Introduction 67

In accordance with the Americans with Disabilities Act and California Law, it is the policy of the Consortium to offer documents in a manner that is readily accessible to everyone, including individuals with disabilities.

If you have a disability and require information or materials in an appropriate alternative format or any other accommodation or language assistance, please contact Contra Costa County Department of Conservation and Development at (925) 655-2708. Hard-of-hearing individuals may call the California Relay Service at (800) 735-2929 or TDD (925) 779-7081 for assistance.

EXPECTED RESOURCES

AP-15 EXPECTED RESOURCES - 91.420(B), 91.220(C)(1,2)

Introduction

Contra Costa anticipates that over the Strategic Plan's five-year course, CDBG, HOME, and ESG funds will be available. These federal funds will be used to leverage public and private resources in all program areas. The Annual Action Plan budgets reflect one-fifth of the anticipated resources over the 5-year Consolidated Plan period.

Anticipated Resources

TABLE 7 - EXPECTED RESOURCES – PRIORITY TABLE

Explain how federal funds will leverage those additional resources (private, state, and local funds), including a description of how matching requirements will be satisfied.

County policy requires projects funded with CDBG funds to provide a minimum match as follows: 10 percent is required from nonprofit organizations, 25 percent from local government agencies, and 100 percent from for-profit entities. Public service and economic development projects (sponsored by nonprofit organizations and public agencies) receiving multiple-year funds are further required to increase the match level for each funding year up to 50 percent match after year five. In accordance with federal regulations, all projects funded with Consortium HOME funds are required to provide a minimum 25 percent permanent match to the project from non-federal sources. In accordance with federal regulations, all projects funded with ESG funds are required to provide a minimum 100 percent match from non-federal sources.

If appropriate, describe publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan.

As the Housing Successor Agency to the former redevelopment agency, the County owns land that will be used for affordable housing development in Bay Point, North Richmond, and Rodeo. The Housing Successor (to the former Redevelopment Agency) will issue requests for proposals to develop the Rodeo and Bay Point parcels during the Consolidated Plan period. The Housing Successor is considering using the proceeds of that sale to support the Rodeo and Bay Point developments. However, no CDBG, HOME, or ESG funds are currently allocated to this prospective project.

	Planned Activities	

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The County's CDBG entitlement area is the entire area of the County except for the Cities of Antioch, Concord, Pittsburg, and Walnut Creek. The County administers the HOME Program for the Contra Costa HOME Consortium, which includes the Cities of Antioch, Concord, Pittsburg, and Walnut Creek. The Contra Costa HOME Consortium entitlement area is the entire County. The County also administers the ESG Program. The County's ESG entitlement area is the entire area of the County, except for the Cities of Antioch, Concord, Pittsburg, and Walnut Creek.

Low-income census tracts can be found throughout the County; however, many communities in west and east Contra Costa County, such as Richmond, San Pablo, North Richmond, Tara Hills, Bay View, and Bay Point, all have a concentration of minority populations (more than 78.3% of the population) that are also in low/mod-income census tracts.

Geographic Distribution

Target Area	Percentage of Funds
Contra Costa County	100

TABLE 10 - GEOGRAPHIC DISTRIBUTION

Rationale for the priorities for allocating investments geographically

Though projects may serve the entire Urban County, as with many Public Service projects, the program intends to target services to areas with the highest need. This includes revitalization strategy areas or census tracts that meet area benefit criteria (an area, typically a census tract or a contiguous group of census tracts, where at least 51 percent of the population is low/mod-income). In all cases, Subrecipients must demonstrate that they can serve a minimum of 51 percent of very low- and low-income persons or households. However, it has been the County's practice to fund projects that serve a minimum of 75 percent extremely low, very low- and low-income persons or households. Furthermore, the established policy prioritizes housing projects that provide units affordable to and occupied by households with extremely low incomes. These policies and practices have ensured that projects/programs serve those areas with the highest need.

Housing activities to meet Consolidated Plan priorities include new construction, rehabilitation, and preservation of existing affordable housing. These housing projects have the potential to either assist in neighborhood revitalization or provide de-concentration of low-income and/or minority populations by

location in areas with little supply of affordable housing.

Discussion

Given the size of the entitlement areas of the CDBG, HOME, and ESG Programs for the County, Contra Costa County's CDBG, HOME, and ESG funds are awarded to projects and programs on a competitive allocation basis. The projects/programs, as in the case of many Public Service projects, typically serve more than just one specific area or neighborhood of the County; however, it is the intent of the programs to target services to areas with the highest need, such as a revitalization strategy area or a census tract that has a high percentage of low/mod-income households.

The highest numbers of low-income and minority households are in west Contra Costa County, followed by east Contra Costa County and central Contra Costa County. All projects funded with CDBG, HOME, and ESG funds are targeted at low-income households throughout the County.

INTRODUCTION

There are three Public Housing Authorities operating in the Consortium, the Housing Authority of Contra Costa (HACCC, which is the largest), the Richmond Housing Authority (RHA), and the Housing Authority of the City of Pittsburgh (HACP).

