

**FINDINGS AND CONDITIONS OF APPROVAL – COUNTY FILE CDLP26-02004, JOHN MERRITT OF ATC SEQUOIA LLC ON BEHALF OF AMERICAN TOWER (APPLICANT) – KENNETH E & JEAN M KEELER TRE (OWNER)**

**FINDINGS**

A. Land Use Permit Findings

1. *The proposed project shall not be detrimental to the health, safety and general welfare of the county.*

Project Finding: The existing wireless telecommunication facility is located on developed private property belonging to the Kenneth E & Jean M Keeler Trust at 5480 Sellers Avenue, in the unincorporated Oakley area of Contra Costa County. All elements of the wireless telecommunication facility are secured within a lease area enclosed by a fence. The Federal Communications Commission (FCC) has adopted radio frequency protection standards which establish safety levels with respect to human exposure to radio frequency (RF) emissions as well as occupational exposure to electro-magnetic fields. Compliance with these standards is considered to be evidence that the project does not present health and safety risks. The *Non-Ionizing Radiation (NEIR) Study* by Tower Engineering Professionals (*Site Number 411554; Site Name: East Oakley CA; Location: Oakley, California; Tenant: Verizon Wireless; February 11, 2026*), indicates that with the proposed signage mitigations implemented, the site will be in compliance with the current FCC MPW limits as described in FCC Occupational Exposure Limit-65. Thus, the existing facility does not generate unsafe levels of RF emissions, as determined by the FCC, and will be adequately secured to prevent public access to the equipment area. The Conditions of Approval include project compliance with current FCC standards. These Conditions will ensure that RF emissions and EMF strength at ground levels falls within the FCC limit for public exposure.

2. *The proposed project shall not adversely affect the orderly development of property within the County.*

Project Finding: Staff is unaware of any evidence which suggests that the existing site adversely affects development within the County. The wireless telecommunications services provided at this site benefit a wide range of the County's population (e.g., daily commuters, local employees, residents, and 911 service providers), and therefore, the wireless telecommunication facility is a beneficial use at this location. As conditioned, the project is consistent with applicable policies and regulations of the County's Wireless Telecommunications Facilities Ordinance (County Code Chapter 88-24). Thus, the granting of a Land Use

Permit to allow the continuing operation of the existing wireless telecommunications facility with no modifications to the facility will not adversely affect the orderly development of property within the County.

3. *The proposed project shall not adversely affect the preservation of property values and the protection of the tax base within the County.*

Project Finding: The continuing operation of the wireless telecommunication facility with no proposed modifications does not change the physical characteristics of the site, and therefore, will not affect the range of potential uses on the site or on adjacent properties. The facility will continue to be unmanned and is not expected to impact development activity in the area or result in an adverse impact on the value of properties within the area. This determination is due to the site's previous establishment as a wireless telecommunication facility and the continued consistency of that established use. Given that the facility and surrounding land uses have remained consistent, there is no indication that the project will adversely affect the preservation of property values and the protection of the tax base within the County.

4. *The proposed project as conditioned shall not adversely affect the policy and goals as set by the General Plan.*

Project Finding: The project site is located within the AL Agricultural Lands General Plan land use designation. Generally, parcels within this designation are non-irrigated, rural lands that may support grazing and dryland farming. Agricultural, open space, and non-urban uses are considered consistent with this designation. Pursuant to the Wireless Telecommunications Facilities Ordinance (Ordinance No. 2016-11), a wireless telecommunications facility may also be located in the AL designation, since the facility provides telecommunications service that would be compatible and consistent with other land uses in the unincorporated Oakley area. Allowing the continuing operation of the existing wireless telecommunications facility will not detract from the purpose and intent of the AL General Plan designation.

The existing American Tower facility is located on Sellers Avenue which has been designated as a County-designated scenic route as shown on *Figure COS-12 Scenic Resources* in the Conservation, Open Space, and Working Land Element. The facility is located approximately 409 feet east of Sellers Avenue in the approximate center of the 9.95-acre subject property, where ground-level

equipment is screened by an existing vineyard, fence surrounding the facility's lease area, and landscaped trees. In accordance with the standards and regulations of the County's Wireless Telecommunications Ordinance for high-visibility facilities, conditions have been included that require the wireless facility including the antennas installed on the existing 73.4-foot monopole to be painted with a non-reflective finish in a color that blends with the surrounding landscape, and for landscaping to be planted and maintained for screening from public and nearby views at ground level to reduce potential visual impacts in the area as well as from Sellers Avenue. Therefore, as conditioned, the wireless facility will be consistent with applicable Scenic Resources policies in the County General Plan that are intended to protect scenic resources.

