdown shall be completed during the first regularly scheduled turnaround of the applicable process subsequent to one-year after the completion of the PHA unless the stationary source demonstrates to the satisfaction of the department that such a schedule is infeasible. For recommended actions not selected for implementation, the stationary source shall include the justification for not implementing the recommended action. For all covered processes, the stationary source shall retain documentation of closure, and any associated justifications, of actions identified by the PHA. The stationary source shall communicate the actions to operating, maintenance, and other employees whose work assignments are in the process and who may be affected by the recommendations or actions.

(e) Accident History.

- (1) The stationary source shall include an accident history in the safety plan of all major chemical accidents or releases from June 1, 1992, through the date of safety plan submittal to the department. For each major chemical accident or release the stationary source shall report the following information, to the extent known:

Date, time and approximate duration of the release;

Chemicals released;

Estimated quantity released in pounds;

Type of release event and its source;

Weather conditions at the time of the release;

On-site impacts;

Known off-site impacts;

Initiating event and contributing factors;

Root cause(s);

Whether off-site responders were notified; and

Operational or process changes that resulted from the investigation of the release.

-
- (2) The stationary source shall annually submit a report of the accident history to the department. The first report shall be due two years after the effective date of the ordinance codified in this chapter, and subsequent reports shall be due by June 30th of each year.
- (f) Certification. The owner or operator shall submit in the safety plan a single certification that, to the best of the signer's knowledge, information, and belief formed after reasonable inquiry, the information submitted is true, accurate, and complete.
- (g) Security and Vulnerability Assessment. Each stationary source shall perform and document a security and vulnerability assessment as defined in the Contra Costa County CalARP program guidance document, by June 30, 2007, and at least once every five years after the initial assessment, or as prescribed by federal regulation. The stationary source shall document its process for assuring that recommendations are addressed.
- (h) Safety Culture Assessment. The stationary source shall conduct a safety culture assessment. The assessment shall be based upon a method listed in the Contra Costa County CalARP program guidance document or shall be reviewed by the department to determine substantial equivalency. The initial assessment shall be performed by one-year following the revisions to the industrial safety ordinance guidance document that addresses the safety culture assessment, and at least once every five years thereafter. The safety culture assessment will be reviewed during the audit and inspection of the stationary source. The department may perform its own safety culture assessment after a major chemical accident or release or the occurrence of any incident that could reasonably have led to a major chemical accident or release, or based on department audit results of the stationary source.
- (i) Inherently Safer Systems Analysis.
- (1) A stationary source shall conduct an inherently safer systems analysis (ISSA) for each covered process as follows:
- (A) The stationary source shall conduct an ISSA on existing covered processes every five years.
- (B) The stationary source shall conduct an ISSA in the development and analysis of recommended action items identified in a PHA.
- (C) Effective September 30, 2014, whenever a major change is proposed at a facility that could reasonably result in a major chemical accident or release, the stationary source shall conduct an ISSA as part of a management of change review required by subsection (a)(6)(B).
- (D) If an incident occurs on or after September 30, 2014, an investigation of the incident is conducted pursuant to subsection (a)(9)(A) and the incident investigation report recommends a major change that could reasonably result in a major chemical accident or release, the stationary source shall commence and complete an ISSA of the recommended major change as soon as administratively practicable after completion of the incident investigation report.
- (E) If an incident occurs on or after September 30, 2014, a root cause analysis of the incident is conducted as required by subsections (c)(1) or (c)(2), and the root cause analysis report or an associated incident investigation report recommends a major change that could reasonably result in a major chemical accident or release, the stationary source shall commence and complete an ISSA of the recommended major change as soon as administratively practicable after completion of the root cause analysis report.
- (F) The stationary source shall conduct an ISSA during the design of new processes, process units and facilities. Immediately upon completion of the ISSA report referred to in

subsection (i)(2), the stationary source shall advise the department of the availability of the ISSA report.

- (2) The stationary source shall prepare a written report documenting each ISSA within thirty days of completion of the ISSA and make the report available to the department during an audit or inspection and upon request. The ISSA report must contain, at a minimum, the following information:
 - (A) Identification and a description of the inherently safer system(s) analyzed in the ISSA;
 - (B) A description of the methodology used to analyze the inherently safer systems(s);
 - (C) The conclusions of the analysis;
 - (D) The rationale for the conclusions; and
 - (E) An action plan, including a timeline to implement the inherently safer system(s) recommended in the ISSA.
 - (3) The stationary source shall select and implement each inherently safer system identified in an ISSA report to the greatest extent feasible and as soon as administratively practicable. If a stationary source concludes that implementation of an inherently safer system is not feasible, the stationary source shall document the basis for this conclusion in meaningful detail. The documentation shall include sufficient evidence to demonstrate to the department's satisfaction that implementing the inherently safer system is not feasible and the reasons for this conclusion. A claim that implementation of an inherently safer system is not feasible shall not be based solely on evidence of reduced profits or increased costs.
- (j) Safeguard Protection Analysis.
- (1) Effective September 30, 2014, a stationary source shall conduct a Layer of Protection Analysis or an alternative type of analysis approved by the department that uses a quantitative, qualitative or equivalent semi-quantitative method to determine the effectiveness of existing safeguards and safeguards recommended in a PHA to reduce the probability and/or severity of a catastrophic release. The safeguard protection analysis may be a standalone analysis or incorporated within a PHA.
 - (2) The stationary source shall complete the safeguard protection analysis no later than June 30, 2019. A safeguard protection analysis that was completed by a stationary source within five years prior to June 30, 2019, in accordance with the standards set forth in subsection (j)(1), will be deemed to comply with this requirement. The stationary source shall update and revalidate the safeguard protection analysis at least once every five years.

The department shall provide to the stationary source a written notice of deficiencies, if any. The stationary source shall have sixty calendar days from receipt of the notice of deficiencies to make any corrections. The stationary source may request, in writing, a one-time thirty-day calendar day extension to correct deficiencies. By the end of the sixty calendar days or any extension period, the stationary source shall resubmit the revised safety plan to the department. After the department determines that the safety plan is complete, the department shall schedule a public meeting on the stationary source's safety plan to explain its contents to the public and take public comments. The department shall schedule a public meeting on the stationary source's safety plan during the forty-five day comment period. The public meetings shall be held in the affected community on evenings or weekends. The department shall respond in writing to all written comments received during the forty-five day comment period and to all oral comments received and not addressed at the public meeting. The department shall make portions of the safety plan, which are not protected trade secret information, available to the public for the public meeting.
- (b) (1) The department shall, within one-year of the submission of the stationary source's safety plan, conduct an initial audit and inspection of the stationary source's safety program to determine compliance with this chapter. Based upon the department's review of the safety plan and the audit and inspection of the stationary source, the department may require modifications or additions to the safety plan submitted by the stationary source, or safety program to bring the safety plan or safety program into compliance with the requirements of this chapter. Any determination that modifications or additions to the safety plan or safety program are required shall be in writing, collectively referred to as the "preliminary determination." The preliminary determination shall explain the basis for the modifications or additions required to bring the safety plan or safety program into compliance with the requirements of this chapter and provide a timetable for resolution of the recommendations. The preliminary determination shall be mailed to the stationary source.
- (2) The stationary source shall respond in writing to the preliminary determination issued by the department. The response shall state that the stationary source will incorporate into the safety plan or safety program the revisions contained in the preliminary determination or shall state that the stationary source rejects the revisions; in whole or in part. For each rejected revision, the stationary source shall explain the basis for rejecting such revision. Such explanation may include substitute revisions.
- (3) The stationary source's written response to the department's preliminary determination shall be received by the department within ninety days of the issuance of the preliminary determination or such shorter time as the department specifies in the preliminary determination as being necessary to protect public health and safety. - (c) Based upon the department's preliminary determination, review of the stationary source's responses and review of public comments on the safety plan, the preliminary determination and the stationary source's responses, the department may require modifications or additions to the safety plan submitted by the stationary source or safety program to bring the safety plan or safety program into compliance with the requirements of this chapter. Any determination that modifications or additions to the safety plan or safety program are required, and any determination that no modifications or additions to the safety plan or safety program are required shall be in writing (collectively referred to as "final determination"), shall be mailed to the stationary source and shall be made available to the public. A copy of the final determination report will be sent to Cal/OSHA, EPA and the local fire department that has oversight of the stationary source. The department may not include in a final determination any requirements to a safety plan or safety program that would cause a violation of, or conflict with, any state or federal law or regulation or a violation of any permit or order issued by any state or federal agency.
- (d) Within thirty days of the department's final determination, the stationary source and/or any person may appeal the final determination to the board of supervisors pursuant to Chapter 14-4 by a verified written notice of appeal filed with the clerk of the board of supervisors and payment of the applicable appeal fee. The notice shall state the grounds for any such appeal, including (i) the reasoning that the appeal is necessary because the stationary source is in compliance with this chapter, or (ii) the reasoning that the appeal is necessary to bring the stationary source into compliance with this chapter. In acting on the appeal, the board shall have the same authority over the final determination as the department. The board may require modifications or additions to the safety plan or safety program to bring the safety plan or safety program into compliance with the requirements of this chapter. The board may not include in its decision on the final determination any requirements to a safety plan or safety program that would cause a violation of, or conflict with, any state or federal law or regulation or a violation of any permit or order issued by any state or federal agency. The decision of the board of supervisors shall be final with respect to the final determination.
- (e) The safety plan shall be valid for a period of three years from the date of receipt by the department and shall be reviewed and updated by the stationary source every three years pursuant to the requirements of this chapter. The department shall review and audit the stationary source's compliance with the provisions of Section 450-8.016 at least once every three years. The department may audit the stationary source based upon any of the following criteria: accident history of the stationary source, accident history of other stationary sources in the same industry, quantity of regulated substances present at the stationary source, location of the stationary source and its proximity to the public and environmental receptors, the presence of specific regulated substances, the hazards identified in the safety plan, a plan for providing neutral and random oversight, or a complaint from the stationary source's employee(s) or their representative. The stationary source shall allow the department to conduct these inspections and audits. The department, at its option, may select an outside consultant to assist in conducting such inspection.
- (g) Within thirty days of a major chemical accident or release the department may commence an incident safety inspection with respect to the process involved in the incident pursuant to the provisions of Section 450-8.016(c).
- (h) (1) Based upon the department's audit, safety inspection or an incident inspection, the department may require modifications or additions to the safety plan submitted by the stationary source or safety program to bring the safety plan or safety program into compliance with the requirements of this chapter. Any

determination by the department shall be in writing and shall be mailed to the stationary source (referred to as the "notice of findings"). The stationary source shall have sixty calendar days from receipt of the notice of findings to make any corrections. The stationary source may request, in writing, a one-time thirty-day calendar day extension to make corrections. The department may not include in its notice of findings requirements to a safety plan or safety program that would cause a violation of, or conflict with, any state or federal law or regulation or a violation of any permit or order issued by any state or federal agency. The notice of findings made by the department will be available to the public.

- (2) Within thirty days of the department's notice of findings, the stationary source and/or any person may appeal the notice of findings to the board of supervisors pursuant to Chapter 14-4 by a verified written notice of appeal filed with the clerk of the board of supervisors and payment of the applicable appeal fee. The appeal must state the grounds for any such appeal, including (i) the reasoning that the appeal is necessary because the stationary source is in compliance with this chapter, or (ii) the reasoning that the appeal is necessary to bring the stationary source into compliance with this chapter. In acting on the appeal, the board shall have the same authority over the notice of findings as the department. The board may require modifications or additions to the safety plan or safety program to bring the safety plan or safety program into compliance with the requirements of this chapter. The board may not include in its decision on the notice of findings any requirements to a safety plan or safety program that would cause a violation of, or conflict with, any state or federal law or regulation or a violation of any permit or order issued by any state or federal agency. The decision of the board of supervisors shall be final with respect to the notice of findings.
- (i) Nothing in this section shall preclude, limit, or interfere in any way with the authority of the county to exercise its enforcement, investigatory, and information gathering authorities under any other provision of law nor shall anything in the chapter effect or diminish the rights of the stationary source to claim legal privileges such as attorney client privilege and/or work product with respect to information and/or documents required to be submitted to or reviewed by the department.

52-3.101 Recodification.

This chapter recodifies in amended form the existing provisions on these matters (with some additions); permits and licenses thereunder continue in effect hereunder by virtue only of this clause. Such continuing permits and licenses expire when they would originally have expired, subject to the restrictions and requirements of this chapter, and in no event are they valid beyond the first anniversary of the effective date of this chapter.

(Ord. 82-44, § 52-3.113, § 52-3.323, & Gov C. § 9606).

52-3.105 Valid license/permit.

As used in this chapter, "valid license," "valid cardroom license," "valid permit," and "valid work permit" mean cardroom licenses and cardroom work permits regulated by this chapter which are currently and wholly valid, unexpired, unrevoked and unsuspended, and which have had all applications and disclosures fully and truthfully made and kept up to date and all fees paid, and the licensees and permittees of which are not violating any provisions of this chapter.

(Ord. 82-44, see § 52.3.319 (c)).

52-3.107 Prohibited types of gambling.

The application shall be in a form acceptable to the sheriff, but shall include the name of the proposed game and a detailed description of how the game is played. The application shall be accompanied by an application fee of five hundred dollars. The sheriff shall review and investigate the application to determine if the game is not violative of California law. The review and investigation shall be completed within ten business days of the submittal of the application, unless the sheriff notifies the applicant in writing before the expiration of the ten business days that an additional period or periods is necessary to complete the review and application. Play of the game in the applicant's cardroom is permitted upon the applicant's receipt of the sheriff's written notice. If the game is violative of California law, the sheriff shall so notify the applicant in writing, setting forth the grounds and any legal authorities in support of that conclusion.

Any change required by this chapter to be noted on the license, permit, or application, or noted in required supplementary information, constitutes a termination of the license or permit except for the purposes of Section 52-3.905 and of paying fees.

- (c) Disuse Voids. A license becomes void upon a three hundred-day absence or suspension of operations allowed by it, regardless of the reason therefor; except that the board may, during the three hundred days or extension(s), extend the time by increments of not more than one hundred more days for good cause shown.

(Ords. 95-61, 82-62 § 1, 82-44, 76-67 § 2, 1779, 1506, 1464: § 52-2.616, § 52-2.618(a); prior code § 5205.5, 5206).

52-3.320 Fees.

- (a) Payments.
 - (1) Each licensee, licensed pursuant to the provisions of this chapter, shall pay to the county thirteen and one-half percent of the total monthly gross revenue of the cardroom so licensed. Payment for any

calendar month shall be made on or before the 15th day of the succeeding calendar month. "Gross revenue" means and includes the total amounts received from any and all revenue derived from cardroom activities licensed pursuant to this chapter and conducted on or within the premises.

- (2) For a licensee of an existing and operational cardroom in effect before December 30, 1995, the annual cardroom license fee paid to the county shall be limited to five hundred dollars per table. If a cardroom existing and operational before December 30, 1995 thereafter substantially enlarges cardroom operations, within county limits on cardrooms, by adding more than fifty percent additional tables or square footage to the cardroom activities area, and the sheriff determines that a substantial enlargement has occurred, the fees for cardrooms commencing on or after December 30, 1995 shall apply.
- (b) Deposit. In the case of a new applicant, a deposit for the first six months' license fee in the amount of sixty thousand dollars shall be paid in advance to the county upon issuance of the license. The sum of ten thousand dollars shall be credited each month against the payment due under subsection (a) of this section. The advance license fees shall become the absolute property of the county and shall not be refunded and shall not be prorated in any manner whatsoever, and in the event of the cessation of such cardroom, whether voluntary or involuntary, no refund of the advance fees shall be made.
- (c) Subsequent Payments. Following the first twelve months of operation, regardless of the total monthly gross revenue, the minimum monthly amount paid by licensee to the county shall be at least one hundred thousand dollars.
- (d) Tournaments. In the event any tournament is held at the cardroom, licensee shall pay to the county ten percent of the total entry fees in addition to the total monthly fee specified herein.
- (e) Noncardroom Business. For any noncardroom business operation owned by the licensee and on the premises, including, but not limited to, food and beverage service or rental of facilities, licensee shall pay to the county any and all applicable business license taxes pursuant to Section 64-14.202 et seq., as may be adjusted or amended.
- (f) Monthly Reports. Each licensee shall file with the county, before the 15th day of each calendar month, a reporting form under penalty of perjury and approved by the county showing the true and correct amount of gross revenue derived from the licensed cardroom for the preceding calendar month. Such statement shall be accompanied by payment of the correct amount of license fee due and owing in accordance with this section. Such sums correctly reflecting the fees payable for the preceding month shall be accepted by the county, subject, however, to the future right of the county to audit the matters referred to in any such statement and to determine the correctness of the figures and the amounts payable to the county pursuant to the provisions of subsections (g) and (h) of this section.
- (g) Accountant Review. Licensee shall arrange, at licensee's own expense, on an annual basis, for a certified public accountant approved by the county to audit the books, documents, records and accounts relating to the gross revenue of the licensee at the end of the licensee's fiscal year. The report of such accountant and all work papers utilized in the preparation of such audit shall be submitted to the county. The county shall review the report and work papers and may require any further information from the licensee. The county may submit such documents and information to a second certified public accountant for review. The expense of such second review shall be shared equally between the county and licensee.
- (h) Audits. In addition to the annual audit required in subsection (g) of this section, the books, records and accounts of any cardroom may be audited by the county at any time. Upon request of the county, the licensee shall provide to the county copies of licensee's tax returns, which shall be kept confidential and shall not be disclosed other than as necessary to carry out the purposes of this section. In the event a county-conducted audit discloses an underpayment to the county in excess of two percent in any one month, the full cost of the audit shall be borne by the licensee. Any information obtained pursuant to the provisions of

this section or any statement filed by the licensee shall be deemed confidential and shall not be subject to public inspection unless otherwise required.

- (i) Failures. Any failure or refusal of licensee to timely make and file any required statements, or to pay any such fees when the same are due and payable in accordance with the provisions of this chapter, or to permit inspections of such books, records and accounts of such licensee, shall constitute full and sufficient grounds to revoke or suspend the license as provided in this chapter. Penalties for late payment shall be imposed as follows by the county: a twenty-five percent penalty for an annual license fee which is not paid within thirty days of the due date; and, any person who fails to pay any other license fee within thirty days of the due date shall pay interest at the rate of one and one-half percent per month, or fraction thereof, on the amount of the fees and penalties from the date on which the license fee is delinquent until paid.
- (j) Legal Remedies. The amount of any licensee fee, penalties and interest imposed by the provisions of this chapter shall be deemed a civil debt to the county. The county may pursue any legal remedies against licensee for the collection of any delinquent license fee, penalties, interest, liens, and all administrative costs incurred in connection therewith, including attorneys' fees.
- (k) No Refunds. Any and all fees paid by the applicant and/or licensee shall become the absolute property of the county and shall not be refunded to any such applicant and/or licensee whether or not such license is issued, and such fees shall not be prorated in any manner whatsoever, and in the event of the cessation of such cardroom, whether voluntary or involuntary, no refund of the advance fees shall be made whatsoever.
- (l) Different Rates. The board may specify a different rate for any of the fees imposed under this chapter if it finds that doing so is necessary to be competitive with other jurisdictions or to be consistent with current practices in other jurisdictions where cardrooms operate.
- (m) Except as otherwise provided, the provisions in this section shall be administered by the county department designated by the county administrator.
- (n) Notwithstanding any other provision of this chapter and except subsections (a)(2), (e), (i), (j), (l) and (m), this section does not apply, even upon a transfer or renewal of a license, to a licensed cardroom existing and operational before December 30, 1995, unless the cardroom's operations are substantially enlarged on or after December 30, 1995.

(Ords. 98-28, 95-61, 82-62 § 1, 82-44, 76-67 § 2, 1779, 1506, 1464: § 52-2.616, § 52-2.618(a): prior code § 5205.5, 5206).

52-3.321 Renewal.

- (a) The sheriff shall notify each licensee at least seventy days before the license expiration date.
- (b) Nevertheless, a licensee desiring to have ~~his~~ the licensee's license renewed, shall apply therefor sufficiently (at least sixty days) in advance of its expiration date (anniversary of issuance) to allow its processing as a new application before the expiration of the license sought to be renewed. A renewal application shall otherwise be handled with the same processing, fees, approval, or disapproval, etc., as if it were a wholly new application.
- (c) Form and Procedure.
 - (1) The sheriff shall provide a form of verified application or designate such information as the sheriff requires, which can be in the form of a verified statement that there has been no change (or only specified changes) in the latest information in the sheriff's file.
 - (2) The renewal application shall be processed as an original application, but the sheriff may omit or simplify procedures ~~the sheriff~~ he deems unnecessary in each case, such as posting notices in the

neighborhood. The sheriff shall recommend renewal or nonrenewal to the board, and shall schedule a hearing thereon before the board only if important evidence needs to be presented thereat; and the board shall order the renewal or nonrenewal.

- (3) Renewal is considered normal in the absence of complaints about deviations from the provisions of this chapter involving the cardroom, licensee, or anyone associated with its business or operation. If the board approves the renewal, the sheriff shall note on the license certificate that it is a renewal. A renewed license is otherwise subject to all the provisions of this chapter concerning cardroom licenses, and may itself be renewed.

(Ords. 82-62 § 2, 82-44, 1861, 1508: § 52-2.612(c): prior code § 5202(c)).

52-3.323 Transfer.

- (a) General. The board may allow a cardroom license that has been continuously valid since January 1, 1976, to be transferred to another licensee. This transferability is entirely subject to the sheriff's prior approval (as to all the requirements of this chapter) of the transferee as though ~~he~~ the transferee were a new applicant; it does not create any right in any license (as either a prospective transferor or prospective transferee) which can be reached by or transferred or assigned to a creditor, spouse, heir, or otherwise, but is at most a mere contingent expectancy wholly dependent on prior official approval and on compliance with all the requirements of this chapter (including future amendments).
- (b) Procedure. An application for transfer shall follow the procedure for other license applications, including the application fee, investigation, report, notice, hearing, findings and conditions.
- (c) New License; Fee. If the transfer is approved, the new license is for the remainder of the one-year life of the former license, and no license fee is due but a transfer fee of one thousand dollars is payable before the new license issues.
- (d) Transfer Defined. "Transfer" means any change required by this chapter in the information on the application or license or in any other disclosure, concerning the identity of any licensee (except name changes caused by marriage or dissolution) or the location ownership or character of the premises. It includes the addition of one or more names to the license, whether or not already named licensee(s) remain(s).

(Ords. 82-44, 76-67 §§ 1, 2, 1779, 1506, 1458: § 52-2.414, § 52-2.68: prior code §§ 5206, 5212: C.C. Opns. 77-16, 77-109).

- (c) Cause. Any violation of requirements in, or pursuant to, this chapter is cause for suspension or revocation.
- (d) Effect. Neither suspension nor revocation affects any fee already due or paid, nor does it extend the life of any license. A revoked license is voided, and cannot be transferred, reinstated, renewed or re-issued; but a

suspended license may be reinstated as a valid license upon such conditions as the board may impose, in its discretion under this chapter, including penalty fees not exceeding ordinary fees for a new license. Such board actions are additional to, and not a limitation on, other civil and criminal proceedings under this code or state law.

- (b) Variance Allowable. Upon such notice and payment of a fee which the sheriff estimates to be required to pay for processing the matter (not exceeding the fee on a new application), the sheriff and/or board shall process this as though it were an application for a new license or permit, and shall similarly respectively investigate, report, recommend, hear, and deny, modify condition or approve it.
- (c) Enforcement Postponed. During the pendency of such an application, promptly made and diligently pursued, failures to comply with legal requirements or prohibitions (as to matters which are within the sheriff's or board's discretion to impose or to grant variances from) shall not be deemed violations of this code; but this does not extend the life of any license or permit or affect preapplication violations.

(Ords. 82-44, 77-54: § 52-2.413).

Division 54 PUBLIC ORDER

Chapter 54-2 CURFEW FOR MINORS¹

54-2.002 Title.

This chapter is known as the Curfew for Minors Ordinance of Contra Costa County.

(Ord. No. 2012-05, §§ I and II, 2-28-12)

54-2.004 Purpose.

- (a) Contra Costa County has a compelling interest in reducing the rate of juvenile crime and victimization. Minors are particularly vulnerable to violence and pressure to participate in criminal activity due to their limited ability to make informed and mature decisions. Enactment and enforcement of a daytime and nighttime juvenile curfew reduces the amount of crime by and against juveniles in the county (especially violent crime committed by and perpetrated against juveniles) and protects juveniles from harm.
- (b) A daytime curfew furthers the county's compelling interest in prohibiting daytime presence in public places by those subject to compulsory education. State law requires all persons between the ages of six and eighteen to attend school. The community as a whole suffers when a minor student is not attending school, as truancy often leads to vandalism, petty theft, daytime burglaries, damage to public property, and other criminal activity.
- (c) A daytime and nighttime curfew promotes the public health, safety, and general welfare during late night and school hours.
- (d) This chapter is intended to assist with the policing of public places during specified daytime and nighttime hours in order to prevent crimes by and against minors during those hours. It is not intended to interfere with or supersede the enforcement of state laws regulating education or truancy or with any local school districts' truancy programs. Rather, this chapter is intended to provide the county with an additional tool to protect youth and prevent crime.

This chapter is known and may be cited as the Contra Costa County Social Host Ordinance.

(Ord. No. 2008-25, § II, 10-14-08)

54-3.004 Findings.

The board of supervisors hereby finds: (1) that underage drinking is a serious threat to public health and safety; (2) that gatherings on private property where alcohol is consumed by juveniles is a serious problem in Contra Costa County; (3) that problems associated with such gatherings are difficult to resolve unless the sheriff's office has additional ability to hold those persons who host such gatherings responsible; and (4) that the sheriff's ability to enforce this ordinance against hosts of juvenile gatherings will result in a decrease in juvenile abuse of intoxicants, physical fights, vandalism, noise disturbances, and other alcohol related incidents.

- (4) All privileges prescribed by a franchise shall be subordinate to (without limitation) the county's use and prior lawful occupancy of the public rights-of-way or public property.

(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.212 Application fee.

An application fee for a new or renewal franchise or for transfer of a franchise may be required in the amount established from time to time by resolution of the board of supervisors, to the extent consistent with applicable law.

(Ords. 2006-65 § 3, 93-55).

58-4.214 New franchise procedure.

Upon receipt of an application for a new franchise, the board of supervisors may, by resolution, approve or conditionally approve a franchise agreement with the applicant or deny the application. In making any determination hereunder as to any application, the board of supervisors shall give due consideration to: the quality of the service proposed; rates to subscribers; experience, character, background and financial responsibility

of the applicant, its management and owners; system design; technical and performance quality of equipment; willingness and ability to meet construction requirements and to abide by franchise limitations and requirements; and other considerations deemed pertinent by the board of supervisors for safeguarding the interests of the county and the public.

(Ords. 2006-65 § 3, 93-55).

58-4.216 Franchise renewal procedure.

- (1) The procedure for franchise renewal shall be in accordance with applicable federal and state statutes.
- (2) In the absence of any federal or state statute specifically governing franchise renewal procedures, the following procedure shall apply, to the extent consistent with applicable law.
 - (a) At any time between twenty-four months and twelve months prior to the expiration of a franchise, a cable operator may apply for renewal of its franchise. Such application shall be made under the provisions of Sections 58-4.210, Franchise applications, through 58-4.212, Application fee.
 - (b) Within twelve months of receipt of a completed application for renewal, the board of supervisors shall hold a public hearing having afforded the operator reasonable notice of such hearing. After this public hearing, the board of supervisors shall grant or deny the application, basing its decision on the following factors:
 - (i) The operator's substantial compliance with the material terms of the existing franchise and applicable law;
 - (ii) The quality of the operator's services to its subscribers, including signal quality, response to consumer complaints and billing practices, but without regard to the mix or quality of cable services provided over the cable system, has been reasonable in light of community needs;
 - (iii) Present and future cable-related community needs and interests of the operator's current and potential subscribers, taking into account the cost of meeting such needs and interests;
 - (iv) The operator's financial, legal and technical qualifications to provide the services, facilities and equipment as set forth in the operator's proposal; and
 - (v) Such additional factors as the board of supervisors considers relevant to the renewal of the franchise.
 - (c) In any renewal proceeding, the operator shall be afforded adequate notice and shall be afforded fair opportunity for full participation. The operator at its election and expense may have a transcript made of any such proceeding.
 - (d) The board of supervisors, after a public hearing, may grant or deny a renewal application based on the criteria set forth in this section. The board of supervisors shall grant or deny such application by resolution and, where the application is denied, the board of supervisors shall state the reasons therefor.

(Ords. 2006-65 § 3, 93-55).

58-4.218 Assignment and transfer.

The county shall select persons to whom it issues a franchise based upon the unique technical skills and talents of such persons to operate a cable communications system as well as upon such persons' relevant experience and financial condition. As such, a franchise is personal to the franchisee and the identity of a

franchisee is a material part of the county's decision to issue a franchise. The granting of approval for a transfer in one instance shall not render unnecessary approval of any subsequent transfer.

(Ords. 2006-65 § 3, 93-55).

58-4.220 Transfer of ownership.

- (1) Board of Supervisors Approval Required. No transfer shall occur unless prior application is made by the operator to the county and the board of supervisors' prior written consent is obtained, pursuant to the operator's franchise agreement and this cable ordinance. Any such transfer without the prior written consent of the board of supervisors shall be considered to impair the county's assurance of due performance, and shall be invalid. The granting of approval for a transfer in one instance shall not render unnecessary approval any subsequent transfer.
 - (a) Application. An operator shall promptly notify the county administrator of any proposed transfer. If any transfer should take place without prior notice to the county administrator, the operator shall promptly notify the county that such a transfer has occurred. At least one hundred twenty calendar days prior to the contemplated effective date of a transfer, the operator shall submit to the county administrator an application for approval of the transfer. Such an application shall provide complete information on the proposed transaction, including details of the legal, financial, technical, and other qualifications of the new controlling entity or transferee, and on the potential impact of the transfer on subscriber rates and service. At a minimum, the following information shall be included in the application, provided that, the operator is not required to duplicate information that it submits to the county administrator to comply with its obligations under federal or state law:
 - i. All information and forms required under federal law;
 - ii. All information required by this division;
 - iii. Any contracts or other agreements that relate to the proposed transaction, and all documents, schedules, exhibits, or the like referred to therein; and
 - iv. Any shareholder reports or filings with the Securities and Exchange Commission that discuss the transaction.
 - (b) Supplemental Information. The county shall notify an operator of any insufficiency in the information provided in the application within thirty days after receipt thereof. The failure of the county to so notify operator of such insufficiency shall result in the application being deemed complete. For the purposes of determining whether it shall consent to a transfer, the county or its agents may inquire into the qualifications of the prospective controlling entity or transferee and such other matters as the county may deem necessary to determine whether the transfer is in the public interest and should be approved, denied, or conditioned as provided under this division. Notwithstanding whether the application has been deemed complete, the county may request additional information related to the proposed transaction to the extent permitted by applicable law.
- (2) Determination by County. In making a determination as to whether to grant, deny, or grant subject to conditions, an application for a transfer, the county may consider, without limitation, the legal, financial, technical and other qualifications of the proposed controlling entity or transferee to operate the cable system; whether the operator is in compliance with its franchise agreement and this division, and, if not, the proposed controlling entity transferee's commitment to cure such noncompliance; and whether operation by the proposed controlling entity or transferee or approval of the transfer would adversely affect the public health, safety, or welfare of subscribers or the public.

-
- (3) Transferee's Agreement. No application for a transfer of the franchise shall be granted unless the proposed controlling entity or transferee agrees in writing that it will abide by and accept all terms of its franchise agreement and this division and that it will assume the obligations, liabilities, and responsibility for all acts and omissions, known and unknown, of the previous operator under its franchise agreement and this division, for all purposes, including renewal.
 - (4) Approval Does Not Constitute Waiver. Approval by the county board of a transfer does not constitute a waiver or release of any of the rights of the county under a franchise agreement or this division, whether arising before or after the date of the transfer.
 - (5) Exception for Intra-Company Transfers. Notwithstanding the foregoing, a transfer to an affiliate of the franchisee shall be excepted from the requirements of this section where (i) the affiliate is wholly-owned and managed by the same ultimate parent as the transferor; and (ii) the transferee affiliate:
 - (a) Notifies the county within thirty days of the transfer and, at that time, provides the agreements and warranties required by this section, describes the nature of the transfer, and submits complete information describing who will have direct and indirect ownership and control of the cable system after the transfer;
 - (b) Warrants that it has read, accepts and agrees to be bound by each and every term of the franchise agreement and related amendments, regulations, ordinances and resolutions then in effect;
 - (c) Agrees to assume all responsibility for all liabilities, acts and omissions, known and unknown, of its predecessor franchisee(s), for all purposes, including renewal;
 - (d) Agrees that the transfer shall not permit it to take any position or exercise any right which could not have been exercised by its predecessor franchisee(s);
 - (e) Warrants that the transfer will not substantially increase the financial burdens upon or substantially diminish the financial resources available to the franchisee (the warranty to be based on comparing the burdens upon and resources that will be available to the transferee compared to its predecessors), or otherwise adversely affect the ability of the franchisee to perform;
 - (f) Warrants that the transfer will not in any way adversely affect the county or subscribers;
 - (g) Notifies the county that the transfer is complete within five business days of the date the transfer is completed; and
 - (h) Agrees that the transfer in no way affects any evaluation of its legal, financial or technical qualifications that may occur under the franchise or applicable law after the transfer, and does not directly or indirectly authorize any additional transfers.
 - (6) The county's consent to a transfer shall be required upon foreclosure or other judicial sale of all or a substantial part of the system or upon the termination of a lease covering all or a substantial part of the system, and the cable operator shall notify the county. The notification shall be deemed notice of a change in control of the cable operator, which shall require the approval of the county board of supervisors.
 - (7) The board of supervisors shall approve, conditionally approve or deny a transfer following receipt of all required materials within the period required under federal law, if any, unless an extension is agreed to by the county and the cable operator. Conditions of approval by the board of supervisors may include, but are not limited to, the following: (a) resolution of any outstanding franchise violations or performance deficiencies; (b) payment of any outstanding franchise fees; (c) filing of any appropriate bonds, insurance endorsements, letters of credit or guarantees; and (d) written assumption of all obligations of the transferor by the transferee.
 - (8) Within thirty days after the date of the resolution approving transfer of the franchise, or within such extended period of time as the board of supervisors in its discretion may authorize, the transferee shall file

with the clerk of the board of supervisors its written acceptance of the franchise, in a form satisfactory to the county, together with all required bonds and insurance certificates, and its agreement to be bound by and to comply with and to do all things required of it by the provisions of this division and the franchise award resolution. Such acceptance and agreement shall be acknowledged by the transferee before a notary public and shall be in a form and content satisfactory to and approved by the county counsel.

(9) Revocation Following Bankruptcy.

- (a) Notwithstanding any other provision of this division, a franchise will automatically terminate by force of law one hundred twenty calendar days after an assignment for the benefit of creditors or the appointment of a receiver or trustee to take over the business of the franchisee, whether in a receivership, reorganization, bankruptcy assignment for the benefit of creditors, or other action or proceeding.
- (b) However, the franchise may be reinstated if, within the one hundred twenty day period:
 - (i) The assignment, receivership or trusteeship is vacated; or
 - (ii) The assignee, receiver, or trustee has fully complied with the terms and conditions of this article and the franchise and has executed an agreement, approved by a court having jurisdiction, assuming and agreeing to be bound by the terms and conditions of the franchise agreement and this code.

(10) Revocation Upon Foreclosure.

- (a) Notwithstanding any other provision of this chapter, in the event of foreclosure or other judicial sale of any of franchisee's facilities, equipment, or property, the county may revoke a franchise after a public hearing before the board of supervisors, by serving notice upon the franchisee and the successful bidder at the sale.
- (b) The franchise will be revoked and will terminate thirty calendar days after serving such notice, unless:
 - (i) The county approves the transfer of the franchise to the successful bidder; and
 - (ii) The successful bidder agrees with the county to assume and be bound by the terms and conditions of the franchise and applicable law.

(11) Failure to comply with the requirements of this section is a material breach of this division, subject to the remedies provided for herein.

(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.222 Unauthorized operation of cable system.

Any person occupying the public rights-of-way of the county for the purpose of operating or constructing a cable system, which person does not hold a valid franchise from the county, shall be subject to all provisions of this chapter, including, but not limited to, those provisions regarding construction, technical standards and franchise fees. The county at any time may require such person to obtain a franchise agreement within thirty days of receipt of a written notice from the county that a franchise agreement is required; require such person to remove its property from the public rights-of-way, and, at such person's sole expense, restore the area to a condition satisfactory to the county within a reasonable time period as the county shall determine; remove the property itself and restore the area to a satisfactory condition and charge the person the costs therefor; and/or take any other action permitted by law, including, but not limited to, filing for and seeking damages for trespass. In no event shall a franchise be created unless it is issued by action of the board of supervisors and the franchise terms are set forth in a franchise agreement. If a cable operator operates a cable system without first obtaining a valid franchise

from the county, the cable operator shall forfeit to the county all gross revenues from the system for so long as such unauthorized operation continues.

(Ords. 2006-65 § 3, 93-55).

58-4.224 Acts at cable operator's expense.

Any act that a cable operator is or may be required to perform under this chapter, a franchise agreement, or applicable law shall be performed at the cable operator's expense, unless expressly provided to the contrary in this division, a franchise agreement, or applicable law.

(Ord. 2006-65 § 3).

58-4.226 Eminent domain.

Nothing herein shall be deemed or construed to impair or affect, in any way or to any extent, the county's rights of eminent domain to the extent to which such rights may apply to any cable system or franchise.

(Ords. 2006-65 § 3, 93-55).

58-4.228 Annexations.

Within thirty days after annexation of areas to the county which are served by a cable operator who does not have a franchise from the county, the cable operator shall apply for a new franchise. Pending consideration of such a franchise, the cable operator shall comply with each and every provision of this article, including but not limited to the franchise fee requirement. If a newly annexed area is not actively served by a cable operator, the cable operator(s) serving the area within the county contiguous to the newly annexed area shall provide service to that area within a reasonable time, subject to the provisions of any applicable franchise agreement, provided that the cable operator may request relief from this requirement upon a showing that it would be economically infeasible to extend service to that area.

(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.230 Joint exercise of powers agreement.

Should a joint exercise of powers agreement (Gov. Code, Section 6500 et seq.) or similar agreement be entered between the county and any other jurisdiction in accordance with law providing for the joint regulation of cable operators and cable services or other cooperative arrangements, involved cable operators shall be governed by, and subject to that agreement, pursuant to this division's provisions, provided that no such joint powers agreement shall impair any right or obligation of the cable operator under a franchise agreement.

(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.232 Cable operator subject to other laws, police power.

- (1) A cable operator at all times shall be subject to and shall comply with all applicable federal, state, and local laws, subject to Section 58.4-204, Granting. A cable operator at all times shall be subject to all lawful exercise of the police power of the county, including but not limited to all rights the county may have under 47 U.S.C. Section 552. Nothing in a franchise agreement shall be deemed to waive the requirements of the various

codes, ordinances, policies, rules, regulations, and practices of the county and the board of supervisors, subject to the operator's lawful rights under its franchise agreement.

- (2) No course of dealing between a cable operator and the county, or any delay on the part of the county in exercising any rights hereunder, or any acquiescence by the county in the actions of a cable operator that contravene any of the county's rights (except to the extent such rights are expressly waived by the county in writing), shall operate as a waiver of any such rights of the county.
- (3) The county shall have the maximum authority to regulate cable systems, cable operators, and franchises as may now or hereafter be lawfully permissible; unless rights are expressly waived in a franchise agreement, they are reserved, whether expressly enumerated or not.
- (4) The county administrator and the board of supervisors may, from time to time, issue such rules and regulations concerning cable systems as are consistent with, or authorized by, applicable law.
- (5) The county administrator and the board of supervisors may do all things which are necessary and convenient in the exercise of their jurisdiction under this division.

(Ord. 2006-65 § 3).

58-4.234 Interpretation of franchise terms.

- (1) The provisions of this division and any franchise agreement shall be liberally construed in order to effectuate the purposes and objectives of this division and the franchise agreement and to promote the public interest.
- (2) Subject to federal law or regulation, a franchise agreement shall be governed by and construed in accordance with the laws of the state of California.

(Ord. 2006-65 § 3).

(Ords. 2006-65 § 3, 93-55).

58-4.404 Basic service.

The lowest priced level of cable service shall be available to all subscribers. No subscriber shall be required to purchase any other service as a prerequisite to purchasing such level of service. Unless otherwise provided in a franchise agreement, the lowest priced level of service shall include all public, educational and government channels at no extra charge.

(Ords. 2006-65 § 3, 93-55).

58-4.406 Performance evaluation sessions.

The county and each cable operator shall hold scheduled performance evaluation sessions to the extent specified in the franchise agreement.

(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.408 Cable service to public buildings occupied by public agencies.

A franchise agreement may include provisions regarding installation of service outlets in buildings occupied by public agencies within the franchise area, and provision of service to such facilities, subject to negotiation between the parties and applicable law.

(Ords. 2006-65 § 3, 93-55).

58-4.410 PEG channels.

Subject to negotiation between the parties and applicable law, a franchise agreement may provide that a cable operator shall make available one or more dedicated channels on its cable system for purposes of public, educational and governmental access, as set forth in the franchise agreement. Such channels shall be available on the lowest tier of basic service, to the extent consistent with the applicable franchise agreement. Such channels shall not be used for any advertisements or commercial programming without the permission of the county.

(Ords. 2006-65 § 3, 93-55).

58-4.412 PEG facilities.

A franchise agreement may include provisions regarding facilities, services and equipment for use in relation to public, educational and governmental access.

(Ords. 2006-65 § 3, 93-55).

58-4.414 Institutional network.

A franchise agreement may include provisions regarding construction and use of institutional networks.

(Ord. 2006-65 § 3).

58-4.416 Public access usage management.

Nothing in this section shall prevent the county from delegating to an independent nonprofit entity such as a commission or nonprofit corporation the authority to manage all or any part of the county's PEG facilities, programming and/or funds. The commission or nonprofit corporation may be established jointly with neighboring jurisdictions at the county's sole option.

(Ords. 2006-65 § 3, 93-55).

58-4.418 Leased access.

A cable operator shall provide leased access channels as required by federal law.
(Ord. 2006-65 § 3).

To provide an emergency alert capability, each cable operator shall install and maintain an emergency alert system which allows the county to simultaneously override audio signals and broadcast emergency messages on all television channels, as provided by the terms of its franchise agreement.
(Ords. 2006-65 § 3, 93-55).

58-4.424 Tree trimming.

When trimming trees, a cable operator shall comply with all county regulations applicable to utilities.
(Ord. 2006-65 § 3).

58-4.426 Removal and abandonment of cable system.

In the event that a franchise is terminated or expires without being renewed, or if all or a portion of a cable system is not used for a period of ninety days, the cable operator shall either remove the cable system or the abandoned portion thereof or shall obtain the permission of the director of community development to abandon the cable system in place within ninety days. The cable operator shall obtain an encroachment permit prior to removing the cable system.
(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.428 Acquisition of cable system.

Notwithstanding the granting of a franchise, the county retains the right to acquire the cable system at any time by negotiated sale or eminent domain, and retains the right to resell the cable system to any third party. If the county denies the renewal of a franchise, the county may acquire the cable system at a price not to exceed fair market value, determined on the basis of the cable system valued as a going concern but with no value allocated to the franchise. If the county revokes a franchise, the county may acquire the cable system at an equitable price.
(Ord. 2006-65 § 3).

Article 58-4.6. Customer Service

58-4.602 Continuity of service.

- (1) Subscribers have the right to receive, and a cable operator has the obligation to provide, efficient service, high-quality reception, prompt repairs and service interrupted only for good cause and for the shortest possible time. It shall be the right of all subscribers to continue receiving service insofar as they have met financial and other obligations to the cable operator. In the event that the cable operator elects to over build, rebuild, modify, or sell the system, or the board of supervisors gives notice of intent to terminate or fails to renew this franchise, the cable operator shall act so as to ensure that all subscribers receive continuous, uninterrupted service.
- (2) Upon the expiration, revocation or termination of the franchise, the operator shall, upon request of the county, continue to operate the cable system for a period of time not to exceed six months from the date of such expiration, revocation or termination under the terms and conditions of this division and its franchise agreement and to provide the regular subscriber service and any and all of the services that may be provided at that time, and to retain all revenues received after payment of all costs and expenses arising in the ordinary course of business prior to the expiration, revocation, or termination.
- (3) A cable operator shall forfeit its rights to notice and a hearing, and the board of supervisors may, by resolution, declare its franchise immediately terminated, in addition to any other relief or remedies the county may have under this division, a franchise agreement, or other applicable law, if:
 - (a) The cable operator fails to provide cable service in accordance with its franchise over a substantial portion of the franchise area for ninety-six consecutive hours, unless the county authorizes a longer interruption of service or the failure is due to force majeure, as characterized in a franchise agreement; or
 - (b) The cable operator, for any period, willfully, and without cause refuses to provide cable service in accordance with its franchise over a substantial portion of the franchise area.

(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.604 Nondiscriminatory services.

- (1) A cable operator shall comply at all times with all applicable laws, rules, and regulations including the terms of its franchise relating to nondiscrimination.
- (2) All of a cable operator's rates and charges shall be published and nondiscriminatory. Except as provided hereunder, a cable operator shall establish rates and charges for all subscribers without regard for race, color, religion, age, sex, marital or economic status, national origin, sexual orientation, political ideology, creed, ancestry; the presence of any sensory, mental or physical handicap; or geographic location within the cable operator's franchise area (except as permitted by any provision of a franchise agreement related to the length of subscriber drops or line extensions). Nothing in this section shall be construed to prohibit the temporary reduction or waiving of rates and charges in conjunction with promotional campaigns or discounted rates for provision of cable services to multiple unit buildings. Notwithstanding the foregoing, the cable operator may offer service to senior citizens at discounted rates.
- (3) A cable operator shall not deny cable service, or otherwise discriminate against subscribers, PEG access programmers or any other persons on the basis of type of dwelling unit, race, color, religion, age, sex, marital or economic status, national origin, sexual orientation, political ideology, creed, ancestry; the presence of any sensory, mental or physical handicap; or geographic location within the franchise area (except as permitted by any provision of a franchise agreement related to the length of subscriber drops or line extensions).

-
- (4) A cable operator shall not take any retaliatory action against a subscriber because of the subscriber's exercise of any right it may have under federal, state, or local law, nor may the cable operator require a subscriber to waive such rights as a condition of service.

(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.606 Local office.

A franchise agreement may require a cable operator to maintain a local business office in a location specified in the franchise agreement which shall be open during the hours specified in the franchise agreement.

(Ords. 2006-65 § 3, 93-55).

58-4.608 Line extensions.

- (1) The operator shall design, construct and maintain the cable system to pass every dwelling unit in the franchise area, subject to any limitations specified in a franchise agreement.
- (2) Standard line extension policy shall be one hundred fifty aerial feet, one hundred twenty-five feet underground. If the aerial or underground connection for service to a subscriber's location (sometimes known as a "drop") requires no more than a one hundred fifty foot aerial extension or one hundred twenty-five foot underground extension measured from the nearest street (unless the operator has obtained a waiver from the county), the operator shall provide the connection to its service at no charge for the initial one hundred fifty feet or one hundred twenty-five feet, as applicable, other than the operator's standard installation fee. This provision applies only to extensions from cable plant to a dwelling unit.
- (3) In areas not meeting the requirements for mandatory extension of service, a cable operator shall provide, upon the request of a potential subscriber desiring service in an unserved area, an estimate of the reasonable costs required to extend service to said subscriber, including materials, labor, overhead and private easements, if necessary. A cable operator shall make reasonable efforts to extend service within four months upon request of said potential subscriber, who shall be responsible for all reasonable costs associated with the extension. A cable operator may require advance payment or assurance of payment satisfactory to the cable operator.

(Ords. 2006-65 § 3, 93-55).

58-4.610 New service requests.

- (1) A cable operator shall provide service to all dwelling units within the county (subject to the limitations on line extensions in the previous section) pursuant to the following requirements.
- (2) In any case in which either no new drop is required, or a new drop is required of no more than the standard underground or above-ground length prescribed by Section 58-4.608, Line extensions, as measured from the nearest active or required feeder line along a reasonably direct route, a cable operator shall make cable service available at the standard connection charge within seven days of receipt of any service request. In any case in which a new drop is required which is longer than the standard underground or above-ground drop length, as applicable, a cable operator shall make cable service available at the standard connection charge within fourteen days of receipt of any service request. Notwithstanding the foregoing, if the service request requires a drop in excess of the standard underground or above-ground drop length, as applicable, a cable operator may charge the business or resident requesting service an additional amount which shall not exceed the actual time and materials cost of the drop in excess of the applicable drop length.

-
- (3) Upon receiving a request for new service, a cable operator shall make reasonable efforts to promptly acquire all easements or rights of occupancy necessary for extension of service to such resident's home and not already secured by the cable operator.

(Ords. 2006-65 § 3, 93-55).

58-4.612 System or individual outage complaints.

- (1) Upon receipt of a request for service in the event of the following circumstances (each, a "service request"), the cable operator shall respond as follows: (a) to a system outage within two hours; (b) to a service interruption, within twenty-four hours; and (c) to all other reception problems, by the next working day or as agreed upon by the subscriber and a cable operator. The cable operator shall have available at all times a sufficient number of technicians capable of responding to the foregoing matters within the foregoing time frames. A service interruption is the loss of picture or sound on one or more channels. A system outage is a service interruption resulting from a common cause that affects more than two subscribers.
- (2) When the nature of a service request described in subsection (1) of this section requires work at a service location, a cable operator will be deemed to have responded to such service request when a field service representative competent to fix the problem arrives at the service location (which may be some portion of the cable system and not a subscriber's residence) and begins work on the problem. In the case of a response which involves a request for service at a subscriber's residence, if the subscriber is not home when the field service representative arrives, response will be deemed to have taken place if the field service representative leaves notification of arrival and instructions for rescheduling on the subscriber's front door.
- (3) Where a cable operator is unable to respond to a service request within the applicable time period specified in this section, the cable operator shall make reasonable efforts, within such time period, to notify the complainant of the reason(s) and the estimated time frame for correction, and shall proceed to correct the service request at the earliest possible time.
- (4) A cable operator shall complete repairs and maintenance for system outages and service interruptions within twenty-four hours, except in extenuating circumstances or as agreed to between the cable operator and the subscriber. Work on all other requests for service, other than installation, shall be completed within three days of the initial request.
- (5) The time standards in Section 58-4.610, New service requests, shall be met at least ninety-five percent of the time, measured on a quarterly basis.

(Ords. 2006-65 § 3, 93-55).

58-4.614 Scheduling appointments.

- (1) All appointments for service, installations, or disconnection shall be specified by date. With the approval of the subscriber, weekday service calls shall be scheduled as morning or afternoon appointments during specified four-hour blocks of time. For service calls responding to system or individual outages, holiday and weekend scheduling shall also be available. If the appointment cannot be kept, a cable operator shall make reasonable efforts to promptly notify the subscriber in advance and reschedule the appointment. Under normal operating conditions, a cable operator may not cancel an appointment with a subscriber after the close of business on the business day prior to the scheduled appointment.
- (2) Subscribers who have experienced a missed appointment due to the fault of a cable operator shall receive installation free of charge if the appointment was for installation. The subscriber shall receive a credit against the basic service charge of twenty dollars, or such other remediation as may be agreed to between the

subscriber and the cable operator, if the missed appointment is for a service call. Alternatively, subscribers may pursue their remedies pursuant to Civil Code Section 1722.

(Ords. 2006-65 § 3, 93-55).

58-4.616 Notification of service interruptions.

Where service interruptions are planned, a cable operator shall notify subscribers and the county at least forty-eight hours before the anticipated service interruption, provided that no notification shall be required for service interruptions that require less than two hours' interruption of service and that also occur between one a.m. and six a.m. Notification need not be repeated before each anticipated interruption as long as the initial notification advises of the possibility of repeated interruptions during a specified period not to exceed one month. To the extent feasible, the cable operator shall avoid interruptions between five p.m. and midnight.

(Ords. 2006-65 § 3, 93-55).

58-4.618 Notification of service or channel changes.

The cable operator shall provide thirty days' advance written notice to subscribers and the county of any change in channel assignment or in the video programming service provided over any channel, unless this requirement is waived by the county or by operation of federal or state law, or due to events beyond the reasonable control of the operator.

(Ord. 2006-65 § 3).

58-4.620 Telephone communication services.

- (1) Each cable operator shall render efficient telephone communication service, sufficiently staffed by knowledgeable, courteous personnel.
- (2) Customer Service Response. At a minimum, a cable operator shall have on duty a sufficient number of customer service representatives available to handle customer calls during normal business hours. During times not handled by customer service representatives, each system must have a capable answering service for repair requests or service complaints. Answering machines are not acceptable, except for automated response units that are used to process and route calls to on-duty personnel of the cable operator.
- (3) Telephone System Requirements. Each cable operator shall at all times provide a telephone system meeting the following requirements:
 - (a) Each cable operator shall maintain a phone system for purposes of promptly responding to telephone calls. Telephone numbers for customer service shall be listed in a local telephone directory. All telephone lines for customer service shall be toll free to subscribers within the franchise area.
 - (b) Knowledgeable, qualified customer service representatives shall be available to respond to customer telephone inquiries during normal business hours.
 - (c) Under normal operating conditions, during normal business hours, telephone answer time by a customer service representative, including wait time, and the time required to transfer the call, shall not exceed thirty seconds. Those systems which utilize automated answering and distributing equipment shall limit the number of routine rings to four or fewer. Systems not utilizing automated equipment shall make every effort to answer incoming calls as promptly as the automated systems. Under normal operating conditions, the customer shall receive a busy signal less than three percent of

the total time that the telephone system is staffed by customer service representatives. These standards shall be met no less than ninety percent of the time measured quarterly.

- (d) Each cable operator shall, by means of automatic monitoring equipment, track all customer service telephone calls and prepare quarterly summaries of all calls according to the criteria listed in subsection (3)(c) of this section. Such report shall be delivered to the county annually and, in addition, as agreed to in the franchise agreement.
- (e) In cases of major system outages or major service interruption, a cable operator may provide a recorded message informing customers of the problem and a reasonable estimate under the circumstances of the correction time as long as customers are still able to reach a customer service representative.
- (f) In cases where a cable operator's existing telephone system cannot demonstrate compliance with the standards set forth in subsection (3)(c) or (3)(d) of this section, the franchise agreement may specify comparable criteria for the cable operator's telephone system and the time frame for compliance with the standards set forth in this section.

(Ords. 2006-65 § 3, 93-55).

58-4.622 Complaint log.

The cable operator shall keep a computer log or written record of (1) service calls and complaints which require the dispatch of a service vehicle to respond to the service call or complaint, and (2) calls regarding outages, regardless of whether a service vehicle was dispatched, together with the disposition of all such calls. Records kept in the ordinary course of business shall be available for public inspection by the affected subscriber at the local office of the cable operator during regular office hours such that each subscriber may examine only ~~his or her~~their own records. The log or record shall be available for inspection by the county, in the presence of the affected subscriber, at any time at the local office of the cable operator during regular office hours. Before making a record available for inspection under this section, the cable operator may require reasonable advance notice, which shall in no event exceed one working day.

(Ords. 2006-65 § 3, 93-55).

58-4.624 Subscriber test requests.

Upon reasonable request or complaint by a subscriber, a cable operator shall, at its sole expense, perform such signal level tests as necessary to establish if a signal of requisite quality is being delivered to the subscriber's premises. The test shall be conducted at the subscriber's receiver and at other such locations deemed necessary by the cable operator, and a copy of the written test results shall be made available to the subscriber upon request.

(Ords. 2006-65 § 3, 93-55).

58-4.626 Conditions of service—Subscriber information.

Each cable operator shall send or deliver to all new and reconnected subscribers in writing and to all subscribers at least once a year, information concerning the conditions of service, including but not limited to: rates, fees, charges, deposits, refunds of deposits, available levels of service (tiers), payment options, discounts (if any), service call policy, privacy protections and disconnection and reconnection policy. Each cable operator shall provide a copy of such information to the county concurrent with its distribution to the cable operator's subscribers.

(Ords. 2006-65 § 3, 93-55).

58-4.628 Complaints—Subscriber information.

Upon connection or reconnection to the system and at least once a year, a cable operator shall, by appropriate means, such as a card or brochure, printed notice on billing statement, or billing insert, furnish to each subscriber information concerning the procedures for making inquiries or complaints to the cable operator or the county, including the name, address and local telephone number of the cable operator and the county. Each cable operator shall provide a copy of such information to the county concurrent with its distribution to the cable operator's subscribers.

(Ords. 2006-65 § 3, 93-55).

58.4-630 Investigation of complaints.

- (1) When there have been a significant number of complaints made, or where there exists other evidence that, in the judgment of the county, indicates a problem with the reliability or quality of cable service as required under this division or in a franchise agreement, the board of supervisors shall have the right and authority to require a cable operator to evaluate the performance, operation or administration of the cable system including without limitation matters relating to customer service. The cable operator shall fully cooperate with the county in performing such evaluation and shall prepare results and a report, if requested, within thirty days after notice. Such report shall include the following information:
 - (a) The nature of the complaint or problem that precipitated the evaluation;
 - (b) What system component, operation or service was evaluated;
 - (c) The equipment used and procedures employed;
 - (d) The method, if any, by which such complaint or problem could be or has been resolved; and
 - (e) Any other information pertinent to the evaluation which may be required.
- (2) The county may require that evaluations be supervised, or conducted, by an engineer, accountant or other consultant selected by the county and not on the permanent staff of the cable operator or the county, at the county's cost. The engineer, accountant or other consultant shall sign all records of the evaluation and forward to the county such records with a report interpreting the results of the evaluation and recommending actions to be taken. The county's rights under this section, shall be limited to evaluating specific subjects and characteristics based on complaints, circumstances or other evidence which cause the county to reasonably believe that evaluation is necessary to protect the public against substandard cable service.

(Ords. 2006-65 § 3, 93-55).

58-4.632 Noncompliance with standards.

In the event of repeated noncompliance with the customer service standards contained in this chapter, the county may, in addition to pursuing any other civil or criminal remedy, direct the cable operator to take steps to ensure compliance with such standards.

(Ord. 2006-65 § 3).

58-4.634 Billing, late fees, disconnection of service and notification of rate changes.

- (1) Bills for service shall be on a regular cycle, on a monthly basis. Nothing in this section shall prohibit voluntary prepayment of services by subscribers, provided that a cable operator shall not be required to offer or accept any discount or other reduction in the amount paid by any subscriber for a voluntary prepayment of services. Each bill shall include a listing of the cable operator's customer service telephone number in a manner that makes such number significantly more prominent than any other telephone numbers listed on the bill. Bills shall not list the county's telephone number in a manner that causes confusion to the public.
- (2) Bills will be clear, concise and understandable. Bills must be fully itemized, with itemizations including, but not limited to, level of service charges and equipment charges. Bills will also clearly delineate all activity during the billing period, including optional charges, rebates and credits.
- (3) In case of a billing dispute, a cable operator must respond to a written complaint from a subscriber within thirty days.
- (4) Before itemizing on subscriber bills any fees, taxes, assessments or other items payable to the county the itemization of which is not expressly authorized by state or federal statute or regulation, a cable operator shall submit a sample bill to the county for review and comment.
- (5) Charges on a bill shall not be deemed delinquent and a subscriber shall not be subject to a late fee, so long as payment is received from the subscriber in a manner consistent with applicable law.
- (6) A cable operator shall only disconnect a subscriber's service for good cause. A cable operator shall not disconnect service for non-payment until the cable operator has provided the subscriber with notice, provided on or after the due date of the subscriber's bill and separately from that bill or any other standard monthly bill, at least ten days in advance of the disconnection. The notice shall specify the earliest date the disconnection will occur, the total payment required to avoid disconnection and the telephone number and office hours to contact a customer service representative. In no event shall disconnection for nonpayment occur less than fourteen days after the end of any billing period for which charges are delinquent.

(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.636 Credits for outages.

- (1) Except for loss of service beyond the reasonable control of a cable operator, after notification from a subscriber of a service interruption or system outage and following reasonable notice and opportunity to cure, the cable operator shall, upon request, credit the subscriber's account on a pro-rata basis one-thirtieth of the subscriber's monthly rate for each day or portion of a day that the system outage service interruption continues. In addition, in cases where, within any seven-day period, there have been more than six system outages or service interruptions of fifteen minutes or more, the cable operator shall, upon request, credit the subscriber's account for one-fourth of the subscriber's monthly rate. Should a system outage or service interruption affect a pay-per-view or other similarly priced per-event service, the subscriber shall, upon request, be credited the charges for such service.
- (2) Nothing in this section shall prohibit a cable operator from giving other credits.

(Ords. 2006-65 § 3, 93-55).

58-4.638 Refund of deposits.

A cable operator shall refund all subscriber deposits within thirty days of termination of service. Any outstanding balance, including any equipment not returned by the subscriber, may be deducted from the deposit.

The refund shall be mailed to the subscriber at no expense, or shall be handled as otherwise agreed to by the subscriber.

(Ords. 2006-65 § 3, 93-55).

58-4.640 Parental control lock.

Each cable operator shall make available to subscribers, upon request, a parental control locking device or digital code that permits inhibiting the video and audio portions of any channels offered by the operator.

(Ords. 2006-65 § 3, 93-55).

58-4.642 Privacy.

A cable operator shall comply with all federal laws in relation to privacy issues.

(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.644 Unauthorized connections and tampering.

No person, firm or corporation shall make any unauthorized connection, whether physically, electrically, acoustically, inductively or otherwise, with any part of a franchised cable system for the purpose of taking or receiving television signals, radio signals, pictures, programs, or sound. Also no person, without the consent of the owner, shall tamper with, remove or injure any cables, wires or equipment used for distribution of television signals, radio signals, pictures, programs or sound.

(Ords. 2006-65 § 3, 93-55, 82-28).

Article 58-4.8. Construction and Technical Standards

58-4.802 Construction requirements.

All construction (including, but not limited to, the initial construction of the cable system and any major rebuild, expansion, replacement, repair or maintenance of the cable system) shall be performed in compliance with this division and all other provisions of this code. At least ninety days prior to initiating any major construction (other than routine maintenance or repair, installation of subscriber drops or minor line extensions), a cable operator shall submit a construction plan to the county. For purposes of this section, "major construction" means a system upgrade, system rebuild, or any work in the public rights-of-way that can be reasonably expected to affect system plant served by one or more fiber optic nodes. The construction plan shall include a description of the work, equipment specifications, existing and proposed locations of all facilities, traffic control plans, resident and business notification plans, steps to be taken to ensure compliance with local regulations, and a detailed construction schedule. The county may approve, conditionally approve or deny the construction plan. The county may require the posting of construction bonds. Additional construction requirements may be specified in a franchise agreement.

(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.804 Standards.

- (1) Any construction, rebuild, upgrade, operation, maintenance, and repair of the system shall be in accordance in all material respects with all applicable sections of the Occupational Safety and Health Act of 1970, as

amended; the National Electrical Safety Code and National Electric Code; Obstruction Marking and Lighting, AC 70/7460 i.e., Federal Aviation Administration; Construction, Marking and Lighting of Antenna Structures, Federal Communications Commission Rules, Part 17; and other applicable federal, state, or local laws and regulations, all as hereafter may be amended or adopted. In the event of a conflict among codes and standards, accepted cable industry practices shall control (except insofar as such practices, if followed, would result in a cable system that could not meet express requirements of federal, state or local law, or in instances in which such practices are expressly preempted by other standards). Consistent with the foregoing, the county may ensure that work continues to be performed in an orderly and professionalworkmanlike manner, reflecting any changes that may occur over the franchise term.

- (2) A cable operator shall construct, install and maintain its cable system in an orderly and professional manner, using due diligence and materials of good and durable quality. All such work shall be performed in close coordination with other public and private utilities following accepted construction procedures and practices and working through existing committees and organizations. All cable and wires shall be installed, where possible, parallel with and in the same manner as electric and telephone lines on the same poles. Multiple cable configurations shall be arranged in parallel and bundled with due respect for engineering considerations.
- (3) A cable operator's cable system within the county shall meet or exceed the technical standards set forth in 47 C.F.R. Section 76.601, et seq., and any other applicable technical standards.
- (4) Upon reasonable request by the county, based on subscriber complaints or other evidence of noncompliance with a franchise agreement or applicable law, a cable operator shall perform, at its sole cost, all tests necessary to demonstrate compliance with the requirements of a franchise agreement and other technical and performance standards established by applicable law. Unless a franchise agreement or applicable law provides otherwise, all tests shall be conducted in accordance with federal rules and in accordance with the most recent edition of the National Cable Television Association's "Recommended Practices for Measurements on Cable Television Systems," or such other manual as may be directed under FCC regulations. A written report of any test results shall be filed with the county within seven days of this test. If a location fails to meet technical or performance specifications, the cable operator, without requirement of additional notice or request from the county, shall promptly take corrective action, and retest the locations. Any deficiencies shall be corrected within thirty days of the original test.
- (5) Should the cable operator fail to meet technical or performance tests, the cable operator shall bear all costs associated with the test. Should the cable operator advise the county that testing is not necessary or required to resolve the system performance issue at hand, and the county still insists on testing pursuant to this section, then the county shall bear the operator's reasonable cost of testing in the event that the cable operator passes the technical or performance test.
- (6) Every system, and all parts thereof, shall be subject to the right of periodic inspection and testing by the county to determine compliance with the provisions of this division, a franchise agreement, and other applicable law. The county shall have the right, upon request, to be notified and to be present when a system is tested by a cable operator, provided that the cable operator need not delay or reschedule testing to accommodate such a request. Each cable operator shall respond to requests for information regarding its system and its plans for the system as the county may from time to time issue, including requests for information regarding its plans for construction, operation, and repair, and the purposes for which the plant is being constructed, operated or repaired.
- (7) A cable operator shall comply with all of the same standards and codes, including but not limited to the payment of inspection fees, to construct and maintain its system within private rights-of-way as are required for construction in the public rights-of-way.

(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.806 Permits.

A cable operator shall obtain all necessary permits and pay all generally applicable related fees, including but not limited to permit processing and inspection fees, from the county before commencing any construction, repair, upgrade, rebuild or extension of the system, including the opening or disturbance of any public rights-of-way, on private or public property within the county. The operator shall adhere to all state and local laws and building and zoning codes currently or hereafter applicable to construction, operation, or maintenance of the system in the county and give due consideration at all times to the aesthetics of the property.

(Ords. 2006-65 § 3, 93-55, 82-28).

58.4-808 Placement of facilities.

- (1) Cable system operators shall follow county requirements for placement of facilities in public rights-of-way or county-owned property including the specific location of facilities in the public rights-of-way or county-owned property, and shall in any event install facilities in a manner that minimizes interference with the use of county-owned property and public rights-of-way by others, including others that may be installing cable systems, other communications facilities, or utilities. The county shall have the right to inspect all facilities being placed underground before they are covered. It shall be a cable operator's responsibility to arrange for inspection of underground facilities by the appropriate county official, and the county shall have the right to require an operator to reopen a trench or other underground installation if any facilities are covered before the county has inspected them.
- (2) Upon order of the county administrator, all work which does not comply with the permit, the approved plans or specifications for the work, or the requirements of this division, the franchise, or other applicable law, shall be promptly removed by the cable operator at its expense.

(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.810 Marking of facilities.

Each cable operator that places facilities underground shall be a member of USA and shall field mark the locations of its underground facilities upon request. Throughout the term of a franchise, a cable operator shall locate its facilities for the county at no charge to the county.

(Ords. 2006-65 § 3, 93-55).

58-4.812 Existing poles and conduits.

To the extent possible, a cable operator shall use existing poles and conduits within the public rights-of-way in installing its cable system. If such poles and conduits are unavailable, then a cable operator shall construct its own wireholding structures within the public rights-of-way, and install its facilities in those structures, provided there is sufficient room for additional structures in the public rights-of-way. Where the public rights-of-way cannot be used, a cable operator shall, to the extent possible, use existing poles and conduits located outside the public rights-of-way, after obtaining any necessary authorizations. In no case may additional poles or other structures be installed in the public rights-of-way or on any public property without the prior permission of the county.

(Ords. 2006-65 § 3, 93-55).

58-4.814 Notice of work.

Work by or on behalf of a cable operator concerning installation, maintenance, replacement or removal of a cable system, or any part thereof, shall be publicized by the cable operator, at its cost, in the manner and at the times the county administrator periodically may direct.

(Ord. 2006-65 § 3).

58-4.816 Use of public and private property.

- (1) Should the grades or lines of the public rights-of-way, whether on county-owned or private property, that a cable operator is authorized to use and occupy be changed at any time during the term of a franchise, the cable operator shall, if necessary, as determined by the county, relocate or change its system, at its own cost and expense, so as to conform with the new grades or lines.
- (2) Any alteration to any water and sewage mains or lines, to any drainage system or to any publicly-owned structures in the public rights-of-way, whether on county-owned property or on private property, which alteration is required on account of the presence of a cable operator's system in the public rights-of-way or on such county-owned property or private property, shall be made at the sole cost and expense of the cable operator. During any work of constructing, operating or maintaining of a system, a cable operator shall, at its own expense, protect all existing structures belonging to the county and any other person. The county may prescribe the manner in which a cable operator shall perform any work performed within the public rights-of-way, whether on county-owned property or on private property.
- (3) Unless otherwise specified in a franchise, all system facilities shall be constructed, installed, and located in accordance with all applicable laws, ordinances, regulations and policies, and in accordance with the following terms and conditions:
 - (a) Poles, underground conduits, ducts or other wireholding structures shall not be installed in the public rights-of-way or on other county property without the written permission of the county, or on private property of any third party without the written permission of the owner.
 - (b) Whenever any existing telephone, electric utility, cable system, or other similar facilities are located underground within the public rights-of-way or on county-owned property, a person installing another cable system also shall place its cables and passive electronic facilities underground.
 - (c) Whenever any existing telephone, electric utility, or communications facilities are located or relocated underground within the public rights-of-way or on county-owned or private property, cable operators that then occupy the same public rights-of-way, county-owned property or private property shall concurrently relocate their respective cables and passive electronic facilities underground, at their own expense, or in accordance with applicable law or current joint-use practices.
- (4) Any and all public rights-of-way, public property, or private property that is disturbed or damaged during the upgrade, rebuild, repair, replacement, relocation, operation, maintenance, or construction of a system shall be repaired, replaced and restored, in a good ~~professional~~workmanlike, timely manner, to substantially the same condition as immediately prior to the disturbance (including appropriate landscape restoration). All repairs, replacements and restoration shall be undertaken within no more than thirty days after the damage is incurred, and shall be completed as soon as reasonably possible thereafter. The county may require that repairs, replacements and restoration take place in a shorter period of time in situations in which county determines that a dangerous condition exists. The operator shall warrant such repairs, replacements and restoration for at least three years against defective materials or professional services ~~rendered~~workmanship, with the exception of plants installed in the course of restoration.

(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.818 Interference with public projects—Relocation of facilities.