ACTIONS PLANNED DURING THE NEXT YEAR TO ADDRESS THE NEEDS FOR PUBLIC HOUSING

HACCC has begun a long-term project to reposition and rehabilitate its public housing portfolio despite ever-decreasing federal, state, and local funding. The planning portion of this process is completed for one of our major developments, and implementation is underway. As part of this process, HACCC has moved forward with RAD conversion and Demolition/Disposition at the Las Deltas property in North Richmond. These units have been removed from the public housing portfolio and converted to project-based voucher assistance that will be used to help fund the construction or rehabilitation of more affordable housing units.

Over the long term, HACCC intends to convert all public housing to project-based units via RAD, although the capacity to oversee is not currently available.

HACCC anticipates utilizing approximately \$2.6 million of HUD funding for modernization improvements at all its public housing developments. Specific improvements include:

- \$1,160,000 for Phase 2 modernization of Alhambra Terrace public housing development.
- \$360,000 for roofing at Kidd Manor & Vista del Camino public housing developments.
- \$250,000 for window upgrades during unit turnovers.
- \$70,000 gas line & plumbing upgrades at the Los Nogales Development.
- \$226,000 for unscheduled and emergency unit modernization and site improvements at various properties.
- \$220,000 for boiler replacement at the Kidd Manor development.
- \$139,000 for non-routine maintenance repairs (ordinary maintenance items such as window and flooring replacement or electrical repair where the scale of damage is beyond the scope of day-to-day maintenance) at various properties.
- \$137,000 for continuous repairs and replacement of concrete walks and driveways at various properties.
- \$62,000 for new appliances at various properties.

ACTIONS TO ENCOURAGE PUBLIC HOUSING RESIDENTS TO BECOME MORE INVOLVED IN
MANAGEMENT AND PARTICIPATE IN HOMEOWNERSHIP

HACCC actively encourages all Public Housing residents to get involved in the community in which they are living. Quarterly town hall meetings are organized at each property in an effort, among other goals, to develop resident leaders and solicit participation in resident service programs. HACCC believes it is important to provide residents with conduits to service providers in every community to provide families with the opportunity to pursue employment, job training, and other education that will lead them toward self-sufficiency. The ultimate goal is to transition households from welfare to work and achieve greater independence. HACCC has active resident services at four of the thirteen Public Housing Developments located in Contra Costa County, and currently, two residents serve on the Housing Authorities Board of Commissioner. The resident services program provides office and meeting facilities for work participants, childcare or after-school programs for children of working parents, equipment and materials as funding allows, and technical assistance from non-profit or governmental agencies as needed.

INTRODUCTION

During FY 2025/26, the County will continue its efforts to maintain the availability of housing and services for people experiencing homelessness in Contra Costa.

Emergency Solutions Grant (ESG) funds may be used for five program components related to homelessness: street outreach, emergency shelter, homelessness prevention, rapid re-housing assistance, and data collection. The County is allocating ESG funds for FY 2025/26 to emergency shelter services, including youth and domestic violence providers, homeless street outreach services, homelessness prevention to assist low-income residents at risk of becoming homeless, and rapid rehousing of homeless residents in quickly regaining housing stability.

CDBG funds are also targeted to support public service activities that offer various services to people experiencing homelessness, those at risk of becoming homeless, and special needs populations. In FY 2025/26, funds will be allocated for the operating expenses of an emergency shelter for single adults and programs that provide a homeless hotline, housing counseling and legal services, and food distribution. Support services such as client advocacy, job skills training, independent living skills training, respite care, counseling and case management, and nutrition education will be provided to the frail elderly, disabled, and the visually impaired. ESG funds will be allocated for adult and youth homeless shelters, emergency shelters for victims of domestic violence, homeless street outreach services, homeless support services, and homeless prevention and rapid rehousing activities, including case management and direct financial assistance. These services are available throughout the County.

During FY 2025/26, the County will continue to work with the County's Council on Homelessness and the County's CoC to implement key strategies identified in the five-year CoC Plan and the Ten-Year Plan to End Homelessness. The County's Ten-Year Plan to End Homelessness includes priorities to address three types of homeless populations: the chronically homeless, those discharged into homelessness, and the transitionally (or episodic) homeless people. This will include programs and projects to increase income and employment opportunities for homeless households, expand needed support services and programs to prevent homelessness and increase the availability of housing affordable to extremely low-income households and homeless persons.

Describe the jurisdiction's one-year goals and actions for reducing and ending homelessness, including reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs.

Contra Costa County and many other Contra Costa Consortium jurisdictions provide CDBG funds for homeless outreach teams through the Contra Costa County Health Services Coordinated Outreach,

Referral, and Engagement (CORE) Homeless Street Outreach Program. Contra Costa County provides \$90,000 in CDBG funds and \$30,884 in ESG funds to the CORE Street Outreach Program. The focus of the CORE Homeless Street Outreach Program is to target high-risk, hard-to-reach, chronically homeless individuals, transition-aged youth, and families living outside whom typically do not access services or do not know how to access services. CORE uses a client-centered, "whatever it takes" approach to build rapport and engage consumers in services that aim to get them off the streets and stabilized. CORE Outreach teams consist of two outreach workers, two outreach team leads, and an Outreach Coordinator. Outreach staff is trained in core principles and practices of trauma-informed care and motivational interviewing and espouses a "housing first" philosophy.

