Please explain why you would like to serve on this particular board, committee, or commission.

I would like to serve on this board as it gives me the opportunity to open more doors of learning, advocating and involving myself in the community to network with educators and in the field of education. I am also including my bio to say a little of what I can bring to this board. My name is Elianna Campos, I am an educator and owner of Tenderloving Preschool Child Care for the past 16 yrs. I have acquired many talents and developed many interests throughout my professional development years. I am 2 classes away from achieving my associates in early childhood education, teachers permit and many talents that come with early education. I also have experience in accounts receivables and management/HR for 13 years prior. I have developed a Reggio Emilia and Academic curriculum for my program. I am the founder and President of the current association (NCALFCCA) that provides support and provides aid to existing and new providers in the field of ECE. As of 2017, I also co-founded an association previously in the same field. I wore and continue to wear many hats in the association as President, vice President, secretary and regional Representative. I am also part of several other organizations in the field. I am part of Changemakers as a leader in the field to advocate for early educators and the community is a goal of mine. As an early educator my goals are for the developmentally appropriate practices for children and their families. Develop a sense of community and support for families in my program. Advocate and lead in the goals of a better childcare system for all families, better living wages for educators in the field and an equitable child care on gender and social justice for all children.

I believe in diversity and have a passion for supporting families of multilingual learners. I love to do crafts and culinary interests. I love to teach young children but I enjoy teaching educators in multi-languages. I am a true advocate in the field of early education because not only is the childcare system broken for decades but the pandemic puts a strenuous burden on families, educators and the children. Our government needs to hear our stories first hand, the struggles we have gone through year after year in the field with not making a decent livable wage, families not able to qualify because they are a few dollars away from qualifying and children being on long waitlist that age out and never get the early education young children need to thrive in school in their later years.

I have been a leader with ChangeMakers for 2 years. Which has taught me to be a strong leader in the field to continue this fight of ECE. I have been a mentor for 2 yrs. to new and bi-lingual providers in a program from COCOKids. I have been offer to present at other conference workshops as well.
