As an African American with extensive nursing experience, I have firsthand knowledge of how continued health disparities and inequity can impact both a community and one's future. I have researched the goals of the African American Holistic Wellness and Resource Hub, and I am very enthusiastic about the program's goals. I am seeking the opportunity to serve on this board because I deeply committed to advancing equitable wellness and strengthening the health of the community that I call home. I believe my broad background in nursing will be an asset in identifying best practices to make great strides to improve the overall health of African American residents in the East county, and I would love an opportunity to assist in developing this worthy project.

**Describe your qualifications for this appointment. (NOTE: you may also include a copy of your resume with this application)**

---

As a registered nurse with extensive experience across maternal, child, and adolescent health; school health; behavioral health; and case management for youth and adults with special needs, I have dedicated my career to supporting individuals and families who are often left alone to navigate complex health care systems with limited resources. My work as Director of Maternal, Child, and Adolescent Health, as well as my roles in community and behavioral health nursing, has put me in a position to witness firsthand the impact that improved physical and mental health can have on the trajectory of one's life. As both a healthcare professional and African American resident, I bring lived experience that deepens my understanding of deeply entrenched inequities can negatively impact one's entire lifespan. I have also had the privilege of developing programs and creating and tracking goals that have significantly improved one's life. It would be an honor to collaborate with fellow leaders to build a positive and welcoming space where African American individuals and families can access culturally responsive, comprehensive, and empowering support. I have a proven track record in guiding programs that help address physical and behavioral health challenges that also ensure basic needs are met, so that more challenging concerns can be focused on within the family.