- (1) Nothing in this chapter or any franchise agreement shall be in preference to, or in hindrance of, the right of the county, the board of supervisors or any board, authority, commission or public service corporation to perform or carry on any construction, public works or public improvements of any description. Subject to applicable law, should a cable operator's system in any way interfere with the construction, maintenance or repair of any public works or public improvements, the cable operator shall, at its sole cost and expense, protect or relocate its system, or part thereof, as directed by the county, the board of supervisors, the county administrator or any county official, board, authority, or commission.
- (2) If any person that is authorized to place facilities in the public rights-of-way, or on county-owned or private property requests a cable operator to protect, support, temporarily disconnect, remove, or relocate its facilities to accommodate the construction, operation, or repair of the facilities of such other person, the cable operator shall, after seven calendar days' advance written notice, take action to effect the necessary changes requested. If the requested action is necessary to address an emergency that, in the opinion of the county, might affect the public health, safety or welfare, then the cable operator shall take immediate action upon receipt of notice of the request to complete the requested action. Unless the matter is governed by a valid contract, a local ordinance, regulation or policy, or a state or federal law or regulation, or in other cases where the system that is being requested to move was not properly installed, the reasonable cost of the same shall be borne by the party requesting the protection, support, temporary disconnection, removal, or relocation and performed at no charge to the county.
- (3) A cable operator shall, at the request of any person holding a valid permit issued by a governmental authority, temporarily remove, raise or lower its wires to permit the temporary or permanent moving of buildings, structures, equipment of whatever nature, or other objects. The expense of such temporary removal or raising or lowering of wires shall be borne solely by the requesting party, unless otherwise agreed upon by the cable operator and the requesting party. A cable operator shall be given not less than forty-eight hours' advance notice to arrange for such temporary wire changes.

(Ords. 2006-65 § 3, 93-55, 82-28).

58-4.820 Other permits.

In addition to such permits as may be required by the county, a cable operator shall be required to obtain permits required by any other entity having jurisdiction.

(Ord. 2006-65 § 3).

Article 58-4.10. Administration and Enforcement

58-4.1002 Franchise fees.

- (1) All cable operators shall pay a franchise fee to the county in an amount equal to five percent of the cable operator's gross revenues. The cable operator shall make franchise fee payments on the first day of each calendar quarter, or at such other times specified in the franchise agreement. Franchise fee payments shall be submitted together with documentation of the cable operator's gross revenues in such form as may be agreed to in the franchise agreement.
- (2) Payment of the franchise fee shall not be considered in the nature of a tax or in lieu of other taxes or fees imposed by the county.

(Supp. No. 100, Update 3)

Created: 2024-06-13 09:28:13 [EST]

(3) The franchise fee is in addition to all other taxes, fees and payments that a cable operator may be required to pay under its franchise agreement or any federal, state, or local law, and to any other tax, fee, or assessment imposed by utilities and cable operators for use of their services, facilities, or equipment, including any applicable amusement taxes and annual license taxes, except to the extent that such fees, taxes, or assessments, shall be treated as a franchise fee under Section 622 of the Cable Act, 47 U.S.C. Section 542.

(4) A cable operator shall not designate the franchise fee as a tax in any communication to a subscriber.

(Ords. 2006-65 § 3, 93-55).

58-4.1004 Fees on noncable operator revenues.

In consideration of the use of public property, any person other than a cable operator who provides cable service over a cable system for which charges are assessed to subscribers but which are not received by a cable operator shall pay a fee to the county in an amount equal to five percent of that person's revenues. (Ords. 2006-65 § 3, 93-55).

No opportunity to cure is required for fraud.
 - (iii) Operator's Right to Cure or Respond. The operator shall have ninety days from the receipt of the county's written notice: (A) to respond to the county, contesting the assertion of noncompliance

or default; or (B) to cure such default; or (C) in the event that, by nature of the default, such default cannot be cured within the ninety-day period, initiate reasonable steps to remedy such default and notify the county of the steps being taken and the projected date that they will be completed.

- (iv) Public Hearings. In the event the operator fails to respond to the county's notice or in the event that the alleged default is not remedied within ninety days or the date projected by the operator, the county may give the operator written notice of its intent to revoke the franchise, stating its reasons. Notwithstanding anything in this division to the contrary, should a cable operator fail, refuse, or neglect to remove such facility, the county may remove the facility at the expense of the cable operator. Regardless of the existence or amount of any security fund or performance bond, the obligation of a cable operator to remove shall survive the termination of the franchise. This provision does not authorize the county to purchase, effect a transfer of, or require a cable operator to remove, any facilities that are used to provide another service for which the cable operator holds a valid franchise issued by the board of supervisors.

Division 540 MOBILEHOME PARKS

Chapters 540-2 MOBILEHOME SPACE RENT

Article 540-2.2. General, Definitions

540-2.202 Findings and purpose.

- (a) The state of California has recognized, by the adoption of special legislation regulating tenancies of mobilehome owners in mobilehome parks, that there is a significant distinction between the tenants (mobilehome owners) of mobilehome parks and other dwelling units, and the county of Contra Costa likewise recognizes that tenants of mobilehome parks, unlike apartment tenants or residents of other rental housing, are in the unique position of having made a substantial investment in a residence, the space for which (mobilehome space) is rented or leased as distinguished from owned.
- (b) There is presently within the unincorporated area of the county and surrounding areas a shortage of developed spaces, especially spaces of suitable sizes, for the location of mobilehomes, and because of this shortage of developed mobilehome spaces there is a low vacancy rate in mobilehome parks which rent mobilehome spaces to mobilehome owners.
- (c) Mobilehome owners, unlike apartment tenants or residents of other rental units, are in the unique position of having made a substantial investment in a residence for which space is rented or leased. Alternative sites for the relocation of mobilehomes are difficult to find due to the shortage of vacant mobilehome spaces, and restrictions on the age, size or style of mobilehomes permitted in many mobile-home parks. Additionally, the cost of moving a mobilehome is substantial due to requirements related to the installation of mobilehomes, including permits, landscaping and site preparation, and the risk of damage in moving is significant.
- (d) A substantial number of persons in the unincorporated area of the county who reside in mobilehome parks are persons on fixed incomes, including senior citizens, and persons of lower income.
- (e) Recently, the board of supervisors and individual supervisors have received public testimony and written and oral complaints that some parks within the unincorporated area have been and are charging increased rental amounts without service improvements. In some cases, the testimony has been that service levels have actually decreased in the parks charging the high rents.
- (f) Such rental increases, especially when coupled with a lack of service or other justifying factor, create hardships on mobilehome park residents, and may cause the displacement of park residents. Such displacements would be detrimental to the public health, safety and welfare by adversely affecting the lives of a substantial number of unincorporated area residents who reside in these mobilehomes.
- (g) Further, as a practical matter, because of the high cost of moving mobilehomes, including the loss of substantial improvements to the mobilehome made by the mobilehome owner, mobilehomes are generally sold in place. Unreasonably high space rent may erode any reasonable equity a homeowner has in a mobilehome at the time of sale by affecting the sale price of the mobilehome.

-
- (h) For the above reasons, it is necessary and in the public interest to protect mobilehome owners from unreasonable rental increases. At the same time, it is necessary to recognize the park owners' need to have rental increases sufficient to cover increased costs of operation and maintenance as well as protect the park owner's right to a fair and reasonable return on the park owner's investment.
 - (i) This ordinance provides that the rental rate for mobilehome spaces subject to the provisions of this ordinance may be adjusted annually by not less than sixty percent of the San Francisco-Oakland-San Jose Consumer Price Index. In part, the board determines that sixty percent of CPI is fair because comparable Bay Area communities, including but not limited to the city of Concord in Contra Costa County provide for similar adjustments based upon sixty percent of CPI.
 - (j) For the reasons set forth above, the board of supervisors find that adoption of this chapter is necessary and in the best interest of the public.

(Ord. 95-31, § 2).

540-2.204 Definitions.

As used in this chapter, the following words and phrases shall have the meanings set forth herein unless it is apparent from the context that a different meaning is intended.

- (a) "Affected mobilehome owners" means all mobilehome owners in a mobilehome park who have been notified by the park owner that a rent increase is to become effective on the same date, or who have been otherwise made aware, in the absence of such notification, that a rent increase (including a reduction in a park service) has or is to become effective on the same date.
- (b) "Base rent" means the space rent charged and allowed by County ordinance on September 20, 1994, plus any rent increase allowed thereafter pursuant to this chapter unless otherwise provided. The base rent for any mobilehome space that was not occupied on September 20, 1994 shall be the highest space rent charged by the park owner for a comparable space in the park on September 20, 1994, plus any rent increases allowed thereafter pursuant to this chapter unless otherwise provided.
- (c) "Capital improvements" means expenditures for anything new, not preexisting.
- (d) "Consumer Price Index" means the Consumer Price Index for all Urban Consumers, San Francisco-Oakland-San Jose Area (or, if the area designation is revised, for the area which encompasses the County of Contra Costa), published by the U.S. Department of Labor, Bureau of Labor Statistics.
- (e) "Hearing officer" means a person designated by the rent review officer to hear a petition pursuant to this chapter who is neither a mobilehome owner nor who has an interest in a mobilehome park of a nature that would require disqualification under the provisions of the Political Reform Act if the person is an elected state official.
- (f) "Maintenance and repair" means expenditures to keep the property in good working order.
- (g) "Mobilehome" means a structure designed for human habitation and for being moved on a street or highway under permit pursuant to Section 35790 of the Vehicle Code. "Mobilehome" includes manufactured home, as defined in the Health and Safety Code, but does not include a recreational vehicle, as defined in Section 799.29 of the Civil Code, or a commercial coach, as defined in Section 18001.8 of the Health and Safety Code, or factory-built housing as defined in Section 19971 of the Health and Safety Code.
- (h) "Mobilehome owner" means a person who has a tenancy in a mobilehome park under a rental agreement, having the right to the use of a mobilehome space on which to locate, maintain and occupy a mobilehome, site improvements, and accessory structures for human habitation, including the use of

the services and facilities of the mobilehome park. "Mobilehome owner" does not include a person who is a resident in a mobilehome but who does not have a tenancy.

- (i) "Mobilehome park" means any area or tract of land within the county where two or more mobilehome spaces are rented, or held out for rent, to accommodate mobilehomes.
- (j) "Mobilehome space" means the site within a mobilehome park intended, designed, or used for the location or accommodation of a mobilehome and any accessory structures or appurtenances attached thereto or used in conjunction therewith. "Mobilehome space" does not include any newly constructed space initially held out for rent after January 1, 1990, or a space occupied by a recreational vehicle.
- (k) "Park owner" means a person or entity that owns or operates a mobilehome park business in the unincorporated territory of the county.
- (l) "Park service" means a service provided by the park owner related to the use or occupancy of a mobilehome space, including but not limited to maintenance of the common area of the mobilehome park, for which the park owner expends money or other quantifiable consideration. For purposes of this chapter park services do not include intangibles or other benefits associated with living at the property for which the park owner does not expend money or other quantifiable consideration.
- (m) "Percent change in Consumer Price Index" means the annual percent change in the Consumer Price Index, calculated to the nearest tenth, published for the month of April, issued in the month of May. In the event that an index is not published for the month of April that is issued in the month of May, the closest preceding month for which an index is published shall be used.
- (n) "Rental agreement" means an agreement between the park owner and the mobilehome owner for the use and occupancy of a mobilehome space establishing the terms and conditions of mobilehome park tenancy. A lease is a rental agreement.
- (o) "Rent increase" means any additional space rent demanded of or paid by a mobilehome owner for a mobilehome space, including any reduction in park services without a corresponding decrease in the amount demanded or paid for space rent.
- (p) "Rent review officer" means the person or persons designated by the county administrator to administer and enforce the provisions of this chapter.
- (q) "Service reduction" means any reduction in a park service below the level of service existing on or after September 20, 1994, which results in a cost savings to the park owner without a corresponding decrease in rent. The reduction or deferment of maintenance below the level existing on or after September 20, 1994 may constitute a service reduction. However, normal wear and tear of the common area and/or mobilehome space does not constitute a service reduction.
- (r) "Space rent" means the money demanded and received by a park owner for the use or occupancy of a mobilehome space and the nonexclusive use of the common area facilities, but excluding separately billed utilities or reasonable charges for services actually rendered. Nothing in this chapter shall be deemed to regulate rent charged for mobilehomes, as opposed to mobilehome spaces.
- (s) "Substantial rehabilitation" means that work done by a park owner to a mobilehome space, park services, or to the common area of the mobilehome park, exclusive of a capital improvement, the value of which exceeds two hundred dollars and which is performed either to secure compliance with any state or local law or to repair damage resulting from fire, earthquake, or other casualty or natural disaster, to the extent the cost of such work is not reimbursed by insurance, security deposit proceeds, or any other source.

(Ords. 99-24, § 2; 97-8, § 2; 95-31).

540-2.206 Applicability—Exemptions.

- (a) The space rent increase limitation provisions of this chapter shall apply to all mobilehome spaces in mobilehome parks in the unincorporated area of this county not otherwise exempt from said requirements, either by this section, chapter, or any applicable state or federal law.
- (b) Exemptions. The space rent increase limitation provisions of this chapter shall not apply to the following:
 - (1) Mobilehome spaces covered by rental agreements subject to Civil Code Section 798.17(a) and (b), to newly constructed mobilehome spaces pursuant to Civil Code Section 798.45, or to utilities billed separately pursuant to Civil Code Section 798.41.
 - (2) Mobilehome spaces for which the space rent is less than three hundred fifty dollars per month, adjusted annually by one hundred percent of the percent change in the Consumer Price Index.
 - (3) Mobilehome spaces in mobilehome parks in which the highest space rent charged is less than the median space rent charged for mobilehome spaces in comparable mobilehome parks upon the adoption by the board of supervisors of a program to determine median mobilehome space rents. A program to establish median mobilehome space rents shall provide for the establishment of median space rents for comparable mobilehome parks by resolution of the board of supervisors. The determination of the board of supervisors of median space rent in comparable mobilehome parks shall be subject to the reasonable discretion of the board of supervisors, taking into consideration at least the following: location of the park and park services provided by the park owner.

(Ords. 99-24, § 3; 95-31, § 2).

540-2.208 Notices.

Rent increases pursuant to this chapter shall not be effective and shall not be demanded, accepted, received or retained until the park owner has given all notices required by state law. Notices required by state law may be given concurrently with proceedings under this chapter. It is understood that the park owner may give notice required by state law before any hearing, decision or other final action under this chapter.

(Ord. 95-31, § 2).

Article 540-2.4. Space Rent Increase Limitations

540-2.402 Mobilehome space rent increase limitations.

The maximum space rent chargeable for a mobilehome space subject to the provisions of this chapter shall be the base rent. Increases in the base rent shall be allowed only pursuant to the provisions of this chapter.

(Ord. 95-31, § 2).

540-2.404 Standard annual rent increases.

- (a) Except as provided in Sections 540-2.406, 540-2.408 and 540-2.410, the space rent payable for use or occupancy of any mobilehome space shall not be increased by a park owner within any twelve-month period more than the greater of:
 - (1) Two percent; or

-
- (2) Seventy-five percent of the percent change in the Consumer Price Index, provided that no rent increase of more than six percent may be imposed pursuant to this section.
- (b) All standard rent increases shall become a part of the base rent upon which future rent increases are based.
- (c) The initial standard rent increase shall be allowed on or after ninety days after the effective date (July 27, 1995) of the ordinance codified in this chapter provided all required notices have been given.
- (Ords. 97-8 § 3; 95-31 § 2).

540-2.406 Administration fee rent increases.

- (a) In addition to the standard rent increase, a park owner may increase the space rent payable for a mobilehome space within any twelve-month period, in order to apportion and pass through on a pro rata basis, to each mobilehome space subject to the provisions of this chapter, the allowable percentage of county administration fees pursuant to Section 540-2.1602.
- (b) The administrative fee shall be noticed and implemented at the same time as any standard rent increase provided the park owner has been given adequate notice of the amount of the administrative fee. The administrative fee rent increase shall not be included as part of the base rent upon which future rent increases are based and shall be deleted from the space rent once the mobilehome owner's pro rata share of said administrative fee rent increase has been collected.
- (Ord. 95-31, § 2).

540-02.408 Capital improvement rent increases.

- (a) A park owner may increase a mobilehome owner's space rent based on the mobilehome owner's pro-rata share of capital improvement expenditures in the park. The purpose of this section is to provide the park owner a streamlined procedure for recovering capital improvement dollars invested in the mobilehome park. Any such rent increase shall be amortized over the useful life of the capital improvement, using the table of capital improvement set forth in Section 540-2.1210. If the table of capital improvement life expectancies in Section 540-2.1210 is not applicable, the park owner shall use the "Class Life Asset Depreciation Range System" ("AUTRE System"). Interest may be imputed on any such rent increases using the prime rate in effect thirty days prior to the date of the application, plus two percent. However, in no event may any single rent increase, or any cumulative rent increases under this section exceed five percent of the mobilehome owner's then existing rent.
- (b) Any rent increase implemented under this section based on the cost of capital improvement shall not be included as part of the base rent upon which future rent increases under this chapter are based and shall be deleted from the space rent once the mobilehome owner's pro-rata share of the capital improvement rent increase has been recovered.
- (c) Nothing in this section shall preclude a park owner from foregoing the right to seek a rent increase under this section and instead applying for a major rent increase, including applying for a major increase based on capital improvement expenditures that would otherwise result in a rent increase in excess of five percent of the mobilehome owner's then existing rent.
- (Ords. 97-8 § 4; 95-31 § 2).

540-2.410 Major rent increases.

An increase in the space rent payable for any mobilehome space within any twelve-month period more than the amounts permitted in Sections 540-2.404, 540-2.406, 540-2.408 and/or a reduction in a park service(s) without a concurrent decrease in space rent shall be considered a major rent increase and is subject to the provisions set forth in Articles 540-2.6 and 540-2.10 and other provisions of this chapter.

All major rent increases shall become a part of the base rent upon which future rent increases are based. (Ords. 99-24, § 4; 95-31, § 2).

Article 540-2.6. Rent Increase—Notice, Meeting

540-2.602 Notice and meeting.

 - (B) A statement that the proposed rent increase is to recover the cost of rent stabilization administration fees pursuant to Section 540-2.406. The notice shall include information supporting the increase, including calculations used by the park owner to apportion the cost of the administrative fee among the affected mobilehome owners;
 - (2) Reduction in Park Service. The park owner shall also provide any explanation or justification for the proposed action;
 - (3) Capital Improvement Increase. For a capital improvement increase, the amount of the rent increase both in dollars and as a percentage of existing rent, the duration of the rent increase, facts explaining and supporting the increase, including calculations used to determine how the amount of the increase was determined and apportioned;
 - (4) Major Rent Increase. For a major rent increase other than a reduction in a park service without a concurrent decrease in space rent, the amount of the rent increase both in dollars and as a percentage of existing space rent and facts supporting the increase.
- (b) Notice of Meeting. Concurrently with providing notice of a rent increase as required in subdivision (a), above, or as soon thereafter as practicable, the park owner shall provide at least thirty days' advance written notice of a meeting to discuss the rent increase, and to provide an opportunity for the affected mobilehome owners to ask questions of the park owner or the park owner's representative about the rent increase. The notice of the meeting shall include the time or times of the meeting, which time(s) shall be convenient for as many affected mobilehome owners as is reasonably practicable, and the exact location of the meeting, which shall be at the mobilehome park. The informal meeting, once begun, may be continued by the park owner to another date or time. The rent increase shall not become effective until forty-five days after the commencement of the informal meeting.

-
- (c) Notice to Rent Review Officer and Homeowners' Representative. The park owner shall serve a copy of the notice of rent increase and a list of the names and addresses of all persons receiving the notice upon the rent review officer at least eighty-five days before the effective date of the rent increase. The rent review officer shall acknowledge the date of receipt of the notice and list of names in writing upon the request of the park owner. The park owner shall provide a copy of the names and addresses of all mobilehome owners receiving notice to the mobilehome owners' representative within five days of the date of request therefor by the mobilehome owners' representative. Failure to provide a copy of the names and addresses of affected mobilehome owners shall not invalidate the rent increase, but the rent increase shall be delayed one day for each day after five days after the date of request, until the names and addresses of the affected mobilehome owners have been provided.
- (d) Manner of Giving Notice. Notices of rent increases or of meetings required by this chapter shall be given personally to the affected mobilehome owner, deposited in the United States mail, postage prepaid, addressed to the homeowner at ~~his or her~~ the homeowner's site within the mobilehome park, or by other manner agreed upon in writing by and between the park owner and the affected mobilehome owner. Affixing a notice on the door or other part of a mobilehome shall not constitute valid delivery, and shall not constitute substantial compliance with the requirements of this section unless such manner of delivery is agreed to in writing by the affected mobilehome owner.

(Ords. 99-24, § 5; 97-8, § 5; 95-31).

540-2.604 Failure to comply.

Any rent increase, other than a reduction in park service without a concurrent decrease in space rent, imposed by the park owner without providing notice that substantially complies with the requirements of Section 540-2.602 or without holding a meeting required by Section 540-2.602 shall be void and invalid, and such failure to comply by the park owner shall be a defense in any action brought by the park owner to recover possession of the mobilehome space or to collect any rent increase that should have been covered by such notice and meeting. A rent increase shall not be considered to be in substantial compliance with the requirements of Section 540-2.602 until at least all of the following requirements are met within the following time frames:

- (a) The park owner has provided at least thirty days' notice of any required informal meeting to all mobilehome owners affected by the proposed rent increase;
- (b) At least forty-five days have elapsed following the holding or commencement of the informal meeting to discuss the rent increase;
- (c) At least ninety days have elapsed since the provision of a notice of rent increase which contains all of the information required by Section 540-2.602; and
- (d) At least eighty-five days have elapsed following the rent review officer's receipt of the notice of rent increase and a complete list of the names and addresses of all of the mobilehome owners who received notice of the rent increase.

(Ords. 99-24, § 6; 97-8, § 6; 95-31).

540-2.606 Rent increase.

Following the provision of notice that substantially complies with the requirements of Section 540-2.602 and the holding of a meeting, and the provision of all notices required by state law, the rent increase may be implemented unless a timely petition substantially meeting the requirements of Section 540-2.804 has been filed, in which case collection of the increased rent shall be stayed upon the filing of a qualifying petition pending review of the rent increase.

(Ord. 95-31, § 2).

Article 540-2.8. Rent Increase Review

540-2.802 Rent increases—Petition required.

Any rent increases, including a reduction in service without a concurrent decrease in space rent, may be reviewed pursuant to the provisions of this article.

(Ords. 99-24, § 7; 95-31, § 2).

540-2.804 Petition.

- (a) The rent review officer shall review a rent increase upon the filing of a petition in the office of the clerk of the board of supervisors. The petition shall be signed by more than fifty percent of the mobilehome owners affected by the rent increase. For purposes of determining the sufficiency of the petition, only one homeowner per occupied space shall be counted. The petition shall designate the name and address of the mobilehome owners' representative, the name and address of the mobilehome park, and the name and address of the park owner and the park owner's representative if known to the homeowners.
- (b) The petition shall include a brief summary of the amount of the disputed space rent increase. For a reduction in service without a concurrent decrease in space rent petition filed by mobilehome owners, the petition shall describe the service that has been reduced, the date the reduction in service was discovered, and the claimed amount that the space rent should be decreased on account of the service reduction.
- (c) Subject to Section 540-2.604, the petition shall be filed no later than thirty days after the effective date of the rent increase, except that for a reduction in a park service without a concurrent decrease in space rent for which notice and a meeting was not provided, a petition may be filed no later than one hundred eighty days after discovery of the alleged rent increase.
- (d) The petition shall be accompanied by any filing fee imposed by the board of supervisors to defray the cost to the county of processing the petition and conducting the major rent increase review.
- (e) Upon the filing of the petition, the clerk of the board of supervisors will forthwith forward the petition to the rent review officer.

(Ords. 99-24, § 8; 97-8, § 7; 95-31).

540-2.806 Verification of petition.

Within sixteen days of the filing of the petition with the clerk of the board, the rent review officer shall verify that the petition has been signed by the requisite number of homeowners, and may require the park owner to provide such verifiable information as is necessary to determine what constitutes a requisite number of homeowners. The rent review officer may deem a petition sufficient if the rent review officer is not provided or is unable to obtain verifiable information regarding the adequacy of the petition.

(Ord. 95-31, § 2).

540-2.808 Mediation.

Upon verifying that the petition has been signed by the requisite number of homeowners, the rent review officer shall promptly notify the park owner and the homeowners' representative that the petition has been

received and found to be sufficient. Within ten days of verifying a petition as sufficient, the rent review officer shall convene a meeting with the park owner and the homeowner's representative for the purpose of mediating the rent dispute. In mediating the dispute, the rent review officer may require both sides to submit any information and/or documentation reasonably necessary to resolve the dispute, including the information set forth in Sections 540-2.1002 and/or 540-2.1204 and 540-2.1206, as may be appropriate. If the dispute is not resolved within forty days of petition verification, the rent review officer shall terminate mediation efforts and, within ten days of such termination, prepare a record of findings, including findings regarding the parties' participation and cooperation in the mediation efforts, and transmit said findings to the hearing officer, which findings may be considered by the hearing officer. The forty-day period for resolving disputes may be continued by agreement of the parties.

(Ord. 95-31, § 2).

540-2.810 Hearing, requirements.

- (a) If no satisfactory resolution of the dispute is reached within forty days of petition verification, or such longer period of time as the parties may agree, the rent review officer shall appoint a hearing officer who shall schedule a hearing on the disputed rent increase. The hearing shall be on a date no sooner than thirty days, nor later than sixty days from the termination of the mediation efforts. The rent review officer shall provide mailed notice, first class mail postage prepaid, to the park owner and the mobilehome owners' representative. The notice shall inform the parties of the date, time and location of the hearing, and that the park owner and/or the mobilehome owners' representative shall file with the hearing officer, two sets of any information necessary to review the rent increase, including any information requested by the hearing officer.
- (b) For major rent increases sought by the park owner, the park owner shall submit the information required by Section 540-2.1002.
- (c) For a reduction in a park service proposed by the park owner, the park owner shall submit information to support the proposed reduction in the park service without a concurrent decrease in space rent.
- (d) For a reduction in a park service without a concurrent rent decrease petition filed by the mobilehome owners, the mobilehome owners shall submit the information required by Section 540-2.1008.
- (e) For capital improvement rent increases, the park owner shall submit the information required by Section 540-2.1204 and 540-2.1206.
- (f) The information required by subdivisions (b) through (e) shall be provided no later than ten days before the hearing, one set to be provided to the other party's representative by the rent review officer. If a party is unable to provide the information in a timely manner, the hearing officer shall grant a continuance for a period no longer than ten days after the two sets of the required information has been submitted.

(Ords. 99-24, § 9; 95-31, § 2).

540-2.812 Hearing fee.

Any hearing fee established by the board of supervisors shall be paid by the park owner concurrently with the filing of the required information. The fee shall be used to pay costs of the county incurred in holding the hearing, including, without limitation, hearing officer costs, county staff time, noticing, audit costs, accountant costs and postage.

(Ord. 95-31, § 2).

540-2.814 Hearings.

- (a) General. Hearings to review rent increases shall be conducted pursuant to the procedures prescribed in this section.
- (b) Conduct of Hearing. The park owner and affected mobilehome owners may appear at the hearing and offer oral and documentary evidence. The hearing officer shall have such authority and may make such orders as necessary to assure that the hearing is conducted in a timely manner and a decision rendered within the time limits set forth in this section. The hearing officer shall exercise discretion in the determination of facts. The hearing officer need not require that formal rules of evidence be observed, provided that constitutional rights for a fair hearing are protected. The hearing officer may grant not more than two continuances of the hearing for not more than ten working days each, except that the hearing officer may grant additional continuances upon the park owners request provided the homeowners' representative is provided a reasonable amount of time to review any additional evidence submitted by the park owner. For a hearing on a petition filed by mobilehome owners seeking a rent decrease on account of an alleged park service reduction without a concurrent decrease in space rent, the hearing officer may grant additional continuances upon the mobilehome owners' representative's request, provided the park owner's representative is provided a reasonable amount of time to review any additional evidence submitted by the mobilehome owners' representative.
- (c) Representation of Parties. The parties in a hearing are entitled to be represented by a person or persons of the party's choosing. The representative need not be an attorney. The written designation of a representative(s) shall be filed with the hearing officer at or prior to the time of representation.
- (d) Hearing Findings and Determination. The hearing officer shall, within fifteen working days of the conclusion of the hearing, submit a written statement of decision, including the reasons for the decision by certified mail, return-receipt requested, to the park owner and the homeowners' representative. A copy of the statement of decision shall also be submitted to the rent review officer. The hearing officer may allow the parties to submit briefs or additional information; however, any such submission shall not prolong the decision except upon the written waiver of the park owner. The hearing officer's decision shall determine the amount of rent increase, if any, and the effective date of the rent increase consistent with providing a fair and reasonable return on the involved park owner's investment. However, following a hearing on an advance authorization capital improvement rent increase notice, the rent increase shall not be allowed, and shall not be effective until, the capital improvement has been completed, and the park owner provides the notice required by subdivision (a) of Section 540-2.1208.
- (e) Burden of Proof. The burden of proof on rent increases shall be upon the park owner. The burden of proof on a petition seeking a decrease in space rent on account of a reduction in a park service without a concurrent decrease in space rent shall be upon the mobilehome owners.
- (f) Attorneys Fees. This chapter makes no provision for attorneys fees and costs as between park owners and mobilehome owners with respect to any administrative proceeding regarding this chapter, including any appeal of any administrative decision made pursuant to this chapter. Except as expressly provided herein, under no circumstances shall any provision in this chapter be construed to allow either party to apply for or recover attorneys fees from the other in proceedings under this chapter.
- (g) Decision Final. The decision of the hearing officer is final and binding upon the park owner and all affected mobilehome owners, regardless of whether any affected mobilehome owner signed the petition for a hearing or was present or represented at the hearing. The decision of the hearing officer shall be subject to judicial review pursuant to Section 1094.5 of the Code of Civil Procedure.

The parties to the hearing may enter an agreement, which shall be signed by the hearing officer, that the decision of the hearing officer shall be final and binding upon all parties on the same basis as an arbitrator's

decision subject to confirmation, correction or vacation, pursuant to Section 1285 et seq. of the Code of Civil Procedure.

- (h) No Decision. If the hearing officer does not render and mail a decision within twenty working days of the conclusion of the hearing, the requested rent increase shall be deemed granted for the period commencing the day after said twentieth working day.

(Ords. 99-24, § 10; 95-53, § 2; 95-31, § 2).

540-2.816 Subpoenas.

- (a) Affidavit. Upon the filing of an affidavit or a declaration under penalty of perjury showing good cause by any party, the hearing officer may, at the hearing officer's discretion, issue a subpoena requiring a person or entity to attend at a particular time and place to testify as a witness and/or to produce records, documents or things. Subpoenas shall be issued and attested to by the hearing officer in the name of the county. The affidavit or declaration shall specify the exact matters or things desired to be produced, setting forth in full detail the materiality thereof to the issues involved in the proceeding, and stating that the witness has the desired matters or things in the witness' possession or under the witness' control, and a copy of such affidavit shall be served with the subpoena. Subpoenas shall designate the business records, documents, and tangible things to be produced either by specifically describing each individual item or by reasonably particularizing each category of item.
- (b) Service of Subpoenas. Any subpoena requiring that a witness personally appear to give testimony at a petition hearing shall be served in person at least five calendar days before the witness' attendance is commanded. Any subpoena duces tecum requiring production of business documents only may be served by first class mail, and must be served at least twenty calendar days before the date set forth on the face of the subpoena. Upon good cause being shown, such time limits may be shortened as is reasonable and necessary. Any subpoena or subpoena duces tecum issued pursuant to the provisions of this section shall be deemed issued by and in the name of the county.
- (c) Payment of Costs for Subpoenas Duces Tecum. All reasonable costs incurred by any witness not a party to the hearing pursuant to a subpoena duces tecum may be charged against the party serving the subpoena duces tecum. "Reasonable cost," as used in this section shall include, but not be limited to, the following specific costs: ten cents per page for standard reproduction of documents of a size eight and one-half by fourteen inches or less; twenty cents per page for copying of documents from microfilm; actual costs for the reproduction of oversize documents requiring special processing; reasonable clerical costs incurred in locating and making the records available to be billed at the maximum rate of sixteen dollars per hour per person, computed on the basis of four dollars per quarter hour or fraction thereof; actual postage charges; and actual costs, if any, charged to the witness by a third person for the retrieval and return of records held by that third person. The requesting party shall not be required to pay those costs or any estimate thereof prior to the time the records are available for delivery pursuant to the subpoena, but the witness may demand payment of costs pursuant to this section simultaneously with actual delivery of the subpoenaed records, and until such time as payment is made, is under no obligation to deliver the records. If a subpoena is served to compel the production of business records and is subsequently withdrawn or modified, the witness shall be entitled to reimbursement for all costs incurred in compliance with the subpoena to the time that the requesting party has notified the witness that the subpoena has been withdrawn or modified. Where the records are delivered to the attorney or the attorney's representative for inspection or photocopying at the witness' place of business, the fee for complying with the subpoena shall not exceed fifteen dollars, plus actual costs, if any, charged to the witness by a third person for the retrieval and return of records held off-site by a third person. If the records are retrieved from microfilm the reasonable cost, as defined above, shall also apply.

-
- (d) Payment of Costs for Subpoenas Requiring Personal Attendance. When the personal attendance of the custodian of a record or other qualified witness not a party to the hearing is required, said witness shall be entitled to witness fees for each day's actual attendance in the amount of thirty-five dollars a day plus twenty cents per mile actually traveled, both ways, or such other fee as provided by statute for the attendance of that witness in courts of the state of California. The fee for one day's attendance and mileage must be delivered to the witness at the same time the subpoena is served upon said witness, if demanded by ~~him or her~~, the witness.
- (e) Exclusive Means of Discovery. Other than the subpoenas described in subdivision (a) above, there shall be no additional discovery in proceedings before the hearing officer.

(Ord. 95-31, § 2).

540-2.818 Withdrawal of petition.

Nothing in this chapter shall preclude or invalidate an agreement between the park owner and the affected mobilehome owners which results in the mobilehome owners withdrawing a petition, either before or after the hearing officer's decision or the decision of a court, provided that the agreement contains no provision by which the mobilehome owners waive rights under this chapter. Any such waiver shall be deemed contrary to public policy and void and unenforceable.

(Ord. 95-31 § 2).

Article 540-2.10. Major Rent Increase

540-2.1002 Required information—Major rent increase.

If a hearing is scheduled on a major rent increase proposed by the park owner, the park owner shall, under penalty of perjury, submit any and all information reasonably required by the rent review officer, including, but not limited to the following:

- (a) The address of the mobilehome park;
- (b) The space number of each mobilehome space for which a rent increase is requested;
- (c) The current and proposed rent schedules for each mobilehome space in the mobilehome park, including the amount of the requested rent increase for each mobilehome space;
- (d) The facts supporting the requested rent increase, including supporting documentation;
- (e) The actual income and operating expenses by category for the mobilehome park for each year of a two-year period ending no more than six months before the proposed effective date of the rent increase;
- (f) A schedule of other anticipated fees and income from the mobilehome park;
- (g) The vacancy rates in the mobilehome park during the preceding two year period;
- (h) A list of any current leases for mobilehome spaces unaffected by the proposed rent increase extending beyond the effective date of the rent increase, showing the date that each lease expires and the amount and date of change in the space rent for such lease;
- (i) Any other information affecting the need for the proposed rent increase which is required by the rent review officer; and
- (j) Any other information which the park owner deems relevant.

(Ords. 99-24, § 11; 95-31, § 2).

540-2.1004 Standards of review for major rent increase.

- (a) Factors. Factors to be considered in evaluating a major rent increase proposed by the park owner include:
- (1) Unavoidable increases in maintenance and operating expenses, including but not limited to the reasonable value of the park owner's labor and any increased costs for services provided by a public agency, public utility, or quasi-public agency or utility;
 - (2) The substantial rehabilitation or the addition of capital improvements by the park owner seeking the major rent increase, including the reasonable value of the park owner's labor, as long as such rehabilitation or improvement has been completed and is:
 - (A) Distinguished from ordinary repair or maintenance,
 - (B) For the primary benefit, use, and enjoyment of the affected mobilehome owners,
 - (C) Permanently fixed in place or relatively immobile and appropriated to the use of the mobilehome park,
 - (D) Not coin-operated nor one for which a "use fee" or other charge is imposed on affected mobile-home owners for their use, and
 - (E) Cost-factored and amortized over the remaining useful life of the rehabilitation or improvement;
 - (3) The rental history of the affected mobilehome spaces and the mobilehome park, for the immediately preceding thirty-six months, including:
 - (A) The presence or absence of past rent increases,
 - (B) The frequency of past rent increases, and
 - (C) The occupancy rate of the mobilehome park in comparison to comparable mobilehome parks in the same general area;
 - (4) The physical condition of the affected mobilehome spaces and mobilehome park, including the quantity and quality of maintenance and repairs performed during the preceding twelve months, as well as the long term patterns of operating, maintenance, and capital improvement expenditures;
 - (5) Increases or reductions in park services since the last rent increase;
 - (6) Existing space rents for comparable mobilehome spaces in other comparable mobilehome parks;
 - (7) A decrease in net operating income as provided in Section 540-2.1006;
 - (8) A fair return on the property prorated among the mobilehome spaces of the mobilehome park;
 - (9) Other financial information which the mobilehome park owner provides;
 - (10) Whether income or expenses in a base or comparison year are unreasonably high or low. If so, the rent review officer may make an appropriate adjustment.
- (b) No cap shall be placed on rent increases pursuant to this section. It is understood that a park owner is entitled to, and this chapter shall be construed and implemented to afford a park owner a fair and reasonable return on investment.

(Ords. 99-24, § 12; 95-31, § 2).

540-2.1006 Net operating income evaluation for major rent increases.

In evaluating a major rent increase proposed to maintain the park owner's net operating income from the mobilehome park, the following definitions and provisions shall apply:

- (1) Net operating income of a mobilehome park means the gross income of the mobilehome park less the operating expenses of the mobilehome park.
- (2) Gross income means gross income from the operating of the mobilehome park business, including the sum of the following:
 - (A) Gross space rents received, provided that uncollected space rents in excess of one percent of gross space rent shall be presumed to be unreasonable and shall be computed as income. The park owner may rebut the presumption by demonstrating that reasonable efforts to collect said uncollected rents, in conformance with industry standards have been made; plus
 - (B) All other income or consideration received from operation of the mobilehome park business, and/or in connection with use or occupancy of a mobilehome space and related service, including, but not limited to interest paid by the mobilehome owners to the park owner.
- (3) Operating expenses means actual expenditures in operating the mobilehome park business, including the sum of the following:
 - (A) Real property taxes and assessments;
 - (B) Utility costs to the extent that they are included in space rent;
 - (C) Management expenses, including the compensation of administrative personnel (including the value of any such services), reasonable and necessary advertising to ensure occupancy only, legal and accounting services as permitted herein, and other managerial expenses. Management expenses are presumed to be not more than five percent of gross income, unless greater management expenses can be documented;
 - (D) Normal repair and maintenance expenses for the grounds and common facilities of the mobilehome park, including but not limited to landscaping, cleaning and repair of equipment and facilities;
 - (E) Park owner-performed labor in operating or maintaining the park. In addition to the management expenses listed in subsection (3)(C) of this section, where the park owner performs managerial or maintenance services which are uncompensated, the park owner may include the reasonable value of such services. Park owner-performed labor shall be limited to five percent of gross income unless the hearing officer finds that such limitation would be unfair in a given case. No credit for such services shall be authorized unless the park owner documents the hours utilized in performing such services and the nature of the services provided;
 - (F) Operating supplies such as janitorial supplies, gardening supplies, stationery and so forth;
 - (G) Insurance premiums prorated over the life of the policy;
 - (H) Other taxes, fees and permits, except administration fees assessed or paid pursuant to Section 540-2.1602 that are passed through to mobilehome owners;
 - (I) Reserves for replacement of long-term improvements or facilities, provided that accumulated reserves shall not exceed five percent of gross income;
 - (J) Capital improvement costs, to the extent said capital improvement costs are not passed through in the form of a rent increase pursuant to Section 540-2.408:

-
- (i) To be included as an operating expense, a capital improvement expense shall be amortized over the reasonable life of the improvement or such other period as may be deemed reasonable under the circumstances when considered in light of existing IRS standards, using the "Class Life Asset Depreciation Range System" ("ADR System"),
 - (ii) In the event that the capital improvement expenditure is necessitated as a result of accident, disaster, or other event for which the park owner receives insurance benefits, only those capital improvement costs otherwise allowable exceeding the insurance benefits may be calculated as operating expenses;
 - (K) Involuntary refinancing of mortgage or debt principal. The park owner may include certain debt services costs as an operating expense. Such costs are limited to increases in interest payments from those interest payments made during 1994 which result from one of the following situations or the equivalent thereof:
 - (i) Refinancing of the outstanding principal owed for the acquisition of the mobilehome park where such refinancing is mandated by the terms of a financing transaction entered into prior to the effective date of the ordinance codified in this chapter (e.g.) for termination of a loan with a balloon payment,
 - (ii) Increased interest costs incurred as a result of a variable interest rate loan used to finance the acquisition of the mobilehome park and entered into prior to the effective date of the ordinance codified in this chapter.

In refinancing, increased interest shall be permitted to be considered as an operating expense only where the park owner can show that the terms of the refinancing were reasonable and consistent with prudent business practices under the circumstances.
- (4) Operating expenses shall not include the following:
- (A) Avoidable and unnecessary expense increases since the base year;
 - (B) Debt service expenses, except as provided in subsection (3)(K) of this section;
 - (C) Depreciation;
 - (D) Any expense for which the park owner has been or will be reimbursed by any security deposit, insurance payment, judgment for damages, settlement, or any other method;
 - (E) Legal or attorney's fees or costs incurred or related to proceedings under this chapter;

 - (G) Reserve accounts except as set forth in subdivision (3)(I) of this section;
 - (H) Expenses unrelated to the operation of the mobilehome park;
 - (I) Expenses clearly excessive in relation to the industry standard for the same item;
 - (J) Expenses related to the sale or conversion of the mobilehome park;
 - (K) The costs of capital improvements associated with the purchase and/or installation of meters or other similar devices used for the separate billing of utilities, unless the park owner can demonstrate said capital improvement benefits the mobilehome owners.
- (5) All Operating Expenses Must Be Reasonable. Whenever a particular expense exceeds the normal industry or other comparable standard, the park owner shall bear the burden of proving the reasonableness of the expense. To the extent that the hearing officer finds any such expense to be

unreasonable, the hearing officer shall adjust the expense to reflect the normal industry or other comparable standard.

- (6) Base year operating expenses and gross income for purposes of this chapter shall mean operating expenses and gross income in calendar year 1994.
- (7) Notwithstanding any other provision of this chapter, in evaluating a major rent increase proposed on the ground that the park owner is not receiving a fair and reasonable return on investment, the hearing officer shall consider all relevant factors, without limitation, including actual income and actual expenditures associated with operation of the mobilehome park business to determine that return.

(Ord. 95-31, § 2).

540-2.1008 Review of reduction in park service major rent increase.

- (a) Mobilehome Owners' Petition. If a hearing is scheduled on a petition filed by mobilehome owners alleging that there has been a reduction in a park service without a concurrent decrease in space rent, the mobilehome owners' representative shall submit information to support the mobilehome owners' petition, including, but not limited to, the following:
 - (1) Evidence that the park service was provided by the park owner on or after September 24, 1994 and the level of the service provided;
 - (2) Evidence that the park service reduction or discontinuance was discovered no earlier than one hundred eighty days before the filing of the mobilehome owners' petition with the clerk of the board of supervisors pursuant to Section 540-2.804;
 - (3) Evidence of the cost savings realized by the park owner on or about the time the service was reduced or discontinued.
- (b) Park Owner's Rent Increase Notice. If a hearing is held on a petition challenging the amount of a proposed decrease in space rent, or lack thereof, following a park owner's notice of a reduction in a park service, the park owner shall submit evidence to support the park owner's proposed space rent increase or other space rent action, including information described by subsection (3) of subdivision (a) of this section.
- (c) Limitations. The park owner and the mobilehome owners' representative may submit any evidence to rebut the evidence submitted by the other. The hearing officer's consideration shall be limited to evidence on the park service that will be, has been, or alleged to have been reduced unless the park owner asserts that decreasing the space rent by the value of the amount of the reduced park service will deprive the park owner a fair rate of return on investment. The park owner shall not be required to submit the information required by Section 540-2.1002 unless the park owner asserts that a decrease in space rent should not be required because the current space rent is necessary to maintain a fair rate of return on the park owner's investment.

(Ord. 99- 24, § 13).

Article 540-2.12. Capital Improvement Rent Increases

540-2.1202 Capital improvement rent increases.

- (a) In order to provide an incentive to park owners to improve their properties and guaranteeing a fair and reasonable rate of return for such improvements, while at the same time protecting mobilehome owners from excessive rent increases, capital improvement rent increases shall be granted in accordance with the requirements of this article.

-
- (b) Further, in order to promote advance fiscal planning, park owners shall have the option of obtaining approval for capital improvements before performing the work. In the alternative, park owners may commence rent increase procedures after the work is completed.

(Ord. 95-31, § 2).

540-2.1204 Requirements.

- (a) Criteria. Costs of capital improvements may be approved where the following criteria are met:
- (1) The capital improvements were completed or are to be completed on or after September 20, 1994;
 - (2) The park owner has not yet increased the rent or rents to reflect the cost of the work;
 - (3) The park owner has not been or will not be compensated for the work by insurance proceeds;
 - (4) The park owner seeks a rent increase pursuant to Section 540-2.408 of this chapter no later than twenty-four months after the work has been completed;
 - (5) The costs are capital improvements as opposed to routine repair;
 - (6) The costs of the capital improvement are not associated with the purchase or installation of meters or other similar devices used for the separate billing of utilities;
 - (7) The individual mobilehome owner's pro rata share of the capital improvement costs, or the cumulative capital improvement costs assessed if one or more capital improvement rent increases have been imposed and are still being charged, will not exceed five percent of the then-existing base rent;
 - (8) The capital improvement is not coin-operated nor one for which a "use fee" or other charge is imposed on affected mobilehome owners for their use.
- (b) Cost Allocation. The cost of capital improvements shall be allocated on a pro-rata basis to affected mobilehome owners.
- (c) Declaration Re: Tax Treatment of Capital Improvement. At the time the park owner notices a capital improvement rent increase, the park owner shall submit to the rent review officer a declaration under penalty of perjury stating that the park owner has, or will, treat the capital improvement as a capital improvement for federal income tax purposes. Once each year during the amortization period for the capital improvement the rent review officer may request the park owner to provide an updated declaration stating under penalty of perjury that the park owner treated the capital improvement as a capital improvement or federal income tax purposes on the park owner's most recent tax return. In the event the park owner does not provide the rent review officer with such a declaration within sixty days of the rent review officer's request, the rent review officer may appoint a hearing officer to conduct hearings in order to recalculate the amount of the capital improvement rent increase. The hearing and recalculation shall proceed on the presumption that the park owner received a tax deduction for all of the previously nonamortized portion of the capital improvement expenditure during the year immediately following the last year for which the park owner submitted a declaration stating that the park owner~~he~~ was amortizing the capital improvement in accordance with federal law. The sole purpose of the hearing shall be to adjust the amount of the capital improvement rent increase to disallow any excess income the park owner may receive by expensing all of the previously nonamortized portion of the capital improvement in the year immediately following the park owner's most recent declaration on the subject, rather than continuing to amortize the capital improvement. The park owner shall not be required to submit such a declaration and no such recalculation shall occur if federal law has been changed so that the capital improvement may no longer be amortized, or if the park is sold, in which case the new owner shall not be able to amortize any capital improvement expenditure made by the previous owner.

(Ord. 95-31, § 2).

540-2.1206 Required information.

If a hearing on a proposed capital improvement rent increase is scheduled, the park owner shall, under penalty of perjury, submit any and all information reasonably required by the rent review officer, including, but not limited to the following:

- (a) A description of the improvement;
- (b) Contracts documents (including receipts, canceled checks, etc.) or bid documents showing the cost or estimated cost of the proposed improvement;
- (c) The amortization period to be used;
- (d) The interest rate to be used or obtained;
- (e) The formula used to calculate the pro rata share of each resident;
- (f) The monthly cost to each resident in dollars;
- (g) A statement that the cumulative cost of all capital improvement rent increases in effect and to be approved will not exceed five percent of the then-existing base rent of each tenant.

(Ord. 95-31, § 2).

540-2.1208 Effect of prior approval.

- (a) **Approval Pursuant to Hearing.** Where a park owner obtains prior approval for a capital improvement rent increase pursuant to a hearing, the park owner may make the improvements and is entitled to recover the pre-approved rent increase as set forth in this section. Upon the completion of the improvement, the park owner shall submit to the rent review officer, documentation of the actual cost of the capital improvement, and the rent increase notice to be sent to the affected mobilehome residents, which notice shall specify the amount of the rent increase. The park owner may not commence collecting the increased rent until thirty days after providing said notice to the affected mobilehome owners.

If the total actual cost (which includes the actual interest cost) is less than the total pre-approved amount, only the costs actually incurred may be passed through to the mobilehome owners in their proportionate share, except that if the park owner does not borrow the funds to pay for the improvement, the park owner shall be entitled to receive interest on ~~his~~ the park owner's funds at the rate of prime plus two percent.

If the total actual cost of the capital improvement is more than the total pre-approved amount, the park owner may waive the excess amount and, following provision of thirty days' notice, collect only the pre-approved amount. In the alternative, the park owner may provide a second notice of capital improvement rent increase for the full amount incurred, in which case the park owner shall comply with all requirements for a rent increase.

- (b) **Approval Without Petition.** Where a park owner obtains prior approval for a capital improvement rent increase, which approval was not subject to a petition, the park owner is entitled to recover the pre-approved rent increase as set forth in this section. Upon completion of the capital improvement, the park owner shall submit to the rent review officer, documentation of the actual cost of the capital improvement, and the rent increase adjustment (decrease) notice, if any, to be sent to the mobilehome owners.

If the total actual cost (which includes the actual interest cost) is less than the total pre-approved amount, only the costs actually incurred may be passed through to the mobilehome owners. If the total actual cost of the capital improvement is more than the total pre-approved amount, the park owner may waive the excess amount

and continue collecting only the pre-approved amount. In the alternative, the park owner may provide a second notice of capital improvement rent increase for the full amount incurred, in which case the park owner shall comply with all requirements for a rent increase.

(Ords. 99-24, § 14; 95-31, § 2).

540-2.1210 Review of capital improvement rent increases.

- (a) **Park Owner's Initial Burden of Proof.** The burden shall initially be on the park owner to establish that the required information regarding the capital improvement in the park owner's rent increase notice is accurate, including:
 - (1) The cost of the capital improvement project;
 - (2) The interest rate used by the park owner;
 - (3) The amortization period used by the park owner;
 - (4) The formula used to calculate the pro rata share of each mobilehome owner;
 - (5) The cumulative capital improvement rent increases will not exceed five percent of the then-existing base rent.
- (b) **Mobilehome Owner's Burden of Proof to Rebut.** Once the park owner establishes that the required information regarding the park owner's capital improvement proposed rent increase is accurate, the burden shall shift to the mobilehome owners' representative to show that the rent increase is unwarranted or excessive based upon any and only on the following four alternative grounds:
 - (1) The cost of the capital improvement project was clearly excessive given industry standards.
 - (2) The capital improvement was necessitated due to the elimination, reduction or deferment of maintenance below the level existing on or after September 20, 1994, thereby requiring replacement of the pre-existing improvement prior to the expiration of its normal expected life, as adjusted pursuant to this article.
 - (3) The interest rate charged is greater than financing reasonably available to the park owner in an arm's length transaction with a private lending institution.
 - (4) The improvement was not reasonably related to the operation of the mobilehome park business.
- (c) **Remedy If Burden of Proof Met By Mobile-home Owners.** The purpose of the provisions in this chapter providing for contesting capital improvement rent increases is to ensure the good faith of park owners, including but not limited to ensuring that park owners do not engage in nepotism, kick backs and/or deferred maintenance, or make improvements which are unnecessary to the operation of the mobilehome park business. If the hearing officer determines that the mobilehome owners have satisfied their burden of proof with respect to all or any part of the cost of a capital improvement expenditure, the hearing officer may reduce the amount of the rent increase by a corresponding amount, but not more, subject to the limitations set forth in this article and chapter. In the event the hearing officer determines that the park owner has engaged in perjury, fraud, nepotism or kickbacks with respect to a capital improvement rent increase, the hearing officer may reduce the amount of the rent increase to the level the hearing officer deems appropriate under the circumstances consistent with providing a fair and reasonable return on investment.
- (d) **Limitations On Ground For Contesting Rent Increases.** In determining the normal expected life of a capital improvement the hearing officer shall look first to the amortization table in this section or, if not applicable, the ADR system and/or the regulations, guidelines and amortization tables established by the Internal Revenue Service for capital improvements. It is recognized that the normal expected life of a capital improvement is based on averages and that the actual life may fall short of the normal expected life, for

reasons other than deferred maintenance. In the event the normal expected life of a capital improvement is less than five years, the "adjusted expected life" of the capital improvement shall be ninety percent of its normal expected life. In the event the normal expected life of a capital improvement is five years or more, the "adjusted expected life" of the capital improvement shall be eighty percent of its normal expected life. Where a petition is filed challenging a capital improvement rent increase, the hearing officer may not reduce the amount of the rent increase by an amount in excess of the difference between the actual life of the capital improvement and its "adjusted expected life." For example, if the mobilehome owners establish that as a result of deferred maintenance a preexisting capital improvement with an expected life of ten years and an "adjusted expected life" of eighty years, in fact only lasted seven years, the hearing officer may reduce the amount of the requested rent increase by ten percent, but no more. In no event may the hearing officer reduce the amount of a capital improvement rent increase based on alleged deferred maintenance where the capital improvement rent increase is necessitated by a catastrophe, act of God, or other uncontrollable circumstance, including earthquakes, landslides, earth movement, fire or flood.

Article 540-2.14 Rights and Obligations

540-2.1402 Obligation of the parties.

- (a) If the final decision by the hearing officer finds that the rent increase, or any portion thereof, is justified, each affected mobilehome owner shall pay, to the extent such payment has not already been made by the mobilehome owner, the amount found justified to be paid to the park owner, within thirty calendar days after the decision is made. Payment for pre-approved capital improvement rent increases shall commence after the improvements are completed and ninety days' notice of the rent increase is given.
- (b) If the final decision by the hearing officer finds that the rent increase, or any portion thereof, is not justified, the park owner shall refund any amount found to be unjustified, to the extent such amount has already been paid by the affected mobilehome owner, to each affected mobilehome owner within thirty days after the decision is made. If such refund is not made within thirty calendar days, the affected mobilehome owner may, to the extent allowed by law, withhold the amount from the next space rent payment, or payments until the full amount of the refund has been made.
- (c) Any sum of money that under the provisions of this section is the obligation of the park owner or an affected mobilehome owner, as the case may be, shall constitute a debt and, subject to the foregoing provisions of this section, may be collected in any manner provided by law for the civil collection of debts by private parties.

(Ord. 95-31, § 2).

540-2.1404 Mobilehome owner's right of refusal to pay.

To the extent allowed by law, an affected mobilehome owner may refuse to pay any rent increase which is in violation of this chapter provided the affected mobilehome owners have filed with the clerk of the board of supervisors, a petition representing more than fifty percent of the affected mobilehome owners. Such refusal to pay shall, to the extent allowed by law, be a defense in any action brought to recover possession of a mobilehome space or to collect the rent increase, which action is attributed to the refusal to pay.

(Ord. 95-31, § 2).

540-2.1406 Retaliation—Mobilehome owners' right to organize.

- (a) No park owner, manager or agent thereof may retaliate against a mobilehome owner or the mobilehome owner's assertion of exercise of rights under this chapter, in any manner, including but not limited to: improperly threatening to bring or bringing an action to recover possession of a mobilehome space; engaging in any form of harassment; improperly decreasing park services; improperly increasing the space rent; or improperly imposing a security deposit or any other charge payable by a mobilehome owner.
- (b) In an action by or against a mobilehome owner, evidence of the assertion or exercise by the mobilehome owner of rights under this chapter or other activity in furtherance of mobilehome owners' rights and

organizations within six months prior to the alleged act of retaliation shall create a presumption affecting the burden of producing evidence that the park owner's conduct was in retaliation for the mobilehome owner's assertion or exercise of rights under this chapter.

- (c) To the extent allowed by law, any mobile-home owner whose rights under this chapter are violated may bring a civil action for declaratory, and/or injunction relief, and/or for damages.

To the extent allowed by law, any park owner who retaliates in violation of subsection (a) of this section shall be liable to the affected mobilehome owner in a civil action or the actual damages sustained, plus reasonable attorney's fees and costs. Although a park owner's agent may be sued for declaratory and/or injunctive relief under this section, in no event may a mobilehome owner bring an action for damages against a park owner's agent or recover attorneys fees from the park owner's agent.

(Ords. 99-24, § 15, 95-31, § 2).

540-2.1408 Mobilehome owner's right to agree to term of lease.

- (a) Every mobilehome owner and prospective mobilehome owner shall have the option to reject an offered rental agreement and accept a rental agreement for a term of twelve months or less, including a month-to-month agreement.

- (c) A notice, which conforms to the following language and printed in bold letters of the same type size as the largest type size used in the rental agreement, shall be presented to the mobilehome owner or prospective mobilehome owner at the time of presentation of a rental agreement creating a tenancy with a term greater than twelve months:

IMPORTANT NOTICE TO MOBILEHOME OWNER REGARDING THE PROPOSED RENTAL AGREEMENT FOR _____ MOBILEHOME PARK: PLEASE TAKE NOTICE THAT THIS RENTAL AGREEMENT CREATES A TENANCY WITH A TERM IN EXCESS OF TWELVE (12) MONTHS. BY SIGNING THIS RENTAL AGREEMENT, YOU ARE EXEMPTING THIS MOBILEHOME SPACE FROM THE PROVISIONS OF THE COUNTY OF CONTRA COSTA MOBILEHOME SPACE RENT STABILIZATION ORDINANCE FOR THE TERM OF THIS RENTAL AGREEMENT. - (d) The notice described in the previous subsection shall contain a place for the mobilehome owner or prospective mobilehome owner to acknowledge receipt of the notice and shall also contain an acknowledgement signed under penalty of perjury by the park owner or manager that the notice has been given to the mobilehome owner or prospective mobilehome owner in accordance with the previous subsection. Any such person so occupying space in a hotel shall be deemed to be a transient until the period of thirty days has expired unless there is an agreement in writing between the operator and the occupant providing for a longer period of occupancy. In determining whether a person is a transient, uninterrupted periods of time extending both prior and subsequent to the effective date of this chapter may be considered.
 - (5) "Rent" means the consideration charged, whether or not received, for the occupancy of space in a hotel valued in money, whether to be received in money, goods, labor or otherwise, including all receipts, cash, credits and property and services of any kind or nature, without any deduction therefrom whatsoever.

(Ord. 1891: prior code § 2530.1).

Article 64-4.4. Imposition and Administration

64-4.402 Rate.

For the privilege of occupancy in any hotel, each transient is subject to and shall pay a tax in the amount of ten percent of the rent charged by the operator. This tax constitutes a debt owed by the transient to the county which is extinguished only by payment to the operator or to the county. The transient shall pay the tax to the operator of the hotel at the time the rent is paid. If the rent is paid in installments, a proportionate share of the tax shall be paid with each installment. The unpaid tax shall be due upon the transient's ceasing to occupy space in the hotel. If for any reason the tax due is not paid to the operator of the hotel, the tax administrator may require that such tax shall be paid directly to the tax administrator.

(Ords. 90-102, § 1; 83-38, § 1; 80-73, § 1; prior code § 2530.2: Ord. 1891).

64-4.404 Imposition - Exemptions.

No tax shall be imposed upon:

-
- (1) Any person as to whom, or any occupancy as to which, it is beyond the power of the county to impose the tax herein provided;
 - (2) Any federal or state of California officer or employee when on official business;

(Ords. 1891: prior code § 2530.3).

64-4.406 Administration - Operator's duties.

Each operator shall collect the tax imposed by this chapter to the same extent and at the same time as the rent is collected from every transient. The amount of tax shall be separately stated from the amount of the rent charged, and each transient shall receive a receipt for payment from the operator. No operator of a hotel shall advertise or state in any manner, whether directly or indirectly, that the tax or any part thereof will be assumed or absorbed by the operator, or that it will not be added to the rent, or that, if added any part will be refunded except in the manner hereinafter provided.

(Ord. 1891: prior code § 2530.4).

64-4.408 Administration-Registration of hotel.

Within thirty days after the effective date of this chapter, or within thirty days after commencing business, whichever is later, each operator of any hotel renting occupancy to transients shall register the hotel with the tax administrator and obtain from ~~the tax administrator~~ a "transient occupancy registration certificate" to be at all times available upon demand on the premises by a transient or the tax administrator. Whenever there is a change in the identity of the owner or operator of any such hotel, the operator must secure a new "transient occupancy registration certificate" for the premises and the tax administrator may require the payments of all approved transient occupancy taxes, whether due or not as a condition to the issuance of such new certificate. The certificate shall, among other things, state the following:

- (1) The name and address of the operator;
- (2) The name and address of the owner;
- (3) The name and address of the hotel;

This certificate does not authorize any person to conduct any unlawful business or to conduct any lawful business in an unlawful manner, nor to operate a hotel without strictly complying with all local applicable laws, including but not limited to those requiring a permit from any board, commission, department or office of this county. This certificate does not constitute a permit."

(Ord. 1891: prior code § 2530.5).

64-4.410 Administration — Reporting and remitting.

Each operator shall, on or before the last day of the month following the close of each calendar quarter, or at the close of any shorter reporting period which may be established by the tax administrator, make a return to the tax administrator, on forms provided by ~~the tax administrator~~ ~~him~~, of the total rents charged and received and the amount of tax collected for transient occupancies. At the time the return is filed the full amount of the tax collected shall be remitted to the tax administrator. Returns and payments are due immediately upon cessation of business for any reason. All taxes collected by operators pursuant to this chapter shall be held in trust for the account of the county until payment thereof is made to the tax administrator.

Chapter 64-8 MORAGA FIRE PROTECTION DISTRICT REAL PROPERTY TAX

Article 64-8.2. General

64-8.202 Purpose and intent.

It is the purpose and intent of this chapter to authorize the levy of a tax on parcels of real property on the secured property tax roll of Contra Costa County that are within the Moraga fire protection district in order to augment funding for fire protection and prevention services.

This tax is a special tax within the meaning of Section 4 of Article XIII A of the California Constitution, and this chapter is enacted pursuant to Government Code Section 53978 (adopted by Chapter 397 of the Statutes of 1979). Because the burden of this tax falls upon property, this tax also is a property tax, but this tax is not determined according to nor in any manner based upon the value of property; this tax is based, to the extent practical, upon the improvements to each parcel and, specifically, the risk of fire attendant to such improvements. Insofar as not inconsistent with this chapter or Chapter 397 of the Statutes of 1979 and insofar as applicable to a property tax that is not based on value, such provisions of the California Revenue and Taxation Code and of Article XIII of the California Constitution as relate to ad valorem property taxes are intended to apply to the collection and administration of this tax (Section 64-8.402 of this chapter), as authorized by Government Code Section 53978(d).

The revenues raised by this tax are to be used solely for the purposes of obtaining, furnishing, operating, and maintaining fire suppression equipment or apparatus, for paying the salaries and benefits of firefighting personnel, and for such other fire protection or prevention expenses as are deemed necessary by the Moraga fire protection district.

(Ord. 80-19 Art. 1).

64-8.204 Definitions.

The following definitions shall apply through this chapter:

- (1) "Ad valorem property taxes" or "ad valorem real property taxes" means taxes on that secured roll real property which is subject to being sold for delinquency of such taxes. "Ad valorem property taxes" or "ad valorem real property taxes," therefore includes taxes based on the March 1, 1975, value of real property and taxes based on the value of real property at date of change of ownership, completion of new construction, or purchase where such has occurred after March 1, 1975.
- (2) "Approved sprinkler system" means a sprinkler system conforming with the requirements of the district's fire code and any applicable building codes.
- (3) "Combustible improvement" means any building or other improvement, including all attached parts of such building or other improvement, if any contents or part of the building or other improvement is capable of burning.
- (4) "Component" means any part of the formula for the improved parcel fire risk factor or the unimproved parcel fire risk factor.
- (5) "District" means Moraga fire protection district.
- (6) "Fiscal year" means the period of July 1st through the following June 30th.
- (7) "Improved parcel" means any parcel upon which any combustible improvement exists.

-
- (8) "Improved parcel combined fire risk factor" means the total of the improved parcel fire risk factors for all combustible improvements on a parcel.
- (9) "Improved parcel fire risk factor" means the figure calculated for each combustible improvement on an improved parcel, according to the following formula:

Improved parcel fire risk factor =

$$18 \times C \times vA \times .5S$$

Where:

C = the coefficient for the type of construction of the improvement, as specified on page 1 of the Insurance Services Office Guide for Determination of Required Fire Flow, dated December, 1974. The type of construction of the improvement, which will determine the coefficient to be used, is to be determined in accordance with the definitions set forth in the first part of the appendix to the abovementioned guide. A copy of the guide shall be available for public inspection at the administrative headquarters of the district, Moraga, California.

Area = the approximate total square footage of the improvement, including all floors (basements included) and all attached parts of the improvement.

5 2/ft. for a combustible improvement that does not contain an approved sprinkler system.

S = 1/ft. for a combustible improvement that does contain an approved sprinkler system.

- (10) "Improvement" means those items included within the Revenue and Taxation Code Section 105 definition of improvements, except for (a) fences, poles and walls that are not a part of or connected to a structure, and (b) trees and vines.
- (11) "Parcel" means the land and any improvements thereon, designated by an assessor's parcel map and parcel number and carried on the secured property tax roll of Contra Costa County. For purposes of this chapter, "parcel" does not include any land or improvement outside the boundaries of the Moraga fire protection district nor any land or improvements owned by any governmental entity.
- (12) "Rate" or "tax rate" means the amount, expressed in cents, which is to be multiplied by either the unimproved parcel fire risk factor or the improved parcel combined fire risk factor to compute the amount of tax on a parcel.
- (13) "Taxpayer" means the assessee of the property as shown on the secured tax roll and, if different than the assessee, the person or legal entity actually paying the taxes.
- (14) "Unimproved parcel" means any parcel except an improved parcel.
- (15) "Unimproved parcel fire risk factor" means the figure calculated for an unimproved parcel according to the following formula:

Unimproved parcel fire risk factor

$$400 + (EA \times 5/\text{acre})$$

Where:

EA = the amount of acreage of the parcel that is in excess of one acre.

(Ord. 80-19 Art. 2).

Article 64-8.4. Imposition, Administration and Appeals

64-8.402 Setting tax rate—Computation and levy.

- (a) **Setting Tax Rate.** The district's board of fire commissioners, prior to each July 1st, shall recommend to the district's board of directors the tax rate to be set for the next fiscal year. Thereafter, at a regularly scheduled meeting held prior to the end of July, the board of directors of the Moraga fire protection district shall set the rate which shall be applied to determine the taxes for the next fiscal year. The rate shall be in cents and shall be determined to the closest one-tenth of a cent (e.g., a rate of 4.5 cents) that the board of directors of the district deems appropriate to achieve the purposes of this chapter; provided, however, that said rate shall not exceed six cents unless an increase in such maximum rate is approved by two-thirds of the voters voting on such an increase in a district-wide election.
- (b) **Computation of Taxes.**
 - (1) **Improved parcels:** the tax on each improved parcel shall be the amount, in dollars and cents, determined by multiplying the rate times the improved parcel combined fire risk factor for the parcel.
 - (2) **Unimproved parcels:** the tax on each unimproved parcel shall be the amount, in dollars and cents, determined for multiplying the rate times the unimproved parcel fire risk factor for the parcel.
- (c) **Levy of Taxes.** Prior to the end of each July, the district's board of directors shall levy taxes upon the parcels in the Moraga fire protection district for the then current fiscal year by setting the rate and computing the taxes in accordance with subsections (a) and (b) above. Taxes levied on each parcel pursuant to this section shall be a charge upon the parcel and shall be due and collectible as set forth in Section 64-8.402 below. A complete listing of the amount of taxes on each parcel shall be maintained and be available for public inspection at the district's administrative headquarters during the remainder of the fiscal year for which such taxes are levied.

(Ord. 80-19 Art. 3).

64-8.404 Collection and administration.

- (a) **Taxes as Liens Against the Property.** The amount of taxes for each parcel each year shall constitute a lien on such property, in accordance with Revenue and Taxation Code Section 2187, and shall have the same effect as an ad valorem real property tax lien until fully paid.
- (b) **Collection.** The taxes on each parcel shall be billed on the secured roll tax bills for ad valorem property taxes and shall be due the Moraga fire protection district. Insofar as feasible and insofar as not inconsistent with this chapter, the taxes are to be collected by Contra Costa County on behalf of the district in the same manner in which the county collects secured roll ad valorem property taxes. Insofar as feasible and insofar as not inconsistent with this chapter, the times and procedures regarding exemptions, due dates, installment payments, corrections, cancellations, refunds, penalties, liens, and collections for secured roll ad valorem property taxes shall be applicable to the collection of this tax. Notwithstanding anything to the contrary in the foregoing, as to this tax: (1) the secured roll tax bills shall be the only notices required for this tax, (2) the appeal procedures set forth hereinbelow shall apply in lieu of appeals to the assessment appeals board, and (3) the homeowners' and veterans' exemptions are not applicable, because such exemptions are a function of dollar amount of value and this tax is a function of square footage or acreage.
- (c) **Publication of Notice of Time Limit for Filing Appeals.** Within twenty days after the bills for the first installment of secured roll taxes have been mailed, the board of fire commissioners of the Moraga fire protection district shall cause a notice of right to appeal to be published once a week for two weeks in a newspaper of general circulation throughout the district. Such notice shall be headed "Notice of Appeals Period for Moraga Fire Protection District Special Tax for Fire Protection and Prevention Services" and shall contain the precise wording of all of Section 64-8.406.

-
- (d) Costs of Administration by County. The reasonable costs incurred by the county officers collecting and administering this tax shall be deducted from the collected taxes before remittal of the balance to the district.

(Ord. 80-19 Art. 4).

64-8.406 Appeals.

(a) Filing.

- (1) Appeals of the amount of the special tax for fire protection and prevention services for a parcel, or of any component of the tax, must be made by written application of the taxpayer to the district's board of fire commissioners and must be received at the district's administrative headquarters, Moraga, California, no later than the 31st of December following receipt of the tax bill for the first installment of secured roll taxes.
- (2) Any such appeal must set forth all facts upon which the taxpayer contends that the taxes should be reduced. Any such appeal also must give the mailing address of the taxpayer, must specify by precise address or assessor's parcel number the location of the parcel for which the taxes are being appealed, and must contain a statement made under penalty of perjury that the facts set forth in the application are true.
- (3) If the district's staff and the appealing taxpayer do not agree on a resolution of the issue(s) presented by the appeal, an application which complies with the requirements stated above shall be set for hearing before the board of fire commissioners of the district as soon as reasonably possible, and notice of such hearing shall be mailed to the appealing taxpayer at least two weeks in advance of the hearing.
- (4) Filing of an appeal is not grounds for failing to timely pay the entire amount of taxes specified as due on the tax bill.
- (5) If taxes are reduced or increased as a result of the decision of the commissioners, the taxes shall be refunded or collected, insofar as feasible, in the same manner as secured roll ad valorem property taxes are refunded or collected after assessment appeals board hearings.

(b) Hearing.

- (1) The taxpayer or the taxpayer's designated representative may, but need not, be present at the hearing. If present, the taxpayer or the taxpayer's designated representative may present any relevant evidence and may be examined under oath by the district's representative and the commissioners. The district's representative may also present any relevant evidence and be examined under oath by the taxpayer, or the taxpayer's designated representative, and the commissioners. The burden of proof of any factual question shall be on the taxpayer.
- (2) Within forty days after the hearing, the commissioners, by majority vote, shall determine what (if any) component of the tax bill shall be reduced or increased, and by how much. If taxes are to be reduced or increased as a result of the decision of the commissioners, the taxes shall be refunded or collected, insofar as feasible, in the same manner as secured roll ad valorem property taxes are refunded or collected after assessment appeals board hearings.

