Hello Syd Sotoodeh,

The Fire District has reviewed the Planning Application for the below noted address. Based upon the information provided, comments and requirements have been made as conditions of approval.

If during the course of the entitlement process the project changes, additional requirements may apply. Thank you for the opportunity to comment on the project. Please feel free to contact me directly with any questions or concerns.

J. LEAH CASTELLA Counsel for the District

KATIE YOUNG Secretary of the District

SUBJECT: 236 Angela Ave., Alamo

APN: 192-090-007, Central San Response

Dear Mrs. Sotoodeh,

According to Central Contra Costa Sanitary District (Central San) records, the project site is within Central San's service area and is currently receiving sewer service.

Development Information: (Based on the information provided)

- Existing Use: Single-Family Residential
- **Planned Project Description**: The applicant requests approval of a variance to allow an 18ft front yard setback (where 25 ft is the minimum) for a new garage. This includes a small lot design review due to the parcel being substandard in average width (approx. 104 ft. where 120 is required).

Site-Specific Development Conditions:

 Prior to receiving a building permit, the applicant should promptly submit hard-copy, full-size improvement plans to Central San Permit Counter located at 5019 Imhoff Place, Martinez. Staff will review and advise on any applicable fees due. For more information, the applicant should contact the Central San Permit Section at (925) 229-7371.

Sincerely,

Michelle Peon Del Valle Engineering Assistant

Syd Sotoodeh

Attn: S.Sotoodeh
Re: CDVR255-01036
Site: 236 Angela Avenue

Dear Syd:

RECEIVED on 09/22/2025 CDVR25-01036
By Contra Costa County
Department of Conservation and Development

This application is a request for approval of a variance to allow an 18 foot front yard setback (where 25 feet is required) for a new garage and a Small Lot Design Review due to the parcel being substandard in average width (approximately 104 feet where 120 feet is required). The application was reviewed at the AIA Planning Committee's September 18, 2025 meeting. The applicant and neighboring property owners were notified of the meeting and were present. Based upon the meeting discussions, the AIA recommends **APPROVAL** of the application as presented for the following reason:

• The variance is necessary to accommodate a remodel of this older home on a substandard lot. While expansion of the garage could be accommodated by moving the improvements rearward on the lot, it is not possible to do so owing to the presence of a large valley oak which would either have to be removed or substantially compromised. Saving such a large tree is not granting a special privilege and denial of a variance would deprive the owner of the reasonable use of the property otherwise afforded to similar properties in the neighborhood. The size and design of the improvements are not incompatible with the neighborhood which consists of mid century ranch homes.

As always, thank you for the opportunity to review and comment upon this application. Please feel free to contact me at (510) 759-9617 if you have questions.

Sincerely,

Steve Meyers

Department of Conservation & Development Attention: Syd Sotoodeh 30 Muir Road Martinez, CA 94553

Re: CDVR25-01036 236 Angela Avenue Alamo, CA

Dear Dulce,

RECEIVED on 12/04/2025 CDVR25-01036
By Contra Costa County
Department of Conservation and Development

The Alamo Municipal Advisory Council (MAC) heard application CDVR25-01036 at their Tuesday, December 2, 2025 meeting. The applicant requests approval of a Variance Permit to allow a reduced 18-foot front setback (where 25 feet is the minimum required) for an approximately 106-square-foot addition to an existing garage and approximately 200-square-foot addition and improvements to a previously constructed encroachment of living space into the existing garage. The applicant also requests approval of a small lot design review for the construction of the residential improvements including an approximately 1,255-square-foot addition on the eastern (rear) side of the residence on a substandard lot.

The applicant and adjacent property owners were notified of MAC meeting. The property owner was present at the meeting. The Alamo MAC recommends approval of the application subject to the condition that the existing two large oak trees be preserved to the extent possible; and that the proposed landscaping be consistent with the established character of the surrounding neighborhood. The Council bases its recommendation on the observation that many homes on the street have undergone similar remodels, with the house in question being one of the last unremodeled homes on Angela Avenue; that Angela Avenue is a private road maintained by the neighbors; and that the proposed project would result in the home being more compatible with the neighborhood. Unanimous approval.

Thank you for the opportunity to review this application. Please feel free to contact Alamo MAC Chair Michaela Straznicka with any questions.

Sincerely,

Míchaela Straznícka

Michaela Straznicka Alamo MAC Chair