The various CORE teams operate over 18 hours during the day and evening. Two or three-person outreach teams go out systematically within an established service area (East, Central, and West County) to contact chronically homeless individuals living on the streets, provide face-to-face outreach and engagement, and provide information necessary to address behavior contributing to their homelessness. All CORE teams work closely with law enforcement and other local entities, providing intervention services to advise the homeless of available options and to help them avoid incarceration.

Contra Costa 211: CDBG funds are also distributed to the Contra Costa Crisis Center for the 211 lines (see the County's Project summary in AP-38 for more information). The line provides a single point of contact for homeless individuals seeking services throughout the County. Phone counselors complete an intake assessment to determine each caller's needs and then provide referrals to various community programs, including shelters, food pantries, and mental health services. Contra Costa Crisis Center has participated in the Coordinated Intake and Assessment subcommittee and will be a key partner in piloting and implementing.

Health Care for the Homeless: In addition to providing direct medical care, testing, and immunization services, the County-funded Health Care for the Homeless Program uses its mobile healthcare van for outreach. The bilingual Healthcare for the Homeless Team assesses clients' needs, provides social support, and links clients to appropriate services and programs, including mental health and substance abuse programs, Medi-Cal, the County's Basic Adult Care program, and the Covered California healthcare insurance exchange.

Addressing the emergency shelter and transitional housing needs of homeless persons

Emergency Shelter Funding: Of the funds received by the County for FY 2025/26, \$211,500, (ESG) and \$22,000 (CDBG) are allocated to local emergency shelters to provide shelter and case management services to homeless adults, families, youth, and victims of domestic violence and their children. Upon entry to one of the shelters, each resident or family is assigned a case manager to assist the individual in determining an appropriate service plan to help them regain housing as soon as possible. The shelters are part of the County's Continuum of Care and enable individuals and families to work on stabilizing their lives and moving toward a permanent housing solution. Antioch, Concord, Pittsburg, and Walnut

Creek cities also provide CDBG funds to local emergency shelters.

Transitional Housing Development: The Village of Hope in Pittsburg represents a significant advancement in transitional housing development by providing safe, affordable, and service-enriched cottage housing for unhoused Transition-Aged Youth (TAY). Developed by Hope Solutions on land leased from the Church of the Nazarene, the project addresses a critical housing gap for vulnerable young adults, offering 15 units affordable to those earning at or below 50% AMI, with some units at 30% AMI. Utilizing factory-built units to expedite construction, the development combines housing with onsite supportive services and access to CARE Centers, fostering stability, community integration, and long-term self-sufficiency for residents.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.

Transitional Housing Development: The Uilkema House facility opened in August 2013 and added 12 new beds to the homeless continuum of care and allows Contra Costa homeless, single men completing treatment programs such as Discovery House to transition back into the community with the skills and resources necessary to maintain their sobriety.

Veterans: In cooperation with the local Veterans Administration office, Contra Costa's CoC continues to work to increase its capacity to house and serve homeless veterans, including the distribution of HUD-VASH vouchers and rental assistance for permanent housing units provided to homeless veterans and their families under the Supportive Services for Veteran Families (SSVF) program.

Shortening Period of Time Homeless: The County will continue to pursue increasing the capacity of its Rapid Rehousing program. For FY 2025/26, \$161,060 (\$131,060 in ESG and \$30,000 in CDBG funds) is allocated to provide rapid rehousing and homeless prevention services to individuals and families experiencing homelessness or at risk of becoming homeless. Rapid rehousing provides housing relocation/stabilization services and financial assistance in paying deposits, rent, and utility bills to help homeless individuals and families quickly regain and maintain housing and self-sufficiency. To reach those most in need, outreach includes healthcare and mental health facilities, foster care and other youth programs, veteran's services and social services agencies, churches, and other religious organizations.

Reducing Recidivism: The Contra Costa County's Health Services Department has integrated the County's Mental Health, Alcohol, and Other Drug Services and Homeless Programs into a single Behavioral Health Division to continue addressing the mental health and substance abuse issues that are common barriers

to long-term housing success for homeless individuals and families.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care, and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

Foster Care: When foster youth age out of the foster care system, the County links them to the Independent Living Skills Program (ILSP). ILSP includes workshops that prepare youth for emancipation (money management, education, computer skills, home management, and social skills), employment assistance, non-McKinney-Vento housing, retention services, and an individualized transition plan out of foster care. In addition, foster youth can elect to remain in foster care or return to care after emancipation (but before turning 21) to receive a two-year housing subsidy, which can be used in a market rate unit, student housing, or congregate living. This is a State program that all foster youth and former foster youth can access.

