

1/23/24

I'm writing this letter for Lisa Martell as an environmental community group member. The Concerned Citizens of Rodeo and Crockett joined forces in early 2018, with the release of the draft EIR for the Selby Slag remediation, from DTSC. We have continued to meet with Asha Setty of DTSC, and various engineers involved with the project. Lisa has been our ongoing secretary, and arranges meetings with Asha. Our community action group also participated with the Sierra Club, in a project called "Hack the Bay. Our group developed an alternate mitigation plan for the Selby site, and presented it to DTSC last Spring.

Community action group members:

Maureen Brennan

Nancy Rieser

Charles Davidson

Lisa Martell

Ann Puntch

Heidi Petty

Jay Gunkelman

Asha Setty

Amanda Lourie