5. *The proposed project shall not create a nuisance and/or enforcement problem within the neighborhood or community.*

Project Finding: The project, as conditioned, will not create a nuisance and/or enforcement problem within the neighborhood or community. There has been no record of code compliance issues with the existing wireless telecommunications facility, and there is no evidence to suggest that the wireless facility creates a nuisance or enforcement problem within the area. The Conditions of Approval require that the site be maintained in an orderly manner, and that the facility be removed upon cessation of the use. Further, American Tower will be required to submit five-year condition of approval compliance reviews in order for County staff to evaluate the on-going compliance of the wireless facility.

6. *The proposed project as conditioned shall not encourage marginal development within the neighborhood.*

Project Finding: In general, wireless telecommunications facilities do not encourage development, which is subject to the applicable sections of the General Plan and the Zoning Code, as well as physical constraints on the parcel and adjacent properties. Where there is a sizeable population, major road, or need for telecommunications services, the public demands wireless telecommunications services. The establishment and continuing operation of the unmanned American Tower wireless facility is in response to maintaining wireless telecommunications service to the area. As conditioned, allowing the continuation of this service will not encourage marginal development within the area.

7. *That special conditions or unique characteristics of the subject property and its location or surroundings are established.*

Project Finding: The wireless facility was established on the project site in 2004, under Land Use Permit CDLP03-02108 and has been in operation since. The most recent renewal for the facility occurred under Land Use Permit CDLP14-02058, which expired on December 15, 2024. This facility provides telecommunication services to the surrounding vicinity along the unincorporated Oakley area. Continuing operation of the wireless facility does not include any new development or expansion beyond the existing lease area. Thus, as conditioned, the wireless facility will be consistent with the AL Agricultural Lands General Plan land use designation, the A-3 Heavy Agricultural District, the Wireless Telecommunications Facilities Ordinance, and applicable FCC regulations.

B. Wireless Telecommunications Facility Land Use Permit Findings (County Code Section 88-24.614(b))

1. *The application is complete.*

Project Finding: County staff deemed the application complete and acceptable on April 1, 2026.

2. *The facility or substantial change will meet the requirements of this chapter.*

Project Finding: This CDLP26-02004 Land Use Permit will allow the continuing operation of the existing American Tower wireless telecommunications facility installed and established under Land Use Permit CDLP03-02108 and most recently renewed under Land Use Permit CDLP14-02058, which expired on December 15, 2024. This American Tower wireless telecommunications facility is currently in use by Verizon Wireless. No modifications to the equipment or the lease area are proposed with this project. Continuing operation of the wireless facility is consistent with all applicable requirements of Chapter 88-24 of the County Ordinance Code, including the location requirements of County Code Section 88-24.406, design requirements of Section 88-24.408, safety and security requirements of Section 88-24.412 and building standards, maintenance, and operational requirements of Section 88-24.414. As conditioned, County staff will conduct at least one condition of approval compliance reviews throughout the term of this permit to ensure continued compliance with the permit.

3. *The facility or substantial change has been reviewed pursuant to all appropriate environmental laws and regulations, including the California Environmental Quality Act (CEQA).*

Project Finding: The wireless telecommunication facility was established on the project site in 2004 pursuant to the approved CDLP03-02108 Permit and was renewed pursuant to CDLP14-02058. A timely application for the renewal of the facility was not submitted to the County, and the Land Use Permit subsequently expired. No modifications to the equipment or the lease area are proposed with this project. Continuing operation of this wireless telecommunications facility with no modifications to the equipment is categorically exempt under CEQA Guidelines Section 15301(b), which allows for a Class 1 exemption for the continued operation of investor and publicly owned utilities, involving negligible or no expansion of the existing use.

4. *If an environmental impact report or mitigated negative declaration was prepared for the facility or substantial change, the facility or substantial change will incorporate all mitigation measures identified in either of those documents. Each mitigation measure will be included as a term of the permit.*

Project Finding: Continuing operation of the existing American Tower wireless telecommunications facility is categorically exempt under CEQA Guidelines Section 15301(b) and did not require preparation of either an environmental impact report or a mitigated negative declaration.