Mental Health: Clients treated by the County Behavioral Health Division are regularly reviewed for readiness and prepared for discharge into environments that provide stepped-down levels of care. The Department holds a weekly Bed Committee where all institutionalized consumer discharge plans are prepared. Discharge planning responsibilities fall to the Clinic managers for those consumers currently receiving services and to the Mental Health Transition Team (consisting of managers, a psychiatrist, RNs, clinicians, and peer providers) for those patients not otherwise connected to the County system.

State hospitals discharge to Institutes for Mental Disease (IMD)/Skilled Nursing Facilities (SNF), not to HUD CoC-funded programs. Persons discharged from IMDs/SNFs are placed in Crisis Residential/Transitional Residential Services (CR/TRS). Those discharged from Acute Inpatient Facilities (AIFs) are released to appropriate settings, such as the Respite Center at the County's Adult Emergency Shelter. Those exiting CR/TRS are discharged to independent, shared, or supported (e.g., Board & Care) housing. State Mental Health Services Act (MHSA) funds also pay for 79 housing units for homeless discharged with severe mental illness.

Discussion

A major factor contributing to homelessness and special needs populations in the County is the lack of affordable housing for extremely low- and very low-income households and an inadequate supply of accessible housing. The County's strategies to maintain and increase the supply of affordable housing are equally relevant to strategies to alleviate the problems of these populations. As further recognition of the housing needs of homeless and at-risk populations, in FY 1998/99, the Contra Costa Board of Supervisors adopted a policy to encourage the inclusion of units that are affordable to extremely- low-income households in projects funded with CDBG and HOME funds. In addition, a minimum of five percent of all new housing built with County funds must be accessible to mobility-impaired households,

and an additional two percent must be accessible to the hearing/vision impaired. Wherever feasible, the County also requires including accessible units in housing rehabilitation projects.

Strategies to improve housing affordability through direct payment assistance are also effective in preventing and alleviating homelessness among lower-income and special-needs households. Therefore, the County will continue to pursue additional Section 8 vouchers, FEMA funds, Shelter Plus Care, and other resources to assist the currently homeless and at-risk population in obtaining and maintaining permanent housing.

In addition to strategies to increase the affordable housing supply using CDBG, and/or HOME resources, the County Health Services Department will apply for HEARTH Act funds to maintain and expand programs and projects to serve people experiencing homelessness, including families with children, youth leaving foster care, victims of domestic violence, and individuals with problems of substance abuse and mental illness. Potential projects include rental assistance for homeless individuals and families, continued operating support for permanent and transitional housing projects and multi-service centers, the potential development of additional permanent housing with support services for families, and a variety of support services (e.g., outreach, case management, education/job training, health services, counseling/parent education, substance abuse treatment, and money management).

INTRODUCTION

There are several significant barriers to affordable housing within Contra Costa County, including a lack of adequate funds to preserve existing affordable housing and expand the supply of affordable housing. The following is a representative example of actions taken by local jurisdictions to mitigate the effects of public policy that may serve as barriers to affordable housing:

- Zoning and land use restrictions that prevent or otherwise limit the development of dense housing types that are more likely to be affordable than detached single-family homes;
- Zoning and land use approval processes that prolong the time it takes for development to occur;
- Community opposition to the development of affordable housing;
- Local development standards for height limits, stories, lot coverage maximums, and parking requirements which reduce the number of units allowed on any given site;
- Contra Costa County has an urban limit line to concentrate development in urban areas and protect open space. This policy increases the cost of land, which increases the cost of development;
- High land costs;
- Inadequate inclusionary housing policies;
- Insufficient financial resources for affordable housing development; and
- Insufficient tenant protections.

Specific barriers in each jurisdiction are further explained in MA-40 of the FY 2025-2030 Consolidated Plan.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing, such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment.

The County will continue its efforts to remove or ameliorate public policies which negatively impact affordable housing development in the County, including the following:

- Consistent with the General Plan, the County will initiate zoning changes for residential and designated agricultural sites from current zoning designations to Planned Unit Development.
- Through the Density Bonus Ordinance (unincorporated) and State Density Bonus law, the County is required to grant one density bonus with incentives or concessions when an applicant for a housing development seeks and agrees to construct a housing development, excluding any

units permitted by the density bonus that will contain at least one of the following: ten percent of the total units for lower-income households; five percent of the total units for very low-income households; senior citizen housing development or a mobile home park that limits residency based on age requirements for housing older persons, provided that all units in the development are offered to the public for purchase; ten percent of the total units sold to persons or families of moderate income; ten percent of the total units of a housing development for transitional foster youth, disabled veterans, or homeless persons; twenty percent of the total units for lower income students in a student housing development meeting certain requirements; one hundred percent of all units in the development, including total units and density bonus units for lower-income households.