(Ord. 80-19 Art. 5).

The fees prescribed by this chapter constitute a tax for revenue purposes, and are not regulatory permit fees. The payment of a license tax required by the provisions of this chapter, and its acceptance by the county, and the issuance of a business license to any person, shall not entitle the holder thereof to carry on any business unless ~~the person he/she~~ has complied with all of the requirements of this chapter and all other applicable laws, nor to carry on any business in any building or on any premises designated in such license in the event that such building or premises are situated in a zone or locality in which the conduct of such business is in violation of any law.

The county may collect the debt through any legal means including attachment and seizure of business property.

The conviction and punishment of any person for transacting any business without obtaining a license shall not excuse or exempt such person from the payment of any license tax due or unpaid at the time of such conviction, and nothing in this chapter shall prevent a criminal prosecution of any violation of the provisions of this chapter. All remedies prescribed under this chapter are cumulative and the use of one or more remedies by the county shall not bar the use of any other remedy for the purpose of enforcing the provisions of this chapter.

(Ord. 91-35 § 1).

64-14.1006 Appeals.

- (a) Any person aggrieved by any decision of an administrative officer or agency with respect to the issuance or refusal to issue a license, or the amount of a license tax, may appeal the county administrator by filing a written notice of appeal setting forth in full the grounds of the appeal, with the clerk of the board of supervisors.

- (b) In addition to any other remedies available under federal, state, or local law, if any cannabis business tax, interest or penalties are delinquent, the treasurer-tax collector may, within three years after the amount is due, record a certificate of lien specifying the amount of cannabis business taxes, interest, and penalties due, and identifying the names and last known addresses of the persons responsible for payment. The lien shall have the force, effect, and priority of a judgment lien and shall continue for ten years from the date of recording unless sooner released or otherwise discharged.

-
- (c) At any time within three years after any person is determined by the treasurer-tax collector to be delinquent in the payment of cannabis business tax, or within three years after the last recording of a certificate of lien for delinquent cannabis business tax, the treasurer-tax collector may issue a warrant for the enforcement of any liens and for the collection of any delinquent cannabis business tax, including interest and penalties assessed thereon.  - (e) All remedies and penalties prescribed by this chapter or that are available under this Code or any other provision of law or equity are cumulative. The use of one or more remedies by the county does not constitute a waiver or bar the use of any other remedy for the purpose of enforcing the provisions of this chapter.

(Ord. No. 2018-22, § I, 11-6-18)

64-16.616 Apportionment, compliance with law, fees.

- (a) If a commercial cannabis activity operates both within and outside the unincorporated area of the county, it is the intent of the county to apply this chapter so that the tax fairly reflects the proportion of the activity actually carried on in the unincorporated area of the county. For purposes of apportionment as may be required by law, the treasurer-tax collector may promulgate administrative procedures for apportionment in accordance with state law and is authorized to obtain any necessary information from the commercial cannabis activity for this purpose, including financial records pertaining to activities outside the unincorporated area of the county.
- (b) It is the intent of the county to apply this chapter in a manner consistent with the United States and California Constitutions and state law. - (c) Nothing in this chapter shall be deemed to repeal, amend, be in lieu of, replace, or in any way affect any requirements for any permit or license required under any other provision of this Code or state law. Nothing contained in this chapter shall be deemed to affect any tax, interest, penalty, fee, or other charge imposed under any other provision of this Code or state law.
- (d) Payment of the tax authorized by this chapter, and the county's acceptance of the tax, does not entitle a person to conduct a commercial cannabis activity unless that person has complied with all requirements of this Code and applicable state law. Payment of the tax authorized by this chapter, and the county's acceptance of the tax, does not authorize the conduct or continuance of any illegal or unlawful activities.
- (e) Fees charged by the treasurer-tax collector will be in accordance with a fee schedule adopted by the board of supervisors.

(Ord. No. 2018-22, § I, 11-6-18)

64-16.618 Amendment or repeal.

- (a) This chapter may be repealed or amended by the board of supervisors without a vote of the people to the extent allowed by law. Voter approval is required for any amendment that would increase the rate of any tax levied under this chapter, as required by Article XIIC of the California Constitution.
- (b) The following actions do not constitute an increase of the rate of a tax:
 - (1) Adjustment of the tax rate to a rate that is no higher than the maximum rate set by this chapter, as adjusted by the Consumer Price Index in accordance with the terms of this chapter;
 - (2) An action that interprets or clarifies the methodology of the tax or any definition under this chapter, so long as the interpretation or clarification, even if contrary to a prior interpretation or clarification, is not inconsistent with the language of this chapter;

 - (4) Whether it is probable that the taxes will be collectible after the date of delinquency;
 - (5) Whether the probable sale price will be very grossly less than the property's then fair market value and whether delaying the tax collector's sale or allowing the taxpayer to sell will very substantially lessen this alleged disparity in values.
- (b) Whether there has been an overvaluation in the assessment on which the taxes have been based is not within the scope of the hearing.

(Ord. 80-30).

66-4.014 Decision of hearing officer.

The hearing officer's decision shall be final and shall be mailed to the assessee within ten calendar days after the hearing. If the hearing officer rules in favor of the assessee, or if the hearing officer~~he~~ fails to conduct a hearing, or fails to mail the hearing officer's~~his~~ decision within ten calendar days after the hearing, the tax collector shall promptly release the property; but the tax collector may (after ten calendar days following the hearing) proceed to sell the property without further hearings if the hearing officer made and mailed the hearing officer's~~his~~ decision upholding the tax collector's right to sell.

(Ord. 80-30).

66-4.016 Effect of decision.

The limited purpose of the hearing is to see if there is reasonable cause to delay the tax collector's pending sale or to cancel it altogether; and the hearing officer's decision cannot purport to affect the ultimate legal issues of taxability or valuation which can be adjudicated only as otherwise provided by law.

(Ord. 80-30).

Chapter 66-6 REASSESSMENT OF DAMAGED PROPERTY

Article 66-6.2. Purpose and Authority

66-6.202 Purpose and authority.

The purpose of this chapter is to effectuate Revenue and Taxation Code Section 170 by providing for reassessment of property damaged or destroyed by major misfortune or calamity so as to allow reduced taxes for the part of the tax year in which the property was damaged or destroyed.

(Ord. 82-39).

Article 66-6.4. Applicability

66-6.402 Property eligible.

To be eligible for reassessment under this chapter property must have been damaged or destroyed by a major misfortune or calamity, in an area or region subsequently proclaimed by the Governor to be in a state of disaster due to the misfortune or calamity. As used in this section, "damage" includes a diminution in the value of property as a result of restricted access to the property where such restricted access was caused by the major misfortune or calamity.

(Ord. 82-39).

Article 66-6.6. Administration

66-6.602 Application for reassessment.

An application for reassessment must be filed within twelve months of the Governor's proclamation that the area is in a state of disaster. Application for reassessment shall be made by delivering to the assessor a written request for reassessment. Such written request must show the condition and value, if any, of the property immediately after the damage or destruction, and the dollar amount of the damage. The applicant must verify the facts stated in the written request by executing the request under penalty of perjury and, if executed outside the state of California, verify the facts stated therein by affidavit. If no such application is made and the assessor determines that within the preceding twelve months a property has suffered damage caused by misfortune or calamity which may qualify the property owner for relief, the assessor shall provide the last known owner of the property with an application for reassessment. The property owner shall file the completed application within sixty days of the date of mailing of notification by the assessor but in no case more than twelve months after the occurrence of said damage. Upon receipt of a properly completed, timely filed application, the property shall be reassessed in the same manner as required in Section 66-6.604.

(Ord. 82-39, amended by Ord. 2003-08).

66-6.603 No application.

If no application for reassessment is made, and if the assessor determines that within the preceding twelve months a property has suffered damage caused by misfortune or calamity, which may qualify the owner for relief under this chapter, the assessor may, with the approval of the board, reassess the property for which the approval was granted as provided in Section 66-6.604 and notify the last known owner of the reassessment.

(Ord. 82-39, amended by Ord. 2003-08).

66-6.604 Assessor's reappraisal.

Upon receiving a proper application, the assessor shall appraise the property and determine separately the full cash value of land, improvements and personalty immediately before and after the damage or destruction. If the sum of the full cash values of the land, improvements and personalty before the damages or destruction exceeds the sum of the values after the damage by ten thousand dollars or more, the assessor shall also separately determine the percentage reductions in value of land, improvements and personalty due to the damage or destruction. The assessor shall reduce the values appearing on the assessment roll by the percentages of damage or destruction computed pursuant to this subdivision, and the taxes due on the property shall be adjusted as provided in Section 66-6.610; provided, however, that the amount of the reduction shall not exceed the actual loss.

(Ord. 82-39).

66-6.606 Appeals.

The assessor shall notify the applicant in writing of the amount of the proposed reassessment. The notice shall state that the applicant may appeal the proposed reassessment to the local assessment appeals board within six months of the date of mailing the notice. If an appeal is requested within the six month period, the board shall hear and decide the matter as if the proposed reassessment had been entered on the roll as an assessment made outside the regular assessment period. The decision of the board regarding the damaged value of the property shall be final, provided that a decision of the local board regarding any reassessment made pursuant to this section shall create no presumption as regards the value of the affected property subsequent to the date of damage.

(Ord. 82-39, amended by Ord. 2003-08).

66-6.608 Auditor's reduction of roll value.

Reassessed values resulting from reductions in full cash value of amounts, as determined above, shall be forwarded to the auditor by the assessor or the clerk of the assessment appeals board, as the case may be. The auditor shall enter the reassessed values on the roll. After being entered on the roll, such reassessed values shall not be subject to review, except by a court of competent jurisdiction.

(Ord. 82-39).

66-6.610 Proration.

The tax rate fixed for property on the roll on which the property so reassessed appeared at the time of the misfortune or calamity shall be applied to the amount of the reassessment as determined in accordance with this section and the assessee shall be liable for: (1) a prorated portion of the taxes that would have been due on the property for the current fiscal year had the misfortune or calamity not occurred, such proration to be determined on the basis of the number of months in the current fiscal year prior to the misfortune or calamity; plus, (2) a proration of the tax due on the property as reassessed in its damaged or destroyed condition, such proration to be determined on the basis of the number of months in the fiscal year after the damage or destruction, including the month in which the damage was incurred. If the damage or destruction occurred after January 1 and before the beginning of the next fiscal year, the reassessment shall be utilized to determine the tax liability for the next fiscal year; provided, however, if the property is fully restored during the next fiscal year, taxes due for that year shall be prorated based on the number of months in the year before and after the completion of restoration.

(Ord. 82-39, amended by Ord. 2003-08).

66-6.612 Refunds.

Any tax paid in excess of the total tax due shall be refunded to the taxpayer pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of the Revenue and Taxation Code, as an erroneously collected tax or by order of the board of supervisors without the necessity of a claim being filed pursuant to Chapter 5.

(Ord. 82-39).

66-6.614 Review of assessment.

The assessed value of the property in its damaged condition, as determined pursuant to the foregoing provisions, compounded annually by the inflation factor specified in subdivision (a) of Revenue and Taxation Code Section 51, shall be the taxable value of the property until it is restored, repaired, reconstructed or other provisions of the law require the establishment of a new base year value.

If partial reconstruction, restoration, or repair has occurred on any subsequent lien date, the taxable value shall be increased by an amount determined by multiplying the difference between its factored base year value immediately before the calamity and its assessed value in its damaged condition by the percentage of the repair, reconstruction, or restoration completed on that lien date.

When the property is fully repaired, restored or reconstructed, its new taxable value shall be the lesser of (1) its full cash value, or (2) its factored base year value or its factored base year value as adjusted pursuant to subdivision (c) of Revenue and Taxation Code Section 70. The new taxable value shall be enrolled on the lien date following completion of the repair, restoration, or reconstruction.

(Ord. 82-39).

66-6.616 Intent of no increase of taxes over existing law.

Notwithstanding the foregoing, the auditor shall not change the roll or recalculate taxes under this chapter in any case where the taxpayer shows that doing so would increase the taxes otherwise due, for a period including both the tax year of the damage and the next following tax year.

(Ord. 82-39).

Chapter 66-7 TRANSFER OF BASE YEAR VALUE FROM OTHER COUNTIES IN CALIFORNIA WHEN PROPERTY SUBSTANTIALLY DESTROYED BY A GOVERNOR-DECLARED DISASTER IS REPLACED BY A COMPARABLE RESIDENCE IN THE COUNTY

Article 66-7.2. Legislative Authority and Purpose

66-7.202 Purpose and authority.

In enacting this chapter, it is the intention of the board of supervisors to fully implement and adopt in Contra Costa County the property tax benefits authorized by Proposition 171, adopted as paragraph (3) of subdivision (e) of Section 2 of Article XIII A of the California Constitution by the voters of California at the general election conducted in November of 1993, and Revenue and Taxation Code Section 69.3 as adopted by the Legislature in May of 1994.

(Ord. 94-56 § 1).

66-7.204 Limitation to disasters occurring on or after October 20, 1991.

This chapter shall apply only to property substantially damaged or destroyed by a disaster occurring on or after October 20, 1991.

(Ord. 94-56 § 1).

Article 66-7.4. Transfer of Base Year Values

66-7.402 Definitions.

The following definitions shall apply herein:

- (1) "Comparable replacement property" means a replaced property that has a full cash value of equal or lesser value as defined in subsection (3) of this section.
- (2) "Disaster" means a major misfortune or calamity in an area subsequently proclaimed by the Governor to be in a state of disaster as a result of the misfortune or calamity.
- (3) "Equal or lesser value" means that the amount of the full cash value of a replacement property does not exceed one of the following:

-
- (A) One hundred five percent of the amount of the full cash value of the original property if the replacement property is purchased or newly constructed within the first year following the date of the damage or destruction of the original property;
 - (B) One hundred ten percent of the amount of the full cash value of the original property if the replacement property is purchased or newly constructed within the second year following the date of the damage or destruction of the original property;
 - (C) One hundred fifteen percent of the amount of the full cash value of the original property if the replacement property is purchased or newly constructed within the third year following the date of the damage or destruction of the original property.

For the purposes of this definition, if the replacement property is, in part, purchased and, in part, newly constructed, the date the "replacement property is purchased or newly constructed" is the date of the purchase or the date of completion of new construction, whichever is later. For purposes of this definition, "full cash value of the original property" shall be the total amount of the full cash value of land and improvements immediately prior to its substantial damage or destruction, as determined by the county assessor of the county in which the property is located.

- (4) "Original property" means a building, structure or other shelter constituting a place of abode, whether real property or personal property, that is owned and occupied by a claimant as ~~the claimant's his or her~~ principal place of residence, and any land owned by the claimant on which the building, structure or other shelter is situated, that has been substantially damaged or destroyed by a disaster, as declared by the Governor. For purposes of this definition, land constituting a part of original property includes only that area of reasonable size that is used as a site for a residence, and "land owned by the claimant" includes land for which the claimant either holds a leasehold interest described in subdivision (c) of Section 61 of the Revenue and Taxation Code or a land purchase contract. For purposes of this definition, each unit of a multiunit dwelling shall be considered a separate original property.
- (5) "Owner or owners" means an individual or individuals, but does not include any firm, partnership, association, corporation, company, other legal entity or organization of any kind.
- (6) "Replacement property" means a building, structure or other shelter, or other personal property, that is owned and occupied by a claimant as ~~the claimant's his or her~~ principal place of residence, and any land owned by the claimant on which the building, structure or other shelter is situated. For purposes of this subsection, land constituting a part of the replacement dwelling includes only that area of reasonable size that is used as the site for a residence, and "land owned by the claimant" includes land for which the claimant either holds a leasehold interest described in subdivision (c) of Section 61 of the Revenue and Taxation Code or a land purchase contract. For the purposes of this subsection, each unit of a multiunit dwelling shall be considered a separate replacement dwelling.
- (7) "Substantially damaged or destroyed" means property that sustains physical damage amounting to more than fifty percent of value when the total full cash value of land and improvements after the disaster is compared to the total full cash value of land and improvements immediately prior to the disaster. Damage includes a diminution of value in the value of property as a result of restricted access to the property where the restricted access was caused by the disaster and is permanent in nature.

(Ord. 94-56 § 1).

66-7.404 Transfer of base year values.

Upon meeting the requirements of this chapter, the base year value of original property located in another county in California will be transferred to a comparable replacement property, including land, of equal or lesser

value in Contra Costa County, when the replacement property is acquired or newly constructed by the owner of the original property within three years after the original property is substantially damaged or destroyed. The base year value transferred shall be the base year value of the original property, as determined in accordance with Section 110.1 of the Revenue and Taxation Code, with the adjustments permitted by subdivision (b) of Section 2 of Article XIII A of the California Constitution and subdivision (f) of Section 110.1, determined as of the date immediately prior to the date that the original property was substantially damaged or destroyed. The base year value of the original property shall also include any inflation factor adjustments permitted by subdivision (f) of Section 110.1 for the period subsequent to the date of the substantial damage to, or destruction of, the original property and up to the date the replacement property is acquired or newly constructed. The base year or years used to compute the base year value of the original property shall be deemed to be the base year or years of any property to which that base year value is transferred pursuant to this chapter.

(Ord. 94-56 § 1).

Article 66-7.6 Procedures

66-7.602 Claims for transfer of base year value.

Claims for transfers of base year value under this chapter shall be filed with the assessor, on forms prescribed or approved by the state board of equalization or the assessor for this purpose. The assessor will make claim forms available to prospective claimants. Only the owner or owners of property substantially damaged or destroyed in another county, who thereafter obtain title to comparable replacement property in this county, may apply for or receive relief under this chapter. The acquisition of an ownership interest in a legal entity that, directly or indirectly, owns real property is not an acquisition of comparable replacement property for purposes of this chapter.

(Ord. 94-56 § 1).

66-7.604 Determination of comparability of original property.

In determining whether the replacement property in this county is of equal or lesser value when compared to the original property, the full cash value of the original property immediately prior to the substantial damage or destruction shall be determined by the assessor of the county in which the original property is located, and that determination shall be accepted by the assessor of this county.

(Ord. 94-56 § 1).

66-7.606 Base year value to be transferred.

The base year value to be transferred under the provisions of this chapter shall be determined by the assessor of the county in which the original property is located, and that value shall be accepted by the assessor of this county.

(Ord. 94-56 § 1).

66-7.608 Determination of the percent of damage.

The assessor of the county in which the original property is located shall determine the total full cash value of land and improvements after the disaster and the total full cash value of land and improvements immediately prior to the disaster. The assessor of Contra Costa County shall make the determination of whether the original property has sustained damage amounting to more than fifty percent of the total full cash value of land and

improvements immediately prior to the disaster by accepting the values determined by the assessor of the county in which the original property is located.

(Ord. 94-56 § 1).

66-7.610 Charges incurred by assessor.

Pursuant to the provisions of Section 54985 of the Government Code, the assessor shall as a condition of the transfer of base year value impose a reasonable charge for the costs of processing the transfer. The charge shall be determined by resolution of the board of supervisors and shall not exceed two hundred fifty dollars for each transfer. The transfer of base year value shall not be effected unless and until the charge is paid in full to the assessor.

(Ord. 94-56 § 1).

Article 66-7.8 Refunds

66-7.802 Refunds.

Upon approval by the assessor of a claim filed under this chapter, the base year value transferred from the original property as specified in this chapter shall be entered upon the assessment roll, and the appropriate corrections and cancellations of prior values and taxes shall be processed so that ~~the~~ owner of the comparable replacement property receives a refund of taxes to the extent that the taxes previously assessed and paid exceed the taxes due for the corrected base year value for all applicable tax years.

(Ord. 94-56 § 1).

66-7.804 Limitation of relief under subsection (c) of Section 70 of the Revenue and Taxation Code.

Any owner of property receiving relief under this chapter shall not be eligible for property tax relief under subsection (c) of Section 70 of the Revenue and Taxation Code in the event the original property is reconstructed.

(Ord. 94-56 § 1).

Article 66-7.10 Operative Period

66-7.1002 Operative period of this chapter.

This chapter shall apply to qualifying replacement property purchased or newly constructed in this county after October 20, 1991, and to the determination of base year values for the 1991-92 tax year and each tax year thereafter. The provisions of this chapter shall remain operative until repealed by ordinance adopted by this board.

(Ord. 94-56 § 1).

Chapter 66-8 POSSESSORY INTEREST REPORTING

Article 66-8.2. Purpose and Authority

66-8.202 Purpose and authority.

The purpose of this chapter is to effectuate Revenue and Taxation Code Section 480.4 (Chapter 872, Statutes 1984) in order to require the owners of tax-exempt real property to report to the assessor, within sixty days, the creation, renewal, sublease or assignment of any lease, sublease, license, use permit or other document which conveys the right to use that real property, so that the assessor may determine if the transaction has created a taxable possessory interest.

(Ord. 85-6 § 1).

Article 66-8.4. Reporting

66-8.402 Reporting.

Within sixty days of closing date of the transaction, every owner of tax- exempt real property shall report to the assessor the creation, renewal, sublease, or assignment of any lease, sublease, license, use permit, or other document which conveys the right to use that real property. The report shall include all of the following:

- (1) The name and address of the owner;
- (2) The names and addresses of all other parties to the transaction, including an identification of each party and of ~~each party's~~ possessory interest;
- (3) The type of transaction, whether creation, renewal, sublease or assignment;
- (4) A description of the property;
- (5) The date of the transaction;
- (6) The terms of the transaction, including all of the following:
 - (A) The consideration for the possessory interest, whether paid in money or otherwise,
 - (B) The term of the possessory interest, including any renewal or extension options,
 - (C) If a sublease, the original term, the remaining term, and the consideration paid for the master lease,
 - (D) If an assignment, the original term, the remaining term, and the consideration paid for the underlying lease.

(Ord. 85-6 § 1).

Article 66-8.6. Duration

66-8.602 Duration.

This chapter shall remain in effect only until January 1, 1991, and as of that date is repealed, unless a later-enacted statute deletes or extends that date. Should a later-enacted statute delete or extend that date, this chapter shall continue in effect, subject to any time limitation set forth in the later-enacted statute.

(Ord. 85-6 § 1).

Division 620 FEES AND CHARGES

Chapter 620-2 FEE AND SERVICE CHARGE REVENUE/COST COMPARISON SYSTEM

620-2.002 Findings and intent.

- (a) Pursuant to Article XIII B of the California Constitution, it is the intent of the board of supervisors to require the ascertainment and recovery of costs reasonably borne from fees, charges and regulatory license fees levied therefor in providing the regulation, products or services hereinafter enumerated in this chapter.
- (b) The fee and service charge revenue/cost comparison system set forth in this chapter provides a mechanism for ensuring that fees adopted by the county for services rendered do not exceed the reasonable estimated cost for providing the services for which the fees are charged.
- (c) The adoption of this chapter is exempt from the California Environmental Quality Act (Public Resources Code, § 21000 et seq.), because it approves and sets forth a procedure for determining fees for the purpose of meeting the operating expenses of county departments, as set forth in Public Resources Code Section 21080(b)(8)(1).

(Ords. 98-32 § 2, 96-2 § 2, 92-96 § 3, 91-58 § 3, 91-40 § 2).

620-2.004 Delegation of authority and direction to administrator.

- (a) The county administrator is hereby delegated the authority and directed to provide documents to the board to implement its herein enumerated policy to adjust fees and charges to recover the percentage of costs reasonably borne as established hereby, in providing the regulation, product or service enumerated in this chapter in the percentage of costs reasonably borne and on the schedule of rate review and revision as hereinafter established in this chapter.
- (b) The county administrator is hereby delegated authority to issue executive orders (including administrative bulletins) defining terms, setting out administrative, fee collection, and financial procedures, definitions, and establishing effective dates of all fees set by the board by resolution. All executive orders shall be originated and signed by the affected department head, signed by the auditor-controller certifying that the financial requirements of this chapter are complied with, and signed by the county administrator connoting the effective date of the executive order and new or revised rate structure, procedure or definition.
- (c) "Costs reasonably borne" shall be as defined in Section 620-2.006. In adjusting fees and charges, the county administrator shall act in an administrative and ministerial capacity and shall consider only the standards and criteria established by this chapter, and the procedures set hereby and by applicable state law. All executive orders issued hereunder shall comply in all respects with this chapter, and the several schedules of fees and rates as set by the board by resolution.

(Ords. 98-32 § 2, 96-2 § 2, 92-96 § 3, 91-58 § 3, 91-40 § 2).

620-2.006 Costs reasonably borne defined.

"Costs reasonably borne" as used and ordered to be applied in this chapter, are to consist of the following elements:

- (a) All applicable direct costs including, but not limited to, salaries, wages, overtime, employee fringe benefits, services and supplies, maintenance and operation expenses, contracted services, special supplies, and any other direct expense incurred.
- (b) All applicable indirect costs including, but not restricted to, building maintenance and operations, equipment maintenance and operations, communications expenses, computer costs, printing and reproduction, records maintenance, vehicle expenses, insurance, debt service, and like expenses when distributed on an accounted and documented rational proration system.
- (c) Fixed asset recovery expenses, consisting of depreciation of fixed assets, and additional fixed asset expense recovery charges calculated on the current estimated cost of replacement, divided by the approximate life expectancy of the fixed asset. A further additional charge to make up the difference between book value depreciation not previously recovered and reserved in cash and the full cost of replacement, shall also be calculated and considered a cost so as to recover such unrecovered costs between book value and cost of replacement over the remaining life of the asset.
- (d) General overhead, expressed as a percentage, distributing and charging and expenses of the board, county counsel, county administrator, clerk of the board, county treasurer, auditor-controller, personnel director, and all other staff and support services provided to the entire county organization. Overhead shall be prorated between tax-financed services and fee-financed services on the basis of said percentage so that each of taxes and fees and charges shall proportionately defray such overhead costs.
- (e) Departmental overhead, expressed as a percentage, distributing and charging the cost of each department head and ~~the department head's his or her~~ supporting expenses, as enumerated in subsections (a), (b), (c) and (f) of this section.
- (f) Debt service costs, consisting of repayment of principal, payment of interest, and trustee fees and administrative expenses for all applicable bond, certificate, or securities issues or loans of whatever nature or kind. Any required coverage factors or required or established reserves beyond basic debt service costs also shall be considered a cost if required by covenant within any securities ordinance, resolution, indenture or general law applicable to the county.

(Ords. 98-32 § 2; 96-2 § 2, 92-96 § 3, 91-58 § 3, 91-40 § 2).

620-2.008 Schedule of fees and service charges.

- (a) The county administrator, auditor-controller and each county department head, under the direction of the county administrator, shall review annually the fees and service charges listed following, and provide an adjusted fee or charge schedule to the board for its consideration and approval so as to recover the listed percentage of costs reasonably borne necessary to provide the listed regulation, product or service. Unless the board determines otherwise at the time it fixes specific fees and charges pursuant to Section 620-2.010, the percentages set forth herein should be used.

- (e) The county administrator may vary the review schedule listed in this section if, in the judgment of the county administrator and a directly affected and requesting department head, a gross inequity would be perpetrated by not considering the revision of the percentage rate schedule. Any such proposed rate revision which deviates from the review schedule as set herein shall be reported to the board at its next succeeding meeting or at the time consideration is being undertaken pursuant to Section 620-2.010 to modify established fees and charges.

(Ords. 98-32 § 2, 96-2 § 2, 92-96 § 3, 92-8 § 2, 91-58 § 3, 91-40 § 2).

Title 7 BUILDING REGULATIONS

Division 72 GENERAL

Chapter 72-4 APPLICATION AND SCOPE

72-4.002 Generally.

This title applies to all buildings and structures in the unincorporated territory of this county.
(Ords. 99-1 § 3: 80-14 § 1, 74-38).

72-4.006 Property being annexed to a city.

Whenever property is being annexed to an incorporated city, this title shall apply to all buildings or structures started before the effective date of annexation. Fees for permits under this title shall be due for all work requiring inspection begun before the effective date of this title. Inspections shall end on the effective date of annexation, unless the board of supervisors has adopted a resolution described as follows:

- (1) On the request of the city council of any city to which property is being annexed, the board of supervisors may, by resolution, direct the building inspector to continue the inspection of the building or structure to its completion, although the effective date of annexation intervenes.
- (2) When annexation to an incorporated city has been approved by a city council, under the Government Code of the state of California, if the city council requests the board of supervisors to have buildings inspected by the city and the request certifies that the city has a building code equal to this division, the board of supervisors by resolution may direct that all buildings or structures in the territory subject to annexation shall be inspected by the city and fees shall be collected by the city.

(Ord. 67-70 § 1 (part), 1967: Ord. 1631: prior code § 7101(c): Ord. 1372).

72-4.008 Building regulations.

This title shall also apply to alterations of any building or structure which affect the structural strength, fire hazard, exits, lighting or sanitary condition of any building or structure. This title does not apply to ordinary nonstructural changes or minor repairs or alterations necessary for the maintenance of any building or structure. Subject to the requirements of Chapter 72-5, this title does not apply to mechanical or process equipment used in manufacturing.

Subject to the requirements of Chapter 72-5, construction or work otherwise subject to this title, done under the continuous supervision of any employee or agent of the applicant who shall also be either an engineer or architect certified or licensed in the state or a qualified person familiar with construction code requirements, may be performed if approved by the director of building inspection, without filing precise plans therefor, but pursuant to a general application sufficient in detail to show compliance with other applicable ordinances or regulations.

Such applicant shall be required to maintain appropriate records and notify the director of building inspection of such work, and the director of building inspection shall make periodic inspections of the records and the work to ensure compliance with code requirements. The director of building inspection may refuse the exemption herein provided and require full compliance with regular building permit and inspection procedures if [the director of building inspection](#) finds that such person is not qualified to determine compliance with code requirements, or if the work performed does not in fact meet code requirements.

(Ords. 98-39 § 2; 67-70; 1631: prior code § 7101 (d); Ord. 1372).

Chapter 72-6 GENERAL PROVISIONS

Article 72-6.2. Permits and Fees

72-6.202 Permits.

No person, firm, or corporation shall erect, construct, enlarge, alter, repair, move, improve, remove, convert or demolish any building or structure regulated by this title, or cause the same to be done, or install or connect any equipment regulated by this title, or perform any work regulated by this title, without first obtaining the necessary permits from the county building official.

(Ord. 2007-54 § 2).

72-6.204 Fees.

- (a) Fees shall be paid with the submission of an application for any permit required by this title. No application may be filed and accepted as complete until all required fees have been paid. Any permit issued without the payment of all required fees is invalid and of no force and effect. Permit fees and other fees will be in amounts set forth in fee schedules adopted by the board of supervisors.
- (b) A person who starts any work for which a permit is required under this title without first having obtained a permit shall, if later issued a permit for such work, pay double the permit fee. This provision does not apply to emergency work if the county building official determines that the emergency work was urgently necessary and that it was not practicable to obtain a permit before starting the work. In all such cases, a permit must be obtained as soon as it is practicable to do so, and if there is an unreasonable delay in obtaining the permit, a double fee shall be charged.

(Ords. 2007-54 § 2, 2002-31 § 2, 99-1 § 5, 87-55 § 2, 74-32 § 1, 73-58 § 2, 67-70 § 2: prior code § 7103: Ords. 1372, 1014 § 5).

72-6.206 State license required.

- (a) No permit shall be issued to a person to do or cause to be done any work regulated by this title except to the holder of a valid, unexpired and unrevoked license in good standing, issued under Chapter 9, Division 3 of the California Business and Professions Code. Permits may be issued to persons and for work exempt from that statute, and as otherwise provided in this section.
- (b) **Building Permits.** A building permit may be issued to a person holding a valid, unexpired, unrevoked California general contractor's license. If the permit applicant is the owner of the structure occupied by or designed to be occupied by the owner and the owner performs all work under the permit, a building permit may be issued to the owner for work in a one-family dwelling used exclusively for living purposes, including the usual accessory buildings and quarters.
- (c) **Electrical Permits.**
 - (1) An electrical permit may be issued to a person holding a valid, unexpired, unrevoked California electrical contractor's license, or to a person holding a valid, unexpired, unrevoked California general contractor's license where the contractor is working on a permitted job and is performing two or more crafts on the permitted job. If the permit applicant is the owner of the structure occupied by or designed to be occupied by the owner and the owner performs all work under the permit, an electrical permit may be issued to the owner for work in a one-family dwelling used exclusively for living purposes, including the usual accessory buildings and quarters.
 - (2) Instead of a separate permit for each building, structure, premises, installation or alteration, an annual electrical permit may be issued to any person regularly employing one or more electricians for electrical work in premises owned or occupied by the applicant for the permit. In the first fifteen days of each calendar month, the holder of an annual permit shall report to the county building official on all electrical work done under the annual permit during the preceding month.
- (d) **Plumbing Permits.** A plumbing permit may be issued to a person holding a valid, unexpired, unrevoked California plumbing contractor's license, or to a person holding a valid, unexpired, unrevoked California general contractor's license where the contractor is working on a permitted job and is performing two or more crafts on the permitted job. If the permit applicant is the owner of the structure occupied by or designed to be occupied by the owner and the owner performs all work under the permit, a plumbing permit may be issued to the owner for work in a one-family dwelling used exclusively for living purposes, including the usual accessory buildings and quarters.
- (e) **Mechanical Permits.** A permit for the erection, installation, moving alteration, repair or replacement of any heating or cooling equipment may be issued to a person holding a valid California warm air heating, ventilating, and air conditioning contractor's license, or to a person holding a valid, unexpired, unrevoked California general contractor's license where the contractor is working on a permitted job and is performing two or more crafts on the permitted job. If the permit applicant is the owner of the structure occupied by or designed to be occupied by the owner and the owner performs all work under the permit, a mechanical permit may be issued to the owner for work in a one-family dwelling used exclusively for living purposes, including the usual accessory buildings and quarters.

(Ords. 2007-54 § 2, 2002-31 § 4, 99-17 § 11, 90-19 § 3, 89-60 § 2, 82-23 § 2, 80-29 § 1, 79-67, 76-24, 74-31).

72-6.208 Misrepresentations in permit application.

No person shall make a false statement or misrepresentation in or in connection with an application for a permit under this title. Any permit issued under this title may be revoked or suspended at any time by the county

building official for fraud, misrepresentation or false statement contained in an application for a permit, or for violation of this title in connection with work done under the permit.

(Ords. 2007-54 § 2, 2002-31 § 2, 99-1 § 5: prior code § 7104: Ord. 1372).

72-6.210 Permit not approval of violations or determination of ownership.

The issuance of a permit or approval of plans and specifications shall not be construed as a permit for an approval of any violation of this title or code or determination that the permittee is the owner of the subject property or otherwise authorized to do the work for which the permit has been issued. No permit presuming to give authority to violate or cancel the provisions of this title shall be valid except insofar as the work or use which it authorizes is lawful. The issuance of a permit based on plans and specifications shall not prevent the county building official from later requiring the correction of errors in the plans and specifications or from preventing building operations being carried on under the permit in violation of this title or other regulation of this county.

(Ords. 2007-54 § 2, 2002-31 § 2, 99-1 § 5: prior code § 7105: Ord. 1372).

72-6.212 Expiration of permit.

- (a) A permit issued by the county building official becomes void if either of the following occur:
 - (1) The work authorized by the permit is not commenced within 12 months after the permit issuance date. Evidence that work has commenced consists of at least one approved inspection.
 - (2) The work authorized by the permit is suspended or abandoned for a period of 12 consecutive months after the work is commenced. Work is deemed suspended or abandoned for a period of 12 consecutive months if no approved inspection occurs during that time.
- (b) A permittee holding an unexpired permit may apply to the county building official for a permit extension. Upon written request by the permittee demonstrating justifiable cause for the delay, the county building official may extend the time of the permit for a period not exceeding 180 days. A permit may not be extended more than once.
- (c) Once a permit becomes void, a new permit must be obtained before any work is commenced or recommenced, and a new permit fee must be paid.

(Ords. 2019-31 § VII, 2007-54 § 2, 2002-31 § 2, 99-1 § 5, 87-55 § 3, 80-14 § 3, 74-32 § 2, 71-32 § 1, 67-70 § 3: prior code § 7106: Ord. 1372 § 5H).

(Ord. No. 2022-35, § VII, 10-25-22)

72-6.214 Refunds.

The county building official may authorize the refund of required permit fees as follows:

- (a) Unused Building Permit. On the voiding of a permit within sixty days after issuance, no work having been done, the holder may be allowed a refund of the amount in excess of fifteen dollars but not more than eighty percent of the permit fee paid. On the voiding of a permit during the period between sixty days and one year after issuance, no work having been done, the holder may be allowed a refund of the amount in excess of fifteen dollars or one-half the total amount paid for the permit, whichever is smaller. No refunds of plan check fees for issued permits shall be allowed. Any unused plumbing, electrical, or mechanical permit(s) taken in conjunction with a building permit are governed by the refund procedures in subsection (b) of this section.

-
- (b) Unused Plumbing, Electrical, or Mechanical Permits. No refund of deposits for these permits (including subpermits issued in conjunction with building permits, and miscellaneous permits) shall be allowed, except that on the voiding of a permit within one year after issuance, no work having been done, the holder may be allowed a refund of the amount in excess of ten dollars.

(Ords. 2007-54 § 2, 2002-31 § 2, 99-1 § 5, 80-14 § 4, 76-15).

Article 72-6.4. Enforcement

72-6.402 Abatement procedure.

Any condition existing in violation of this title is a public nuisance. The procedure for the abatement of any building or any other condition declared to be a public nuisance in violation of this title is the procedure specified in the county's Uniform Public Nuisance Abatement Procedure as set forth in Chapter 14-6 of this code. As an alternative to this procedure, abatement may be performed pursuant to the procedure specified in Article 6 (Action and Proceedings) of Subchapter 1 (State Housing Law Regulations) of Chapter 1 of Division 1 of Title 25 (Housing and Community Development) of the California Code of Regulations (25 C.C.R., § 48 et seq.). That procedure is adopted by this reference as though fully set forth herein.

(Ords. 2007-54 § 2, 2002-31 § 2, 99-1 § 5, 97-19 § 3, 90-100 § 3, 82-23, 72-25, 71-76, 69-40, 1631: prior code § 7111: Ord. 1372).

72-6.404 Stop work orders.

Whenever any work is being done contrary to this title or any other law or regulation (including, but not limited to, the following: zoning, health, sanitation, grading, fire protection and safety, or flood control) relating to or affecting the work, the county building official may order the work stopped by notice in writing served on any persons engaged in the doing or causing of the work; and these persons shall stop work immediately until authorized by the county building official to proceed with the work. The stop work order will state the reason for the order and the conditions under which the cited work may be permitted to resume. If the work continues after the issuance of a stop work order, each day the work continues is a separate code violation.

(Ords. 2007-54 § 2, 2002-31 § 2, 99-17 § 2, 99-1 § 5, 90-100 § 2, prior code § 7108, Ord. 1372).

72-6.406 Entry on premises.

- (a) Whenever it is necessary to make an inspection to enforce the provisions of this code, or whenever the county building official has cause to believe that there exists in any building or upon any premises any violation of this code or any condition that makes the building or premises unsafe, unsanitary, dangerous or hazardous, the county building official may enter the building or premises at all reasonable times to inspect or to perform the duties imposed upon the county building official by this code. If entry is refused, the county building official has recourse to every remedy provided by law to secure entry.
- (b) No person shall conceal any work until it is inspected and written approval to proceed is given. No person shall cover electrical work, or allow it to be covered, to prevent or hinder its inspection, or remove any notice not to cover placed by the county building officials.

(Ords. 2007-54 § 2, 2002-31 § 4, 99-17 § 11, 89-60 § 2, 82-23 § 2, 79-67, 76-24: prior code § 7109: Ord. 1372).

72-6.408 Correction notice.

- (b) If the county building official finds that the violation involves an immediate danger to person(s) or properties or to the public health, safety or welfare, the county building official may have the action taken as quickly as deemed necessary by the danger; otherwise the county building official will give ten days advance notice thereof by mail to the utility and to the owner as shown on the last assessment roll and by conspicuous posting on the property; and the county building official will post notice of the orders and the action taken, which no person shall remove, tamper with or disobey. The county building official will rescind or modify such action which it becomes proper to do so in view of the danger or violation.

(Ords. 2007-54 § 2, 2002-31 § 2, 99-1 § 5, 71-110 § 8 (part), 1971: prior code § 7112: Ord. 1442).

The county building official will notify the servicing utility that the electrical service equipment and associated wiring has been inspected and approved before electrical or gas service may be reinstated.
 - (e) Waiver. The county building official may, exercising sound discretion, temporarily or permanently waive any or all requirements of this article by giving written notice of such waiver to all persons involved. - (b) Contents.
- (1) A drainage plan shall include the following site information:
 - (A) Flow lines of surface and subsurface waters onto and off of the site;
 - (B) Existing and finished contours, at two-foot intervals;

 - (3) Engineered Drainage Plans. A drainage plan shall be prepared by a registered civil engineer if construction is proposed for land where the slope exceeds twenty percent or if the land is identified by the county building official, based on the most current USGS seven and one-half minute quadrangle map or other published sources, as having a history of unstable soil or landslides. An engineered drainage plan shall include estimates of existing and increased runoff resulting from proposed improvements and methods for reducing the velocity of any increased runoff, in addition to all other information required by this section.

Division 712 UNIFORM HOUSING CODE

Chapter 712-2 ADOPTION

Sections:

712-2.002 Purpose and findings.

The board of supervisors finds that many dwellings in this county are undesirable for habitation because they are substandard in one or more important features of structure, equipment, maintenance and occupancy; that without enactment and enforcement of a housing code, the number of these deficient dwellings will increase and their substandard conditions will worsen; and that these deficiencies impair the public health, safety and welfare, contribute to overcrowding and other unsafe and harmful living conditions, discourage the best use of land, and hinder civic improvement.

(Ords. 2002-31 § 6, 99-17 § 14, 81-27 § 1, 1524: prior code § 7185).

712-2.004 Generally.

property or street, the owner shall furnish a bond, whether cash or corporate surety bond at the owner's option (but five hundred dollars of every bond must be in cash), in a form approved by the county counsel or an instrument or instruments of credit approved by the county counsel from one or more financial institutions subject to regulation by the state or federal government pledging that the funds necessary to meet the performance are on deposit and guaranteed for payment on demand and agreeing that the funds designated by the instrument shall become trust funds for the purposes set forth in the instrument.

- (a) The amount of bond shall be based upon the number of cubic yards (cubic meters) of material in either excavation or fill, whichever is greater, plus the cost of all drainage and other protective devices or work necessary to eliminate geological hazards. That portion of the bond valuation based on the volume of material in either excavation or fill shall be computed as set forth in the following table:

Ten thousand cubic yards (seven thousand six hundred forty-six cubic meters) or less, one hundred percent of the estimated cost of grading work;

Over ten thousand cubic yards (seven thousand six hundred forty-six cubic meters), one hundred percent of the cost of the first ten thousand cubic yards (seven thousand six hundred forty-six cubic meters), plus fifty percent of that portion in excess of ten thousand cubic yards (seven thousand six hundred forty-six cubic meters).

- (b) When the rough grading has been completed in conformance with the requirements of this code, the county building official may, exercising sound discretion, consent to a proportionate reduction of the bond to an amount estimated to be adequate to insure completion of the grading work, site development or planting remaining to be performed. The costs referred to in this section shall be as estimated by the county building official.

(Ords. 99-46 § 9: 69-59 § 1, 1969).

(Ords. 99-46 § 9: 69-59 § 1, 1969).

716-4.1210 Performance bond—Notice of default.

Whenever the county building official finds that a default has occurred in the performance of any term or condition of any permit, the county building official shall give written notice thereof to the principal and surety on the bond, stating the work to be done to achieve a safe and satisfactory condition, its estimated cost, and the period of time deemed reasonably necessary to complete the work.

(Ords. 99-46 § 9: 69-59 § 1, 1969).

716-4.1212 Performance bond—Duty of surety.

After receiving a notice of default, the surety shall have the required work performed within the time specified in the notice.

(Ords. 99-46 § 9: 69-59 § 1, 1969).

716-4.1214 Performance bond—Disposition of cash bond.

If a cash bond has been posted and the notice of default has been given to the principal, and if the principal does not comply with the notice within the specified time, the building official may use the deposited cash to have the required work done, by contract or other means discretionary with the county building official the balance, if any, of the deposit shall be returned to the depositor when the work is complete, after deducting the cost of the work.

(Ords. 99-46 § 9: 69-59 § 1, 1969).

716-4.1416 Rejection of application.

- (a) Hazards. The county building official shall not issue a permit in any case where it is found that the work as proposed by the applicant is likely to adversely affect the stability of adjoining property or result in the deposition of debris on any public way or interfere with any existing drainage course or be in an area determined to be subject to geological hazard. If it can be shown to the satisfaction of the county building official that the hazard can be essentially eliminated by the construction of retaining structures, buttress fills, drainage devices, or by other means, a permit may be issued with the condition that such work be performed.
- (b) Land Use. The county building official shall not issue a grading permit for work that will not comply with all provisions of Title 8 and any conditions imposed by the planning agency on approval of the use.
- (c) Existing Building or Zoning Code Violations. The county building official shall not issue a permit under this title if any building or zoning code violations exist on the site.
- (d) Rejection and revisions. Rejection of the application or plans shall be considered a denial of the permit. However, denial of a permit based on insufficient or inadequate plans shall not preclude the applicant from submitting a revised application or revised plans in connection with a pending application.
- (e) Expiration and Renewal. Applications shall be considered pending until a grading permit is issued, denied or withdrawn, but an application shall expire ninety days from the date of its filing. An expired application may be renewed or a new application filed on payment of a new filing fee.

(Ords. 99-46 § 10: 69-59 § 1, 1969).

The county building official may amend the permit to approve altered plans, or may deny approval of the changes.
- (b) Failure to obtain prior approval for any change in the work shall be cause for the county building official to order suspension of all work until approval is obtained, and may result in revocation of the permit if the county building official deems the changes will increase the hazard to adjoining properties or public roads, or otherwise be detrimental to public welfare.

(Ords. 99-46 § 10: 69-59 § 1, 1969).

716-4.1426 Time extension.

Before the expiration of a permit, the applicant may apply for an extension of time in which to complete the work. One extension of time may be granted by the county building official if it is determined that the public welfare is not impaired. The extension shall be for a period the county building official deems appropriate, but not longer than one year. Denial of an extension shall not preclude the permittee from applying for a new permit for the balance of the work, subject to conditions the building official deems appropriate. The applicant shall file the surety's written consent to any extension of time before approval is effective.

(Ords. 99-46 § 10: 69-59 § 1, 1969).

 - (2) Grading or construction does not conform to the approved plans, grades or other conditions of the permit;
 - (3) Cessation of work before completion has left the site in a condition hazardous to the public or to the adjacent properties, and the permittee has not complied with reasonable requirements for completion of the work within the time specified in the permit or an approved extension of time;
 - (4) The permittee does not comply with reasonable requirements to safeguard the workmen, the public, or other persons acting in a lawful manner, during grading or construction operations;
 - (5) In transporting materials or in the operation of equipment the applicant causes materials or litter to encroach, obstruct, or be deposited on pavement or in drainage channels within the public right-of-way, or causes unauthorized obstruction or diversion of drainage channels within the site area; or
 - (6) Failure to have a qualified inspector working under the soil engineer on the site during grading or construction when required.
- (b) Procedure. The county building official shall suspend or revoke a permit by making a written finding and order; and may seize the permit and/or make appropriate notations on it of the suspension or revocation. Upon the written order of the building official, any suspended permit may be either reinstated or revoked.
- (c) Effect of Revocation. Whenever a permit has been revoked, work on the site shall not begin again until a new application incorporating the necessary revisions in plans or methods of operation required to fulfill the intent of this division and in accordance with these regulations, has been approved by the county building official.

(Ords. 99-46 § 10: 69-59 § 1, 1969).

716-4.1432 Notice of stop work.

 - (1) Initial. When the site has been cleared of vegetation and unapproved fill and has been scarified, benched or otherwise prepared and before any fill is placed;
 - (2) Rough. When rough grading has been completed and approximate final elevations have been established; drainage terraces, swales and other drainage devices graded ready for paving; and berms installed at the top of slopes;
 - (3) Final. When work has been completed, all drainage devices, systems and facilities installed and slope planting established.
- (b) In addition to the called inspections specified above, the county building official may:

Chapter 716-8 REGULATIONS

Article 716-8.2. Excavations

716-8.202 Excavations—Maximum slope.

Cuts shall not be steeper in slope than one vertical to two horizontal unless the applicant furnishes a soil

engineering or an engineering geology report, or both, certifying that the site has been investigated and giving an

opinion that a cut at a steeper slope will be stable and not create a hazard to public or private property. The county building official may require the excavation to be made with a cut face flatter in slope than one vertical to two horizontal if it is found to be necessary for stability and safety.

(Ords. 99-46 § 12: 69-59 § 1, 1969).

716-8.204 Excavations—Drainage terraces.

Cut slopes exceeding forty feet in vertical height shall have drainage terraces not less than five feet (1.524 meters) in width, measured from the outer edge of the terrace to the invert of the drain, at vertical intervals not exceeding thirty feet (9.144 meters) except that where only one such terrace is required it shall be located at mid-height. For cut slopes exceeding one hundred feet (30.48 meters) in vertical height, the drainage terrace near mid-height shall be not less than twelve feet (3.657 meters) in width. Design and construction of drainage terraces shall conform to the requirements of Sections 716-8.602—716-8.614.

(Ords. 99-46 § 12: 69-59 § 1, 1969).

716-8.206 Excavations—Conformance to existing terrain.

Cut slopes shall be rounded off at the top and toe to blend and conform to existing terrain.

(Ords. 99-46 § 12: 69-59 § 1, 1969).

716-8.208 Excavations—Variations.

Variations from the regulations in Sections 716-8.202—716-8.206 may be allowed by the county building official if they will provide equivalent safety, stability, and protection against erosion, as recommended by a soil engineer or engineering geologist.

(Ords. 99-46 § 12: 69-59 § 1, 1969).

Article 716-8.4. Fills

716-8.402 Fills—Compaction.

Except as provided below, all fills shall be compacted throughout their full extent to a minimum of ninety percent of maximum density. Field density shall be determined by a method acceptable to the building official (Ords. 99-46 § 13: 69-59 § 1, 1969).

716-8.404 Fills—Special compaction.

Compaction may be reduced to eighty-five percent of maximum density, as determined by the above test, within the outer eight inches (203.3 millimeters) of fill slope surfaces when such compaction is provided by grid rolling or equivalent means.

(Ords. 99- 46 § 13: 69-59 § 1, 1969).

716-8.406 Fills—Nonstructural.

Fills not intended to support structures, subdivision streets or improvements need not be compacted to these standards if the county building official determines that such compaction is unnecessary as a safety measure. In making this determination, the county building official may require that an investigation be made by an approved soil testing agency to establish the characteristics of the soil, the amount of settlement to be expected and the susceptibility of the soil to erosion or slippage.

(Ords. 99-46 § 13: 69-59 § 1, 1969).

716-8.408 Fills—Planted slopes.

Slope surfaces may be prepared for planting by scarifying, by addition of top soil, or by other methods, if such loose material does not exceed a depth of three inches (76.2 millimeters) and said slopes otherwise comply with the requirements of Sections 716-8.402—716-8.424.

(Ords. 99-46 § 13: 69-59 § 1, 1969).

716-8.410 Fills—Preparation of ground.

The natural ground surface shall be prepared to receive fill by removing vegetation or other incompetent material. Where the slope of the natural grade is one vertical to five horizontal or steeper, the fill shall be supported on benches cut into competent material.

(Ords. 99-46 § 13: 69-59 § 1, 1969).

716-8.412 Fills—Slope.

Compacted fill shall not create an exposed slope surface steeper than one vertical to two horizontal. The county building official may require a flatter slope if necessary for stability and safety. Slopes of fills which are not compacted in accordance with Sections 716-8.402— 716-8.408 shall not exceed three horizontal to one vertical.

(Ords. 99-46 § 13: 69-59 § 1, 1969).

Fills shall not toe out on slopes steeper than one vertical to three horizontal.

(Ords. 99-46 § 13: 69-59 § 1, 1969).

716-8.420 Fills—Conformance to existing terrain.

716-8.424 Fills—Variations.

Variations from the regulations in Sections 716-8.402—716-8.422 may be allowed by the county building official if they will provide equivalent safety, stability, and protection against erosion, as recommended by a soil engineer or engineering geologist.

(Ords. 99-46 § 13: 69-59 § 1, 1969).

A lesser slope may be approved by the county building official for sites graded in relatively flat terrain, or where special drainage provisions are made, when it is found that such modification will not result in unfavorable drainage conditions.

(Ords. 99-46 § 14: 69-59 § 1, 1969).

716-8.608 Drainage—Terrace.

- (a) All swales or ditches on drainage terraces shall have a uniform longitudinal grade of not less than one percent nor more than three percent and a minimum depth of one foot (0.305 meters) at the deepest part. Such terraces shall drain into a paved gutter, pipe or approved watercourse adequate to convey the water to a safe disposal area.
- (b) The drainage terrace shall be provided with a lined ditch, if required by the soil engineer for stability or prevention of erosion: The lined ditch shall be constructed with a five percent minimum slope to provide self cleaning.

720-8.202 Title.

This chapter is known as the rental dwelling unit maintenance and inspection ordinance of Contra Costa County.

(Ord. 2005-17 § 2).

720-8.204 Purposes.

The purposes of this ordinance are to proactively identify blighted and deteriorated housing stock; ensure the rehabilitation or abatement of housing that does not comply with state and local building and housing laws and with maintenance standards established by this chapter or is unsafe to occupy; and preserve and enhance the quality of life for residents of the county living in rental dwelling units.

(Ord. 2005-17 § 2).

720-8.206 Definitions.

For purposes of this chapter, the following words and phrases have the following meanings:

- (a) "County building official" is the director of the building inspection department or designee.
- (b) "Property owner" means a person, persons, corporation, partnership, limited liability company, or any other entity holding fee title to the subject real property. If more than one person or entity owns the subject real property, "property owner" refers to each person or entity holding any portion of the fee interest in the property, and the property owners' obligations in this chapter are joint and several as to each property owner.
- (c) "Rental dwelling unit" means any building or portion of a building in the unincorporated area of the county that contains living facilities, including provisions for sleeping, eating, cooking, and sanitation, which is hired, rented or leased by a person within the meaning of Civil Code Section 1940. A "rental dwelling unit" includes a single-family dwelling, or a unit in a multifamily or multipurpose dwelling, or a unit in a condominium or cooperative housing project, or any room or group of rooms located within a dwelling and forming a single unit with facilities that are used or intended to be used for living, sleeping, cooking or eating. The definition of rental dwelling unit applies to any dwelling space that is actually used or available for residential purposes whether or not the residential use is legally permitted. The definition of rental dwelling unit applies to single room occupancy hotels but does not apply to any other hotels, motels, or bed and breakfast facilities.
- (d) "Single room occupancy hotel" means any building that contains six or more rooms intended or designed to be used, rented or occupied for sleeping or living purposes by tenants and is the primary residence of those tenants. A "single room occupancy hotel" is not a building containing six or more rooms that is primarily used by transient guests who do not occupy the building as their primary residence.

-
- (e) "Substandard condition" means a rental dwelling unit or its premises that is:
- (1) Not in compliance with the California Building Standards Codes as adopted in Title 7 of this code, including the building, electrical, plumbing, and mechanical codes; the Uniform Housing Code as adopted in Title 7 of this code; the State Housing Law (Health and Safety Code Sections 17910 et seq.); or the exterior maintenance standards and site maintenance standards established by Article 720-8.4; or

This chapter also applies to the premises on which these units are located, including parking lots, driveways, landscaping, accessory structures, fences, walls, swimming pools, hot tubs, and spas.
- (b) The provisions of this chapter are supplementary and complementary to other provisions of this code and applicable statutes. Nothing in this chapter may be construed to limit any existing right of the county to abate nuisances or to enforce any provisions of applicable law, statute, or this code, including provisions of uniform codes adopted by reference in this code. These provisions include, but are not limited to, the California Building Standards Codes as adopted in Title 7 of this code, including the building, electrical, plumbing, and mechanical codes; the State Housing Law (Health and Safety Code Sections 17910 et seq.); and Title 8 of this code.

Title 8 ZONING

Division 82 GENERAL REGULATIONS

Chapter 82-1 65/35 LAND PRESERVATION PLAN

82-1.002 New general plan.

The county shall adopt a new general plan by December 31, 1990 (the "new general plan") or as soon thereafter as possible, in compliance with all applicable laws and regulations.

(Ords. 91-1 § 2, 90-66 § 4).

82-1.004 65/35 land preservation plan.

The policies contained in this chapter shall be reflected in the new general plan, as ultimately adopted by the board of supervisors in accordance with the California Environmental Quality Act and State Planning Law.

(Ords. 91-1 § 2, 90-66 § 4).

82-1.006 65/35 land preservation standard.

Urban development in the county shall be limited to no more than thirty-five percent of the land in the county. At least sixty-five percent of all land in the county shall be preserved for agriculture, open space, wetlands, parks and other nonurban uses.

(Ords. 91-1 § 2, 90-66 § 4).

82-1.008 Changes to the 65/35 land preservation plan.

No change shall be made in the new general plan after its adoption that would result in greater than thirty-five percent of the land in the county being permitted for urban development. This limitation shall not prevent any increase in agriculture, open space, parks, wetlands or other nonurban uses to greater than sixty-five percent of the land in the county.

(Ords. 91-1 § 2, 90-66 § 4).

82-1.010 Urban limit line.

To ensure the enforcement of the 65/35 standard set forth in Section 82-1.006, an urban limit line shall be established, in approximately the location depicted on the "Contra Costa County Urban Limit Line Map" adopted by the voters on November 7, 2006. The urban limit line is incorporated into the county's open space conservation

plan. The urban limit line limits potential urban development in the county to thirty-five percent of the land in the county and prohibits the county from designating any land located outside the urban limit line for an urban land use. The criteria and factors for determining whether land should be considered for location outside the urban limit line should include (a) land which qualifies for rating as Class I and Class II in the Soil Conservation Service Land Use Capability Classification, (b) open space, parks and other recreation areas, (c) lands with slopes in excess of twenty-six percent, (d) wetlands, and (e) other areas not appropriate for urban growth because of physical unsuitability for development, unstable geological conditions, inadequate water availability, the lack of appropriate infrastructure, distance from existing development, likelihood of substantial environmental damage or substantial injury to fish or wildlife or their habitat, and other similar factors.

(Ords. 2006-06 § 3, 91-1 § 2, 90-66 § 4).

82-1.012 Growth management.

In accordance with the Contra Costa Transportation Improvement and Growth Management Program adopted on August 3, 1988, the county shall manage growth by allowing new development only when infrastructure and service standards are met for traffic levels of service, water, sanitary sewer, fire protection, public protection, parks and recreation, flood control and drainage and other such services. Land located inside the urban limit line may be considered for changes in designated land uses, subject to county growth management policies and any other applicable requirements. Location of land within the urban limit line shall provide no guarantee that the land may be developed. If land is developed within the urban limit line, a substantial portion of this land shall be retained for open space, parks and recreational uses.

(Ords. 91-1 § 2, 90-66 § 4).

82-1.014 Agricultural protection policies; minimum parcel sizes.

The county shall establish standards and policies designed to protect the economic viability of agricultural land. These standards and policies shall include a minimum parcel size for prime productive agricultural land located outside the urban limit line to forty acres. These standards and policies may also include, but shall not necessarily be limited to, preservation agreements, conservation easements, clustering, establishment of an agricultural soils trust fund, and agricultural mitigation fees.

(Ords. 91-1 § 2, 90-66 § 4).

82-1.016 Hillside protection.

Development on open hillsides and significant ridgelines throughout the county shall be restricted and hillsides with a grade of twenty-six percent or greater shall be protected through implementing zoning measures and other appropriate actions.

(Ords. 91-1 § 2, 90-66 § 4).

82-1.018 Changes to the urban limit line.

- (a) There shall be no change to the urban limit line that violates the 65/35 standard set forth in Section 82-1.006. Except as otherwise provided in this section, as long as there is no violation of the 65/35 standard, the urban limit line can be changed by a four-fifths vote of the board of supervisors after holding a public hearing and making one or more of the following findings based on substantial evidence in the record:

-
- (1) A natural or ~~human~~man-made disaster or public emergency has occurred which warrants the provision of housing and/or other community needs within land located outside the urban limit line;
 - (2) An objective study has determined that the urban limit line is preventing the county from providing its fair share of affordable housing, or regional housing, as required by state law, and the board of supervisors finds that a change to the urban limit line is necessary and the only feasible means to enable the county to meet these requirements of state law;
 - (3) A majority of the cities that are party to a preservation agreement and the county have approved a change to the urban limit line affecting all or any portion of the land covered by the preservation agreement;
 - (4) A minor change to the urban limit line will more accurately reflect topographical characteristics or legal boundaries;
 - (5) A five-year cyclical review of the urban limit line has determined, based on the criteria and factors for establishing the urban limit line set forth in Section 82-1.010 above, that new information is available (from city or county growth management studies or otherwise) or circumstances have changed, warranting a change to the urban limit line;
 - (6) An objective study has determined that a change to the urban limit line is necessary or desirable to further the economic viability of the East Contra Costa County Airport, and either (i) mitigate adverse aviation-related environmental or community impacts attributable to Buchanan Field, or (ii) further the county's aviation related needs; or
 - (7) A change is required to conform to applicable California or federal law.
- (b) Except as otherwise provided in this subsection, any proposed general plan amendment that would expand the urban limit line by more than thirty acres will require voter approval of the proposed general plan amendment in addition to and following a four-fifths vote of the board of supervisors approving the general plan amendment and making one or more of the findings required by subsection (a) of this section. Notwithstanding the foregoing, a proposed general plan amendment to expand the urban limit line by more than thirty acres does not require voter approval if, after a public hearing, the board of supervisors by a four-fifths vote makes either of the following findings based on substantial evidence in the record: (i) the expansion of the urban limit line is necessary to avoid an unconstitutional taking of private property; or (ii) the expansion of the urban limit line is necessary to comply with state or federal law. Proposed expansions of thirty acres or less do not require voter approval.
 - (c) The board of supervisors may conduct a cyclical review of the urban limit line every five years.
 - (d) The board of supervisors will review the boundary of the urban limit line in the year 2016. The purpose of the year 2016 review is to determine whether a change to the boundary of the county's urban limit line map is warranted, based on facts and circumstances resulting from the county's participation with the cities in a comprehensive review of the availability of land in Contra Costa County sufficient to meet housing and job needs for twenty years. This review of the urban limit line is in addition to any other reviews of the urban limit line the board of supervisors may conduct.
 - (e) Any change to the urban limit line proposed as a result of any review authorized by this section will not be effective unless it is approved pursuant to the procedures set forth in this section.

(Ords. 2006-06 § 4, 91-1 § 2, 90-66 § 4).

82-1.020 Annexations and incorporations.

The local agency formation commission ("LAFCO") shall be advised to (1) respect and support the county's 65/35 preservation standard, urban limit line and growth management standards when considering requests for incorporation or annexation to cities or service districts, (2) apply the stricter of the growth management standards of either the county, the incorporating city or the annexing city or service district, when considering requests for incorporation or annexations of land to cities or service districts, and (3) require unincorporated land located within the urban limit line that is included in the incorporation of a new city or annexed to a city to provide a fair share of affordable housing when and if such land is developed.

(Ords. 91-1 § 2, 90-66 § 4).

82-1.022 Housing.

As required by the State Planning Act, the county shall periodically review and update the new general plan to conform to state housing requirements and to ensure its capacity to accommodate a variety of housing types and prices throughout the county. In accordance with the provisions of Section 82-1.018, the board of supervisors may make findings of necessity that the urban limit line should be changed to allow the county to meet its fair share of affordable housing and other state housing requirements.

(Ords. 91-1 § 2, 90-66 § 4).

82-1.024 Cooperation with cities.

To the extent feasible, the county shall enter into preservation agreements with cities in the county designed to preserve certain land in the county for agriculture and open space, wetlands or parks.

(Ords. 91-1 § 2, 90-66 § 4).

82-1.026 Application to projects prior to adoption of new general plan.

From the effective date of Ordinance 90-66 to the adoption of the new general plan, prior to issuing a permit for any project or adopting any legislation which requires an initial study under the California Environmental Quality Act, and prior to issuing a permit for any demolition, conversion, or change or use, and prior to taking any action which requires a finding of consistency with the general plan, the county shall adopt findings as to whether or not the proposed project or legislation is consistent with the policies established in this chapter.

(Ords. 91-1 § 2, 90-66 § 4).

82-1.028 Duration.

The provisions of this chapter shall be in effect until December 31, 2026, to the extent permitted by law.

Any lawful use of land or buildings existing at the time Divisions 82 and 84 becomes effective, which use does not conform to the provisions of Divisions 82 and 84, shall be a nonconforming use and shall not be in violation of Divisions 82 and 84 until the use is discontinued or ceases for any reason.

Chapter 82-10 LOTS*

82-10.002 Division and consolidation.

- (a) Conveyance and Division Restriction. No person shall divide or convey a lot or portion thereof, if this results in one or more lots violating the width, yard, or setback requirements of Divisions 82 and 84, unless a variance has been granted in accordance with county ordinance code variance provisions.
- (b) Land Satisfying Requirements. Land used to satisfy the area, width, yard, or setback requirements for one dwelling unit cannot satisfy those requirements for another unit.
- (c) Small Lot Occupancy. Any lot of less area or width than required by Divisions 82 and 84 may be occupied by a single-family dwelling and its accessory buildings if: (1) the yard and setback requirements of Divisions 82 and 84 are met, or a variance has been granted for yard and setback requirements, and (2) the lot is delineated on a recorded subdivision map, or at the time of the creation of the lot (as evidenced by recording date) or at any time since, the lot was consistent in width and area with the applicable zoning district or the lot was created prior to the application of zoning in its location. If a small lot qualifies for

occupancy by a single-family dwelling, then a building permit can issue unless the zoning administrator determines that the proposed dwelling appears not to be compatible with the surrounding neighborhood. If the zoning administrator makes that determination, the zoning administrator may, but is not required to, schedule a public hearing to review the proposed dwelling's compatibility with and impact on the surrounding neighborhood, in terms of its location, size, height and design. If a public hearing is scheduled, the notice provisions of Section 26-2.2004 shall apply. After such determination, at the conclusion of the hearing, or if no hearing is held, the zoning administrator may deny, approve or conditionally approve the proposed dwelling in order to provide neighborhood compatibility.

(Ords. 95-51 § 2, 92-44 § 2, 79-69 § 2: prior code § 8108: Ords. 1371, 1206, 933 § 1, 382, § 9 [2]: see § 82-4.244).

If part of a lot or parcel of land having not less than the required area for its land use district is acquired for public use in any manner, including dedication, condemnation, or purchase, and if the remainder of the lot or parcel has not less than eighty percent of the area required for its land use district, the remainder shall be considered as having the required area, but setback, side yard, and rear yard requirements shall be met. If a lot or parcel of land has an authorized nonconforming status as to area under any county ordinance, the parcel shall retain its nonconforming status if the acquisition for public use does not reduce the remainder below eighty percent of the existing nonconforming area. The setback, side yard, and rear yard requirements of the land use district shall be met, except for buildings or structures in existence at the time of public acquisition.

(Prior code § 8109: Ord. 1054).

Article 82-16.2. General

Article 82-16.4. Requirements

82-16.202 Purpose.

The purpose of this chapter is to provide a unified set of standards for off-street vehicle and bicycle parking to meet the needs of persons employed at, or making use of, each land use during peak hours of parking needs. This chapter is intended to encourage the use of features, design strategies, materials, products, and best construction practices that preserve natural resources, conserve water and energy, and maximize energy efficiency in the design of parking facilities. This chapter also is intended to balance the needs of pedestrians, vehicles, bicycles, and public transportation.

(Ord. No. 2012-12, § II, 10-16-12)

82-16.204 Definitions.

For the purposes of this chapter, the following terms have the following definitions:

- (a) "Angle of parking" refers to the angle of the parking space in relation to the curb fronting the parking space. A parking space with an angle of parking of zero degrees is parallel to the curb, and a parking space with an angle of parking of ninety degrees is perpendicular to the curb.
- (b) "Driveway aisle" means the paved area within an off-street parking area that is used by vehicles to circulate within the parking area and access parking spaces.
- (c) "Electric vehicle" or "EV" means a vehicle that is powered entirely or partially by electricity stored in batteries that must be recharged.
- (d) "EV charging equipment" means permanently placed equipment and other components designed specifically to charge batteries of electric vehicles.
- (e) "EV charging space" means a parking space that is located adjacent to EV charging equipment that can be used to charge an electric vehicle parking within that space.
- (f) "Exclusive parking facility" means an off-street parking area that is restricted to use by specific persons during limited hours, or under limited circumstances. An exclusive parking facility includes: a parking area restricted for use by only patrons, visitors, and employees of a building or facility; and a parking area restricted for use by users and employees of a public transit service. An exclusive parking facility may be, but is not required to be, access-controlled, or available upon payment of a fee.

³Editor's note(s)—Ord. No. 2012-12, § II, adopted Oct. 16, 2012, amended Chapter 82-16 in its entirety to read as herein set out. Former Chapter 82-16, §§ 82-16.002—82-16.024, pertained to similar subject matter and derived from Ord. 2031 § 1(part), 1966, prior code § 8119(part), Ord. 1027, and Ord. 82-3, § 1.

-
- (g) "Long-term bicycle parking" means a covered, access-controlled enclosure or access-controlled room that includes permanently-anchored bicycle racks, or lockable individual bicycle lockers, and that securely encloses one standard adult size 18-to-21-speed bicycle per locker.
 - (h) "Off-street parking area" or "parking area" means a paved area, other than a public street or public right-of-way that is permanently reserved for the parking of motor vehicles and, where provided, motorcycles and electric vehicles. It includes parking lots and parking structures, unless otherwise specified in this chapter, and excludes off-street loading spaces.
 - (i) "Short-term bicycle parking" means permanently-anchored bicycle racks (covered or uncovered), lockable bicycle rooms with permanently-anchored bicycle racks, or permanently-anchored bicycle lockers, that are accessible and usable by visitors, guests, and business patrons of the building or facility that it serves.

82-16.206 General.

- (a) Changes in Land Use. If a land use is proposed to be enlarged, or a proposed change in land use will require more off-street parking to be provided under this chapter, additional off-street parking spaces must be provided to meet the off-street parking requirements of this chapter that apply to the land use, as enlarged or changed. If a proposed change in any land use requires fewer parking spaces to be provided under this chapter than was required for the prior land use, then no change in the amount of off-street parking is required.
- (b) Compliance as a Condition of Approval. No application for a building permit for the erection of a new structure, or for the enlargement of an existing structure, and no application for the development of a land use, will be approved unless the application demonstrates compliance with this chapter. If off-street parking or bicycle parking, or both, is required by this chapter, an application for a building permit or land use permit must include a parking area plan that identifies the parking area, the parking spaces and their dimensions, landscaping, lighting, and other features required by this chapter. The application must include a landscaping plan that identifies each plant type that will be used to meet the landscaping requirements of this chapter.
- (c) Conflicts. If any requirement of this chapter conflicts with any off-street parking requirement specified elsewhere in Division 84, the requirement specified elsewhere in Division 84 governs.
- (d) Requirements are Cumulative. The requirements of this chapter are in addition to all requirements of state law that apply to vehicles and parking, including those specified in the vehicle code.

(Ord. No. 2012-12, § II, 10-16-12)

82-16.208 Computation.

- (a) If the computation of required off-street parking spaces or bicycle parking spaces results in a fractional number, the fraction of one-half or more is counted as one, and a fraction of less than one-half is not counted.

-
- (b) When an off-street parking requirement or bicycle parking requirement is based on the number of spaces per employee, the required number of parking spaces is calculated based on the greatest number of employees that will be on the premises at one time.
 - (c) When a parking requirement is based on the number of seats, and the seating provided is bench or pew seating, each twenty-four inches of bench or pew seating is considered one seat.