5. *If the Contra Costa County Airport Land Use Commission reviewed and commented on the application, the facility or substantial change will incorporate each mitigation measure recommended by the commission and deemed by the Zoning Administrator to be necessary to protect public safety, health, and welfare. Each mitigation measure will be included as a term of the permit.*

Project Finding: The subject property is not within or proximate to any zones identified by the Airport Land Use Commission as an area of planning interest. Thus, the CDLP26-02004 application is not subject to review by the Airport Land Use Commission, and this finding is not applicable to the project.

6. *The applicant has provided the financial assurance required by this chapter.*

Project Finding: The applicant provided a cost estimate for the removal of this facility in the event that the use is abandoned, or the use permit expires, or is revoked, or is otherwise terminated. However, the amount of the cost estimate exceeded the amount of the prior security for this facility. Therefore, a new facility removal bond was provided by the applicant for this purpose. If the permittee does not remove any obsolete or unused facilities as described above, the financial guarantee shall be used by the County to remove any obsolete or unused facilities and to return the site to its pre-development condition.

The previously provided financial assurance is irrevocable and not cancelable, except by the County. It will remain valid for the duration of the permit and for six months following termination, cancellation, or revocation permit. Any unused financial guarantee shall be returned to the applicant upon termination of the use and removal of the facility, or transfer of the lease accompanied by a financial guarantee by the new lessee or owner.

7. *The applicant has paid all required fees and costs, including but not limited to the application fee, any required environmental review fee, and any required peer review fee.*

Project Finding: The applicant has paid the initial deposit of \$5,500 for this Land Use Permit application. Pursuant to condition of approval #5, the applicant is responsible for the payment of any additional fees that exceed the initial deposit.

C. California Environmental Quality Act (CEQA) Findings

Continuing operation of the American Tower wireless telecommunications facility is categorically exempt from CEQA pursuant to CEQA Guidelines section 15301(b), Existing Structures, which provides a Class 1 exemption for the operation and alteration of an existing telecommunications facility. There is no substantial evidence that the continuing operation and minor alteration of the telecommunications facility involves unusual circumstances, resulting in, or which might reasonably result in, a significant impact on the environment. None of the exceptions in CEQA Guidelines Section 15300.2 apply to this wireless telecommunications facility.

## CONDITIONS OF APPROVAL FOR LAND USE PERMIT CDLP26-02004

### Project Approval

1. This application for a Land Use Permit to allow continuing operation of the American Tower wireless telecommunications facility currently in use by Verizon with no proposed modifications, is APPROVED.

The existing wireless telecommunications facility includes:

- One 73.4-foot-tall monopole with (12) antennas and ancillary equipment.
  - A Verizon equipment cabinet and associated ground-mounted equipment within the approximately 1,514-square-foot lease area.
2. The Land Use Permit approval described above is based on:
    - Land Use Permit application accepted by the Department of Conservation and Development, Community Development Division (CDD) on February 26, 2026.
    - *Non-Ionizing Radiation (NEIR) Study (Site Number 411554; Site Name: East Oakley CA; Location: Oakley, California; Tenant: Verizon Wireless; February 11, 2026)* by Tower Engineering Professionals, received on April 1, 2026
    - Revised plans and additional project documents, received on April 1, 2026.
  3. Pursuant to County Ordinance Code Sections 26-2.2020 through 2030, this Land Use Permit is subject to revocation after notice if confirmed violations occur of any of the Conditions of Approval herein.
  4. No construction is approved with this permit. Any construction at this wireless telecommunications facility shall require the filing of an application for a Wireless Minor Alteration Permit or a new Land Use Permit prior to application for a building permit.
  5. The following conditions supersede all prior Conditions of Approval for prior County approvals for the existing wireless telecommunications facility, including CDLP14-02058.

### Application Costs

6. The Land Use Permit application was subject to an initial deposit of \$5,500.00. Applications are subject to time and material costs if the application review expenses exceed the initial deposit. **Any additional fee due must be paid within 60 days of the**

**approval date of this permit.** The fees include costs through permit issuance and final file preparation. Pursuant to Contra Costa County Board of Supervisors Resolution Number 2019/553, where a fee payment is over 60 days past due, the Department of Conservation and Development may seek a court judgement against the applicant and will charge interest at a rate of ten percent (10%) from the date of judgement. The applicant may obtain current costs by contacting the project planner. A bill will be mailed to the applicant shortly after permit issuance in the event that additional fees are due.