- The Inclusionary Housing Ordinance (unincorporated) requires all developers of five or more units to provide 15 percent of the units at affordable costs to low, very low-, or moderate-income households depending on the type of project. Developers may pay a fee in lieu of providing affordable units, depending on the size of the project. The Farmworker Housing Ordinance (unincorporated) establishes requirements and development standards for housing accommodations for five or more farm workers. This ordinance includes ministerial and discretionary permits for developing different types of farmworker housing in agriculturally zoned districts.
- Every year since 2017, the California State legislature has been adopting a multitude of various housing legislation that promotes the construction of new housing units, including affordable housing units, fair housing, transit-oriented development, density bonus, accessory dwelling units, residential lot subdivisions, and the streamlining of housing development entitlement permits, among other housing laws.

INTRODUCTION

This section discusses the Contra Costa County Department of Conservation and Development's effort to address underserved needs, develop the institutional structure for delivering housing and community development activities, and expand and preserve affordable housing opportunities within the Urban County and HOME Consortium areas.

Actions planned to address obstacles to meeting underserved needs

The following are obstacles to meeting the needs of the underserved:

- Accessibility of services
- Awareness of services
- Coordination of services
- Resource appropriate to the level of need

Accessibility of Services: Lack of accessibility to services can be the result of a lack of transportation for those in need, services that are not delivered in a culturally appropriate manner or the appropriate language, burdensome prerequisites to accessing services (red tape), and services that are not provided in proximity to those in need. Lack of transportation is a particular challenge for those who do not drive, do not have a car, are elderly, and/or for persons with disabilities. Most of the public service programs/projects listed in AP-38 are located within the neighborhoods or communities of the target population to provide easy accessibility to their services. Some of the public service projects serving older people or persons with disabilities offer transportation to their services or provide "in-home" services.

Awareness of Services: The lack of awareness of the availability of services by those in need and a lack of knowledge about how to access services are significant obstacles to providing services. All agencies receiving CDBG, HOME, or ESG funds from the County must provide significant outreach to those in need. County DCD staff will continue to monitor CDBG/HOME/ESG-funded agencies to verify if an agency's outreach is adequate and that outreach materials are available in various languages.

Coordination of Services: Those in need must often access services from several points; similar services may also be provided by more than one agency. Those served by one agency may have needs not being addressed by the particular agency currently serving that person or family. County DCD staff advocates for CDBG/HOME/ESG-funded agencies to collaborate and coordinate with other agencies in the community to serve their target population. DCD staff will continue encouraging agencies to collaborate and coordinate to avoid service duplication and provide more efficient services to their clients or target

populations.

Resources: Resources are generally less than required to meet the level of need. The available CDBG/HOME/ESG funds are prioritized to the high Priority Needs and Goals established in the 2025-2030 Consolidated Plan. Funding is also prioritized to those undertakings that represent the most efficient use of funds, are delivered by the most qualified persons, and serve the broadest geography.

Actions planned to foster and maintain affordable housing

The County uses 45 percent of its CDBG funding to support affordable housing preservation activities. For over 40 years, the Neighborhood Preservation Program has provided low-interest loans and grants to low-income homeowners for rehabilitation and accessibility/energy efficiency improvements. This program improves the recipients' living conditions and helps maintain viable neighborhoods. In addition to CDBG funds, HOME funds are available and utilized in coordination with the County's CDBG funds to support affordable housing development.

CDBG funds are also used to support the acquisition and rehabilitation of existing affordable apartments and convert market-rate housing to affordable housing.

HOME funds are used for new construction, acquisition and rehabilitation, and preservation of existing affordable housing. These funds leverage State, local, and private funds.

Actions planned to reduce lead-based paint hazards

The County will continue to protect young children from lead-based paint hazards in housing funded with CDBG, HOME, and ESG resources through the implementation of 24 CFR Part 35. This regulation aims to reduce or eliminate lead-based paint hazards in federally owned housing and housing receiving federal funds. All developers enter into legal agreements that include requirements for compliance with the lead-based paint regulation. The Neighborhood Preservation Program has developed a program-specific lead-hazard reduction implementation plan. All other projects will develop plans appropriate to the project type and level of funding received.

Actions planned to reduce the number of poverty-level families

The County and cities employ various strategies to help alleviate poverty, including efforts to stimulate economic growth and job opportunities and provide County residents with the skills and abilities required to take advantage of those opportunities. This also includes implementing Section 3 strategies to ensure employment and contracting opportunities for low and very low-income persons or businesses residing within the community where a HUD-funded project is located. The County and most of its cities actively work to attract and retain businesses. Many are involved in revitalization efforts for their downtown areas utilizing various strategies such as infrastructure and facade improvement programs and the preparation of revitalization plans to guide future development. The County provides

services and supports programs that promote personal responsibility, independence, and self-sufficiency through its various departments.

One of the County's Department of Conservation and Development (DCD) responsibilities is managing the CDBG, HOME, and ESG programs. Many CDBG and HOME-funded programs are geared toward helping lower-income persons find and maintain stable housing, receive training for jobs that provide a livable wage, and access support services needed to attain self-sufficiency. Board guidelines state 10 percent of the annual grant amount is set aside for economic development activities. Programs funded under the Economic Development category are intended to assist businesses with expanding economic opportunities for lower-income persons and to increase the viability of neighborhood commercial areas. As recorded in the list of projects of this Action Plan, job training and placement projects have been approved for funding. In addition to economic development activities, the County works with other jurisdictions and local non-profits to provide emergency and transitional housing and support services necessary to assist people experiencing homelessness in achieving economic independence.