Article 82-16.4. Requirements

82-16.402 Location.

- (a) Except as specified in subsection (b) of this section, off-street parking required by this chapter must be provided on the same lot as the land use that it serves, or, for shared parking, on the same lot as at least one of the land uses that it serves.
- (b) Off-street parking may be allowed on a lot separate from the lot where the land use to be served by that parking is located if the zoning administrator finds both of the following:
 - (1) The lot on which the off-street parking will be located is owned or leased by the applicant; and
 - (2) The lot on which the off-street parking will be located is within two hundred feet of the lot where the land use to be served by that parking is located.

(Ord. No. 2012-12, § II, 10-16-12)

82-16.404 Design and layout.

- (a) Parking Area Design Requirements. Each parking area must meet the following parking area design requirements:
 - (1) General Requirements. Each off-street parking area must be designed with appropriate maneuvering areas and means of vehicular access to a street adjacent to or abutting the parking area. Each parking area must be designed to allow circulation of vehicles from one driveway aisle to another driveway aisle, or must provide, at the end of the driveway aisle, a turn-around area that is marked to prohibit parking and has a minimum area equivalent to one standard parking space.
 - (2) Access Requirements. If an off-street parking area does not abut a street, an access drive between the street and the parking area must be provided. The access drive must measure at least twelve feet wide if it will be used for one-way traffic, and at least twenty feet wide if it will be used for two-way traffic. Each entrance to and exit from an off-street parking area must be located and designed to provide efficient and safe traffic flow between the parking area and the street. If a driveway aisle intersects directly with the adjacent or abutting street, that intersection must be at least eighteen feet away from the parking space nearest to it. Each off-street parking area within a residential zoning district (R-, D-1, M-), commercial zoning district (O-1, A-O, C-B, N-B, R-B, C-, C-M), industrial zoning district (L-I, W-3, H-I), or planned unit zoning district (P-1), must be designed so that vehicles are not required to back out of the parking area onto an abutting or adjacent street. If a pedestrian sidewalk is adjacent to a parking space, at least five feet of width of the sidewalk must be unobstructed by any bumper overhang.
 - (3) Driveway Aisles. Each parking space in a parking area must be accessed by a driveway aisle. If parking spaces with different angles of parking are accessed by the driveway aisle, the required driveway aisle width is the largest driveway aisle width that would be required for any of those parking spaces.

Driveway aisle width is measured between the closest points of two parking spaces, or two curbs, or a parking space and a curb, that are directly opposite on each side of the driveway aisle.

- (4) Changes in Grade. When there is a change in grade between a parking area and an abutting or adjacent street, the gradient of each access point or access driveway may be up to a five percent gradient with no transitions. For a gradient greater than five percent, a twenty-foot long transition with a gradient of no more than five percent must be provided before or after the change in grade. For a gradient greater than fourteen percent, up to the maximum permitted gradient of twenty percent, a transition of one half of the gradient must be provided for a minimum of eight feet before, and a minimum of eight feet after, the change in grade.
 - (5) Surfacing. Except as specified in this subsection (a)(5), each required off-street parking area must be surfaced with a continuous asphalt or Portland cement binder pavement, or similar paving material, with a weight rating necessary to accommodate emergency vehicles, as deemed necessary by the zoning administrator in consultation with the fire district or department having jurisdiction over the parking area. At least ten percent of the total paved area of a parking area must be paved with porous asphalt, pervious concrete, permeable pavers, or unit pavers that the zoning administrator, in consultation with the fire district or department having jurisdiction over the parking area, determines has a weight rating necessary to accommodate emergency vehicles. The parking area surface must be graded and drained to prevent the pooling of water.
 - (6) Prohibitions. No off-street parking area may be used for automobile sales, storage, repair work, dismantling, or servicing of any kind.
 - (7) Striping, Markings, and Signage. Each parking space must be marked with striping and must open directly on a driveway aisle meeting the width requirements set forth in this section. Each parking area must include signage and directional markings deemed necessary by the zoning administrator to ensure sufficient traffic circulation and safety.
 - (8) Lighting. For safety and security, each parking area in a non-residential zoning district (any zoning district other than a R-, D-1 or M- district) must include lighting that adequately illuminates the parking area. Lighting must be directed downward and away from adjacent areas and public streets and rights-of-way, to prevent glare (overwhelming direct light creating a potential hazard), or excessive light spill-over (unreasonable amounts of light extending beyond the intended area or property line), as seen from those areas, streets, or rights-of-way. To provide for the general safety of adjacent vehicular traffic and the privacy and well being of residential areas, the lighting intensity may not be greater than reasonably required to safely and securely illuminate the parking area. Each lighting fixture must be consistently maintained to ensure broken or burnt-out bulbs are replaced, fixtures remain clean and graffiti and rust free, and painted fixtures do not chip or peel. Whenever possible, lighting fixtures must be equipped with energy efficient bulbs.
 - (9) Screening and Buffers. If a parking area is adjacent to property within a residential zoning district (R-, D-1, or M-) or a parcel used for residential uses within a planned unit district (P-1), the parking area must include one of the following between the parking area and that zoning district:
 - (A) A six-foot high solid fence or masonry wall (block, brick, or natural or concrete stone) and vegetation that, when mature, will cover a portion of the fence or wall; or
 - (B) Landscape screening of at least six feet in height. Up to three feet, or half of the total height, whichever is less, may consist of planter boxes, raised beds, or similar improvements, and the remaining amount of screening must be shrubbery or other plants that, when planted, will provide a complete screen.
- (b) Parking Space Design and Layout. Each parking space within a parking area must meet all of the following requirements:

(1) Parking Space Sizes. Except as provided in this subsection, each parking space in a parking area must be a standard size parking space. If twelve or more parking spaces are required by this chapter, a maximum of twenty-five percent of the total required parking spaces may be designated for compact vehicles. Each compact-vehicle parking space must provide pavement markings or signage identifying it for use by compact vehicles. Each standard size parking space, each compact-vehicle off-street parking space, and each driveway aisle must have the following minimum dimensions:

(A) For each space with an angle of parking of zero degrees:

0°	Dimension	Standard Spaces	Compact Spaces
	Space Width	8'6"	7'6"
	Curb Length	21'6"	19'
	Space Depth	8'6"	7'6"
	Driveway Aisle Width	One-way travel: 12' Two-way travel: 20'	One-way travel: 12' Two-way travel: 20'

(B) For each space with an angle of parking of forty-five degrees:

45°	Dimension	Standard Spaces	Compact Spaces
	Space Width	8'6"	7'6"
	Curb Length	12'	10'6"
	Depth Perpendicular to Curb	18'6"	16'6"
	Short Depth	13'6"	12'
Long Depth	22'	19'6"	

	Driveway Aisle Width	One-way travel: 13' Two-way travel: 20'	One-way travel: 13' Two-way travel: 20'
--	----------------------	--	--

(C) For each space with an angle of parking of ninety degrees:

0°	Dimension	Standard Spaces	Compact Spaces
	Space Width	8'6"	7'6"
	Curb Length	8'6"	7'6"
	Space Depth	18'	16'
	Driveway Aisle Width	One-way travel: 25' Two-way travel: 25'	One-way travel: 25' Two-way travel: 25'

- (2) Non-Standard Angles of Parking. If a parking space in any parking area will have an angle of parking other than zero degrees, forty-five degrees, or ninety degrees, the zoning administrator will calculate the parking space dimensions to provide approximately the same amount of space that is required for a parking space with a zero-degree angle of parking. For calculations for a parking space with an angle of parking that is greater than zero degrees and less than forty-five degrees, the required driveway aisle width is thirteen feet for one-way travel, and twenty feet for two-way travel. For calculations for a parking space with an angle of parking that is greater than forty-five degrees, the required driveway aisle width is twenty-five feet for one-way and two-way travel.
 - (3) Motorcycle Parking. Any off-street parking area with twenty or more standard size parking spaces may include up to six designated motorcycle parking spaces. Each designated motorcycle parking space must have a length of at least eight and one-half feet, and a width of at least three feet. Motorcycle parking spaces may not be counted towards the minimum number of parking spaces required by this chapter.
- (c) Landscaping Design and Layout. Landscaped areas must be provided within any off-street parking area other than an enclosed parking structure, and must meet the following design and layout requirements:
- (1) Each landscaped area within or adjacent to a parking area must be bordered by a curb that is at least six inches high and at least six inches wide. Each curb must be constructed of the same material that is used to pave the parking area, or another paving material that is authorized under this chapter and as approved by the zoning administrator.
 - (2) Each landscaped area must be designed so that pedestrians are not required to cross the landscaped area in order to access the parking area.
 - (3) A planter or landscaped area at least four feet wide (inside dimension) must be provided between a parking area and a public street or private drive, other than an access drive, that is adjacent to a

-
- parking area. Each parking area with more than five parking spaces must include landscaped areas that are equal in area to at least five percent of the area occupied by the paved parking area.
- (4) To provide visual and physical breaks and reduce traffic hazards to pedestrians, landscaped areas must be located between the parking area and each sidewalk adjacent to the parking area, except for any point at which a sidewalk intersects with the parking area.
 - (5) For any parking space with an angle of parking of forty-five degrees or greater, in lieu of paving, a maximum of two feet of a standard parking space's depth, or one and one-half feet of a compact parking space's depth, may be planted with low-lying groundcover or landscaping to allow for up to a two-foot bumper overhang. A barrier curb or wheel stop measuring no more than five inches high, at least six inches wide, and thirty-six inches long must be provided in the parking space if the parking space is in front of a building, facility, or structure.
 - (6) The following requirements apply to each parking area that includes more than seventy parking spaces:
 - (A) Trees must be provided at a rate of at least one tree per twenty linear feet of landscaping. Each tree must measure at least five feet in height above-ground at the time that it is planted.
 - (B) Planter islands must be provided at the ratio of at least one island for each ten parking spaces. Each planter island must be at least five feet wide and at least as long as the depth perpendicular to curb for the longest parking space adjacent to it.
 - (C) Trees, or clusters of trees, must be evenly distributed throughout the parking area by locating trees along the perimeter of the parking area and within planter islands.
 - (7) Each landscaped area must be continuously maintained to ensure it remains free of debris, litter, and weeds, and that landscaping remains healthy. To encourage water conservation, each parking area that includes landscaping must also include an automatic irrigation system that meets the requirements of this code pertaining to landscape irrigation and water conservation.
- (d) Tandem Parking. Two-car tandem parking spaces are permitted as specified in this section. Each tandem parking space must have a space width measuring at least eight feet and six inches, and a space depth perpendicular to curb measuring at least thirty-six feet. Vehicles using a tandem parking space must not block, or be allowed to overhang into, walkways or other pedestrian access areas, or any street or other public right-of-way. Each tandem parking space will be counted as two standard parking spaces toward the total amount of off-street parking spaces that must be provided under this chapter.
- (1) Single-family Residential. For any residential use located in a single-family residential (R-) zoning district, a tandem parking space is allowed, as long as the minimum setback requirements applicable to that zoning district are met.
 - (2) Multiple-Family Residential. For any residential use located in a two-family (D-1) or multiple family residential (M-) zoning district, no more than fifteen percent of the residential units may be provided tandem parking spaces. A tandem parking space to serve an individual residential unit is allowed if the following requirements are met:
 - (A) The tandem parking space is assigned to a single residential unit;
 - (B) The tandem parking space is enclosed within a garage that allows ingress to and egress from a shared private road or a public street without requiring a vehicle to back out onto the road or street;
 - (C) The multiple family residential use is located within the General Plan Transportation and Circulation Element Transit Corridor or Local Transit Service Area; and
 - (D) The tandem parking space does not interfere with, or obstruct the use of, any other unit's assigned parking.

-
- (3) Commercial/Retail/Business. For any commercial, retail, or business use located in an O-1, A-O, C-B, N-B, R-B, C-, or P-1 zoning district, no more than twenty-five percent of the amount of off-street parking spaces required to be provided under this chapter may be tandem parking spaces. Tandem parking spaces are allowed if they are used in conjunction with a valet service that serves the land use during all hours of operation. No tandem parking space may be designated for self-parking, unless it is restricted for employee use.
- (e) Electric Vehicle Charging Spaces. Each EV charging space provided in a parking area counts as one space toward the minimum number of parking spaces required by this chapter. The following requirements apply to each EV charging space:
- (1) Each EV charging space must be accessible to persons with disabilities.
 - (2) Each EV charging space must include a posted sign and painted curb, or ground markings, indicating that the space is exclusively for EV charging purposes.
 - (3) EV charging equipment must be located so that pedestrians are not required to cross between the EV charging space and the EV charging equipment. The EV charging equipment may not obstruct any Americans with Disabilities Act-compliant sidewalk, entrance, curb-cut, or ramp, while in use or otherwise.
 - (4) EV charging equipment must be illuminated by lighting to enable the equipment to be used at night.
 - (5) Concrete-filled steel bollards or other similar barriers must be installed between EV charging equipment and an EV charging space if either of the following applies:
 - (A) The EV charging equipment is located less than twenty-four inches away from the EV charging space that it serves; or
 - (B) The EV charging equipment is located twenty-four inches or more away from the EV charging space that it serves and does not include, between the space and the equipment, a curb measuring at least six inches high.
 - (6) An electric vehicle may occupy an EV charging space only while charging is in progress. Parking in an EV charging space when charging is not in progress is prohibited.
 - (7) EV charging equipment must be maintained in working order at all times. The name and telephone number of the party responsible for maintaining and repairing the equipment must be posted on the equipment and updated as necessary.
- (f) Solar Energy Systems. Nothing in this chapter prohibits the installation of a solar energy system on or above a parking area, provided that the system otherwise meets the requirements of this code, and is located, installed, operated, and maintained in a manner that complies with all applicable federal, state, and county requirements.

(Ord. No. 2012-12, § II, 10-16-12)

82-16.408 Exclusive parking facilities.

An exclusive parking facility may be established if it meets all of the following requirements:

- (a) The facility must be located on a lot that is either:
 - (1) Adjacent to an established or planned future stop of a public transit service route; or

- (h) An exclusive parking facility plan must be submitted with the application for a land use permit. The plan must depict and delineate the requirements of this section. The exclusive parking facility may, but is not required to, provide a parking attendant to control entry to, and exit from, the facility. If a parking attendant will be provided, the application must show the location of the parking attendant's shelter, and must describe the hours when an attendant will be present. The application also must describe land use served by the facility.

(Ord. No. 2012-12, § II, 10-16-12)

82-16.410 Loading spaces.

- (a) In any zoning district, each building or facility with a gross floor area of ten thousand or more square feet that is used for manufacturing, storage, warehousing, displaying of goods, retail sales, wholesale sales, hotel, hospital, mortuary, laundry, dry cleaning, or other land use that requires the receipt or distribution by vehicles of materials and merchandise, must include off-street loading space on the same lot as that building or facility. The required amount of off-street loading space is based on the size of the building or facility that it serves, calculated as follows:
 - (1) Ten thousand to twenty thousand square feet of gross floor area, one space.
 - (2) Twenty thousand one to thirty thousand square feet of gross floor area, two spaces.
 - (3) Thirty thousand one to forty-five thousand square feet of gross floor area, three spaces.

- (b) Each off-street loading space must meet the following requirements:
 - (1) Each loading space must be located so that:
 - (A) It is accessible from a public street; and
 - (B) Any vehicle that regularly uses it does not encroach within any sidewalk or street right-of-way, or within any required front yard or side yard of the building or facility that it serves.
 - (2) Each loading space must have a minimum unobstructed width of ten feet, a minimum unobstructed length of thirty-five feet, and a minimum unobstructed clearance height of fifteen feet for the entire length and width of the loading space.
 - (3) Each loading space required by this section must be permanently maintained during the existence of the building or facility that it serves, and must be used only for loading and unloading purposes. No part of a required loading space may be encroached upon by buildings or temporary structures, or used for storage or any other activity not related to loading or unloading.

(Ord. No. 2012-12, § II, 10-16-12)

- (b) Long-term and short-term bicycle parking must meet the following location requirements:

- (1) The bicycle parking must be located near every terminus of dedicated bicycle trails or routes, or at locations that are accessible by bicycles.
 - (2) If no bicycle trails or routes terminate on the lot to be served by the bicycle parking, the parking must be located as close as possible to main entrances and exits of buildings, structures, or facilities without obstructing any door, entry way, path, or sidewalk.
 - (3) The bicycle parking must be located in an area that is visible from vehicle parking or circulation areas, or pedestrian circulation areas.
 - (4) The bicycle parking location must be identified with guide signs or wayfinding signs that meet the requirements of sign type "3" in sign series "D4" of the then current Manual of Uniform Traffic Control Devices.

82-16.414 Shared parking.

- (a) The requirements of this chapter may be met through the use of shared parking spaces if the zoning administrator finds all of the following:
 - (1) The number of off-street parking spaces to be shared by two or more land uses must be provided in an amount to satisfy the greatest number of off-street parking spaces required by this chapter for any of the land uses, when calculated individually. The number of off-street parking spaces to be shared by two or more land uses may not exceed the sum of the parking space requirements that otherwise would apply to the land uses under this chapter, when added together.
 - (2) Each land use served by the shared parking spaces will utilize the spaces at different times.
 - (3) The shared off-street parking spaces are not otherwise required to satisfy the parking requirements for some other use at times when they will be required to serve any of the shared land uses.
- (b) If an application for shared parking is approved by the zoning administrator, the applicant shall record in the office of the county recorder a deed restriction against the property or properties to be served by the shared parking. The deed restriction must specify the land uses served by the shared parking, and must designate and restrict the parking area to serve those land uses.
- (c) Any deed restriction recorded pursuant to this section may be amended or released only after obtaining the approval of the zoning administrator.
 - (1) The zoning administrator will approve the release of the deed restriction if either of the following is satisfied:
 - (A) Other off-street parking that meets the requirements of this chapter will be provided to serve one or more of the land uses served by the shared parking; or

-
- (B) One or more of the land uses served by the shared parking has changed, or will change, and off-street parking is no longer, or will no longer be, required under this chapter.

Chapter 82-22 CHILD CARE FACILITIES

Article 82-22.2. General

82-22.202 Purpose.

The purpose of this chapter is to implement the child care component of the community facilities element of the county general plan. It is the policy of Contra Costa County to assist and encourage the development of adequate affordable child care. It is recognized that the provision of child care requires a partnership between public and private participants and that the role of this county is to establish land use policies and ordinances to promote the establishment of child care facilities and the initiation of child care services in this community. It is further recognized that it is the developers' responsibility to address the child care needs associated with the development of their projects within the county, and that the establishment of such child care facilities and initiation of services will help satisfy the child care infrastructure requirements associated with new growth. Further, it is a policy of this county to encourage, whenever possible, joint use facilities such as, but not limited to, public schools, churches, parks or other community facilities.

(Ord. 88-1 § 3).

82-22.204 Administration.

The community development department shall be responsible to ensure the coordination of child care needs assessment and the provision of information concerning child care, to assist in the preparation of child care programs (where appropriate), and to coordinate the development of a child care program within county government. As part of its responsibilities under this chapter, the department shall verify the need for child care facilities and programs in each unincorporated community in the county every three years.

(Ords. 92-56 § 3, 88-1 § 3).

82-22.206 Regulations.

Article 82-22.4. Definitions

Unless otherwise specifically provided, the following definitions shall govern the interpretation of this chapter.

(Ord. 88-1 § 3).

82-22.404 Child care facility.

"Child care facility" means an existing or proposed child care facility as defined in Health and Safety Code Section 1596.750. The three basic designations covered under this section are:

- (1) Small family day care home, as defined in Health and Safety Code § 1596.78(2), a facility licensed for the care of six or fewer children;
- (2) Large family day care home, as defined in Health and Safety Code § 1596.78(1), a facility licensed for the care of seven to twelve children;
- (3) Child care center, as defined in Health and Safety Code § 1596.76, a facility licensed for the care of more than twelve children.

"Child care facility" includes the building, modifications to buildings, equipment, and any accessory structures, in which there are programs and personnel licensed by the state for direct child care services including, but not limited to, shelter, food, education and play opportunities for fewer than twenty-four hours per day.

(Ord. 88-1 § 3).

82-22.406 Project.

"Project" means a proposal for the development of land, requiring a land use entitlement, whether residential or nonresidential, or both, which conforms to county requirements. A project includes but is not limited to the development of a lot or parcel or larger acreage, conversion of an existing use to a different use, and expansion of a use.

(Ord. 88-1 § 3).

Article 82-22.6. Permitted Use

82-22.602 Permitted use.

A child care facility provided as a part of a project shall be a permitted use in all land use zoning districts except those designated as heavy industry or which allow hazardous waste disposal. Day care facilities that are not associated with projects as defined in this chapter shall be consistent with the county general plan, and shall be subject to county regulations and ordinance.

(Ord. 88-1 § 3).

Article 82-22.8. Projects

82-22.802 Project requirements.

The requirements set out in this article shall be applicable to all projects.

(Ord. 88-1 § 3).

82-22.806 Child care survey.

- (a) An application for a land use entitlement shall include a survey or assessment of the estimated child care needs caused by the proposed project, together with a response program showing how the child care needs resulting from the project are to be mitigated within Contra Costa County. The response program to mitigate the child care needs of the project shall include information on the location and capacity of existing or proposed child care facilities and how these will be used, established, maintained and operated. The response program shall also include information addressing the affordability of the child care to be provided. If the response program recommends that child care facilities be provided by existing facilities or through proposed facilities of others not part of the project, the applicant or developer shall provide sufficient information to the community development director to determine that the child care needs generated by the project shall be mitigated.
- (b) The child care survey shall include an assessment of the estimated child care service needs caused by the proposed project. The response program shall show how those needs for child care services are to be mitigated within the county including, but not limited to, the manner in which the establishment of those services and the use of child care facilities will be assured by the availability of qualified care providers and related resources.
- (c) The community development department shall make a determination of the adequacy of the response document no later than thirty days prior to the public hearing on the project. If the director of community development determines that child care needs have not been adequately established or that child care needs not be satisfied for a proposed project, the applicant or developer may be required to enter into a contract with the county providing for the preparation of a report by a consultant selected by the community development department but paid for by the developer, to evaluate and assist in determining child care needs and programs to adequately address those needs for the proposed project.
- (d) The applicant or developer of a residential development with between one and twenty-nine units, inclusive, shall pay a fee, as established by the board in accordance with applicable law, toward child care facility needs in lieu of undertaking the child care survey required in this section. Such fee shall be reserved by the county to assist in meeting the child care facility needs in the community in which such development is located.

(Ords. 92-56 § 4, 88-1 § 3).

- (b) The applicant or developer of a residential project of thirty or more units shall provide a child care facility on-site or off-site consistent with the needs assessment and response program required by this chapter or shall demonstrate that the child care needs of the project are mitigated through the use of existing facilities. The

new facility constructed by the developer for the purposes of satisfying the requirement of this chapter shall be available on an ongoing basis to satisfy the public need for not fewer than twenty-five years unless approved for a change of use by the board on a recommendation by the zoning administrator through a public hearing process.

(Ord. 92-56 § 5, 88-1 § 3).

82-22.810 Integration with other facilities.

To the extent possible, child care facilities shall be integrated with other facilities. Cooperative efforts with public and private schools shall be encouraged as the preferred method to provide off-site child care. Coordinated use of recreational or common areas within projects, with churches, parks or community facilities is to be fostered as a secondary method to provide child care facilities.

Chapter 82-28 FLOODPLAIN MANAGEMENT

Article 82-28.2. General

82-28.202 Statutory authorization.

This ordinance is designed to promote the public health, safety and general welfare of the citizens of Contra Costa County and is enacted pursuant to the authority of 42 United States Code Sections 4001 -4128; see especially 42 U.S.C. Section 4022; Government Code Sections 25120-25132; Title 44 of the United States Code of Federal Regulations at Section 60.3, (and "all applicable associated" Technical Bulletins); Health and Safety Code Section 450; and California Constitution, Article XI, Section 7 and Government Code Sections 65302, 65560 and 65800.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.204 Findings of fact.

- (1) The special flood hazard areas (SFHA) of Contra Costa County are areas subject to periodic inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief and impairment of the tax base, all of which adversely affect the public health, safety, and general welfare.
- (2) These flood losses are caused by inadequate drainage facilities and the cumulative effect of obstructions in areas of special flood hazards, which increase flood heights and velocities. These losses may result when structures are inadequately anchored, elevated, floodproofed or protected from flood damage.
- (3) Contra Costa County has experienced serious flooding, which has resulted in substantial property damage and the potential for loss of life. Adoption of a legally enforceable floodplain management ordinance which fully complies with the recently revised rules of the National Flood Insurance Program (NFIP) administered by the Federal Emergency Management Agency (FEMA) will allow Contra Costa County to continue its participation in the NFIP. The continued participation of the county in the NFIP is desirable and promotes the public health, safety and welfare in that it provides insurance and federal assistance in the event of flood(s) within the county's jurisdiction. In the absence of such insurance, the county's vulnerability to damage and loss resulting from flood events may be substantial and potential flood damage represents an immediate threat to the public health, safety and welfare.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.206 Statement of purpose.

It is the purpose of this ordinance to promote the public health, safety and general welfare, and to minimize public and private losses due to flood conditions in specific areas by provisions designed:

- (1) To protect human life and health;
- (2) To minimize expenditure of public money for costly flood control projects;

-
- (3) To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
 - (4) To minimize prolonged business interruptions during flooding;
 - (5) To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone, sewer lines and streets and bridges located in areas of special flood hazard;
 - (6) To help maintain a stable tax base by providing for the use and development of areas of special flood hazard subject to review by permit and application of flood damage reduction standards so as to minimize future flood blight areas;
 - (7) To provide information to the general public regarding special flood hazard areas in the unincorporated areas of the county;
 - (8) To clearly establish that those who occupy the areas of special flood hazard should assume responsibility for their actions and the losses they may suffer; and
 - (9) To ensure that potential buyers are notified if property is in an area of special flood hazard.

(Ords. 2000-33, 96-11, 90-118, 88-50, 87-45).

82-28.208 Methods of reducing flood losses.

In order to accomplish its purpose, this ordinance includes methods and provisions for:

- (1) Restricting or prohibiting land uses that create a danger to health, safety and property due to water inundation or erosion hazards or that result in damaging increases in erosion, flood heights or velocities;
- (2) Requiring that land use areas vulnerable to floods be protected against flood damage at the time of initial construction including facilities such as utilities, which serve them;
- (3) Requiring that the design of streets and public access facilities include consideration of accessibility under the base flood conditions for emergency service vehicles and any rescue and relief operations;
- (4) Controlling and limiting the alteration of natural floodplains, stream channels and natural protection barriers that help accommodate or channel floodwaters;
- (5) Controlling filling, grading, dredging and other development which may increase flood damage;
- (6) Preventing or regulating the construction of flood barriers that will unnaturally divert floodwaters or that may increase flood hazards in other areas.
- (7) Requiring orderly development of drainage facilities within watershed areas as development occurs;
- (8) Recognizing the importance and beneficial functions of natural floodplains; and
- (9) Requiring that all new construction and substantial improvements within floodplains be constructed in such a manner that flood damage will be minimized.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

A breakaway wall shall have a safe design loading resistance of not less than ten and no more than twenty pounds per square foot. Use of breakaway walls must be certified by a registered engineer or architect and shall meet the following conditions:

- (1) Breakaway wall collapse shall result from a water load less than that which would occur during the base flood; and
- (2) The elevated portion of the building shall not incur any structural damage due to the effects of wind and water loads acting simultaneously in the event of the base flood.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.436 Floodplain administrator.

"Floodplain administrator" means the individual appointed to administer and enforce the floodplain management regulations.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.446 Floodway.

"Floodway" means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than 0.30 meters (one foot). The floodway shall be as designated on the FIRMS and/or as designated by the floodplain administrator whether or not a floodplain is shown on the FIRM. Also referred to as "Regulatory floodway."

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.448 Flood resistant.

"Flood resistant" means any combination of structural and nonstructural additions, changes or adjustments to structures that reduces flood damage, generally allowing floodwaters to enter and exit the building without causing any significant damage to the structures or their contents.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.450 Flood-resistant materials.

"Flood-resistant materials" means any building material capable of withstanding direct and prolonged (at least seventy-two hours) contact with floodwaters without sustaining significant damage (any damage requiring more than low-cost cosmetics repair, such as painting). Acceptable materials are specified in "technical bulletins" and/or as approved by the floodplain administrator.

(Ord. 2000-33, 99-35).

82-28.452 Flood-related erosion.

"Flood-related erosion" means the collapse or subsidence of land along the shore of a lake or other body of water as a result of undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as a flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in flooding.

(Ord. 2000-33, 99-35).

82-28.454 Flood-related erosion area or flood-related erosion prone area.

"Flood-related erosion area" or "flood-related erosion prone area" means a land area adjoining the shore of a lake or other body of water, which due to the composition of the shoreline or bank and high water levels or wind-driven currents, is likely to suffer flood-related erosion damage.

(Ord. 2000-33, 99-35).

82-28.456 Flood-related erosion area management.

"Flood-related erosion area management" means the operation of an overall program of corrective and preventive measures for reducing flood-related erosion damage, including, but not limited to, emergency preparedness plans, flood-related erosion control work and floodplain management regulations.

(Ord. 2000-33, 99-35).

82-28.460 Fraud and victimization.

"Fraud and victimization," as related to Section 82-28.516, Variances, means that the variance granted must not cause fraud on or victimization of the public. In examining this requirement, the zoning administrator will consider the fact that every newly constructed building adds to government responsibilities and remains a part of the community for fifty to one hundred years. Buildings that are permitted to be constructed below the base flood elevation are subject during all those years to increased risk of damage from floods, while future owners of the property and the community as a whole are subject to all the costs, inconvenience, danger and suffering that those increased flood damages bring. In addition, future owners may purchase the property, unaware that it is subject to potential flood damage, and can be insured only at very high flood insurance rates.

(Ord. 2000-33, 99-35).

82-28.462 Freeboard.

"Freeboard" means a factor of safety usually expressed in feet above a base flood elevation for purposes of floodplain management. "Freeboard" tends to compensate for the many unknown factors that could contribute to flood heights greater than the height calculated for a selected size flood and floodway conditions, such as wave action, bridge openings and the hydrological effect of urbanization of the watershed.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.464 Functionally dependent use.

"Functionally dependent use" means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. (The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.)

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.466 Governing body.

"Governing body" means the local governing unit, i.e. county or municipality, that is empowered to adopt and implement regulations to provide for the public health, safety and general welfare of its citizenry.

(Ord. 2000-33, 99-35).

82-28.468 Hardship.

"Hardship," as used in Section 82-28.516, Variances, means the exceptional hardship that would result from a failure to grant the requested variance. The county requires that the variance be exceptional, unusual and peculiar to the property involved. Mere economic or financial hardship alone is not exceptional. Inconvenience, aesthetic considerations, physical handicaps, personal preferences or the disapproval of one's neighbors cannot, as a rule, qualify as an exceptional hardship. All of these problems can be resolved through other means without granting a variance, even if the alternative is more expensive or requires the property owner to build elsewhere or put the parcel to a different use than originally intended.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.470 Highest adjacent grade.

"Highest adjacent grade" means the highest natural (i.e. undisturbed) elevation of the ground surface prior to construction next to the proposed walls of a structure.

82-28.472 Historic structure.

"Historic structure" means any structure that is:

- (1) Listed individually in the National Register of Historic Places or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing in the National Register;
- (2) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary of Interior to qualify as a registered historic district;
- (3) Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of Interior; or
- (4) Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either by an approved state program as determined by the Secretary of the Interior or directly by the Secretary of the Interior in states with approved programs.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.474 Lowest floor.

"Lowest floor" means the lowest floor of the lowest enclosed area, including basement. An unfinished or flood-resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided, that such enclosure is not built so as to render the structure in violation of the applicable nonelevation design requirements of this ordinance. (Note: This definition allows attached garages to be built at grade (with adequate venting). Below grade garages are not allowed as they are considered to be basements.)

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.476 Manufactured home.

"Manufactured home" means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes the term "manufactured home" also includes park trailers, travel trailers and other similar vehicles placed on a site for greater than one hundred eighty consecutive days and neither continuously licensed nor "road ready."

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.478 Manufactured home park or subdivision.

"Manufactured home park or subdivision" means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for sale or rent.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.479 Market value.

"Market value" shall be determined by estimating the cost to replace the structure in new condition and adjusting that cost figure by the amount of depreciation which has accrued since the structure was constructed. The cost of replacement of the structure shall be based on a square foot cost factor determined by reference to a building cost estimating guide recognized by the building construction industry. The amount of depreciation shall be determined by taking into account the age and physical condition but shall not include economic or other forms of external obsolescence. Use of replace costs or accrued depreciation factors different from those contained in recognized building cost estimating guides may be considered only if such factors are included in a report prepared by an independent professional appraiser and supported by a written explanation of the differences.

82-28.498 Remedy a violation.

"Remedy a violation" means to bring the structure or other development into compliance with state or local floodplain management regulations, or, if this is not possible, to reduce the impacts of its noncompliance. Ways that impacts may be reduced include protecting the structure or other affected development from flood damages,

implementing the enforcement provisions of the ordinance or otherwise deterring future similar violations, or reducing federal financial exposure with regard to the structure or other development.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

"Start of construction" means and includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, placement or other improvement was within one hundred eighty days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns or any work beyond the stage of excavation, or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling, the installation of streets and/or walkways, excavation for a basement or foundations, or the erection of temporary forms, the footings, piers, or installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

82-28.512 Substantial improvement.

"Substantial improvement" means any reconstruction, rehabilitation, addition or improvement of a structure, the cost of which equals or exceeds fifty percent of the market value of the structure before the "start of construction" of the improvement. This term includes structures that have incurred "substantial damage" regardless of the actual repair work performed.

The percentage figure shall be added to any successive building permits that may be issued or have been issued within a contiguous ten-year span. "Substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. The term does not, however, include:

- (1) Any project for improvement of a structure to comply (not required because of flood damage) with existing state or local health, sanitary or safety code specifications which are the minimum necessary to assure safe living conditions; or

Article 82-28.6. General Provisions

82-28.602 Lands to which this ordinance applies.

Articles 82-28.2 through 82-28.12 apply to all areas of special flood hazards within the jurisdiction of Contra Costa County, as shown on the maps described in Section 82-28.604

(Ord. No. 2016-16, § III, 6-21-16; Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.604 Basis for establishing the areas of special flood hazard.

The areas of special flood hazard have been identified by FEMA or the FIA in a scientific and engineering report entitled "Flood Insurance Study for Contra Costa County, Unincorporated Areas," dated July 16, 1987, with accompanying FIRM and flood boundary and floodway map of same date and all subsequent amendments and/or revisions, which study and maps are adopted by reference and declared to be a part of this ordinance. This flood insurance study and accompanying maps are on file at the Contra Costa County Public Works Department, 255 Glacier Drive, Martinez. This flood insurance study is the minimum area of applicability of this ordinance and may be supplemented by studies for other areas which allow implementation of this ordinance and which are recommended by the floodplain administrator. Within the areas of special flood hazard identified in the flood insurance study, accompanying maps and supplemental studies, freeboard is required. In the San Francisco Bay Delta Estuarine Region, 0.61 meters (two feet) of freeboard is required. In all other unincorporated areas of the county, 0.30 meters (one foot) of freeboard is required.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.606 Compliance.

No structure or land shall hereafter be constructed, located, extended, converted or altered without full compliance with the terms of this ordinance and other applicable regulations. Violations of the requirements (including violations of conditions and safeguards established in connection with conditions) shall constitute an infraction punishable as provided in Government Code Section 25132. Nothing herein shall prevent the Contra Costa County board of supervisors from taking such lawful action as is necessary to prevent or remedy any violation.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.608 Abrogation and greater restrictions.

This ordinance is not intended to repeal, abrogate, or impair any existing easements, covenants or deed restrictions. However, where this ordinance and another ordinance, easement, covenant or deed restriction conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.610 Interpretation.

In the interpretation and application of this ordinance, all provisions shall be:

- (1) Considered as minimum requirements;
- (2) Liberally construed in favor of the county; and,
- (3) Deemed neither to limit nor repeal any other powers granted under state statutes.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.612 Warning and disclaimer of liability.

The degree of flood protection required by this ordinance is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by manmade or natural causes. This ordinance does not imply that land outside the areas of special flood hazards or uses permitted within such areas will be free from flooding or flood damages. This ordinance shall not create liability on the part of the county, any officer or employee thereof or the FIA, for any flood damages that result from reliance on this ordinance or any administrative decision made thereunder.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.614 Severability.

This ordinance and the various parts thereof are declared to be severable. Should any section of this ordinance be declared by the courts to be unconstitutional or invalid, such decision shall not affect the validity of the ordinance as a whole, or any portion thereof other than the section so declared to be unconstitutional or invalid.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

Article 82-28.8. Administration

82-28.802 Establishment of floodplain permit.

A floodplain permit shall be obtained from the Contra Costa County public works department before construction, and prior to issuance of a grading permit or building permit, or commencement of development on any property within any area of special flood hazards established in Section 82-28.604. Application for a floodplain permit shall be made on forms furnished by the floodplain administrator, in the public works department of Contra

Costa County and may include, but not be limited to: plans in triplicate drawn to scale showing the nature, location, dimensions and elevation of the area in question; and the location of existing or proposed structures, fill, storage of materials, drainage facilities or other development defined in this ordinance. Specifically, the following information is required:

- (1) Proposed elevation, in relation to mean sea level, of the lowest floor (including basement) of all structures. In zone AO or VO, elevation of highest adjacent grade, and proposed elevation of lowest floor of all structures;
- (2) Proposed elevation, in relation to mean sea level, to which any structure will be floodproofed;
- (3) All appropriate certifications listed in Section 82-28.806;
- (4) Description of the extent to which any watercourse will be altered or relocated as a result of proposed development; and
- (5) Description of the extent to which grading is proposed within the SFHA.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.803 Development permit application.

Prior to a variance permit, land use permit, development plan permit or tentative map application being deemed complete on any property within any area of special flood hazards established in Section 82-28.604, an applicant must provide verification from the floodplain administrator that the required flood zone, BFE and minimum finished floor elevation has been determined.

(Ord. 2000-33, 99-35, 96-11).

82-28.804 Designation of the floodplain administrator.

The public works director of Contra Costa County shall be the floodplain administrator but may designate a person under the public works director's supervision (chiefly the floodplain manager) to administer and implement this ordinance by granting or denying floodplain permits in accordance with its provisions.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.806 Duties and responsibilities of the floodplain administrator.

The duties and responsibilities of the floodplain administrator shall include, but not be limited to, the following:

- (1) Review Permits.
 - (a) Review all floodplain permits to determine that the permit requirements of this chapter have been satisfied;
 - (b) Review written statements required to be submitted by each applicant that all other required state and federal permits have been obtained;
 - (c) Review floodplain permits for compliance with FEMA requirements for elevation of structures above the floodplain plus freeboard; and
 - (d) Review floodplain permits for compliance with FEMA requirements so that the proposed development does not adversely affect the carrying capacity of the floodway. For purposes of

this chapter, "adversely affect" means that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will increase the water surface elevation of the base flood more than 0.30 meters (one foot) at any point.

- (2) Use of Other Base Flood Elevation Data. When base flood elevation data has not been provided in accordance with Section 82-28.604, the floodplain administrator shall require, obtain, review and reasonably utilize any base flood elevation and floodway data available from a federal, state or other source, in order to administer Section 82-28.10. Generally speaking, consisting of more than ten new insurable structures will be required to determine the base flood elevation by developing a detailed hydrology and hydraulic study, including, but not limited to, a back water analysis. Developments of ten or fewer insurable structures will be required to determine the base flood elevation using standards acceptable to the floodplain administrator.
- (3) Notify Agencies of Watercourse Alteration or Relocation. When a watercourse is to be altered or relocated, the floodplain administrator shall notify the Contra Costa County flood control and water conservation district, adjacent communities and the California Department of Water Resources prior to such alteration or relocation of the watercourse, send copies of such notice to the FIA, and require that the flood carrying capacity of the altered or relocated portion of said watercourse is maintained.
- (4) Maintain Records. The floodplain administrator shall be provided with, and shall maintain, the following records:
 - (a) The certification required in Section 82-28.1002(3)(a) (floor elevations);
 - (b) The certification required in Section 82-28.1002(3)(b) (elevations in areas of shallow flooding);
 - (c) The certification required in Section 82-28.1002(3)(d)(iii) (elevation of floodproofing of nonresidential structures);
 - (d) The certification required in Section 82-28.1002(3)(d)(i) or 82-28.1002(3)(d)(ii) (wet floodproofing standard);
 - (e) The certification of elevation required in Section 82-28.1006(2) (subdivision standards);
 - (f) The certification required in Section 82-28.1010 (floodway encroachments); and
 - (g) The information required in Section 82-28.1012(6) (coastal construction standards).
- (5) Determination of Boundaries. The floodplain administrator may make interpretations where needed, about the exact location of the boundaries of the areas of special flood hazards (for example, where there appears to be conflict between mapped boundaries and actual field conditions). Any person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in Section 82-28.12.
- (6) Remedy Violations. The floodplain administrator may take appropriate action to remedy violations of this ordinance as specified in Section 82-28.606, with the assistance of the code enforcement officer.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.808 Appeals.

The board of supervisors of Contra Costa County shall hear and decide appeals when it is alleged there is an error in any requirement, decision or determination made by the floodplain administrator in the enforcement or administration of this ordinance.

(Ord. 2000-33 and 99-35).

Article 82-28.10. Provisions for Flood Hazard Reduction

82-28.1002 Standards of construction.

In all areas of special flood hazards, the following standards are required:

- (1) Anchoring.
 - (a) All new construction and substantial improvements shall be anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.
 - (b) All manufactured homes shall meet the anchoring standards of Section 82-28.1008.
- (2) Construction Materials and Methods.
 - (a) All new construction and substantial improvements shall be constructed with materials and utility equipment resistant to flood damage.
 - (b) All new construction and substantial improvements shall be constructed using methods and practices that minimize flood damage.
 - (c) All new construction and substantial improvements shall be constructed with electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.
 - (d) In zones AH, AO or VO, adequate drainage paths around structures. To guide floodwaters around and away from proposed structures shall be constructed.
- (3) Elevation and Floodproofing.
 - (a) New construction and substantial improvement of any structure shall have the lowest floor, including basement, elevated to or above the base flood elevation plus required freeboard. In the San Francisco Bay Delta Estuarine Region, 0.61 meters (two feet) of freeboard is required. In all other unincorporated areas of the county, 0.30 meters (one-foot) of freeboard is required. Nonresidential structures may meet the standards in Section 82-28.1002(3)(c). Upon the completion of the substructure but prior to completion of the structure, the elevation of the lowest floor, including basement, shall be certified by a registered professional engineer or surveyor, or verified by the building inspector to be properly elevated. Such certification or verification shall be provided to the floodplain administrator.
 - (b) New construction and substantial improvement of any structure in zone AH, AO or VO shall have the lowest floor, including basement, elevated above the highest adjacent grade at least as high as the depth number specified in meters (feet) on the FIRM plus required freeboard, or at least 0.61 meters (two feet) if no depth number is specified. In the San Francisco Bay Delta Estuarine Region, 0.61 meters (two feet) of freeboard is required. In all other unincorporated areas of the county, 0.30 meters (one-foot) of freeboard is required. Nonresidential structures may meet the standards in Section 82-28.1002(3)(c). Upon the completion of the substructure but prior to completion of the structure, the elevation of the lowest floor, including basement, shall be certified by a registered professional engineer or surveyor, or verified by the building inspector to

be properly elevated. Such certification or verification shall be provided to the floodplain administrator.

- (c) If the difference in elevation between the lowest floor and the ground below the lowest floor is two meters (6.6 feet) or greater, the applicant will provide the floodplain administrator with a deed restriction. This deed restriction will be recorded and will run with the property (not the applicant). This restriction will limit the area below the lowest floor to be used only for building access, storage and parking of vehicles and will not allow this area to be developed into habitable space.
- (d) Nonresidential construction shall either be elevated in conformance with Section 82-28.1002 (3)(a) or (b), or together with attendant utility and sanitary facilities:
 - (i) Be floodproofed so that below the base flood level plus freeboard, the structure is watertight with walls substantially impermeable to the passage of water;
 - (ii) Have structural components capable of resisting hydrostatic and hydrodynamic loads and effects of buoyancy; and
 - (iii) Be certified by a registered professional engineer or architect that the standards of this subsection are satisfied. Such certification shall be provided to the floodplain administrator; or
 - (iv) The floodplain administrator may allow the nonresidential structure to be made "flood resistant." Flood resistant structures shall comply with Section 82-28.1002(3)(e).
- (e) For all new construction and substantial improvements, with fully enclosed areas below the lowest floor, (excluding basements) that are usable solely for parking of vehicles, building access or storage, and are subject to flooding, shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or meet or exceed the following minimum criteria:
 - (i) Have a minimum of two openings with a total net area of not less than 6.45 square centimeters (one square inch) for every 0.09 square meters (one square foot) of enclosed area subject to flooding. The bottom of all openings shall be no higher than 0.3 meter (one foot) above grade. (Openings may be equipped with screens, louvers, valves or other coverings or devices provided that they permit the automatic entry and exit of floodwaters).

(4) Manufactured homes shall also meet the standards in Section 82-28.1008.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.1004 Standards for utilities.

- (1) All new and replacement water supply and sanitary sewage systems shall be designed to minimize or eliminate infiltration of floodwaters into the system and discharge from the system into floodwaters.
- (2) Onsite waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding. All septic tanks shall be adequately anchored to resist flotation, collapse or lateral movement.
- (3) Onsite water supply systems shall be located to avoid impairment to them or contamination of them during flooding.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.1006 Standards for subdivisions.

- (1) All applications for tentative map approval are incomplete unless the tentative maps identify the flood hazard area and the elevation of the base flood. (See Section 82-28.806(2))
 - (2) All final subdivision improvement plans shall provide the elevation of proposed structure(s), pads and streets. If the site is filled above the base flood, the final pad elevations shall be certified by a registered professional engineer or surveyor and provided to the floodplain administrator.
 - (3) All subdivision proposals shall be consistent with the need to minimize flood damage.
 - (4) All subdivision proposals shall have public utilities and facilities such as road, sewer, gas, electrical and water systems located and constructed to minimize flood damage.
 - (5) All subdivisions shall provide adequate drainage to reduce exposure to flood hazards.
- (Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.1008 Standards for manufactured homes.

- (1) All manufactured homes to be placed or substantially improved within special flood hazard areas (zones A1-30, and AH), as shown on the study and maps described in Section 82-28.604, shall:
 - (a) Be elevated and anchored to a foundation such that the lowest floor of the manufactured home is at or above the base flood elevation, plus required freeboard. In the San Francisco Bay Delta Estuarine Region, 0.61 meters (two feet) of freeboard is required. In all other unincorporated areas of the county, 0.30 meters (one-foot) of freeboard is required; and
 - (b) Be securely anchored to an adequately designed foundation system to resist flotation, collapse or lateral movement in accordance with California Health and Safety Code Sections 18613.4 or 18551.
- (2) Section 82-28.1008(1) shall apply to:

 - (c) Manufactured homes to be placed in a manufactured home park or subdivision established on or after the effective date of this ordinance.
- (3) Section 82-28.1008(1)(a) shall not apply to manufactured homes to be placed or substantially improved in an existing manufactured home park or subdivision, except:
 - (a) Where the repair, reconstruction or improvement of the streets, utilities and pads equals or exceeds fifty percent of the streets, utilities and pads before the repair, reconstruction or improvement is commenced; or
 - (b) The manufactured home has incurred "substantial damage" as a result of a flood.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.1009 Standards for recreational vehicles.

- (1) All recreational vehicles placed on sites within a special flood hazard area (zones A1-30, AH, and AE) on the FIRM shall:
 - (a) Be on the site for fewer than one hundred eighty consecutive days; or
 - (b) Be fully licensed, insured and ready for highway use. (A recreational vehicle is ready for highway use if it is on its wheels or integral jacking system, is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions); or
 - (c) Meet the permit requirements of Section 82-28.802 and the elevation and anchoring requirements for manufactured homes in Section 82-28.1008.

(Ords. 2000-33, 99-35, 96-11).

82-28.1010 Floodways.

Within special flood hazard areas established in Section 82-28.604 are areas designated as floodways. A floodway is an extremely hazardous area due to the velocity of floodwaters which carry debris and potential projectiles and the potential for erosion. Floodways may or may not be specifically designated on the FIRM maps, their existence will be as determined by the floodplain administrator. Encroachments, including fill, new construction, substantial improvements and other development are not allowed in a floodway unless certification by a registered professional engineer is provided demonstrating that the encroachment(s) shall not result in any increase in flood levels during the occurrence of the base flood discharge. Allowed new construction and improvements shall comply with all applicable flood hazard reduction provisions of Article 82-28.10.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.1012 Coastal high hazard areas.

Within coastal high hazard areas established in Section 82-28.604, the following standards shall apply:

- (1) All new construction and substantial improvements shall be elevated on adequately anchored pilings or columns and securely anchored to such pilings or columns so that the lowest horizontal portion of the structural members of the lowest floor (excluding the pilings or columns) is elevated to or above the base flood elevation plus required freeboard. In the San Francisco Bay Delta Estuarine Region 0.6 meter (two feet) of freeboard is required. In all other unincorporated areas of the county, 0.3 meter (one foot) of freeboard is required. The pile or column foundation, and structure attached hereto, shall be anchored to resist flotation, collapse or lateral movement due to the effects of wind and water loads acting simultaneously on all building components. Water loading values used shall be those associated with the base flood plus freeboard. Wind loading values used shall be those required by applicable state or local building standards.
- (2) All new construction shall be located on the landward side of the reach of mean high tide.
- (3) All new construction and substantial improvements shall have the space below the lowest floor free of obstructions or constructed with breakaway walls. Such temporarily enclosed space shall not be used for human habitation.
- (4) Fill shall not be used for structural support of buildings.
- (5) Manmade alteration of sand dunes which would increase potential flood damage is prohibited.

-
- (6) The floodplain administrator shall obtain and maintain the following records:
 - (a) Certification by a registered engineer or architect that a proposed structure complies with Section 82-28.1012(1); and
 - (b) The elevation (in relation to mean sea level) of the bottom of the lowest structural member of the lowest floor (excluding pilings or columns) of all new and substantially improved structures; and whether such structures contain a basement.

(Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

Article 82-28.12. Variance Procedure

82-28.1201 Nature of variances.

The variance criteria set forth in this article are based on the general principle of zoning law that variances pertain to a piece of property and are not personal in nature. A variance may be granted for a parcel of property with physical characteristics so unusual that complying with the requirements of this ordinance would create an exceptional hardship to the applicant or the surrounding property owners. The characteristics must be unique to the property and not be shared by adjacent parcels. The unique characteristic must pertain to the land itself, not to the structure, its inhabitants or the property owners.

It is the duty of the county to help protect its citizens from flooding. This need is so compelling and the implications of the cost of insuring a structure built below flood level are so serious that variances from the flood elevation or from other requirements in the flood ordinance are quite rare. (The long term goal of preventing and reducing flood loss and damage can only be met if variances are strictly limited. Therefore, the variance guidelines provided in the ordinance are more detailed and contain multiple provisions that must be met before a variance can be properly granted. The criteria are designed to screen out those situations in which alternatives other than a variance are more appropriate).

(Ords. 2000-33, 99-35, 96-11).

82-28.1202 Appeal process.

- (1) The zoning administrator of Contra Costa County shall hear and decide appeals and requests for variances from the requirements of this ordinance.
- (2) The zoning administrator shall hear and decide appeals when it is alleged there is an error in any requirement, decision or determination made by the floodplain administrator in the enforcement or administration of this ordinance.
- (3) In passing upon such applications, the zoning administrator shall consider all technical evaluations, all relevant factors and standards as specified in this ordinance, and all other relevant factors including, but not limited to the following:
 - (a) The danger that materials may be swept onto other lands to the injury of others;
 - (b) The danger to life and property due to flooding or erosion damage;
 - (c) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the owner and future owners of the property and the community;
 - (d) The importance of the services provided by the proposed facility to the community, where applicable;

-
- (e) The necessity to the facility of a waterfront location, where applicable;
 - (f) The availability of alternative locations for the proposed use which are not subject to flooding or erosion damage;
 - (g) The compatibility of the proposed use with existing and anticipated development;
 - (h) The relationship of the proposed use to the comprehensive plan and floodplain management program for that area;
 - (i) The safety of access to the property in time of flood for ordinary and emergency vehicles;
 - (j) The expected heights, velocity, duration, rate of rise and sediment transport of the floodwaters expected at the site; and
 - (k) The costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, water systems, streets and bridges.
- (4) Generally, variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, provided Section 82-28.1202(3) factors have been fully considered. As the lot size increases beyond one-half acre, the technical justification required for issuing the variance will increase.
 - (5) Upon consideration of the factors of Section 82-28.1202(3) and the purposes of this ordinance, the zoning administrator may attach such conditions to the granting of variances as deemed necessary to further the purposes of this ordinance.
 - (6) Appeals from zoning administrator decisions may be made in the time and manner provided in Contra Costa County Ordinance Code Article 26-2.24 to the planning commission and board of supervisors upon payment of prescribed fees.
 - (7) The floodplain administrator shall maintain the records of all appeal actions and report any variances granted to the FIA upon request.
- (Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

82-28.1204 Conditions for variances.

- (1) Variances may be issued for the reconstruction, rehabilitation or restoration of "historic structures" upon a determination that the proposed restoration or rehabilitation will not preclude the structures continued designation as an historic structure and the minimum necessary variance is to preserve the historic character and design of the structure without regard to the procedures set forth in the remainder of this section.
- (2) Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.
- (3) Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.
- (4) Variances shall only be issued upon:
 - (a) A showing of good and sufficient cause;
 - (b) A determination that failure to grant the variance would result in exceptional hardship to the applicant; and

-
- (c) A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local laws or ordinances.
 - (5) Variances may be issued for new construction and substantial improvements and for other development necessary for the conduct of a functionally dependent use provided that the provisions of Section 82 - 28.1204(1) - (4) are satisfied and that the structure or other development is protected by methods that minimize flood damages during the base flood and create no additional threats to public safety.
 - (6) Any applicant to whom a variance is granted shall be given written notice over the signature of the floodplain administrator that:
 - (a) The issuance of a variance to construct a structure below the base flood level will result in significantly increased premium rates for flood insurance. Insurance premiums as high as \$25.00 for \$100.00 of insurance coverage are possible; and
 - (b) Such construction below the base flood level increases risks to life and property. It is required that a copy of the notice shall be recorded by the floodplain administrator in the office of the county recorder and shall be recorded in a manner so that it appears in the chain of title of the affected parcel of land.
- (Ords. 2000-33, 99-35, 96-11, 90-118, 88-50, 87-45).

As soon as it may be reasonably done after the community development department received a development entitlement application (but in no event more than fifteen days after an application is determined or deemed complete), the department shall refer the application pursuant to this section to the involved local agency.

(Ord. 91-19 § 2).

82-30.804 Entitlement approvals.

The planning agency shall not approve a development entitlement application subject to this article's provisions until written notification of all requirements imposed and required by the involved local water or wastewater agency for dual water systems are received, reviewed and considered for inclusion in any approval of the pending application. If the involved local water or wastewater agency does not provide its written notification within thirty days of the referral date, the planning agency may take action to approve the involved pending application. Notwithstanding the other provisions of this section, the planning agency may take action at any time and approve a pending application if within the next thirty days the said application may be deemed approved or otherwise decided by operation of law.

 - (2) Identify any routes of regional significance and/or intersections with findings of special circumstances that would be affected by the project. (These routes and/or intersections will require alternate mitigation applicable to the appropriate action plan in the Measure C Growth Management Program.);
 - (3) Identify any arterial or collector roads in the circulation element of the general plan that may be affected by the project. Determine whether the project will adversely impact these roads and if any mitigation measures will be required.

(Ords. 2003-02 § 2, 92-31 § 3).

Chapter 82-34 CABARETS

Article 82-34.2. General

82-34.202 Purpose.

This chapter requires and provides criteria for the consideration and approval of land use permits before the establishment of cabarets in any land use zoning district of this county. The county finds it necessary to establish land use permit requirements and criteria in the interest of the public health, safety and welfare for the establishment of cabarets. This chapter alone does not allow or permit cabarets, but only applies to cabarets where otherwise allowed or permitted within an involved applicable land use zoning district. This chapter does not authorize the establishment of cabarets in any land use district where they are not otherwise allowed or permitted by the applicable involved zoning district's regulations.

Article 82-34.4. Definitions

82-34.402 Definition of cabaret.

"Cabaret" means any place where the public is admitted, where entertainment is furnished by or for any patron or guest present upon the premises, including, but not limited to singing, vaudeville and dancing, where liquid refreshments or foods are sold, and where the seating capacity is fifty or more (as determined by the director of community development); except where the only entertainment furnished is by recording machine, commonly known as a jukebox, and dancing is not permitted.

(Ord. 95-20 § 1).

82-34.404 Limited definition of cabaret.

To the extent such legal nonconforming use has been established and continued after the effective date of the ordinance codified in this chapter, all applicable permits and licenses must be maintained in full force and effect and the use may not be increased, enlarged or expanded without a land use permit as provided in this chapter.

(Ord. 95-20 § 1).

82-34.604 Application contents.

In addition to the applicable requirements of Chapters 26-2 and 82-6 and the involved zoning district, an application for a land use permit approving a cabaret shall contain the following information:

(Ord. 95-20 § 1).

82-34.806 Additional findings.

In addition to the findings established in Article 26-2.20, no land use permit for a cabaret shall be issued unless the following findings are made:

- (1) The cabaret will not adversely affect the health, safety and welfare of the surrounding community;
- (2) The cabaret will not significantly increase the demand for police services;
- (3) The cabaret will not produce an undue concentration of cabarets in the surrounding community;
- (4) The cabaret will not detrimentally affect nearby residentially zoned communities;
- (5) The cabaret will not be unduly close to residences, schools, youth centers, playgrounds, public parks and other similar locations frequented by children and their families; and
- (6) The cabaret will include adequate security measures and on-site supervision.

(Ord. 95-20 § 1).

82-34.808 Granting.

Land use permits for the special cabaret uses enumerated in this chapter may be granted as provided and required by this chapter and in accordance with Chapters 26-2 and 82-6.

(Ord. 95-20 § 1).

82-34.810 Annual review.

There shall be a permittee-initiated annual review by the zoning administrator to determine if each cabaret granted a land use permit under this chapter is in compliance with the terms and conditions of the land use permit. The permittee may be charged a fee as fixed by the board of supervisors for that purpose. The annual review by the zoning administrator to determine compliance may be with or without a public hearing. If the zoning administrator determines that a cabaret is not in compliance with the terms and conditions of the land use permit, the zoning administrator may initiate action against the permittee as otherwise provided by this code.

(Ord. 95-20 § 1).

Chapter 82-36 SALE OF FIREARMS

Article 82-36.2. General

82-36.202 Purpose and administration.

- (a) Purpose. This chapter requires and provides criteria for the consideration and approval of land use permits and firearms dealer licenses before the sale of firearms will be permitted in any nonresidential land use zoning district of this county. The county finds it necessary to establish land use permit and firearms dealer license requirements and criteria in the interest of the public health, safety and welfare to regulate the sale of firearms in the unincorporated area. The operators of the business also may be required to remove, at least three times per week, all trash originating from its establishment deposited on public property within four hundred feet of any boundary of its premises.  - (20) Security Cameras. At least two twenty-four hour time-lapse security cameras may be required to be installed and properly maintained on the exterior of the building at locations recommended by the sheriff's department. Chapter 82-40 HOME OCCUPATIONS⁶

Sections:

82-40.002 Purpose.

The purpose of this chapter is to establish specific standards and procedures to allow home occupations to be conducted in residential neighborhoods without changing the residential character of those neighborhoods. This chapter is intended to provide a mechanism to distinguish between home occupations having a minimal impact and those having the potential for greater impacts on surrounding properties so that home occupations having a minimal impact may be allowed through a ministerial permit process.

(Ord. No. 2013-12, § II, 4-16-13)

82-40.004 Definition.

For purposes of this chapter, "home occupation" means a business activity that is conducted at a residential dwelling by a person residing in the dwelling and is a secondary and incidental use of the dwelling as a residence.

(Ord. No. 2013-12, § II, 4-16-13)

82-40.006 Location.

A home occupation that meets the requirements of this chapter may be located at any legally established residential dwelling unit in any zoning district.

(Ord. No. 2013-12, § II, 4-16-13)

⁶Editor's note(s)—Ord. No. 2013-12, § II, adopted April 16, 2013, amended Chapter 82-40 in its entirety to read as herein set out. Former Chapter 82-40, §§ 82-40.002—82-40.010, pertained to large scale retail businesses and derived from Ord. 2003-18, § 2.

82-40.008 Permit required.

No home occupation may be conducted at a residential dwelling unless a home occupation permit or a land use permit has been issued.

(Ord. No. 2013-12, § II, 4-16-13)

82-40.010 Standards applicable to all home occupations.

A home occupation must comply with the following standards:

- (a) Use. The home occupation must be incidental and subordinate to the use of the property as a residence.
- (b) Parking. No portion of a home occupation may occupy a required off-street parking space or cause an off-street parking space to be displaced, except that one required off-street parking space may be occupied by a business-related vehicle.
- (c) Traffic and deliveries. The home occupation may not generate vehicular traffic that exceeds the traffic normally associated with a single-family residential use. Deliveries to the home occupation may not exceed the frequency of deliveries and types of vehicles normally associated with residential neighborhoods. Deliveries to the home occupation may occur only between the hours of eight a.m. and eight p.m.
- (d) Appearance. The residential appearance of the property at which the home occupation is conducted must be maintained, with no exterior indication of a home occupation. Exterior signs advertising the home occupation, window displays, outdoor displays, and other exterior indications of the home occupation may not be used.
- (e) Storage. No equipment, parts, materials, supplies, merchandise, refuse or debris may be stored outdoors. Equipment, parts materials, supplies or merchandise may be stored within a permanent, fully enclosed compartment of a passenger vehicle or truck. No refuse or debris may be stored in any vehicle. The home occupation may not result in water, electricity, garbage, sewer, or storm drain usage that exceeds normal residential usage.

(Ord. No. 2013-12, § II, 4-16-13)

82-40.012 Home occupation—Ministerial permit.

 - (1) A residential dwelling unit. No more than one room, or twenty percent of the floor area, whichever is greater, may be used for the home occupation.

Chapter 82-44 TEMPORARY EVENTS

Sections:

Article 82-44.2. General Provisions

82-44.202 Title.

This chapter is known as the Temporary Events Ordinance of Contra Costa County.

(Ord. 2005-25 § 2).

82-44.204 Purpose.

The purpose of this chapter is to establish procedures for evaluating, permitting, and regulating short-term activities and events that are conducted on private property and generate or invite considerable public participation, invitees, or spectators. Because these land uses are temporary, they have negligible or no permanent effect on the environment, and their potential impact on adjoining properties is either minimal or can be offset by conditions. The procedures authorize the zoning administrator to approve permits for temporary events and to require permit conditions or deny permits when necessary to protect the public. The procedures are necessary to protect and promote the health, safety, and welfare of the public, temporary event participants, and nearby residents. The procedures are intended to minimize the impacts of temporary events on the normal free flow of vehicular and pedestrian traffic, to minimize the impacts of noise from temporary events, to protect the safety of property, and to minimize disturbance and inconvenience to neighbors, neighboring properties and neighborhoods.

(Ord. 2005-25 § 2).

- (e) "Parade" means a march or procession of people on any county street or right-of-way that obstructs, delays, or interferes with the normal flow of vehicular traffic, or does not comply with traffic laws or controls.

 - (4) Another temporary event permit application has been received prior in time, or has already been approved, to hold another event at the same time and place requested by the applicant, or so close in time and place as to cause undue traffic congestion.
 - (5) The time, route, characteristics, or size of the event will substantially interrupt the safe and orderly movement of traffic contiguous to the event site or route, or disrupt the use of a street at a time when it is usually subject to great traffic congestion.
 - (6) The concentration of persons, animals, or vehicles at the site of the event, or the assembly and disbanding areas around an event, will prevent proper police, fire, or ambulance services to the venue and areas contiguous to the event.
 - (7) The location of the event will substantially interfere with a previously granted encroachment permit or with any previously scheduled construction or maintenance work scheduled to take place upon or along county streets.
 - (8) The proposed event is not allowed under the terms of a previously issued county land use permit.
 - (9) A temporary event permit previously issued within the preceding twenty-four months to the applicant or for the specific private property venue was revoked.
 - (10) Failure to pay an outstanding fine owed for an event previously held at the venue or owed by the applicant for any event held at any location.
 - (11) When the grounds for denial of an application for permit specified in subsections (4) through (7), above, can be mitigated by altering the date, time, duration, size, route, or location of the event, the zoning administrator shall conditionally approve the application upon the applicant's acceptance of conditions for permit issuance instead of denying the application. If the grounds for denial cannot be mitigated by imposing conditions, the permit will be denied.
- (e) If the zoning administrator issues a permit, notice of the permit issuance and permit conditions will be mailed to all properties within three hundred feet of the event venue.
 - (f) The zoning administrator's decision on the issuance of a permit may be appealed to the conservation and development director. The applicant may appeal the denial of a permit and may appeal any conditions imposed on a permit. Any person affected by any time, place, or manner conditions imposed on a permit may appeal only the permit conditions. Any person other than the applicant who appeals any time, place, or manner conditions must specify which conditions are being appealed. An appeal must be in writing, must be filed within five days of the zoning administrator's decision on the permit, and must include an appeal fee. An appeal hearing will be scheduled before the conservation and development director. The director's decision will be made at least ten days before the date of the proposed event. The director's decision following an appeal hearing is final for purposes of exhaustion of administrative remedies.
 - (g) An application may be submitted less than forty-five days before the proposed event if the proposed event is a response to a current occurrence whose timing did not allow the applicant to file a timely application. An application submitted under this section must specify the date of the occurrence to which the proposed event is responding. If a complete application is filed less than forty-five days before the proposed event, the zoning administrator shall issue a decision as soon as reasonably practicable. Any appeal must be filed within three days of the zoning administrator's decision. The conservation and development director's decision on the appeal will be made at least five days before the date of the proposed event.

 - (B) On-site restrooms must be provided at the event.
 - (C) Dedicated remote parking for the event sufficient to accommodate attendees must be available if the adjacent streets do not have a graded or paved eight-foot-wide shoulder for parking, and if parking for all attendees is unable to occur on-site.
 - (D) At least ten days before the event, the property owner must inform the department of conservation and development in writing of the time, date, and location of the event.
 - (E) At least ten days before the event, the property owner must send a notice to all property occupants within two hundred feet of the event venue of the time, date, and location of the event.
- (3) The exemption under this subsection (h) does not apply if:

 - (B) One of the standards or requirements specified in subsection (h)(2) was violated at a previous event within the previous twelve months.
 - (C) More than two hundred people will be at an event in a residential district if the property is forty thousand square feet or more in size.

- (a) The zoning administrator may condition the issuance of a temporary events permit by imposing any of the following requirements concerning the time, place, and manner of the event. The zoning administrator may consult with public works, fire, and law enforcement officials and may impose time, place, and manner conditions that are requested by those officials, provided the requested conditions are among the conditions specified below. No conditions other than those specified below may be placed on a permit. Conditions may not restrict expressive activity or the content of speech.

The permit shall incorporate the applicable "allowable exterior noise levels" specified in the table into the permit conditions only for the duration of time allowed for the event by the permit. For example, if the permit provides that an event shall end by seven p.m., the "allowable exterior noise levels" allowed between nine a.m. and eight p.m. shall be incorporated into the conditions, but the event must end by seven p.m.

- (b) The issuance of any other permit or license does not relieve anyone from the obligation to obtain a temporary event permit pursuant to this chapter.

 - (2) Four or more events will be held at a venue in a twelve-month period.
 - (3) Three or more events will be held at a venue within a forty-five-day period.
 - (4) An event will last more than one day at a venue in a residential zoning district or at a residence in any other zoning district, or will last more than three consecutive days at any other location.

 - (2) Number of events. A land use permit that authorizes events at a venue located in an agricultural zoning district must limit the annual maximum number of events for the purposes of maintaining the agricultural nature of the property and reasonably limiting impacts on neighbors. In imposing conditions regulating the maximum number of events, the zoning administrator may consider the lot size of the event venue, parking available to serve the event venue, proximity of surrounding residences, the location and size of any buildings or other visual or noise buffers between the venue and surrounding properties, the compatibility of events with neighboring uses, and the degree to which events conflict with the property's primary use of agriculture. On a parcel of less than forty acres, the maximum number of events per calendar year that may be authorized by a land use permits six. On a parcel of forty or more acres, the maximum number of events per calendar year that may be authorized by a land use permits is twenty-six.
 - (3) Number of people. A land use permit that authorizes events at a venue located in an agricultural zoning district must limit the maximum number of people allowed at each event for the purposes of reasonably limiting impacts on traffic, parking, and neighbors. In imposing conditions regulating the maximum number of people, the zoning administrator may consider the lot size of the event venue, parking available to serve the event venue, proximity of surrounding residences, and the location and size of any buildings or other visual or noise buffers between the venue and surrounding properties.
 - (4) Amplified sound by any device is prohibited after 8:00 p.m. Sundays through Thursdays and after 10:00 p.m. Fridays, Saturdays, and holidays. A land use permit for an event venue located in an agricultural zoning district shall not allow the use of amplified sound after these hours.

- (a) **Mandatory Development Standards.** A single room occupancy facility must meet the following development standards.
- (1) **Cooking and Dining Facilities.** A facility must provide either one common full kitchen and at least one common dining, lounge or meeting room that may be used by tenants of the facility, or a full kitchen in each room within the facility. A full kitchen means a kitchen that includes a range and oven, refrigerator, and sink with a garbage disposal.
 - (2) **Bathroom Facilities.** A facility must provide either one or more common bathroom facilities in the quantity and at locations as required by the California Plumbing Code (Title 24, Part 5 of the California Code of Regulations), or a bathroom with a flushing toilet and sink in each room. If a land use permit does not require the facility to provide a twenty-four-hour staffed front desk, then the facility must provide at least one common telephone that tenants may use to make local outgoing phone calls at no cost to the tenants. A facility must post in a public location a list of emergency telephone numbers that includes a number at which a facility manager can be reached twenty-four hours per day, seven days per week. The list of emergency telephone numbers must be updated as needed.

 - (C) Each door to each individual unit must include a keyed lock or re-programmable card entrance system, a deadbolt lock, and a peephole.
 - (D) A single room occupancy facility with a staffed front desk must require tenants and guests to register with the front desk and present valid photo identification as a condition of registration.
 - (E) Each window in each individual unit must have a secure locking mechanism.
 - (F) A single room occupancy facility must maintain current tenant registration cards that include each tenant's name, unit number, rental rate, vehicle type, vehicle license number, and a copy of the tenant's government-issued identification.

These requirements may not be modified through the issuance of a land use permit, or otherwise. These requirements are in addition to all other applicable state and county laws and regulations that apply to the licensing and operation of child care centers. Approval of a single room occupancy facility with an ancillary child care center that meets the requirements of this section does not authorize the operation of that center in the absence of all other required state and county permits and approvals.

If a child care center is located on a lot adjacent to a residentially-zoned property, then a six-foot high or higher solid wall of masonry, brick, stucco, or a similar material, must separate the child care center from the residentially-zoned property along the property line between the center and that property. Each outdoor play area at a child care center must be physically separated from all vehicular circulation areas, parking areas, equipment enclosures, storage areas, and refuse and recycling areas, located at or adjacent to the center.