#### Initial Compliance Report

- 7. Prior to CDD stamp-approval of plans for issuance of a building permit,** the applicant shall submit a report addressing compliance with the conditions of approval, for the review and approval by the CDD. The report shall list each condition followed by a description of what the applicant has provided as evidence of compliance with that condition. Unless otherwise indicated, the applicant will be required to demonstrate compliance with the conditions of this report prior to issuance of building permits. The report may be rejected if it is not comprehensive with respect to applicable requirements for the requested permit. The fee for this application is a deposit of \$1,500.00 that is subject to time and material costs. Should staff costs exceed the deposit, additional fees will be required.

#### Permit Duration and Permit Review

8. This Land Use Permit is granted for a period of ten (10) years and shall be administratively reviewed at five-year intervals. The applicant shall initiate the first review by submitting a statement as to the current status of the project to the CDD **no later than five years following the approval date of the project.** This review by the CDD will be for the purpose of ensuring continued compliance with the conditions of permit approval. **Non-compliance with the approved conditions and/or the ordinance code provisions after written notice thereof shall be cause for revocation proceedings.**

For the review of existing commercial wireless communications facilities, submittal shall include photo documentation of existing conditions and equipment for comparison with the applicable approved conditions. The documentation shall include, but shall not be limited to, color photographs to verify compliance with Condition of Approval #22, Paint Color.

The permittee is encouraged, at the time of each administrative review, to review the design of the telecommunications facility and make voluntary upgrades to the facility for the purpose of improving safety and lessening visual obtrusiveness.

A review fee in the amount set by the Land Development Fee Schedule will be filed through a Compliance Verification application to allow for review of the approved conditions.

#### Responsible Party

9. The permittee (wireless operator) is responsible for keeping the CDD informed of who is responsible for maintenance of compliance with this permit and how they may be contracted (mailing and email addresses as well as telephone number) at all times. **Within 30 days of the approval date of this permit or prior to CDD stamp approval of plans for a building permit, whichever is first**, the Permittee shall provide the name of the party (carrier) responsible for permit compliance and their contact information.

Should the responsible party subsequently change (e.g.: facility is acquired by a new carrier), within 30 days of the date of the change, the Permittee shall issue a letter to CDD with the name of the new party that has been assigned permit compliance responsibility and their contact information. Failure to satisfy this condition may result in the commencement of procedure to revoke the permit.

#### Removal of Facility/Site Restoration

10. All structures and equipment associated with a commercial wireless communications facility shall be removed within 60 days of the discontinuance of the use, and the site shall be restored by the permittee to its original predevelopment condition. In addition, the permittee shall provide the CDD with a notice of intent to vacate the site a minimum of 30 days prior to vacation.

#### Security to Provide for Removal of Equipment

11. **Prior to CDD stamp approval of plans for issuance of a building permit**, the applicant or permittee shall provide bond, cash, or other surety, to the satisfactory of the CDD, for the removal of the facility in the event that the use is abandoned, or the use permit expires, or is revoked, or is otherwise terminated. If the permittee does not remove any obsolete or unused facilities as described above, the financial guarantee

shall be used by the County to remove any obsolete or unused facilities and to return the site to its pre-development condition.

The financial assurance must be submitted before a permit will be issued. A financial assurance must be irrevocable and not cancelable, except by the County.

Each form of financial assurance must remain valid for the duration of the permit and for six months following termination, cancellation, or revocation permit.

Any unused financial guarantee shall be returned to the applicant upon termination of the use and removal of the facility, or transfer of the lease accompanied by a financial guarantee by the new lessee or owner. The amount of the security shall be based on a cost estimate provided by a contractor or other qualified professional to the satisfactory of the Zoning Administrator.