The County's Employment and Human Services Department (EHSD) provides services to adults, children, families, and older people. Bureaus within EHSD that directly relate to the reduction of poverty include the Workforce Services, Children and Family Services, and the Workforce Development bureaus. Other programs administered by EHSD that indirectly support economic self-sufficiency and are intended to assist families and persons in leading productive lives include, but are not limited to 1) the Family Preservation Program, which emphasizes keeping families together in a safe, nurturing environment and providing them with skills that will last when they leave the program; and 2) Service Integration Teams that provide services to increase the economic self-sufficiency of families, improve family functioning, and expand community capacity to support children and families.

Actions planned to develop institutional structure.

During FY 2025/26, the County will continue to work with the cities and other public and private agencies and organizations to implement strategies designed to accomplish the affordable housing and community development objectives identified in FY 2025-2030 Consolidated Plan. Specific actions to be undertaken by the County include providing resources and technical assistance to public agencies and the non-profit and for-profit community in developing, financing, and implementing programs and projects consistent with the County's annual and five-year plans. In addition, the County will work with the cities and other agencies to establish an informal cooperative network to share resources and facilitate development in the Urban County and Consortium area.

Actions planned to enhance coordination between public and private housing and social service agencies

The County's efforts to coordinate activities and strategies for affordable housing development and providing emergency and transitional housing and supportive services include cooperative planning efforts and participation in several countywide housing and service provider organizations. Planning

efforts to be undertaken during the current program year include the following:

Contra Costa Consortium members continue to work on strategies and actions designed to overcome identified impediments and eliminate housing discrimination problems in Contra Costa.

The Continuum of Care and the Council on Homelessness work with Contra Costa jurisdictions, public and private agencies, the interfaith community, homeless advocacy groups, and other community organizations to implement the Continuum of Care Plan, which includes strategies and programs designed to alleviate homelessness, and the Ten-Year Plan to End Homelessness.

In addition to the above, the County participates in a number of countywide housing and service provider organizations, which are intended to share resources and coordinate strategies and programs for affordable housing and community development activities. These organizations include the Association of Homeless and Housing Service Providers, the Tri-Valley Affordable Housing Committee, the Contra Costa HIV/AIDS Consortium, the Children and Families Policy Forum, the Non-Profit Housing Association, and the Workforce Development Board.

PROGRAM SPECIFIC REQUIREMENTS

AP-90 PROGRAM SPECIFIC REQUIREMENTS - 91.420, 91.220(L)(1,2,4)

INTRODUCTION

Program Income: The County estimates receiving \$1,000,000 in CDBG program income and estimates receiving \$400,000 in HOME program income during FY 2025/26.

Other: The County has no float-funded activities, Section 108 loan guarantees, or surplus urban renewal settlement funds. The County does not have any Urgent Needs activities.

The benefit to low- and moderate-income persons: All the County's FY 2025/26 CDBG funds that do not go towards Program Administration are allocated to activities that benefit persons of low- and moderate-income. The County anticipates utilizing 20 percent of all CDBG Program funds towards CDBG Program Administration.

COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM (CDBG)
REFERENCE 24 CFR 91.220(L)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income available for use included in projects to be carried out.

1. The total amount of program income that will have been received before the start of the following program year and that has not yet been reprogrammed	0
2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan.	1,000,000
3. The amount of surplus funds from urban renewal settlements	0
4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan	0
5. The amount of income from float-funded activities	0
Total Program Income:	1,000,000

OTHER CDBG REQUIREMENTS

1. The amount of urgent need activities	0
2. The estimated percentage of CDBG funds that will be used for activities that benefit persons of low and moderate income. Overall Benefit - A consecutive period of one, two, or three years may be used to determine that a minimum overall benefit of 70% of CDBG funds is used to benefit persons of low and moderate-income. Specify the years covered that include this Annual Action Plan.	80.00%

HOME INVESTMENT PARTNERSHIP PROGRAM (HOME)
REFERENCE 24 CFR 91.220(L)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:

The Contra Costa HOME Consortium does not provide HOME funds in any form not identified in Section 92.205. HOME funds are typically provided as low-interest deferred residual receipt loans (multi-family housing), deferred shared appreciation loans (single-family housing), and small grants

(specific project-related program delivery).

2. A description of the guidelines that will be used for the resale or recapture of HOME funds when used for homebuyer activities, as required in 92.254, is as follows:

The HOME Consortium uses recapture provisions to ensure that all or a portion of the HOME funds are repaid to the Consortium when the home is sold, transferred, or otherwise not occupied by an eligible owner.

