      1. White Pony Express for food/snacks

2. Starbucks for coffee/refreshments
3. Probation just got their food exemption restricted significantly
4. NAMI has some capacity to provide food; but would want to add a central county (Concord) town hall dedicated to Spanish-speakers, and mental health has to be a part of the focus (as an area of focus for one of the World Café tables)
  - a. Would like to consider Saturdays after 3:00
    - i. Some have felt it a challenge for parents with athletes/sports
  - b. Garibay and Dr. Wright can contribute (interpretation support, Spanish-speaking therapists)
5. ORESJ can provide materials for printing, name tags, sticky parts
6. Extra supplies/incidentals: unexpected costs from the facilities, ask if they can absorb along with usage fees?
7. Interpretation costs (ask Probation and Public Defender offline)
  - a. 3 townhalls with Spanish interpretation; and now one held in Spanish (this would be a hybrid; clearly account for safety concerns for everyone, esp immigrant and undocumented community members)
    - i. Add disclaimers that information will not be shared or used by any CJ or County agency
    - ii. Don't ask for names, just emails.
    - iii. Statements from CJ agencies assuring safety and non-threatening presence

  - iii. Data capacity of each CJ agency
  - iv. Landscape analysis of available data from various sources, both County and non-County
  - v. Data walk – determine data categories to go deeper in; come up with questions to explore.
  - vi. Next steps: Data walk and determine categories; assess what’s available and then gaps and then capacity needs for a budget recommendation.
  - vii. Suggestions: to pay close attention to impact of disproportionate impact of disciplinary actions in County schools, particularly in East County; Office of Ed will have data available (DataQuest, another site too); Gigi Crowder can provide data she has access to; Dr Wright remarked the skewed nature of data entered by people with a racial bias or lens who determines whether behavior is acceptable or deserving of discipline; how do we identify the systemic impact of such racial bias? Speaks to the need for racial bias training, the expert facilitator/trainer, and who gets trained; how does this inform the recommendations that come from RJOB? Dr Wright can share reports on suspension rates of black males (Macheo Payne), and on her own work on child welfare outcomes for youth of color; Ellen raised the challenges in getting youth of color back into schools; LaShante mentioned RJOB worked with Impact Justice in 2019/2020 on a capstone project, started collecting data in West County, would like to collaborate with another school district to revive this work, she will re-share the presentation.
  - viii. Ellen reminded a previous RJTF report that offers some data from 2018 to use as a guidepost to compare and demonstrate progress. Will send her question with Jeff Landau to subcommittee.

## **6. SHARE General Updates and Announcements, if any**

Anthony has shared the challenges that Grace Arms has experienced since the federal funding freeze.