When the board of supervisors finds, after proceedings for the precise zoning of an area have been taken by the planning commission, that one or more contiguous parcels of land are in a location and contain an area of size and shape adequate to provide neighborhood facilities needed to serve adjoining districts, these parcels may be established as a planned neighborhood business district. The purpose of a planned neighborhood business district is to provide an integrated plan for location of and proper relationships between buildings, control of area and height of buildings, adequate off-street parking, loading facilities, limitation of land uses, and locations of access for pedestrian and vehicular traffic, including ingress to and egress from public streets or ways or from any parcel to the other parcels, in order to provide overall arrangements for shopping facilities best suited to the public use. A planned neighborhood business district is to be established and developed with that purpose in mind, as provided in Sections 84-50.1404 — 84-50.1418.

(Ord. 1781: Ord. 1721: Ord. 1569: prior code § 8159(h) (part): Ord. 937: Ord. 479).

Buildings may be erected within the sites shown on the enlarged detailed map, but may not exceed in area one-fourth of the total area of the parcel on which the buildings are erected, except that a variance permit to modify this provision may be given by the zoning administrator. The owner of the parcel may erect buildings up to the full one-fourth of total areas but no owner shall subdivide any parcel by selling or conveying any part of the parcel if either the part remaining or any part sold or conveyed contains buildings in excess of one-fourth of the total area: in addition to any other remedy available to parties interested for the violation of this provision, no building permit shall be issued to any person for construction of any building on any part of the subdivided parcel until all parts of the parcel in separate ownerships satisfy the building area limitations of this section. "Building," as used in this section, includes service station pump islands, open or covered storage areas, covered ground floor or multi-storied parking facilities, but does not include covered porches, walkways, colonnades, porticos, peristyles, breezeways, and other structures of similar design and purpose, provided that the areas within such structures are

not intended or used for the storage of chattels, the sale of goods or merchandise or the carrying on of any other commercial activity.

(Ord. 67-29 § 1, 1967: Ord. 1781: Ord. 1721: Ord. 1569: prior code § 8159(h)(2): Ord. 937: Ord. 479).

Areas of any parcel in a planned neighborhood business district on which no building is erected may be used for the following uses and purposes, except that there shall not be obstructions of locations of access other than legally required to prevent acquisition by adverse possession or prescription: walks, drives, curbs, gutters, parking areas, utility structures, light poles, sign poles and signs, and landscaping features. Within areas on which no building is erected at least two and one-half square feet of parking space must be made available for each one square foot of area occupied by buildings on the same parcel; this ratio may be reduced by land use permit to not less than one and one-half square feet of parking space for each one square foot of building area occupied by buildings on the same parcel, when the public body issuing the land use permit finds:

- (1) That the reduction will not be contrary to the intent or the purpose of Section 84-50.1402 — 84-50.1418 or contrary to the public interest, safety, health, and welfare;

Any person proposing a development project which may be used to manage hazardous waste or hazardous material shall apply to the community development director for review and a determination whether a land use permit may be required under Article 84-63.10 or whether the project is exempt under Sections 84-63.604(a) or (b) or 84-63.606. Projects exempt under Section 84-63.604(c) are not required to submit an application pursuant to this section. If the hazard score of a project is sixty-nine or less and the project does not increase the amount of hazardous waste or hazardous material managed as compared to the baseline of the last three years, a determination of noncoverage and an application therefor are not required.

The application shall include all information necessary to complete and verify the hazard score of the project, such as chemical identification, distances to nearest receptors, transportation routes, and a summary of the five year baseline data. The application shall be accompanied by all fees established by the board of supervisors.

(Ords. 98-48 § 5, 96-50, 96-20, 91-49, 90-92, 86-100).

No later than ten calendar days after receipt of an application, or the submittal of additional information, the community development director shall inform the applicant in writing that the application is complete or shall inform the applicant what additional information is required. Within twenty calendar days of the application being deemed complete, the community development director shall issue a written determination of noncoverage pursuant to Section 84-63.806, an exemption pursuant to Section 84-63.604(a) or (b), or a determination that a land use permit is required pursuant to Section 84-63.1002.

(Ords. 98-48 § 5, 96-50, 96-20, 90-92).

84-63.806 Determination of noncoverage.

Upon determining that a proposed project has a hazard score up to and including seventy-nine or that the project is exempt pursuant to Section 84-63.604, the community development director shall issue a determination of noncoverage or exemption. A determination of noncoverage for projects with a hazard score between seventy and seventy-nine, inclusive, means that the project is not subject to the requirements of Article 84-63.10, but is subject to Sections 84-63.808 and 84-63.810. Projects with a hazard score below sixty-nine and projects which are exempt pursuant to Section 84-63.604 are not subject to the requirements of Sections 84-63.808 and 84-63.810.

(Ords. 98-48 § 5, 96-50, 96-20).

84-63.808 Determinations — Public notice.

All determinations of noncoverage made pursuant to Section 84-63.806 shall be summarized on an agenda for the county zoning administrator within ten calendar days of issuance of the determination.

(Ords. 98-48 § 5, 96-50, 96-20, 91-49, 90-92, 86-100).

84-63.810 Determinations — Further public notice.

For projects with a point assignment between seventy and seventy-nine, inclusive, within five working days of issuing a determination of noncoverage, the community development director shall mail notice on the date of the determination to all organizations and individuals who have previously submitted a written request for such notice. The community development director shall publish a four-inch by six-inch advertisement in a newspaper of general circulation within ten calendar days of issuing a determination of noncoverage. The notices required by this section shall state the name of the applicant, briefly describe the project, provide the names and phone numbers of a representative of the community development department and a representative of the applicant who will be available to answer questions about the project, and shall state the date by which an appeal must be filed.

(Ords. 98-48 § 5, 96-50, 96-20, 91-49, 90-92).

84-63.812 Appeals.

Any appeal of a determination of noncoverage shall be filed within ten calendar days of the date the determination is listed on the zoning administrator's agenda or ten calendar days from the date of publication pursuant to Section 84-63.810, whichever provides the longer period of appeal.

Appeals from a determination of noncoverage shall be heard by the board of supervisors.

Except as expressly provided in this section, appeals from all decisions and determinations made pursuant to this chapter shall be governed by the land use permit provisions of Article 26-2.24 and are subject to the provisions of Article 26-2.30.

(Ords. 98-48 § 5, 96-50, 96-20, 86-100).

Article 84-63.10. Land Use Permits — When Required

84-63.1002 Hazard score — Permit required.

Unless otherwise exempt from the requirements of this chapter, a land use permit shall be required for a development project proposed for the management of hazardous material and/or hazardous waste if any of the following apply:

- (a) The development project obtains a hazard score of eighty or more pursuant to the formula set forth in Section 84-63.1004; or
- (b) For hazard category A materials, the development project stores twice the quantity specified as the threshold planning quantity on the extremely hazardous materials list (Appendix A of 40 Code of Federal Regulations Chapters I, Subchapter J Part 355), as amended from time to time, or two thousand pounds, whichever is less; or

- (c) For hazard category A or B materials, the development project will result in a new process unit(s) unless the process unit complies with Section 84-63.1004(d)(1) through (d)(6), Credit for reductions or projects to be closed. Modifications to an existing process unit do not constitute a new process unit; or
- (d) For hazard category B materials, any development project that has a fill to the maximum capacity of forty thousand tons or more unless the development project complies with Section 84-63.1004(d)(1) through (d)(6), Credit for reductions or projects to be closed.

(Ords. 98-48 § 5, 96-50, 96-20).

84-63.1004 Hazard score.

- (a) Formula. The hazard score of a proposed development project shall be determined pursuant to the following formula:

$$[(T + C + P) \times H] + D + A;$$

where the following symbols have the following designations:

- "T" refers to the point assignment for "Transportation Risk";
- "D" refers to the point assignment for "Community Risk - Distance from Receptor";
- "C" refers to the point assignment for "Community Risk - Type of Receptor";
- "A" refers to the point assignment for "Facility Risk - Size of Project - Total Amount";
- "P" refers to the point assignment for "Facility Risk - Size of Project - Percent Change"; and
- "H" refers to the point assignment for "Hazard Category of Material or Waste."

- (b) Project Hazard Score. If more than one category of hazardous material or hazardous waste is used, the formula set forth in this section will be used to calculate a separate score for each material category. The material hazard category which results in the highest hazard score for the project will be used.
- (c) Point Assignment. The factors set forth in subdivision (a) of this section, shall have the following point assignments:

TRANSPORTATION	POINTS
RISK (T)	
Truck — residential/commercial (>25% increase or new)	10
Truck — residential/commercial (>5 — 25% increase)	9
Truck — industrial (>25% increase or new)	8

HAZARD CATEGORY OF MATERIAL (H)

Category A	5
Category B	3
Category C	1

(d) Credit for Reductions or Projects to be Closed. A development project that would have a hazard score of eighty or more as determined by the formula in this section shall be entitled to a reduction credit for project closures and/or reductions in accordance with the criteria set forth in this subdivision. Reduction credit shall be given if the community development director determines that the applicant will concurrently close another project or reduce its operations and finds that all of the following criteria are met:

- (1) The project to be closed or reduced is in the same facility in which the development project is proposed;
- (2) The project to be closed or reduced is currently in operation and has been in operation for at least three years prior to the date of application, during which period the production schedule has been reflective of a normal production schedule;
- (3) The project to be closed or reduced is the direct result of the proposed development project;
- (4) The project to be closed or reduced has a higher hazard score than the proposed development project;

-
- (5) The hazard category of the material or waste in the development project will be no greater than the hazard category of the material or waste in the project to be closed or reduced; and
 - (6) The development project will be more than three hundred feet from the property line of the nearest residential property or sensitive receptor.

The hazard score for the project to be closed shall also be determined by the formula set forth in subsections (a) and (b) of this section and pursuant to the provisions of this article. In determining the hazard score for the project to be closed or reduced, said project shall be deemed a new project.

The hazard score of the development project shall be subtracted from the hazard score of the project to be closed or reduced. The resulting difference will then be subtracted from the hazard score of the development project to obtain a hazard score adjusted for the closure or reduction. The adjusted hazard score shall be the basis for determining whether a land use permit shall be required under this chapter.

A determination by the community development director that a project is not subject to the land use permit requirement of this chapter as a result of credit afforded for a project closure or reduction shall be reported to the zoning administrator pursuant to Section 84-63.808 and shall be subject to the public notification requirements set forth in Section 84-63.801.

- (e) Closure, Reduction Required. Projects proposed for closure or reduction for which closure or reduction credit was afforded under this section shall be closed or reduced as proposed within one year of completion of the development project. This subsection (e) applies only in cases where a land use permit would have been required but for the closure or reduction credit afforded under this section.

(Ords. 98-48 § 5, 96-50, 96-20).

84-63.1006 Determination of transportation risk.

The transportation risk point assignment shall be calculated based upon planned total quantities of materials in a hazard category, measured in tons per year for each hazard category proposed. The transportation risk point assignment shall be calculated for each mode of transportation proportionally within a single hazard category. That transportation point assignment shall be compared by hazard category with the total amount of material in the hazard category transported during the baseline period in order to obtain the percent change in Section 84-63.1004(b), Transportation risk.

For purposes of determining whether truck transportation is through residential/commercial or industrial areas, the shortest legal route from the closest two-lane (or larger) freeway shall be considered. If the route used in the county does not traverse a two-lane (or larger) freeway, the entire route shall be considered.

(Ords. 98-48 § 5, 96-50, 96-20).

84-63.1008 Determination of community risk — Distance to receptor.

"Distance to receptor" shall be the shortest distance between an exterior wall or other part of the development project and the property line of the residential property, commercial property or the sensitive receptor used to determine the hazard score of a development project.

(Ords. 98-48 § 5, 96-50, 96-20).

84-63.1010 Determination of community risk — Type of receptor.

A hazard score shall be developed for each type of receptor (residential property, commercial property and sensitive receptor) within three miles of the development project based upon the distance of the parcel of each type of receptor that is closest to the development project. The receptor that produces the highest hazard score shall be used to determine the hazard score of the development project. Receptors more than three miles from a development project shall not be considered.

(Ords. 98-48 § 5, 96-50, 96-20).

84-63.1012 Determination of project risk — Size.

The size of a development project shall be measured in terms of tons of hazardous material and/or hazardous waste stored as a result of the development project, based upon the fill-to-the-maximum capacity of the development project, including amounts stored in tanks; reactors; columns; process lines; tank cars, tank trucks or rail cars when connection to process equipment; or any other receptacle used for the containment of hazardous materials and/or hazardous wastes. The amount of material in hazard categories A, B, or C to be added to the site as a result of the development project will be used to determine the total amount of change. If more than one category of hazardous material is used, the amounts of materials (A, B, or C) shall be used with the respective hazard category in the formula in Section 84-63.1004.

The specific gravity of hazardous materials or hazardous wastes may be required to calculate the number of tons (or pounds) of hazardous materials and/or hazardous waste managed at the development project. The standard of two thousand pounds equaling one ton shall be used.

The point assignment for storage of containerized material in buildings, such as labs or warehouses, shall be based upon the maximum anticipated amount of materials for each hazard category as a result of the development project.

(Ords. 98-48 § 5, 96-50, 96-20).

84-63.1014 Determination of project risk — Percent change.

The percent change of a hazard category shall be determined by comparing the amounts of materials for the respective hazard categories A, B, or C to be added to the site as a result of the development project to the total amount of all materials for the respective hazard categories A, B, or C handled at the site from the baseline period.

(Ords. 98-48 § 5, 96-50, 96-20).

84-63.1016 Determination of hazard category.

- (a) Method of Determination. The hazard category of a material or waste shall be determined pursuant to this section.
 - (1) The primary method of determining the material hazard category of a hazardous waste or material shall be by reference to the Winter 1994 version of the U.S. Department of Transportation ("D.O.T.") Code of Federal Regulations, Title 49 ("40 CFR"), Section 172.101, Hazardous Materials Table. From columns (3) and (5), extract the "Hazard Class or Division" and "Packing Group" information, then proceed to 49 CFR 173.2 to determine the "Name of Class or Division." Proceed to subdivision (c) of this section to determine the material hazard category as either A, B or C. If a material is listed in 49

CFR 172.101 more than one, the rating that results in the highest hazard category shall be used. The hazard category of a mixture is determined according to its common name as defined in Title 49.

- (2) Where a hazardous material, waste, or mixture is not referenced in 49 CFR 172.101, and the hazard category cannot be determined using the primary method, refer to the manufacturer's MSDS for the D.O.T. "Hazard Class or Division," "Packing Group" and "Name of Class or Division." Proceed to subdivision (c) of this section to determine the material hazard category as either A, B or C.
 - (3) Where the preceding methods are not successful, the Contra Costa County health services director or the director's ~~his~~ designee shall be responsible for determining a material's hazard category.
 - (4) Regardless of the hazard category obtained using the methods set forth above, materials with the word "poison" in column (6) of 49 CFR 172.101, Methyl chloride, and the metals Antimony, Mercury, Lead, Arsenic, Thallium and Cadmium and their compounds, shall be hazard category A materials, and denatured alcohol and methanol shall be hazard category B materials for purposes of this chapter.
- (b) Exclusions. Regardless of the hazard category obtained using the methods set forth in subdivision (a) of this section, hot coke, hot coal briquettes, and materials not regulation by D.O.T. or which have no D.O.T. hazard class or division are not regulated by this chapter.
- (c) Hazard Categories.

- (a) General. Unless otherwise specified in this section or indicated by the context, the terms used in this article have the meanings ascribed to them in Health and Safety Code Chapter 6.5 (Section 25100 et seq.).
- (b) "County hazardous waste management plan" means the county hazardous waste management plan adopted by the board of supervisors on August 29, 1989 and amended by the board of supervisors on January 30, 1990, approved by a majority of the cities within the county which contain a majority of the population of the incorporated area, and approved by the State Department of Health Services on February 28, 1990, as said plan is amended from time to time.
- (c) "Hazardous waste facility" means all contiguous land and structures, other appurtenances, and improvements on the land used for the treatment, transfer, storage, resource recovery, disposal, or recycling of hazardous waste. A hazardous waste facility may consist of one or more treatment, transfer, storage, resource recovery, disposal, or recycling hazardous waste management units, or combinations of these units.
- (d) "Offsite hazardous waste facility" means a hazardous waste facility at which either or both of the following occur:
 - (1) Hazardous waste that is produced offsite is treated, transferred, stored, disposed or recycled.
 - (2) Hazardous waste that is produced onsite is treated, transferred, stored, disposed or recycled and the hazardous waste facility is not owned by, leased to or under the control of the producer of the hazardous waste.

(Ords. 98-48 § 5, 96-50, 96-20, 90-73).

84-63.1406 County hazardous waste management.

All land use permit, variance or other land use entitlement granted for the operation or expansion of an offsite hazardous waste facility shall be consistent with the portions of the county hazardous waste management plan which identify siting criteria, siting principles or other policies applicable to hazardous waste facilities. Before granting the application, the division of the planning agency hearing the matter initially or on appeal shall find that the application complies with the applicable siting criteria, siting principles and other policies identified in the county hazardous waste management plan, and that the proposed offsite hazardous waste facility is consistent with the county hazardous waste management plan.

Chapter 84-64 U UNRESTRICTED DISTRICT

84-64.002 General provisions.

All land within a U unrestricted district may be used for any lawful use, but the board of supervisors may hereafter amend this division to place land now placed in an unrestricted district into another district, or by proper amendment of this division may provide regulations for the use of land now in any unrestricted district.

(Prior code § 8165: Ord. 382).

Chapter 84-66 P-1 PLANNED UNIT DISTRICT

Article 84-66.2. General

84-66.202 P-1 planned unit district.

All land within a P-1 planned unit district may be used as allowed and regulated in this chapter.

(Ord. 79-74: § 84-66.002: prior code § 8166: Ord. 1743).

84-66.204 Intent and purpose.

A large-scale integrated development or a general plan special area of concern provides an opportunity for, and requires cohesive design when flexible regulations are applied; whereas the application of conventional regulation, designed primarily for individual lot development, to a large-scale development or special area may create a monotonous and inappropriate neighborhood. The planned unit district is intended to allow diversification in the relationship of various uses, buildings, structures, lot sizes and open space while insuring substantial compliance with the general plan and the intent of the county code in requiring adequate standards necessary to satisfy the requirements of the public health, safety and general welfare. These standards shall be observed without unduly inhibiting the advantages of large-scale site or special area planning.

(Ord. 79-4: § 84-66.004: prior code § 8166(a): Ord. 1743).

Article 84-66.4. Uses

84-66.402 Uses.

The following uses are allowed in the P-1 planned unit district:

- (a) Any land uses permitted by an approved final development plan that are in harmony with each other, serve to fulfill the function of the planned unit development, and are consistent with the general plan.
- (b) A detached single-family dwelling on each legally established lot and the accessory structures and uses normally auxiliary to it.

-
- (c) Single room occupancy facilities that meet the requirements of Chapter 82-48.
 - (d) In a P-1 district for which residential uses are approved, the following uses are allowed:
 - (1) Accessory dwelling units complying with the provisions of Chapter 82-24.
 - (2) Supportive housing, operated by a person with all required state and local agency approvals and licenses, where not more than six persons reside.
 - (3) Transitional housing, operated by a person with all required state and local agency approvals and licenses, where not more than six persons reside.
 - (e) Commercial cannabis activities that meet the requirements of Chapter 88-28.

(Ord. No. 2018-18, § 5, 6-26-18; Ord. No. 2017-14, § XIII, 9-19-17; Ords. 87-67 § 6, 79-74: § 84-66.006: prior code § 8166(j): Ord. 1743).

(Ord. No. 2014-11, § VIII, 11-4-14)

84-66.404 Restriction.

No person shall grade or clear land, erect, move, or alter any building or structure on any land, after the effective date of its rezoning to a P-1 district, except when in compliance with an approved final development plan and/or this chapter.

(Ords. 79-74, 76-26 § 2, 76-25 § 2: § 84-66.010: prior code § 8166(c): Ord. 1743).

84-66.406 Interim exceptions.

If any land has been zoned P-1 district but no preliminary development plan approved thereon, the following may be approved:

- (1) Single-family Dwelling. Where it is established to the satisfaction of the director of planning that a vacant parcel of land is a legal lot and the one detached single-family dwelling proposed to be located thereon is consistent with the general plan, the dwelling may be placed on the lot without being subject to the application submittal, development plan review and approval provisions of this chapter.
- (2) Nonconforming Use. Until a final development plan is approved, any nonconforming use lawfully existing at the time of the establishment of P-1 zoning on that property may be repaired, rebuilt, extended, or enlarged in accordance with Chapter 82-8.

(Ord. 79-74).

Article 84-66.6. Site Minimums

84-66.602 Areas.

The minimum areas for a P-1 district are:

- (1) Residential. Five acres for residential uses except that a mobile home subdivision shall have a minimum of ten acres;
- (2) Nonresidential. Ten acres for nonresidential uses;

-
- (3) Mixed. Fifteen acres for mixed residential and nonresidential uses; and
 - (4) Office. No minimum for office uses which do not require heavy vehicular delivery or have easy automobile site access including some ancillary retail, service and residential uses when consistent with the general plan.

(Ords. 80-74 § 1, 79-74, 70-50: § 84-66.024: prior code § 8166(i): Ord. 1743).

Article 84-66.8. Density

84-66.802 Residential.

In computing the net development area to set residential densities, use the general plan as a guide and exclude areas set aside for churches, schools, streets, commercial use or other nonresidential use, but include areas set aside for common open space, outdoor recreation or parks.

(Ord. 79-74: § 84-66.026: prior code § 8166(k): Ord. 1743).

Article 84-66.10. Rezoning

84-66.1002 Procedure.

After initiation by the planning agency or final application approval, an area may be zoned "P-1 planned unit district" in accordance with Title 7 of the California Government Code and this code, and the zoning map of the area shall then be identified with the map symbol "P-1".

(Ords. 79-74, 76-26 § 2: 76-25 § 2: prior code § 8166(c): Ord. 1743).

84-66.1004 Ordinance plan.

If an application for P-1 zoning and a preliminary or final development plan is finally approved, the preliminary or final development plan and any conditions attached thereto, as approved or later amended, shall be filed with the planning department, and they are thereby incorporated into this Title 8 and become a part of the ordinance referred to in § 84-66.1002.

(Ords. 79-74, 76-26 § 2: 76-25 § 2: prior code § 8166(c): Ord. 1743).

Sections:

84-70.002 General provisions.

All land within a land use district combined with an —B combining district shall be subject to the following additional regulations set forth in this chapter.

(Ord. 1986: prior code § 8167 (part)).

84-70.004 Intent and purpose—Development plan requirements.

- (a) The intent and purpose of this district shall be to provide design control and maintenance of an area where the respective owners have developed a plan wherein a high degree of amenities is intended to prevail, recognizing that an attractive development enhances property values, social values, health and welfare of the community.
- (b) This district may be applied when requested by a group of landowners who have prepared a plan of development, setting forth criteria through maps, illustrations and text governing the size, bulk, coverage, relationship, color, texture, materials and other appurtenances of physical improvements, including, but not limited to, buildings, signs and fences. Such a plan may also provide for, through its location, design and site planning, a convenient, attractive, and functional living, working, shopping or civic environment. Further, such a plan may provide for off-street parking, landscaping and open space. This plan and accompanying test shall become part of the county code and all further development shall be subject to it.

(Ord. 1986: prior code § 8167(a)(b)).

84-70.006 Application—Approval by planning director.

- (a) Following the adoption of the rezoning ordinance, with its attendant plan and/or drawings, by the board of supervisors, any proposed development or alteration within this district shall be subject to review and approval by the planning director.
- (b) The planning director may review the site plan elevations applications in public hearing under Chapter 26-2. In approving the application, the planning director shall find that the application is consistent with the intent of this district and that it is compatible with other uses in the vicinity, both within and without the district. When any plan shall have been approved by the planning director, it shall not thereafter be altered or changed except with the approval of the planning director after reviewing the proposed alterations or changes. For the review, the planning director may schedule a public hearing under Chapter 26-2.
- (c) The planning director may impose reasonable conditions and limitations in addition to the requirements listed in this chapter in order to further carry out and develop the intent and purpose of this district.

(d) Any decision of the planning director may be appealed as provided for in Chapter 26-2.

(Ord. 1986: prior code § 8167(c) — (f)).

84-70.008 Application—Review criteria.

In reviewing an application, the planning director shall consider the following:

- (1) That the proposed development shall serve to achieve a group of facilities which will be well related one to another, and which, taken together, will result in a well composed design, with consideration given to site, height, arrangement, texture, material, color, and appurtenances, the relation of those factors to other facilities in the immediate area, and the relation of the development to the total setting as seen from key points in the surrounding area;
- (2) That the proposed development shall be of a quality and character which harmonizes with, and serves to protect the value of, private and public investments in the area;
- (3) That the design of the development conforms in all significant respects with the development control map and drawings adopted by the board of supervisors and made a part of this district;
- (4) That the proposed development will enhance the successful operation of the surrounding area in its basic community functions.

(Ord. 1986: prior code § 8167(g)).

Chapter 84-72 —T TRANSITIONAL COMBINING DISTRICT

Article 84-72.2. General

84-72.202 —T transitional combining district.

All land within a residential land use district combined with a —T transitional combining district (—T) shall be used as allowed and regulated in this chapter.

(Ord. 80-24).

84-72.204 Intent and purpose.

Certain areas within the county are in transition where the existing established uses, buildings, and/or facilities are not consistent with current or proposed zoning. It is the intent of this district, when combined with the underlying residential district, to allow flexibility in uses where it is determined that existing residential dwellings appear to be marginal for residential habitation because of their proximity to heavily traveled roadways, or existing nonresidential uses. The application of this combining district would discourage the abandonment and/or neglect of such buildings. It is not intended that this district allow the establishment of new buildings and structures. Further, it is intended that this district only be used in areas where such applicability is consistent with the general plan.

(Ord. 80-24).

Article 84-72.4. Uses

84-72.402 Application.

The -T district may be combined with, and made applicable to land in any residential land use district.
(Ord. 80-24).

84-72.404 Permitted uses.

Uses permitted in the -T district are those uses allowed by full compliance with the combined underlying residential district's regulations.
(Ord. 80-24).

84-72.406 Uses with land use permit.

In the -T district the following uses are permitted on the issuance of a land use permit:

- (1) Art studios, antique shops, craft shops, and photography studios;
- (2) Answering services;
- (3) Offices for architects, attorneys, accountants and engineers.

(Ord. 80-24).

84-72.408 Priority.

Where there is any conflict between the regulations of this chapter and those of the combined underlying zoning district, the requirements of this chapter shall govern except that the required minimum lot size shall remain that of the underlying zoning district.

(Ord. 80-24).

Article 84-72.6. Land Use Permits

84-72.602 Granting.

- (a) Procedure. Land use permits for the special uses enumerated in Section 84-72.406 may be granted in accordance with Chapters 26-2 and 82-6.
- (b) General Plan Consistency. Such land use permit shall not be granted by the planning agency hearing the matter unless it finds that the permit is consistent with the general plan.

(Ord. 80-24).

84-72.604 Concurrent rezoning.

- (a) An applicant for rezoning to a -T district may submit simultaneously and in combination with the zoning application, an application for approval of a land use permit for the property.

-
- (b) Such a land use permit application shall be processed and noticed as are those matters designated to come before the zoning administrator, except that it shall be initially heard by the planning commission. The commission's decision shall be a recommendation to the board of supervisors which shall make final decision on the land use permit along with the rezoning.

(Ord. 80-24).

Chapter 84-74 -K KENSINGTON COMBINING DISTRICT

Article 84-74.2. General.

84-74.202 Kensington (-K) combining district.

All land within a land use district combined with the Kensington (-K) combining district shall be subject to the following additional regulations set forth in this chapter.

(Ord. 2004-46 § 2).

84-74.204 Purpose and intent.

- (a) The purpose of this chapter is to provide specific regulation to fairly and efficiently implement the Contra Costa County general plan policies for the Kensington Area so that future development recognizes the rights of property owners to improve the value and enjoyment of their property while minimizing impacts upon surrounding neighbors and not substantially impairing the value and enjoyment of their neighbors' property; maintains the community's property values; and promotes the general welfare, public health and safety.
- (b) It is a further purpose of this chapter to promote the community's values of preservation of views, light and solar access, privacy, parking, residential noise levels and compatibility with the neighborhood with regard to bulk and scale.
- (c) Features of a development that could influence these values include but are not limited to siting, size, bulk, building envelope, height, setbacks, relative scale, off-street parking spaces, window placement, artificial lighting and location of mechanical devices such as motors, fans and vents.

(Ord. 2004-46 § 2).

84-74.206 Priority.

Where there is any conflict between the regulations of this chapter and those of the underlying zoning district, the requirements of this chapter shall govern. Otherwise, the regulations found in Division 82 and Chapter 84-4 shall apply to the Kensington combining district.

(Ord. 2004-46 § 2).

Any application for a permit submitted to the community development department for a building permit for development or expansion of the envelope of a building or structure on a parcel within the -K district that is not exempt under Article 84-74.6 is subject to the review procedure under this article. This article does not exempt an application from any applicable variance requirements of Article 26-2.20.

(Ord. 2004-46 § 2).

84-74.1004 Notice.

Notwithstanding the provisions of Section 26-2.2104, before the zoning administrator decides any application pursuant to this article, the community development department shall mail or deliver notice of intent to decide the application, pursuant to Government Code Section 65091 and the notice provisions of Section 26-2.2004 of the code. The notice shall state the last day to request a public hearing on the application (which shall be no fewer than thirty-four days after date of mailing), the general nature of the application (including any subdivision exception requested), the review process, and the street address, if any, of the property involved or its legal or boundary description if it has no street address.

(Ord. 2004-46 § 2).

84-74.1006 Determination of whether hearing is required.

- (a) A public hearing on an application is not required unless:
 - (1) The threshold standards in Section 84-74.802 are exceeded; or
 - (2) A written request for public hearing is filed with the community development department within thirty-four calendar days after the notice is mailed.
 - (b) If a public hearing is required, the community development department will schedule a public hearing on the application in accordance with applicable provisions of Chapter 26-2.
- (Ord. 2004-46 § 2).

Article 84-74.12. Standards of Consideration

84-74.1202 Where no hearing is held.

If a hearing is not required under the provisions of Section 84-74.1006, the application shall be approved.

(Ord. 2004-46 § 2).

84-74.1204 Where a hearing is held.

If a hearing is held pursuant to the provisions of Section 84-74.1006, the zoning administrator shall consider the application in accordance with the provisions of this article.

(Ord. 2004-46 § 2).

84-74.1206 Standards of consideration at hearing.

- (a) To ensure the development will promote the values articulated in Section 84-74.204 and promote the general welfare, public health and safety of the community, the zoning administrator shall evaluate siting, size, bulk, building envelope, height, setbacks, relative scale, off-street parking spaces, window placement, artificial lighting, and location of mechanical devices, such as motors, fans and vents. These features of the development shall be evaluated on the basis of their impacts on the neighboring properties, with regard to view protection, obstructions, privacy in living areas, parking, light and solar access, maintaining residential noise levels, and compatibility with the neighborhood with regard to bulk and scale.
- (b) In reaching a decision, the zoning administrator shall apply a standard that balances the following factors: (1) recognizing the rights of property owners to improve the value and enjoyment of their property; (2) recognizing the rights of property owners of vacant lots to establish a residence that is compatible with the neighborhood in terms of bulk, scale and design; (3) minimizing impacts upon surrounding neighbors; (4) protecting the value and enjoyment of the neighbors' property; (5) maintaining the community's property values; (6) maximizing the use of existing interior space; and (7) promoting the general welfare, public health, and safety. Balancing of these factors will not result in the prohibition of development that is compatible with the neighborhood with regard to bulk and scale on parcels that have not been developed.
- (c) To assess solar access impacts, when appropriate, the community development director may require the applicant to provide sun shadow analyses showing the impact of the proposed development on neighboring properties. The review process shall evaluate the impacts in accordance with the purpose and intent of this chapter as set forth in Section 84-74.204(a). The zoning administrator may condition approval of the development by requiring mitigation through design and siting.

(Ord. 2004-46 § 2).

84-74.1208 Approval.

If the zoning administrator finds that the criteria stated in Section 84-74.1206 and other applicable requirements are satisfied, the zoning administrator may approve the development plan.

(Ord. 2004-46 § 2).

84-74.1210 Appeal.

Any interested party may appeal a decision made by the zoning administrator under this chapter in accordance with the provisions of Article 26-2.24.

(Ord. 2004-46 § 2).

(Ord. No. 2009-12, § II, 5-19-09)

84-78.602 Storage.

- (a) Vessels and vessel trailers may be stored in a boat storage facility.
- (b) Recreational vehicles may be stored in a boat storage facility as long as the number of recreational vehicles stored does not exceed twenty-five percent of the total number of storage spaces in the storage area.
- (c) A boat storage facility may consist of enclosed storage structures or outdoor storage areas, or both. The location of all storage structures and storage areas must be specified on the plot plan or site development plan. The plot plan or site development plan must indicate the maximum number of storage spaces for vessels, vessel trailers, and recreational vehicles, and must specify the percentage of parcel area to be devoted to the storage of vessels, vessel trailers, and recreational vehicles.
- (d) Enclosed Storage Structures.
 - (1) Vessels, vessel trailers, and recreational vehicles may be stored in an enclosed or covered structure, but only in an area designated for a storage structure on an approved plot plan or site development plan.

Outdoor storage areas must be set back a distance of fifteen feet from all property lines, except the zoning administrator may reduce the setback distance if the zoning administrator determines that an architecturally designed wall or fence compatible with adjacent properties would effectively screen the storage area from public view.
 - (3) Outdoor storage is prohibited within all setback areas.
 - (4) Outdoor storage areas must be clearly indicated on the site plan or site development plan.

(Ord. No. 2009-12, § II, 5-19-09)

84-78.604 Fences.

- (a) No fence or wall may exceed a maximum height of ten feet, except the zoning administrator may authorize a fence or wall higher than ten feet if the zoning administrator determines that a higher, architecturally designed wall or fence would provide greater security than a ten-foot-high wall or fence and be compatible with the rural-agricultural character of the surrounding area.
- (b) All screening fences or walls must be constructed of masonry, concrete, or other similar materials, or consist of slatted chain link fencing. The design and materials used in the construction of fences and walls must be compatible with the rural-agricultural character of the surrounding area.

 - (2) Any interior driveway providing access to storage areas on both sides of that driveway must be at least thirty-six feet wide, except the zoning administrator may authorize a width of less than thirty-six feet if the reduced width is necessary because of the irregular shape or configuration of the lot or parcel. No interior driveway may be less than twenty feet wide.
 - (3) Any interior driveway providing access to storage areas on only one side of that driveway must be at least twenty feet wide.
- (c) One standard parking space for each two thousand square feet of gross building storage floor area must be provided. Parking spaces may not obstruct any driveways or adversely affect vehicular ingress and egress to and from the facility. Storage spaces in approved outdoor storage areas do not qualify as required parking spaces.
- (d) The boat storage facility must be designed to allow loading and unloading to occur exclusively on-site. The following parking and loading area standards apply:
- (1) One exclusive use loading area must be located in front of each ground level storage unit, if the storage unit is located in a storage structure and has a roll-up door. These exclusive use loading areas do not qualify as required parking spaces.

This is a general term that includes, but is not limited to, a fire lane, public street, public right-of-way, private street, driveway, parking lot lane, and access road.

Fire code official. The Fire Chief or their duly authorized representatives.

Fire district. The Contra Costa County Fire Protection District and the Crockett-Carquinez Fire Protection District.

Fire hazard. Any condition, arrangement, or act that will increase, or may cause an increase of, the hazard or menace of fire to a greater degree than customarily recognized as normal by persons in the public service of

¹²Ordinance No. 2023-07, §§ 1—6, adopted April 4, 2023, did not specifically amend the Code. Therefore such ordinance has been added as chapter 84-90 at the editor's discretion.

preventing, suppressing, or extinguishing fire, or that may obstruct, delay, or hinder, or may become the cause of obstruction, delay, or hindrance, to the prevention, suppression, or extinguishment of fire.

Fuel break. A strategically located block or strip of land on which a cover of dense, heavy, or hazardous vegetation has been removed or modified to create lower fuel volume or reduced combustibility as an aid to fire control.

Hazardous vegetation. Vegetation that is combustible and endangers the public safety by creating a fire hazard, including, but not limited to, bark, mulch, seasonal and recurrent grasses, weeds, stubble, non-irrigated brush, dry leaves, dry needles, dead, dying, and diseased trees, or any other vegetation identified by the Fire Code Official.

Ladder fuel. Fuel that provides vertical continuity between surface fuel and canopy fuel strata, increasing the likelihood that fire will carry from surface fuel into the crowns of shrubs and trees.

Local responsibility area. An area that is not a state responsibility area or federal property, and where the responsibility for preventing and suppressing fires is primarily the responsibility of the Fire District.

Modification. Where there are practical difficulties involved in carrying out the provisions of this chapter, the Fire Code Official, shall have the authority to grant modifications for individual cases, provided that the Fire Code Official shall first find that special individual reasons make the strict letter of this chapter impractical and that the modification is in compliance with the intent and purpose of this chapter. The details of actions granting a modification shall be recorded and entered in the files of the Fire District.

Outbuilding. Buildings or structures that are less than one hundred twenty square feet in size and are not used for human habitation, and buildings or structures with a roof but no walls.

Parcel. A portion of real property of any size, which may be identified by an Assessor's Parcel Number, the area of which is determined by the legal lot of record.

Person. Includes any agency of the state, and any county, city, special district, or other local public agency, and any individual, firm, association, partnership, business trust, corporation, nonprofit corporation, limited liability company, or company.

Rubbish. Waste matter, litter, trash, refuse, and debris on streets or private property in the jurisdiction which is, or dry when they become, a fire hazard.

Streets. Includes alleys, parkways, driveways, highways, private roads, public roads, trails and fire trails.

Structure. A building that has walls and a roof and an area of one hundred twenty square feet or greater.

Tree litter. Any limbs, bark, branches and/or leaves in contact with other vegetation or left to gather on the ground.

Weeds. All weeds growing upon streets or private property in the jurisdiction, including any of the following:

- (a) Weeds that bear seeds of a fluffy nature or are subject to flight.
- (b) Sagebrush, chaparral (including chamise, coyote brush/greasewood, brooms, and buckwheat), and any other brush or weeds that attain such large growth as to become, when dry, a fire hazard to adjacent improved property.
- (c) Weeds that are otherwise noxious or dangerous.
- (d) Poison oak and poison sumac when the conditions of growth constitute a menace to public health.

-
- (e) Dry grass, brush, tree litter, litter, or other flammable materials that endanger the public safety by creating a fire hazard.

Zone 0. Referred to as the Ember-resistant Zone or Home Ignition Zone, it extends from zero to five feet from any structure, attached deck, or outbuilding on the parcel. Zone 0 requires the most stringent wildfire fuel reduction. This Ember-resistant Zone is designed to ensure that fire or embers from igniting materials cannot spread to the structure.

84-90.006 Fuel mitigation and exterior hazard abatement (defensible space) standards.

- (a) *Prohibition.* No person who has any ownership or possessory interest in or control of a parcel within any state responsibility area or local responsibility area within the Fire District shall allow to exist thereon any hazardous vegetation or combustible material that constitutes a fire hazard as determined by the Fire Code Official.
- (b) *Defensible space for structures and attached decks.* All persons who have any ownership or possessory interest in or control of any parcel within the Fire District shall maintain defensible space adjacent to all Structures and attached decks on the parcel in accordance with California Code of Regulations, Title 14, Section 1299.03, and in accordance with Public Resources Code Section 4291.
- (c) *Defensible space for outbuildings.* All persons who have any ownership or possessory interest in or control of any parcel within the Fire District shall comply with the defensible space requirements of subsection (b), above, with respect to any outbuildings on the parcel that are within one hundred feet of a structure or attached deck on the parcel.
- (d) *Roadside vegetation.* All persons who have any ownership or possessory interest in or control of any parcel within the Fire District that abuts a fire apparatus access road shall:
 - (1) Remove all hazardous vegetation that is within ten feet, measured horizontally, from the paved edge of the fire apparatus access road.
 - (2) Ensure that all portions of any tree overhanging a fire apparatus access road has at least thirteen feet six inches, measured vertically, of clearance from the roadway surface.
- (e) *Fences.* No person who has any ownership or possessory interest in or control of any parcel within the Fire District shall construct or allow to be constructed or placed on the parcel any screen, fence or other structure made, in whole or in part, of bark, mulch, or wood chips within one hundred feet of a Structure or within ten feet of the paved edge of a fire apparatus access road.
- (f) *Environmental concerns.* Compliance with the fuel mitigation requirements of this chapter shall not result in the taking of endangered, rare, or threatened plant or animal species, significant erosion, or sedimentation of surface waters. When these or other conditions make it impractical to comply with the fuel mitigation requirements, the person who owns, leases, or controls the parcel or parcels shall request that the Fire Code Official grant a modification of the requirements.

(Ord. No. 2023-07, § 3, 4-4-23)

84-90.008 Sale or transfer of property.

Before the close of escrow on the sale of any parcel within the Fire District, the seller shall provide to the buyer documentation from the Fire Code Official stating that the property is currently in compliance with the fuel mitigation requirements of this chapter. The Fire Code Official shall have the discretion to accept alternate means and measures to achieve compliance if completion of the required work will delay the sale or transfer of the property.

(Ord. No. 2023-07, § 4, 4-4-23)

84-90.010 Fuel breaks.

- (a) *Fuel break requirement.* To reduce the risk of uncontrolled wildfire, fuel breaks are required on all parcels in the Fire District. A fuel break requires the removal or modification of fuel, maintained on an annual basis by June 1 of each year, or on a recurring basis as determined by the Fire Code Official, in a manner that will prevent the transmission of fire.
- (b) *Fuel break standards.* A person who owns, leases, or controls one or more parcels within the Fire District shall comply with following fuel break standards for each parcel.
 - (1) *Parcels of five acres or less.* The parcel shall be maintained in accordance with the following requirements:
 - (A) Annual grasses and weeds shall be maintained at a height of no more than three inches. Weeds and grasses must be mowed, with material mulched and scattered or raked and bagged, and removed from the property, or disced. All discing work, including discing to establish fuel breaks, shall be completed so that all weeds, grasses, crops and other vegetation or organic material, which could be expected to burn, shall be completely turned under to the point that there is not sufficient exposed fuel to maintain or allow the spread of fire. Parcels may require additional abatement during the season due to the regrowth of weeds and other flammable vegetation.
 - (B) All hazardous vegetation shall be removed.
 - (C) All non-irrigated brush shall be removed.
 - (D) All combustible material shall be removed.
 - (E) All dead, diseased, or dying trees within one hundred feet of an occupied structure shall be removed.
 - (F) All ladder fuel(s) shall be removed from trees so that foliage, twigs, or branches are a minimum of six feet above the ground, or higher based on site and slope conditions.
 - (2) *Parcels greater than five acres.* The parcel shall be maintained with thirty-foot fuelbreaks and fifteen-foot crossbreaks. Fuelbreaks and crossbreaks are a continuous strip of disced or dozed ground following as closely as possible to the property line, and along one side of all fencelines, ditches, and on top of all ridgelines. Crossbreaks should divide the parcel into approximately five-acre sections. Fencelines may require handmowing or weedeating to ensure completion of fuelbreak. When terrain is too steep or rugged for a tractor, a handmowed fuelbreak may be required. All cut material must be mulched and scattered or raked, bagged and removed from parcel. Where thirty-foot fuelbreaks are required, they shall be provided around all structures, combustible storage, trees, shrubs and brush, along ridgelines, fencelines, ditches, and along the sides of, but not in, creeks.
 - (3) All parcels.

-
- (A) Fuelbreaks along roadways are required as part of the property line. Road rights-of-way shall be cleared to a minimum of ten feet horizontally from the edge of driving surface and thirteen feet six inches vertically.
 - (B) Active pastureland shall be provided with fifteen-foot wide fuelbreaks and crossbreaks if a sufficient number of animals are present to steadily reduce height of grasses during the summer months to three inches or less by the end of August, irrespective of parcel size. If this requirement cannot be met, thirty-foot fuelbreaks and crossbreaks shall be required.
 - (C) Active cropland shall be provided with fifteen-foot fuelbreaks or crossbreaks if the crop is to be harvested by mid-June. If there is to be a later harvest, thirty-foot fuelbreaks shall be required.
 - (D) Orchards are to be maintained by complete abatement, including grasses under tree branches. This may require pruning of lower branches to allow equipment access.
 - (E) Tree litter (eucalyptus leaves and bark, coniferous needles, leaves, fallen branches, etc.) shall be removed from the base of trees, tree stems, and limbs within six feet of the ground and maintained throughout the fire season.
 - (F) All debris, rubble, junk, piles of dirt, and other obstructions, that would obstruct or impede vehicles or equipment used for abatement work or fire suppression operations, must be removed.
 - (G) If the Fire Code Official requires mowed fuelbreaks and crossbreaks, mowed fuelbreaks shall be sixty feet wide and mowed crossbreaks shall be thirty feet wide.
- (c) Multiple contiguous parcels owned by the same person may be treated as a single parcel, upon request of the owner, lessee or person in control of the parcel and with the approval of the Fire Code Official, if a fuel break is provided based on the size of the combined parcels.
 - (d) *Environmental concerns.* Creation of fuel breaks shall not result in the taking of endangered, rare, or threatened plant or animal species, significant erosion, or sedimentation of surface waters. When these or other conditions make it impractical to create and maintain a required fuel break, the person who owns, leases, or controls the parcel or parcels shall request a modification of the fuel break requirement.

(Ord. No. 2023-07, § 5, 4-4-23)

84-90.012 Abatement of exterior fire hazards.

(a) Exterior fire hazard control—General.

- (1) *Jurisdictional authority.* The Board of Directors, as the supervising, legislative, and executive authority of the jurisdiction, hereby delegates to the Board of Fire Commissioners of the jurisdiction all its powers, duties, and rights to act pursuant to Part 5 (commencing with Section 14875), Division 12, of the Health and Safety Code ("Part 5"), to clear or order the clearing of rubbish, litter, or other flammable material where such flammable material endangers the public the safety by creating a fire hazard. Fire hazard abatement will be conducted in accordance with the provisions of Part 5 and this chapter.
- (2) *Retention of jurisdictional authority.* If no Board of Fire Commissioners has been appointed for the jurisdiction, then the Board of Directors retains its powers and rights to act pursuant to Part 5.
- (3) *Contract for services.* The Board of Directors reserves and retains the power to award a contract for fire hazard abatement work,

(4) *Public nuisance.* The Board hereby declares that all fire hazards, including weeds growing upon private property or streets and all rubbish on private property, easements or streets in the Fire District, are public nuisances.

(b) *Fire hazard abatement.*

(1) *Prohibition.* No person who has any ownership or possessory interest in or control of parcel of land shall allow to exist thereon any hazardous rubbish, weeds, trees, or other vegetation that constitutes a fire hazard. Destruction by burning within this jurisdiction is unlawful unless the written permission of the Fire Chief is first obtained, and all other applicable permits are obtained from appropriate governing agencies or jurisdictions.

(2) *Specific requirements.* The Fire District may develop additional abatement standards for land in residential, rural and/or rural residential, business, industrial areas, or land which is unused or vacant. These standards may be modified periodically as circumstances dictate.

(3) *Clearance of weeds from streets.* The Fire Code Official is authorized to cause areas within ten feet (3048 mm) on each side of portions of streets which are improved, designed, or ordinarily used for vehicular traffic to be cleared of flammable vegetation and other combustible growth. The Fire Code Official is authorized to enter upon private property to do so, to the extent allowed by law.

(c) *Abatement procedures.*

(1) *Abatement order.* The Fire Code Official may order the abatement of a fire hazard. On making the order, the Fire Code Official will mail a copy of a notice to the owners of the affected property as their names and addresses appear upon the last county equalized assessment roll, or as their names and addresses are known to the Fire Code Official. As an alternative to mailing, the notice may be posted upon the affected property and published in the jurisdiction, not less than fifteen days prior to the date of the abatement hearing.

Copies of the notice will be headed with the words "Notice to Abate Fire Hazard" in letters at least one inch high. The notice will be in substantially the following form:

NOTICE TO ABATE FIRE HAZARD

You are hereby notified that (describe condition, e.g., weeds and rubbish) constitute a fire hazard on the following described property owned by you:

(Describe property by common street designation, by metes and bounds, Assessor's code area and parcel number, or by reference to attached map).

You must remove the (describe condition, e.g., weeds and rubbish) within fifteen (15) days from the date of this notice. If you fail to do so, the Jurisdiction) Fire Protection District will remove it, and the cost of the abatement, including administrative costs, will be collected as property taxes and will be a lien on your property until paid.

You are further notified that the Board of Directors has declared that (describe condition, e.g., weeds and rubbish) constitute a public nuisance.

You may appear before the Board of Fire Commissioners on (time and date) at (place - room, street, address, and city) to show cause why this order should not be enforced.

(Signed): (Name of fire code official of name of jurisdiction)

(2) *Hearing date.* A date for hearing on the notice will be sent at least fifteen days after the date of the notice. The date of the notice is the date on which the notice is placed in the United States mail or the date on which it is posted on the property. At the hearing, the property owner or the property owner's agent may appear to show cause why the order should not be enforced. For good cause

shown, the Board of Fire Commissioners may extend the time for compliance with the order or may rescind the order.

- (3) *Contract award.* If the owner fails to comply with the order, the Fire Code Official may have the (describe condition, e.g., weeds and rubbish) abated either by employees of this jurisdiction or by contract. If a contract is awarded, it will be by public bid, awarded to the lowest responsible bidder. A contract may include work on more than one parcel. Concerning any contract previously awarded as provided in this subsection and that has been fully extended as provided in that contract, it may thereafter be extended on its same terms and conditions for a further period (not to exceed one year) by agreement of the Board of Directors and the involved contractor.
- (4) *Abatement report of costs.* The Fire Code Official or ~~the Fire Code Official's his or her~~ designee abating the nuisance will keep an account of the cost of abatement in front of or on each separate parcel of land and will render an itemized report in writing to the Board of Fire Commissioners showing the cost of removing the weeds and rubbish on or in front of each separate lot or parcel of land, or both. Before the report is submitted to the Board of Fire Commissioners, a copy of it will be posted for at least three days on or near the chamber door of the Board with a notice of the time and when the report will be submitted to the Board for confirmation. At the time fixed for receiving and considering the report, the Board of Fire Commissioners will hear it and any objections of any of the property owners liable to be assessed for the work of abatement. Thereupon, the Board of Fire Commissioners may make such modifications in the report as it deems necessary, after which the report will be confirmed. The amount of the cost, including administrative costs, of abating the nuisance in front of or upon the various parcels of the land mentioned in the report as confirmed will constitute special assessment against the respective parcels of land, and are a lien on the property for the amount of the respective assessments. The lien attaches upon recordation, in the office of the County Recorder, of a certified copy of the Resolution of Confirmation.
- (5) *Cost assessments.* Upon confirmation of the report of cost by the Board of Fire Commissioners and the recordation of the Resolution of Confirmation, a copy of the report of cost will be sent to the County Auditor, who will enter the amount of the assessments against the parcels. Thereafter the amount of the assessments will be collected at the same time and in the same way as County taxes are collected. The owners are subject to the same penalties and the same procedure and sale in case of delinquency as provided for ordinary county taxes. All laws applicable to the levy, collection, and enforcement of county taxes are applicable to these assessment taxes.
- (6) *Alternate mitigation.* In lieu of ordering abatement, the Fire Code Official may order the preparation of firebreaks and fuelbreaks around parcels of property where combustible weeds, crops, or brush are present. In determining the proper width for firebreaks and fuelbreaks, the Fire Code Official will consider the height of the growth, weather condition, topography, and the accessibility to the property for fire protection equipment. The procedures set forth above for the abatement of weeds and rubbish apply to the preparation of firebreaks and fuelbreaks.

Chapter 84-92 HE-C HOUSING ELEMENT CONSISTENCY DISTRICT

Article 84-92.2 General

84-92.202 Purpose.

This chapter establishes the HE-C zoning district and, in conjunction with Ordinance No. 2024-03, rezones certain parcels to the HE-C district to implement portions of the Housing Element of the Contra Costa County General Plan, in accordance with State Housing Element Law (Gov. Code, § 65580 et seq.). Parcels zoned to an HE-C district and identified in this chapter are those identified on the sites inventory for the County's 6th Cycle Housing Element (2023-2031). This chapter enables residential development of identified parcels at densities identified in and consistent with the County's Housing Element.

(Ord. No. 2024-02, § II, 1-16-24)

 - (A) Airport or heliport layout plans indicating proposed runways, taxiways, aircraft tie-down areas, hangars, and other proposed buildings and improvements,
 - (B) The boundary of the site, existing topography, grading proposed to accommodate airport construction and improvements, and the distance to nearby structures and utility lines;
- (2) A vicinity map showing the airport or heliport location on a USGS quadrangle map and any other airport locations within three miles;
- (3) A written description of the length of runways, the number and type of aircraft to be based at the airport or heliport, hours of operation, any proposed lighting, and whether the airport is proposed for public use or private use.

(Ord. 84-56 § 1 (part)).

86-2.1008 Review.

Pursuant to this chapter, the involved planning commission shall review land use permit applications for approval, modification or denial in public hearing pursuant to and otherwise regulated by the land use permit provisions of Chapters 26-2 and 82-6.

Chapter 86-4 AIRPORT ZONING

86-4.002 Short title.

This chapter shall be known and may be cited as the Buchanan Field airport zoning ordinance of Contra Costa County.

(Ord. 84-56 § 2: prior code § 8210: Ord. 976).

86-4.004 Purpose of chapter.

Under the authority conferred by the Conservation and Planning Act of the state of California and in conformity with regulations and standards of the Civil Aeronautics Administration of the United States Department of Commerce, the board of supervisors deems it necessary to create an Airport zoning chapter to promote the health, safety and general welfare of the inhabitants of this county by preventing the creation or establishment of airport hazards, thereby protecting the lives and property of the users of the Contra Costa County Airport (Buchanan Field) and of the occupants of the land in its vicinity, and preventing destruction or impairment of the utility of the airport and the public investment in it, in accordance with and as a part of the comprehensive master plan of airports of this county.

(Prior code § 8211: Ord. 976).

86-4.006 Definitions.

As used in this chapter, unless the context otherwise requires, the following words and phrases shall have the meanings given in this section:

- (1) "Airport" means the Contra Costa County Airport, Buchanan Field.
- (2) "Airport hazard" means any structure, tree, or use of land which obstructs the airspace required for the flight of aircraft in landing or taking off at the airport or which is otherwise hazardous to the landing or take-off of aircraft.
- (3) "Landing area" means the area of the airport used for the landing, take-off, or taxiing of aircraft.
- (4) "Noncommercial" use means any structure, tree, or use of land which does not conform to a regulation prescribed in this chapter, as of the effective date of the regulation.
- (5) "Person" means any individual, firm, copartnership, corporation, company, association, joint stock association, or body politic and includes any trustee, receiver, assignee, or other similar representative thereof.
- (6) "Structure" means any object constructed or installed by human labor, including, but not limited to, buildings, towers, smokestacks, and overhead transmission lines.
- (7) "Tree" means any object of natural growth.

(Prior code § 8212: Ord. 976).

86-4.008 Application of chapter.

The provisions of this chapter shall apply only in areas within the airport approach zones, turning zones, and transition zones within the unincorporated limits of the county.

(Prior code § 8223: Ord. 976).

86-4.010 Conflicting regulations.

In the event of conflict between this chapter and any other regulations applicable to the same area or parcel of land, whether the conflict be with respect to the height of structures or trees, the use of land, or any other

matter and whether the other regulations were adopted by the county or by some other public agency, the more stringent limitations or requirements shall govern.

(Prior code § 8224: Ord. 976).

86-4.012 Adoption of land use map for Buchanan Field.*

In order to carry out the purposes of this chapter, all of the land outside the boundaries of the Contra Costa County Airport (Buchanan Field) and within approximately two miles of the landing area of the airport is divided into airport approach zones, airport turning zones, airport transition zones, and airport clear zones, the boundaries of which are shown on the "Airport Zoning Plan for Buchanan Field, Contra Costa County, California," adopted under Title 7 of the Government Code and the "Airport Approaches Zoning Law" of the state of California.

A map entitled "The Airport Zoning Plan for Buchanan Field, Contra Costa County, California," is referred to, and included herein to the same effect as though it were at this place set forth, and is made a part of this chapter.

(Prior code § 8213: Ord. 976).

* The map adopted by reference in this section was adopted and published in the regular manner, but is not printed with this code. A copy of this map is available for public inspection in the county planning department.

86-4.014 Height limits.

Except as otherwise provided in this chapter, no structure or tree shall be erected, altered, allowed to grow, or maintained in any airport approach zone, airport turning zone, or airport transition zone to a height greater than the height limit established in this section for that zone. For the purpose of this regulation, the following height limits are established for each zone:

- (1) Approach Zones Nos. one, two, three, and four shall have a maximum height limit of twenty feet at a distance of one thousand feet from the end of the runway. The maximum allowable height shall be increased in step-ups of five feet each for every two hundred foot segment added to the one thousand foot distance from the end of the runway, to a maximum height of one hundred fifty feet.
- (2) Approach Zones Nos. five and six shall have a maximum height limit of twenty feet at a distance of six hundred feet from the end of the runway. The maximum allowable height shall be increased in step-ups of five feet each for every hundred foot segment added to the six hundred foot distance from the end of the runway, to a maximum height of one hundred fifty feet.
- (3) All turning zones shall have a maximum height limit of one hundred fifty feet, except that portion of the turning zone marked on the Airport Zoning Plan for Buchanan Field, Contra Costa County, California, as "not included in turning zone."
- (4) All transition zone areas shall have the maximum height limit indicated on the airport zoning plan for Buchanan Field, Contra Costa County, California.

(Prior code § 8214: Ord. 976).

86-4.016 Use restrictions.

Notwithstanding any other provisions of this chapter, no use shall be made of land within any airport approach zone, airport turning zone, or airport transition zone in a manner to:

- (1) Create electrical interference with radio communication between the airport and aircraft;

-
- (2) Make it difficult for flyers to distinguish between airport lights and other lights;
 - (3) Result in glare in the eyes of the flyers using the airport;
 - (4) Impair visibility in the vicinity of the airport;
 - (5) Otherwise endanger the landing, take-off, or maneuvering of aircraft.

(Prior code § 8215: Ord. 976).

86-4.018 Nonconforming uses.

The regulations prescribed in Sections 86-4.014 and 86-4.016 shall not be construed to require the removal, lowering, or other change or alteration of any structure or tree not conforming to the regulations as of February 9, 1956, or otherwise interfere with the continuance of any nonconforming use. Nothing contained in this chapter shall require any change in the construction, alteration, or intended use of any structure, the construction or alteration of which was begun before February 9, 1956, and is diligently prosecuted and completed within two years.

Before any nonconforming structure or tree may be replaced, substantially altered or repaired, rebuilt, allowed to grow higher, or replanted, a permit must be secured from the board of adjustment authorizing the replacement, change, or repair. No permit shall be granted that would allow the establishment or creation of an airport hazard or permit a nonconforming structure or tree or nonconforming use to be made or become higher or become a greater hazard to air navigation than it was on February 9, 1956, or than it was when the application for permit is made. Except as provided in this section, all applications for permits shall be granted. No permit shall be required to make maintenance repairs to or to replace parts of existing structures which do not enlarge or increase the height of the existing structure.

(Prior code § 8216: Ord. 976).

86-4.020 Variances.

Any person desiring to erect any structure, increase the height of any structure, permit the growth of any tree, or otherwise use ~~the person's~~ property otherwise than is required in this chapter may apply to the board of adjustment for a variance from the regulation. The variance shall be allowed where a literal application or enforcement of the regulations would result in practical difficulty or unnecessary hardship and the relief granted would not be contrary to the public interest but do substantial justice and be in accordance with the spirit of the regulations and this chapter. Any variance may be subjected to reasonable conditions that the administrative agency may deem necessary to effectuate the purpose of this chapter.

(Prior code § 8217: Ord. 976).

86-4.022 Hazard marking and lighting.

Any variance granted under Sections 86-4.018 or 86-4.020, if the action is deemed advisable to effectuate the purpose of this chapter and reasonable in the circumstances, may be conditioned to require the owner of a structure or tree to permit the county, at its own expense, to install, operate, and maintain thereon the markers and lights necessary to indicate to flyers the presence of an airport hazard.

(Prior code § 8219: Ord. 976).

86-4.024 Planning commission powers.

In addition to the powers delegated in Section 86-4.020, the planning commission shall have the following specific powers:

To make changes in the restrictions and boundaries of the zones established in this chapter, in accordance with the procedure prescribed for amendments and reclassification in Title 7 of the Government Code of the state of California.

(Prior code § 8218: Ord. 976).

86-4.026 Administrative agency.

The building inspector shall administer and enforce this chapter. The duties of the building inspector shall include that of reviewing all applications for building permits within the approach zones, turning zones, and transition zones of the Contra Costa County Airport (Buchanan Field), but the building inspector shall not have or exercise any of the powers or duties delegated to the planning commission.

(Prior code § 8220: Ord. 976).

86-4.028 Nuisance abatement.

If any person erects, constructs, moves, alters, or attempts to erect, construct, move, or alter any structure or allows any tree to grow to a height in violation of this chapter, the condition is declared a public nuisance. The district attorney, when ordered by the board of supervisors, shall bring and prosecute an action in any court of competent jurisdiction to enjoin that person from continuing the erection, construction, moving, alteration, or growth, or if the erection, construction, moving, alteration, or growth is being or has been accomplished, the district attorney, when ordered by the board of supervisors, shall bring action to enjoin that person from maintaining the nuisance.

(Prior code § 8221: Ord. 976).

(Ord. 1513: prior code § 8320).

88-2.404 Application—Action by board of adjustment or board of supervisors.

- (a) In granting any permit, the board of adjustment, or, on appeal, the board of supervisors shall review the location, design, and layout of the proposed cemetery and may condition the permit on requirements as to design, location, layout screening, and design of entrances and exits as the board of adjustment or the board of supervisors finds reasonably necessary to protect the health, safety, and welfare of the people of the county and to protect property values and the orderly and economic development of land in the neighborhood.
- (b) A permit shall be denied if the board of adjustment or, on appeal, the board of supervisors finds that:
 - (1) The establishment or maintenance of the proposed cemetery or the extension of an existing cemetery will or may jeopardize or adversely affect the public health, safety, comfort, or welfare; or
 - (2) The establishment, maintenance, or extension will or may reasonably be expected to be a public nuisance; or
 - (3) The establishment, maintenance, or extension will tend to interfere with the free movement of traffic or with the proper protection of the public through interference with the movement of police, ambulance, or fire equipment and thus interfere with the convenience of the public or the protection of the lives and the property of the public; or
 - (4) The applicant, through the proposed endowment fund or otherwise, cannot demonstrate adequate financial ability to establish or maintain the proposed cemetery so as to prevent the proposed cemetery from becoming a public nuisance; or
 - (5) The proposed cemetery is not consistent with the general plan of the county or the orderly development and growth of the county.
- (c) Before taking final action, the board of adjustment or, on appeal, the board of supervisors may require of the applicant or applicants any reasonable dedication of public streets or highways through the premises proposed to be used for the cemetery or extension of an existing cemetery, so as to prevent the cemetery from jeopardizing the public safety, comfort, or welfare. If the time required by the board of adjustment or board of supervisors for compliance with these conditions elapses before these conditions are met, the board of adjustment or board of supervisors may deny the permit.

(Ord. 1513: prior code § 8321).

88-2.406 Application—Renewal.

If the board of adjustment or the board of supervisors denies its approval of any application heretofore or hereafter made for any permit required by this chapter, no new or further application for a permit shall be made

88-3.602 Commercial WECS setback requirements.

- (a) Except as provided in subsection (b) of this section, a commercial WECS must be set back from each line of the exterior project boundary, and from each public right-of-way, a distance equivalent to three times the machine height or five hundred feet, whichever is greater.
- (b) A proposed commercial WECS that does not meet the minimum setback requirements of subsection (a) may be approved only if the following findings are made in addition to the findings required under section 88-3.418:
 - (1) The proposed commercial WECS will not pose a significant danger to adjacent land uses due to toppling or blade-throw.

-
- (2) The proposed commercial WECS will not pose a significant danger to a public or private right-of-way due to toppling or blade-throw.
 - (3) A reduced setback is necessary in order to avoid or reduce the severity of an environmental impact or to significantly increase the ability to utilize the kinetic energy of the wind resource.
- (c) Notwithstanding the provisions of subsections (a) and (b), a commercial WECS must be set back at least one thousand feet from all existing legal offsite residences and from all general plan-designated residential areas.
- (Ord. No. 2011-04, § V, 4-5-11; Ord. 85-39 § 4).

88-3.604 Tower access.

Towers must either (a) Have tower-climbing apparatus located no closer than twelve feet from the ground;

- (b) Have a locked anti-climb device installed on the tower;
- (c) Be completely enclosed by a locked, protective fence at least six feet high; or
- (d) Have a tower-access limitation program approved by the zoning administrator.

(Ord. 85-39 § 4).

88-3.606 Rotor safety.

Each WECS must be equipped with both manual and automatic controls to limit the rotational speed of the blade within the design limits of the rotor.

(Ord. 85-39 § 4).

88-3.608 Electromagnetic interference.

The WECS shall be designed, installed and operated so that no disrupting electromagnetic interference is caused. If it has been demonstrated to the zoning administrator that a WECS is causing disruptive interference, the operator shall promptly mitigate the disruptive interference, which may include discontinued operation of one or more WECS.

(Ord. 85-39 § 4).

88-3.610 Utility notification.

No wind turbine shall be installed until evidence has been given that all affected utility companies have been notified and have indicated that the proposed interconnection is acceptable.

(Ord. 85-39 § 4).

88-3.612 Noise.

- (a) Except as provided in subsection (b) of this section, a commercial WECS may not generate or emit any noise at any time that exceeds a maximum level of sixty-five decibels (dBA), as measured at each line of the exterior project boundary.

-
- (b) A land use permit issued for a commercial WECS may authorize a maximum noise level that exceeds the level specified in subsection (a) if the commercial WECS is adjacent to an already-existing or approved commercial WECS and upon a finding that existing legal offsite residences and general plan-designated residential areas will not be adversely affected.
 - (c) A residential WECS may not generate or emit any noise at any time that exceeds a maximum level of sixty decibels (dBA), as measured at each line of the parcel upon which the residential WECS is installed.
 - (d) The measurement of commercial or residential WECS noise levels may not be adjusted for, or averaged with, periods of non-operation of the WECS. A site-specific noise study may be required to confirm compliance with the applicable noise standard. If noise generated or emitted by a commercial or residential WECS exceeds the applicable standard, the WECS operator must take measures necessary to comply with the standard, which may include discontinued operation of one or more WECS.

(Ord. No. 2011-04, § VI, 4-5-11; Ord. 85-39 § 4).

88-3.614 Site access.

Chapter 88-4 JUNKYARDS

Article 88-4.2. General

88-4.202 Short title.

This chapter shall be known and may be designated as the junkyard ordinance of Contra Costa County.
(Ord. 1513: prior code § 8330).

88-4.204 Declaration of policy.

It is declared by the board of supervisors that the business of salvaging and wrecking automobiles, the storage and salvaging of scrap materials, the salvaging, storing, and selling of salvaged building materials and other waste matter and junk is affected by the public interest. These businesses are useful and necessary occupations and essential to the economic life and welfare of the county. At the same time these businesses have a tendency to and often do become nuisances. Rats, vermin, insects, and other pests find breeding places in premises where these occupations are carried on. Small children without sufficient age to have sound discretion find places to play in these premises to their own danger and to the danger of the community. Materials stored on these premises may be fire hazards from spontaneous or accidental combustion. These materials, where improperly laid up and stored, become habitats and hiding places for vagrants and other undesirable persons. They are unsightly, offensive to the senses and interfere with the comfortable and enjoyable use of land in the vicinity. The public interest and the protection of the public health, safety, and welfare, the conservation of property value, and the encouragement of the orderly development of the county require that these occupations be regulated.

(Prior code § 8331: Ord. 934).

88-4.206 Junkyard defined.

For the purposes of this chapter, "junkyard" means any property used (whether or not for profit or gain) for (1) the dismantling or wrecking of automobiles or other vehicles or machinery, or (2) the storage or salvage of automobiles or other vehicles or machinery, scrap metal, or other scrap materials, including salvaged building materials.

(Ord. 81-35 § 1: prior code § 8332: Ords. 934, 644, 455, 226).

88-4.208 Nuisance—Abatement.

Any violation of this chapter is declared to be a public nuisance. The district attorney, when directed by the board of supervisors, shall commence the action or proceedings necessary and convenient to abate the nuisance.

(Prior code § 8338: Ord. 934).

Article 88-4.4. Permits

88-4.402 Permit—Required.

No person shall establish or maintain a junkyard in this county without first obtaining a permit as provided in this chapter.

(Prior code § 8333: Ord. 934).

88-4.404 Permit—Application.

- (a) The owner of any premises not covered by the regulations of Divisions 82 or 84 may apply to the board of adjustment for a permit under this chapter and under the procedures set forth in Chapter 26-2.
- (b) The owner of any premises covered by the regulations of Divisions 82 and 84 may apply to the board of adjustment for a permit under this chapter and under the procedures set forth in Chapter 26-2, if the land use district classification of the premises allows an application to be made.
- (c) The owner of any premises covered by interim zoning regulations may apply to the board of adjustment for a permit under this chapter and under the procedures set forth in Chapter 26-2, if the interim land use district classification of the premises allows an application to be made.

(Prior code § 8335: Ord. 1268).

88-4.406 Permit—Bond required.

In granting any permit, the planning commission shall condition the permit on the furnishing by the applicant of a surety company bond in the penal sum of one thousand dollars, the condition of which shall be that the permittee shall comply with this chapter and any conditions which may be imposed on the permit, to insure the payment of any fine which may be imposed on the permittee, any costs of suit to secure the abatement of a nuisance, or to pay any judgment rendered against the permittee in favor of the county, all within the limits of the bond. The planning commission shall not grant a permit for a junkyard in any district where it is not allowed to be granted by Division 82, or in any case where it will conflict with the master plan of the county.

(Prior code § 8336: Ord. 934).

Article 88-4.6 Existing Junkyard Permits

88-4.602 Existing junkyard permit—Conditions required.

The owner of any premises which on January 1, 1955, were lawfully being used for a junkyard, as defined in Section 88-4.206, is granted a permit by the operation of this section for the purposes of Section 88-4.402, for the maintenance of a junkyard coextensive with the area of the premises that were then actually being used as a junkyard, subject to the following conditions:

- (1) All scrap and salvage materials shall be placed and maintained in a manner that it will not become a habitat or breeding place for rodents, insects, or other vermin or pests.

All scrap and salvaged materials and all wrecked or stored automobiles shall be kept inside the fence.

(Prior code § 8334(a): Ord. 934).

88-4.604 Existing junkyard permit — Additional conditions.

88-4.606 Existing junkyard permit — Revocation.

The owner of any premises which are granted a permit under Section 88-4.602 shall bring the premises into full compliance with this chapter within six months after March 26, 1955. A failure to bring the premises into full compliance and thereafter to maintain the premises in compliance with this chapter shall be grounds for the revocation of the permit.

(Prior code § 8334(c): Ord. 934).

In the case of any conflict between this chapter and state requirements for signs related to gasoline sales, the state requirements will govern. ;hn0; (Ord. No. 2022-03, § II, 5-24-22.)

88-6.622 Illumination.

A sign permitted by this chapter may not be illuminated by artificial illumination unless expressly authorized by the sign permit. The zoning administrator may include conditions in the sign permit as to the time, intensity, direction, and quality of illumination to mitigate any negative impacts of illumination.

(Ord. No. 2022-03, § II, 5-24-22.)

88-6.624 Vacant lots.