Recapture Provisions: The amount repaid to the HOME program is the original principal of the HOME loan plus a share of the appreciation. The appreciation is the difference between the original purchase price of the home and the current sales price. The current sales price will either be the fair market value or the restricted sales price if the home is subject to a resale restriction. The appreciation amount does not include any permanently fixed improvements but may be adjusted downward by the value of deferred maintenance, not including expected wear and tear. The HOME program share of the appreciation equals the share of the HOME loan of the original purchase price. For example, if the purchase price was \$400,000, the HOME loan was \$20,000 (five percent of the purchase price), and the future sales price was \$500,000. The amount repaid (not considering the adjustments for improvements or deferred maintenance) will be \$20,000 plus five percent of the \$100,000 appreciation (\$5,000) for a total repayment of \$25,000.

If the home has decreased in value because of market conditions, the HOME Consortium will share in the depreciation of the home. The amount of depreciation of the HOME loan is the percentage of the HOME loan to the original purchase price of the home. Using the same assumptions as in the preceding paragraph, if the future sales price of the home is \$350,000, the amount due would be \$20,000 minus five percent of the depreciation (\$2,500) for a total repayment of \$17,500.

If the depreciation of the home is so significant that the outstanding debt on the home exceeds the value of the home, the Consortium will negotiate with the other lenders to accept a lower repayment. This will enable all debt to be paid through the home sale proceeds.

The Home Consortium does not allow subsequent buyers to assume an existing loan but may make the repaid funds available to a subsequent buyer as a new loan.

Resale Restrictions: The HOME Consortium does not use resale restrictions. However, HOME loans may be provided to buyers with resale restrictions. The resale restrictions may be required by a developer such as Habitat for Humanity or may be required by another program such as Inclusionary Housing or Density Bonus. The HOME loan will meet the recapture provisions described above in those cases. The HOME loan will be repaid and may be available to the next home purchaser. The appreciation amount will be based on the maximum resale value determined by the resale restriction if that value is below the fair market value. For example, if the original purchase price was \$400,000, the market value is \$500,000, and the resale restricted price is \$450,000, the HOME

appreciation share would be \$450,000.

The resale restrictions will provide a fair return on investment by calculating the future price based on the change in area median income. This factor ensures that the future price will remain affordable to the original target purchaser (typically low-income). This price will be adjusted based on the value of capital improvements and deferred maintenance.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds, See 24 CFR 92.254(a)(4) are as follows:

HOME funds for homebuyer activities are provided to purchasers of newly constructed or rehabilitated homes. The HOME Consortium uses recapture provisions to ensure that all or a portion of the HOME funds are repaid to the HOME Consortium when the home is sold, transferred, or otherwise not occupied by an eligible owner.

Recapture Provisions: The amount repaid to the HOME program is the original principal of the HOME loan plus a share of the appreciation. The appreciation is the difference between the original purchase price of the home and the current sales price. The current sales price will either be the fair market value or the restricted sales price if the home is subject to a resale restriction. The appreciation amount does not include any permanently fixed improvements but may be adjusted downward by the value of deferred maintenance, not including expected wear and tear. The HOME program share of the appreciation equals the share of the HOME loan of the original purchase price. For example, if the purchase price was \$400,000, the HOME loan was \$20,000 (five percent of the purchase price), and the future sales price was \$500,000. The amount repaid (not considering the adjustments for improvements or deferred maintenance) will be \$20,000 plus five percent of the \$100,000 appreciation (\$5,000) for a total repayment of \$25,000.

If the home has decreased in value because of market conditions, the HOME Consortium will share in the depreciation of the home. The amount of depreciation of the HOME loan is the percentage of the HOME loan to the original purchase price of the home. Using the same assumptions as in the preceding paragraph, if the future sales price of the home is \$350,000, the amount due would be \$20,000 minus five percent of the depreciation (\$2,500) for a total repayment of \$17,500.

If the depreciation of the home is so significant that the outstanding debt on the home exceeds the value of the home, the Consortium will negotiate with the other lenders to accept a lower repayment. This will enable all debt to be paid through the home sale proceeds.

The HOME Consortium does not allow subsequent buyers to assume an existing loan but may make the repaid funds available to a subsequent buyer as a new loan.

Resale Restrictions: The HOME Consortium does not use resale restrictions. However, HOME loans may be provided to buyers with resale restrictions. The resale restrictions may be required by a

developer such as Habitat for Humanity or may be required by another program such as Inclusionary Housing or Density Bonus. The HOME loan will meet the recapture provisions described above in those cases. The HOME loan will be repaid and may be available to the next home purchaser. The appreciation amount will be based on the maximum resale value determined by the resale restriction if that value is below the fair market value. For example, if the original purchase price was \$400,000, the market value is \$500,000, and the resale restricted price is \$450,000, the HOME appreciation share would be \$450,000.

The resale restrictions will provide a fair return on investment by calculating the future price based on the change in area median income. This factor ensures that the future price will remain affordable to the original target purchaser (typically low-income). This price will be adjusted based on the value of capital improvements and deferred maintenance.

4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds, along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

The HOME Consortium is not currently using HOME funds to refinance existing debt.