#### General Provisions

10. Any change from the approved project plans and any proposed modification of the existing wireless telecommunications facility shall require review and approval by the CDD and may require the filing of an application for a Wireless Minor Alteration Permit or a new Land Use Permit.
11. A minor alteration to this Land Use Permit (or collocation if CEQA environmental review of collocation for the Land Use Permit has been completed) may be issued if the proposed modification(s) are not considered a substantial modification as stated under federal law (Title 47, Section 1.60001).  
A minor alteration (or a collocation) has a term that is the shorter of the following:
  - a. 10 years: or,
  - b. The duration, including any renewal period, of the permit that authorizes the existing facility on which the new facility will be collocated or on which the minor alteration will occur.
12. The conditions contained herein shall be accepted by the applicant, their agents, lessees, survivors, or successors for continuing obligation.

13. At all times the facility shall comply with applicable rules, regulations and standards of the FCC and other agencies having jurisdiction, and any other applicable Federal, State, and County laws and regulations.
14. Facilities shall be operated in such a manner as not to contribute to ambient RF/EMF emissions in excess of then-current FCC adopted RF/EMF emission standards.

**Within 15 days of new antennas being installed**, the applicant shall take RF power density measurements with the operating antennas to verify the level reported in the RF report and to ensure that the FCC public exposure level is not exceeded in any public accessible area. This measurement shall be taken again if any equipment is replaced or added. Verification of all RF power density measurements under this condition shall be submitted to CDD for review.

**The recommendations within the approved RF Report shall be noted on the plans for a building permit and are required to be implemented on site prior to final building inspection.**

15. The equipment shall be maintained in good condition over the term of the permit. This shall include keeping the structures graffiti-free.
16. The tower, antennas, equipment cabinets, and fence enclosure shall not be used for advertising.
17. The equipment cabinets and fence enclosure shall be kept locked and external accessory equipment secured, except when personnel are present, in order to restrict access to the equipment.
18. No lights or beacons may be installed on any antenna or antenna support structure, unless lights or beacons are required by a state or federal agency having jurisdiction over the antenna or antenna support structure, such as the California Public Utilities Commission, Federal Communications Commission, or Federal Aviation Administration, or if lights or beacons are recommended by the County Airport Land Use Commission.
19. A facility, all fences and walls surrounding a facility, and all other fixtures and improvements on a facility site must be repainted as often as necessary to prevent fading, chipping, or weathering of paint.

### Frequency Interference

20. No facility shall be operated at a frequency that will interfere with an emergency communication system or 911 system, including any regional emergency communication system.

### Exterior Noise

21. In the event that a modification to this facility involving new noise-generating equipment is proposed, the permittee shall submit evidence for review and approval of the CDD that the wireless telecommunications facility meets acceptable exterior noise level standards as established in the Noise and Land Use Compatibility Guidelines contained in the Noise Element of the County General Plan. The evidence can either be theoretical calculations for identical equipment or noise monitoring data recorded on the site.

### Color Palette/Camouflaging

22. All equipment is required to have a non-reflective finish and paints with a reflectivity less than 55 percent are required, except as otherwise required by the terms of the FCC Antenna Structure Registration applicable to the facility. The monopole and all antennas and associated pole-mounted equipment shall be painted to match the sky or the surrounding landscape as appropriate. The fence and ground-mounted equipment shall be painted to match the monopole or the surrounding landscape. The paint shall be maintained for the life of the facility. Color photographs showing the as-built condition shall be submitted for review of CDD staff to verify compliance with this Condition of Approval **prior to final inspection.**

In the event that a minor alteration to this facility is proposed, color photographs showing the as-built condition shall be submitted for review of CDD staff to verify compliance with this Condition of Approval **prior to final inspection.**

### Landscaping

23. The landscaping and irrigation installed pursuant to the conditions of approval of Land Use Permit CDLP03-02108 shall be maintained over the life of the project and the survival of all plants shall be guaranteed. Color photographs showing the as-built condition shall be submitted for review of CDD staff to verify compliance with this Condition of Approval **prior to submittal of a building permit.**

24. If landscaping fails or if a modification to the facility requires the removal of existing landscaping, a landscaping and irrigation plan shall be submitted for review and approval of CDD Staff **at least 20 days prior to issuance of building permits**. The plan shall emphasize the use of five (5) trees, a minimum of 15 gallons size, for screening the facility's lease area on the south, west, and north, and shall comply with the County's Model Water Efficient Landscape Ordinance. Landscape planting shall be installed and color photographs showing the as-built condition shall be submitted for review of CDD staff to verify compliance with this Condition of Approval **prior to final building inspection**.