The aggregate sign display area of all signs located on a lot where no building exists may not exceed one and one-half square feet per 1,000 square feet of lot area. The maximum aggregate sign display area of all signs located on a lot where no building exists is 35 square feet.

(Ord. No. 2022-03, § II, 5-24-22.)

88-6.626 Signs within highway setback.

A sign placed or displayed within a highway setback, as described in Article 82-12.4, is subject to the same restrictions and requirements that apply to signs placed or displayed within a public right-of-way pursuant to Article 88-6.8.

(Ord. No. 2022-03, § II, 5-24-22.)

88-6.628 Master sign program.

- (a) General. The zoning administrator may approve a comprehensive master sign program as part of a multi-tenant development or a development in a P-1 district. The objectives of a master sign program are to ensure: that the non-communicative aspects of all signs in a multi-tenant development or a P-1 district are compatible; and that adequate signs are provided to all current and prospective tenants within a multi-tenant development or a P-1 district.
- (b) Applicability. A master sign program applies to all tenants and buildings within a single development, whether the development is located on a single lot or on multiple lots.
- (c) Exceptions. A master sign program may authorize exceptions to the sign regulations specified in this article, including the number of signs, height, location, and sign area.
- (d) Prohibited. A master sign program may not be used to display sign types that are prohibited under this article.
- (e) Approval. If the zoning administrator approves exceptions to the sign regulations specified in this article, the zoning administrator must find that each exception will accomplish the objectives of this section. The zoning administrator may include conditions in the master sign program permit to mitigate any negative impacts attributed to the exceptions.

(Ord. No. 2022-03, § II, 5-24-22.)

Article 88-6.8. Signs Within the Public Right-of-Way

88-6.802 Applicability.

This article applies to signs placed or displayed within a public right-of-way.

(Ord. No. 2022-03, § II, 5-24-22.)

88-6.804 Prohibited signs.

No person may place or display a sign within a public right-of-way unless the sign is specifically authorized under this chapter.

(Ord. No. 2022-03, § II, 5-24-22.)

88-6.806 Encroachment permit.

(Ord. No. 2022-03, § II, 5-24-22.)

88-6.808 Exempt—Bus shelter signs.

Signs placed or displayed on a structure within or on a right-of-way that is used solely as a bus shelter are exempt from the permit requirement of this chapter. This section does not exempt bus shelter signs from any other applicable law or regulation, including, but not limited to, encroachment permit requirements.

(Ord. No. 2022-03, § II, 5-24-22.)

88-6.810 Directional signs.

A freestanding directional sign may be placed within a public right-of-way. A freestanding directional sign must meet all of the following requirements.

- (a) Location. No directional sign may be located:
 - (1) Within 500 feet of another directional sign on the same public right-of-way and facing in the same direction;
 - (2) At an intersection that would result in more than one directional sign at any corner of the intersection;
 - (3) Within three feet of any curb where parking is allowed;

The permittee shall name the County and its officers, agents, and employees as additional insureds under all policies held in connection with the permit. All coverage shall provide for 30 days' written notice to the County of cancellation or lapse in coverage. A certificate of insurance for the policy hereunder required, indicating the name and telephone number of the insurance agent most responsible for the insurance policy and evidencing such coverage, must be furnished to the County prior to the approval of the permit. If the permittee renews or amends existing insurance or acquires new insurance, the permittee shall provide an updated certificate to the County.

-
- (3) The permittee shall indemnify, defend, and hold harmless the County, its boards, commissions, officers, employees, and agents from any and all claims, costs, losses, actions, fees, liabilities, expenses, and damages arising from or related to the applicant's application for a sign permit, the County's discretionary approval of the sign, the County's actions pursuant to the California Environmental Quality Act and planning and zoning laws, and the construction, placement, display, or maintenance of the sign, regardless of when those liabilities accrue.

Chapter 88-11 SURFACE MINING AND RECLAMATION

Article 88-11.2. General

88-11.202 Purpose.

This chapter effectuates the Surface Mining and Reclamation Act of 1975 ("SMARA") (Public Resources Code Sections 2710 and following), including future amendments thereto, and constitutes the ordinance referred to in Section 2774 therein.

(Ords. 2000-18 § 2; 79-114).

88-11.204 Goals.

This chapter is intended to assure that:

- (1) County regulations and procedures governing the establishment, use and reclamation of mined lands are in accord with the county general plan; and
- (2) Mineral deposits which are valuable to the economy of the county and the bay area can be utilized; and
- (3) Adverse land use and environmental effects caused by surface mining operations are prevented or minimized, and mined lands are reclaimed to a condition which is readily adaptable for future land uses; and
- (4) Residual hazards to the public health and safety are prevented or minimized; and
- (5) Economic and natural resources related to surface mining sites and operations are protected for the future benefit of the county.

(Ord. 79-114; Pub. Res.C. §§ 2711, 2712).

88-11.206 Definitions.

Unless otherwise specifically provided, or required by the context, the definitions set forth in the Surface Mining and Reclamation Act of 1975, and in any state policy adopted pursuant thereto, govern the construction of this chapter.

(Ord. 79-114; Pub.Res.C. §§ 2725 -2735).

88-11.208 Exceptions.

The requirements of this chapter do not apply to the following activities when done in full compliance with Division 716 (Grading) and Title 9 (Subdivisions) of this code:

- (1) Excavation or grading conducted for restoring land after natural disaster;
- (2) Surface mining operations required by federal law to protect a mining claim; if conducted solely for that purpose;
- (3) Any surface mining operation that does not involve either the removal of a total of more than 1,000 cubic yards of minerals, ores and overburden or involves less than one acre in any one location.

(Ords. 2000-18 § 3; 79-114; Pub.Res.C. § 2714).

Article 88-11.4. Vested Rights

88-11.402 General.

A person with a vested right to conduct surface mining operations does not need a permit under this chapter as long as such vested right continues; but no substantial charges may be made in any such operation except in accordance with this chapter.

(Ord. 79-114; Pub.Res.C. § 2776).

88-11.404 Vested right defined.

A person shall be deemed to have such a vested right if, before the effective date of this chapter, in good faith and in reliance upon a land use permit or other governmental authorization (if either was required by law), the person has diligently commenced surface mining operations and incurred substantial liabilities for work and materials necessary therefor (excluding expenses incurred in obtaining the permit or authorization).

(Ord. 79-114; Pub.Res.C. § 2776).

88-11.406 Reclamation plan approval still required.

Subject to this article, a person with a vested right shall submit to the county and receive, within a reasonable period of time, approval of a reclamation plan for surface mining operations conducted or to be conducted after January 1, 1976, or a determination that the county had approved a reclamation plan before the effective date of this chapter and the operator has accepted, and currently accepts, responsibility for reclaiming the mined lands in accordance with the reclamation plan. A person receiving such a determination shall nonetheless be subject to the provisions of Article 88-11.10.

(Ord. 79-114; Pub. Res. C. § 2776).

88-11.408 Pre-1976 operations excepted.

No reclamation, or reclamation plan approval, is required for lands disturbed by surface mining operations conducted before January 1, 1976, and which have not since been disturbed by surface mining operations.

(Ords. 2000-18 § 4; 79-114; Pub.Res.C. § 2776).

Article 88-11.6. Land Use Permits

88-11.602 Land use permit required.

Except as provided in Article 88-11.4, no person shall begin, establish, maintain, continue or conduct, any surface mining operation, including a rock quarry, sand or gravel pit, or other earth material extraction area, without (1) first obtaining a land use permit under this article, and (2) fully performing and complying with it.

(Ord. 79-114; Pub.Res.C. § 2770; see also § 88-11.802, and former § 88-10.002).

88-11.604 Application procedure.

- (a) General. Land use permits for the special uses enumerated in Section 88-11.602 may be granted in accordance with Chapters 26-2 and 82-6.
- (b) Concurrent Applications. When a surface mining operation requires the approval of both a land use permit and a reclamation plan, application for both shall be made concurrently.

(Ord. 79-114; Pub.Res.C. § 2774; see also Art. 88-11.8).

88-11.606 Criteria for permit.

A land use permit for surface mining operation may be granted for property in any zoning district, but a permit shall not be issued unless it is found, in addition to the findings required by Chapter 26-2, that:

- (1) The proposed use is consistent with the county general plan; and
- (2) The proposed use will not be substantially detrimental to existing residents, structures, or land uses; and
- (3) The proposed use will not impose significant adverse impacts on the physical environment; and
- (4) The proposed use will have adequate access.

(Ord. 79-114; Pub.Res.C. § 2774).

88-11.608 Conditions of permits.

A land use permit may be conditioned as necessary to implement this chapter. Such conditions may include, but are not limited to, the following conditions set forth in Sections 88-11.610 and 88-11.612.

(Ord. 79-114).

88-11.610 Conditions—Operations and maintenance.

Examples of permit conditions relating to mining operations and site maintenance are:

- (1) Land uses permitted on the site;
- (2) Temporary and finished slopes, and benches;
- (3) Setbacks from property lines, roads, water channels; and other features;
- (4) Fencing and screening;
- (5) Limiting use of explosives;
- (6) Drainage and use of surface water or groundwater;
- (7) Storing minerals and overburden;
- (8) Salvaging topsoil and vegetation;
- (9) Controlling noise, dust, and bright lights;

(Ord. 79-114; Pub.Res.C. §§ 2715(e), 2774).

88-11.612 Permit conditions—Performance guarantees.

Either a cash deposit, surety bond, or instrument of credit, acceptable to the planning agency as to form and amount, may be required to guarantee faithful performance of and compliance with the terms and conditions of the land use permit and the reclamation plan.

(Ord. 79-114; Pub.Res.C. §§ 2715(e), 2774).

Article 88-11.8. Reclamation Plans

88-11.802 Reclamation plan required.

No person shall begin, establish, maintain, continue or conduct any surface mining operation without (1) first submitting, and obtaining approval of, a reclamation plan under this article, and (2) fully performing and complying with it.

(Ord. 79-114; Pub.Res.C. § 2770: see also § 88-11.602).

88-11.804 Post-1976 operations included.

No person shall continue, maintain, or conduct any surface mining operation in existence between January 1, 1976, and the effective date of this chapter without first obtaining approval of a reclamation plan.

(Ord. 79-114; Pub.Res.C. § 2776).

88-11.806 Applications for reclamation plan approval.

Applications for approvals pursuant to this article for surface mining operations described in Section 88-11.804 shall be submitted within six months after the effective date of this chapter; but the director of planning may extend this period in increments of six months or less if ~~the director of planning~~ ~~he~~ determines that the preparation of the reclamation plan has been undertaken and pursued diligently and in good faith by the applicant, and that continuation of mining operations would not be detrimental to successful reclamation.

(Ord. 79-114; Pub.Res.C. §§ 2710, 2774, and 2776).

88-11.808 Application procedure.

- (a) General. Applications shall be on forms (or with face sheets) provided or approved by the director of community development and shall be made and processed as provided in Section 88-11.604 for land use permits.
- (b) Applicant's Responsibility. Applicants are responsible for preparing reclamation plans for submission to the county.

(Ords. 2000-18 § 5; 79-114; Pub.Res.C. § 2774).

88-11.810 Reclamation plan requirements.

Every reclamation plan shall address at least the following subjects, in addition to the requirements in Public Resources Code Sections 2772 through 2774 and California Code of Regulations Section 3500 et seq and 3700 et seq.

(Ords. 2000-18 § 6; 79-114; Pub.Res.C. §§ 2772A).

88-11.812 General requirements.

The reclamation plan shall identify the specific properties it applies to; and it shall be based upon the character of the surrounding area and the characteristics of that property, including the type of overburden, soil stability, topography, geology, vegetation, wildlife, climate, stream characteristics, and principal mineral commodities. Reclamation of mined lands shall be carried out in accordance with the requirements of this chapter.

(Ord. 79-114; Pub.Res.C. § 2773).

88-11.814 Guarantees.

The reclamation plan shall state that the operator, applicant, and permittee guarantees and accepts responsibility for all reclamation work for the life of the surface mining operation and for a period of two years after completion of such operation or such greater period as may be determined necessary to assure the permanence of physical reclamation features.

(Ord. 79-114; Pub.Res.C. § 2774).

88-11.816 Progressive reclamation.

Reclamation of mined areas shall take place as soon as practicable following completion of surface mining operations. When simultaneous or concurrent reclamation is practicable, the reclamation plan shall include a timetable for commencing and completing such reclamation and shall include (a) the beginning and expected ending dates for each phase; (b) all reclamation activities required; (c) criteria for measuring completion of specific reclamation activities; and (d) estimated costs for completion of each phase of reclamation.

(Ords. 2000-18 § 7; 79-1 14; Pub.Res.C. § 2772(f)).

88-11.818 Disposal of overburden and mining waste.

- (a) Permanent on-site disposal of overburden and mining waste shall be compatible with the probable future uses of the site. The land surface shall be made stable, and adequate drainage shall be provided. Final disposal of such materials shall not be in the form of apparently artificial piles or dumps of overburden or mining waste. To the maximum extent practicable, grading shall be designed to blend with the natural terrain features of the area.
- (b) Toxic materials shall be removed from the site or shall be protected and isolated to prevent leaching.
- (c) Overburden and mining waste placed below the existing or potential groundwater level shall not reduce water transmissivity or the area through which water may flow unless approved equivalent transmissivity or area has been provided elsewhere.

(Ord. 79-114).

88-11.820 Drainage, erosion and sediment control.

- (a) Any temporary stream or watershed diversion shall be restored in final reclamation to its condition prior to surface mining operations, unless the planning agency determines restoration is unnecessary.
- (b) Regrading and revegetation shall be designed and carried out to minimize erosion, to provide for drainage to natural outlets or interior basins designed for water storage, and to eliminate closed depressions and similar catchments that could serve as breeding areas for insects.
- (c) Silt basins, which have outlet to lower ground and will or may store water during periods of surface runoff, shall be equipped with sediment control and removal facilities, and with protected spillways designed to minimize erosion.
- (d) Final grading and drainage shall be designed to prevent discharge of sediment loads higher than before mining operations.
- (e) Upon reclamation, the operator shall preclude or eliminate any condition which will or could lead to the degradation of water quality below applicable standards of the regional water quality control board or any other agency with authority over water quality.

(Ord. 79-114).

88-11.822 Final slope gradient.

Final slope gradients shall assure slope stability, maintenance of required vegetation, public safety, and the control of drainage, as may be determined by engineering analysis of soils and geologic conditions and by taking into account probable future uses of the site. They shall not exceed the critical gradient as determined by an engineering analysis of the slope stability. Additionally, they shall not:

- (1) Be incompatible with the alternate future uses anticipated for the site; or
- (2) Be hazardous to persons that may use the site under the alternate future uses anticipated for the site;
or
- (3) Reduce the effectiveness of revegetation and erosion control measures where such are necessary.

(Ord. 79-114).

88-11.824 Emplacement of fill.

All fill shall be compacted to avoid excessive settlement and to the degree necessary to accommodate anticipated future uses. If future uses of the site include streets or structures for human occupancy, or if an engineered fill is necessary as a safety measure, fill emplacement shall conform to the requirements of Division 716 of this code. Material used as fill shall be of a quality suitable to prevent contamination and pollution of groundwater.

(Ord. 79-114).

88-11.826 Resoiling.

Resoiling shall be accomplished in the following manner: coarse, hard material shall be graded and covered with a layer of finer material or weathered waste, and a soil layer then placed on this prepared surface. Where

quantities of available soils are inadequate to provide cover, native materials should be upgraded to the extent feasible for this purpose.

(Ord. 79-114).

88-11.828 Revegetation.

All lands permanently exposed by mining operations shall be revegetated, except as the director of community development determines this to be technically infeasible or detrimental. Revegetation methods and plant materials utilized shall be appropriate for the site's topographical, soil and climatic conditions, and native species shall be used wherever practicable.

(Ords. 2000-18 § 8; 79-114).

88-11.830 Water.

All bodies of water created by the reclamation plan are subject to approval.

(Ord. 79-114).

88-11.832 Other requirements.

Additional requirements to carry out the intent of this chapter may be required.

(Ord. 79-114; Pub.Res.C. §§ 2772—2774).

88-11.834 Financial assurances.

- (a) To ensure that reclamation will proceed in accordance with the approved reclamation plan, the county will require, as a condition of approval, security which will be released upon satisfactory performance. The applicant may pose security in the form of a surety bond, trust fund, irrevocable letter of credit from an accredited financial institution, or other method acceptable to the county and the State Mining and Geology Board as specified in state regulations, and which the county reasonably determines are adequate to perform reclamation in accordance with the surface mining operation's approved reclamation plan. Financial assurances shall be made payable to the county of Contra Costa and the State Department of Conservation.
- (b) Financial assurances will be required to ensure compliance with elements of the reclamation plan, including, but not limited to, revegetation and landscaping requirements, restoration of aquatic or wildlife habitat, restoration of water bodies and water quality, slope stability and erosion and drainage control, disposal of hazardous materials, and other measures, if necessary.
- (c) Cost estimates for the financial assurance shall be submitted to the community development department for review and approval prior to the operator securing financial assurances. The director of community development will forward a copy of the cost estimates, together with any documentation received supporting the amount of the cost estimates, to the State Department of Conservation for review. If the State Department of Conservation does not comment within forty-five days of receipt of these estimates, it shall be assumed that the cost estimates are adequate, unless the county has reason to determine that additional costs may be incurred. The director of community development may approve the financial assurance if it meets the requirements of this chapter, SMARA, and state regulations.
- (d) The amount of the financial assurance shall be based upon the estimated costs of reclamation for the years or phases stipulated in the approved reclamation plan, including any maintenance of reclaimed areas as may

be required, subject to adjustment for the actual amount required to reclaim lands disturbed by surface mining activities since January 1, 1976, and new lands to be disturbed by surface mining activities in the upcoming year. Cost estimates should be prepared by a California registered professional engineer and/or other similarly licensed and qualified professionals retained by the operator and approved by the director of community development. The estimated amount of the financial assurance shall be based on an analysis of physical activities necessary to implement the approved reclamation plan, the unit costs for each of these activities, and the actual administrative costs. Financial assurances to ensure compliance with revegetation, restoration of water bodies, restoration of aquatic or wildlife habitat, and any other applicable element of the approved rehabilitation plan shall be based upon cost estimates that include but may not be limited to labor, equipment, materials, mobilization of equipment, administration, and reasonable profit by a commercial operator other than the permittee. A contingency factor of ten percent shall be added to the cost of financial assurances.

- (e) In projecting the costs of financial assurances, it shall be assumed without prejudice or insinuation that the surface mining operation could be abandoned by the operator and, consequently, the county or State Department of Conservation may contract with a third party commercial company for reclamation of the site.
- (f) The financial assurances shall remain in effect for the duration of the surface mining operation and any additional period until reclamation is completed (including any maintenance required).
- (g) The amount of financial assurances required of a surface mining operation for any one year shall be adjusted annually to account for new lands disturbed by surface mining operations, inflation, and reclamation of lands accomplished in accordance with the approved reclamation plan. The financial assurances shall include estimates to cover the reclamation for existing conditions and anticipated activities during the upcoming year, excepting that the permittee may not claim for reclamation scheduled for completion during the coming year.
- (h) Revisions to financial assurances shall be submitted to the director of community development each year prior to the anniversary date for approval of the financial assurances. The financial assurance shall cover the cost of existing disturbance and anticipated activities for the next calendar year, including any required interim reclamation. If revisions to the financial assurances are not required, the operator shall explain, in writing, why revisions are not required.

(Ords. 2000-18 § 9; 79-114; Pub.Res.C. § 2774).

88-11.836 Fees.

The county may establish such fees as it deems necessary to cover the reasonable costs incurred in implementing this chapter and the state regulations, including, but not limited to, processing of applications, annual reports, inspections, monitoring, enforcement and compliance. Such fees shall be paid by the operator, as required by the county, at the time of filing of the land use permit and/or reclamation plan application, and at such other times as are determined by the county to be appropriate in order to ensure that all reasonable costs of implementing this chapter are borne by the mining operator.

(Ords. 2000-18 § 10; 79-114; Pub. Res.C. § 2774).

88-11.838 Amendments.

Amendments to an approved reclamation plan may be submitted to the planning agency at any time, detailing proposed changes. Substantial deviations from the approved plan shall not be undertaken until such

amendment has been filed with and approved by the planning agency. Amendments to an approved plan shall be processed and considered as provided in Section 88-11.808 for reclamation plans.

(Ord. 79-114; Pub. Res.C. § 2777).

88-11.840 Interim management plans (IMPs).

- (a) Within ninety days of a surface mining operation becoming idle, the operator shall submit to the community development department a proposed interim management plan (IMP). The proposed IMP shall fully comply with the requirements of SMARA, including, but not limited to, all site approval conditions, and shall provide measures the operator shall implement to maintain the site in a stable condition, taking into consideration public health and safety. The proposed IMP shall be submitted on forms provided by the community development department, and shall be processed as an amendment to the reclamation plan. IMPs shall not be considered a project for the purposes of environmental review.
- (b) Financial assurances for idle operations shall be maintained by the operator of the quarry as though the operation were active, or as otherwise approved through the idle mine's IMP.
- (c) Upon receipt of a complete proposed IMP, the community development department will forward the IMP to the State Department of Conservation for review. The IMP will be submitted to the State Department of Conservation at least thirty days prior to approval by the zoning administrator.
- (d) Within sixty days of receipt of the proposed IMP, or a longer period mutually agreed upon by the director of community development and the operator, the zoning administrator will review and approve or deny the IMP in accordance with this chapter. The operator shall have thirty days, or a longer period mutually agreed upon by the operator and the director of community development, to submit a revised IMP. The zoning administrator will approve or deny the revised IMP within sixty days of receipt. If the zoning administrator denies the revised IMP, the operator may appeal that action to the planning commission.
- (e) The IMP may remain in effect for a period of not to exceed five years, at which time the zoning administrator may renew the IMP for another period not to exceed five years, or require the surface mining operator to commence reclamation in accordance with its approved reclamation plan.

(Ord. 2000-18; § 11).

Article 88-11.10. Other Requirements

88-11.1001 Annual report requirements.

Surface mining operators shall forward an annual surface mining report to the State Department of Conservation and to the county community development department on a date established by the State Department of Conservation, upon forms furnished by the State Mining and Geology Board. New mining operations shall file an initial surface mining report and any applicable filing fees with the State Department of Conservation within thirty days of permit approval, or before commencement of operations, whichever is sooner. Any applicable fees, together with a copy of the annual inspection report, shall be forwarded to the State Department of Conservation at the time of filing the annual surface mining report.

(Ord. 2000-18; § 12).

88-11.1002 Periodic inspection of operations.

- (a) The community development department will arrange for inspection of a surface mining operation within six months of receipt of the annual report required in Section 88-11.1001, to determine whether the surface

mining operation is in compliance with the approved land use permit and/or reclamation plan, approved financial assurances, and state regulations. In no event shall less than one inspection be conducted in any calendar year. Said inspections may be made by a state-registered geologist or state-registered civil engineer who is experienced in land reclamation and who has not been employed by the mining operation in any capacity during the previous twelve months, as selected by the director of community development. All inspections shall be conducted using a form approved and provided by the State Mining and Geology Board.

The community development department will notify the State Department of Conservation within thirty days of completion of the inspection that said inspection has been conducted, and will forward a copy of said inspection notice and any supporting documentation to the mining operator. The operator shall be solely responsible for the reasonable cost of such inspection.

- (b) The director of community development may require the operator and permittee to submit such information as may be necessary to determine compliance.

(Ords. 2000-18 § 12; 79-114; Pub.Res.C. § 2774).

88-11.1004 Revocation.

Whenever the director of community development determines that a surface mining operation is not in compliance with the terms of the approved land use permit or reclamation plan or the provisions of this chapter, or that the soil or other conditions are not as stated on the permit, the director will notify the permittee of such fact in writing requiring compliance within a stated reasonable time from the date of such notice. If the permittee has not, within the stated time, complied with the terms of the permit or the approved reclamation plan or the requirements of this chapter, or given reasonable assurances that such steps are being taken to comply, the director of community development may schedule a public hearing to consider revoking the land use permit or the approval of the reclamation plan. The issue of revocation shall be considered and determined in the manner and for causes as provided by Article 26-2.20 of this code for conditional use permits.

(Ords. 2000-18 § 12; 79-114; Pub.Res.C. § 2774).

88-11.1006 Transfer of ownership—Operator responsibility.

Whenever one applicant operator or permittee succeeds, by sale, assignment, transfer, conveyance, exchange, inheritance, or other means, to the interest of another in any incomplete surface mining operation or reclamation, the successor shall be bound by the provisions of the approved land use permit and reclamation plan and the provisions of this chapter. The new operator must notify the community development department of such transfer within thirty days thereof.

(Ords. 2000-18 § 12; 79-114; Pub.Res.C. § 2779).

88-11.1008 Mineral resource protection.

Mine development is encouraged in compatible areas before encroachment of conflicting uses. Mineral resources areas that have been classified by the State Department of Conservation's Division of Mines and Geology or designated by the State Mining and Geology Board, as well as existing surface mining operations that remain in compliance with the provisions of this chapter, shall be protected from intrusion by incompatible land uses that may impede or preclude mineral extraction or processing, to the extent possible for consistency with the county's general plan.

In accordance with Public Resources Code Section 2762, the county's general plan and resource maps will be updated to reflect mineral information (classification and/or designation reports) within twelve months of receipt

from the State Mining and Geology Board of such information. Land use decisions within the county will be guided by information provided on the location of identified mineral resources of regional significance. Conservation and potential development of identified mineral resource areas will be considered and encouraged. Recordation on property titles of the presence of important mineral resources within the identified mineral resource areas may be encouraged as a condition of approval of any development project in the impacted area. Prior to approving a use that would otherwise be incompatible with mineral resource protection, conditions of approval may be applied to encroaching development projects to minimize potential conflicts.

(Ord. 2000-18; § 12).

88-11.1010 Natural disaster.

In the event of a natural disaster, such as high water conditions and potential for flooding or levee failure, the director of community development may authorize extended hours or weekend operations at a quarry that is a source of rock for emergency operations.

(Ord. 2000-18; § 12).

Article 88-12.2. General

88-12.202 Intent and purpose.

Adult entertainment businesses, because of their nature, are recognized as having objectionable operational characteristics, particularly when several of them are concentrated under certain circumstances, thereby having a deleterious effect upon the adjacent areas. Chapter 88-14 OIL AND GAS DRILLING AND PRODUCTION

Article 88-14.2. General

88-14.202 Intent and purpose.

The purpose of this chapter is to assure that oil and gas drilling and production activity is developed to be compatible with existing and planned surface uses. This chapter also seeks to assure maintenance of public health standards and protection of natural resources and public facilities. To this end, the following provisions are intended to establish reasonable regulation of oil and gas drilling and production activity.

(Ord. 86-61 § 5).

88-14.204 Scope.

This chapter provides review procedures of oil and gas drilling and production activity for all land use districts except the Planned Unit Development (P-1) district, which is subject to review procedures described in Chapter 84-66.

(Ord. 86-61 § 5).

88-14.206 Definitions.

As used in this code, unless the context otherwise requires, the following words and phrases shall have the meanings given in this section:

- (1) "Material alterations" means substantive modifications in the design or operation of an existing well, limited to installation of new compressor units, installation of oil storage or water condensation tanks, or installation of subsurface injection equipment to enhance natural flow of mineral resources.
- (2) "Oil and gas drilling and production activity" means all activities related to the exploration for and recovery of subsurface oil or gas deposits. This phrase excludes exploration methods not involving subsurface drilling activity.
- (3) "Urban land use designation" means those collective areas shown on land use element maps of the county general plan which are planned for either residential, commercial, industrial, office, country estate, interim agriculture or similar uses.

(Ord. 86-61 § 5).

Article 88-14.4. Uses

88-14.402 Permitted.

Oil and gas drilling and production activity is allowed within the Light Agricultural (A-1), General Agricultural (A-2), Heavy Agricultural (A-3), Agricultural Preserve (A-4) and Exclusive Agricultural (A-20, A-40, and A-80) land use districts subject to the administrative review and approval of the zoning administrator, provided the subject parcel is not located in any of the following areas:

- (1) Within one thousand feet of a city boundary;
- (2) Within an urban land use designation;
- (3) Within one thousand feet of an urban land use designation.

New oil and gas drilling and production activity may not commence, and material alterations to existing oil and gas wells may not be installed, until the zoning administrator certifies that the project site is located in a permitted use area and issues a permit. The zoning administrator shall impose conditions on permitted activity to assure maintenance of public health standards, protection of natural resources and public facilities, and compatibility with adjoining uses. Permits are valid for one year from the date of issuance. Failure, neglect or refusal to exercise a permit within one year from the date of issuance shall automatically cause the same to become null and void.

(Ord. 86-61 § 5).

88-14.404 Uses—Requiring land use permit.

New oil and gas drilling and production activity and material alterations to existing oil and gas wells are permitted on the issuance of a land use permit in the following districts:

- (1) Within the Light Agricultural (A-1), General Agricultural (A-2), Heavy Agricultural (A-3), Agricultural Preserve (A-4) and Exclusive Agricultural (A-20, A-40 and A-80) land use districts and within one or more of the areas enumerated in Section 88-14.402(1) through (3);

(Ord. 86-61 § 5).

Chapter 88-16 TAKE-OUT FOOD ESTABLISHMENTS

88-16.002 Findings and Intent.

The proliferation of trash, litter and sometimes garbage in areas surrounding take-out food establishments is unsightly, unhealthy and may have a negative effect on nearby property values. While proprietors of such businesses cannot be expected to control the conduct of their customers, they profit from the patronage of such customers, and they have the ability to pass through the costs of clean-up necessitated by illegal disposal of trash, litter and garbage originating from their businesses. It is therefore the intent of the board to impose upon the proprietors of such take-out food establishments, joint responsibility for the proper disposal of trash, litter and garbage originating from their business establishments.

(Ord. 89-5 § 2).

88-16.004 Definitions.

"Take-out food establishment" means and includes any business selling perishable food and/or beverages in disposable containers or wrapping for consumption off the premises. A business falling under the definition of "take-out food establishment" is a take-out food establishment for purposes of this chapter even if the take-out food aspect of the business amounts to only a small portion of the business' total income or sales activity. The term "take-out food establishment" includes fast food restaurants. It does not include food markets or stores selling food and beverage only in manufacturer prepackaged and sealed containers or wrapping, or requiring cooking or other preparation prior to consumption.

(Ord. 89-5 § 2).

88-16.006 Permit required.

No person shall establish, maintain or operate a take-out food establishment without obtaining a land use permit therefor pursuant to the provisions of this chapter.

(Ord. 89-5 § 2).

88-16.008 Conditions.

A land use permit to operate a take-out food establishment shall require the permittee and operator of the takeout food establishment to comply with the following conditions of approval:

- (1) At least three times a week, pick up and properly dispose of trash, litter and garbage originating from such take-out food establishment, deposited on public property within four hundred feet of any boundary of the premises on which such take-out food establishment is located.
- (2) Upon the request of any owner of private property located within four hundred feet of any boundary of the premises on which the take-out food establishment is located, at least three times a week, pick up and properly dispose of trash, litter and garbage originating from such take-out food establishment, deposited on such private property visible from a public street.

(Ord. 89-5 § 2).

88-16.010 Security.

- (a) Required. A cash deposit, letter of credit or corporate surety bond shall be deposited at all times to ensure compliance with the conditions required by this chapter.
- (b) Form. A corporate surety bond shall be in a form approved by the county counsel. An instrument of credit shall be in a form approved by the county counsel, from a financial institution regulated by the state or federal government pledging that the funds necessary to meet the performance are on deposit and guaranteed for payment on demand and agreeing that the funds designated by the instrument shall become trust funds for the purposes set forth in the instrument.
- (c) Amount. The amount of the security shall be determined by the zoning administrator and shall be in an amount sufficient to pay for the pick-up and disposal of trash, litter and garbage required by Section 88-16.006 approximately fifteen times. Should the amount of the security deposited fall below the amount required to be deposited, the difference shall be deposited forthwith so that at all times the county has access to the amount of security required by this section.
- (d) Performance Bond—Notice of Default. When the security deposited is in the form of a surety bond, and the director of community development finds that a default has occurred in the performance of any term or condition imposed pursuant to this chapter, ~~he~~ the director of community development shall give written notice thereof to the principal and surety on the bond, stating the work to be done, its estimated cost, and the period of time reasonably necessary to perform the condition.
- (e) Performance Bond—Duty of Surety. After receiving a notice of default, the surety shall have the required work performed within the time specified in the notice.
- (f) Other Security—Notice of Default. Whenever the instrument deposited is in the form of a cash deposit or instrument of credit, and the director of community development finds that a default has occurred in the performance of any term or condition imposed pursuant to this chapter, ~~he~~ the director of community development shall give written notice to the principal of those matters set forth in subsection (d) of this section. If the principal does not comply with the notice within the specified time, the director of community development may use any deposited cash to have the work done by contract or other means discretionary with the director of community development, or if the security is in the form of an instrument of credit, ~~he~~ the director of community development may demand immediate payment of the necessary funds from the financial institution, and use the funds as the director~~he~~ would a cash deposit.

(Ord. 89-5 § 2).

88-16.012 Alternative requirements.

Upon a showing of good cause relating to the physical situation of the take-out food establishment, the zoning administrator may modify the requirements imposed by Section 88-16.008, provided such modified requirements are consistent with the intent of this chapter.

(Ord. 89-5 § 2).

88-16.014 Requirements nonexclusive.

The requirements of this chapter are in addition to all other requirements imposed by law. Compliance with this chapter does not authorize the establishment, maintenance or operation of a take-out food establishment without complying with all other applicable requirements of this title and code on the establishment, maintenance or operation of such business.

(Ord. 89-5 § 2).

88-16.016 Enforcement.

In addition to any other remedy available under the law, a violation of any requirement of this chapter, or any condition imposed pursuant to this chapter, is also enforceable pursuant to the provisions of Sections 26-2.2020 through 26-2.2030, inclusive.

(Ord. 89-5 § 2).

Chapter 88-18 OFFSITE VESSEL ADVERTISING¹⁴

Article 88-18.2. General Provisions

88-18.202 Title.

This chapter shall be known as the Offsite Vessel Advertising Ordinance of Contra Costa County.

(Ord. 2001-23 § 2).

88-18.204 Findings.

The board of supervisors finds as follows:

- (a) Billboards and other offsite commercial signs on vessels on waters within the jurisdiction of the county cause visual blight, are distracting, create significant safety hazards to pedestrians and motorists, and reduce the value of waters within the jurisdiction of the county as a public attraction, because billboards and other offsite commercial signs tend to be frequently changed, are specifically and primarily intended to attract the public's attention, and do not enhance the natural beauty or scenery of waters within the jurisdiction of the county.
- (b) Onsite commercial signs on vessels on waters within the jurisdiction of the county, including signs identifying commercial shipping, industrial harbor watercraft, and tourist, passenger, and fishing vessels, or their services, goods, or commodities, are much less distracting, cause much less visual blight, and create significantly fewer safety hazards to pedestrians, motorists and boaters than do billboards and other offsite commercial signs, because onsite commercial signs are not changed frequently and often are used primarily for identification rather than to attract the public's attention.
- (c) Recreational and competitive sailing on sailboats on waters with the jurisdiction of the county enhance the public's recreational use and enjoyment of waters within the jurisdiction of the county, and promote the economic vitality of the county. Offsite commercial signs displayed on the hulls or sails of sailboats on waters within the jurisdiction of the county, including signs relating to commercial sponsorship, do not cause visual blight or create significant safety hazards to pedestrians and motorists, because sailboats that display offsite commercial signs on their hulls or sails tend to do so only incidentally, remain aesthetically pleasing and thus enhance the natural beauty and scenery of waters within the jurisdiction of the county and promote recreational uses of those waters.

¹⁴ For additional sign provisions, see Chapters 88-6, 88-8, and 88-9, this code. For additional vessel provisions, see Division 410, this code.

-
- (d) By adopting this ordinance, the board of supervisors does not intend to and is not regulating shipping or other activities on waters within the jurisdiction of the county to the extent that state or federal laws or regulations, including the Shipping Act of 1984 (46 U.S.C. § 1701 et seq)., preempt such regulation.

(Ord. 2001-23 § 2).

88-18.206 Purpose.

The purpose of this chapter is to regulate the display of billboards and other offsite commercial signs on vessels on waters within the jurisdiction of the county in order to protect and enhance the aesthetic value, natural beauty and scenery of waters within the jurisdiction of the county, reduce visual blight, reduce safety hazards to pedestrians, motorists and boaters, protect and enhance the value of waters within the jurisdiction of the county as a public attraction, and promote recreational uses of waters within the jurisdiction of the county. An application for a temporary meteorological tower permit must comply with the special permit provisions of Article 26-2.20 and will be considered under the administrative decision procedure specified in Article 26-2.21.
- (c) A temporary meteorological tower permit may be extended once for a period of up to six months, as long as the application to extend the permit is submitted at least thirty days before the permit expiration date. A temporary meteorological tower operating under a temporary meteorological tower permit extension is not a permanent meteorological tower.
- (d) If an application for a proposed temporary meteorological permit does not demonstrate that the tower will comply with the development standards in subsection (a) of Section 88-22.406, the applicant may apply for a land use permit to modify those development standards.

An application for a permit under this section must include all of the information specified in Section 26-2.2002 and the following information:

- (a) A description of the purpose of the proposed meteorological tower, including the type of data collected, and whether such data will be used for commercial, personal, industrial, or other purposes.
- (b) Site and landscape plans drawn to scale.
- (c) Documentation regarding: ownership of the parcel of the proposed meteorological tower; any real property interests, such as easements, encumbering that parcel; and authorization to use the proposed site by the property owners.
- (d) A United States Geological Survey map showing the location of the proposed meteorological tower; the existing topography, structures, utility lines, and roads on the parcel of the proposed tower; and any structures proposed to be located within one hundred fifty feet of the tower.
- (e) A description of how the meteorological tower will comply with the development standards in Section 88-22.406.

(Ord. No. 2013-17, § II, 8-13-13)

88-22.606 Notice requirements.

In addition to providing notice pursuant to Section 26-2.2004 of this code, the department of conservation and development will give notice by mail at least ten days prior to deciding any application pursuant to this chapter, to the following entities under the following conditions:

- (a) The Contra Costa County Airport Land Use Commission, if the meteorological tower will be located within an airport influence area or will exceed two hundred feet in height.
- (b) The California Aircraft Agricultural Commission, if the meteorological tower will be located in or immediately adjacent to agriculturally zoned land.

(Ord. No. 2013-17, § II, 8-13-13)

88-22.608 Cash deposit required.

- (a) Prior to obtaining any permit required by this chapter, an applicant must submit a cost estimate prepared by a contractor that details the cost of removing the meteorological tower and restoring the site to its pre-tower condition. The cost estimate provided must include all material and labor involved. In granting any permit required by this chapter, the zoning administrator will condition the permit on the permittee making a cash deposit in an amount equal to the cost estimate.
- (b) The deposit will be used to fix any damage caused by the operation or removal of the meteorological tower or to restore the meteorological tower site to its pre-construction condition. The zoning administrator will give written notice to permittee prior to using some or all of the cash deposit. If the zoning administrator uses any or all of the deposit to fix this damage, the permittee must make an additional cash deposit to restore the balance of the deposit to the initial amount.

-
- (c) A permittee must immediately remove the meteorological tower upon termination or expiration of the permit and must restore the site to its pre-construction condition. After the permittee removes the meteorological tower, the zoning administrator will refund the deposit to permittee, less any amounts used to fix any damage caused by the operation or removal of the meteorological tower or to restore the site to its pre-construction condition.

(Ord. No. 2013-17, § II, 8-13-13)

Chapter 88-24 WIRELESS TELECOMMUNICATION FACILITIES

Article 88-24.2. General Provisions.

88-24.202. Purpose.

- (a) The purpose of this chapter is to establish criteria for the location and design of wireless telecommunication facilities in the county, consistent with state and federal requirements. This chapter is intended to advance and promote the following goals:
- (1) Enable wireless telecommunication service providers to provide high quality wireless communications service infrastructure to serve the current and future needs of the county's residents, businesses, and local governments.
 - (2) Avoid adverse visual and aesthetic impacts of wireless telecommunication facilities by regulating the location and design of the facilities in a manner that is consistent with state and federal laws and regulations, including the 1996 Federal Telecommunications Act and the regulations promulgated under that act.
 - (3) Protect and enhance the public health, safety, and welfare of county residents.
 - (4) Encourage collocation of wireless telecommunication facilities whenever feasible.
- (b) This chapter establishes requirements that apply to wireless telecommunications facilities consistent with the limitations imposed on the county under state and federal law. Under federal law, the county may not regulate the type of technology used on a wireless telecommunications facility, regulate any facility not located on county-owned property based on radio-frequency emissions emitted by the facility, discriminate between providers of wireless telecommunication services, or prohibit the provision of personal wireless service. Federal law requires the county to allow minor alterations to facilities. Under state law, if an existing facility was approved under a discretionary land use permit following environmental review, the county must allow new facilities to collocate on the existing facility. State law authorizes the county to impose reasonable time, place, and manner restrictions on facilities located within the county's rights-of-way.

(Ord. No. 2016-11, § II, 5-24-16)

(Ord. No. 2016-11, § II, 5-24-16)

88-24.206. Applicability.

- (a) Application. Except as specified in this section, the requirements of this chapter apply to all of the following: a new facility, a relocated facility, a facility that is removed and replaced, a substantial change to a facility, a collocation on a collocation-eligible facility, and a minor alteration to a facility.
- (b) Requirements Cumulative. The requirements of this chapter are in addition to any other applicable requirements of this code, and state and federal laws and regulations, that apply to the location, design, construction, installation, operation, and licensing of each facility.
- (c) Exemptions. The following facilities are exempt from this chapter:
 - (1) An antenna or facility that is expressly exempt from local regulation by any state or federal law or regulation, or by any permit issued by California Public Utilities Commission or Federal Communications Commission.
 - (2) A facility for non-commercial telecommunication purposes that:
 - (A) Is located on private property;
 - (B) Does not exceed the height limit for the zoning district in which it is located; and
 - (C) Is operated either as a part of the amateur radio service under Title 47, Code of Federal Regulations, Part 97, or as part of a citizen's band radio system under Title 47, Code of Federal Regulations, Part 65, Subpart D.
 - (3) A microwave dish or satellite dish measuring seventy-two inches or less in diameter that receives but does not transmit radio or television wireless signals.
 - (4) A facility that is established temporarily and meets both of the following requirements:

-
- (A) The facility is established during or after a community-wide emergency or natural disaster declared by any federal, state, or local official, or during or after an emergency as defined in Title 14, California Code of Regulations, section 15359.
 - (B) The Facility is Established for Sixty Days or Less.  - (E) If a minor alteration is made to the previously permitted facility, a minor alteration permit under this chapter must be obtained for the minor alteration.
 - (F) If the previously-issued land use permit or other discretionary approval expires and is not renewed before the discretionary approval expires, a permit under this chapter must be obtained for the facility.

(Ord. No. 2016-11, § II, 5-24-16)

Article 88-24.4. Facility Location, Design, and Operation.

88-24.402. Location of facilities in county right-of-way and county-owned property.

- (a) Facilities Within a County Right-of-Way.
 - (1) A new facility may be located within a county right-of-way pursuant to Public Utilities Code section 7901 only under a wireless facility access permit issued by the county under this chapter. A facility

located in a county right-of-way may be substantially changed only under a wireless facility access permit issued by the county under this chapter.

- (2) In addition to the requirements of this chapter, the requirements of Chapters 1002-4 and 1002-8 apply to the construction of, or substantial change to, a facility under a wireless facility access permit. If there is any conflict between the requirements of this chapter and the requirements of Chapters 1002-4 and 1002-8, the requirements of this chapter will govern. The remaining requirements of Division 1002 do not apply to a wireless facility access permit issued under this chapter.
- (b) County-Owned Property. An antenna or facility may be located on county-owned property, or on any county-owned facility, if the applicant satisfies both of the following requirements:
- (1) The Applicant Must Obtain a Land Use Permit Under This Chapter. In addition to the information that must be submitted to obtain a land use permit under this chapter, the applicant must provide the county sufficient information to enable the county's chief information officer to determine whether the applicant's antenna or facility will interfere with existing antennas or facilities located on the county-owned property or county-owned facility. A land use permit for a facility on county-owned property or a county-owned facility will include location, operation, and other requirements that the county's chief information officer determines are necessary to prevent the applicant's antenna or facility from interfering with any other antennas or facilities on the county-owned property or the county-owned facility.
 - (2) The applicant must enter into a lease, license, or other agreement with the county. The county has sole discretion to determine whether to lease, license, or otherwise convey an interest in, any of its property or facilities, and the terms of any lease, license, or other agreement may be more restrictive than the requirements of this chapter.

(Ord. No. 2016-11, § II, 5-24-16)

88-24.404. Location requirements applicable within residential zoning districts.

No new high-visibility facility or new tower may be established in, or within three hundred feet of, any of the following:

- (a) A single-family residential (R-), two-family residential (D-1), multiple-family residential (M-), water recreational (F-1), mobile home/manufactured home park (T-1), or Kensington combining (-K) zoning district.
- (b) A residential lot within a planned unit (P-1) zoning district.

(Ord. No. 2016-11, § II, 5-24-16)

88-24.406. Location requirements.

Except as otherwise specified in Sections 88-24.402 and 88-24.404, the location requirements of this section apply to all facilities in all zoning districts:

- (a) Collocation Encouraged. The collocation of facilities with existing or proposed collocation-eligible facilities is encouraged.
- (b) Proximity of Towers. No new tower may be located within one thousand feet of an existing tower, unless the zoning administrator finds both of the following:

-
- (1) The cumulative visual and aesthetic impacts of the tower will be less than significant with or without the incorporation of mitigation measures identified during the California Environmental Quality Act environmental review process for the tower.
 - (2) The existing tower is not a collocation-eligible facility, or collocation is not otherwise possible.
- (c) Avoiding Impacts to Ridges, Scenic Ridges, and Peaks.
- (1) No facility may be located on a ridge or peak unless the facility is required to close a significant gap in coverage. The zoning administrator will determine whether the facility is required to close a significant gap in coverage based on information provided by the applicant in accordance with subsection 88-24.604(a)(5). If it is feasible to close the significant gap in coverage by collocating a new facility on an existing facility on or near the ridge or peak, the new facility must be collocated. If it is not feasible to close the significant gap in coverage by collocating a new facility on an existing facility on or near the ridge or peak, in its application for a permit under this chapter the applicant must explain why collocation is infeasible.
 - (2) Notwithstanding anything to the contrary in subsection 88-24.406(c)(1), no facility may be located within fifty horizontal feet of any ridge or peak within the Mount Diablo area, or within fifty horizontal feet of any scenic ridge located in a non-urban area, unless the zoning administrator finds that the facility will not result in significant visual or aesthetic impacts with or without the incorporation of mitigation measures identified during the California Environmental Quality Act environmental review process for the facility. No facility may extend above the height of a ridge or peak within the Mount Diablo area, or above the height of a scenic ridge in a non-urban area, unless the zoning administrator determines that an extension of the facility above the ridge, peak, or scenic ridge will not result in significant visual or aesthetic impacts.
- (d) Setback Requirements. A facility that is used for AM, FM, international, or television broadcast service, or that receives television signals for processing and distribution over a cable network (a cable "headend" facility), must meet the setback distance that is the greater of: the setback requirement that applies within the zoning district in which it is located; or a distance equivalent to one hundred ten percent of the height of the facility. All other ground-mounted antenna support structures or towers must meet the setback requirements that apply in the zoning district where the facility is located.
- (e) High-Visibility Facilities. A high-visibility facility must be located within the facility site at a location that the zoning administrator finds will have the least visual and aesthetic impacts to the surrounding lots. If a building exists on a lot, no high-visibility facility may be located on the lot between the face of the building and any public street, bikeway, trail, or park.

(Ord. No. 2016-11, § II, 5-24-16)

88-24.408. Design requirements.

- (a) Except as otherwise specified in subsections (b) through (f), a facility must meet all of the following requirements in order to limit the facility's visual and aesthetic impacts:
 - (1) A facility must be designed to minimize its visual and aesthetic impacts on, and to blend in with, the surrounding area.
 - (2) A facility must have a non-reflective finish and be painted and textured to match or blend with the predominant background.
 - (3) A facility other than a stealth facility, or portion thereof, that is visible against the skyline must be painted light gray, or a similar color approved by the zoning administrator, or camouflaged, and have a reflectivity of less than fifty-five percent, unless the California Public Utilities Commission, Federal

Communications Commission, Federal Aviation Administration, or any state or federal law, regulation, or rule requires the facility or antenna to be painted, designed, or marked otherwise.

- (b) Design Requirements Applicable to Facilities in Residential Zones. A facility on private property located in a single-family residential (R-), two-family residential (D-1), multiple-family residential (M-), water recreational (F-1), mobile home/manufactured home park (T-1), or Kensington combining (-K) district, or that is located on a residential lot within a planned unit (P-1) zoning district, must be a low-visibility facility.
- (c) Design Requirements Applicable to Façade-Mounted Antennas.
 - (1) Visibility. Except for any portion of a façade-mounted antenna that extends above the roofline and is visible against the skyline, a façade-mounted antenna that is not a stealth antenna must be painted a color that matches or blends with the color of the façade on which it is mounted. Any portion of a façade-mounted antenna, other than a stealth antenna, that extends above the roofline and is visible against the skyline must be painted as described in subsection (a)(3). Any equipment enclosure that serves a façade-mounted antenna must be painted a color that matches the color of the surface on which it is mounted.
 - (2) Installation. A façade-mounted antenna must be installed at least eight feet above ground level. A façade-mounted antenna must be mounted directly on the exterior lateral face of a building or facility.
 - (3) Maximum Extension. No façade-mounted antenna may extend more than twenty-four inches from the face of the building or structure on which the antenna is mounted. No façade-mounted antenna may extend beyond the corner or edge of the wall on which it is mounted, except that a façade-mounted antenna may extend above the roofline of the facility.
- (d) Design Requirements Applicable to Roof-Mounted Antennas. Any portion of a roof-mounted antenna other than a stealth antenna that is visible against the skyline must be painted in the manner described in subsection (a)(3). Any other portion of a roof-mounted antenna other than a stealth antenna must be painted a color that matches or blends with the color of the primary background against which the roof-mounted antenna is viewed from ground level. Any equipment enclosure that serves a roof-mounted antenna must be painted a color that matches the color of the surface on which it is mounted.
- (e) Design Requirements Applicable to Towers. In addition to meeting the requirements in subsection (a), a tower and any equipment enclosure and all ancillary equipment that serve a tower must be screened and surrounded by a fence or wall at least six feet in height. Each door or gate must be lockable. Each fence or wall must have a non-reflective finish and be painted and textured to match or blend with the predominant background color in order to minimize visual and aesthetic impacts.
- (f) Requirements Applicable to Facilities Within a County Right-of-Way. In addition to meeting all applicable requirements in subsections (a) through (e), a facility within a county right-of-way must meet the following requirements:
 - (1) A facility must be designed and located so that it does not impair vehicle circulation or parking within the right-of-way. A facility must not impede or impair vehicle, bicycle, or pedestrian access to or within the right-of-way. If the zoning administrator, in consultation with the public works department, determines that a turnout is necessary to avoid impairing vehicle circulation or parking within the right-of-way, the applicant must construct and maintain the turnout.
 - (2) A facility must be designed and located as follows:
 - (A) No more than four antenna enclosures may be located on a single utility pole or streetlight pole in a county right-of-way within or adjacent to a residential zone. No facility may be located on a county traffic signal pole.

-
- (B) An equipment enclosure that serves a facility or antenna must be installed below ground, or must be installed at grade and camouflaged. Each below-ground equipment enclosure must be accessible by a flush-to-grade portal.
 - (C) No antenna may extend above the height of the pole or facility on which it is mounted by more than ten feet.
 - (D) No antenna may extend over the vehicular path of travel within the right-of-way.
 - (E) Any portion of a facility or antenna not extending above the height of the pole or facility on which it is located must be painted to match the color of that pole or facility.
 - (F) A facility or antenna must incorporate any other reasonable, feasible alteration that the zoning administrator determines is necessary to reduce the visual or aesthetic impacts of the facility or antenna.
 - (G) Ancillary equipment not enclosed in an equipment enclosure must be installed at a location the zoning administrator determines will minimize visual and aesthetic impacts to the greatest extent feasible.
- (3) A facility, an equipment enclosure, and ancillary equipment must be designed and located in a manner that does not violate any accessibility requirements of the Americans with Disabilities Act.
 - (4) A facility, an equipment enclosure, and ancillary equipment must be designed and located in a manner that does not obstruct the roadway views of vehicles, bicycles, and pedestrians traveling within the County right-of-way, and does not obstruct the visibility of signs located within the right-of-way.
 - (5) No facility may include any advertising material.
 - (6) No facility may include any type of lighted signal, lights, or other illumination, except to the extent required under state or federal law.
 - (7) A facility that will be located on a streetlight pole must be located so that it does not block the required illumination provided by the streetlight.

(Ord. No. 2016-11, § II, 5-24-16)

88-24.410. Placards.

A facility and every façade-mounted antenna, roof-mounted antenna, and ground-mounted antenna, must include a placard that states the name, phone number, and address of the service provider and permittee, and all safety precautions or other statements required by the California Public Utilities Commission and Federal Communications Commission. The placard must be mounted on or near the facility or antenna at a location that is visible from ground-level. For any facility that is surrounded by a fence or wall, the placard must be mounted on the exterior of the fence or wall.

(Ord. No. 2016-11, § II, 5-24-16)

88-24.412. Safety and security.

A facility must meet the following facility safety and security requirements:

- (a) All ancillary equipment must be enclosed in an equipment enclosure. The equipment enclosure must be locked at all times, except as otherwise approved by the zoning administrator.

-
- (b) No lights or beacons may be installed on any antenna or antenna support structure, unless lights or beacons are required by a state or federal agency having jurisdiction over the antenna or antenna support structure, such as the California Public Utilities Commission, Federal Communications Commission, or Federal Aviation Administration, or if lights or beacons are recommended by the county airport land use commission.
 - (c) A ground-mounted facility and every tower must include physical measures designed to prevent climbing by unauthorized persons.

(Ord. No. 2016-11, § II, 5-24-16)

88-24.414. Building standards, maintenance, and operational requirements.

- (a) A facility must be constructed and maintained in compliance with all applicable local, state, and federal laws and regulations, including County building, electrical, and fire codes.
- (b) A facility must be maintained in working order and kept graffiti and litter-free.
- (c) A facility, all fences and walls surrounding the facility, and all other fixtures and improvements on a facility site must be repainted as often as necessary to prevent fading, chipping, or weathering of paint.
- (d) Any landscaping at a facility site must be maintained in a healthy state. Dead or dying landscaping must be replaced.
- (e) If any stealth facility is designed as a flagpole, one or more flags must be flown and properly maintained on the flagpole during daylight hours.
- (f) A permittee must notify the zoning administrator within thirty days after any facility license or registration required by any local, state, or federal agency is revoked, modified, replaced, reissued, or suspended.
- (g) No facility may be operated at a frequency that will interfere with an emergency communication system or 911 system, including any regional emergency communication system.
- (h) Five years after the date a land use permit, collocation permit, or wireless facility access permit is issued under this chapter, and every five years thereafter, a permittee must submit to the zoning administrator a certification that:
 - (A) States the location of the facility, identifies the land use permit, collocation permit, or wireless facility access permit under which the certification is submitted, and states the date on which the permit was issued; and
 - (B) States that the facility is in compliance with all applicable county permits, county ordinances, and state and federal laws and regulations.

(Ord. No. 2016-11, § II, 5-24-16)

Article 88-24.6. Permits and Fees.

88-24.602. Permit required.

812-4.210 Reasonable methods for mitigating conditions of overcrowding.

"Reasonable methods for mitigating conditions of overcrowding" includes, but is not limited to, agreements between a subdivider and the affected school district whereby temporary-use buildings will be leased to the school district or temporary-use buildings owned by the school district will be used.

(Ord. 78-10).

812-4.212 Other methods for mitigating conditions of overcrowding.

"Other methods for mitigating conditions of overcrowding" may include, but is not limited to the following:

"Residential development" includes, but is not limited to, a preliminary or final development plan, a subdivision tentative or final map, a parcel map, conditional use permit, a building permit, and any other discretionary permit for new residential use.

(Ord. 78-10).

Chapter 812-6 OVERCROWDED ATTENDANCE AREAS

812-6.202 Findings and notice.

Pursuant to Chapter 4.7, the governing body of a school district may make findings supported by clear and convincing evidence that:

- (1) Conditions of overcrowding exist in one or more attendance areas within the district which will impair the normal functioning of educational programs including the reason for such conditions existing;
- (2) All reasonable methods of mitigating conditions of overcrowding have been evaluated; and
- (3) No feasible method for reducing such conditions exist. Upon making these findings the school district must provide the county with notice of its findings.

(Ord. 78-10).

812-6.204 Notice of findings requirements.

Any notice of findings sent by a school district to the county shall specify:

- (1) The findings listed in Section 812-6.202;
- (2) The mitigation measures and methods, including those listed in Sections 812-4.210 and 812-4.212, considered by the school district and any determination made concerning them by the district;
- (3) A description of the geographic boundaries of the overcrowded attendance area or areas;
- (4) Estimated annual school district costs to provide interim school facilities in the overcrowded attendance area or areas; and
- (5) Such other information as may be required by board regulation.

(Ords. 79-68 § 1, 78-10).

812-6.206 County concurrence.

After the receipt of any notice of findings complying with the requirement of Section 812-6.204, the board shall determine whether it concurs in such school district findings. The board shall schedule and hold a public hearing on the matter of its proposed concurrence prior to making its determination by resolution.

(Ord. 78-10).

812-6.208 Findings for development approval.

Within an attendance area where the board has concurred in a school district's notice of findings that conditions of overcrowding exist, the county's planning agency shall not approve an ordinance rezoning property to a residential use, grant a discretionary permit for residential use, or approve a tentative subdivision map for residential purposes, within such area, unless the planning agency makes one of the following findings:

- (1) That this division is an ordinance adopted pursuant to Section 65974 of Chapter 4.7;
- (2) That there are specific overriding fiscal, economic, social, or environmental factors which in the judgment of the planning agency would benefit the county, thereby justifying the approval of a residential development otherwise subject to the interim school facilities dedication provisions of this division.

(Ord. 78-10).

812-6.210 School district schedule.

Following the concurrence and decision by the county to require the dedication of land or the payment of fees, or both, for an attendance area, the governing body of the involved school district shall submit a schedule specifying how it will use the land or fees, or both, to solve the conditions of overcrowding. The schedule shall include the school sites to be used, the classroom facilities to be made available, and the times when such facilities will be available. In the event the governing body of the school district cannot meet the schedule, it shall submit modifications to the board of supervisors and the reasons for the modification.

(Ord. 78-10).

Chapter 812-8 REQUIREMENTS

812-8.202 Residential development.

In an attendance area where the board has concurred as provided in Chapter 812-6, the owner of a proposed residential development as a condition of approval or the obtaining of a building permit shall dedicate land, pay fees in lieu thereof, or do a combination of both, for classroom and related facilities for elementary and/or high schools including all mandated educational programs.

(Ord. 78-10).

812-8.204 Subdivision fee limit.

Only the payment of fees is required for the approval of a subdivision map containing fifty parcels or less.

(Ord. 78-10).

812-8.206 Exemptions.

Residential developments shall be exempt from the requirements of this division when they consist only of the following:

-
- (1) Any modification or remodel of an existing legally established dwelling unit that does not create an additional dwelling unit;
 - (2) A condominium project converting an existing apartment building into a condominium where no new dwelling units are added;
 - (3) Any rebuilding of a legally established dwelling unit destroyed or damaged by fire, explosion, act of God or other accident or catastrophe;
 - (4) Any rebuilding of an historical building recognized, acknowledged and designated as such by the planning agency.

(Ord. 78-10).

812-8.208 Prior agreements.

Any agreement existing prior to March 3, 1978, between a school district and a developer pertaining to the dedication of land and/or payment of fees for school facilities shall be recognized by the planning agency and shall be considered by it as satisfying this division's requirements.

(Ord. 78-10).

Chapter 812-10 STANDARDS FOR LAND AND FEES

812-10.202 General standard.

The location and amount of land to be dedicated or the amount of fees to be paid, or both, shall bear a reasonable relationship and will be limited to the needs of the community for interim elementary and/or high school facilities including all mandated educational programs and shall be reasonably related and limited to the need for schools caused by the development.

(Ord. 78-10).

812-10.204 Amount of land.

The total land area required by this division to be dedicated shall be at least equal in monetary value to the fees which would otherwise be required by Section 812-10.206. The planning agency shall determine and establish the monetary value of the land area for the purposes of this division.

(Ord. 78-10).

812-10.206 Amount of fee.

- (a) Resolution. When fees are required by this division to be paid in lieu of land dedication or as a combination of both, such fees shall be, and paid, as set by board resolution adopted after recommendation by the director of planning.
- (b) Bedroom and Dwelling. The resolution shall fix a per bedroom fee and a total maximum dwelling unit fee. Any room designed for sleeping which has a closet is a bedroom for the purposes of this division.
- (c) Mobile Home Parks. The resolution shall fix a fee for each dwelling unit space or lot in a mobile home park.

-
- (d) Costs. Among the factors to be considered when establishing fees by resolution are: any school district notice of findings, cost estimates, the costs of local leasing of portable facilities, construction of interim school facilities, and air conditioning.

(Ords. 79-68 § 2, 78-10).

Chapter 812-12 PROCEDURES

812-12.202 Application filing.

At the time of filing an application for the issuance of a building permit or for the approval of a proposed residential development (rezoning, tentative subdivision map or discretionary permit) located in an attendance area where the board has concurred as provided in Chapter 812-6, the applicant shall, as part of such filing, indicate whether ~~the applicant~~ prefers to dedicate land for interim school facilities or to pay a fee in lieu thereof, or do a combination of these. If the applicant prefers to dedicate land, ~~the applicant~~ shall suggest the specific land.

(Ord. 78-10).

812-12.204 Decision factors.

At the time of initial residential development or building permit approval, the planning agency shall determine whether to require a dedication of land within the development, payment of a fee in lieu thereof, or a combination of both. In making this determination, the agency shall consider the following factors:

- (1) Whether lands offered for dedication will be consistent with the general plan;
- (2) The topography, soils, soil stability, drainage, access, location and general utility of land in the development available for dedication;
- (3) Whether the location and amount of lands proposed to be dedicated or the amount of fees to be paid, or both, will bear a reasonable relationship and will be limited to the needs of the community for interim elementary and/or high school facilities including all mandated educational programs and will be reasonably related and limited to the need for schools caused by the development;
- (4) Any recommendations made by affected school districts concerning the location and amount of lands to be dedicated;
- (5) If only a subdivision is proposed, whether it will contain fifty parcels or less.

(Ord. 78-10).

812-12.206 Land dedication.

When land is to be dedicated, it shall be offered for dedication in substantially the same manner as prescribed in the county's subdivision ordinance for streets and public easements.

(Ord. 78-10).

812-12.208 Fee payment.

If the payment of a fee is required, such payment shall be made at the time the building permit is approved and issued.

(Ord. 78-10).

812-12.210 Trust land and fees.

Land and fees shall be held in trust by the county until transferred to the school district operating schools in the attendance area from which the land or fees were collected.

(Ord. 78-10).

812-12.212 County refunds.

- (a) If a final subdivision map, a parcel map, conditional use permit, development plan, or building permit is vacated or voided and if the county still retains the land and/or fees collected for it, and if the applicant so requests, the board shall order return to the applicant of such land and/or fees.
- (b) If a final subdivision map, a parcel map, conditional use permit, development plan, or building permit is cancelled or voided, and if the affected school district still retains the land and/or fees transferred to it by the county, and if the applicant so requests, the school district shall return to the applicant such land and/or fees.

(Ord. 78-10).

812-12.214 School facilities and developer requirements.

When a school district is levying a fee, charge, dedication, or other form of requirement against a development project within its boundaries pursuant to Section 53080 and Chapter 4.9 (Section 65995 ff) of the Government Code and has notified the county's building inspector of the levy, that school district's levy shall satisfy any requirements of this chapter upon the building inspector's receipt of appropriate certification from the district of compliance by the involved development project with its levy; provided, that if a school district's certificate of compliance notifies the county's building inspector that its levy for a development project is less than any fee established pursuant to this chapter for the project's attendance area, the building inspector shall credit the school levy against this chapter's required fee prior to its collection.

(Ord. 86-99).

Chapter 812-14 USE AND LIMITS

812-14.202 Use of land and fees.

All land or fees, or both, collected pursuant to this division and transferred to a school district shall be used only for the purpose of providing interim elementary or high school classroom and related facilities, including all mandated educational programs.

(Ord. 78-10).

812-14.204 Agreement for fee distribution.

Where two separate school districts operate schools in an attendance area where the board concurs that overcrowding conditions exist for both school districts, the board will enter into an agreement with the governing body of each school district for the purpose of determining the distribution of revenues from the fees levied pursuant to this division.

(Ord. 78-10).

812-14.206 Fee fund and land records and reports.

Any school district receiving funds or land pursuant to this division shall maintain a separate account for any fees paid and disposition of land received and shall file a report with the board on the balance in the account at the end of the previous fiscal year and the facilities leased, purchased, or constructed during the previous fiscal year. In addition, the report shall specify which attendance areas will continue to be overcrowded when the fall term begins and where conditions of overcrowding will no longer exist. Such report shall be filed by August 1st of each year and shall be filed more frequently at the request of the board.

(Ord. 78-10).

812-14.208 Termination of dedication requirements.

When it is determined that overcrowding conditions no longer exist in an attendance area, the county shall cease levying any fee or requiring the dedication of any land pursuant to this division for the area.

(Ord. 78-10).

Division 814 SLOPE AND HILLSIDE DEVELOPMENT

Chapter 814-2 SD-1 SLOPE DENSITY AND HILLSIDE DEVELOPMENT COMBINING DISTRICT

Article 814-2.2. General

814-2.202 SD-1 Combining district.

All land within a land use district combined with an SDHD-I slope density and hillside development combining district shall be subject to the regulations in this chapter.

(Ord. 79-8).

814-2.204 Findings.

The board finds and declares that:

- (1) The terrain of certain areas of the county provides a unique and substantial character to the area, and forms an integral part of the county's total environment;

-
- (2) Due to their physical prominence in the county's landscape, development of hillside areas affects the visual and environmental character of the county;
 - (3) Hillside development should preserve the natural terrain, environmental quality and aesthetic character of the county, while providing creative, innovative and safe residential development with a variety of housing types; and
 - (4) Paragraph (3) can be achieved only when special consideration is given to those developments and subdivisions on and near hillsides, and to variations in conditions, design criteria and other requirements which must be flexible in order to achieve hillside development that is consistent with the foregoing findings and the objectives set forth in this article.

(Ord. 79-8).

814-2.206 Objectives.

- (a) The justifying objectives of this chapter's regulation of residential slope density and hillside development are to:
 - (1) Encourage minimal grading which affects the natural contour of the land and which will round off, in a natural manner, sharp angles at the top and ends of cut-and-fill slopes;
 - (2) Require retention of trees and other vegetation which stabilize steep hillsides, retain moisture, minimize erosion and enhance the natural scenic beauty, and where necessary, require additional landscaping to enhance the scenic and safety qualities of the hillsides;
 - (3) Require planting wherever appropriate to maintain necessary cut-and-fill slopes, to stabilize them by plant roots, and to conceal the raw soil from view;
 - (4) Require retention of natural landmarks and prominent natural features that enhance the character of a particular area of the county;
 - (5) Achieve land use residential densities that are in keeping with the county's general plan, with the result that such densities will usually diminish as the slope of terrain increases, in order to retain the significant natural features of hillside area;
 - (6) Minimize the water runoff and soil erosion problems incurred in adjustment of hillside terrain to meet on-site and off-site development needs;
 - (7) Retain open hillsides and significant ridgelines in as near a natural state as is feasible as an important community value;
 - (8) Encourage the planning, design and development of hillside area building sites so as to provide maximum safety and human enjoyment; and
 - (9) Provide for the preservation and maintenance of significant ridgelines, open space and recreational lands.
- (b) The attractiveness of hillside and ridgeline areas and the other objectives specified in this article are important factors of the general welfare of the citizens of the county, and reasonable control of residential slope density and hillside development is in the public interest.

(Ord. 79-8).

Article 814-2.4. Underlying Land Use District

814-2.402 Application.

The SD-1 district may be combined with, and made applicable to land in, any planned unit district or agricultural district when such land is located in a general plan residential area, or with any single-family or two family residential district.

(Ord. 79-8).

814-2.404 Uses.

The following uses are allowed in the SDHD-I combining district:

- (1) Those uses allowed by full compliance with the combined underlying residential, agricultural or planned unit district's regulations; and
- (2) A detached single-family dwelling on each legally established lot and the accessory structures and uses normally auxiliary to it (Ord. 79-8).

814-2.406 Priority.

Where there is any conflict between the regulations of this chapter and those of the combined underlying zoning district, the requirements of this chapter shall govern, except that the required minimum lot size shall remain that of the underlying zoning district.

(Ord. 79-8).

Article 814-2.6. Residential Slope Density

814-2.602 Allowed density.

The residential dwelling unit densities in the SD-1 district shall be computed in accordance with the table in Section 814-2.612, depending upon the average slope of the natural terrain proposed for development and the consideration of all other applicable county regulations, and consistent with the general plan.

(Ord. 79-8).

814-2.604 Average slope formula.

The average slope of a parcel of land or portion thereof shall be computed by the formula:

$$AS = \frac{0.00229IL}{A}$$

(Ord. 79-8).

814-2.606 Formula letters.

The letters in the average slope formula have the following meanings:

- (1) AS = Average percent slope;
- (2) I = Contour interval, in feet;
- (3) L = Summation of length of contours, in feet; and
- (4) A = Area in acres of the parcel of land being considered.

(Ord. 79-8).

814-2.608 Percent of slope.

For the purposes of the average slope formula, percent of slope is the vertical drop in feet divided by the horizontal distance in feet multiplied by one hundred.

(Ord. 79-8).

814-2.610 Cliffs and ravines excluded.

Any portion of a proposed residential development site with an existing topographical feature, such as a cliff or deep ravine, may be excluded from the determination of allowable density and must be deleted from any lot area contribution if the remaining portion of the parcel meets the requirements of this chapter. Any area so excluded shall also be precluded from any further residential development by scenic easement, deed of development rights, or other appropriate method.

(Ord. 79-8).

814-2.612 Density table.

The allowable density of residential dwelling units per net acre (after subtracting areas required for streets and schools) is shown on this table. The allowable density indicated on this table, however, does not preclude the zoning administrator from determining that a lower density, or larger lots, from that indicated is required in order to meet the findings, objectives and other criteria as established in this chapter.

Article 814-2.8. Development Standards

814-2.802 General.

The development standards in this article are the minimum necessary to insure that this chapter's intent and purpose are accomplished.

(Ord. 79-8).

814-2.804 Design.

Streets, buildings, and other manmade structures shall be designed and located to complement the natural terrain and landscape.

(Ord. 79-8).

814-2.806 Ridge views.

Off- and on-development-site views of significant ridges shall not be substantially impaired. To determine which ridges are subject to this provision, the criteria set forth in the findings and objectives sections of this chapter shall be utilized.

(Ord. 79-8).

814-2.808 Hillside streets.

Hillside street standards shall reflect a rural rather than urban character. Street alignments, where feasible, should be parallel to contours. Where a street location between a valley and ridge is unavoidable, directional pavements should be separated, with the principle of grading being half cut and half fill. Intermittent widening of streets for parking and turnarounds at appropriate places shall be encouraged.

(Ord. 79-8).

814-2.810 Street lighting.

Street lighting provided as part of a development in hillside areas shall be of low profile design, unobtrusive, and design to enhance a rural character of the area.

(Ord. 79-8).

