FY2024

Staffing Challenges

Total FTEs 65

Much of last year our vacancy rate was 25% or more.

Most vacancies were in our Accounts Payable, Payroll, and Internal Audit sections. Recruitment and On-Boarding takes a significant amount of time, months not weeks.

Staffing Improvements

Able to hire for some of our positions and our current vacancy rate is down to approximately 15%, but we continue to have challenges hiring and retaining staff.

Major Initiatives and Goals

1) Workday Financial Enhancements

2) New Property Tax System Selection

3) Kronos Timekeeping Update

Performance Highlights Despite significant staffing and construction challenges over the last year the Office was able to accomplish: a) Closing fiscal year 2022-23 in Workday with no outside consulting assistance. b) Completing the 2022-23 ACFR and pass audit with no findings. c) Issuing Over 12,000 employee W2s d) Issuing Over 4,000 1099s