### **Cultural Resources**

The following condition shall be included on all sets of construction drawings:

25. If any significant cultural materials such as artifacts, human burials, or the like are encountered during construction operations, such operations shall cease within 100-feet of the find, the Community Development Department shall be notified within 24-hours and a qualified archaeologist contacted and retained for further recommendations. Significant cultural materials include, but are not limited to, aboriginal human remains, chipped stone, groundstone, shell and bone artifacts, concentrations of fire cracked rock, ash, charcoal, shell, bone, and historic features such as privies or building foundations.

### Construction Restrictions

All construction activity shall comply with the following restrictions, which shall be included in the construction drawings.

26. The applicant shall make a good faith effort to minimize project-related disruptions to adjacent properties, and to uses on the site. This shall be communicated to all project-related contractors.

27. The applicant shall require their contractors and subcontractors to fit all internal combustion engines with mufflers which are in good condition and shall locate stationary noise-generating equipment such as air compressors as far away from existing residences as possible.

28. The site shall be maintained in an orderly fashion. Following the cessation of construction activity, all construction debris shall be removed from the site.

29. A publicly visible sign shall be posted on the property with the telephone number and person to contact regarding construction-related complaints. This person shall respond and take corrective action within 24 hours. The CDD phone number shall also be visible to ensure compliance with applicable regulations.
30. Unless specifically approved otherwise via prior authorization from the Zoning Administrator, all construction activities shall be limited to the hours of 7:30 A.M. to 5:00 P.M. within 1,000 feet of noise-sensitive uses, Monday through Friday, and are prohibited on State and Federal holidays on the calendar dates that these holidays are observed by the State or Federal government as listed below:

New Year's Day (State and Federal)  
Birthday of Martin Luther King, Jr. (State and Federal)  
Washington's Birthday (Federal)  
Lincoln's Birthday (State)  
President's Day (State)  
Farmworkers Day (State)  
Memorial Day (State and Federal)  
Juneteenth National Independence Holiday (Federal)  
Independence Day (State and Federal)  
Labor Day (State and Federal)  
Columbus Day (Federal)  
Veterans Day (State and Federal)  
Thanksgiving Day (State and Federal)  
Day after Thanksgiving (State)  
Christmas Day (State and Federal)

For specific details on the actual date the State and Federal holidays occur, please visit the following websites:

Federal Holidays: [Federal Holidays \(opm.gov\)](https://www.opm.gov)

California Holidays: <https://www.sos.ca.gov/state-holidays>

31. Large trucks and heavy equipment are subject to the same restrictions that are imposed on construction activities, except that the hours are limited to 9:00 AM to 4:00 PM.

**ADVISORY NOTES**

**PLEASE NOTE ADVISORY NOTES ARE ATTACHED TO THE CONDITIONS OF APPROVAL, BUT ARE NOT A PART OF THE CONDITIONS OF APPROVAL. ADVISORY NOTES ARE PROVIDED FOR THE PURPOSE OF INFORMING THE APPLICANT OF ADDITIONAL ORDINANCE AND OTHER LEGAL REQUIREMENTS THAT MUST BE MET IN ORDER TO PROCEED WITH DEVELOPMENT.**

**A. NOTICE OF NINETY (90) DAY OPPORTUNITY TO PROTEST FEES, DEDICATIONS, RESERVATIONS, OR OTHER EXACTIONS PERTAINING TO THE APPROVAL OF THIS PERMIT.**

This notice is intended to advise the applicant that pursuant to Government Code Section 66000, et. seq, the applicant has the opportunity to protest fees, dedications, reservations, and/or exactions required as part of this project approval. The opportunity to protest is limited to a ninety-day (90) period after the project is approved.

The 90-day period in which you may protest the amount of any fee or imposition of any dedication, reservation, or other exaction required by this approved permit, begins on the date this permit was approved. To be valid, a protest must be in writing pursuant to Government Code Section 66020 and delivered to the CDD within 90 days of the approval date of this permit.

**B. Prior to applying for a building permit, the applicant may wish to contact the following agencies to determine if additional requirements and/or additional permits are required as part of the proposed project:**

- Department of Conservation and Development, Building Inspection Division
- Public Works Department
- Health Services Department, Environmental Health Division
- Contra Costa County Fire Protection District (CCCFPD)
- Federal Communications Commission Division