814-2.812 Walkways.

When required, walkways shall be provided in accordance with a complete pedestrian circulation plan, and not rigidly appended into every street.

(Ord. 79-8).

814-2.814 Trails.

Bicycle and equestrian trails, if required, shall be integrated into an overall circulation plan for any development.

(Ord. 79-8).

814-2.816 Parking.

Parking shall be provided off-street, with adequate provision for at least four spaces for each dwelling unit.

(Ord. 79-8).

814-2.818 Improvement exceptions.

If necessary, exceptions to the requirements of Titles 7 and 9 may be allowed in the manner provided therein to meet the standards and to accomplish the findings and objectives of this chapter.

(Ord. 79-8).

Article 814-2.10. Grading

814-2.1002 General restriction.

Any parcel of land subject to this chapter with an average slope of more than twenty-six percent and/or significant ridgelines and hilltops, regardless of their slope, shall not be graded without the specific authorization of the director of planning. Such grading shall only be done after it is shown, to the satisfaction of the director of

planning (or the planning agency when it has jurisdiction), that the proposed grading development will comply with the objectives and regulations of this chapter and will not have a substantial visual impact when viewed from related community areas.

(Ord. 79-8).

814-2.1004 Environmental design.

Grading shall consider the environmental characteristics of that land, including, but not limited to, prominent geological features, existing stream beds and significant tree cover, and shall use the best engineering practices to avoid erosion, slides or flooding, and to have a minimal effect on this environment.

(Ord. 79-8).

814-2.1006 Conditions.

To keep all graded areas and cuts and fills to a minimum, eliminate unsightly grading, preserve and maximize the natural appearance and beauty of the property, and to implement this chapter, the director of planning or the planning agency may impose requirements on the size of the areas to be graded or to be used for building, on the size, height, and angles of cut slopes and fill slopes, and the shape thereof. In appropriate cases, retaining walls may be required.

(Ord. 79-8).

Article 814-2.12. Open Areas

814-2.1202 Provision.

A portion of every proposed residential development located on a parcel of land with an average slope of more than twenty-six percent shall remain in its natural state as an undeveloped open area with no grading, tree or foliage removal, or structure or other development thereon.

(Ord. 79-8).

814-2.1204 Location.

The undeveloped open areas required by this article shall be located primarily on the upper elevations of any particular residential development site, and shall include significant hilltops and ridges and other topographical landmarks, open exposed hillsides, recreational areas, or areas of environmental significance.

(Ord. 79-8).

814-2.1206 Ownership and maintenance.

Areas to remain as undeveloped open areas may be required to be offered for dedication to be part of a public open space or park system. Where such dedication offer is not to be accepted, the developer shall provide, as required, for the ownership, appropriate access, and necessary care and maintenance of the open area.

(Ord. 79-8).

Article 814-2.14. Development Plans

814-2.1402 Requirement.

No development is lawful in an SDHD- 1 district until a development plan for it has been submitted to and approved by the zoning administrator.

- (a) Review. The zoning administrator shall review development plan applications, for approval, modification or denial, in public hearing pursuant to and otherwise regulated by the land use permit provisions of Chapter 26-2.
- (b) Approval. In approving the application, ~~he~~ the zoning administrator shall find that it is consistent with the purpose of this district and that it is compatible with other uses in the vicinity, both inside and outside the district.
- (c) Changes. When any plan has been approved by the zoning administrator, it shall not thereafter be changed except with the zoning administrator's ~~his~~ approval after review, for which the zoning administrator ~~he~~ may schedule a public hearing under Chapter 26-2.
- (d) Conditions. The zoning administrator may impose reasonable conditions and limitations, in addition to the requirements listed in this article, to carry out the purpose of this district.

(Ord. 79-8).

814-2.1408 Exception.

Where it is established to the satisfaction of the director of planning that a vacant parcel of land is a legal lot and has an average slope not exceeding thirty percent, or any significant ridgelines and hilltops, one detached single-family dwelling may be located on the lot without being subject to the application submittal, development plan review and approval provisions of this article.

(Ord. 79-8).

Replacement plantings can be required on the tree owner's or the claimant's property.
- (5) In those cases where tree removal eliminates or significantly reduces the tree owner's benefits of shading, visual screening, or privacy, replacement screen plantings shall, at the tree owner's option, be established prior to tree removal; notwithstanding the provisions of subsection (4) of this section, the tree owner may choose tree removal with replacement plantings as an alternative to trimming, thinning, windowing, or topping.

(Ord. 84-3).

Article 816-2.8. Procedure

A claimant who believes in good faith that the growth, maintenance, or location of trees situated on the property of another diminishes the beneficial use, economic value and enjoyment of views naturally accruing to the claimant's property shall notify the tree owner in writing of such concerns. The submission of said notification to the tree owner should be accompanied by personal discussions, if possible, to enable the claimant and the tree owner to attempt to reach a mutually agreeable solution to the alleged view obstruction in accordance with the provisions of this chapter.

(Ord. 84-3).

816-2.804 Arbitration.

Where the initial reconciliation process fails, the claimant and the tree owner may elect binding arbitration pursuant to this chapter to resolve the alleged view obstruction. The view arbitrator shall be fully qualified under this chapter and shall be agreed to by both the claimant and the tree owner, who shall indicate such agreement in writing and with the arbitrator's consent. The arbitration agreement may provide for employment of experts representing the parties or may be limited to an investigation of the view claim conducted by the view arbitrator. The view arbitrator shall follow the terms and conditions of this chapter to reach a fair resolution of the view claim, and shall submit a complete written report to the claimant and the tree owner. The report shall include the view arbitrator's findings with respect to all standards listed in Article 816-2.6 and a complete listing of all mandated restorative actions. All mandated restorative actions shall be implemented within thirty days of the delivery of the arbitration report to the claimant and the tree owner, or within such other period recommended by expert advice to be required by seasons of the year, type of tree, etc. The findings of the view arbitrator shall be final.

(Ord. 84-3).

816-2.806 Costs.

The costs of arbitration and all mandated restorative actions and/or replacement plantings shall be apportioned between the claimant and the tree owner as mutually agreed to, or in the absence of agreement as follows:

- (1) The claimant and tree owner shall each pay fifty percent of such costs in those cases involving any tree planted by the tree owner subsequent to March 1,1984.
- (2) In all other cases, the claimant shall pay one hundred percent of such costs.

(Ord. 84-3).

816-2.808 Litigation.

In those cases where the initial reconciliation process fails to resolve the view claim and binding arbitration is not chosen by the parties, civil legal action may be pursued by the claimant.

(Ord. 84-3).

Article 816-2.10. Liabilities and Enforcement

816-2.1002 Liabilities.

The issuance of an arbitration report pursuant to this chapter does not establish any public use or access not already in existence with regard to the property for which the arbitration report and decision are issued, and does not create any liability for the county, any other public agency or entity, or the arbitrator with regard to any restorative actions or replacement plantings to be performed.

(Ord. 84-3).

816-2.1004 Enforcement.

Violations of this chapter are not misdemeanors or infractions. Enforcement of this chapter shall be by the involved private parties. Any claimant may seek to enforce any restorative action mandated pursuant to this chapter through ordinary legal proceedings.

(Ord. 84-3).

Chapter 816-4 HERITAGE TREE PRESERVATION (HTP) DISTRICT

Article 816-4.2. General

816-4.202 HTP district.

All land within Contra Costa County shall be subject to the provisions in this chapter.

(Ord. 88-83).

816-4.204 Intent and findings.

- (a) Among the features that contribute to the attractiveness and livability of the county are its heritage trees growing as single specimens, in clusters or in woodland situations. These trees have significant psychological and tangible benefits for both residents of and visitors to the county.
- (b) Heritage trees contribute to the visual framework of the county by providing scale, color, silhouette and mass. Heritage trees contribute to the climate of the county by providing shade, moisture and wind control. Heritage trees contribute to the protection of other natural resources by providing erosion control for the soil, oxygen for the air, replenishment of groundwater, and habitat for wildlife. Heritage trees contribute to the economy of the county by sustaining property values and reducing the cost of drainage systems for surface water. Heritage trees provide landmarks of the county's history, and a critical element of nature in the midst of urban settlement.
- (c) For all these reasons, it is in the interest of the public health, safety and welfare of the county to regulate the removal of heritage trees, to require adequate protection of trees during construction, and to promote the appreciation and understanding of heritage trees.

(Ord. 88-83).

816-4.206 Regulations.

- (a) The community development department, after consulting with and considering the recommendations of the building inspection, public works and agriculture department, may from time to time propose to the board of supervisors regulations to establish procedures to implement this chapter and to make more specific the standards and guidelines prescribed in this chapter. Such regulations as are approved by resolution of the board of supervisors shall have the force and effect of law unless otherwise indicated.
- (b) Regulations may be promulgated to set forth criteria for granting and denying destruction permits and, among other things, to govern the marking of heritage trees and the prevention of excessive pruning.

(Ord. 88-83).

816-4.208 Arboricultural expertise.

All departments engaged in decisions regarding heritage trees may utilize such qualified arboricultural expertise as is required to implement this chapter in accordance with their current budget accounts.

(Ord. 88-83).

- (2) Any tree or a group of trees particularly worthy of protection, and specifically designated as a heritage tree by the board of supervisors pursuant to the provisions of this chapter, because of:
 - (A) Having historical or ecological interest or significance, or
 - (B) Being dependent upon each other for health or survival, or
 - (C) Being considered an outstanding specimen of its species as to such factors as location, size, age, rarity, shape, or health.

(Ord. 88-83).

816-4.404 Designation.

- (a) The county or regional planning commission for its territorial area of jurisdiction shall receive nominations through the county community development department from any person for the registration of heritage trees on any property. When any property's owner has not joined with or consented to a nomination, that owner shall be provided timely notice of the date and time at which the planning commission and/or board will consider the nomination.
- (b) If the planning commission approves the nominated trees, this decision shall be forwarded to the board for its consideration. If the board approves the heritage tree designation as recommended, then the tree shall be officially registered by resolution and thereafter a permit shall be required for its removal.

-
- (c) If the planning commission does not approve a heritage tree nomination, its decision is final unless appealed to the board pursuant to and otherwise regulated by the special permit provisions of Chapter 26-2.
 - (d) The planning commission or board in designating a heritage tree shall consider the criteria of Section 816-4.402.
 - (e) All designated heritage trees shall be appropriately marked with the permission of involved property owners so as to provide continuing notice to the public of heritage tree status.
 - (f) A nomination fee of one hundred dollars shall be imposed per application. An appeal fee of fifty dollars per appeal shall be assessed.
- (Ord. 88-83).

Article 816-4.6. Destruction or Removal

816-4.602 Prohibition.

Except as provided in this chapter, no person shall destroy or remove any designated heritage tree unless a permit has been obtained therefor. This chapter does not require a permit for nor prevent trimming, pruning, or maintenance of a heritage tree where such does not result in destruction nor substantially change the tree's form or shape.

(Ord. 88-83).

816-4.604 Emergency destruction.

In case of an emergency caused by any designated heritage tree being in a hazardous or dangerous condition requiring immediate action for the safety of structures or human life, such tree may be removed with the permission of the zoning administrator or building inspector if designated by the zoning administrator, without formal application. The zoning administrator may request certification from a tree expert as to the immediate need for action if the need is not clearly apparent.

(Ord. 88-83).

Article 816-4.8. Preservation

816-4.802 Encroachment, construction or excavation.

When proposed developments or construction encroach into the drip line or a radius of twelve feet from the trunk of any designated heritage tree, whichever is greater, special construction to allow the roots to breathe, obtain water and nutrients shall be required, as determined necessary by the building inspection department to minimize damage to such tree visible above ground level. Excavation, cuts, fills or compaction of the existing ground surface within the drip line or a radius of twelve feet from the trunk of a designated heritage tree, whichever is greater, shall minimize such damage to the root system so as to result in least damage to such tree. Permission is required prior to back filling. Tree wells may be used where approved by the building inspection department. The cost of required pruning or other treatment to compensate for root damage and/or cost of removal shall be at the expense of the involved developer and/or contractor but may be shared by the owner. Such pruning as is done shall not cause permanent injury or destroy any designated heritage tree.

(Ord. 88-83).

816-4.804 Storage and dumping.

No person shall store or dump any oil, gas, or chemicals that may be harmful to trees, nor place heavy construction machinery or construction materials in the open within the drip line of any designated heritage tree or within a radius of twelve feet from the trunk of such tree, whichever is greater.

(Ord. 88-83).

816-4.806 Burning.

Burning of any material within or near the drip line of any designated heritage tree shall not be done where such will injure the tree.

(Ord. 88-83).

816-4.808 Attachments.

No person shall attach any wire (except as needed for support) or sign (other than approved tree identification signs) to any heritage tree where such wire or sign may damage such designated heritage tree.

(Ord. 88-83).

816-4.810 Damage notification.

The contractor, developer or owner or any agent thereof shall notify the building inspection department without undue delay of any damage that occurs to any heritage tree during construction. The cost of repair of the damage or tree replacement shall be at the expense of the responsible party and the repair work done according to standards approved by the building inspection department.

(Ord. 88-83).

Article 816-4.10. Permits

816-4.1002 Application.

- (a) Any application for a permit to destroy, cut down or remove a designated heritage tree shall be submitted to the community development department by the owner or the owner's authorized agent (satisfactory evidence of such authorization to be submitted with the application) on the form provided by the community development department together with any specified fee.
- (b) The application shall contain the location, number, species, size, and heritage designation of the tree to be destroyed, cut down or removed and a statement of reasons for the proposed action, together with such other information as may be required by the community development department.

(Ord. 88-83).

816-4.1004 Procedure.

Before issuing a permit, the zoning administrator shall have inspected or cause to be inspected, the property, the heritage tree that is the subject of the permit, and the surrounding area. A permit shall be granted, modified, conditioned, or denied based upon the following factors:

- (1) The health, damage, danger of falling of the designated heritage tree that is the subject of the permit and whether said heritage tree acts as a host for plants or animals parasitic to other trees which are endangered thereby.
- (2) The presence of public nuisance factors, and the proximity to or interference with utilities, or interference with existing buildings to the extent that a tree or trees cannot be trimmed or buttressed to fit the site.
- (3) The prevention of development as a result of heritage tree protection and preservation.
- (4) The pursuit of good professional practices of forestry or landscape design.

(Ord. 88-83).

816-4.1006 Appeal.

The zoning administrator's decision on the permit application is final unless appealed to the planning commission having territorial jurisdiction pursuant to and otherwise regulated by the special permit provisions of Chapter 26-2.

(Ord. 88-83).

816-4.1008 Development coordination.

- (a) An application for a permit to destroy, cut down or remove any designated heritage tree in connection with any development, shall be submitted and combined with the initial application for approval of the development and shall be considered together with the review and decision on the development.
- (b) The proposed development shall indicate on its plan all trees designated as heritage trees. The heritage trees shall be evaluated and their individual treatment considered with respect to the land use and proposed development.
- (c) The involved planning agency division may grant, grant with modifications or conditions, or deny the requested heritage tree application.
- (d) Any appeal of a decision made by a planning agency division on the requested heritage tree application shall be made in the same manner and subject to the same procedure as a decision on the involved combined planning or subdivision entitlement for the development.

(Ord. 88-83).

816-4.1010 Priority.

In the case of any conflict between the provisions of this chapter and those of Chapter 816-2, the provisions of this Chapter 816-4 shall prevail.

(Ord. 88-83).

Article 816-6.8. Applications

816-6.8002 Permit requirement.

Any person proposing to trench, grade or fill within the dripline of any protected tree or cut down, destroy, trim by topping or remove any protected tree shall apply to the department for a tree permit, not less than ten days prior to the proposed tree removal or tree alterations.

Persons who would be eligible to apply for three or more individual tree permits under provisions of this chapter may apply for a collective tree permit for the site.

(Ords. 94-59, 94-22).

816-6.8004 Application.

In addition to any other applicable requirements of this code and county ordinances, the application shall include the following information and items:

- (1) The number, size (including height and diameter measured four and one-half feet above ground), species, location, dripline and condition of each tree proposed to be altered or removed;
- (2) The reason(s) for alteration or removal;
- (3) A plot plan showing the approximate location of all trees on the site, including those proposed to remain;
- (4) Proposed method of tree alteration or removal;
- (5) Information indicating the effect of tree alteration or removal on soil stability and erosion if located on a steep slope or near any creek;

- (10) Application and permit fees.

(Ords. 94-59, 94-22).

816-6.8006 Review and site inspection.

Prior to making a decision, the director or ~~the director's his~~ designee shall review the application using the criteria and factors specified in this article. Application review may include a site visit.

(Ords. 94-59, 94-22).

816-6.8008 Arborist or forester report.

If the reasons for alteration or removal relate to the health of the tree or if grading, trenching or filling is proposed under the dripline of an existing tree, or the review is of a collective tree permit and the director determines that more technical expertise is necessary to make the decision, a report prepared by an arborist may be required, to be paid for by the applicant.

(Ords. 94-59, 94-22).

816-6.8010 Factors.

In granting or denying the tree permit the following factors shall be considered:

- (1) General.
 - (A) The proximity and number of other trees in the vicinity;
 - (B) The relationship of the subject property to general plan open space or open space plans and policies.
- (2) For Approval.
 - (A) The arborist report indicates that the tree is in poor health and cannot be saved;
 - (B) The tree is a public nuisance and is causing damage to public utilities or streets and sidewalks that cannot be mitigated by some other means (such as root barriers etc.);
 - (C) The tree is in danger of falling and cannot be saved by some other means (such as pruning);
 - (D) The tree is damaging existing private improvements on the lot such as a building foundation, walls, patios, decks, roofs, retaining walls, etc.;
 - (E) The tree is a species known to be highly combustible and is determined to be a fire hazard;
 - (F) The proposed tree species or the form of the tree does not merit saving (i.e., a tree stunted in growth, poorly formed, etc.);
 - (G) Reasonable development of the property would require the alteration or removal of the tree and this development could not be reasonably accommodated on another area of the lot;
 - (H) The tree is a species known to develop weaknesses that affect the health of the tree or the safety of people and property. These species characteristics include but are not limited to short lived, weak wooded and subject to limb breakage, shallow rooted and subject to toppling.
 - (I) Where the arborist or forester report has been required, and the director is satisfied that the issuance of a permit will not negatively affect the sustainability of the resource.
- (3) For Denial.
 - (A) The applicant seeks permission for the alteration or removal of a healthy tree that can be avoided by reasonable redesign of the site plan prior to project approval (for nondiscretionary permits);
 - (B) It is reasonably likely that alteration or removal of the tree will cause problems with drainage, erosion control, land stability, windscreen, visual screening, and/or privacy and said problems cannot be mitigated as part of the proposed removal of the tree;

-
- (C) The tree to be removed is a member of a group of trees in which each tree is dependent upon the others for survival;
 - (D) The value of the tree to the neighborhood in terms of visual effect, wind screening, privacy and neighboring vegetation is greater than the hardship to the owner;
 - (E) If the permit involves trenching or grading and there are other reasonable alternatives including an alternate route, use of retaining walls, use of pier and grade beam foundations and/or relocating site improvements;
 - (F) Any other reasonable and relevant factors specified by the director.

(Ords. 94-59, 94-22).

816-6.8012 Decision.

The director shall grant or deny tree permits in accordance with this chapter and code. If a permit is granted, the director may attach conditions to insure compliance with this chapter and code. These conditions may include a requirement to replace any or all trees on a comparable ratio of either size or quantity. Single tree permits shall be valid for a period of ninety days and may be renewed for additional periods by the director upon request by the applicant. Collective tree permits shall be valid for a period of time to be determined by the director based upon individual circumstances.

If a permit is denied, the director shall state the reason for denial. Notice of decision shall be mailed to the applicant.

(Ords. 94-59, 94-22).

816-6.8014 Appeals.

Any person may appeal the director's decision within ten calendar days of the director's decision to the planning commission having jurisdiction in accordance with Chapter 26-2. Further appeals may be made as provided by Chapter 26-2. Appeals shall be made in writing and state the specific reasons why the decision does not meet the criteria and factors for granting or denial of a permit as stated in this chapter.

(Ords. 94-59, 94-22).

Article 816-6.10. Permit Exceptions

816-6.1002 No permit.

A tree permit is not required for the following situations:

- (1) Hazardous Situation. Any tree whose condition creates a hazardous situation which requires immediate action as determined by the director, building inspector, sheriff, involved fire district or a utility company to protect its facilities. During off-hours, when officials described above are unavailable, the hazardous situation may be corrected and a report of the incident and description of the hazard shall be submitted to the director within ten days of the incident.
- (2) Prior Approval. Any tree whose removal was specifically approved as a part of an approved development plan, subdivision, other discretionary project or a building permit.
- (3) Routine pruning not involving topping or tree removal.

-
- (4) Commercial plantings. Planting, removal and harvesting in connection with Christmas tree farms, orchards and nurseries.
 - (5) Rangeland Management. Normal activities associated with range management and the disposition of wood incidental to rangeland management on agriculturally zoned properties (with each parcel containing at least twenty acres but also including properties in adjacent common ownership interest of at least twenty acres), will not require a tree permit. "Rangeland management activities" are defined as including, but not limited to, the clearing and thinning of trees for purposes of reducing fire risk or enhancement of forage production, removing obstruction to stormwater runoff flow, maintaining adequate clearance on range roads and fire trails, fencing maintenance and protecting equipment and constructions.
 - (6) Public Agencies/Utilities. Trimming and clearing within public agency or utility easements and rights-of-way for maintenance of easement or right-of-way will not require a tree permit. Lands owned by public utilities and used for administrative purposes or uses unrelated to the public service provided by the utility are not exempted under this provision.

(Ords. 94-59, 94-22).

816-6.1004 Proposed development.

- (a) On any property proposed for development approval, tree alterations or removal shall be considered as a part of the project application.
- (b) All trees proposed to be removed, altered or otherwise affected by development construction shall be clearly indicated on all grading, site and development plans. Except where the director otherwise provides, a tree survey shall be submitted as a part of the project application indicating the number, size, species and location of the dripline of all trees on the property. This survey shall be overlaid on the proposed grading and development plans. The plan shall include a tabulation of all trees proposed for removal.
- (c) The granting or denial of a tree removal program which is a part of a development proposal covered by this section shall be subject to Sections 816-6.8008 and 816-6.8014. A separate tree removal permit shall not be required.

(Ords. 94-59, 94-22).

Article 816-6.12. Tree Protection

816-6.1202 Tree protection.

Except where otherwise provided by the involved development's conditions of approval or approved permit application, on all properties where trees are required to be saved during the course of development, the developer shall follow the following tree preservation standards:

- (1) Prior to the start of any clearing, stockpiling, trenching, grading, compaction, paving or change in ground elevation on a site with trees to be preserved, the applicant shall install fencing at the dripline or other area as determined by an arborist report of all trees adjacent to or in the area to be altered. Prior to grading or issuance of any permits, the fences may be inspected and the location thereof approved by appropriate county staff.
- (2) No grading, compaction, stockpiling, trenching, paving or change in ground elevation shall be permitted within the dripline unless indicated on the grading plans approved by the county and addressed in any required report prepared by an arborist. If grading or construction is approved within the dripline, an arborist may be required to be present during grading operations. The arborist shall

have the authority to require protective measures to protect the roots. Upon completion of grading and construction, an involved arborist shall prepare a report outlining further methods required for tree protection if any are required. All arborist expense shall be borne by the developer and applicant unless otherwise provided by the development's conditions of approval.

- (3) No parking or storing vehicles, equipment, machinery or construction materials, construction trailers and no dumping of oils or chemicals shall be permitted within the dripline of any tree to be saved.

(Ords. 94-59, 94-22).

816-6.1204 Deposit conditions.

Prior to the issuance of any grading or building permit for a property where trees are required by this chapter to be saved, the owner or developer shall deposit cash or other acceptable security with the department on a per tree basis in the amount established by the involved development's conditions of approval or approved applications.

As required, the county may hold the deposit for a two-year period to guarantee the health of the trees for a two-year period upon completion of construction. In addition, the applicant or developer may be required to enter into a tree maintenance agreement secured by said deposit/bond by which they agree to maintain said trees in a living and viable condition throughout the term of the agreement. This agreement may be transferred to any new owner of the property for the remaining length of the agreement.

(Ords. 94-59, 94-22).

816-6.1206 Construction tree damage.

A development's property owner or developer shall notify the department of any damage that occurs to any tree during the construction process. The owner or developer shall repair any damage as determined by an arborist designated by the director.

Any tree not approved for destruction or removal that dies or is significantly damaged as a result of construction or grading shall be replaced with a tree or trees of equivalent size and of a species as approved by the director to be reasonably appropriate for the particular situation.

(Ords. 94-59, 94-22).

816-6.1208 Violations.

Violations of this chapter are punishable and may be corrected in any manner provided by this code or as otherwise allowed by law. Each tree damaged or removed in violation of this chapter shall constitute a separate offense.

(Ords. 94-59, 94-22).

Division 818 COMMUNITY FACILITY FEES

Chapter 818-2 FIRE PROTECTION FACILITIES

Article 818-2.2. General

818-2.202 Purpose and intent.

The purpose of this chapter is to provide a method for financing fire protection facilities required by the goals and policies of the general plan and necessitated by the needs of new construction and development for adequate fire protection facilities and services. Failure to provide these facilities and services would place residents of the completed construction and service area in a condition perilous to their health and safety.

(Ords. 90-35, 86-49).

818-2.204 General plan.

The fire protection plan part of the community facilities element of the county's general plan provides for the location of fire station and facilities. Fees collected pursuant to this chapter shall be used for fire protection facilities consistent with the general plan.

(Ords. 90-35, 86-49).

818-2.206 Regulations.

The board may from time to time, by resolution, issue regulations to establish administration, procedures, interpretation and policy direction for this chapter.

(Ords. 90-35, 86-49).

Article 818-2.4. Definitions

818-2.402 Generally.

Unless otherwise specifically provided, or required by the context, the following terms have the meanings set forth in this article for the purposes of this chapter.

(Ords. 90-35, 86-49).

818-2.404 Fire district.

"Fire district" means a district in this county organized under the Fire Protection District Law of 1967.

(Ords. 90-35, 86-49).

818-2.406 Fire protection facilities.

"Fire protection facilities" means fire stations (including furnishing and fixtures), sites, appurtenant equipment (including vehicles), and appropriate share of central facilities (administration, dispatch, repair shop, and training) which are designed, developed and used to provide the full spectrum of fire protection services to a given service area.

(Ords. 90-35, 86-49).

818-2.408 Floor space.

"Floor space" means "floor area" as the latter term is defined in Section 407 of the Uniform Building Code as adopted by Division 74 of this code.

(Ords. 90-35, 86-49).

818-2.410 New construction.

- (a) Residential. "New construction," when applied to the construction of residential buildings or the installation of mobilehomes, means construction or installation which increases the number of dwelling units on a given lot.
- (b) Nonresidential. "New construction," when applied to the construction or installation of nonresidential buildings, means construction or installation which increases the amount of floor space for nonresidential building purposes on a given lot.

(Ords. 90-35, 86-49).

818-2.412 Overextended.

A service area's fire protection facilities are "overextended," when determined not to be adequate by the involved fire district and the board of supervisors, following review and acceptance of a district-prepared report on fire facility needs which considers factors including current and needed fire protection and station facilities, response time, present and expected population growth and density, geographical conditions, water supply, and implementation of the fire protection plan part of the community facilities element of the county's general plan.

(Ords. 90-35, 86-49).

818-2.414 Service area.

The "service area" for given fire protection facilities is that geographical area within a fire district, including both incorporated and unincorporated territory, within which the fire protection facilities are located and to which the fire protection facilities are the primary provider of fire protection services. The precise boundaries of a given service area shall be finally determined by the board of supervisors and may include an entire district.

(Ords. 90-35, 86-49).

Article 818-2.6. Fees

818-2.602 Requirement.

Within the unincorporated portion of any service area for which existing fire protection facilities are overextended, a fire protection facilities fee computed pursuant to this chapter shall be paid as a condition precedent to the issuance of any building permit for new construction.

(Ords. 90-35, 86-49).

818-2.604 Residential credit.

With respect to residential buildings or mobilehomes constructed or installed within a development where the development was approved subject to the condition that the developer pay fire protection facilities fees (which have been paid to the involved district), a credit shall be given against Section 818-2.602's fee on account of such paid fees.

(Ords. 90-35, 86-49).

818-2.606 Use of fee.

All fire protection facilities fees collected pursuant to this chapter shall be deposited in a restricted account within the county treasury. All moneys deposited in such account together with any interest earned thereon, shall be used only for the purposes of acquiring or improving fire protection facilities serving the service area, or portions thereof, from which the fees were collected.

(Ords. 90-35, 86-49).

818-2.608 Administration fee.

In addition to the fire protection facilities fee imposed by Section 818-2.602, an administration fee shall also be paid as a condition precedent to the issuance of any building permit for new construction. The administration fee shall be in an amount equal to the estimated average cost, as determined by the board of supervisors from time to time, of processing such permit in accordance with the provisions of this chapter.

(Ord. 90-35, 86-49).

818-2.610 Refund.

- (a) Error. Any fee erroneously collected under color of this chapter shall be refunded without interest to the payor if, within one hundred eighty calendar days after the date on which such fee was deposited in the county treasury, the payor files a written application therefor with the director of building inspection and provides proof of such error satisfactory to the director of building inspection.
- (b) Permit Termination. Any fire protection facilities fee collected pursuant to Section 818-2.602 shall be refunded without interest to the payor if the building permit to which it relates is cancelled or expires prior to commencement of construction pursuant thereto and if the payor files a written application for the refund with the director of building inspection within one hundred eighty calendar days after such cancellation or expiration.

(Ords. 90-35, 86-49).

818-2.612 Acceptable agreement.

Where an involved fire district and the developer of proposed new construction have entered a written secured agreement for the developer's provision of fire protection facilities, the planning agency may accept that agreement as satisfying this chapter and in lieu of the fees required by Section 8 18-2.602. Before accepting such an agreement, the planning agency shall be satisfied that the agreement is enforceable and provides for facilities consistent with this chapter's requirements.

(Ord. 90-35, 86-49).

Article 818-2.8. Fire Districts' Findings

818-2.802 Findings and notice.

Pursuant to this chapter, the board of directors, commissioners or fire chief of a fire district may make findings supported by documentation that fire protection facilities within a service area or areas are overextended. Upon making these findings, the fire district must provide the county with a notice of findings' report.

(Ords. 90-35, 86-49).

818-2.804 Report requirements.

Any notice of findings' report sent by a fire district to the county shall specify:

- (1) Description. A legal description and map of the geographic boundaries of the proposed service area or areas.
- (2) Findings. The findings of Section 818- 2.802 and supporting documentation which considers factors, including current and needed fire protection and fire station facilities to mitigate the overextended area's facilities, response time, present and expected population growth and density, geographical conditions, water supply, staffing levels, support facilities impact, building construction type, incident type and frequency, and implementation of the fire protection plan part of the community facilities element of the general plan.
- (3) Costs. Estimates of the total cost of additional fire protection facilities needed to mitigate the overextended area's facilities and the portion of that total cost proposed to be allocated to, and collected from, new residential and nonresidential construction. Division 820 RIGHT TO FARM

Chapter 820-2 GENERAL

820-2.002 Short title.

This division shall be known and may be cited as the Right To Farm Ordinance.

(Ord. 97-38 § 2).

820-2.004 Findings.

- (1) It is the declared policy of this county to enhance and encourage agricultural operations within the county. It is the further intent of this county to provide to its residents proper notification of the county's recognition and support, through this division, of the right to farm. (County General Plan, Section 8-7).

-
- (2) Where non-agricultural land uses extend into agricultural areas or exist side by side, agricultural operations frequently can be the subjects of nuisance complaints. As a result, agricultural operators may be forced to cease or curtail their operations. Such actions discourage investments in farm improvements, to the detriment of adjacent agricultural uses and the economic viability of the county's agricultural industry as a whole. It is the purpose and intent of this division to prevent the loss to the county of its agricultural resources by clarifying the circumstances under which agricultural operations may be considered a nuisance.
 - (3) An additional purpose of the ordinance codified in this division is to promote a good-neighbor policy by requiring notification of purchasers and users of property adjacent to or near agricultural operations of the inherent potential problems associated with such purchase or residential use. Such concerns may include, but are not limited to, the noise, odors, dust, chemicals, smoke, and hours of operation that may accompany agricultural operations. It is intended that, through mandatory disclosures, purchasers and users will better understand the impact of living near agricultural operations and be prepared to accept attendant conditions as the natural result of living in or near rural areas.
 - (4) The ordinance codified in this division is intended to carry out and advance the county's agricultural resources goals, policies, and implementation measures as set forth in the conservation element of the county general plan.

(Ord. 97-38 § 2).

820-2.006 Definitions.

As used in this division, unless the context otherwise requires, the following words and phrases shall have the meanings given in this section:

- (1) "Agricultural land" means all that real property within the unincorporated area of the county currently used for agricultural operations, zoned for agricultural use, designated for agricultural purposes by the county general plan, or upon which agricultural operations may in the future be established, including publicly-owned land designated for park, recreation, open space, watershed, or other public purposes.
- (2) "Agricultural operation" means and includes the present and future application and use of agricultural technology (including the application of agricultural chemicals) for, but not limited to, the cultivation and tillage of the soil; dairying; the production, irrigation, frost protection, cultivation, growing, harvesting, and processing of any agricultural commodity, including viticulture, horticulture, timber or apiculture; the raising of livestock, fur-bearing animals, fish or poultry; and any commercial agricultural practices performed incident to or in conjunction with such operations, including preparation for market, delivery to storage or to market, or delivery to carriers for transportation to market.
- (3) "Agricultural processing operation" means and includes the canning or freezing of agricultural products, the processing of dairy products, the production and bottling of wine, the processing of meat and egg products, the drying of fruits and grains, the packing and cooling of fruits and vegetables, and the storage or warehousing of any agricultural products, and shall include processing for wholesale or retail markets of agricultural products.
- (4) "Continuous operation" means at least thirty days of agricultural processing operations per year.
- (5) "Proper and accepted customs and standards" means compliance with all applicable state and federal statutes and regulations governing agricultural operations or agricultural processing operations with respect to the condition or effect alleged to be a nuisance.

If the property you are purchasing is located in the unincorporated area of the county, near agricultural lands or operations, or included within an area zoned or designated by the County General Plan for agricultural purposes, including such operations located on publicly-owned land designated for park, recreation, open space, watershed, or other public purposes, you may be subject to inconveniences or discomfort arising from such operations. Article 822-2.6. Review

822-2.602 Applications.

- (a) An applicant may submit a written proposal for the specific concessions or incentives that the applicant requests. The county will grant the concession or incentive requested by the applicant unless the county makes a written finding pursuant to Government Code Section 65915(d).
- (b) If existing development or zoning standards, including, but not limited to, such items as minimum lot size, side yard setbacks, and placement of public works improvements, would otherwise inhibit the utilization of a density bonus on a specific site, an applicant may submit a written proposal for the waiver or reduction of

those standards. A written proposal under this subsection must show that the waiver or modification is necessary to make the housing development economically feasible as provided in subsections (e) and (f) of Government Code Section 65915. For purposes of this chapter, any waiver or modification to the requirements of the involved zoning district shall not be considered a variance. The county is not required to waive or reduce development standards if, pursuant to Government Code Section 65915(e), the waiver or reduction would have a specific adverse impact upon health, safety, or the physical environment, and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact.

(Ords. 2007-28 § 9, 2004-45 § 3, 2001-06 § 2).

Judicial review of a final decision to deny a requested density bonus, incentive, or concession may be had in accordance with Government Code Section 65915(d)(3). Judicial review of a final decision to deny a requested waiver or reduction of existing development or zoning standards may be had in accordance with Government Code Section 65915(e).

Article 822-2.8. Development Standards

822-2.802 Time of construction.

Target units must be constructed concurrently with nonrestricted units unless the county and developer agree within the density bonus housing agreement to an alternative schedule for development.

(Ords. 2004-45 § 3, 2001-06 § 2).

822-2.804 Availability.

The first target unit shall be made available for occupancy not later than the time at which the first nontargeted dwelling unit of the housing development is available for occupancy.

(Ords. 2004-45 § 3, 2001-06 § 2).

822-2.806 Design.

Except as provided in Section 822-2.808, target units shall be built on-site and dispersed throughout the housing development wherever feasible. In addition, the number of bedrooms of the target units shall be equivalent to the bedroom mix of the nontarget units of the housing development, except that the developer may include a higher proportion of target units with more bedrooms. The design and appearance of the target units shall be compatible with the design of the total housing development.

(Ords. 2004-45 § 3, 2001-06 § 2).

Circumstances may arise in which the public interest would be served by allowing some or all of the target units associated with one housing development to be constructed and operated at an alternative development site. In appropriate cases, the developer and the county may enter into a written agreement to permit target units to be constructed and operated at a designated alternative development site. The resulting developments shall be considered a single housing development for purposes of this chapter. Under these circumstances, when the target units are to be provided on the alternative site, the developer is subject to the same requirements of this chapter.

(Ords. 2004-45 § 3, 2001-06 § 2).

822-2.810 Compliance.

Housing developments shall comply with all applicable development standards, except those that may be modified as provided by this chapter.

Chapter 822-4 INCLUSIONARY HOUSING

Article 822-4.2. General

822-4.202 Title.

This chapter is known and may be cited as the Contra Costa County inclusionary housing ordinance.
(Ord. 2006-43 § 2).

822-4.204 Purpose and intent.

The purpose of this chapter is to facilitate the development and availability of housing affordable to a broad range of households with varying income levels within the county. It is intended in part to implement state policy declaring that local governments have a responsibility to exercise their powers to facilitate the development of housing necessary to adequately provide for the housing needs of all economic segments of the community. The goal of this chapter is to ensure that affordable housing units are added to the county's housing stock in proportion to the increase in new housing units in the county, in accordance with Goal 3 of the housing element of the county general plan.

Article 822-4.4. Requirements

822-4.402 Inclusionary unit requirement.

- (a) In a residential development of five through one hundred twenty-five rental units, at least fifteen percent of the rental units shall be developed and rented as inclusionary units under the terms and conditions of Section 822-4.410(a). At least twenty percent of the inclusionary units shall be rented at an affordable rent to very low income households, and the remaining inclusionary units shall be rented at an affordable rent to lower income households. As an alternative to providing some or all of the inclusionary units required by this subsection, an in-lieu fee may be paid pursuant to Section 822-4.404.
- (b) In a residential development of five through one hundred twenty-five for-sale units, at least fifteen percent of the for-sale units shall be developed and sold as inclusionary units under the terms and conditions of Section 822-4.410(b). At least twenty percent of the inclusionary units shall be sold at an affordable sales price to lower income households, and the remaining inclusionary units shall be sold at an affordable sales price to moderate income households. As an alternative to providing some or all of the inclusionary units required by this subsection, an in-lieu fee may be paid pursuant to Section 822-4.404.
- (c) In a residential development of one hundred twenty-six or more rental units, at least fifteen percent of the rental units shall be developed and rented as inclusionary units under the terms and conditions of Section 822-4.410(a). At least twenty percent of the inclusionary units shall be rented at an affordable rent to very low income households, and the remaining inclusionary units shall be rented at an affordable rent to lower income households.

At least twenty percent of the inclusionary units shall be sold at an affordable sales price to lower income households, and the remaining inclusionary units shall be sold at an affordable sales price to moderate income households.
- (e) Affordable rents will be determined annually by the county. Affordable sales prices will be estimated annually by the county. The county will provide a developer with the exact affordable sales price at least ninety days before the developer markets the unit.
- (f) If the calculation of the required number of inclusionary units results in a fraction of a whole number, a partial in-lieu fee shall be paid in accordance with Section 822-4.404 for the fraction of the unit. The amount of the partial in-lieu fee shall be a percentage of the in-lieu fee for a single unit, with the percentage equal to the fraction of the whole number.

-
- (g) The calculation of the number of inclusionary units required by this chapter shall be made without including as part of the calculation any housing units authorized by a density bonus granted pursuant to this chapter or Chapter 822-2.

(Ord. 2006-43 § 2).

- (c) Fee amounts in the fee schedule for rental units will be calculated as the difference over a fifty-five-year period between the average annual rent, as determined by the county, of a two-bedroom, one-and-a-half-bathroom apartment in the county and the annual affordable rent for a targeted household.
- (d) Fee amounts in the fee schedule will be calculated annually.
- (e) All fee revenues will be deposited in a restricted fund earmarked to provide housing opportunities for extremely low, very low, lower, and moderate income households.
- (f) Funds will be appropriated for expenditures authorized by law that make housing units affordable to extremely low, very low, lower, and moderate income households and for costs associated with administering the restricted fund.
- (g) In-lieu fees are non-refundable and shall be paid before the first building permit is issued for any portion of the residential development.

(Ord. No. 2022-07 § III, 2-1-22; Ord. 2006-43 § 2).

822-4.406 Alternative methods of compliance.

A developer may submit a proposal for complying with this chapter by proposing one or more of the following compliance alternatives:

- (a) **Off-Site Development.** Some or all of the required inclusionary units may be constructed off-site, or an existing off-site development may be acquired and rehabilitated to provide some or all of the required inclusionary units, if the county determines that the combination of location, unit size, unit type, pricing, and timing of availability of the proposed off-site inclusionary units would provide equivalent or greater benefit than would result from providing those inclusionary units on-site, or if the county determines that on-site construction of those inclusionary units would be infeasible. Any off-site inclusionary units must be constructed or rehabilitated prior to or concurrently with construction of the on-site residential development. The off-site development location must be appropriately zoned and all required entitlements issued for the off-site development alternative before building permits are issued for the on-site residential development. The off-site development location should be within a reasonable geographic distance of the on-site residential development, such as within the same school district or identified community, unless otherwise directed by the board of supervisors.
- (b) **Land Conveyance.** The developer may convey title to land in fee simple absolute to an affordable housing developer if all of the following requirements have been met:
- (1) The affordable housing developer has been approved by the county.

-
- (2) The land is at a location in the county where the county permits residential use at a density that will result in the same or greater number of inclusionary units than would be produced by providing the units on-site.
 - (3) The land is suitable for construction of inclusionary units in a manner that complies with this chapter. The land must be suitable from the perspective of size, configuration, physical characteristics, physical and environmental constraints, access, location, adjacent use, and other relevant planning criteria.
 - (4) The land is served with the infrastructure necessary for residential development at that location, including sewer, utilities, water, streets and sidewalks.
 - (5) The developer must submit a Phase I environmental report before the land can be considered for conveyance.
- (c) The county may accept any combination of on-site construction, off-site construction, in-lieu fees and land conveyance, or any other feasible alternative, that in the county's determination would provide equivalent or greater benefit than that which would result from providing on-site inclusionary units.
 - (d) Two or more developers of separate residential developments required to comply with this chapter may propose to meet their combined then-existing obligations under this chapter by doing any of the following:
 - (1) Providing the total number of inclusionary units required of all developers at one residential development;
 - (2) Crediting inclusionary units in excess of the number required at one residential development toward the number of inclusionary units required at another residential development;
 - (3) Jointly providing a combination of feasible alternatives consistent with subsection (c) of this section.

Two or more developers may proceed under this subsection only if the county determines the proposal would result in equivalent or greater benefit than the benefit resulting from providing on-site inclusionary units at separate residential developments. When two or more developers propose to proceed under this subsection, each developer must submit an inclusionary housing plan pursuant to Section 822-4.414 and enter into or amend an inclusionary housing agreement pursuant to Section 822-4.416.

(Ord. 2006-43 § 2).

822-4.408 Exemptions.

- (a) The following residential developments are exempt from the requirements of this chapter:
 - (1) Residential developments of one through four dwelling units.

 - (3) Residential developments that obtain one of the following before November 23, 2006:
 - (A) A discretionary approval.
 - (B) A building permit.
 - (4) A community care facility as defined in Health and Safety Code Section 1502.

-
- (5) Residential developments that are exempt from the requirements of this chapter pursuant to State law, including, but not limited to, the following:
- (A) Residential developments that obtain a vesting tentative map before the effective date of the ordinance codified in this chapter, provided the vesting tentative map has not expired.
 - (B) Residential developments where the application for a tentative map has been deemed complete by the county before the effective date of the ordinance codified in this chapter.
- (b) A residential development that is located in or proposed for a former county redevelopment area is exempt from the provisions of this chapter, if the development is subject to a successor agency disposition and development agreement, owner participation agreement, acquisition agreement or other written agreement that requires affordable housing to be produced in the development, or if the development is subject to a condition of approval requiring affordable housing to be provided in the former county redevelopment area.
- (Ord. No. 2022-07 § IV, 2-1-22; Ord. 2006-43 § 2).

822-4.410 Restrictions.

 - (1) The initial sale of a for-sale inclusionary unit shall occur only to a household that meets all of the following:
 - (A) The household's annual income does not exceed the maximum income limits applicable to the targeted household for the inclusionary unit.
 - (B) The household has not owned a residence within the previous three years.
 - (C) The household has no more than two hundred fifty thousand dollars in assets. This amount excludes assets reserved for a down payment and closing costs, assets in retirement savings accounts, and assets in medical savings accounts.
 - (2) The initial purchaser of a for-sale inclusionary unit must agree to occupy the dwelling unit as the principal residence for at least three years, unless an emergency requires the earlier sale of the unit.
 - (3) A for-sale inclusionary unit may be sold after the initial sale to an above-moderate income purchaser and at a market price, provided that the sale results in a recapture by the county of a financial interest in the unit equal to the sum of:
 - (A) The difference between the initial affordable sales price and the appraised market value of the unit at the time of the initial sale; and
 - (B) The county's proportionate share of any appreciation since the time of the initial sale. Appreciation is the difference between the resale price to the above-moderate income purchaser and the appraised market value at the time of the initial sale. The county's proportionate share of appreciation is equal to the percentage by which the initial affordable sales price was less than the appraised market value at the time of the initial sale.
 - (4) All recaptured amounts under subsection (3) will be deposited in a restricted fund established pursuant to Section 822-4.404.

(Ord. No. 2022-07 § V, 2-1-22; Ord. 2006-43 § 2).

822-4.412 Standards.

- (a) Inclusionary units must be dispersed throughout the residential development and have access to all on-site amenities that are available to market rate units.
- (b) The construction quality and exterior design of inclusionary units must be comparable to the market rate units. However, an inclusionary unit may:
 - (1) Be smaller in size by up to ten percent when compared to the average size of market rate units in the development that have the same number of bedrooms as the inclusionary unit.
 - (2) Be developed on smaller lots of up to ten percent when compared to the average lot size of market rate units in the development that have the same number of bedrooms as the inclusionary unit.
 - (3) Have alternative interior finishes that reduce interior construction costs by up to five percent when compared to the average interior construction cost of market rate units in the development that have the same number of bedrooms as the inclusionary unit.
- (c) The average number of bedrooms for all inclusionary units must be equivalent to the average number of bedrooms for market rate units within the same residential development.
- (d) All inclusionary units must be constructed and occupied prior to or concurrently with the market rate units within the same residential development. For phased residential developments, the inclusionary units may be constructed and occupied in proportion to the number of dwelling units in each phase of the project.

(Ord. No. 2022-07, § VI, 2-1-22; Ord. 2006-43 § 2).

822-4.414 Review.

- (a) Concurrently with a developer's first application for a discretionary approval for a residential development, the developer shall submit to the Department of Conservation and Development an inclusionary housing plan for review.
- (b) An inclusionary housing plan must include all of the following information:
 - (1) A brief description of the residential development, including the number of market rate units and inclusionary units proposed, and the basis for the calculation of the number of units.
 - (2) The unit mix, location, structure type, and size (including number of bedrooms) of the market rate and inclusionary units. A site plan depicting the location of the inclusionary units must be provided.
 - (3) The targeted household income levels of the inclusionary units.
 - (4) For a phased project, a phasing plan that provides for the timely development of the inclusionary units as the residential development is built out.
 - (5) Any proposed density bonus and a description of any incentives requested of the county.
 - (6) If the developer intends to satisfy the inclusionary unit requirement by payment of an in-lieu fee, a statement to that effect, and a calculation of the total in-lieu fee payment required.
 - (7) If an alternative compliance method is proposed, information sufficient to allow the county to determine either that on-site construction of inclusionary units is infeasible or that an alternative method of compliance could provide equivalent or greater benefit than would result from providing those inclusionary units on-site.

-
- (c) The department of conservation and development will accept as complete or reject as incomplete the inclusionary housing plan within thirty days of receiving the proposed inclusionary housing plan.
 - (d) An application for a discretionary approval of the residential development will not be deemed complete for processing until after the inclusionary housing plan has been accepted as complete. Preliminary approval of the inclusionary housing plan is required prior to any discretionary approval of the residential development.
 - (e) The conservation and development director will approve the inclusionary housing plan if the plan complies with the requirements of this chapter. If the director denies the inclusionary housing plan, the director will notify the developer in writing of the reasons for denial. Approval of the inclusionary housing plan is required prior to any discretionary approval of the residential development.

(Ord. No. 2022-07 § VII, 2-1-22; Ord. 2006-43 § 2).

822-4.416 Inclusionary housing agreements.

Any person requesting a waiver or adjustment must submit a written request not later than fifteen days before the first public hearing on any discretionary approval for the residential development, accompanied by economic information and other evidence necessary for the county to make a determination regarding the request. Chapter 94-2 TENTATIVE MAPS

Article 94-2.2. General

94-2.202 Tentative map.

A tentative map shall be submitted for approval preceding the submission of the final map or parcel map for a subdivision. If all of the following conditions are met by the application and tentative map, the zoning administrator (or staff) may approve the tentative map:

- (1) No more than two lots are proposed to be created and each of such lots cannot be further divided under the existing zoning classifications;
- (2) Both lots, after division, will front on a public or dedicated street;
- (3) Dedication is not required for widening, extending or creating a street;
- (4) The lots created will, in all other respects, comply with legal requirements.

(Ord. 78-5).

94-2.204 Information required.

The tentative map shall be clearly and legibly drawn on one sheet, unless prior written approval of the planning department is given for more than one sheet, and shall contain the following information:

- (1) The title, which shall contain the subdivision number assigned by the planning department and the type of subdivision, and may contain such name as may be selected by the subdivider;
- (2) Names and addresses for:
 - (A) Legal owner of property,
 - (B) Subdivider, and
 - (C) Person or persons who prepared the map;
- (3) A topographical map accurately showing contours and other features of the existing terrain within the subdivision, existing drainage channels, roads, culverts, overhead and underground utility lines which may affect the design of the subdivision, wells and springs, major structures, irrigation ditches, utility poles, and other improvements in their correct location. Elevations shall be in accord with U.S. Geological Survey (1929 Sea Level Datum). The map shall be drawn to an engineer's scale large enough to show all information clearly. The parcel shall be oriented on the map sheet such that the north arrow shall point toward the top of the sheet. Contour interval shall not be greater than two feet if the ground slope is less than ten percent nor larger than five feet for ground slopes greater than ten percent; and at such intervals that the contour lines will not be spread more than one hundred fifty feet (ground distance) apart. The map shall show:
 - (A) The outline of any geologic or potentially hazardous soil condition, and areas subject to inundation or ponding,

-
- (B) The edges of pavement of existing streets, private roads, driveways and other paved areas,
 - (C) Location of existing property lines and approximate boundaries of existing easements within the subdivision, with the names of the owners of record, of easements, exclusions, and the properties abutting the subdivision,
 - (D) The proposed lot and street layout with scaled dimensions of each lot. Lot dimensions shall conform to the requirements of Division 82 as to size and dimensions.

Lots, where not served by public sewers, shall not be smaller in area than the health department shall approve for septic tanks and drain field installation.

Side lot lines shall be substantially at right angles or radial to street lines.

Each lot shall be identified by (a) lot numbers, beginning with number "1" in each subdivision requiring a final map; or (b) lot letters, beginning with letter "A" in each subdivision requiring a parcel map. Numbers or letters shall be consecutive with no omissions or duplications.

The subdivider shall show the area of each lot on the tentative map. The area shall be exclusive of the portion lying in the street,

- (I) Areas to be used for public purposes,
- (J) Location, approximate grade, direction of flow and type of facility of existing drainage channels and storm drains,
- (K) A vicinity map showing roads, adjoining subdivisions, towns, creeks, railroads, and other data sufficient to locate the proposed subdivision and show its relation to community development,
- (L) North arrow, scales for maps and contour interval,
- (M) Boundary lines of existing land use zones shall be delineated,
- (N) Statement or plan as to proposed plans for draining the area subject to flooding or inundation by waters flowing into or from the subdivision,

(Ord. 78-5).

94-2.206 Data to accompany tentative map.

The tentative map shall be accompanied by the following data, which shall be submitted at the time the map is filed with the planning department:

- (1) A written statement of general information which shall contain the following information:

-
- (A) Existing use or uses of property,
 - (B) A description of the proposed subdivision, including the number of lots, their average and minimum size, and nature of development,

 - (D) The method of sewage disposal proposed,
 - (E) Other improvements proposed,
 - (F) How the proposed subdivision is consistent with, and will further the goals and objectives of the general plan including, but not limited to, its community facilities element;
- (2) Two copies of a preliminary geologic and/or soils reconnaissance report, as required by the planning department. Each report of a geological investigation shall be prepared and signed by an engineering geologist. Each report of a soil investigation shall be prepared and signed by a soil engineer. The required report should be based on the latest grading plan for the subject development and shall reference the date of that grading plan. The format for required reports shall generally follow the guidelines for geologic/seismic reports required by the planning department. All reports shall include the following:
- (A) A detailed geologic map showing the location and extent of any geologic hazard or potentially hazardous soil condition within or immediately adjoining the subject property which warrants special management and/or further evaluation,
 - (B) Recommendations outlining an exploration program to fully define and delineate any geologic hazard or potentially hazardous soil condition, and to accurately identify developable areas,
 - (C) Conclusions regarding the effect of any geologic hazard or potentially hazardous soil condition within or immediately adjoining the project site on the design of the proposed subdivision,
 - (D) Recommendations for redesign of the subdivision and/or recommendations for construction procedures to mitigate potentially hazardous conditions, if warranted.

The requirement for a preliminary geologic or soils reconnaissance report may be waived if the planning department determines that there are no apparent hazardous geologic or soils conditions within, adjacent to, or affecting the subdivision, based upon the geotechnical knowledge the department possesses.

For subdivisions of four lots or less there is no mandatory requirement for a preliminary geologic or soils reconnaissance report. Such a report may be required if the planning department determines that there are apparent hazardous geologic or soils conditions within, adjacent to, or affecting the subdivision.

An engineering geologist, within or retained by Contra Costa County, shall evaluate the reports required herein and advise the body having jurisdiction and authority. Supplemental reports and data may be required if deemed necessary;

- (3) When a tentative map is filed on an area which is a part of a larger single ownership which may be subdivided in the future, the planning department may require a development plan showing the proposed future development;
- (4) Four copies of a preliminary grading and site development plan, including drainage, when required by the planning department.

(Ords. 85-56 § 10, 78-5).

Article 94-2.4. Design Objectives (Reserved)

Article 94-2.6. Filing

The filing fee specified in Article 26-2.28 shall accompany the tentative map. The time of filing a tentative map and the required accompanying statement is when the planning department accepts them as complete. (Ord. 78-5).

94-2.610 Expiration—Extension.

The approval or conditional approval of a tentative map shall expire thirty-six months after its original approval. This expiration shall terminate all proceedings, and no final map or parcel map of all or any portion of the real property included within the tentative map shall be filed without first processing a new tentative map. Upon application by the subdivider, filed before this expiration date, the advisory agency which originally approved the tentative map may extend this expiration date for a period or periods totaling not more than three years after the original expiration date.

(Ords. 85-58 § 2, 81-39 § 1, 78-5; § 94-4.408: prior code § 8430 (c): Ord. 67-19 Gov. C. §§ 66452.6, 66463.5).

In the case of a proposed tentative map for a minor subdivision the advisory agency shall hear it within fifty working days after filing it and thereafter render a decision within fifteen calendar days unless these time limits have been extended by mutual consent of the parties concerned. In the event the map is disapproved, the advisory agency's report shall set forth the basis of its action and identify the requirements or conditions which have not been met or performed.

(Ord. 78-5).

The advisory agency shall also approve or disapprove the application of the subdivider for exceptions and variances.

(Ord. 78-5).

94-2.806 Findings.

The advisory agency shall not approve a tentative map unless it shall find that the proposed subdivision, together with the provisions for its design and improvement, is consistent with the applicable general and specific plans required by law. When approving the tentative map for a minor subdivision, the advisory agency shall make findings as required concerning the fulfillment of construction requirements.

(Ord. 78-5).

Article 94-2.10. Appeal

94-2.1002 Appeal—Procedure—Fee.

A soil report conforming to the requirements of Section 94-4.420 of this title may be required by the advisory agency as a condition of approval of the tentative map for a subdivision of four lots or less.

(Ord. 78-5).

When there are no public improvements involved and the total cost of the private road improvements is less than one thousand dollars, the agreement shall be secured by a cash deposit in the full amount of the estimated cost. Upon acceptance of the work as complete, a new acceptable security guaranteeing the repair of any defective work may be substituted for the performance security. The new security shall include the cash deposit described above and shall be not less than said cash deposit or fifteen percent of the estimated cost of the construction of the improvements, whichever amount is greater, and shall be retained for the one-year guarantee period.

Six months after the acceptance of the work as complete, said payment security may be reduced to an amount not less than the total of all claims on which an action has been filed and notice thereof given in writing to the legislative body; and if no such actions have been filed, the security may be released in full.

(Ord. 78-5).

94-4.409 Deferral of drainage facilities.

In lieu of complying with Sections 94-4.404 through 944.408, the subdivider of a minor subdivision may defer the installation of drainage facilities by granting to the county a deed of development rights in a form satisfactory to the public works director. The deed of development rights shall prohibit any development, construction or major surface alteration within the minor subdivision and shall prohibit any development, construction or major surface alteration within the minor subdivision and shall relinquish any rights to obtain building, mobilehome or grading permits until the required drainage facilities have been installed or assured pursuant to Section 94-4.404. Before any deferral shall be granted under this section, the advisory agency shall make all of the findings set forth in Section 92-6.002.

(Ord. 88-45 § 2).

94-4.410 Fee payment evidence.

Evidence of cash payment of all fees required for the checking and filing of maps, review of the improvement plans, inspection of the construction, park dedication fees, road, bridge or storm drainage improvement area fees, fire hydrant rental fees and lighting fees shall be required.

 - (A) The names and addresses of the current owners of record of the property and a legal description (metes and bounds) and plat map (drawn to scale) of the property proposed to be acquired by eminent domain,

-
- (B) Proof satisfactory to the public works department of full compliance with the California Environmental Quality Act (Pub. Resources Code, § 21000 et seq.), (Government Code, § 7260 et seq.) in connection with the proposed acquisition,
 - (C) A current title report and appraisal of the property, in a form and by an appraiser approved by the public works department,
 - (D) A written statement of all offers made to obtain the property by negotiation and copies of all correspondence relating to offers and responses, including evidence of an offer which satisfies the requirements of Government Code Section 7267.2,
 - (E) A fully executed agreement, in a form approved by the county counsel, under which the subdivider agrees to pay all costs for acquisition of the property, to post a cash deposit and security bond in the amounts approved by the public works department and specified in the agreement and to comply with the agreement's other terms.
 - (F) The cash deposit(s) and security bond required by the agreement.

(Ord. 89-28; Gov. Code, § 66462.5).

(Ord. 78-5).

94-4.416 Supplementary documents—Final maps only.

In addition to those documents specified in Sections 94-4.402 through 94-4.414, the final map shall be accompanied by the documents designated in Sections 94-4.418 and 94-4.420, which shall be approved by appropriate authorities before the final map is approved.

(Ord. 78-5).

94-4.418 Tax letter—Security.

A letter from the tax collector showing that all payable taxes and special assessments have been paid and giving ~~the tax collector's~~his estimate of taxes and assessments not yet payable and, as applicable, an acceptable surety bond or acceptable instrument of credit for their payment (where required by Government Code Section 66492) shall be filed with the clerk of the board of supervisors.

(Ord. 78-5).

94-4.420 Soil report.

Two copies of a preliminary soil investigation report to the building inspection department shall be required unless waived because the building inspection department has determined that, due to the knowledge it has of the soil qualities within the subdivision, no preliminary analysis is necessary.

The report shall indicate the presence of any critically expansive soils or any other soil problems which, if not corrected, may lead to defects in structures, buildings or other improvements. If the report indicates such soil

problems, it shall further report on an investigation of each lot of the subdivision, including recommended corrective action which is likely to prevent structural damage to each building, structure, or improvement to be constructed.

It shall also report on the suitability of the earth material for construction of stable embankments and excavation slopes, including those necessary for any artificial or natural drainage channel; recommendations for construction procedures to obtain required stability; maximum design velocities for any natural or artificial drainage channel; and any other geologic features, slides, unstable soil conditions, springs and seepage conditions, erosion control planting, or drainage facilities to enable proper development of the subdivision.

The "preliminary soil report" shall be prepared on eight and one-half inch by eleven-inch paper of durable quality and any map or document which accompanies the report shall be of a convenient size and scale to fold to eight and one-half inches by eleven inches.

If the building inspector, or ~~the building inspector's~~ his designated representative, determines that the report is complete and that the recommended action and procedures contained in the report are likely to prevent structural damage to buildings, structures or improvements to be constructed within the subdivision, ~~the building inspector~~ he shall approve the report and shall certify on the final map or parcel map that a preliminary soil investigation report has been prepared, together with the date of the report and the name of the soil engineer preparing the report and shall state that the report has been approved and is on file in the building inspection department. The recommended actions and procedures contained in the report shall become a condition of approval and shall be incorporated in the development of the subdivision.

(Ord. 78-5).

Article 94-4.6. Checking

94-4.602 Prints required and fees.

The subdivider shall submit three sets of prints of the map and certificate sheet to the public works department for checking purposes before the certificates on the original tracings are executed. The preliminary prints shall be accompanied by a current preliminary title report, furnished by the applicant and acceptable to the public works department; by traverse sheets prepared by the subdivider's engineer, showing the mathematical closure of the subdivision's exterior boundaries; and by a checking fee as established and adopted by the board of supervisors from time to time by resolution.

(Ord. 78-5).

94-4.604 Error of closure in traverse.

The error of closure in traverse around the subdivision and around the interior lots or blocks shall not exceed one part in twenty thousand.

(Ord. 78-5).

94-4.606 Public works department action.

The public works department, within ten working days, shall note the required corrections, if any, on one set of the preliminary prints and return them to the engineer or surveyor for revision of the maps.

(Ord. 78-5).

Article 94-4.8. Approval

94-4.802 Approval and filing of maps.

The original tracing and one set of prints of the revised map prepared in accordance with the Subdivision Map Act and this title and corrected to its final form, and signed by all parties required by the Subdivision Map Act and this title to execute the certificates on the map, together with all supplementary documents and fees, shall be presented to the public works department for filing. If the map, all documents and fees are determined to be satisfactory, the public works department, within ten calendar days following receipt, shall present them to the board of supervisors for approval. The board of supervisors, within a period of ten calendar days after the filing of the final map or parcel map with the public works department, or at its next regular meeting after the meeting at which it receives the map, whichever is later, shall approve the map if it conforms to all requirements of law and this title. The board shall not approve the map unless it shall find that the proposed subdivision, together with the provisions for its design and improvement, is consistent with the applicable general and specific plans required by law. In the event the final or parcel map is disapproved, the board shall set forth the basis of its action and identify the requirements or conditions which have not been met or performed. At the time of its actions thereon, the board shall accept, accept subject to improvements, or reject any or all offers of dedication of streets and other easements.

On approval of any final map or parcel map, the clerk of the board of supervisors shall release the map to the subdivider's title company for ultimate transmittal to, and filing with the county recorder. In addition to the original tracings, the subdivider's title company shall provide the county recorder with a blue line print on linen of each sheet.

(Ord. 79-80).

913-6.008 Apportionment—Major thoroughfares.

In the case of major thoroughfares, the method of fee apportionment shall not provide for higher fees on land which abuts the proposed improvement, except where the abutting property is provided direct usable access to the major thoroughfare.

The board, within such one-year period, may commence and carry on new proceedings for the construction of a portion of the improvement so protested against if it finds, by the affirmative vote of four-fifths of its members, that the owners of more than one-half of the area of the property to be benefited are in favor of going forward with such portion of the improvement or acquisition.

(Ord. 79-80).

913-6.024 Hearing.

The board shall hear the matter as scheduled, or as postponed or continued for good cause, and consider any objections or protests. At such hearing, the board may then adopt, revise, reduce or increase any portion of the report. The board, by ordinance, shall establish the boundaries of the area of benefit, the costs, whether actual or estimated, and a fair method of allocation of costs to the area of benefit and fee apportionment; and the board must find that the road and/or bridge improvements are necessary and desirable within the area of benefit.

- (c) Storm drainage facilities within the subdivision shall be designed and constructed in compliance with the requirements of this title and with current ordinance specifications and design standards of the public works department, so as to adequately convey with sufficient freeboard the storm water runoff from the maximum potential development of the drainage basin or watershed.
- (d) As required by Section 94-4.214, the final map or parcel map shall include a dedication to the county or other public agency of land rights for construction, maintenance and operation of all necessary storm drainage and access facilities. The land rights shall conform with the width and other requirements of Chapter 914-14.

- (a) All surface waters flowing from the subdivision in any form or manner shall be collected and conveyed without diversion or damage to any improvement, building or dwelling to a natural watercourse having a definable bed and banks, or to an existing public storm drainage facility having adequate capacity to its point of discharge into a natural watercourse, or the advisory agency, in its discretion, may require that flows from the subdivision be regulated so as not to exceed the capacity of watercourses downstream when considered with regard to the development potential of the drainage basin or watershed.
- (b) Storm drainage facilities outside the subdivision shall be designed and constructed in compliance with the requirements of this title and with current ordinance specifications and design standards of the public works department, so as to adequately convey with sufficient freeboard the storm water runoff from the maximum potential development of the drainage basin or watershed.
- (c) Wherever surface waters must be collected or conveyed beyond the boundaries of the subdivision in order to discharge into a natural watercourse or into an existing adequate public storm drainage facility, the

subdivider shall comply with either subsection (d), (e) or (f) of this section, prior to filing of the final map or parcel map.

- (d) The subdivider shall deposit with the public works department:
- (1) A copy of a duly recorded conveyance from the adjacent property owners, in a form and content acceptable to the public works director, granting to the subdivider the land rights to construct, maintain and operate all necessary storm drainage and access facilities; and
 - (2) A copy of a duly recorded offer of dedication from the adjacent property owners, in a form and content acceptable to the public works director, offering to dedicate to the county or other public agency sufficient land rights for construction, maintenance and operation of all necessary storm drainage and access facilities.
 - (3) Such documents shall be obtained from all property owners between the boundaries of the subdivision and the point at which the surface waters will be discharged into a natural watercourse having definable bed and banks or an existing adequate public storm drainage facility. The land rights shall conform with the width and other requirements of Chapter 914-14.
- (e) The subdivider shall deposit with the public works department a copy of a duly recorded drainage release from the adjacent property owners, in a form and content acceptable to the county counsel, accepting the flow of surface waters from the subdivision onto and over that property, without liability by the county for damages occurring therefrom. Such releases shall be obtained from all property owners between the boundaries of the subdivision and the point at which the surface waters will enter a natural watercourse having definable bed and banks or an existing adequate public storm drainage facility.
- (f) The subdivider shall present written evidence which proves to the satisfaction of the public works department that it is not feasible to obtain by negotiation from the adjacent property owners either a drainage release, or land rights, and shall comply with the requirements of Section 94-4.413. The board, in its sole discretion, may then authorize the institution of condemnation proceedings to acquire the land rights at the subdivider's expense.

(Ord. 89-28, 78-5; Gov. Code, § 66462.5).

914-2.006 Storm water disposal restrictions.

The county may require that a developer install storm drain improvements for the benefit of the development that may contain supplemental size, capacity, number, or length for the benefit of property not within the development and that such improvements shall be dedicated to the public. In the event of the installation of such improvements, the county shall enter into an agreement with the developer to reimburse the developer for that portion of the cost of such improvements equal to the difference between the amount it would have cost the developer to install such improvements to serve the development only and the actual cost of such improvements. Nothing set forth in this section shall prohibit the county from denying a development where reimbursement funds are unavailable and the developer refuses to construct the improvements necessary to mitigate impacts of the proposed development at ~~the developer's his or her~~ cost.

- (a) The county may utilize any of the following methods to pay the cost of administration and reimbursement:
 - (1) Collect from other persons, including public agencies, using such improvements for the benefit of real property not within the development, a reasonable charge for such use;
 - (2) Contribute to the developer that part of the cost of the improvements that is attributable to the benefit of real property outside development and levy a charge upon the real property benefited to reimburse itself for such cost paid to the developer;
 - (3) Establish and maintain local benefit areas for the levy and collection of such charge or costs from the property benefitted;
 - (4) Condition as part of the entitlement process property outside the development to pay their proportionate share of costs of such facilities attributed to their benefit.
- (b) This section will not apply to storm drain facilities as identified on adopted Contra Costa County, flood control and water conservation district drainage area maps and flood control zone maps and plans that qualify for drainage area fees, credits, or reimbursements.

Chapter 914-4 NATURAL WATERCOURSES

914-4.002 Protection of natural watercourses.

The advisory agency, in its sole discretion, may determine that a natural watercourse, or a substantial portion of a natural watercourse, in a scenic attraction or possesses significant riparian habitat, and may require that the watercourse or portion of the watercourse be protected in its natural state. The watercourse or portion required to be protected shall be referred to as a "protected watercourse."

(Ords. 89-28, 78-5).

914-4.004 Watercourse capacity and stability analysis.

Design flow volumes in excess of the watercourse's reasonable capacity shall be conveyed around the protected watercourse or shall be detained in adequate detention basins meeting the requirements of Chapter 914-12. Flow velocities in excess of those permitted by Section 9146.202 shall be attenuated using environmentally-sensitive techniques approved by the public works department.

(Ord. 89-28).

914-4.006 Vegetation removal.

Vegetation removal within a protected watercourse shall be restricted to the removal of downed trees, trees that are precariously undercut and trees that have the potential of creating a major obstruction within the floodway. Removal work shall be done in an environmentally-sensitive manner, so as to minimize damage to remaining trees, undergrowth and other riparian vegetation. Older trees requiring removal of dead or diseased limbs shall be trimmed under the supervision of a tree specialist. To the maximum extent possible, undergrowth shall be preserved.

(Ord. 89-28).

914-4.008 Side drainage.

Storm drainage facilities discharging into a protected watercourse shall be designed in such a manner as to minimize visual impact and erosion within the protected watercourse. Wherever possible, side drains shall be combined prior to discharging into the watercourse to reduce the number of outfalls into the watercourse.

Multi-Family Unit	282 square feet
Mobile Home	263 square feet

As used in this division, "dwelling unit" means a building or portion thereof, or a mobilehome, designed for residential occupation by one person or a group of two or more persons living together as a domestic unit. However, for purposes of this division only, a second unit as defined in Section 82-24.004 of this code and Government Code Section 65852.2 shall not be counted as a dwelling unit.

(Ords. 2007-19 § 4, 86-60 § 2, 84-46 § 1 (part), 78-5).

920-6.204 Amount of fee.

Except as otherwise provided in this chapter for specifically described territory, when fees are to be paid in lieu of land dedication, the total fee shall be calculated by multiplying the number of dwelling units to be included in the development by the applicable fee per unit, as follows:

Dwelling Unit	Fee/Unit
Single-Family Detached	\$4,489.00
Townhome	3,571.00
Multi-Family Unit	3,233.00

(Prior code § 7522: Ord. 1000).

(Prior code § 7528: Ord. 1000).

1002-4.020 Fees.

The schedule of fees will be those recommended by the director and established and adopted by the board of supervisors from time to time by resolution. (Ord. 85-13 § 1: prior code § 7540: Ord. 1000).