EMERGENCY SOLUTIONS GRANT (ESG)

1. Include written standards for providing ESG assistance (may include as attachment)

Written standards for providing ESG assistance can be found attached as Appendix B.

2. If the Continuum of Care has established a centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.

The Contra Costa Coordinated Entry system is a collaboration of multiple communities, government, and faith-based agencies that collectively provide services that range from homelessness prevention to permanent housing placements. Consumers are linked to the support needed to obtain and sustain housing.

A. Eligibility

Our Coordinated Entry system is designed to serve anyone in Contra Costa County experiencing a housing crisis. This includes those who are:

- Unsheltered (e.g., living outside, in a car, on the streets, or in an encampment),
- Sheltered (e.g., in an emergency shelter or transitional housing), or
- At imminent risk of homelessness (e.g., being evicted, unable to pay rent, doubled up, or in an

unsafe living situation).

B. Access Consumers connect to services through one of three portals:

- CALL: The 2-1-1 information line, operated by the Contra Costa Crisis Center, provides a phone portal for individuals and families needing to connect to homeless services.
- CARE Centers: Coordinated Assessment and Resource (CARE) Centers provide a walk-in option for individuals and families who need to connect to homeless services. Services offered include help with basic needs, light case management, housing navigation services, and substance use disorder treatment and support.
- CORE Outreach: Coordinated Outreach Referral and Engagement (CORE) outreach teams engage homeless individuals living outside, help facilitate and/or deliver health and basic needs services and connect clients to CARE Centers and other homeless services.

C. Assess

Severity and type of needs are assessed through a variety of tools:

- Prevention/Diversion Pre-Screen: Identifies the need for financial assistance and/or case management services to prevent a person at risk of homelessness from becoming homeless or to divert a person experiencing homelessness from entering the crisis response system (including emergency shelter and transitional housing)
- Homeless Management Information System (HMIS) Intake: Collects basic information about a client, including information to determine eligibility and prioritization for emergency shelter
- Emergency Shelter Prioritization Tool: in combination with the HMIS Intake, prioritizes individuals and families for available emergency shelter beds
- VI-SPDAT: The Vulnerability Index – Service Prioritization Decision Assistance Tool, an evidence-based tool that prioritizes individuals, transition-age youth, and families for available permanent housing based on acuity and chronicity

D. Assign

Clients are matched with available resources based on need and vulnerability. The most vulnerable clients are prioritized for available housing navigation and location services. The full continuum of our homeless housing and services is available through the Contra Costa Coordinated Entry system, including:

- Prevention/Diversion: Financial assistance or case management to stay housed
- Basic Needs and Services: showers, food, laundry, benefits enrollment, referrals, etc.
- Emergency Shelter: Short-term, temporary place to stay
- Housing Navigation Services: Assistance with locating and obtaining housing
- Rapid Re-housing: Time-limited rental assistance with case management

- Permanent Supportive Housing: Long-term housing assistance with services
- 3. Identify the process for making sub-awards and describe how the ESG allocation is available to private nonprofit organizations (including community and faith-based organizations).**

The County allocates ESG funds through a competitive application process. The RFP is posted on the Conservation and Development Department's website, and notice is mailed or emailed to the Interested Persons contact list. This list includes local social service agencies, homeless service providers, other interested individuals, and other County departments. Applications are reviewed by staff for completeness and compliance with program requirements. Technical assistance is provided to applicants as needed by County staff. Funds are allocated based on the requirements of ESG regulations and the need for services within the County. ESG funding recommendations are presented to the CoC through the Contra Costa Council on Homelessness and then approved by the County's Board of Supervisors. ESG applicants are invited and encouraged to attend these meetings. Nonprofit organizations carry out three out of the six ESG-funded activities for FY 2025/26.

- 4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.**

The County meets the requirement for homeless participation in the provision of services by consulting and coordinating services with the CoC and Council on Homelessness. The CoC and the Council on Homelessness provide a forum for communication and coordination among agencies and, as a group, provide advice and input on the operations of homeless services. Consumer input is incorporated into the development of local services through the ongoing participation of consumers in local meetings, where they are given the opportunity to provide specific feedback on their needs and experiences with the existing system. In addition, each funded project must outline how homeless persons are involved in the operation of shelters and the provision of services. Furthermore, the County's Council on Homelessness has a Consumer/Consumer Advocate seat in which the person appointed to that seat typically is either a current or previous consumer of the County's homeless services. The Consumer/Consumer Advocate seat is currently filled.

- 5. Describe performance standards for evaluating ESG.**

A performance measurement outcome statement is included in all ESG contracts between the County and sub-recipients. Projects are monitored and evaluated on meeting the requirements detailed in the statement. Subrecipients must also submit periodic progress reports detailing project progress toward objectives, problems, and/or resolution to meeting goals, quantitative participation data by ethnicity, income, and household status. The projects are also subject to financial audit review by County staff. Additional requirements for performance goals and the evaluation of outcomes are determined in conjunction with the CoC and the Council on Homelessness.