1002-6.004 Bond in lieu of cash deposit.

Instead of the cash deposit prescribed by Section 1002-6.002, the applicant on approval of the director may file a cash deposit in the minimum sum established by the schedules, if any, adopted for that purpose by the board of supervisors and in effect at the time of application for a permit; the balance of the sum fixed by the director as sufficient to reimburse the county for expenses incurred in restoring the right-of-way to its former condition or a safe condition, or completing the work, shall be filed in the form of an approved surety bond issued by a company authorized to do a general surety business in the state of California.

(Ord. 85-13 § 1: prior code § 7541: Ord. 1000).

1002-6.006 Annual bond.

Instead of a cash deposit, the applicant, on approval by the director, may annually file with the director an approved surety bond issued by a company authorized to do a general surety business in the state, in a sum fixed by the director as sufficient to reimburse the county for expenses to be incurred in restoring the right-of-way to its former condition, subject to the schedules, if any, adopted by resolution of the board of supervisors.

(Prior code § 7542: Ord. 1000).

1002-6.008 Additional bond or cash deposit.

The director may require an additional bond or cash deposit at any time that evidence indicates that the amount of the bond or cash deposit previously made is insufficient to cover the cost of restoring the right-of-way to its former condition, subject to the schedules, if any, adopted by resolution of the board of supervisors.

(Prior code § 7543: Ord. 1000).

1002-6.010 Condition of bond or cash deposit.

The condition of any bond or cash deposit made under this title shall be that the permittee comply diligently and in good faith with this title and the terms and conditions of the permit.

(Prior code § 7544: Ord. 1000).

1002-6.012 Payable to county—Release.

Any bond or cash deposit required by the director under this title shall be payable to the county and shall be filed with the director, who shall release it ninety days after satisfactory completion of all work authorized in the permit and fulfillment of all conditions of the permit.

(Ord. 75-51).

1002-6.013 Forfeiture of cash deposit—Work not completed.

The cash deposit shall be forfeited to the county if work authorized by the permit has not been completed within one year after the permit's expiration date, provided that no action has been started under Section 1002-4.12 or Section 1002-4.013 to have the work restored or completed.

(Ord. 85-13 § 2).

1002-6.014 Certificate of insurance in lieu of cash deposit or bond.

The public works director may waive the provisions of this chapter relating to cash deposit or surety bond for permits required under Section 1002-4.008, except where permits are also required under Chapters 714-2 through 714-6, upon satisfactory proof by certificate of insurance that the permittee is adequately insured to assure reimbursement to the county for repair of any damage caused to county property.

(Ord. 1697: prior code § 7546).

1002-6.016 Certificate of liability insurance.

In addition to the other requirements of this chapter, the director may require satisfactory proof by certificate of insurance that the permittee has in force a valid public liability insurance policy which includes the county, its officers, employees and agents as additional insureds. When so required, the insurance coverage shall be in an amount the director deems sufficient to adequately protect the additional insureds from liability for damages to person(s) or property(s) arising from the activities related to the permit.

(Ord. 77-103).

Chapter 1002-8 REQUIREMENTS

Any omission on the part of the director to specify in the permit what lights, barriers, or other protective measures or devices shall be provided, erected, or maintained by the permittee, or the fact that the director may not specify sufficient lights, barriers, or other protective measures or devices, shall not excuse the permittee from complying with all requirements of law and appropriate regulations and ordinances for adequately protecting the safety of the traveling public. If at any time the director finds that suitable safeguards are not being provided, the county may provide, erect, maintain, relocate, or remove the safeguards deemed necessary or may cancel the permit and restore the right-of-way to its former condition, all at the expense of the permittee.

A permittee making any excavation or leaving any obstruction within, under, or on the right-of-way, or causing the same to be made, erected, or left, shall place and maintain lights at each end of the excavation or obstruction, at not more than fifty-foot intervals along the excavation or obstruction, from one-half hour before sunset of each day to one-half hour after sunrise of the next day, until the excavation is entirely refilled or the obstruction removed and the right-of-way made safe for use. In addition, reflectorized warning signs conforming to the requirements of the California Division of Highways shall be placed two hundred and four hundred feet from each excavation or obstruction, in a position adequately to warn public traffic.

The warning signs, lights, and other safety devices shall conform to the requirements of Section 21406 of the Vehicle Code of the state and of any sign manual issued by the Department of Public Works of the state.

(Prior code § 7560: Ord. 1121: Ord. 1000).

(Prior code § 7562: Ord. 1000).

1002-8.008 Drainage.

If the work, use, or encroachment authorized in a permit issued under this title interferes with the established drainage, the permittee shall provide for proper drainage as approved by the director and shall comply with the requirements of Division 1010.

(Prior code § 7563: Ord. 1000).

1002-8.010 Interference with travel of public.

All work or use shall be planned and executed to cause least interference with the safe and convenient travel of the general public at the place where the work or use is authorized. At no time shall a public highway be closed or its use denied to the general public without the written permission of the director, nor shall use of private property be interfered with unreasonably without the consent of the owner.

(Prior code § 7564: Ord. 1000).

1002-8.012 Restoration of right-of-way.

On completion of the work, acts, or things for which a maintenance or encroachment permit was issued, or when required by the director, the permittee shall replace, repair, or restore the right-of-way as provided in this title and adopted specifications, or as directed by the director within the limits of the specification. The permittee shall remove all obstructions, impediments, material, or rubbish caused or placed on the right-of-way and shall do any other work or perform any act necessary to restore the right-of-way to a safe and usable condition, as directed by the director.

After completion of all work, the permittee shall exercise reasonable care in inspecting and maintaining the area affected by the encroachment. On notice from the director the permittee shall immediately repair any injury, damage, or nuisance in any portion of the right-of-way resulting from the work done under the permit. If the permittee fails to act promptly or if the exigencies of the injury or damage require repairs or replacement to be

made before the permittee can be notified or can respond to notice, the county at its option may make the necessary repairs or replacements or perform the necessary work and the permittee shall be charged the actual costs of labor and materials, plus fifteen percent as administrative costs. By acceptance of the permit, the permittee agrees to comply with this section.

(Prior code § 7565: Ord. 1000).

1002-8.014 Relocation or removal of installations.

If any future construction, reconstruction, or maintenance work on a public right-of-way requires the relocation or removal of installations or encroachments in, on or under the public right-of-way, the permittee owning, controlling, or maintaining the installations or encroachments shall relocate or remove them at ~~the~~ the permittee's sole expense; but this provision shall remain in effect only so long as the right-of-way on which the installations or structures are located is used for usual highway purposes and not as a freeway, and this provision shall cease to apply when the highway becomes a freeway. When removal or relocation is required, the director shall give the permittee a written demand specifying the place of relocation, or that the installations or encroachment must be removed from the right-of-way, and specifying in the demand a reasonable time within which the encroachment must be removed or relocated. If the permittee fails to comply with instructions, the county may cause the removal or relocation of the encroachment at the expense of the permittee.

(Prior code § 7566: Ord. 1000).

1002-8.016 Repair work supervision and inspection.

All encroachment repair work done under a permit issued under this title shall conform to specifications established by the director or, in the absence of established specifications, to recognized standards of construction and approved practices in connection with such work. All encroachment repair work shall be done subject to approval of the director.

Unless otherwise noted on the permit all encroachment repair work performed on any public highway or right-of-way under the jurisdiction of the county shall conform to the construction specifications contained in the current edition of the Standard Specifications of the state of California, issued by the Department of Public Works, Division of Highways, as may be amended by special provisions adopted by the board of supervisors.

(Prior code § 7567: Ord. 1000).

1002-8.018 Storage of material.

No material shall be stored within five feet of a public highway. Excess earth materials from trenching or other operations shall be removed from the pavement, traveled way, or shoulder as the trench is backfilled or other work carried forward unless otherwise approved by the director.

(Prior code § 7568: Ord. 1000).

1002-8.020 Pipes and conduits—Generally.

Utility, service, and other small diameter pipes or rigid conduits shall be jacked, bored, or driven, or otherwise forced underneath a paved surface. Within the public highway, the minimum cover of three feet shall be measured from the surface, existing or planned. The director is authorized to permit installation of pipes or conduits where three feet of cover cannot be provided because of topography, structures, or other engineering necessity.

(Prior code § 7570: Ord. 1000).

1002-8.024 Backfilling.

Backfilling and compaction of an excavation shall accord with specification established by the director and adopted by resolution of the board of supervisors, both as to material and method.

Clearances and types in the construction of poles and transmission line carriers shall accord with rules, regulations, and orders of the Public Utility Commission and other public agencies having jurisdiction.

No guy wires shall be attached to trees without specific authorization in the permit, and in no event shall guy wires be attached to girdle the tree or interfere with its growth. Guy wires shall not be below the minimum elevation above the ground prescribed in the rules, orders, and regulations of the Public Utilities Commission.

The permittee shall remove and keep clear all vegetation on the right-of-way within a radius of at least five feet of poles when ordered by the director.

When a pole, guy, stub, or similar timber is removed and not replaced, the entire length shall be removed from the ground and the hole backfilled and compacted.

(Prior code § 7572: Ord. 1000).

1002-8.028 Aids to visibility.

When the location or position of a pole or other obstruction makes accentuation of its visibility to vehicular traffic necessary, the director may require that the pole or other obstruction be painted or equipped with reflectors or other aids to visibility prescribed or authorized by the Public Utilities Commission or the Department of Public Works of the state of California, at the expense of the permittee.

(Prior code § 7573: Ord. 1000).

(Prior code § 7575: Ord. 1000).

1002-8.034 Tree—Planting and maintenance.

Applications for permits to plant trees in the right-of-way shall be made on a form prescribed by the director. The form shall include, in addition to the other requirements, an agreement by the applicant to maintain the trees in a neat, healthy, and safe condition to the satisfaction of the director, and an agreement to remove the trees as directed by the director and to pay the cost of removal on the permittee's failure promptly to remove the trees on direction of the director. The application shall show the exact location and kind of trees to be planted, and no change shall be made either in the location or kind of trees without the written approval of the director.

All trees placed in the right-of-way shall be maintained by the permittee or ~~his~~ the permittee's successor in interest or by some other interested party in a neat, healthy, and safe condition to the satisfaction of the director and at no expense to the county. If the permittee fails promptly to remove the encroachment as directed, the director shall have the right to remove it and collect the cost of removal from the permittee, together with all of the county's costs and expenses in enforcing collection.

The director shall refuse to issue a permit authorizing the planting of trees in the right-of-way when in ~~his~~ the director's judgment the location as described in the application or the nature of the growth above or below ground of the kind of tree proposed will impede or inconvenience public travel, unduly disturb the right-of-way, interfere with the construction or maintenance of necessary facilities, or interfere with existing pipe lines, utility installations, or other facilities lawfully placed within the right-of-way.

(Prior code § 7576: Ord. 1121).

1002-8.036 Tree—Trimming or removal.

Trimming of trees will be permitted only when and in the manner authorized by a permit issued under this title so that the shapeliness of the tree may be preserved.

An application for removal of a tree will be approved and permit issued only when a necessity for removal exists. When a tree is removed under authority of a permit, the entire stump shall be taken out for a distance of at least two feet below the ground surface unless otherwise specified in the permit, and the hole shall be backfilled and tamped. All debris from trimming or removal shall be removed from the site and the right-of-way restored to its former condition.

(Prior code § 7577: Ord. 1000).

1002-8.038 Hedge and fence—Permit required.

No hedge, shrub, or other planting whatever, or fence or similar structure, except as provided in Section 1002-8.042, shall be planted, erected, or maintained in a right-of-way without a permit.

No hedge, shrub, or other planting whatever or fence or similar structure shall be maintained across any existing walkway in a sidewalk area or shoulder. The intent of this restriction is to keep a walkway free for pedestrian or other lawful public travel without interference by or with vehicular travel. No encroachment will be permitted or maintained which impedes, obstructs, or denies pedestrian or other lawful travel within the limits of the right-of-way of a public highway or impairs adequate sight distance for safe pedestrian or vehicular traffic.

(Prior code § 7578: Ord. 1000).

1002-8.040 Hedge and fence—Maintenance.

The permittee or property owner shall maintain the hedges, shrubs, or other planting, or fence or similar structure, used for landscaping purposes in a neat and orderly condition at all times. If the encroachment is not maintained as specified in this section, or is located in violation of Section 1002-8.038, the director may direct the permittee or property owner to remove the encroachment and restore the right-of-way to its former condition at the expense of the permittee or property owner.

(Prior code § 7579: Ord. 1000).

1002-8.042 Lawns.

Other provisions of this title notwithstanding, it is lawful for a person, firm, or corporation or other body of persons to plant and maintain a lawn or similar ground cover of any grass or type not otherwise prohibited by law within the right-of-way without a written permit. However, the lawn or similar ground cover shall not extend into the traveled way nor into the drainage ditches, gutter, or other drainage facilities.

The general public shall not be denied the use of a planted area for pedestrian travel or other lawful use. The county may use the planted area for any purpose and may issue a permit to any applicant to go on the planted area to perform work or otherwise encroach under this title. If the lawn or similar ground cover is damaged or disturbed in the course of an authorized encroachment, the permittee will be held responsible for the replacement unless the permit specifically states otherwise.

(Prior code § 7580: Ord. 1121: Ord. 1000).

(Prior code § 7581: Ord. 1000).

Permission shall be granted in conformance with requirements set forth in specifications adopted by resolution of the board of supervisors. (Ord. No. 2013-19, § II, 8-13-13)

Article 1004-2.4. Terms and Conditions

1004-2.402 Term.

- (a) Initial Term. The initial term of a franchise is ten years from the effective date of the resolution granting the franchise, unless the resolution granting the franchise provides otherwise (the "initial term"), subject to renewal and termination as provided under this section. The franchise terminates at the end of its term unless earlier terminated.
- (b) Renewal Terms. At the conclusion of the initial term and upon application by the grantee, the term of the franchise may be renewed by the board of supervisors for an additional ten-year period, and thereafter for a second, additional ten-year period as long as the grantee has fully complied with all of the terms of the franchise, including but not limited to payment of all franchise fees and all applicable laws. An application for renewal shall be filed with the board of supervisors at least six months before the expiration date of the current term. A renewal application is subject to the approval of the board of supervisors. In approving the application, the board of supervisors may modify the franchise based upon, but not limited to, compliance with a new franchise ordinance and all amendments to this ordinance, the experience of the county and other cities and governing agencies in administering the franchise during the preceding term, changes in the Consumer Price Index, changes in relevant technology, changes in applicable law, including but not limited to amendments or modifications of the Public Utilities Code, changes in relevant environmental practices and requirements, utility industry regulatory developments and business practices, and other factors the board of supervisors considers relevant at the time the board of supervisors considers the application for renewal. In order for a renewal to be effective, the grantee shall accept the renewal pursuant to Section 1004 - 2.414(a). Nothing in this ordinance, however, shall obligate the county to renew a franchise.
- (c) Termination. During the term of the franchise, the franchise shall remain in full force and effect unless the grantee provides six months' advance notice to the road commissioner that: (1) the grantee voluntarily surrenders or abandons the franchise, in compliance with the removal and abandonment provision in Section 1004-2.804; (2) the state of California or a municipal or public corporation purchases by voluntary agreement or condemns and takes under the power of eminent domain, all property actually used and useful in the exercise of the franchise and situated within the territorial limits of the state, municipal or public corporation purchasing or condemning the property, or (3) the franchise is forfeited for noncompliance with its terms by the grantee. After any termination, the following provisions of this chapter will continue to apply to the grantee: 1004-2.412 (damage to property); 1004-2.416 (insurance requirements); 1004-2.418 (liability, indemnity); 1004-2.420 (release of contaminants); 1004-2.802 (relocating); and 1004-2.804 (removal or abandonment of facilities).
- (d) Public Utilities. If a franchise has been granted to a grantee that is not a public utility, and that grantee subsequently qualifies before the Public Utilities Commission of the state of California as a common carrier, the grantee shall then have no right after the qualification date to continue to operate under its franchise, except with the consent of the board of supervisors, granted upon additional terms and conditions as the board of supervisors may deem proper. Any additional terms and conditions shall be expressed by resolution.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.404 Conditions.

- (a) Conditions for Grant. Every pipeline franchise granted by the county is granted subject to all provisions prescribed by this chapter and the resolution granting the franchise, and to all applicable laws and regulations.

-
- (b) Construction; Permits and Locations. All franchise property: (1) must be constructed, installed and maintained in a good and workmanlike manner and of good material, in accordance with all applicable safety laws and requirements; (2) may not interfere with the use of county highways by the traveling public or for other public purposes; and (3) must conform to all applicable laws, including Divisions 1002 and 1010 of the code. A grantee shall obtain all required permits and approvals, including without limitation, all permits and approvals required by the applicable fire protection district or the state fire marshal, as the case may be. A grantee may not commence any construction or work on franchise property until the road commissioner has approved all franchise property locations and work plans. A grantee shall comply with the county's terms and conditions concerning the location within the public places in the unincorporated portion of the county or on property owned by the county, of proposed facilities, except to the extent state or federal law or regulation preempts any terms and conditions, and then the location of any proposed facilities will be subject to the state or federal terms and conditions to the extent they preempt the county's terms and conditions. Notwithstanding the foregoing, a grantee may conduct emergency repairs to franchise property without obtaining the required permits and approvals if the emergency situation renders it dangerous to delay the repairs until after obtaining the required permits and approvals. Any grantee that makes emergency repairs without a permit shall submit plans to the road commissioner as soon as possible to obtain a permit for the work performed, and shall make any changes to the repairs as required by the road commissioner.
 - (c) Restoration. Upon constructing, maintaining or using any pipes and appurtenances or other facilities, or any part thereof, the grantee shall expeditiously at its own cost and expense restore to the county's standards all public places disturbed or altered as a result of grantee's actions.
 - (d) Limitations of Pipeline Franchises. No pipeline franchise granted under this chapter shall be construed or interpreted to permit a grantee to use any franchise property for any purpose other than the transmission of liquid or gaseous substances, or ensuring the integrity and safety of the pipeline, unless approved in advance in writing by the public works department. Nothing in this chapter shall be construed to permit a grantee to construct new poles or other new franchise property above or below ground, except as permitted in writing by the public works department. Fiber optic or telecommunications facilities may be used only for pipeline operations, maintenance and safety, and for no other purpose, unless the franchise agreement expressly provides for this type of use. A grantee may not allow third parties to use franchise property without the prior written consent of the road commissioner.
 - (e) Non-Exclusivity. A franchise granted under this chapter is non-exclusive. A franchise does not convey to a grantee an easement or any other right, title, or interest, but conveys the limited, specific rights and privileges to enter upon and use the pipelines in the manner set forth in, and subject to the conditions, limitations, and obligations of, this chapter.
 - (f) Contaminants. A grantee may not allow any contaminant to be generated, used, stored for any period of time, released on, under, or from any franchise property, except in full compliance with all applicable laws. If any potential or known release, threatened release, generation, storage, disposal or placement of any contaminant occurs on, in, near, or from any franchise property, the grantee shall immediately notify appropriate emergency personnel, public agencies, and the public works department.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.406 Application and grant of franchise; county costs.

- (a) Application. Each application for an initial grant of franchise, or for an extension, renewal, transfer or continuance of a previously granted franchise, must be submitted in writing, in a format determined by the road commissioner. At a minimum, each application must specify: (1) the number, diameter, length and type of the pipeline(s) to be installed; (2) the substance(s) to be transported through the pipeline(s); (3) a map describing the location(s) of the franchise property in accordance with Section 1004-2.410 of this code; (4)

the amount(s) the applicant proposes to pay to the county annually during the life of the franchise if granted; and (5) any other information required by the public works department.

- (b) **Additional Information.** In addition to the above requirements, unless exempted from disclosure to the county by a provision of the federal Homeland Security Act (6 U.S.C. Sections 101 et seq.) or other applicable law that is specifically identified by the applicant, an application for a pipeline franchise shall also provide the following information for existing and new pipelines to the public works department including, but not limited to: the volume; pressure and type of substances being transported by the pipeline; the size, date of construction and material specifications of the pipeline; maximum pipeline pressure ratings; the date of the most recent inspection required by law; a copy of the most recent certifications from all applicable regulatory agencies; a detailed description of materials transported, maximum daily volumes, and certifications from all agencies responsible for permitting and operation of the pipeline facilities, as applicable; evidence of public utility status, if any; and the pipeline emergency plan specified in Section 1004-2.410, and any other information as may be requested by the road commissioner and the applicable fire protection district. Any information provided to the county pursuant to this chapter is potentially subject to the disclosure requirements of the California Public Records Act (Government Code §§ 6250, et seq.) and the County Better Government Ordinance (County Ordinance Code, Division 25), subject to any valid exceptions.
- (c) **County Costs.** An applicant for a pipeline franchise shall reimburse the county for all of the county's administrative costs, staff time, administrative, legal and consulting fees incurred by the county, in connection with processing the application or an application for the extension or transfer of a franchise, including but not limited to the preparation of any reports, statements or studies pursuant to the California Environmental Quality Act (Public Resources Code §§ 21000, et seq.) and any similar federal statute, and for any advertising and publishing costs, including the cost of publishing the ordinance, if necessary, incurred in connection with the granting of the franchise and any legal and consulting fees incurred by the county, in connection with oversight, supervision and administration of the pipeline franchise. Upon request of a grantee, county will provide an itemized accounting of county's costs.
- (d) **Payment of Costs.** The grant of a pipeline franchise and its continued effectiveness shall be conditioned upon the applicant's full payment of the county's costs relating to the granting and administration of the franchise.
- (e) **Renewal.** An application for the renewal of an existing franchise pursuant to Section 1004-2.402(b) will be denied if the grantee is not in full compliance with all of the terms and conditions of its existing franchise, this chapter and the code, including but not limited to payment of any unpaid franchise fees, interest and late fees. No application for the renewal of an existing franchise will be processed by the county or will be considered by the board of supervisors, nor will any renewal franchise be granted, unless the grantee pays the county in full any and all unpaid franchise fees, interest and late fees that have accrued through the date of the application, and thereafter, through the date of the grant of the renewed franchise, as determined by the county.
- (f) **Deposit.** Upon its application for an initial franchise or a renewal or extension, transfer, sale, lease, or assignment of an existing franchise, the applicant shall deposit with the public works department an amount established by resolution of the board of supervisors.
- (g) **Use of Deposit.** The county will deduct from an applicant's deposit any and all of its administrative costs, staff time, administrative, legal and consulting fees incurred by the county, in connection with processing the application and administering the pipeline franchise, including but not limited to the preparation of any documents pursuant to the California Environmental Quality Act (Public Resources Code Sections 21000 et seq.). The amounts deducted will be calculated in accordance with the public works department fee schedule.
- (h) **Deposit Renewal.** When a grantee's initial administrative deposit (or any subsequent administrative deposit) is depleted, the grantee shall, within thirty days after receiving notice and a written statement from the county of all costs and fees deducted from the initial administrative deposit, make an additional

administrative deposit in the amount requested by the public works department, not to exceed the amount established by resolution.

- (i) Excess Deposit. The public works department will return to a grantee any remaining funds on deposit after the public works department determines that all administrative tasks have been completed following termination of a franchise.
- (j) Payment Requirement. The grant and continuation of a franchise is conditioned upon the full payment of the county's administrative costs.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.408 Resolution.

The board of supervisors grants, renews, extends, transfers, or continues pipeline franchises by resolution.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.410 Maps, drawings, and emergency provisions.

(a) Maps and Drawings.

- (1) A grantee shall file a map or maps with the road commissioner showing the accurate location, depth, and size of the constructed facilities or appurtenances, both upon filing an application for a new pipeline franchise or an extension of an existing franchise, and within sixty days following the date on which any facilities or appurtenances have been constructed, laid, removed or abandoned under a franchise.
- (2) Each map must:
 - (A) Be in both hard copy format and an electronic format acceptable to the road commissioner and be drawn to a scale of not less than six hundred feet to one inch;
 - (B) Show in detail the exact location, size, description and date of installation, if known, of all existing or proposed pipelines, mains, transmission lines, laterals, and service pipes that are equal to or greater than three inches in diameter, and all valves, pressure regulators, drips, and transformer chambers installed beneath the surface of all county highways that belong to, are used by, or are under the control of the grantee or the grantee's successors or assigns;
 - (C) Be accompanied by an affidavit, endorsed by the grantee, verifying its correctness;
 - (D) Refer to any and all permits that authorized the work; and
 - (E) Disclose any and all substances that are transmitted through the pipelines.
- (3) Within thirty days after the date on which any facilities or appurtenances have been acquired, constructed, laid, removed or abandoned under a franchise, the grantee shall submit to the public works department as-built drawings of the acquired, constructed, laid, removed or abandoned franchise property.
- (4) In lieu of filing a map or maps with the road commissioner as required by subsection (a)(1) above, a grantee may satisfy the requirements of this Section 1004-2.410 by filing its maps with the Pipeline and Hazardous Materials Safety Administration National Pipeline Mapping System. If a grantee's maps are so filed, the grantee shall allow public works department staff to inspect the maps at grantee's facilities.

-
- (b) Pipeline Inspections and Test Results. A grantee shall test all pipelines as required by the state fire marshal or other state or federal agency with jurisdiction over the pipeline or by any applicable law, and must make available for inspection by the public works department the results of all pipeline inspections and pipeline tests that are required by the state fire marshal and by all applicable laws within sixty days of the grantee's receipt of those results.
 - (c) Pipeline Emergency Plan. At the time of application for a franchise, an applicant shall file, and thereafter annually during the life of the franchise keep on file, with the public works department a pipeline emergency plan as may be required by 49 C.F.R. section 195.402, 49 C.F.R. section 192.615, the California Pipeline Safety Act of 1981 (Government Code sections 51010 et seq.), and all other applicable laws. Each grantee shall update its pipeline emergency plan whenever it acquires, constructs, lays, removes or abandons any facilities under a franchise, and shall file the plan with the public works department within thirty days after any update. In lieu of filing a pipeline emergency plan with the public works department, a grantee that uses its facilities to transport only potable water may file a certification annually declaring that it has prepared and filed the required pipeline emergency plan with the public utilities commission.
 - (d) Emergency Equipment. At all times during the term of its franchise, a grantee shall locate and maintain, or arrange for the location and maintenance of, adequate emergency equipment and a trained emergency crew as required by 49 C.F.R. section 195.402, 49 C.F.R. section 192.615, the California Pipeline Safety Act of 1981 (Government Code sections 51010 et seq.), and all other applicable laws for the purpose of shutting off the pressure and flow of the contents of the franchise property in the event of an emergency. The emergency equipment and crew must be available to respond on a twenty-four-hour-a-day basis. At all times during the term of its franchise, a grantee shall provide up-to-date twenty-four-hour-a-day emergency contact information to the public works department and all applicable fire protection districts.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.412 Damage to property.

- (a) Indemnity. To the extent permitted by law, the grantee of a pipeline franchise shall indemnify the county for any costs, including attorney's fees, associated with the investigation and/or defense of any third party property damage claims brought as a result of the construction, operation, or maintenance of its facilities.
- (b) Damage, Breaks, Leaks and Defective Facilities. Any damage to any property within the county caused directly or indirectly by any breaks, leaks or defective facilities within the unincorporated portion of the county or on property owned by the county shall be promptly repaired by the grantee of the franchise at the grantee's sole cost and expense. The grantee shall restore the property to the same condition it was in before the damage or leak and shall conduct all necessary remedial work, all to the satisfaction of the road commissioner. The grantee shall obtain and pay for any necessary permits from the county for the performance of all work and shall reimburse the county for all expenses and remediation costs that may be incurred by the county. Nothing in this section shall be construed as waiving a grantee's rights to seek recovery from a third party for the grantee's payment of the county's expenses and remediation costs.
- (c) Performance of Repair Work by the County. If a grantee fails to fully perform or fulfill its obligations under Section 1004-2.412(b) within a reasonable time, as determined by the road commissioner, then the county will have the right, but not the duty, and without limitation upon any other rights of the county pursuant to the franchise, to perform the same. The grantee shall indemnify and reimburse the county for all costs and all liabilities arising from the county's performance, as provided in this chapter.
- (d) Emergency Response. If any emergency response costs are incurred by the county in connection with any damage referenced in this section, the grantee shall reimburse the county for costs, as well as any attorneys' fees associated therewith, within thirty days after being presented with a bill. Upon request of a grantee, county will provide an itemized accounting of county's costs.

(Supp. No. 100, Update 3)

1004-2.414 Acceptance and bond.

- (a) Acceptance. Within thirty days after being granted a franchise, a grantee shall file with the road commissioner a written acceptance of the terms and conditions of the franchise, together with a bond (or cash or letter of credit), pursuant to subsection (b) of this section. The date of this filing is the effective date of the franchise.
- (b) Bond.
- (1) A grantee shall file with the road commissioner at the time it files acceptance of a franchise granted under this chapter, and shall maintain and keep on file with the road commissioner, a surety bond in favor of the county, issued by a surety company authorized to transact a surety business in the state of California, approved by the road commissioner, and in the form of surety bond approved by the board of supervisors. The bond must be in the sum of one hundred percent of the amount of the first full annual fee paid to the county by the grantee, rounded up to the nearest thousand dollars for the initial granting of the franchise, and increased each ten years based upon the revised franchise fee amount pursuant to Section 1004-2.602, provided that the minimum amount of any bond twenty-five thousand dollars. The amount of the surety bond posted by a grantee that uses its facilities to transport only potable water shall be twenty-five thousand dollars. Each bond must be on the condition that the grantee well and truly observe, fulfill, and perform each term and condition of the franchise, and that in case of a breach of any condition of the bond, the penal sum therein shall be recoverable. Each bond must be on the condition that if the principal or sureties fail to pay that amount upon demand from the county, they shall be liable, in addition to the penal sum of the bond, for all additional expenses, including reasonable attorneys' fees and any interest accrued on amounts due, incurred by the county in obtaining payment under the bond.
 - (2) A grantee shall maintain the bond in full force and effect throughout the term of a franchise at the grantee's sole expense. The bond shall be issued by a surety insurer and comply with the requirements of the Bond and Undertaking Law, codified in Code of Civil Procedure Sections 995.010 et seq. A franchise shall be considered a "license or permit" within the meaning of the Bond and Undertaking Law, solely for purposes of applying the Bond and Undertaking Law to the bonding requirements of this section.
 - (3) If a bond is not filed at the time a grantee files acceptance of the franchise, the award of the franchise may be set aside and the resolution granting the franchise repealed at any time prior to the filing of the bond, and any money paid in consideration for the grant of franchise shall be forfeited. If the road commissioner determines that a bond on file has become insufficient, the grantee shall renew the bond, with sureties as approved by the public works department, within ten days after receiving written notice from the road commissioner.
 - (4) As an alternative to filing a surety bond, the county may, but is not obligated to, permit a grantee to deposit cash, in the same amount as required on the bond. The county will hold the cash deposit in a non-interest bearing account. If the county draws upon the cash fund for compensation for any loss or damage relating to the franchise, the grantee shall replenish the cash fund to the original amount within thirty days after receiving written notice from the county.
 - (5) Grantee may, at its sole election, provide an irrevocable standby letter of credit, in a form acceptable to the county, securing all or a portion of the amount otherwise required to be secured by the performance bond. The letter of credit shall be issued by an issuing bank with offices in California, or shall authorize an advising bank with offices in California to pay the beneficiary thereunder. The county shall have the right to validate the creditworthiness of the bank being used for a letter of credit. The

letter of credit shall authorize county to draw upon its proceeds in the event that grantee fails to well and truly observe, fulfill and perform each term and condition of the franchise, and that in case of any breach of the franchise, county may draw against the letter of credit up to the total amount set forth therein. If grantee determines to file a letter of credit, grantee shall file such letter of credit within ten days after the adoption of the resolution granting the franchise.

- (6) Nothing in this chapter waives a grantee from liability that exceeds the amount of the bond or cash deposited. Nothing in this chapter shall be construed as a waiver by the county of any legal remedy against the grantee for any breach of the terms and conditions of the franchise, or for any damage, loss or injury suffered by the county relating to the grantee's exercise of the franchise.
- (7) Upon termination of a franchise, the surety bond will be released or the deposit returned to the grantee, less the amount sufficient to compensate the county for any losses arising out of the grantee's exercise of the franchise.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.416 Insurance requirements.

- (a) Insurance. Before beginning any franchise operations, a grantee shall obtain, and provide satisfactory evidence of having obtained, policies of liability and workers' compensation insurance and pollution liability insurance from companies that are authorized to transact business in the state of California by the Insurance Commissioner of California and have a minimum rating of or equivalent to A-:VIII in Best's Key Rating Guide, Comprehensive Liability Insurance, provided, however, that a grantee that uses its facilities to transport only potable water is not required to provide evidence of pollution liability insurance.
- (b) Liability Coverage. Each liability insurance policy obtained by a grantee must:
 - (1) Be issued to the grantee and name the county and the county's officers, agents, and employees, as additional insureds;
 - (2) Provide coverage for the grantee's liabilities assumed under this ordinance, including without limitation, the grantee's obligation to indemnify the county and the county's officers, agents, and employees for all liability for personal and bodily injury, death and damage to property arising from activities conducted pursuant to the franchise, and the acts or omissions of the grantee, and its agents, servants and employees, committed in the conduct of franchise operations. The coverage must provide a combined single limit liability insurance in the amount of ten thousand dollars, subject to self-insured retention in an amount and form that is appropriate and prudent for operations substantially similar to those of grantee, and subject to approval by county in its sole discretion, and may not be cancelled unless at least thirty days' prior written notice is provided to the road commissioner by grantee or its insurance provider, provided, however, that the amount of liability coverage required of a grantee that uses its facilities to transport only potable water shall be five million dollars.
- (c) Workers' Compensation. Each workers' compensation insurance policy obtained by the grantee must:
 - (1) Cover all of the grantee's employees who in the course and scope of their employment conduct or perform work pursuant to the franchise operations;
 - (2) Provide for every benefit and payment presently or after conferred by Division 4 of the California Labor Code upon an injured employee, including vocational rehabilitation and death benefits;
 - (3) Provide for every benefit and payment under any option of the Longshore and Harbor Workers' Compensation Act (33 U.S.C. sections 901 et seq.); and
 - (4) Be noncancellable without forty-five days' prior written notice to the road commissioner.

-
- (5) In lieu of the policy of workers' compensation insurance required by this section, a grantee may substitute and provide a certificate of consent to self-insure, issued by the Board of Industrial Relations of the state of California.
- (d) Pollution Coverage. Each pollution liability insurance policy obtained by the grantee must:
- (1) Provide limits of coverage of five million dollars per occurrence and ten million dollars aggregate, or other equivalent insurance as determined acceptable by the county; and
 - (2) Be issued to the grantee and name the county, the county's officers, agents, and employees, as additional insureds by endorsement form acceptable to the county.
- (e) Evidence of Coverage. Before beginning any franchise operations, and for five years after the termination or expiration of a franchise, a grantee shall file with the road commissioner either certified copies of the required liability, workers' compensation, and pollution liability policies, or a certificate of insurance for each of the required policies executed by the company issuing the policy, certifying that the policy is in force, with any necessary endorsements, including without limitation, cancellation notification endorsements. The grantee shall provide the road commissioner with renewal certificates throughout the term of the franchise. The grantee shall provide all of the following information with respect to the policy:
- (1) The policy number;
 - (2) The date upon which the policy will become effective and the date upon which it will expire;
 - (3) The names of the named insured and any additional insureds;
 - (4) The additional insured endorsement form(s);
 - (5) The self-insured retention endorsement (if applicable);
 - (6) The subject of the insurance;
 - (7) The type of coverage provided by the insurance;
 - (8) The amount of limit of coverage provided by the insurance; and
 - (9) Copies of all endorsements that form a part of the policy and are applicable to the grantee's operations under this ordinance.
- (f) Compliance. No franchise operation may commence until the grantee has complied with the provisions of this section. All franchise operations must be suspended during any period that the grantee fails to maintain these policies in full force and effect. In no event shall the county's self-insurance program be used to respond to or cover any grantee liability.
- (g) Self Insurance Program. In lieu of any insurance required by this Section 1004-2.416, county may, upon application by a grantee, permit a grantee to substitute a self administered claims program (self-insurance) covering the risks assumed under a franchise. A grantee permitted to substitute a program of self-insurance shall provide county with a letter evidencing and describing the self administered claims program, duly executed by an authorized officer of the grantee, and shall notify county in writing thirty days prior to the termination of the self administered claims program.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.418 Indemnity; liability.

- (a) Indemnity. To the fullest extent permitted by law, a grantee shall indemnify, defend and hold harmless the county, and the county's boards, commissions, officers, agents and employees, contractors, agents, attorneys and representatives from and against any and all:

-
- (1) Claims, losses, damages (including injury or death), liabilities, suits, costs, and expenses, including reasonable attorneys' fees, in any way connected to or arising from any operations under the franchise granted or the existence, reconstruction, design, construction, use, operation, or maintenance of the grantee's franchise property;
 - (2) Environmental damage claims;
 - (3) Claims arising from any damage or injury suffered by any person by reason of any excavation or obstruction being improperly guarded or secured during any work authorized pursuant to the franchise or the failure or neglect of the grantee to properly perform, maintain, or protect any phase of the work;
 - (4) Claims, actions, or proceedings against the county or the county's agents, officers, or employees to attack, set aside, void, or annul any approval of a pipeline franchise or other discretionary actions in furtherance of the goals of this chapter, or to impose personal liability against the county's agents, officers, or employees, on the ground that the county failed to comply with California Environmental Quality Act (Public Resources Code §§ 21000, et seq.);
 - (5) Any claims arising from the acts or omissions of subcontractors of the grantee without regard to the subcontractor's insurance or lack thereof; and
 - (6) All other claims, losses, liabilities, causes of action, demands, damages, suits, judgments, debts, costs, claims for payment, contribution or indemnity and expenses (including but not limited to attorney's fees and costs) and liens of every kind and nature, resulting from or attributable to (A) grantee's use or occupation of any facility, or (B) any failure to comply with any applicable law or governmental regulation, directive or order; or (C) arising from the release of any contaminant on or from any facility, whether the release is caused by grantee or any third party; or (D) grantee's failure to fully remediate or respond to any environmental condition on, under or emanating from any facility in accordance with applicable law or as directed by the county; or (e) the performance of any remedial work, including all remediation costs.

Notwithstanding the foregoing, the county is not entitled to indemnity under this Section 1004-2.418(a) to the extent any losses, claims, damages, or liabilities are determined by a court of competent jurisdiction by final and nonappealable judgment to have resulted from the gross negligence or willful misconduct of the county. Nothing in this section shall be construed as waiving a grantee's right to seek recovery from a third party other than the county or an agency of the county for indemnified claims.

- (b) **Liability.** A grantee shall be fully and strictly liable to the county for any damage or injury incurred by the county in connection with the use of the franchise property. Any damage to any public street, road, or other public improvement in a county highway that is directly or indirectly caused by a grantee's acts or omissions shall be promptly repaired by the grantee, at its sole cost and expense, to the complete satisfaction of the county. If a grantee fails to comply with any repairs ordered by the county within the time specified, then the road commissioner may undertake and complete all repairs at the grantee's sole cost and expense. Nothing in this section shall be construed as waiving a grantee's right to seek recovery from a third party other than the county or an agency of the county for these liabilities.
- (c) **Counsel.** The county and the other parties entitled to be indemnified by a grantee hereunder shall have the right to select attorneys of its own choice to represent it at the grantee's expense.
- (d) **Documents.** In satisfying the obligations under this section, a grantee shall provide the county with copies of all communications, filings, writings, photographs and materials given to or received from any person, entity or agency (to the extent not protected by attorney-client privilege), in connection with any claim, order, request or demand described in this section, or of any cleanup or remedial work conducted on any facility, on or in the vicinity of any facility, and shall notify the county of and permit a county representative to

attend any meetings or oral communications relating to any claim, order, request or demand, or of any cleanup or remedial work.

- (e) **County Costs.** Without limiting the generality of any of the foregoing, a grantee's indemnification obligations include all costs incurred by the county, including all remediation costs and all other costs for any investigation and remedial work required by applicable law or otherwise necessary to responding to any claims, as well as all attorney's fees and consultant fees incurred by the county in responding to any claims and the county's consequential damages. If the county seeks to enforce its rights to be indemnified by a grantee as provided in this ordinance, the grantee shall pay for all costs and expenses, including without limitation attorneys' fees, incurred by the county in enforcing, protecting, maintaining, and preserving its rights to be indemnified under this ordinance.
- (f) **Performance of Remedial Work.** Without waiving any rights, at its option, the county may, upon failure of the grantee to promptly perform all necessary remedial work, commence the work itself and require the grantee to pay, pursuant to the foregoing indemnity, all remediation costs and other costs incurred by the county.
- (g) **No County Obligation.** The grant of rights to the county in subsection (f) of this section: (1) is not intended to and shall not be construed to impose any obligation on the county to exercise the rights granted to a grantee or otherwise investigate, monitor or clean up any environmental condition at any facility; and (2) does not authorize the county to operate grantee's facilities.
- (h) **Reimbursement.** If any emergency response costs are incurred by the county in connection with any damages caused in whole or in part by a grantee or its franchise property, the grantee shall reimburse those costs within thirty days after being invoiced.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.420 Release of contaminants.

If any release or any uncontrolled loss of a contaminant, or the discovery of an unremediated environmental condition, occurs on, under or from any franchise property, the grantee shall immediately conduct remedial work, at its sole expense, as is necessary to fully mitigate, remediate, and monitor the contamination in accordance with all applicable laws, and as directed by the county. Nothing in this section waives the grantee's rights to seek recovery from a third party for remedial work. At the county's request, and at no cost to the county, the grantee shall provide all information and documents concerning the release of contaminants or the unremediated environmental condition occurring on, under or from the franchise property, including documents and information relating to remediation of the contamination. If a grantee fails to perform any of its obligations under this section, then the county may perform the remediation and the grantee shall indemnify and reimburse the county for all remediation and related costs incurred by the county.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.422 Transferability of franchise.

- (a) **Transfer.**
 - (i) **Documentation.** A grantee may not sell, transfer, assign or lease a franchise or any part of a franchise, except with the consent of the board of supervisors, which the board shall not arbitrarily withhold. No sale, transfer, assignment or lease of a franchise may be made unless the grantee files with the board of supervisors no later than sixty days after execution of an agreement for any sale, transfer, assignment, or lease of the franchise, or any part thereof, or any of the rights or privileges granted under a franchise: (1) a certified copy of the executed instrument of the sale, transfer, assignment or lease of the franchise; and (2) a written request, by all parties to the agreement, for the consent of the

-
- board of supervisors to the sale, transfer, assignment or lease. If the instrument and request are not filed with the board of supervisors within sixty days after the effective date of the sale, transfer, assignment or lease, then the franchise is subject to forfeiture.
- (ii) **Deposit; Applicability; Pledge of Franchise.** At the time a grantee seeking to transfer a franchise files the documents required by subsection (a)(i) of this section, the grantee shall deposit five thousand dollars with the public works department to cover the county's administrative costs, staff time, administrative, legal and consulting fees incurred by the county in connection with processing the application for the transfer of a franchise. If the initial deposit is depleted, the grantee shall, within thirty days after receiving written notice, make an additional deposit with the public works department in an amount specified by the public works department.
 - (iii) **Additional Terms; Security Grant.** In granting consent to the sale, transfer, assignment or lease, the board of supervisors may impose additional terms upon the franchise that the board deems to be in the public interest. This section applies to any sale, transfer, assignment, or lease of a franchise, whether by operation of law, by voluntary act of the grantee, or otherwise. Any attempt to sell, transfer, assign, or lease of a franchise without board of supervisors consent is invalid. Notwithstanding the foregoing, the county's approval is not required for the granting of a security interest in any of grantee's assets, or any mortgage or other hypothecation, or by assignment as collateral of any rights, title or interest of grantee in the franchise in order to secure indebtedness.
 - (iv) **Merger or Reorganization.** The county's approval is required to sell, transfer, assign or lease any franchise resulting from a consolidation or merger of grantee with or into any other person, entity or corporation, or any other business reorganization, including any transaction or series of related transactions by grantee where more than twenty-five percent of the ownership is transferred, unless the ownership is transferred to any person or entity that was, immediately prior to the transaction or transactions, the direct or indirect owner of, or under common ownership with, the grantee.
- (b) **Transfer Request.** To obtain the county's consent, a grantee shall provide the county with a written request setting forth the specific interests to be transferred, along with other information as the county may request, to the extent the information is not proprietary or otherwise privileged. A transfer application is subject to the approval of the board of supervisors.
 - (c) **Conditions.** The county's approval or disapproval of the proposed transfer shall be based on the proposed transferee's legal, financial and technical qualifications, the transferee's acceptance of the terms and conditions of the franchise and agreement to be bound by the terms of the franchise, and on whether grantee is in compliance with the terms of the franchise and this chapter, and the approval shall not be arbitrarily withheld. If the proposed transfer is approved by the board of supervisors, the transferor and the transferee will, within thirty days of the resolution approving the transfer, execute and deliver an assumption and consent agreement, in a form acceptable to the county. As a condition to consenting to the sale, transfer, assignment, lease or agreement, the county may impose any additional terms and conditions upon the franchise and upon the grantee or assignee, which the county may deem to be in the public interest and which will be expressed by resolution.
 - (d) **No Presumption of Approval.** Nothing in this ordinance shall be construed to grant to a grantee the right to sell, transfer, assign or lease the franchise, or any part thereof, except in the manner set forth in this section. No transfer shall be effective unless and until the transfer is approved by the board of supervisors, as provided in this section.
 - (e) **Existing Franchise Requirements.** Any purchaser, transferee, assignee, or lessee of a franchise shall comply with all bond and insurance requirements of the existing franchise within thirty days after the assignment or transfer. The bond or letter of credit must be reissued in the name of transferee or assignee. After the bond or letter of credit is reissued, the original grantee's bond or letter of credit will be released, less the amount

sufficient to compensate the county for any unpaid administrative costs and losses arising out of the grantee's exercise of the franchise.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.424 Forfeiture.

A franchise may be forfeited if the grantee fails to comply with any of the terms or conditions of the franchise for more than fifteen days after receiving written notice to comply from the county. If the board of supervisors determines that the franchise is forfeited, the grantee shall immediately surrender all rights under this chapter.

(Ord. No. 2013-19, § II, 8-13-13)

Article 1004-2.6. Compensation

1004-2.602 Annual payment.

During the term of a franchise, the grantee shall pay an annual franchise fee as established by resolution of the county. The annual franchise fee shall be paid each year during the term within ninety days after the end of each calendar year during the life of the franchise. Franchise fees under this section constitute payment for the privilege of using county property, and are not in derogation of any other lawful fee or exaction. The franchise and administrative fees charged and collected under authority of this chapter do not include any other permitting or other fees the county may charge. The county reserves the right to change its franchise fees upon the renewal of a franchise at ten-year intervals following the effective date of the resolution granting the franchise, if such action is not in conflict with the law of the state of California. The following limitations apply to the annual franchise fees:

- (a) **Public Utility Not Transmitting Oil or Oil Products.** If a grantee is a public utility and is not transmitting oil or oil products, the grantee shall pay to the county two percent of the grantee's gross annual receipts that arise from the use, operation or possession of the franchise. This payment shall in no event be less than one percent of the grantee's gross annual receipts derived from sales within the unincorporated portion of the county, in accordance with California Public Utilities Code Section 6231.
- (b) **Public Utility Transmitting Oil or Oil Products.** If a grantee is determined by the public utilities commission to be a public utility transmitting oil or oil products, the grantee will be charged an annual fee, based on the internal diameter of the pipeline, in an amount calculated pursuant to California Public Utilities Code Section 6231.5.
- (c) **Non-Public Utility Franchises Transmitting Industrial Gas, Oil or Oil Products.** If a grantee is a non-public utility operating a pipeline system transmitting industrial gas, oil or oil products, the county will establish on an individual basis in the resolution granting the franchise the annual franchise payment for the pipeline franchise, including the extension, renewal, or continuation of a previously granted franchise. The annual franchise payment will be: (1) an amount equal to a specified percentage agreed to by the applicant and the county of the gross annual receipts of the applicant arising from the use, operation, or possession of the franchise; or (2) an amount agreed to by the applicant and the county; or (3) an amount computed by multiplying the sum of one-half of the nominal internal diameter of the pipe, expressed in inches, by the number of lineal feet of the pipe within the public streets, ways, alleys, or other public places within the unincorporated portion of the county, or on property owned by the county.
- (d) **Other Pipeline Franchises.** If a grantee is awarded a pipeline franchise for any pipeline other than those specified in subsections (a), (b), or (c) of this section, or for the extension, renewal, or continuation of a previously granted franchise, the grantee shall pay to the county two percent of the grantee's gross

annual receipts that arise from the use, operation or possession of the franchise. This payment shall in no event be less than one percent of the grantee's gross annual receipts derived from sales within the unincorporated portion of the county, in accordance with California Public Utilities Code Section 6231.

- (e) Extension and Renewal. If a grantee with a previously granted franchise to build and operate a pipeline system transmitting oil or gas or their products seeks to renew or extend a franchise that was in effect on September 1, 1989, the grantee will be charged the fee computed pursuant to California Public Utilities Code Section 6231.5(c).

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.604 Late payments.

If any portion of the annual franchise fee is not paid on or before April 15 of the year it is due, a late fee equal to fifteen percent of the amount of the unpaid franchise fee will attach to the unpaid portion of the franchise fee on April 16. If any annual franchise fee is not paid on or before the last day of May of the year in which the franchise fee is due, an additional late fee equal to fifty percent of the amount of the unpaid franchise fee will attach to the unpaid portion of the franchise fee on June 1.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.606 Annual payment statement; audit.

If a franchise fee is based on a grantee's annual receipts, the following requirement also applies: upon its payment of the annual franchise fee on March 31 of each calendar year, the grantee shall also file with the public works department a verified statement under penalty of perjury showing in detail the basis for the calculation of the franchise payment of franchise fees. The statement shall be in a form established by the public works department and contain the information requested by the public works department. Upon request, the county may examine at grantee's offices the books, accounts, and records necessary to verify the data set forth in the annual statement described in this section. Costs relating to this examination may be deducted from the administrative fee established in Section 1004-2.608.

(Ord. No. 2013-19, § II, 8-13-13)

Article 1004-2.8. Relocation, Removal and Abandonment

1004-2.802 Relocation and costs.

- (a) Street Modifications. The county reserves the right to change the grade, to change the width or to alter or change the location of any street over which a franchise is granted. If any of the pipelines, facilities or appurtenances constructed, installed or maintained by a grantee pursuant to a franchise on, along, under, over, in, upon or across any street are located in a manner that prevents or interferes with the change of grade, traffic needs, operation, maintenance, improvements, repair, construction, reconstruction, widening, alteration or relocation of the street, the grantee shall relocate permanently or temporarily any franchise property at no expense to the county upon receipt of a written request from the road commissioner to do so, and shall promptly apply for any required permits and commence the work on or before the day specified in the written request which date shall be not less than sixty days after receipt of the written request. A request to disconnect, remove, or relocate franchise property will: (1) specify the reasons for the required relocation, removal, or disconnection; (2) specify the nature of the work and the areas in which it will be done; (3) direct the grantee to take all steps necessary to protect its franchise property during the work; (4) specify the date on which the required relocation, removal or disconnection shall be completed, which date

will be at least thirty days after the mailing of the notice; and (5) specify the amount of the county's costs attributable to the grantee's franchise property and the date by which the grantee must pay this amount to the county. The grantee shall reimburse the county for costs under this section within forty-five days of receipt of this notice. The grantee shall thereafter diligently prosecute the work to completion. Nothing in this section is intended to restrict any right that the grantee may have, if any, to recover any relocation costs from the California Department of Transportation for state freeway or highway construction, or for the California Department of Transportation to pay the costs itself. Nothing in this section shall restrict any right that the grantee may have to recover any relocation costs under applicable law from a third party other than the county or an agency of the county.

(b) Public Entity Facilities.

- (i) Public Entity Improvements. The county reserves the right for itself, and for all other public entities that are now or may later be established, to lay, construct, repair, alter, relocate and maintain subsurface or other improvements of any type or description in a governmental but not proprietary capacity within the streets over which the franchise is granted. If the county or any other public entity finds that the location or relocation of county improvements conflicts with the facilities laid, constructed or maintained under a franchise, whether the facilities were laid before or after the improvements of the county or other public entity were laid, the grantee of the franchise shall, at no expense to the county or public entity, on or before the date specified in a written request from the road commissioner, which date shall be not less than sixty days after the receipt of a notice and request to do so, commence work to change the location either permanently or temporarily of all facilities that conflict with the improvements to a permanent or temporary location in the streets to be approved by the road commissioner and thereafter diligently prosecute the work to completion.
- (ii) State Highway. If a street over which a franchise is granted is subsequently designated a state highway, while it remains a state highway, the rights of the state of California shall be as provided in Section 680 of the Streets and Highways Code of the State of California. Nothing in this section shall restrict any right that the grantee may have, if any, to recover any relocation costs under applicable law from a third party other than the county or an agency of the county.

- (c) Relocation. A grantee shall remove or relocate, without expense to the county and within the time the county reasonably specifies, any facilities installed, used and maintained under the franchise, if and when made necessary by any lawful change of grade, alignment or width of any public place in the unincorporated county or on property owned by the county, including the construction of any subway or viaduct by the county. As examples only and not by way of limitation, a change by the county to public works such as sewers, water lines and storm drains, and public facilities below grade, in trenches, conduits or otherwise, shall give rise to the grantee's obligation to remove or relocate its facilities. The county may, in the discretion of the road commissioner and at the grantee's sole cost, provide assistance as the road commissioner deems appropriate in locating and securing the rights to alternate locations to which to relocate the pipeline when relocation is required under this section. Nothing in this section shall obligate the county to provide any assistance.
- (d) Conflicting Improvements. If the county or any other public entity constructs or maintains any storm drain, sewer structure, or other facility or improvement under or across any facility of the grantee maintained pursuant to this ordinance, the grantee shall provide at no expense to the county or other public entity all support as shall be reasonably required to support, maintain and protect the grantee's facility.
- (e) Public Entity Relocation. If a grantee after reasonable notice fails or refuses to relocate permanently or temporarily its facilities located in, on, upon, along, under, over, across or above any highway or to pave, surface, grade, repave, resurface or regrade as required, pursuant to any provision of the franchise, the county or other public entity may cause the work to be done and shall keep an itemized account of the entire cost. The grantee shall hold harmless the county, and the county's officers, agents, and employees from any

liability which may arise or be claimed to arise from the moving, cutting, or alteration of any of the grantee's facilities, or the turning on or off of water, oil, or other liquid, gas, or electricity.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.804 Removal or abandonment.

- (a) Application to Abandon. Within sixty days after a franchise expires, is revoked or is terminated, or the use of all or a portion of the franchise property has been permanently discontinued, the grantee shall submit a written application to the road commissioner for a permit to: (1) abandon all or a portion of the franchise property in place; or (2) remove all or a portion of the franchise property. The application must describe the franchise property to be abandoned or removed and its location, and must describe with reasonable accuracy the physical condition of the franchise property. The road commissioner will establish conditions for the proposed abandonment or removal and issue a permit. Within ninety days after obtaining a permit, the grantee shall commence and complete the work authorized by the permit.
- (b) Determination. The road commissioner, in ~~the road commissioner's~~ ~~his or her~~ sole discretion, shall determine whether the abandonment in place or removal that is proposed may be effected without detriment to the public interest and under what conditions a proposed abandonment or removal may be safely effected. The road commissioner shall then notify the grantee of the determination. The grantee shall pay to the county the cost of all tests required to determine whether the franchise facilities will be abandoned in place or removed.
- (c) Permit Application. Within forty-five days after receipt of notice, the grantee shall apply for a permit from the public works department to abandon in place or remove all or a portion of the facilities and shall pay all fees and costs related to the abandonment. The permit shall contain conditions of abandonment or removal as may be prescribed by the road commissioner. The grantee shall comply with all permit conditions to the satisfaction of the road commissioner before the facilities shall be considered abandoned or removed. Until so abandoned or removed, fees applicable to the franchise and the removal or abandonment shall continue to accrue. Any abandonment in place shall be conditioned, in part, upon grantee's compliance with the provisions of subparagraphs (a) and (b) of this section.
- (d) Work. The grantee shall, within ninety days after obtaining an abandonment or removal permit, commence and diligently prosecute to completion the work authorized by the permit.
- (e) County Removal. If a grantee does not comply with all terms and conditions of abandonment in place or removal, then the county may remove, or cause to be removed, the facilities at the grantee's expense. The grantee shall pay to the county the cost of work plus the current rate of overhead being charged by the county for reimbursable work.
- (f) Abandonment or Removal. If a grantee fails to apply for a permit to remove or abandon franchise property within thirty days after the expiration, revocation or termination of a franchise, or within thirty days after the permanent discontinuance of the use of all or a portion of franchise property, the road commissioner will determine whether the facilities will be abandoned in place or removed and will notify the grantee of this determination.
- (g) Abandonment Fee. If a grantee applies for authority to abandon all or a portion of its facilities in place, and the board of supervisors authorizes abandonment in place of all or part of the facilities, the grantee, other than a grantee that uses its facilities to transport only potable water, shall pay to the county a fee established by resolution of the county. If the grantee has paid the abandonment fee and the county later requires removal of the abandoned facilities, the amount of any fee paid for abandonment shall be credited against grantee's cost of removal.

-
- (h) Cost Reimbursement. The grantee shall reimburse the county for all reasonable costs, staff time, administrative, legal, and consulting fees incurred by the county in preparing any reports, statements, studies, and other environmental review pursuant to CEQA for the abandonment or removal of any pipeline(s) and/or facilities.
 - (i) Additional Orders. If any facilities to be abandoned in place are not abandoned in accordance with all prescribed conditions, the road commissioner may make additional appropriate orders, including an order that the grantee remove any or all of the facilities. The grantee shall comply with all additional orders.
 - (j) Failure to Make Application. If, within sixty days after the expiration, revocation or termination of a franchise, or of the permanent discontinuance of the use of all or a portion of a grantee's facilities, the grantee fails or refuses to apply to abandon or remove the facilities, the road commissioner shall make the determination as to whether the facilities shall be abandoned in place or removed. The road commissioner shall then notify the grantee of the determination. The grantee shall thereafter comply with the provisions of Section 1004-2.802(c).
 - (k) Continuing Removal Obligation. Any franchise property that is abandoned in place is subject to the condition that if, at any time after the effective date of an abandonment, the public works department determines that any portion of the abandoned property may interfere with any public project or create a hazardous environmental condition, the grantee or its successor in interest must immediately remove that portion of the property at the sole expense of the grantee or its successor in interest when directed to do so by the public works department, or pay the county for the full cost of the removal.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.806 Hazardous materials.

Prior to the issuance of any encroachment permit for the construction or installation of any pipelines for the transmission of flammable liquids or gases, approval shall be obtained from the road commissioner and, as applicable, from each fire protection district or the state fire marshal, as the case may be, in which any pipelines will be located. All approvals should be based on the determination that no undue fire hazard will be created to life or property in the areas through which the proposed pipeline will be located. To make the determination, consideration shall be given to:

- (a) Type of commodity to be transmitted;
- (b) Density of population or structural development in the area through which the pipeline will be located;
- (c) Adequacy of water supplies for fire control purposes;
- (d) Extent of available public fire protection facilities; and
- (e) Number and location of shut-off valves in line.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.808 Acquisition of a grantee's property.

- (a) Eminent Domain. Any franchise granted hereunder in no way impairs or affects the right of the county to acquire the property of grantee by purchase or condemnation, and nothing in this ordinance shall be construed to contract away, modify or abridge, either for a term or in perpetuity, the county right of eminent domain in respect to any public utility.
- (b) Valuation of Franchise. In accordance with Public Utilities Code Section 6263, no franchise granted under this ordinance shall ever be given any value before any court or other public authority in any proceeding of any

character in excess of the cost to grantee of the necessary publication under this chapter at the time of grant of the franchise.

(Ord. No. 2013-19, § II, 8-13-13)

1004-2.810 Notices.

All notices, demands or statements required by a franchise or this chapter to a grantee shall be in writing and delivered by hand or certified mail or by overnight delivery addressed to the person the grantee has designated pursuant to Corporations Code Section 17060(a)(2). All notices required by a franchise or this chapter to the county shall be in writing and delivered by hand or certified mail addressed to the county clerk of the board of supervisors and the road commissioner. All notices shall be deemed given on the date of delivery by hand or, or three days after deposit in the mail, postage prepaid or to overnight delivery carrier.

Chapter 1006-2 ROAD DEDICATION AND IMPROVEMENT

Sections:

Article 1006-2.2. Intent and Objectives

1006-2.202 Findings—General.

In enacting this chapter the board of supervisors finds that the county has experienced explosive increases in population and motor vehicle operation, and extensive changes from the former predominantly agricultural uses to land development for high-activity purposes other than agricultural with attendant building construction, which factors directly result in rapidly rendering the present internal road system inadequate in width and development to provide minimum acceptable service capacity to the lands being developed, which inadequacy is growing at an increasing rate. The indirect result of these factors of change and growth is to increasingly tend to deny to the public the use of roads of minimum standards for safe and convenient vehicular and pedestrian access and travel between many points inside and outside the county.

(Ord. 71-20 § 1 (part), 1971).

1006-2.204 Findings—Cost.

This board further finds that the total cost of correcting county road system deficiencies substantially exceeds the total funds available to the county for this purpose, and that unless measures are taken to provide for the orderly and systematic increase in width, capacity and improvement of the county roads when and as the development of land as aforesaid takes place, the citizens of this county will early suffer a condition of blight with pernicious effect upon the economic welfare, public convenience and general prosperity of the county.

(Ord. 71-20 § 1 (part), 1971).

1006-2.206 Intention.

Therefore, the provisions of this chapter are intended to define the requirements and procedures for the dedication of right-of-way and the improvement of those roads shown on the county major roads plan, a portion of the circulation element of the general plan of Contra Costa County, (approved by the board and in the public works department) in connection with the issuance of building permits or land use permits in certain land use districts in order to accomplish the objectives set forth in Section 1006-2.208.

(Ord. 71-20 § 1 (part), 1971).

1006-2.208 Objectives.

The objects of these provisions are:

- (1) To insure conformity to the Subdivision Map Act and to Title 9, and to extend the application of the basic requirements thereof to land development in which no subdivision is involved;
- (2) To spread the costs of required public improvements upon the abutting properties as contemplated by law;
- (3) To cause the installation of those improvements necessary to properly serve the property developed, at the time of its development, so that the benefited property may enjoy the use of such improvements throughout the normal life thereof, and so that such improvements are not indefinitely deferred to the detriment of the public interest, safety and welfare;
- (4) To protect the public's vested interest in the pre-existing capacity of this county's streets and highways, and to provide a policy for public participation in the widening and improvement of streets and highways when necessitated by development of abutting property;
- (5) To prevent the dissipation or improper use of the county's general operating and maintenance funds in providing these improvements or in maintaining faulty or substandard installations; and
- (6) To protect the public health, safety, living standards and common welfare of the general public.

(Ord. 71-20 § 1 (part), 1971).

Article 1006-2.4. Requirements and Exceptions

1006-2.402 Requirements generally.

1006-2.408 Existing improvements in right-of-way.

No additional improvements shall be required on a lot where complete roadway, curb, gutter and sidewalk improvements exist within the present road right-of-way contiguous thereto; but additional right-of-way may be required to be dedicated to conform to future road widths.

(Ord. 71-20 § 1 (part), 1971).

1006-2.410 No building in dedicated area.

After March 31, 1971, no person shall erect any building or structure within the area(s) required to be dedicated by this chapter.

Article 1006-2.6. Procedure

1006-2.602 Procedure—Generally.

Any person required to dedicate land by the provisions of this chapter shall deliver an offer to dedicate, properly executed by all parties owning an interest, including beneficiaries and trustees in deeds of trust, as shown by a current title report, furnished by the applicant, and acceptable to the public works department. The offer shall:

- (1) Be on a form approved by the county counsel and the public works director;

Such bond may be either a cash bond, or a bond executed by the lot owner as principal and a company authorized to act as a surety in this state. The bond shall be payable to the county and be conditioned upon the faithful performance of all required work; and it shall provide that if such work is not completed within the time specified, the county may have it completed, and the parties executing the bond shall be firmly bound under a continuing obligation for the payment of all necessary costs and expenses incurred in the construction thereof.

(Ord. 71-20 § 1 (part), 1971).

1006-2.608 Improvement default.

On any default or failure on the part of the owner (principal) to fully, faithfully and properly do or complete any of the required improvements, the county may have part of all of the work done, and may collect the costs caused thereby from the cash deposit (refunding any remainder) or enforce collection thereof under the surety bond.

(Ord. 71-20 § 1 (part), 1971).

1006-2.610 Procedure—Bond term and completion.

The term of the (cash and/or surety) bond required by this chapter shall begin when the cash is deposited or the surety bond is filed, and shall end when the public works director accepts in writing the required improvements as completed to ~~his~~the public works director's satisfaction, after which the deposit and/or surety bond shall be refunded and/or exonerated as appropriate.

(Ord. 71-20 § 1 (part), 1971).

1006-2.1204 Road width review and findings.

- (b) **Plans.** The public works department shall provide plans showing line and grade, and shall place one set of construction stakes. If the public works department cannot provide plans or survey stakes in time to coordinate with the applicant's schedule, the applicant will furnish construction plans for review and approval by the public works department before construction starts. In applying all other provisions of this code, the area of such lot shall be considered as that which existed immediately before to such required road widening.

(Ord. 71-20 § 1 (part), 1971).

Article 1006-2.14. Appeal

1006-2.1402 Appeal—Applicability.

Chapter 1006-4 SETBACK REQUIREMENTS

Sections:

Article 1006-4.2. Policy

1006-4.202 Policy—Declaration.

This county is developing a master plan of streets and highways (and precise sections thereof) for the purpose of assuring ample transportation facilities for the present and future. The magnitude of this undertaking precludes these plans being completed in their entirety in time to fully guide the rapid development occurring within the county; and the surveys, hearings, map preparation, and requirements of law governing these matters necessitate that detailed plans be developed progressively. To conserve the public interest and to assure economies and public safety and welfare, it is imperative that necessary rights-of-way for streets and highways within the county be protected against encroachment by permanent physical improvements, the existence of which would make unnecessarily difficult or make impractical the retention or creation of thoroughfares, adequate in alignment, dimensions and vision clearance to serve the public needs, safety and welfare. Consequently, to deal

effectively with the practical problem thus presented, it is necessary to establish certain minimum building line setbacks on a county-wide basis.

(Ord. 71-20 § 1 (part), 1971).

Article 1006-4.4. Requirements

1006-4.402 Adopted section of streets and highways plan—Filing required.

Whenever the board adopts a precise section of the streets and highways plan, the public works department shall prepare a map of the highway, sufficient to show the location of the highway on parcels of land to be traversed or otherwise occupied by the highway when constructed, and file the map in the recorder's office and deliver a copy to the building inspector.

(Ord. 71-20 § 1 (part), 1971).

1006-4.404 Effect of plan on building permit issuance.

Before issuing a building permit, the chief building inspector or ~~his~~ the chief building inspector's authorized deputy shall examine the precise plan. If the chief building inspector ~~he~~ finds that the building or structure proposed to be erected will lie within the boundaries of the precise section of the streets and highways plan, or within the setback lines of the existing zoning regulations affecting the land as measured from the boundaries of the precise section, the chief building inspector ~~he~~ shall grant the permit only if the cost of the proposed building or structure is five hundred dollars or less, otherwise, the chief building inspector ~~he~~ shall refuse the permit and notify the applicant for the permit of the reason for refusal.

(Ord. 71-20 § 1 (part), 1971).

1006-4.406 Chapter administration.

Any person aggrieved by the refusal of a building permit may appeal to the planning commission. Administration of this chapter and of Streets and Highways Code Sec. 741.2 is referred to the planning commission under Section 26-2.408 of this code.

(Ord. 71-20 § 1 (part), 1971).

1006-4.408 Building permit issuance after appeal—Conditions required.

The board of adjustment shall grant the permit only if all the following are true:

- (1) There are special circumstances or conditions relating to the property upon which the proposed building, structure, or other improvement is sought to be placed;
- (2) Granting the application is necessary for the preservation and enjoyment of substantial property rights; and
- (3) Balancing the interests of the public in preserving the integrity of the master plan of streets and highways against the interest of the owner of the land in using ~~his~~ the owner's property, the granting of the permit is required by considerations of justice and equity.

(Ord. 71-20 § 1 (part), 1971).

Article 1006-4.6. Exemptions

1006-4.602 Exemptions—Eminent domain, declaratory relief, zoning.

- (a) Nothing in this chapter shall be deemed a condition precedent to the acquisition of rights-of-way by purchase or by proceedings in eminent domain.
- (b) Nothing in this chapter shall be construed to restrict the right of any person to seek declaratory relief under Code of Civil Procedure Section 1060, or to avail ~~themselves~~ ~~himself~~ of any other legal or equitable remedy applicable to ~~the person's~~ ~~his~~ particular case.
- (c) No zoning regulations are to be construed as permitting a building line setback or any building within the boundaries of the precise section, except as provided in this chapter.

(Ord. 71-20 § 1 (part), 1971).

1006-4.604 Exemptions—Pre-existing structures.

No building, structure, well, excavation, or subsurface structure existing on December 22, 1957, shall be deemed to be in violation of this chapter.

(Ord. 71-20 § 1 (part), 1971).

(Ord. 68-10 § 2 (part), 1968: prior code § 7801).

1008-2.004 Public hearing by board—Notice.

The board may from time to time call public hearings to ascertain whether the public necessity, health, safety or welfare requires the removal of poles, overhead wires and associated overhead structures within designated unincorporated areas of the county and the underground installation of wires and facilities for supplying electric, communication, or similar or associated service or the installation of a modified underground system. The clerk of the board shall notify all affected property owners as shown on the last equalized assessment roll and utilities concerned by mail of the time and place of such hearings at least ten days prior to the date thereof. Each such hearing shall be open to the public and may be continued from time to time. At each such hearing all persons interested shall be given an opportunity to be heard. The decision of the board shall be final and conclusive. 1008-2.006 Designation by board resolution.

If, after any such public hearing the board finds that the public necessity, health, safety or welfare requires such removal and such underground installation or the installation of a modified underground system within a designated area, the board shall, by resolution, declare such designated area an underground utility district and order such removal and underground installation or the installation of a modified underground system. Such resolution shall include a description of the area comprising such district and shall fix the time within which such removal and underground installation or the installation of a modified underground system shall be accomplished and within which affected property owners must be ready to receive underground service. A reasonable time shall be allowed for such removal and underground installation or the installation of a modified underground system, having due regard for the availability of labor, materials and equipment necessary for such removal and for the installation of such underground facilities as may be occasioned thereby.

(Ord. 68-10 § 2 (part), 1968: prior code § 7803).

1008-2.008 Unlawful acts.

Whenever the board creates an underground utility district and orders the removal of poles, overhead wires and associated overhead structures therein as provided in Section 1008-2.006, it is unlawful for any person or utility to erect, construct, place, keep, maintain, continue, employ or operate poles, overhead wires and associated overhead structures in the district after the date when the overhead facilities are required to be removed by such resolution, except as the overhead facilities may be required to furnish service to an owner or occupant of property prior to the performance by such owner or occupant of the underground work necessary for such owner

or occupant to continue to receive utility service as provided in Section 1008-2.018, and for such reasonable time required to remove facilities after the work has been performed, and except as otherwise provided in this chapter. (Ord. 68-10 § 2 (part), 1968: prior code § 7804).

Excluded from this category are interior remodels and routine maintenance or repair. Excluded routine

maintenance or repair includes roof or exterior surface replacement, pavement resurfacing, repaving and road pavement structural section rehabilitation within the existing footprint, and any other reconstruction work within a public street or road right-of-way where both sides of that right-of-way are developed.
